83. MINUTES

The Minutes of the special and regular meetings held on January 9, 2007 were taken as read and confirmed.

REPORT OF THE EXECUTIVE COMMITTEE OF SENATE

It was agreed by separate motion where necessary, that the report of the Executive Committee be approved as follows:

CONSENT AGENDA

At the request of Dr. McKay, the Chair suggested a re-ordering of the regular agenda so that Agenda Item 8, Faculty of Medicine, could be moved to precede Agenda Item 4, Report of the Senate Committee on Undergraduate Studies. Senate concurred with this request.

Consent Agenda Item 2.D. was moved from the Consent Agenda to the Regular Agenda at the request of Dr. Tulett.

At the request of Dr. Jablonski, Consent Agenda Item 3.D., Department of Anthropology, was withdrawn.

“5.4.5 Computer Industry Internship Option (CIIO):

The CIIO provides an opportunity for qualified students to obtain rewarding placements that help them develop practical skills in a real work setting before graduation. The CIIO is available to Computer Science Majors (B.Sc. and B.Sc. Honours only) who will typically apply between their third and fourth year of studies.

Requirements:

In order to be eligible for the CIIO, an applicant must:
Department of Computer Science (cont’d)

1. Be a declared Computer Science Major.
2. Have successfully completed Computer Science 1710, Computer Science 2710, Computer Science 2711, Computer Science 2742, Computer Science 2760, Computer Science 3716, and any two other core 3000-level computer science courses.
3. Have at least one computer science course left to complete after the internship.
4. Admission to the CIIO is also subject to academic performance.

Internship duration:

Subject to the availability of job openings, a student may choose either an 8, 12 or 16 consecutive month internship period.

Internship guidelines:

- Internship employment is normally organized by the Internship Co-ordinator (hereafter referred to as the Co-ordinator); however, students who have been accepted to the CIIO may also obtain their own internship placements. All placements are subject to the approval of the Co-ordinator and of the Head of the Department of Computer Science.

- Students who have applied to the internship program give permission to the Co-ordinator to supply prospective employers with copies of their resume.

- After being placed with an employer, students are not permitted to drop their internship without prior approval from the Co-ordinator and the Head of the Department of Computer Science. Students who drop an internship without permission, who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the placements, will normally be awarded a fail grade for the internship period and may not be permitted to reapply.

Note: Students should also refer to the General Academic Regulations (Undergraduate).

Expectation of work

Within a month of starting the internship, students are required to submit a plan of intended work for the internship. They are also required to submit a progress report due the last day of classes of each semester in which they are working. The plan of intended work and progress reports are to be submitted to the Co-ordinator.

At the end of the internship period, students are required to submit a final report which will include a description of their internship projects and activities as well as their original objectives and accomplishments. The final report is to be submitted to the Co-ordinator by the last day of classes of the semester in question.
Department of Computer Science (cont’d)

Registration, Assessment of Performance, and Assignment of Grades

Students must register for the course Computer Science 3700 every semester during their internship.

Computer Science 3700 is a non-credit course open only to students who have been accepted into the Internship Program.

During the internship, the employer and intern will complete student performance evaluations every four months and will submit them to the Co-ordinator. The final assessment of total work performed is the responsibility of the Co-ordinator, and will be based upon both input from the employer and the intern’s final report.

At the end of the internship, each intern will be assigned one of the following grades after the final assessment of their performance:

1. Pass with Distinction: Indicates EXCELLENT PERFORMANCE in both the work report and work performance.
2. Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and the work performance.
3. Fail: Indicates FAILING PERFORMANCE in the work report or the work performance.

Also, the following will be noted in the transcript of the intern:

Requirements for the Computer Industry Internship Option have been completed. Internship Duration: - months.

A grade of NC (No Credit) for Computer Science 3700 will be awarded in all semesters of the Internship Option prior to the final Semester.

CIIO and Honours Program

In case a student is enrolled in both the Honours program and the CIIO, the requirements of both must be met. Upon approval from the honours project supervisor, with the Department, the employer and the head of the Department of Computer Science, an internship project may be submitted as a component of an honours project. These arrangements must be made within the first semester of the Internship placement.”

Notes: 1) Students can receive credit for only one of Computer Science 1510 or Computer Science 2602.

2) Students who have received credit for the former Applied Mathematics 2120 cannot receive credit for Computer Science 1510.”
2500 Data Analysis with Scripting Languages (F) & (W) introduces the use of scripting languages to solve common data analysis tasks. The control structures and expressions of the language are first discussed. Script solution to storing/retrieving data sets, searching data sets, and performing numeric and statistical calculation are covered. Plotting and visualization for data sets are also presented.
Prerequisite: Computer Science 1510 or Computer Science 1700 or Computer Science 1710 or Computer Science 2602 (or equivalent).

Delete Computer Science 2602 and replace with the following:

2602 Computer Programming in FORTRAN (F) is a study of algorithmic problem solving and structured programming techniques; the Fortran programming language and its application to computer solutions of scientific problems; numeric and non-numeric problems are examined with emphasis on code modularity and reusability of the components.
Prerequisite: Mathematics 1000.
Note: Students who have received credit for the former Computer Science 2600, or the former 2601, or the former 2800 cannot receive credit for Computer Science 2602.

