MUNPA Annual General Meeting

Thursday, June 7th, 2018, at The Fluvarium, 5 Nagles Place

The registration deadline is Wednesday, May 30th.

The theme for the morning is **The Population Project: Projections and Responses**.

Our morning session will feature talks by Drs. Rob Greenwood, Alvin Simms and Keith Storey of the Harris Centre’s Population Project.

Newfoundland and Labrador has the most rapidly aging population in the country - combined with youth out-migration, declining birth rates and an increasing number of people moving from rural parts of the province to more urban centres, the province is facing an unprecedented population challenge. Our speakers will explore the implications of the demographic changes projected for the next 20 years with the use of maps and other illustrations.

Schedule:
