Penney.

The President opened the meeting by wishing Senators a Happy New Year and extending a welcome to Dr. G. Kealey as the newly appointed Dean of Graduate Studies. He also welcomed Dr. Frank Marsh, Assistant Deputy Minister of Education.

A number of observers were also in attendance.

46. APOLOGIES FOR ABSENCE

Dean I. Bowmer, Dr. S. Abhyankar, Dr. G. Burford, Dr. M. Haddara, Dr. M. Paul.

47. PRESIDENT'S REPORT

The President reported that the Board of Regents has now approved Minute 11.3 of the October 8, 1996 Senate Minutes in which Senate approved a proposed new Honours in Computer Science (Software Engineering) (B.Sc. only) degree programme.
In a previously circulated memorandum dated January 10, 1996, the President included his advice to the Board on this matter as follows:

"I recommend that the Board accept the decision of the Senate that the Computer Science Department offer the honours degree with a specialization in computer software engineering referred to in the pertinent minute of the November 1996 meeting of Senate. The Board should instruct the Registrar to include in the University Calendar an appropriate disclaimer indicating that this programme specialization does not lead to status as 'engineer', a term defined by various provincial acts and of potential legal consequence for the University.

I recommend further that this proposal be provisional for the Academic Years 1997/8 and 1998/9 and that the Board instruct the Vice-President (Academic) to prepare for consideration by Senate, its appropriate committees and the Board of Regents prior to December 1997 a university-wide academic plan for the provision of adequate programming in computer software engineering and related specializations. The Board will review progress in this area with considerations of resource efficiencies uppermost."

The President also advised that the formal launch of the Capital Campaign will take place in early May, 1997. He stated that a commitment had been received from the government to match, dollar for dollar, funds raised by the University. A number of pledges have been received from the corporate sector and a significant contribution has been received from the Council of Students' Union

48. MINUTES

The Minutes of the regular meeting held on December 10, 1996 were taken as read and confirmed.

Insert the following:
"The School of Social Work may deliver special offerings of the BSW, Diploma and/or other programs of the school to identified groups of out-of-province students where numbers warrant. These offerings will be self supporting, and therefore subject to an additional one-time non-refundable tuition fee as approved by the Board of Regents, and payable on first registration following formal admission to the program. Students will also pay appropriate tuition fees for each course registration during their tenure in the program.

Admission to the special offerings of these programs will be competitive, using the same procedures and standards that are in place for students applying to the St. John's campus program(s).

Subject to approval by the Committee on Undergraduate Studies for the School of Social Work, students admitted to an out-of-province program offering may apply to transfer to the equivalent program on the St. John's campus. In such instances, the fee structure under which the student was admitted will not change. Subject to approval by the Committee on Undergraduate Studies for the School of Social Work, students admitted to a St. John's based program offering may apply to transfer to the equivalent out-of-province program. These students will be required to pay a pro-rated one-time fee upon formal transfer to the special offering.

49.22 General Regulations C, D, E, G and J

Page 371, 1996–97 Calendar, following the heading General Regulations delete regulation C) in its entirety and replace with the following:

"C) REGISTRATION

1. Programme Registration

General Regulations C, D, E, G and J (cont'd)

a. All graduate students must be registered in each semester for the graduate programme registration appropriate to their discipline (see note) except during periods for which leaves of absence have
been granted (see C.6.). Students shall register for the semester in which their thesis is submitted for examination unless the thesis is submitted on or before the final day of the registration period as defined by the Office of the Registrar. For the purpose of this regulation, a thesis has been submitted when it has been delivered to the Office of the Dean of Graduate Studies in the prescribed form.

Note: e.g. Linguistics 9000, Chemistry 9000 or, in the case of Medicine, Medicine 9900

b. A student registered in a diploma, Master's or Ph.D. programme may not concurrently pursue studies leading to any other degree without the prior approval of the Dean.

2. Programme Withdrawal

a. Students intending to withdraw from their programme must inform the Dean of Graduate Studies in writing. The period of withdrawal from a programme without incurring liability for that semester's fees in three weeks after the first day of lectures in the semester in question, as stated in the University Diary.

3. Course Registration

(Note: For interdisciplinary programmes, the Head of the academic unit is the Dean of Graduate Studies.)

a. Students will register for courses at the times indicated in the University Diary.

b. Students not admitted to a graduate programme may enroll in graduate courses with the permission of the Head of the appropriate academic unit.