Delete Computer Science 2650 and replace with the following:

2650 Problem-Solving with Personal Computers (F) & (W) is an overview of tools and techniques that current computer technology offers in a PC based networked environment. The emphases are on conceptual understanding of the software, from exploring capabilities of the existing software tools to learning methods of extending these capabilities. The key topics include problem-solving strategies, visual programming, macro-language operations, object linking and embedding, digital communication, and developing interactive web pages. The course has a practical flavour. In structured laboratory sessions, students gain proficiency in using personal computers for solving common problems.
Prerequisite: Level III Advanced Mathematics or Mathematics 1000 (which can be taken concurrently) or Mathematics 1090 (or equivalent).
Note: Students can receive credit for only one of Computer Science 1600, Computer Science 2650, Computer Science 2801, or Business 2700.

Delete Computer Science 3719 and replace with the following:
“3719 Theory of Computation and Algorithms (F) & (W) is an introduction to formal algorithmic problem solving. Various algorithm design techniques that sometimes yield efficient solutions are studied. Deterministic and nondeterministic machines (finite state automata, pushdown automata and Turing machines) are discussed and used to efficiently solve problems such as the String Matching Problem, the parsing of Context-free Languages, and to introduce the theory of NP-completeness. In addition, Turing machines are used to prove the unsolvability of certain problems. Tractable, intractable and undecidable problems are contrasted. Basic issues related to parallelization are discussed as well.

Prerequisites: Computer Science 2711 and Pure Mathematics 2320.

Note: Credit cannot be obtained for both Computer Science 3719 and the former Computer Science 3711. Credit cannot be obtained for both Computer Science 3719 and the former Computer Science 3740.”

Areas covered include: requirements capture, system design and design approaches, verification and validation (including formal methods and testing), and management of the software development process. Prerequisite: Computer Science 3716.”

Delete Computer Science 4721 and replace with the following:

“4721 Operating Systems (W) studies the design and implementation of an operating system’s kernel. The main components used in operating system implementations include: context switches, process management, memory management, interprocess communication, file systems and system calls. The data structures and algorithms used in implementing the above components are studied. The different architectural styles of kernel implementation are also considered. Real-time operating systems are also discussed. Prerequisite: Computer Science 3725.”

New course

4740 Design and Analysis of Algorithms (W) will give an overview of techniques for the design of efficient optimal-solution and heuristic algorithms. It will include an introduction to various advanced data structures for set and string processing that are used to further optimize algorithm efficiency.
Prerequisite: Computer Science 3719.

Delete Computer Science 4741 and replace with the following:

“4741 Formal Languages and Computability (F) is an in-depth study of various types of formal machines and their associated languages. Effective computability and other formalisms, such as lambda calculus will be studied as well.
Prerequisite: Computer Science 3719.
Note: Students can receive credit for only one of the former Computer Science 3740 or Computer Science 4741.”

New course

4743 Graph Algorithms and Combinatorial Optimization (W) discusses classical problems in combinatorial optimization and graph algorithms, including matching, colorability, independent sets, isomorphism, network flows and scheduling. Special families of graphs are discussed and algorithms that would otherwise be NP-hard or complete are shown to be polynomial time when restricted to such families.

Page 191, 2006-2007 Calendar, under the heading 6.15.1.6 Course List, amend German 1000 to read as follows:

“**1000 Elementary German I (F) & (W)** is a course intended to give beginners a basic knowledge of the spoken and written language and culture of the German-speaking countries. Credit will not be given for both German 1000 and 1002.”
Department of German and Russian (cont’d)

Amend German 1001 to read as follows:

“1001 Elementary German II (F) & (W) is a continuation of Elementary German I with the same basic text. Credit will not be given for both German 1001 and 1003.
Prerequisite: German 1000.”

New Courses

1002 Elementary Business German I is a course intended to give beginners a basic knowledge of spoken and written German with an emphasis on developing skills pertinent to business and commerce. Credit will not be given for both German 1000 and 1002.

1003 Elementary Business German II is a continuation of Elementary Business German I with the same basic text. Credit will not be given for both German 1001 and 1003.
Prerequisite: German 1002.

Amend German 2010 to read as follows:

“2010 Intermediate German I is a completion of the fundamentals of the German language, with a continued strong cultural component.
Prerequisites: German 1000 and 1001 or equivalent.”

Amend German 2011 to read as follows:

“2011 Intermediate German I (W) is a grammar review and introduction to literature.
Prerequisite: German 2010 or consent of the Head of the Department.”

New Course

2012 German Reading and Aural Comprehension for Business and Commerce focuses on active reading and listening skills needed in a business and commerce setting. Students will learn how to collect information and discern critical content in various communications media.
Prerequisite: German 1003 or consent of the Head of the Department.

Delete German 2020 and 2021.

Amend German 2030 to read as follows:

“2030 Reading German I (F) gives training in reading scholarly German. This course is suitable for senior undergraduate and graduate students with no previous knowledge of German, for whom this work is recommended or required by other departments or faculties, but may also be taken by students with some previous knowledge of German.
Note: This course may not be used to satisfy the second language requirement.”
Department of German and Russian (cont’d)

Amend German 3011 to read as follows:

“3011 Advanced German II (W) is a continuation of Advanced German I. Prerequisite: German 3010 or consent of the Head of the Department.”

Amend the prerequisite of German 3900 to read as follows:

“Prerequisite: German 2011 or the consent of the Head of Department.”

Amend the prerequisite of German 3901 to read as follows:

“Prerequisite: German 2011 or the consent of the Head of Department.”

