Follow these steps to forget a wireless network

1. Click the network manager icon in the notification area. Then click on Edit Connections… in the menu.

2. In the Network Connections window, click on the wireless network you want to forget, and then click delete.

3. Click the delete button in the confirmation window, and the wireless network profile is now removed.

Troubleshooting

Please contact the ITS Service Desk at (709) 864-4595 or help@mun.ca
