Grant, M., B.Sc., M.Sc. *British Columbia, Ph.D. McMaster; Joint appointment with Laboratory Medicine*

Associate Professors of Immunology

Drover, S., M.Sc., Ph.D. *Memorial*

Hirasawa, K., Bc.D., Ph.D. *Tokyo*

Assistant Professors of Immunology

Larijani, M., B.Sc.(Hons.), Ph.D. *Toronto; Cross appointment with Discipline of Oncology*

Russell, R., M.Sc. *Memorial, Ph.D. McGill*

Professor of Endocrinology

Carayanniotis, G., B.Sc. *Patras, Ph.D. Toronto; Joint appointment with Medicine*

Professors of Oncology

Church, J., B.Sc.(Hons.) *Queen's, M.Sc., Ph.D. Toronto*

Gillespie, L.L., B.Sc., Ph.D. *Ottawa*

Kao, K.R., B.Sc., M.Sc., Ph.D. *Toronto*

Paterno, G.D., B.Sc., M.Sc. *Toronto, Ph.D. Ottawa*

Professor of Cancer/Cardiovascular Biology

Gendron, R., B.Sc., Ph.D. *McGill; Cross appointment with Oncology*

Professor of Vascular Molecular Biology/Pediatric Cancers

Paradis, H., B.Sc., Ph.D. *Montreal*

Associate Professor of Cardiovascular Cellular and Molecular Physiology

Stuyvers, B.D., B.Sc., M.Sc., Ph.D. *Bordeaux, France*

Associate Professor of Cell Biology

Doré, J., B.Sc. *UBC, M.S. Florida, Ph.D. Tennessee*

Professor of Pharmacology (Cardiovascular)

Tabrizchi, R., B.Sc.(Hons.) *Sunderland, M.Sc., Ph.D. British Columbia*

Professor of Physiology

McKay, D., B.Sc., M.S., Ph.D. *Michigan State*

Associate Professor of Cardiovascular Sciences

McGuire, J.J., B.Sc.(Hons.), Ph.D. *Queen's University of Kingston*

Associate Professor of Reproductive and Cell Biology/Physiology

MacPhee, D., B.Sc.(Hons.) *Prince Edward Island, Ph.D. Western Ontario; Cross appointment with Biochemistry*

Associate Professor of Neurosciences

Hirasawa, M., Bc.D., Ph.D. *Tokyo*

Assistant Professor of Neurosciences

Vanderluit, J.L., B.A./BPHED *Ontario, M.Sc. Ottawa, Ph.D. British Columbia*

Professors of Cardiovascular/Renal Physiology

Smeda, J., B.Sc.(Hons.), M.Sc. *Brock, Ph.D. McMaster*

Van Vliet, B.N., B.Sc. *Toronto, Ph.D. Saskatchewan*

Professor (Biological Psychiatry)

Chen, X., M.B. *China, Ph.D. Cambridge; Joint appointment with Psychiatry*

Professor (Oncology Research)

Richardson, V.J., B.Sc., Ph.D. *Sheffield*

Joint Appointment with Medicine

Vasdev, S.C., B.Sc., M.Sc., Ph.D., D.V.M. *Punjab*

Cross Appointments from Biochemistry

Brosnan, J.T., B.Sc.(Hons.), M.Sc. *National University of Ireland, D.Phil. Oxford; University Research Professor, Awarded 1990; CIHR Senior Investigator*

Brosnan, M.E., B.A.(Hons.), M.Sc., Ph.D. *Toronto*

Christian, S., B.Sc. (Hons.) *Alberta, Ph.D. British Columbia*

Kaur, S., B.Sc. *Punjab, M.Sc. Punjab Agricultural, Ph.D. Post Graduate Institute of Medical Education and Research*

Cross Appoinment from Genetics

Young, T., Ph.D. *Memorial; Winner of the President's Award for Outstanding Research, 2009*

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Background

The Faculty of Medicine of Memorial University of Newfoundland is one of 17 Canadian medical schools and was one of the four schools suggested by the Hall Royal Commission on Canadian Health Services in its 1964 report.

A series of meetings was begun in 1963 between representatives of Memorial University of Newfoundland, the Newfoundland Medical Association, and the Department of Health of the Government of Newfoundland and Labrador. Following the Hall Commission's recommendation and on the basis of positive advice from Dr. J. Wendell MacLeod, Executive Secretary of the Association of Canadian Medical Colleges, and Dr. Chester B. Stewart, Dean of Medicine at Dalhousie University, Halifax, Nova Scotia, Memorial University of Newfoundland established a Commission in 1965 to undertake a feasibility study. The late Dr. J.A. MacFarlane, formerly Dean of Medicine at the University of Toronto, and a member of the Hall Royal Commission served as chairman. The MacFarlane Commission's recommendation that a Medical School be established at Memorial University of Newfoundland was confirmed independently by a Royal Commission on Health Services for Newfoundland and Labrador. The chairman of this latter Commission, Lord Brain, an eminent British medical educator, and his advisors, reported that the location of a medical school in the Province was a necessary step in the provision of adequate medical services for Newfoundland.

Dr. Ian Rusted, a local physician who had been involved in the early negotiations and had taken the initiative in introducing continuing medical education for doctors in the Province, was appointed Dean of Medicine in 1967. Under his leadership, faculty members were recruited, the undergraduate program was initiated and the first medical students were admitted in 1969. The existing programs of postgraduate training and continuing medical education were strengthened and the spectrum of medical education was subsequently completed in 1971 with the initiation of a program of graduate studies leading to the degrees of M.Sc. and Ph.D.

The undergraduate curriculum was designed to foster integrated learning and to permit contact with patients early in the student's training. To facilitate this integrated approach the administration of the school was set up as a non-departmental system based on three Divisions: Community Health, BioMedical Sciences and Clinical Sciences.

Initially the Faculty of Medicine was housed in temporary buildings. With joint funding by the Federal and Provincial Governments, a Health Sciences Centre (HSC) was constructed on the North Campus of the University and was officially opened in 1978. This new building became home to the Faculty of Medicine General Hospital and the School of Nursing. Over time the building was expanded, and now it also houses the School of Pharmacy, the Janeway Children's Health and Rehabilitation Centre, the Dr. H. Bliss Murphy Cancer Centre and the Agnes Cowan Hostel. The Health Sciences Centre contains a comprehensive health sciences library, animal care and research facilities, plus an appropriate range of teaching facilities to accommodate large lectures and demonstrations, small group discussions and seminars, clinical skills and laboratory sessions. The structure of the Health Sciences Centre facilitates integration between basic scientists, clinicians and allied health workers in the hospital, the University and the community. Clinical

research facilities are located adjacent to basic research units and some research laboratories provide services in clinical investigation. Services such as cafeteria and stores are common to the Faculty of Medicine and the Eastern Regional Health Authority.

The General Hospital and Janeway Children's Health and Rehabilitation Centre are part of a network of teaching hospitals in St. John's and throughout the Province. The conventional use of major referral centres as teaching resources is complemented by the availability of regional and community hospitals to provide valuable clinical experience for undergraduate and postgraduate medical students.

In contrast to many other schools, the class size at the University's Medical School is small. This facilitates interaction between students and faculty, and has obvious advantages in clinical teaching. Normally 60 students are admitted annually to the first year of the undergraduate medical program.

Additional information regarding the Faculty of Medicine is available at www.med.mun.ca/medicine/home.aspx.

3 Mission and Objectives of the Faculty of Medicine

The Mission of the Faculty of Medicine is to enhance the health of the people of Newfoundland and Labrador by educating physicians and health scientists; by conducting research in clinical and BioMedical Sciences and applied health sciences and by promoting the skills and attitudes of lifelong learning

The objectives of the Faculty of Medicine are consistent with the objectives of Memorial University of Newfoundland in developing and maintaining excellence in the quality of its academic standards and of research, establishing programs to meet the expanding needs of the Province and of providing the means to reach out to all the people.

The Faculty seeks to attain these objectives through an organizational structure which allows optimum interaction among the various disciplines within the Medical School and with other Faculties and Schools as appropriate.

The term 'Medical School' refers to the wider organizational structure of the Faculty of Medicine with various healthcare, institutions, community organizations and other academic units with the University.

The specific objectives are:

1. To teach medical students to be physicians; and to provide such learning experiences as will inspire all medical graduates of the school to be prepared to practice medicine at the highest standards, serving all individuals and societies in the pursuit of health.
2. To acknowledge the special geography of this Province by encouraging the education of physicians with exemplary skills for rural practice.
3. To educate and train graduate and diploma students in the health sciences.
4. To provide postgraduate educational experiences in medicine and the medical sciences such that the graduating Canadian physicians will pursue further studies within the school's postgraduate programs, leading to certification in family medicine or specialist subjects, especially in those areas where deficiency in numbers is currently recognized or anticipated.
5. To instill within students at all levels:
 - a. The wish and the capacity to further the practice and science of medicine through the creation of new knowledge for the improvement of the health of the world's peoples.
 - b. The wish and the capacity to improve their own professional practice through continuing self-assessment and scholarship.
 - c. An appreciation of their evolving roles as members of a team of professionals possessing complementary skills.
6. To attract faculty members who will together:
 - a. Act as a resource in providing undergraduate, graduate, postgraduate, and continuing medical education.
 - b. Contribute to the advancement of educational methods.
 - c. Practice the highest quality of primary, secondary, or tertiary care medicine.
 - d. Show leadership in promoting research into the health of the individual and the community, including the organization of health care delivery systems.
 - e. Facilitate and promote education and research appropriate to our mid North-Atlantic environment.
7. To provide educational experiences in the health sciences to students from other Schools or Faculties of Memorial University of Newfoundland and of other educational institutions.
8. To provide Continuing Medical Education experiences which will help physicians to maintain and enhance their competence in medical skills.
9. To provide a learning environment for undergraduate, graduate, and postgraduate students of medicine and the medical sciences who are citizens of other countries.
10. Actively to provide an Informational, Educational and Consultative resource for the whole community.

4 Affiliated Teaching Sites

1. Within St. John's: (hospitals and other centres under the Eastern Regional Health Authority)
2. Outside St. John's: (hospital/community settings)
3. New Brunswick: (hospital/community settings)
4. Prince Edward Island: (community settings)

5 Description of Medical Training Program

The Faculty of Medicine offers a four-year undergraduate medical program, comprising a minimum of 186 credit hours, leading to the degree of Doctor of Medicine (M.D.).

The program begins with a two-year Pre-Clerkship. Courses covering topics in community health and clinical skills run throughout most of the Pre-Clerkship whereas basic science sessions occur early in the first year. Later in the first year of medical studies and continuing throughout most of the second year, students pursue an integrated study of disease. By the end of the Pre-Clerkship, students are expected to be able to take a patient's medical history, perform a thorough physical examination and to derive a logical diagnosis. The Clerkship Preparation Course is completed prior to commencing the Clerkship. The Clerkship comprises the remainder of the medical studies program. During this time students, who are clinical clerks, take courses that will allow them to alternate through major disciplines in hospital and community settings throughout affiliated teaching sites in Newfoundland and Labrador and community and hospital settings throughout Prince Edward Island and New Brunswick. Clinical clerks participate as members of the health care team gaining the knowledge and experience necessary to assume the responsibilities associated with patient care.

Medical students are required to participate fully in medical education experiences which occur at various times and communities outside of the St. John's metropolitan area throughout the undergraduate medical education program.

Upon successful completion of medical studies, the students are qualified to write Part I of the licensing examinations set by the Medical Council of Canada (MCC). After the award of the M.D. degree and following successful completion of one year of postgraduate training, they are qualified to write Part II of the MCC licensing examinations.

6 Continuing Medical Education

The Faculty of Medicine's Office of Professional Development and Conferencing Services delivers accredited continuing medical education (CME) programs and plays a major role in meeting the professional development needs of health care professionals throughout Newfoundland and Labrador and across Canada. CME is offered through a variety of formats, including teleconferencing, video-conferencing, online and onsite. Faculty development programs are designed specifically to assist faculty members in their own unique educational requirements. Educational assessments and retraining experiences are available to physicians, international medical graduates and health care practitioners who meet the criteria. The Office of Professional Development and Conferencing Services is committed to assisting students, faculty members, and physicians in meeting their educational requirements.

7 Postgraduate Medical Training Programs

Postgraduate medical training is offered in programs leading to certification by either the College of Family Physicians of Canada (CFPC) or the Royal College of Physicians and Surgeons of Canada (RCPSC). These are full-time training programs comprised of hands-on-practical training complemented by formal teaching and academic study. The programs are completed in a structured learning environment consisting of hospital and community based teaching units, supervised by faculty. The level of responsibility afforded the student is based on regular evaluation of abilities by faculty. The Postgraduate training programs are accredited by the CFPC or the RCPSC and the appropriate licensing authorities.

Postgraduate entry positions are available through the Canadian Residency Matching Service. For further information write to The CaRMS Office, Suite 802, 151 Slater Street, Ottawa, Ontario K1P 5H3, or by telephone to (613) 237-0075, or toll free to (800) 291-3727, or the website at www.carms.ca.

Medical students and residents are required to participate fully in medical education experiences which occur at various times and communities outside of the St. John's metropolitan area throughout the medical education programs.

7.1 Family Medicine/Emergency Medicine

The University offers a two-year residency in Family Medicine. This leads to eligibility for certification by the College of Family Physicians of Canada. Emergency Medicine is a one-year program of specialty training. Successful completion of this program will lead to eligibility to sit the CCFP EM certification examination in emergency medicine.

7.2 Other Residency Training Programs

Memorial University of Newfoundland offers specialty training programs in Anesthesia, Internal Medicine (and subspecialty in Nephrology), Neurology, Obstetrics/Gynecology, Orthopedics, Anatomic Pathology, Pediatrics, Psychiatry, Radiology and General Surgery.

Internal Medicine and Pediatrics offer a straight program in the first year of the training program. The normal period of training in Internal Medicine or Pediatrics is four years post-M.D.

In the remaining specialty programs offered by Memorial University of Newfoundland, broad-based clinical training is offered as the first year of the training program. The total length of each of these programs is five years.

7.3 Clinical Fellowships

A sixth year of postgraduate study (Clinical Fellowship) may be available to residents who have completed specialty training requirements. These fellowships may be primarily directed to the clinical area, to teaching, or to research.

7.4 Registration

Postgraduate Trainees are registered each year as full-time students of Memorial University of Newfoundland.

7.5 Licensure in Newfoundland and Labrador

All trainees must be eligible for and obtain an educational license from the College of Physicians and Surgeons of Newfoundland and Labrador (CPSNL). Advice will be provided by the Postgraduate Medical Education Office.

Information on requirements for International Medical Graduates is available through the website at www.med.mun.ca/pgme.

7.6 Evaluation

1. The planning of the residency programs, including the policy on evaluation, is the responsibility of the Postgraduate Medical Education Committee and is based on the accreditation requirements of the Royal College of Physicians and Surgeons of Canada and the College of Family Physicians of Canada. The Postgraduate Medical Education Committee reports to the Dean of Medicine through the Assistant Dean.
2. Each resident is expected to complete the work of the program as outlined by the program-specific Residency Training Committee for each year of the program and to meet the prescribed goals and objectives of the program. The Residency Training Committee is chaired by a Program Director who reports to both the Assistant Dean of Postgraduate Medical Education and the Chair of the clinical discipline.
3. For each rotation, evaluation of the resident's performance is conducted by the supervisor responsible for the resident during the rotation. Evaluation is based on written assessments and performance-based direct observation. The results of the evaluation are expressed through an In-Training Evaluation Report (ITER), which records the competency level of the resident for each goal and objective of the rotation.
4. There are three possible outcomes for a resident's rotation, based on the results of the ITER: satisfactory, unsatisfactory, or incomplete. Residents learn the results of the ITER through online software (one45) administered by the Postgraduate Medical Education Office and the individual programs.
 - a. If a resident receives a satisfactory outcome in a rotation, he/she proceeds to the next rotation in the training schedule.

- b. If a resident receives an unsatisfactory outcome in a rotation, the Residency Training Committee will design a remedial program to address the resident's area(s) of weakness. In some instances, the Committee may require the resident to repeat the entire rotation. Evaluation of the remedial program is adapted according to the goals and objectives to be achieved by the remedial program. If the resident receives an unsatisfactory evaluation in the associated remedial program, he/she will be placed on probation.
- c. If a resident receives an incomplete outcome in a rotation, he/she will be required to complete the rotation.
5. If a resident receives an unsatisfactory evaluation for two rotations within one academic year, he/she will be placed on probation.
6. A resident has the right to appeal decisions leading to remediation and probation in accordance with the Postgraduate Medical Education's Evaluation, Promotion and Appeals Policy.

7.7 Probation

1. The terms of the probationary period are outlined in a probation contract with the resident. The length of the probationary period is determined by the Residency Training Committee and excludes vacation time, sick leave, and leaves of absence.
2. Successful completion of a probationary period requires satisfactory evaluations for all portions of the probationary period.

7.8 Promotion

1. A resident's progress is monitored in each year by the Residency Training Committee. During the academic year, the resident meets with the Program Director (or designate) to review his/her ITERs - at six months and again at the end of the academic year. Based on these meetings, the Program Director prepares a Mid-Year Progress Report and an End-of-Academic-Year Report.
2. To successfully complete a postgraduate program, a resident must be promoted through each year of his/her program. The Residency Training Committee meets every year to review a resident's progress report(s). In some instances, the Committee may also review individual ITERs from the specific rotations. On the basis of this review, the Residency Training Committee decides which residents should be promoted to the next year and which residents are eligible to sit the national examinations of the Royal College of Physicians and Surgeons or the College of Family Physicians of Canada.

7.9 Dismissal

1. If a resident fails to successfully complete a probationary period, he/she will be dismissed from the program.
2. If a resident is recommended for probation twice during the program, he/she will be dismissed from the program.
3. The Faculty of Medicine reserves the right to require a resident to withdraw from a postgraduate program at any time with just cause. In such cases, the Dean, on behalf of the Faculty, recommends such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the resident, in accordance with the Postgraduate Medical Education's Evaluation, Promotion and Appeals Policy.

8 Graduate Studies

Interdisciplinary interaction and research among the divisions of BioMedical Sciences, Community Health and Humanities and the Clinical Disciplines is promoted.

Programs have been designed to attract students interested in a Graduate Diploma or a M.Sc., M.P.H., Ph.D. or M.D-Ph.D. degree. Areas of strength include Applied Health Services Research, Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases, Neurosciences, Nutrition/Dietetics, and Population/Public Health. Details of the graduate programs are provided in the School of Graduate Studies section of this Calendar.

9 Regulations for the Degree of Doctor of Medicine

9.1 Admission to the Faculty of Medicine

1. All applications for entry to the program of studies leading to the Doctor of Medicine (M.D.) degree are dealt with by the Admissions Office of the Faculty of Medicine and must be submitted to that office on or before the closing date (normally September 15th). No application received after this date will be considered. An application processing fee of \$75.00 is required from all applicants.
2. Applications are reviewed after the closing date by the Admissions Committee of the Faculty of Medicine. This Committee has the delegated authority of the Faculty Council to admit or decline to admit students, following guidelines and procedures acceptable to that Council.
3. Admissions will normally be to the first year of medical studies. In exceptional circumstances, admission with advanced standing may be offered.
4. Entry to medical school is on the basis of competition for a fixed number of places. The Admissions Committee takes account of an applicant's academic background, performance on the Medical College Admissions Test (MCAT) and information on an applicant's personal characteristics and achievements as given by the applicant, by referees' reports and, in some cases, by personal interviews. Age by itself is not used as a basis for selection or rejection. Both age and the length of time away from full-time studies may be taken into consideration. The residency status of each applicant at the time of the closing date for application (normally September 15) will be determined by guidelines established by the Admissions Committee and approved by Faculty Council. For each candidate, the residency status determined at that time will apply throughout the admissions process and the period of undergraduate medical education. Priority is given to applicants who are bona fide residents of this province.
5. The Admissions Committee's decision to admit or decline to admit an applicant will be made on the basis of the competition for entry in the year of application and will be determined by the Committee's judgement of the likelihood of an applicant succeeding in the academic and professional studies leading to the award of the M.D. and in the eventual practice of medicine.
6. To be eligible for admission, an applicant shall have completed a bachelor's degree including the prerequisite subjects of 6 credit hours in English at a recognized university or university college before admission.

In exceptional circumstances an application may be considered from someone who does not expect to hold a bachelor's degree at the time of admission. Such an applicant will have completed at least 60 credit hours including the prerequisite subjects of 6 credit hours in English at a recognized university or university college before admission and be a student who has work-related or other experience acceptable to the Admissions Committee.

No application will be considered from a candidate who cannot produce evidence that the above requirements have been met or will have been met by the time of entry to the Medical School.

In addition, all applicants must write the MCAT prior to the application deadline. The MCAT should be written within the preceding five years of the date of application.

7. Applicants need to be aware of the policy related to Essential Skills and Abilities Required for the Study of Medicine. This policy outlines essential skills and abilities needed to succeed in the M.D. program and it includes technical standards for students in the program and information for students with disability. This information is available on the Faculty of Medicine's website at www.med.mun.ca/Admissions/Application-Preparation.aspx.
8. Each applicant is responsible for ensuring that all the required information on the application form, e.g. transcripts, MCAT scores, referee's reports, is supplied to the Admissions Committee, and for providing any further information required by this Committee. An application is not considered complete until these documents have been received.
9. The Admissions Committee may request that a candidate attend an interview.
10. Notification of the Committee's decision will be made to candidates by letter signed by, or on behalf of, the Chair of the Admissions Committee. No other form of notification can be considered to be official.
11. The letter of acceptance will give the successful applicant fourteen (14) days in which to confirm that he/she will accept the place offered. The signed intention to accept the offered place must be accompanied by a deposit of \$200.00 which will be credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the place.
If no reply to the offer of a place is received within fourteen days, the offer by the Faculty of Medicine will be withdrawn on the appropriate date, and the applicant will be informed of this by letter.
12. In order to register, applicants who have been accepted as international students will be required to sign a document indicating that they will pay differential fees throughout the undergraduate medical program and that they will have the status of non-Canadians in the postgraduate matching process.
13. The Admissions Committee, at its discretion, may grant deferral of admission for one year to a maximum of two successful applicants in the first round of offers for any one admission cycle. An applicant must request a deferred entry at the time of responding to an offer of admission. The first round of offers are normally confirmed by mid-May and requests for deferral are considered by mid-June.
14. Unsuccessful applicants who wish to reapply for admission are required to submit the application forms relevant to the year of re-application and will be required to enter the competition in that year. An unsuccessful applicant can meet with the Assistant Dean for Admissions or the Admissions Officer to discuss reapplying prior to the deadline for submission of a new application (normally September 15).
15. An unsuccessful applicant has the right to appeal against the decision of the Admissions Committee not to offer him/her a place, if it is felt by the applicant that the decision was reached on grounds other than those specified in Clauses 1-4 above. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of Medicine. The letter should state clearly and fully the grounds for the appeal. If the Dean of Medicine, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.

9.2 Licensure in Newfoundland and Labrador and Other Approvals

All medical students must be eligible for and obtain an educational license from the College of Physicians and Surgeons of Newfoundland and Labrador (CPSNL).

The Faculty of Medicine does not require criminal record checks or other screening procedures as a condition of admission to its program.

Students, however, should be aware that such record checks or other screening procedures may be required by agencies used by the University for professional registration, clinical experiences or academic course assignments necessary for graduation. Such agencies may refuse to accept students on the basis of information contained in the record check or other screening procedure thus preventing the student from completing a practice experience or other requirement. As a result, such students may not be eligible for promotion or graduation. The student is responsible for having such procedures completed as required at his or her own expense. The screening procedures of any given agency may change from time to time and are beyond the control of the University.

9.3 Evaluation

1. Subject to the approval of Senate, the overall policy of evaluation and the planning of the programs of studies leading to the M.D. degree are the responsibility of the Undergraduate Medical Studies Committee, which is a standing committee of the Council of the Faculty of Medicine.
2. Each student is expected to complete the work of the class as described in the current regulations of the Faculty of Medicine for each year of the program and to pass the prescribed academic and professional evaluations. In this context, the professional evaluation will cover, not only the skills expected of a student, but personal conduct and relationships with peers, patients, hospital personnel, faculty members and staff.
3. Course grades are recorded as pass or fail on a student's University transcript. For Pre-Clerkship courses/subjects and Medicine 7280, evaluation of an individual student's performance is conducted by the course/subject chair or instructor(s). The overall results of the course/subject evaluations are expressed on a four-point internal scale as outstanding, pass, borderline or fail. For Clerkship, overall evaluations of discipline rotations/selectives and electives are the responsibility of the respective discipline or electives co-ordinator. There is an internal five-point scale of outstanding, above average, average, below average and fail.
 - a. The Co-ordinator of the Pre-Clerkship or Clerkship and the Chair of the appropriate course/subject committee are responsible for ensuring that each student is informed of the results of each evaluation. The Chair of the course/subject committee will notify the student and Pre-Clerkship or Clerkship Co-ordinator, in writing, of any concerns that have arisen about performance.
 - b. It is the responsibility of the student to consult immediately with the Co-ordinator of the Pre-Clerkship or Clerkship Committee and/or the Chair of the course/subject committee regarding any course/subject in which concerns about performance have been expressed. Within one week of receiving notification of the grade for a course/subject, a student may submit a written request to the Co-ordinator of the Pre-Clerkship or Clerkship Committee for reconsideration of the grade awarded or for a reread of an exam/paper.
 - c. The student is responsible for notifying the Co-ordinator of the Pre-Clerkship or Clerkship Committee immediately of any new circumstances or of any pre-existing circumstances that have not previously been reported which could affect his or her individual performance in the work of the class.
4. A student's progress is monitored in each year of the program by the Pre-Clerkship or Clerkship Committee.

9.4 Promotion

1. The Student Promotions Committee is a standing committee of Faculty Council. The Student Promotions Committee reviews the grades of all students in each year of the Pre-Clerkship and in the Clerkship. On the basis of this review, this Committee decides which students should be promoted to the next year or Clerkship and which students are eligible to graduate. In reaching its decisions the Student Promotions Committee takes into account professional, as well as academic factors, and any special circumstances, duly authenticated, which warrant consideration.
2. The Student Promotions Committee may require students to pass reassessments or to do remediation with reassessment before being considered for promotion or graduation. Students with a Fail grade in any subject or course cannot be promoted; such students may be required to repeat the entire course or any appropriate section and must pass an appropriate reassessment before a positive promotion decision is made. The amount and quality of makeup required of a student is at the discretion of the Student Promotions Committee, but it cannot be undertaken while any other course, including an elective, or a selective, is in progress, nor if a student's full participation in subsequent courses is in any way jeopardized. Any student who passes remediation and reassessment will have their transcript show only a 'PAS' grade along with a transcript note reading: "grade awarded in *course name and number* as a result of successful remediation after a failing grade in *subject(s), n of n components of course number*".
3. A student who consistently receives borderline or below average grades even in the absence of any Fail grades may either be required to repeat the year or Clerkship or required to withdraw conditionally or unconditionally.
4. A student who is deemed by the Student Promotions Committee to be unsuitable for promotion or graduation is either required to repeat all of the studies in any year or Clerkship, or required to withdraw either conditionally or unconditionally.
 - a. If a student is required to repeat a year or Clerkship with academic prejudice, his or her performance in the repeated year or Clerkship must be at a level at which no remediation or reassessment is required. If this standard is not met, the Student Promotions Committee requires the student to withdraw unconditionally.
 - b. The option to repeat a year or Clerkship with academic prejudice can only be offered to a student once during his/her M.D. program. A student may repeat a year or Clerkship without academic prejudice if it has been demonstrated that the student's performance has been adversely affected by other factors acceptable to the Student Promotions Committee and duly authenticated.
 - c. If the Student Promotions Committee requires a student to withdraw conditionally, the Chair of the Student Promotions Committee reports to the Dean and the Pre-Clerkship or Clerkship Co-ordinator the nature of the conditions to be met and the time period specified for meeting the conditions. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who has been required to withdraw conditionally may be readmitted once the conditions have been met. If the conditions are not met within the specified time limit, the student is required to withdraw unconditionally.
 - d. If the Student Promotions Committee requires a student to withdraw unconditionally, the Chair of the Student Promotions Committee will report the decision and the basis upon which it was reached to the Dean and the Pre-Clerkship or Clerkship Co-ordinator. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who is required to withdraw unconditionally and who wishes to re-enter the Faculty must apply by the appropriate deadline date to the Admissions Committee in competition with all other applicants.
5. A student has the right to make a formal appeal against a decision of the Student Promotions Committee. However, this appeal cannot be made on the basis of the grades awarded in individual courses or subjects, as the student will normally have had the opportunity of contesting grades immediately after notification. A formal appeal by a student against the decision of this Committee must be made on grounds other than the grades awarded, e.g. default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Dean. The Dean in consultation with the Office of the Registrar determines whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.
6. In addition to the above clauses, the Faculty of Medicine reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Dean, on behalf of the Faculty, recommends such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.
7. Any student who enters the first year of the medical program but withdraws within the first seven weeks may be permitted re-entry only by re-application to the Admissions Committee in competition with all other applicants by the appropriate deadline date. Withdrawal at all other times is in accordance with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.
8.
 - a. Upon completion of a program year in the Pre-Clerkship or after the completion of core rotations in the Clerkship, a student in good academic standing may elect to withdraw temporarily from studies (e.g. to pursue graduate studies after completion of the second year).
 - b. Any student may be permitted to withdraw in accordance with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) Withdrawing From The University**. In all cases, the intent to withdraw voluntarily should be discussed with the Pre-Clerkship or Clerkship Co-ordinator, as appropriate. The student must make a written request for voluntary withdrawal to the Dean who will then consult the appropriate Co-ordinator. In the event that a student wishes to return to medical school, the Dean should ensure that sufficient revision and preparatory work are undertaken before the student is permitted to resume medical studies.
 - c. Students permitted to withdraw are advised of the date upon which they are required to resume medical studies. In the absence of good cause, any such student who does not resume studies on the specified date will be deemed to have left the program.

9.5 Curricular Requirements (M.D.)

Students entering the M.D. program will be governed by curricular requirements in effect at the time of their admission. In the event of readmission, students will be governed by curricular requirements in effect at the time of their readmission.

The Clerkship Student Promotions Committee recommends to Faculty Council those students to be awarded the M.D. degree.

10 Course Descriptions

The courses in Pre-Clerkship form a continuum. Some courses are composed of several individual subjects.

Clerkship provides clinical experience in the affiliated teaching hospitals and community sites of Memorial University of

Newfoundland. The students become members of the patient care team and have graded and supervised responsibility.

10.1 Courses in the First and Second Year of Medical Studies

5600 Basic Science of Medicine I is an integrated course with several

subjects including anatomy, biochemistry, genetics, immunology, microbiology, pathology and physiology. This course introduces students to the structure and function of the human body and provides the foundation of the basic science of medicine. A wide range of teaching methods are used including lectures, small group sessions, and laboratory sessions/demonstrations.

CH: 14

5610 Clinical Skills I introduces students to the main elements of the medical interview and techniques of counselling. Students are then expected to acquire skill in examining normal individuals and eliciting symptoms and signs in patients and presenting the findings in a logical and comprehensive manner. Emphasis is placed on developing a sympathetic and understanding approach to the patient. The course also provides an integrated approach to clinical symptoms and signs as manifestations of disordered function or structure. Ethical and legal issues playing a significant role in assessment and management of clinical problems are also considered within the humanities, ethics, and law in medicine (HELM) component.

AR: attendance is required

CH: 9

5640 Community Health I introduces several aspects of community health including health promotion, disease prevention, biostatistics, epidemiology, social and organizational factors in health, environmental and occupational health, community nutrition and behavioural sciences. Lectures and small group sessions are complemented with practical experience obtained through group research projects and field teaching in the community in both a rural and urban context. Aspects of medical ethics relative to community health are integrated throughout the course. Emphasis is placed on understanding the determinants of health and illness and the context in which they occur. The principles of research are introduced and students may initiate research opportunities that are carried through subsequent courses in the curriculum.

CH: 9

5650 Integrated Study of Disease I involves studying diseases of the major organs/body systems and includes integration with the pathophysiological basis of disease, pathology and pharmacology. The course also incorporates the relevant aspects of preventive medicine, clinical genetics, clinical epidemiology and occupational medicine.

CH: 10

5660 Family Medicine Pre-Clerkship Elective is offered to medical students interested in enhancing their patient interviewing and clinical examination skills. Each student will be paired with an experienced family physician in the community (rural and urban opportunities) for two to four weeks during the summer months at the end of the first and/or second year. Students gain practical experience of working at the primary care level in a variety of settings that could include office-based practice, home visits, emergency departments, labour and delivery and both long-term care facilities and in-hospital ward experiences. (This varies depending on the family physician's practice profiles.) Students applying for this course must be currently registered as a first or second year medical student in a Canadian medical school.

AR: attendance is required

CH: 0

6600 Basic Science of Medicine II is a continuation of Basic Science of Medicine I.

CH: 8

6610 Clinical Skills II is a continuation of Clinical Skills I.

AR: attendance is required

CH: 9

6640 Community Health II is a continuation of Community Health I.

CH: 9

6650 Integrated Study of Disease II is a continuation of Integrated Study of Disease I.

CH: 30

6660 Family Medicine Pre-Clerkship Elective has the same course description as Medicine 5660.

AR: attendance is required

CH: 0

7000 Clerkship Preparation Course

AR: attendance is required

CH: 2

10.2 Courses in the Clerkship

The Clerkship normally begins in late August and continues for approximately 21 months terminating with Convocation in late May almost two years later. The Clerkship begins with students taking the core courses 7200-7250. Following their successful completion, students are required to take 12 credit hours in elective courses, 12 credit hours in selectives and Medicine 7280.

7200 Internal Medicine

AR: attendance is required

CH: 15

7210 Surgery

AR: attendance is required

CH: 10

7220 Psychiatry

AR: attendance is required

CH: 10

7230 Pediatrics

AR: attendance is required

CH: 10

7240 Rural Family Practice

AR: attendance is required

CH: 5

7250 Obstetrics/Gynecology

AR: attendance is required

CH: 10

7260, 7261 & 7263 Electives

AR: attendance is required

CH: 12 (4 each)

7270-7273 Selectives

AR: attendance is required

CH: 4-12

CR: students may not receive credit for MED 7273 and all of MED 7270, 7271 and 7272

7280 Integrated Basic, Community Health and Clinical Sciences

CH: 2

10.3 Courses Offered By the Faculty of Medicine for Non-Medical Students

310A and 310B Human Physiology covers the properties of nerve and muscle cells, the special senses, blood and body fluids, and the nervous, cardiovascular, digestive, immune, respiratory, urinary, endocrine and reproductive systems. Integration of the body's systems in maintaining homeostasis is emphasized. Priority for entry into this course is given to Biochemistry, Nutrition, Dietetics, and other students who are interested in experimental science.

CO: Biochemistry 2101

CR: Biochemistry 311A/B and Medicine 310A/B

LH: to be specified

PR: Biochemistry 2101

4300 Introduction to General and Autonomic Pharmacology deals with the general principles of pharmacology (dose-response relationship, drug-receptor interaction, absorption, distribution, metabolism, excretion of drugs), and drugs that affect neuromuscular and autonomic neurotransmission, the cardiovascular, gastrointestinal, and central nervous systems, and autacoids/prostanoids.

CO: Biochemistry 3106 or Pharmacy 3111

CR: Biochemistry 4220

LH: to be specified

PR: Medicine 310A/B or Biochemistry 311A/B, or Pharmacy 2002/2003 or the former Pharmacy 3201/3202.

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 School Description

The school of Music at Memorial University of Newfoundland is the largest and most comprehensive university school of music in Atlantic Canada. Four-year undergraduate programs are offered in performance, musicologies and composition. Students interested in music education have two options: the conjoint degrees of Bachelor of Music/Bachelor of Music Education (B.Mus./B.Mus.Ed.), offered in collaboration with Memorial University of Newfoundland's Faculty of Education, which can be completed in five years; and the four-year Comprehensive Major, which prepares them to apply for admission to the Bachelor of Music Education as a second degree. For students not ready to specialize, a Bachelor of Music (B.Mus.) in General Musical Studies with or without a Minor provides a flexible degree option. The School of Music's faculty comprise a diverse group of performers and scholars from across North America and Europe who are as dedicated to the highest standard of teaching as they are to their own professional careers. Access to professional applied studies instruction is a right of every student in each year of the program. With close to 200 degree-stream students, the School offers ensemble performance experience in choir, band, orchestra, opera, jazz, world music, contemporary and chamber music. While the focus of the School's programs is on the classical music tradition, Newfoundland and Labrador's rich musical legacy is also honored in its curriculum with a range of courses taught by tradition-bearers from the professional music community. The School's undergraduate community is enriched by the presence of students pursuing **Master of Music (M.Mus.)** degrees in performance, performance/pedagogy and conducting, as well as **Master of Arts (M.A.)** and **Doctor of Philosophy (Ph.D.)** students in the area of ethnomusicology.

Additional information regarding the School of Music is available at www.mun.ca/music/.

2.1 Health Statement

Music study and music making are activities that demand great mental and physical energy and coordination. For this reason, students are strongly encouraged to maintain a healthy lifestyle, getting adequate rest, proper nutrition, and exercise, and avoiding practices that could be detrimental to good health and well-being.

3 Description of Programs

All courses in the School of Music are designated by the abbreviation MUS.

3.1 Bachelor of Music

The Bachelor of Music Degree program has been revised effective Fall 2012. For further information see the **Important Notice** under the **Bachelor of Music Degree Regulations**.

The School offers a four-year Bachelor of Music with Majors in:

3.1.1 Composition

This Major is recommended for students who plan to compose or to teach composition.

3.1.2 Comprehensive

This major is recommended for students planning to apply for admission to the Bachelor of Music Education as a Second Degree.

3.1.3 General Musical Studies

This Major is recommended for students seeking a broad knowledge of music that will prepare them for a variety of career and advanced study options. Students have the option of including a Minor in a discipline other than Music.

3.1.4 Musicologies

This Major is recommended for students interested in research in music and/or media professions. A variety of approaches to music scholarship are addressed, including music history, ethnomusicology, and popular music studies.

3.1.5 Performance

This Major is recommended for students planning to pursue a career as a solo performer, orchestral or band player, university-based musician or private teacher.

3.1.6 Joint Major in Performance and Musicologies

This Major is recommended for students who have both advanced performance skills and an interest in music research. Students who are planning careers in specialized performance, music editing or as university-based musicians are encouraged to consider this Major.

3.1.7 Major in Performance with a Minor in Composition

This Major is recommended for students who have both advanced performance skills and an interest in music theory and composition. Students who are planning careers in performance, music editing, conducting, arranging, composing or as university-based musicians are encouraged to consider this program.

3.2 Five Year Bachelor of Music Conjoint with Bachelor of Music Education

This degree program is offered jointly with the Faculty of Education, and is recommended for candidates planning to pursue a career in Music Education.

3.3 Interdisciplinary Major in Drama and Music (Bachelor of Arts)

This Major program in Drama and Music is currently under review and will not be available for admission for the 2012-2013 year. For further information please contact the Department of English Language and Literature.

3.4 Interdisciplinary Minor in Music and Culture

This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours).

3.5 Minor in Music History

This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours).

3.6 Honours Degree

An honours degree signifies superior academic achievement. The Bachelor of Music (Honours) is available to candidates in the Performance, Composition, Musicologies, General Musical Studies, and Comprehensive Majors, candidates in the Joint Major in Performance and Musicologies, and candidates in the Major in Performance with a Minor in Composition. To graduate with honours, application must be made on the prescribed form which is available from the School or the Office of the Registrar. For further information on honours degrees see **Bachelor of Music (Honours)**.

4 Admission/Readmission Regulations for the School of Music

In addition to meeting the **UNIVERSITY REGULATIONS**, students must meet the **Admission/Readmission Regulations for the School of Music**.

4.1 General Information

1. Entry to the School of Music is competitive and by audition only.
2. Admission or readmission to the University does not necessarily constitute admission or readmission to any program.

4.2 Application Forms and Deadlines

1. Admission to the Bachelor of Music degree is normally possible in the Fall semester only. The application deadline for admission to the Fall semester is January 15.
2. Transfer students may be considered for admission in the Winter semester if they have the prerequisites to enter a sufficient number of music courses in that semester. The application deadline for admission to the Winter semester is September 30.
3. Students who have withdrawn from the music degree program may apply to be readmitted in either the Fall or Winter semester.
4. School of Music application forms are available from the School's General Office and the Office of the Registrar, through the School's website at www.mun.ca/music/programs/undergrad/apply.php and through the Office of the Registrar's website at www.mun.ca/regoff/forms.php. Applicants who have not previously attended Memorial University of Newfoundland or those who have not attended Memorial University of Newfoundland in the two preceding semesters must also submit the "Undergraduate Application for Admission/Readmission" which is available at www.mun.ca/regoff/forms.php. Application forms may also be obtained by writing the School of Music, Memorial University of Newfoundland, St. John's, NL A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL A1C 5S7.
5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application includes an application to the University (for those who have not attended Memorial University of Newfoundland in the two preceding

semesters), an application to the School, and a music teacher reference form. The School of Music application form and teacher reference form are available from the School of Music website at www.mun.ca/music. Application fees must be paid when the application forms are submitted.

4.3 Admission/Readmission Requirements to the Bachelor of Music Degree Program

1. All applicants are required to audition to the satisfaction of the School on the instrument that they have chosen as their Principal Applied Study in their degree program.
 - a. The School offers instruction in voice, piano, organ, flute, clarinet, saxophone, oboe, bassoon, trumpet, horn, euphonium, trombone, tuba, percussion, guitar, violin, viola, cello and double bass. Audition requirements for each instrument may be obtained from the School of Music General Office or online at www.mun.ca/music.
 - b. Auditions are normally held in early March. Dates and locations of upcoming auditions are available from the School of Music General Office or online at www.mun.ca/music/programs/.
 - c. Late auditions may be held if space is available. Students auditioning late are normally not eligible for School of Music entrance scholarships.
 - d. Transfer students and students seeking readmission to the music degree program must audition to determine their placement in applied study courses. The level of audition should be equivalent to the jury requirements for the prerequisite of the course to which they are seeking admission. Jury requirements are available from the Office of the School of Music or through the School of Music website at www.mun.ca/music.
2. All applicants are also required to take the following admission and placement tests:
 - a. Placement Test in Theory and Musicianship: This test in basic rudiments, aural perception, and simple four-part harmony will be administered during the entrance audition period.
 - b. Sightsinging Test: This short test is administered individually.
 - c. Piano Proficiency Test: Piano proficiency is a graduation requirement. Students are expected to meet this requirement within the first year of their program. Applicants whose level of attainment is not acceptable to the School will be required to repeat and pass the Piano Proficiency Test prior to registering for Music 2401. Students are advised to contact the School of Music regarding scheduling of the test and for information about private remedial piano instruction.
 - d. Writing Test: This test is administered during the entrance audition period. It is intended to assess students' writing skills and their capacity to articulate ideas about music.
3. The School will notify applicants in writing when a decision has been made regarding admission.

4.3.1 Major

1. With the exception of the Comprehensive Major. Candidates normally declare their intended Major area of study in their fourth semester in the Bachelor of Music program.
2. A candidate may not change his/her Major without the written permission of the Dean. In cases where permission is granted, the candidate shall be required to fulfill all requirements for the new Major. However, in the case where a student's Major changes from Performance to one of the other Majors, the Principal Applied Study courses successfully completed under the Performance Major may be used to satisfy the requirements for Principal Applied Study in the new Major, with any additional credit hours being used as Music electives in the new Major.
3. Candidates shall choose one of the following areas for their Major.

4.3.1.1 Composition

Students interested in the Composition Major are strongly encouraged to take Music 3100 in their second year. Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 2108, submitting up to three of their own compositions by the end of classes in that semester. Candidates will be interviewed by a panel of composition faculty. Admission to this Major will be based on the candidate's: i) submitted compositions, ii) interview, iii) achievement in Music 1107, 1108, 1700, 2107, 2108, 3100 and any other elective courses in music theory and composition, iv) general academic achievement, and v) potential for a career and/or graduate work in composition.

4.3.1.2 Comprehensive

Candidates planning to apply for admission to the Conjoint degrees (Bachelor of Music/Bachelor of Music Education) should first declare the Comprehensive Major by the end of their second semester in the Bachelor of Music program in order to take the necessary prerequisite courses for admission to the Conjoint degrees program. Students planning to apply for admission to the Bachelor of Music Education as a second degree may wait until their fourth semester to declare this Major. Please note that completion of this degree does not guarantee admission to the Faculty of Education.

4.3.1.3 General Musical Studies

Candidates for the General Musical Studies Major need not submit an application. All candidates who have not been admitted to another Major by the end of their fourth semester in the Bachelor of Music program will automatically be admitted to the General Musical Studies Major. Students have the option of including a Minor in a discipline other than Music, in which case they must meet all prerequisites and requirements for the Minor. The subject of the candidate's Minor shall be that declared by the candidate on the Change of Academic Program Form, which is available at www.mun.ca/regoff/registration/Declare_Change_Academic_Program.pdf or in person at the Office of the Registrar.

4.3.1.4 Musicologies

Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 2006, submitting up to three pieces of relevant work by the end of classes in that semester, including essays or analyses written either in the context of academic course work or independently. Candidates will be interviewed by a panel of faculty in this discipline. Admission to this Major will be based on the candidate's: i) submitted work, ii) interview, iii) achievement in Music 1005, 1006, 2005, 2006 and any electives in musicologies, as well as English and research/writing courses, iv) general academic achievement, and v) potential for a career and/or graduate work in musicology, ethnomusicology, journalism or a related field.

4.3.1.5 Performance

Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates are required to audition for this program. Where possible, the jury examination Music 240B will be considered as the audition for admission to the Performance Major, although in some cases the audition may require repertoire beyond the level and amount prepared for the jury examination. Admission to this Major will be based on a candidate's: i) performance on the audition and achievement in Music 140A/B and 240A/B, ii) general academic achievement, and iii) potential for a career and/or graduate work in performance.

4.3.1.6 Joint Major in Music Performance and Musicologies

Candidates for the Joint Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates for admission to the Joint Major must fulfill the requirements for admission to both the Performance and Musicologies Majors.

4.3.1.7 Major in Music Performance with a Minor in Composition

Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates must fulfill the requirements for admission to both the Performance and Composition Majors.

4.3.1.8 Bachelor of Music Conjoint with Bachelor of Music Education

This program is offered with the Faculty of Education, and is recommended for candidates planning to pursue a career in Music Education. Candidates for the Conjoint Degrees program must meet the Faculty of Education's admission requirements for the Bachelor of Music Education Conjoint Degree program. Applications must be submitted to the Faculty of Education by January 15 for admission to the following Fall semester.

4.4 Admission Requirements to Minor Programs

1. The Interdisciplinary Minor in Music and Culture and Minor in Music History are available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). Students wishing to complete either of these minors must declare so on the Change of Academic Program Form, which is available at www.mun.ca/regoff/registration/Declare_Academic_Program.pdf or in person at the Office of the Registrar.
2. Students wishing to be considered for admission to the Minor in Music History must also meet the prerequisites for Music 1107 and 1117.

5 Bachelor of Music Degree Regulations

Important Notice

Students admitted into the Bachelor of Music Degree program to begin study as of September 2012 shall be governed by the following Regulations. Students admitted or readmitted into the Bachelor of Music prior to September 2012 will normally complete the requirements of the degree as in effect at the time of their admission/readmission. For further information see **Transition to New Bachelor of Music Degree Program, Table 1 Substitutions for Music Courses Required under Previous Regulations, and Table 2 Substitution of Former Courses For Courses in This Calendar.**

1. Students admitted to the Bachelor of Music program may register for a maximum of 17 credit hours per semester without written permission from the Dean.
2. A student may not repeat for credit a Principal Applied Study course that s/he has already successfully completed, unless the student has the written permission of the Dean.
3. Active participation in School of Music ensembles is an integral part of a music student's education. One must be present at rehearsals and performances to have participated in the learning experience. Furthermore, the success of the ensemble as a whole is dependent upon the regular attendance and participation of all of its members. Accordingly, attendance will be required in the following courses: Music 2611-2620, Music 263A/B, Music 265A/B, Music 3500, and Music 3511-3518.
4. The following Music courses may not be counted toward the Bachelor of Music degree: Music 1116, 1120, 2011, 2012, 2013 and 2014.

5.1 Transition to New Bachelor of Music Degree Program

1. Students admitted or readmitted to the School of Music for Fall 2012 will follow the **Bachelor of Music Degree Regulations** in this Calendar.
2. Students admitted or readmitted to the School of Music before Fall 2012:
 - a. Will normally follow the Calendar in effect at the time they were admitted or readmitted. However, not all courses from the previous Calendars will be offered after the 2011-12 academic year. **Table 1 Substitutions for Music Courses Required Under Previous Regulations** lists the courses that students following the regulations of an earlier Calendar may substitute for required courses that are no longer offered.
 - b. May substitute up to 6 credit hours of electives from disciplines other than Music and Music Education for courses in a language or languages other than English under the Music History and Literature Major.
3. Notwithstanding clause 2. above, students admitted or readmitted to the School of Music before Fall 2012 may elect to follow the regulations in this Calendar. **Table 2 Substitution of Former Courses For Courses in This Calendar** lists the former courses that may be substituted for courses required under this Calendar which were not offered before Fall 2012.

Table 1 Substitutions for Music Courses Required Under Previous Regulations

Under Previous Calendar	Substitution
Music History 1002 1003 2002 (will not be offered after the 2012-2013 academic year) 2003 (will not be offered after the 2012-2013 academic year)	Musicologies 1005 2005 2006 3009

Career skills for Musicians for students who have completed 3703 Music 3704	Career skills for Musicians for students who have completed 3703 Music 3703 plus 2 credit hours Music elective beyond 1000 level
Vocal Pedagogy 3764	Vocal Pedagogy 3762 and 3763

5.2 Core Program Requirements

All Bachelor of Music students, regardless of Major, must complete the following courses (55 credit hours) as outlined below:

1. **Applied Music (8 credit hours):** 140A/B, 240A/B
2. **Musicologies (15 credit hours):** 1005, 1006, 2005, 2006, 3009

3. **Music Theory (19 credit hours):**

- a. **Written Theory:** 1107, 1108, 2107, 2108, 3105
- b. **Aural Skills:** 1117, 1118, 2117, 2118

4. **Music Technology** (1 credit hour): Music 17005. **Functional Keyboard** (1 credit hour): 2401 or 2411, 2402 or 24126. **Ensemble I:** 1 credit hour from Music 3517 or 35187. **Ensemble II:** 10 credit hours according to **Principal Applied Study** below:

- a. **Voice:** Music 2700 and 2701, and 2 credit hours from Music 2611-2612, plus 6 additional credit hours from Music 2611, 2612, 2616, 2617. Students will be placed in one of these ensemble courses during each semester in which they are enrolled in Principal Applied Study. The assignment will be based on their ensemble audition, the appropriateness of the ensemble for the student's musical development and program of study, and the need to create balanced ensembles.
- b. **Piano, Organ, or Guitar:** 2 credit hours of music electives chosen from courses beyond the 1000 level, and 2 credit hours from Music 2611-2612, plus 6 additional credit hours from Music 2611-2620. Students will be placed in one of these ensemble courses during each semester in which they are enrolled in Principal Applied Study. The assignment will be based on their ensemble audition, the appropriateness of the ensemble for the student's musical development and program of study, and the need to create balanced ensembles.
- c. **All other Principal Applied Study, i.e. percussion or a string or wind instrument:** 2 credit hours from Music 2611-2612, plus 8 credit hours from Music 2613, 2614, 2615, 2619, 2620. Students will be placed in two of these ensemble courses during each semester in which they are enrolled in Music 140A/B and in one ensemble course during each subsequent semester of Principal Applied Study. Ensemble assignments will be based on their ensemble auditions, the appropriateness of the ensemble for the student's musical development and program of study, and the need to create balanced ensembles.

8. The remaining credit hours for the degree are determined according to the student's Major, as below.

5.3 Composition Major

To be awarded the degree of Bachelor of Music in Composition, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the **Core Program**. The remaining 68 credit hours will be chosen as follows:

- 1. Music 340A/B, 440A/B.
- 2. Six credit hours of Music 3140 and 6 credit hours of Music 4140.
- 3. Music 3104, 3112, 4112 and one of Music 3106 and 3108.
- 4. Twelve additional credit hours chosen from Music courses beyond the 1000 level including:
 - a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
 - b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
 - c. No more than one of Music 2021, 2022 and 2023.
 - d. Students interested in this Major are strongly encouraged to take Music 3100 in their second year.
- 5. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses.

5.4 Comprehensive Major

To be awarded the degree of Bachelor of Music with a Comprehensive Major, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the **Core Program**. The remaining 68 credit hours will be chosen as follows:

- 1. Music 340A/B, 440A/B
- 2. Music 2311, 2312, 3321, 3322
- 3. Eight credit hours chosen from: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3281, 3282.
- 4. Music 3401 or 3411, 3402 or 3412.
- 5. Fifteen additional credit hours chosen from Music courses beyond the 1000 level including:
 - a. At least 3 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
 - b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
 - c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
 - d. No more than 3 credit hours from Music 2021, 2022 and 2023.
 - e. Three credit hours chosen from the following may be substituted for Music electives in the Comprehensive Major: Education 2500, 2515, 2520.
- 6. Twenty-four credit hours from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Students in the Comprehensive Major are encouraged to take at least 18 credit hours in a second teachable subject.

5.5 General Musical Studies Major

To be awarded the degree of Bachelor of Music in General Musical Studies, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the **Core Program**. The remaining 68 credit hours will be chosen as follows:

- 1. Music 340A/B, 440A/B.
- 2. An additional 60 credit hours to be chosen according to either **Option A** or **Option B** below:

5.5.1 Option A (With Minor)

1. An additional 21 credit hours chosen from Music courses beyond the 1000 level, including:
 - a. At least 6 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
 - b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
 - c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
 - d. No more than one of Music 2021, 2022 and 2023.
2. Six credit hours chosen from courses in English and/or designated research/writing courses.
3. A Minor of at least 24 credit hours in a subject other than Music. The candidate must follow the regulations for the Minor as set forth in the appropriate section of the Calendar.
4. Nine credit hours open electives which may be chosen from courses in Music, the Minor subject, and/or any other disciplines. However, no more than 3 credit hours in Music Education may be included.

5.5.2 Option B (No Minor)

1. An additional 36 credit hours chosen from music courses beyond the 1000 level including:
 - a. At least 12 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
 - b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
 - c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
 - d. No more than one of Music 2021, 2022 and 2023.
 - e. A maximum of 3 credit hours chosen from the following courses may be substituted for Music electives: Education 2500, 2515, 2520. Music Education Majors have priority in registering for these courses and spaces may not be available for General Musical Studies Majors
2. Twenty-four credit hours from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses.

5.6 Musicologies Major

To be awarded the degree of Bachelor of Music in Musicologies, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the **Core Program**. The remaining 68 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B
2. Music 4095
3. Fifteen additional credit hours beyond the 2000 level in Musicologies.
4. Six credit hours chosen from Anthropology, Canadian Studies, European Studies, Folklore, Gender Studies, History, Law and Society, Medieval Studies, Newfoundland and Labrador Studies, Philosophy, Political Science, Psychology, Religious Studies, and/or Sociology.
5. Twelve additional credit hours chosen from music courses beyond the 1000 level including:
 - a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
 - b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
 - c. No more than one of Music 2021, 2022 and 2023.
6. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses and at least 6-credit hours in a language or languages other than English.

5.7 Performance Major

To be awarded the degree of Bachelor of Music in Performance, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the **Core Program**. The remaining 68 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Music 3704 and 3 credit hours chosen from Music 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
4. Twenty additional credit hours from Music courses beyond the 1000 level, including:
 - a. At least 6 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
 - b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those outlined under the **Core Program**.
 - c. No more than one of Music 2021, 2022 and 2023.
 - d. A maximum of 3 credit hours chosen from the following courses may be substituted for Music electives: Education 2500, 2515, 2520. Music Education Majors have priority in registering for these courses and spaces may not be available for Performance Majors.
5. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German and French.

5.8 Joint Major in Performance and Musicologies

To be awarded the degree of Bachelor of Music with a Joint Major in Performance and Musicologies, a candidate shall comply with the School's regulations, and successfully complete a minimum of 127 credit hours, including 55 credit hours in the **Core Program**. The remaining 72 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Three credit hours chosen from Music 3704, 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
4. Music 4095.
5. Fifteen additional credit hours beyond the 2000 level in Musicologies.
6. An additional 3 credit hours chosen from music courses beyond the 1000 level.
7. Thirty credit hours chosen from disciplines other than Music, including:
 - a. At least 6 credit hours chosen from courses in English and/or designated research/writing courses.
 - b. 6 credit hours in Anthropology, Canadian Studies, European Studies, Folklore, Gender Studies, History, Law and Society, Medieval Studies, Newfoundland and Labrador Studies, Philosophy, Political Science, Psychology, Religious Studies, and/or Sociology.
 - c. At least 6 credit hours in a language or languages other than English. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German, and French.

5.9 Major in Performance with a Minor in Composition

To be awarded the degree of Bachelor of Music with a Major in Performance and a Minor in Composition, a candidate shall comply with the School's regulations, and successfully complete a minimum of 124 credit hours, including 55 credit hours in the **Core Program**. The remaining 69 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Music 3704 and 3 credit hours chosen from Music 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
4. Six credit hours of Music 3140.
5. Music 3104, 3112 and one of Music 3106 or 3108.
6. Six credit hours chosen from Music courses beyond the 1000 level including:
 - a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
 - b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
 - c. No more than 3 credit hours from Music 2021, 2022 and 2023.
 - d. Students interested in this Major are strongly encouraged to take Music 3100 in their second year.
7. Twenty-four credit hours chosen from disciplines other than Music or Music Education, including at least 6 credit hours chosen from courses in English and/or designated research/writing courses. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German, and French.

5.10 Bachelor of Music Conjoint With Bachelor of Music Education

To be awarded the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education, a candidate shall comply with the School's regulations and successfully complete a minimum of 159 credit hours, including 55 credit hours in the **Core Program**. The remaining 104 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
2. Music 2311, 2312, 3321, 3322.
3. Eight credit hours chosen from: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3281, 3282.
4. Music 3401 or 3411, 3402 or 3412.
5. Six additional credit hours chosen from Music courses beyond the 1000 level including:
 - a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
 - b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
 - c. No more than 3 credit hours from Music 2021, 2022 and 2023.
6. Forty-five credit hours as prescribed by the Faculty of Education under the **Regulations for the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education**.
7. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Conjoint degrees students are strongly encouraged to take at least 18 credit hours in a second teachable subject.

5.11 Bachelor of Music (Honours)

The Bachelor of Music (Honours) will be awarded to candidates in the Performance, Composition, Musicologies, General Musical Studies, and Comprehensive Majors, candidates in the Joint Major in Performance and Musicologies, and candidates in the Major in Performance with a Minor in Composition who:

1. are graduating with First Class standing;
2. meet all the graduation requirements in the Bachelor of Music Degree Regulations for their Major; and
3. have attained a minimum average of 82% in all Music courses included in the degree.

6 Academic Standards and Continuance in the Bachelor of Music

1. Students in the Performance Major must attain a minimum grade of 75% in each of the jury exam and the course work for Music 345A/B and Music 445A/B. Students who fail to do so will be required to withdraw from the Performance Major. In such cases, the student may apply in writing to the Dean for admission into a Major other than Performance.
2. With the exception of those who have completed Music 440B or 445B, students who are not registered for a Principal Applied Study course or Education 403X at the end of the regular registration period will be deemed to have withdrawn from the Bachelor of Music degree program.
3. A student who withdraws from a Principal Applied Study course at any time in the semester shall have his/her eligibility to continue in the degree program reviewed by the Committee on Undergraduate Studies. The Committee shall determine whether or not the student shall be deemed to have withdrawn.
4. A student whose average in Music courses falls below 65% in any semester will be placed on probation.
5. A student who is on probation will be returned to clear standing if s/he achieves an average above 65% in music courses taken during the probation semester.
6. A student will be required to withdraw from the Bachelor of Music degree program if a) the student's average in music courses falls below 65% in each of two consecutive semesters of registration in the program, or b) the student's average in music courses falls below 65% in any three semesters of registration in the program, or c) the student fails any music course more than once, or d) the student has been unable to complete two consecutive semesters or three non-consecutive semesters of applied music studies (Music 140A/B, 240A/B, 340A/B, 440A/B, 345A/B, 445A/B).
7. Students who have withdrawn from the Bachelor of Music degree program and wish to re-enter the program must re-apply in competition. A student re-entering the program may be readmitted on probation if the Admissions Committee so recommends.
8. Students who have been required to withdraw from the Bachelor of Music degree program may apply for readmission after a minimum of two semesters have elapsed following the withdrawal.
9. Students who have been required to withdraw from the Bachelor of Music degree program twice are ineligible for further readmission.
10. Students who have withdrawn from the Bachelor of Music degree program may apply to be readmitted in either the Fall or Winter semester.

7 Minor Program Regulations

7.1 Transition to New Minor Programs

1. Students in a Major or Minor Program offered by the School under a degree other than the Bachelor of Music will normally follow the regulations in effect in the academic year in which they first completed a Music course at the 2000 level or above which may be applied to their program. Students following the regulations of an earlier Calendar should note that not all courses from previous Calendars will be offered after the 2011-12 academic year. **Table 1 Substitutions for Music Courses Required Under Previous Regulations** lists the courses that students following the regulations of an earlier Calendar may substitute for required courses that are no longer offered.
2. Notwithstanding clause 1. above, students in a Major or Minor program offered by the School under a degree other than the Bachelor of Music who first completed a Music course at the 2000 level or above prior to Fall 2012 may elect to follow the regulations under this Calendar. **Table 2 Substitution of Former courses For Courses in this Calendar** lists the former courses that may be substituted for courses required under the current Calendar which were not offered before Fall 2012.

7.2 Interdisciplinary Minor in Music and Culture

1. This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). The Minor in Music and Culture is not applicable to the Bachelor of Music degree.
2. Students shall complete 25 credit hours for the Minor in Music and Culture, as follows:
 - a. Music 1120 or Music 1107
 - b. Music 1116 or Music 1117
 - c. Music 4040 or Folklore 4440
 - d. Music 2012 or 2013
 - e. One of Music 2011, 2014, Music 3017 or Folklore 3200, Music 3018 or Folklore 3618
 - f. One of Music 3014, 3015, 3016 and 3019
 - g. One of Music 2021, 2022, and 2023
 - h. Two additional courses chosen from Music 1108 or the courses listed in d., e., f., or g. above.
3. Please note that most Music courses are not offered every semester, and some are offered only in alternate years.

7.3 Minor in Music History

1. This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). The Minor in Music History is not applicable to the Bachelor of Music degree.
2. To be admitted to the Minor in Music History, students must meet the prerequisites for Music 1107 and 1117.
3. Students shall complete the following requirements (29 credit hours) for the Minor in Music History.
 - a. Music 1107, 1108, 1117, and 1118.
 - b. Music 1005, 1006, 2005, 2006, 3009.
 - c. An additional 6 credit hours chosen from Music 3004, 3005, 3006, 3007, 4001, 4002, 4003, 4004, 4005.
4. Course prerequisites stipulated in the course descriptions must be met. Please note that most Music courses are not offered every semester, and some are offered only in alternate years.

8 Waiver of School Regulations

Every student has the right to request waiver of School regulations. Students wishing waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**.

1. The School reserves the right in special circumstances to modify alter, or waive any School regulation in its application to individual students where merit and equity warrant in the judgement of the Committee on Undergraduate Studies of the School.
2. Waiver of a School course prerequisite or co-requisite may be granted by the Dean.
3. All other requests for waiver of a School regulation must be submitted in writing to the Chair of the Committee on Undergraduate Studies of the School for consideration. Medical and/or other documentation to substantiate the request must be provided.
4. Any waiver granted does not reduce the total number of credit hours required for the degree.

9 Appeal of Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

10 Music Courses Available to Students not Enrolled in a Program Offered by the School

1. The following Music courses are available to students who have not been admitted to a program in the School of Music, and are appropriate for students with little or no musical background:
 Music 1116 Basic Musicianship (1 credit hour)
 Music 1120 Rudiments 1 (3 credit hours)
 Music 2011 North American Popular Music (3 credit hours)
 Music 2012 Understanding Classical Music (3 credit hours)
 Music 2013 Twentieth-Century Musicals (3 credit hours)
 Music 2014 Introduction to World Music (3 credit hours)
2. The following ensemble courses are available to non-music students with appropriate background, subject to the approval of the instructor:
 Music 2611 Festival Choir (1 credit hour per semester)
 Music 2614 Concert Band (1 credit hour per semester)
3. Non-Music students may also audition to participate in the following ensemble courses:
 Music 2612 Chamber Choir (1 credit hour per semester)
 Music 2613 Chamber Orchestra (1 credit hour per semester)
 Music 2615 Jazz Ensemble (1 credit hour per semester)
 Music 2616 Opera Workshop (1 credit hour per semester)
 Music 2617 Opera Workshop (2 credit hours per semester)
 Music 2619 Wind Ensemble (1 credit hour per semester)
 Music 263A/B Chamber Orchestra (1 credit hour per two semesters)
 Music 265A/B Jazz Ensemble (1 credit hour per two semesters)
 Contact the School of Music office for further information regarding the audition process..
4. Most courses in musicologies (course numbers with second digit "0") and music theory/composition (course numbers with second digit "1") are available to non-music Majors who have fulfilled the prerequisites.

11 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses in the School of Music are designated by the abbreviation MUS.

11.1 Applied Music Courses

140A/B Principal Applied Study I requires one hour per week of individual instruction (vocal or instrumental).

AR: attendance is required at School of Music recitals

CH: 4

CO: in each semester for students whose applied study is voice, piano, organ or guitar: one of MUS 2611, 2612 and in each semester for all other applied studies: one of MUS 2611 or 2612, and one of MUS 2613, 2614, 2615, 2619, 2620

OR: one hour per week of individual instruction

PR: admission to the Bachelor of Music Degree program

1700 Introduction to Music Technology provides a practical introduction to useful computer tools for musicians, such as music notation software, basic digital audio editing, and new media.

CH: 1

CO: MUS 140A/B

LC: 1

PR: admission to the Bachelor of Music Degree program

2401 Functional Keyboard I is an introduction to practical keyboard skills for students whose Principal Applied Study is not piano or organ. Functional accompaniment, transposition and score reading are emphasized.

CH: 0

CR: the former MUS 1127

LC: 1

PR: MUS 1108, successful completion of the Piano Proficiency Test, and admission to the Bachelor of Music Degree program

UL: may not be taken for credit by students whose Principal Applied Study is a keyboard instrument.

2402 Functional Keyboard II is a continuation of MUS 2401.

CH: 1

CR: the former MUS 1128

LC: 1

PR: MUS 2401 and admission to the Bachelor of Music Degree program

UL: may not be taken for credit by students whose Principal Applied Study is a keyboard instrument.

240A/B Principal Applied Study II is a continuation of MUS 140A/B.

AR: attendance is required at School of Music recitals

CH: 4

CO: one of MUS 2611-2620 in accordance with Ensemble II under the **Core Program**

OR: one hour per week of individual instruction

PR: MUS 140A/B and admission to the Bachelor of Music Degree program

2411 Advanced Functional Keyboard I is an introduction to practical keyboard skills for students whose Principal Applied Study is piano or organ.

Functional accompaniment, transposition and score reading are emphasized.

CH: 0

CR: the former MUS 1137

LC: 1

PR: MUS 1108, permission of the instructor for students whose Principal Applied Study is not a keyboard instrument, and admission to the Bachelor of Music Degree program

2412 Advanced Functional Keyboard II is a continuation of MUS 2411.

CH: 1

CR: the former MUS 1138

LC: 1

PR: MUS 2411, permission of the instructor for students whose Principal Applied Study is not a keyboard instrument, and admission to the Bachelor of Music Degree program

2611 Festival Choir requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: approval of the instructor

UL: may only obtain a maximum of 10 credit hours

2612 Chamber Choir requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 8 credit hours

2613 Chamber Orchestra requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 8 credit hours

2614 Concert Band requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: approval of the instructor

UL: may only obtain a maximum of 8 credit hours

2615 Jazz Ensemble requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 8 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2616 Opera Workshop requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 8 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2617 Opera Workshop requires six hours rehearsal per week.

AR: attendance is required

CH: 2

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 16 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2619 Wind Ensemble requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition

UL: may only obtain a maximum of 8 credits in 2619 or a combination of 2614 and 2619

2620 Instrumental Ensemble requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 8 credit hours

263A/B Chamber Orchestra requires 15 hours of rehearsal per semester.

AR: attendance is required

CH: 1 credit hour per two semesters

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 4 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

265A/B Jazz Ensemble requires 15 hours of rehearsal per semester.

AR: attendance is required

CH: 1 credit hour per two semesters

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 4 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2700 Lyric Diction I is a study of English, German, French and Italian lyric diction. The International Phonetic Alphabet will be introduced and applied to singing in these four languages.

CH: 1

LC: 1

PR: open only to students whose Principal Applied Study is Voice and admission to the Bachelor of Music Degree program

2701 Lyric Diction II is a continuation of MUS 2700.

CH: 1

LC: 1

PR: MUS 2700; open only to students whose Principal Applied Study is Voice and admission to the Bachelor of Music Degree program

3401 Functional Keyboard III is continuation of MUS 2402. Emphasis is on functional keyboard skills for classroom music teachers.

CH: 0

CR: the former MUS 2127

LC: 1

PR: MUS 2402 and admission to the Bachelor of Music Degree program

UL: may not be taken for credit by students whose Principal Applied Study is a keyboard instrument

3402 Functional Keyboard IV is a continuation of MUS 3401.

CH: 1

CR: the former MUS 2128

LC: 1

PR: MUS 3401 and admission to the Bachelor of Music Degree program

UL: may not be taken for credit by students whose Principal Applied Study is a keyboard instrument

340A/B Principal Applied Study III is a continuation of MUS 240A/B for students whose Major is other than Performance.

AR: attendance is required at School of Music recitals

CH: 4

CO: one of MUS 2611-2620 in accordance with Ensemble II under the **Core Program**

CR: MUS 345A/B

OR: one hour per week of individual instruction

PR: MUS 240A/B, successful completion of MUS 1006, 1108, 1118 and the former 1138, and admission to the Bachelor of Music Degree program

3411 Advanced Functional Keyboard III is a continuation of MUS 2412. Emphasis is on functional keyboard skills for classroom music teachers.

CH: 0

CR: the former MUS 2137

LC: 1

PR: MUS 2412, permission of the instructor for students whose Principal Applied Study is not a keyboard instrument, and admission to the Bachelor of Music Degree program

3412 Advanced Functional Keyboard IV is a continuation of MUS 3411.

CH: 1

CR: the former MUS 2138

LC: 1

PR: MUS 3411, permission of the instructor for students whose Principal Applied Study is not a keyboard instrument, and admission to the Bachelor of Music Degree program

345A/B Principal Applied Study III - Performance is a continuation of MUS 240A/B. A more intensive approach to performance than in MUS 340A/

B. Students are required to present a public recital consisting of 25 to 35 minutes of music to be given before the last day of classes in the second semester of the course.

AR: attendance is required at School of Music recitals

CH: 6

CO: one of MUS 2611-2620 in accordance with Ensemble II under the

Core Program

CR: MUS 340A/B

OR: one hour per week of individual instruction

PR: MUS 240A/B, successful completion of MUS 1006, 1108, and 1118, and admission to the Bachelor of Music Degree program; open only to Performance Majors

3500 Chamber Music Seminar is an introduction to principles and practices in chamber music performance with an overview of repertoire research methods.

AR: attendance is required

CH: 1

CO: first registration in MUS 3511 or 3512

CR: the former MUS 3510

PR: an audition and admission to the Bachelor of Music Degree program. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

3511 Chamber Music requires the ensemble to prepare and perform a recital of 10-15 minutes of music. Each ensemble receives six hours of coaching in preparation for the performance.

AR: attendance is required at all coachings and masterclasses

CH: 1 per semester

CO: MUS 3500 for first registration in MUS 3511 or 3512

PR: permission of the instructor and admission to the Bachelor of Music Degree program; repertoire to be performed must be approved prior to registration

UL: may only obtain a maximum of 8 credit hours

3512 Chamber Music requires the ensemble to prepare and perform a recital of 18-22 minutes of music. Each ensemble receives nine hours of coaching in preparation for the performance.

AR: attendance is required at all coachings and masterclasses

CH: 2 per semester

CO: MUS 3500 for first registration in MUS 3511 or 3512

PR: permission of the instructor and admission to the Bachelor of Music Degree program; repertoire to be performed must be approved prior to registration

UL: may only obtain a maximum of 12 credit hours

3513 Chamber Music requires the ensemble to prepare and perform a recital of 25-30 minutes of music. Each ensemble receives twelve hours of coaching in preparation for the performance.

AR: attendance is required at all coachings and masterclasses

CH: 3 per semester

PR: permission of the instructor and admission to the Bachelor of Music Degree program; repertoire to be performed must be approved prior to registration

UL: may only obtain a maximum of 18 credit hours

3514 Small Ensemble is a conducted ensemble requiring two hours per week of rehearsal.

CH: 1 per semester

PR: permission of the Dean and admission to the Bachelor of Music Degree program

UL: may only obtain a maximum of 6 credit hours

3515 Accompaniment requires the students to meet for one hour per week in a masterclass. Coaching will be given to prepare for performance of a 15- to 20-minute program with a singer or instrumentalist.

AR: attendance is required

CH: 1 per semester

PR: admission to the Bachelor of Music Degree program; open only to students whose Principal Applied Study is a keyboard instrument; others by permission of the Dean; repertoire to be performed must be approved prior to registration

UL: may only obtain a maximum of 4 credit hours

3516 Accompaniment requires students to meet for one hour per week in a masterclass. Coaching will be given to prepare for performance of a half-hour program with a singer or instrumentalist.

AR: attendance is required

CH: 2 per semester

PR: admission to the Bachelor of Music Degree program; open only to students whose Principal Applied Study is a keyboard instrument; others by permission of the Dean; repertoire to be performed must be approved prior to registration

UL: may only obtain a maximum of 8 credit hours

3517 World Music Ensemble is a coached activity exploring one or more world music repertoires. This ensemble requires 2 hours of rehearsal per week.

AR: attendance is required

CH: 1 per semester

PR: admission to the Bachelor of Music Degree program

UL: may only obtain a maximum of 6 credit hours

3518 Contemporary Music/Improvisation Ensemble is a coached activity exploring improvisation and/or contemporary repertoire for mixed ensembles. This ensemble requires 2 hours of rehearsal per week.

AR: attendance is required

CH: 1 per semester

PR: admission to the Bachelor of Music Degree program

UL: may only obtain a maximum of 6 credit hours

3605 Music Theatre Workshop - inactive course.

3704 Career Skills for Musicians is an exploration of careers in music. Topics may include preparation of CVs, resumes, cover letters, business plans, grant applications, web sites, press kits and other promotional materials, tax, legal and business issues in the arts; and the study of successful arts enterprises.

CR: the former MUS 3703

3712 Improvisation is an introduction to the art and practice of improvisation through guided ensemble exploration and performance, score study and the application of contemporary performance practice.

PR: MUS 240A/B and admission to the Bachelor of Music Degree program

3722 Brass Seminar has topics selected from: issues of brass performance practice, history of brass instruments, brass literature and pedagogy, performance anxiety, comparative performances of brass repertoire, and other issues of special relevance to brass players.

CH: 1 per semester

PR: admission to the Bachelor of Music Degree program. Open only to students whose Principal Applied Study is a brass instrument; others by permission of the Dean.

UL: may only obtain a maximum of 2 credit hours

3732 Woodwind Seminar has topics selected from: issues of woodwind performance practice, history of woodwind instruments, woodwind literature and pedagogy, performance anxiety, comparative performances of woodwind repertoire, and other issues of special relevance to woodwind players.

CH: 1 per semester

PR: admission to the Bachelor of Music Degree program. Open only to students whose Principal Applied Study is a woodwind instrument; others by permission of the Dean.

UL: may only obtain a maximum of 2 credit hours

3742 String Seminar has topics selected from: issues of string performance practice, history of string instruments, string literature and pedagogy, performance anxiety, comparative performances of string repertoire, and other issues of special relevance to string players.

CH: 1 per semester

PR: admission to the Bachelor of Music Degree program. Open only to students whose Principal Applied Study is a string instrument; others by permission of the Dean.

UL: may only obtain a maximum of 2 credit hours

3751 Studio Pedagogy is designed to provide students with a basic knowledge of resources and pedagogical approaches used in studio teaching at various levels. May include guest masterclasses and lectures.

CO: MUS 140B or permission of the instructor

CR: the former MUS 3773

PR: MUS 140B or permission of the instructor, and admission to the Bachelor of Music Degree program

3764 Vocal Pedagogy provides a thorough study of the anatomy, physiology and acoustics of the vocal tract and singing voice as well as a practical application of these topics.

CR: the former MUS 3761, 3762, 3763

PR: Music 140B in voice, and admission to the Bachelor of Music Degree program

3774 Piano Pedagogy is designed to provide students with a basic knowledge of resources and pedagogical approaches used in piano studio teaching at various levels. May include guest masterclasses and lectures.

CO: MUS 140B or permission of the instructor

CR: the former MUS 3772

PR: MUS 140B or permission of the instructor, and admission to the Bachelor of Music Degree program

440A/B Principal Applied Study IV is a continuation of MUS 340A/B.

AR: attendance is required at School of Music recitals
 CH: 4
 CO: one of MUS 2611-2620 in accordance with Ensemble II listed under the **Core Program**
 CR: MUS 445A/B
 OR: one hour per week of individual instruction
 PR: MUS 340A/B, successful completion of MUS 2006, 2108, and 2118, and admission to the Bachelor of Music Degree program

445A/B Principal Applied Study IV - Performance is a continuation of MUS 345A/B. Students are required to present a public recital consisting of 50 to 60 minutes of music with program notes. This recital will normally take place in the second semester, before the last day of classes. A minimum grade of 75% is required to pass MUS 445B.

