Complementary Studies Elective

3 credit hours from: ENGI 8671, 8692
4.5 Department of Biology

Page 465, 2011-2012 Calendar, under the heading 9.2 Biology, add the following new Biology course:

“4050 Advanced Topics in Microbiology” examines the beneficial and harmful properties of microbes including topics on industrial microbiology and the discovery of new antimicrobial agents. The scope within the course ranges from the genetic manipulation of microbes for useful purposes to the isolation of bacteria for applications in various fields. Current issues concerning microbiology and society will also be discussed including the practical applications of microbes and bacterial diseases affecting society. The course will have three hours of lecture and three hours of laboratory/seminar/discussion per week.
Prerequisites: Biology 3050”

Page 443, 2011-2012 Calendar, under the heading 8.2.5 Honours in Biology, amend the section to read as follows:

“8.2.5 Honours in Biology

An Honours degree in Biology may comprise a broadly based selection of courses according to the student’s interests, or it may be more narrowly focussed. An Honours student may focus on any area of Biology where an appropriate supervisor can be found. All Honours students should choose courses in consultation with their supervisors, but it is particularly important that students wishing to focus within the Honours degree should discuss course selection with an Honours supervisor within their area of interest.

Students seeking an honours degree in Biology are required to successfully complete a minimum of 69 credit hours in courses from the Biology Department offering. Those 69 credit hours must include Biology 1001 and 1002 or their equivalents; 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404; 42 credit hours from biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and B.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All honours students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020/1021 (or equivalent)
3. Mathematics 1000
Department of Biology (cont’d)

4. Chemistry 1010/1011 (or equivalent), 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

Note: To minimize timetabling problems, students on the St. John’s campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

8.2.5.1 Honours in Cell and Molecular Biology

Students seeking an honours degree in Cell and Molecular Biology are required to complete a minimum of 69 credit hours in courses from the Biology Department offering. Those 69 credit hours must include Biology 1001 and 1002 or their equivalents; 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404; Biology 3530 and 4241; 12 credit hours from the recommended biology courses for Cell and Molecular Biology (listed below); 24 credit hours in biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and B.

Recommended biology courses for Cell and Molecular Biology are 3050, 3401, 3402, 3500, 3620, 3950, 4010, 4040, 4200, 4245, 4250, 4251, 4255, 4404, 4550, 4605.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All honours students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

Note: To minimize timetabling problems, students on the St. John’s campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

8.2.5.2 Honours in Ecology and Conservation Biology

Students seeking an honours degree in Ecology and Conservation Biology are required to complete a minimum of 69 credit hours in courses from the Biology Department offering. Those 69 credit hours must include Biology 1001 and 1002 or their equivalents; 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404; Biology 4650 and 4651; 12 credit hours from the recommended biology courses for Ecology and Conservation Biology (listed below); 24 credit hours in biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and B.
Department of Biology (cont’d)

Recommend biology courses for Ecology and Conservation Biology are 3041, 3050, 3295, 3300, 3610, 3620, 3709, 3710, 3711, 3714, 3715, 4040, 4141, 4180, 4182, 4306, 4360, 4405, 4505, 4605, 4620, 4630, 4701, 4710, 4750, 4820.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All honours students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

Note: To minimize timetabling problems, students on the St. John’s campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

8.2.5.3 Honours in Marine Biology

Students seeking an honours degree in Marine Biology are required to successfully complete a minimum of 69 credit hours in courses from the Biology Department offering. Those 69 credit hours must include Biology 1001 and 1002 or their equivalents; 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404; Biology 3710 and 3711; 12 credit hours from the recommended biology courses for Marine Biology (listed below); 24 credit hours from biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and B.

Recommended biology courses for Marine Biology are 3050, 3620, 3640, 3709, 3712, 3714, 3715, 4014, 4122, 4141, 4182, 4601, 4605, 4620, 4630, 4710, 4750, 4810, 4912.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All honours students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

Note: To minimize timetabling problems, students on the St. John’s campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

4.6 Department of Earth Sciences

Page 475, 2011-2012 Calendar, under the heading 9.5.4 Fourth Year, add the following new Earth Sciences course as follows:

“4605 Environmental Geoscience Field School is a field-based course normally offered during a special session immediately before the fall semester followed by laboratory analytical work during the fall semester. The aim of this course is to investigate anthropogenic impacts on the environment using geochemical, hydrological, and microbial methods. Emphasis is placed on site investigation, sample collection and preparation techniques, instrumental analysis, and data analyses.

4.7 Departments of Biology and Computer Science

Page 465, 2011-2012 Calendar, under the heading 9.2 Biology, insert the following Biology course as follows:

“3951 Introduction to Bioinformatics (same as Computer Science 3550) deals with the development and application of computational methods to address biological problems. The course will focus on the fundamental concepts, ideas and related biological applications of existing bioinformatics tools. This course will provide hands-on experience in applying bioinformatics software tools and online databases to analyze experimental biological data, and it will also introduce scripting language tools typically used to automate some biological data analysis tasks.

4.8 Department of Classics

Page 106, 2011-2012 Calendar, under the heading 9.6.2.1 Major in Classics, amend section to read as follows:

“Candidates for a Major in Classics are advised to choose their program in consultation with the Department.

The Major program consists of a minimum of 39 credit hours in Classics courses in accordance with the following:

1. Either Classics 1120 and 1121 or Classics 1130 and 1131
2. At least 3 credit hours at the 4000 level
3. An additional 12 credit hours at the 3000 level or above
4. An additional 18 credit hours at any level. With the exception of first-year language courses, no more than six 1000 level credit hours may be counted towards the major.”

Page 106, 2011-2012 Calendar, under the heading 9.6.2.2 Minor in Classics, amend section to read as follows:

“The Minor program consists of a minimum of 24 credit hours in Classics courses in accordance with the following:

1. At least 3 credit hours at the 3000 level or above
2. With the exception of first-year language courses, no more than six 1000 level credit hours may be counted towards the minor.”

4.9 Department of English

Page 117, 2011-2012 Calendar, under the heading 9.11.1 General Degree, (i) delete clause 2.b. which reads “b. English 2390;”; (ii) reletter current clauses 2.c-g as “2.b-f”; (iii) amend the new clause 2.f. to read “f. “**4901 Book History and Print Culture II** - inactive course.”

4.10 Faculty of Engineering and Applied Science

Page 228, 2011-2012 Calendar, under the heading 3 Description of Program, amend the third paragraph to read as follows:

“The specialized major programs of ... in academic terms 3 through 8. Students in the Mechanical Engineering major, may also choose to pursue ... to the appropriate Program Regulations.”
Faculty of Engineering and Applied Science (cont’d)

Page 228, 2011-2012 Calendar, under the heading 3.1 Program of Study, amend clause 6 to read as follows:

“6. Upon entering Academic Term 6, students in the Mechanical Engineering major may choose to pursue the Offshore Oil and Gas Engineering option (OOGE).”

Page 229, 2011-2012 Calendar, under the heading 3.3.1 Civil Engineering, amend second paragraph to read as follows:

“The Civil Engineering major provides a broad introduction to the scientific principles and engineering techniques necessary for an understanding of the fundamental problems tackled by civil engineers.”

Page 229, 2011-2012 Calendar, under the heading 3.3.2 Computer Engineering, amend second paragraph to read as follows:

“Computer Engineering shares many fundamentals with Electrical Engineering, which are covered in a common curriculum up to and including Academic Term 3. In recognition of the considerable diversity of careers available to computer engineers, students are given latitude in the final three academic terms to choose from a wide range of electives in various specialty areas.”

Page 229, 2011-2012 Calendar, under the heading 3.3.3 Electrical Engineering, amend the second paragraph to read as follows:

“Electrical Engineering shares many fundamentals with Computer Engineering, which are covered in a common curriculum up to and including Academic Term 3. In recognition of the considerable diversity of careers available to electrical engineers, students are given latitude in the final three academic terms to choose from a wide range of electives in various specialty areas. Making use of their elective course choices, students in the Electrical Engineering major also have the opportunity to undertake a minor in Physics.”

Page 229, 2011-2012 Calendar, under the heading 3.3.5 Ocean and Naval Architectural Engineering, in the second paragraph, delete the last sentence “In Academic Term 6, students may select the Offshore Oil and Gas option (OOGE).”

