2. Normally, courses must be chosen from at least three different disciplines from the Elective Courses list below, including:
   a. a maximum of 6 six credit hours at the 1000 level;
   b. a maximum of 9 nine additional credit hours at the 2000 level;
   c. a minimum of 9 nine additional credit hours at the 3000 level or above; and
   d. a minimum of 3 three additional credit hours at the 4000 level

Substitutions must be approved by the Program Coordinator prior to enrollment.

3. Students awarded credit in the Police Studies subject area as outlined under Recognition of Qualifications for Police Officers above may use these credits to meet up to 18 of the 27 required credit hours in elective courses. In this case, students will complete nine additional credit hours chosen from the Elective Courses list below including:
   a. a minimum of six credit hours at the 3000 level, and
   b. a minimum of three credit hours at the 4000 level.

6. **REPORT OF THE SENATE COMMITTEE ON UNDERGRADUATE STUDIES**

6.1 **General Academic Regulation 5.14.4 INFORMATION REQUIRED IN CERTIFICATES FROM HEALTH PROFESSIONALS**

A memorandum dated 20 May 2012 was received from Ms. Sheila M. Singleton, Secretary, Senate Committee on Undergraduate Studies, regarding General Academic Regulation 5.14.4 INFORMATION REQUIRED IN CERTIFICATES FROM HEALTH PROFESSIONALS.

Ms. Singleton noted that at a meeting held on 9 February 2012, the Senate Committee on Undergraduate Studies considered a memorandum from Dr. L. Bauer, Associate Dean (Academic Programs), Faculty of Business
General Academic Regulation 5.14.4 INFORMATION REQUIRED IN CERTIFICATES FROM HEALTH PROFESSIONALS (cont’d)

Administration, advising of the Faculty’s concern with the form provided by Student Health Service to support requests from students. In his memorandum, Dr. Bauer noted that this form does not conform to General Academic Regulation 5.14.4 Information Required in Certificates from Health Professionals and, in particular, does not provide sufficient specific information to allow proper consideration of student cases. Included in the documentation submitted by Dr. Bauer was a copy of a student medical certificate used by another university. Dr. Bauer suggested that the Senate Committee on Undergraduate Studies consider revising the above-noted university regulation to mandate the use of a form similar to that used by the other university.

During its consideration of this matter, Committee members shared the concerns expressed by the Faculty of Business Administration and agreed that the form currently used by Student Health Service does not conform to General Academic Regulation 5.14.4 Information Required in Certificates from Health Professionals. The Committee reviewed the medical certificate submitted by Dr. Bauer and suggested revisions should it be adopted as a standard form to be used by health professionals.

Following consideration of this matter, the Committee agreed to follow up on the concerns expressed by the Committee. In this regard, Mr. B. Riggs (Chair), Dr. R. Shea (Student Affairs and Services), and Ms. S. M. Singleton (Secretary) met with Student Health Service.

At a meeting held on 24 May 2012, it was the decision of the Senate Committee on Undergraduate Studies to recommend the implementation of the “Student Medical Certificate” form as a standard form to be used by health professionals. However, no change to General Academic Regulations is proposed to mandate use of the form. Instead, the Committee agreed that use of this form should be promoted through a variety of media, i.e. orientation, course outlines, the Office of the Registrar’s website, etc. If use of the form is endorsed by Senate, the Office of the Registrar should lead this promotional campaign.

It was moved by Mr. Riggs, seconded by Mr. Collins, to adopt the form with a friendly amendment of deleting in Clause I of the form the words “and, if required to supply additional information, relating to my request for special academic consideration”. Mr. Riggs agreed that in the spirit of collegiality the Senate Committee on Undergraduate Studies will conduct further consultations with members of the medical community regarding the implementation of the form.

It was moved by Dr. Trnka, seconded by Dr. Schipper, that a clause be added to the form to clearly state that the university does not require a diagnosis of an illness. When put to a vote, the amendment to the motion was defeated.

The original motion was then voted on and passed.

6.2 Courses Common to the St. John’s and Grenfell Campuses

A memorandum dated 30 July 2012 was received by Sheila M. Singleton, Secretary, Senate Committee on Undergraduate Studies, regarding Approval
Courses Common to the St. John’s and Grenfell Campuses (cont’d)

of Calendar Changes - Courses Common to the St. John’s and Grenfell Campuses.

