• In addition to their course work, students are required to complete two supervised 350-hour internships which normally occur in Fall and Winter semesters. Students are expected to be available to engage in the internship for 28 hours each week during the semester in which the internship is scheduled.

• Each internship is to be conducted in a setting and supervised by a qualified field instructor approved by the Field Education Coordinators, in compliance with the CASWE Standards for Accreditation and the relevant provincial legislation governing the practice of social work. Field instructors must possess, as a minimum qualification, a B.S.W. and/or an M.S.W. from an accredited social work program plus a minimum of two years post-degree social work employment. Although consideration will be given to all factors affecting the location and type of internships, final approval of field internships rests with the Field Education Coordinators. Students who refuse an internship deemed suitable by the Field Education Coordinators may be delayed in their program or prevented from completing their program of study.

• Students are responsible for all costs associated with internships including travel, immunizations, police records/vulnerable sector checks, and accommodation.

• Students shall submit an application, including Student Brief Resume, to the Field Secretary in the preceding January for Fall semester field internships and the preceding April for Winter semester field internships.

Program Co-ordinator: Dr. Christopher Dunn, Department of Political Science

The Certificate in Public Policy is designed for those who are interested in the study of governance and policy responses to public issues. The program’s objective is to provide foundational knowledge that is essential for exploring topical issues in diverse policy fields and settings. It is structured around introductory and advanced core courses in Political Science that promote understanding of the theoretical parameters of public policy, such as the processes and mechanisms that are relied upon to define and solve policy problems. These core skills and competencies are used in the analysis and
study of public policy in a variety of interdisciplinary fields. The program is coordinated by the Department of Political Science.

8.5.1 Advising
Throughout their program of study, students for a Certificate in Public Policy are encouraged to contact the Program Co-ordinator for assistance with course planning, declaring their program of study, prerequisite and registration issues, and with questions about the eligibility of any courses not listed here. The Co-ordinator liaises with representatives of participating departments, and normally communicates a tentative schedule of upcoming course offerings to students so that they can plan accordingly.

8.5.2 Declaring the Certificate in Public Policy

67.4 Office of the Registrar

Mr. Riggs gave an overview of the proposed calendar changes to University Regulation 4 Admission/Readmission to the University (Undergraduate) English Language and Mathematics Placement Tests, which were received from the Office of the Registrar.

Dr. McKay noted that though he was in favour of the spirit of the changes, he had concerns about some of the language used. In some instances he found the language vague or difficult to understand, and as this section of the calendar relates to English proficiency and is most likely to be read by students whose first language is not English it is important that the message be clearly articulated.

The President stated that any substantive changes to wording would have to come back for consideration by Senate.

Mr. Riggs suggested that language concerns be forwarded in writing to the Senate Committee on Undergraduate Studies or the Secretary of Senate for reconsideration and further review.

It was moved by Mr. Riggs, seconded by Dr. Okshevsky, and carried to table this document.