4. Changes in Course Registrations

(Note: For interdisciplinary programmes, the Head of the academic unit is the Dean of Graduate Studies.)

a. Within two weeks following the first day of lectures in any semester, as stated in the University Diary, a graduate student may,
upon the approval of the appropriate Head of academic unit, add a course or courses to his or her registration for that semester.

b. Within seven weeks after the first day of lectures in any semester, as stated in the University Diary, a graduate student may, upon the approval of the appropriate Head of academic unit, drop a course or courses from his or her registration for that semester without prejudice.

c. After the period described in (b) above has expired, any student who is prevented by illness, bereavement or other acceptable cause, duly authenticated in writing, from completing a course may apply to the Head of the appropriate academic unit to drop the course without prejudice.

5. Period of Study

Each student in graduate studies shall spend such time in the programme as decided by the academic unit of specialization and approved by the Dean, provided that every candidate for a degree shall spend at least one academic year as a graduate student at this University. The maximum period of a graduate programme is seven years beyond first registration.

6. Leaves of Absence

a) A leave of absence is a period of time during which a student is not required to register; no fees are assessed; and the time granted is not counted in the maximum time period permitted for a graduate programme (see General Regulation D.5.a.).

b) In the event that circumstances prevent a student from pursuing his/her programme, the student may apply to the Dean of Graduate Studies for a leave of absence.

c) A student may normally apply for only one leave of absence during his/her programme. The maximum length of a leave of absence may not exceed 12 months.

d) An application for leave will normally be made before the end of the registration period in the first semester for which leave is requested. Under no circumstances will retroactive leaves of
absence be granted for semesters prior to the one in which the student is currently registered."

Page 372, delete regulation D) in its entirety and replace with the following:

"D) PROGRAMME REQUIREMENTS

(Note: Every candidate shall complete a programme of study as recommended by the Head of the academic unit, in consultation with the Supervisory Committee and approved by the Dean of Graduate Studies. See General Regulation B.2.)

1. Diploma and Master's Programmes

   a. Candidates should consult the appropriate Degree and Department/Faculty/School regulations for information concerning the specific programme requirements.

2. Ph.D. Programme

   a. Each candidate is required to pass a comprehensive examination (see General Regulation H.2.)

   b. Each candidate shall present a thesis embodying the results of original research.

   c. Candidates should consult the appropriate Department/Faculty/School regulations for information concerning the number and specific credit hours that may be required for a programme.

   d. Candidates may pursue a specified part of their research elsewhere provided that prior permission has been obtained from the Dean on the recommendation of the Head of the academic unit in consultation with the Supervisory Committee.

3. Changes in Programmes

   a. Any changes in the candidates's programme of studies must be approved by the Dean of Graduate Studies on the recommendation of the appropriate academic unit.
4. Research Involving Animals

The Animal Care Unit offers a seminar in animal care at least once annually. The seminar is administered by the School of Graduate Studies. All graduate students whose degree requirements involve experimentation on living vertebrate animals are required to attend this seminar normally at the first offering following commencement of their programme.

5. Year of Degree and Departmental Regulations

a. A student completing a graduate degree programme in the School of Graduate Studies will follow the degree and department/faculty/school regulations in effect in the year in which the student first registers for his/her current programme. However, students may elect to follow regulations introduced subsequent to their registration.

b. When there is doubt as to which degree or departmental regulations may be followed, the Academic Council of the School of Graduate Studies will decide which are the appropriate regulations.

c. Notwithstanding these guidelines, the University may place limits on the time permitted to complete a programme under any given set of regulations. In addition, detailed scheduling of courses and/or work periods may be changed as the University deems appropriate or necessary.

6. Transfer of Course Credits

All such transfers require the approval of the Dean of Graduate Studies, on the recommendation of the head of the appropriate academic unit.

a. A student who has successfully completed graduate courses at Memorial University prior to admission to a graduate programme may apply to transfer appropriate courses to that programme, provided such courses have not been used to satisfy other degree requirements.
b. A student who has successfully completed graduate courses as part of one graduate programme at Memorial University, and who is subsequently admitted to another programme, may apply to transfer appropriate courses to the current programme, provided such courses have not been used to satisfy other degree requirements.

c. A student who has successfully completed graduate courses at another institution recognized by Senate may, on admission to a graduate programme at Memorial University, apply to transfer appropriate courses to the current programme, provided such courses have not been used to satisfy other degree requirements.

d. In programmes requiring a minimum of twelve credit hours or more, transfer of credit hours in graduate courses referred to in (a), (b) and (c) above shall not exceed 30% of the total number of credit hours required. In programmes requiring fewer than twelve credit hours, a maximum of three credit hours in graduate courses referred to in (a), (b) and (c) above shall be considered eligible for transfer.

e. Graduate courses referred to in (a), (b) and (c) above shall not be considered eligible for transfer if they have been completed more than seven years prior to the date of admission into the current programme."