New Course

3902 Business Culture in the German-Speaking World. The purpose of this course is to familiarize students for a work-term or internship in a German speaking environment. It covers business practices and culture in addition to business etiquette and protocols. Prerequisite: German 2012 or the consent of the Head of Department.

Amend German 3912 to read as follows:

84.26 Faculty of Medicine

Page 344, 2006-2007 Calendar, under the heading 1 Background, amend section to read as follows:

“The Faculty of Medicine of Memorial University of Newfoundland is one of 17 Canadian medical schools and was one of the four schools suggested by the Hall Royal Commission on Canadian Health Services in its 1964 report.

A series of meetings ... an eminent British medical educator, and his advisors, reported that the location of a medical school in the Province was a necessary step in the provision of adequate medical services for Newfoundland.

Dr. Ian Rusted, a local physician ... medical education for doctors in the Province, was appointed Dean of ... of graduate studies leading to the degrees of M.Sc. and Ph.D.”
Faculty of Medicine (cont’d)

The undergraduate curriculum ... of the school was set up as a non-departmental system ... Clinical Sciences.

Initially the Faculty of Medicine was housed in temporary buildings. With joint funding by the Federal and Provincial Governments, a Health Sciences Centre (HSC) was constructed on the North Campus of the University and was officially opened in 1978. This new building became home to the Faculty of Medicine General Hospital and the School of Nursing. Over time the building was expanded, and now it also houses the School of Pharmacy, the Janeway Children’s Health and Rehabilitation Centre, the Dr. H. Bliss Murphy Cancer Centre and the Agnes Cowan Hostel. The Health Sciences Centre contains a comprehensive health sciences library, animal care and research facilities, plus an appropriate range of teaching facilities to accommodate large lectures and demonstrations, small group discussions and seminars, clinical skills and laboratory sessions. The structure of the Health Sciences Centre facilitates integration between basic scientists, clinicians and allied health workers in the hospital, the University and the community. Clinical research facilities are located adjacent to basic research units and some research laboratories provide services in clinical investigation. Services such as cafeteria and stores are common to the Faculty of Medicine and the Eastern Regional Health Authority.

The General Hospital and Janeway Children’s Health and Rehabilitation Centre are part of a network of teaching hospitals in St. John’s and throughout the Province. The conventional use of major referral centres as teaching resources is complemented by the availability of regional and community hospitals to provide valuable clinical experience for undergraduate and postgraduate medical students.

In contrast to many other schools, the class size at the University’s Medical School is small. This facilitates interaction between students and faculty, and has obvious advantages in clinical teaching. Normally 60 students are admitted annually to the first year of the undergraduate medical program.”

Page 345, 2006-2007 Calendar, under the heading 2 Mission and Objectives of the Faculty of Medicine, amend third paragraph to read as follows:

“The objectives of the Faculty of Medicine ... expanding needs of the Province and of providing the means to reach out to all the people.”

Amend fifth paragraph to read as follows:

“The term ‘Medical School’ refers to the wider organizational structure of the Faculty of Medicine with various healthcare, institutions, community organizations and other academic units with the University.”

Page 346, 2006-2007 Calendar, under the heading 3 Affiliated Teaching Sites, amend clause 1 to read as follows:

“1. Within St. John’s: (hospitals and other centres under the Eastern Regional Health Authority)"

Page 346, 2006-2007 Calendar, under the heading 4 Description of Medical Training Programs, amend the heading to read “4 Description of Medical Training Program”.

Amend second paragraph to read as follows:

“The first two years of medical studies is called Pre-Clerkship. Basic ... instruction in Community Health & Humanities and Clinical Skills ... commencing in Clerkship.”

Amend third paragraph to read as follows:

“The last two years of medical studies is called Clerkship. During ... Labrador and community and hospital settings throughout Prince Edward Island and New Brunswick. Clinical clerks participate as members of the health care team ... patient care.”

Page 347, 2006-2007 Calendar, under the heading 8.1 Admission to the Faculty of Medicine, amend clause 1 to read as follows:

“1. All applications for entry to the program of studies leading to the MD degree are dealt ... from all applicants.”

Amend clause 5 to read as follows:

“5. The Admissions Committee’s decision ... professional studies leading to the award of the MD and in the eventual practice of medicine.”

Amend clause 6 to read as follows:

“6. To be eligible for admission, an applicant shall have completed a bachelor’s degree including the prerequisite subjects of six credit hours in English at a recognized university or university college before admission. In exceptional circumstances an application may be considered from someone who does not expect to hold a bachelor’s degree at the time of admission. Such an applicant will have completed at least sixty credit hours including the prerequisite subjects of six credit hours in English at a recognized university or university college before admission and be a student who has work-related or other experience acceptable to the Admissions Committee.

No application will be considered from a candidate who cannot produce evidence that the above requirements have been met or will have been met by the time of entry to the Medical School.

In addition, all applicants must write the MCAT prior to the application deadline. The MCAT should be written within the preceding 5 years of the date of application.”

Delete clauses 7, 8, and 9 and replace with the following:
Faculty of Medicine (cont’d)

“7. Applicants need to be aware of the policy related to Essential Skills and Abilities Required for the Study of Medicine. This policy outlines essential skills and abilities needed to succeed in the MD program and it includes technical standards for students in the program and information for students with disability. This information is available on the Faculty of Medicine’s website (http://www.med.mun.ca/admissions/pages/appPreparation.htm).

