

International Student Research Experience Program in Chemistry (ISREP-Chem)

Department of Chemistry Memorial University St. John's, NL, Canada

The Department of Chemistry of Memorial University invites applications for undergraduate student research experience placements from full-time undergraduate chemistry students enrolled at non-Canadian universities. Successful applicants will spend 2–3 months conducting research in one of the Department's research groups. Placements must be completed by March 31, 2013.

Applications should include a CV, a statement of purpose, a transcript (statement of grades) and a letter of recommendation. Applicants must also indicate when they are available and provide a ranked list of three preferred projects from the list of available research projects, which can be found at (www.mun.ca/chem). Applications should be submitted electronically to Dr. Chris Flinn (cgflinn@mun.ca) by May 31, 2012. Applicants will be notified of decisions shortly afterwards.

Successful applicants will receive travel support (economy class) up to \$2000 and support for living expenses of \$1250 per month.

St. John's is a picturesque city of about 200,000 people situated on the most easterly point of North America. Among its many attractive features are a welcoming atmosphere, a thriving arts and culture community, a vibrant nightlife and proximity to the great outdoors and the breathtaking scenery of the Newfoundland landscape.