Ms. Singleton reported that at a meeting held on 21 June 2012, the Senate Committee on Undergraduate Studies engaged in a discussion regarding proposed calendar changes to existing courses that are common to both the St. John’s and Grenfell Campuses as well as proposals to introduce new courses that would be common to both campuses. When calendar changes of this nature are submitted for the approval of the Senate Committee on Undergraduate Studies, only evidence of consultation between the two campuses is required. At the same time, it has been a longstanding practice that proposed calendar changes that are applicable to more than one faculty must be approved by both academic councils. A case in point is that of the Departments of Computer Science, Economics, Geography, Mathematics and Statistics and Psychology; calendar changes from these departments must be approved by both Faculty Councils of Arts and Science before being considered by the Senate Committee on Undergraduate Studies.

Recognizing that ownership of shared courses rests with both academic units, Ms. Singleton noted that the Committee is recommending that, with the exception of courses in Business Administration, calendar changes to existing courses that are common to both the St. John’s and Grenfell Campuses and proposals to introduce new courses that would be common to both campuses be approved by the Academic Councils of both the relevant Faculty/School Council on the St. John’s Campus and the Academic Council of the Grenfell Campus before being considered by the Senate Committee on Undergraduate Studies.

Before proceeding with consultations with Faculty/School/Councils on the St. John’s campus and the Academic Council of the Graduate Studies on this matter, the Senate Committee on Undergraduate Studies would like to know if this is the direction which Senate would endorse. Mr. Riggs then further described the history of this practise at Memorial as outlined below:

“In the 2011-2012 academic year, following the paperless Senate initiative, the Senate Committee on Undergraduate Studies reviewed its template forms used for the proposal of new courses, changes to courses, new programs, and changes to existing programs. In the process of undertaking this review, all aspects of Calendar revisions were examined. In its discussions, the Senate Committee on Undergraduate Studies reaffirmed the importance of intercampus consultation with the proviso that such consultation is simply collegial. The Committee did, however, find reason to bring to Senate’s attention the process of consultation when a change is proposed to a course that is listed in the Calendar for more than one campus.

Currently, Calendar descriptions for shared courses are based on the principle that the academic unit that created the course is the one that brings forward any changes to that course; once these changes are approved by the Senate Committee on Undergraduate Studies, they go into effect for all sections of the course no matter on which campus that course is taught and the approved changes are reflected in the Calendar description for the course. This is not a regulation, however, and in a very small number of instances it has not been happening. The most recent instance involves changes that were made to Mathematics 1000/1001 on the St. John’s campus.
Courses Common to the St. John’s and Grenfell Campuses (cont’d)

The changes involved moving topics from one course to the other. However, if these changes are not implemented on both campuses that teach Mathematics 1000 and 1001, a student completing Mathematics 1090 and Mathematics 1000 in their first year and then moving campuses and completing Mathematics 1001 in their second year (at least half of those who complete Mathematics 1001 follow this path and complete it in their second year) would complete two major topics twice and two not at all. This is not a promising start for potential Science and Engineering students.

The Senate Committee on Undergraduate Studies believes that courses that are taught on two or more campuses that share a common course number must also share a common Calendar description. If not, it runs the risk that students transferring from one campus to another who have completed one or more of these shared courses may not be properly prepared in the subject. This is particularly troubling where the course in question is a prerequisite for a course offered on the campus the student is transferring into. At the same time, the Committee also recognizes the academic freedom of each instructor to adapt the course; nevertheless, the course must always follow the Calendar description.

The Faculty of Arts and the Faculty of Science, where courses offered by the departments listed in the memo that introduced this matter on today’s agenda may be taken as either arts or science credits, have a long-standing procedure in place that clearly states that any changes to courses in any of these departments that may be cross-faculty credits must receive the approval of both faculty’s academic councils. The question before Senate can be traced to that model.

What the Senate Committee on Undergraduate Studies is proposing here today is to ask Senate if it wishes its Committee on Undergraduate Studies to pursue this matter further with relevant academic councils with a view to seeking input from them on whether the descriptions for courses shared by two or more campuses should continue to be made only by the academic unit that created the courses; if so, are the changes made by the creator academic unit to be imposed on all instances of the courses offered at any of Memorial University’s campuses? If changes are not to be imposed, what mechanism needs to be put in place to try to effect or arbitrate agreement between all campuses that offer said courses so that a common description will be maintained for all such courses? We anticipate a number of proposals coming forward from the academic councils concerned that will enable us to bring this matter to a successful and mutually agreeable conclusion. We must remind Senators, however, that any procedural change in this area needs the approval of Senate in order for it to be enforced. I would also remind Senators that the provisions of the letter dated 15 September 2007, to Dr. Axel Meisen, President of Memorial University, from Richard E. Sorensen, Chair of the Association to Advance Collegiate Schools of Business Accreditation Coordinating Committee, a copy of which was included in the material sent out for today’s Senate meeting, will in no way be affected by any consultations or decisions arising out of this matter.

In bringing this matter before Senate, the Committee on Undergraduate Studies is eager to learn if this is a direction that Senate would like us to move in. That is why we brought this matter before Senate before presenting it to academic councils first for consultation; if what we propose is not
Courses Common to the St. John’s and Grenfell Campuses (cont’d)

something that Senate wishes us to undertake, then the matter can die here today and the time and energy of the academic councils will not have been wasted. Furthermore, by bringing this matter to the Senate table and hearing the comments of Senators, we embrace the spirit of intercampus co-operation of which Senate and its Committee on Undergraduate Students are working models, while keeping the best interests of our students foremost on our agendas.

Therefore, Mr. President, I ask if there is support here at Senate for its Committee on Undergraduate Studies to embark upon a round of consultation with academic councils to ascertain their views on the matter under discussion, with a view to having any recommendations emanating out of those discussions placed before Senate by its February meeting in 2013, and would so move that Senate instruct its Committee on Undergraduate Studies to proceed accordingly.”

It was moved by Mr. Riggs, seconded by Dr. McKay, and carried to approve the request that consultation proceed with the relevant academic and faculty councils regarding approval of calendar changes for courses common to the St. John’s and Grenfell Campuses.

7. Undergraduate Entrance Scholarship Program

The President invited Dr. Danny Dyer, Chair of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, to present this item and noted that Mr. Tom Brophy and Mr. Paul Chancey were also in attendance to respond to questions.

A memorandum dated September 4, 2012, was received from Tom Brophy, Director, Student Success Programs and Acting Chair of the Senate committee on Undergraduate Scholarships, Bursaries and Awards regarding proposed changes to the Undergraduate Entrance Scholarship Program.

In his memorandum, Mr. Brophy explained that during the 2011-12 year extensive analysis has been completed to address the future financial stability of the Undergraduate Entrance Scholarships Program. Although the Undergraduate Entrance Scholarship Program has been in existence for 14 years, the program has never been fully funded and as such has been funded annually on an ad hoc basis by garnering funds from various sources. The problem is further accentuated by the significant increase in the Entrance Scholarship Program costs resulting in a significant funding shortfall. Memorial currently has $950,000 in annual operating funding allocated and approximately $280,000 available annually from interest on endowed funds for flagship scholarships while the total cost for 2011-12 was approximately $1.8 million.

As a result of this consultation, the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, has developed, and unanimously approved, four motions to change the Undergraduate Entrance Scholarship Program. These changes will provide financial stability to this program by not over-spending the available operating funding dedicated to the scholarship program. At the same time, the importance of this program is recognized and as such the revisions endeavor to ensure integrity of the program and continued benefit to the students attending Memorial.
Undergraduate Entrance Scholarship Program (cont’d)

The Committee has developed two motions to take effect in 2013-14 that require approval from Senate.

Motion #1
Early offers of entrance scholarships valued at $2000 and above will continue to be made based upon midterm averages of 90% or higher. However, eligibility will require that candidates maintain a Final Admission Average (FAA) of at least 90% or higher. (Please note that the $1000 scholarships are already based on the FAA)

It was moved by Mr. Riggs, seconded by Mr. Collins, and carried to approve Motion #1.

Motion #2
The number of $1000 Entrance Scholarships will continue but will be limited to staying within a predetermined budget amount and be awarded in a declining approach to students with less than 90% Final Admission Average (FAA) in ranked order until the available funding is exhausted.

It was moved by Mr. Riggs, seconded by Mr. Collins, and carried to approve Motion #2.

The following motions of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, were received for the information of Senate:

Motion #3
General Entrance Scholarships currently offered at the $3,500 level will be reduced to $3,000.

Motion #4
The Centre for Institutional Analysis and Planning will conduct yearly reviews of the scholarship program and jointly present results to the Provost and the Senate Committee on Undergraduate Scholarships in late Winter or early Spring Semesters of each year. Communication of these changes to the Entrance Scholarship Program will need to be conveyed starting Fall 2012 as the Student Recruitment team will begin visiting schools in late September.

8. Memorandum from Executive Committee of Senate regarding Senate Committees Reporting to Senate

A memorandum dated August 22, 2012, was received from Glenn W. Collins, Secretary, Executive Committee of Senate, regarding Senate Committees report to Senate.

Mr. Collins explained that at a meeting held on July 13, 2012, the Executive Committee of Senate noted the importance of keeping members of Senate, to the extent that it is possible, aware of the business being conducted by Committees of Senate. In this regard, it was agreed to present this recommendation to Senate on behalf of the Committee noting that while each Committee of Senate is required by bylaw VI.A.3 to “... provide a written report to Senate at least once a year,” that for the next year on a trial basis Senate requests that each Committee of Senate submit a summative report at
Memorandum from Executive Committee of Senate regarding Senate Committees Reporting to Senate (cont’d)

each regular meeting of Senate outlining a synopsis of the business of that Committee since its last report.

It was moved by Mr. Collins, seconded by Dr. Ghazala, and carried that each Committee of Senate submit a summative report at each regular meeting of Senate outlining a synopsis of the business of that Committee since its last report for a one year trial basis.

9. Draft Engagement Framework

The President welcomed Dr. Rob Greenwood, Executive Director, Office of Engagement and The Harris Centre of Regional Policy, to present this item.

A copy of the Draft: Memorial University’s Public Engagement Framework Document, August 28, 2012 was circulated with the Senate Agenda.

Dr. Greenwood presented the Draft: Memorial University’s Public Engagement Framework document noting that Senate has been following the process leading to the current stage for many months.

Dr. Greenwood briefly elaborated on the following topics:

- Starting Principles
- Relationship to Memorial’s Mission and Research & Teaching and Learning Frameworks
- Development process
- Vision, Values, Goals and Objectives

Several members of Senate noted their enthusiastic support for the framework document emphasizing that it will have clear benefits for the University and the community.

A copy of Dr. Greenwood’s powerpoint presentation is attached to the original of these minutes.

It was moved by Mr. Riggs, seconded by Dr. Phillips, and carried that Senate endorse this document and use it as a framework to move forward.

10. Report of the Senate Committee on Academic Appeals

The President reminded Senators that several members of Senate have had previous involvement in these student appeals by virtue of membership on the Executive Committee of Senate, on the Senate Committee on Undergraduate Studies, or as members of academic units. In this regard, he noted that one of the principles of natural justice and fairness is that there should be no individual sitting in judgement on an appeal at a higher level who has already been a party to the decision at a lower level. In the interests of fairness and natural justice the President asked those who have had previous dealings with these cases to be available to provide information pertinent to the case and to answer questions raised by Senators but not to make motions or vote on motions regarding these appeals.
Report of the Senate Committee on Academic Appeals (cont’d)

10.1 ECS 2011-2012: #13 - Appeal against the Senate Committee on Undergraduate Studies and the Committee on Undergraduate Studies, School of Nursing, for permission to drop, without academic prejudice on his/her Bachelor of Nursing (Collaborative) degree program standing, Nursing 1014 and 1017, two courses for which the student was registered in the Winter Semester 2012.

At the invitation of the Chair, Dr. Dale Foster, on behalf of the Senate Committee on Academic Appeals, presented the report of the Committee to Senate regarding this student’s appeal and advised that the Committee’s recommendation is as follows:

Recommendation

The panel’s divided decision was that there were no grounds to support the student’s appeal and overturn the decision by the SCUGS and Senate Executive. It is therefore recommended that the student’s appeal be denied.

Following discussion, it was moved by Dr. Farrell, seconded by Dr. Carr, and carried to deny this student’s appeal based on the report and recommendation from the Senate Committee on Academic Appeals. Senators who had previous involvement in this appeal abstained from voting.

10.2 ECS 2011-2012: #16 - Appeal from the Faculty of Business Administration against the decision made by the Senate Committee on Undergraduate Studies with regards to an allegation of academic misconduct against five business students on an assignment in Business 2400. The Senate Committee on Undergraduate Studies found the students not guilty of academic misconduct.

At the invitation of the Chair, Dr. Gerard Farrell, on behalf of the Senate Committee on Academic Appeals, presented the report of the Committee to Senate regarding this student’s appeal and advised that the Committee’s recommendation is as follows:

Recommendation

It is the recommendation of the panel that:

• The appeal of the FBA against the decision of the SCUGS that the students had not committed plagiarism be upheld;

• Only student 4 be found guilty of having committed plagiarism and therefore of having committed academic misconduct;

• Given the nature and extent of the plagiarism and the time that has elapsed since the original charge, a reprimand will be the only penalty against student 4.

The decision of the panel was unanimous, with one abstention.

It is further recommended that:

• Senate give direction to SCAA as to the adjudication of cases in which plagiarism is committed by one member of a group completing academic requirement at the ignorance of the remainder of the group,
in whole or in part. This would be useful if, as might be anticipated with documents becoming virtual compilations of bits rather than pieces of paper, similar circumstances to this case might be appealed in the future.

- Given the increasing use of internet-based material and of the reported cases of plagiarism, that the University work with MUNSU and the GSU to improve students’ understanding of the nature of plagiarism and the consequences of committing it.

Following discussion, it was moved by Dr. Farrell, seconded by Dr. Waterman, and carried to accept the recommendation of the Senate Committee on Academic Appeals as follows:

- The appeal of the FBA against the decision of the SCUGS that the students had not committed plagiarism be upheld;
- Only student 4 be found guilty of having committed plagiarism and therefore of having committed academic misconduct;
- Given the nature and extent of the plagiarism and the time that has elapsed since the original charge, a reprimand will be the only penalty against student 4.

Senators who had previous involvement in this appeal abstained from voting.

Mr. Riggs agreed to take back to the Senate Committee on Undergraduate Studies for discussion and follow-up the two supplementary requests noted above.

10.3 ECS 2011-2012: #10 - Appeal against the Senate Committee on Undergraduate Studies and the Committee on Undergraduate Studies, School of Social Work, for permission to defer his/her admission to the Bachelor of Social Work as a Second Degree Program from Winter Semester 2012 to Winter Semester 2013.

At the invitation of the Chair, Dr. Christopher Sharpe, on behalf of the Senate Committee on Academic Appeals, presented the report of the Committee to Senate regarding this student’s appeal and advised that the Committee’s recommendation is as follows:

Recommendation

The Panel unanimously recommends to Senate that the appeal be denied.

Additional Recommendation

The Panel recommends that the language of Regulation 5.2(2) be amended to clarify its intent. The current language says that ‘following admission’ students may request changes in some aspects of the normal programme. In practice this Regulation, as with all promotion regulations, refers only to students who have commenced the programme - i.e. have begun to attend classes. The Calendar language should reflect this. It would also be useful to specify more precisely the type and scale of adjustments that might be made to a student’s program of study.
Following discussion, it was moved by Dr. Farrell, seconded by Dr. Carr, and carried to accept the recommendation of the Senate Committee on Academic Appeals that the appeal be denied. Senators who had previous involvement in this appeal abstained from voting.

It was also agreed to refer the additional recommendation to the School of Social Work for further consideration.

11. Items for Information

11.1 The Executive Committee of Senate denied the following appeals:

ECS 2011-2012: #11 - Appeal against the Senate Committee on Undergraduate Studies for permission to drop, without academic prejudice, Social Work 2320, a course for which the student was registered during the Fall Semester 2011.

ECS 2011-2012: #12 - Appeal against the decision of the Senate Committee on Undergraduate Studies, with respect to an allegation of academic misconduct brought against the student that he/she is guilty of allowing another student to impersonate him/her in the final examination for Biology 1001, a course for which the student was registered in the Fall Semester 2011.

ECS 2011-2012: #13 - Appeal against the Senate Committee on Undergraduate Studies and the Committee on Undergraduate Studies, School of Nursing, for permission to drop, without academic prejudice on his/her Bachelor of Nursing (Collaborative) degree program standing, Nursing 1014 and 1017, two courses for which the student was registered in the Winter Semester 2012.

ECS 2011-2012: #17 - Appeal against the decision of the Senate Committee on Undergraduate Studies that the student be permitted to write deferred final examinations for Business 3310, a course for which the student was registered in the Fall Semester 2011, and Business 2101 and 2710, two courses for which the student was registered in the Winter Semester 2012.

ECS 2011-2012: #18 - Appeal against the decision of the Senate Committee on Undergraduate Studies and the Appeals Committee, Faculty of Engineering and Applied Science, to continue with his/her current Academic Term 7 and retake Engineering 6749 and Engineering 6707 courses next semester.

ECS 2011-2012: #20 - Appeal against the decision of the Senate Committee on Undergraduate Studies to uphold the decision of the Committee on Undergraduate Studies, School of Nursing, requiring the student to withdraw from the Bachelor of Nursing (Collaborative) degree program by the application of Clause 6 of the Promotion Regulations for the School.

ECS 2011-2012: #21 - Appeal against the decision of the Senate Committee on Undergraduate Studies that the student is guilty of the offence of plagiarism on the work term report submitted for Engineering 001W, resulting in a grade of “FAIL” in Engineering 001W, a two-semester suspension from the University, as well as the issuing of a reprimand.
Items for Information (cont’d)

ECS 2011-2012: #22 - Appeal against the decision of the Senate Committee on Undergraduate Studies to uphold the decision of the Special Subcommittee on Readmission Appeals to deny acceptance of the student’s application for readmission to the university.

11.2 The Executive Committee of Senate approved the following appeal:

ECS 2011-2012: #15 - Appeal against the decision of the Senate Committee on Undergraduate Studies, with respect to an allegation of academic misconduct brought against the student that the student is guilty of plagiarism in a group project submitted for Engineering 8853, a course for which the student was registered during the Winter Semester 2012.

11.3 The Executive Committee of Senate agreed to modify the penalty of suspension from the University to a period of probation for five semesters commencing with the Spring Semester 2012 for the following case:

ECS 2011-2012: #14 - Appeal against the decision of the Senate Committee on Undergraduate Studies, with respect to an allegation of academic misconduct brought against the student that the student is guilty of plagiarism in a group project submitted for Engineering 8853, a course for which the student was registered during the Winter Semester 2012.

11.4 The Executive Committee of Senate agreed to forward the following appeals to the Senate Committee on Academic Appeals:

ECS 2011-2012: #5 - Appeal against the decision of the Senate Committee on Undergraduate Studies, with respect to an allegation of academic misconduct brought against the student that the student is guilty of having made a false, misleading, or incomplete declaration to the University as part either of the student’s appeal for waiver of Business 4500 or as part of his/her challenge for credit request for the same course.

ECS 2011-2012: #16 - Appeal from the Faculty of Business Administration against the decision made by the Senate Committee on Undergraduate Studies with regards to an allegation of academic misconduct against five business students on an assignment in Business 2400. The Senate Committee on Undergraduate Studies found the students not guilty of academic misconduct.

12. REMARKS FROM THE CHAIR - QUESTIONS/COMMENTS FROM SENATORS

Dr. Kachanoski reported on his activities over the summer noting in particular activities relating to Reunion 2012 and other alumni events; Dare To Campaign; Vice-President (Research) Search; September Orientation on three campuses; Space and Infrastructure news; Autonomy; positive enrolment trends; and his visits to various locations in the province.

Dr. Kachanoski emphasized the central role Senators have in nominating as well as selecting persons for honorary degrees and the importance of getting superlative candidates. He noted that Senators, because they represent a host of disciplines and have wide ranging contacts in their fields, are well-placed to seek out and nominate candidates.

In this regard, Dr. Kachanoski asked that Senators give serious consideration to nominating worthy candidates for honorary degrees.