8. Each applicant is responsible for ensuring that all the required information on the application form, e.g. transcripts, MCAT scores, referee’s reports, is supplied to the Admissions Committee, and for providing any further information required by this Committee. An application is not considered complete until these documents have been received.

9. The Admissions Committee may request that a candidate attend an interview.”

Amend clause 15 to read as follows:

“15. Unsuccessful applicants who ... for Admissions or the Admissions Officer to discuss reapplying prior to the deadline for submission of a new application (normally October 15).”

Page 347, 2006-2007 Calendar, under the heading 8.2 Evaluation, delete section and replace with the following:

“1. Subject to the approval of Senate, the overall policy of evaluation and the planning of the programs of studies leading to the MD degree are the responsibility of the Undergraduate Medical Studies Committee, which is a standing committee of the Council of the Faculty of Medicine.

2. Each student is expected to complete the work of the class as described in the current regulations of the Faculty of Medicine for each year of the program and to pass the prescribed academic and professional evaluations. In this context, the professional evaluation will cover, not only the skills expected of a student, but person conduct and relationships with peers, patients, hospital personnel, faculty members and staff.

3. Course grades are recorded as pass or fail on a student’s University transcript. For Pre-Clerkship courses/subjects and Medicine 7280, evaluation of an individual student’s performance is conducted by the course/subject chair or instructor(s). The overall results of the course/subject evaluations are expressed on a four-point internal scale as outstanding, pass, borderline or fail. For Clerkship, overall evaluations of discipline rotations/selectives and electives are the responsibility of the respective discipline or electives coordinator. There is an internal five-point scale of outstanding, above average, average, below average and fail.

a. The Coordinator of the Pre-Clerkship or Clerkship and the Chair of the appropriate course/subject committee are responsible for ensuring that each student is informed of the results of each evaluation. The Chair of the course/subject committee will notify the student and Pre-Clerkship or Clerkship Coordinator, in writing, of any concerns that have arisen about performance.
b. It is the responsibility of the student to consult immediately with the Coordinator of the Pre-Clerkship or Clerkship Committee and/or the Chair of the course/subject committee regarding any course/subject in which concerns about performance have been expressed. Within one week of receiving notification of the grade for a course/subject, a student may submit a written request to the Coordinator of the Pre-Clerkship or Clerkship Committee for reconsideration of the grade awarded or for a reread of an exam/paper.

c. The student is responsible for notifying the Coordinator of the Pre-Clerkship or Clerkship Committee immediately of any new circumstances or of any pre-existing circumstances that have not previously been reported which could affect his or her individual performance in the work of the class.

4. A student’s progress is monitored in each year of the program by the Pre-Clerkship or Clerkship Committee.”

Page 348, 2006-2007 Calendar, under the heading 8.3 Promotion, delete section and replace with the following:

“1. The Student Promotions Committee is a standing committee of Faculty Council. The Student Promotions Committee review the grades of all students in each year. On the basis of this review, this Committee decides which students should be promoted to the next year and which students are eligible to graduate. In reaching its decisions the Student Promotions Committee takes into account professional, as well as academic factors, and any special circumstances, duly authenticated, which warrant consideration.

2. The Student Promotions Committee may require students to pass reassessments or to do remediation with reassessment before being considered for promotion or graduation. Students with a Fail grade in any subject or course cannot be promoted; such students may be required to repeat the entire course or any appropriate section and must pass an appropriate reassessment before a positive promotion decision is made. The amount and quality of makeup required of a student is at the discretion of the Student Promotions Committee, but it cannot be undertaken while any other course, including an elective, or a selective, is in progress, nor if a student’s full participation in subsequent courses is in any way jeopardized.

3. A student who consistently receives Borderline or Below Average grades even in the absence of any Fail grades may either be required to repeat the year or required to withdraw conditionally or unconditionally.

4. A student who is deemed by the Student Promotions Committee to be unsuitable for promotion or graduation is either required to repeat all of the studies in any year, or required to withdraw either conditionally or unconditionally.

a. If a student is required to repeat a year with academic prejudice, his or her performance in the repeated year must be at a level at which no remediation or reassessment is required. If this standard is not met, the Student Promotions Committee requires the student to withdraw unconditionally.
b. The option to repeat a year with academic prejudice can only be offered to a student once during his/her MD program. A student may repeat a year without academic prejudice if it has been demonstrated that the student’s performance has been adversely affected by other factors acceptable to the Student Promotions Committee and duly authenticated.

c. If the Student Promotions Committee requires a student to withdraw conditionally, the Chair of the Student Promotions Committee reports to the Dean and the Pre-Clerkship or Clerkship Coordinator the nature of the conditions to be met and the time period specified for meeting the conditions. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who has been required to withdraw conditionally may be readmitted once the conditions have been met. If the conditions are not met within the specified time limit, the student is required to withdraw unconditionally.

d. If the Student Promotions Committee requires a student to withdraw unconditionally, the Chair of the Student Promotions Committee will report the decision and the basis upon which it was reached to the Dean and the Pre-Clerkship or Clerkship Coordinator. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who is required to withdraw unconditionally and who wishes to re-enter the Faculty must apply by the appropriate deadline date to the Admissions Committee in competition with all other applicants.

