Physics 1021 Laboratory #5 Magnetic Field

Prelab Questions

These questions need to be completed before entering the lab. Please show all workings.

Prelab 1

What is the direction (relative to the plane of the coil) of the magnetic field at the center of a circular coil of wire?

Prelab 2

Considering the discussion on the previous pages, calculate the value of the local magnetic field given the following:

Number of turns, \( N = 6 \)

\( I = 0.15 \text{ A} \)

Diameter of coil = 32.6 cm

Deflection angle = 27°

Show your workings.