"E) PROVISION FOR WAIVER OF REGULATIONS

Academic regulations notwithstanding, the University reserves the right in special circumstances, to modify, alter or waive any regulation in its application to individual students where, in the judgement of the appropriate University Officer or Committee, there is sufficient justification for doing so.

i. Waivers of course prerequisites/corequisites may be granted by the Head of an academic unit."
ii. Waivers of departmental regulations may be granted by the Dean of Graduate Studies on the recommendation of the Head of an academic unit.

iii. Requests for waiver of a degree or general regulation must be submitted to the Academic Council of the School of Graduate Studies."

iv. All other academic requirements of the academic unit concerned."

49.23 Master of Maritime Studies (Fisheries Resource Management)

At a meeting held on November 12, 1996, Senate agreed to table the proposal for the Master of Maritime Studies (Fisheries Resource Management) degree programme until the Academic Council of the Fisheries and Marine Institute had been given the opportunity to review the programme.

A memorandum dated December 16, 1996 has now been received from the Academic Council of the School of Graduate Studies advising that consultation has now taken place with representatives of the Marine Institute and some changes have now been agreed upon to make the proposed calendar entry conform to the General Regulations.

It was moved by Dean Kealey, seconded by Mr. O'Reilly and carried that the item be lifted from the table and considered.

It was moved by Mr. O'Reilly, seconded by Dean Kealey and carried that the name of the programme be changed to Master of Marine Studies (Fisheries Resource Management).

It was then moved by Dean Kealey, seconded by Mr. O'Reilly and carried that the proposal for the Master of Marine Studies (Fisheries Resource Management) degree programme be approved.

Calendar entry:
"REGULATIONS GOVERNING THE DEGREE OF MASTER OF MARINE STUDIES (FISHERIES RESOURCE MANAGEMENT)

The programme will be administered by a Programme Committee consisting of five members appointed by the Dean of Graduate Studies.

The degree Master of Marine Studies (Fisheries Resource Management) is a multi-disciplinary programme of study which will provide the candidate with exposure to all dimensions of modern Fisheries Resource Management. The programme is available on a full-time or part-time basis to students who have an undergraduate degree and some exposure to the fishery. All candidates must take the full complement of 21 credit hours plus a required seminar and must submit a substantial report on a topic chosen in consultation with the Programme Committee. Candidates registered on a full-time basis will normally complete the programme in one academic year.

A) QUALIFICATIONS FOR ADMISSION

1. Admission to the programme is on a competitive basis. A maximum of 15 students will be admitted in any one year. To be considered for admission to the programme an applicant must normally have an undergraduate degree with a minimum of a high second class standing from an institution recognized by the Senate.

2. In addition to the academic requirements in (1) applicants must normally demonstrate several years of commitment to fisheries through employment directly in one sector of the fishery, in a regulatory agency or government department connected to fisheries, in a non-governmental agency, or through self employment or consulting related to fisheries.

3. Applicants must submit, along with the normal academic application form, a letter outlining their reasons for applying for admission to the programme and their expectations from the programme.

4. In exceptional cases persons who do not meet the requirements specified in (1) but who have a significant connection to fisheries
and demonstrated experience at a level acceptable to the Programme Committee may be admitted. Such persons will undergo an extensive interview by the Programme Committee before being admitted.

5. Students will normally only be admitted to the programme in September. Applications for admission in September must be received no later than April 30 of the year in which admission is sought.

B) PROGRAMME OF STUDY

1. The programme consists of 21 credit hours which will normally consist of the courses numbered 6001–6007 listed below, the seminar course and the major report. Each course will normally be offered only once in an academic year with four courses offered in the Fall Semester and four, including the Seminar course offered in the Winter. Candidates are expected to undertake and complete the work required for the Report in the Summer Semester. Those admitted as full-time students at the beginning of an academic year in September will normally complete all requirements for the programme, including the Report by the end of the academic year, i.e., the following August.

