

Speaking of Engineering...

Have you ever wondered...

Dr. Angus Bruneau

About Canada's energy opportunities?

**Dr. Angus Bruneau
Fortis Inc.**

As a nation, Canada is blessed with energy resources which are extraordinary in their variety and scale. How skillfully we manage the evolution and future development of our energy economy will, in the long term, have a profound impact on the quality of the lives of all Canadians.

Dr. Angus A. Bruneau, OC, PhD, P.Eng, has had a career of more than 40 years in research, development, technology-based innovation and related policy matters. Join him as he discusses how the development of energy technologies is central to our own well being and how it can assure Canada of a future leadership role amongst nations.

Speaking of Engineering is hosted by the Faculty of Engineering and Applied Science at Memorial University and the Professional Engineers and Geoscientists of Newfoundland and Labrador.

**Thursday, Nov. 15, 2007, 7:30 p.m.