AR: attendance is required at School of Music recitals
 CH: 6
 CO: one of MUS 2611-2620 in accordance with Ensemble II listed under the **Core Program**
 CR: MUS 440A/B
 OR: one hour per week of individual instruction
 PR: MUS 345A/B, successful completion of MUS 2006, 2108, and 2118 and admission to the Bachelor of Music Degree program; open only to Performance Majors

4503 Special Topics in Applied Music will have topics to be studied announced by the School of Music.

CH: 1 per semester
 PR: admission to the Bachelor of Music Degree program
 UL: may only obtain a maximum of 3 credit hours

4504 Special Topics in Applied Music will have topics to be studied announced by the School of Music.

CH: 2 per semester
 PR: admission to the Bachelor of Music Degree program
 UL: may only obtain a maximum of 4 credit hours

4505 Special Topics in Applied Music will have topics to be studied announced by the School of Music.

CH: 3 per semester
 PR: admission to the Bachelor of Music Degree program
 UL: may only obtain a maximum of 6 credit hours

4701 Music in the Community allows students to explore the role of the artist in the community by planning and carrying out a community music-making project. Students will be required to propose a viable collaborative project prior to registering.

CH: 1
 PR: MUS 3704 or the former MUS 3703, permission of the Dean, and admission to the Bachelor of Music Degree program

4702 Music in the Community allows students to explore the role of the artist in the community by planning and carrying out a community music-making project. Students will be required to propose a viable collaborative project prior to registering.

CH: 2
 PR: MUS 3704 or the former MUS 3703, permission of the Dean, and admission to the Bachelor of Music Degree program

4703 Music in the Community allows students to explore the role of the artist in the community by planning and carrying out a community music-making project. Students will be required to propose a viable collaborative project prior to registering.

PR: MUS 3704 or the former MUS 3703, permission of the Dean, and admission to the Bachelor of Music Degree program

11.2 Ensemble Techniques Courses

All courses in ensemble techniques are available only to candidates for the degree of Bachelor of Music except where specified.

2311 Voice/Choral Materials I is a practical study, in a class situation, of vocal production, choral conducting and rehearsal techniques. This course is open to Bachelor of Music degree students and students in the Music Concentration Program for the Bachelor of Education (Primary or Elementary) degree.

2312 Voice/Choral Materials II is a continuation of MUS 2311.
 PR: MUS 2311

3221 Brass Techniques I meets one hour per week. Practical study, in a class situation, of the basic techniques of playing brass instruments.
 CH: 1

3222 Brass Techniques II meets one hour per week. A continuation of MUS 3221. Students whose Principal Applied Study is a brass instrument must have the permission of the instructor to take this course.

CH: 1

3231 Flute Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the flute.

CH: 1
 UL: may not be taken for credit by students whose Principal Applied Study is flute.

3232 Single Reed Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the clarinet and/or saxophone.

CH: 1
 PR: permission of the instructor for students whose Principal Applied Study is clarinet or saxophone.

3233 Double Reed Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the oboe and/or bassoon.

CH: 1
 PR: permission of the instructor for students whose Principal Applied Study is oboe or bassoon.

3241 Upper String Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the violin and viola.

CH: 1
 UL: may not be taken for credit by students whose Principal Applied Study is violin or viola

3242 Lower String Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the cello and string bass.

CH: 1
 PR: permission of the instructor for students whose Principal Applied Study is cello or string bass.

3261 Guitar Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the guitar.

CH: 1
 UL: may not be taken for credit by students whose Principal Applied Study is guitar.

3271 Organ Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the organ.

CH: 1
 PR: permission of the instructor for students whose Principal Applied Study is not piano.

3272 Harpsichord Techniques meets one hour per week. Practical study in a class situation of the basic techniques of playing the harpsichord.

CH: 1
 PR: permission of the instructor for students whose Principal Applied Study is not piano or organ.

3281 Percussion Techniques I meets one hour per week. Practical study, in a class situation, of the basic techniques of playing percussion instruments.

CH: 1
 UL: may not be taken for credit by students whose Principal Applied Study is percussion.

3282 Percussion Techniques II meets one hour per week and is a continuation of MUS 3281.

CH: 1
 PR: MUS 3281
 UL: may not be taken for credit by students whose Principal Applied Study is percussion.

3316 Instrumental Lab meets 1½ hours per week and is a continuation of the former MUS 3315. This course will not be offered after Winter 2014.

CH: 1
 PR: MUS 3321 or the former MUS 3315

3321 Instrumental Conducting I is the practical study of conducting and rehearsal techniques for band and orchestra.

AR: attendance is required
 CR: the former MUS 3311, 3313
 PR: MUS 1108

3322 Instrumental Conducting II is continuation of MUS 3321.

AR: attendance is required
 CR: the former MUS 3312, 3314
 PR: Music 3321

11.3 Music Theory and Composition Courses

1107 Materials and Techniques of Music I is the study of the basic materials of tonal music; introduction to melody writing and phrase structures; introduction to voice leading with emphasis on chorale style; analysis and composition of smaller formal elements.

CO: MUS 1117

CR: the former MUS 110A, the former MUS 1113

PR: MUS 1120 with a minimum mark of 75% or successful completion of the Theory Placement Test.

1108 Materials and Techniques of Music II is a continuation of MUS 1107. Harmonic vocabulary is expanded to include all diatonic triads and seventh chords, with an introduction to chromatic harmony; phrase expansions and contractions; analysis and composition of binary and ternary forms.

PR: MUS 1107

1116 Basic Musicianship is an introduction to sightsinging and dictation for students whose level of preparation is not adequate for MUS 1117.

CH: 1

LC: 2

UL: not applicable to the Bachelor of Music degree.

1117 Aural Skills I is a course on sightsinging and dictation.

CH: 1

CO: MUS 1107

LC: 2

PR: a minimum grade of 75% in MUS 1116 or successful completion of the Theory Placement Test.

1118 Aural Skills II is a continuation of MUS 1117.

CH: 1

LC: 2

PR: MUS 1107, 1117

1120 Rudiments I is an introductory course in music rudiments and theory. Development of aural skills is emphasized.

UL: not applicable to the Bachelor of Music degree.

2107 Materials and Techniques of Music III is a study of chromatic harmony with emphasis on both writing and analysis. Introduction to sonata form.

CR: the former MUS 210A, the former MUS 2113

PR: MUS 1108

2108 Materials and Techniques of Music IV is a continuing study of chromatic harmony with an emphasis on enharmonic modulation and other advanced chromatic techniques. Continued study of sonata form, rondo, sonata rondo and variation forms. Written work will include both analysis and composition exercises in the styles studied.

CR: the former MUS 210B, the former MUS 2114

PR: MUS 2107

2117 Aural Skills III is a continuation of MUS 1118.

CH: 1

LC: 2

PR: MUS 1108, 1118

2118 Aural Skills IV is a continuation of MUS 2117.

CH: 1

LC: 2

PR: MUS 2107, 2117

3100 Composition I introduces students to a variety of compositional concepts such as selected post-1900 techniques, developments in rhythm and metre, texture, phrase structures, song forms, short forms, and motivic development. The emphasis will be on composing short works employing the compositional devices studied. Students planning to apply for the Major in Composition are strongly encouraged to take this course.

PR: MUS 1108

3104 Electronic Music Studio Techniques I is a course designed to give basic instruction in the theory, technique, and philosophy of electronic music composition. Students obtain the skills necessary to operate the equipment of an electronic music studio (including mixers, synthesizers, and samplers) and to use them in appropriate and creative ways. Objectives of the course are achieved through lecture, lab experiences, listening and practical application.

PR: MUS 1108

3105 Materials and Techniques of Post-Tonal Music is a study of compositional devices used in the twentieth century. Topics include minimalism, new tonality, aleatorism, atonality, set theory, serial techniques, and electronic music.

PR: MUS 2108

3106 Sixteenth-Century Counterpoint is a course combining the analytical study of 16th-century sacred polyphony with an emphasis on the development of compositional skills in this style. Students will be required to write two- and three-part counterpoint exercises and a motet. The principal composers studied will be Palestrina, Lassus and Victoria. Some listening and singing assignments are required.

PR: MUS 1108

3107 Materials and Techniques of Music V is a study of major post-Baroque forms and genres, including sonata, rondo, sonata-rondo, variation, symphony, and concerto, as well as selected twentieth-century styles and

techniques. This course will not be offered after the 2012-2013 academic year.

CR: the former MUS 310B, the former MUS 3114

PR: MUS 2108, and 1118

3108 Eighteenth-Century Counterpoint is a study of form and polyphony in eighteenth-century music, including the fugue and the Baroque suite. Assignments include analysis, composition, and written exercises in counterpoint.

CR: the former MUS 310A, the former MUS 3113

PR: MUS 2107

3109 Jazz Theory and Arranging is an introduction to jazz theory and the principles of arranging for jazz ensembles.

PR: MUS 2108

3112 Orchestration I is an introduction to the principles of orchestration with an emphasis on instrumentation.

CR: the former MUS 3102

PR: MUS 2108 or permission of the instructor

3140 Composition Seminar provides intensive composition study for students whose Major or Minor is Composition.

PR: MUS 2108, 2118, and admission to the Composition Major or Minor

UL: may only obtain a maximum of 6 credit hours

4104 Electronic Music Studio Techniques II is a continuation of MUS 3104.

PR: MUS 3104

4105 Special Topics in Music Theory will have topics to be studied announced by the School of Music.

CH: 1

UL: may only obtain a maximum of 3 credit hours

4106 Special Topics in Music Theory will have topics to be studied announced by the School of Music.

CH: 2

UL: may only obtain a maximum of 4 credit hours

4107 Special Topics in Music Theory will have topics to be studied announced by the School of Music.

UL: may only obtain a maximum of 6 credit hours

4112 Orchestration II is a continuation of MUS 3112, and examines the technique of orchestration as it relates to the symphonic orchestra and other large ensembles.

CR: the former MUS 4102

PR: MUS 3112, or the former MUS 3102, or permission of the instructor.

4140 Advanced Composition Seminar provides advanced composition study for students whose Major or Minor is Composition. Students will prepare a recital of original works and/or a portfolio of their compositions.

PR: 6 credit hours of MUS 3140, and admission to the Composition Major

UL: may only obtain a maximum of 6 credit hours

11.4 Musicologies Courses

1005 Thinking and Writing About Music I is designed to develop listening, critical thinking, research and writing skills through selected cross-cultural topics and themes exploring the relationship between music and society. The course will introduce the student to the terminology of music history and the concepts of genre, musical style and style periods. This course has strong listening and writing components.

CR: MUS 2012, the former MUS 1002

PR: MUS 1120 or successful completion of theory placement test or admission to the Bachelor of Music degree program. The ability to read music is required.

1006 Thinking and Writing about Music II is a continuation of MUS 1005.

PR: MUS 1005

2002 Music History III is an intensive survey, through selected compositions, of the development of musical styles in Europe in the Classical and Romantic Periods. This course has strong listening and writing components. This course will not be offered after the 2012-2013 academic year.

PR: the former MUS 1003

2003 Music History IV is a continuation of MUS 2002. An intensive survey, through selected compositions, of the development of musical styles in the Western world from post-Romanticism and Impressionism to the present, including reference to the history of music in Canada. This course has strong listening and writing components. This course will not be offered after the 2012-2013 academic year.

PR: MUS 2002

2005 History of Western Art Music I is an intensive survey, through selected compositions, of the development of musical style to 1700. This course has strong listening and writing components and continues to

develop research skills.
CO: MUS 1107
CR: the former MUS 1003
PR: MUS 1006

2006 History of Western Art Music II is a continuation of MUS 2005. An intensive survey, through selected compositions, of the development of musical styles in the Western world from 1700 to 1900. This course has strong listening and writing components and continues to develop research skills.

CR: the former MUS 2002
PR: MUS 2005

2011 North American Popular Music is a survey of the major genres of North American popular music. The course has three organizing themes: 1) the influence of Euro-American musics, African-American musics, and Latin American musics on popular music, 2) the relationship between popular music, capitalism, and technology, and 3) popular music as a medium for the portrayal of identity. This course has a strong listening component. The ability to read music is not required.

UL: not applicable to the Bachelor of Music Degree.

2012 Understanding Classical Music: Introduction Through Guided Listening is a course designed to enhance and develop listening skills and an understanding of the basic elements of music. Form and musical style in Western classical music will be explored within a cultural and historical context. Through guided listening, the student will be exposed to a variety of musical styles and traditions. This course has a strong listening component. The ability to read music is not required.

CR: MUS 1005, 1006, 2005, 2006 or the former MUS 1000, 1001, 1002, 1003, 1010, 1020 or 1021

UL: not applicable to the Bachelor of Music Degree.

2013 Twentieth-Century Musicals (same as English 1213) is a survey of twentieth-century musical theatre. Selected works, presenting different styles and periods, will be examined in detail. There will be a strong, required listening/viewing component to this course. The ability to read music is not required.

CR: MUS 3007, English 1213

UL: not applicable to the Bachelor of Music Degree.

2014 Introduction to World Music provides an introduction to the musics of selected cultures and contemporary intercultural communities. Drawing on topics and issues in ethnomusicology, it focuses on musical practices, beliefs, and techniques. It is intended to develop listening skills, broaden musical horizons, as well as to enable a deeper understanding of the way music functions in relation to social groups and individual lives.

UL: not applicable to the Bachelor of Music Degree.

2021 Newfoundland and Labrador Folksinging is an introduction to the sociocultural contexts, functions, and meanings of folksong in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral and scholarly histories, the course offers practical instruction by a tradition-bearer in the singing of traditional Newfoundland and Labrador tunes and texts, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2021-2023 series may be applied toward the Bachelor of Music Degree

2022 Newfoundland and Labrador Fiddling is an introduction to the sociocultural contexts, functions, and meanings of fiddling in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral histories, the course offers practical instruction by a tradition-bearer on the fiddle, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2021-2023 series may be applied toward the Bachelor of Music Degree

2023 Newfoundland and Labrador Accordion is an introduction to the sociocultural contexts, functions, and meanings of accordion music in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral histories, the course offers practical instruction by a tradition-bearer on the button accordion, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2021-2023 series may be applied toward the Bachelor of Music Degree

3004 The Development of Symphonic Music (formerly MUS 3020) is a study of the development of symphonic literature from the late Baroque era to the present day. Selected compositions, representing different periods and styles, will be examined in detail. This course has a strong listening component.

CR: the former MUS 3020
PR: MUS 2005

3005 The Development of Opera is a study of the development of opera from the beginnings to the present day. Selected operas, representing different periods and styles, will be examined in detail. This course has a strong listening component.

PR: MUS 2005

3006 The History of the Concerto is a study of the development of the concerto from the late Baroque until the present day. Selected compositions, representing different styles and periods, will be examined in detail. This course has a strong listening component.

PR: MUS 2005

3007 A History of Popular Music in Drama is a survey of popular music styles in drama from the rise of the *Singspiel* to the musicals of Andrew Lloyd Weber. Selected works, representing different styles and periods, will be examined in detail. This course has a strong listening component.

CR: MUS 2013, English 2013

PR: MUS 2005 or permission of the instructor

3009 Music in the Modern World is an intensive study of music in the 20th and 21st centuries. Focused themes address a wide range of genres and styles with particular attention to music's interaction with the other arts and with society. This course has strong listening and writing components and continues to develop research skills.

CR: the former MUS 2003

PR: MUS 2006

3014 World Music: Musics of Asia and Oceania is an examination of musical theory, genres, instruments, aesthetics, and functions of music in Asia and Oceania, including the classical music of the Indian subcontinent, ritual musics of East Asia, gong-chime ensembles of Southeast Asia, and traditional musics of Polynesia and Australia. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work

3015 World Music: Music of Africa and the Americas is an examination of musical theory, genres, instruments, aesthetics, and functions of music in Africa and the Americas, including traditional African musics, neo-African musics of the Americas, Native American musics, and traditional South American musics. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work

3016 Canadian Musical Traditions is a survey of musical streams in Canadian music history from colonial times to the present, including indigenous and transplanted musical traditions, and Canadian art music. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work

3017 Music, Song and Tradition (same as Folklore 3200) introduces students to a wide range of traditional song. Students will hear and discuss local, regional and international examples. Ability to read music or familiarity with music theory not required.

CH: 3

CR: FOLK 3200, the former FOLK 4445

3018 Jazz and Blues: The Roots of Popular Music (same as Folklore 3618) is an overview of blues and jazz as traditional musical forms. Lectures and listening will illustrate the development of regional music cultures and generic styles. To better understand the shift of blues and jazz from regional to global performance contexts, the course will examine the effects of changing transmissional media, from predominantly sensory media through contemporary media technologies. A term paper concerning musical style will entail library research and aural analysis.

CR: Folklore 3618

3019 Popular Music Studies will explore a number of genres in the historical development of world popular music and dance, along some of the following themes: the roles of race, class, gender, sexuality, age, and ability in popular music production and reception; processes and effects of mass media and technology in shaping genres and consumers' experience of them; and cross-cultural influences within and across national borders.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work

3060 Voice Literature and Performance Practice is a survey of selected solo vocal repertoire from the Renaissance to the present day. Stylistic development and performance practices will be emphasized.

PR: MUS 140B in voice or permission of the instructor.

3070 Piano Literature and Performance Practice is a survey of piano repertoire from the Baroque era to the present day. Stylistic development and performance practices will be emphasized.

PR: MUS 140B in piano or permission of the instructor

4001 The First Viennese School is a study of the music composed in the Austro-Hungarian Empire from 1770 to 1800. The works of Haydn, Mozart and the young Beethoven will be investigated with particular emphasis on musical style, performance practices and cultural context. Listening will focus on complete works or extended excerpts.

PR: MUS 2006

4002 Studies in Baroque Music is an examination of aspects of musical style and performance practices in the baroque period through the study of

selected topics and specific musical examples. The course includes reading assignments, listening, score reading, and taking part in class demonstrations.

PR: MUS 2006

4003 Special Topics in Musicologies will be announced by the School of Music.

CH: 1 per semester

UL: may only obtain a maximum of 3 credit hours

4004 Special Topics in Musicologies will be announced by the School of Music.

CH: 2 per semester

UL: may only obtain a maximum of 4 credit hours

4005 Special Topics in Musicologies will be announced by the School of Music.

UL: may only obtain a maximum of 6 credit hours

4040 Music and Culture (same as Folklore 4440, the former Anthropology 4440, the former MUS 4440) examines traditional music as an aspect of human behaviour in Western and non-European cultures. Examination of

the functions and uses of music; folk- popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.

CR: Folklore 4440, the former Anthropology 4440, the former MUS 4440

4094 Introduction to Music Research is a study of bibliography and various aspects of research methods appropriate to the study of music. Students will participate in group and individual projects, and give a seminar presentation in class. This course will not be offered after the 2013-2014 academic year.

PR: MUS 2003

4095 Graduating Essay is directed study which will result in the production of an original paper dealing with a topic in musicologies (including but not limited to music history, ethnomusicology, and popular music studies). This course is restricted to Musicologies Majors. A one-page research proposal and sample bibliography of at least ten items must be submitted to the Dean by the end of the seventh week of classes in the previous semester.

PR: admission to the Musicologies Major

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 School Description

The origin of Memorial University of Newfoundland School of Nursing dates back to August 1963 when the Association of Registered Nurses of Newfoundland submitted a brief to the University calling for the establishment of a baccalaureate program in nursing. In September 1966, the first students were admitted to the undergraduate degree program. Over its 42 year history, the School has remained responsive to the changing needs of nursing within the province and in Canada and consequently has developed and changed over time.

The educational, research and scholarly activities of the School and its faculty draw upon knowledge from the arts and sciences and from nursing and other health professions. The School and its faculty are also involved in many community outreach and professional service activities. While being responsive to national and international needs, the School acknowledges its primary responsibility to the people of Newfoundland and Labrador.

The School offers undergraduate degree programs on campus to prepare entry-level nurses for practice, and by distance for registered nurses with a diploma in nursing. A graduate degree, the Master of Nursing, is offered by the School of Graduate Studies.

Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

Further information regarding the School of Nursing is available at www.mun.ca/nursing/about_us/.

2.1 Vision Statement

The School of Nursing provides innovative leaders in nursing education and research provincially, nationally and internationally by developing quality learning and scholarship environments. Graduates of the School of Nursing will be prepared to embrace the challenges of providing health care and will be responsive to human diversity while improving health for all.

2.2 Mission Statement

The School of Nursing's mission provides leadership and advances knowledge in nursing education, practice and research with the goal of promoting health and well-being.

2.3 Accreditation Status and Approval Status

2.3.1 Accreditation Status

The School of Nursing's Bachelor of Nursing (Collaborative) and the Bachelor of Nursing (Post-RN) programs are accredited to 2015 by the Canadian Association of Schools of Nursing (CASN). This seven year award is the highest award given to Schools of Nursing in Canada.

2.3.2 Approval Status

The School of Nursing's Bachelor of Nursing (Collaborative) and the Bachelor of Nursing (Post-RN) programs are approved to 2015 by the Association of Registered Nurses of Newfoundland and Labrador (ARNNL). The ARNNL approval designation assures both the public and our students that these programs prepare ethical entry-level practitioners who provide safe quality health care. These program graduates meet the requirements for licensure and professional practice as registered nurses in Newfoundland and Labrador.

3 Description of Programs

All courses of the School are designated by the abbreviation NURS.

3.1 General

The School of Nursing offers an undergraduate program leading to a Bachelor of Nursing to prepare entry-level nurses. To meet the licensing requirements for practising nursing in Canada, students must write the Canadian Registered Nurse Exam (CRNE). To be eligible to write the CRNE, candidates must graduate from an approved program offered by a School of Nursing and be recommended by the School of Nursing. In order to be recommended for the CRNE, a student must complete a comprehensive examination set by the Bachelor of Nursing (Collaborative) Program. All costs associated with these exams are the responsibility of the student.

The School of Nursing also offers an undergraduate program leading to a Bachelor of Nursing for nurses with a diploma in nursing. Students in the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option program must meet the licensing requirements for practising as a Nurse Practitioner in Newfoundland and Labrador by writing the Canadian Nurse Practitioner Family/All Ages Examination. To be eligible to write the examination, candidates must graduate from an approved School of Nursing and be recommended by the School of Nursing. In order to be recommended for the Nurse Practitioner licensure examination students must complete a comprehensive examination set by the School of Nursing. All costs associated with these exams are the responsibility of the student.

3.1.1 Bachelor of Nursing (Collaborative) Program

This four year program is designed to prepare competent entry-level nurses who will function within a variety of health care settings. The graduate is prepared to assume the roles of direct care giver, educator, counsellor, advocate, facilitator, co-ordinator of care, researcher, leader, and member of the nursing profession. This full-time program is comprised of 130 credit hours. Please note, the last semester of the fourth year extends beyond the normal University semester end date.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate, and a CPR certificate. Students unable to meet these agency requirements may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually. In order to satisfy clinical practice requirements for the Bachelor of Nursing (Collaborative) program, clinical agencies may be used 24 hours a day, seven days a week. Students may be required to attend during any of these times.

This program is offered at Memorial University of Newfoundland School of Nursing, the Centre for Nursing Studies, and the Western Regional School of Nursing. Information regarding the Centre for Nursing Studies is available at www.cns.nf.ca/, and information regarding the Western Regional School of Nursing is available at www.swgc.mun.ca/nursing.

3.1.2 Bachelor of Nursing (Collaborative) Fast-Track Option

The Fast-Track Option is also designed to prepare competent entry-level nurses, however it is geared to students with well-developed university-level study skills. This full-time Option is for current degree holders or those with advanced standing and is comprised of 94 credit hours. This Option is taken over six consecutive semesters, i.e. two calendar years. Please note, the last semester of the second year ends later than the scheduled date on which the semester ends.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate and a CPR certificate. Students unable to meet these agency requirements may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually.

This Option is offered at Memorial University of Newfoundland School of Nursing and Western Regional School of Nursing. Information regarding the Western Regional School of Nursing is available at www.swgc.mun.ca/nursing.

3.1.3 Bachelor of Nursing (Collaborative) LPN Bridging Option

This Option provides a career ladder for Licensed Practical Nurses (LPN's). This Option offers students a combination of 25 unspecified transfer nursing credit hours for the successful completion of a nursing bridging course taken during the Bridging Semester and the recognition of prior nursing knowledge and clinical experience obtained through previous LPN education and work experiences. The Nursing Bridging course will prepare students to enter the second year of the degree program, thereby decreasing the length of the program and its inherent costs.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate, and a CPR certificate. Students unable to meet these agency requirements, may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually. In order to satisfy clinical practice requirements for the Bachelor of Nursing (Collaborative) program, clinical agencies may be used 24 hours a day, seven days a week. Students may be required to attend during any of these times.

This program is offered at the Centre for Nursing Studies. Information regarding the Centre for Nursing Studies is available at www.cns.nf.ca/.

3.1.4 Bachelor of Nursing (Post-RN) Program

This program is designed to build on the knowledge and competencies that registered nurses acquire in their diploma program. The program content and learning activities are intended to broaden students' theoretical base within the context of health promotion and to provide opportunities for students to enhance skills such as critical thinking and research application. The program is offered entirely by distance education. The program is designed for the convenience of registered nurses who wish to continue their education but cannot attend a university campus. The full-time or part-time program is comprised of 108 credit hours.

3.1.5 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

This Option is a time-limited transitional offering consisting of six semesters full time or eleven semesters part-time. This Option is primarily through distance delivery but there is a residency requirement in each semester. The full or part-time Option is comprised of 111 credit hours. Maximum enrolment is sixteen per full-time and part time options.

4 Admission/Readmission Regulations for the School of Nursing

Applicants requiring additional information may e-mail nursingadmissions@mun.ca.

In addition to meeting the **UNIVERSITY REGULATIONS** students must meet the admission/readmission regulations for the School of Nursing.

4.1 General Information

- Entry to the Bachelor of Nursing (Collaborative) four year and Fast-Track Option, the LPN Bridging Option, and to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option are competitive for a limited number of placements. Meeting the minimum requirements for admission does not guarantee acceptance into the selected program. The final decision on admission rests with the relevant Admissions Committee of the School.
- Admission or readmission to the University does not necessarily constitute admission or readmission to any program.
- Selection of candidates for Bachelor of Nursing (Collaborative) four year and Fast-Track two year Option, and to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option is based on academic performance, relevant work and volunteer experience, references and personal statements.
- Admission to the Bachelor of Nursing (Collaborative) Fast-Track Option is competitive for a limited number of places. Selection of candidates is based on:
 - a minimum grade point average of 3.0 on a 4 point scale in their degree program for applicants who have completed a bachelor degree;
 - a minimum overall grade point average of 3.0 on a 4 point scale in the twelve courses, 36 credit hours required for admission for applicants for advanced standing;
 - evidence of ability to successfully maintain a full course load; and
 - other criteria considered suitable for professional practice in nursing.
- Admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option is on the basis of competition for a limited number of seats. Selection of candidates will be based on:
 - academic performance in the practical nursing program and in any university courses taken to date;
 - evidence of ability to successfully maintain a full course load; and
 - other criteria considered suitable for professional practice in nursing.

Admission to the program is denied to any student if, in the judgment of the Joint Admissions Committee, s/he is deemed unsuitable for admission.

Applicants must provide two letters of reference (one reference regarding academic performance and one from a current employer regarding clinical performance)
- For all programs, other than the Bachelor of Nursing (Post-RN), priority is given to applicants who are residents of Newfoundland and Labrador.
- In addition to the regular quota positions, up to three additional positions per year are available in the Bachelor of Nursing (Collaborative) four year Option program for applicants of aboriginal ancestry who have met the admission requirements. Applicants must send a letter of request at the time of application and provide documentation of aboriginal ancestry.
- Applicants are required to submit a health assessment and a complete record of current immunizations at the beginning of all programs except for the Bachelor of Nursing (Post-RN) when they must be submitted prior to commencing any Nursing course with a clinical component.
- Bachelor of Nursing (Collaborative) Fast-Track, Bachelor of Nursing (Collaborative) LPN Bridging Option, and Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care applicants may be requested to attend an interview.
- Evidence of certification in Standard First Aid and Basic Life Support (CPR) level HCP, offered by The Canadian Red Cross or St. John Ambulance is required by applicants to all programs except the Bachelor of Nursing (Post-RN). Certification obtained from other organizations will be accepted if deemed equivalent by the School of Nursing.

4.2 Application Forms and Deadlines

- All programs and their options, other than the Bachelor of Nursing (Post-RN) program, commence in the Fall semester. The deadline for application to the Bachelor of Nursing (Collaborative) Program, four year and Fast-Track two year Option and Bachelor of Nursing (Collaborative) LPN Bridging Option is March 1st. The Bachelor of Nursing (Post-RN) Option applications for admission are accepted on an ongoing basis.
- Students applying for admission to Bachelor of Nursing degree programs must submit the appropriate supplementary Undergraduate Application for Admission/ Readmission to the University and supporting documents as specified on the application. The applications for admission to the four year and Fast Track Options of the Bachelor of Nursing (Collaborative) and to the Bachelor of Nursing (Post RN) degree are available online through the University's Online General Undergraduate Application for Admission/Readmission which can be found at www.mun.ca/become. The Bachelor of Nursing (Collaborative) LPN Bridging Option application for admission is available at www.mun.ca/nursing/undergrad. The Bachelor of Nursing (Post-RN) program application for admission is available at www.mun.ca/nursing/undergrad/post_rn/forms.php. Application forms and other information may also be obtained by contacting the University in writing to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by e-mail at admissions@mun.ca or through the website at www.mun.ca/regoff/home/.

4.3 Admission Requirements to School Programs

These regulations apply to the Bachelor of Nursing (Collaborative) program 4 year Option, Fast-Track 2 year Option and LPN Bridging Option.

Applicants may apply for admission to School programs under the **Categories Of Applicants, Admission Criteria and Other Information** outlined under **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)**. In addition to meeting these regulations, applicants in the following categories, must meet the additional requirements as indicated below.

4.3.1 High School Applicants

Applicants from High School may apply for admission only to the Bachelor of Nursing (Collaborative) four year program.

- High School applicants to the Bachelor of Nursing (Collaborative) program must have completed a high school diploma, or its

equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Advanced Math is preferred and science courses must include:

- Biology 2201 and 3201 or their equivalents
- Chemistry 3202 or equivalent

4.3.2 Memorial University of Newfoundland Applicants

Memorial University of Newfoundland applicants may apply for admission to the Bachelor of Nursing (Collaborative) program four year Option, the Fast-Track two year Option, and the LPN Bridging Option.

1. Bachelor of Nursing (Collaborative) four year Option applicants must have a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Math is preferred and science courses must include:
 - Biology 2201 and 3201 or their equivalents
 - Chemistry 3202 or equivalent
2. Bachelor of Nursing (Collaborative) Fast-Track two year Option applicants must have successfully completed an undergraduate degree from a recognized university and the following courses prior to admission:
 - Statistics 2500 or equivalent, or Education 2900
 - Biochemistry 1430 or equivalent
 - Biology 3053 or equivalent

or qualify for advanced standing. An applicant who has successfully completed all the non-nursing course requirements of the Bachelor of Nursing (Collaborative) program, and who is in good standing, may qualify for advanced standing. Applicants must demonstrate successful completion of the following 12 courses, 36 credit hours prior to admission:

- 6 courses, 18 credit hours as follows: 6 credit hours from English, Biochemistry 1430 or equivalent, Biology 3053 or equivalent, Psychology 1000 or equivalent, Statistics 2500 or equivalent or Education 2900;
- 4 courses, 12 credit hours as follows: 3 credit hours from each of the following: Business, Philosophy 2500-2599 or Religious Studies 2610, Political Science, and Sociology, Anthropology, or Archaeology; and
- 2 courses, 6 additional elective credit hours selected from any credit courses offered by this University.

4.3.3 LPN Bridging Applicants

Applicants with a Licensed Practical Nurse designation may apply for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option.

1. To be considered for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option applicants must:
 - be a graduate (2002 or later) of an approved Practical Nursing Program, Province of Newfoundland and Labrador;
 - be a Licensed Practical Nurse (copy of certification required);
 - meet the admission requirements for the Bachelor of Nursing (Collaborative) Program listed under **Admission/Readmission Regulations for the School of Nursing**; and
 - have completed the following high school courses: Biology 2201 and 3201 or their equivalents and Chemistry 3202 or equivalent.
2. Admission into the second year of the Bachelor of Nursing (Collaborative) program will be conditional and based on successful completion of the Bridging Semester, which includes the following:
 - Biochemistry 1430 (Fall and Spring Offerings)
 - Psychology 1000
 - English (3 credit hours)
 - A score of 50% on a Mathematics Placement Test or Mathematics 102FN or 3 credit hours in Mathematics.

4.3.4 Registered Nurse Designation Applicants

Applicants with a Registered Nurse designation may apply for admission to the Bachelor of Nursing (Post-RN) Distance Option or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option.

1. Bachelor of Nursing (Post-RN) Distance Option program applicants are accepted on an ongoing basis and must provide:
 - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component; and
 - one letter of reference from a current supervisor of nursing position.
2. Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option applicants must provide:
 - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component; and
 - a complete application package which includes:
 - an application to the University for those who have not attended Memorial University of Newfoundland in the two preceding semesters;
 - an application to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option that includes a personal statement and description of relevant work experiences;
 - proof of current practicing RN license;
 - two letters of reference, one of which must be from the current nursing supervisor or employer;
 - evidence of two years of recent acute care nursing experience;
 - completed health assessment;
 - completed record of current immunization as outlined on the appropriate School of Nursing form; and

- a letter from a primary health care physician or a primary health care nurse practitioner and a health care agency guaranteeing the applicant a preceptored clinical placement throughout the program.

4.3.5 Transfer Applicants

Transfer applicants may apply for admission to any of the School of Nursing programs.

1. Bachelor of Nursing (Collaborative) four year Option applicants must have a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Math is preferred and science courses must include:
 - Biology 2201 and 3201 or their equivalents
 - Chemistry 3202 or equivalent
2. Bachelor of Nursing (Collaborative) Program Fast-Track Option applicants must have successfully completed an undergraduate degree from a recognized university and the following courses prior to admission:
 - Statistics 2500 or equivalent, or Education 2900
 - Biochemistry 1430 or equivalent
 - Biology 3053 or equivalent

or qualify for advanced standing. An applicant who has successfully completed all the non-nursing course requirements of the Bachelor of Nursing (Collaborative) program, and who is in good standing, may qualify for advanced standing. Applicants must demonstrate successful completion of the following 12 courses, 36 credit hours prior to admission:

- 6 courses, 18 credit hours as follows: 6 credit hours from English, Biochemistry 1430 or equivalent, Biology 3053 or equivalent, Psychology 1000 or equivalent, Statistics 2500 or equivalent or Education 2900;
 - 4 courses, 12 credit hours as follows: 3 credit hours from each of the following: Business, Philosophy 2500-2599 or Religious Studies 2610, Political Science, and Sociology, Anthropology, or Archaeology; and
 - 2 courses, 6 additional elective credit hours selected from any credit courses offered by this University.
3. Bachelor of Nursing (Post-RN) program applicants must provide:
 - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides; and
 - one letter of reference from a current supervisor of nursing position.
 4. Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option applicants must provide:
 - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.
 - a complete application package which includes:
 - an application to the University for those who have not attended Memorial University of Newfoundland in the two preceding semesters;
 - an application to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option that includes a personal statement and description of relevant work experiences;
 - proof of current practicing RN license;
 - two letters of reference, one of which must be from the current nursing supervisor or employer;
 - evidence of two years of recent acute care nursing experience;
 - completed health assessment;
 - completed record of current immunization as outlined on the appropriate School of Nursing form; and
 - a letter from a primary health care physician or a primary health care nurse practitioner and a health care agency guaranteeing the applicant a preceptored clinical placement throughout the program.

4.4 Other Information

1. Applicants seeking clinical placements outside of Canada must satisfy the clinical agency's immunization requirements submitting documentation of its requirements to that agency at least one month in advance of the start of the semester in which the course will be taken.
2. Applicants seeking clinical placements within Canada must satisfy the School of Nursing immunization requirements outlined on the School of Nursing Immunization Requirements form. This documentation must be submitted to the Office of the Registrar in advance of the start of registration for the semester in which the course will be taken.

5 Program Regulations - General Degrees

5.1 Bachelor of Nursing (Collaborative) Program

1. The four year, 130 credit hour Bachelor of Nursing (Collaborative) program requires 94 NURS credit hours and 36 non-NURS credit hours.
2. The 130 credit hours are recommended to be taken in the academic terms in the sequence as set out in **Table 1, 2, or 3 Bachelor of Nursing (Collaborative) Program**. These courses will be offered during the same year at all sites, but the semester of course offering may vary with each site.
3. Clinical course hours may occur at any time during the semester. Clinical courses may be offered in whole or in part outside the normal start and end dates of a semester.
4. Selected nursing courses which are designed for the Bachelor of Nursing (Post-RN) program may be used as electives in the Bachelor of Nursing (Collaborative) program with permission of the Committee on Undergraduate Studies and the course instructor.

5.2 Bachelor of Nursing (Collaborative) Fast-Track Option

1. The Bachelor of Nursing (Collaborative) Fast-Track Option is offered at Memorial University of Newfoundland School of Nursing and the Western Regional School of Nursing.
2. The 94 credit hours may be taken in the academic terms as set out in **Table 4 Bachelor of Nursing (Collaborative) Fast-Track Option**. Nursing 2002 and 2502 run over the first six weeks and Nursing 3012 and 3512 run over the second six weeks. Nursing 2514 and 3514 run consecutively for 6 weeks each.
3. Clinical Courses may be offered in whole or in part outside the normal start and end dates of a semester. In the last semester of the Fast Track Option, the last clinical course will finish outside of the end date of Summer semester and may finish as late as the 3rd week in September. Students will be informed of the pertinent dates of clinical courses two semesters in advance.

5.3 Bachelor of Nursing (Collaborative) LPN Bridging Option

1. The Bachelor of Nursing (Collaborative) LPN Bridging Option is only offered at the Centre for Nursing Studies.
2. The three year and one semester 130 credit hour Bachelor of Nursing (Collaborative) LPN Bridging Option requires 69 NURS credit hours, one Bridging semester and 36 non-NURS credit hours.
3. The 130 credit hours are recommended to be taken in the academic terms in the sequence as set out in **Table 1, 2, or 3 Bachelor of Nursing (Collaborative) LPN Bridging Option**.
4. Selected nursing courses which are designed for the Bachelor of Nursing (Post-RN) program may be used as electives in the Bachelor of Nursing (Collaborative) program with permission of the Committee on Undergraduate Studies and the course instructor.
5. The Nursing Bridging Course is offered at the Centre for Nursing Studies prior to entering the second year of the Bachelor of Nursing (Collaborative) Program. The remaining courses are those regularly scheduled in the Bachelor of Nursing (Collaborative) Program.

Table 5 Bachelor of Nursing (Collaborative) Program LPN Bridging Option

Term	Required Courses	Elective Courses

Winter Academic Term 8	NURS 4512 NURS 4516	

5.4 Bachelor of Nursing (Post-RN) Program

1. The 108 credit hour Bachelor of Nursing (Post-RN) program requires 42 credit hours in NURS, 21 non-NURS credit hours, and 45 unspecified transfer NURS credit hours awarded on the basis of successful completion of a diploma program in Nursing.
2. The Committee on Undergraduate Studies, School of Nursing, may recommend that a maximum of 6 transfer credits be awarded for certain post basic nursing courses/programs or for current Canadian Nurses Association certification.
3. Students are required to have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.

Table 6 Bachelor of Nursing (Post-RN) Program

Required Courses	Elective Courses
3 credit hours in English Nursing 2040 Nursing 2230 Nursing 2700 Nursing 2740 Nursing 3023 Nursing 4002 Nursing 4010 Nursing 4310 Nursing 4701 Nursing 4702 Nursing 4754 Nursing 5210 Nursing 5220 Nursing 5700 3 credit hours chosen from Philosophy 2500-2599, or Religious Studies 2610 3 credit hours chosen from Statistics 2500 (or equivalent), or Education 2900	12 credit hours of which 6 should be at the 2000 level or above

5.5 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

1. The 111 credit hour Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option requires 57 NURS credit hours, 45 unspecified transfer credits in NURS, and 9 non-NURS credit hours.
2. The 111 credit hours shall be taken in the academic terms in the sequence as set out in **Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time)** or **Table 8, Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Four Year Plan (Part-Time)**.
3. Nurse Practitioner courses may be offered in whole or in part outside the normal start and end dates of a semester.
4. 9 elective credit hours comprised of 3 credit hours in English, Statistics 2500 or equivalent of Education 2900 and 3 credit hours from Philosophy 2500-2599 or Religious Studies 2610 are recommended to be completed prior to required courses in both full-time and part-time options as indicated in **Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time)** and **Table 8, Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Four Year Plan (Part-Time)**.

Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time)

Term	Required Courses	Elective Courses
Fall Academic Term 1	NURS 2700 NURS 2740 NURS 3070 NURS 3380	3 credit hours in English which is recommended to be completed prior to required courses
Winter Academic Term 2	NURS 3023 NURS 3410 NURS 4002 NURS 4701	Statistics 2500 or equivalent of Education 2900 which is recommended to be completed prior to required courses
Spring Academic Term 3	NURS 2230 NURS 4010 NURS 5700	3 credit hours from Philosophy 2500-2599 or Religious Studies 2610 which is recommended to be completed prior to required courses
Fall Academic Term 4	NURS 3430 NURS 4310 NURS 4370	
Winter Academic Term 5	NURS 5360 NURS 5600	
Spring Academic Term 6	NURS 5370

Fall Academic Term 10	NURS 5360 NURS 5600	
Winter Academic Term 11	NURS 5370	

6 Promotion Regulations

These regulations apply to all programs except as noted below.

1. The Memorial University of Newfoundland School of Nursing constitutes the examining body for all School of Nursing examinations. The standing of every student will be assessed at the end of each academic semester by the Committee on Undergraduate Studies, and a grade report will be issued by the University Registrar to the individual student.
2. Students are required to achieve a grade of at least 65% or a grade of PAS as appropriate in each of the required nursing courses.
3. Except in the Bachelor of Nursing Fast-Track Option, students failing to achieve the requirements outlined above are permitted to repeat the given nursing course only once. A second failure in a given nursing course will result in withdrawal from the program. A student in the Fast-Track Option who fails a course is required to withdraw from the Fast-Track Option. In the Bachelor of Nursing (Collaborative) Program Fast-Track Option students may be permitted, with special permission from the Directors, to resume studies within the regular stream of the Bachelor of Nursing (Collaborative) Program and are subject to all its academic standards. Accordingly, invoking this clause carries over to the Bachelor of Nursing (Collaborative) Program as a first failure in the relevant course(s).
4. Failure in excess of two nursing courses during the program will result in withdrawal from the Bachelor of Nursing (Collaborative) four year program, the Bachelor of Nursing (Collaborative) LPN Bridging Option, the Bachelor of Nursing (Post-RN), or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option.
5. Students who are required to withdraw from the Bachelor of Nursing (Collaborative) four year program, the Bachelor of Nursing (Collaborative) LPN Bridging Option, or the Bachelor of Nursing (Post-RN) program, as outlined above in the two preceding clauses, may appeal for readmission after a lapse of two semesters by writing to the Chair, Committee on Undergraduate Studies. Students who are required to withdraw from the program a second time will not be eligible for future admission/readmission to the program.
6. A student may be required to withdraw from a nursing course with a clinical component or from the program at any time, on the recommendation of the Committee on Undergraduate Studies, if the student is deemed unlikely to profit from continued attendance in the nursing course or program and/or is deemed unsafe in a clinical setting. Students who are required to withdraw from the program for any of these reasons will not be eligible for future admission/readmission to the program or the School of Nursing.
7. Students who fail to complete a nursing course in any program, other than the Bachelor of Nursing (Post-RN) program, for a period of three consecutive semesters will be considered to have withdrawn from the program. Students who have not completed a course in the Bachelor of Nursing (Post-RN) program within the last 6 consecutive semesters will be considered to have withdrawn from the program and must apply for re-admission. Students in the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option who fail to complete a nursing course will be considered to have withdrawn from the program and must apply for re-admission.
8. Students in the Bachelor of Nursing (Collaborative) Program, the Bachelor of Nursing (Collaborative) Program Fast-Track Option or the Bachelor of Nursing (Collaborative) LPN Bridging Option who wish to take a leave of absence from the program may do so only with the written permission of the Dean or delegate. A leave will be granted for a maximum period of three consecutive semesters. Students on leave who plan to resume their studies must notify the Dean in writing one semester prior to registration.
9. Students in the Bachelor of Nursing (Collaborative) Program and the Bachelor of Nursing (Collaborative) Program Fast-Track Option who voluntarily withdraw from the program prior to the conclusion of the first semester of the first year and who wish to return to the program must re-apply in competition as a new applicant.
10. Students in the Bachelor of Nursing (Collaborative) Program, the Bachelor of Nursing (Collaborative) Fast-Track Option, the Bachelor of Nursing (Collaborative) LPN Bridging Option or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option who voluntarily withdraw from the program, at the conclusion of the first semester of the program, or later, and who wish

to return to the program, must appeal for readmission. The letter of appeal must be directed to the Chair, Committee on Undergraduate Studies.

11. Students in the Bachelor of Nursing (Collaborative) Program four year and two year Bachelor of Nursing (Collaborative) Program Fast-Track Option who are readmitted to either option following a period of absence, either as a result of a leave of absence or a withdrawal from the program, may be required to do remedial work upon the recommendation of the Committee on Undergraduate Studies. Remedial work may include the repetition of classroom or clinical courses.

7 Waiver of School Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

7.1 General Information

1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
2. All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
3. Any waiver granted does not reduce the total number of credit hours required for the degree.

8 Supplementary Examinations

Any student receiving a grade of 60% in a Nursing course is eligible to write a supplementary examination in that course. Only three supplementary examinations in Nursing courses can be written during the program.

In addition to meeting **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**, upon successful completion of the supplementary examination, a student must also meet the promotion regulations of the School. For further information refer to **Promotion Regulations**.

1. Supplementary examinations are permitted only in Nursing courses that have a written final examination.
2. Supplementary examinations will have the same weight as final examinations for the course in determining whether the student achieves a passing grade for the course.
3. Any student writing a supplementary examination can obtain only a maximum grade of 65% in the course.
4. Supplementary examinations will be written no later than the first week of the semester immediately following the one in which the course was failed. Normally they should coincide with the writing of deferred examinations in courses where deferred examinations are granted for the semester in question. Grades for supplementary examinations must be received by the Office of the Registrar within one week following the completion of the examination.
5. A student may write a supplementary examination for any one course only once.
6. If it is mathematically impossible to achieve a passing grade in a course the student will not be granted a supplementary examination.
7. Supplementary exams are not available for the Nursing Bridging Course offered at the Centre for Nursing Studies prior to entering the second year of the Bachelor of Nursing (Collaborative) Program. Students who are unsuccessful in the Bridging Course and who wish to enter the Bachelor of Nursing (Collaborative) Program must apply in competition to enter into the first year of the program.

9 Appeal of Regulations

1. An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined under **Admission/Readmission Regulations for the School of Nursing**. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Chair, Memorial University of Newfoundland School of Nursing, Committee on Undergraduate Studies. The letter should state clearly and fully the grounds for the appeal.
2. Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

10 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by NURS.

1002 Anatomy and Physiology I presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of nursing. Special emphasis is given to the skeletal, muscular, nervous and endocrine systems.

CR: Pharmacy 2002 or the former Pharmacy 3201
LH: 2

1003 Developing Therapeutic Relationships focuses on the application of caring theory to interpersonal communications. It emphasizes the development of the role of communicator in individual and group experiences and in professional relationships. Utilizing an experiential

model, laboratory experiences focus on self-awareness and group dynamics.

CO: NURS 1004
LH: 2

1004 Introduction to Nursing introduces the major concepts and theories related to the paradigm of person, health, society, nursing, environment, and nursing education in relation to the philosophy, conceptual framework and objectives of the program. Emphasis is placed on the concept of caring as the essence of nursing practice.

CR: the former NURS 1001

1012 Anatomy and Physiology II presents a survey of anatomy and physiology throughout the lifespan. It includes aspects of cytology, histology and embryology that form a foundation for the practice of nursing. Special emphasis is given to the circulatory, respiratory, urinary, digestive, and reproductive systems, including pregnancy and delivery.

CR: Pharmacy 2003 or the former Pharmacy 3202

LH: 2
PR: NURS 1002

1014 Health Assessment focuses on the development of competencies

needed to assess the health status of individuals throughout the lifespan using a systematic approach. Content includes the nurse's responsibilities for health history, physical examination, interpretation of findings, and documentation.

CO: NURS 1012
CR: NURS 2040
LH: 2

1015 Health Promotion throughout the Lifespan explores nursing concepts and theories pertaining to health promotion/protection throughout the lifespan. Content includes principles of teaching/learning, introduction to community health and primary health care concepts and the determinants of health.

CO: NURS 1004 or the former NURS 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option
CR: the former NURS 1011
OR: 24 clinical or lab hours during the semester
PR: NURS 1004 or the former NURS 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option

1016 Healthy Aging will explore, in-depth, concepts and issues applicable to the well older adult (65+). Selected theories, physical changes, and psychosocial, ethical, and legal issues associated with aging will be presented.

CO: NURS 1012, 1014, and 1015; or admission to the Fast-Track Option
PR: NURS 1002, 1003, and 1004; or admission to the Fast-Track Option

1017 Fundamental Psychomotor Competencies will provide the student an opportunity to acquire beginning psychomotor competencies that are related to the provision of client comfort and safety in a variety of settings. As well, this course provides the opportunity for the student to integrate the conceptual framework of the Bachelor of Nursing (Collaborative) program into the development of psychomotor competencies.

CH: 1
CO: NURS 1003 and 1004
LC: 0
LH: 2
PR: NURS 1003 and 1004

1520 Extended Practice I provides the student with the opportunity to integrate the knowledge and practise the competencies acquired to date. The focus is the promotion, protection and maintenance of health for individuals within the context of the family. This course is normally taught at the end of the winter semester, usually beginning during the final week of the examination period.

CO: NURS 1012, 1014, 1015 or the former 1011, 1016, and 1017
OR: 96 clinical hours over three weeks; or 96 clinical hours during the semester for Fast-Track Option students
PR: NURS 1012, 1014, 1015 or the former 1011, 1016, and 1017

2002 Nursing Concepts for the Care of Women and the Child-bearing Family covers major concepts in women's reproductive health. The two major foci are women and their families through all phases of childbirth and the neonatal period, and nursing care of women experiencing alterations in reproductive health.

CO: NURS 2003, 2004, and 2502
CR: the former NURS 2001
PR: NURS 1520, 2003, and 2004

2003 Pathophysiology presents general concepts of disease processes and their impact on health. The course focuses on major pathophysiologic changes, including associated etiology, pathogenesis and clinical manifestations. Common illnesses are studied to illustrate these disease processes.

CO: NURS 1012
OR: tutorial 1.5 hours per week
PR: NURS 1012, Biochemistry 1430 or admission to the Fast-Track Option

2004 Pharmacology and Nutritional Therapies explores principles and concepts of pharmacological, nutritional and complementary therapies and management of common health problems across the lifespan. Nursing considerations and psychomotor competencies pertinent to these therapies are addressed.

CO: NURS 1012 and NURS 1014
LH: 2
PR: NURS 1012, NURS 1014, NURS 1017, Biochemistry 1430, and a score of 50 on the Mathematics Placement Test or Math 102N or 3 credit hours in Mathematics excluding Statistics 2500.

2014 Community Health Nursing Theory focuses on the knowledge required to practise nursing in the community with a variety of clients including individuals, families, groups and communities. It further examines the principles of primary health care, population health, and their application in community health nursing. It also focuses on the multidimensional role of the nurse.

CO: NURS 2003 and 2004, 2514
CR: NURS 4101
OR: seminar or labs 2 hours per week
PR: NURS 1520, 2003, and 2004

2017 Intermediate Psychomotor Competencies will provide the student an opportunity to acquire intermediate psychomotor competencies that are related to the provision of client comfort and safety in a variety of settings. As well, this course provides the opportunity for the student to integrate the conceptual framework of the Bachelor of Nursing (Collaborative) program into the development of psychomotor competencies.

CH: 1
CO: NURS 2004
LC: 0
LH: 24 hours during the semester
PR: NURS 1520 and 2004

2040 Health Assessment focuses on the development of competencies needed to assess the health status of individuals. A systematic approach will be used for the collection and analysis of data related to the health status of the client. Interpretation of the health assessment findings and of the results of diagnostic tests will be discussed in the context of nurses' responsibilities.

CR: NURS 1014
PR: proof of current practising license as a Registered Nurse

2230 Teaching/Learning is designed to familiarize the student with theories, principles and methods of learning and teaching and to allow the student to apply them in client teaching situations.

PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

2502 Nursing Practice for the Care of Women and the Child-bearing Family provides the student with opportunities to apply knowledge and practise competencies acquired in NURS 2002. Selected experiences are offered in a variety of institutional and community-based settings related to the provision of nursing care for women and their families.

CO: NURS 2002
CR: the former NURS 2501
LH: 24 during the semester
OR: 80 clinical hours during the semester

2514 Community Health Nursing Practice I provides the student with the opportunity to apply knowledge and practise competencies for beginning community health nursing practice acquired in Community Health Nursing Theory.

CO: NURS 2014 or NURS 4101
OR: 96 clinical hours during the semester
PR: NURS 1520

2520 Extended Practice II provides the student with the opportunity to integrate the knowledge and practise the competencies acquired to date. The focus is on caring for adults in stable health situations and on the application of community health concepts. This course is normally taught at the end of the Winter Semester, usually beginning during the final week of the examination period.

CO: NURS 2002 and 2502 or 2014 and 2514
OR: 96 clinical hours over three weeks
PR: NURS 2002, 2014, 2017, 2502, and 2514; or admission to the Fast-Track Option

2700 Nursing Theories in Practice is designed to introduce the students to the key concepts, conceptual models and selected theories of nursing. This is a required course for the Bachelor of Nursing (Post-RN) program and may be used as an elective in the Bachelor of Nursing (Collaborative) program.

PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

2740 Current Concepts in Human Physiology is a comprehensive review of the physiology of the cell and major body systems. It assumes a basic understanding of physiology and provides the basis for concepts developed in NURS 4701 and NURS 4702.

PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

2990 Spiritual Dimension of Nursing Practice will focus on the spiritual dimension of nursing practice. Students will explore their own personal spiritual philosophy and development. Key concepts of the spiritual dimension of nursing will be examined, such as spiritual well being, spiritual needs, spiritual distress and spiritual care. Distinction will be made between religion and expressions of spirituality.

PR: NURS 1004 or the former NURS 1001, and 1014 or be a Registered Nurse

2991 Complementary and Alternative Health Care provides an overview of the philosophy and practice of complementary and alternative health care (CAHC). It introduces students to key terminology and theoretical perspectives foundational to selected CAHC modalities. Using a holistic approach and research principles, they will examine some commonly used CAHC approaches. They will also explore situations where integrative health care incorporates biomedical, complementary and alternative modalities.

3001 Nursing Concepts for Mental Health focuses on individuals, families

and small groups experiencing psychiatric/mental health problems across the lifespan. The meaning of mental health and illness to the individual, family and vulnerable populations is explored. Course content includes counselling, psychopathology, interdisciplinary psychiatric care, community mental health concepts and analysis of sociopolitical factors/issues affecting mental health.

CO: NURS 3501 or NURS 4502
OR: seminar 2 hours per week
PR: NURS 2520

3012 Nursing Concepts for Children, Adolescents and Young Adults uses a conceptual approach to focus on the nursing care of individuals and families, from infancy to young adulthood. The emphasis is on assisting persons experiencing health related needs to achieve health and well-being.

CO: NURS 3512 or NURS 3513
CR: the former NURS 2011
PR: NURS 2520; or admission to the Fast-Track Option

3014 Nursing Concepts in Middle and Older Adulthood uses a conceptual approach and focuses on individuals and families from middle to older adulthood. The emphasis is on assisting persons experiencing acute and chronic health related needs to achieve health and well-being.

CO: NURS 3514
CR: the former NURS 3111
PR: NURS 2520

3023 Counselling focuses on the counselling role of the nurse, building on the communication skills inherent in a helping relationship. Gerard Egan's model, an integral part of the course, is a problem-management and opportunity development approach to helping. Key counselling skills are discussed and students have the opportunity to practice these skills to further enhance their ability to effectively counsel clients in a variety of nursing contexts.

CR: the former NURS 3022
PR: acceptance into the Bachelor of Nursing (Post-RN) program or admission to the Bachelor of Technology Program or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

3070 Health Assessment Across the Lifespan focuses on the development of competencies and assessment skills necessary for the completion and documentation of a comprehensive health assessment. Common physical alterations and developmental issues that may impact on client status and findings across the lifespan will be incorporated. Students are required to attend St. John's Campus for laboratory sessions.

CO: NURS 3380
CR: NURS 2040
PR: proof of a current practising license as a Registered Nurse.
UL: applicable only to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

3104 Nursing Research builds on previously introduced research concepts. It explores the research process and its inherent ethical and legal implications. The course focuses on the acquisitions of concepts used to critically appraise nursing research studies and examines the relevance of these studies for nursing practice.

CO: Statistics 1510 or 2500 or equivalent, or Education 2900
CR: NURS 4002 and the former NURS 4104
PR: Statistics 1510 or 2500 or equivalent, or Education 2900

3113 Nursing Leadership and Management is designed to promote an understanding of the theories and principles of leadership and management in relation to the Co-ordinator of Care nursing role. Emphasis is placed on concepts of organizational structure and function, management of client care, team building, professional development, and application of nursing theories to practice. Current issues and trends are explored.

CO: NURS 3501 or NURS 4502, NURS 3512 or NURS 3513, and NURS 3514
PR: NURS 3501, 3512 or 3513, and 3514

3200 Transcultural Nursing - inactive course.

3380 Health Assessment Clinical Practice I focuses on the clinical application of knowledge and skills obtained in NURS 3070. Students are preceptored by either a nurse practitioner or physician in a primary health care setting to complete comprehensive health histories and physical examinations on clients across the lifespan. Students are required to attend St. John's Campus for clinical testing.

CO: NURS 3070
CR: NURS 2040
OR: 8 clinical hours per week
PR: proof of a current practising license as a Registered Nurse.
UL: applicable only to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

3410 Roles of Nurse Practitioners in Primary Health Care examines the role of the nurse practitioner in the delivery of primary health care. Factors affecting role implementation and its impact on health care delivery will be discussed. The historical development and future trends of nurse practitioner practice in a changing health care system will be examined.

CO: NURS 4002
PR: NURS 2700 and NURS 4002
UL: applicable only to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

3430 Concepts in Pharmacology Across the Lifespan focuses on the principles of pharmacology and nutritional therapies across the lifespan. Pharmacotherapeutic and nutritional management of common health problems within each body system will be discussed. Emphasis will be placed on the application of knowledge required to prescribe and monitor medication and nutritional therapies within the scope of practice for the Primary Health Care Nurse Practitioner.

CR: NURS 4702
PR: NURS 2740 and NURS 4701
UL: applicable only to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

3501 Nursing Practice for Mental Health provides the student with opportunities to apply theoretical knowledge and to practise competencies acquired in NURS 3001 and related courses. Selected experiences related to the provision of nursing care for individuals, families, and small groups are offered in a variety of institutional and community based mental health settings.

CO: NURS 3001
OR: 96 hours during the semester

3512 Nursing Practice with Children, Adolescents and Young Adults provides the student with opportunities to apply knowledge and practise competencies acquired in NURS 3012. Selected experiences are offered in a variety of institutional and community based settings related to the provision of nursing care for children, adolescents, young adults and their families.

CO: NURS 3012
CR: the former NURS 2511
LH: 24 hours during the semester
OR: 64 clinical hours during the semester
PR: NURS 2520; or admission to the Fast-Track Option

3513 Nursing Practice with Children, Adolescents and Young Adults provides the student with opportunities to apply knowledge and practise competencies acquired in NURS 2017 and 3012. Selected experiences are offered in a variety of institutional and community based settings related to the provision of nursing care for children, adolescents, young adults and their families.

CH: 2
CO: NURS 3012
CR: the former NURS 2511 and NURS 3512
OR: 64 clinical hours during the semester
PR: NURS 2017 and NURS 2520

3514 Nursing Practice with Middle and Older Adults provides the student with the opportunity to practise competencies and apply knowledge acquired in NURS 3014 and related courses. Selected experiences related to the provision of nursing care for middle and older adults, and their families are offered in a variety of institutional and community based settings.

CO: NURS 3014
CR: the former NURS 3511
LH: 24 hours during semester
OR: 96 clinical hours during the semester
PR: NURS 2520

3523 Extended Practice III provides the students with the opportunity to apply leadership and management principles in coordinating care for groups of individuals within a variety of nursing care settings. Students also have the opportunity to further develop clinical competencies acquired in previous courses.

CH: 6
CR: the former NURS 3520 and the former 3521
OR: 40 clinical hours per week for eight weeks
PR: NURS 3001 and 3501 or 4502, NURS 3014 and 3514, NURS 3012 and 3512 or 3513, NURS 3113 and clinical placement approval from the Committee on Undergraduate Studies

4002 Introduction to Nursing and Health Research introduces students to the key terminology, elements, and processes of research. The focus will be on understanding the components of the research process, interpreting and critically analysing nursing and health-related research studies, and understanding the importance of utilizing research for evidence based practice. Students will have the opportunity to explore methodologies in both quantitative and qualitative research.

PR: Statistics 1510 or 2500 or equivalent, or Education 2900, and acceptance into the Bachelor of Nursing (Post-RN) program or admission to the Bachelor of Technology Program

4010 Community Health Nursing I introduces the student to the field of community health nursing. It focuses on the nursing care of individuals, families, groups, and the community. Core concepts include theoretic approaches to families, epidemiology, health promotion and the community as client.

CR: the former NURS 4311 or 4312

PR: NURS 2040, 2230, 2700, 3023 or the former 3022, 4002, and proof of current practising license as a Registered Nurse or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

4101 Community Health Nursing focuses on the knowledge required to practise nursing at the aggregate and community levels. It further examines the principles of primary health care, their application in community health nursing and the multidimensional role of the nurse. Core concepts include: community development, epidemiology, program development, and the theoretical bases of community health nursing.

CO: NURS 2514 or admission to the Fast-Track Option

OR: tutorial 2 hours per week

4103 Issues in Nursing and Health Care focuses on the development of a personal framework for nursing practice, nursing organizations at the international level and nursing's role and development within health care systems. Current trends and issues in health policy and health care are examined.

PR: NURS 3113 or admission to the Fast-Track Option

4310 Community Health Nursing II allows the student to apply the knowledge and practise the competencies acquired in NURS 4010. Clinical experiences will focus on the nursing of selected families and population groups within the community, using a primary health care framework.

OR: 8 clinical hours per week

PR: NURS 4010 and proof of current practising license as a Registered Nurse or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option.

4370 Health Assessment Clinical Practice II provides clinical opportunities for students to complete focussed histories and physical examinations on clients across the lifespan. The integration and consolidation of knowledge and skills obtained in NURS 3070 and NURS 3380 is required. Students are preceptored in a primary health care setting by either a nurse practitioner or physician. Students are required to attend St. John's Campus for clinical testing.

CR: NURS 2040

OR: 8 clinical hours per week

PR: proof of a current, practising license, NURS 3070, and NURS 3380

UL: applicable only to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

4501 Community Health Nursing Practice II provides the student with opportunities to apply knowledge acquired in Community Health Nursing Theory and other related courses. It also further develops competencies in community health nursing practice. In the clinical experiences, students work with selected aggregates (including individuals and families) in the community.

CO: NURS 4103

CR: NURS 4502

OR: 96 hours during the semester

PR: NURS 2014, NURS 2514, and NURS 3523

4502 Nursing Care in Community and Mental Health Settings provides opportunities for practice in acute care psychiatric/mental health and community settings with individuals, families, and groups/aggregates. The application of community health and mental health knowledge and competencies, with a particular focus on the concepts of vulnerability/resilience, will be emphasized.

CH: 6

CO: NURS 3001

CR: NURS 3501 and NURS 4501

OR: 168 hours during the semester

PR: Admission to the Fast-Track Option and NURS 2014 or 4101, NURS 2514, NURS 3014, NURS 3104, NURS 3514

4512 Community Health Practicum provides students with the opportunity to integrate and consolidate knowledge and competencies acquired throughout the program and apply them to community health nursing practice. Using a primary health care framework, the student participates in strategies which facilitate the mobilization of communities toward health. Online discussions will be included.

OR: 40 clinical hours per week for four weeks

PR: NURS 2014 or 4101, 2514, 4501, and 4515 or admission to the Fast-Track Option

4515 Nursing Concepts & Practice for Complex Care provides students the opportunity to work with individuals and their families who are experiencing multiple health challenges. Students are expected to synthesize concepts and theories of nursing, science and humanities, and participate in interprofessional collaborative practice in a variety of settings to facilitate the achievement of health and well-being for clients and their families.

OR: seminars 1 hour per week

OR: 144 clinical hours during the semester

PR: NURS 3523 or admission to the Fast-Track Option

4516 Consolidated Practicum provides students with the opportunity to

practice nursing with a select client population. Students apply and test knowledge from nursing and related disciplines in this selected clinical setting. The course also enables students to further develop their professional roles. Online discussions will be included.

CH: 6

CR: the former NURS 4514 or the former NURS 3522, and the former NURS 4513

OR: 40 clinical hours per week for ten weeks

PR: NURS 4103, NURS 4501 or 4502 and NURS 4515

4701 Current Concepts in Pathophysiology reviews the most recent theories in pathophysiology, current trends in diagnosis and treatment and their nursing implications. This course assumes a basic understanding of physiology.

PR: acceptance into the Bachelor of Nursing (Post-RN Program) and NURS 2740, or admission to the Bachelor of Technology Program or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

4702 Current Concepts in Pharmacology and Nutrition explores current principles of nutrition and pharmacology in a variety of disease states. The course will be built upon previous nutrition and pharmacology knowledge. This course assumes a basic understanding of physiology.

PR: acceptance into the Bachelor of Nursing (Post-RN) program and NURS 2740.

4754 Clinical Dimensions of Professional Nursing Practice allows students to explore in depth, concepts and practices that are relevant to all populations across a variety of care settings. Emphasis will be placed on enhancing knowledge, attitudes and skills for nursing assessment, interventions and measurement of nursing-sensitive outcomes. Students will be required to apply the knowledge gained to client situations in clinical practice.

CR: the former NURS 4714, 4720 or 4723, 4734, and 4744

OR: 72 clinical hours during the semester

PR: NURS 2040, 2230, 2700, 3023 or the former 3022, 4002, 4701, 4702 and proof of current, practising license

5210 Health Care Systems focuses on the philosophical bases and practical considerations in the organization and administration of Health Care Delivery Systems. The planning, management and evaluation of the Canadian health care system will be compared with those of other countries. Future trends in the delivery of health care to Canadians will be discussed.

PR: admission to the Bachelor of Nursing (Post-RN) program and 3 credit hours in English and NURS 2230; or admission to the Bachelor of Technology Program and 3 credit hours in English.

5220 Professional Issues reviews the historical development of the nursing profession and facilitates discussion of factors influential in its evolution. Content will focus on the current status of nursing, ethical issues and the profession's impact on health care delivery. Selected categories of nursing theory, their impact on practice and education will be analysed in relation to major issues and future trends in nursing.

PR: Admission to the Bachelor of Nursing (Post-RN) program and 3 credit hours in English and NURS 2230.

5327 Interdisciplinary Course on Family Violence - inactive course.

5360 Advanced Clinical Decision Making – Clinical Practice focuses on the application of diagnostic reasoning and clinical decision making skills learned in N5600. Opportunities to acquire advanced skills to assist in the diagnosis and management of common health problems will be provided. Preceptored clinical experiences will be provided in primary health care practice settings. Students are required to attend St. John's Campus for demonstrations and clinical testing.

CO: NURS 5600

OR: 16 clinical hours per week

PR: proof of a current practising license as a Registered Nurse, NURS 4701, NURS 4310, and NURS 4370

UL: applicable only to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

5370 Integrated Clinical Practicum provides opportunities for learners, under the mentorship of nurse practitioners and physicians, to gain experience in managing the health and illness needs of clients across the life span. Clinical learning experiences are selected to develop learner competence and confidence for the transition to the role of a Primary Health Care Nurse Practitioner. Students are required to attend St. John's Campus for clinical testing.

OR: 5 days of clinical per week

PR: proof of a current practising license as a Registered Nurse, NURS 5600 and NURS 5360

UL: applicable only to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

5600 Advanced Clinical Decision Making focuses on the development of diagnostic reasoning and clinical decision making skills within the scope of practice of a primary care nurse practitioner. A systematic approach to patient assessment and management of health problems will be discussed. This course integrates knowledge acquired in previous courses. Students

are required to attend St. John's campus for some onsite lectures.

CO: 5360

PR: proof of a current, practising license as a Registered Nurse, NURS 4310, 4370, and 4701

UL: applicable only to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

5700 Nursing Management is designed to promote an understanding of theories and principles of management of nursing practice. Process,

methods and issues are considered with emphasis on practical nursing examples.

PR: admission to the Bachelor of Nursing (Post-RN) program or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option and 3 credit hours in English and NURS 2230

UL: applicable only to the Bachelor of Nursing (Post-RN) program

Laboratory Instructor

Ryan, P., B.Sc., M.Sc.(Med.) *Memorial*

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 School Description

The School of Pharmacy offers an undergraduate degree in pharmacy and graduate degrees in pharmaceutical sciences. The School is committed to providing an undergraduate program of quality and excellence that will prepare individuals who will contribute significantly in all settings of pharmacy practice. The experiential learning component of the program ensures students have the opportunity to integrate academic learning with professional practice and to develop the necessary knowledge, skills and attitudes required of practising pharmacists. The School encourages a close working relationship among students, faculty, and staff, and prides itself on its strong association with and support of the pharmacy community at both the provincial and national level.

Additional information regarding the School of Pharmacy is available at www.mun.ca/pharmacy.

Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (Undergraduate), refer to **UNIVERSITY REGULATIONS**.

2.1 Vision Statement

Working together towards a healthy tomorrow; *Become....the future of pharmacy.*

2.2 Mission Statement

As a School of Pharmacy with a strong sense of community, we are dedicated to:

- expanding the School of Pharmacy and developing the School as a Centre of Excellence for Comprehensive Pharmacy Studies;
- preparing pharmacy professionals committed to collaborative patient-centered care;
- fostering excellence and innovation in research and graduate studies;
- advancing the scope of pharmacy practice; and
- building upon a learning environment in which every student is valued.

2.3 Accreditation Status

The School of Pharmacy is accredited by the Canadian Council for Accreditation of Pharmacy Programs (CCAPP) to June 2016.

3 Description of Program

The School of Pharmacy offers an undergraduate program leading to the degree of Bachelor of Science (Pharmacy). This degree is designed to prepare graduates for careers primarily in community and hospital settings but also in the pharmaceutical industry, pharmacy organizations, health sciences research, government, and educational environments. After successful completion of national examinations, a graduate of the program is eligible to apply to be licensed as a pharmacist in Newfoundland and Labrador and other provinces in Canada.

The program of study leading to the Bachelor of Science (Pharmacy) degree has two phases and requires at least five years to complete. Prior to entry to the program students will acquire a background in the mathematical and physical sciences. Once in the program students will take courses in the basic health sciences, pharmacy sub-specialties and social/administrative sciences. At the end of each year students will have an opportunity to apply the academic knowledge acquired and to develop and practice patient care skills by participating in experiential learning within community and hospital settings. During the program students will develop an understanding of the professional and societal responsibilities of a pharmacist, and will recognize the need for lifelong learning.

3.1 Structured Practice Experience

Students are required to successfully complete all experiential components of the program, including the Structured Practice Experience (SPE). During SPE's students are placed in a variety of pharmacy practice settings and are brought into direct contact with patients, pharmacists and other health professionals. Students become involved in the practice of pharmaceutical care and are expected to assume increasing responsibility as their education advances. Such practice experiences ensure students are exposed to situations which cannot be provided in the classroom.

1. The Joint Committee on Structured Practice Experience, consisting of representatives from both the School of Pharmacy and the Newfoundland and Labrador Pharmacy Board, is responsible for providing the overall direction for the program and recommending policies and procedures for its operation.
2. Students will be placed at sites by the School. The Structured Practice Experience Co-ordinator liaises with students to determine placements.
3. While every effort will be made to accommodate a student's request to complete SPEs in a specific location, a student may be assigned to any participating site within the province of Newfoundland and Labrador.
4. Students are responsible for all travel and accommodation costs associated with the SPE.
5. Students who conduct themselves in such a manner as to cause their termination from the SPE site, including breaches in confidentiality, violation of policies and professional misconduct will be assigned a grade of FAL (fail) for that SPE.
6. Students are required to provide evidence of a valid certificate, normally, in St. John Ambulance or Canadian Red Cross Standard First Aid Level C that is valid for the duration of the SPE. Equivalent certificates will be considered and assessed on an individual basis for acceptability.
7. Students are required to complete three SPEs, each of four weeks duration, and one SPE of twelve weeks duration. The first three SPEs are completed at the end of the Winter semester in the first, second, and third years of the program. The final SPE is completed in the Winter semester of the final year of the program.
8. The number of hours per week of the SPE program will be as required by CCAPP standards.
9. Students will be evaluated on their performance during the SPE and on written assignments including workbooks, pharmaceutical care case work-ups and drug information requests. Students may have workbooks audited or they may be formally examined on material learned during the SPE period. The overall evaluation of SPEs will result in the assignment of one of the following grades: PWD (pass with distinction), PAS (pass), or FAL (fail).

3.2 Registration as a Pharmacy Student

A student must be registered as a "Pharmacy Student" with the Newfoundland and Labrador Pharmacy Board. A student must be registered by September 30th of each academic year. As well, a student must be registered as a "Pharmacy Student" with the respective provincial or territorial licensing body prior to the commencement of Structured Practice Experiences. A student who fails to meet the requirements for licensing may be required to withdraw from the program.

4 Admission Regulations for the School of Pharmacy

In addition to meeting **UNIVERSITY REGULATIONS** students applying for admission for the program must meet the admission regulations of the School.

4.1 General Information

1. Admissions will be to the first year of pharmacy studies.
2. Entry to the School is competitive for a limited number of placements. Priority is given to applicants who are bona fide residents of Newfoundland and Labrador. The final decision on admission rests with the Admissions Committee of the School.
3. The Admissions Committee considers each applicant's academic background and information on the applicant's personal characteristics and achievements as given by the applicant. Personal interviews, which may include both a written and oral component, may be required. Reports from referees may also be considered.
4. The School of Pharmacy does not require criminal record checks or other screening procedures as a condition of admission to its program. However, students should be aware that such record checks or other screening procedures may be required by agencies used by the University for clinical or structured practice experiences related to academic course assignments necessary for graduation. Such agencies may refuse to accept students on the basis of information contained in the record check or other screening procedure thus preventing the student from completing a practice experience or other clinical requirement. As a result, such students may not be eligible for promotion or graduation.

It is the students' responsibility to have such procedures completed as required and at their own expense.

The screening procedures of any given agency may change from time to time and are beyond the control of the University.

4.2 Application Forms and Deadlines

1. Application forms are available in person from the School and the Office of the Registrar or through the School's website at www.mun.ca/pharmacy. Application forms may also be obtained by writing the School of Pharmacy, Memorial University of Newfoundland, St. John's, NL A1B 3V6 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St.

John's, NL A1C 5S7.

2. All application forms and fees for admission to the program for the Bachelor of Science (Pharmacy) must be submitted to the Office of the Registrar of the University on or before the deadline of March 1 in any year. The program commences in the Fall semester.
3. Applications will be reviewed after the closing date by the Admissions Committee of the School. This Committee has the delegated authority of the School's Academic Council to admit or decline to admit applicants, following guidelines and procedures acceptable to that Council.
4. Each applicant is responsible for ensuring that all the required information for application is supplied to the Admissions Committee, and for providing any further information required by the Committee. An application will not be considered to be complete until all documentation has been received and appropriate fees paid.

4.3 Admission Requirements to the School

Applicants who are not currently students at Memorial University of Newfoundland must apply for admission to the University under the **Categories of Applicants, Admission Criteria and Other Information** outlined under **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)**. In addition to meeting these regulations, applicants to the School must meet requirements as indicated below.

1. To be eligible for consideration an applicant shall have completed a minimum of 30 credit hours which have been taken or accepted for credit at a recognized university or university college.
2. An applicant is normally required to have completed each of the following courses or their equivalents. In the case of transfer students, the course equivalencies relate to courses taught at Memorial University of Newfoundland, St. John's campus.
 - Biology 1001 and 1002
 - Chemistry 1050 and 1051 or equivalent
 - Six credit hours at the 1000-level in English
 - Mathematics 1000 and 1001
 - Physics 1020 and 1021 or Physics 1050 and 1051
3. For students attending Grenfell Campus, the following course offerings are acceptable for admission to the School;
 - Biology 1001 and 1002
 - Chemistry 1200 and 1001
 - Six credit hours at the 1000-level in English
 - Mathematics 1000 and 1001
 - Physics 1020 and 1021, or Physics 1050 and 1051
4. Normally an application will not be considered from an applicant who cannot produce evidence that the above requirements have been met or will have been met by end of the Winter semester of the year in which admission is being sought.
5. An unsuccessful applicant who wishes to reapply for admission is required to submit the application forms relevant to the year of reapplication and will be required to enter into the competition for that year.

4.4 Acceptance Procedures

1. Notification of the decision of the Admissions Committee of the School will be made to applicants by the Dean of the School by letter. No other form of notification will be considered official.
2. The letter of acceptance will give the successful applicant 14 days from the date of the letter of notification in which to confirm acceptance of the placement offer. The signed intention to accept the offer must be accompanied by a deposit of \$100, which will be credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the offer or fails to register. If no reply is received within 14 days, the offer by the School will be withdrawn and the applicant will be informed of this by letter.

5 Program Regulations - General Degree

5.1 Bachelor of Science (Pharmacy)

- The 176 credit hour Bachelor of Science (Pharmacy) degree requires 30 credit hours before admission to the program and 146 credit hours after admission to the program. The program includes four structured practice experiences, three of which are non-credit, with the other having 18 credit hours.
 - The program courses shall normally be taken in the academic terms in the sequence and course load as set out in **Table 1 Bachelor of Science (Pharmacy)**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must obtain permission from the School's Committee on Undergraduate Studies.
 - Elective courses may be taken from any academic unit.

Table 1 Bachelor of Science (Pharmacy)

Term	Required Courses	Elective Courses
Courses required for admission as indicated under Admission Requirements to the School	Biology 1001 and 1002 Chemistry 1050 and 1051 or equivalent Any 6 credit hours at the 1000 level in English Mathematics 1000 and 1001 Physics 1020 and 1021 or Physics 1050 and 1051	
Fall Academic Term 1	Chemistry 2440 PHAR 2002 PHAR 2101 PHAR 2201 PHAR 2650 Psychology 1000	
Winter Academic Term 2	PHAR 2003 PHAR 2004 PHAR 201W PHAR 2102 PHAR 2202 PHAR 2203 PHAR 2651 Psychology 1001

Winter Academic Term 8	PHAR 500X	

6 Promotion Regulations

6.1 General Information

- The Committee on Undergraduate Studies will determine each student's promotion status at the end of each academic year.
- In addition to meeting the promotion regulations for the School students must meet the general academic regulations (undergraduate). For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.
- Success in the program depends on meeting the requirements of all terms.

6.2 Promotion Status

A student's promotion status at the end of each academic year will be in one of the following two categories:

6.2.1 Clear Promotion

Clear Promotion means a student can proceed to the next academic year without restrictions.

- Students will receive a Clear Promotion from an academic year by obtaining an average of 65% and having obtained at least a pass in each course. A weighted average based on credit hours in the Bachelor of Science (Pharmacy) program courses will be calculated for determining eligibility for promotion. Neither promotion nor graduation will be permitted if a student has a numeric grade below 50% in any course in the program.
- Students completing PHAR 2102 must obtain a numeric grade of at least 70%.
- Students completing PHAR 201W, 302W, 403W, or 500X must obtain a grade of PAS or PWD in each course.
- Students must attain a passing grade in each elective, but these courses will not be included in calculating the student's average grade for the purposes of promotion, graduation, or academic awards.

6.2.2 Promotion Denied

Promotion Denied indicates Clear Promotion is not achieved at the end of each academic year.

- A student with Promotion Denied status will normally be required to withdraw from the School.
 - A student who does not obtain a clear promotion may be permitted to repeat all or part of the academic year. If a student is required to repeat a year on the grounds of unsatisfactory performance, his or her performance in the repeated year must meet the conditions for Clear Promotion. If this standard is not met, the Committee on Undergraduate Studies may require the student to withdraw from the program.
 - Normally, the option to repeat a year on the grounds of academic difficulties can be offered only once during the student's Bachelor of Science (Pharmacy) program. This restriction may be waived if it has been demonstrated that the student's academic performance has been adversely affected by factors duly authenticated and acceptable to the Committee on Undergraduate Studies.
- A student with Promotion Denied status at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.

6.3 Other Information

- Students may be required to withdraw from their program at any time, if, in the opinion of the School, they are unlikely to benefit from continued attendance.
- The Committee on Undergraduate Studies may require a student who is deemed unlikely to benefit from continued attendance in his/her course of study to withdraw conditionally. The Chair of the committee will advise the Dean of the School of the circumstances precipitating this action, the duration of the withdrawal and any conditions the student must fulfil during the withdrawal. The Dean may then recommend to the Registrar that the student is on conditional withdrawal. Upon completing the conditions, the student may be permitted re-entry to the program. If the conditions are not met, the student may be required to withdraw from the program.
- The School reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Dean, on behalf of the School, shall recommend such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

6.4 Leave of Absence

- Upon completion of an academic year, a student in good standing may elect to withdraw temporarily from studies. Voluntary withdrawal at other times and for other reasons may be permitted in accordance with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Registration**. In all cases, the intent to withdraw voluntarily should be discussed with the Dean. The Dean may then recommend to the Registrar that a student be permitted to withdraw for a stated period of time. At the end of this period, the student, in consultation with the Committee on Undergraduate Studies, should ensure that sufficient revision and preparatory work is undertaken to allow studies to be resumed readily. In the absence of good cause, any such student who does not resume studies on the specified date may be deemed to have left the program.

7 Supplementary and Deferred Examination Regulations

- Supplementary examinations may be permitted in some courses offered by the School of Pharmacy. Students seeking to write a supplementary midterm or final examination shall apply in writing by completing the "Application for Supplementary Examination" form which is available from the School's website at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php.
- This form must be submitted within seven days following release of midterm marks in the case of supplementary midterm examinations or within seven days following release of the final grades in the case of supplementary final examinations. The completed form should be submitted to the Dean's office for consideration.
- The transcript will indicate that the final grade was earned as a result of a supplementary examination. Course coordinators shall advise students in the course outline that such a notation will be made on the transcript.
- Students shall be permitted to write a maximum number of one supplementary examination (excluding Pharmacy Skills & Structured

Practice Experience (SPE) courses) during each academic year of the pharmacy program. For any one registration in a course, a student shall be permitted to write a final supplementary examination only once.

- For further details please refer to the School's Supplementary Examination Policy which is available at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php or contact the Associate Dean of Undergraduate Studies.
- Memorial University of Newfoundland has official regulations regarding deferred final examinations, available at **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations**. Deferred midterm examinations may be permitted in some courses offered by the School of Pharmacy. For details please refer to the School's Deferred Examination Policy which is available at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php or contact the Associate Dean of Undergraduate Studies.

8 Waiver of School Regulations

A student has the right to request waiver of School regulations. A student wishing waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**.

8.1 General Information

- The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
- All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
- Any waiver granted does not reduce the total number of credit hours required for the degree.

9 Appeal of Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

- An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined in **Admission Regulations for the School of Pharmacy**. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of the School. The letter should state clearly and fully the grounds for the appeal. If the Dean of the School, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.
- A student has the right to make a formal appeal against a decision of the Committee on Undergraduate Studies. However, this appeal cannot be made on the basis of the grades awarded in individual courses, as the student will normally have had the opportunity of contesting grades immediately after notification. A formal appeal by a student against the decision of the Committee must be made on grounds other than the grades awarded, e.g. default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

10 Course Descriptions

In accordance with *Senate's Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by PHAR and are restricted to students in the School of Pharmacy.

2002 Anatomy and Physiology I presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of pharmacy. Special emphasis is given to the skeletal, muscular, nervous and endocrine systems. The course will include both the vocabulary and concepts of anatomy and physiology with the overall goal being the understanding of the interrelationships and integration of all systems from the cell to whole organism.

CR: Nursing 1002
LH: 2; attendance is required

2003 Anatomy and Physiology II presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of pharmacy. Special emphasis is given to the endocrine, circulatory, respiratory, urinary, digestive and reproductive systems. The course will include both the vocabulary and concepts of anatomy and physiology with the overall goal being the understanding of the interrelationships and integration of all systems from the cell to whole organism.

CR: Nursing 1012
LH: 2; attendance is required
PR: PHAR 2002

2004 Introduction to Biochemistry is an introduction to the major organic substances of living organisms, proteins, carbohydrates and lipids: their structure, analysis and biochemical function. Enzymes. Biochemistry of membranes: plasma membrane and specialized intracellular membranes.

Biochemistry of selected differentiated cells.
CR: Biochemistry 2101
OR: tutorials as required
PR: Chemistry 2400 and 2401 or Chemistry 2440

201W Structured Practice Experience I is a structured practice experience in community pharmacy after completion of the first year which will provide an opportunity for students to apply their technical skills and introduce them to patient care activities. The structured practice experience is normally comprised of four weeks during May/June.

AR: attendance is required
CH: 0
LC: 0
PR: successful completion of all courses in Academic Terms 1 & 2 of the program

2101 Pharmacy Practice I provides an introduction to the legal and professional framework of the practice of pharmacy. Pharmacy regulations in the dispensing of medications and provincial legislation that governs the practice of pharmacy will be the focus. Students will be introduced to core competencies of the profession including professionalism, interprofessionalism, pharmaceutical calculations, drug information and effective communication strategies for the provision of pharmacist care. Application of course content will occur in the concurrent course PHAR 2650.

CO: PHAR 2650

2102 Pharmacy Practice II continues the introduction to the legal and professional framework of the practice of pharmacy. The course will focus on federal legislation that governs the practice of pharmacy, drug information, patient education and methods to deal with challenging patient behaviours. Students will be introduced to pharmaceutical care and begin to develop a pharmacist care plan. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available. The passing grade in this course is 70%, failing which the student may be required to withdraw from the program.

CH: 2
CO: PHAR 2651
LC: 2
OR: tutorials 2 hours per week; attendance is required

2201 Pharmaceutics I provides an insight into a number of physicochemical basics and explains them within a pharmaceutical context. The course provides the basic foundation necessary for the study of pharmaceutical dosage forms, pharmacokinetics and bio-pharmaceutics.

LH: 3; attendance is required

PR: Mathematics 1000 and 1001; and Chemistry 1050 and 1051, or Chemistry 1200 and 1001, or equivalent

2202 Pharmaceutics II is designed to provide the student with an understanding of pharmaceutical dosage forms and their applications. It applies the principles taught in Pharmaceutics I to understand the design and components of the different pharmaceutical preparations.

LH: 3; attendance is required

PR: PHAR 2201

2203 Pharmaceutical Analysis is designed to introduce some important techniques and methods of analysis in pharmaceutical sciences. The laboratory exercises consist of both non-instrumental and instrumental analytical techniques that are widely employed in the analysis of pharmaceuticals.

CH: 2

LC: 2

LH: 3 hours every other week; attendance is required

PR: Chemistry 1050 and 1051 or Chemistry 1200 and 1001 or equivalent

2650 Pharmacy Skills provides an introduction to the skills necessary for pharmacy practice in order to meet the educational outcomes for the first year of the pharmacy program. This course is the first in a series of Pharmacy Skills courses, all of which require students to acquire and apply the knowledge, attitudes and skills necessary for the effective practice of the profession. Students will begin to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will apply basic knowledge and skills in drug information, technology, interpersonal communications and pharmacy legislation to simulated practice situations. Students will develop public communication skills through the completion of a professional communications program. Activities in this course will complement material covered in the concurrent course PHAR 2101.

CO: all Academic Term 1 Pharmacy courses

CR: the former PHAR 2150

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

2651 Pharmacy Skills provides an introduction to the skills necessary for pharmacy practice in order to meet the educational outcomes for the first year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Pharmacy practice in the community pharmacy setting will be a focus. Students will develop dispensing, drug information and pharmaceutical calculations skills relevant to community pharmacy practice. Students will begin developing their patient interaction and patient education skills. Activities in this course will complement material covered in the concurrent PHAR 2102. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 2 Pharmacy courses

CR: the former PHAR 2151

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

PR: PHAR 2101 and 2650

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

3003 Pathophysiology examines the nature of disease, causes and effects, and alteration in structure and function of cells, inflammation, neoplasia, genetic and chromosomal diseases, healing and repair, stress and disease.

PR: PHAR 2003 or equivalent

3006 Immunology (same as PHAR 4105) is an introduction to the molecular and cellular basis of immunity and hypersensitivity. Manipulation of the immune system in the management and treatment of disease is discussed.

CR: PHAR 4105

PR: PHAR 2003

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

3009 Pharmacology explores topics in general pharmacology including drugs used in the treatment of inflammatory diseases, renal pharmacology, anticoagulant and antithrombotic drugs, antihyperlipidemics, drugs used in the treatment of anemia, and endocrine pharmacology.

PR: Medicine 4300 or equivalent

302W Structured Practice Experience II is a structured practice experience in hospital pharmacy after completion of the second year which

will provide an opportunity for students to apply their technical skills and introduce them to patient care activities. The practical experience is normally comprised of four weeks during May/June.

AR: attendance is required

CH: 0

LC: 0

PR: successful completion of all courses in Academic Terms 3 & 4 of the program.

3103 Microbiology of Infectious Diseases examines the various types of micro-organisms (bacterial, viral, parasitic and fungal), the environment in which they are able to multiply and their relationship to human diseases. The classifications of their morphology, mode of reproduction and the metabolic process, the physiological and epidemiological principles of infectious diseases and their manifestations are discussed including the principles of immunization.

3111 General Biochemistry covers the catabolism of carbohydrates, lipids and amino acids. Mitochondria, chloroplasts and ATP synthesis. Biosynthesis of carbohydrates and lipids. Metabolic specialization of differentiated cells and tissues. Integration of metabolism.

CR: Biochemistry 3106

OR: tutorials as required

PR: PHAR 2004 or the former 3110 or Biochemistry 2101

3203 Medicinal Chemistry I presents topics covering the molecular basis of action, metabolism, and toxicity of drugs. It provides an orientation to medically important nuclei and their nomenclature, followed by principles of drug discovery and development. The relationship between molecular structure and biological action of drugs together with elementary molecular modelling, and theories related to receptors and drug action will be presented. Concepts of drug metabolism and the relevant metabolic pathways in relationship to drug inactivation and toxicity, along with the principles of drug latention and prodrugs is covered. The structures, selected physicochemical properties, mechanism of action, structure-activity relationships, toxic effects at molecular level, and metabolism of drugs including central nervous system.

CO: Medicine 4300 and PHAR 3003

OR: tutorials 1 hour per week; attendance is required

PR: Chemistry 2440 or Chemistry 2400 and 2401

3204 Medicinal Chemistry II is a continuation of Pharmacy 3203 and focuses on the structures, selected physicochemical properties, mechanism of action, structure-activity relationships, toxic effects at molecular level, and metabolism of different pharmacological classes of drugs including cholinergic agents, analgetic and anti-inflammatory agents, insulin and oral antidiabetic drugs, steroids and related compounds, antihyperlipidemic agents, histamine and antihistaminic agents, diuretic agents, angiotensin converting enzyme inhibitors and antagonists, and calcium channel blockers.

CO: PHAR 3009

OR: tutorials 1 hour per week; attendance is required

PR: PHAR 3203

3205 Pharmaceutics III consists of several units. The standards of good manufacturing practice will be introduced. Characteristics, preparation, quality assurance and delivery systems for sterile products will be covered. The basic principles governing the application of radiation and radioactive compounds in medical diagnosis and therapy will be discussed. The status of current biotechnology-based pharmaceuticals and biotechnology related matters will be addressed.

PR: PHAR 2202

3301 Patient Care I is an introductory course in patient care, especially in the areas of self-care and self-treatment and the role of the pharmacist. The regulatory environment of non-prescription products and the prevention and treatment of health conditions amenable to self-management will be discussed.

CO: PHAR 3009

PR: Medicine 4300

3650 Pharmacy Skills continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the second year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Pharmacy practice in the hospital setting will be a focus. Students will participate in sterile product preparation and practice drug information and pharmaceutical calculation skills relevant to hospital practice. Students will develop pharmacist care plans and will further develop their patient education skills. Scenarios will relate to the courses of study in the second year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 3 Pharmacy courses

CR: the former PHAR 3150

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

3651 Pharmacy Skills continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the second year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in practice sessions necessary to develop an understanding of and skills required in patient assessment and patient education related to patient self-care. Students will build on their pharmacist care skills to meet patients' drug-related needs in uncomplicated patient scenarios and drug information skills to assess information needs. Scenarios will relate to the courses of study in the second year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 4 Pharmacy courses

CR: the former PHAR 3151

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

PR: PHAR 3650

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4008 Chemotherapy presents the principles of infectious diseases and cancer chemotherapy. Topics to be explored include molecular structure profiles in relation to mechanism of action, drug resistance, and toxicity of antimicrobial, antiviral, and antineoplastic agents. Antimicrobial activity/spectrum of activity of antibacterials, antifungals, antimalarial, antituberculosis, and antiviral/antiretroviral agents will be discussed. The classification and mechanism of action of cancer chemotherapeutic agents will be presented. Pharmacokinetic considerations, adverse effects/toxicity, and drug interactions will be explored for these agents.

CH: 2

CO: PHAR 4105, PHAR 4401

LC: 2

OR: tutorials 1 hour per week

PR: Medicine 4300, PHAR 3009, 3103, 3203 and 3204

403W Structured Practice Experience III is a structured practice experience in community pharmacy after completion of the third year which will provide an opportunity for students to apply their technical skills and practice and participate in patient care activities. The practical experience is normally comprised of four weeks during May/June.

AR: attendance is required

CH: 0

LC: 0

PR: successful completion of all courses in Academic Terms 5 & 6 of the program

4105 Immunology (same as PHAR 3006) is an introduction to the molecular and cellular basis of immunity and hypersensitivity. Manipulation of the immune system in the management and treatment of disease is discussed.

CR: PHAR 3006

PR: PHAR 2003

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

4150 Pharmacy Skills (same as PHAR 4650) continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the third year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in practice sessions necessary to develop an understanding of and skills required in patient assessment. Students will build on their pharmacist care skills to meet patients' drug-related needs in more complex patient scenarios, drug information skills to assess information needs, and medication preparation and dispensing skills to optimize safe and accurate medication delivery. Scenarios will relate to the courses of study in the third year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1

CO: all Academic Term 5 Pharmacy courses

CR: PHAR 4650

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

4151 Pharmacy Skills (same as PHAR 4651) continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the third year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will

participate in sessions that focus on ethical issues in pharmacy practice and communication with health care providers. Students will build on their patient assessment and pharmacist care skills to meet patients' drug-related needs in more complex patient scenarios and will use critical appraisal skills to respond to clinical questions. Scenarios will relate to the courses of study in the third year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1

CO: all Academic Term 6 Pharmacy courses

CR: PHAR 4651

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

PR: PHAR 4150

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

4201 Applied Pharmacokinetics (same as the former PHAR 3206) is an introduction to biopharmaceutical and pharmacokinetic principles used in the selection, dosing, monitoring and evaluation of drug therapy. Application of these principles in evaluating drug literature and developing drug dosage regimens of selected classes of drugs for individual patients will be discussed.

CR: the former PHAR 3206

PR: Medicine 4300, PHAR 2202 and 3009

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4301 Patient Care II discusses the principles of health promotion and disease prevention and the role of the pharmacist.

CH: 1

CR: PHAR 4302

OR: tutorials 1 hour per week

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

4302 Patient Care II discusses the principle roles of health systems and health policy with a special emphasis on pharmaceutical policy and its impact on the profession, the public and on the delivery of pharmaceutical care. The principles of health promotion and the role of the pharmacist will be discussed. Students will gain knowledge about health challenges facing society, how education affects health, the roles of the pharmacist in educating and promoting health to patients.

CH: 1

CR: PHAR 4301 and the former 3501

PR: PHAR 2101, 2102, and 3301

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4401 Therapeutics I is a part of a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to infectious diseases, hematology/oncology, and dermatology. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered to aid in the selection of an individualized therapeutic regimen; and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6

CO: PHAR 4105, PHAR 4008

LC: 6

OR: tutorials 2 hours per week; attendance is required

PR: Medicine 4300, PHAR 3009 and 3206

4402 Therapeutics II is a part in a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to women's health, men's health, gastroenterology, musculoskeletal, neurological, respiratory disorders and transplantation. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered to aid in the selection of an individualized therapeutic regimen; and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6

LC: 6

OR: tutorials 2 hours per week; attendance is required

PR: PHAR 4401

4501 Pharmacy Research and Evaluation II (same as PHAR 4504) introduces the biostatistical, pharmacoepidemiologic and pharmacoeconomic concepts and develops the skills necessary to the practice of research and evaluation methods in applied pharmacy. The understanding of such methods is an important prerequisite in the critical appraisal of the health literature and the undertaking of evidence-based clinical practice.

CR: PHAR 4504

PR: the former PHAR 3501

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

4502 Pharmacy Research and Evaluation III (same as PHAR 4505) introduces students to principles of critical appraisal and provides opportunities to apply these principles to critique and evaluate current medical literature. Students will be assigned to a tutorial group, which will meet twice during the semester to critically appraise at least two recently published studies (journal club). Emphasis will be placed on appropriate application of critical appraisal skills and group discussion of impact of study findings on clinical practice. In addition, this course will also discuss drug utilization reviews and evaluations and the role of the pharmacist, as well as adverse drug event reporting and the role of the pharmacist.

CH: 1

CR: PHAR 4505

LC: 1

OR: tutorials 1 hour per week; attendance is required

PR: PHAR 4501

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

4503 Pharmacy Administration introduces students to the basic principles of management as it relates to pharmacy practice. Topics will include human resources and financial management, marketing, strategic planning and the principles and issues associated with safe and appropriate drug distribution. These will be discussed from both a community and an institutional practice focus.

4504 Pharmacy Research and Evaluation I (same as PHAR 4501) introduces the biostatistical, pharmacoepidemiologic and pharmacoeconomic concepts and develops the skills necessary to the practice of research and evaluation methods in applied pharmacy. The understanding of such methods is an important prerequisite in the critical appraisal of the health literature and the undertaking of evidence-based clinical practice.

CR: PHAR 4501

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4505 Pharmacy Research and Evaluation II (same as PHAR 4502) introduces students to principles of critical appraisal and provides opportunities to apply these principles to critique and evaluate current medical literature. Students will be assigned to a tutorial group, which will meet twice during the semester to critically appraise at least two recently published studies (journal club). Emphasis will be placed on appropriate application of critical appraisal skills and group discussion of impact of study findings on clinical practice. In addition, this course will also discuss drug utilization reviews and evaluations and the role of the pharmacist, as well as adverse drug event reporting and the role of the pharmacist.

UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

500X Structured Practice Experience IV provides experience in clinical practice. Students will participate as members of the health care team. They will be responsible for providing pharmaceutical care to patients. Activities will include attending patient care rounds, providing in-services and drug information, and participating in case presentations. The structured practice experience is comprised of two six week modules.

AR: attendance is required

CH: 18

LC: 0

PR: successful completion of all course requirements for the degree and Clear Promotion

5011 Pharmaceutical Biotechnology - inactive course.

5012 Pharmaceutical Analysis - inactive course.

5013 Hospital Pharmacy Administration - inactive course.

501A/B Pharmaceutical Research - inactive course.

5150 Pharmacy Skills (same as PHAR 5650) continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the fourth year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will build on their pharmacist care skills to meet patients' drug-related needs in patients with multiple drug related problems. Refinement of verbal and written communication skills will be a focus. Scenarios will relate to the courses of study in the fourth year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1

CO: all Academic Term 7 Pharmacy courses

CR: PHAR 5650

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

4.1.21 Pure Mathematics and Statistics Joint Honours	439
4.2 Joint Majors	439
4.2.1 Applied Mathematics and Computer Science Joint Major (B.Sc. Only)	439
4.2.2 Applied Mathematics and Economics Joint Major (B.Sc. Only)	439
4.2.3 Applied Mathematics and Physics Joint Major (B.Sc. Only)	440
4.2.4 Computer Science and Economics Joint Major (B.Sc. Only)	440
4.2.5 Computer Science and Geography Joint Major (B.Sc. Only)	440
4.2.6 Computer Science and Physics Joint Major	440
4.2.7 Computer Science and Pure Mathematics Joint Major (B.Sc. Only)	440
4.2.8 Computer Science and Statistics Joint Major (B.Sc. Only)	440
4.2.9 Earth Sciences and Physics Joint Major	441
4.2.10 Economics and Pure Mathematics Joint Major (B.Sc. Only)	441
4.2.11 Economics and Statistics Joint Major (B.Sc. Only)	441
4.2.12 Economics (Co-operative) and Statistics Joint Major (B.Sc. Only)	441
4.3 Option Programs	442
4.3.1 Physics and Chemistry Option Programs	442
5 Degree Regulations	442
5.1 Admission to the Department of Subject of Major	442
5.2 Limited Enrolment Courses	442
5.3 Regulations to Govern Supplementary Examinations in the Departments of Biochemistry, Computer Science, Mathematics and Statistics, and Physics and Physical Oceanography	442
5.4 Regulations for the General Degree of Bachelor of Science	443
5.5 Regulations for the Honours Degree of Bachelor of Science	444
5.5.1 Admission and Registration	444
5.5.2 Course Requirements	444
5.5.3 Comprehensive Examination and Dissertation	445
5.5.4 Departmental Regulations	445
5.5.5 Residence Requirements	445
5.5.6 Academic Standing	445
5.5.7 Classification of Degrees	445
6 Waiver of Regulations for Undergraduate Students	445
7 Program Regulations	445
7.1 Biochemistry	445
7.1.1 Admission to Programs	446
7.1.2 Major in Biochemistry	446
7.1.3 Nutrition Program	447
7.2 Biology	448

7.2.1	Entrance Requirements	448
7.2.2	Minor in Biology	448
7.2.3	General Degrees	448
7.2.4	Honours Degrees	450
7.2.5	Honours in Biology	450
7.2.6	Honours in Cell and Molecular Biology	450
7.2.7	Honours in Ecology and Conservation Biology	451
7.2.8	Honours in Marine Biology	451
7.3	Chemistry	451
7.3.1	Undergraduate Handbook	452
7.3.2	Faculty Advisors	452
7.3.3	Minor in Chemistry	452
7.3.4	General Degree - Major in Chemistry	452
7.3.5	Honours Degree in Chemistry	452
7.3.6	General Degree - Major in Computational Chemistry	453
7.3.7	Honours Degree in Computational Chemistry	453
7.3.8	Course Restrictions	454
7.4	Computer Science	454
7.4.1	Major in Computer Science	454
7.4.2	Honours in Computer Science	454
7.4.3	Honours in Computer Science (Software Engineering) (B.Sc. Only)	455
7.4.4	Computer Industry Internship Option (CIIO):	455
7.4.5	Minor in Computer Science	456
7.4.6	Course Numbering Scheme	456
7.4.7	Supplementary Examinations	456
7.4.8	Faculty Advisors	456
7.4.9	Undergraduate Handbook	456
7.5	Earth Sciences	456
7.5.1	Undergraduate Handbook	456
7.5.2	Entrance Requirements	456
7.5.3	Minor in Earth Sciences	457
7.5.4	Major Programs in Earth Sciences	457
7.5.5	Honours B.Sc. Degree in Earth Sciences	457
7.5.6	General B.Sc. Degree in Earth Sciences	457
7.5.7	Credit Restrictions for Present Earth Sciences (EASC) Courses with Former Courses Table	458
7.6	Economics	458
7.7	Geography	458
7.8	Mathematics and Statistics	459
7.8.1	Regulations	459
7.8.2	Faculty Advisors	459
7.8.3	Course Numbering System	459
7.8.4	Major in Applied Mathematics (B.Sc. Only)	460
7.8.5	Major in Pure Mathematics	460
7.8.6	Major in Statistics	460
7.8.7	Honours in Applied Mathematics (B.Sc. Only)	460
7.8.8	Honours in Pure Mathematics	460
7.8.9	Honours in Statistics	460
7.8.10	Minor in Mathematics	461
7.8.11	Minor in Statistics	461
7.9	Ocean Sciences	461
7.10	Physics and Physical Oceanography	461
7.10.1	Minor in Physics	462
7.10.2	Major in Physics	462
7.10.3	Honours in Physics	462
7.10.4	Major in Environmental Physics	463
7.10.5	Honours in Environmental Physics	463
7.11	Psychology	464
7.11.1	Admission to Major Programs	464
7.11.2	Admission to Honours Programs	465
7.11.3	Requirements for a Major in Psychology	465
7.11.4	Requirements for Honours in Psychology	465
7.11.5	Requirements for a Major in Behavioural Neuroscience (B.Sc. Only)	465
7.11.6	Requirements for Honours in Behavioural Neuroscience (B.Sc. Only)	466
7.11.7	Requirements for a Minor in Psychology	466
7.11.8	Requirements for Major and Honours in Psychology (Co-operative) (B.A. or B.Sc.), and Major and Honours in Behavioural Neuroscience (Co-operative) (B.Sc. only)	466
7.11.9	Suggested Course Sequences	468
7.12	Science	473
8	Course Descriptions	473
8.1	Biochemistry	473
8.2	Biology	475
8.3	Chemistry	479
8.4	Computer Science	481
8.4.1	First Year Courses	481
8.4.2	Second Year Courses	481
8.4.3	Third Year Courses	482
8.4.4	Fourth Year Courses	483
8.5	Earth Sciences	484
8.5.1	First Year	484
8.5.2	Second Year	484
8.5.3	Third Year	485
8.5.4	Fourth Year	486
8.6	Economics	487
8.7	Geography	487
8.8	Mathematics and Statistics	487
8.8.1	Foundation Courses	488

8.8.2	Accelerated M103F/M1051 Mathematics Skills Program/Finite Mathematics II (W)	488
8.8.3	Mathematics Courses	488
8.8.4	Statistics Courses	490
8.9	Physics and Physical Oceanography	491
8.10	Psychology	493
8.10.1	Non-Restricted Courses	493
8.10.2	Majors Courses	494
8.10.3	Psychology Work Term Descriptions	496
8.11	Science	497

Archived Previous Calendar
 Current University Calendar available at
mun.ca/university-calendar

www.mun.ca/science/

Dean

Abrahams, M., B.Sc.(Hons.) *Western*, M.Sc. *Queen's*, Ph.D. *Simon Fraser*; Professor of Biology; Joint appointment with Ocean Sciences Centre

Associate Dean (Administration and Undergraduate)

Foster, A., B.Sc. *Dalhousie*, M.Math *Waterloo*, Ph.D. *Dalhousie*; Motivational Teaching Award, 2001; Associate Professor of Mathematics and Statistics

Associate Dean (Research)

Courage, M.L., B.A. *Memorial*, M.Sc. *University of Alberta*, Ph.D. *Memorial*; Professor (Psychology); Cross appointment to the Discipline of Pediatrics, Faculty of Medicine

Manager, Finance & Administration

Rideout, J., B.Comm.(Co-op)(Hons.) *Memorial*, C.M.A. (Newfoundland)

Department of Biochemistry

www.mun.ca/biochem/

Acting Head

Davis, P.J., B.Sc., Ph.D. *Memorial*; Professor

Professor Emeritus

Keough, K.M.W., B.Sc.(Hons.), M.Sc., Ph.D. *Toronto*

Professors

Brosnan, J.T., B.Sc.(Hons.), M.Sc., D.Sc. *National University of Ireland*, D.Phil. *Oxford*; University Research Professor, Awarded 1990; Cross appointment with Faculty of Medicine
 Brosnan, M.E., B.A.(Hons.), M.Sc., Ph.D. *Toronto*; Cross appointment with Faculty of Medicine
 Cheema, S.K., B.Sc. *Punjab*, M.Sc. *Punjab Agricultural*, Ph.D. *Post Graduate Institute of Medical Education and Research*; Deputy Head (Graduate Studies); Cross appointment with Faculty of Medicine
 Heeley, D.H., B.Sc.(Hons.), Ph.D. *Birmingham*
 Herzberg, G.R., B.S., Ph.D. *Maine*
 Hoover, R., B.Sc.(Hons.) *Ceylon*, M.Sc. *Leeds*, Ph.D. *Alberta*
 McGowan, R.A., B.Sc.(Hons.) *Brock*, Ph.D. *SUNY, Buffalo*; Joint appointment with Department of Biology
 Mulligan, M.E., B.Sc.(Hons.) *National University of Ireland*, Ph.D. *Harvard*; Winner of the President's Award for Distinguished Teaching, 1999
 Robinson, J.J., B.Sc.(Hons.) *University College Dublin*, M.Sc. *Trinity College Dublin*, Ph.D. *Alberta*
 Shahidi, F., B.Sc. *Shiraz*, Ph.D. *McGill*, University Research Professor, Awarded 1998; Cross appointment with Department of Biology

Associate Professors

Bertolo, R.F.P., B.A.Sc.(Hons.) *McMaster*, M.Sc., Ph.D., *Guelph*; Canada Research Chair in Human Nutrition
 Booth, V.K., B.Sc.(Hons.) *Victoria*, M.Sc. *Waterloo*, Ph.D. *Toronto*; Canada Research Chair in Proteomics; Deputy Head (Undergraduate); Cross appointment with Department of Physics and Physical Oceanography
 Brunton, J.A., B.A.Sc. *Guelph*, Ph.D. *McMaster*
 Ghazala, S., B.Sc. *Baghdad*, Dip.Mech.Eng., M.Sc. Mech. Eng. *University of Technology, Baghdad*, Ph.D. *McGill*
 MacPhee, D.J., B.Sc.(Hons.) *Prince Edward Island*, Ph.D. *Western Ontario*; Cross appointment from Faculty of Medicine
 Nag, K., B.Sc.(Hons.), M.Sc. (Part I) *Calcutta*, M.Sc., Ph.D. *Memorial*
 Randell, E.W., B.Sc.(Hons.), Ph.D. *Memorial*; Cross appointment from Faculty of Medicine
 Volkoff, H., B.Sc. *Pierre et Marie Curie University*, M.Sc. *University of Aix-Marseille III*, Ph.D. *Clemson University*; Joint appointment with Department of Biology

Assistant Professors

Brown, R.J., B.Sc.(Hons.), Ph.D. *Ottawa*
 Christian, S.L., B.Sc.(Hons.) *Alberta*, Ph.D. *University of British Columbia*; Cross appointment with Faculty of Medicine

Adjunct Professors

Banoub, J., B.Sc.(Hons.) *Alexandria*, Ph.D. *Montreal*
 Hayley, M.J., B.Sc.(Hons.), M.Sc., Ph.D. *Memorial*

Administrative Assistant

Sinnott, A.L., B.Comm., M.B.A. *Memorial*

Communal Research and Instrumentation Grouping Supervisor

Skinner, C.T.

Senior Technician, Student Laboratory

Murphy, M.J., B.Sc., B.Ed. *Memorial*

Department of Biology

www.mun.ca/biology/Home/

Head

Marino, P., B.A. *Vermont*, M.Sc. *Northern Arizona*, Ph.D. *Alberta*

Professores Emeriti

Bal, A.K., B.Sc., M.Sc., Ph.D. *Calcutta*
 Burton, D., B.Sc. *Wales*, P.G.C.E., Ph.D. *London*
 Burton, M., B.Sc., Ph.D. *London*
 Haedrich, R.L., A.B., A.M., Ph.D. *Harvard*; University Research Professor, Awarded 1999
 Khan, R.A., B.S.A., M.Sc., Ph.D. *Toronto*
 Patel, T.R., B.Sc., M.S. *Baroda*, M.A., Ph.D. *Texas*
 Steele, D.H., B.Sc. *Western Ontario*, M.Sc., Ph.D. *McGill*

Honorary Research Professors

Colbo, M., B.Sc., M.Sc. *Alberta*, Ph.D. *Queensland*
 Collins, M.A.J., B.Sc., Cert. Ed., M.Sc. *Southampton*, B.Ed., M.Ed. *Memorial*, Ph.D. *Keele*; Winner of the President's Award for Distinguished Teaching, 1996-1997
 Green, J.M., B.Sc. *Michigan*, M.Sc. *Miami*, Ph.D. *British Columbia*
 May, A.W., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *McGill*, DU *Ottawa*, D.Sc. *Memorial*, LL.D. *Brock*

Director of Memorial University of Newfoundland Botanical Garden

vacant

Professors

Abrahams, M., B.Sc.(Hons.) *Western*, M.Sc. *Queen's*, Ph.D. *Simon Fraser*; Dean of Science
 Carr, S.M., B.Sc. *California Polytechnic*, C.Phil., Ph.D. *University of California, Berkeley*; Cross appointment to Faculty of Medicine
 Hermanutz, L., B.Sc. *Guelph*, M.Sc. *Windsor*, Ph.D. *Western Ontario*; Cross appointment with Botanical Garden
 Innes, D., B.Sc. *British Columbia*, M.Sc. *Dalhousie*, Ph.D. *S.U.N.Y.*; Deputy Head
 Jones, I.L. B.Sc. *Carleton*, M.Sc. *Toronto*, Ph.D. *Queen's*
 McGowan, R.A., B.Sc.(Hons.) *Brock*, Ph.D. *SUNY/AB*; Joint appointment with Department of Biochemistry
 Miller, E.H., B.Sc. *Alberta*, M.Sc. *Canterbury*, Ph.D. *Dalhousie*
 Snelgrove, P., B.Sc.(Hons.) *Memorial*, M.Sc. *McGill*, Ph.D. *Woods Hole*; Joint appointment with Ocean Sciences Centre
 Staveley, B.E., B.Sc., M.Sc. *Guelph*, Ph.D. *Alberta*

Associate Professors

Dunbrack, R., B.A. *New Brunswick*, Ph.D. *Simon Fraser*
 Edinger, E., B.A. *California*, M.Sc., Ph.D. *McMaster*; Joint appointment with Department of Geography
 Gardner, G.A., B.Sc. *Guelph*, M.Sc., Ph.D. *British Columbia*; Associate Vice-President (Academic) (on leave)
 Hooper, R.G., B.Sc. *Victoria*, Ph.D. *Portsmouth*; Curator, Phycological Herbarium; Director, Bonne Bay Marine Station; Cross appointment to Grenfell Campus
 Igamberdiev, A.U., Dr.Sci. *Russian Acad. Sciences*, Ph.D., M.S. *Voronezh*
 Murrin, F., B.Sc.(Hons.) *Memorial*, M.Sc. *Acadia*, Ph.D. *Queen's*
 Volkoff, H., B.Sc. *Pierre et Marie Curie University*, M.Sc. *University of Aix-Marseille III*, Ph.D. *Clemson University*; Joint appointment with Department of Biochemistry

Assistant Professors

Bignell, D., B.Sc.(Hons.) *Manitoba*, Ph.D. *Alberta*
 Bykova, N.V., B.Sc., M.Sc., Ph.D. *Voronezh State*
 Chapman, T.W., B.Sc.(Hons.), M.Sc. *Guelph*, Ph.D. *Simon Fraser*
 Dufour, S., B.Sc.(Hons.), M.Sc. *Universite de Moncton*, Ph.D. *University California San Diego*
 Lang, A.S., B.Sc.(Hons.) *Brock*, Ph.D. *British Columbia*
 Marshall, H.D., B.Sc.(Hons.) *Memorial*, Ph.D. *Toronto*
 Peña-Castillo, L., B.Sc. *ITESM-Veracruz, Mexico*, M.Sc. *Alberta*, Ph.D. *Otto-von-Guericke, Magdeburg*; Joint appointment with

Department of Computer Science
 Purchase, C.F., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *Toronto*
 Tahlan, K., B.Sc. *Kurukshetra University*, Ph.D. *Alberta*
 Wiersma, Y.F., B.Sc.(Hons.), B.Ed. *Toronto*, M.Sc., Ph.D. *Guelph*

Adjunct Professors

Anderson, M.R., B.Sc., M.Sc. *Larval*, Ph.D. *McGill*
 Bratney, J., B.Sc.(Hons.) *Glasgow*, Ph.D. *Liverpool*
 Chaulk, K., B.Sc. *Dalhousie*, M.Sc. *Acadia*, Ph.D. *Memorial*
 Debnath, S., B.Sc.Ag.(Hons.), M.Sc.Ag. *Bangladesh Agric. Univ.*,
 Ph.D. *India Agric. Res. Inst.*
 Dixon, P.L., B.Sc. *Memorial*, M.Sc. *Guelph*, Ph.D. *Edinburgh*
 Gilkinson, K., B.Sc. *Ottawa*, M.Sc., Ph.D. *Memorial*
 Goudie, I., B.Sc. *Memorial*, M.Sc. *Western Ontario*, Ph.D.
Memorial
 Gregory, R.S., B.Sc.(Hons.) *Acadia*, M.Sc. *Trent*, Ph.D. *British Columbia*
 Hamoutene, D., B.Sc. *Houari Boumedjeve Univ.*, M.Sc., Ph.D. *Aix-Marseille II Univ.*
 Hicks, B., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *Univ. Edinburgh*
 Lewis, K., B.Sc. *University of California, Davis*, M.Sc., Ph.D.
Memorial
 Piercey-Normore, M., B.Sc., M.Sc., Ph.D. *Memorial*
 Quijon, P., B.Sc., M.Sc. *Universidad Austral de Chile*, Ph.D.
Memorial
 Reimer, K., B.Sc., M.Sc. *Calgary*, Ph.D. *Western Ontario*
 Robertson, G.J., B.Sc. *Queens*, Ph.D. *Simon Fraser*
 Stenson, G.B., B.Sc. *Alberta*, Ph.D. *British Columbia*
 Wahle, R., B.A. *University New Hampshire*, M.Sc. *San Francisco State University*, Ph.D. *University Maine*
 Whitney, H.G., B.Sc. *McGill*, M.Sc. *Saskatchewan*, Ph.D. *Montréal*

Cross Appointments

Deibel, D., B.Sc. *Bucknett*, Ph.D. *Georgia*; University Research Fellow, Associate Professor (Research); Winner of the President's Award for Outstanding Research, 1990-1991; Cross appointment from Ocean Sciences Centre
 Fleming, I.A., B.Sc. *Queen's*, M.Sc. *Simon Fraser*, Ph.D. *Toronto*; Cross appointment from Ocean Sciences Centre
 Gagnon, P., B.Sc., Ph.D. *Laval University*; Cross appointment from Ocean Sciences Centre
 Gamperl, A.K., B.Sc.(Hons.), M.Sc. *Guelph*, Ph.D. *Dalhousie*; Cross appointment from Ocean Sciences Centre
 Mercier, A., B.Sc. *Université de Sherbrooke*, M.Sc., Ph.D. *Université du Québec à Rimouski*; Cross appointment from Ocean Sciences Centre
 Parrish, C.C., B.Sc. *Wales*, Ph.D. *Dalhousie*; Winner of the President's Award for Outstanding Research, 1995-1996; Cross appointment from Oceans Sciences Centre
 Rise, M.L., B.Sc. *Whitworth College*, M.Sc. *Boston College*, Ph.D. *Victoria*
 Rose, G.A., B.Sc. *Guelph*, M.Sc. *Laurentian*, Ph.D. *McGill*; Cross appointment from Fisheries and Marine Institute
 Schneider, D.C., B.Sc. *Duke*, Ph.D. *SUNY, Stony Brook*; Associate Dean (Research); Professor; Cross appointment from Ocean Sciences Centre; Cross appointment with Department of Psychology
 Shahidi, F., B.Sc. *Shiraz*, Ph.D. *McGill*; Cross appointment from Department of Biochemistry
 Storey, A.E., B.Sc.(Hons.), M.A. *Manitoba*, Ph.D. *Rutgers*; Cross appointment from Department of Psychology
 Wroblewski, J.S., B.Sc. *Illinois*, M.Sc., Ph.D. *Florida State*; Professor (Research); Cross appointment from Ocean Sciences Centre

Administrative Staff Officer

Kenny, A.J., B.A. *Memorial*

Supervisor of Laboratories

Collins, G.

Department of Chemistry

www.chem.mun.ca/

Head

Pickup, P.G., B.A., D.Phil. *Oxon*; University Research Professor, Awarded 2005; Professor

Professores Emeriti

Anderson, H.J., M.Sc. *Manitoba*, Ph.D. *Northwestern*, F.C.I.C.
 Gogan, N.J., B.Sc.(Hons.), Ph.D. *National University of Ireland, Dublin*, F.C.I.C.
 Lucas, C.R., B.Sc., M.Sc. *Acadia*, D.Phil. *Oxon*, F.C.I.C.

Machin, W.D., B.Sc. *Carleton*, Ph.D. *Rensselaer*
 Thompson, L.K., B.Sc., Ph.D. *Manchester*, F.C.I.C.; University Research Professor, Awarded 1995

Professors

Bodwell, G.J., B.Sc., M.Sc. *Victoria*, Dr.rer.nat. *Tech. Univ. Braunschweig*; Deputy Head (Graduate Studies and Research); Winner of the President's Award for Outstanding Research, 1998-1999; Winner of the Petro Canada Young Innovator Award, 1999-2000; Winner of the 2011 Distinguished Scholar Medal
 Georgiou, P.E., B.Sc.(Hons.) *Witwatersrand*, Ph.D. *McGill*, F.C.I.C.
 Helleur, R.J., B.Sc. *Concordia*, M.Sc. *McGill*, Ph.D. *Queen's*; Cross appointment with Ocean Sciences Centre
 Mezey, P.G., M.Sc., M.Sc., Ph.D. *Budapest*, D. Sc. *Saskatchewan*; Canada Research Chair in Scientific Modelling and Simulation
 Poirier, R.A., B.Sc., M.Sc. *Laurentian*, Ph.D. *Toronto*, F.C.I.C.; Winner of the President's Award for Outstanding Research, 1986-1987
 Wardlaw, D.M., B.Sc., Ph.D. *Toronto*; Provost/Vice-President (Academic)/Pro Vice-Chancellor

Associate Professors

Bottaro, C.S., B.Sc.(Hons.) *St. Mary's*, Ph.D. *Dalhousie*
 Davis, R.W., B.Sc. *Memorial*, Ph.D. *British Columbia*
 Flinn, C.G., B.Sc., M.Sc., Ph.D. *Dalhousie*; Deputy Head (Undergraduate Studies)
 Fridgen, T.D., B.Sc.(Hons.) *Trent*, B.Ed., Ph.D. *Queen's*
 Kerton, F.M., B.Sc.(Hons.) *Univ of Kent*, D.Phil. *Univ of Sussex*
 Kozak, C.M., B.Sc.(Hons.) *McMaster*, Ph.D. *UBC*; Winner of the 2011 Terra Nova Young Innovator Award
 Merschrod, E., A.B. *Bryn Mawr Coll.*, M.S., Ph.D. *Cornell*
 Pansare, S.V., B.Sc., M.Sc., *Univ. Pune (India)*, Ph.D. *Alberta*
 Thompson, D.W., B.Sc.(Hons.), M.Sc. *Queen's*, Ph.D. *York*
 Zhao, Y., B.S., M.S. *Dalian*, Ph.D. *Alberta*; Winner of the Petro Canada Young Innovator Award, 2006-2007

Assistant Professor

Rowley, C.N., B.Sc.(Hons) *Carleton*, Ph.D. *Ottawa*

Assistant Professors (term)

Dawe, L., B.Sc. (Hons.), B.Ed., Ph.D. *Memorial*, M.Sc. *University of Utah*
 Hattenhauer, K.M., B.Sc. *Winnipeg*, Ph.D. *Manitoba*
 Warburton, P., B.Sc. (Hons.), M.Sc., Ph.D. *University of Saskatchewan*

Cross-Appointments

Parrish, C.C., B.Sc. *Wales*, Ph.D. *Dalhousie*; Cross appointment from Ocean Sciences Centre
 Poduska, K., B.A. *Carleton College*, Ph.D. *Cornell*; Cross appointment from Department of Physics and Physical Oceanography

Adjunct Professors

Banoub, J.H., B.Sc.(Hons.) *University of Alexandria, Egypt*, Ph.D. *University of Montreal*
 Keefe, D., B.Sc.(Hons.) *Memorial*, Ph.D. *University of Alberta*
 Miller, D., B.Sc., M.Sc. *Memorial*
 Schneider, C., B.Sc.(Hons.), M.Sc. *Universite de Nancy I (France)*, Ph.D. *Keele University*

Undergraduate Laboratory Supervisor

Gulliver, G.

Department of Computer Science

www.mun.ca/computerscience/

Head

Brown, E., B.Sc.(Hons.), *Memorial*, M.Sc. *U. of T.*, Ph.D. *Toronto*, LL.B. *Victoria*; Associate Professor

Professors

Banzhaf, W., Dipl. Phys. *Ludwig-Maximilian*, Munich, Dr.rer.nat *Federiciana*, Karlsruhe; University Research Professor, Awarded 2010
 Bartha, M., M.Sc., Ph.D. *József Attila University, Hungary*
 Gillard, P., B.Sc., M.Sc., Ph.D. *Memorial*
 Lu, S., B.Eng. *Peking*, M.Sc., Ph.D. *Waterloo*
 Miminis, G., Dipl. Greek Center of Productivity, B.Sc. *Univ. of Ioannina (Greece)*, M.Sc., Ph.D. *McGill*
 Tang, J., M.Sc. *Iowa*, Ph.D. *Penn. State*

Vidyasankar, K., M.Tech. *I.I.T. Kanpur*, Ph.D. *Waterloo*
 Wang, C.A., B.A. *Peking*, M.Sc., Ph.D. *Alberta*
 Zuberek, W., M.Sc., Ph.D., D.Sc. *Warsaw Tech.*

Associate Professors

Bungay, S., B.Sc., M.Sc. *Memorial*, Ph.D. *Guelph*
 Byrne, R., B.Sc.(Hons.), B.Eng. *Memorial*, M.Sc., Ph.D. *Victoria*
 Chen, Y.P., B.Sc. *Beijing*, Ph.D. *Simon Fraser*
 Deb, A., M.Tech. *Calcutta*, Ph.D. *Iowa*
 Fiech, A., Dipl. Inf. *Dortmund*, Ph.D. *Kansas State*
 Gong, M., B.Eng. *H.E.U.*, M.Sc. *Tsinghua*, Ph.D. *Alberta*
 Mata-Montero, M., B.Sc. *Costa Rica*, M.Sc. *Illinois*, Ph.D. *Victoria*
 Shieh, J., B.Sc. *Beijing*, M.Sc., Ph.D. *Simon Fraser*
 Vardy, A., B.Eng. *Memorial*, M.Sc. *Sussex*, Ph.D. *Carleton*; Joint appointment with Electrical and Computer Engineering, Faculty of Engineering and Applied Science
 Wareham, T., B.Sc.(Hons.), B.A., M.Sc. *Memorial*, Ph.D. *Victoria*
 Yu, G., M.Sc. *Northeastern*, Ph.D. *London*

Assistant Professors

Hoeber, O., B.Sc., M.Sc. *Saskatchewan*, Ph.D. *Regina*
 Kolokolova, A., B.Sc.(Hons.) *Arizona*, M.Sc., Ph.D. *Toronto*
 Peña-Castillo, L., B.Sc. *ITESM, Veracruz, Mexico*, M.Sc. *Alberta*, Ph.D. *Otto-von-Guericke, Magdeburg*; Joint appointment with Department of Biology

Lecturers

Batten, D.L., B.Sc.(Hons.) *Memorial*, M.Sc. *Queen's*
 Gupta, R., B.A. *Agra Univ.*, B.A. *Memorial*, M.S. *Georgia Tech.*

Cross-Appointments

Evermann, J., Dipl. Wirt. Inf. *Muenster*, Ph.D. *British Columbia*; Cross appointment from Faculty of Business Administration
 Meruvia-Pastor, O., B.Eng. *ITESM, Monterrey*, M.Sc. *Alberta*, Dr. Eng. *Otto-von-Guericke, Magdeburg*; Cross appointment from Faculty of Science
 Norvell, T.S., B.Sc.(Hons.) *Dalhousie*, M.Sc., Ph.D. *Toronto*; Cross appointment from Faculty of Engineering and Applied Science
 Parsons, J., B.Comm.(Hons.) *Memorial*, Ph.D. *British Columbia*; Cross appointment from Faculty of Business Administration
 Peters, D.K., B.Eng. *Memorial*, M.Eng., Ph.D. *McMaster*, P.Eng.; Cross appointment from Faculty of Engineering and Applied Science
 Pike, D., B.Math. *Waterloo*, MAM, Ph.D. *Auburn*, FTICA; Cross appointment from Department of Mathematics and Statistics

Systems Manager

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Faculty Description

The Faculty of Science encompasses nine academic departments: Biochemistry, Biology, Chemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Ocean Sciences, Physics and Physical Oceanography, and Psychology. Each offers programs leading to either a general or honours degree. A number of specialized and joint (double major) programs are also offered, as well as Bachelor of Science degree programs delivered by the Departments of Geography and Economics. Selected students can complete the first two years of Acadia University's Bachelor of Science in Nutrition (Dietetics option) at Memorial University of Newfoundland. In addition to educational programs, research is a most important aspect of the Faculty of Science. As such, the Faculty is in a position to generate new knowledge by the pursuit of high quality research and to foster economic development through cooperative research and technology transfer with the private sector. The Faculty of Science is the scientific training ground for all undergraduates at the University. Memorial University of Newfoundland's science graduates are in demand by science-based industries throughout the country. Our Faculty excels in research and in its commitment to effective teaching and delivery of quality educational programs.

Additional information regarding the Faculty of Science is available at www.mun.ca/science/.

Information regarding the Centre for Earth Resources Research (CERR) and the Ocean Sciences Centre (OSC) is available under **General Information, Centre for Earth Resources Research (CERR)**, and **General Information, Ocean Sciences Centre**, respectively.

3 Bachelor of Science in Nutrition (Dietetics Option), Memorandum of Understanding (MOU) between Memorial University of Newfoundland and Acadia University

Program Coordinator: B. Walters, Department of Biochemistry

3.1 General Information

Under the terms of a Memorandum of Understanding (MOU) between Memorial University of Newfoundland and Acadia University, selected students are able to complete the first two years of Acadia University's Bachelor of Science in Nutrition (Dietetics option) at Memorial University of Newfoundland and complete the final two years of the program at Acadia University. Selection for this program is competitive and is limited to ten qualified students each year. Upon successful completion of all degree requirements students will graduate with the degree of Bachelor of Science in Nutrition (Dietetics option) from Acadia University.

For detailed information about the Memorial University of Newfoundland component of the program, and for information about the selection process and deadlines, contact the Office of the Dean of Science by e-mail at science@mun.ca or by telephone at (709) 864-8153 or (709) 864-8154.

For detailed information about the Acadia University program, contact Acadia University in writing to the School of Nutrition and Dietetics, Acadia University, P.O. Box 68, 12 University Avenue, Wolfville, Nova Scotia, Canada B4P 2R6, or by telephone at (902) 585-1366, or by e-mail at nutr@acadiau.ca, or through the website at nutrition.acadiau.ca/.

3.2 Admission Regulations

1. Students who are interested in pursuing this program must first complete 30 credit hours from the prescribed courses from the **Memorial University of Newfoundland Courses** list below.
2. In the Winter semester, normally at the end of a student's first year at Memorial University of Newfoundland, a selection competition will be held. Only those students who are selected will be eligible to continue into the second year of the program at Memorial University of Newfoundland.
3. The selection process will be jointly administered by Memorial University of Newfoundland and by Acadia University.
4. Academic achievement will be a significant criterion used for selection and students may be asked to attend an interview.
5. The letter of acceptance will give the selected applicant 14 days from the date of the letter in which to confirm acceptance of their place in the program.
6. To continue on to Acadia University, the selected students must successfully complete the 17 courses, 51 credit hours from the **Memorial University of Newfoundland Courses** and the 3 courses, 9 credit hours from the **Acadia University Courses** lists below required by the MOU with a minimum 60% overall average. A grade of 60% (Acadia University equivalent grade of C-) is required in each of the three individual Nutrition courses taken through Open Acadia at www.openacadia.ca, the distance education unit of Acadia University.

3.3 Continuance Regulations

Students who successfully complete the first two years of the program at Memorial University of Newfoundland as described below will transfer to Acadia University where the final two years will be completed.

3.3.1 Memorial University of Newfoundland Courses

Under the terms of the MOU, the following 17 courses, 51 credit hours at Memorial University of Newfoundland must be completed with a minimum 60% overall average before being admitted to the third year of Acadia University's program:

1. Biology 1001
2. Chemistry 1010, 1011 (or Chemistry 1200, 1001)
3. Chemistry 2440
4. English 1080, 1110 (or equivalent)
5. Mathematics 1090 and 1000 (or Mathematics 1000 and one elective)
6. Pharmacy 2002, 2003, and 2004 or Biochemistry 2101 (only students who are selected for this program will be permitted to register for these Pharmacy courses)
7. Psychology 1000, 1001
8. Statistics 2500, 2501
9. Two Arts electives

3.3.2 Acadia University Courses

To continue to the third year of Acadia University's program, the selected students must successfully complete 20 courses, 60 credit hours comprised of the 17 courses, 51 credit hours from the **Memorial University of Newfoundland Courses** list above and the 3 courses, 9 credit hours from the **Acadia University Courses** list below. This is required by the MOU and students must obtain a minimum 60% overall average. A grade of 60% (Acadia University equivalent grade of C-) is required in each of the three individual Nutrition courses taken through Open Acadia at www.openacadia.ca, the distance education unit of Acadia University.

Nutrition 1513
Nutrition 2503
Nutrition 2513

3.3.3 Internship

In order to be eligible to apply for internship placements administered by the Acadia Dietetic Internship Program, students must obtain a grade of at least B- (70-72) in the two courses Nutrition 2503 and 2513. This requirement does not apply for other non-Acadia internships for which all students are eligible to apply.

3.3.4 Programs Tables

The following tables present a schedule for completing the course requirements at Memorial University of Newfoundland.

For Students Who Complete Mathematics 1090 in Their First Semester

Term	Suggested Courses
Fall Semester 1	Biology 1001 Chemistry 1010 or 1200 English 1080 Mathematics 1090 Psychology 1000
Winter Semester 2	Chemistry 1011 or 1001 English 1110 (or equivalent) Mathematics 1000 NUTR 1513 through Acadia Online at www.openacadia.ca Psychology 1001
Fall Semester 3	Arts Elective Chemistry 2440 NUTR 2503 through Acadia Online at www.openacadia.ca Pharmacy 2002 Statistics 2500
Winter Semester 4	Arts Elective NUTR 2513 through Acadia Online at www.openacadia.ca Pharmacy 2004 (or Biochemistry 2101) Pharmacy 2003 Statistics 2501

For Students Who Complete Mathematics 1000 in Their First Semester

Term	Suggested Courses
Fall Semester 1	Biology 1001 Chemistry 1010 English 1080 Mathematics 1000 Psychology 1000
Winter Semester 2	Chemistry 1011 English 1110 (or equivalent) NUTR 1513 through Acadia Online at www.openacadia.ca Psychology 1001 Statistics 2500
Fall Semester 3	Arts Elective Chemistry 2440 NUTR 2503 through Acadia Online at www.openacadia.ca Pharmacy 2002 Statistics 2501
Winter Semester 4	Arts Elective Elective NUTR 2513 through Acadia Online at www.openacadia.ca Pharmacy 2004 (or Biochemistry 2101) Pharmacy 2003

Notes: 1. Statistics 2501 is offered on campus in the Fall semester and normally is offered only by distance education in the Winter semester.
2. While students are strongly encouraged to complete Nutrition 1513 in the first year, they can substitute an Arts elective for Nutrition 1513 in the first year but must then complete Nutrition 1513 in the second year.
3. All three Open Acadia courses must be completed prior to starting courses at Acadia.

4 Joint Programs

Course descriptions are found at the end of the Faculty of Science section under **Course Descriptions**.

The following joint programs are offered by Departments in the Faculty of Science, and the regulations for each program are joint Departmental Regulations. For convenience of reference the joint programs are listed below in alphabetical sequence: Joint Honours, Joint Majors, and Joint Options.

4.1 Joint Honours

4.1.1 Applied Mathematics and Chemistry Joint Honours (B.Sc. Only)

The following courses are required:

1. English 1080 and English 1110 (or equivalent).

2. A computing course. Computer Science 1510 is recommended.
3. Biochemistry 2101.
4. Physics 1050 (or 1020) and 1051.
5. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 3000, 3001, 3132, 3161, 3202, 3210, 3260, 4160.
6. Chemistry 1050 and 1051 (or 1010, 1011 and 1031), 2100, 2210, 2301, 2302, 2400, 2401, 3110, 3210 or 3211, 3303, 3500.
7. Six additional credit hours chosen from courses numbered 3000 or higher that are offered by the Department of Chemistry.
8. Mathematics 419A/B or Chemistry 490A/B.
9. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours.

4.1.2 Applied Mathematics and Physics Joint Honours

The following courses are required:

1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
3. Six credit hours in a science other than Mathematics or Physics (if Computer Science is chosen then Computer Science 1510 may be counted as three of these hours).
4. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, 3132, 3202, 3210, 3260.
5. At least one of Mathematics 2130 or Mathematics 2320.
6. Physics 1050 (or 1020), 1051, 2053, 2055, 2750 (or 2056), 2820, 3220, 3230, 3400, 3500, 3750.
7. Three additional credit hours chosen from courses numbered 3000 or higher that are offered by the Department of Physics and Physical Oceanography.
8. Mathematics 3161 and Mathematics 4160, or Physics 3820 and Physics 4820.
9. Physics 490A/B or Mathematics 419A/B.
10. Twelve additional credit hours chosen from courses numbered 4000 or higher that are offered by the Department of Mathematics and Statistics or the Department of Physics and Physical Oceanography. At least 3 credit hours must be selected in each of Applied Mathematics and Physics.
11. A sufficient number of elective courses to bring the degree to a total of 120 credit hours.

The topic for the Honours project or thesis, Mathematics 419A/B or Physics 490A/B must be chosen with the prior approval of both departments.

4.1.3 Biochemistry and Cell Biology Joint Honours

Students must have at least an overall average of 65% in English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Biology 1001 and 1002, Chemistry 1050 and 1051 (or equivalent), Physics 1050 (or 1020) and 1051.

The following courses, including prerequisites where applicable, will be required.

1. Biochemistry 2101, 3105, 3106, 3107, 3108, either 4210 or 4211, 12 credit hours chosen from 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4230-4249.
2. Biology 2060, 2250, 2600, 2900, 3050 and 9 credit hours chosen from 3500, 3530, 3620, 4000, 4200, 4241. In addition, further Biology courses at the 2000, 3000, or 4000 level must be selected by the student to make up a minimum of 42 credit hours in Biology including Biology 1001 and 1002 but not including Biology 499A or 499B.
3. Either Medicine 310A/B, or Biology 3401 plus one of Biology 3402, 4245 or 4404.
4. Chemistry 2100, 2300 or 2301, 2400, 2401; either 3410 or 3411.
5. Statistics 2550 or equivalent.
6. An Honours Dissertation (Biology 499A/499B or Biochemistry 499A/499B).
7. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours Degree.

Note: *Students may count only one of the two courses, Biochemistry 4105 or Biology 4200, for credit in this program.*

The topic of the Honours dissertation must be chosen with the approval of both Departments. A faculty member of either Department may act as supervisor.

Seventy-eight credit hours in Biology, Biochemistry and Chemistry courses beyond the first-year level from those listed in the program shall contribute to those in which a grade of "B" or an average of 75 or higher is required. Medicine 310A/B counts as Biochemistry for these seventy-eight credit hours.

4.1.4 Biochemistry and Chemistry Joint Honours

The following courses (or their equivalents) are required:

1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and 1031) or their equivalents, Mathematics 1000 and 1001, Physics 1050 and 1051, 6 credit hours in first year English courses. Biology 1001 and 1002 are highly recommended.
2. Mathematics 2000 and 2050.
3. Chemistry 2100, 2210, 2300 or 2301, 2302, 2400, 2401, 3110, 3211, 3303, 3410, 3411, 3500, and 6 further credit hours in Chemistry courses at the 4000 level.
4. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B, either Biochemistry 4210 or 4211, 9 credit hours chosen from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4220, 4230-4249.

Note: *Only one of Biochemistry 4105, 4220 may be chosen.*

5. Either Chemistry 490A/B or Biochemistry 499A/B.
6. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours Degree. Physics 2820 and/or Physics 2750 are recommended.

4.1.5 Biochemistry and Physics Joint Honours

The following courses are required:

1. English 1080 and 1110 (or equivalent), Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031), Mathematics 1000 and 1001, Physics 1050 (or 1020) and 1051
2. Chemistry 2400, 2401.
3. Chemistry 2300 or 2301, or Physics 2053
4. Mathematics 2000, 2050, 3260, either Mathematics 3202 or Physics 3810.
5. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B; plus 9 credit hours in courses to be selected from Biochemistry 4002, 4101, 4102, 4103, 4104, 4200, 4201, and 4230-4249; plus a 3 credit hour course to be selected from Biochemistry 4210 or 4211.
6. Physics 2055, 2750 or 2056, 2820, 3220, 3400, 3500, 3750, 3820, 3900, 4820; plus one 4000 level Physics course.
7. One course to be selected from Physics 3150, 3300, 3751, 4400. Physics 3751 is recommended.
8. Either Physics 490A/B or Biochemistry 499A/B.
9. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours degree.

4.1.6 Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours

Note: Students completing this program cannot receive credit for Psychology 2920.

The following courses (or equivalent) are required to complete the 120 credit hours in courses required for the degree:

1. Chemistry 1050 and 1051 (or equivalent), Biology 1001 and 1002, Mathematics 1000 and 1001, Physics 1050 (or 1020) and 1051, English 1080 and 1110.
2. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B, either 4210 or 4211, 9 credit hours chosen from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4220, 4230-4249.

Note: Only one of 4105 and 4220 may be chosen.

3. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
4. Either Biochemistry 499A/B or Psychology 499A/B.
5. Chemistry 2300 or 2301, 2400, 2401.

Notes: 1. In accordance with Clause 6. a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, or an average of 75% or higher in all the required courses listed in Clauses 2., 3. and 4. above, except those at the 1000 level.
2. Students in first year intending to follow this program should note the regulations for admission to Major programs in Psychology and that the deadline for submission of a completed application form to the Psychology Department is June 1 for the Fall semester and October 1 for the Winter semester.

4.1.7 Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours

Note: Students completing this program cannot receive credit for Psychology 2920.

The following courses (or equivalent) are required:

1. Chemistry 1010 and 1011 (or 1050, 1051), Biology 1001 and 1002, Mathematics 1000, Physics 1020 or 1050, and 1021 (or 1051), English 1080 and 1110.
2. Biochemistry 2100, 2101, 2600, 3106, 3203, 4002, 4300, 4301, 4502, Medicine 310A/B; one course chosen from: Biochemistry 3105, 3107, 3108, 3202, 3402, 3600, 4101, 4103, 4104, 4105, 4200, 4201, 4210, 4211, 4220, 4230-4249, Biology 3050.
3. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900; two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
4. Either Biochemistry 499A/B or Psychology 499A/B.
5. Chemistry 2400, 2401 or Chemistry 2440.
6. Other courses to complete at least the prescribed minimum of 120 credit hours in courses for the Joint Honours Degree.

Notes: 1. In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, or an average of 75% or higher in all the required courses listed in Clauses 2., 3., and 4. above, except those at the 1000 level.
2. Students in first year intending to follow this program should note the regulations as outlined for admission to Major programs in Psychology and that the deadline for submission of a completed application form to the Psychology Department is June 1 for the Fall semester and October 1 for the Winter semester.

4.1.8 Biology and Earth Sciences Joint Honours

The following courses, including prerequisites where applicable, will be required:

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Biology 1001 and 1002, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or 1050 and 1051), Physics 1020 and 1021 (or 1050 and 1051).
2. Chemistry 2440, Biochemistry 2101, Biochemistry 3106, one of Statistics 2550, 2560 or 2510.
3. Biology 2060, 2250, 2600, 2900, one of 3401, 3402, 4245 or 4404; plus Biology 3710, 3711, and 4505. In addition, further Biology courses at the 2000, 3000, or 4000 level must be selected by the student in consultation with the supervisor to make up a minimum of 42 credit hours in Biology not including Biology 499A or 499B.
4. Earth Sciences 2030, 2031, 2502, 2905; plus a minimum of 24 credit hours in other Earth Science courses from 2000 to 4000 level, at least 3 credit hours of which must be at 4000 level. Earth Sciences 2150, 2914, 2915, 2916, 2917, 2918, 4310, and 4950 cannot be used to fulfill this requirement. Career-related streams outlined in the departmental Student Handbook should be used as a guide to course selection so as to achieve a concentration in one facet of Earth Sciences.
5. An Honours dissertation (Biology 499A/B or Earth Sciences 499A/B). The topic of the Honours dissertation must be chosen with the approval of both Department Heads. A faculty member of either Department may act as supervisor.
6. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Honours degree, with at least 84 credit hours in courses in Biology and Earth Sciences combined.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

4.1.9 Biology and Psychology Joint Honours

Note: Students completing this program cannot receive credit for Psychology 2920.

The following forty courses (or equivalent) are required:

1. Biology 1001, 1002, 2060, 2250, 2600, 2900; one of 3401, 3402, 4245, 4404; four Biology electives at the 2000, 3000 or 4000 level not including Biology 499A or 499B.
2. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3250, 3800 or 3801; 3900, 4910; one of the following: 3050, 3100, 3350, 3450, 3620, 3650; one further 4000 level Psychology research experience course.
3. Biology or Psychology 3750, 4701, 499A/B.
4. English 1080 and 1110; Mathematics 1000; Chemistry 1010 and 1011 (or 1050 and 1051), and 2440; Physics 1020 (or 1050) and 1021 (or 1051); Biochemistry 2101 and 3106.
5. Other courses, if necessary, to complete at least 120 credit hours of courses.

4.1.10 Biology and Psychology (Behavioural Neuroscience) Joint Honours

Note: Students completing this program cannot receive credit for Psychology 2920.

The following forty courses (or equivalent) are required:

1. Biology 1001, 1002, 2060, 2250, 2600, 2900; one of 3401, 3402, 4245, 4404; five Biology electives at the 2000, 3000 or 4000 level not including Biology 499A or 499B.
2. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900; two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
3. Biology or Psychology 499A/B.
4. Biochemistry 2101, 3106.
5. English 1080 and 1110; Mathematics 1000 and 1001; Physics 1020 or (1050) and 1021 or (1051); Chemistry 1010 and 1011 (or 1050 and 1051), and 2440 (or 2400 and 2401);
6. Other courses, if necessary, to complete at least 120 credit hours of courses.

Note: In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, OR average of 75% or higher in all the required courses listed in Clauses 1, 2, 3, and 4 above, except those at the 1000 level.

4.1.11 Biology and Statistics Joint Honours (B.Sc. Only)

See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following requirements:

1. Mathematics 1000 and Mathematics 1001, Biology 1001 and 1002, English 1080 and 1110, Chemistry 1010 and 1011 (or 1050 and 1051), Physics 1020 and 1021, or equivalent;
2. Mathematics 2000, 2050, 2051, Statistics 2500 or 2510, 2501 or 2560 or the former 2511, 3520, 3521, 3530, and 4581;
3. nine further credit hours in Statistics courses (excluding those with second digit 0) including at least 6 credit hours in courses at the 4000 level or higher but not including Statistics 4599;
4. Chemistry 2440 (or 2400 and 2401), Biochemistry 2101 and 3106, Computer Science 2602;
5. Biology 2060, 2250, 2600, 2900, one of 3401, 3402, 4245, or 4404. In addition, further Biology courses at the 2000, 3000 or 4000 level must be selected by the student in consultation with the supervisor to make up a minimum of 42 credit hours in Biology but not including Biology 499A or 499B.
6. Either Biology 499A/B or Statistics 4599.

4.1.12 Chemistry and Earth Sciences Joint Honours

The following courses, including prerequisites, where applicable, will be required:

1. English 1080 and 1110 (or equivalents), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents, Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2030, 2031, 2401, 2502, 2702, 2905, 3420, 3600; plus 6 additional credit hours in 3000-level Earth Sciences courses, and 9 additional credit hours in 4000-level Earth Sciences courses.
3. Chemistry 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3500; plus 3211, 3303, 3410, and 3411 with the option of substituting up to 6 credit hours of these 3000-level courses with 4000-level Chemistry courses; and at least 3 additional credit hours in 4000-level Chemistry courses.
4. Mathematics 2000 and 2050.
5. Biology 2120 (or Biology 1001 and 1002) or Biochemistry 2101.
6. An Honours Dissertation (Earth Sciences 499A/B or Chemistry 490A/B). The topic of the Honours Dissertation must have the prior approval of the Heads of the two Departments. A faculty member of either Department may act as supervisor.
7. Other courses to complete the prescribed minimum of 120 credit hours.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

4.1.13 Chemistry and Physics Joint Honours

The following courses are prescribed:

1. Mathematics 1000, 1001, 2000, 2050, and 3260.
2. Physics 1050 (or 1020) and 1051.
3. A minimum of 45 additional credit hours in Physics courses, which shall include Physics 2055, 2750 or 2056, 2820, 3220, 3230, 3500, 3750, 3820, 3900, 4820 and 3 credit hours in a Physics course numbered 3000 or higher and 12 credit hours in Physics courses numbered 4000 or higher.
4. Physics 3810 or Mathematics 3202.
5. Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and 1031) or (Chemistry 1200 and 1001), 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3211, 3303, 3410, 3500, 4303 and 4304 and 6 additional credit hours in Chemistry courses numbered 3000 or higher.

6. The courses selected in accordance with 3. and 5. above shall include Chemistry 490A/B or Physics 490A/B.
 7. Six credit hours in English. English 1110 is recommended.
- The topic for the Honours thesis, Chemistry 490A/B or Physics 490A/B, must be chosen with the prior approval of both Departments.

4.1.14 Computer Science and Geography Joint Honours (B.Sc. Only)

1. Computer Science Requirements

See **Regulations for the Honours Degree of Bachelor of Science**.

Forty-eight credit hours in Computer Science courses are required for the Joint Honours:

- a. 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4751, 4770.
- b. Six additional credit hours in courses at the 4000 level not including 4780.
- c. Three additional credit hours in courses at the 3000 level or beyond.

2. Geography Requirements

Forty-eight credit hours in Geography courses are required for the Joint Honours: 1050, 2001, 2102, 2195, 2226, 2302, 2425, 3202, 3222, 3226, 3250, 3260, 3303, 4202, 4250, 4261, and the former 4291.

3. Additional Requirements

- a. Mathematics 2000, 2050, and 2320.
- b. An Honours Dissertation (either Computer Science 4780 or Geography 4999). The topic for dissertation must be chosen with the prior approval of the Heads of both Departments.

4.1.15 Computer Science and Physics Joint Honours

The following courses are prescribed:

1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
2. a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.
b. Nine additional credit hours in Computer Science courses numbered 3000 or higher, including at least 6 credit hours in courses numbered 4000 or higher.
3. a. Physics 1050 (or 1020) and 1051.
b. Physics 2053, 2055, 2750 or 2056, 2820, 3220, 3400, 3500, 3750, 3820, 4500, 4820 and 3230 or 3900.
4. Physics 490A/B or Computer Science 4780.
5. Physics 3810 or Mathematics 3202.
6. a. Mathematics 1000 and 1001.
b. Mathematics 2000, 2050, 2320 and 3260

Statistics 2510 is recommended.

The topic for the Honours project or thesis, Computer Science 4780 or Physics 490A/B, must be chosen with the prior approval of both Departments.

4.1.16 Computer Science and Pure Mathematics Joint Honours (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following:

At least 51 credit hours in Computer Science courses are required including the following:

1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770.
2. Excluding 4780, 15 additional credit hours from courses numbered 3000 or higher, at least 9 credit hours of which must be in courses at the 4000 level.

The following courses in Mathematics and Statistics are required:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2320, 3000, 3001, 3202, 3210, 3260, 3320, 3340, Statistics 2510;
2. Either Mathematics 4000 or 4001;
3. Excluding Mathematics 4399, 15 additional credit hours in courses offered by the Department of Mathematics and Statistics numbered 3000 or higher including at least 9 credit hours from courses numbered 4000 or higher and at least 9 credit hours in Pure Mathematics courses;
4. An Honours Dissertation in one of the departments, with the topic chosen in consultation with both departments.

Note: There is an Undergraduate Advisor in each Department. These advisors should be consulted on all academic matters.

4.1.17 Computer Science and Statistics Joint Honours (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**. In addition to Mathematics 1000 and 1001 the following courses numbered 2000 or higher are required:

1. Mathematics 2000, 2050, 2051, 2320, 3340, Statistics 3410, 3411, 3520, 3521, 3530, 3540, 4590;
2. Twenty-four further credit hours in Statistics courses including at least 12 credit hours in courses numbered 4000 or higher, but not including Statistics 4599 and 4581;
3. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4734, 4770.
4. Six additional credit hours in Computer Science courses at the 4000 level, not including 4780.
5. Either Computer Science 4780 or Statistics 4599.

4.1.18 Earth Sciences and Geography Joint Honours (B.Sc. Only)

The following courses will be required. A few prerequisites are not met by this list of courses, and students are advised to obtain advice from instructors in such cases to be sure that they are prepared for course material. Both departmental Heads can advise students on a workable sequencing of courses to complete the degree in a timely manner, and students should view a student handbook that describes thematic streams within the program and offers specific guidance about course selection.

1. English 1080 or equivalent, English 1110 or equivalent, Geography 1050, Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, one of Chemistry 1010 or 1050 (or equivalent) and one of Chemistry 1011 or 1051 (or equivalent), Physics 1050 and 1051, or Physics 1020 and 1021.
2. Geography 2001 or 2302, and Geography 2102, 2195, 2226, 2425 and 3226, Earth Sciences 2401 or 2502, and Earth Sciences 2030, 2031, 2702 and 2905.
3. Mathematics 2000 or Statistics 2510 or Geography 3222, Biology 1001 and 1002, or Biology 2120 or Physics 2055.
4. Either Earth Sciences 499A and 499B, or Geography 4990 and Geography 4999.
5. At least an additional 40 credit hours from Earth Sciences and Geography, with a minimum of 16 credit hours from Earth Sciences and 18 credit hours from Geography; and a minimum of 9 credit hours at the 4000-level in each discipline. Earth Sciences 2150, 2914, 2915, 2916, 2917, 2918, 4310, and 4950 cannot be used to fulfill this requirement. Geography 2105, 2290, 2405, 2460 and 2495 cannot be used to fulfill this requirement.
6. Additional credit hours selected to conform to the **Regulations for the Honours Degree of Bachelor of Science** so as to achieve a total of 120 credit hours.

Notes: 1. *The topic of the Honours dissertation must be chosen with the approval of both Departments. A faculty member of either Department may act as supervisor.*
 2. *Any change in the program of study must have the prior approval of the Heads of both Departments concerned.*
 3. *The number of specified courses means that English 1110 will be taken normally in the second or third year of the program.*
 4. *Students who do not satisfy the **Regulations for the Honours Degree of Bachelor of Science - Academic Standing**, but who successfully complete all the courses, with the exception of the Honours dissertation, and who satisfy all other requirements for the Bachelor of Science, will be eligible to receive a Bachelor of Science with a joint major in Geography and Earth Science.*

4.1.19 Earth Sciences and Physics Joint Honours

This program was formerly in the Earth Sciences section of the calendar as an Honours B.Sc. Degree in Geophysics. The following courses will be required:

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or equivalent), Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2030, 2401, 2502, 2702, 2905, 3170, 3172, 3420, 3905, 4171, 4173, 4179.
3. Physics 2055, 2750 or 2056, 2820, 3220, 3230, 3500, 3820, 4820; plus 9 other credit hours in Physics courses at 3000 level or higher.
4. Mathematics 2000, 2050, 3202, and 3260.
5. Either Earth Sciences 499A/B or Physics 490A/B.
6. Other courses to complete at least a minimum of 120 credit hours.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

4.1.20 Geophysics and Physical Oceanography Joint Honours

The program requires the following courses:

1. English 1080 and 1110 (or equivalent), Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2905, 3170, 3172, 4105, 4171, 4173, 4179 and 10 credit hours at the 2000 level or higher with at least 3 credit hours at the 3000 level.
3. Physics 2053, 2055, 2820, 3220, 3300, 3500, 3820, 4205, 4300, 4330, 4820 plus one of Physics 3600, 3150, 3400, 3550 or 3900.
4. Mathematics 2000, 2050, 2051, 3202 and 3260.
5. Either Earth Sciences 499A and 499B or Physics 490A and 490B.
6. Other courses to complete the prescribed minimum of 120 credit hours.