2. A waiver of a programme course may be granted by the Dean of Graduate Studies on the recommendation of the Programme Committee if the candidate can demonstrate to the Programme Committee that the material in the course has been substantially covered by a course taken at this or another recognized university. In such cases the course must be replaced by another course by the candidate in consultation with, and approved by, the Programme Committee. This replacement course must be taken during the candidate's period of enrollment in the programme.

C) EVALUATION

1. Candidates for the Masters Degree must obtain a grade of B or better in all programme courses and successfully complete the seminar and the major report.

2. Candidates who have received a grade less than a B in a programme course will be permitted to remain in the programme,
provided the course is retaken and passed with a grade of B or better. Alternatively the candidate may, on the recommendation of the Programme Committee, substitute another graduate course. Only one such repeat or substitution will be permitted in the programme.

3. The major report is a fundamental component of the programme. The topic of the report will be chosen by the candidate in consultation with the Programme Committee. Normally the report will be multi-disciplinary in nature, although in exceptional circumstances it may be undertaken in a single discipline. The report will be 10,000–15,000 words in length and will normally be undertaken in the final semester of the programme. It will be assessed in accordance with General Regulation J of the School of Graduate Studies.

49.24 Revision to M.S.W. – School of Social Work

Page 416, 1996–97 Calendar following the heading Regulations Governing the Degree of Master of Social Work insert the following before Regulation A):

"The School of Social Work may deliver special offerings of the MSW and/or other programs of the school to identified groups of out-of-
province students where numbers warrant. These offerings will be self supporting, and therefore subject to an additional one-time non-refundable tuition fee as approved by the Board of Regents, and payable on first registration following formal admission to the program. Students will also pay appropriate tuition fees for each semester during their tenure in the program.

Admission to the special offerings of these programs will be competitive, using the same procedures and standards that are in place for students applying to the St. John's campus program(s).

Subject to approval by the Committee on Graduate Studies for the School of Social Work, students admitted to an out-of-province program offering may apply to transfer to the equivalent program on the St. John's campus. In such instances, the fee structure under which the student was admitted will not change. Subject to approval by the Committee on Graduate Studies for the School of Social Work, students admitted to a St. John's based program offering may apply to transfer to the equivalent out-of-province program. In these instances, students transferring from the St. John's based program offerings to an equivalent out-of-province offering will be required to pay a pro-rated one-time fee upon formal transfer to the special offering."

1. The degree of Master of Science in Chemistry is offered as full-time or part-time study.

a. Preference for admission will be given to students with a B.Sc. (honours) degree in Chemistry from a recognized university.

b. Students holding a B.Sc. degree in Chemistry from a university of recognized standing with a minimum overall average of 65% and minimum average of 65% in all Chemistry courses taken after the first year will be considered for admission to the Chemistry M.Sc. programme. Students not admissible under 1.a. may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.

c. Students with a first class B.Sc. in an area other than Chemistry will also be considered for admission. Students not acceptable under 1.a. or 1.b. who have a strong background in an appropriate area of specialization may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.

d. Candidates are normally required to write American Chemical Society (ACS) placement test(s) in the first two weeks of the initial semester of registration in order to determine an appropriate course programme.

2. Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on the recommendation of the Chemistry Deputy Head (Graduate Studies).

3. The programme of a candidate must be arranged by the supervisor before the second semester of registration in consultation with the Supervisory Committee and the student. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate’s programme, and, in consultation with the student, to prepare written annual progress reports for submission to the Dean of Graduate Studies.
4. Candidates are normally required to successfully complete Chemistry 6001 (Master's Seminar) and a minimum of six credit hours of graduate Chemistry courses with a minimum B grade. Additional programme courses may be assigned by the Supervisory Committee.

5. Candidates are required to attend Departmental seminars.

6. Candidates must submit a thesis deemed acceptable to two examiners as described in the M.Sc. general regulations. An oral defence is not required.

The degree of Master of Science is offered in Experimental Psychology. The degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the sections in the Calendar describing the Master of Science in Applied Social Psychology (Cooperative) programme and the Master of Science and Doctor of Philosophy in Biopsychology programmes.
Applications

1. All applicants are required to submit results from the General section of the Graduate Record Examinations.

2. At least one letter of reference should come from someone who is familiar with the applicant's research capability.

3. Applicants applying to programmes in Cognitive, Perception and Animal Learning are required to submit with their applications an example of their academic writing. This could include, but is not limited to, papers submitted in class, honour's thesis, etc.