Page 232, 2011-2012 Calendar, under the heading 5.1.1 Civil Engineering Major - General Option, amend the title and section to read as follows:

“5.1.1 Civil Engineering Major

- The full-time 141 credit hour Bachelor of Engineering (Co-operative), Civil Engineering Major, requires eight academic terms and four work terms.
- The 141 credit hours shall normally be taken in the academic terms and order as set out in Table 1 Civil Engineering Major.
- Work terms shall normally be taken in the order as set out in Table 1 Civil Engineering Major.”
Faculty of Engineering and Applied Science (cont’d)

Page 229, 2011-2012 Calendar, under the heading 3.3.5 Ocean and Naval Architectural Engineering, add the following new paragraph:

“A student’s selection of courses for the focus stream requires the prior approval of the discipline chair of Ocean and Naval Architectural Engineering. In order to graduate, the student must obtain an overall average of at least 60% in the 12 credit hours in focus stream courses required in the program.”

Page 242, 2011-2012 Calendar, under the heading 6.3 Promotion Status (Beyond Engineering One), amend the third sentence of the first paragraph to read as follows:

“The Promotion Average, which will appear on the transcript, is calculated to be the overall average of courses completed in the semester excluding complementary studies, focus stream electives and free elective courses.”

Page 240, 2011-2012 Calendar, under the heading 5.5.1 Ocean and Naval Architectural Engineering Major, amend Table 9 Ocean and Naval Architectural Engineering Major to read as follows:

*Focus Stream Electives*

The courses in the Focus Stream allow a student to pursue a specialization in an area of interest. The area can be in engineering, the sciences, the arts and humanities or business. Students will plan their own focus stream, with approval by the Committee on Undergraduate Studies upon the recommendation of the Discipline Chair of Ocean and Naval Architectural Engineering.

In reviewing the plan for the stream, the Faculty will be looking for clear educational goals by each student, with increasingly advanced courses in the topic area. The stream is not meant to be a series of random free electives, and especially not a series of introductory courses. The stream will enable
Faculty of Engineering and Applied Science (cont’d)

students to complete a significant part of a minor in almost any subject. Students are encouraged to take the required additional courses to complete such a minor. Interdisciplinary experience and education is increasingly valuable and this focus stream opportunity will provide our graduates with unique and special knowledge.”

Page 247, 2011-2012 Calendar, under the heading 9.5 Academic Term 5 Courses, add the following new Engineering course as follows:

“5022 Stochastic Processes in Ocean Engineering includes basic concepts in probability, random variables, multiple random variables, descriptive statistics. The random processes component reviews mathematics of functions; introduces system input-output relations of continuous-time systems; contrasts time vs frequency domain representations; introduces frequency response plots and the Fourier transform; includes selected applications for ocean engineering.
PR: MATH 3260, ENGI 4020
OR: tutorial one hour per week”

Page 248, 2011-2012 Calendar, under the heading 9.6 Academic Term 6 Courses, add the following new Engineering course as follows:

“6055 Marine Cybernetics examines propulsion and motion control of ships, submersibles and offshore structures. Building upon the student’s knowledge of mathematics, mechanics and hydrodynamics provides an introduction to control systems and mathematical modeling of marine systems. Course components include: basic control actions and response of control systems; simulation and design of control systems; dynamic positioning; power management; marine automation.
LH: at least four 2-hour sessions per semester
PR: ENGI 4011”

Page 249, 2011-2012 Calendar, under the heading 9.7 Academic Term 7 Courses, add the following new Engineering course as follows:

“7007 Marine Materials examines the properties and uses of steel and aluminum in marine applications. Topics include: overview of shipbuilding process; review of mechanics of materials, Hooke’s Law, material failure models; carbon steel properties, grades, classification, testing; welding of steel - fundamentals, processes, preparation, design, drawings, certification; joining of aluminum - riveting, welding.
LH: at least 4 three-hour sessions per semester

REGULAR AGENDA

6. REPORT OF THE SENATE COMMITTEE ON UNDERGRADUATE STUDIES

6.1 General Academic Regulation 5.6 Evaluation

It was moved by Mr. Riggs, seconded by Mr. Collins, to approve the calendar changes to General Academic Regulation 5.6 Evaluation.