5. A student has the right to make a formal appeal against a decision of the Student Promotions Committee. However, this appeal cannot be made on the basis of the grades awarded in individual courses or subjects, as the student will normally have had the opportunity of contesting grades immediately after notification. A formal appeal by a student against the decision of this Committee must be made on grounds other than the grades awarded, e.g. default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Dean. The Dean in consultation with the Office of the Registrar determines whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

6. In addition to the above clauses, the Faculty of Medicine reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Dean, on behalf of the Faculty, recommends such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

7. Any student who enters the first year of the medical program but withdraws within the first seven weeks may be permitted re-entry only by re-application to the Admissions Committee in competition with all other applicants by the appropriate deadline date. Withdrawal at all other times is in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).
Faculty of Medicine (cont’d)

8. a. Upon completion of a program year, a student in good academic standing may elect to withdraw temporarily from studies (e.g. to pursue graduate studies after completion of the second year).
b. Any student may be permitted to withdraw in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) Withdrawing from the University. In all cases, the intent to withdraw voluntarily should be discussed with the Pre-Clerkship or Clerkship Coordinator, as appropriate. The student must make a written request for voluntary withdrawal to the Dean who will then consult the appropriate Coordinator. In the event that a student wishes to return to medical school, the Dean should ensure that sufficient revision and preparatory work are undertaken before the student is permitted to resume medical studies.
c. Students permitted to withdraw are advised of the date upon which they are required to resume medical studies. In the absence of good cause, any such student who does not resume studies on the specified date will be deemed to have left the program.”

Page 498, 2006-2007 Calendar, under the heading 14 Regulations Governing the Degree of Master of Music, amend the third paragraph as follows:

“Graduate instruction is offered ... percussion, guitar, violin, viola ...”

Under the subheading 14.1 Qualifications for Admission, delete clause “2.a.” in its entirety and replace with the following:

“Auditions for September entry will be held in February of each year on the St. John’s campus. Where exceptional circumstances prevail and with the approval of the Director, the audition may be submitted as an audio or video recording. The audition program should display a range of performance styles and repertoire. Prospective Candidates should contact the School of Music for details on length of audition and appropriate repertoire. Applicants to the M.Mus. in Conducting program should submit professional quality video recordings of their work with a minimum of two different types of ensembles. These video recordings should include both rehearsals and performances.”

Amend clause “14.1.1.” as follows:

“Admission regulations ... regarding the likelihood of admission. Entrance auditions are normally held in late February or early March”.

85.7 Department of Mathematics and Statistics

Page 547, 2006-2007 Calendar, under the heading 25.17 Mathematics and Statistics, under the subheading 25.17.1 Doctor of Philosophy, delete the entry in its entirety and replace with the following:
Department of Mathematics and Statistics (cont’d)

“The following regulations should be read in conjunction with the General Regulations of the School of Graduate Studies.

1. Candidates shall be assigned a supervisory committee consisting of the supervisor (or Co-Supervisors) and at least two other members of faculty appointed by the Dean on the recommendation of the Head.

2. A candidate shall complete at least 6 credit hours in graduate courses in the area of specialization. Candidates not holding a masters degree shall, in addition, complete, or have already completed successfully, the course requirements for a Memorial masters degree in mathematics or in statistics, as appropriate. Any candidate may be required to take additional courses.

3. The Comprehensive Examination consists of two parts, called the “qualifying review” and the “intermediate review”. Successful completion of both the qualifying and intermediate reviews constitutes successful completion of the Comprehensive Examination in the sense of General Regulation Comprehensive Examinations.

(a) The qualifying review consists of written examinations and takes place as soon as the Supervisory Committee deems appropriate, but not later than the end of the candidate’s third semester in the doctoral program. Its main purpose is to ensure that the candidate has a reasonably broad general knowledge of mathematics or of statistics, as appropriate.

(b) The intermediate review consists of an oral presentation on the candidate’s thesis topic followed by an oral examination based on the presentation although questions of a general nature relating to the field of specialization are also permitted. It must take place no later than the end of the candidate’s seventh semester in the doctoral program. Its purpose is to ensure that the candidate has specialized knowledge in his/her chosen area sufficient to do original research of a high level.

More details concerning the Department’s comprehensive examinations can be obtained from the Department.”

Under the subheading 25.17.2 Specific Regulations for the Ph.D. in Mathematics, delete the entry in its entirety and replace with the following:

“A Master’s degree in mathematics or related area from a recognized university is normally required for entry into the Ph.D. program. Students holding a Bachelor’s degree (Honours or equivalent) in mathematics may be considered for direct admission into the Ph.D. program. Students currently registered in Memorial University’s M.Sc. program in mathematics may request a transfer into a Ph.D. program. Such transfer must be supported by the intended Ph.D. supervisory committee and the Graduate Studies Committee.”
Under the subheading 25.17.3 Specific Regulations for the Ph.D. in Statistics, delete clauses “1. to 4.” in their entirety and replace with the following:

“A Master’s degree in statistics from a recognized university is normally required for entry into the Ph.D. program. Students currently registered in Memorial University’s MAS or M.Sc. program in statistics may request a transfer into a Ph.D. program. Such transfer must be supported by the intended Ph.D. supervisory committee and the Graduate Studies Committee.

In addition to general departmental requirements, each candidate for the Ph.D. in statistics will be required to present at least one paper at a graduate seminar on a topic to be approved by his or her Supervisor.”

**REGULAR AGENDA**

86. FACULTY OF MEDICINE - NAME CHANGE OF THE DIVISION OF BASIC MEDICAL SCIENCES

A letter dated January 5, 2007 was received from the Faculty of Medicine requesting that the name of the Division of Basic Medical Sciences be changed to the “Division of BioMedical Sciences”.

It was moved by Dr. Rourke, seconded by Dr. McKay and carried that this proposal be forwarded to the Board of Regents for approval.

87. REPORT OF THE SENATE COMMITTEE ON UNDERGRADUATE STUDIES

87.1 Recommended Modifications to the Academic Transcript - Office of the Registrar

Professor Walsh introduced a memo dated 21 December 2006 from Ms. Phyllis McCann, Assistant Manager/Graduation Manager, with regard to proposed modifications to the Academic Transcript relating to the display of degree credential information. In doing so, Professor Walsh noted that currently, a student who completes a Bachelor of Arts or Bachelor of Science degree can continue his/her studies and replace that degree with a Bachelor of Arts (Honours) or Bachelor of Science (Honours) as appropriate. Under the current protocol, the information related to the originally awarded Bachelor of Arts or Bachelor of Science degree is removed from a student’s transcript upon the awarding of a corresponding Honours Degree. While it is not appropriate to reflect two separate and independent degree program awards in such cases, a notation referencing the previously awarded general degree will provide a more accurate reflection of the student’s academic history at Memorial University. As a result, the following recommendations are proposed (the modification for Sir Wilfred Grenfell College is consistent with changes approved for the Diploma parchment in April, 2006):

“That effective May Convocation 1996, an appropriate transcript notation that will identify the detail related to a previously awarded general degree that has been subsequently upgraded and replaced with an Honours degree.
Recommended Modifications to the Academic Transcript - Office of the Registrar (cont’d)

That effective May Convocation 2006, display of Sir Wilfred Grenfell College within the transcript degree record for those degrees completed according to the Regulations for Degrees at Sir Wilfred Grenfell College.

The motion to approve the above-noted recommendations which was moved by Professor Walsh, seconded by Mr. Collins, carried.

87.2 Department of Anthropology

The motion to approve the proposed calendar changes to the Department of Anthropology which was moved by Professor Walsh, seconded by Mr. Andrews, carried.

Page 157, 2006-2007 Calendar, delete section 6.2, 6.2.1, 6.2.2 and 6.2.3 and replace with the following:

“6.2 Anthropology and Archaeology

All students who major in Anthropology and Archaeology will be assisted by a faculty advisor who will help them in planning their academic programs. For this purpose, it is essential that students register with the Department at an early stage of their studies.

6.2.1 General Degree

1. First Courses

Archaeology 1030 and Anthropology 1031 or an equivalent course or courses are required of all students wishing to concentrate in anthropology or archaeology.

The following courses, cross-listed with the Department of Sociology and identified by the designation “S/A”, are also taught at the introductory level: 2200, 2210, 2220, 2230, 2240, 2260, 2270, 2280 and 2350. These courses can be taken as first courses or may be taken following a departmental introductory course.

2. Major Options

The Department of Anthropology and Archaeology offers undergraduate programs concentrating in a) Social/Cultural Anthropology; b) Archaeology/Physical Anthropology; and c) Interdisciplinary Studies in Sociology and Anthropology.

The student majoring in Anthropology or Archaeology must meet the requirements listed under General Degree Regulations, Regulations for the General Degree of Bachelor of Arts. Under these regulations, a minimum of 36 credit hours in Anthropology and/or Archaeology are required. Specific regulations for each option follow:
Department of Anthropology (cont’d)

a. Social/Cultural Anthropology

Students wishing to concentrate in this option must take Archaeology 1030 and Anthropology 1031; 6 credit hours in Anthropology courses at the 2000-level chosen from 2410, 2411, 2412, 2413; 6 credit hours from Social/Cultural Anthropology offerings at the 4000-level, of which one must be 4410 or 4412; the remaining 18 credit hours are to be chosen from any of the Anthropology or Sociology/Anthropology (S/A) 3000- or 4000-level offerings. Students should note that the completion of Anthropology 1031 and one 2000-level Anthropology course is a prerequisite for all Anthropology 3000-level courses, and that two Anthropology courses at the 2000-level or above are prerequisites for all Anthropology 4000-level courses.

b. Archaeology/Physical Anthropology

Students wishing to concentrate in this option must take Archaeology 1030 and Anthropology 1031, Archaeology 2430 and 2480; 12 credit hours in Archaeology courses at the 3000-level; 9 credit hours in Archaeology courses at the 4000-level which must include Archaeology 4182 (History of Archaeology) and 4411 (Theory and Method in Archaeology and Prehistory); 6 additional credit hours in Archaeology courses at the 3000 or 4000 level. Students are encouraged to take appropriate course offerings in Anthropology. Students should note that Archaeology 2430 is a prerequisite for all 3000 and 4000 level courses in Physical Anthropology and that Archaeology 2480 is a prerequisite for all 3000 and 4000 level courses in Archaeology.

c. Interdisciplinary (S/A) option

Students wishing to concentrate in this option must take at least 24 credit hours in S/A courses, plus a minimum of 12 credit hours in courses selected from the offerings of the Anthropology and Archaeology Department or the Sociology Department or both. Specific requirements are detailed under the Sociology/Anthropology Interdepartmental Studies Program.