4.1.21 Pure Mathematics and Statistics Joint Honours

See **Regulations for the Honours Degree of Bachelor of Science**. In addition to Mathematics 1000 and 1001 the following courses numbered 2000 or higher are required:

1. Mathematics 2000, 2050, 2051, 2130, 2320, 3000, 3001, 3202, 3210, 3260, 4000, Statistics 3410, 3411, 3520, 3521, 3530, 4401, 4410;
2. A computing course early in the program is required. Computer Science 1510 is highly recommended;
3. either Mathematics 4399 or Statistics 4599;
4. one of: Mathematics 3330 or 3340;
5. Twenty-one further credit hours in Pure Mathematics and/or Statistics courses numbered 3000 or higher of which at least 12 credit hours must be from courses numbered 4000 or higher excluding Statistics 4581.

4.2 Joint Majors

4.2.1 Applied Mathematics and Computer Science Joint Major (B.Sc. Only)

The following courses are required

1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, plus 6 further credit hours in Computer Science courses numbered 3000 or higher.
2. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2320, 3000, 3100, 3132, 3161, 3202, 3260, 4160, 4190, plus one of Mathematics 3210, 4131, 4132, 4162.

In addition, Statistics 2510 is highly recommended.

4.2.2 Applied Mathematics and Economics Joint Major (B.Sc. Only)

1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 3000, 3100, 3202, 3260, 4132, Statistics 2510.
2. Either Mathematics 3132 and 4131 or 3161 and 4160.

3. A computing course early in the program is required. Computer Science 1510 is highly recommended.
4. Economics: 2010, 2020, 2550, 3000, 3001, 3010, 4550, 4551.
5. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

4.2.3 Applied Mathematics and Physics Joint Major (B.Sc. Only)

Required course for this degree are:

1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
3. Six credit hours in science other than Mathematics or Physics (if Computer Science is chosen then Computer Science 1510 may be counted as 3 of these hours).
4. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, 3132, 3202, 3260.
5. At least one of Mathematics 2130 or Mathematics 2320.
6. Physics 1050 (or 1020), 1051, 2053, 2055, 2750 (or 2056), 2820, 3220, 3400, 3500, 3750.
7. Mathematics 3161 or Physics 3820.
8. At least 15 additional credit hours chosen from Applied Mathematics and Physics courses numbered 3000 or above. At least 3 hours are required from Applied Mathematics and 6 hours are required from Physics.
9. A writing course. Any one of Mathematics 2130, Physics 3900, Mathematics 419A/B, or Physics 490A/B is acceptable.

The last requirement does not have to be met independently of the other regulations. For example, it can be satisfied either by choosing Mathematics 2130 from clause 5. above or choosing Physics 3900 as a 3000+ elective in clause 8. above.

4.2.4 Computer Science and Economics Joint Major (B.Sc. Only)

1. Computer Science Requirements

Forty-two credit hours in Computer Science courses are required: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3753, 3754, and 4770.

2. Economics requirements

A total of 42 credit hours in Economics courses are required: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551 are obligatory.

The remaining 18 credit hours shall be chosen from among the various Economics courses in consultation with the Head of the Department or delegate, and will include at least 9 credit hours in courses at the 4000 level.

3. Additional Requirements: Mathematics 1000, 1001, 2000, 2050, 2320, and Statistics 2510.

4.2.5 Computer Science and Geography Joint Major (B.Sc. Only)

1. Computer Science Requirements

Thirty-nine credit hours in Computer Science courses are required: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4751, and 4770.

2. Geography Requirements

Thirty-nine credit hours in Geography courses are required: 1050, 2001, 2102, 2195, 2302, 2425, 3202, 3222, 3250, 3260, 4202, 4250, 4261.

3. Additional Requirements: Mathematics 2000, 2050, and 2320.

4.2.6 Computer Science and Physics Joint Major

1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
2. Thirty-nine credit hours in Computer Science are required for the Joint Major: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.
3. Physics 1050 (or 1020) and 1051 plus at least 30 additional credit hours in Physics including 2053, 2055, 2750 (or 2056), 2820, 3220, 3400, 3500, 3550, 3750, 3900.
4.
 - a. Mathematics 1000 and 1001.
 - b. Mathematics 2000, 2050, 2320, 3260, and Statistics 2510
 - c. Physics 3810 or Mathematics 3202.

4.2.7 Computer Science and Pure Mathematics Joint Major (B.Sc. Only)

In addition to Mathematics 1000, 1001, and Computer Science 1710, the following courses numbered 2000 or higher are required:

1. 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770.
2. Six additional credit hours in Computer Science courses numbered 3000 or higher.
3. Mathematics 2000, 2050, 2051, 2130, 2320, 3000, 3202, 3260, 3320, 3340, and Statistics 2510.
4. Nine additional credit hours in courses numbered 3000 or higher offered by the Department of Mathematics and Statistics.

4.2.8 Computer Science and Statistics Joint Major (B.Sc. Only)

In addition to Mathematics 1000, 1001, and Computer Science 1710, the following courses numbered 2000 or higher are required:

1. 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4734, 4770.
2. Statistics 2510 and 2560.
3. Mathematics 2000, 2050, 2051, 2320, 3340, Statistics 3410, 3411, 3520, 3521, 3540, 4590.
4. nine further credit hours in Statistics courses numbered 3000 or higher including at least a 3 credit hour course numbered 4000 or higher excluding Statistics 4581.

4.2.9 Earth Sciences and Physics Joint Major

This program was formerly in the Earth Sciences section of the calendar as a General B.Sc. Degree in Geophysics. The following courses will be required:

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or equivalent), Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2030, 2401, 2502, 2702, 2905, 3170, 3172, 3420, 3905; plus a 3 credit hour course in Earth Sciences 4100 series.
3. at least 30 credit hours in Physics courses at the 2000 level or higher, including Physics 2055, 2056 or 2750, 2820, 3220, 3500.
4. Mathematics 2000, 2050 and 3202.
5. Other courses to complete at least a minimum requirement of 120 credit hours in courses for the General Degree.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

4.2.10 Economics and Pure Mathematics Joint Major (B.Sc. Only)

1. Mathematics 1000, 1001, 2000, 2050, 2130, 2320, 3000, 3100, 3202, 3260, 3320, Statistics 2510 and one 4000 level Mathematics course.
2. A computing course early in the program is required. Computer Science 1510 is highly recommended.
3. Economics: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551.
4. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

4.2.11 Economics and Statistics Joint Major (B.Sc. Only)

1. Mathematics 1000, 1001, 2000, 2050, 2051, Statistics 2510, 2560, 3410, 3411, 3520, 3540, 4590.
2. Six further credit hours in Statistics courses numbered 3000 or higher, at least 3 credit hours of which must be numbered 4000 or higher, excluding Statistics 3521 and 4581.
3. Economics: 2010, 2020, 2550, 3000, 3001, 3010, 4550, 4551.
4. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

4.2.12 Economics (Co-operative) and Statistics Joint Major (B.Sc. Only)

The Joint Major in Economics (Co-operative) and Statistics Option is available to full-time Economics and Statistics majors (B. Sc.) only. The program is available under the Economics Co-operative Education Option (ECEO)

The ECEO provides an excellent mutual opportunity for students and employers. Qualified students will obtain rewarding employment experience in fields related to Economics for several months of continuous duration. Students will learn valuable practical skills in an employment situation during their course of study. Furthermore, paid employment will help to defray the cost of their education. The timing of the Work Terms and the structure of the ECEO generally are such that employers stand to gain from the acquired employable skills of economists and statisticians in training. The objectives of the Work Term component of the ECEO are embodied in the Work Term descriptions below. The descriptions serve to guide the student and the employer toward achieving these objectives.

1. Admission Requirements

- a. Admission is competitive and selective. Therefore, prospective students are encouraged to consider an alternate degree program in the event that they are not accepted into the Joint Co-operative program.
- b. Applicants should note that it is possible to enter Term 1 only in the Fall semester commencing in September of each academic year. Application forms are available in the Department of Economics and the Department of Mathematics and Statistics. The deadline for applications for admission to Term 1 is March 1.
- c. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with weak overall academic records are unlikely to be admitted.
- d. To be eligible for admission to Term 1 an applicant must have successfully completed a minimum of 30 credit hours with an overall average of at least 65% as follows: All applicants must have completed Economics 2010 and 2020; at least 6 credit hours in English; Mathematics 1000 and 1001; and 12 credit hours chosen from courses in the Faculties of Arts or Science.
It is recommended that students complete English 1110. Critical Reading and Writing II (Context, Substance, Style) as one of these English courses.
- e. Students may apply for admission to Advanced Standing.
- f. Transfer students from other universities will be placed in that term of the program judged to be appropriate considering equivalent credits, as determined by the Departments.

2. Program of Study

- a. Promotion from each of Terms 1 through 6 requires a passing grade in all specified required courses and an overall average of at least 60% in all courses including electives. A student who fails a required course or fails to maintain an overall average of 60% will not be promoted to the next term and will be required to withdraw from the program. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the 60% average.
- b. In addition to the 30 credit hours required for admission, students are required to complete the six academic terms in the ECEO program for a total of 120 credit hours. Students must complete three Work Terms which follow Academic Terms 2, 4, and 5.
- c. Courses shall normally be taken in academic terms or "blocks" in the sequenced course load and order set out in the **Academic Course Program - Economics (Co-operative) and Statistics Joint Major (B.Sc. Only) Table**. Unspecified credits may be used to fulfill elective requirements only.
- d. **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Classification of Students** notwithstanding, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

3. Work Term Placement

See Regulations in Economics for the Major in Economics (Co-operative), in the Faculty of Arts section of the Calendar.

4. Registration and Evaluation of Performance

See Regulations in Economics for the Major in Economics (Co-operative), in the Faculty of Arts section of the Calendar.

Academic Course Program - Economics (Co-operative) and Statistics Joint Major (B.Sc. Only) Table

Term 1 (Fall) Economics 3000 Economics 3550 Statistics 2510 Mathematics 2000 Computer Science 1700	Term 3 (Fall) Economics 4550 Mathematics 2051 Statistics 3410 Three further credit hours in Statistics courses Three credit hours in elective courses [see Note 2]	Term 5 (Fall) Statistics 3520 Statistics 4590 Six further credit hours in Economics courses Three further credit hours in Statistics courses
Term 2 (Winter) Economics 2550 Economics 3001 Economics 3010 Mathematics 2050 Statistics 2560	Term 4 (Winter) Economics 3011 Economics 4120 Economics 4551 Statistics 3411 Statistics 3540	Work Term III (Winter) Economics 499W
Work Term I (Spring) Economics 299W	Work Term II (Spring) Economics 399W	Term 6 (Spring) Three further credit hours in Economics courses Three credit hours in Science courses [see Note 2] Nine credit hours in elective courses [see Note 2]

Notes: 1. Another 1000-level Computer Science course may be substituted for Computer Science 1700 with the Heads' approvals.
2. Elective courses should be chosen with reference to the Regulations for the General Degree of Bachelor of Science, since courses specified for admission to and completion of the program only partially satisfy these regulations. In particular note that in addition to the 78 credit hours (26 courses) in Science subjects required, at least 3 credit hours in a Science subject other than Mathematics/Statistics, Economics and Computer Science must be completed.

4.3 Option Programs**4.3.1 Physics and Chemistry Option Programs**

Students who follow the five-year Physics/Chemistry Joint Honours Program of courses outlined above either as Honours students or otherwise and who satisfy all relevant course regulations except those on Academic Standing for the Honours Degree of Bachelor of Science shall receive on their University records a notation that they followed the "Physics/Chemistry" Option Programs.

Students who intend to follow a joint degree program are strongly recommended to consult the Head of the Department or delegate at their earliest opportunity to ensure proper planning of their course sequence.

5 Degree Regulations

Students must meet all regulations of the Faculty of Science in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

5.1 Admission to the Department of Subject of Major

Admission to certain major programs within the Faculty is limited and competitive.

Admission to all major programs within the Faculty is upon formal application to the department of the subject of major after completion of the admission requirements.

Unless otherwise indicated by the Departmental Admission Regulations as published in the University Calendar under departmental regulations, students upon formal application by *Change of Academic Program Form*, are normally admitted to the department of major program upon successful completion of 30 credit hours which must include:

1. 6 credit hours in English courses
2. 6 credit hours in Mathematics courses
3. 6 credit hours in courses from each of two Sciences other than Mathematics

Students seeking admission to departments with Departmental Admission Regulations as indicated above must apply for admission on the appropriate Departmental Application for Admission Form upon completion of the specified admission requirements.

5.2 Limited Enrolment Courses

Certain course offerings in the Faculty of Science will be identified as being Limited Enrolment Courses and will be clearly identified as such in the University Timetable. Students who have registered for a Limited Enrolment Course must confirm their registration either (1) by attending at least one of the first three hours of lecture in the course and the first meeting of any laboratory section of the course; or (2) by notifying the department in writing within the first five university working days of the semester. Students who do not confirm their registration may be dropped from the course on the recommendation of the Head of Department.

5.3 Regulations to Govern Supplementary Examinations in the Departments of Biochemistry, Computer Science, Mathematics and Statistics, and Physics and Physical Oceanography

1. Supplementary examinations will be allowed in certain of the Biochemistry, Computer Science, and Physics and Physical Oceanography courses, and all Mathematics and Statistics courses which have written final examinations. In each course, students will be informed as to the possibility of a supplementary examination during the first week of classes. This information will be

provided in writing, as part of the evaluation scheme for the course.

2. Supplementary examinations will be similar in length and degree of difficulty as the original final examination.
3. Students who wish to write supplementary examinations must apply in writing to the department within one week of release of grades.
4. A student who has clear or conditional standing may write a supplementary examination in a course if the final grade obtained is 45-49F and if his or her term mark is at least 50%.
5. In order to pass the course, the student, must pass the supplementary examination. If the student passes the supplementary examination, then a new grade will be calculated using the same weighting scheme as used in the course, but with the result of the supplementary examination replacing that of the original final examination. Any additional course requirements, including a requirement to pass the laboratory component of a course, will continue to apply.
6. If the new course grade is higher than the original, it will replace the original grade on the student's transcript, subject to the condition that the final mark will not exceed the student's term mark. The student's transcript will indicate that the course result was earned as the result of a supplementary examination.
7. Supplementary examinations will be written no later than the first week of the semester immediately following the one in which the course was failed. Normally they will coincide with the writing of deferred examinations. Grades for supplementary examinations will be submitted to the Office of the Registrar within one week following the commencement of classes for that semester.
8. A student may write a supplementary examination for any one registration in a course only once; if the course result following the supplementary examination is a fail then the course must be repeated in order to obtain credit.

5.4 Regulations for the General Degree of Bachelor of Science

1. For the General Degree of Bachelor of Science a candidate will be required to complete, subject to the following Regulations, 120 credit hours applicable to the degree which shall include:
 - a. Six credit hours in English courses
 - b. Six credit hours in Mathematics courses
 - c. Six credit hours in courses from each of two Sciences other than Mathematics
2. a. Courses shall be chosen so that a candidate shall have completed an approved concentration of courses in one subject to be known as the candidate's Major. For the purposes of these regulations, candidates may complete only one major from departments which offer more than one. In selecting courses in their Major, candidates must comply with the Departmental Regulations approved by the Senate and printed in the Calendar. The Departmental Regulations shall require not fewer than 36 nor more than 45 credit hours in courses from the subject of the Major (including the courses in that subject completed at the first year level). (See also Notes 1. and 2.).
 - b. The subject of the candidate's major shall be that declared by the candidate on the appropriate admission form and approved by the department at the time of admission.
 - c. The 36 or more credit hours in courses from one subject referred to in a. above, may be chosen from the following subjects, and may include courses in that subject which were completed at first-year level: Biology (see Note 4.), Biochemistry (see Note 6.), Chemistry, Computer Science, Earth Sciences, Economics, Geography, Mathematics (except the former 1150 and 1151) and Statistics, Physics, Psychology.
 - d. A candidate may change the subject of the Major during any Regular Registration Period provided he or she has first applied for and received acceptance by the department to which application is being made.
 - e. In those Departments which offer programs leading to both a degree of Bachelor of Arts and a degree of Bachelor of Science, students are free to choose the degree program they wish to follow and may change from one to the other; however, they may not obtain both degrees in the same Major subject at this University.
3. Further courses may be chosen from any of the subjects listed in Clause 2. above, or from other courses approved by the Committee on Undergraduate Studies of the Faculty of Science (see Note 5.), provided that, of the 120 credit hours required:
 - a. candidate shall have completed at least 78 credit hours in courses from the subjects listed in Clause 2. above, including the Major courses and the courses required for admission; See Notes 3. and 5.
 - b. there shall be not fewer than five subjects in which a candidate shall have completed courses. At least four of these subjects shall be chosen from the subjects listed in Clause 2. above. In the case of unspecified transfer credits awarded in a subject area not taught at Memorial University of Newfoundland any number of such transfer credits in the aggregate shall count as one subject area.
 - c. not more than 15 unspecified transfer credit hours awarded in a subject area not taught at Memorial University of Newfoundland shall be used to satisfy the requirements of the degree.
4. Before a candidate registers, the Head of the Department of his or her Major, or delegate, shall approve a candidate's program which is in accordance with the above regulations. The Head of the Department or delegate shall advise each candidate of programs suitable for his or her particular needs.
5. To obtain a general degree of Bachelor of Science a candidate shall have:
 - a. satisfied the conditions of **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Graduation - Application for Graduation - Degrees, Diplomas and Certificates;**
 - b. obtained an average of at least 2.0 points per credit hour in the 78 credit hours in Science required for the degree;
 - c. obtained an average of at least 2.0 points per credit hour in the minimum number of credit hours in the major subject (or, in the case of joint majors, subjects) required for the major program (or, in the case of joint majors, programs).
6. Where a student satisfies the separate departmental regulations for a major in two or more subjects for which a specific joint program does not exist, such subjects shall be recognized as the major subjects for the general degree of Bachelor of Science.
7. A candidate may complete a minor of at least 24 credit hours in courses from a subject area other than that of the Major chosen from Clause 2. c. above or from minors available in the Faculty of Arts, the Faculty of Business Administration, and the School of Music. (It should be noted that because of departmental regulations for the Major, not every candidate may be able to fit a minor into his or her 120 credit hour program).
 - a. The subject of the candidate's minor shall be that declared by the candidate on the Change of Academic Program Form which must then be signed by the Head of the Department of the Minor.
 - b. A candidate must follow the departmental regulations for the Minor as set forth in the appropriate section of the Calendar.
 - c. The Head of the Department of the Minor will advise the candidate on the selection of courses in the Minor.

- d. Students who have taken courses appropriate to their Minor at another university are required to complete at least 6 credit hours in courses from that subject at this University. These courses must be chosen in consultation with the Head of the Department of the Minor program.
- e. A candidate must obtain a grade point average of at least 2.0 in the credit hours prescribed for the minor program.

Notes: 1. *Departmental regulations are not intended to debar students from taking more than the required courses in the subject of their Major.*
 2. *Students who have taken courses in the subject of their Major at another university are required to complete at least 12 credit hours in courses from that subject at this University.*
 3. *The former Science 2010/2011 may be used to fulfil in part the requirement of 78 credit hours in Science.*
 4. *Biology 2120 may not be used for credit by Biology Majors.*
 5. *When Science course equivalents have been established by Department Heads for Engineering courses, credit may not be obtained for both the Engineering course and the established equivalent course offered by the Faculty of Science.*
 6. *In the case of Biochemistry the courses for the Biochemistry program shall include Chemistry 2400 and 2401.*

5.5 Regulations for the Honours Degree of Bachelor of Science

A program is offered leading to the Honours Degree of Bachelor of Science. An Honours degree offers greater specialization in a given field of knowledge than a General degree, and requires higher than average academic achievement. Possession of this degree will be of great advantage to all students planning more advanced work in their chosen field. In many cases, an Honours degree is a prerequisite for admission to a graduate program.

5.5.1 Admission and Registration

1. Declaration of Intent: A candidate for an Honours degree shall declare in writing his (her) intention to pursue an Honours program and to obtain an Honours degree in a specified subject or subjects. Such declaration shall be submitted to his (her) Department(s) of specialization and to the Registrar not earlier than the beginning of his (her) fifth semester, or the equivalent, at University, and not later than the final date set for the application for a degree. A candidate for an Honours degree must have completed all courses listed under **Admission to the Department of Subject of Major** before declaring his (her) intent to pursue an Honours degree, regardless of whether these courses had been completed at the time of admission to his (her) Department of specialization.

Note: *An otherwise qualified student who fails to declare his (her) intention to obtain an Honours degree on or before the last day of the period outlined above shall be awarded a General degree even if he (she) fulfils all other requirements for an Honours degree. The University cannot undertake to notify him (her) that he (she) may be eligible for an Honours degree.*

2. At the beginning of each registration period the Head(s), or delegate(s), of the Department(s) in which a candidate is taking Honours, shall approve a candidate's program. The Head(s) of Department(s), or delegate(s), shall advise each candidate of programs suitable for his or her particular needs.
3. Students who have been awarded a Bachelor of Science (General) degree may convert it to a Bachelor of Science (Honours) degree by declaring their intention and by completing the requirements for the Honours degree as outlined in these regulations.
4. To graduate, a candidate for an Honours degree must have completed all courses listed under **Admission to the Department of Subject of Major** in addition to those courses required by individual departmental regulations.

5.5.2 Course Requirements

1. a. For the Honours Degree of Bachelor of Science with a single subject major a candidate will be required to have completed 120 prescribed credit hours in courses. For the Joint Honours Degree of Bachelor of Science a candidate will be required to have completed either 120 or 135 credit hours as prescribed by the specific program. In either case, those courses must include the courses specified in **Clause 1. of the Regulations for the General Degree of Bachelor of Science**.
- b. Clause 1.a. notwithstanding, certain Departmental regulations preclude the possibility of completing a single subject Honours degree in 120 credit hours and may require the completion of 123, 126 or 129 credit hours in courses. (See Note below). In such cases all courses required to satisfy requirements of the degree will be used to determine **Academic Standing**, 2. below.

Note: *The requirements for an Honours Degree of Bachelor of Science cannot be completed in 120 credit hours if any of the following three statements is true: (i) the student is a major in Chemistry, or Physics and has completed the former Mathematics 1080; (ii) the student is a major in Chemistry or Physics and has completed the former Chemistry 1800; (iii) the student is a candidate for the Honours B.Sc degree in Chemistry or Physics and has completed Physics 1021. Such students will only meet the degree requirements after completing 123, 126 or 129 credit hours in courses.*

2. Courses shall be chosen so that a candidate shall have completed:

Either, (i) at least 60 credit hours from courses in one of the following subjects, including the courses in that subject completed at the first year level: Biology, Biochemistry, Chemistry, Computer Science (See Note 2.), Earth Sciences, Economics, Geography, Mathematics and Statistics, Physics and Psychology.

Notes: 1. *For options in the Biochemistry and Nutrition programs the courses shall be those specified in the respective programs.*

2. *For the Behavioural Neuroscience Program, the courses shall be those specified in the program.*

3. *For the Environmental Physics Program, the courses shall be those specified in the program.*

or, (ii) at least 84 credit hours in courses from two subjects listed in (i) above, including the courses in these subjects completed at the first year level, with no fewer than 36 credit hours in either subject approved by the Committee on Undergraduate Studies of the Faculty of Science on the recommendation of the respective Heads of Departments.

or, (iii) in special circumstances, a program of at least 90 credit hours in courses from two or more subjects, including the courses in these subjects completed at the first year level, one of which need not be taken from those listed in i. above, as recommended by the Heads of the Departments concerned and approved by the Committee on Undergraduate Studies of the Faculty of Science.

3. Further courses may be chosen from any of the subjects listed in Clause 2. above, or from other courses recognized for this purpose by the Committee on Undergraduate Studies of the Faculty of Science (see Note 5 of the Bachelor of Science General Degree) provided that, of the 120 or more credit hours required:
 - a. a candidate shall have completed at least 90 credit hours in courses from the subjects listed in Clause 2. above, including those completed at the first-year level, and
 - b. there shall be no fewer than four subjects in which a candidate shall have completed courses. In the case of unspecified transfer credits awarded in a subject area not taught at Memorial University of Newfoundland, any number of such transfer credits in the aggregate shall count as one subject area.
 - c. Not more than 15 unspecified transfer credit hours in courses awarded from a subject area not taught at Memorial University of Newfoundland shall be used to satisfy the requirements of the degree.

5.5.3 Comprehensive Examination and Dissertation

1. In addition to the regular examinations, a candidate in an Honours program shall pass a general comprehensive examination in his (her) Major subject or subjects. Alternatively, a candidate may be required to submit a dissertation, which at the discretion of the Head(s) of the Department(s) of specialization may be followed by an oral examination thereon.
2. If a candidate is required to submit a dissertation, such dissertation must be submitted to the University Library before the degree is conferred. All Honours dissertations in the University Library shall be available for unrestricted consultation by students and faculty except under very exceptional circumstances which must be approved by the Committee on Undergraduate Studies. Copyright remains with the author. A release form, signed by both the student and the head of the academic unit of the student's program, must accompany an essay or a dissertation when it is submitted to the University Library.
3. The deadline for the submission of Honours dissertations shall be no later than three weeks before the end of the final semester of the candidate's program.
4. The Honours dissertation shall be equivalent to either a 3 credit hour course or a 6 credit hour linked course as specified in the course offerings of each Department.

5.5.4 Departmental Regulations

Candidates for Honours Degrees shall also comply with such additional requirements of the appropriate Department(s) as are approved by the Senate and printed in the Calendar.

5.5.5 Residence Requirements

1. To qualify for an Honours Degree in Science, a candidate shall attend a recognized university or an equivalent institution for at least seven semesters as a full-time student. Honours candidates transferring credits to Memorial University of Newfoundland from other universities or equivalent institutions shall either spend a minimum of four of the seven semesters as full-time students at Memorial University of Newfoundland, and take a minimum of 24 credit hours in courses from their Honours discipline or take a minimum of 36 credit hours in courses from their Honours discipline as full-time students at Memorial University of Newfoundland (whichever is to their advantage), provided that the total number of semesters spent as full-time students at this and other recognized universities or equivalent institutions will not be less than seven.
2. To qualify for an Honours Degree in Science and additionally a second degree, a candidate shall attend this University for at least ten semesters as a full-time student, except with the special permission of the Faculty Committee on Undergraduate Studies.

5.5.6 Academic Standing

In order to graduate with an Honours degree, a candidate shall obtain:

1. a grade of "B" or better, OR an average of 75% or higher (whichever is to the candidate's advantage) in the minimum number of courses in the Honours subject (or subjects) prescribed by the Department (or, in the case of joint Honours, Departments) concerned, excluding the 1000-level courses, and
2. an average of at least 2.75 points on the total number of courses required for the degree (see **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Grading** for explanation of the point system).

Note: A student may, with the approval of the Head of the Department and the Committee on Undergraduate Studies, repeat or substitute up to three courses in order to meet the requirements of Clause 1. above. In counting repeats, each attempt at the same course will count as one course towards the maximum. That is, the same course, repeated three times, would place a student at the maximum and no additional repeats or substitutions would be allowed.

5.5.7 Classification of Degrees

1. If the candidate's general average is 3.25 or better per required course, and his (her) average for the courses in his (her) Honours subject (excluding 1000-level courses) is 3.50 or better, he (she) shall be awarded an Honours degree with First Class standing.
2. If the candidate fulfils the conditions outlined under **Academic Standing** but not of Clause 1. above., he (she) shall be awarded an Honours degree with Second Class standing.
3. No classification will be given to the degree awarded a candidate who has completed (i) fewer than one half of the courses required for the degree at this University, or (ii) who has completed fewer than one half of the courses required for the degree at this University since 1959. All candidates for such degrees shall, however, fulfil the conditions outlined under **Academic Standing** on the courses taken at the University since September, 1959, in order to qualify for the degree.
4. A declared candidate for an Honours degree who fails to attain the academic standing specified under **Academic Standing** but fulfills the academic requirements for a General Degree shall be awarded a General Degree, the classification of which shall be determined in accordance with the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Graduation**.

6 Waiver of Regulations for Undergraduate Students

Where circumstances warrant, any prerequisite or prerequisites listed in Departmental Regulations may be waived by the Head of the Department. Any Department Regulations may be waived by the appropriate Committee on Undergraduate Studies upon request of the Head of the Department concerned.

7 Program Regulations

7.1 Biochemistry

www.mun.ca/biochem/about_us/

The following undergraduate programs are available in the Department:

1. Biochemistry and Cell Biology/Microbiology Joint Honours
2. Biochemistry and Chemistry Joint Honours
3. Biochemistry and Physics Joint Honours
4. Biochemistry and Psychology (Behavioural Neuroscience Joint Honours)
5. Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours

6. Major or Honours in Biochemistry
7. Major or Honours in Nutrition
8. Minor in Biochemistry

Students who wish to enrol in any of these programs should plan their program well in advance so that they will have taken the appropriate prerequisites. Entry to a number of required courses is limited and will be determined by academic performance. Required courses should be taken in the year indicated by the course numbers so as to avoid timetable clashes and missing prerequisites which could prolong the time necessary to complete the program. Students are advised to consult with the Department at the earliest opportunity.

Candidates for the general and honours degrees in the programs above should refer to the Faculty of Science **Degree Regulations** for the **General** and **Honours** degrees of Bachelor of Science.

Candidates for a minor in Biochemistry should refer to the **Regulations for the General Degree of Bachelor of Science**, Clause 7.

Students who intend to pursue graduate studies should take the courses leading to the honours degree.

Biochemistry course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Biochemistry**.

Note: Supplementary examinations will be allowed in certain Biochemistry courses which have written final examinations. Students should refer to the Faculty of Science Degree Regulations for details.

7.1.1 Admission to Programs

Students who wish to declare a Major in Biochemistry or Biochemistry (Nutrition) or who wish to apply for Honours standing in any of our programs are strongly recommended to do so by May 31 in any year. Failure to apply by the recommended date may result in your application not being processed before your registration time. In addition, students who do not declare by this date may not be considered for departmental scholarships or other awards.

7.1.2 Major in Biochemistry

Entry to the Biochemistry Majors program is based on academic standing.

1. To be considered for admission to the program students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%. In addition, students must be eligible for entry to Chemistry 2400.
 - a. English 1080, 1110 (or equivalent)
 - b. Chemistry 1050, 1051 (or Chemistry 1010, 1011 or 1200, 1001)
 - c. Mathematics 1000, 1001 (or Mathematics 1090, 1000)
 - d. Physics 1050, 1051 (or Physics 1020, 1021), or Biology 1001, 1002
2. Required courses to complete the major:
 - a. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108.
 - b. At least 12 credit hours in courses from Biochemistry 2600, 3203, 4002, 4101, 4103, 4104, 4200, 4201, 4230-4239.
 - c. Medicine 310A/B or 6 credit hours from Biochemistry 4240-4249, Biology 2060, 3050, 3401, 3402, 3530, 4200, 4245, 4404, Chemistry 4201.
 - d. Biology 1001 and 1002; Mathematics 1001; and Physics 1020 or 1050, and 1051 for those students who did not complete them in first year. Students may also need to complete Physics 1021 in order to fulfil this requirement.
 - e. Chemistry 1031 is required for students who complete Chemistry 1010 and 1011. It is strongly recommended that these students complete Chemistry 1031 prior to second year. See Note 2 below.
 - f. Chemistry 2300 or 2301, or Physics 2053; Chemistry 2400, 2401
 - g. One of Chemistry 2100, Environmental Sciences 3210, Environmental Sciences 3211.

Notes: 1. Students are required to complete at least 78 credit hours in Science courses for the General Degree.

2. Majors who take Chemistry 1010/1011 but not Chemistry 1031 as part of their first year sequence risk waiting a whole year before they can continue taking Biochemistry program courses.

3. For the purposes of a Biochemistry degree, Medicine 310A/B count as Biochemistry courses.

3. Students are encouraged to choose a minor.

7.1.2.1 Honours Degree in Biochemistry

Students normally should apply for an Honours program at the completion of their third year of studies. Honours students would normally follow the Biochemistry Majors program before applying to honours, and must meet its admissions requirements as follows:

1. To be considered for admission to the majors program prior to admission to honours, students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%. In addition, students must be eligible for entry to Chemistry 2400.
 - a. English 1080, 1110 (or equivalent)
 - b. Chemistry 1050, 1051 (or Chemistry 1010, 1011, or 1200, 1001)
 - c. Mathematics 1000, 1001 (or Mathematics 1090, 1000)
 - d. Physics 1050, 1051 (or Physics 1020, 1021) or Biology 1001, 1002
2. To be eligible for admission, students must be in Honours standing. To be considered for early admission to an Honours program in Biochemistry at the end of second year, students must have achieved at least 70% in each of Biochemistry 2100 and 2101 and Chemistry 2400, 2401.
3. Required courses:
 - a. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, 4102, 499A, 499B, Medicine 310A/B.
 - b. Biochemistry 4210 or 4211.
 - c. Twelve credit hours in courses from Biochemistry 4002, 4101, 4103, 4104, 4200, 4201, 4230-4239.
 - d. At least 6 credit hours in courses from Biochemistry 2600, 3203, 4105, 4220, 4240-4249, Biology 2060, 3050, 3530, 4200, 4245, 4404, Chemistry 4201.
 - e. Biology 1001 and 1002; Mathematics 1001; and Physics 1020 or 1050, and 1051 for those students who did not complete them

in first year. Students may also need to complete Physics 1021 in order to fulfil this requirement.

- f. Chemistry 1031 is required for students who complete Chemistry 1010 and 1011. It is strongly recommended that these students complete Chemistry 1031 prior to second year. (see **Notes** below).
- g. Chemistry 2300 or 2301 or Physics 2053, Chemistry 2400, 2401, one of Chemistry 3410 or 3411.
- h. One of Chemistry 2100, Chemistry 3500, Environmental Sciences 3210, Environmental Sciences 3211.
- i. Statistics 2550 or equivalent.

Notes: 1. *Majors who take Chemistry 1010/1011 but not Chemistry 1031 as part of their first year sequence risk waiting a whole year before they can continue taking Biochemistry program courses.*

2. *For the purposes of a Honours Degree in Biochemistry, Medicine 310A/B count as Biochemistry courses.*

4. Students are encouraged to choose a minor.

Those courses in which a grade "B" or an average of 75% or higher are required, as specified under **Academic Standing**, clause 1. of the **Regulations for the Honours Degree of Bachelor of Science**, are 45 credit hours in Biochemistry courses and 15 credit hours in other courses (beyond the 1000-level) chosen from Biochemistry, Biology, or Chemistry. Biochemistry 2010, 2011, Biology 2040, 2041 and the former Chemistry 2600, the former Chemistry 2601 may not be used to meet this requirement. Medicine 310A/B counts as Biochemistry for these 60 credit hours.

7.1.2.2 Minor in Biochemistry

Students who take a minor in Biochemistry will complete:

1. Biochemistry 2101, 3106
2. One of Biochemistry 2100, 2600, Biology 2250.
3. Nine credit hours in Biochemistry at the third or fourth year level; or 6 credit hours in Biochemistry at the third or fourth year level and Biology 3050.
4. Either Chemistry 2400, 2401 or Chemistry 2440 and 3 additional credit hours from the Biochemistry courses listed in 3. above.

Course prerequisites stipulated in the course descriptions shall apply to a minor in Biochemistry.

Note: *For the purposes of a Biochemistry minor, Medicine 310A/B count as Biochemistry courses.*

7.1.3 Nutrition Program

7.1.3.1 Major in Nutrition

Entry to the Nutrition majors program is based on academic standing.

1. To be considered for admission to the program students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%.
 - a. English 1080, 1110 (or equivalent)
 - b. Chemistry 1050, 1051 (or Chemistry 1010, 1011 or 1200, 1001)
 - c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)
 - d. Biology 1001, 1002 or Physics 1020, 1021 (or equivalent)
2. Required courses to complete the major:
 - a. Biochemistry 2000 or 2005, 2100, 2101, 2600, 3106, 3203, 3402, 4300, 4301, Medicine 310A/B
 - b. Six credit hours in courses from Biochemistry 3052, 3107, 3108, 3202, 3600, 4002, 4101, 4103, 4104, 4200, 4201, 4230-4249, Biology 3050.
 - c. Biology 1001 and 1002; and Physics 1020 and 1021 (or equivalent), for those students who did not complete them in first year
 - d. Chemistry 2440 (or Chemistry 2400, 2401)
 - e. Statistics 2550 or equivalent
3. Students are encouraged to choose a minor.

Notes: 1. *Students are required to complete at least 78 credit hours in Science courses for the General Degree.*

2. *Students who choose to complete Chemistry 2400/2401 are advised to take the appropriate prerequisites for those courses.*

3. *For the purposes of a Biochemistry (Nutrition) degree, Medicine 310A/B count as Biochemistry courses.*

7.1.3.2 Honours Degree in Nutrition

Students normally should apply for an Honours program at the completion of their third year of studies. Honours students would normally follow the Biochemistry (Nutrition) Majors program before applying to honours, and must meet its admissions requirements as follows:

1. To be considered for admission to the majors program prior to admission to honours, students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%:
 - a. English 1080, 1110 (or equivalent)
 - b. Chemistry 1050, 1051 (or Chemistry 1010, 1011, or 1200, 1001)
 - c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)
 - d. Biology 1001, 1002 or Physics 1020, 1021 (or equivalent)
2. To be eligible for admission to the honours program, students must be in Honours standing. To be considered for early admission to an Honours program in Nutrition at the end of second year, students must have achieved at least 70% in each of their required 2000 level Biochemistry and Chemistry courses.
3. Required courses:
 - a. Biochemistry 2000 or 2005, 2100, 2101, 2600, 3106, 3107, 3203, 3402, 3600, 4002, 4300, 4301, 4502, 499A, 499B, Medicine 310A/B.
 - b. Twelve additional credit hours chosen from Biochemistry 3052, 3105, 3108, 3202, 4101, 4103, 4104, 4105, 4200, 4201, 4210, 4211, 4220, 4230-4249, 4400, Biology 3050.
 - c. Biology 1001 and 1002; and Physics 1020 and 1021 (or equivalent), for those students who did not complete them in first year.
 - d. Chemistry 2440 (or Chemistry 2400, 2401).

- e. Statistics 2550 or equivalent.
- 4. Students are encouraged to choose a minor.
- 5. Those courses in which the grades specified under **Academic Standing, clause 1** of the **Regulations for the Honours Degree of Bachelor of Science** are 60 credit hours chosen from Biochemistry courses and Biology 3050.

Notes: 1. Students who choose to complete Chemistry 2400/2401 are advised to take the appropriate prerequisites for those courses.
2. For the purposes of a Biochemistry (Nutrition) Honours degree, Medicine 310A/B count as Biochemistry courses.

7.2 Biology

www.mun.ca/biology/Home/

The following undergraduate programs are available in the Department:

1. Biochemistry and Cell Biology Joint Honours
2. Biology and Earth Sciences (Geology) Joint Honours
3. Biology and Psychology Joint Honours
4. Biology and Psychology (Behavioural Neuroscience) Joint Honours
5. Biology and Statistics Joint Honours
6. Major or Honours in Biology
7. Major or Honours in Biology (Cell and Molecular)
8. Major or Honours in Biology (Ecology and Conservation)
9. Major or Honours in Biology (Marine)
10. Minor in Biology

Details of joint programs are given after the **Regulations for the Honours Degree of Bachelor of Science**.

Biology course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Biology**.

7.2.1 Entrance Requirements

Entry to the Biology Majors Program is competitive and based on academic standing.

To be considered for admission to the program students must have completed Biology 1001/1002 with an average of at least 65%. In addition, applicants will normally have completed the following courses (or their equivalents) and must have a minimum overall average of 60% in these courses.

1. English 1080, 1110 or equivalent
2. Mathematics 1090 and Mathematics 1000 (or Mathematics 1000 only)
3. Chemistry 1010/1011 (or equivalent) or Physics 1020/1021 (or equivalent)
4. If Mathematics 1000 taken, any one other first year course.

Chemistry 1010/1011 (or 1050/1051) should be taken in the first year, as it is a prerequisite for other required courses in the programs, and delaying chemistry until second year may make it difficult to complete the program in the normal eight semesters.

7.2.2 Minor in Biology

A minor in Biology will consist of 24 credit hours in Biology courses: 1001 and 1002 (or equivalent) plus any 18 credit hours chosen from the list of Biology courses except Biology 2040, 2041, 2120, and 3053. The choice of courses must be made in consultation with the Head of Biology or delegate and it is recommended (but not required) that students take at least two Biology courses at the 3000 level or above

7.2.3 General Degrees

Each Major is assigned a faculty advisor who should be consulted on academic problems, including course selection.

7.2.3.1 Major in Biology

All students majoring in Biology are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; and 24 credit hours in Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfil the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the **Regulations for the General Degree of Bachelor of Science**.

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

7.2.3.2 Major in Biology (Cell and Molecular)

All students majoring in Biology (Cell and Molecular) are required to complete a minimum of 45 credit hours in courses from the

Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 3530 and 4241; 6 credit hours from the recommended Biology courses for Biology (Cell and Molecular) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Cell and Molecular) are 3050, 3052, 3401, 3402, 3500, 3620, 3950, 3951, 4000, 4010, 4040, 4050, 4200, 4245, 4250, 4251, 4255, 4404, 4550, and 4605.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfil the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the **Regulations for the General Degree of Bachelor of Science.**

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

7.2.3.3 Major in Biology (Ecology and Conservation)

All students majoring in Biology (Ecology and Conservation) are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 4650 and 4651; 6 credit hours from the recommended Biology courses for Biology (Ecology and Conservation) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Ecology and Conservation) are 3041, 3050, 3295, 3300, 3610, 3620, 3640, 3709, 3710, 3711, 3714, 3715, 3750, 4040, 4141, 4180, 4182, 4250, 4306, 4307, 4360, 4405, 4505, 4605, 4620, 4630, 4701, 4710, 4750, and 4820.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfil the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the **Regulations for the General Degree of Bachelor of Science.**

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

7.2.3.4 Major in Biology (Marine)

All students majoring in Biology (Marine) are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 3710 and 3711; 6 credit hours from the recommended Biology courses for Biology (Marine) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Marine) are 3050, 3295, 3620, 3640, 3709, 3712, 3714, 3715, 4014, 4122, 4141, 4182, 4360, 4601, 4605, 4620, 4630, 4710, 4750, 4810, 4912.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfil the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the **Regulations for the General Degree of Bachelor of Science.**

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

7.2.4 Honours Degrees

The attention of students wishing to take Honours is called to those sections of the Calendar dealing with Regulations for the Degree of Bachelor of Science (Honours).

Sixty-nine credit hours in courses, including the 6 first year credit hours and the 15 required core credit hours outlined in the regulations for the General Degree, and the Honours Dissertation (Biology 499A/499B), shall be taken from the Department of Biology offering. Students may elect to complete an Honours Program in Biology or in one of the joint Honours Programs listed under the heading "Programs in Biology". Programs of students taking Honours shall be drawn up in consultation with the student's supervisor, and must be approved by the Head of the Department (or his/her delegate) in accordance with **Admission and Registration**, clause 2. of the **Regulations for the Honours Degree of Bachelor of Science**.

Note: Some Graduate Courses may be taken in the final year of the Honours Program with the permission of the Head of the Department and the course instructor.

A dissertation (6 credit hours) is to be presented on some original piece of work undertaken by the candidate, under the guidance of a faculty member of the department, as appointed by the Head of Department. For students electing to take one of the Joint Honours Programs, the dissertation shall be on a topic representative of the selected program. The Department of Biology considers the dissertation to be an important part of the Honours Program.

The dissertation will be based on a 6 credit hours course (Biology 499A/499B). It will involve directed reading relevant to the dissertation topic, preparation of a dissertation outline, supervised research, data synthesis and interpretation, and preparation and defence of the dissertation.

Two typed copies of the dissertation, complete with figures and tables, are to be submitted not less than two weeks before the end of lectures in the semester in which the candidate is registered for Biology 499B. These copies must be submitted to the Head of Department, and must have met the prior approval of the candidate's Honours supervisor.

Before the last day for examinations in the semester, the candidate will be examined orally on the contents of the dissertation. The examining committee shall consist of the Head of the Department, or delegate, the candidate's supervisor, and an examiner appointed by the Head of the Department in consultation with the candidate's supervisor.

7.2.5 Honours in Biology

An Honours degree in Biology may comprise a broadly based selection of courses according to the student's interests, or it may be more narrowly focussed. An Honours student may focus on any area of Biology where an appropriate supervisor can be found. All Honours students should choose courses in consultation with their supervisors, but it is particularly important that students wishing to focus within the Honours degree should discuss course selection with an Honours supervisor within their area of interest.

7.2.5.1 Biology Course Requirements

Students seeking an honours degree in Biology are required to successfully complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:

1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404; and
3. 42 credit hours from Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
4. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

7.2.5.2 Core Course Requirements

All honours students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John's Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

7.2.6 Honours in Cell and Molecular Biology

7.2.6.1 Cell and Molecular Biology Course Requirements

Students seeking an honours degree in Cell and Molecular Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:

1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 3530 and Biology 4241;
4. 12 credit hours from the following recommended Biology courses for Cell and Molecular Biology: Biology 3050, 3052, 3401, 3402, 3500, 3620, 3950, 3951, 4010, 4040, 4050, 4200, 4245, 4250, 4251, 4255, 4404, 4550, 4605; and
5. 24 credit hours in Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

7.2.6.2 Core Course Requirements

All honours students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)

2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John's Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

7.2.7 Honours in Ecology and Conservation Biology

7.2.7.1 Ecology and Conservation Biology Course Requirements

Students seeking an honours degree in Ecology and Conservation Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:

1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 4650 and 4651;
4. 12 credit hours from the following recommended biology courses for Ecology and Conservation Biology: Biology 3041, 3050, 3295, 3300, 3610, 3620, 3640, 3709, 3710, 3711, 3714, 3715, 3750, 4040, 4141, 4180, 4182, 4250, 4306, 4307, 4360, 4405, 4505, 4605, 4620, 4630, 4701, 4710, 4750, 4820; and
5. 24 credit hours in Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

7.2.7.2 Core Course Requirements

All honours students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John's Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

7.2.8 Honours in Marine Biology

7.2.8.1 Marine Biology Course Requirements

Students seeking an honours degree in Marine Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:

1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 3710 and 3711;
4. 12 credit hours from the following recommended biology courses for Marine Biology: Biology 3050, 3052, 3295, 3620, 3640, 3709, 3710, 3712, 3714, 3715, 3951, 4014, 4050, 4122, 4141, 4182, 4360, 4601, 4605, 4620, 4630, 4710, 4750, 4810, 4912; and
5. 24 credit hours in Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

7.2.8.2 Core Course Requirements

All honours students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John's Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

7.3 Chemistry

www.chem.mun.ca/

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Chemistry Joint Honours

- Biochemistry and Chemistry Joint Honours
- Chemistry and Earth Sciences Joint Honours
- Chemistry and Physics Joint Honours
- Major or Honours in Chemistry
- Minor in Chemistry
- Major or Honours in Computational Chemistry

The Major, Honours, and Joint Honours with Applied Mathematics, Biochemistry and Physics are accredited by the Canadian Society for Chemistry.

Details of joint programs are given under **Joint Programs**.

Chemistry course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Chemistry**.

7.3.1 Undergraduate Handbook

Additional information about the undergraduate program, individual courses and suggested timetables can be found in the Department of Chemistry Undergraduate Handbook which is available on the web at www.chem.mun.ca.

7.3.2 Faculty Advisors

Each student majoring in Chemistry will be assigned a Faculty Advisor who should be consulted on all academic matters. Individual programs must be drawn up in consultation with the advisor.

Note: Students who have obtained a grade of 3 or better on the Advanced Placement courses in Chemistry will normally be eligible for direct entry into Chemistry 1031 or second year courses. Such students must consult the Department before registration.

7.3.3 Minor in Chemistry

Candidates who take a minor in Chemistry will complete Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, Chemistry 2100, 2210, 2301 (or 2300), 2302, 2400, and 2401.

7.3.4 General Degree - Major in Chemistry

The courses required for a Major in Chemistry are:

- Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3110, 3210, 3211, 3303, 3410, 3411, and 3500.
- Physics 1050 (or 1020 and 1021) and 1051.
- Mathematics 1000, 1001, 2000, and 2050.
- Biochemistry 2101

Recommended courses: Mathematics 2051, Physics 2820 and/or 2750, and 6 credit hours in one of the following languages: French, German, or Russian.

Students considering declaring Chemistry as their Major are encouraged to contact either the Department Head or the Deputy Head (Undergraduate Studies).

7.3.5 Honours Degree in Chemistry

Students wishing to take Honours should consult those sections of the Calendar dealing with **Regulations for the Honours Degree of Bachelor of Science**. The Honours program in Chemistry consists of at least 63 credit hours in Chemistry courses. It is recommended that candidates also take groups of 18 or more credit hours in each of two other science subjects, normally Biochemistry, Biology, Earth Sciences, Physics, or Mathematics.

7.3.5.1 Required Courses

- Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, Chemistry 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3110, 3210, 3211, 3303, 3410, 3411, 3500, 490A/B and 12 credit hours selected from the remaining 4000-level Chemistry courses.
- Physics 1050 (or 1020 and 1021) and 1051.
- Mathematics 1000, 1001, 2000, and 2050.
- Biochemistry 2101

7.3.5.2 Other Information

- Those courses in which a grade of B or an average of 75% or higher are required, as specified in **Regulations for the Honours Degree of Bachelor of Science, Academic Standing**, clause a., are the courses beyond first year used to satisfy clause 1. under **Required Courses** above, and Biochemistry 2101.
- Recommended courses: Biochemistry 2100, Mathematics 2051, Physics 2820 and/or 2750.
- A thesis based on a selected research topic carried out under the supervision of a member of the Department is to be submitted in the final year.
- Chemistry 490A/B will normally require the equivalent of nine hours per week for two semesters. Registration in Chemistry 490A/B is restricted to those students who have honours standing. The Honours dissertation will be assessed by a committee comprising the supervisor and two other faculty members.
- With approval of the Heads of the Chemistry and Biochemistry Departments prior to registration, a number of courses in Biochemistry may be substituted for a like number of Chemistry courses.
- Six credit hours in one language are recommended: French, German or Russian should be selected in consultation with the Department Head.
- Prospective Honours students in Chemistry in their first year should take
 - Six credit hours in English.
 - Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents.
 - Physics 1050 and 1051 or 1020 and 1021.

- d. Mathematics 1000 and 1001.
- e. Six credit hours in other courses.
- 8. Given appropriate circumstances the Honours Chemistry program may be completed in four years. Students should consult the Undergraduate Student Handbook for timetabling details.
- 9. Students completing first year requirements for any of Chemistry, Mathematics or Physics via the three course options (i.e. Chemistry 1010, 1011, 1031 (or the former 1800, 1200, 1001), Mathematics 1090, 1000, 1001, Physics 1020, 1021, 1051) instead of the two course options (Chemistry 1050, 1051, Mathematics 1000, 1001, Physics 1050, 1051) will require the corresponding number of extra credits to obtain an Honours degree.
- 10. Arrangements for subsequent years will depend on the other science subjects being studied and should be made in consultation with the Faculty Advisor.
- 11. Certain advanced courses may only be offered in alternate years. Candidates therefore should consult the Head of the Department before registration
- 12. Certain of the Graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.
- 13. Details of Joint Honours programs with Biochemistry, Earth Sciences, Mathematics and Physics are outlined under **Joint Programs**.

7.3.6 General Degree - Major in Computational Chemistry

Students wishing to take a Major in Computational Chemistry should consult those regulations of the Calendar dealing with **Regulations for the General Degree of Bachelor of Science**.

7.3.6.1 Required Courses

- 1. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3211, 3303, 4304, and a 3 credit hour chemistry course at the 4th year level.
- 2. Physics 1050 (or 1020 and 1021), 1051, and 2820.
- 3. Mathematics 1000, 1001, 2000, 2050, 2051, 2320, 3202, and 3260.
- 4. Computer Science 1510, 1710, 2710, 2711, 3719, and 3731.
- 5. English 1080 and English 1110 or equivalent.
- 6. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours must also be completed.

Recommended courses: Mathematics 3161, 3240, Chemistry 3110, 3210, 3410, 3411, Computer Science 2500, 3550, 4XXX.

Recommended electives: Biochemistry 2101, Physics 3800.

7.3.6.2 Suggested Program of Study

Given appropriate circumstances the Major in Computational Chemistry program can be completed in four years. While students should consult the Undergraduate Handbook for further timetabling details, to complete the program in four years generally will require that students take the following courses in their first year:

- 1. English 1080 and English 1110 or equivalent.
- 2. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents.
- 3. Physics 1050 (or 1020 and 1021), and 1051.
- 4. Mathematics 1000 and 1001
- 5. Computer Science 1510 and 1710

Students who complete the major will also have completed the required courses for a minor in Mathematics.

7.3.7 Honours Degree in Computational Chemistry

Students wishing to take Honours in Computational Chemistry should consult those sections of the Calendar dealing with **Regulations for the Honours Degree of Bachelor of Science**. The Honours program in Computational Chemistry consists of a minimum of 42 credit hours in Chemistry, a minimum of 24 credit hours in Mathematics, and a minimum of 18 credit hours in Computer Science. An additional 6 credit hours in recommended Chemistry, Mathematics or Computer Science courses are also required in addition to the minimum credit hour requirements.

7.3.7.1 Required Courses

- 1. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3211, 3303, 4304, and a 3 credit hour chemistry course at the 4th year level.
- 2. Physics 1050 (or 1020 and 1021), 1051, and 2820.
- 3. Mathematics 1000, 1001, 2000, 2050, 2051, 2320, 3202, and 3260.
- 4. Computer Science 1510, 1710, 2710, 2711, 3719, and 3731.
- 5. Chemistry 490A/B.
- 6. English 1080 and English 1110 or equivalent.
- 7. Two of the recommended courses.
- 8. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours must also be completed.

Recommended courses: Mathematics 3161, 3240, Chemistry 3110, 3210, 3410, 3411, Computer Science 2500, 3550, 4XXX.

Recommended electives: Biochemistry 2101, Physics 3800.

7.3.7.2 Suggested Program of Study

Given appropriate circumstances the Honours in Computational Chemistry program can be completed in four years. While students should consult the Undergraduate Handbook for further timetabling details, to complete the program in four years generally will require that students take the following courses in their first year:

- 1. English 1080 and English 1110 or equivalent.
- 2. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents.

3. Physics 1050 (or 1020 and 1021), and 1051.
4. Mathematics 1000 and 1001
5. Computer Science 1510 and 1710

7.3.7.3 Other Information

1. Students who complete the Honours program will also have completed the required course for a minor in Mathematics.
2. Those courses in which a grade of B or an average of 75% or higher are required, as specified in **Regulations for the Honours Degree of Bachelor of Science, Academic Standing**, are the courses beyond first year used to satisfy the required course list.
3. A thesis based on a selected research topic carried out under the supervision of a member of the Department is to be submitted in the final year.
4. Chemistry 490A/B will normally require the equivalent of nine hours per week for two semesters. Registration in Chemistry 490A/B is restricted to those students who have Honours standing. The Honours dissertation will be assessed by a committee comprising the supervisor and two other faculty members.
5. Students completing first year requirements for any of Chemistry, Mathematics or Physics via the three course options (i.e. Chemistry 1010, 1011, 1031 (or the former 1800, 1200, 1001), Mathematics 1090, 1000, 1001, Physics 1020, 1021, 1051) instead of the two course options (Chemistry 1050, 1051, Mathematics 1000, 1001, Physics 1050, 1051) will require the corresponding number of extra credits to obtain an Honours degree.
6. Arrangements for subsequent years will depend on the other science subjects being studied and should be made in consultation with the Faculty Advisor.
7. Certain advanced courses may only be offered in alternate years. Candidates therefore should consult the Head of the Department before registration.
8. Certain of the Graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

7.3.8 Course Restrictions

Students should be aware of a number of credit restrictions. For further information see the Chemistry course descriptions section found at the end of the Faculty of Science section under **Course Descriptions, Chemistry**.

7.4 Computer Science

www.mun.ca/computerscience/

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
2. Computer Internship Option (CIIO) (B.Sc. and B.Sc. Honours only)
3. Computer Science Honours (B.A., B.Sc.)
4. Computer Science and Economics Joint Major (B.Sc. Only)
5. Computer Science and Geography Joint Honours (B.Sc. only)
6. Computer Science and Geography Joint Major (B.Sc. only)
7. Computer Science and Physics Joint Honours
8. Computer Science and Physics Joint Major
9. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
10. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
11. Computer Science and Statistics Joint Honours
12. Computer Science and Statistics Joint Major (B.Sc. only)
13. Computer Science (Software Engineering) Honours (B.Sc. only)
14. Major in Computer Science (B.A., B.Sc.)
15. Minor in Computer Science (B.A., B.Sc.)

Details of our joint program offerings in the Faculties of Arts and Science may be found under the heading **Joint Programs** following the heading **Regulations for the Honours Degree of Bachelor of Science**.

Computer Science course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Computer Science**.

7.4.1 Major in Computer Science

1. Forty-five credit hours in Computer Science courses are required for a major in Computer Science:
 - a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, and 4770.
 - b. At least 6 additional credit hours at the 4000 level in Computer Science courses.
 - c. Three additional credit hours in Computer Science courses at the 3000 level or beyond.
2. Additional courses required of the Majors are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2510.

Note: Students are encouraged to take Business 2000, Mathematics 3000, and Statistics 2560.

7.4.2 Honours in Computer Science

1. See **Regulations for the Honours Degree of Bachelor of Arts** or **Regulations for the Honours Degree of Bachelor of Science** as appropriate).
2. Sixty-three credit hours in Computer Science courses are required for the Honours Degree in Computer Science, including:
 - a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, and 4780.
 - b. Eighteen additional credit hours in Computer Science at the 4000 level.
 - c. Six additional credit hours in Computer Science courses at the 3000 level or beyond.

3. Additional courses required are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2510.

Note: *Students are encouraged to take Business 2000, Mathematics 3000, and Statistics 2560.*

7.4.3 Honours in Computer Science (Software Engineering) (B.Sc. Only)

Completion of the Honours in Computer Science (Software Engineering) Program does not qualify persons to hold the designation "Professional Engineer" as defined by various Provincial Acts governing the Engineering Profession.

1. See **Regulations for the Honours Degree of Bachelor of Science.**
2. Sixty-three credit hours in Computer Science courses are required for the Honours Degree in Computer Science (Software Engineering), including:
 - a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3718, 3719, 3724, 3725, 3754, 4719, 4759, 4770, and 4780.
 - b. Twelve additional credit hours in Computer Science courses at the 4000 level.
 - c. Three additional credit hours in Computer Science courses at the 3000 level or beyond.
3. Additional courses required are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2510.

Note: *The Honours project (4780) must be in the area of Software Engineering.*

7.4.4 Computer Industry Internship Option (CIIO):

The Computer Industry Internship Option (CIIO) provides an opportunity for qualified students to obtain rewarding placements that help them develop practical skills in a real work setting before graduation. The CIIO is available to Computer Science Majors (B.Sc. and B.Sc. Honours only) who will typically apply between their third and fourth year of studies.

7.4.4.1 Admission Requirements

In order to be considered for admission to the CIIO, an applicant must:

1. be a declared Computer Science Major;
2. have successfully completed Computer Science 1710, 2710, 2711, 2742, 2760, 3716, and any two other core 3000-level computer science courses; and
3. have at least one computer science course left to complete after the internship.

In addition to meeting the above applicants are also subject to academic performance.

7.4.4.2 Internship Duration:

Subject to the availability of job openings, a student may choose either an 8, 12 or 16 consecutive month internship period.

7.4.4.3 Internship Guidelines:

1. Internship employment is normally organized by the Co-op Education Co-ordinator (hereafter referred to as the Co-ordinator); however, students who have been accepted to the CIIO may also obtain their own internship placements. All placements are subject to the approval of the Co-ordinator and of the Head of the Department of Computer Science.
2. Students who have applied to the internship program give permission to the Co-ordinator to supply prospective employers with copies of their resume and transcript.
3. After being placed with an employer, students are not permitted to drop their internship without prior approval from the Co-ordinator and the Head of the Department of Computer Science. Students who drop an internship without permission, who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the placements, will normally be awarded a fail grade for the internship period and may not be permitted to reapply.

Note: *Students should also refer to the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.*

7.4.4.4 Expectation of Work

Within a month of starting the internship, students are required to submit a list of their work term objectives. They are also required to submit a progress report due the last day of classes of each semester in which they are working. The work term objectives and progress reports are to be submitted to the Co-ordinator.

At the end of the internship period, students are required to submit a final report which will include a description of their internship projects and activities as well as their original objectives and accomplishments. The final report is to be submitted to the Co-ordinator by the last day of classes of the semester in question. A completed Employer Evaluation Form should be submitted to the Co-ordinator at the end of the internship period.

7.4.4.5 Registration, Assessment of Performance, and Assignment of Grades:

Students must register for the course Computer Science 3700 every semester during their internship.

Computer Science 3700 is a non-credit course open only to students who have been accepted into the Internship Program.

During the internship, the employer and intern will complete student performance evaluations every four months and will submit them to the Co-ordinator. The final assessment of total work performed is the responsibility of the Co-ordinator, and will be based upon both input from the employer and the intern's final report.

At the end of the internship, each intern will be assigned one of the following grades after the final assessment of their performance:

1. Pass with Distinction (PWD): Indicates excellent performance in both the work report and work performance.
2. Pass (PAS): Indicates that performance meets expectations in both the work report and the work performance.
3. Fail (FAL): Indicates failing performance in the work report or the work performance.

Also, the following will be noted in the transcript of the intern:

1. Requirements for the Computer Industry Internship Option have been completed. Internship Duration: - months.
2. A grade of NC (No Credit) for Computer Science 3700 will be awarded in all semesters of the Internship Option prior to the final Semester.

7.4.4.6 CIIO and Honours Program:

In case a student is enrolled in both the Honours program and the CIIO, the requirements of both must be met. Upon approval from the

honours project supervisor, within the Department, the employer and the Head of the Department of Computer Science, an internship project may be submitted as a component of an honours project. These arrangements must be made within the first semester of the Internship placement.

7.4.5 Minor in Computer Science

For a Minor in Computer Science, a student must complete at least 24 credit hours in Computer Science courses, including:

1. Computer Science 1710, 2710, 2711.
2. At least 6 credit hours selected from Computer Science 3715, 3716, 3719, 3724, 3725, and 3754.
3. Three additional credit hours at the 3000 level or above.

7.4.6 Course Numbering Scheme

There are five areas of Computer Science offered in the 3000- and 4000-level courses. The meaning of the third digit of a course number is as follows:

- 1- Programming Languages
- 2- Computer Systems
- 3- Numerical Computations
- 4- Theoretical Aspects
- 5,6- Applications (e.g. Artificial Intelligence, Computer Graphics, Data Base, Robotics, Computational Geometry, Image Processing, Computer Networking, Computer Aided Design)
- 7 - Project Course
- 8- Honours Project
- 9- Directed Readings

7.4.7 Supplementary Examinations

Supplementary examinations will be allowed in certain Computer Science courses which have written final examinations. Students should refer to the Faculty of Science degree regulations for details.

7.4.8 Faculty Advisors

The Department has an Undergraduate Advisor for Computer Science majors to consult with on academic matters.

7.4.9 Undergraduate Handbook

Additional information about the undergraduate Computer Science programs and courses can be found in the Computer Science Undergraduate Handbook available from the General Office, Department of Computer Science or from www.mun.ca/computerscience/.

7.5 Earth Sciences

www.mun.ca/earthsciences/

The following undergraduate programs are available:

120 credit hour programs

1. Chemistry and Earth Sciences Joint Honours
2. Earth Sciences and Geography Joint Honours
3. Earth Sciences and Physics Joint Honours
4. Earth Sciences and Physics Joint Major
5. General or Honours degrees in Earth Sciences
6. Geophysics and Physical Oceanography Joint Honours

135 credit hour program

1. Biology and Earth Sciences Joint Honours

24 credit hour program

1. Minor in Earth Sciences

Although Honours programs can be completed in 120 credit hours, students who do not select the prescribed **Common Block of Required Courses** will normally need more than 120 credit hours to satisfy degree requirements.

Earth Sciences course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Earth Sciences**.

7.5.1 Undergraduate Handbook

Additional information about the undergraduate program, individual courses and suggested timetables can be found in the Department of Earth Sciences Undergraduate Handbook which is available on the web at www.mun.ca/earthsciences/.

7.5.2 Entrance Requirements

In order to be formally admitted to major programs in Earth Sciences, students must have successfully completed 3 first-year credit hours in each of the following departments: English, Mathematics, Earth Sciences, Chemistry and Physics; these courses must be selected from the list of required courses for degree programs in Earth Sciences. Students are encouraged to declare their major in their first year of study at the university.

Most of the 2000 level Earth Sciences courses that are required for major and minor programs in Earth Sciences have Physics and Chemistry prerequisites, and students are advised to complete these prerequisites in their first year of study.

Students will not normally be permitted entry to 3000 level (or above) Earth Sciences courses without having completed all 1000-level courses listed in the **Common Block of Required Courses** specified in Clause 1. in the **Major Programs in Earth Sciences**.

7.5.3 Minor in Earth Sciences

A Minor in Earth Sciences will consist of the following:

1. Earth Sciences 1000, 1002, 2030, 2031, 2401 or 2702.
2. Nine credit hours chosen from Earth Sciences courses at the 2000 level or higher with at least 3 credit hours from courses at the 3000 level or higher. Credit hours from Earth Sciences 2150, 2311, 2914, 2915, 2916, 2917, 2918, 4310 and 4950 cannot be used to fulfil this requirement.

Several of the courses at 3000 level or higher have Earth Sciences 2502 and 2905 as co- or prerequisites.

7.5.4 Major Programs in Earth Sciences

Programs in Earth Sciences consist of a **Common Block of Required Courses** (below), and additional courses that depend on the degree being sought.

7.5.4.1 Common Block of Required Courses

All majors in Earth Sciences must complete those courses specified in Clauses 1. through 4. Students should examine prerequisites of 3000 level courses in order to decide which course to select under Clauses 3. and 4.

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, one of Chemistry 1010 or 1050 (or equivalent) and one of Chemistry 1011 or 1051 (or equivalent), Physics 1050 and 1051 or Physics 1020 and 1021. Students are advised to consult the Department of Physics Course Descriptions section for credit restrictions.

Students who intend or are required to complete higher level Physics courses must complete Physics 1051 as well, since it is a prerequisite for higher level Physics courses. Students should review the Department of Physics Calendar entry for these courses.

2. Earth Sciences 2030, 2031, 2401, 2502, 2702, 2905, 3420, 3905.
3. Mathematics 2000 or Statistics 2510 or Statistics 2550.
4. Either Biology 2120 (or Biology 1001 and 1002); or both Physics 2055 and Physics 2820.

Students must ensure that the prerequisites for Earth Sciences courses are fulfilled. Great difficulties in timetabling may be encountered if the required first-year courses are not completed before the beginning of second year.

7.5.5 Honours B.Sc. Degree in Earth Sciences

Geoscientific careers vary widely in required background. The Honours B.Sc. program is designed with considerable choice in order that students may personalize their programs based on career goals. Note that the flexibility afforded by this program is not without limits. Some courses have prerequisites, and it is ultimately the student's responsibility to ensure that these prerequisites are satisfied. Students should consult faculty members and the departmental Student Handbook for guidance in selecting courses appropriate to particular career paths.

In addition to the **Common Block of Required Courses** listed under **Major Programs in Earth Sciences**, the following requirements must be completed to qualify for the Honours B.Sc. degree in Earth Sciences:

1. Earth Sciences 499A and 499B.
2. At least 27 additional credit hours from Earth Sciences courses at 3000 and/or 4000 levels with a minimum of 12 credit hours from courses at the 4000 level. Credit hours from Earth Sciences 4310 and 4950 cannot be used to fulfill this requirement.
3. Six credit hours from the Faculty of Science courses numbered 2000 or higher. Credit hours from Earth Sciences courses, Biology 3811 and the former Physics 2050 are excluded. However, Physics 2820 is permitted.
4. Additional credit hours selected to conform with regulations for the Honours Degree of Bachelor Science so as to achieve a total of 120 credit hours. Students are encouraged to complete a minor in another department.
5. Three of the credit hours used to fulfill either requirement 3. or 4. above must be from Biology, Chemistry, Computer Science, Statistics or Physics. They may be from Mathematics only if Mathematics 2000 has not been taken as part of the **Common Block of Required Courses**.

7.5.6 General B.Sc. Degree in Earth Sciences

In addition to the **Common Block of Required Courses** listed under **Major Programs in Earth Sciences**, the following requirements must be completed to qualify for the General B.Sc. degree in Earth Sciences:

1. Eighteen additional credit hours from Earth Sciences courses at 3000 and/or 4000 levels with a minimum of 9 credit hours from courses at 4000 level. Credit hours from Earth Sciences 4310, 4950 and 499A/B cannot be used to fulfill this requirement.
2. Six credit hours from Science Faculty courses numbered 2000 or higher. Credit hours from Earth Sciences courses, Biology 3811 and the former Physics 2050 are excluded. However, Physics 2820 is permitted.
3. Additional credit hours selected to conform with regulations for the General Degree of Bachelor Science so as to achieve a total of 120 credit hours. Students are encouraged to complete a minor in another department.

Students are advised that this is the minimum requirement for the General B.Sc. in Earth Sciences. Many provinces, including Newfoundland and Labrador, have legislation requiring registration of professional geoscientists. A basic requirement for registration is, in most cases, the course equivalent of an Honours B.Sc. degree. Students intending to make a career in Earth Sciences should consider taking the Honours Degree program of courses, regardless of whether honours standing is maintained.

7.5.7 Credit Restrictions for Present Earth Sciences (EASC) Courses with Former Courses Table

Present	Former Equivalents	Present	Former Equivalents
EASC 1000	EASC 1010, Geology 1000, Geology 1010	EASC 3611	EASC 4611
EASC 1001	EASC 1011, Geology 1001, Geology 1011	EASC 3705	EASC 4700, Geology 3070
EASC 2030	EASC 203A, Geology 203A	EASC 3811	EASC 3801, EASC 2801, Geology 2801

- Notes:
1. Students wishing to pursue study within the programs offered by Earth Sciences are strongly advised to keep in close contact with the Department to discuss course programs before registration in order to maintain proper sequencing.
 2. Students wishing to take some Earth Sciences courses without intending to major in Earth Sciences should consult with the Head of Department (or delegate) to determine the courses most suitable to their needs and capabilities. Earth Sciences 2914, 2915, 2916, 2917, 2918, and 2150 are especially suitable for such students and have no Earth Sciences prerequisites.
 3. Most courses comprise six hours of instruction per week, usually three hours of lectures or seminars and a three-hour laboratory period; however, at an advanced level other methods of instruction may be adopted.
 4. The field courses 2905, 3705, 3905 and 4905 require payment of a participation fee to cover costs for logistics and equipment. Registration for these courses will be by application only and may be competitive.
 5. The prerequisites for courses 4302, 4902 and 4903 refer to core courses in the Faculty of Science. For the purposes of these prerequisite statements, core courses are defined as those courses that are specified by each department as mandatory to fulfil the course requirements for their General or Honours programs.
 6. Certain of the 4000 level courses may not be offered every year.
 7. At most 6 credit hours in courses at the 1000-level can be used towards the course requirements in Earth Sciences for the Major, Minor, Joint Major, Honours or Joint Honours.

7.6 Economics

The following programs are available in the Department of Economics:

1. Honours in Economics (B.A. or B.Sc.)
2. Honours in Economics (Co-operative), (B.A. or B.Sc.)
3. Joint Programs (B.Sc. Only)
4. Joint Program (Co-operative) (B.Sc. Only)
5. Major in Economics (B.A. or B.Sc.)
6. Major in Economics (Co-operative) (B.A. or B.Sc.)
7. Minor in Economics

For Departmental Regulations and Course Descriptions, see Faculty of Arts section of the Calendar.

7.7 Geography

The following undergraduate programs are available in the Department of Geography:

1. Diploma in Geographic Information Sciences
2. Focus Area in Geography
3. Honours in Geography (B.A., B.Sc)
4. Joint Programs
5. Major in Geography (B.A., B.Sc)
6. Minor in Geography (B.A., B.Sc)

For Departmental Regulations and Course Descriptions, see Faculty of Arts section of the Calendar.

7.8 Mathematics and Statistics

www.mun.ca/math/

From the point of view of degree regulations, Applied Mathematics, Pure Mathematics, and Statistics are considered to be one subject area.

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Chemistry Joint Honours (B.Sc. only)
2. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
3. Applied Mathematics and Economics Joint Major (B.Sc. only)
4. Applied Mathematics and Physics Joint Honours (B.Sc. only)
5. Applied Mathematics and Physics Joint Major (B.Sc. only)
6. Biology and Statistics Joint Honours (B.Sc. only)
7. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
8. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
9. Computer Science and Statistics Joint Honours (B.Sc. only)
10. Computer Science and Statistics Joint Major (B.Sc. only)
11. Economics and Pure Mathematics Joint Major (B.Sc. only)
12. Economics and Statistics Joint Major (B.Sc. only)
13. Economics and Statistics (Co-operative) Joint Major (B.Sc. only)
14. Honours in Applied Mathematics (B.Sc. only)
15. Honours in Pure Mathematics
16. Honours in Statistics
17. Major in Applied Mathematics (B.Sc. only)
18. Major in Pure Mathematics
19. Major in Statistics
20. Minor in Mathematics
21. Minor in Statistics
22. Pure Mathematics and Statistics Joint Honours

Details of these programs are given after the **Regulations for the Honours Degree of Bachelor of Science**.

Mathematics and Statistics course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Mathematics and Statistics**.

7.8.1 Regulations

1. At most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151.
2. In the program descriptions that follow, Mathematics 1000 may be replaced by the former Mathematics 1081.
3. Students with credits in Mathematics or Statistics not listed in this Calendar must consult the department for equivalency before taking any course listed below.
4. The former Mathematics 1150 and Mathematics 1151 were courses designed specifically for students who intended to graduate with a degree in Primary or Elementary Education. No other students can receive credit for these courses. These courses are not acceptable as alternatives to any other First Year Mathematics course listed in this calendar. Students who have received credit for Education 125 or Mathematics 115/125 cannot receive additional credit for the former Mathematics 1150 or Mathematics 1151 or the current Mathematics 1050 or Mathematics 1051.
5.
 - a. For the current academic year the Mathematics Placement Test (MPT) will be used to determine placement in the following courses: Mathematics 1000, Mathematics 1050, Mathematics 1051 and Mathematics 1090, and Statistics 1510.
 - b. For subsequent years, students intending to register for the first time in any course below the 2000 level, must first submit a score for one of the following:
 - i. Advanced Placement Calculus Examination;
 - ii. Other standardized tests acceptable to the Department of Mathematics and Statistics.

7.8.2 Faculty Advisors

Normally, the Undergraduate Officer will be the advisor for each student who has undertaken a major in Applied or Pure Mathematics, and the Deputy Head (Statistics) will be the advisor for any student involved in a major in Statistics. Students should consult with their advisor at least once each semester to ensure that their choice of courses is appropriate.

*Note: The Department of Mathematics and Statistics will endeavour to give appropriate advice to students registered in its programs. However, the department points out that it is the responsibility of the student to see that his or her academic program meets the University's regulations in all respects. Students are referred to the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Registration, Student Responsibility**. The Department accepts no responsibility for any matter arising from an inappropriate and/or improperly recorded registration.*

7.8.3 Course Numbering System

The subject area of all courses offered by the Department of Mathematics and Statistics is identified by the second digit of the course number:

Second Digit

- 0 – Common Core Mathematics courses
- 1 – Applied Mathematics courses
- 2 – Applied Mathematics and Pure Mathematics courses
- 3 – Pure Mathematics courses
- 4 – Pure Mathematics and Statistics courses
- 5 – Statistics Courses

Where a regulation makes reference to Applied Mathematics courses, this shall include all courses with second digit 1 or 2. Where a regulation makes reference to Pure Mathematics courses, this shall include all courses with second digit 2, 3 or 4. Where a regulation makes reference to Statistics courses, this shall include all courses with second digit 4 or 5.

7.8.4 Major in Applied Mathematics (B.Sc. Only)

Students shall complete the following requirements:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, 3100, 3132, 3161, 3202, 3260, 4160, 4190.
2. Three credit hours in Applied Mathematics courses numbered 3000 or higher.
3. A computing course, early in your program. Computer Science 1510 is highly recommended.
4. A designated technical writing course offered by a Science department. Mathematics 2130 is recommended. The technical writing course is prerequisite to some 3000-level courses.
5. Physics 1050 (or 1020) and 1051.
6. A statistics course. Statistics 3410 is recommended.

7.8.5 Major in Pure Mathematics

Students shall complete the following requirements:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 2320, 3000, 3001, 3320;
2. One of Mathematics 3202, 3210, 3260;
3. One of Mathematics 3330, 3370;
4. Twelve further credit hours in Pure Mathematics courses numbered 3000 or higher, at least 6 credit hours of which must be in courses numbered 4000 or higher;
5. A computing course. Computer Science 1510 is recommended.
6. A designated technical writing course offered by a Science department. Mathematics 2130 is recommended.
7. A statistics course. Statistics 3410 is recommended.