Several Senators commented that the proposed changes are confusing and unnecessarily strict in respect to the deadline of one week to apply for an alternate evaluation. It was then moved by Dr. Wilson, seconded by Mr. Despres to amend the last sentence of clause 4 to read “Normally, this application must be made within one week of the original date of the examination or deadline to the course instructor.” When put the vote, the amendment passed. The amended motion was then put to a vote and was carried by a majority vote. Dr. Wilson suggested that the revised regulation be promulgated widely.

Page 69, 2011-2012 Calendar, under the heading 5.6.2 Informing Students of the Method of Evaluation, add the following as a fourth bullet under the clause 3:

“• whether deferred tests or mid-term examinations or extensions of deadlines for out-of-class work are permitted”

Page 69, 2011-2012 Calendar, under the heading 5.6.2 Informing Students of the Method of Evaluation, add the following new clause 4 and renumber current clauses 4 and 5 as 5 and 6:

“4. A student who is prevented from writing a test or mid-term examination or completing assigned work by the deadline, by illness or bereavement or other acceptable cause, duly authenticated in writing, may apply, in writing and with supporting documents, for an alternate evaluation. Normally, this application must be made within one week of the original date of the examination or deadline to the course instructor.”

6.2 Faculty of Business Administration

It was moved by Mr. Riggs, seconded by Dr. Foster, and carried that on page 66, 2011-2012 Calendar, under the heading 5.2.2 Year of Degree and Departmental Regulations - All Other Faculties and Schools, to amend the section to read as follows:

“1. A student registered in any program, other than programs in the Faculty of Arts, programs in the Faculty of Science or in the Bachelor of Business Administration program offered by the Faculty of Business Administration, will normally follow regulations in effect in the academic year in which the student first completes a course(s) in the faculty or school following formal admission to that program. However, the student may elect to follow subsequent regulations introduced during the student’s tenure in a program.

2. A student completing a Bachelor of Business Administration will normally follow the degree regulations in effect in the academic year in which the student first earns a total of 12 credit hours in Business courses at the 1000-level. However, the student may elect to follow subsequent regulations introduced during the student’s tenure in a program.

3. A student in the Bachelor of Commerce (co-operative) program, the International Bachelor of Business Administration program, or in the Faculty of Education, Faculty of Engineering and Applied Science, School of Nursing, Faculty of Medicine, School of Pharmacy, or School of Social Work, who fails to obtain promotion or is not registered for full-time studies for more than one semester and is readmitted to full-time studies in the faculty or school will normally follow regulations in effect at the time of readmission.

4. A student in the School of Music who is required to withdraw from the Bachelor of Music degree program for academic reasons, or who has withdrawn from the principal applied study course will normally follow regulations in effect at the time the student is readmitted to the School. However, the student may elect to follow subsequent regulations introduced during the student’s tenure in a program.”

7. Report of the Committee on Academic Appeals

ECS 2010-11: #12 - Appeal against the Senate Committee on Undergraduate Studies and the Committee on Undergraduate Studies, Faculty of Business Administration, to deny the student permission to extend the deadline for completion of their deferred examination in Business 6130, a course for which the student was registered in the Fall Semester 2010.

Dr. Kachanoski noted that several members of Senate have had previous involvement in this student appeal by virtue of membership on the Executive Committee of Senate, on the Senate Committee on Undergraduate Studies, or as members of academic units. In this regard, he observed that one of the principles of natural justice and fairness is that there should be no individual sitting in judgement on an appeal at a higher level who has already been a party to the decision at a lower level. In the interests of fairness and natural justice he suggested that those Senators who have had previous dealings with this case be available to provide information pertinent to the case and to answer questions raised by Senators but should not be making motions or voting on motions regarding this appeal.

At the invitation of the Chair, Dr. Dale Foster, Chair of the Senate Committee on Academic Appeals, presented the report of the Committee to Senate regarding this student’s appeal and advised that the Committee’s recommendation is as follows:

Recommendation

Based on the documentation provided and the reasons outlined, the Appeals Panel of the Senate Committee on Academic Appeals unanimously recommends to Senate that the decision at earlier levels be upheld and that the appeal by the student against the decision to deny permission to extend the deadline for completion of a deferred examination be denied. The committee considered alternative solutions but agreed that this was most
appropriate. The committee notes that the student can appeal for a retroactive withdrawal from the course.

A lengthy discussion then ensued regarding whether it is feasible to expect the health care system to respond to students with detailed notes in a one week period and whether or not University Regulation 5.14.4 Information Required in Certificates from Health Professionals, contravenes privacy law and the Charter of Rights.

Following discussion, it was moved by Dr. Foster, seconded by Dr. McFetridge-Durdle, and carried to deny this student’s appeal based on the report and recommendation from the Senate Committee on Academic Appeals. It was then moved by Mr. Despres, seconded by Dr. Anderson, and carried that the student be made aware of another possible remedy which may be available and that is to request a retroactive drop in the course Business 6130. Senators who had previous involvement in this appeal abstained from voting.

8. Ad hoc Committee on Reducing the Paper Dependency of Senate - Final Report to Senate

Dr. Zerbe presented the final report to Senate of the ad hoc Committee on Reducing the Paper Dependency of Senate as outlined below.

"The mandate of the Ad hoc Committee on Lessening Paper-Dependency of Senate is to investigate and recommend ways that Senate and Senate committees can become less paper-dependent, while ensuring that all members of Senate and its committees, as appropriate, have access to all meeting materials. Included in this mandate is to provide a mechanism for electronic submission of suggestions by the University community.

As part of its information gathering activities, the Committee identified the following:

- The committee determined that from February 2010 to January 2011 Senate met 8 times attended by an average of 54 senators. Over the course of these meetings Senate distributed a total of 140,104 individual sheets of paper, or more than 280 reams of paper.

- A survey of Senators was conducted; 47 of the 76 members of Senate responded representing 11 administrators, 10 students, 24 faculty, and 2 others. Results included the following:
  - 43 out of 47 (91%) respondents currently own a laptop or portable device, the 4 who do not were faculty representatives
  - 38 of 43 (88%) laptop owners indicated that they would be willing to bring their device to meetings, 4 were faculty representatives and 1 was a student representative. One commented that the laptop was a personal laptop, another that viewing long .pdf files on a laptop was difficult.
  - 39 of 42 (93%) respondents indicated that they would opt out of the paper Consent Agenda if an electronic version were available, the 3 who would not were faculty representatives
34 of 41 (83%) respondents indicated that they would opt out of the Regular Agenda if an electronic version were available, the 7 who would not were 5 faculty, 1 student, 1 administrative representative.

14 of 41 (34%) respondents indicated that there were elements of the work of Senate that they would only like to see on paper. The two elements mentioned most often were confidential documents and appeals.

Respondents indicated an overwhelming preference for PDF as a document format, 78% preferred it, 17% liked it, 0% found it not acceptable.

A number of open ended comments were provided with respect to information needs, the advantages and disadvantages of electronic formats, and suggestions for the committee. These will be considered and will form part of the final report and recommendations of the ad hoc Committee.

- A survey of other Canadian universities has identified alternative technologies for reducing paper use.
- A number of suggestions have been identified for reducing unnecessary supporting documentation to Senate.
- An email address paperless.senate@mun.ca was established to gather further suggestions.

Based on the input it received and the broad support for reducing paper use the committee immediately recommended to the Senate Committee for Undergraduate Studies that it enforce its own requirements for submissions to Senate so that they conform more closely to existing and currently approved information requirements and thus limit the inclusion of optional supporting documentation which is otherwise passed on to members of Senate. This action can be taken immediately, does not require approval, and will have a substantial positive impact.

Second, the Ad hoc Committee makes the following recommendations to Senate:

**Recommendation One:** That the University commit the resources necessary to procure a full meeting management solution to be used to manage meetings at Memorial and reduce paper dependency.

While the Ad hoc Committee recognizes that this is beyond its mandate, it was agreed that this was an opportunity (that should not be lost) to look beyond the scope of document distribution and seek a full meeting management solution that could be used to assist all meetings at Memorial rather than just Senate and its committees. Seeking such a solution will require that the University assign responsibility and dedicate resources to write and issue an RFP and assess proposals received. The target for issuing an RFP would be early summer, 2012 (see Recommendation Three). Members of the Ad hoc Committee are willing to serve as the Steering Committee for such an effort.
Ad hoc Committee on Reducing the Paper Dependency of Senate - Final Report to Senate (cont’d)

**Recommendation Two:** That Senate adopt D2L as soon as possible as an interim solution to reduce the paper-dependency of Senate and committees.

D2L is used successfully by the Faculty of Science Council and was used successfully in the development of the Teaching/Learning Framework (a Working Group and 11 committees). D2L uses the MUN login to authenticate users and allows granular permissions. Documents can be in PDF or HTML format (searching is possible with HTML documents only). D2L does not allow the annotation of documents. DELTS has the capacity to provide training to the small group in the Office of the Registrar responsible for creating the Senate agenda and submitting agenda items to Senate regularly. DELTS also provides after hours assistance that can be used by senators should they encounter problems. No new University resources would be required;

The adoption of any non-paper solution will require the capability in E5004/5005 to display documents, and will require excellent wireless capability and sufficient power outlets.

**Recommendation Three:** That a meeting of Senate in the Winter semester 2012 be used to present possible solutions for meeting management to inform senators of the features generally available.

At this point, senators would also have sufficient exposure to D2L to provide input to the Recommendation One Steering Committee regarding likes/dislikes/unmet needs. An RFP could be ready in early summer, 2012."

It was moved by Dr. Zerbe, seconded by Mr. Riggs, and carried that Recommendation One be adopted and forwarded to the President for appropriate consideration.

It was moved by Dr. Zerbe, seconded by Mr. Riggs, and carried that Recommendation Two be adopted.

It was moved by Dr. Zerbe, seconded by Mr. Despres, and carried that Recommendation Three be approved.

9. **Memorial University Research Strategy**

Dr. Ray Gosine, Associate Vice-President (Research), presented the Research Strategy Planning Process on behalf of Dr. Christopher Loomis, Vice-President (Research).

Dr. Gosine noted that Dr. Christopher W. Loomis, President and Vice-Chancellor pro tempore, launched the development of a Research Strategy for the university as a direct response to the Strategic Plan for Memorial, released in 2007. Memorial’s Strategic Plan included “Research, Creative Activity and Scholarship” as one of five key pillars to advance the university’s mission. The process to develop the Research Strategy was iterative and included extensive internal and external consultation and analysis of data and trends.

Dr. Gosine also noted that the Senate Committee on Research (SCOR) played an integral role in the development of the Research Strategy by
Memorial University Research Strategy (cont’d)

providing input to the planning process and the Research Strategy formulation at regular intervals. SCOR also reviewed and approved the draft Research Strategy before it was forwarded to Senate for its consideration.

Dr. Gosine observed that once the Research Strategy receives the approval of Senate, the Vice-President (Research) will work with Marketing and Communications to translate the Research Strategy into print and electronic forms consistent with Memorial’s brand and image for public distribution of the Strategy. The Research Strategy will also be presented to the Board of Regents.

Dr. Kachanoski remarked that the Research Strategy, along with the Teaching and Learning Framework and an Engagement Framework, will serve as the basis for a new Memorial Strategic Plan which will include action plans to be developed by each academic and administrative unit in order to realize strategic goals and objectives.

It was moved by Dr. J.J. Connor, seconded by Dr. Rourke, and carried unanimously to endorse this document with minor amendments as suggested by Senators.

10. Committee on Elections and Committees

10.1 GSU Representation on Senate Committees 2011-12

The following nominations were received from the Committee on Elections and Committees recommending approval. It was moved by Mr. Collins, seconded by Dr. Wilson and carried that the following nominations be approved:

Advisory Committee on the University Timetable
Sarah Knee

Committee on the University Calendar
Sebastien Despres

Committee on Research
Jay Shah

University Planning and Budget Committee
Saravana Kumar

Committee on Honourary Degrees and Ceremonial
Amy-Lee Kouwenberg

Committee on Course Evaluations
Marc MacKinnon

Committee on Educational Technology
Amy-Lee Kouwenberg

Advisory Committee on the Bookstore
Jason Robinson
GSU Representation on Senate Committees 2011-12 (cont’d)

Advisory Committee on the Library
Jason Robinson

Committee on Copyright
Sebastien Despres

Committee on Academic Appeals
Leigh Spanner

10.2 Report of the Committee on Elections and Committees

A memorandum dated July 29, 2011, was received from the Committee on Elections and Committees advising that the following individuals have been elected/re-elected to the Senate for a term of office commencing September 1, 2011 and expiring August 31, 2014:

**HUMANITIES**
- Ms. Donna Walsh

**MARINE INSTITUTE**
- Captain James Parsons
- Mr. Paul Brett

**MEDICINE**
- Dr. Shree Mulay
- Dr. Gerard Farrell
- 3 Vacant Seats

**MUSIC**
- Dr. Paul Bendzsa

**NURSING**
- 1 Vacant Seat

**SCIENCE**
- Dr. Adrian Fiech
- 2 Vacant Seats

**GRENFELL CAMPUS**
- Dr. Paul Wilson
- 1 Vacant Seat

**SOCIAL SCIENCES**
- Dr. Christopher Sharpe
- 1 Vacant Seat

In the eight constituencies where vacancies existed, an extension of the deadline for nominations resulted in ten nominations being received. There were no nominations received in the first call. By-elections were held in the constituencies of Humanities and Science. The end result is that while nine seats have been filled, eight vacancies remain as noted above. The Committee on Elections and Committees recommends that these vacancies stand until there is a call for a by-election from eligible voters or until the next cycle of Senate elections whichever occurs earlier.

Dr. Wilson asked if there could be another attempt made to fill those vacancies noted above. Mr. Collins agreed to forward this request to the Committee on Elections and Committees for consideration.
11. Items for Information

11.1 The Executive Committee of Senate modified the penalty of suspension from the University to suspension from the Faculty of Business Administration in the following cases:

ECS 2010-11: #16 - Appeal against the decision of the Senate Committee on Undergraduate Studies, with respect to a finding of academic misconduct that the student is guilty of failure to follow relevant University/Faculty/School guidelines on ethics.

ECS 2010-11: #18 - Appeal against the decision of the Senate Committee on Undergraduate Studies, with respect to a finding of academic misconduct that the student is guilty of failure to follow relevant University/Faculty/School guidelines on ethics.

The Executive Committee is also requiring that upon re-entry to the Faculty that the two students undertake remedial work in ethics satisfactory to the Faculty of Business Administration.

11.2 The Executive Committee of Senate denied the following appeals:

ECS 2010-11: #14 - Appeal against the decision of the Senate Committee on Undergraduate Studies, with respect to a finding of academic misconduct with regard to the final examination in Business 1101, a course for which the student was registered during the Winter Semester 2011.

ECS 2010-11: #15 - Appeal against the decision of the Senate Committee on Undergraduate Studies, with respect to two separate findings of academic misconduct with regard to 1) cheating, by virtue of the student’s consultation with an unauthorized person and the student’s disruptive behaviour, on the final examination in Human Kinetics 1001, a course for which the student was registered during the Winter Semester 2011 and 2) plagiarism in work submitted for Business 3700, another course for which the student was registered during the Winter Semester 2011.

ECS 2010-11: #17 - Appeal against the University Committee on Admissions to deny acceptance of the student’s application for admission to the university.

ECS 2010-11: #19 - Appeal against the University Committee on Admissions to deny acceptance of the student’s application for admission to the university.

12. REMARKS FROM THE CHAIR - QUESTIONS/COMMENTS FROM SENATORS

Dr. Kachanoski reported on his activities over the summer noting in particular activities relating to Spring Convocations, community engagement, the filling of senior academic and administrative positions, the restructuring of Board Committees and the implementation of the Provost structure at Memorial.

In response to a question from Dr. Wilson regarding the status of the Joint Government/University Committee on University Autonomy, Dr. Kachanoski noted that in early summer there was a vacancy in government membership
Remarks from the Chair - Questions/Comments from Senators

on the Committee. He understands that the vacancy has since been filled and the Committee is looking for a suitable time to meet.

Dr. Kachanoski then welcomed the new Vice-chair of Senate, Dr. David Wardlaw, who made a few remarks concerning his first six weeks in office as Provost and Vice-President (Academic). Senators welcomed Dr. Wardlaw to his new post.

13. ADJOURNMENT

The meeting adjourned at 6:10 p.m.