3. Minor Options

A minor in Anthropology or Archaeology or Sociology/Anthropology may be achieved by completing any one of three sets of courses:

a. Social/Cultural Anthropology: 1030, 1031; 6 credit hours in courses at the 2000 level chosen from 2410, 2411, 2412, 2413; and 12 credit hours chosen from Anthropology offerings at the 3000 level or above, including at least 3 credit hours in a course at the 4000 level.

b. Archaeology/Physical Anthropology: 1030, 1031; 2430 and 2480; 3 credit hours in an Archaeology/Physical Anthropology course at the 4000 level; and 12 credit hours in other Anthropology courses, at least 9 credit hours of which shall be from among Archaeology/Physical Anthropology offerings.
Department of Anthropology (cont’d)

c. Sociology/Anthropology (“S/A”): see the regulations listed under the Sociology/Anthropology interdepartmental Studies Program.

**Students completing a major or minor in Anthropology, Archaeology or Sociology cannot elect to major or minor in the S/A program. In addition, students completing a major or minor in one program in the Department of Anthropology and Archaeology cannot elect to complete a second major or minor in this department.**

### 6.2.2 Honours Degree

1. Admittance: As per existing regulations.

2. Students intending an Honours program are required to complete 60 credit hours following the requirements in 2. Major Options above, but in addition must include 4995-Honours Essay, or 4996-Comprehensive Examination. Students must also meet requirements of General Regulations for Honours Degrees, and regulations for the Honours Degree of Bachelor of Arts.

### 6.2.3 Regulations for Joint Honours, Anthropology or Archaeology and Another Major Subject

1. Candidates must fulfil the requirements of the General Regulations for the Honours degree.

2. Candidates must complete:

   a. Archaeology 1030 and Anthropology 1031;

   b. Six credit hours in courses chosen from Anthropology 2410, 2411, 2412, 2413, Archaeology 2430 and 2480;

   c. Fifteen credit hours in Anthropology or Archaeology courses at the 3000 level, chosen in consultation with a supervisor;

   d. Fifteen credit hours in Anthropology or Archaeology courses at the 4000 level, with a grade of “B” or better. These must include 4410 and one of 4000, 4411 and 4412.”

Page 158, 2006-2007 Calendar, under the heading 6.2.4 Course List, add the following paragraph:

“Students should note that credit may not be obtained for Archaeology course if, prior to 2007, the student received credit for that course when it was designated as an Anthropology course.”

Insert the following new heading “Anthropology Courses” with the following courses listed underneath with existing course descriptions and notes and in addition, delete the (S/C) designation for these courses:
Department of Anthropology (cont’d)

“1031, 2300, 2410, 2411, 2412, 2413, 2414, 2500, 3050, 3052, 3053, 3054, 3058, 3060, 3061, 3062, 3063, 3064, 3082, 3083, 3280, 3305, 3384-3389, 3402-3409, 3584, 3590, 4030, 4081, 4200-4209, 4280, 4300, 4301, 4302, 4370, 4410, 4412, 4422, 4440, 4450, 4451, 4452, 4995, 4996.”

List the following courses under the same heading of “Anthropology Courses” with existing course descriptions and notes. In the case of these courses, the (S/A) designation is to be retained. No amendments are required in the Sociology or Sociology/Anthropology sections of the calendar.

“2200, 2210, 2220, 2230, 2240, 2260, 2270, 2280, 2350, 3100, 3140, 3210, 3220, 3240, 3241, 3242, 3249, 3254-3257, 3260, 3314, 3317, 3318, 3320, 3330-3339, 3600, 3610, 3630, 3700, 4000, 4071, 4072, 4073, 4074, 4077, 4089, 4091, 4092, 4110, 4140-4149, 4990, 4991”

Insert the following new heading “Archaeology/Physical Anthropology Courses” with the following courses listed underneath with existing course descriptions and notes and in addition, delete the (A/P) designation for these courses:

“1030, 2430, 2480, 2481, 2490, 2491, 2492, 3020, 3040, 3290, 3291, 3500, 3505, 3510, 3515, 3520, 3525, 3561, 3580, 3582, 3584, 3585-3586, 3587, 3588, 3589, 3590, 3591, 3680-3689, 3710, 3800, 3850, 3860, 4015, 4041, 4042, 4050-4059, 4150, 4151, 4160-4169, 4170, 4182, 4190-4199, 4411, 4500, 4995, 4996”

Delete the designations of S/C, A/P, and Anthropology in prerequisites and credit restriction notes for the following courses, leaving only the course numbers for the prerequisites:

“2414, 2430, 2480, 2481, 3505, 3587, 3590, 3680-3689, 4041, 4070, 4151, 4160-4169, 4190-4199, 4411, 4500”

Amend the credit restriction note for Archaeology 1030 to read as follows:

“Credit may not be obtained for both Archaeology 1030 and the former Anthropology 1000 or 2000.”

Delete “Anthropology” from the note following Archaeology 3589 and insert “Archaeology” to read “... one of the following courses: Archaeology 2480, Folklore 1000 or ...”.

In the course description of Archaeology 3585-3586, amend the first sentence to read “offers students practical introductions to archaeological fieldwork (3585) and laboratory techniques (3586)”.

87.3 Marine Institute

A memo dated January 26, 2007 was received from the Secretary of Senate advising that at a meeting held on January 25, 2007, the Executive Committee of Senate considered the Marine Institute’s proposed calendar changes with regard to new course MSTM 4070 and changes to the Bachelor of Technology program (cover memo dated December 21, 2006). With regard to item “a. The English requirement is to be consistent with that approved by Senate for the Bachelor of Maritime Studies program” (as outlined in a memorandum dated December 8, 2006 from Dr. Peter Fisher, Head Degree Studies), the Executive Committee questioned whether or not proper consultation had occurred with the Department of English with respect to the proposed changes. As a result, it was agreed to refer this item back to the Senate Committee on Undergraduate Studies for consultation between officials of the Marine Institute and the Department of English with a view to reporting back prior to today’s meeting of Senate. However, since Senate did not receive confirmation of consultation, it was agreed to defer item “a. The English requirement is to be consistent with that approved by Senate for the Bachelor of Maritime Studies program” from consideration.

The motion to approve the following calendar changes which was moved by Professor Walsh, seconded by Dr. Lucas, carried.

Page 75, 2006-2007 Calendar, under the heading 4.2.1 Bachelor of Technology - Engineering and Applied Science Technology Option, in Table 3 under “Group A Electives”, add “MSTM 4070”.

87.4 School of Nursing

In a response to a question posed Dr. Tulett regarding how it can be determined whether or not a student is a registered nurse, Dr. Lefort noted that clause “4.1. Admission Requirements”, under clause 3.a., states:

“A registered Nurse is a Nurse who is currently registered in Newfoundland or eligible to register in Newfoundland, or is currently registered eligible for registration in the province/country in which (s)he resides.”

It was then moved by Professor Walsh, seconded by Dr. Lefort and carried that the proposed calendar changes for the School of Nursing be approved.

Page 361, 2006-2007 Calendar, under the heading 5.2 3 Credit Hour Courses, in Nursing 1015, amend the co-requisites and prerequisites as follows:

“CO: NURS 1004 or 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option
PR: NURS 1004 or 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option”

In Nursing 4103, delete “OR: tutorial 2 hours per week”.

Delete Nursing 4104 and replace with the following:
School of Nursing (cont’d)

“**3104 Nursing Research** builds on previously introduced research concepts. It explores the research process and its inherent ethical and legal implications. The course focuses on the acquisitions of concepts used to critically appraise nursing research studies and examines the relevance of these studies for nursing practice.

89. APPEAL TO SENATE

ECS 2006-07: #3 - Appeal against the decision of the Executive Committee of Senate to deny the student’s request for a waiver of Statistics 2500 which is a required course in his/her Bachelor of Nursing (Collaborative) degree program.

The student’s appeal was originally considered and denied by the Undergraduate Studies Committee, Western Regional School of Nursing. The student then appealed to the Senate Committee on Undergraduate Studies and at a meeting held on December 14, 2006, that Committee considered the appeal, and found that the procedure used by the Western School of Nursing was fair, and denied the student’s request for a waiver of Statistics 2500 which is a required course in his/her Bachelor of Nursing (Collaborative) degree program.

In a letter to the Executive Committee of Senate, the student appealed the decision of the Senate Committee on Undergraduate Studies. In reviewing the case, that Committee took into account the extenuating circumstances cited in his/her appeal. However, while the Committee did recognize that the student has been dealing with very difficult circumstances, it agreed with the Senate Committee on Undergraduate Studies that to grant him/her a waiver of Statistics 2500 would jeopardize the integrity of the program and it denied the student’s appeal. The Committee recommended that the student either avail of completing the course in the Winter Semester 2007 or submit a challenge for credit as per the University Regulations Clause 2.6 “Challenge for Credit”.

Following receipt of this student’s appeal to Senate, the Secretary of Senate requested that the Department of Mathematics and Statistics explore with the student the possibility of challenge for credit for Statistics 2500. However, in an email dated January 23, 2007, that Department advised that a challenge for credit may not be a suitable option for this student. In addition, the student has advised that he/she is unable to register for Statistics 2500 during the winter semester as it conflicts with the 12 week clinical nursing courses currently being taken.

It was then moved by Dr. Tulett, seconded by Dr. Sharpe that the student’s appeal be denied.

Following considerable discussion of the case, it was moved by Dr. Ashton, seconded by Dr. McKay and carried that the motion be amended to include the phrase “but that the student would be offered the opportunity to write a Challenge for Credit examination in Statistics 2500 prior to Spring Convocation 2007.” The vote on the amended motion was then taken and the amended motion carried by a majority vote. Since the student is currently completing his/her program of studies at Western Regional School of Nursing and at Sir Wilfred Grenfell College where Statistics 2500 is being offered during this winter semester, Dr. John Ashton, Principal of the College, agreed to be the student’s contact person with respect to the challenge for credit examination.
90. REPORT OF THE COMMITTEE ON SENATE ELECTIONS

A memorandum dated January 11, 2007, was received from the Committee on Senate Elections reporting the entitlement of each constituency to seats on Senate for the 2007-2008 academic year in accordance with the Procedures for Selection of Senate Members.

91. REMARKS FROM THE CHAIR - QUESTIONS/COMMENTS FROM SENATORS

In providing an update on the Senate agenda for March 13, 2007, the Chairman noted that to date, no new items of business have been received. He remarked that given the unusually large number of meetings of Senate held in the last six months (six regular meetings and five special meetings), Senate consider cancelling the March meeting. The Chair also noted that the April meeting will be busy with reports from the Committee on Honorary Degrees and Ceremonial regarding Professor Emeritus candidates, from the ad hoc Committee to Conduct a Review of the Undergraduate Appeals Procedures and the ad hoc Committee on Academic Integrity. There were no objections raised to cancelling the March 13, 2007 meeting of Senate if no new items of business are received.
