Position Available: Graduate Teaching Assistant

Course: Biochemistry 1430

Number of positions: Up to 1. Number of positions will be determined based upon enrolment, which is currently in progress.

Hours: 80

Duties: The successful applicant will carry out the following duties: attend meetings with supervisor, conduct tutorials, assist with exam invigilation, answer questions on course material and/or assignments, be available to students on a regular basis, add and/or maintain course material on D2L and/or answer queries and/or participate in discussions on course D2L site. The Graduate Teaching Assistant will report directly to the Course Instructor.

Duration: Lectures start the week of Sept. 6, 2017 and end Dec. 1, 2017. The exact end date will depend on the final examination schedule assigned. It would be expected that even with unplanned delays, duties would be finished no later than Dec. 20, 2017.

Qualifications required: Enrolment in a masters or doctoral program in the area of biochemistry. Preference will be given to those candidates who demonstrate a thorough knowledge of the content in this course and/or previous teaching experience.

Application deadline: 5:00 pm, August 11, 2017

Competition number: BC-1430-TA-01

Apply to: Head, Department of Biochemistry

Please submit a letter outlining your ability to meet the required qualifications. Please include the competition number. E-mail your letter to biochem@mun.ca