MASTER OF SCIENCE

A candidate may be accepted into a programme leading to the M.Sc. in Experimental Psychology.

Experimental Psychology

The areas of specialization offered are:

a) Cognition, Perception and Motor Behaviour
b) Learning and Behavioural Pharmacology
c) Animal Behaviour
d) Social Psychology
e) Behavioural Neuroscience
f) Life-Span Developmental Psychology

Every candidate shall normally complete 18 credit hours. At the beginning of his/her programme, the student will normally be required to take Advanced Statistics in Psychology (6000) unless he or she has already passed an equivalent Honours or Graduate course. Other courses in statistics (6001) may be required on an individual student's programme. The courses which make up the balance of the individual's programme will be chosen to best suit
the area of specialization. In addition, every candidate shall submit an original thesis based upon an approved experimental research topic.

COURSES

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000. Advanced Statistics in Psychology
6001. Research Design

49.29 Report of the Senate Committee on Undergraduate Scholarships and Financial Aid
A memorandum dated November 28, 1996 was received from the Committee on Undergraduate Scholarships and Financial Aid recommending that students of high academic standing who have been given offered early scholarships should have priority access to courses. The Committee feels that this would be a very positive move in keeping with Memorial's continuing efforts to recruit the province's top students and to help keep them at this university.

It was moved by Dean Ludlow, seconded by Ms. Johnston and carried that the recommendation of the Committee on Undergraduate Scholarships and Financial be approved and that the following amendment be made to the Registration Priority Policy:

Delete Clause 2 and replace with the following:

2. Students (other than transfer students) admitted to their first semester and contiguous second semester and who therefore have no attempted credits or gpa will be given priority in registration. Within this group students who have received early offers of scholarships from Memorial University prior to the commencement of the registration cycle will be given the opportunity to register first. All other students in this group will be ranked based on surname, alternating each semester between starting with surnames that begin with "A" and starting with surnames that begin with "M".

49.30 Report of the Committee on Committees

On behalf of the Committee on Committees Dean Kealey moved that the appointment of Mr. Trevor Avery to replace Mr. Terry Hewlin as graduate student representative on the Advisory Committee on the Library be approved. The motion was seconded by Mr. Collins and carried.

53. OTHER BUSINESS

A discussion was initiated regarding the January 10, 1997 memorandum from the President to the Board of Regents regarding the Honours in Computer Science (Software Engineering) (B.Sc. only) degree programme.

In answer to questions from Dr. Maxwell and Dr. Wolinetz regarding why the approval of the programme by the Board was on a provisional basis, the President advised that this is a means whereby dialogue can continue between the Faculty of Engineering and Applied Science and the Faculty of Science as well as other interested sectors of the University to ensure the best use is being made of the University's resources.

Dean I. Bowmer, Dr. S. Abhyankar, Dr. G. Burford, Dr. M. Haddara, Dr. M. Paul.

57. Re–Thinking Delivery of Distance Education

Dr. Tuinman introduced the topic for the special meeting – "Re–Thinking Distance Education", and delivered a slide presentation and commentary on this subject.

He noted the increasing use of technology in the delivery of certain courses and referred as examples to the introduction of a new multi–media language laboratory in the Faculty of Arts, a physics simulation laboratory in the Faculty of Science, a "high–tech” lecture theatre in the Faculty of Business Administration, networked computer laboratories in Education, as well as the offering of the first Web courses.
Dr. Tuinman indicated that he is proposing to develop a Faculty Instructional Support Center (FISC) dedicated to the:

- Stimulation of instructional innovation;
- "High-end" support of curriculum development;
- Delivery of distance education where warranted;
- Operation and integration of educational networks.

Dr. Tuinman ended his presentation by noting that he would like to stimulate more debate on this topic and to this end he would be interested in further discussions at the faculty, school, college, institute or departmental level. Following the presentation, at the invitation of Dr. Tuinman, a number of senators raised questions and made comments about the implications of the suggestions outlined in the presentation with regard to teaching and learning.

58. ADJOURNMENT

The meeting adjourned at 6:00 p.m.