7.8.6 Major in Statistics

Students shall complete the following requirements:

1. Mathematics 1000, 1001, 2000, 2050, 2051, Statistics 2560, 3410, 3411, 3520, 3521, 3530;
2. One of Statistics 1510, 2500, 2510 or 2550;
3. Nine further credit hours in Statistics courses numbered 3000 or higher, at least 6 credit hours of which must be in courses numbered 4000 or higher excluding Statistics 4581;
4. Computer Science 2602.
5. Mathematics 3000 and 3001 are recommended.

7.8.7 Honours in Applied Mathematics (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 3000, 3001, 3100, 3111, 3132, 3161, 3202, 3210, 3260, 4160, 4180, 4190, 419A/B;
2. At least one of Mathematics 4162 or 4170;
3. Statistics 3410;
4. Nine further credit hours in courses numbered 3000 or higher that are offered by the Department of Mathematics and Statistics, at least 3 of which must be in courses numbered 4000 or higher;
5. A computing course early in the program is required. Computer Science 1510 is recommended.
6. Physics 1050 (or 1020), 1051, 2820, 3220.

7.8.8 Honours in Pure Mathematics

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following requirements:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2320, 3000, 3001, 3202, 3210, 3260, 3300, 3320, 3330, 4300, 4310, 4399, Statistics 2510;
2. Either Mathematics 3340 or 3370;
3. Either Mathematics 4000 or 4001;
4. Either Mathematics 4320 or 4321;
5. Twelve further credit hours in Pure Mathematics courses numbered 3000 or higher, at least 9 credit hours of which must be in courses numbered 4000 or higher;
6. A computing course early in the program is required. Computer Science 1510 is recommended.

7.8.9 Honours in Statistics

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following requirements:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, 3202, 3210, Statistics 2560, 3410, 3411, 3520, 3521, 3530, 4410, 4590, 4599;
2. One of Statistics 1510, 2500, 2510 or 2550;
3. Eighteen further credit hours in Statistics courses including at least 12 credit hours in courses numbered 4000 or higher excluding Statistics 4581;
4. Computer Science 2602, Computer Science 3731;
5. Mathematics 4000 and Statistics 4401 are recommended.

7.8.10 Minor in Mathematics

A total of 24 credit hours in courses offered by the Department of Mathematics and Statistics is required of which only 6 credit hours shall be in courses at the 1000 level and at least 6 credit hours shall be in courses numbered 3000 or higher.

7.8.11 Minor in Statistics

The courses required for a minor in Statistics are:

1. Mathematics 1000, 1001; Statistics 1510 or 2500 or 2510, Statistics 2501 or 2560.
2. Twelve further credit hours in Statistics courses numbered 3000 or higher excluding Statistics 4581.

It is recommended that Mathematics 2000 and Mathematics 2050 be taken since they are prerequisite to several further Statistics courses.

7.9 Ocean Sciences

www.mun.ca/osc/

The Department of Ocean Sciences is a newly formed Department within the Faculty of Science. The faculty within this Department are the former faculty of the **Ocean Sciences Centre**, a research unit and facility that was first opened in 1967.

The Department's mandate as an interdisciplinary unit is to focus on increasing our understanding of biological and chemical processes within the oceans, and with those associated with aquaculture.

The Department aims to offer both undergraduate and graduate programs in Ocean Sciences. Immediate plans are underway to offer two undergraduate Minors in Oceans and in Aquaculture. It is expected that the first course offerings will be available in 2013-2014.

7.10 Physics and Physical Oceanography

www.mun.ca/physics/main/

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Physics Joint Honours
2. Applied Mathematics and Physics Joint Major
3. Biochemistry and Physics Joint Honours
4. Chemistry and Physics Joint Honours
5. Computer Science and Physics Joint Honours
6. Computer Science and Physics Joint Major
7. Earth Sciences and Physics Joint Honours
8. Earth Sciences and Physics Joint Major
9. Geophysics and Physical Oceanography Joint Honours
10. Honours in Environmental Physics
11. Honours in Physics
12. Major in Environmental Physics
13. Major in Physics
14. Minor in Physics

Details of these joint programs are given after the **Regulations for the Honours Degree of Bachelor of Science**. Other joint programs may be arranged in consultation with the departments concerned.

Physics and Physical Oceanography course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Physics and Physical Oceanography**.

Notes: 1. The attention of students intending to follow any one of the programs listed above is drawn to the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**, governing the appropriate degree. Additional Departmental requirements are given below.

2. Faculty advisors are available to provide advice to students who are registered in, or who are considering registering in, any of the programs. Students are urged to consult with these advisors at their earliest opportunity in order to ensure that they select appropriate courses and programs. Students with credits in Physics courses which are not listed in this calendar should consult with the Department.

3. The six course stream consisting of Physics 1020, 1021, 1051, 2053, 2055, 2750, and 2820 or alternatively the seven course stream of Physics 1020, 1050, 1051, 2053, 2055, 2750, and 2820 is intended to provide a cohesive overview of Physics for potential Physics majors.

4. Physics 1050 is open to and recommended for students who have completed Level II Physics, Level III Physics and Level III Advanced Mathematics. Mathematics 1000 must be taken at the same time as, or be completed prior to, taking Physics 1050. Students who have completed Mathematics 1090 and Physics 1050 are required to complete Mathematics 1000 before registering for Physics 1051.

5. Physics 1020 is intended for students who do not qualify for Physics 1050, and while it may be taken by students who have no background in Physics it is recommended that students wishing to take Physics 1020 should have completed at least one of Level II and Level III Physics. Students who complete Physics 1020 and Mathematics 1000 are eligible for admission to Physics 1051. Students may receive credit for only one of Physics 1050 and 1020.

6. Students who have successfully completed Advanced Placement courses in both Physics and Mathematics will normally be eligible for direct entry into Physics 1051, 2053 and 2750, all of which are offered in the Fall semester. Such students are advised to consult the Department.

7. Where circumstances warrant, any prerequisites listed below may be waived by the Head of the Department.

8. Supplementary examinations will be allowed in certain Physics courses which have written final examinations. Students should refer to the **Faculty of Science Degree Regulations** for details.

7.10.1 Minor in Physics

A minor in Physics will consist of 24 credit hours in Physics courses which must include Physics 1050 (or 1020), 1051, 2053, 2055, 2750, 2820. Only 6 credit hours at the 1000 level can be used to fulfill the 24 credit hours. For those students whose major is Chemistry or Biochemistry, the 24 credit hours in Physics will not include 2053.

For Electrical Engineering students, 24 credit hours in Physics which must include Physics 1050 (or 1020), 1051, 2750, 3000, and 3550 with an additional 9 credit hours selected from Physics 2820, 3600, 3750, 3751, 3800, 4000, 4220, 4600 or other 3000 or 4000 level courses subject to approval by the Head of Physics and Physical Oceanography and the Chair of Electrical and Computer Engineering.

7.10.2 Major in Physics

1. English 1080 and English 1110 (or equivalent).
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
3. Mathematics 1000 and 1001.
4. Mathematics 2000, Mathematics 2050 and Mathematics 3260
5. Physics 1050 (or 1020) and 1051.
6. Physics 2053, 2055, 2750, 2820, 3220, 3400, 3500, 3750 and 3900.
7. An additional 12 credit hours in physics courses numbered 3000 or higher which shall include at least 6 credit hours selected from the courses numbered Physics 3000, 3150, 3300, the former 3410, 3550, 3600, 3751.
8. Physics 3810 or Mathematics 3202.

Mathematics 1001, 2000 and 2050 are prerequisites to many Physics courses and should be completed by the end of second year. Mathematics 3260 is co-requisite to Physics 3220 and should be completed before the winter of the third year. Those who intend to make a career in Physics should note that additional Physics courses are strongly recommended. Mathematics 2051 and Computer Science 1510 or 2602 are also recommended.

7.10.3 Honours in Physics

1. English 1080 and English 1110 (or equivalent).
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
3. Mathematics 1000 and 1001.
4. Computer Science 1510.
5. Mathematics 2000, 2050 and 3260.
6. Physics 1050 (or 1020) and 1051.
7. Physics 2053, 2055, 2750, 2820, 3220, 3230, 3400, 3500, 3600, 3750, 3820, 3900, 4400, 4500, 4820, 4850, 4900, 490A/B.
8. Physics 3810 or Mathematics 3202.
9. An additional 12 credit hours in physics courses numbered 3000 or higher which shall include at least 6 credit hours selected from physics courses numbered 4000 or higher.
10. Fifteen credit hours in applicable elective courses

Note: Certain of the graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

Only 6 credit hours at the 1000 level in each of Physics, Chemistry and Mathematics can be used to fulfil the 120 credit hours required for the Honours program. The inclusion of Mathematics 1090, the sequence of Physics 1020, 1021, and 1051 or the substitution of Chemistry 1010, 1011 and 1031 for Chemistry 1050 and 1051 will each increase the number of credit hours required for the Honours Physics program by three.

An Honours thesis is to be presented on work undertaken by the candidate under the guidance of a Department of Physics and Physical Oceanography faculty member. The thesis comprises the 6 credit hour course Physics 490A/B. Students should seek departmental advice regarding a thesis project no later than the winter preceding the semester in which the project will be started.

The Honours Physics program in and beyond the third year requires a familiarity with computer programming and numerical analysis. In choosing electives for this program, the Department recommends that students supplement the prescribed program with the following courses Computer Science 2602 and 3731 (or Mathematics 2130 and 3132). Mathematics 2051 and 3000 are also suitable electives. For specific courses and recommendations about electives, consultation with a faculty advisor in the Department is suggested.

The Department recommends that students wishing to complete the Honours Physics program in 120 credit hours follow the schedule given below. This schedule is intended for students who qualify for Physics 1050 and 1051. Other suggested course schedules are available from the Head of the Department.

Recommended Course Schedule - Honours Physics Program

Year	Semester I	Semester II
I	Chemistry 1050 English 1080 Mathematics 1000 Physics 1050 Elective	Chemistry 1051 Computer Science 1510 English 1110 (1101, 1102) Mathematics 1001 Physics 1051
II	Mathematics 2000 Mathematics 2050 Physics 2053 Physics 2820 Elective	Mathematics 3202 Mathematics 3260 Physics 2055 Physics 2750 Elective
III	Physics 3220 Physics 3400 Physics 3500 Physics 3750 Physics 3820	Physics 3900 Physics 3600/4500 Physics 3230/4400 Physics 4820 Physics Elective
IV	Physics 4900 Physics 4850 Physics 490A Physics Elective Elective	Physics 4500/3600 Physics 4400/3230 Physics 490B Physics Elective Physics Elective

7.10.4 Major in Environmental Physics

- English 1080 and English 1110 (or equivalent)
- Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031)
- Mathematics 1000 and 1001
- Mathematics 2000, Mathematics 2050, Mathematics 3202, Mathematics 3260
- Physics 1050 (or 1020) and 1051
- Physics 2053, 2055, 2750, 2820, 3220, 3820, 3300, 3340, 4340
- Physics 3400 or 3500
- Earth Sciences 1000, 1002, 2502, 3170, 3172
- Geography 2102, 2195, 3120
- Biology 2120, 2600

The Major degree offers students a fair degree of latitude in choosing electives, students are encouraged to take electives from Geography and Earth Sciences: of particular merit would be any of Earth Sciences 3600, 3611 or 4105.

7.10.5 Honours in Environmental Physics

- English 1080 and English 1110 (or equivalent)
- Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031)
- Mathematics 1000 and 1001
- Mathematics 2000, Mathematics 2050, Mathematics 3202, Mathematics 3260
- Physics 1050 (or 1020) and 1051
- Physics 2053, 2055, 2750, 2820, 3220, 3300, 3340, 3820, 4205, 4300, 4340, 4820, 490A/B
- Physics 3400 or 3500
- Earth Sciences 1000, 1002, 2502, 3170 and 3172
- Geography 2102, 2195, 3120
- Biology 2120, 2600

An honours thesis is to be presented on work undertaken by the candidate under the guidance of a Department of Physics and Physical Oceanography faculty member. The thesis comprises the 6 credit hour course Physics 490A/B. Students should seek departmental advice regarding a thesis project no later than the winter preceding the semester in which the project will be started.

The Department recommends that students wishing to complete the Honours Environmental Physics program in 120 credit hours follow the schedule given below. This schedule is intended for students who qualify for Physics 1050 and 1051. Other suggested course schedules are available from the Head of the Department.

Those courses in which a grade of "B" or better or an average of 75% or higher are required, as specified under **Academic Standing, clause 1** of the **Regulations for the Honours Degree of Bachelor of Science**, are 45 credit hours in Physics courses, and 15 credit hours in other courses (beyond the 1000 level) selected from the specified program courses in Earth Sciences, Geography and Biology.

Recommended Course Schedule - Honours Environmental Physics Program

Year	Semester I	Semester II
I	Chemistry 1050 Earth Sciences 1000 English 1080 Mathematics 1000 Physics 1050	Chemistry 1051 Earth Sciences 1002 English 1110 Mathematics 1001 Physics 1051
II	Geography 2102 Mathematics 2000 Mathematics 2050 Physics 2053 Physics 2820	Geography 2195 Mathematics 3202 Mathematics 3260 Physics 2750 Elective

Credit Restrictions for Present Physics Courses with Former Courses Table

Credit May Be Obtained For Only One Course From Each of The Pairs of Courses Listed in This Table

Present Course	Former Course	Present Course	Former Course
1020	1200	1051	2050
1021	1201	1051	1061
1051	1052	3750	3700
2820	2200	3750	3850
2053	2450	490A/B	4990
2055	2550	1051	2054
2750	2700	1051	2550
3220	3200	4400	3410
3230	2210	4820	3821
		4900	3920

Physics 1021 and the former Physics 1201 will be considered equivalent for prerequisite purposes. Physics 1051 and 2820 will be considered equivalent to the former Physics 1054 and 2054 for prerequisite purposes. Physics 1051 and the former Physics 1052 and 2050 will be considered equivalent for prerequisite purposes.

Not all courses are offered every year. Students should check with the Department prior to registration to plan programs.

7.11 Psychology

www.mun.ca/psychology/index.php

The following undergraduate programs are available in the Department.

1. **Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
2. **Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
3. **Biology and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
4. **Biology and Psychology Joint Honours (B.Sc. Hons. only)**
5. **Major and Honours in Behavioural Neuroscience (B.Sc. only)**
6. **Major and Honours in Behavioural Neuroscience (Co-operative) (B.Sc. Hons. only)**
7. **Major and Honours in Psychology (B.A. or B.Sc.)**
8. **Major and Honours in Psychology (Co-operative) (B.A. or B.Sc.)**
9. **Minor in Psychology (B.A. or B.Sc.)**

Details of the joint honours programs are given under the **Degree Regulations** of the Faculty of Science.

Psychology course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Psychology**.

7.11.1 Admission to Major Programs

Admission to the Major programs in the Department of Psychology is competitive and selective. Students who wish to enter these programs must submit a completed application form to the Psychology Department by June 1 for Fall semester registration. When resources permit, applications will also be considered if received by October 1 for Winter semester. To be eligible for admission, students must have completed the 24 credit hours as listed below with an average of at least 65% in Psychology 1000/1001 and an overall average of at least 60% in Psychology, English, and Mathematics:

1. Psychology 1000, 1001
2. English 1080 and one of 1101, 1102, 1103, or 1110, or equivalent.
3. Mathematics 1000, or two of 1090, 1050, 1051 (or equivalent).
4. Six credit hours of electives (9 if only Mathematics 1000 is completed).

Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance, normally cumulative average and performance in recent courses.

7.11.2 Admission to Honours Programs

The Honours programs in the Department of Psychology are designed for students who would like to concentrate their studies or pursue graduate work. Students who wish to be admitted to these programs must submit an "Application for Admission to Honours Program Faculties of Arts or Science" to the Department of Psychology by June 1 for Fall semester registration and by October 1 for Winter semester. To be eligible for admission, students must have completed Psychology 2910, 2911, 2520, and 2570 and obtained in these courses a grade of "B" or better, or an average of 75% or higher. Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance in the required courses. In special circumstances, students may be admitted to Honours Programs at times other than June and October.

Note: Students are advised to consult the general regulations for **Honours in the Faculty of Arts** or the **Faculty of Science**, as appropriate.

7.11.3 Requirements for a Major in Psychology

Students completing this program cannot receive credit for Psychology 2920.

1. Students may Major in Psychology as part of either a B.A. or a B.Sc. program. All Majors are required to complete a minimum of 42 credit hours of Psychology as listed below:
 - a. Psychology 1000, 1001, 2520, 2570, 2910, 2911
 - b. Twelve credit hours in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750, 3800 or 3801.
 - c. Twelve credit hours of 4000-level courses in Psychology, of which at least one must be a research experience course and one must be a selected topics course.
2. Psychology Majors following the B.Sc. program are also required to complete the following:
 - a. Mathematics 1000 (or equivalent).
 - b. Biology 1001 and 1002
 - c. Either Chemistry 1010 and 1011 (or 1050 and 1051); OR Physics 1020 (or 1050) and 1021 (or 1051)
 Note: First year students should think carefully about whether Chemistry or Physics best suits their future program needs. Students should examine the prerequisites for upper-level science courses and attempt to take them in their first year.
 - d. Six credit hours of laboratory courses at the 2000 level or above in one of Biology, Chemistry, or Physics.
 Note: Biology/Psychology 3750 and Biology/Psychology 4701 cannot be used to satisfy the requirement of 6 laboratory credit hours at the 2000 level or above in either Biology, Chemistry, or Physics.
3. Psychology Majors following the B.A. program are also required to complete Mathematics 1000 or two of 1090, 1050, 1051 (or equivalent), and are encouraged to complete at least 6 credit hours in Biology.

7.11.4 Requirements for Honours in Psychology

Students completing this program cannot receive credit for Psychology 2920.

1. Honours students in Psychology are required to complete the 60 credit hours of Psychology as listed below:
 - a. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3900, 4910, 499A/B
 - b. Eighteen credit hours chosen from the alternatives listed in Clause 1. b. of the requirements for a Major in Psychology
 - c. Twelve credit hours of 4000-level courses in Psychology, of which at least one must be a research experience course and one must be a selected topics course.
2. Honours students must also complete the requirements listed in either Clause 2. or Clause 3., as applicable, of the requirements for a Major in Psychology.
3. Honours students will be required to submit in their graduating year, an undergraduate thesis (Psychology 499A/B) which demonstrates their competence in Experimental Psychology.

7.11.5 Requirements for a Major in Behavioural Neuroscience (B.Sc. Only)

Students completing this program cannot receive credit for Psychology 2920.

A program is offered in the Psychology Department to provide an education in Behavioural Neuroscience. Students planning to enroll in the program are advised to consult with the Head of the Department at the earliest opportunity because certain course choices may restrict later options. Students who intend to pursue graduate studies should take courses leading to the Honours degree.

The program for a Major in Behavioural Neuroscience shall include:

1.
 - a. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801
 - b. Six credit hours in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750.
 - c. Six credit hours of 4000 level courses in Psychology, of which one must be a research experience course.
2.
 - a. Mathematics 1000 (or equivalent) and 1001
 - b. Chemistry 1010 and 1011 (or 1050 and 1051), and 2440 (or 2400/2401)
 - c. Physics 1020 (or 1050) and 1021 (or 1051).
 - d. Biology 1001 and 1002
 - e. English 1080 and one of 1101, 1102, 1103, or 1110, or equivalent
3. Eighteen credit hours from the following courses chosen from at least two different sciences:
 - a. Biochemistry: Any 2000-, 3000-, or 4000-level course except 2000, 2005, 2010, 2011, 3202, 3402, or 4502
 - b. Biology: 2060, 2210, 2250, 2900, 3050, 3160, 3202, 3295, 3401, 3500, 3530, 3540, 3750, 4200, 4241, 4245, 4250, 4402, the former 4450, 4601, 4605, 4701, the former 4900 (see note below)

- c. Chemistry: 2210, 2301 (or 2300) or any 3000 or 4000 level course
- d. Computer Science: Any 2000, 3000, or 4000 level course except 2650 and 2801
- e. Mathematics: 2000, 2050, 2051, 3000, 3001 or any 3000 or 4000 level pure or applied mathematics course
- f. Physics: Any 2000, 3000, or 4000 level course except 2151, 3150, 3151

Notes: 1. Credit may not be obtained for both Biology 3750 and either Psychology 3750 or Psychology 4770, or for both Biology 4701 and Psychology 4701.

2. The courses listed under Clause 3 may have prerequisites. It is the student's responsibility to ensure that all prerequisites have been met, or that waivers have been obtained, before registering for these courses.

7.11.6 Requirements for Honours in Behavioural Neuroscience (B.Sc. Only)

Students completing this program cannot receive credit for Psychology 2920.

1. Honours students in Behavioural Neuroscience are required to complete the following Psychology courses: 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900, 499A/B, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
2. Honours students in Behavioural Neuroscience must also complete the requirements listed in Clauses 2. and 3. of the requirements for a Major in Behavioural Neuroscience.
3. In accordance with **Academic Standing, clause 1** of the **Regulations for the Honours Degree of Bachelor of Science**, Honours candidates must obtain a grade of "B" or better, OR an average of 75% or higher in all the required courses listed in Clauses 1. and 3. of the requirements for a major in Behavioural Neuroscience and Clause 1 of the requirements for honours in Behavioural Neuroscience, except those at the 1000 level.

7.11.7 Requirements for a Minor in Psychology

Students who Minor in Psychology are required to complete a minimum of 24 credit hours of Psychology as follows:

- a. Psychology 1000, 1001, 2920
- b. Fifteen other credit hours of Psychology.

7.11.8 Requirements for Major and Honours in Psychology (Co-operative) (B.A. or B.Sc.), and Major and Honours in Behavioural Neuroscience (Co-operative) (B.Sc. only)

Psychology Co-op Program (PCOP)

The Psychology Co-op Program (PCOP) is available to full-time Psychology (B.A. and B.Sc.) and Behavioural Neuroscience Majors and Honours students only.

The PCOP provides an opportunity for students to learn valuable practical skills while working in fields related to Psychology. Students complete three Work Terms, which consist of full-time paid employment. The timing of the Work Terms is such that employers stand to gain from the acquired skills of psychology majors in training. The objectives of the Work Term component of the PCOP are embodied in the **Work Term Descriptions**.

7.11.8.1 Admission Requirements

1. Admission is limited, competitive, and selective.
2. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with average overall academic records are unlikely to be admitted.
3. Students must first be admitted to the Psychology (B.A. or B.Sc.) or Behavioural Neuroscience Major.
4. To be eligible for admission, students must have completed a minimum of 30 credit hours with an overall average of at least 65%, and an average of at least 65% in all Psychology courses. Students must have a passing grade in all required courses, and must be registered for 15 additional credit hours in the semester in which they apply.
5. The deadline date for application is November 15.

7.11.8.2 Program of Study

1. In addition to the requirements below students must fulfill all requirements for either a Major in Psychology (B.A.), a Major in Psychology (B.Sc.), Major in Behavioural Neuroscience, Honours in Psychology (B.A), Honours in Psychology (B.Sc.), or Honours in Behavioural Neuroscience. Courses in each program are normally taken in blocks as shown in the appropriate program table. Students should consult with a faculty advisor each semester regarding course selection.
2. Students' status in the program is assessed at the end of each semester. To remain in PCOP, students must receive a passing grade in all required courses, and must maintain an average of at least 65% in all Psychology courses and a cumulative average of at least 65%. A student who fails a required course, fails to maintain an average of 65% in Psychology courses, or fails to maintain a cumulative average of 65%, will be required to withdraw from PCOP. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the required average.
3. Students are required to complete three work terms at the prescribed times.

7.11.8.3 Work Term Placement

1. General management of the work terms in PCOP is the responsibility of the Division of Co-operative Education (DCE). It is responsible for assisting potential employers to become involved in the program, organizing competitions for Work Term employment, arranging student-employer interviews and facilities, data base management, and for the continual development of employment opportunities. A program co-ordinator from the DCE will work with the department to counsel students, visit students on their work assignments and evaluate the work term.
2. Work placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, the DCE has no responsibility for placement until they have been re-admitted to the program.
3. A student who applies for admission to the co-op program gives permission to the University to provide a copy of the applicant's resume, university transcript and work term evaluations to potential employers.
4. A student who has been accepted to PCOP may obtain his/her own work term placement outside the competition. Such employment positions must be confirmed by the employer, and must be approved by the Co-ordinator.

5. Students are expected to submit to the Co-ordinator, within a month from starting a Work Term, a plan of the intended work that term.
6. Salaries paid to co-operative students are determined by employers based on their internal wage structures. However, students should not expect the income from work terms to make them completely self-supporting.

7.11.8.4 Registration and Evaluation of Performance

1. In Work Terms I, II, and III, students must register for Psychology 199W, 299W, and 399W respectively.
2. Student performance evaluations are to be completed by the employer and returned to the Co-ordinator. The Work Term evaluations shall consist of two components:
 - a. On-the-job Student Performance: Job performance shall be assessed by the Co-ordinator in consultation with the Department using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought. Evaluation of the job performance will result in one of the following classifications: PASS WITH DISTINCTION, PASS, FAIL.
 - b. The Work Report
 - i. Students are required to submit a Work Term report to the Co-ordinator on the first day of final exams.
 - ii. Work Term reports shall be evaluated by a faculty member and the Co-ordinator.
 - iii. If an employer designates a report to be of a confidential nature, both employer and the Co-ordinator must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
 - iv. Reports must contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. The topic must be approved by the Co-ordinator or a faculty member of the Department of Psychology.

Evaluation of the work term report will result in one of the following classifications: PASS WITH DISTINCTION, PASS, FAIL.

The evaluation of the job performance and the work term report are recorded separately on the transcript. Overall evaluation of the work term will result in one of the following final grades being awarded:

- Pass with Distinction: Indicates OUTSTANDING PERFORMANCE in both the work report and the job performance.
- Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and the job performance.
- Fail: Indicates FAILING PERFORMANCE in the work report or the job performance, or both.

To remain in PCOP, a student must obtain a final grade of PAS.

3. If a student fails to achieve the Work Term standards specified above, the student will be required to withdraw from PCOP. Such a student may reapply to the program, at which time the student will be required to repeat the Work Term with satisfactory performance. Only one Work Term may be repeated in the entire program.
4. In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadline date specified in **Admission Requirements**.
5. A student who withdraws from a Work Term without acceptable cause subsequent to a job placement will be required to withdraw permanently from PCOP.
6. Students who drop a Work Term without prior approval from both the Co-ordinator and the Head of the Department of Psychology, or who fail to honour an agreement to work with an employer, or conduct themselves in such a manner as to cause their discharge from the job, will be awarded an overall grade of FAL for the Work Term in question and will be required to withdraw permanently from PCOP.
7. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.

7.11.9 Suggested Course Sequences

The tables below show suggested course sequences for the **B.A. in Psychology (Co-operative)**, the **B.Sc. in Psychology (Co-operative)**, the **B.A. Honours in Psychology (Co-operative)**, the **B.Sc. Honours in Psychology (Co-operative)**, the **B.Sc. in Behavioural Neuroscience (Co-operative)**, and the **B.Sc. Honours in Behavioural Neuroscience (Co-operative)**.

Suggested Course Sequence for B.A. in Psychology (Co-operative)

Term	Suggested Courses
Fall Semester 1	Psychology 1000 English 1080 Mathematics 1000 or one of Mathematics 1090, 1050, 1051 Elective or Arts requirement Elective or Arts requirement
Winter Semester 2	Psychology 1001 English 1101, 1102, 1103, or 1110 One other of Mathematics 1090, 1050 or 1051* Elective or Arts requirement Elective or Arts requirement
Fall Semester 3	Psychology 2910 Psychology 2520 (or 2570) Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement
Winter Semester 4	Psychology 2911 Psychology 2570 (or 2520) Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement
Spring Work Term 1	Psychology 199W
Fall Semester 5	3000-Level Core 3000-Level Core Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement

*Students registered in Chemistry 1050 must also be registered in Mathematics 1000 (not 1090). **or Mathematics 1000 (Semester 1) and Mathematics 1001 (Semester 2). ***or Chemistry 2400/2401 ****Students registered in Physics 1050 must also be registered in Mathematics 1000 (not 1090). *****BHNR Requirement 1-6 refers to the requirement specified in clause 3, Requirements for a Major in Behavioural Neuroscience (B.Sc. Only) .	

7.12 Science

Science course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Science**.

8 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

8.1 Biochemistry

Biochemistry courses are designated by BIOC.

1430 Biochemistry for Nurses is an introduction to the chemistry and

structure-function relationships of carbohydrates, lipids and proteins. It will examine the basic metabolism of carbohydrates and fats, with emphasis on the biochemical fluctuations that occur in human health and disease, and will include a brief introduction to molecular genetics. Prospective fast-track program students should consult with the School of Nursing concerning

admission to this course.

CR: the former BIOC 2430

LC: 4

PR: Level 3 Chemistry or Chemistry 1010 or Chemistry 1810 or equivalent, and acceptance to Bachelor of Nursing (Collaborative)

UL: may not be used for credit to fulfil the requirements for a major in the Department of Biochemistry

2000 Principles of Food Science - inactive course.

2005 Food, Food Safety, and Health introduces the concepts of the composition of foods, and how the processing of food affects sensory appeal, shelf life and nutrient composition. Common food and water-borne illnesses (risks and prevention) are covered in the course content. Students will also be introduced to food biotechnologies, including genetically modified organisms, nutraceuticals and the development of functional foods.
CO: Chemistry 2400 or 2440

2010 Introductory Foods I - inactive course.

2011 Introductory Foods II - inactive course.

2100 Introduction to Molecular Biology and Genetics will cover the heritability of simple traits from phenotype to genotype; the discovery of DNA as the molecule of heredity; the structure and function of DNA; the elucidation of the genetic code; and the manipulation of DNA for recombinant DNA technology and biotechnology.

CO: BIOC 2101, Chemistry 2401, Physics 1021 or 1051. Students may replace the co-requisite Chemistry 2401 with Chemistry 2440 as a prerequisite. Chemistry 2440 may not be taken as a co-requisite of 2100

CR: Biology 2250

LH: 3 on alternate weeks

PR: BIOC 2101, Chemistry 2401, Physics 1021 or 1051. Students may replace the co-requisite Chemistry 2401 with Chemistry 2440 as a prerequisite. Chemistry 2440 may not be taken as a co-requisite of 2100

2101 Introduction to Biochemistry is an introduction to the major organic substances of living organisms, proteins, carbohydrates and lipids; their structure, analysis and biochemical function. Other topics will include: enzymes; the biochemistry of membranes, including the plasma membrane and specialized intracellular membranes; and the biochemistry of selected differentiated cells.

CR: Pharmacy 2004, or the former Pharmacy 3110

LH: one three-hour laboratory period on alternate weeks

PR: Chemistry 2400 and 2401, or Chemistry 2440; and Physics 1020 or 1050, and 1021 (or 1051). Chemistry 2401 and Physics 1021 or 1051 can be done concurrently

2600 Introduction to Human Nutrition (same as HKR 2600) gives an overview of human nutrition with an emphasis on topics of current interest. Students will gain an understanding of nutrition in the context of health maintenance across the life span. Topics covered will include nutrition during pregnancy, nutrition for infants, Canadian Recommended Nutrient Intakes / Dietary Reference Intakes, weight loss and weight gain, nutraceuticals and ergogenic aids.

CR: HKR 2600 or the former Kinesiology 2600

3052 Food Microbiology (same as Biology 3052) is the study of the microbiology of water and food with regard to the beneficial and detrimental roles of microorganisms on interaction with these systems. Emphasis will be on the microbiology of food, fermentations, food spoilage and food borne vectors of human disease.

CR: BIOC 3054, Biology 3052, and the former BIOC 3401

LC: three hours per week

LH: three hours per week

PR: Biology 3050

3054 Fundamentals of Food Microbiology - inactive course.

3105 Physical Biochemistry examines topics such as: types of intermolecular forces in biomolecules; the folding of biomolecules and the role of water; pH, buffers, and ionisation of biomolecules; thermodynamics: equilibria, coupled reactions, transport across membranes and redox reactions; and ligand binding. Other topics will include: size and shape of biomolecules; isotopes in biochemistry; and, spectroscopy of biomolecules.

OR: a two hour problem-solving class

PR: BIOC 2101; and Chemistry 2300 or 2301 or Physics 2053

3106 Metabolism examines the catabolism of carbohydrates, lipids and amino acids. Other topics will be: mitochondria, chloroplasts and ATP synthesis; biosynthesis of carbohydrates and lipids; metabolic specialization of differentiated cells and tissues; and, integration of metabolism.

CR: the former BIOC 3102 or Pharmacy 3111

LH: one three-hour laboratory or one-hour tutorial per week

OR: one-hour tutorial or one three-hour laboratory per week

PR: BIOC 2101

3107 Nucleic Acid Biochemistry and Molecular Biology examines the

structure, function and biochemistry of DNA and RNA and the biochemical processes in the flow of information from the gene to protein. These will include: DNA replication, recombination and repair processes; transcription of RNA and RNA splicing; and protein synthesis. The regulation of gene expression will also be covered at an introductory level. The course will also include an introduction to cloning methodology.

LH: up to four hours per week which will normally consist of one three hour laboratory period plus one additional hour on the following day.

PR: BIOC 2101; and BIOC 2100 or Biology 2250

3108 Molecular Biochemistry of the Cell focuses on the molecular biochemistry of intracellular regulation, including advances in topics such as signal transduction, apoptosis and cancer. Other topics will include protein processing and sorting, cyclins, G-protein structure, function and regulation, cell adhesion molecules and the structure of the extracellular matrix.

PR: BIOC 2100 or Biology 2250; and BIOC 2101

311A/B Human Physiology - inactive course.

3202 Community Nutrition - inactive course.

3203 Fundamentals of Human Nutrition is the cornerstone course for the study of nutrition. The sources, uptake and physiologic roles of essential nutrients will be discussed in the context of growth, maintenance, reproduction and overall health in humans.

CO: BIOC 3106

CR: the former BIOC 3201

PR: BIOC 2101, 2600

3402 Food Chemistry examines the following topics: water structure and the role of water in chemical reactions and mechanical properties of foods; chemistry and physical properties of carbohydrates, proteins and lipids; food dispersions; pigments and natural colorants; food flavour; enzyme properties and applications; vitamins and minerals; chemistry of enzymic and non-enzymic browning; characteristics of: muscle tissue, milk, eggs, bread and edible plant tissue; food additives; and, chemical changes in foods during processing.

LH: one period per week

PR: BIOC 2000 or 2005; BIOC 2101; Chemistry 2440 or Chemistry 2401

3600 Sports and Exercise Nutrition deals with the specific roles of nutrients in sport and exercise, and the application of nutrition to sport and exercise.

CR: the former BIOC 4241

PR: BIOC 2600 or HKR 2600 or the former BIOC 3200/3201; and one of BIOC 311B, MED 310B, HKR 2320

4002 Biochemical Regulation examines metabolic regulation at the cellular and multicellular level. Topics will include: control theory; hormones: their biosynthesis and mechanism of action; signal transduction; and, endocrine coordination of metabolic processes. Principles will be illustrated by the use of case studies from the medical and veterinary literature.

LC: two to three hours per week, together with assigned reading and case studies

PR: BIOC 2100 or Biology 2250; BIOC 3106

4101 Proteins will review the history of protein research and the general properties of proteins and include other topics such as: strategy and methods for purification; chemical structure, properties, modification and determination of the protein amino acids; sequencing strategy, chain cleavage methods and end group analysis; folding of the protein main chain and techniques to determine structure; and, the relationship between structure and function: protein filaments, motors and regulators. It will also cover disease-related proteins and other examples from the current literature.

LC: two to three hours per week, together with assigned reading

PR: BIOC 3105

4102 Current Topics in Biochemistry is a seminar course in which faculty and students will discuss topics of current interest in the biochemical literature. Students will be responsible for reading and critically assessing recent literature.

PR: Honours Biochemistry students in their final year or permission of the Head

4103 Prokaryotic Gene Regulation is a detailed and up-to-date treatment of the mechanisms of genetic regulation found in bacterial cells. The course will develop topics based on the evidence of bacterial genetics and modern molecular biological experiments. Topics may include: theory of mutations, RNA transcription, positive and negative regulation of transcription; regulation of protein synthesis; control of DNA replication; bacterial operons and regulons; developmental molecular biology in bacterial systems; and evolution and molecular biology of organelles.

PR: BIOC 3107

4104 Eukaryotic Gene Regulation and Developmental Biology details the cellular and molecular aspects of eukaryotic gene regulation and development. Topics to be covered will include the DNA content and organization of eukaryotes, mechanisms controlling the expression of eukaryotic genetic information at the transcriptional and post-transcriptional

levels, and the methodologies used to define these mechanisms. Detailed consideration will be given to the cell-surface events which regulate nuclear gene expression and cell lineage specification. Developmental mechanisms operating in a number of model systems will be discussed.

PR: BIOC 3107 or 3108

4105 Immunology (same as Pharmacy 4105) is taught and administered by the School of Pharmacy. The course is an introduction to the molecular and cellular basis of immunity and hypersensitivity, and will include a discussion of the manipulation of the immune system in the management and treatment of disease.

CO: BIOC 2101, and either BIOC 311B or Medicine 310B

CR: Pharmacy 4105 and the former Pharmacy 3105

OR: tutorials

PR: BIOC 2101, and either BIOC 311B or Medicine 310B

4200 Bioenergetics and Biological Oxidation examines topics such as: respiration and electron transport; the functional organization of energy transducing membranes; the structure and function of flavoenzymes, cytochromes, iron-sulfur proteins and quinones; enzyme reduction of oxygen; and, free radicals in biological systems.

LC: two to three hours per week and assigned reading

PR: BIOC 3106

4201 Membranes - Structure and Function examines the structure of model and biological membranes, the molecular interactions between membrane components and the effects of these interactions on the biophysical and functional properties of membranes. Other topics will include the structure-function of specialized membranous systems, such as lipoprotein, lung surfactant, and lipid rafts; membrane lipid composition in biochemical adaptation and function; and the role of membrane proteins in intracellular trafficking, receptor function, enzymatic activity and membrane-related diseases.

PR: BIOC 3105

4210 Biochemical Research Techniques I examines the proteome and the genome. This course is designed to familiarize students with current methodology employed in the analyses of the complements of proteins and genes resident in eukaryotic cells. Emphasis will be placed on techniques that facilitate the simultaneous functional analyses of large numbers of proteins or genes. A variety of techniques, used in the study of expression and functional proteomics, will be described, including 2D PAGE, tagged proteins, fluorophores, mass spectrometry and protein microarrays. Techniques used in the study of gene expression and functional genomics will also be described, including the use of reporter gene constructs, analysis of protein-DNA interactions, expressions of cloned genes and several experimental approaches used to define the eukaryotic transcriptome.

AR: attendance is required

PR: BIOC 3105

4211 Biochemical Research Techniques II is designed to familiarize students with methods used for the study of cellular and subcellular metabolism. This course may include a research project.

AR: attendance is required

LC: times as arranged

LH: times as arranged

PR: BIOC 3106

4220 Introduction to General and Autonomic Pharmacology (same as Medicine 4300) deals with the general principles of pharmacology (dose-response relationship, drug-receptor interaction, absorption, distribution, metabolism, excretion of drugs), and drugs that affect neuromuscular and autonomic neurotransmission, the cardiovascular, gastrointestinal, and central nervous systems, and autacoids/prostanoids.

CO: BIOC 3106 or Pharmacy 3111

CR: Medicine 4300

LH: 3

PR: BIOC 311A/B or Medicine 310A/B or Pharmacy 2002/2003 (or the former Pharmacy 3201/3202)

4230-4239 Special Topics in Biochemistry will be given for senior undergraduates, and will cover a range of topics in specialized fields in Biochemistry. They may be taught by visiting specialists when available.

PR: to be determined at the time of offering

4240 Nutrigenetics and Nutrigenomics is designed to familiarize students with emerging discoveries in the area of diet-gene interaction and to further their understanding of the relationships between the genome and diet as well as the potential to design personalized diets for better health. Students will develop an appreciation for the role of nutrients in the prevention and/or development of disease.

PR: BIOC 2100 or Biology 2250; BIOC 3106; and one of BIOC 3203 or the former BIOC 3200

4242-4249 Special Topics in Nutrition will be given for senior undergraduates, and will cover a range of topics in specialized fields in Nutrition. They may be taught by visiting specialists when available.

PR: to be determined at the time of offering

4300 Advanced Nutrition is a course in which current controversies and trends in human nutrition are presented and discussed using the scientific literature.

PR: BIOC 3203 or the former BIOC 3200/3201, and either BIOC 311B or Medicine 310B

4301 Nutrition and Disease is a course which addresses the scientific basis for nutritional intervention in chronic human disease.

PR: BIOC 3203 or the former BIOC 3200/3201, and either BIOC 311B or Medicine 310B

4400 Food Analysis - inactive course.

4502 Techniques in Nutrition Research is a seminar course in which faculty and students will discuss concepts and methods used in the study of nutrition. Students will be responsible for reading and critically assessing recent literature.

PR: BIOC 4301

PR: Honours Nutrition students in their final year or permission of the Head

499A and 499B Dissertation is a two-semester linked course based on independent study of a problem in Biochemistry. The subject of study will be decided in consultation with Faculty advisors and must be approved in advance by the Department. This dissertation is obligatory for Honours students in Biochemistry. The dissertation will be submitted as a formal written report accompanied by appropriate illustration before the end of the tenth week of the second semester. Before the end of his/her final semester the student will give an oral presentation of his/her research.

CH: 6

PR: Honours students in their final year or permission of the Head

8.2 Biology

According to the nature of particular courses, the specified number of laboratory hours may consist of some combination of laboratory work, seminars or directed independent study relevant to the practical aspects of the subject matter.

Biology courses are designated by BIOL.

1001 Principles of Biology is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.

LH: 3

UL: credit may be obtained for only 6 1000-level credit hours in Biology

1002 Principles of Biology is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.

LH: 3

PR: BIOL 1001

UL: credit may be obtained for only 6 1000-level credit hours in Biology

2010 Biology of Plants is a study of the structure, function and reproductive biology of plants, with emphasis on the vascular plants, and on their relationship to environment and human activities.

LH: 3

PR: BIOL 1001 and 1002; Chemistry 1010 or 1050 (or the former Chemistry 1000)

2040 Modern Biology and Human Society I examines various aspects of the human body, and the implications of modern biological research for human beings. Topics include cancer; diet and nutrition and associated diseases; circulatory disease, immunity, human genetics, biorhythms, new diseases, genetic engineering and reproductive engineering.

OR: seminars

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology

2041 Modern Biology and Human Society II examines the origins and consequences of the environmental crisis of the 20th century. Topics include the population explosion, energy, material cycles, air and water and land pollution, global food supplies, the fisheries, wildlands, renewable and non-renewable resources, environmental ethics.

OR: seminars

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology

2060 Principles of Cell Biology is a modern view of the biology of eukaryotic cells, organelles and molecules and their interactions in the functioning of living organisms.

CO: Physics 1021 or 1051; Biochemistry 2101

CR: the former BIOL 3060

LH: 3

PR: Physics 1021 or 1051; Biochemistry 2101

PR: BIOL 1001, 1002 and 2250; Chemistry 2440 or 2400

2120 Biology for Students of Earth Sciences is an introduction of the principles of Biology for students in Earth Sciences. Topics will include principles of classification, levels of biological organization, fundamental

characteristics of living organisms and basic concepts in ecology.

CR: BIOL 1001 or 1002

LH: 3

PR: Earth Science major; Earth Sciences 1001 or 1002 or permission of the Head of Department.

UL: may not be used for credit by Biology Majors or Minors

2122 Biology of Invertebrates is a study of the invertebrates with emphasis on structure and function, adaptations and life histories. The laboratories will present a broad survey of the major invertebrate groups.

CR: the former BIOL 3122

LH: 3

PR: BIOL 1001 and 1002

2210 Biology of Vertebrates is a study of the vertebrates, with emphasis on structure and function, adaptations and life histories.

CR: the former BIOL 3210

LH: 3

PR: BIOL 1001 and 1002

2250 Principles of Genetics is an introduction to Mendelian and molecular genetics. Phenotype and genotype, behaviour of alleles in genetic crosses, chromosome theory of inheritance, genetic linkage, molecular biology of DNA, RNA and protein, molecular basis of mutation, recombinant DNA, applications of genetic biotechnology.

CO: Chemistry 2440 or 2400

CR: the former BIOL 3250

LH: 3

PR: BIOL 1001 and 1002; Chemistry 1010 and 1011 (or 1050/1051)

PR: Chemistry 2440 or 2400

2600 Principles of Ecology is a conceptual course introducing the principles of ecology, including theoretical, functional and empirical approaches.

CR: the former BIOL 3600

LH: 3

PR: BIOL 1001 and 1002

2900 Principles of Evolution and Systematics is an introduction to the processes and patterns of evolution, and the principles of classification. Natural selection and other microevolutionary processes, variation and adaptation, species and speciation, phylogenetic systematics, reconstruction of phylogeny, macro-evolutionary patterns in the fossil record and their interpretation.

CO: Statistics 2550 (or equivalent)

CR: the former BIOL 3900

LH: 3

PR: BIOL 1001, 1002 and 2250

PR: Statistics 2550 (or equivalent)

3041 Boreal Flora - inactive course.

3050 Introduction to Microbiology is a course in which the basic principles underlying microbial life are studied. Aspects include structure, function, bioenergetics and growth with an emphasis on prokaryotes. Also studied are viruses, microbial diseases, introductory principles of immunology and the control of microorganisms. The laboratory sessions provide training in culture and determinative techniques using microorganisms.

LH: 3

PR: BIOL 1001 and 1002; Biochemistry 2101

3052 Food Microbiology (same as Biochemistry 3052) is the study of the microbiology of water and food with regard to the beneficial and detrimental roles of microorganisms on interaction with these systems. Emphasis will be on the microbiology of food, fermentations, food spoilage and food borne vectors of human disease.

CR: Biochemistry 3054, Biochemistry 3052, and the former Biochemistry 3401

LC: three hours per week

LH: three hours per week

PR: BIOL 3050

3053 Microbiology for Nurses examines the fundamentals of microbiology with an emphasis on medical microbiology. The course will include topics such as: host responses to infections, human diseases caused by microorganisms, and the control and exploitation of microorganisms.

LH: 2

PR: students admitted to the Bachelor of Nursing (Collaborative) program

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology, nor is it acceptable for any of the joint programs between Biology and other disciplines

3160 Insect Morphology and Physiology - inactive course.

3202 Comparative Vertebrate Anatomy examines the phylogenetic development and comparative anatomy of the vertebrates.

CR: the former BIOL 3200 or the former BIOL 3201

LH: 3

PR: BIOL 1001 and 1002

3295 Population and Evolutionary Ecology is an introduction to the theory and principles of evolutionary ecology and population dynamics.

CR: the former BIOL 4290

LH: 3

PR: BIOL 2600; at least one of BIOL 2010, 2122 or 2210

3300 Introductory Entomology is a study of the classification and ecology of insects within an evolutionary framework. Topics will include molecular biological and classical morphological issues surrounding insect taxonomy, evolutionary based higher systematics, and the ecological roles of insects in a variety of ecosystems.

CR: BIOL 4150 and the former BIOL 4140

LH: 3

PR: BIOL 2600. It is recommended that students have completed BIOL 2900.

3401 Comparative Animal Physiology is a comparative study of the basic physiological processes, with special attention paid to those strategies invoked by animals which enable them to adapt to environmental changes.

CO: Biochemistry 3106

CR: the former BIOL 4401

LH: 3

PR: BIOL 2060 and 2210

PR: Biochemistry 3106

3402 Principles of Plant Physiology is a consideration of the principles of plant physiology, including water relations, nutrition, metabolism, growth and development.

CO: Biochemistry 3106

CR: the former BIOL 4403

LH: 3

PR: BIOL 2010 and 2060

PR: Biochemistry 3106

3500 Histology is a study of microstructure and ultrastructure of tissues and organ systems in vertebrates, particularly mammals, with emphasis on correlating structure and function.

LH: 3

PR: BIOL 2060 and 2210

3530 Molecular and Developmental Biology is a study of developmental model systems with a focus on the underlying principles and molecular mechanisms involved in embryogenesis, organogenesis, morphogenesis, cellular differentiation, growth and regeneration in animals (vertebrates and invertebrates) and plants. Current cellular and molecular biology techniques and the implications of developmental biology in modern biological and health research will be emphasized.

LH: 3

PR: BIOL 2060 and BIOL 2250 or Biochemistry 2100

3540 Histotechnique - inactive course.

3610 Boreal Ecology is a study of the principal features of terrestrial ecosystems, with emphasis on the boreal region. This course may be offered in a usual 13 week semester or as a two-week field course.

CR: Environmental Science 3131

LC: either three hours of lecture and three hours of laboratory per week or a two week field course that embodies equivalent instructional time

LH: either three hours of lecture and three hours of laboratory per week or a two week field course that embodies equivalent instructional time

PR: BIOL 2010, 2250, 2600 and 2900; Statistics 2550 or equivalent

3620 Aquatic Microbial Ecology is a study of the nature, distribution and activities of microorganisms in the freshwater and marine environments. Field and laboratory work illustrate some of the investigative techniques used in this area of study.

CR: the former BIOL 3603

LH: 3

PR: BIOL 2600 and 3050; Statistics 2550 or equivalent

3640 Environmental Physiology of Animals covers physiological adaptations of animals facilitating their survival in natural environments with emphasis on physiological and biochemical responses of animals to extreme environments. Starting with the fundamental basis of physiological mechanisms, the course explores various aspects and the integration of major physiological processes (metabolism, respiration, osmoregulation) and how these relate to ecological niche.

CR: the former BIOL 3403 or the former BIOL 4455

PR: BIOL 2060 and 2210; Biochemistry 3106

UL: may not be used to fulfill the physiology course requirement for a Biology major, honours or joint honours program.

3709 Field Course in Marine Principles and Techniques begins with a two-week field school immediately prior to the beginning of the Fall Semester. In the Fall Semester there are follow-up lectures, readings and submission of reports. The course is designed to introduce the principal marine environments, organisms and techniques. It is strongly recommended that this course be taken before either BIOL 3710, 3711 or 4810.

PR: BIOL 2600; Statistics 2550 or equivalent and permission of the Head

of Department

3710 Biological Oceanography is an introductory course in biotic and abiotic factors controlling marine biomass and primary production, emphasizing plankton and fishes. It introduces students to major groups of marine phytoplankton, zooplankton, and fishes, emphasizing how the physical, chemical, and geological environments interact with biology to define processes and pattern in marine organisms.

LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

PR: BIOL 2122 and 2600

3711 Principles of Marine Biology is an introductory course in biology of the oceans. Introduces students to marine habitats and the organisms that inhabit them, emphasizing functional morphology, physiology, biodiversity, phylogeny, and ecology. Also includes introduction to marine biogeography, conservation, fisheries and pollution.

LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

PR: BIOL 2122, BIOL 2600

3712 Benthic Biology examines the biology of the aquatic benthos (bottom-dwelling organisms); their origins, adaptations, life histories and ecological roles. This course may be offered in a usual 13 week semester or as a two-week field course.

CR: the former Biology 3630

LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

PR: Biology 2122, 2600 and 3710

3714 Estuarine Fish Ecology Field Course examines community structure, function and distribution of northern coastal fishes in fjords and estuarine environments. Emphasis on sampling, field techniques, taxonomy, quantitative characterization, adaptations and habitat relationships. A comparative approach will contrast fish communities from other areas. To be held as a two week field course.

PR: BIOL 2600

3715 Ecology and Evolution of Fishes (same as the former BIOL 4600) examines the evolutionary history and ecology of the world's fishes, with particular emphasis on those of ecological, economical and cultural importance to Eastern Canada. Topics will include taxonomy, life histories, behaviour, zoogeography, evolutionary ecology, population biology, contemporary evolution, and conservation biology.

CR: the former BIOL 4600

LH: 3

PR: BIOL 2210, 2600 and 2900

3750 Animal Behaviour I (same as Psychology 3750) is an introduction to the mechanisms, development, function and evolution of behaviour in animals. Topics include the history of ethology and comparative psychology, and behavioural ecology; methods of animal behaviour study, behaviour of animals in relation to physiology, learning, communication, mating systems, and other areas in Biology and Psychology.

CR: Psychology 3750

PR: BIOL 1001 and 1002; Statistics 2550 or equivalent

3811 Paleontology (W) (same as Earth Sciences 3811) is taught and administered by the Department of Earth Sciences.

CR: Earth Sciences 3811, the former BIOL 3800, and the former Earth Sciences 3801

PR: either Earth Sciences 1002 and BIOL 2120 (or BIOL 1001 and 1002); or BIOL 2122 and 2210

3950 Research Methods in Genetic Biotechnology (same as the former BIOL 4900) will include DNA extraction, DNA amplification by the Polymerase Chain Reaction (PCR), DNA cloning, DNA sequence analysis and Bioinformatics. Additional modules in gene expression and re-sequencing chip technologies may be included. Theory and methods will be introduced in a research framework.

CR: the former BIOL 4900

LH: Three hours of lecture and three hours of laboratory per week or a three week on-campus course that embodies equivalent instructor time

PR: BIOL 2060 and 2250

3951 Introduction to Bioinformatics (same as Computer Science 3550) deals with the development and application of computational methods to address biological problems. The course will focus on the fundamental concepts, ideas and related biological applications of existing bioinformatics tools. This course will provide hands-on experience in applying bioinformatics software tools and online databases to analyze experimental biological data, and it will also introduce scripting language tools typically used to automate some biological data analysis tasks.

CR: Computer Science 3550

LH: 3

PR: BIOL 2060 or Biochemistry 2101, and one Computer Science course at the 1000-level or above excluding Computer Science 1600 and Computer Science 2000; or Computer Science 2500 or Computer Science 2710, and one Biology course at the 1000-level or above excluding BIOL 2040 and BIOL 2041; or permission of the course instructor

4000 Bacterial Systematics - inactive course.

4010 Virology will examine topics about viruses infecting all forms of life including humans and other animals, plants and bacteria. The scope within the course ranges from the molecular biology of virus replication to virus evolution and ecology. Current issues concerning viruses and society are incorporated into the course including the practical applications of viruses, vaccines, and emerging viruses.

LH: Three hours of laboratory/seminar/discussion per week

PR: BIOL 2900 and 3050

4012 Phycology - inactive course.

4014 Biology and Ecology of Boreal and Arctic Seaweeds is a field course examination of seaweed biology and ecology with special study of living specimens in estuarine, fjordic and exposed coastal sites, demonstrating their physiological and ecological adaptations to cold-water habitats. This course is offered at the Bonne Bay Marine Station during the Summer Semester with two weeks of instruction followed by a week to complete course requirements.

PR: BIOL 2600 or equivalent

4040 Mycology is a study of the physiology, morphogenesis, nature of plant and animal parasitism, ecology and taxonomy of terrestrial and freshwater fungi.

CR: the former BIOL 3020

LH: 3

PR: BIOL 2060 and 3050

4050 Advanced Topics in Microbiology examines the beneficial and harmful properties of microbes including topics on industrial microbiology and the discovery of new antimicrobial agents. The scope within the course ranges from the genetic manipulation of microbes for useful purposes to the isolation of bacteria for applications in various fields. Current issues concerning microbiology and society will also be discussed including the practical applications of microbes and bacterial diseases affecting society.

LH: 3

PR: BIOL 3050

4122 Advanced Topics in Marine Invertebrates provides an in-depth examination of physiological, ecological and behavioural adaptations in marine invertebrates. Lectures will be combined with discussions of relevant papers from the primary literature on topics of current interest, which may relate to functional morphology, ecology, evolution and natural history. Students will also gain practical research experience through the study of live and preserved animals.

LH: 3

PR: BIOL 2122, 2600 and 2900

4141 Nematology is a study of plant parasitic, insect parasitic and free-living marine, freshwater and terrestrial nematodes, with emphasis on taxonomy, biology, economic importance, control methodologies and environmental applications.

LH: 3

PR: BIOL 2010, 2122 and 2600

4150 Insect Systematics and Ecology - inactive course.

4180 General Parasitology is an examination of parasitism as a way of life, with emphasis on classification, structural adaptation, life cycles and ecology.

LH: 3

PR: BIOL 2122, 2210 and 2600

4182 Fisheries and Wildlife Parasitology is a study of the important parasites of fish and other wildlife and their impact on both individuals and populations.

LH: 3

PR: BIOL 4180

4200 Immunology is a study of vertebrate and invertebrate immune systems including antigens and antibodies and their reactions.

LH: 3

PR: BIOL 2060 and BIOL 3050

4241 Advanced Genetics has advanced topics in modern genetic analysis, including regulation of gene expression, developmental genetics, molecular basis of inherited disease, genomics, immuno-genetics, behavioural genetics, and molecular evolution.

LH: 3

PR: BIOL 2250 and Biochemistry 2101

4245 Biophysics is an examination of the physical properties involved in

defining diffusion, membrane properties, electrochemical potentials and the processes of bioenergetics within cells and organelles. Selected topics in biomechanics and the functioning of whole organisms with respect to size, shape, support, orientation, transport and motility.

LH: 3

PR: BIOL 2060 and Biochemistry 2101

4250 Evolutionary Genetics has advanced topics in the study of micro and macro-evolutionary phenomena. Genetic variation in natural populations; theory of genetic drift, mutation, migration, inbreeding, and natural selection; neutral theory of molecular evolution, patterns of nucleotide substitution, heritability and quantitative genetics.

LH: 3

PR: BIOL 2250 and 2900

4251 Genomics will have lecture, seminar, and laboratory components. Topics covered will include Technical Foundations of Genomics, Global Gene Expression Profiling, Bioinformatics, Comparative Genomics, Microbial Genomics, Genomics and Medicine, Genomics and Agriculture, Environmental Genomics, and Ethical Issues of Genomics. Each topic will involve a lecture component, in which theory and methods will be taught using the textbook and journal articles. Some lecture and lab times will be devoted to seminars on methods and papers related to lecture or laboratory components of the course. In the lab component, students will have the opportunity to use state-of-the-art genomic techniques to address a research question.

LH: 3

OR: seminar

PR: BIOL 2060, 2250

4255 Proteomics is the study of the proteome, the complete set of proteins produced by a species, using the technologies of large-scale protein separation and identification. Proteomics describes how proteins are modified, when and where they are expressed, how they are involved in metabolic pathways and how they interact with one another. Topics covered will include Technical Foundations of Proteomics, Global Functional Protein Expression Profiling, Experimental Bioinformatics, Comparative Proteomics, Posttranslational Modification-Specific Proteomics, Proteomics in Medicine, Agriculture, Environmental Proteomics and Proteomics for Quality and Safety of Food.

LH: 3

PR: BIOL 2060, 2250; Biochemistry 3106

4270 History of Biology is a consideration of the development of biological concepts as interactions between observations, philosophical systems and cultural environment. This course will normally require students to make verbal presentations to the class, participate in discussions and submit written papers.

OR: 3 hour seminar per week

PR: a minimum of 90 credit hours including a minimum of 9 credit hours from any of BIOL 2010, 2122, 2210, 2600 and including a minimum of 6 credit hours in Biology at the 3000 level or above, plus the permission of the Instructor

4306 Applied Biology is an examination of how biological and other sciences are applied to the problems of management and utilization of organisms at both the individual and systems level to meet human needs.

CR: the former BIOL 4303 or the former BIOL 4304

PR: BIOL 2060, 2250, 2600, 2900 and one of BIOL 2010, 2122 or 2210

4307 Global Change Biology examines the evolution of biosphere, global role of photosynthesis in oxygen and carbon dioxide balance, glacial-interglacial oscillations, carbon sources and sinks in modern biosphere, greenhouse gases emissions, population dynamics, origin and global impact of agriculture, global changes in Holocene and Anthropocene.

LH: 3

PR: BIOL 2600, BIOL 2900 or permission of the instructor

4360 Community and Ecosystem Ecology is a study of the basic principles, patterns and processes of ecological communities and ecosystems.

OR: a seminar/discussion group each week

PR: BIOL 2250, 2600 and 2900 and one of BIOL 2010, 2122 or 2210; Statistics 2550 or equivalent

4402 Electron Microscopy in Life Sciences - inactive course.

4404 Microbial Physiology is a study of the structure and growth of microorganisms. Themes covered in this course include the structure, function and regulation of the microbial cellular machinery, the hierarchical regulation of cellular activities, and communication between cells. Quantitative experimental methodology relating to microbial physiology is studied in the laboratory.

LH: 3

PR: BIOL 2250 and BIOL 3050

4405 Landscape Ecology is an introduction to the theory and principles of landscape pattern and processes, including issues related to scale, networks, landform and vegetation patterns, species distributions, and natural and human-caused aspects of landscape change.

CO: Statistics 2550 or equivalent

LH: 3

PR: Statistics 2550 or equivalent

PR: BIOL 2600 and 18 credit hours in Biology or permission from the course instructor

4505 Systematics and Biogeography is a study of the geographical distributions of plants and animals with particular reference to temporal and spatial variability and to theories advanced to explain historical and recent distribution patterns.

CR: the former Geography 4170

LH: 3

PR: BIOL 2250, 2600, 2900 and one of BIOL 2010, 2122 or 2210

4510 Distribution Patterns in the Sea - inactive course.

4550 Principles of Endocrinology comprises an introduction to basic concepts concerned with how chemical messages are transmitted and received between cells to coordinate body functions. Hormonal control of adaptation, reproduction, metabolism, growth, digestion, and electrolyte homeostasis will be discussed. Although the endocrinology of invertebrates and lower vertebrates will be mentioned as appropriate, the main emphasis will be on mammalian and human endocrinology at the level of the whole organism.

LH: 3

PR: BIOL 3401; Biochemistry 3106

4601 Functional Biology of Fish is an introduction to anatomical, physiological and cellular aspects of selected processes in the life cycle of fishes.

PR: BIOL 2060, 2210, and 3401

4605 Quantitative Methods in Biology (same as Statistics 4581 and the former Statistics 4605) is quantitative reasoning using verbal, graphical and statistical models of scaled quantities (units and dimensions). Exploratory and confirmatory analysis of field and laboratory data. Hypothesis testing, including randomization tests. Topics include the general linear model (t-tests, anova etc), correlation, autocorrelation, geographic statistics, estimates of population size and multivariate methods.

CR: Statistics 4581 and the former Statistics 4605

LH: 3

PR: Statistics 2550

4620 Ornithology examines structure, classification, evolution, ecology and behaviour of birds, with particular reference to those of economic importance. Identification of the birds of Eastern Canada.

LH: 3

PR: BIOL 2210 and 2600

4630 Mammalogy examines evolution, systematics, life histories and distribution of mammals, with particular emphasis on eastern North American forms.

LH: 3

PR: BIOL 2210 and 2600

4650 Conservation Biology I: Conservation in Biology and Geography is an examination of how biological and geographical principles can be applied to conserving biological diversity in the natural world under conditions of exploitation and habitat loss. Special emphasis will be given to relevant provincial examples.

CR: Environmental Science 4133

OR: 3 hours of seminar/discussion group each week

PR: 30 credit hours in either Biology or Geography

4651 Conservation Biology II: Conservation in Practice examines issues relevant to global conservation science. Topics will be covered through a series of modules, including conservation genetics, costs and consequences of small populations, effects of anthropogenic activity on biodiversity, spatial dynamics, and the interface between science and society.

PR: BIOL 2900, 3295 and 4650

4701 Animal Behaviour II (same as Psychology 4701) is an examination of the behaviour of animals with particular emphasis on evolution and ecology. Topics include behavioural genetics and evolution, reproductive strategies, social behaviour, habitat selection, territoriality, foraging behaviour, and other topics in biology and psychology.

CR: Psychology 4701

LH: 3

PR: BIOL 3750 or Psychology 3750

4710 Experimental Marine Ecology of Newfoundland Waters is a two-week field course examines the ecology of cold ocean environments, focussing on energy flux through marine pelagic and benthic flora and fauna of Newfoundland waters, and how the dynamics of this environment influence linkages among organisms in different habitats. The course will be field intensive with some lecture component and a strong hands-on field component. Students will identify local organisms and study how and why they vary in time and space. This course will be offered during two weeks of the Spring semester.

PR: BIOL 2600

4750 Fisheries Ecology is the application of ecological principles to the problem of managing exploited fish populations. Laboratory exercises will be based on a simulation approach to fisheries problems using computer and animal models.

LH: 3
PR: BIOL 2600

4800 Advanced Palaeontology (same as Earth Sciences 4800) is a field, lecture, laboratory and seminar course dealing with selected topics in general and applied paleontology. Topics include measuring evolution and extinction, population paleontology, functional morphology, paleoecology, statistical methods for paleontological studies, and applications in petroleum, mining, and environmental studies. This course is taught and administered by the Department of Earth Sciences.

CR: Earth Sciences 4800
LH: 3
PR: Earth Sciences/BIOL 3811, and one of Statistics 2510, Statistics 2550 or Mathematics 2000

4810 Research Field Course in Marine Biology will consist of an intensive two-week field school designed to acquaint students with marine field research, experimental design, methodology and data analysis. Emphasis will be placed on individual projects. Projects must be designed and approved prior to the commencement of the course and will involve a written report. At the discretion of the Head of Department, another recognized field course may be substituted for BIOL 4810.

PR: BIOL 3710 and any two of BIOL 2010, 2122 or 2210 and permission of the Head of the Department. It is strongly recommended that students take BIOL 3709 before 4810.

4820 Field Course in Terrestrial Biology will begin with a three-week field school immediately prior to the beginning of the Fall Semester. It is designed to acquaint students with terrestrial organisms and environments, and emphasis will be placed on survey and sampling techniques. In the Fall Semester the material and data collected in the field will be used in lecture and laboratory periods dealing with identification, analytical methods, and report compilation.

PR: BIOL 2010, 2122, 2210, 2600 and permission of the Head of the Department. It is recommended that students complete BIOL 4605.

4822 Internship in Biology - inactive course.

4910-4920 Special Topics in Biology will be given for senior undergraduates and will be in a two-week format which will involve equivalent instruction time as a course on campus. These courses will cover a range of topics in specialized fields in Biology and may be offered at the Bonne Bay Field Station, at the Harlow campus or elsewhere as appropriate. They may be taught by visiting specialists when available.

499A and 499B Honours Dissertation is available only to students in the Honours Program. Requirements for the Dissertation are outlined under **Honours Degrees**.

PR: admission to the Honours Program

8.3 Chemistry

Credit will be given for no more than one of the former Chemistry 1000, Chemistry 1010, 1050, 1200, the former 150A/B, no more than one of Chemistry 1001, 1031, 1051, the former 150A/B, and no more than one of Chemistry 1001, 1011, 1051, the former 150A/B. Credit will only be given for one of the following pairs of courses, Chemistry 2301 and Chemistry 2300 (offered at Grenfell Campus), Chemistry 2302 and the former Chemistry 3301, and Chemistry 3303 and the former Chemistry 3300. Students may obtain credit for only one of CHEM 2100 or the former CHEM 3100. Students may obtain credit for only one of CHEM 3110 or the former CHEM 4110, the former CHEM 4100 or the former CHEM 4101.

Chemistry courses are designated by CHEM.

1010 Introductory Chemistry I examines descriptive chemistry; measurements; atoms; molecules; the mole; mole calculations and reaction stoichiometry; chemical bonding; gases; thermochemistry, atomic structure, periodic properties; the physical properties of matter.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LC: 4
LH: 3
PR: It is recommended that students have at least 70% in high school Academic Mathematics 3204, or a pass in any university level mathematics course.

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or CHEM 1810/1200/1001 (Grenfell Campus)

1011 Introductory Chemistry II examines balancing redox reactions;

chemical bonding including VSEPR shapes and polarity; introduction to valence bond theory and hybridization; liquids, solids and intermolecular forces; chemical kinetics; chemical equilibrium; acids and bases; solubility equilibrium; electrochemistry.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LC: 4
LH: 3
PR: CHEM 1010
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or CHEM 1810/1200/1001 (Grenfell Campus)

1031 Introductory Chemistry III (F) & (I) prepares students who have completed CHEM 1010 and 1011 for CHEM 2100, 2210, 2301, 2302 and 2400. It augments the topics covered in CHEM 1010 and 1011 with the greater depth and problem solving emphasis of CHEM 1050 and 1051.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LC: 4
LH: 3
PR: CHEM 1011 and Mathematics 1000
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or the former CHEM 1800/1200/1001 (Grenfell Campus)

1050 General Chemistry I has topics that will be similar to CHEM 1010/1011 but will be treated in greater depth with an emphasis on problem solving.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LC: 4
LH: 3
PR: at least 75% in high school CHEM 3202 and successful completion of high school Advanced Mathematics 3205 and Mathematics 1000 which may be taken concurrently with CHEM 1050.

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or the former CHEM 1800/1200/1001 (Grenfell Campus)

1051 General Chemistry II has topics that will be similar to 1010/1011 but will be treated in greater depth with an emphasis on problem solving.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LC: 4
LH: 3
PR: CHEM 1050 and Mathematics 1000
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or the former CHEM 1800/1200/1001 (Grenfell Campus)

2100 Analytical Chemistry I (F) & (W) (same as the former CHEM 3100) is an introduction to analytical chemistry and includes preparation of samples and standards, calibration methods, statistical treatment of data, spectrophotometric trace analysis, gravimetric analysis and volumetric analysis including acid-based titrations, precipitation titrations, oxidation-reduction titrations, complexometric titrations and titrations in non-aqueous systems. Also introduced are liquid-liquid and other types of extraction, and chromatography with key methods of detection. Theoretical, practical and problem-solving aspects are covered.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 3100
LH: 4
PR: CHEM 1051 (or 1001 or 1031) with a grade of at least 60%

2210 Introductory Inorganic Chemistry (W) studies the chemistry of selected s, p, and d block elements. Introduction to crystal and molecular structures and to molecular orbital and crystal field theories.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LH: 3
PR: CHEM 1051 (or 1001 or 1031), Mathematics 1000

2301 Thermodynamics and Kinetics (F) builds upon knowledge of physical chemistry from first year. It covers the three laws of thermodynamics for ideal and real systems as well as chemical kinetics. Topics in thermodynamics include the thermodynamics of ideal and real gases, phases, and solutions, the Maxwell relations, equilibria between phases, and in electrolyte solutions. The integrated rate laws for simple and complex mechanisms, and the temperature dependence of reaction rates in terms of kinetic molecular theory are some of the topics discussed in the kinetics section of the course.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CO: Mathematics 2000 is recommended
CR: CHEM 2300 (offered at Grenfell Campus)
LH: 3
PR: minimum 60% in CHEM 1051 (or CHEM 1001 or CHEM 1031),
Mathematics 1001 and Physics 1051 or Physics 1021

2302 Quantum Chemistry and Spectroscopy (W) examines the quantum mechanics of simple systems such as the particle in a box, the harmonic oscillator, linear rotor, and hydrogen-like atoms. Topics also include orbital quantum numbers, spin, many electron atoms, an introduction to quantum mechanical methods, the electronic structures of molecules, bonding, and symmetry. Furthermore, electronic, rotational, and vibrational spectroscopy will be discussed as well as modern applications of spectroscopy and lasers.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CO: Mathematics 2000 is recommended
CR: the former CHEM 3301
LH: 3
PR: minimum 60% in CHEM 1051 (or CHEM 1001 or CHEM 1031),
Mathematics 1001 and Physics 1051 or Physics 1021

2400 Introductory Organic Chemistry I (F) is a course on bonding involving carbon; conformations and stereochemistry; introduction to functional groups and nomenclature; properties, syntheses and reactions of hydrocarbons, alkyl halides and alcohols.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CR: the former CHEM 2420, 2440 and the former 240A/B
LH: 3
PR: CHEM 1051 or 1031; or CHEM 1010 and 1011 with a grade of at least 80% in each; or CHEM 1011 with a grade of at least 85%; or CHEM 1001 with a grade of at least 65%

2401 Introductory Organic Chemistry II (W) is an introduction to the interpretation of infrared, H and C-13 NMR spectra; properties, syntheses and reactions of ethers, simple aromatic compounds, ketones, aldehydes, amines, carboxylic acids and their derivatives; aldol and related reactions.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CR: the former CHEM 2420, 2440, and the former 240A/B
LH: 3
PR: CHEM 2400

2440 Organic Chemistry for Biologists (F) & (W) is an introduction to the principles of organic chemistry with an emphasis on material relevant to biological molecules. The laboratory will introduce techniques and illustrate concepts covered in the course. This course is designed primarily for Biology Majors.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CR: CHEM 2400, the former 2420, the former 240A/B
LH: 3
PR: CHEM 1011 (or 1001 or 1051)
UL: may not be used for credit by Chemistry or Biochemistry Majors and is not a prerequisite for any other Chemistry course.

3110 Analytical Chemistry II (F) (same as the former CHEM 4110) builds upon the student's knowledge from CHEM 2100 (Analytical Chemistry I) and applies it to a more advanced level of instrumental quantitative analysis. The course examines error treatment, atomic emission an absorption spectroscopy, gas and liquid chromatography, capillary electrophoresis and supercritical fluid chromatography and extraction techniques, electroanalytical chemistry, molecular and atomic mass spectrometry, x-ray spectroscopy, ion and electron spectroscopy, surface analysis techniques and thermogravimetric analysis.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CR: the former CHEM 4100, the former CHEM 4101, or the former CHEM 4110
LH: 3
PR: CHEM 2100 or the former CHEM 3100

3210 Main Group and Materials Chemistry (F) is a detailed examination of the chemistry of the s and p block elements and modern applications of inorganic chemistry in materials and nanotechnology.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
LH: 3
PR: CHEM 2210, CHEM 2301 (or 2300), and CHEM 2302

3211 Inorganic Chemistry (W) is a detailed examination of the structure, bonding, and chemistry of the d block elements.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
LH: 3
PR: CHEM 2210, CHEM 2301 (or 2300), and CHEM 2302

3303 Statistical Thermodynamics and Rate Theories (W) examines physical chemistry from the microscopic viewpoint. Topics include probability distributions, quantum statistical mechanics, statistical thermodynamics, ensembles, kinetics and introduction to statistical rate theories as well as an introduction to computational chemistry (lab).

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CR: the former CHEM 3300
LH: 3
PR: CHEM 2301 (or 2300) and CHEM 2302 (or the former CHEM 3301)
Mathematics 2000 and Mathematics 2050.

3410 Bio-organic Chemistry (F) is a study of the major classes of biomolecules, their structure, function, and in vitro chemistry. An introduction to natural products. Synthetic polymers compared to biopolymers. Heteroaromatic molecules and derived biomolecules.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CR: the former CHEM 3401
LH: 3
PR: CHEM 2401. It is recommended that CHEM 3500 be taken concurrently.

3411 Synthetic Organic Chemistry I (W) is a survey of some important reactions used in organic synthesis, including pericyclic reactions and those based on carbocation, carbene, nitrene and carbanion intermediates. Emphasis is placed on multifunctional compounds.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
CR: the former CHEM 3400
LH: 3
PR: CHEM 3410, or all of CHEM 2401, Biochemistry 2100 and Biochemistry 2101

3500 Spectroscopic Analysis: Spectroscopy and Structure (F) is the application of spectroscopic methods to the determination of molecular structure. Emphasis will be placed on electronic, vibrational and rotational spectroscopy, nuclear magnetic resonance spectroscopy and mass spectrometry.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
LH: 3
PR: CHEM 2210, CHEM 2302 (or 2300) and CHEM 2401

3600 Marine Chemistry (W) - inactive course.

4150 Advanced Spectrometric Techniques - inactive course.

4151 Analytical Separations and Organic Mass Spectrometry examines advances in the traditional chromatographic techniques, the development of new analytical tools in separation science, the interfacing of mass spectrometers to chromatographic instruments, and other mass spectrometric techniques.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
LH: 3
PR: CHEM 3110 (or the former CHEM 4100 or the former CHEM 4101 or the former CHEM 4110)

4152 Electroanalytical Techniques examines the principles and theory of dynamic electrochemistry, voltammetry, stripping analysis, electro-chemical sensors and detectors.

PR: CHEM 3110 (or the former CHEM 4100 or the former CHEM 4101 or the former CHEM 4110)

4201 Coordination Chemistry in Biological Molecules - Structural, Mechanistic and Magnetic Studies examines the role of certain transition elements e.g. iron, copper, cobalt, and zinc, in proteins and enzymes will be discussed in terms of structural features, the natural ligands, magnetic properties, mechanisms, etc., and reinforced with examples of 'model compounds'. Magnetic theory, in particular for polynuclear transition metal complexes, will also be developed.

PR: CHEM 3211

4202 Selected Topics in Main Group Chemistry - inactive course.

4203 Organometallic Chemistry is principles and applications of

organometallic chemistry with emphasis on compounds of the transition metals, lanthanides and actinides. A study of synthetic methods, structure, bonding, reactions and applications of these concepts to organic synthesis and to catalysis.

PR: CHEM 3211

4204 Inorganic Reaction Mechanisms and Catalysis is a survey of inorganic and organometallic reactions, their mechanisms and kinetic characteristics. In addition, stereochemical non-rigidity, reactions of coordinated ligands and homogeneous catalysis are discussed.

PR: CHEM 3211

4205 Photochemistry of Transition Metal Complexes is an introduction to the theory of electronic excited states in transition metal complexes. Applications to artificial photosynthesis, photodynamic therapy, molecular photovoltaics and molecular electronics.

CO: CHEM 3211 and CHEM 2302

PR: CHEM 3211 and the former CHEM 3301 or CHEM 2302

4206 Green Chemistry examines the benefits and limitations of new methods aimed at reducing the environmental impact of chemical processes including waste prevention, hazard/risk reduction, catalysts, renewable feedstocks and alternative solvents.

PR: CHEM 2401 and CHEM 3211

4303 Equilibrium Statistical Mechanics is a course which examines probability theory, ensembles, and quantum statistical thermodynamics of ideal gases, perfect crystals, metals and radiation. Semiclassical statistical thermodynamics, distribution functions, as well as dense gases and liquids are also discussed.

CR: the former CHEM 4301 or the former CHEM 4302

LH: 3

PR: CHEM 3303 or the former CHEM 3301

4304 Advanced Quantum Chemistry examines exact solutions to the Schrodinger equation, introduction to approximate methods, modern methods (wavefunction and density functional theories), spectroscopy, and applications of computational chemistry.

CR: the former CHEM 4300

PR: CHEM 2302 (or the former CHEM 3301) and Mathematics 3260. Due to the requirement of Mathematics 3260, students wishing to take this course should plan ahead.

