Dr. Ian Fleming’s Lab (Ocean Science Centre, MUN) is currently hiring a Research Assistant to help PhD candidate Shahinur Islam with Atlantic Salmon Behavioral Ecology Experiments this summer.

When: The ideal start date would be either the end of May or early June till end of August.

Qualification: Research interests in the areas of fish ecology and behavior.

Responsibilities: Assisting with fish rearing and experiments; help with experimental setup, fish feeding, measuring length-weight, behavioural observations, data entry, etc.

Salary: The assistantship pays $13.68/hr, 35 hours per week, for 13 weeks

Interested candidates should send a cover letter and CV to: Shahinur Islam (shahinur.islam@mun.ca).

Deadline for submission: 4 May 2017
