

Speaking of Engineering. . .

Have you ever wondered...

What's happening with the Lower Churchill development?

Gilbert Bennett

Gilbert Bennett
Newfoundland and Labrador Hydro

The Lower Churchill hydroelectric resource is a significant untapped long-term source of clean, renewable energy that has the potential to make a significant contribution to the reduction of greenhouse gas emissions from power generation in Canada – possibly producing enough energy to supply up to 1.4 million households annually and displace an estimated 16 mega tonnes of carbon dioxide emissions annually. In 2005 the Government of Newfoundland and Labrador in partnership with Newfoundland and Labrador Hydro issued a Request for Expressions of Interest and Proposals for the development of Lower Churchill – this was the first step in the development.

Join Gilbert Bennett, vice-president, Lower Churchill project and vice-president Engineering Services (acting) with Newfoundland and Labrador Hydro, for an update on his organization's move towards an expanded mandate to pursue new energy opportunities. Hear an overview of the Lower Churchill hydro-electric resource and an update on the proposed Lower Churchill development. He will also provide an update on what work is currently underway as well as what's happening in 2006.

Gilbert Bennett, an alumnus of the Faculty of Engineering and Applied Science, is a member of the Professional Engineers and Geoscientists of Newfoundland and Labrador with a degree in electrical engineering from Memorial University, and is a recipient of numerous academic awards for engineering excellence.

Speaking of Engineering is hosted by the Faculty of Engineering and Applied Science at Memorial University and the Professional Engineers and Geoscientists of Newfoundland and Labrador.

Thursday, April 6, 2006

7:30 p.m.

Memorial University, St. John's Campus

S.J. Carew Building

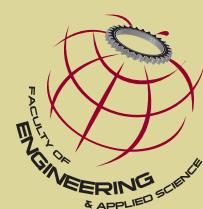

Room EN2006

Reception to follow

Admission is free. All are welcome

Parking available in Lot 16

sponsored by

Memorial
University of Newfoundland