4350 Advanced Physical Chemistry III: Selected Topics in Physical Chemistry (W) - inactive course.

4411 Topics in Medicinal Chemistry - inactive course.

4420 Physical Organic Chemistry (F) is an introduction to the quantitative and qualitative theories of reactions and reactivity and their application to organic reaction mechanisms and to mechanism elucidation.

CR: the former CHEM 4400 and the former CHEM 4401

PR: CHEM 2302 or the former CHEM 3301, and CHEM 3411 or the former CHEM 3401. CHEM 3500 is strongly recommended.

4430 Synthetic Organic Chemistry II (W) examines modern synthetic methods with particular attention placed on the synthesis of enantiomerically enriched compounds and newer methods for the formation of carbon-carbon bonds. Designing syntheses of complex organic molecules.

CR: the former CHEM 4410

PR: the former CHEM 3401 or 3411. CHEM 4420 is strongly recommended.

490A/B Honours Research in Chemistry is available only to students in Chemistry Honours or Chemistry Joint Honours Programs. These courses are two single-semester, linked courses based on independent research carried out under the supervision of a faculty member in the Department of Chemistry. Research undertaken for these courses must have a clear disconnect from any research previously conducted. These courses are mandatory for Honours Chemistry students. A grade of pass in 490A is required to proceed to 490B. A written thesis is to be handed in by the end of the course. 490A and 490B are to be taken in the Fall and Winter semesters in the same academic year.

CH: 6

PR: admission to the Honours Chemistry Program or Chemistry Joint Honours Program and honours standing

UL: may be taken by students not in an Honours program or without Honours standing with the permission of the Head of the Department and a research supervisor.

8.4 Computer Science

Computer Science courses are designated by COMP.

8.4.1 First Year Courses

1510 An Introduction to Programming for Scientific Computing (F) & (W) introduces students to basic programming in the context of numerical methods with the goal of providing the foundation necessary to handle larger

scientific programming projects. Numerical methods to solve selected problems from Physics, Chemistry, and Mathematics will be covered.

CR: COMP 2602, the former Mathematics 2120

LH: 2

PR: Mathematics 1000

1550 Introduction to Multimedia Application Development (F) is an introduction to programming and computer science with an emphasis on the development of multimedia applications. The course introduces the fundamental principles of programming, including object-oriented and event-driven programming, how to use and create classes and methods and combine them with multimedia libraries to produce animations, handle input from keyboard and mouse, and import sounds and videos to produce multimedia applications which can be directly deployed on the Internet.

LH: 2

1600 Basic Computing and Information Technology (F) & (W) offers an overview of computers and information technology. It provides students with the knowledge necessary to answer questions, such as: What is a computer system? How does it work? How is it used? This is done through the use of popular spreadsheet, word processing and database software packages and the Internet. Social issues and implications will also be included.

CR: COMP 2650 or COMP 2801

LH: 3

1700 Introduction to Computer Science (F) & (W) lays the foundation for the art and the science of computing. The course contains fundamental and topical issues in computers, languages, programming and applications. This course is designed for potential Computer Science majors without a background in programming, but is also available for non majors.

LH: 3

1710 Object-Oriented Programming I (F) & (W) is an introduction to fundamental programming techniques, primitive data types and operations, program control structures and the use of objects, classes and methods.

CR: if previously completed or currently registered for COMP 2710

LH: 3

8.4.2 Second Year Courses

2000 Collaborative and Emergent Behaviour is a survey of computation as a means of understanding, modelling, and describing artificial and natural systems. The emergence of complex behaviour from the interaction of simple rules governing individual components is illustrated and discussed, as well as the role of communication between system components. Selected systems to be studied will be drawn from different topic areas which may include the worldwide web, the mind (cognitive science), formal logic, autonomous robotics, chaos and fractals, and bioinformatics. Each topic will incorporate an associated laboratory experience.

LH: 3 hours bi-weekly

2500 Data Analysis with Scripting Languages (F) & (W) introduces the use of scripting languages to solve common data analysis tasks. The control structures and expressions of the language are first discussed. Script solution to storing/retrieving data sets, searching data sets, and performing numeric and statistical calculation are covered. Plotting and visualization for data sets are also presented.

PR: COMP 1510 or COMP 1700 or COMP 1710 or COMP 2602 (or equivalent)

2602 Computer Programming in FORTRAN (F) is a study of algorithmic problem solving and structured programming techniques; the Fortran programming language and its application to computer solutions of scientific problems; numeric and non-numeric problems are examined with emphasis on code modularity and reusability of the components.

CR: COMP 1510

PR: Mathematics 1000

2650 Problem-Solving with Personal Computers (F) & (W) is an overview of tools and techniques that current computer technology offers in a PC based networked environment. The emphases are on conceptual understanding of the software, from exploring capabilities of the existing software tools to learning methods of extending these capabilities. The key topics include problem-solving strategies, visual programming, macro-language operations, object linking and embedding, digital communication, and developing interactive web pages. The course has a practical flavour. In structured laboratory sessions, students gain proficiency in using personal computers for solving common problems.

CO: Mathematics 1000

CR: COMP 1600, COMP 2801, or the former Business 2700

PR: Level III Advanced Mathematics or Mathematics 1000 or Mathematics 1090 (or equivalent)

2710 Object-Oriented Programming II (F) & (W) continues from Object-Oriented Programming I, and studies object-oriented and event-driven programming. Additional topics include: recursion, basic analysis of algorithms, fundamental data structures such as simple linked structures and stacks, and fundamental computing algorithms such as binary search and quadratic time sorting. A brief overview of programming languages,

virtual machines and language translations is also provided.

LH: 3

PR: COMP 1710 and Mathematics 1000

2711 Introduction to Algorithms and Data Structures (F) & (W) includes the study of standard ways of organizing and manipulating data in computer storage. Fundamental concepts in the design and analysis of algorithms are also discussed.

LH: 3

PR: COMP 2710. It is recommended that students complete COMP 2742 prior to registering for COMP 2711

2742 Logic for Computer Science (F) & (W) is an introduction to propositional and predicate logic with applications. The use of the system of boolean logic in reasoning and circuit design, as well as basic proof techniques and the resolution principle, for both propositional and predicate logic, will be covered. Concepts involving sets will be used to illustrate different types of proof techniques. The probable intractability of boolean logic and Goedel's incompleteness theorem will be presented.

PR: COMP 1710 and Mathematics 1000

2752 Introduction to Business Data Processing (F) - inactive course.

2760 Encountering the Computer: Society and the Individual (F) & (W) examines social, ethical, legal and cultural issues surrounding the use of computers in modern society. These broader social issues are followed by an examination of the use of social and individual psychology in user interface design. Students will be expected to demonstrate an understanding of these issues both directly (through verbal and written discourse) and practically, as applied to the creation of actual software artifacts.

CO: COMP 2710

PR: two 1000-level English courses, or equivalent

2801 Introductory Computing for Business (F) & (W) introduces students to computer applications in business, document processing, application development, decision support, and information management. A three hour laboratory is required.

CO: Mathematics 1000

CR: COMP 1600, COMP 2650, or Business 2700

PR: Level III Advanced Mathematics or Mathematics 1000 or Mathematics 1090 (or equivalent)

8.4.3 Third Year Courses

3550 Introduction to Bioinformatics (same as Biology 3951) deals with the development and application of computational methods to address biological problems. The course will focus on the fundamental concepts, ideas and related biological applications of existing bioinformatics tools. This course will provide hands-on experience in applying bioinformatics software tools and online databases to analyze experimental biological data, and it will also introduce scripting language tools typically used to automate some biological data analysis tasks.

CR: Biology 3951

LH: 3

PR: Biology 2060 or Biochemistry 2101, and one Computer Science course at the 1000-level or above excluding COMP 1600 and COMP 2000; or COMP 2500 or COMP 2710, and one Biology course at the 1000-level or above excluding Biology 2040 and Biology 2041; or permission of the course instructor

3700 Industrial Experience (F), (W), (S) is a course for students who are admitted to CIIO. Students are required to register for this non-credit course every semester during their internship. This course is open only to students who have been accepted into the Internship Program and provides an opportunity for qualified students to obtain rewarding job experience of 8, 12 or 16 months of continuous duration, during the course of their studies.

CH: 0

PR: admission to the Computer Industry Internship Option (CIIO)

3710 Vocational Languages (W) is a study of several programming languages of vocational significance (e.g. a selection from C, C++, Prolog, Perl, Python and LISP). The use of appropriate programming paradigms to solve some significant problems.

PR: COMP 2711

3714 Programming Languages and their Processors (F) & (W) reviews typical elements of (imperative) programming languages, and then discusses language implementations in the form of compilers and interpreters. The topics include specification of syntax and semantics of programming languages, discussion of expressions and assignments, side effects, control structures, data and procedural abstractions, parameter passing mechanisms, bindings, scopes, and type systems. The recursive-descent technique is used for illustrations of different aspects of syntax analysis, code generation and error recovery. Language interpreters are discussed for both low-level and high-level languages.

PR: COMP 3719 and 3724

3715 Network Computing with WEB Applications (F) & (W) studies how distributed applications (e.g., client/server Web applications) are constructed

using the Internet. Topics covered include: the socket interface for network communication, client/server applications, browser scripting using Javascript, content generation for web applications (e.g., jsp, php), html/css documents, and the use of cryptography to handle security.

PR: COMP 2711

3716 Software Methodology (F) & (W) studies the development of software by gathering the requirements of the software program, analysing the requirements to create a development model, and creating the software and documents for the software product. This course studies techniques for all three software development activities.

PR: COMP 2711

3717 Symbolic Computation and Recursion (W) - inactive course.

3718 Programming in the Small (F) demonstrates the tools and techniques used in the construction of small software systems. The software tools and techniques to be covered include analysis and design of software components, software construction tools (e.g. linkers, builders, debuggers), software library use and design, and system integration.

PR: COMP 2711 and Mathematics 2320

3719 Theory of Computation and Algorithms (F) & (W) is an introduction to formal algorithmic problem solving. Various algorithm design techniques that sometimes yield efficient solutions are studied. Deterministic and nondeterministic machines (finite state automata, pushdown automata and Turing machines) are discussed and used to efficiently solve problems such as the String Matching Problem, the parsing of Context-free Languages, and to introduce the theory of NP-completeness. In addition, Turing machines are used to prove the unsolvability of certain problems. Tractable, intractable and undecidable problems are contrasted. Basic issues related to parallelization are discussed as well.

CR: the former COMP 3711 and the former COMP 3740

PR: COMP 2711 and Mathematics 2320

3723 Logic Design (F) - inactive course.

3724 Computer Organization (F) & (W) can be studied at the digital logic implementation level, the instruction set architecture level, and the translation of programming languages to the underlying machine instruction level. This course studies computer organization at these levels.

CO: Mathematics 2320

PR: COMP 2711 and COMP 2742

3725 Computer Architecture and Operating Systems (F) & (W) covers system design and the architectural implementations of these designs. The objective is to develop the basic concepts of processor design, memory management, operating systems, and I/O devices and their interactions.

PR: COMP 3724

3731 Introduction to Scientific Computing (W) main objectives are the development of algorithms for the numerical solution of mathematical problems and the study of the numerical stability of these algorithms. The efficiency of these algorithms with respect to speed and storage requirements is considered as well. Emphasis is also placed on the study of the sensitivity of selected problems to perturbations in the data. There is also a brief introduction to the development of numerical algorithms that take advantage of advanced computer architectures, such as pipeline processors, array processors and parallel processors.

CR: Mathematics 3132

PR: Mathematics 2000 and Mathematics 2050, and one of COMP 2602 or COMP 2710

3751 Computational Aspects of Operations Research (W) - inactive course.

3753 Computational Aspects of Linear Programming (F) is an introduction to the Linear Programming Problem (LPP). The emphasis is placed upon developing the most recent and numerically reliable algorithms for the solution of the Linear Programming Problem. The numerical stability of these algorithms will be examined as well. Geometric understanding of the LPP. Simplex method for the LPP. Sparse matrix LPP. Duality and postoptimality analysis. Extensions to the simplex algorithm. Principles of interior algorithms for the LPP.

PR: Mathematics 2050, and one of COMP 2602 or 2710

3754 Introduction to Information and Intelligent Systems (F) & (W) introduces students to application areas that are away from usual number-based and text-based processing. Students will learn the basic concepts and become aware of the historical developments and social and ethical issues related to the application areas such as intelligent systems and information management. This exposure will help students to become knowledgeable about managing large volumes of data and dealing with problems that are well defined but whose algorithmic solutions are not feasible or problems that are fuzzily defined.

PR: COMP 2711 and COMP 2742

3790 Directed Readings - inactive course.

8.4.4 Fourth Year Courses

4711 Structure of Programming Languages covers programming language design considerations; syntactic and semantic structure; survey of typical features and operations; analysis of facilities for control and data structuring; language extensibility; execution models; formal specification of programming languages.

PR: COMP 3719 and COMP 3724

4712 Compiler Construction studies properties of formal grammars and languages; syntax-directed parsing and code generation; top-down and bottom-up parsing methods; LL(k) and LR(k) grammars and parsers; Code optimization; compiler writing tools.

PR: COMP 3719 and COMP 3724

4715 and 4717 Special Topics in Programming Languages

4718 Survey of Software Engineering surveys the major topics of software engineering. Areas covered include: requirements capture, system design and design approaches, verification and validation (including formal methods and testing), and management of the software development process.

PR: COMP 3716

4719 Software Specification - inactive course.

4721 Operating Systems studies the design and implementation of an operating system's kernel. The main components used in operating system implementations include: context switches, process management, memory management, interprocess communication, file systems and system calls. The data structures and algorithms used in implementing the above components are studied. The different architectural styles of kernel implementation are also considered. Real-time operating systems are also discussed.

CR: Engineering 8894

PR: COMP 3725

4723 Introduction to Microprocessors examines the architecture and instruction sets for several microprocessors. The use of microprocessors as device controllers; comparisons of hardware and programmed techniques; microprocessor interfacing with external devices; methods of I/O; bus structures; modern microprocessor support devices are discussed.

LH: Minimum of three hours per week. Practical experience with basic principles will be obtained through laboratory experience.

PR: COMP 3724

4725 Introduction to LSI Design - inactive course.

4726-4729 Special Topics in Computer Systems

4734 Matrix Computations and Applications is an introduction to linear algebra; solution to linear systems; scaling, improving and estimating accuracy; the linear least squares problem; the eigenvalue problem; singular value decomposition of a matrix; the generalized eigenvalue problem.

PR: COMP 3731

4735 Advanced Matrix Computations and Applications - inactive course.

4736-4739 Special Topics in Numerical Computations

4740 Design and Analysis of Algorithms will give an overview of techniques for the design of efficient optimal-solution and heuristic algorithms. It will include an introduction to various advanced data structures for set and string processing that are used to further optimize algorithm efficiency.

PR: COMP 3719

4741 Formal Languages and Computability is an in-depth study of various types of formal machines and their associated languages. Effective computability and other formalisms, such as lambda calculus will be studied as well.

CR: the former COMP 3740

PR: COMP 3719

4742 Computational Complexity is an in-depth discussion of computational complexity theory. Topics covered in the course include: models of computation (for both serial and parallel computations); complexity measures; reducibility; complexity classes (NP, PSPACE, NC, LOGSPACE and P); and randomized computations.

PR: COMP 3719

4743 Graph Algorithms and Combinatorial Optimization discusses classical problems in combinatorial optimization and graph algorithms, including matching, colorability, independent sets, isomorphism, network flows and scheduling. Special families of graphs are discussed and algorithms that would otherwise be NP-hard or complete are shown to be polynomial time when restricted to such families.

PR: COMP 3719

4745-4749 (Excluding 4748) Special Topics in Theoretical Aspects

4748 Introduction to the Science of Complexity is an exploration of the

use of computers in the simulation of complex systems. Some theories and models, such as cellular automata, artificial life, fractals, genetic algorithms, chaos, and evolution will be discussed and will be used in the modelling of "real-life" systems. The approach in this course is practical. Students have to write a number of programs of different levels of sophistication including a final project.

PR: COMP 3719

4751 Computer Graphics examines display devices, display processors, display file compilers, display transformations, structured display files, graphical input devices, perspective, hidden line elimination, languages and graphics systems.

LH: 3

PR: COMP 3719 and Mathematics 2050

4752 Introduction to Computational Intelligence provides an introduction to four of the fundamental computational intelligence methods: artificial neural networks, evolutionary computation, swarm intelligence and fuzzy systems. The integration of these techniques for problem solving will also be introduced.

PR: COMP 3719 and COMP 3754

4753 Artificial Intelligence has selected topics from AI programming languages; heuristic searching; problem solving; game-playing; knowledge representations; knowledge-based systems; reasoning in uncertainty situations; planning; natural language understanding; pattern recognition; computer vision; and machine learning.

PR: COMP 3719 and 3754

4754 Database Systems introduces students to database processing, database management systems and database design considerations. It will cover the theory and methodologies essential for the relational database design, implementation, manipulation, optimization and management.

PR: COMP 3725 and 3754

4756 Image Processing will centre on the key analytical and algorithmic tools and concepts of digital image processing. Topics will include Transformations, Enhancement, Encoding, Data Bases, Segmentation and Description.

LH: 3

PR: COMP 3719

4759 Computer Networks looks at how the operation of computer networks requires the following: a) communication between two computers, b) information transfer between two computers not directly connected, and c) services that need computer communication. This course focuses on the standard solutions and services used to fulfill the previous requirements. These include: physical transmission of signals, reliable communication based on unreliable communication channels, the routing of messages between connected computers to reach computers that are not directly connected, e-mail, file transfer, name servers, remote terminal access and the World Wide Web. Particular attention will be placed on the workings of the Internet.

PR: COMP 3715 and COMP 3725

4761 Human-Computer Interaction - inactive course.

4762 Introduction to Computational Molecular Biology will give an overview of computational problems and algorithms for these problems associated with a variety of analyses of biological molecular data.

PR: COMP 3719

4766 Introduction to Autonomous Robotics examines the fundamental constraints, technologies, and algorithms of autonomous robotics. The focus of this course will be on computational aspects of autonomous wheeled mobile robots. The following topics will be covered: major paradigms in robotics, methods of locomotion, kinematics, simple control systems, sensor technologies, stereo vision, feature extraction, modelling uncertainty of sensors and positional information, localization, SLAM, obstacle avoidance, and 2-D path planning.

PR: COMP 2711, Mathematics 2000, Mathematics 2050, and Statistics 1510 or 2510

4767 Information Visualization and Applications focuses on the design and implementation of interactive visualization techniques for the analysis, comprehension, exploration, and explanation of large collections of abstract information. Topics to be covered include principles of visual perception, information data types, visual encodings of data, representation of relationships, interaction methods, understanding user goals and tasks, and evaluation techniques. Case studies of accepted techniques and the current state-of-the-art in information visualization will be presented.

PR: COMP 2760 and COMP 3719

4768 Software Development for Mobile Devices focuses on the design and implementation of software in a mobile networking environment. The primary topics to be covered in this course include software engineering, network computing, graphics programming, and human-computer interaction for mobile devices. A modern mobile device with advanced networking and graphic features, including multi-touch interaction and motion sensors will be used as the primary platform for development in this course.

LH: One and one-half hours per week
PR: COMP 2760, COMP 3715 and COMP 3716

4770 Team Project has as its main objective to develop a working prototype of a software system as a team effort. A group of students will work on a project for a term, experiencing the advantages and difficulties of team projects.

PR: COMP 3715, COMP 3716, COMP 3724, and COMP 3754

4780 Honours Project introduces computer science honours students to research activities, familiarizes them with a special problem in computer science, and provides independent study on an advanced topic under the direct supervision of a member of the computer science faculty. The topic is decided in consultation with the supervisor. The student is required to produce a written report on the project, to include the literature search on the

topic, and to present this work at a departmental seminar prior to the last week of the semester.

PR: admission to the honours program and permission of the Head of Department

4800-4825 Special Topics will be offered as departmental resources permit.

CO: Special topics courses are not offered on a regular basis, but whenever departmental resources permit. For these reasons, the co-requisites can vary each time the courses are offered.

PR: Special topics courses are not offered on a regular basis, but whenever departmental resources permit. For these reasons, the prerequisites can vary each time the courses are offered.

8.5 Earth Sciences

The first digit of each course number designates the level (year) of the course. The second digit indicates the area of Earth Sciences into which the course best fits, as follows:

Second Digit

- 0 - mineralogy and petrology
- 1 - geophysics
- 2 - economic geology
- 3 - stratigraphy and marine geology
- 4 - structural geology and tectonics
- 5 - geochemistry
- 6 - technical fields and petroleum geology
- 7 - sedimentation, geomorphology
- 8 - paleontology
- 9 - general and dissertation

Earth Sciences courses are designated by EASC.

8.5.1 First Year

1000 Earth Systems is a survey of the structure, function and interrelations of Earth's lithosphere, hydrosphere, atmosphere and biosphere. Topics include an exploration of the physical and chemical properties of planetary materials, forces driving and sustaining Earth systems, and biological modifiers (including humankind) on the Earth today.

LH: 3

1001 Evolution of Earth Systems - inactive course.

1002 Concepts and Methods in Earth Sciences provides an introduction to a broad range of concepts concerning the development of the geological record and the Earth; practical methods for collection of field based data; topics in map interpretation and geometric analysis, stratigraphy, paleontology, structure and petrology. The course is presented with an emphasis on the development of practical skills needed to pursue a career in Earth Sciences.

LH: 3

PR: EASC 1000

8.5.2 Second Year

2030 Mineralogy (F) provides an introduction to crystallography and the structure of minerals; introduction to crystal optics; study of the rock forming minerals and minerals of economic significance. Laboratory work comprises study of the structures and symmetries of minerals, chemistry of rock forming minerals, introduction to transmitted light microscopy of rocks, hand specimen recognition of common rocks and minerals.

CO: EASC 2502

CR: the former EASC 203A/B

LH: 3

PR: EASC 1000, Chemistry 1011 (or 1051 or equivalent), Physics 1051 (or 1021 or 1054), and Mathematics 1000

2031 Mineralogy and Petrography (W) examines the optical and chemical properties of rock-forming minerals, the petrography and classification of igneous and metamorphic rocks and applications of relevant phase equilibria to the study of minerals. Laboratory work comprises optical mineralogy and petrography of igneous and metamorphic rocks.

CO: Mathematics 1001

CR: the former EASC 203A/B

LH: 3

PR: EASC 2030, 2502, Mathematics 1001

2150 The Solar System (F) & (W) describes the basic astronomy of the Solar System, tracing the search to understand motion of the Sun, Moon and planets in the sky; modern observations of planets, moons, comets, asteroids and meteorites and what they tell us about the origin and evolution of the Solar System.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences

2311 Geoscience Communication (W) is an introduction to the fundamentals of preparation of written and oral geoscience reports, emphasizing organization, correct use of terminology, concise description, preparation of abstracts and introductions, integration of numerical data and publication-quality illustrations, and oral presentation skills. Topics for reports will be selected from the subject matter of other 2000 level Earth Sciences courses.

LC: 2

OR: tutorials three hours per week

PR: Earth Sciences 2905 and 6 credit hours in English

2401 Structural Geology (W) provides an introduction to basic concepts; the physics of rock deformation, the classification and descriptive geometry of major and minor structures and their relationship to stress and strain. Laboratory work will concentrate on analysis of structural orientation data, and the analysis of structures in geological maps and cross-sections. Earth Sciences majors are advised to complete field course, EASC 3905, immediately following completion of this course.

CR: the former Geology 3120 or the former EASC 3120 or the former EASC 3400

LH: 3

PR: EASC 2905 or (for students following a Minor in Earth Sciences) permission of the Head of the Department

2502 Introduction to Geochemistry (F) provides an overview of both low- and high-temperature geochemistry. Topics include: origin and classification of the elements; chemical differentiation of the solar system and solid Earth; aqueous geochemistry and the stability of minerals; radiogenic and stable isotopes. Geochemical concepts are illustrated using data and processes drawn from Earth systems. The laboratory component emphasizes the development of numerical skills needed in geochemistry.

CO: Mathematics 1001

LH: 3

PR: EASC 1000, Chemistry 1011 (or 1051 or equivalent)

2702 Sedimentology and Stratigraphy (F) is a study of the origin and composition of sediments with a focus on depositional processes and resulting sedimentary structures. Study of environments of deposition and the stratigraphic framework of sedimentary successions. Laboratories involve local field trips and the study of hand samples of sedimentary rocks.

CR: the former Geology 3070 or the former EASC 3070 or the former EASC 3701

LH: 3

PR: EASC 1002

2905 Introduction to Geological Mapping (F) is based on approximately six days of geological mapping in Precambrian rocks near St. John's, and two days of in-class work preparing a digital map and written report. Emphasis is placed on the recognition and description of sedimentary and igneous rocks in the field, and techniques of geological mapping and the taking of field notes. This course will be given during a special session immediately preceding the fall semester.

AR: attendance is required

CH: 2
 CR: the former EASC 2310 or the former EASC 2300
 OR: field based course
 PR: EASC 1002 and an application to the Head of the Department

2914 The Earth's Energy Resources: Past, Present and Future (F) (formerly Geology 2414 and EASC 2414) provides a scientific analysis of the Earth's energy resources. The history of human exploitation of them; consequences for quality of life, and political and economic power; scenarios for the future. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

CR: the former Geology 2414 and the former EASC 2414
 UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

2915 The Earth's Material Resources: Past, Present and Future (W) - inactive course.

2916 Natural Hazards on a Dynamic Earth (W) describes the surface of the Earth being in a constant state of change, thereby posing risks and challenges for society. An understanding of geological processes in the past and present provides context for evaluating risks related to earthquakes, volcanic activity and mass movements, challenges related to water resources, land-use planning and waste disposal, and the background to interpret sources and consequences of climate change. The course will provide a broad perspective on contemporary issues facing society. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

2917 Gems: the science and politics introduces students to precious and semi-precious stones both from the perspective of their nature and origin and from the perspectives of geography and the socio-political issues of mining, recovery, trade and cartels. The properties that confer value upon gems (colour, clarity, cut and carat), the techniques used to enhance, fake and imitate gems and the techniques used to detect fraudulent "gems" will be covered. The course will include discussion of the diamond industry in Canada and consideration of some famous gems. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

2918 Earth's Story is an overview of Earth's dynamic past of episodes of supercontinent collision and breakup, massive flooding, global warming and freezing, magnetic field reversals and continents travelling over large distances. The evolution of life is tied to this history and has had equally dramatic turns of rich growth and catastrophic extinction. Discussion will be based on Canadian geology and includes an introduction to techniques used to decipher the rock record.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

8.5.3 Third Year

3030 Mineralogy and Materials Science provides a review of elementary crystallography, introduction to space groups and crystal structures, bonding, properties of metals, semiconductors and insulators, crystallographic aspects of order-disorder, solid solution and mixing. Crystal growth, chemical zoning and diffusion. Phase changes in the solid state (exsolution, polymorphism and polytypism). Students will be introduced to the techniques used to study solids (X-ray diffraction, scanning and transmission electron microscopy, electron-microprobe analysis, luminescence, and computer simulation). Laboratory work will emphasize practical skills using these techniques. Examples will be chosen from among minerals, ceramics, semiconductors, metals and glass, making the course suitable for Earth Scientists, Engineers, Chemists and Physicists.

LH: 3
 PR: EASC 2031 or permission of the instructor

3054 High-Temperature Geochemistry and Igneous Petrology (F) is an integrated course dealing with the geochemistry, origin and classification of igneous rocks. Topics include trace element geochemistry; physical properties of magmas, physical and chemical processes in magma chambers (fractional crystallization, differentiation, assimilation and partial melting), phase equilibria and application to magmas, petrology of the mantle, and igneous rocks of specific tectonic settings (oceanic lithosphere, continental margins, continental lithosphere). Laboratories include geochemical calculations and examination of rock samples and thin sections.

CR: the former EASC 3053 in combination with the former 2503
 LH: 3
 PR: EASC 2031 and 2502

3055 Thermodynamics and Metamorphic Petrology (W) is an integrated course dealing with the geochemistry, origin and classification of metamorphic rocks. Topics include thermodynamic background and kinetics (transfer of mass and energy in geochemical systems of the Earth's interior, thermodynamic laws, phase equilibria, solid-solid reactions, reaction rates); metamorphic facies, field gradients, isograds and reactions; mineral assemblages and textures of common metamorphic rocks. Laboratories include thermodynamic and phase diagram problems, hand specimen and thin section studies.

CR: the former EASC 3053 in combination with the former 2503
 LH: 3
 PR: EASC 2031 and 2502, Mathematics 1001

3170 Exploration Geophysics I (W) examines fundamentals of seismic energy transmission in the Earth; basic methods in seismic exploration - data acquisition, processing and interpretation for refraction and reflection surveys; fundamentals of gravity and magnetic data acquisition, processing and interpretation; introduction to gravity and magnetic modelling.

CO: EASC 2905
 LH: 3
 PR: EASC 2905, Physics 1051 (or 1021 or 1054); Mathematics 1001; Mathematics 2000 or Statistics 2510 or Statistics 2550

3172 Exploration Geophysics II (F) is an introduction to electrical and electromagnetic methods in geophysics applied in mineral exploration, petroleum well logging and environmental studies, and examples of application of various techniques; use of data processing and modelling techniques in interpretation; introduction to radiometric methods used in mineral and petroleum exploration.

CO: EASC 2905
 LH: 3
 PR: EASC 2905, Physics 1051 (or 1021 or 1054); Mathematics 1001; Mathematics 2000 or Statistics 2510 or Statistics 2550

3179 Geophysical Analysis covers Vector Calculus; curvilinear coordinates; line, surface and volume integration; integral theorems; the derivation and application of geophysically important partial differential equations - Laplace's equation to the Earth's gravity and magnetic fields, the diffusion equation to the Earth's heat flow, and the wave equation to electromagnetic and seismological phenomena; geophysical uses of Legendre functions; Fourier analysis in geophysics. The laboratory component will familiarize the student with practical applications of the tools discussed.

LH: 3
 PR: Mathematics 2000, Physics 2055 and 2820

3210 Economic Mineral Deposits (W) is an introduction to the study of mineral deposits and definition of the basic physio-chemical parameters of ore deposit formation. The course involves a systematic review of genetic models for the principal types of metallic mineral deposits, and links these models to a common theme of the relationship between lithosphere-hydrosphere-biosphere interactions and metallogeny. Laboratory exercises involve examination of representative suites of samples from different types of metallic mineral deposits and provide an introduction to the use of reflected light microscopy.

LH: 3
 PR: either EASC 2031, 2502 and 2905; or EASC 2031 and Chemistry 3211; or Engineering 3610 and the former Engineering 3205

3420 Global Tectonic Processes examines how horizontal and vertical motions of the Earth's surface are influenced by heat and mass transfer within its interior. Surface motions are described qualitatively and quantitatively within the framework of plate tectonics, and used to identify major controls on the igneous, metamorphic and sedimentary rock records. Laboratory exercises emphasize geologic and geophysical applications of the material developed in lectures.

CR: the former EASC 2070, 2161, 2400 and 4901
 LH: 3
 PR: EASC 2031, 2401, 2502, 2702, Mathematics 1000 and 1001, Physics 1021 or 1051

3600 Environmental Geology (F) examines the application of basic concepts and fundamental principles of geochemistry in evaluating natural and human-induced change through time on the interaction of the Earth's lithosphere, hydrosphere, atmosphere and biosphere; includes the effects of contaminants on global change. Laboratory time will be used for short field-based studies and for exercises examining the effects of contaminants on global change.

LH: 3
 PR: either EASC 2502; or EASC 1000, Chemistry 2210 and Chemistry 2300

3611 Engineering Geology (W) - inactive course.

3702 Lithification, Diagenesis and Sedimentary Rock Properties provides a conceptual and practical overview of the transformation of sediments into sedimentary rocks through compaction, cementation and mineral reactions, and the resultant modifications of rock composition, rock fabrics, and associated porous media characteristics (e.g. porosity). Both

descriptive and analytical methods are integrated in laboratories that include carbonate and sandstone petrology (hand samples and thin sections), geological analysis of selected wireline logs, and the analysis of fluid reservoir properties.

LH: 3

PR: EASC 2031, 2702 and 2905

3705 Field Course in Sedimentology, Reservoir Architecture and Sequence Stratigraphy is a ten day field and lecture based course normally offered in the first two weeks of the Spring semester that aims to teach students to use sedimentological and palaeontological data for palaeoenvironmental analysis. The course will demonstrate the use of sedimentary facies models and facies architectural studies in reservoir geology, particularly when coupled with the principles of sequence stratigraphy. Students will be taught to create sedimentary logs and facies architectural panels.

CO: EASC 2702, 3811, 3905

CR: the former EASC 4700 or the former Geology 4700

OR: field based course

PR: EASC 2702, 3811, 3905

3811 Paleontology (W) outlines the major changes in life forms from Archean times through the Phanerozoic to the present day, including details of invertebrate and vertebrate faunas and major floral groups; mechanisms and effects of mega- and micro-evolution in the fossil record; biology and classification of organisms and summaries of their geological significance in biostratigraphy, paleoecology and rock-building; relationships between major cycles of evolution and extinction to global processes.

CR: Biology 3811 or either the former EASC 3801 or the former Biology 3800

LH: 3

PR: either Biology 2120 (or Biology 1001 and 1002) and EASC 1002; or Biology 2122 and 2210

3905 Field Methods in Structural Geology and Stratigraphy (W) is based on approximately 5 days of geological mapping in Precambrian rocks near St. John's. Emphasis is placed on application of techniques of structural analysis. Evenings will be dedicated to data analysis and preparation of structural maps and sections. Students are advised to complete this course immediately following EASC 2401. This course will be offered during a special session immediately following the examination period in a given semester.

AR: attendance for all of the field school days is required. Failure to attend may result in a failing grade or withdrawal from the course.

CH: 1

OR: field based course

PR: EASC 2401 and 2905 and an application to the Head of the Department

8.5.4 Fourth Year

4053 Petrogenesis of Igneous Rocks investigates the origin of topical and important groups of igneous rocks based on experimental petrology, phase equilibria and application of geochemical tools. It further investigates the classification of igneous rocks, including the study of volcanoclastic rocks and aspects of physical volcanology. The laboratory component of the course emphasizes practical aspects of igneous petrology including geochemical characterization and use of hand-sample and field criteria.

LH: 3

PR: EASC 3054 and 3420

4054 Metamorphic Petrology examines relationships between metamorphism and tectonics, representation and interpretation of metamorphic mineral assemblages using compositional phase diagrams and petrogenetic grids; equilibrium thermodynamics and thermobarometry; determination of P-T-t paths. Laboratories include use of the electron microprobe to collect data for use in calculations of the conditions of formation of metamorphic assemblages, and various types of software applicable to metamorphic petrology.

LH: 3

PR: EASC 2401, 3055 and 3420

4105 High Resolution Geophysics is a senior-level-field-based course in high resolution geophysics with an emphasis on environmental and mineral exploration applications. Techniques used may include ground probing radar, refraction seismology, magnetic surveying, gravimetry, electrical and electro-magnetic methods. This course has a laboratory component in which students conduct a series of surveys over a specific site and process and interpret the collected data.

LH: 3

PR: EASC 3170, 3172 and 3179

4171 Exploration Geophysics III examines techniques involved in the acquisition, processing and interpretation of multichannel seismic reflection data. Introduction to elastic properties of rocks. Introduction to advanced processing and interpretation techniques as applied to qualitative and quantitative evaluation of hydrocarbon reservoir characteristics. This course has a laboratory component designed to provide hands-on experience with

data processing and interpretation.

LH: 3

PR: EASC 3170 and 4179

4173 Exploration Geophysics IV examines advanced techniques in electrical and electromagnetic exploration methods including advanced IP, airborne EM surveys, EM and IP modelling, and inversion techniques; advanced methods in gravity and magnetic field exploration techniques including 2 ½-D and 3-D modelling and inversion, map processing techniques, and excess mass determination.

LH: 3

PR: EASC 3170 or 3172; and EASC 4179

4179 Digital Signal Processing is an introduction to the theory and basic computational techniques of digital signal processing in geophysics. Topics covered include: sampling, Fourier transformation, design and application of digital filters, deconvolution, spectral analysis, two dimensional signal processing, with emphasis on geophysical applications.

LH: 3

PR: EASC 3170 and 3179

4211 Economic Geology provides a detailed look at the methodologies and techniques used in the study of mineral deposits and their applications in case histories. Laboratory exercises involve solving problem sets using the various types of data from selected case studies.

LH: 3

PR: EASC 3054 or 3055; and EASC 3210

4302 Advanced Marine Geology examines the geology and geophysics of ocean basins; discussion of methods of oceanic exploration, the history and development of ocean basins, interrelationships between ocean water, marine organisms, sedimentary and igneous processes.

PR: EASC 1001 or 1002 and completion of any 15 credit hours in core courses at the 3000 and/or 4000 levels (see General Note 5) in Biology, Biochemistry, Chemistry, Earth Sciences, Physics, or Geography.

4310 Earth Science Concepts, Materials and Techniques for Archaeologists - inactive course.

4400 Advanced Techniques in Structural Geology examines modern techniques of structural analysis applied to fold and fault systems including progressive deformation and strain analysis, fold mechanisms, fold morphology and classification, fold sections and profiles, superposed folding, fault geometry and morphology, brittle and ductile shear zones, and construction of balanced cross-sections.

LH: 3

PR: EASC 2401 and 3905 and a minimum of 6 credit hours in Earth Sciences at the 3000 level

4420 Tectonics and Crustal Evolution is a lecture and seminar course covering secular change and tectonic evolution in Earth history from the Archean to Mesozoic, featuring examples from the North American geological record. The course will draw on and link concepts from a variety of Earth Science disciplines and provide an overview of the geological evolution of North America in a tectonic context.

CR: the former EASC 4901

OR: seminar

PR: EASC 3420

4502 Advanced Geochemistry focuses primarily on the application of trace, radiogenic and stable isotope geochemistry to constrain the origin, mass balance and chemical fluxes within the Earth's lithosphere and asthenosphere. The course permits students to complete assignments in aspects of geochemistry that reflect their career interests.

LH: 3

PR: EASC 2031 and 2502 and a minimum of 6 credit hours in Earth Sciences at the 3000 level

4503 Mineral Exploration Geochemistry is an examination of the application of geochemistry to mineral exploration, covering: the lithochemical characteristics of ore deposits, their host rocks, and element dispersion from them; the principles of sampling and analysis in exploration geochemistry; approaches to the statistical analysis, graphical presentation, and interpretation of survey results; and the design of effective geochemical surveys. Particular emphasis will be placed on case studies relevant to exploration in Newfoundland and Labrador. Laboratory/seminar sessions involve working with exemplary data sets, using computer-based software for statistical analysis and software for searching large databases and viewing the spatial relationships of different types of map data relevant to the mineral exploration industry.

LH: 3

OR: seminar

PR: EASC 3210

4601 Petroleum Origin and Occurrence - inactive course.

4602 Sedimentary Basins and Hydrocarbon Exploration provides a review of sedimentary basin types and associated petroleum systems including concepts applicable to petroleum generation, migration and

accumulation. Regional-scale stratigraphic and structural concepts/models are presented as a framework for hydrocarbon fluid flow and entrapment. Laboratories include description and analysis of data typical of basin- and regional-scale exploration and appraisal of hydrocarbon resources using a variety of integrated, interdisciplinary techniques (geological, geophysical and geochemical).

CR: EASC 4601

LH: 3

PR: EASC 2401, 2702, 3170 and 3420

4603 Reservoir Characterization provides a review of the sedimentary, stratigraphic and structural setting of hydrocarbon reservoirs and the geological controls on reservoir quality. Reservoir types and methods of study are presented to evaluate their key properties for the development and production of hydrocarbons. Laboratories include detailed subsurface correlation and mapping, log analysis, interpretation of reservoir data (e.g. capillary pressure, porosity, permeability and production data).

CR: EASC 4601

LH: 3

PR: EASC 2401, 2702, 3170 and 3702

4605 Environmental Geoscience Field School is a field-based course normally offered during a special session immediately before the Fall semester followed by laboratory analytical work during the Fall semester. The aim of this course is to investigate anthropogenic impacts on the environment using geochemical, hydrological, and microbial methods. Emphasis is placed on site investigation, sample collection and preparation techniques, instrumental analysis, and data analyses.

AR: attendance required

OR: field-based course

PR: EASC 2502, EASC 3600, Mathematics 1001, and one of Mathematics 2000, Statistics 2510, Statistics 2550

4610 Hydrogeology examines geology and its relationship to groundwater occurrence and exploitation: basic theory, groundwater flow systems, surface-groundwater interactions and changes in water quality, field and laboratory techniques, hydrogeological aspects of waste disposal and resource development.

LH: 3

PR: EASC 2502 or permission of instructor

4720 Carbonate Depositional Environments and Diagenesis examines carbonate environments and their facies models with examples from modern and ancient settings. Diagenetic environments and diagenetic controls on rock properties, particularly porosity, are examined, as well as their application in the reconstruction of the diagenetic history of a sedimentary basin and in the characterization of hydrocarbon reservoirs. The application of chemostratigraphy to correlation is discussed. The laboratory exercises apply hand specimen, thin section and geochemical methods to investigate carbonates from different depositional settings and a wide spectrum of diagenetic environments covered in lectures.

CO: EASC 3811

LH: 3

PR: EASC 2031, 2702, and 3811

4800 Advanced Paleontology (same as Biology 4800) is a field, lecture, laboratory and seminar course dealing with selected topics in general and applied paleontology. Topics include measuring evolution and extinction, population paleontology, functional morphology, paleoecology, statistical methods for paleontological studies, and applications in petroleum, mining, and environmental studies.

CR: Biology 4800

LH: 3

PR: EASC 3811, and Statistics 2510 or Statistics 2550 or Mathematics 2000

4902 Early Evolution of the Earth (F) - inactive course.

4903 Global Change (W) is a lecture and seminar course that studies the interaction of the atmosphere, biosphere and lithosphere; topics covered include the evolution of the biosphere, fluid circulation, global geochemical budget, global environmental changes, and chemical evolution of the

hydrosphere.

OR: seminar

PR: EASC 1001 or 1002, and Biology 2120 (or Biology 1001 and 1002); and completion of any 15 credit hours in core courses at the 3000 and/or 4000 levels (see General Note 5) in Biology, Biochemistry, Chemistry, Earth Sciences, or Physics; or permission of the instructor.

4905 Field Course in Geological Mapping and Regional Tectonics (F) is a two-week field school designed to allow application of techniques introduced in the third year, and to provide an introduction to the Appalachian geology of western and central Newfoundland. Reports must be submitted for grading during the fall semester.

OR: field based course

PR: EASC 2401, 3055, 3420, and 3905; and permission of the Head of the Department

4912 Planetary Geology is a classroom- and laboratory-based course that provides students with a basic knowledge of the geology of the Moon, Mars, asteroids and the moons of the satellites of the outer solar system; the petrology and geochemistry of meteorites and their importance to understanding the origin of the planets; impact cratering processes and rock products including those on Earth; and instrumentation for planetary exploration. The course combines lectures and laboratory exercises that examine data sets from planetary missions and specimens of extraterrestrial materials. Students learn how geological processes that have shaped Earth also have operated on other planets, moons and asteroids in our solar system.

PR: EASC 2031, 2702, 2905, and 3420

4910-4920 (Excluding 4912) Special Topics in Earth Sciences are lecture and seminar courses given for undergraduates in their fourth or fifth year who wish to gain more specialized knowledge in a particular field of Earth Sciences than is possible through the standard course offerings. The Department will consider suggestions by students for Special Topics courses, but it must be borne in mind that such a course should normally be approved at least three months before the start of the semester in which it is to be taken.

PR: permission of the Head of Department

4950 Technical Report on Geoscience Employment requires the preparation of a publication-quality technical report, about 50 pages in length, based on a study undertaken during geoscience employment. The topic and scope of the study must be approved by the Head of Department prior to its commencement. Students will present a seminar or seminars on results of the project, and will be closely advised on proper organization and writing of scientific reports. Some directed reading will be required.

PR: completion of 9 credit hours in Earth Sciences at 3000 level, and permission of the Head of Department

UL: can only be used as an "additional course" under point 3. of the regulations for General degrees, and under point 4. of the regulations for Honours degrees. The same study cannot be used as the basis of a dissertation completed for course EASC 499A/B.

499A and 499B Dissertation is an independent study of an approved problem in the Earth Sciences. The subject of study will be decided in consultation with Faculty Advisors and must be approved in advance by the Head of Department. The first semester will normally involve directed reading, supervised field and/or laboratory work, and preparation of a dissertation outline and draft of a first chapter of the thesis. The second semester will be devoted to data synthesis and interpretation, to a seminar presenting the thesis results, and to preparation of a formal written report accompanied by appropriate illustrations, to be submitted for grading one week before the end of classes.

CH: 6

PR: admission to the Honours program

UL: The dissertation cannot be based on the same study used to obtain credit for EASC 4950. May be used as Science credits by students not in the Honours program with permission of the Head of the Department.

8.6 Economics

For course descriptions, see **Faculty of Arts** section of the Calendar.

8.7 Geography

For course descriptions, see **Faculty of Arts** section of the Calendar.

8.8 Mathematics and Statistics

In the descriptions of the courses which follow, the symbol (F) represents the Fall and (W) represents Winter. These labels are intended to indicate the semester when the course is generally offered. Unlabelled courses are offered as demand or programs

dictate and as resources permit. The Department tries to offer a variety of 1000-, 2000- and 3000-level courses during the Spring semester (or intercession or Summer session) every year. Students are encouraged to consult the Department regularly for specific planned offerings, semester by semester.

8.8.1 Foundation Courses

102F Mathematics Skills Program is a non-credit course intended for students who either have a weak background in mathematics or are returning to the subject after some years. The course enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, integers, exponents, linear equations and algebraic expressions.

CH: 0

102N Mathematics Skills Program for the B.N. (Collaborative) Program is a non-credit course intended for students of the B.N. (Collaborative) Program who have a weak background in mathematics and/or have not done mathematics in some years. The course enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, units of measurement, ratios and proportions.

CH: 0

103F Mathematics Skills Program is non-credit course intended for students who either have a weak background in mathematics or are returning to the subject after some years. The course enables students to master mathematical operations such as those involving rational expressions and equations, units of measurement, ratios and proportions, formulas, graphs of linear equations, systems of linear equations, basic geometry and trigonometry and number systems.

CH: 0

PR: Mathematics 102F

104F Mathematics Skills Program is a non-credit course intended for those students who either have a weak background in mathematics or are returning to the subject after some years. The course enables students to master mathematical operations such as those involving number systems, algebraic and rational expressions, linear and rational equations, formulas, exponents, radicals, quadratic equations and logarithms.

CH: 0

PR: Mathematics 103F

8.8.2 Accelerated M103F/M1051 Mathematics Skills Program/Finite Mathematics II (W)

103F Mathematics Skills Program/Finite Mathematics II is a non-credit course enabling students to master mathematics operations such as those involving algebraic and rational expressions, formulas, graphs, systems of linear equations, basic trigonometry and number systems. Mathematics 1051 is a credit course with topics including elementary matrices, linear programming, elementary number theory, mathematical systems and geometry.

CH: 0

CO: Mathematics 102F and a recommendation by an MLC instructor resulting in approval by the MLC Director

LH: three 50 minute classes and two 75 minute classes per week

PR: Mathematics 102F and a recommendation by an MLC instructor resulting in approval by the MLC Director

8.8.3 Mathematics Courses

Mathematics courses are designated by MATH. Where the 4 digit course number is the same, students can receive credit for only one course with subject names MATH, AMAT, PMAT, STAT.

1000 Calculus I (F) & (W) is an introduction to differential Calculus including logarithmic, exponential and trigonometric functions.

CR: the former 1081

LC: 4

PR: MATH 1090 or a combination of placement test and high school Mathematics scores acceptable to the Department

UL: at most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151

1001 Calculus II (F) & (W) is an introduction to integral Calculus with applications.

CR: the former Engineering 1411 or the former Engineering 2413

LH: one and one-half hour problem lab

PR: MATH 1000 or the former 1081

1031 Mathematical Problem Solving - inactive course.

1050 Finite Mathematics I (F) & (W) covers topics which include sets, logic, permutations, combinations and elementary probability.

CR: the former MATH 1150

LC: 4

PR: a combination of placement test and high school mathematics scores acceptable to the department or MATH 103F

UL: At most 9 credit hours in Mathematics will be given for courses

completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151. With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

1051 Finite Mathematics II (F) & (W) covers topics which include elementary matrices, linear programming, elementary number theory, mathematical systems, and geometry.

CR: the former MATH 1151

LC: 4

PR: a combination of placement test and high school mathematics scores acceptable to the department or MATH 103F

UL: At most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151. With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

1090 Algebra and Trigonometry (F) & (W) provides students with the essential prerequisite elements for the study of an introductory course in calculus. Topics include algebra, functions and their graphs, exponential and logarithmic functions, trigonometry, polynomials, and rational functions.

CR: if previously completed or currently registered for MATH 1000, 1001, the former 1080, or the former 1081

LC: 4

PR: a combination of placement test and high school Mathematics scores acceptable to the Department or MATH 104F

UL: at most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151

2000 Calculus III (F) & (W) is a study of the differential calculus of functions of two variables, an introduction to convergence of infinite sequences and series.

CR: the former Engineering 1411, Engineering 1412, Engineering 2412, or Engineering 2413

LH: one and one-half hour problem lab

PR: MATH 1001

2050 Linear Algebra I (F) & (W) includes the topics: Euclidean n-space, vector operations in 2- and 3-space, complex numbers, linear transformations on n-space, matrices, determinants, and systems of linear equations.

CR: the former Engineering 2402

PR: A combination of placement test and high school Mathematics scores acceptable to the Department or 3 credit hours in first year Mathematics courses

2051 Linear Algebra II (F) & (W) includes the topics: real and complex vector spaces, basis, dimension, change of basis, eigenvectors, inner products, and diagonalization of Hermitian matrices.

PR: MATH 1000 and 2050

2075 Introduction to the History of Mathematics - inactive course.

2090 Mathematics of Finance covers the topics: simple and compound interest and discount, forces of interest and discount, equations of value, annuities and perpetuities, amortization schedules and sinking funds, bonds and other securities, contingent payments.

PR: MATH 1001

2091 Introduction to Actuarial Mathematics - inactive course.

2130 Technical Writing in Mathematics (W) is a project oriented course combining mathematical investigation and technical writing. By using computer programming, graphical and typesetting tools, students will explore mathematical concepts and will produce technical reports of professional quality. The latter will combine elements of writing and graphics to convey technical ideas in a clear and concise manner.

PR: admission to Applied or Pure Mathematics major and MATH 1001 and (Computer Science 1510 or 1710 or 2710 or 2602; or permission of the Head of Department)

UL: qualifies as a Research/Writing course in the Faculty of Arts

2320 Discrete Mathematics (F) & (W) covers basic concepts of mathematical reasoning, sets and set operations, functions, relations including equivalence relations and partial orders as illustrated through the notions of congruence and divisibility of integers, mathematical induction, principles of counting, permutations, combinations and the Binomial Theorem.

CR: the former Computer Science 2740 or the former Engineering 3422 or

Engineering 4424
PR: MATH 1001 or 2050

3000 Real Analysis I (F) & (W) covers proof techniques, structure of the real numbers, sequences, limits, continuity, uniform continuity, differentiation.

CR: the former MATH 2001
LH: 1
PR: MATH 2000

3001 Real Analysis II (F) & (W) examines Infinite series of constants, sequences and series of functions, uniform convergence and its consequences, power series, Taylor series, Weierstrass Approximation Theorem.

CR: the former MATH 3201
LH: 1
PR: MATH 3000

3100 Introduction to Dynamical Systems (W) examines flows, stability, phase plane analysis, limit cycles, bifurcations, chaos, attractors, maps, fractals. Applications throughout.

CR: the former AMAT 3190
PR: MATH 3260

3111 Applied Complex Analysis examines mapping by elementary functions, conformal mapping, applications of conformal mapping, Schwartz-Christoffel transformation, Poisson integral formula, poles and zeros, Laplace transforms and stability of systems, analytic continuation.

PR: MATH 3210

3132 Numerical Analysis I (W) includes a discussion of round-off error, the solution of linear systems, iterative methods for nonlinear equations, interpolation and polynomial approximation, least squares approximation, fast Fourier transform, numerical differentiation and integration.

CR: Computer Science 3731
PR: MATH 2000, MATH 2050, and a computing course (Computer Science 1510 is recommended).

3161 Ordinary Differential Equations II (F) examines power series solutions, method of Frobenius, Bessel functions, Legendre polynomials and others from classical Physics, systems of linear first order equations, fundamental matrix solution, numerical methods for initial value problems, existence and uniqueness of solutions.

PR: MATH 3202 and 3260

3202 Vector Calculus (F) & (W) deals with functions of several variables, Lagrange multipliers, vector valued functions, directional derivatives, gradient, divergence, curl, transformations, Jacobians, inverse and implicit function theorems, multiple integration including change of variables using polar, cylindrical and spherical co-ordinates, Green's theorem, Stokes' theorem, divergence theorem, line integrals, arc length.

CR: Physics 3810
PR: MATH 2000 and 2050

3210 Introduction to Complex Analysis (F) examines complex numbers, analytic functions of a complex variable, differentiation of complex functions and the Cauchy-Riemann equations, complex integration, Cauchy's theorem, Taylor and Laurent series, residue theory and applications.

PR: MATH 3000

3240 Applied Graph Theory (F) examines algorithms and complexity, definitions and basic properties of graphs, Eulerian and Hamiltonian chains, shortest path problems, graph colouring, planarity, trees, network flows, with emphasis on applications including scheduling problems, tournaments, and facilities design.

CR: the former Computer Science 2741
PR: MATH 2320

3260 Ordinary Differential Equations I (F) & (W) examines direction fields, equations of first order and first degree, higher order linear equations, variation of parameters, methods of undetermined coefficients, Laplace transforms, systems of differential equations. Applications include vibratory motion, satellite and rocket motion, pursuit problems, population models and chemical kinetics.

CR: the former Engineering 3411
PR: MATH 2000

3300 Set Theory is an introduction to Mathematical Logic, functions, equivalence relations, equipotence of sets, finite and infinite sets, countable and uncountable sets, Cantor's Theorem, Schroeder-Bernstein Theorem, ordered sets, introduction to cardinal and ordinal numbers, logical paradoxes, the axiom of choice.

PR: MATH 2320

3303 Introductory Geometric Topology covers graphs and the four colour problem, orientable and non-orientable surfaces, triangulation, Euler characteristic, classification and colouring of compact surfaces, basic point-set topology, the fundamental group, including the fundamental groups of surfaces, knots, and the Wirtinger presentation of the knot group.

PR: MATH 2320

3320 Abstract Algebra (F) is an introduction to groups and group homomorphisms including cyclic groups, cosets, Lagrange's theorem, normal subgroups and quotient groups, introduction to rings and ring homomorphisms including ideals, prime and maximal ideals, quotient rings, integral domains and fields.

PR: MATH 2320

3321 Applied Algebra - inactive course.

3330 Euclidean Geometry (F) is classical Euclidean geometry of the triangle and circle, the inversion transformation, including the theorem of Feuerbach. Elliptic and hyperbolic geometries.

PR: MATH 2051 or 2320

3331 Projective Geometry includes course topics: projective space, the principle of duality, mappings in projective space, conics and quadrics.

PR: MATH 2051 or 2320

3340 Introductory Combinatorics (W) includes topics: distributions, the binomial and multinomial theorems, Stirling numbers, recurrence relations, generating functions and the inclusion-exclusion principle. Emphasis will be on applications.

PR: MATH 2320

3370 Introductory Number Theory (F) examines perfect numbers and primes, divisibility, Euclidean algorithm, greatest common divisors, primes and the unique factorization theorem, congruences, cryptography (secret systems), Euler-Fermat theorems, power residues, primitive roots, arithmetic functions, Diophantine equations, topics above in the setting of the Gaussian integers.

PR: MATH 2320

4000 Lebesgue Integration (F) includes a review of the Riemann integral, functions of bounded variation, null sets and Lebesgue measure, the Cantor set, measurable sets and functions, the Lebesgue integral in \mathbb{R}^1 and \mathbb{R}^2 , Fatou's lemma, Monotone and Dominated Convergence Theorems, Fubini's Theorem, an introduction to Lebesgue-Stieltjes measure and integration.

CR: the former Pure Mathematics 4400
PR: MATH 3001

4001 Functional Analysis (W) includes metric and normed spaces, completeness, examples of Banach spaces and complete metric spaces, bounded linear operators and their spectra, bounded linear functionals and conjugate spaces, the fundamental theorems for Banach spaces including the Hahn-Banach Theorem, topology including weak and weak* topologies, introduction to Hilbert spaces.

CR: the former Pure Mathematics 4302
PR: MATH 3001

4100 Applied Functional Analysis - inactive course.

4102 Stochastic Methods in Applied Mathematics - inactive course.

4130 Introduction to General Relativity (same as Physics 4220) studies both the mathematical structure and physical content of Einstein's theory of gravity. Topics include the geometric formulation of special relativity, curved spacetimes, metrics, geodesics, causal structure, gravity as spacetime curvature, the weak-field limit, geometry outside a spherical star, Schwarzschild and Kerr black holes, Robertson-Walker cosmologies, gravitational waves, an introduction to tensor calculus, Einstein's equations, and the stress-energy tensor.

CO: MATH 4230
CR: Physics 4220
PR: MATH 3202 and one of Physics 3220 or MATH 4230 or permission of the Head of Department.

4131 Numerical Linear Algebra - inactive course.

4132 Introduction to Optimization - inactive course.

4133 Numerical Optimization - inactive course.

4140 Introduction to Mathematical Control Theory - inactive course.

4160 Partial Differential Equations I (F) covers two point boundary value problems, Fourier series, Sturm-Liouville theory, canonical forms, classification and solution of linear second order partial differential equations in two independent variables, separation of variable, integral transform methods.

PR: MATH 3202 and MATH 3260

4161 Integral Equations - inactive course.

4162 Numerical Methods for Differential Equations covers numerical solution of initial value problems for ordinary differential equations by single and multi-step methods, Runge-Kutta, and predictor-corrector; numerical solution of boundary value problems for ordinary differential equations by shooting methods, finite differences and spectral methods; numerical solution of partial differential equations by the method of lines, finite differences, finite volumes and finite elements.

PR: MATH 3132 and 4160

4170 Partial Differential Equations II covers first order equations, Cauchy problems, Cauchy-Kowalewska theorem, second order equations, canonical forms, wave equations in higher dimensions, method of spherical means, Duhamel's principle, potential equation, Dirichlet and Neuman problem, Green's function and fundamental solution, potential theory, heat equation, Riemann's method of integration, method of plane and Riemann waves for systems of PDEs of the first order.
PR: MATH 4160

4180 Introduction to Fluid Dynamics (same as Physics 4205) covers basic observations, mass conservation, vorticity, stress, hydrostatics, rate of strain, momentum conservation (Navier-Stokes equation), simple viscous and inviscid flows, Reynolds number, boundary layers, Bernoulli's and Kelvin's theorems, potential flows, water waves, thermodynamics.
CR: Physics 4205
PR: Physics 3220 and either MATH 4160 or the former Physics 3821

4190 Mathematical Modelling (W) is intended to develop students' skills in mathematical modelling and competence in oral and written presentations. Case studies in modelling will be analysed. Students will develop a mathematical model and present it in both oral and report form.
PR: MATH 3100, 3161, 4160, and a technical writing course offered by a Science department (MATH 2130 is recommended).

419A and 419B Applied Mathematics Honours Project is a two-semester course that requires the student, with supervision by a member of the Department, to prepare a dissertation in an area of Applied Mathematics. In addition to a written project, a one hour presentation will be given by the student at the end of the second semester.
CH: 6
CR: the former AMAT 4199
PR: registration in an Honours or Joint Honours program in Applied Mathematics.

4230 Differential Geometry covers theory of curves, Frenet relations, curvature and torsion, singular points of curves, first and second quadratic forms, classification of points on a surface, Gaussian curvature, Gauss-Weingarten theorem, Christoffel's symbols, theorem Egregium, Gauss-Cadazzi-Mainardi theorem, internal geometry of surfaces, isometric and conformal mappings, geodesic curvature and torsion, parallel displacement, Gauss-Bonnet theorem.
PR: MATH 3202

4240 Differential and Integral Calculus on Manifolds - inactive course.

4280-4290 Special Topics in Pure and Applied Mathematics will have the topics to be studied announced by the Department. Consult the Department for a list of titles and information regarding availability.
PR: permission of the Head of the Department

4300 General Topology examines topological structure on a set, neighbourhood, open and closed sets, continuity, sub-spaces and quotient spaces, connectedness, relation between topologies, base and sub-base, product spaces, applications to Euclidean spaces. Hausdorff, regular, normal and compact spaces, metric spaces, compacta and continua, metrizable.
PR: MATH 3300 or both MATH 3000 and 3303

4301 Algebraic Topology - inactive course.

4310 Complex Function Theory examines topology of \mathbb{C} , analytic functions, Cauchy's theorem with proof, Cauchy integral formula, singularities, argument principle, Rouché's theorem, maximum modulus principle, Schwarz's lemma, harmonic functions, Poisson integral formula, analytic continuation, entire functions, gamma function, Riemann-Zeta function, conformal mapping.
PR: MATH 3210

4320 Ring Theory examines factorization in integral domains, structure of finitely generated modules over a principal ideal domain with application to Abelian groups, nilpotent ideals and idempotents, chain conditions, the Wedderburn-Artin theorem.
PR: MATH 3320

4321 Group Theory examines permutation groups, Sylow theorems, normal series, solvable groups, solvability of polynomials by radicals, introduction to group representations.
PR: MATH 3320

4331 Galois Theory - inactive course.

4340 Combinatorial Analysis continues most of the topics started in 3340 with further work on distributions, recurrence relations and generating functions. Generating functions are used to solve recurrence relations in two variables. Also included is a study of Polya's theorem with applications.
PR: MATH 2000 and 3340

4341 Combinatorial Designs includes the study of finite fields, Latin squares, finite projective planes and balanced incomplete block designs.
PR: MATH 3320 or 3340

4370 Number Theory is continued fractions, an introduction to Diophantine approximations, selected Diophantine equations, the Dirichlet product of arithmetic functions, the quadratic reciprocity law, and factorization in quadratic domains.
PR: MATH 3370

4375 History of Mathematics - inactive course.

4399 Pure Mathematics Dissertation requires the student, with supervision by a member of the department, to prepare a dissertation in an area of Pure Mathematics. Although original research by the student will not normally be expected, the student must show an ability and interest to learn and organize material independently. A one hour presentation at the end of the semester will be given by the student.
PR: registration in an Honours or Joint Honours program in Pure Mathematics

8.8.4 Statistics Courses

Statistics courses are designated by STAT. Where the 4 digit course number is the same, students can receive credit for only one course with subject names MATH, AMAT, PMAT, STAT.

1510 Statistical Thinking and Concepts (F) & (W) examines the basic statistical issues encountered in everyday life, such as data collection (both primary and secondary), ethical issues, planning and conducting statistically-designed experiments, understanding the measurement process, data summarization, measures of central tendency and dispersion, basic concepts of probability, understanding sampling distributions, the central limit theorem based on simulations (without proof), linear regression, concepts of confidence intervals and testing of hypotheses. Statistical software will be used to demonstrate each technique.
CR: cannot receive credit for STAT 1510 if completed with, or subsequent to, STAT 2500, 2510 or 2550
LH: one 90 minute lab per week
PR: Mathematics 1090 or a combination of placement test and high school Mathematics scores acceptable to the Department.

2500 Statistics for Business and Arts Students (F) & (W) covers descriptive statistics (including histograms, stem-and-leaf plots and box plots), elementary probability, discrete random variables, the binomial distribution, the normal distribution, sampling distribution, estimation and hypothesis testing including both one and two sample tests, paired comparisons, chi-square test, correlation and regression. Related applications.

CR: STAT 2510, 2550, Psychology 2910, 2925 and the former 2900.
LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.
PR: Mathematics 1000 or 6 credit hours in first year courses in Mathematics or registration in at least semester three of a Bachelor of Nursing program or permission of the Head of Department.

2501 Further Statistics for Business and Arts Students (F) covers power calculation and sample size determination, analysis of variance, multiple regression, nonparametric statistics, index numbers, time series analysis, introduction to sampling techniques.
CR: STAT 2560, the former 2511, Psychology 2911, 2950, and the former 2901
LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory.
PR: STAT 2500 or 2510

2510 Statistics for Physical Science Students (F) & (W) examines elements of probability, conditional probability, Bayes' Theorem, discrete random variables, cumulative distribution function, introduction to continuous random variables, mathematical expectation, estimation of mean, proportion and variance, hypothesis testing for one-sample case. This course is normally offered twice a year, including the Fall.
CR: STAT 2500, 2550, Psychology 2910, 2925, the former 2900, the former Engineering 3423 and 4421
LH: one 90 minute lab per week
PR: Mathematics 1000 or the former 1081

2550 Statistics for Life Science Students (F) & (W) & (S) is an introduction to basic statistics methods with an emphasis on applications to life sciences and, in particular, to biology. Material includes descriptive statistics, elementary probability, binomial distribution, normal distribution, sampling distribution, estimation and hypothesis testing (both one and two sample cases), chi-square test, one way analysis of variance, correlation and simple linear regression.
CR: STAT 2500, 2510, Psychology 2910, 2925, and the former 2900
LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.
PR: Mathematics 1000 or the former 1081

2560 Further Statistics for Science Students (W) (formerly STAT 2511) covers estimation and hypothesis testing in the two-sample and paired sample cases, one way and two way analysis of variance, simple and multiple linear regression, chi-square tests, non-parametric tests including

sign test, Wilcoxon signed rank test and Wilcoxon rank test.

CR: STAT 2501, the former 2511, Psychology 2911, 2950, and the former 2901

LH: one 90 minute lab per week. Statistical computer packages will be used in the laboratory, but no prior computing experience is assumed.

PR: STAT 1510 or 2500 or 2510 or 2550, Mathematics 1000 or the former 1081

3410 Mathematical Statistics I covers basic probability concepts, combinatorial analysis, conditional probability, independence, random variable, distribution function, mathematical expectation, Chebyshev's inequality, distribution of two random variables, binomial and related distributions, Poisson, gamma, normal, bivariate normal, t, and F distributions, transformations of variables including the moment-generating function approach.

OR: one and a half hour tutorial period weekly

PR: Mathematics 2000

3411 Mathematical Statistics II examines sampling distributions. Limiting distributions, central limit theorem, minimum variance unbiased estimators, confidence intervals, MLE and its asymptotic properties, exponential family, sufficient statistics, Rao-Cramér inequality, efficiency, Neyman-Pearson lemma, chi-square tests, likelihood ratio test.

OR: one and a half hour tutorial period weekly

PR: STAT 3410

3520 Experimental Design I (F) is an introduction to basic concepts in experimental design, single factor designs including completely randomized, randomized blocks, Latin square and related designs, multiple comparison tests, fixed and random effects models, introduction to factorial design.

CR: Psychology 3900 and 3950

PR: Mathematics 2050 and either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3521 Regression (W) covers inferences in linear regression analysis, matrix approach to regression analysis, multiple linear regression, model selection, polynomial regression, indicator variable, problem of simultaneous inferences, multicollinearity.

PR: Mathematics 2050 and either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3530 Survey Sampling I (F) covers basic concepts, randomization, sampling frames, stratified sampling, the analysis of subclasses, cluster sampling, stratified cluster sampling, unequal clusters, ratio estimates selection with probabilities proportional to size.

PR: either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3540 Time Series I covers Autocovariance, autocorrelation and correlation, stationarity, autoregressive, moving average and ARMA models, differencing, the integrated ARMA process, parameter estimation, model identification and diagnostic testing, forecasting, seasonal models, the use of data transformation.

PR: either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3570 Reliability and Quality Control is an analysis of life, mortality and failure data, standard parametric models in reliability, quality control charts and cumulative sum charts, tolerance limits, contingency tables, interactions, application of sequential sampling.

PR: either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3590 Statistics in Applied Research - inactive course.

4401 Probability Theory is a review of Riemann integration, outer measure, measure, measurable sets, measurable functions, the Lebesgue integral, properties of the Lebesgue integral, sequences of integrals, Fubini's theorem.

PR: Mathematics 3000, STAT 3410

4402 Stochastic Processes covers stochastic processes, stationarity, random walks, Markov chains, renewal, and queuing.

CR: Mathematics 4102

PR: STAT 3410

4410 Mathematical Statistics III examines multivariate normal distribution theory, applications to ANOVA and regression, other topics such as sequential tests, distribution of order statistics, nonparametrics and decision theory.

PR: Mathematics 2051, STAT 3411

4520 Experimental Design II (W) covers selected topics in ANOVA and ANCOVA including factorial experiments and unbalanced designs.

PR: STAT 3520

4530 Survey Sampling II (W) covers area sampling, multi-stage sampling, two-phase sampling, ratio, regression and difference estimates, composite sampling designs, sampling from imperfect frames, bias and non-sampling

errors.

PR: Mathematics 2000 and STAT 3530

4540 Time Series II is an analysis of time series in the time domain, including stationary and non-stationary processes, autocovariance kernels and their estimators, analysis of autoregressive and moving average models, spectral analysis including the power spectrum and its estimators, periodogram, smoothed and filtered estimators.

PR: STAT 3411 and 3540

4550 Non-parametric Statistics covers inferences concerning location based on one sample, paired samples or two samples, inferences concerning scale parameters, goodness-of-fit tests, association analysis, tests for randomness.

PR: one of STAT 3520 or 3521 or STAT 3411

4560 Continuous Multivariate Analysis examines the multivariate normal distribution and its marginal and conditional distributions, properties of the Wishart distribution, Hotelling's T-squared statistic, a selection of techniques chosen from among MANOVA, multivariate regression, principal components, factor analysis, discrimination and classification, clustering.

PR: Mathematics 2051, STAT 3410 and one of STAT 3411, 3520, or 3521

4561 Discrete Multivariate Analysis is an analysis of cross-classified categorical data, chi-square test, measures of association, multidimensional contingency tables, hypotheses of partial and conditional independence, log-linear models for Poisson, multinomial and product-multinomial sampling schemes, iterative scaling technique for maximum likelihood estimation, step-wise model selection procedures, partitioning chi-square, explanatory and response variables in contingency tables, logit models.

PR: STAT 3520 or 3521

4580 History of Statistics - inactive course.

4581 Quantitative Methods in Biology - inactive course.

4585 Computational Statistics is an introduction to modern computational statistics, using a statistical programming language, such as S-Plus. Emphasis is placed on use of the computer for numerical and graphical exploratory data analysis, and on crafting programs to accomplish specialized statistical procedures.

PR: Mathematics 2000, STAT 3520, 3521. Mathematics 2130 is recommended

4590 Statistical Analysis of Data I is for users of Statistics with emphasis placed on computer analysis of statistical problems drawn from various disciplines, descriptive statistics, analysis of univariate measurement data, chi-square tests, non-parametric tests, basic ANOVA and regression.

LH: one 90 minute lab per week

PR: one of STAT 3411, 3520, or 3521

4591 Statistical Analysis of Data II - inactive course.

4599 Honours Comprehensive with Directed Readings is a directed reading course with Comprehensive examination.

PR: registration in an Honours or Joint Honours program in Statistics

8.9 Physics and Physical Oceanography

Physics courses are designated by PHYS.

1020 Introductory Physics I (F) & (W) is a non-calculus based introduction to mechanics. This course may be completed by someone who has no physics background provided some extra effort is made.

CO: Mathematics 1090

CR: PHYS 1050

LH: 3; six laboratory sessions per semester

OR: tutorial sessions may be held on weeks when no laboratory is scheduled

PR: Level III Advanced Mathematics or Mathematics 1090. It is recommended that students have completed at least one of level II and level III high school physics courses

1021 Introductory Physics II (F) & (W) is a non-calculus based introduction to fluids, wave motion, light, optics, electricity and magnetism.

CO: Mathematics 1000

LH: 3; normally there will be six laboratory sessions per semester

OR: tutorial sessions may be held on weeks when no laboratory is scheduled

PR: PHYS 1020 or 1050 and Mathematics 1090 or 1000

1050 General Physics I: Mechanics (F) & (W) is a calculus based introduction to mechanics. The course will emphasize problem solving. For more details regarding PHYS 1050, see Note 4 under Physics and Physical Oceanography.

CO: Mathematics 1000

CR: PHYS 1020

LH: 3; normally there will be six laboratory sessions per semester

OR: tutorial sessions may be held on weeks when no laboratory is scheduled

PR: Mathematics 1000

1051 General Physics II: Oscillations, Waves, Electromagnetism (F) (W) & (S) is a calculus based introduction to oscillations, wave motion, physical optics and electromagnetism.

CO: Mathematics 1001

LH: 3; normally there will be six laboratory sessions per semester

OR: tutorial sessions may be held on weeks when no laboratory is scheduled

PR: PHYS 1050, or 1021, or 1020 (with a minimum grade of 65%) and Mathematics 1001

2053 Fluids and Thermal Physics (F) examines elasticity, fluid mechanics, thermodynamics, kinetic theory and statistical mechanics.

CO: Mathematics 1001 and PHYS 1051

LH: 3

PR: Mathematics 1001 and PHYS 1051

2055 Electricity and Magnetism (W) examines Gauss' Law, the electrostatic potential, capacitance, magnetic forces and the magnetic field, electromagnetic induction, magnetic materials, ac circuits, superconductivity, the displacement current and Maxwell's equations.

CO: Mathematics 2000

LH: 3

PR: Mathematics 2000 and PHYS 1051

2151 Stellar Astronomy and Astrophysics (F) & (W) covers atomic structure and spectra. The sun: radiation, energetics, magnetic field. Stars: distance, velocity, size, atmospheres, interiors. Variable stars, multiple stars, clusters and stellar associations. Stellar evolution, interstellar matter, structure of the Milky Way Galaxy. Exterior galaxies, quasi-stellar objects, pulsars. Cosmology.

PR: 6 credit hours in Mathematics courses at the first year level

2750 Modern Physics (W) covers special relativity, quanta of light, atomic structure and spectral lines, quantum structure of atoms and molecules, nuclei and elementary particles.

CO: Mathematics 1001 and PHYS 1051

CR: PHYS 2056

PR: Mathematics 1001 and PHYS 1051

2820 Computational Mechanics (F) & (W) covers newtonian dynamics and celestial mechanics, numerical differentiation and integration, numerical solutions to mechanics problems, data and spectral analysis, Fourier series and normal modes, oscillations and vibrations, linear and non-linear oscillators, nonlinear dynamics and chaos.

CO: Mathematics 2000

LC: 5

LH: 5

PR: Mathematics 2000 and PHYS 1051

3000 Physics of Device Materials (F) is structures of crystalline and amorphous solids. Excitations and transport in metals, semiconductors, and dielectrics; electronic band structures. Physics of multi-material devices including photodiodes, solid state lasers, and field-effect transistors.

PR: PHYS 2055 or registration in Academic Term 3 of the Electrical Engineering Program

3150 Astrophysics I (W) is a review of macroscopic and microscopic physics. The sun: luminosity, mass, spectrum, photosphere, corona, interior. Principles of stellar structure; radiative and convective transport of energy. The virial theorem. Thermonuclear fusion; temperature dependence; the solar neutrino problem. Nucleosynthesis; the curve of binding energy; the synthesis of heavy elements. White dwarfs, neutron stars, and black holes; degenerate electron and neutron gases; Chandrasekhar's Limit. Population I and Population II stars; the Hertzsprung-Russell diagram; relationships among luminosity, mass, and effective temperature for main sequence dwarfs. Evolution of post main sequence stars.

PR: PHYS 2053, 2750 (or 2056), and 2820

3151 Astrophysics II covers stellar spectra and classification of stars. Hertzsprung-Russell diagram; equations of stellar structure for a star in equilibrium; temperature and density dependencies of nuclear processes. Formation and classification of binary stars; mass and energy transfer in binary star systems; semidetached binaries; cataclysmic variables, pulsars, etc. Galaxies and galactic structure; active galactic nuclei; cosmological redshift. Cosmology.

PR: PHYS 3150 and 3220

3220 Classical Mechanics I (F) covers kinematics and dynamics of a particle. Moving reference systems. Celestial mechanics. Systems of particles.

CO: PHYS 2820 and Mathematics 3260

PR: PHYS 2820 and Mathematics 3260

3230 Classical Mechanics II (W) covers rigid body motion. Lagrange's equations. Hamilton's equations. Vibrations. Special theory of relativity.

PR: PHYS 3220 and 3810 (or Mathematics 3202) and Mathematics 3260

3300 Introduction to Physical Oceanography (F) deals with the physics of processes in the ocean, but provides an integrated view of the whole field of oceanography. The importance of physical processes to other aspects of oceanography is treated.

PR: PHYS 2053 and Mathematics 2000

3340 Principles of Environmental Physics will explore the basic physical principles of light, heat, energy and sound in the natural environment. Several key aspects of physics in the environment will be covered including climate and the physical evolution of the planet and the present role of the atmosphere and ocean spectroscopy in the atmosphere and measurement and observation of the atmosphere; principles of energy generation and pollution transport in the atmosphere and ocean.

PR: Mathematics 2000 and PHYS 2053

3400 Thermodynamics (F) covers the first and second laws of thermodynamics. Entropy. Thermodynamics of real substances. Kinetic theory of matter. Introduction to statistical mechanics.

PR: Mathematics 2000, PHYS 2053 and PHYS 2750 or 2056

3500 Electromagnetic Fields I (F) examines electrostatic Field: field, potential, Poisson's equation, Laplace's equation, capacitance, dielectrics, polarization, electric displacement, boundary conditions. Magnetic Field: electric current and magnetic field, vector potential, Lorentz force and relativity, changing magnetic field, inductance, magnetic materials, magnetization. Maxwell's equations.

PR: PHYS 2055 and 3810 (or Mathematics 3202)

3550 Electric Circuits (S) covers circuit elements. Simple resistive circuits. Techniques of circuit analysis. Topology in circuit analysis. Operational amplifiers. Reactive circuit elements. Natural response and step response of RL, RC and RLC circuits. Circuits driven by sinusoidal sources. Mutual inductance. Series and parallel resonance. Laplace transforms in the analysis of frequency response.

