111. MINUTES

The Minutes of the meeting held on May 9, 2000 were taken as read and confirmed.

112. Report of the Steering Committee on Course Evaluations

At the request of the graduate student representatives, it was agreed to change the order of the agenda so that the Report of the Steering Committee on Course Evaluations could be considered as the first item of business.

At a meeting held on April 11, 2000, Senate agreed that the Report of the Steering Committee on Course Evaluations be tabled and that
a copy of the report be forwarded to the Faculty Association requesting input.

A memorandum dated May 12, 2000, has now been received from Dr. N. Roy on behalf of the Executive of MUNFA advising that the use of course and teaching evaluation data in meeting criteria for tenure and promotion is at the option of the faculty member, and expressing concern that the implementation of a universal course evaluations policy as outlined in the Report would be at odds with the Collective Agreement. The MUNFA Executive requested that the policies and procedures outlined in the Report be modified to indicate that the use of the proposed course evaluation questionnaire is at the option of the faculty member presenting the course.

The MUNFA Executive also requested the deletion of point 5.3 of Appendix D of the Report, Administrative Policies and Procedures, stating that it has the potential to mislead. Point 5.3 reads as follows:

Reports (as specified in sections 4.2 and 4.3) shall be sent to Administrative Heads of academic units for courses within their unit, and shall be used by such committees and for such purposes, as are stipulated by University policies and the MUNFA Collective Agreement.

Professor Graesser, a member of the Committee on Course Evaluations, re-introduced the report stating that there were several reasons why Senate has advanced the matter to this point, i.e.

- It will be a tangible way for the University to implement its ongoing commitment to excellence in teaching

- It will be convenient for academic units as well as consistent throughout the University.

- A committee will be put in place to conduct the course evaluation questionnaire and to put forward to Senate suggestions for amendments, etc.
He commented on the concerns raised by the MUNFA Executive and noted his disagreement with the suggestion that a Senate regulation that mandates a university wide student rating system would conflict with the Collective Agreement. Professor Graesser noted that there are other legitimate uses for the data other than for promotion and tenure and the Collective Agreement does not state that such data cannot be collected throughout the University.

Dr. Bear asked if the questionnaire would be anonymous and if there would be a mechanism in place for questioning or rectifying any discrepancies in the results of the questionnaire.

Professor Graesser confirmed that the questionnaire would be anonymous (no names or student numbers).

The President advised that if the policy is approved, then it is incumbent on Senate to deal with any potential misuse of the instrument. He noted that it is within the power of Senate to make any necessary changes to the policy, depending on the particular concerns which are raised. He also commented that the evaluation process would be monitored for the first number of times that it is administered and regular reports will be made to Senate to ensure that the objectives which are set are being met.

It was moved by Mr. Dunne, seconded by Dean Murphy and carried that Recommendations 1, 2 and 3 of the Report (including Appendices D and E) be approved as follows:

* That Memorial University adopts the Core Evaluation Questionnaire (CEQ) as a universal questionnaire.

* That the CEQ be administered in accordance with the attached Policies and Procedures.

* That the administration and dissemination of the results of the CEQ be supervised by a standing Committee of Senate as described in the attached appendix.
It was moved by Mr. Harvey, seconded by Dean Kealey and carried that point 5.3 of Appendix D be amended to read as follows:

Reports (as specified in sections 4.2 and 4.3) shall be sent to Administrative Heads of academic units for courses within their unit, and shall be used by such committees and for such purposes, as are stipulated by University policies and the MUNFA Collective Agreement. Such data should not be used in the Promotion and Tenure process unless there is concurrence from the faculty member.

Dr. Kealey agreed with Dr. Bear's comment that while this amendment is unnecessary because it is included in the Collective Agreement, it is important for Senate to express its support since the statement will provide guidance to the process.

It was moved by Dr. Bear and seconded by Dr. McKay that clause 1.1 of Appendix D. be amended to include the sentence "The use of the proposed questionnaire shall be optional on the part of the instructor". When put to a vote, the motion to amend was DEFEATED.

The vote was then taken on the main motion which was carried.

At a meeting of the Executive Committee of Senate held on May 31, 2000 it was agreed that the letter be submitted to Senate and that a copy be forwarded to the Chair of the Committee on Committees requesting that, in light of the contents of Ms. Ryan's letter, the proposed membership of the ad hoc Committee to consider an Application for Re-admission from Student #766326, as outlined in a memorandum dated 26 May 2000, be reviewed.

118. Revised University Policy on Integrity in Scholarly Research

At a meeting held on February 8, 2000, at the request of Dr. Keough, Senate agreed to defer consideration of this item since the language in the Collective Agreement relating to this issue was still under discussion at the bargaining table.

A memorandum dated May 30, 2000, was received from the Office of Research forwarding a revised University Policy on Integrity in Scholarly Research which incorporates a number of additional revisions to the earlier document dated October 19, 1999.

Dr. Keough introduced the document and outlined the various revisions which had been made to the document.

It was moved by Dr. Keough and seconded by Dr. Kealey to adopt the revised version of the policy.

A lengthy discussion ensued and it was agreed that the following points be relayed to the Committee on Research:

- A suggestion that point 4. of Section II, Integrity in Scholarly Research, be amended to read as follows:

  - ensuring access to the data resulting from scholarly activity for a reasonable period of time, except where such access could violate the anonymity of subjects or the confidentiality of data;
o Concern that the second sentence on page 2 regarding destruction of material is problematic, since long term storage is expected except where it is decided between the researcher and the subject that such storage is not necessary or appropriate.

o A question regarding whether the omission of staff and faculty colleagues from the section on page 2. dealing with exploitation of students is deliberate or an oversight.

o A question regarding the remedies which may be available if senior academic administrators default on their duties as outlined in section IV.

o Concern that Section V, Investigating Reports of Misconduct in Research does not make provision for oral complaints, in the event that a person does not wish to put a complaint in writing.

o A question as to whether or not the procedures should cover the unlikely circumstance where the President is the subject of the complaint.

It was agreed that the document be referred back to the Committee on Research noting the above and other comments which Senators may wish to forward individually to the Committee.