CO: Mathematics 3260

CR: Engineering 3821

LC: 6

LH: 6

PR: Mathematics 2050, Mathematics 3260, PHYS 2055

3551 Analogue Electronics - inactive course.

3600 Optics and Photonics I (W) covers geometrical Optics: thin lenses, mirrors, optical systems. Two-beam and multiple-beam interference phenomena. Fraunhofer Diffraction. Introduction to Maxwell's Theory: reflection, transmission, and polarization. Modulation of light waves. Fibre-optical light guides: intermodal dispersion, index profiles, loss mechanisms, single mode fibres. Optical communication systems: free space and fibre systems, emitters, detectors, amplifiers, wavelength-division multiplexing, integrated optics.

PR: Mathematics 2000 and PHYS 2055

3750 Quantum Physics I (F) covers wave-particle duality of nature. Introduction to Quantum Mechanics. Schrödinger equation. One electron atoms. Quantum statistics.

CO: PHYS 3220 and 3810 or Mathematics 3202

PR: PHYS 2750 (or 2056), 3220 and 3810 (or Mathematics 3202)

3751 Quantum Physics II (W) covers multielectron atoms. Molecules. Solids - conductors and semiconductors. Superconductors. Magnetic properties. Nuclear models. Nuclear decay and nuclear reactions. Properties and interactions of elementary particles.

PR: PHYS 3750

3800 Computational Physics is a project-based course intended to train students to become functional in computational methods, by writing and compiling computer code (C/Fortran) in a Unix environment to solve problems drawn from different areas of physics. Students will complete several projects selected from different areas of physics. Projects will introduce the students to a particular class of numerical methods. Lectures and tutorials will cover the theory that underlies the computational methods and background for code development and the application of the required numerical methods.

CO: Any two 2000-level Physics course plus at least one other 3000-level Physics course

LC: 5

LH: 5

PR: Computer Science 1510, PHYS 2820, Mathematics 3202, Mathematics 3260

3810 Mathematical Analysis (F) - inactive course.

3820 Mathematical Physics III (F) examines the functions of a complex variable; residue calculus. Introduction to Cartesian tensor analysis. Matrix eigenvalues and eigenvectors. Diagonalization of tensors. Matrix formulation of quantum mechanics. Quantum mechanical spin. Vector differential operators in curvilinear coordinate systems. Partial differential equations of Mathematical Physics and boundary value problems; derivation of the classical equations, separation of variables; Helmholtz equation in spherical polar coordinates.

PR: Mathematics 3260 and PHYS 3810 (or Mathematics 3202)

3900 Physics Laboratory I (W) is a selection of experiments based primarily on material covered in the third year courses.

LH: 6

PR: at least two of PHYS 2053, 2820, 2055, and PHYS 2750 (or 2056)

4000 Solid State Physics covers crystal structure and binding, phonons and lattice vibrations, thermal properties of solids. Electrons in solids, energy bands, semi-conductors, superconductivity, dielectric properties. Magnetic properties of solids.

PR: PHYS 3400 and 3750 or waiver approved by the instructor

4200 Classical Mechanics III - inactive course.

4205 Introduction to Fluid Dynamics (same as Mathematics 4180) covers basic observations, mass conservation, vorticity, stress, hydrostatics, rate of strain, momentum conservation (Navier-Stokes equation), simple viscous and inviscid flows, Reynolds number, boundary layers, Bernoulli's and Kelvin's theorems, potential flows, water waves, thermodynamics.

CR: Mathematics 4180

PR: PHYS 3220 and either Mathematics 4160 or the former PHYS 3821 or waiver approved by the instructor

4210 Continuum Mechanics - inactive course.

4220 Introduction to general Relativity (Mathematics 4130) studies both the mathematical structure and physical content of Einstein's theory of gravity. Topics include the geometric formulation of special relativity, curved spacetimes, metrics, geodesics, causal structure, gravity as spacetime curvature, the weak-field limit, geometry outside a spherical star, Schwarzschild and Kerr black holes, Robertson-Walker cosmologies, gravitational waves, an introduction to tensor calculus, Einstein's equations, and the stress-energy tensor.

CO: Mathematics 4230

CR: Mathematics 4130

PR: Mathematics 3202 and one of PHYS 3220, Mathematics 4230 or waiver approved by the instructor

4300 Advanced Physical Oceanography (W) covers fundamental properties of seawater and techniques of oceanographic measurement. The dynamical equations of oceanography are derived and solutions explored by comparison with oceanic observations. Properties of waves in rotating and non-rotating fluids. Linear and non-linear wave theory are developed.

PR: PHYS 3300 and 3820 or registration in Academic term 6 of the Ocean and Naval Architectural Engineering program, or waiver approved by the instructor

4330 Topics in Physical Oceanography - inactive course.

4340 Modelling in Environmental Physics covers the basic principles underlying environmental modelling will be developed and techniques for modelling presented and applied. Techniques for numerical modelling will be developed and simple numerical models will be developed for use in terrestrial, atmospheric and oceanic environments. Free and forced systems will be discussed and the transition to chaos and some aspects of chaotic dynamics.

PR: PHYS 3340 and PHYS 3820 or waiver approved by the instructor

4400 Statistical Mechanics (W) covers ensembles. Classical and quantum statistical mechanics. Statistical mechanics of phase transitions. Advanced topics in statistical mechanics.

CO: PHYS 3750

PR: PHYS 3400 and 3750

4500 Electromagnetic Fields II covers multipole expansions, electrostatic fields as boundary value problems, polarizability of molecules in dielectric media, Clausius-Mossotti relation, gauges. Electromagnetic Waves: Poynting's theorem, reflection and transmission of electromagnetic waves, cavity resonators, wave guides. Electromagnetic Radiation: dipoles, antennas, quantum mechanics and electro-magnetic interactions. Selected topics in electrodynamics and applied electromagnetism.

PR: PHYS 3500 and 3820 or waiver approved by the instructor

4600 Optics and Photonics II is a review of basic topics in wave optics. Phase sensitive imaging. Electromagnetic waves in anisotropic media. Scattering of electromagnetic waves. The physics of light sources and applications. Non-linear optics and applications.

CO: PHYS 3751

PR: PHYS 3500, 3600, and PHYS 3751 or waiver approved by the instructor

4700 Atomic and Molecular Physics - inactive course.

4710 Nuclear Physics - inactive course.

4820 Mathematical Physics III (W) covers further topics on partial differential equations of Mathematical Physics and boundary value problems; Sturm-Liouville theory, Fourier series, generalized Fourier series, introduction to the theory of distributions, Dirac delta function, Green's functions, Bessel functions, Legendre functions, spherical harmonics.

PR: PHYS 3820

4850 Quantum Mechanics (F) examines postulates of quantum mechanics. Operators and operator algebra. Matrix representations. Spin and magnetic fields. Approximation methods: WKB method, time independent perturbation theory, time dependent perturbation theory, variational methods. Elementary scattering theory.

PR: PHYS 3230, 3750, 3820 or waiver approved by the instructor

4851 Advanced Quantum Mechanics (W) covers general formulation of quantum mechanics, measurement theory and operators. Hilbert spaces. Advanced topics selected from: electron in a strong magnetic field and the Aharonov-Bohm effect; advanced scattering theory; systems of identical particles; Feynman path integral formulation of quantum mechanics; relativistic quantum mechanics; second quantization; symmetry and group theory; density matrix and mixtures.

PR: PHYS 4850 and the former 3821 or waiver approved by the instructor

4900 Physics Laboratory II (F) is a selection of experiments at the senior level.

LH: 6

PR: PHYS 3900

490A/B Honours Physics Thesis is required of the Honours program.

6317 Underwater Acoustics covers basic theory of sound, sound in the ocean environment, wave equation, ray tracing, sonar system operation, transducers, applications.

PR: PHYS 3810 (or the former Mathematics 3220) and 3220, or waiver approved by the instructor

6318 Ocean Climate Modelling covers numerical techniques, finite difference, finite element and spectral methods. Introduction to the climate system. Ocean climate models. Box models. Variability on interdecadal, centennial and geological scales. Zonally averaged models. 3-D ocean modelling. Thermohaline circulation. General circulation models. Climate modelling and global warming.

PR: PHYS 3810 (or Mathematics 3202), PHYS 3300 and the completion of any 15 credit hours in core courses at the 3000 or 4000 level in the Faculty of Science or waiver approved by the instructor

8.10 Psychology

Psychology courses are designated by PSYC.

8.10.1 Non-Restricted Courses

These courses are open to all students who have the appropriate prerequisites. Students who intend to major in Psychology should note the credit restrictions for PSYC 2010, 2100, 2440, 2610, 2810, 2920, and 3640 as taking any of these courses will reduce options in the Majors program

1000 Introduction to Psychology is the first half of a two-semester introduction to Psychology as a biological and social science. Topics may include history, research methodology, behavioural neuroscience, sensation and perception, consciousness, learning, and memory.

1001 Introduction to Psychology is the second half of a two-semester introduction to Psychology as a biological and social science. Topics may include emotion, motivation, stress and health, personality and individuality, psychological disorders and treatment, and social psychology.

PR: PSYC 1000

2010 The Psychology of Human Development I is a survey of principles underlying human development from the prenatal stage to adolescence. Topics covered will include sensorimotor, linguistic, perceptual, cognitive and motivational changes.

CR: PSYC 2025, PSYC 3050

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2011 The Psychology of Human Development II is an examination of relevant research on socialization and personality development with special emphasis on attachment, imitation, sex role and moral development in childhood and adolescence.

CR: PSYC 2025

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2012 Adult Development from Young Adulthood to Old Age examines physical and psychological changes from early adulthood until the end of the lifespan. Topics include career choices, love partnerships, parenting and grandparenting, cognitive changes, interpersonal changes, and healthy aging.

CR: the former PSYC 3052

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2100 Attitudes and Social Cognition - inactive course.

2120 Interpersonal and Group Processes - inactive course.

2150 Introduction to Forensic Psychology will provide an in-depth overview of the relationship between psychology and the law. A variety of topics will be discussed and critically evaluated, including the use and misuse of psychology-based investigative methods such as offender and geographic profiling, detection of deception, investigative interviewing, eyewitness testimony, jury decision-making, corrections and treatment, risk assessment, and criminal responsibility.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2151 Health Psychology will explore the history, aims and future of health psychology. Topics covered will consider the contributions of a wide range of psychological theory within the context of psychosocial risk factors for illness, illness prevention, health promotion, and the health care system itself. These theories extend from rather individualistic notions of health and wellness (e.g., personality, attitudes, and behaviour) to concepts associated with characteristics of the broader social environment (e.g., social support, economic challenges, and organizational factors). An overall bio-psycho-social approach to health and wellness is explored.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2240 Survey of Learning is a survey of learning phenomena and learning theories. Topics to be studied will include a selection of the following: the evolutionary context of learning, habituation and sensitization, Pavlovian conditioning, instrumental learning, and generalization and discrimination in learning. Applications of learning principles to topics such as child rearing, education, drug use and rehabilitation, as well as to other topics of contemporary interest, will also be discussed.

CR: PSYC 3250, the former PSYC 2225, the former PSYC 2250

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2440 Human Memory and Cognition is an introduction to the basic principles of human memory and information processing. Topics covered will include the organization, representation and retrieval of information in memory, attention, pattern recognition, language processing, mental imagery, reasoning, problem solving, and decision making. There will be an emphasis on the application of basic principles to real life situations.

CR: PSYC 3450, PSYC 2425

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2540 Psychology of Gender is an examination of the influence of gender on development and socialization, attitude formation, cognition, personality and mental health.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2560 Intelligence - inactive course.

2610 Personality is a review of the research and theory pertaining to a psychological understanding of human personality.

CR: the former PSYC 2620, PSYC 2625, PSYC 3620

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2800 Drugs and Behaviour is an examination of the neurophysiology of drug action, the measurable effect of drugs on experimentally controlled behaviour, and a survey of information available on common self-administered drugs and their immediate and long-term effects.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2810 Brain and Behaviour is a broad survey of physiological psychology at an elementary level. Topics will include the following: structure of the nervous system, nerve conduction, sensory and motor systems, behavioural biology of reproduction, aggression, feeding and drinking, sleep and arousal, pleasure and pain, learning and memory.

CR: PSYC 2825, the former PSYC 2850, PSYC 3801

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2920 Research Methods in Psychology for Non-Majors provides an introduction to the design, understanding, and application of psychological research. Topics covered include understanding and applying scientific method, creating and testing hypotheses, constructing reliable and valid experiments, and the proper use of controls. An emphasis will be placed on thinking critically about psychology and common errors of judgment.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major or any Psychology honours or joint honours programs

3430 The Psychology of Thinking will present theories and experimental studies of problem solving, creativity and decision making. Topics covered will include the difficulties encountered in problem solving and solutions such

as strategies for organizing and representing information, the production of ideas, transfer and discovery learning.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

3501 Industrial Psychology - inactive course.

3533 Sexual Behaviour covers the most important aspects of human sexuality with a psychology theory and research framework. The course will examine the biological, behavioural and socio-cultural bases of the human sexual response. Topics include sexual interaction and communication, contraception, sexually transmitted infections, reproduction, sexual orientation, transgender and intersex, variations in sexual behaviour, sex and gender, sexual dysfunction and therapy, and sexual coercion.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

3577 Program Evaluation - inactive course.

3640 The Psychology of Abnormal Behaviour covers problems of definition, the history of beliefs about abnormal behaviour and the implication of a behavioural model for the understanding and control of behaviour problems.

CR: PSYC 3650, PSYC 3626

PR: any 2000 level course in Psychology

UL: cannot be used towards the Psychology major

4810 Human Neuropsychology - inactive course.

8.10.2 Majors Courses

These courses are restricted to Majors in Psychology and Behavioural Neuroscience.

2520 Mind and Brain is based on the idea that psychological and neuroscience research efforts are synergistic. Neuroscience research can reveal mechanisms that help explain the mind and behavior, while concepts developed by psychological research often define the topics that neuroscience investigates. Topics such as memory, emotion, mental illness, and sleep will illustrate the utility of multiple research perspectives for developing a more complete understanding of psychological issues.

PR: PSYC 1000 and 1001 and admission to a Major in Psychology or Behavioural Neuroscience; minors may be permitted to take this course if space permits

2570 Understanding Individual Differences uses current conceptualizations of personality and ability as a focus. The course will review issues related to the measurement of individual differences, including test characteristics and ethics. Research from a variety of perspectives will be used to illustrate the contributions of different areas of psychology to our understanding of individual differences.

PR: PSYC 1000 and 1001 and admission to a Major in Psychology or Behavioural Neuroscience; minors may be permitted to take this course if space permits

2910 Research Methods in Psychology I is an introduction to the design and application of psychological research with particular concentration on understanding and applying scientific method, creating and testing hypotheses, constructing reliable and valid experiments, managing and analysing data sets, using statistical software, and scientific writing. Specific topics include descriptive statistics including measures of central tendency, variability and relative standing, inferential statistics such as *t* tests for one and two sample designs, correlation and regression, and non-parametric statistics.

CR: Statistics 2500, 2510, 2550, the former PSYC 2900, 2925

LH: one laboratory period weekly

PR: PSYC 1000 and 1001; Mathematics 1000 or two of 1090, 1050 and 1051 (or equivalent) and admission to a Major in Psychology or Behavioural Neuroscience

2911 Research Methods in Psychology II covers research methods in psychology with a focus on more complex research designs and statistical approaches, within the realm of experimentation and beyond the laboratory. Specific topics include controlling participant variables, using between and repeated measures designs within the context of Analysis of Variance (ANOVA). Particular ANOVA approaches include one-way and factorial designs, within subject design, and two-way mixed designs.

CR: Statistics 2501, 2560, the former PSYC 2901, 2950

LH: one laboratory period weekly

PR: PSYC 2910 and admission to a Major in Psychology or Behavioural Neuroscience

3050 Developmental Psychology is an examination of the methods of study and an evaluation of current findings and theoretical issues of importance to an understanding of development. Topics will be drawn from perception, learning, cognition, social learning, memory and language development.

CR: PSYC 2010, PSYC 2025

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology

or Behavioural Neuroscience

3100 Social Psychology is an examination of the concepts and principles involved in social behaviour. Topics covered will include attitudes, social cognition, interpersonal relations, and group processes.

CR: PSYC 2100, PSYC 2125

PR: PSYC 2520, 2570, and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3250 Learning (formerly PSYC 2250) examines how organisms adjust their behaviour to regularities in the environment as a result of experience.

CR: PSYC 2240, the former PSYC 2225, the former PSYC 2250

PR: PSYC 2520, 2570, and 2911, and admission to a Major in Psychology or Behavioural Neuroscience

3350 Perception (formerly PSYC 2360) is a broad survey of theory and research in sensation and perception.

CR: the former PSYC 2360

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3450 Human Cognition is an introduction to the experimental study of the mental representations and processes involved in human cognition. Topics such as attention, perception and pattern recognition, concepts and the organization of knowledge, language processes, mental imagery, reasoning, problem solving, decision making and skilled performance will be covered with an emphasis on experimental analysis and techniques.

CR: PSYC 2440, PSYC 2425

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3620 Personality Theory and Research is a survey of personality theory and research.

CR: PSYC 2610, PSYC 2625, and the former PSYC 2620

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3650 Abnormal Psychology is an examination of the nature, explanation and treatment of psychological disorders with an emphasis on research methods and current findings.

CR: PSYC 3640, PSYC 3626

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3750 Animal Behaviour I is an introduction to the mechanisms, development, function and evolution of behaviour in animals. Topics include the history of ethology and comparative psychology, and behavioural ecology; methods of animal behaviour study, behaviour of animals in relation to physiology, learning, communication, mating systems, and other areas in Biology and Psychology.

CR: Biology 3750

PR: Biology 1001, 1002 and PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3800 Neuroscience addresses the structure and function of neurons and neural circuits and examines principles of electrochemical neural communication at the macroscopic, microscopic and molecular level. The relevance of this knowledge to understanding brain mechanisms of normal and diseased brain functions will be touched upon. The molecular basis of the formation of some types of memories will be explored.

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3801 Behavioural Neuroscience is a survey of knowledge about brain mechanisms of behaviour. Topics will include the following: basic neuroanatomy and neurophysiology, somatosensory systems and pain, reward, mental illness, sleep and arousal, developmental neurobiology, sexual development and behaviour, regulation of eating and body weight, learning and memory, and cortical function, including cortical mediation of language.

CR: PSYC 2810, PSYC 2825, the former PSYC 2850

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3900 Design and Analysis III is a course on complex and specialized research design in Psychology. Multifactor research designs that employ both between- and within-subjects independent variables. Advantages and disadvantages of using multifactor research designs to test psychological hypotheses. Hierarchical designs and incomplete factorials. The use of covariates and blocking to increase experimental precision. Problems created by missing data. Single subject designs. How to answer specific psychological questions in the context of complex designs. The design and analysis of non-experimental psychological research. Applications of such techniques as the analysis of variance and multiple linear regression to the data obtained with these research designs, with special attention to problems inherent in psychological research.

CR: PSYC 3950, Statistics 3520

LH: one laboratory period weekly

PR: PSYC 2911 and admission to a Major in Psychology or Behavioural Neuroscience

4050 Selected Topics in Developmental Psychology I is an intensive examination of a specific topic in developmental psychology.

PR: PSYC 3050 or the former 3051 and admission to a Major in Psychology or Behavioural Neuroscience

4051 Selected Topics in Developmental Psychology II is an intensive examination of a specific topic in developmental psychology.

PR: PSYC 3050 or the former 3051 and admission to a Major in Psychology or Behavioural Neuroscience

4070 Research Experience in Development Psychology allows students to gain research experience in selected areas of developmental psychology.

PR: PSYC 2520, 2570, 2911, and 3050 and admission to a Major in Psychology or Behavioural Neuroscience

4150 Selected Topics in Social Psychology I is an intensive examination of a specific topic in social psychology.

PR: PSYC 3100 or the former PSYC 3160 and admission to a Major in Psychology or Behavioural Neuroscience

4151 Selected Topics in Social Psychology II is an intensive examination of a specific topic in social psychology.

PR: PSYC 3100 or the former PSYC 3160 and admission to a Major in Psychology or Behavioural Neuroscience

4152 Selected Topics in Applied Social Psychology is an intensive examination of a specific topic in applied social psychology.

PR: PSYC 3100 or the former PSYC 3160 and admission to a Major in Psychology or Behavioural Neuroscience

4160 Psychology and the Law - inactive course.

4170 Research Experience in Social Psychology will provide research experience in a selection of areas typically studied by social psychologists such as attitudes, prejudice, groups and social cognition. Students will acquire experience with research methods that are used to advance the body of knowledge in social psychology.

PR: PSYC 2520, 2570, 2911, and 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4250 Selected Topics in Learning and Motivation I an intensive examination of a specific topic in learning and motivation.

PR: PSYC 3250 or the former PSYC 2250 and admission to a Major in Psychology or Behavioural Neuroscience

4251 Selected Topics in Learning and Motivation II is an intensive examination of a specific topic in learning and motivation.

PR: PSYC 3250 or the former PSYC 2250 and admission to a Major in Psychology or Behavioural Neuroscience

4260 Learning Processes and Drug Effects - inactive course.

4270 Research Experience in Learning allows students to gain research experience in selected areas of learning.

PR: PSYC 2520, 2570, 2911, and 3250 and admission to a Major in Psychology or Behavioural Neuroscience

4350 Selected Topics in Perception I is an intensive examination of a specific topic in perception.

PR: PSYC 3350 or the former PSYC 2360 and admission to a Major in Psychology or Behavioural Neuroscience

4351 Selected Topics in Perception II is an intensive examination of a specific topic in perception.

PR: PSYC 3350 or the former PSYC 2360 and admission to a Major in Psychology or Behavioural Neuroscience

4370 Research Experience in Perception allows students to gain research experience in selected areas of perception.

PR: PSYC 2520, 2570, 2911 and 3350 and admission to a Major in Psychology or Behavioural Neuroscience

4450 Selected Topics in Cognition I (same as the former PSYC 4400) is an intensive examination of a specific topic in cognition.

CR: the former PSYC 4400

PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

4451 Selected Topics in Cognition II (same as the former PSYC 4401) is an intensive examination of a specific topic in cognition.

CR: the former PSYC 4401

PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

4452 Selected Topics in Cognition: Reading is an intensive examination of a specific topic in reading and dyslexia.

PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

4453 Selected Topics in Cognitive Science (same as the former PSYC 4402) is an intensive examination of a specific topic in cognitive science

from a psychological perspective.

CR: the former PSYC 4402

PR: two courses chosen from PSYC 3050, 3250, 3350, 3450, 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4461 Psycholinguistics - inactive course.

4462 Human Memory surveys theories and research about how humans remember information and why they forget. Topics include research on sensory memory, short-term working memory, amnesia, forgetting, memory development, and semantic memory as well as practical issues such as how to improve memory.

PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

4470 Research Experience in Cognition allows students to gain research experience in selected areas of cognition.

PR: PSYC 2520, 2570, 2911, and 3450 and admission to a Major in Psychology or Behavioural Neuroscience

4500 Selected Topics in Psychology I is an intensive examination of a specific topic in psychology that crosses traditional subdisciplines.

PR: two 3000-level majors courses (other than 3900) and admission to a Major in Psychology or Behavioural Neuroscience

4501 Selected Topics in Psychology II is an intensive examination of a specific topic in psychology that crosses traditional subdisciplines.

PR: two 3000-level majors courses (other than 3900) and admission to a Major in Psychology or Behavioural Neuroscience

4610 Selected Topics in Personality I is an intensive examination of a specific topic in personality.

PR: PSYC 3620 or the former PSYC 2620 and admission to a Major in Psychology or Behavioural Neuroscience

4620 Selected Topics in Personality II is an intensive examination of a specific topic in personality.

PR: PSYC 3620 or the former PSYC 2620 and admission to a Major in Psychology or Behavioural Neuroscience

4650 Selected Topics in Abnormal Behaviour I is an intensive examination of a specific topic in abnormal behaviour.

PR: PSYC 3650 and admission to a Major in Psychology or Behavioural Neuroscience

4651 Selected Topics in Abnormal Behaviour II is an intensive examination of a specific topic in abnormal behaviour.

PR: PSYC 3650, and admission to a Major in Psychology or Behavioural Neuroscience

4660 Developmental Psychopathology is a review of current theory and research related to the developmental course of maladaptive behaviours in children and adolescents. Topics will include behavioural, emotional and developmental disorders. Research concerning the role of individual, family, community and cultural factors will be discussed.

PR: PSYC 3650 and admission to a Major in Psychology or Behavioural Neuroscience

4661 Family Psychology is a study of the reciprocal relationship between family processes and abnormal behaviour. The course will focus on the role of family dynamics in the etiology of abnormal behaviour, the impact of psychological disorders on family functioning and the application of family therapy to create therapeutic change.

PR: PSYC 3650, or all of 2520, 2570, 2911 and 3640 and admission to a Major in Psychology or Behavioural Neuroscience

4662 Clinical Psychology and Theories of Psychotherapy - inactive course.

4670 Research Experience in Abnormal Psychology allows students to gain research experience in selected areas of clinical psychology.

PR: PSYC 2520, 2570, 2911 and 3650 and admission to a Major in Psychology or Behavioural Neuroscience

4671 Research Experience in Personality allows students to gain experience in selected areas of personality research.

PR: PSYC 2520, 2570, 2911 and 3620 and admission to a Major in Psychology or Behavioural Neuroscience

4701 Animal Behaviour II (same as Biology 4701) is an examination of the behaviour of animals with particular emphasis on evolution and ecology. Topics include behavioural genetics and evolution, reproductive strategies, social behaviour, habitat selection, territoriality, foraging behaviour, and other topics in Biology and Psychology.

CR: Biology 4701

LH: one laboratory period weekly

PR: Biology 3750 or Psychology 3750

4750 Selected Topics in Animal Behaviour I is an intensive examination of a specific topic in animal behaviour.

PR: PSYC 3750 or Biology 3750 and admission to a Major in Psychology

or Behavioural Neuroscience

4751 Selected Topics in Animal Behaviour II is an intensive examination of a specific topic in animal behaviour.

PR: PSYC 3750 or Biology 3750 and admission to a Major in Psychology or Behavioural Neuroscience

4770 Research Experience in Animal Behaviour allows students to gain research experience in selected areas of animal behaviour.

PR: PSYC 2520, 2570, 2911 and 3750 and admission to a Major in Psychology or Behavioural Neuroscience

4850 Selected Topics in Behavioural Neuroscience I is an intensive examination of a specific topic in behavioural neuroscience.

PR: PSYC 2810; or 3800 or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4851 Selected Topics in Behavioural Neuroscience II is an intensive examination of a specific topic in behavioural neuroscience.

PR: PSYC 2810; or 3800, or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4870 Research Experience in Neuroscience allows students to gain research experience in selected areas of neuroscience.

PR: PSYC 2520, 2570, 2911, and either 3800 or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4910 Systems in Contemporary Psychology is a study of paradigms and explanations in contemporary psychology in the context of their historical antecedents.

PR: at the St. John's campus, 30 credit hours in Psychology courses required in the majors program and admission to a Major in Psychology or Behavioural Neuroscience or, at the Grenfell campus, 30 credit hours in Psychology courses including Psychology 3950

499A and 499B Honours Dissertation is a linked course, based on independent study of an approved problem in Psychology. The topic will be chosen in consultation with the Faculty Advisor. The first semester will normally involve directed reading in this area, and preparation of a dissertation proposal. The second semester will be devoted to conducting the study, gathering data, data analysis and preparation of a formal written report. The dissertation must be submitted for grading before the end of the tenth week of the semester in which the student is registered for 499B.

CH: 6

PR: admission to the Honours Program

8.10.3 Psychology Work Term Descriptions

The Following Work Terms are a requirement of the Psychology Co-op Program only.

199W Work Term I follows the successful completion of Semester 4. Students are expected to learn, develop and practice the high standards of behaviour and performance normally expected in the work environment. (A detailed description of each job is normally posted during the job competition.) As one component of the Work Term, the student is required to complete a work report. The work report, as a minimum requirement should:

1. analyse an issue/problem related to the student's work environment.
2. demonstrate an understanding of the structure of a professional report, and show reasonable competence in written communication and presentation skills. (Students should consult the evaluation form provided in the placement package.)

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

Seminars on professional development, conducted by the Division of Co-operative Education, are presented during Semester 4 to introduce and prepare the student for participation in the subsequent work terms. Topics may include among others, work term evaluation, work report writing, career planning, employment seeking skills, resume preparation, self employment, ethics and professional concepts, behavioural requirements in the work place, assertiveness in the work place and industrial safety.

299W Work Term II follows the successful completion of Semester 6. Students are expected to further develop and expand their knowledge and work-related skills and should be able to accept increased responsibility and challenge. In addition, students are expected to demonstrate an ability to deal with increasingly complex work-related concepts and problems. The work report, as a minimum requirement, should:

1. analyse an issue/problem related to the student's work environment and demonstrate an understanding of practical application of concepts relative to the student's academic background
2. demonstrate competence in creating a professional report, and
3. show competence in written communication and presentation skills

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

399W Work Term III follows the successful completion of Semester 7. Students should have sufficient academic grounding and work experience to contribute in a positive manner to the problem-solving and management

processes needed and practiced in the work environment. Students should become better acquainted with their discipline of study, should observe and appreciate the attitudes, responsibilities, and ethics normally expected of professionals and should exercise greater independence and responsibility in their assigned work functions. The work report should reflect the growing professional development of the student and, as a minimum requirement, will:

1. demonstrate an increased ability to analyse a significant issue/problem related to the student's experience in the work environment
2. demonstrate a high level of competence in producing a professional report, and
3. show a high level of competence in written communication and presentation skills

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

8.11 Science

1000 Introduction to Science I is a liberal science course for Arts students, which reflects the way scientists think and work through historical, philosophical and social considerations of the environment we live in. Typical course content includes: the concepts of matter, motion and energy; the chemical basis for life and the interdependence of organisms; and the abundance and distribution of the Earth's natural resources.

UL: may not be used to fulfill any of the Science course requirements for the Honours and General Degrees in Science

1001 Introduction to Science II is continuation of Science 1000.

PR: Science 1000

UL: may not be used to fulfill any of the Science course requirements for the Honours and General Degrees in Science

1150 Introduction to Physical and Life Sciences (formerly Science 115A) is an introduction to some concepts in the Physical and Life Sciences. This course is primarily intended for the non-science major (Bachelor of Arts; Bachelor of Education (Primary/Elementary)).

CR: the former Science 115A

UL: not acceptable as a prerequisite for 2000 level courses in Physics, Chemistry, Biology, Geography or Earth Sciences

1151 Introduction to Physical and Life Sciences (formerly Science 115B) is an introduction to some concepts in the Physical and Life Sciences. This course is primarily intended for the non-science major (Bachelor of Arts; Bachelor of Education (Primary/Elementary)).

CR: the former Science 115B

UL: not acceptable as a prerequisite for 2000 level courses in Physics, Chemistry, Biology, Geography or Earth Sciences

5998 Exchange Programs in Science will be available only to students attending Memorial University of Newfoundland as part of a formal exchange agreement, memorandum of understanding, or other special arrangement. This course will normally be offered twice a year, from March to August and September to February.

CH: 3 - 15, to be determined for each offering by the Dean in consultation with the appropriate Head of Department or Co-ordinator

PR: permission of the Dean of Science

UL: may be repeated for credit once

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 School Description

A social work program at Memorial University of Newfoundland commenced in 1963 with the offering of a two-year diploma in public welfare. In 1965 the Bachelor of Arts (Social Welfare) degree was initiated, continuing until 1970 when the Bachelor of Social Work was established. The Bachelor of Social Work program is accredited by the Canadian Association of Social Work Education (CASWE). The program is currently accredited to 2014. The School also offers an undergraduate diploma and graduate degrees at the master and doctoral level.

Social Work courses are designed for delivery on a philosophical base of humanism and social justice. This is accomplished in an empowering teaching and learning environment, through the practice of anti-oppression principles, within the context of critical thinking. The curriculum in social work draws upon the substance and analytical processes of the social and behavioural sciences and of the humanities. It reflects Memorial University of Newfoundland and the School of Social Work's traditional commitments to serve the people of Newfoundland and Labrador within a global context.

Additional information regarding the School of Social Work is available at www.mun.ca/socwrk/home/.

Students must meet all regulations of the School of Social Work in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

2.1 Vision

The School of Social Work strives to strengthen human relationships and promote social justice through academic excellence.

2.2 Mission

The School of Social Work promotes social justice by providing social work education, conducting scholarly inquiry, disseminating knowledge and contributing to public policy and practice thereby addressing the needs and aspirations of the local and global communities with whom we collaborate and interact.

3 Description of Programs

All courses of the School are designated by the abbreviation SCWK.

3.1 Bachelor of Social Work

The Bachelor of Social Work is a full-time program that is offered as a first or a second degree program and is comprised of course work and two internships. The degree qualifies graduates for beginning professional practice in social work settings. The objectives of the

liberal education aspect of the undergraduate program includes the achievement of: general knowledge of people and nature, analytical and critical thinking and communication skills and knowledge of social, political and economic impacts in society. The objectives of the undergraduate program are to prepare students to: promote social justice and social well being and creatively challenge oppression; acquire and apply knowledge, skills, values, professional ethics and critical thinking abilities; recognize limitations and strengths as a beginning social work practitioner; integrate reflexively critical self-awareness; assume leadership in collaboration and interdisciplinary practice; utilize and participate in innovative and traditional inquiry and research models; creatively practice with diverse individuals and collectives; promote and critique the social work profession on, regional, provincial, national and global levels; commit to the process of lifelong learning; participate collaboratively and respectfully in innovative teaching and learning processes; and address issues of transition and crisis in diverse contexts (individuals, families, groups, communities, formal organizations and society).

The aim of the program is to develop social workers with generically based skills for working with individuals, families, communities, and groups. Students receive an education which prepares them to work in urban centres and rural settings. A special emphasis is placed on the importance of identifying local needs and developing the means of meeting these needs in the context of available resources.

There is a **Program Residency Requirement** for both the **First** and **Second** Degree programs requiring students to take specific courses on the St. John's campus. Although the majority of courses are taught on-campus, selected courses are occasionally taught by distance format.

3.1.1 Social Work Internships

- In addition to their course work, students are required to complete two supervised internships.
- Although consideration will be given to all factors affecting the location and type of internship, the final decision regarding placement rests with the School.
- In extenuating circumstances, internships may be offered in whole or in part outside the normal start and end dates of a semester.
- Students are responsible for all costs associated with internships including travel and accommodation.
- Placements for most students will include residence in a location away from urban centres.

3.2 Diploma in Social Work

Pending availability of resources, a program leading to the Diploma in Social Work may be designed for groups of students with particular needs. This program is only offered to cohorts and not individual students. Admission of individual students to a diploma program is competitive and selective. Information about diploma programs can be obtained by contacting the Dean of the School of Social Work.

4 Admission/Readmission Regulations for the Bachelor of Social Work

In addition to meeting the **UNIVERSITY REGULATIONS** students must meet the admission/readmission regulations for the School of Social Work.

4.1 General Information

1. Entry to programs is competitive for a limited number of placements.
2. Selection of candidates will be based on academic standing, relevant work/volunteer experience, and personal suitability for a career in social work.
3. The School of Social Work depends on the cooperation of community agencies external to the University to provide field internships and instruction to its students. Many of these agencies have a range of requirements, such as a Certificate of Conduct or a Child Protection Records Check, which must be completed before starting the internship. Students unable to meet these agencies' requirements may be delayed in their program or prevented from completing their program of study. Students are required to complete and update these requirements in a timely fashion and at their own expense. The procedures of any given agency may change from time to time and are beyond the control of the University.
4. The School may, at its discretion, give preference to applicants with special needs, provided that they have met the minimum numeric grade and course requirements for admission to the program.
5. Students applying for readmission must meet all admission and promotion requirements of the School of Social Work in effect for the year in which re-admission is being sought.

4.2 Application Forms and Deadlines

1. The Bachelor of Social Work as a First Degree program commences in the Fall semester. The Bachelor of Social Work as a Second Degree program will normally commence in the Winter semester. The deadline for application for admission is March 1. Students are encouraged to submit their applications as early as possible.
2. Applications received after the deadline, and incomplete applications will not be considered.
3. Application forms are available on-line at www.mun.ca/socwrk/undergraduate/apply.php or in person from the School and the Office of the Registrar. Application forms may also be obtained by writing the School of Social Work, Memorial University of Newfoundland, St. John's, NL, A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.
4. Applicants for readmission to the School of Social Work must submit a School of Social Work application to the Office of the Registrar by March 1 for Fall semester readmission, February 1 for Spring semester readmission, and October 1 for Winter semester readmission. Applications received after these deadlines will be considered only if a place is available in the School of Social Work.
5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application package includes an application to the University (for those who have not attended Memorial University of Newfoundland in the two preceding semesters), an application to the School and any other required documentation.

4.3 Admission Requirements

4.3.1 First Degree Program

1. To be considered for admission to the Bachelor of Social Work program, applicants must have completed the 30 credit hours

outlined below by the end of the Winter semester for the year in which admission is being sought and must achieve an overall average of at least 65% in these courses and a grade of at least 65% in Social Work courses. These courses and credits must have been taken at Memorial University of Newfoundland or accepted for transfer credit from a recognized university or university college. The 30 credit hours are:

- six credit hours in English
 - Psychology 1000 and 1001
 - Sociology 1000
 - Social Work 1710
 - 12 credit hours in non-social work elective courses. No more than 6 of these credit hours can be taken from areas other than arts and science.
2. In addition, applicants must have achieved an average of at least 65% in the courses comprising the last 30 credit hours attempted by the end of the Winter semester for the year in which admission is being sought and for which a numeric grade has been assigned.
 3. In addition to other criteria used in the selection process, applicants for admission will be ranked according to their academic performance, which will be based on the cumulative average, together with the average on the last 30 credit hours for which a numeric grade was given and the overall average on the 30 prerequisite credit hours noted above.
 4. Successful candidates completing courses during the Spring semester will be required to meet the **Academic Requirements and Promotion Regulations** of the School of Social Work.
 5. A student will not be considered for admission if he/she has attempted and failed to receive a grade of 65% or higher in two or more SCWK courses or has failed to receive a grade of 65% or higher in the same social work course twice.

4.3.2 Second Degree Program

The Bachelor of Social Work as Second Degree is a 60 credit hour program intended for candidates who have completed the required courses, meet the academic performance requirements, and have extensive employment and/or formal volunteer experience. Priority is given to applicants who are bona fide residents of the province of Newfoundland and Labrador.

1. To be considered for admission to the Bachelor of Social Work as a Second Degree, individuals must have:
 - been awarded a Bachelor's Degree, or approved (by the end of the Winter semester preceding the academic year in which admission is being sought) for the award of a Bachelor's Degree from a university recognized by Memorial University of Newfoundland;
 - achieved a minimum average of at least 70% in the last 60 credit hours of undergraduate study attempted by the end of the Winter semester preceding the academic year in which admission is being sought and for which a numeric grade has been assigned;
 - completed the 30 credit hours outlined below by the end of the Winter semester preceding the academic year in which admission is being sought and achieved an overall average of at least 70% in these courses and a grade of at least 65% in Social Work courses. These courses and credits must have been taken at Memorial University of Newfoundland or accepted for transfer credit from a recognized university or university college. The 30 credit hours are:
 - Social Work 1710
 - Six credit hours in English
 - Psychology 2010 and 2011 or (2025 and 3 credit hours in Psychology at the 2000 level or above)
 - Six credit hours in Sociology of which 3 must be at the 2000 level or above
 - Nine credit hours at the 2000 level or above selected from the following: Anthropology, Economics, Folklore, Gender Studies (1000 level will be acceptable for Gender Studies only), Geography, History, Linguistics, Philosophy, Political Science, Psychology, and/or Sociology.
 - completed 300 hours of verified formal work/volunteer experience in human services
2. In addition to other criteria used in the selection process, applicants for admission will be ranked according to their academic performance.
3. A student will not be considered for admission if he/she has attempted and failed to receive a grade of 65% or higher in two or more SCWK courses or has failed to receive a grade of 65% or higher in the same social work course twice.
4. Successful candidates completing courses during the Spring and/or Fall semester(s) that precede the program commencement semester will be required to meet the **Academic Requirements and Promotion Regulations** of the School of Social Work.

4.3.3 Acceptance Procedures for Admission

1. Applicants for the First Degree program will normally be notified of admission decisions by early June. Approved applicants for this program option will be admitted in Fall semester only.
2. Applicants for the Second Degree program will normally be notified of admission decisions by early June. Approved applicants for this program option will normally be admitted in the Winter semester only.

4.3.4 Readmission Requirements

In addition to requirements specified in **Admission/Readmission Regulations for the Bachelor of Social Work**, applicants for readmission to the Bachelor of Social Work will be assessed for eligibility in accordance with Academic Requirements and Promotion Regulations, in effect for the year in which readmission is being sought, and contingent upon availability of a seat in the semester for which readmission is sought. Students who are readmitted to the program following a five-year absence will be required to do remedial work upon the recommendation of the Committee on Undergraduate Studies. Remedial work may include the repetition of classroom and/or internship courses.

5 Program Regulations

5.1 Bachelor of Social Work (as a First Degree)

1. The 120 credit hour Bachelor of Social Work (as a First Degree) requires, 48 non-SCWK credit hours and 72 SCWK credit hours that include two internships as defined in **Table 1 Bachelor of Social Work (as a First Degree)**.
2. Following admission to Year 2, credit hours shall normally be taken in the sequence as set out in **Table 1 Bachelor of Social Work (as a First Degree)**. Students wishing to change the sequence and/or reduce the course load specified for Years 2 - 4 must receive written approval from the Dean of the School. A change in course sequence may result in an extension to the length of time normally required to complete the program.
3. Students must complete the application for Social Work internship placement three months prior to the semester in which the internship begins.

Table 1 Bachelor of Social Work (as a First Degree)

Year / Term	Required Courses	Elective Courses
Year 1 Fall and Winter	6 credit hours in English Psychology 1000 and 1001 Sociology 1000 SCWK 1710	12 credit hours in non-social work elective courses. No more than 6 of these credit hours can be taken from areas other than arts and science.
Year 2 Fall	Psychology 2010 or Psychology 2011 One of Political Science 1010, 2600, 2800, Sociology 2230 or 2240 SCWK 2211 SCWK 2320 SCWK 2711	
Year 2 Winter	One of Philosophy 2551, 2552, 2553, or 2591 Psychology 2010 or Psychology 2011 (whichever one has not been taken during Fall above) 3 credit hours in Sociology at the 2000 level or above SCWK 2321 SCWK 2520	
Year 3 Fall	SCWK 3300 SCWK 3311	
Year 3 Winter	One of Sociology 2250, 2270, 3290 or 3318 One of Anthropology 3305 or Gender Studies 1000 SCWK 3221 SCWK 3521 SCWK 3720	
Year 4 Fall	SCWK 4312 SCWK 4313 SCWK 4314 SCWK 4410	3 credit hours from: SCWK 4317 or 4620
Year 4 Winter	SCWK 4302	3 credit hours from: SCWK 4321, 4322, 4323 or SCWK 4820-4829

5.1.1 Program Residency Requirements

Students shall be required to successfully complete all Social Work courses on the St. John's campus except for: SCWK 1710, 3300, 3311, 4302, 4321, 4322, 4323, and 4820-29.

5.2 Bachelor of Social Work (as a Second Degree)

1. The 60 credit hour Bachelor of Social Work (as a Second Degree) requires 60 SCWK credit hours including two internships as defined in **Table 2 Bachelor of Social Work (as a Second Degree)**.
2. Following admission, credit hours shall normally be taken in the sequence as set out in **Table 2 Bachelor of Social Work (as a Second Degree)**. Students wishing to change the sequence and/or reduce the course load specified for semesters 1-4 must receive prior written approval from the Dean of the School. A change in course sequence may result in an extension to the length of time normally required to complete the program.
3. Students must complete the application for Social Work internship placement three months prior to the semester in which the internship begins.

Table 2 Bachelor of Social Work (as a Second Degree)

Year / Term	Required Courses
Year 1 Semester 1	SCWK 2211 SCWK 2320 SCWK 2520 SCWK 2711 SCWK 4410
Year 1 Semester 2	SCWK 2321 SCWK 3720 SCWK 4312 SCWK 4313 SCWK 4314
Year 1 Semester 3	SCWK 3300 SCWK 3311
Year 2 Semester 4	SCWK 3521 SCWK 4302

5.2.1 Program Residency Requirements

Students shall be required to successfully complete all Social Work courses on the St. John's campus except for: SCWK 3300, 3311, 3521, and 4302.

6 Academic Requirements and Promotion Regulations

6.1 General Information

1. The Committee on Undergraduate Studies will determine a student's promotion status at the end of each academic term.
2. These regulations shall apply from the date of the application for admission/re-admission to the program to the completion of the program.
3. In addition to meeting the academic requirements and promotion regulations for the School all students must meet the general academic regulations (undergraduate). For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.

6.2 Promotion Status

A student's promotion status at the end of each term will be in one of the following three categories:

6.2.1 Clear Promotion

Clear Promotion means that a student can proceed to the next term without restrictions. Clear Promotion will be given to a student

- who has completed the academic term with an overall average of at least 65% and with a numeric grade of at least 65% in each SCWK course.
- who has completed an internship with a letter grade of PAS (pass).
- who has maintained professional behaviour consistent with the current Code of Ethics of the Canadian Association of Social Workers (CASW) which is available at www.casw-acts.ca/ and the Suitability Policy of the School of Social Work which is available at www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf.

6.2.2 Probationary Promotion

Probationary Promotion means that a student has not received a **Clear Promotion** and must meet certain conditions to obtain Clear Promotion. Probationary Promotion will be given to a student

- who has not obtained an overall term average of at least 65%. The student will be issued a letter of warning and must obtain an overall average of at least 65% in the subsequent academic term.
- who has not obtained a numeric grade of at least 65% in each required SCWK course. The student must repeat the course(s) within three academic terms from the unsuccessful completion and obtain a numeric grade of at least 65%. The student will not be permitted to repeat more than two SCWK courses in the program and will subsequently be denied promotion should she/he receive less than 65% in the same social work course twice.
- who has not obtained a numeric grade of at least 65% in each elective SCWK course. The student must successfully complete this course or another appropriate SCWK elective with a numeric grade of at least 65% before completion of the program. The student will not be permitted to repeat more than two SCWK courses in the program and will subsequently be denied promotion should she/he receive less than 65% in the same social work course twice.
- who has voluntarily withdrawn from an internship before its completion with the prior approval of the Field Administrator and the Committee on Undergraduate Studies. In addition to the designation Probationary Promotion, the student will also receive a letter

grade of DR (drop) for that internship. The student will be required to successfully complete another internship before continuing in the program.

- who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at www.casw-acts.ca/ and/or the Suitability Policy of the School of Social Work but for which the School considers that withdrawal from the program is not warranted. The Suitability Policy of the School of Social Work is available at www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf.

6.2.3 Promotion Denied

Promotion Denied means that a student has not received either a **Clear Promotion** or a **Probationary Promotion** and must withdraw from the School. A student's eligibility for readmission is governed by conditions detailed below in **Other Information**. Promotion denied will be given to a student:

- who has not met the conditions of his/her probation.
- who has received a numeric grade of less than 65% in more than two SCWK courses.
- who has received a numeric grade of less than 65% in the same social work course twice.
- who has withdrawn from an internship without the prior approval of the Field Administrator and the Committee on Undergraduate Studies.
- who has received a letter grade of FAL (fail) in an internship.
- who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at www.casw-acts.ca/ and/or the Suitability Policy of the School of Social Work and for which the School considers that withdrawal from the program is warranted. The Suitability Policy of the School of Social Work is available at www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf.

6.2.4 Other Information

1. A student will not be eligible for consideration for admission or readmission to the School if he/she has:
 - received a numeric grade of less than 65% in more than two SCWK courses in the entire program, or received a numeric grade of less than 65% in the same SCWK course twice;
 - received a letter grade of FAL (fail) in more than one internship; or
 - behaved in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at www.casw-acts.ca/ and/or the Suitability Policy of the School of Social Work and for which the School considers that withdrawal from the program is warranted. The Suitability Policy of the School of Social Work is available at www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf.
2. A student who has been denied promotion and has had to withdraw from the School but is eligible for consideration of readmission to the School
 - must withdraw from the School for two academic terms before reapplying; and
 - will be permitted only one readmission to the School.

6.3 Leave of Absence

1. Any student who wishes to withdraw from the program and to retain his/her status in the program may do so only with the written approval of the Committee on Undergraduate Studies and for a maximum period of one academic year. A student who wishes to resume his/her studies within this period must notify the Dean in writing three months prior to the beginning of the term in which he/she wishes to continue his/her program. Students who do not return to the program at the end of their approved leave of absence will be deemed to have left the program.

6.4 Student Withdrawal

1. A student may be required to withdraw from the program at any time, on the recommendation of the Committee on Undergraduate Studies, if the student is deemed to have behaved in a manner that breaches the Canadian Association of Social Workers Code of Ethics and/or the School of Social Work Suitability Policy and for which the committee considers that withdrawal from the program is warranted. The Committee on Undergraduate Studies may determine the withdrawal to be conditional or permanent depending on the circumstances precipitating the action.
2. In the case of a conditional withdrawal, the Committee on Undergraduate Studies will determine the duration of the withdrawal and any conditions the student must fulfill during the withdrawal. Upon successful completion of the conditions, the student may be permitted re-entry to the program. Failure to meet conditions may result in a permanent withdrawal.
3. In the case of a permanent withdrawal, the student will not be eligible for future admission/readmission to the Bachelor of Social Work program.

7 Waiver of School Regulations

Every student has the right to request waiver of School regulations. A student wishing waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**.

7.1 General Information

1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
2. All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration.
3. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
4. Any waiver granted does not reduce the total number of credit hours required for the degree.

8 Appeal of Regulations

1. Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to

UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations.

2. An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined in **Admission/Readmission Regulations for the Bachelor of Social Work**. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of the School. The letter should state clearly and fully the grounds for the appeal. If the Dean of the School, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.

9 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by SCWK.

1710 Social Work Philosophy and Practice provides an overview of the historical development, philosophical orientation, basic values, principles and knowledge base, and fields of practice of the profession. The course will examine critical social problems that impact societies with an emphasis on the quest for social justice at local, national and global levels.

CR: the former SCWK 2700

2211 Diverse Theories for Social Work Practice provides an overview of critical and practice theories that explain problems and guide the change process. The course will involve students in a critical analysis of a broad range of theories including: Critical theories such as structural, feminist, Marxist, anti-racist, aboriginal, queer, & anti-oppressive practice; modern theories such as interactional, systems, ecological cognitive & crisis theory/intervention; postmodern theories such as solution focussed and narrative; and Macro practice, social action, and community organization.

CO: SCWK 2320 and 2711

PR: SCWK 1710 or the former SCWK 2700

2320 Social Work Knowledge and Skills for Assessment and Intervention introduces beginning skills for social work practice. The relevance of relationship based approach, a strengths perspective and an anti-oppressive stance will be considered as students acquire biopsychosocial assessment and interviewing skills. Attention is given to self-awareness, professional identity and a wide range of beginning counselling skills with diverse populations and situations such as: Aboriginal people, involuntary clients, suicide risk, domestic violence, clients in crisis and children at risk.

CO: SCWK 2211 and 2711

CR: the former SCWK 3320, the former 3321 and the former 4310

PR: SCWK 1710 or the former SCWK 2700

2321 Social Work Knowledge and Skills for Personal and Social Change addresses knowledge, skills and competencies that enable the social worker to facilitate positive change within the middle and end stages of intervention. Emphasis will be given to a range of current best known practices within the context of clinical and community applications, promotion of social justice, strengths and critical thinking. General practice approaches that may be applied with individuals, families and communities will be emphasized.

CR: the former SCWK 3421

PR: SCWK 2211, 2320 and 2711

2520 Social Work: Critical Analysis of Social and Health Policy engages students in critical analysis of local and national social and health policy development from a social work perspective. The course explores topics that are relevant to direct service provision such as: the influence of historical context on policy, policy development, interactions among federal, provincial and local governments that influence policy and leadership and advocates roles of social workers in program development in a diverse and changing environment.

CR: the former SCWK 2510 and 2710

PR: SCWK 2211, 2320 and 2711 or admission to the second degree program option

2711 Social Justice and Social Work Practice explores human rights from global perspective and examines social responsibility, the nature of oppression and marginalization and strategies to promote social justice and prevent injustice. Reflective practice principles and experiential activities will form the basis for examining use of self and the relevance of social location, and the application of: critical theoretical perspectives, critical empathy and ethical evaluation for anti-oppressive practice at the individual and structural/organizational level.

CO: SCWK 2211 and 2320

PR: SCWK 1710 or the former SCWK 2700

3221 Social Impacts on Human Development addresses how theories, concepts and information related to human development must be considered in the context of social issues and impacts in order to inform social work practice with vulnerable populations. The impact of issues such

as violence, addictions, poverty, trauma and oppression are examined as are strengths and resilience of human beings. Strategies to address social impacts on human development are explored.

CO: SCWK 3521 and 3720

CR: the former SCWK 3211 and the former 3220

PR: SCWK 3300 and 3311

3230 Cultural Camp - inactive course

3300 Social Work Internship 1 is a 350 hour supervised field experience that provides students with opportunities to apply social work principles, theories and skills to work with clients and communities. The field experience is designed to develop: professional use of self, beginning ability to implement planned interventions with diverse populations and an appreciation for social justice activities.

CH: 12

CO: SCWK 3311

CR: the former SCWK 4315, 4316, 4300, 4325 and 4326

PR: successful completion of all designated Year 2 courses for the first degree program option; or admission to the second degree program option and successful completion of SCWK 2321, 3720, 4312, 4313, and 4314

3310 Introduction to Forensic and Police Interviewing is designed to teach applied skills for police and forensic interviewing. Content includes general skills of relationship building and interviewing to enable reliable and valid information to be obtained, as well as to help stabilize crises and reduce risks in dangerous situations. The course includes specific content on interviewing victims, witnesses, suspects, offenders and other collaterals. The course will also introduce the student to interviewing difficult persons such as those experiencing crisis or trauma and those who are impaired or who have mental health problems. Students are tested on both knowledge and practice skills related to police and forensic interviewing.

PR: restricted to students admitted to the Diploma Program in Police

Studies and who remain in good standing as recruit cadets of the Royal Newfoundland Constabulary

UL: not applicable to any programs offered by the School of Social Work

3311 Social Work Knowledge and Skills for Integration of Theory and Practice focuses on application of selected models and methods of practice. The course explores links between theory and practice through critical consideration of: the influence of agency and community, the value of theory and knowledge, the role of self awareness, social location and practice skills. Topics to be explored include: documentation, support/resource counselling, advocacy, self care, vicarious trauma, professional identity, community work, interdisciplinary practice, group work, ethics and consultation.

CO: SCWK 3300

CR: the former SCWK 4310 and 4311

PR: successful completion of all designated Year 2 courses for the first degree program option; or admission to the second degree program option

3511 Aboriginal People and Social Policy - inactive course

3521 Social Work Organizational Development for Community Services examines policy development and change in human services organizations and their administration. Management and organizational concepts suitable for the administration of social policies and programs are addressed as are ethical and ideological issues for social workers on human service teams. A focus on beginning skills in administration is included for the social worker within a management and leadership context in human services organizations.

CO: SCWK 3221 and 3720; or SCWK 4302

CR: the former SCWK 3110, the former 3510 and 4111

PR: SCWK 3300 and 3311

3530 Aboriginal Social Development - inactive course

3720 Ethical and Legal Issues in Social Work Practice examines ethical theories, decision - making models and key legislation in a variety of areas including child welfare, youth justice, privacy, health, human rights to resolve dilemmas in practice. Components of legislation and the Social Work Code of Ethics are analysed to determine approaches to practice dilemmas. Consideration and critical analysis of frameworks for decision making will lead to a personal model for practice choices.

CO: SCWK 3221 and 3521; or SCWK 2321, 4312, 4313, and 4314

CR: the former SCWK 5720

PR: SCWK 3300 and 3311 or admission to the second degree program option

4302 Social Work Internship 2 is a 350 hour supervised field experience that provides students with opportunities to apply social work principles, knowledge and skills that demonstrates the capacity for independent practice at micro and macro levels. Emphasis is on developing strong analytical abilities, applying enhanced practice skills, mastering a variety of social work roles, implementing strategies that impact social justice and making professional judgments in increasingly complex situations.

CH: 12

CO: either SCWK 4321, 4322 or 4323 or one of SCWK 4820-4829; or SCWK 3521

CR: the former SCWK 5300, 5301, and 5315-5319

PR: SCWK 4312, 4313, 4314, 4410 and either 4317 or 4620 and successful completion of all designated Year 3 courses or admission to the second degree program option and successful completion of 3300 and 3311

4312 Social Work Knowledge and Skills for Community Development emphasizes theory and practice of community organizing and community development within the context of social justice. Frameworks for community practice are critically analysed through examination of ethical dilemmas, accountability issues, practice skills, leadership and other roles. Urban, rural and cultural differences are considered in relation to their influence on effective community organizing and development work.

CO: SCWK 4313, 4314 and 4410; or SCWK 2321, 3720, 4313 and 4314

CR: the former SCWK 5322

PR: SCWK 3221, 3521 and 3720 or admission to the second degree program option

4313 Social Work Knowledge and Skills for Group and Team Work introduces students to social work methods and skills in group practice and team work. The design and implementation of diverse group types, evaluative models and the parallels between group and team functions are explored. The characteristics and challenges of interdisciplinary team work are considered as well as effective strategies and unique roles that social workers can contribute for effective team collaboration.

CO: SCWK 4312, 4314 and 4410; or SCWK 2321, 3720, 4312 and 4314

CR: the former SCWK 4320

PR: SCWK 3221, 3521 and 3720 or admission to the second degree program option

4314 Social Work Knowledge and Skills for Practice with Families prepares students to offer direct services to families through increasing their knowledge of family functioning and their competence in family assessment and intervention. Critical analysis of models of family intervention and exploration of ethical issues form the basis for application of selected approaches to family work including: structural therapy, solution focussed approach and crisis intervention.

CO: SCWK 4312, 4313 and 4410; or SCWK 2321, 3720, 4312 and 4313

CR: the former SCWK 5325

PR: SCWK 3221, 3521 and 3720 or admission to the second degree program option

4317 Field of Practice: Child Welfare Prevention, Crisis Intervention and Protection examines legislation that protects the rights of children, best practice in child welfare and care and protection of children within a community context. Social work intervention with complex issues such as: family violence, poverty, cultural influences, addictions and mental health impacts are explored through feminist, aboriginal, empowerment and anti-oppressive perspectives. Continuity of care, permanency planning and the impact of separation are addressed through critical analyse of child welfare programs, and care giving models.

CO: SCWK 4312, 4313, 4314 and 4410

CR: the former SCWK 4614

PR: SCWK 3221, 3521 and 3720

4321 Field of Practice: Social Work in Child Abuse and Protection is

aimed at developing knowledge and social work skills necessary for intake, crisis intervention, assessment, family support, removal, community placement, family reunification, and amelioration, within the context of social justice and the best interest of those most vulnerable for maltreatment and oppression. It addresses child-youth neglect, physical abuse, sexual abuse, emotional abuse, exploitation, problems, risks, needs and harm and includes trauma and developmental impacts.

CO: SCWK 4302

CR: the former SCWK 5328

PR: SCWK 4312, 4313, 4314 and 4410

4322 Field of Practice: Social Work in Gerontology reviews aging from a biopsychosocial perspective with an emphasis on the strengths of seniors and the impact of oppression on the lives of the elderly. The course will explore legislation, policies, societal trends and elder abuse, and consider the social work role in developing strategies for healthy aging and service provision for seniors.

CO: SCWK 4302

CR: the former SCWK 4615 and 5615

PR: SCWK 4312, 4313, 4314 and 4410

4323 Field of Practice: Social Work in Addictions is aimed at developing knowledge skills, and beginning competence, necessary for assessment and intervention with populations experiencing problems and risks associated with the use and abuse of chemicals and non-chemical addictions throughout the lifespan. Themes addressed include: the oppression of addictions; social determinants of addictions, the social worker's role in the continuum of care; strengths; the special needs of women, aboriginal, and GLBT populations.

CO: SCWK 4302

CR: the former SCWK 4616

PR: SCWK 4312, 4313, 4314 and 4410

4410 Applied Research and Evaluation for Social Work Practice teaches theories, concepts and methods of systematic inquiry and its relationship to professional social work judgment and action. The contribution of applied research to social justice, community based inquiry and accountability and evidence based practice is emphasized. Topics to be explored include: quantitative, qualitative, action and evaluative approaches to systematic inquiry for social work practice; ethical considerations in social work research.

CO: SCWK 4312, 4313 and 4314; or SCWK 2211, 2320, 2520, and 2711

CR: the former SCWK 4420 and 4421

PR: SCWK 3221, 3521 and 3720 or admission to the second degree program option

4620 Field of Practice: Social Work in Interdisciplinary Mental Health and Health Services provides an overview of mental health and illness, the impact on people and communities and social work interventions within an interdisciplinary community context. The oppression of illness, disability and mental health problems across the lifespan is considered as well as the role of social work in the continuum of care. Topics include: mental health, health, mental illness, disability, social determinants of health, social movements and advocacy.

CO: SCWK 4312, 4313, 4314 and 4410

CR: the former SCWK 4610, 5610 and 5613

PR: SCWK 3221, 3521 and 3720

4820-4829 Selected Topics in Social Work may be offered by the School. Students should consult the School for selected topics being offered in a given semester.

CO: SCWK 4302

PR: SCWK 4312, 4313, 4314 and 4410

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 General Information and Regulations Governing All Graduate Students

2.1 School Description

Memorial University of Newfoundland's School of Graduate Studies (SGS) is home to over 3,000 graduate students enrolled in over 100 graduate diploma, and master's and doctoral degree programs.

The School is a central agency responsible for the collection, maintenance, and distribution of materials on graduate students. It maintains graduate files and administers graduate applications, admissions, comprehensive examinations, thesis examinations, and doctoral defences. SGS is also responsible for registrarial functions, graduate enrolment management, and recruitment, and administers graduate student funding including assistantships, external and internal scholarships, baseline fellowships, supervisor support, and Tricouncil global payments.

The School assists academic units in developing new program proposals and administers their approval. Through its Academic Council, SGS also provides a forum for representatives from all faculties, schools, and the Graduate Students' Union to discuss matters pertaining to graduate education. The Council ensures maintenance of standards across all graduate programs by considering policies relating to graduate studies, approving regulation changes and appeals, receiving reports from standing and ad hoc committees, and making recommendations on matters affecting graduate studies.

Additional information regarding the School of Graduate Studies is available at www.mun.ca/sgs/.

Students must meet all regulations of the School in addition to the **General Regulations**, the Degree Regulations and any additional requirements of the appropriate Department. For information concerning fees and charges refer to **Fees and Charges, UNIVERSITY REGULATIONS**.

2.2 Programs

The following graduate diploma and degree programs are offered by Memorial University of Newfoundland. Interdisciplinary study is encouraged by the University, and prospective applicants should make enquiries about their interests from all the areas of study concerned.

2.2.1 Graduate Diplomas

Clinical Epidemiology
Community Health and Humanities
Fisheries Resource Management
Post-Secondary Studies (Health Professional Education)
Post Masters Nurse Practitioner

2.2.2 Graduate Degrees

Master of Applied Science
Master of Applied Social Psychology (Co-operative)
Master of Applied Statistics
Master of Arts
Master of Arts and Education (Education and Francophone Literatures and Cultures)
Master of Business Administration
Master of Education
Master of Employment Relations
Master of Engineering
Master of Engineering Management
Master of Environmental Science
Master of Gender Studies
Master of Marine Studies (Fisheries Resource Management)
Master of Maritime Management
Master of Music
Master of Nursing
Master of Philosophy
Master of Physical Education
Master of Public Health
Master of Science
Master of Science in Kinesiology
Master of Science in Medicine
Master of Science in Pharmacy
Master of Social Work

Master of Technology Management
 Doctor of Philosophy
 Doctor of Psychology

2.3 Definition and Explanation of Terms Used in this Calendar

2.3.1 Special/Selected Topics Courses

Where a block of courses has been approved under a general heading such as selected topics, special areas, directed readings or like heading, each new course offered from that block of courses shall be approved in advance by the Faculty/School Council (or delegated Graduate Studies Committee). To ensure an orderly use of the courses and non-duplication between course numbers, titles and contents, the Council (or Committee) shall require the same quality and type of information as is needed for the approval of a regular course. *(Consult the School of Graduate Studies or Deputy Registrar for administrative procedures.)*

2.3.2 Dean of Graduate Studies

In all regulations following, reference to "the Dean" refers specifically to the Dean of Graduate Studies.

2.3.3 Credit Hour

A credit hour is the measure used to reflect the relative weight of a given course towards the fulfilment of appropriate degree, diploma, certificate, major, minor, or other program requirements. Normally, a course has a credit value of 3 credit hours. A weight of one credit hour normally means that the course meets for lectures one hour per week for the duration of a semester or two hours per week for the duration of a session. The number of hours of required instruction, outside of lecture time, such as laboratory instruction, tutorials, etc. may or may not impact on the number of credit hours assigned to a particular course and academic units may recommend to the Senate a greater or lesser whole number of credit hours for a particular course.

2.3.4 Graduate Course

1. A graduate course comprises a unit/units of work in a particular subject normally extending through one semester, the completion of which carries credit toward the fulfilment of the requirements for a postbaccalaureate degree, diploma or certificate.
2. Accelerated courses are not normally permissible in graduate programs.
3. Courses required as part of a graduate student's program are known as program courses. Tuition for such courses is covered by the semester fee.
4. Courses which are not required as part of a graduate student's program are known as non-program courses. Students registering for such courses will be required to pay the appropriate per-course fee.

2.3.5 Policy Governing the Auditing of Courses

1. In order to audit any course, an individual must receive permission from the instructor in that course, the Supervisor/advisor and the administrative Head of the unit in which the course is offered. Matters to be considered shall include class size, impact on students registered for credit and other factors judged relevant by the academic unit; and permission cannot be given until the number of registrations for credit is known.
2. Individuals auditing courses shall limit their participation to that deemed appropriate by the instructor; auditors are not permitted to write formal examinations, nor to have their work formally assessed.
3. Students who require a testimonial of audition may request the same from the instructor of the course. Students will not register for audit courses nor will a record of audit courses appear on students' transcripts.

2.3.6 Semester

A semester means a period of approximately 14 consecutive weeks during which the University is in regular session and in which period there are at least 12 teaching weeks as defined by the Senate. Normally the Fall semester commences in early September, the Winter semester in early January, and the Spring semester in early May.

2.3.7 Academic Year

The academic year is from September 1 of one year to August 31 of the following year.

2.3.8 Graduate Student

A graduate student is one who has been admitted to a graduate degree or a graduate diploma program.

A full-time graduate student is one who registers as such, devotes full time to his or her academic program and may not commit more than 24 hours a week working time, including teaching assistant or research assistant duties, to matters other than the degree program.

A part-time graduate student is one who is registered for the duration of a semester and is not classified as full-time.

2.3.9 Visiting Research Student

1. A student who is registered in good standing in a graduate program at another recognized institution who comes to Memorial University of Newfoundland to conduct research under the supervision of Memorial University of Newfoundland faculty members is considered to be a visiting research student. In order to obtain access to University resources, and where applicable, a study permit, such a student will be required to register each semester of their visit for GRAD 9900 using a Course Change Form.
2. To be eligible to register, a visiting research student must submit an Application for Admission form to the School of Graduate Studies, accompanied by: a) a letter from their home institution verifying graduate student status, and b) a letter from the host faculty member confirming the duration of the visit. The student will then be admitted to the School of Graduate Studies to a "non-degree" program.
3. Visiting research students will be exempt from tuition fees. However, all visiting research students will be required, as a condition of registration, to purchase health insurance (international students should contact the International Student Advisor, whereas Canadian citizens or permanent residents of Canada should contact the Graduate Students' Union for more information). If a visiting research student wishes to register for a course while at Memorial University of Newfoundland, s/he must meet the University admission requirements and pay the undergraduate per course fee as indicated under the **UNIVERSITY REGULATIONS - Fees**

and Charges in the University Calendar.

Note: A student enrolled in a graduate program at another university who wishes to complete courses at Memorial University of Newfoundland for transfer of credit to his/her home institution is not considered to be a visiting research student under this definition. Such students should apply to the Office of the Registrar for admission to the University, and if admitted, will be governed by **GENERAL ACADEMIC REGULATIONS**. Fees will be assessed in accordance with the fee schedule for undergraduate courses as indicated under the **UNIVERSITY REGULATIONS - Fees and Charges** in the University Calendar.

2.3.10 Program

1. A program, whether it comprises courses only, courses and comprehensive examination, or courses, internship, project, thesis research, paper folio is defined for each graduate student in accordance with Departmental and University Regulations. Each program of study is recommended by the appropriate academic unit, and must be approved in writing by the Dean of Graduate Studies before the beginning of the graduate student's second year of study.
2. Responsibility for the administration of the program shall rest with the Dean acting on behalf of the School.

Note: The following general statements concerning admission and Degree requirements should be supplemented by the detailed regulations governing each program.

2.3.11 Double Degree Programs

1. Memorial University of Newfoundland offers graduate students the opportunity to carry out a joint research project through a cotutelle agreement between Memorial University of Newfoundland and another recognized institution. The student would be expected to participate in research and fulfill degree requirements at both institutions. Students who successfully complete all program requirements would earn doctoral degrees from both institutions. Memorial University of Newfoundland's Guidelines for Cotutelle Agreements, approved by the Academic Council of the School of Graduate Studies, provides information on the details on the method of establishing such an agreement and program.
2. Upon successful completion of the program, Memorial University of Newfoundland and the cooperating institution will each issue its own doctoral degree certificate. On the certificate and subsequently on the university transcript, the following notation will be added: "This Ph.D. was awarded within a cotutelle agreement. The student was jointly enrolled at University XYZ and Memorial University of Newfoundland and successfully completed the degree requirements of both institutions."
3. Graduate students interested in this type of program should contact the School of Graduate Studies for further information.

3 General Regulations

3.1 Qualifications for Admission

3.1.1 Graduate Diploma Programs

To be considered for admission to a Graduate Diploma program, the minimum requirements will normally be a second-class degree from a university of recognized standing, in an appropriate area of study.

A candidate admitted to a Graduate Diploma program, who has demonstrated to the satisfaction of the Faculty/School/Department concerned their ability to pursue research at the master's level, may be permitted subsequently to transfer his/her candidature to that of a master's in the affiliated program area and will thereafter be awarded only the master's at the end of his/her candidature.

3.1.2 Master's Programs

To be considered for admission to a Master's program, the minimum requirements will normally be a second-class degree from a university of recognized standing, in an appropriate area of study.

3.1.3 Ph.D. and Psy.D. Programs

1. To be considered for admission to a Ph.D. program, the minimum requirements will normally be a Master's degree from a university of recognized standing, in an appropriate area of study. Other students may be considered for admission to a Ph.D. program provided that:
 - a. they have been registered in a Master's program for a minimum of 12 months, and have demonstrated to the satisfaction of the Faculty/School/Department concerned their ability to pursue research at the Doctoral level. Such transfer should take place no later than the 5th semester of the student's Master's program as indicated under **UNIVERSITY REGULATIONS - Fees and Charges** in the University Calendar; or
 - b. they hold a Bachelor's Degree with Honours, or equivalent, from a university of recognized standing, and that the Faculty/School/Department is satisfied of the students' ability to pursue research at the Doctoral level.
2. To be considered for admission to the Psy.D. program, the minimum requirements will normally be an undergraduate honours degree in Psychology that includes senior courses as indicated under the **Regulations Governing the Degree of Doctor of Psychology**.

3.1.4 Applicants Not Meeting Qualifications

Only in exceptional circumstances, and only upon the recommendation of the Faculty/School/Department concerned, will the Dean consider applicants who do not meet the requirements outlined above under **Qualifications for Admission**.

3.1.5 English Proficiency Requirements

Since English is the primary language of instruction at this University, all applicants seeking admission to the School of Graduate Studies must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take one of the following forms:

1. Successful completion of the equivalent of three years of full-time instruction in an English language secondary institution as recognized by Memorial University of Newfoundland including successful completion of at least two courses in English Language and/or Literature at the Grade XII (or equivalent) level. Please note that these courses must be other than English as a Second Language (E.S.L.) courses.
2. Successful completion of a baccalaureate degree from a recognized University where English is the language of instruction and from

which transfer of credit may be allowed by Memorial University of Newfoundland.

3. Successful completion of a post-graduate degree program at a recognized University where English is the language of instruction and from which transfer of credit may be allowed by Memorial University of Newfoundland.
4. Submission of official results of the Test of English as a Foreign Language (TOEFL) with a paper-based score of 550 (or higher)/computer-based score of 213 (or higher) or Internet-based with a score of 80 (or higher) and the Test of Written English (TWE) with a score of 4 (or higher).
5. Submission of the official results of the Michigan Test of English Proficiency with a score of 85% (or higher).
6. Submission of the official results of the English Language Testing Service (ELTS) Test with an average band score of 6.5 or higher.
7. Submission of official results of the Carleton Academic English Language (CAEL) Assessment with a minimum score of between 50 and 60 in each of four bands, with at least 2 band scores of 60.
8. Submission of official results of the Canadian Test of English for Scholars and Trainees (CanTEST) with a Band Level 4.5 in the listening comprehension and reading comprehension sub-tests and a score of 4 in writing.
9. Only in exceptional circumstances and only upon the recommendation of the Department/Faculty/School concerned, will the Dean consider applicants who do not meet one of the requirements listed in 1-8 above.

3.1.6 Additional Requirements

Particular Departments/Faculties/Schools may require greater strength in English communicative skills than is indicated by the achievement of minimum scores outlined in 4., 5., 6., 7., and 8. above. Any such additional requirements are detailed in the appropriate section of the Calendar.

3.1.7 English Language Requirements Subsequent to Admission

1. Students who have been admitted under **English Proficiency Requirements**, Clauses 4. - 8. above, will be required to take an English language placement test on arrival at Memorial University of Newfoundland. On the basis of the test results, students may be required to complete successfully a course of language study designed to bring their English, in any or all of listening, speaking, reading, and writing, to a level required for graduate studies. A final assessment of the students' proficiency in these areas will normally be made no later than the end of the third semester following their first registration in the School of Graduate Studies. As a result of this assessment, and in consultation with the student's academic unit and the Department of English Language and Literature, there may be a recommendation for termination of the student's program.
2. Notwithstanding **Additional Requirements** above, if a student's Department is not satisfied with the student's ability to communicate in English, then the student may be required to complete successfully the relevant component(s) of the course of study referred to in **Additional Requirements**. The Department will be required to take this action within three semesters of the student's admission to a graduate program. At the end of this period the Department may recommend, but not require this procedure.

Note: Information regarding the TOEFL program is available on-line at www.toeflgoanywhere.org/. Information regarding the Michigan Test of English is available on-line at www.michigan-test.com. Information regarding the ELTS Test is available on-line at www.ielts.org.

3.1.8 Foreign Degree Transcripts

Students who have completed undergraduate programs at universities which issue documents in languages other than English or French shall submit notarized English translations of all supporting documentation, including, but not limited to, transcripts, degrees, and diplomas.

3.2 Procedure for Admission

1. Application for admission to graduate studies must be made online to the School of Graduate Studies at www.mun.ca/become/graduate/apply/. The application must be supported by an official transcript of the applicant's university record. If the applicant is a graduate of another university or college, a copy of the Calendar of that institution must be included upon request.
Most graduate programs have September start dates; however, some programs accept students for January and/or May admission. Deadlines for submission of applications can be as early as November for the following September; therefore, applicants should inquire about program start dates and application deadlines of the academic program of interest (see www.mun.ca/become/graduate/). Non-Canadian applicants should allow four to six months for processing of official documents with Immigration authorities.
2. Admission to graduate studies shall be upon acceptance by the Dean after assessment of the qualifications of the applicant but no candidate will be admitted unless the academic unit of specialization recommends acceptance along with a proposed program of study and a proposed Supervisor or advisor or, where appropriate, a tutor. Successful applicants will be notified by the Dean of Graduate Studies.
3. The applicant may be required to appear for an interview before a final offer of admission is made.
4. It is recommended that the applicant refer to the appropriate section of this Calendar to ascertain if additional testing information or documentation is required when making initial application.
5. The University reserves the right to refuse admission to any applicant.

3.3 Registration

3.3.1 Program Registration

1. All graduate students must be registered in each semester for the graduate program registration appropriate to their discipline (see note) until all academic requirements for the degree have been met, except during periods for which leaves of absence have been granted (see **Leaves of Absence**).

Note: e.g., Linguistics 9000, Chemistry 9000 or, in the case of Medicine, Medicine 9900.

2. A student registered in a graduate diploma, Master's, Ph.D., or Psy.D. program may not concurrently pursue studies leading to any other degree without the prior approval of the Dean.

3.3.2 Program Withdrawal

Students intending to withdraw from their program must inform the Dean of Graduate Studies in writing. The period of withdrawal from a program without incurring liability for that semester's fees is three weeks after the first day of lectures in the semester in question, as

stated in the **University Diary**. Requests received after the end of the regular registration period, and approved, will be charged an administration fee (see **Fees and Charges**).

3.3.3 Course Registration

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

1. Students will register for courses at the times indicated in the **University Diary**.
2. Students not admitted to a graduate program may enroll in graduate courses with the permission of the Head of the appropriate academic unit.

3.3.4 Changes in Course Registrations

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

1. Within two weeks following the first day of lectures in any semester, as stated in the **University Diary**, a graduate student may, upon the approval of the appropriate Head of academic unit, add a course or courses to his or her registration for that semester.
2. Within seven weeks after the first day of lectures in any semester, as stated in the **University Diary**, a graduate student may, upon the approval of the appropriate Head of academic unit, drop a course or courses from his or her registration for that semester without prejudice.
3. After the period described in 2. above has expired, and up until the last day of lectures, any student who is prevented from completing a course by illness, bereavement or other acceptable cause, duly authenticated in writing may, upon the recommendation of the Head of the appropriate academic unit, drop that course without academic prejudice.

Note: A course cannot be dropped after the last day of lectures without the approval of the Dean of Graduate Studies.

3.3.5 Period of Study

1. Each student in graduate studies shall spend such time in the program as decided by the academic unit of specialization and approved by the Dean, and be subject to the following minimum residency.
 - a. Except where provided for elsewhere in this calendar, each student for a Master's Degree shall normally spend at least two semesters in residence as a graduate student at this University.
 - b. Except where provided for elsewhere in this calendar, each student for a Ph.D. or Psy.D. shall normally spend at least three semesters in residence as a graduate student at this University.
To be resident as a graduate student of this university a student must be registered as a graduate student at Memorial University of Newfoundland and participate in a community of learners and instructors (formally or informally) who are joined together by the practices and standards of a profession or an academic discipline. For most students this will involve taking courses or engaging in research while resident on campus. These attributes may, however, be found elsewhere and it is possible therefore that the residency requirement may be satisfied in an off campus location. In such cases the Dean of Graduate Studies must be satisfied that the attributes are met.
 - c. Except where provided for elsewhere in this Calendar, each student for a graduate diploma shall normally spend at least one semester in residence as a graduate student at this University.
2. The maximum period of a graduate program shall be seven years beyond first registration.

3.3.6 Leaves of Absence

3.3.6.1 General

1. A leave of absence is a period of time during which a student is not required to register; no fees are assessed; and the time granted is not counted in the maximum time period permitted for a graduate program (see **Period of Study**).
2. In the event that circumstances prevent a student from pursuing his/her program, the student may apply to the Dean of Graduate Studies for a leave of absence.
3. A student may normally apply for only one leave of absence during his/her program. The maximum leave of absence shall normally not exceed 12 months.
4. An application for leave will normally be made before the end of the registration period in the first semester for which leave is requested. Requests received after the end of the regular registration period, and approved, will be charged an administration fee (see **Fees and Charges**).

3.3.6.2 Parental

A student may apply for a leave of absence in the case of pregnancy/birth/adoption of a child. (Such leave will be considered separately from 3. above.)

3.4 Program Requirements

Note: Every candidate shall complete a program of study as recommended by the Head of the academic unit, in consultation with the Supervisory Committee and approved by the Dean of Graduate Studies. See **Procedure For Admission**, Clause 2.

3.4.1 Graduate Diploma and Master's Programs

1. Candidates should consult the appropriate Degree and Department/Faculty/School regulations for information concerning the specific program requirements.
2. Graduate diploma programs shall not normally comprise more than 50% of the master's in the same area.

3.4.2 Ph.D. and Psy.D. Programs

1. Each candidate is required to pass a comprehensive examination (see **Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination**).
2. Each candidate shall present a thesis embodying the results of original research.
3. Candidates should consult the appropriate Department/Faculty/School regulations for information concerning the number and specific credit hours that may be required for a program.

- Candidates may pursue a specified part of their research elsewhere provided that prior permission has been obtained from the Dean on the recommendation of the Head of the academic unit in consultation with the Supervisory Committee.

3.4.3 English Writing Requirement

Given the analytical and scholarly demands of study at the graduate level, graduate students are expected to demonstrate an advanced facility with written English in meeting the demands of their course work and, where applicable, in the writing of any end-of-program research report, folio, comprehensive examination, or thesis.

3.4.4 Changes in Programs

Any changes in the candidates's program of studies must be approved by the Dean of Graduate Studies on the recommendation of the appropriate academic unit.

3.4.5 Research Involving Animals

The Animal Care Service Department offers a seminar in animal care at least once annually. The seminar is administered by the School of Graduate Studies. All graduate students whose degree requirements involve experimentation on living vertebrate animals are required to attend this seminar normally at the first offering following commencement of their program.

3.4.6 Graduate Student Conduct

All graduate students shall adhere to Memorial University's policies and guidelines relating to academic scholarship, integrity and ethical conduct informing the design, conduct, and reporting of responsible research.

3.4.7 Year of Degree and Departmental Regulations

- A student completing a graduate degree program in the School of Graduate Studies will follow the degree and Faculty/School/Department regulations in effect in the year in which the student first registers for his/her current program. However, students may elect to follow regulations introduced subsequent to their initial registration.

Note: The foregoing notwithstanding, in the case of students who have submitted a thesis/report/folio, or students in a non-thesis program who have taken a comprehensive examination, the option of changing regulations is no longer available.

- When there is doubt as to which degree or Departmental regulations may be followed, the Academic Council of the School of Graduate Studies will decide which are the appropriate regulations.
- Notwithstanding these guidelines, the University may place limits on the time permitted to complete a program under any given set of regulations. In addition, detailed scheduling of courses and/or work periods may be changed as the University deems appropriate or necessary.

3.4.8 Transfer of Course Credits

All such transfers require the approval of the Dean of Graduate Studies, on the recommendation of the Head of the appropriate academic unit.

- A student who has successfully completed graduate courses at Memorial University of Newfoundland prior to admission to a graduate program may apply to transfer appropriate courses to that program, provided such courses have not been used to satisfy other Degree requirements.
- A student who has successfully completed graduate courses as part of one graduate program at Memorial University of Newfoundland, and who is subsequently admitted to another program, may apply to transfer appropriate courses to the current program, provided such courses have not been used to satisfy other Degree requirements.
- A student who has successfully completed graduate courses at another institution recognized by Senate may, on admission to a graduate program at Memorial University of Newfoundland, apply to transfer appropriate courses to the current program, provided such courses have not been used to satisfy other Degree requirements.
- Students who successfully complete a graduate diploma program may transfer the course credits earned in that program towards a master's degree if these credits meet the requirements of the master's in the affiliated area in which the graduate diploma was granted.

Affiliated Master's programs for graduate diploma programs currently offered by the School of Graduate Studies are as follows:

Medicine

Graduate Diploma in Clinical Epidemiology - Master of Science in Medicine (Clinical Epidemiology)

Graduate Diploma in Community Health - Master of Science in Medicine (Community Health) and Master of Public Health

Education

Graduate Diploma in Post-Secondary Studies (Health Professional Education) - Master of Education (Post-Secondary Studies)

Marine Studies

Graduate Diploma in Fisheries Resource Management - Master of Marine Studies (Fisheries Resource Management)

- In programs requiring a minimum of 12 credit hours or more, transfer of credit hours in graduate courses referred to in 1., 2., and 3. above shall not exceed 30% of the total number of credit hours required. In programs requiring fewer than 12 credit hours, a maximum of 3 credit hours in graduate courses referred to in 1., 2., and 3. above shall be considered eligible for transfer.
- Graduate courses referred to in 1., 2., 3., and 4. above shall not be considered eligible for transfer if they have been completed more than seven years prior to the date of admission into the current program.

3.5 Provision for Waiver of Regulations

Academic regulations notwithstanding, the University reserves the right in special circumstances, to modify, alter or waive any regulation in its application to individual students where, in the judgement of the appropriate University Officer or Committee, there is sufficient justification for doing so.

- Waivers of course prerequisites/co-requisites may be granted by the Head of an academic unit.
- Waivers of Departmental regulations may be granted by the Dean of Graduate Studies on the recommendation of the Head of an

academic unit.

3. Requests for waiver of a degree or general regulation must be submitted to the Academic Council of the School of Graduate Studies.

3.6 Appeal of Regulations

3.6.1 General Information

1. Every graduate student has the right to appeal decisions resulting from the application of University regulations.
2. Appeals will be considered in the case of health issues, bereavement and/or other acceptable cause, duly authenticated.
3. For assistance in the appeals process, students are advised to consult with the School of Graduate Studies.
4. In preparing an appeal a student may consult advisors or facilitators. Such advisors or facilitators may include an international advisor, a faculty advisor, a counsellor, a representative from the Memorial University of Newfoundland Graduate Students' Union (GSU) or a faculty member who is familiar with the appeals process and who is willing to undertake the role of student advisor or facilitator.
5. Appeals are made before specific committees that exist at the University to provide an objective review of cases. The appeals process is designed to assist students at critical points in their graduate program and to provide an accessible and transparent process for students. Refer also to **Appeal Procedures** for information concerning where appeals should be directed.
6. The principle of fairness should be applied to all parties in appeals processes and decisions. Fairness includes, but is not limited to, such practices as all parties to the appeal receiving timely and adequate notice, all parties to the appeal having the opportunity to be heard, all parties to the appeal being made aware of the evidence considered by the committee, and no individual sitting in judgment on an appeal at a higher level who has already been a party to the decision at a lower level. Any member of a committee hearing an appeal, who was previously involved in a decision making process at a lower level of process, will abstain from voting.
7. While the University makes provision for students to appeal regulations, the academic, financial or other consequences of the appeal process rests with the students.
8. When an appeal is denied, the student will be advised in writing of the reasons for the decision and of further steps that can be taken in the appeals process. A student whose appeal is denied by the Executive Committee of Senate may appeal to the Senate. Appeals to the Senate will be heard in the first instance by the Senate Committee on Academic Appeals and that Committee will investigate the appeal and file a report to the Senate with its findings and recommendations as expeditiously as possible. Students have the right to appear in person before the Senate Committee on Academic Appeals, and have the right to be accompanied by another person in order to assist them with their presentation. Normally, however, the presentation of the student's case rests with the student. Advance notice of the student's intention to appear and the identity of the accompanying individual, if any, must be provided to the Secretary of the Senate Committee on Academic Appeals. Should the student's appeal be denied by the Senate, the student will be advised that within the University no further appeal is possible.
9. Student appeals are heard anonymously. However, this provision ceases to apply to a student who elects to appear in person before the Senate Committee on Academic Appeals as outlined in Clause 8 above.

3.6.2 Appeal Procedures

1. Normally, the responsibility for making an appeal before the appropriate committee of the University rests with the student.
2. A student who is ineligible to officially register for courses but who wishes to attend classes, laboratories or other educational activities while an appeal is in progress can do so only with the written permission of the head of the academic unit concerned. Such permission will not be unnecessarily withheld.
3. Any student whose request for waiver of regulations has been denied has the right to appeal. Normally, any such appeal should be made in writing, clearly stating the basis for the appeal, and should be directed as follows:
 - Appeals against decisions of the Head of an Academic Unit will be made directly to the Dean of Graduate Studies.
 - Appeals against decisions of the Dean may be made to the Appeals Committee, School of Graduate Studies. Letters of appeal should be directed to the Chair of the Appeals Committee, c/o School of Graduate Studies.
 - Appeals against decisions of the Executive Committee of the Academic Council may be made to the Appeals Committee, School of Graduate Studies. Letters of appeal should be directed to the Chair of the Appeals Committee, c/o School of Graduate Studies.
 - Appeals against decisions of the Appeals Committee, School of Graduate Studies, may be made to the Executive Committee of Senate, c/o Office of the Registrar.
4. Appeals cannot be made on the basis of the grades awarded in individual courses. Dissatisfaction with grades is not sufficient grounds for an appeal.

Notwithstanding the above, and recognizing that the award of grades is an academic manner within the purview of experts in a discipline or subject area, students who wish to question the award of grades in individual courses are encouraged to consult with the following in the order given:

- The course instructor
- The Head of the appropriate academic unit
- The Dean of Graduate Studies

3.6.3 Information Required in Letters of Appeal

1. All appeals must be made in writing, clearly stating the basis for the appeal, and must be directed to the secretary of the appropriate University committee.
2. In the Letter of Appeal, the student must clearly and fully provide: name, current address, telephone number, Memorial University of Newfoundland email address, student ID number, the decision being appealed and the remedy being sought. The grounds for the appeal, including health issues, bereavement and/or other acceptable cause, must be stated in the Letter of Appeal. Students must present independent evidence to corroborate statements made in the Letter of Appeal. Preferably, this evidence will come from a professional, such as a health professional, a counsellor, or a professor. However letters from other knowledgeable parties may be acceptable.
3. In cases where an appeal is made on health issues, the student must provide a certificate from a health professional in the form of a note or a letter. Such a note must be sufficiently specific to allow appropriate consideration of the student's case. The note must also

clearly state that, in the opinion of the health professional, the problem was serious enough to have interfered with the student's work. Students should refer to the policy respecting **Information Required for Certificates from Health Professionals** for more complete information.

4. Students claiming bereavement as grounds must provide proof of death and evidence of a close personal relationship between themselves and the deceased.
5. **Confidentiality:** The committees to which appeals are made do require substantial information about the reasons for the appeal in order to make their decisions. However, the committees also recognize the students' rights to confidentiality. With this in mind, a student may discuss the reasons for his or her appeal with a University, College or Institute counsellor, who, with the student's permission and provided sufficient reasons exist, may then write a letter to the appropriate committee confirming that there were sufficient grounds for an appeal, without disclosing the special personal and confidential details of the case.

3.6.4 Information Required for Certificates from Health Professionals

1. Students who request permission to drop courses, to withdraw from University studies, to have examinations deferred or to obtain other waivers of University, departmental or course regulations based on health issues are required by the University to provide, in support of the request, a certificate from a health professional in the form of a note or letter. Such notes must be sufficiently specific to allow a proper consideration of students' cases. The University requires that all such notes must be on letterhead, must be signed by the health professional, must confirm the specific dates on which the student visited the health professional and should include details on the following:
 - the degree to which the health issue (or treatment, in the case of medication, for example) is likely to have affected the student's ability to study, attend classes, sit examinations, or continue with research;
 - the length of time over which the student's abilities were likely hampered by the condition (e.g., recurring and severe back pain over a two-month period would likely have a more adverse effect on studies than a single episode of back pain requiring bed rest for a week; and
 - the fitness of the student to resume studies (it is in the student's best interest not to return to studies prematurely).
2. **Confidentiality:** The University respects the confidentiality of all material contained in notes. Student should request that their health professional retain a copy of the note in case the note needs to be verified or reissued at a later date.

3.7 Evaluation

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

3.7.1 Evaluation Methods and Grading

1. Students shall write their examinations in graduate courses at a time to be determined by the Head of the academic unit on the recommendation of the Faculty member(s) concerned.
2. A written copy of the course outline, including method of evaluation in the course, shall be provided to each student in the course as early as possible, and in any case not later than two weeks after the start of the course.
3. The final evaluation submitted to the Registrar shall consist of one of the following letter grades with the appropriate numerical equivalent:

Letter Grades	Numeric Grades	Points Per Credit Hour
A	80-100%	4
B	65-79%	3
C	55-64%	2
D	50-54%	1
F	below 50%	0
PWD (pass with distinction) - indicates excellent performance	no numeric grade	not applicable
PAS (pass) - indicates performance meets expectations	no numeric grade	not applicable
FAL (fail) - indicates failing performance	no numeric grade	not applicable
DR (drop) - drop without academic prejudice	no numeric grade	not applicable
DRF (drop fail) - drop with academic prejudice	0%	0
ABS (absent) - absent for acceptable cause	no numeric grade	not applicable
INC (incomplete) - incomplete pending final grade	no numeric grade	not applicable

4. Supplementary examinations are not permitted.

3.7.2 Evaluation of Graduate Students

1. Failure to attain a final passing grade of A or B in a program course shall lead to termination of a student's program unless:
 - a. the regulations for a particular degree allow the student to repeat the course. Only one such repeat will be permitted in a student's program. Failure to obtain a grade of A or B in the repeated course shall lead to termination of the student's program.
 - b. the Dean of Graduate Studies approves a repeat of the course, upon the recommendation of the Supervisor and the Supervisory Committee supported by the Head of the Academic Unit, where 1.a. above does not apply. Such recommendations must provide sufficient grounds for a repeat. Only one such repeat will be permitted in a student's program. Failure to obtain a grade of A or B in the repeated course shall lead to termination of the student's program.

Note: In exceptional circumstances, the Dean of Graduate Studies may approve a substitute course in place of the repeat upon the recommendation of the Supervisory Committee and Supervisor supported by the Head of the Academic Unit. Failure to obtain a grade of A or B in the substituted course shall lead to termination of the student's program.

2. Failure in a non-program course will not normally result in termination of a student's program.

3. The Supervisor and the Supervisory Committee may recommend that a candidate be required to withdraw from the program, if after consultation with the candidate, the candidate's non-course work is deemed to have fallen below a satisfactory level.
4. When Departmental requirements for a degree requires an examination of a candidate's reading knowledge of a language(s) other than English, the examination shall be set and marked by the appropriate language Department, or by an authority as determined by the Head of the academic unit and Dean. The results of the examination will be transmitted to the candidate by the Dean.

3.7.3 Deferral of Examinations

1. Graduate students who are prevented by illness, bereavement or other acceptable cause, duly authenticated, from writing final examinations may apply, with supporting documents within one week of the original examination date to the appropriate Head of the academic unit to have their examinations deferred.
2. The Department's decision, including information on the appeals route open to the student in the case of a negative decision, must be communicated in writing to the student and to the Dean of Graduate Studies within one week of the receipt of the student's complete application.
3. In those cases where the Department accepts the extenuating circumstances the student may be permitted to write a deferred examination or, with the consent of both the Department and the student, the grade submitted may be based on term work alone.
4. An interim grade of 'ABS' will be assigned by the academic unit in the case of a student granted a deferred examination. This grade will be replaced by the final grade which must be received by the Office of the Registrar within one week following the commencement of classes in the next academic semester or session.
5. Students who are prevented by illness or bereavement or other acceptable cause, duly authenticated, from writing a deferred examination, may apply, in writing, with supporting documents within one week of the scheduled date of the deferred examination to the appropriate Department Head to have the examination postponed to a time not later than the last date for examinations in the semester following that in which the student was enrolled in the course.
6. The Department's decision, including information on the appeals route open to the student in the case of a negative decision, must be communicated to the Registrar, to the student and to the Dean of Graduate Studies within one week of the receipt of the student's complete application.

3.7.4 Incomplete Grades/Change of Grade

1. For good cause a grade of 'Incomplete' may, with the approval of the appropriate Department or academic unit, be submitted. This 'Incomplete' grade shall, however, be valid only for one week following the commencement of classes in the next academic session as stated in the **University Diary**. In the event that a mark has not been received by the Registrar within the prescribed deadline, the 'Incomplete' grade shall be changed to '0 F'.
2. Clause 1. notwithstanding, for acceptable cause an extension of time not exceeding the end of the semester following that in which the 'Incomplete' was given may be permitted by the Head of the academic unit. "Acceptable cause" in these cases must be duly authenticated and will be illness, bereavement, serious problems of a personal nature or the like.
3. Changes in grades for graduate courses must be submitted on the appropriate form, which must be signed by the course instructor and approved by the Head of the appropriate academic unit who will submit such changes to the Registrar.

Note: A grade of less than 65% cannot be changed without the approval of the Dean of Graduate Studies.

3.7.5 Re-Reading of Examination Papers

1. Students may apply to have a final examination paper re-read whether or not they have obtained a passing grade in that course.
2. Students who wish to have a final examination paper re-read must make written application to the Registrar enclosing a fee of \$50.00 per paper within one month of the release by the University of the grade reports. If the mark is raised after re-reading, the fee is refunded. If the mark is unchanged or lowered, the fee is forfeited.

3.8 Comprehensive Examinations

3.8.1 Master's Comprehensive Examination

1. The composition of the Comprehensive Examination Committee is specified in the Degree and Departmental regulations, and the Committee is appointed by the Dean. The Dean of Graduate Studies or delegate may exercise the right to attend. All members of the Committee including the Chairperson, but excluding the Dean of Graduate Studies, shall be voting members.
2. In this examination the candidates must demonstrate an advanced knowledge of the academic discipline as defined by the academic unit in which they are students. Therefore, in order to be eligible to sit the examination, all course requirements must be completed.
3. Members of the Comprehensive Examination Committee shall decide the results of the comprehensive examination as indicated in a.-d. below:
 - a. The category of 'pass with distinction' will be awarded to candidates who demonstrate superior knowledge of their chosen field. This category requires unanimous support of the Comprehensive Examination Committee.
 - b. The category of 'pass' will be awarded to candidates who demonstrate an acceptable knowledge of their chosen area and requires a simple majority vote.
 - c. The category of 're-examination' selects those candidates with an understanding of their research area that lacks sufficient depth and scope as indicated by a simple majority of the Comprehensive Examination Committee. Only one such re-examination is possible and students in this category are not eligible for the award of 'pass with distinction'. If a re-examination is to be held, it must be conducted not less than one month and not more than six months after the first examination. The decision of the voting members of the Committee following this re-examination can only be 'pass' or 'fail' decided by simple majority. Failure will lead to immediate termination of the candidate's program. There is no option for further re-examination.
 - d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate's program is terminated. A simple majority vote will default to the award of 're-examination'.
4. The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.

3.8.2 Ph.D. and Psy.D. Comprehensive Examination

1. The candidate shall submit to a comprehensive examination, which may be written or oral or both as determined by the academic

unit. Candidates shall normally take the examination no later than the end of the seventh semester in the doctoral program. Unless an extension is approved by the Dean of Graduate Studies, failure to take the examination at this time will result in the termination of the candidate's program.

2. This examination, whether written or oral, shall be conducted by a Committee appointed by the Dean of Graduate Studies on the recommendation of the academic unit. It shall consist of the Head of the academic unit (or delegate) who shall be the Chairperson, the candidate's Supervisor [or, where a Supervisor has not yet been appointed, the Graduate Officer or Chair of the Graduate Studies (or equivalent) Committee], the Dean of Graduate Studies (or delegate), and at least three other members, the total voting members to be an odd number. All members of the Committee including the Chairperson, but excluding the Dean of Graduate Studies, shall be voting members.
3. In this examination, the candidate must demonstrate a mastery of those sub-disciplines appropriate to his/her research area, as defined by the academic unit in which he or she is a student. Those sub-disciplines upon which the candidate will be examined should be made known to the candidate no later than three months prior to the examination. The candidate must further be able to relate the specialization of his/her research to the larger context of these sub-disciplines.
4. Members of the Comprehensive Examination Committee shall decide the results of the comprehensive examination as indicated in a.-d. below:
 - a. The category of 'pass with distinction' will be awarded to candidates who demonstrate superior knowledge of their chosen field. This category requires unanimous support of the Comprehensive Examination Committee.
 - b. The category of 'pass' will be awarded to candidates who demonstrate an acceptable knowledge of their chosen area and requires a simple majority vote.
 - c. The category of 're-examination' selects those candidates with an understanding of their research area that lacks sufficient depth and scope as indicated by a simple majority of the Comprehensive Examination Committee. Only one such re-examination is possible and students in this category are not eligible for the award of 'pass with distinction'. If a re-examination is to be held, it must be conducted not less than one month and not more than six months after the first examination. The decision of the voting members of the Committee following this re-examination can only be 'pass' or 'fail' decided by simple majority. Failure will lead to immediate termination of the candidate's program. There is no option for further re-examination.
 - d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate's program is terminated. A simple majority vote will default to the award of 're-examination'.
5. The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.

3.9 Supervision

3.9.1 Master's Candidates

Each Master's candidate shall be assigned a Supervisor by the Dean, on the recommendation of the Head of the academic unit, or the Dean of the faculty concerned.

3.9.2 Ph.D. and Psy.D. Candidates

1. Each candidate shall be assigned a Supervisor by the Dean, on the recommendation of the Head of the academic unit or the Dean of the faculty concerned.
2. A Supervisory Committee shall be appointed for each candidate by the Dean. The Supervisory Committee shall consist of the Supervisor (co-supervisors) who shall act as Chair, and normally at least two other members. In no circumstances may the Committee membership be fewer than two members. The membership of the Committee shall be nominated by the Head of the Department or the Dean of the faculty concerned, after consultation with the Supervisor and the candidate.
3. The Supervisory Committee shall forward its reports and recommendations to the Dean via the Head of the Department or the Dean of the faculty concerned.
4. The functions of the Supervisory Committee shall be, *inter alia*,
 - a. to decide, in consultation with candidates, the program of study, the subject of research, and the title of the thesis, and to recommend these for approval to the Dean;
 - b. to monitor the candidate's progress in their course programs and their research;
 - c. to report at least annually to the Dean on the candidates' progress and, at the same time, to advise on their continuation in the program; and to make such other reports and recommendations about the candidates to the Dean as it may deem necessary.
 - d. to recommend to the Dean, after consultation with the candidates, necessary changes in the program of study, the subject of research, or the title of the thesis;
 - e. to recommend to the Head of the academic unit or Dean of the faculty the timing of the comprehensive examination;
 - f. to report to the Dean that the thesis is ready for examination by completing a Supervisor Approval Form, which is to accompany the thesis upon its submission to the School of Graduate Studies; and
 - g. to recommend to the Dean suitable persons to act as members of the Thesis Examining Board.

3.9.3 Supervisory Reports

1. At least annually, the Supervisor, Supervisory Committee or the Department shall make evaluations of a student's progress in a program. Recommendations concerning continuation, amendment, or termination (see **Termination of a Graduate Program**) of a candidate's program, are sent to the Dean, who shall take appropriate action. Students shall be advised of the contents of this evaluation and the subsequent recommendation(s).
2. The Supervisor, Supervisory Committee or the Department, shall forward its reports and recommendations to the Dean via the Head of the academic unit or the Dean of the faculty concerned.

3.10 Theses and Reports

3.10.1 Thesis/Report Guide Supplement

The Thesis/Report Guide Supplement (www.mun.ca/sgs/go/guid_policies/guidelines_intro.php), approved by the Academic Council of

the School of Graduate Studies, provides the details for the examination process, general form and style of the thesis/report, required forms, number of copies, etc., required under this regulation.

3.10.2 Submission

1. Candidates must submit the thesis/report at least four months before the University Convocation at which the award of the Degree is expected (see **University Diary** in current edition of University Calendar for exact date). The School of Graduate Studies does not accept any responsibility for completing the prescribed procedure in time for the nearest Convocation unless theses or reports are submitted by the prescribed dates in any current academic year.
2. A thesis/report may not be submitted until the candidate has fulfilled:
 - a. All course requirements, if any
 - b. All language requirements, if any
 - c. The comprehensive examination, if required, and
 - d. All other academic requirements of the academic unit concerned.

3.10.3 Evaluation of Master's Theses and Reports

1. Final examiners for the thesis/report will be appointed by the Dean on the recommendation of the academic unit. There will be two examiners for a Master's thesis. Examiners shall normally be those who have completed a graduate degree at the doctoral level, including a thesis, in the discipline or cognate area. Those serving as examiners shall not have been involved in the preparation of the thesis/report.
2. Examination of the thesis/report will result in one of the following recommendations by each examiner. The thesis/report is:
 - a. acceptable without modifications; or
 - b. acceptable, modifications are required but the thesis does not have to be re-examined*; or
 - c. unacceptable, the thesis/report requires modification and re-examination**; or
 - d. totally unacceptable, the thesis/report is failed.***

*Modifications may include corrections of typographical errors and errors in nomenclature, improvement in phrasing, or rewriting of sections of the thesis/report. Modifications may be indicated in the text or listed separately;

**Modifications might include (but are not limited to) the rectification of one or more of the following deficiencies: (1) misinterpretation and/or misuse of the matter covered, omission of relevant materials, unfounded conclusions, illogicality of argument, improper analysis of data and the like, (2) bad writing, (3) unacceptable physical presentation. A detailed list of problems should be included with the report;

***A detailed list of the reason(s) for failure must be included in the report.

3. If all examiners recommend that the thesis/report is totally unacceptable, then the thesis will be failed, and shall not be re-examined.
4. If an examiner recommends that the thesis/report is unacceptable, and this recommendation is accepted by the Dean, then the student may apply to the Dean for permission to resubmit the thesis for re-examination in one of the following ways:
 - a. to submit a modified thesis/report to the original examiners.
 - b. to submit a modified thesis/report to new examiners.
 - c. to submit the original thesis/report to an Examination Board to be appointed by the Dean.
5. If a thesis/report is re-examined, the candidate will not be awarded a pass unless all examiners find the thesis acceptable.
6. Under no circumstances may a thesis/report be re-examined more than once.

3.10.4 Evaluation of Ph.D. and Psy.D. Theses

Candidates for the Degree of Doctor of Philosophy and the Degree of Doctor of Psychology must submit a written dissertation deemed acceptable by the University, and demonstrate their ability to defend their work in a public oral examination. For this reason, the final decision on whether a candidate will be recommended for the award of the degree is made only at the conclusion of the oral examination (see **The Examination Process**).

1. Responsibilities of the Thesis Examining Board

The work of each candidate will be assessed by a Thesis Examining Board. Its first responsibility is to determine whether the thesis successfully demonstrates the candidate's competence to undertake independent research work. The Board must be satisfied that the work contributes significantly to knowledge in the field of study; that the contribution is of high scholarly merit; that the candidate is aware of the pertinent published literature; that it is written in a satisfactory style; and that it is free from typographical and other mechanical errors. The second responsibility of the Board is to conduct a final oral examination of the candidate and to then recommend to the Dean of Graduate Studies whether the candidate should be awarded the Degree.

2. Composition of the Thesis Examining Board

The members of the Thesis Examining Board will be appointed by the Dean on the recommendation of the Head of the academic unit who will have consulted with the supervisory committee. The Board shall consist of four members. Normally these will be the candidate's Supervisor (who serves on the Board in a non-voting capacity), two examiners from within the University, and one from outside the University. However, when circumstances warrant, a second external examiner may be substituted for one of the internal examiners with permission of the Dean. Examiners shall normally be those who have completed a graduate degree at the doctoral level, including a thesis, in the discipline or cognate area. Members of the supervisory committee other than the Supervisor are ineligible for appointment to the Board. Those serving as examiners shall not have been involved in the preparation of the thesis/report.

3. The Examination Process

- a. The voting members of the Board shall submit written reports on the thesis containing an assessment of the quality of the written work and a recommendation as to whether the candidate should be permitted to proceed to an oral examination and defence of the work. An examiner may recommend:
 - i. that the candidate be allowed to proceed to the oral defence of the thesis*, or
 - ii. that the candidate not be allowed to proceed to the oral defence at this time**, or
 - iii. that the candidate should be failed.

*Any suggested corrections or revisions should be outlined in the examiner's report. It is understood that it will be the responsibility of the Supervisory Committee to discuss the suggested changes with the candidate, to determine which should be

incorporated in the thesis before its final submission.

******This recommendation reflects the examiner's opinion that further research, re-analysis of data, or thorough rewriting of the material is required. The thesis may, however, be re-submitted for examination.

- b. If all examiners recommend that the candidate should be failed, then the thesis shall not be re-examined.
- c. If an examiner recommends that the candidate not be allowed to proceed to the oral defence, and this recommendation is accepted by the Dean, then the student may apply to the Dean for permission to resubmit the thesis for re-examination in one of the following ways:
 - i. To submit a modified thesis to the original examiners,
 - ii. To submit a modified thesis to new examiners,
 - iii. To submit the original thesis to an Examination Board to be appointed by the Dean.
- d. No candidate will be permitted to re-submit a thesis more than once. In case of a re-submitted thesis an examiner may recommend only:
 - i. that the candidate be allowed to proceed to the oral defence of the thesis; or
 - ii. that the candidate should be failed.
- e. After receiving the reports from all three voting members of the Board the Dean will consider the recommendations and determine whether an oral defence of the thesis will be scheduled.
- f. The Final Oral Examination and Defence of Thesis will take place at a time and place to be determined by the Dean of Graduate Studies and will be chaired by the Dean or his/her delegate. The presence of all members of the Examining Board is normally required.
- g. Following the defence, the Board will meet *in camera* to render a final assessment of the thesis and the candidate's ability to defend his/her work. The Board may recommend one of the following outcomes:
 - i. Passed with distinction (Awarded to candidates who demonstrate superior knowledge of their chosen field; this category requires unanimous support of the Board. A simple majority vote will result in a recommendation of 'passed'.)
 - ii. Passed*
 - iii. Passed Subject to Conditions**
 - iv. Re-examination required***
 - v. Failed****

*This recommendation may have attached to it the requirement that the candidate complete certain specified revisions to the satisfaction of the Supervisory Committee, the Head of the academic unit and the Dean. These revisions must have been specified in the written appraisal submitted prior to the Oral Examination.

**This recommendation is made if there are revisions beyond those specified in the written appraisal submitted prior to the Oral Examination. This recommendation must have the conditions attached and cannot include the option of re-examination.

***The members of the Thesis Examination Board may attach to this recommendation a list of any requirements which they feel are appropriate.

****Re-examination not permitted.
- h. If the members of the Board are unanimous in their recommendation, the Chair of the Examination may accept this recommendation and inform the candidate of the decision. In any other case, however, the delivering of any final decision shall be deferred pending further consultation within the School of Graduate Studies.
- i. No candidate shall be permitted more than two Oral Examinations.

3.10.5 Time Limit for Revision

The final version of Master's, Ph.D., and Psy.D. theses/reports found acceptable with or without corrections shall be submitted to the School of Graduate Studies within 6 months of the date on which the thesis/report and the student's examiners' reports are returned to the student's academic unit. If a corrected thesis/report is not submitted within 6 months the student is considered to have withdrawn from the program. After this time, the student must apply to be readmitted.

Master's, Ph.D., and Psy.D. theses/reports requiring re-examination shall be resubmitted to the School of Graduate Studies within 12 months of the date on which the thesis/report and the examiner's reports are returned to the student. Students requiring resubmission and re-examination of theses/reports must maintain their registration during this period. Failure to resubmit the revised thesis/report within 12 months will result in termination of the student's program.

Note: Please refer to **Registration** for regulations governing program registration.

3.10.6 Prepublication

Publication of material before submission of the thesis/report for examination is permitted. The School of Graduate Studies and Supervisor should be informed of such publication.

3.11 Graduation Procedure

Candidates expecting to graduate at any particular Convocation must apply online to the Office of the Registrar at www.mun.ca/regoff/ at least by the time of the submission of the Thesis, Project Report or Internship Report required by their program, or, if applicable, by the date of the final comprehensive examination.

3.12 Academic Misconduct

3.12.1 Principles

In the course of a graduate degree program students are expected to adhere to those principles which constitute proper academic conduct. Within the University Community there is a collective responsibility to maintain a high level of scholarly integrity. Dishonesty has no place in the academic community. Academic misconduct cannot be condoned or even appear to be condoned. Students have the responsibility to ascertain those actions which could be construed as dishonest or improper. Certain flagrant violations are listed below under **Academic Offences**. Students are reminded that for guidance on proper scholarly behaviour they should see assistance from their instructors and supervisors. The Graduate Students' Union will provide students with information on their legal rights and the

information that advice about acceptable writing standards is available through the Writing Centre.

3.12.2 General Information

1. These procedures shall apply to all academic offences relating to graduate studies involving, but not limited to, those students who either have been or who are enrolled at Memorial University of Newfoundland. Notification of an allegation of academic misconduct will be forwarded to the last known mailing address of the student as noted on the files at the Office of the Registrar, and to the official University email address of the student. The University reserves the right to implement action under these procedures where an allegation has been made against a student but where reasonable efforts to contact the student are unsuccessful.
2. Meetings and interviews stipulated in this regulation will be held in person, or at a distance using telephone or other interactive technologies.
3. A student who wishes to pursue research, or to attend classes, laboratories or other educational activities while an investigation under these procedures is being carried out, can normally do so with the understanding that if the allegation of academic misconduct is proven and the penalty involves either suspension or expulsion, credit will not be granted for work completed prior to a finding of guilt. This provision excludes students charged with an offence under the Code of Student Conduct. For information regarding the Code of Student Conduct contact the Office of Student Affairs and Services.
4. Although a student can continue in a program of studies, if eligible, while an investigation under these procedures is being carried out, the University does not accept liability for any consequences to the student's progress. However, the University may take these consequences into account, as appropriate and to the extent feasible, in cases where charges are dropped or the student is not found guilty. The consequences arising from an investigation and any negative decision rendered may include retroactive effects on grades, examination results or promotion within a program.
5. A student accused of academic misconduct may consult advisors or facilitators. Such advisors may include a representative from the Graduate Students' Union, an international student advisor, a faculty advisor, a University counselor or a faculty member who is familiar with these Regulations and who is willing to undertake the role of advisor whether resolution is sought through **Procedures for Resolution of Alleged Academic Offences at the Unit Level** or **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies**.

3.12.3 General Procedure

1. When a member of the University community (faculty, staff, student) has grounds for belief that an academic offence has been committed there should be an attempt between the parties concerned to resolve allegations of minor offences. If the alleged offence is not deemed to be minor by the accuser, or resolution proves impossible, or one party is dissatisfied with the resolution, the matter shall be reported, without delay, to the head (or other appropriate officer) of the academic or administrative unit. If resolution is achieved and it is agreed that an academic offence has been committed, then the offence, together with the penalty applied, shall be reported to the head of the academic or administrative unit.
2. Where resolution is not achieved, and if in the judgment of the head of the academic or administrative unit, the alleged offence warrants resolution at the unit level, the individuals involved will be advised to attempt to resolve the matter through Procedures for Resolution of Alleged Academic Offences at the Unit Level. In the event that no resolution is possible through these procedures between the individual parties, the head of the academic or administrative unit will institute proceedings through the School of Graduate Studies.
3. If, in the judgment of the head of the academic or administrative unit, the alleged offence against University regulations is such as to warrant resolution through the School of Graduate Studies, the head of the academic or administrative unit will refer the matter to the Dean, and Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will be implemented.
4. In all cases, it is the responsibility of the academic or administrative unit to ensure that fairness and impartiality are achieved in the treatment of students.

3.12.4 Academic Offences

In the following section the plural shall be deemed to include the singular.

Academic offences shall be deemed to include, but shall not be limited to, the following:

1. **Cheating:** This includes copying from another student's work or allowing another student to copy from one's own work; consulting with any unauthorized person during an examination or test, or using unauthorized aids; or knowingly recording or reporting false empirical or statistical data. The work referred to includes presentations, examinations, theses, assignments, work term reports, projects, internship reports, or any other tests or evaluations which are to be used in judging the student's performance in a course or program of study, or any special tests which the University may offer; or in any presentations or publications related to academic work.
2. **Impersonation:** Impersonating another student or allowing oneself to be impersonated. By impersonation is meant the imitation of a student or entrance into an arrangement with another person to be impersonated for purposes of taking examinations or tests or carrying out laboratory or other assignments.
3. **Plagiarism:** Plagiarism is the act of presenting the ideas or works of another as one's own. This applies to all material such as theses, essays, laboratory reports, work term reports, design projects, seminar presentations, statistical data, computer programs, and research results. The properly acknowledged use of sources is an accepted and important part of scholarship. Use of such material without acknowledgment, however, is contrary to accepted norms of academic behaviour. Information regarding acceptable writing practices is available through the Writing Centre at www.mun.ca/writingcentre/about/.
4. **Theft of examination papers or other material:** By theft is meant obtaining by an improper means examination papers, tests, or any other such material.
5. **Use and/or distribution of stolen material:** The use of material which the student knows to have been improperly obtained and/or the distribution of such material is considered to be an academic offence.
6. **Submitting false information:** This offence includes falsifying, submitting or causing to submit false academic transcripts, forms or records, credentials, medical or other certificates, or making a false or incomplete declaration to the University.
7. **Submitting work for one course, project or publication which has been or is being submitted to another course, project or publication without express permission to do so:** This includes the presentation of an essay, report or assignment to satisfy some or all of the requirements of a course when that essay, report, or assignment has been previously submitted or is concurrently being submitted for another course without the express permission of the professor(s) involved.
8. **Ethical Practice:** Failure to follow relevant University/Faculty/School guidelines on ethics, including but not limited to, ethical practice in research.

3.12.5 Procedures for Resolution of Alleged Academic Offences at the Unit Level

3.12.5.1 General Information

These procedures will not be applied to cases involving alleged offences on comprehensive examinations, examination of theses, allegations of impersonation or allegations of submission of forged documents. Such alleged offences are governed by the **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies**. The principle that a resolution should be mutually satisfactory to both the accuser and the accused should be upheld throughout the attempt for resolution at the unit level.

3.12.5.2 Explanation of Procedures

If, upon receiving a report of an alleged academic offence, the Department Head or other appropriate academic officer, decide that an attempt should be made to resolve that matter within the Department the following procedures shall apply:

1. Normally within one week of notification, the head of the academic or administrative unit shall request a meeting with the accuser and the accused and at the meeting the head of the academic or administrative unit shall state the allegation, review the **Procedures for Resolution of Alleged Academic Offences at the Unit Level** including the range of applicable penalties, and arrange a second meeting between the accuser and the accused only.
2. At the second meeting the accuser and accused shall endeavour to obtain a mutually satisfactory resolution of the matter.
3. The accuser and accused shall report jointly to the head of the academic or administrative unit on the result of their second meeting.
4. If the report is of a resolution which the head of the academic or administrative unit considers to be fair and equitable the matter shall be considered closed. If the head of the academic or administrative unit considers the reported resolution to be unfair and/or inequitable he or she will endeavour to obtain an alternative satisfactory resolution directly with the parties.
5. Should all reasonable efforts to obtain a mutually satisfactory resolution at the unit level fail, the head of the academic or administrative unit will refer the case to the Dean of the School of Graduate Studies and shall inform the accuser and the accused accordingly. From this stage onward by the **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies** will apply.
6. At any stage of the **Procedures for Resolution of Alleged Academic Offences at the Unit Level**, the student or the accuser may ask that the case be referred to the Dean, and thereafter the **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies** will apply.
7. Should the accused be found guilty, a brief description of the offence and the penalty(ies) applied shall be forwarded by the head of the academic or administrative unit to the School of Graduate Studies.

3.12.5.3 Failure to Appear or Respond

1. If at any stage of the **Procedures for Resolution of Alleged Academic Offences at the Unit Level**, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.
2. If at any stage of the **Procedures for Resolution of Alleged Academic Offences at the Unit Level**, the accuser fails to appear at a scheduled meeting to defend an allegation, without reasonable cause, the action will be dismissed.

3.12.5.4 Penalties in the Case of Resolution at the Unit Level

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining the severity of penalties. The range of penalties and their determination is:

1. **Resubmission** of work with appropriate reduction in grade: will allow a student to complete and submit the work a second time.
2. **Reprimand**: This shall be in the nature of a warning in writing by the head of the academic or administrative unit to the student that his/her conduct has been unacceptable to the University.
3. **Reduction of grade**: A reduction of grade will apply to an examination, test, or assignment to which an offence is relevant, or to the entire course, and will be decided by the head of the academic or administrative unit. Since graduate students must obtain a grade of B or PASS in required courses a reduction of grade could lead to termination of program.

3.12.6 Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies

3.12.6.1 General Procedure

If the matter cannot be resolved following the **Procedures for Resolution of Alleged Academic Offences at the Unit Level**, or if, in the opinion of the head of the academic or administrative unit, the allegation involves a major breach of University regulations, or in cases involving alleged offences on comprehensive examinations, thesis examinations, allegations of impersonation or allegations of submission of forged or falsified documents, the following **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies** shall apply.

3.12.6.2 Explanation of Procedures

1. If the head of the academic or administrative unit (in consultation with the Dean of his or her faculty or school) is satisfied that the student has a serious case to answer, that person shall inform the student in writing of the nature of the case against him or her. In addition, the head of the academic or administrative unit shall report to the Dean of Graduate Studies who will, normally within one week, appoint as an investigator a member of the Academic Misconduct Investigations Board of the School of Graduate Studies (Investigations Board). The investigator will interview separately the accuser and accused and relevant witnesses. At these interviews, the investigator, the accuser, the accused and relevant witnesses all have the right to be accompanied by a registered student or a member of the Faculty or Staff of the University.
2. Upon completion of these interviews, the investigator shall submit a written report of all findings to the Dean of Graduate Studies. The Dean of Graduate Studies shall present this report to both the accuser and accused for perusal and comment. Once in receipt of this report, the accuser and accused shall have two weeks in which to submit to the Dean of Graduate Studies any additional comments on the report that the person wishes to be considered. The investigator will be given the opportunity to correct any errors of fact should they arise from the comments of the accused and accuser prior to consideration of the allegation by the Investigations Board.
3. Upon receipt of all information from the investigator as well as comments from the accuser and accused, the Dean of Graduate

Studies shall present the documents to the Investigations Board for a decision.

4. The investigator for the case shall attend the meetings of the Investigations Board to answer questions and provide information pertinent to the case, but shall be absent from the formal discussion and voting.
5. Once a vote is taken, should the accused be found guilty, the Investigations Board shall take appropriate action in accordance with **Penalties in the Case of Resolution by the School of Graduate Studies**.

3.12.6.3 Failure to Appear or Respond

1. If at any stage of the **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies**, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.
2. If at any stage of the **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies**, the accuser fails to appear at a scheduled interview to defend an allegation, without reasonable cause, the action will normally be dismissed; however, the investigation may proceed at the discretion of the Dean in consultation with the Investigations Board if the allegation or evidence warrants such action.

3.12.7 Penalties in the Case of Resolution by the School of Graduate Studies

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Enforcement of penalties resulting from **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies** will be overseen by the Registrar. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining penalties. Penalties shall be imposed on the basis of the student's status at the time of the offence. The range of penalties and their determination is:

3.12.7.1 Reprimand

This shall be in the nature of a warning in writing by the Investigations Board to the student that his/her conduct has been unacceptable to the University.

3.12.7.2 Reduction of Grade

A reduction of grade will apply to an examination, test, or assignment to which an offence is relevant, or to the entire course, and will be decided by the Investigations Board. Since a passing grade for graduate students is at least a grade of B or Pass, a reduction of grade could lead to termination of program.

3.12.7.3 Change in Outcome of an Examination

This will apply to Comprehensive Examinations and the examination of **Theses and Reports** and could lead to termination of program.

3.12.7.4 Probation

This is a trial period the length of which will be determined by the Investigations Board. The Investigations Board will inform the student that the finding of any further academic offence during the period of probation may lead to suspension or expulsion.

3.12.7.5 Suspension

Suspension will apply to a course, department, faculty, school, or the University. The period of suspension will be determined by the Investigations Board and shall not exceed three consecutive semesters, and shall be part of the allowable time for a graduate program.

3.12.7.6 Expulsion

The recommendation for expulsion from the University will be made by the Investigations Board to the President for his/her final decision. Prior to the President's decision, the Investigations Board will notify the accused, in writing, of the recommendation for expulsion from the University. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the President's final decision concerning expulsion from the University. Any such appeal should be made in writing or email to the Executive Committee of Senate, c/o the Office of the Registrar.

3.12.7.7 Revocation of Degree

The recommendation for revocation of a degree previously awarded by the University will be made by the Investigations Board of the School of Graduate Studies to Senate for a final decision. Prior to Senate's decision, the Investigations Board of the School of Graduate Studies will notify the accused, in writing, of the recommendation for revocation of the degree. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the Senate's final decision concerning the revocation of the degree. Any such appeal should be made in writing to the Executive Committee of Senate, c/o the Office of the Registrar.

In the event that a student has been found guilty of an Academic Dishonesty Offence and when a penalty has been determined, a notation on the student's transcript may be made by the Registrar as provided for in **Transcript Entries** below.

3.12.8 Transcript Entries

Transcript entries shall relate to the penalty(ies) imposed as follows:

Penalty	Transcript Entry
Reprimand	No transcript entry
Reduction of Grade	Entry of final grade for course
Change in Outcome of an Examination	Entry of final outcome for the examination
Probation	"On probation at the University for academic misconduct until Day, Month, Year"
Suspension	"Suspended from the School of Graduate Studies for academic misconduct until Day, Month, Year"
Expulsion	"Expelled from the University for academic misconduct"
Revocation of Degree	"Degree revoked for Academic Dishonesty"
* The transcript entries for 'probation' or 'suspension' will be removed entirely upon the expiration of the penalty.	

3.12.9 Disposition of Documentation

The disposition of documents relating to allegations under these procedures shall be as follows:

1. The cases where the allegation was either found "not proven" or "unfounded" no documentation shall be retained in the student files.
2. In the case of a resolution effected through **Academic Misconduct - General Procedure or Procedures for Resolution of Alleged Academic Offences at the Unit Level**, a brief description of the offence and the penalty(ies) applied shall be forwarded by the head of the academic or administrative unit to and retained by the School of Graduate Studies, separate from the student files.
3. In the case of a resolution effected through the **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies**, all documentation shall be retained in the School of Graduate Studies, separate from the student files.

3.12.10 Right of Appeal

Appeals against decisions of the Investigations Board of the School of Graduate Studies made under **Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies** shall be directed to the Executive Committee of Senate, c/o Office of the Registrar.

3.13 Termination of a Graduate Program

Grounds for termination of a graduate program are as follows:

1. a. Failure to comply with the conditions of admission into a program, unless the conditions of admission have been changed with approval of the academic unit and the School of Graduate Studies;
- b. Failure to register in any semester by the final date for adding courses (see **Registration, Program Registration 1.**);
- c. Failure to obtain the required grades in courses as stated in the appropriate degree regulations (see **Evaluation**);
- d. Failure in comprehensive examinations (see **Comprehensive Examinations**);
- e. Demonstrated lack of progress in a program supported by written documentation;
- f. Recommendation of the Supervisory Committee (see **Supervision**);
- g. Failure of Thesis, Project or Internship (see **Theses and Reports**);
- h. Academic misconduct as outlined under **General Regulations, Academic Behaviour** governing the School of Graduate Studies.
2. The foregoing notwithstanding the University reserves the right to require students to discontinue their program or to deny them admission where, in the opinion of the Academic Council of the School of Graduate Studies, following appropriate professional consultation, there is a reasonable likelihood that a student's health or conduct could result in endangering the lives, health or safety of other persons on campus or in settings related to the student's university studies.
3. The foregoing notwithstanding, the School of Graduate Studies reserves the right to require students to discontinue their studies, or to deny them re-admission, where a student has been determined to have engaged in unprofessional conduct. The code of ethics of each profession will serve as the guideline as to what constitutes unprofessional conduct. However, should there not be any statements of what constitutes unprofessional conduct, the following standard will apply:

Unprofessional Conduct: That conduct which involves a breach of the duties required by professional ethics.

- Notes:
1. If the University or a School or Faculty requires a student to discontinue his/her studies under any of the above clauses, that student must be advised in writing of the nature of the case against him/her and must be advised of the right to appeal before the penalty imposed takes effect.
 2. Appeals against actions taken under Clause 2. should be directed to the Senate of the University. Any such appeal should be made in writing clearly stating the basis for the appeal and should be directed to the Secretary of Senate, c/o the Office of the Registrar.
 3. Appeals against actions taken under Clause 3. should be directed to the Appeals Committee, School of Graduate Studies.

3.14 Provision for Reapplication

1. A student whose program of studies has been terminated for any of the reasons outlined under **Termination of a Graduate Program** may apply for admission to a new program of studies leading to the same degree.
2. Notwithstanding the above, a student whose program of studies has been terminated under **Termination of a Graduate Program, 1.b.**, shall be readmitted to the existing program only under the following conditions:
 - a. on the recommendation of the appropriate academic unit;
 - b. on the payment to the University of those registration fees which would have been payable had the student remained in continuous registration during the period since the termination of the program;
 - c. on the understanding that the time period during which the student was not registered shall be considered as part of the

maximum time permitted for the completion of the degree.

4 Regulations Governing the Degree of Master of Applied Science

The Degree of Master of Applied Science (M.A.Sc.) is a course-based Degree offered in three areas: Computer Engineering, Environmental Systems Engineering and Management, and Oil and Gas Engineering. For information on the research-focused Master of Engineering program, refer to the regulations governing the Degree of Master of Engineering.

4.1 Industrial Internship Option

The Faculty permits graduate students to undertake internships of work in industry. These internships will allow students to either (a) enhance the application of their knowledge and skills within industry, or (b) complete a research project defined by the industry. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.A.Sc. program may, with the permission of their Board of Studies, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies, select the Industrial Internship Option. Students pursuing this option must satisfy the degree regulations for an M.A.Sc. program. In addition, students in the Industrial Internship Option:

1. shall normally complete at least 18 credit hours of the courses required for their program with an average of 75% or higher prior to the internship; the remaining required courses may be taken on campus or by distance
2. shall normally spend at least two continuous semesters on campus on a full-time basis as a graduate student at this University
3. shall normally spend 4 to 8 months of their program at an internship in industry
4. shall submit monthly reports to a university supervisor appointed by their Board of Studies, and shall submit a concise progress report to their Board of Studies no later than the end of each semester while on an internship
5. shall normally not opt out once the internship starts.

Successful completion of an internship will be indicated by a descriptive notation on the student transcript.

4.2 Computer Engineering

4.2.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a course-based program in Computer Engineering leading to the Degree of Master of Applied Science (M.A.Sc.) in Computer Engineering. The program is available only on a full-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

4.2.2 Qualifications for Admission

1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, applicants will have at least a second class engineering degree in computer engineering, computer science or electrical engineering; they will have background in many of the following areas: object-oriented programming, data structures, digital logic, computer organization, circuits and electronics, systems and signals, communications, discrete mathematics, probability and statistics and engineering design.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under **English Proficiency Requirements**.

4.2.3 Degree Requirements

1. The degree program requires the completion of 36 credit hours, 6 of which comprise a project course.
 - a. Students are required to complete 9801, 9859, 9861, 9865, 9867, 9871, 9874 and 9876.
 - b. Three elective courses must be selected; each term the Board of Studies for the program will provide a selection of eligible courses, which may include ENGI 9821, ENGI 9822, ENGI 9868, ENGI 9869, ENGI 9872, ENGI 9875, ENGI 9877, ENGI 9878, ENGI 9879, ENGI 9880/83, ENGI 9888/91, CS 6752, CS 6756, PHYS 6102, and others designated by the Board of Studies for the program.
2. Normally students will take courses as shown in **Table I**. Students wishing to take courses in another sequence must request approval from the Board of Studies for the program.

Table I - M.A.Sc. in Computer Engineering Program

	Preparation	Core	Elective
Year 1 Spring	English		
Year 1 Fall		3	0
Year 1 Winter		2	1
Year 2 Spring		2	1
Year 2 Fall		ENGI 9801	1

4.2.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student, who fails to receive 65% or more in a course, must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

4.2.5 Courses

980A/B Computer Engineering Project
 9802/05 (excluding 9804) Special Topics in Computer Engineering
 9806/09 Special Topics in Communications Engineering
 9821 Digital Signal Processing

9822 Nonlinear Digital Image Processing and Analysis
 9859 Computer Engineering Fundamentals
 9861 High-Performance Computer Architecture
 9865 Advanced Digital Systems
 9867 Advanced Computing Concepts for Engineering
 9868 ASIC Design
 9869 Advanced Concurrent Programming
 9871 Information Theory and Coding
 9872 Digital Communications
 9874 Software Design and Specification
 9875 Embedded and Real-Time Systems Design
 9876 Advanced Data Networks
 9877 Computer and Communications Security
 9878 Wireless and Mobile Communications
 9879 Formal Specification and Development
 9880-83 Special Topics in Computer Engineering
 9888-91 Special Topics in Communications Engineering
 Computer Science 6752 Applications of Computer Graphics
 Computer Science 6756 Digital Image Processing
 Physics 6102 Optics and Photonics

4.3 Environmental Systems Engineering and Management

4.3.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a program in Environmental Systems Engineering and Management (ESEM) leading to the Degree of Master of Applied Science. The program is available on a full-time or part-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

4.3.2 Qualifications for Admission

1. Admission is limited and competitive.
2. To be considered for admission, applicants shall normally hold a minimum second class Bachelor's Degree in engineering preferably in civil, environment, chemical, processing, or petroleum engineering, or in a related discipline from a university of recognized standing.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under **General Regulations, English Proficiency Requirements**.

4.3.3 Degree Requirements

1. The Degree program requires the completion of 30 credit hours.
 - a. 6 credit hours comprising a project course 960A/B.
 - b. 15 credit hours comprised of 9601, 9609, 9626, 9627, and 9628.
 - c. 9 credit hours (three courses) to be selected from 9603, 9605, 9610-9615, 9621, 9622, 9624, 9625, 9629, 9630, ENVE/ENVS 6001, ENVE/ENVS 6002, ENVE/ENVS 6003, and Geography 6250

4.3.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course, must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

4.3.5 Courses

960A Environmental Engineering Project (0 credit hours)
 960B Environmental Engineering Project (6 credit hours)
 9601 Environmental Pollution and Mitigation (cross-listed as ENVS 6004)
 9603 Environmental Sampling and Pollutant Analysis (cross-listed as ENVS 6005)
 9605 Water and Wastewater Treatment
 9609 Environmental Risk Assessment (cross-listed as ENVS 6007)
 9610-9615 Special Topics in Environmental Science and Engineering
 9621 Soil Remediation Engineering
 9622 Environmental Statistics
 9624 Air Pollution (cross-listed as ENVS 6008)
 9625 Environmental Impacts of Offshore Oil and Gas Operations
 9626 Environmental Management System
 9627 Environmental Systems Engineering
 9628 Environmental Laboratory
 9629 Environmental Policy and Regulations
 9630 Pollution Prevention
 ENVE/ENVS 6001 Earth and Ocean Systems
 ENVE/ENVS 6002 Environmental Chemistry and Toxicology
 ENVE/ENVS 6003 Applied Ecology
 Geography 6250 Conservation of Natural Resources

4.4 Oil and Gas Engineering

4.4.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a program in Oil and Gas Engineering leading to the degree of Master of Applied Science in Oil and Gas Engineering (M.A.Sc.(OGE)). The program is available on a full-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

4.4.2 Qualifications for Admission

1. Admission is limited and competitive.
2. To be considered for admission, applicants shall normally hold a minimum second class Bachelor's Degree in engineering preferably in mechanical, chemical/process, civil, environmental, mining/mineral, or petroleum engineering, or in a related discipline from a university of recognized standing.
3. To be eligible for consideration for admission applicants will meet the English Proficiency Requirements described under **General Regulations, English Proficiency Requirements**.

4.4.3 Degree Requirements

1. The degree program requires the completion of 30 credit hours.
 - a. 6 credit hours comprising a project course Engineering 910A/910B.
 - b. 15 credit hours by completing Engineering 9110, 9113, 9114, 9118 and 9121.
 - c. 9 credit hours (three courses) to be selected from Engineering 9002, 9015, 9111, 9112, 9116, 9117, 9119, 9120, 9420, 9609, 9624, 9625, 9901, 9902, 9989. Engineering 9117 is a recommended elective course for students without adequate background in petroleum engineering.

4.4.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

4.4.5 Courses

9002 Ocean Engineering Structures
 9015 Ocean Engineering Hydrodynamics
 910A OGE Project Course (0 credit hours)
 910B OGE Project Course (6 credit hours)
 9110 Advanced Petroleum Production Engineering
 9111 Well Testing
 9112 Multiphase Flow
 9113 Phase Behaviour of Petroleum Reservoir Fluids
 9114 Advanced Reservoir Engineering
 9116 Reliability Engineering
 9117 Offshore Petroleum Geology and Technology
 9118 Advanced Drilling Engineering
 9119 Compact Process Equipment Design
 9120 Advanced Natural Gas Engineering
 9121 Advanced Safety, Risk and Reliability Modeling
 9420 Engineering Analysis
 9609 Environmental Risk Assessment
 9624 Air Pollution
 9625 Environmental Impacts of Offshore Oil and Gas Operations
 9901 Fundamentals of Fluid Dynamics
 9902 Advanced Transport Phenomena
 9989 Special Topics Course - Corrosion Principles, Prevention and Control

5 Regulations Governing the Degree of Master of Applied Social Psychology (Co-operative)

This program is designed to meet the needs of both students and employers. Students will gain the skills and knowledge necessary to ask appropriate questions and conduct research in a variety of applied settings (e.g., business, government, health care, etc.). Students completing the program will be qualified for either immediate employment or further education. Students' and employers' needs will be met by a program that combines training in basic scientific methods and social psychological theory with practical experience in a variety of work settings. The training in methods and theory will be provided by the academic component of the program and the practical experience will be provided by the cooperative, work term component.

5.1 Qualifications for Admission

1. Admission to the program is competitive and selective. To be considered for admission to the Master of Applied Social Psychology (Cooperative) an applicant shall normally hold at least a high second class Honours degree or its equivalent, both in achievement and depth of study, from an institution recognized by the Senate.
2. Applications
 - a. All applicants are required to submit results from the General section of the Graduate Record Examinations.
 - b. Applicants are required to submit with their applications an example of their academic writing. This could include, but is not limited to, papers submitted in class, honour's thesis, etc.

- c. At least one letter of reference should come from someone who is familiar with the applicant's research capability.
3. Election will be based on an applicant's overall academic performance, scores on the Graduate Record Examination and letters of reference.
4. Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Psychology which will include a proposed program of study and a proposed Supervisor.

5.2 Program of Study

1. Students should note that it is possible to enter Academic Term 1 only in the Fall semester commencing in September of each year.
2. Every candidate shall complete four Academic Terms in the Cooperative Program and shall normally be required to complete two Work Terms.
3. Courses shall be taken in Academic Terms of "blocks" in the sequence, order, and course load as follows:
Fall: 6000, 6400, **Winter:** 6001, 6401, **Spring:** Work term 1, **Fall:** 6402, 6403, **Winter:** Work term 2, **Spring:** 6404

5.3 Evaluation and Advancement

1. In order to continue in good standing in the program and in order to qualify for the Master's Degree, a candidate shall obtain a grade of A or B for program courses, and complete two Work Terms.
2. The dates for starting and finishing each Work Term are shown in the **University Diary**. Successful completion of the Work Term requirements is a prerequisite to graduation.
3. A competition for Work Term employment is organized by the Division of Co-operative Education. Students may also obtain their own Work Term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Head of Psychology and by the Division of Co-operative Education on or before the first day of the Work Term.
 Work Term jobs may be outside St. John's and possibly outside Newfoundland and Labrador. Students who do not wish to accept a Work Term job arranged by Division of Co-operative Education shall be responsible for finding an alternative acceptable to the Head of Psychology and the Division of Co-operative Education.
 By entering the competition, students give permission for the Division of Co-operative Education to supply their University transcripts to potential employers.
4. The overall evaluation of the Work Term is the responsibility of the Division of Co-operative Education. The Work Term evaluation shall consist of two components:
 - a. **On-the-job Student Performance:**
 Job performance shall be assessed by a co-ordinator using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought.
 - b. **The Work Report:**
 - i. Work term reports shall be evaluated by a member of the Division of Co-operative Education or a member of faculty in the Department of Psychology. If an employer designates a report to be of a confidential nature, both employer and co-ordinator must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
 - ii. Reports must be prepared according to American Psychological Association specifications and contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. For promotion from the Work Term, a student must obtain at least 65% in each component.
5. If a student fails to achieve the Work Term standards specified above the student will be required to withdraw from the program. Such a student may reapply to the program after lapse of two semesters, at which time the student will be required to complete a further Work Term with satisfactory performance before being admitted to any further academic term in the Faculty. A Work Term may be repeated once.
6. Students are not permitted to drop Work Terms without prior approval of the Graduate Studies Committee of the Department of Psychology, upon the recommendation of the Division of Co-operative Education. The Graduate Studies Committee will make a recommendation to the Head of Department who will make the final decision. Students who drop a Work Term without permission, or who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the job, will normally be awarded a failed grade for the Work Term. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.

5.4 Courses

6000 Advanced Statistics in Psychology
 6001 Research Design
 601W Work Term 1
 602W Work Term 2
 6400 Theory and Methods in Social Psychology
 6401 Social Cognition
 6402 Group Processes
 6403 Program Evaluation and Applied Research
 6404 Project in Applied Social Psychology

6 Regulations Governing the Degree of Master of Applied Statistics

The Degree of Master of Applied Statistics (M.A.S.) is a highly structured program incorporating 18 credit hours in program courses and a practicum in applied statistics. The Degree is offered in the Department of Mathematics and Statistics by full-time or part-time study.

6.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission to the Master of Applied Statistics program, an applicant shall normally hold at least a high second class Honours Degree or its equivalent, both in achievement and depth of study, from an institution recognized by the Senate.
2. In addition, an applicant shall normally have completed undergraduate courses in statistics which cover the material of Statistics 3521, 3530, 4410, 4520, 4560, 4561, 4590, 4591. If necessary, an applicant may be required to demonstrate a satisfactory

knowledge of the above courses in an examination administered by the Department of Mathematics and Statistics.

- Applicants who do not meet these requirements should consult the Department of Mathematics and Statistics about a program of further undergraduate courses. Such a program is intended to provide the candidate with an adequate statistical background. Such courses may not be used to fulfill the program course requirements of the Master of Applied Statistics Degree.
- Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Mathematics and Statistics along with a proposed program of study and a proposed Supervisor.

6.2 Program of Study

The minimum requirements for the Degree of Master of Applied Statistics are completion of the following:

- The following three courses: STAT 6510, STAT 6560 and STAT 6590.
- Nine additional credit hours selected from STAT 6500-6589.
- At least one non-credit Seminar Series in Statistics or an additional 3 credit hour graduate course.
- A practicum: An applied statistics project and an associated report. The report must demonstrate a satisfactory general mastery of statistical knowledge.

6.3 Evaluation

- In order to continue in graduate studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B for program courses and complete successfully the practicum requirement.
- STAT 6590 will be evaluated by the course co-ordinator in consultation with associated statistical consultants.
- Evaluation of the practicum shall be carried out in accordance with **Theses and Reports** of the **General Regulations** governing all students in the School of Graduate Studies.

Note: Every candidate in graduate studies shall comply with the **General Regulations**, the **Degree Regulations** and any additional requirements of the Department of Mathematics and Statistics.

6.4 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

Applied Statistics

6500 Probability (*credit restricted with former 6586*)
 6503 Stochastic Processes
 6505 Survival Analysis
 6510 Mathematical Statistics
 6520 Linear Models
 6530 Generalized Linear Longitudinal Mixed Models
 6540 Time Series Analysis
 6545 Statistical Computing
 6550 Nonparametric Statistics
 6560 Continuous Multivariate Analysis
 6561 Categorical Data Analysis
 6563 Sampling Theory
 6570-6589 Selected Topics in Statistics and Probability (excluding 6586)
 6590 A Course in Statistical Consulting

7 Regulations Governing the Degree of Master of Arts

Professor and Dean of Arts

L. Phillips

Associate Professor and Associate Dean (Graduate and Research)

C. Dyck

The Degree of Master of Arts (M.A.) is offered in Anthropology, Archaeology, Classics, Economics, English Language and Literature, Environmental Policy, Ethnomusicology, Folklore, French Studies, Geography, German Language and Literature, History, Linguistics, Philosophy, Political Science, Religious Studies and Sociology.

Applicants are advised to consult, in addition to the regulations governing the Degree of Master of Arts, both the **General Regulations** and the particular regulations of the appropriate Departments.

7.1 Qualifications for Admission

- Admission is limited and competitive. To be considered for admission an applicant shall hold a Bachelor's Degree or its equivalent from an institution recognized by the Senate and shall have a knowledge of the proposed field of specialization satisfactory to the Department concerned (or Departments, when interdisciplinary study is intended) and to the Dean.
- Preference will normally be given to applicants who hold an appropriate Honours Degree, either from Memorial University of Newfoundland, or from another university whose Honours Degree is of comparable standing. Any other applicant who holds a Bachelor's Degree or its equivalent will be considered for admission provided that:
 - the applicant's undergraduate record after the first year shows an average of at least grade B in courses in the proposed field of specialization.
 - the applicant's overall undergraduate record after the first year shows an average of at least grade B in all courses taken, and
 - the Department concerned satisfies the Dean that the applicant's work exhibits evidence of academic excellence.

Only in exceptional circumstances, and only on the recommendation of the Department concerned, will the Dean consider applicants who do not meet the requirements in a. and b. Such applicants, however, must meet the requirements in c.

- An applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the Department or Departments.

4. In most cases instruction is in English, and examinations and theses are to be written in English. (Language Departments, however, give instruction in the pertinent language and often require examinations and theses to be written in the language. In addition, other Departments may permit or even require examinations and/or theses to be written in a language other than English.)

7.2 Program of Study and Research

1. The program of study for the Master of Arts Degree shall consist of the successful completion of a program of courses and, in accordance with Departmental regulations, either of a thesis embodying systematic research or of a Comprehensive Examination.
For programs requiring 24 credit hours or more, the academic unit may choose not to require a thesis or comprehensive examination.
2. Every candidate shall read at least 12 credit hours in program courses at the graduate level in one subject or in closely related subjects. Departmental regulations may require more courses than the minimum and this higher number is listed where applicable in the regulations of the Department.
3. Students may, with the approval of the Dean, augment their program with a limited number of other courses of their choice. Passing grades are not required in these non-program courses in order to continue in graduate studies or obtain a Master's Degree.
However, the final grades in these courses will be recorded on the student's transcripts. The grading system in non-program courses shall be that appropriate to the particular course.
4. Candidates submitting a thesis on an approved topic shall conduct systematic research under the direction of a Supervisor recommended by the appropriate Department or Departments and approved by the Dean. The candidate may be required to take an oral examination.
5. Changes in either the program of courses or the topic of the thesis require the approval of the Dean.
6. On the recommendation of the Head of the Department, the Dean may waive, in part, the course requirements for a Master's Degree.
7. Application for transfer from the Master of Arts to the Master of Philosophy is to be made to the Dean before the end of the second semester in the case of full-time students, and in the case of part-time students before 18 graduate credit hours have been completed.
8. The Dean may approve an application to transfer from the M.A. to the M.Phil. only when a new integrated program, acceptable to the Dean, is submitted.

7.3 Evaluation

1. In order to continue in the School of Graduate Studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each regulation course. Some candidates may be required to read a specified number of additional graduate or undergraduate courses for which a passing grade must be achieved.
2. Students registered for credit shall write their examinations in their graduate courses at a time to be determined by the Dean on the recommendation of the Department.
3. Students registered in undergraduate courses shall satisfy examination requirements in these courses.
4. When, on a basis of consultation with the candidate, the instructors in graduate courses, and the thesis Supervisor, the Head of a Department has determined that the candidate's work has fallen below a satisfactory level, the Head may recommend to the Dean that the candidate be required to withdraw from the program.

7.4 Thesis or Report

See **General Regulation, Theses and Reports.**

7.5 Anthropology

Associate Professor and Head of the Department

M. Tate

The Degree of Master of Arts (M.A.) is offered in Anthropology by either full-time or part-time study.

1. Candidates will specialize in social and cultural anthropology.
2. When candidates are accepted into the program, they will be assigned one or more Supervisors. Candidates' programs shall be the responsibility of their Supervisor(s), the graduate co-ordinator(s), and the Head of the Department.
3. If candidates' records suggest a deficiency in some areas(s), the Department reserves the right to require that they complete additional undergraduate courses before beginning program courses.
4. Candidates may choose between a thesis and a non-thesis option.

7.5.1 M.A. With Thesis

1. Normally, the M.A. program should take two academic years to complete, of which the first year will be spent in (a) completing course work, (b) writing and orally defending a thesis proposal before members of the faculty, and (c) beginning to carry out research. The second academic year will be spent in (d) completing research, (e) presenting an oral research report to the Department, and (f) completing a thesis.
2. Candidates for the Degree of a Master of Arts in Anthropology will be required to complete not fewer than 12 credit hours, nor more than 18 credit hours of courses at the graduate level.
3. Most Department graduate courses are taught in either a seminar or tutorial framework; all courses require intensive reading, regular oral communication of ideas to faculty and other students, and preparation of written research papers and other assignments.
4. Normally, during the second semester of the first year of study in the program, a written thesis proposal which has been approved by the student's Supervisor(s) will be circulated to all members of the Department. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student's oral presentation and defence of the proposal.
5. Shortly following the completion of their research, candidates will be required to present an oral research report on their findings to the Department.
6. A final draft of the thesis will be evaluated in accordance with the requirements of the School of Graduate Studies.

7.5.2 M.A. Without Thesis

Normally, the M.A. program without thesis should take one academic year to complete. Candidates who choose to do the M.A. without thesis must normally complete 24 credit hours in graduate program courses; 15 of which will normally be from ANTH 6440, ANTH 6890 and ANTH 6300. Nine additional credit hours are to be selected from the graduate courses offered by the Department.

Note: ANTH 6440 will be worth 9 credit hours. This course will normally be based on secondary literature and will be supervised by a faculty member.

7.5.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6010 Cultural Ecology
 6071 Health and Illness: Cultural Contexts and Constructions
 6081 Anthropology of Gender
 6089 Anthropology of Underclass Life
 6100 Social Organization
 6110 Culture and Personality
 6140 The Community
 6210 Language and Culture
 6240 Atlantic Regional Studies
 6260 Social and Economic Development
 6280 Newfoundland Ethnography
 6281 Labrador Ethnography
 6282 Ethnography of a Single Region
 6300 Fieldwork and Interpretation of Culture
 6400 Current Themes in Cultural Anthropology
 6410 History of Anthropology
 6412 Anthropological Theory
 6413 Applied Anthropology
 6430 Audiovisual Anthropology
 6440 Master's Research Paper (9 credit hours)
 6580-6599 Special Areas in Anthropology
 6600 Contemporary Debates in Anthropology
 6890 Graduate Seminar

7.6 Archaeology

Professor and Interim Head of the Department

S. Brown

7.6.1 Program of Study

The Degree of Master of Arts is offered in Archaeology by either full-time or part-time study.

1. Candidates may specialize in either archaeology or bioarchaeology.
2. The choice of specialty will govern the selection of Supervisor(s), courses, and thesis or research paper topics. When candidates are accepted into the program, they will be assigned one or more Supervisors. Candidates' programs shall be the responsibility of their Supervisor(s), the graduate co-ordinator, and the Head of the Department.
3. If candidates' records suggest a deficiency in some areas(s), the Department reserves the right to require that they complete additional undergraduate courses before beginning program courses.
4. Normally, the M.A. program should take six academic semesters to complete, of which the first three semesters will be spent in (a) completing course work, (b) writing and orally defending a thesis proposal before members of the faculty, and (c) beginning to carry out research. The following semesters will be spent in (d) completing research, (e) presenting an oral research report to the Department, and (f) completing a thesis.
5. Candidates for the Degree of a Master of Arts in Archaeology will be required to complete not fewer than 12 credit hours, nor more than 18 credit hours of courses at the graduate level.
6. Most Department graduate courses are taught in either a seminar or tutorial framework; all courses require intensive reading, regular oral communication of ideas to faculty and other students, and preparation of written research papers and other assignments.
7. Normally, during the second semester of the first year of study in the program, a written thesis proposal which has been approved by the student's Supervisor(s) will be circulated to all members of the Department. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student's oral presentation and defence of the proposal.
8. Shortly following the completion of their research, candidates will be required to present an oral research report on their findings to the Department.
9. A final draft of the thesis will be evaluated in accordance with the requirements of the School of Graduate Studies.

7.6.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6020 Bioarchaeology
 6040 Human Osteology
 6095 Advanced Studies in Ethnohistory (same as History 6095)
 6151 Palaeoethnobotany
 6181 Palaeoeskimo Cultures of the Eastern Arctic
 6182 Advances in Material Culture Analysis
 6187 Readings in Maritime Provinces Prehistory
 6189 Palaeopathology
 6191 Approaches to Early Modern Material Culture

6192 Conservation Method and Theory
 6290 Newfoundland and Labrador Prehistory
 6310 Economic Analyses in Archaeology
 6320 Ethnoarchaeology
 6330 Archaeological Field Conservation
 6409 History of Archaeology
 6411 Theory and Method in the Study of Archaeology and Prehistory
 6500 Special Topics in Historical Archaeology (Prerequisite 6191)
 6680-6699 Special Topics in Archaeology and Prehistory
 6700 Interpretative Methods in Archaeology
 6701 Interpretative Methods in Historical Archaeology
 6890 Graduate Seminar

7.7 Classics

Associate Professor and Head of the Department

T.J. Allen

7.7.1 Program of Study

The Department of Classics offers an M.A. in Classics, with an emphasis on classical texts and research methods, which suitably prepared students may complete in 1 year of full-time study, normally beginning in September.

1. Applicants should have an Honours Degree in Classics or a related field, including at least two years study in both Greek and Latin. Students expecting to complete the M.A. Degree within 12 months must have at least 24 undergraduate credit hours in one language (Greek or Latin) and 18 undergraduate credit hours in the other. Other applicants may be required to take 3 or more credit hours at the undergraduate level, in addition to their graduate course work.
2. Students will complete 18 credit hours in courses at the 6000 level (including 6100 and 6101) plus any additional courses the Department may deem necessary. The required courses 6100 and 6101 involve the intensive reading of ancient texts and also introduce students systematically to the most important research methods in Classics, including palaeography, textual criticism, bibliography, and historiography. Texts and methods chosen may vary according to the availability of instructors.
3. Students are also required to complete one of the following:
 - a. **Research Essay**
 Students will complete a research essay (approximately 15,000 words), normally in the third semester of their program of study. The essay will be graded by two members of faculty and will be assigned a PASS/FAIL grade.
 - b. **Translation Examination**
 Students will be required to pass two exams based on a reading list of Greek and Roman authors. One exam will be on Greek authors and one on Latin authors. The exams test students' ability to translate from Greek and Latin texts into English and will also require some commentary on the set texts. Students are expected to write these exams in the third semester of their program of study. The exam will be graded by two members of faculty and will be assigned a PASS/FAIL grade.
4. Students are required to complete an examination testing their competence in German, Italian or French, as early as possible in their program of study. This examination will be assigned a PASS/FAIL grade. (See **Evaluation, Evaluation of Graduate Students**, 4.)

7.7.2 Courses

6010 Greek Literature: Prose
 6020 Latin Literature: Prose
 6030 Greek Literature: Poetry
 6040 Latin Literature: Poetry
 6050 Greek History
 6060 Roman History
 6080 Ancient Philosophical Authors
 6100 Greek Literature/Research Methods
 6101 Latin Literature/Research Methods

Note: *The prerequisite of all 6000-level courses is at least three courses numbered 3000 and above (or equivalent) in the appropriate language.*

7.8 Economics

Professor and Interim Head of the Department

E.Y. Tsoa

The Degree of Master of Arts is offered in Economics. The focus of the program is applied economics. The non-thesis option is designed so that suitably qualified full-time students can complete it in one year. The thesis option normally takes more than one year.

7.8.1 Qualifications for Admission

To be considered for admission, an applicant must normally have completed an undergraduate Degree in Economics at a Canadian university with at least second-class Honours standing, or its equivalent. Satisfaction of this criterion does not guarantee admission and, if admitted, students may be required to complete specified undergraduate courses as deemed necessary by the Department.

7.8.2 Programs of Study

1. Non-Thesis Option

- a. The program of study requires, in addition to any specified undergraduate courses, completion of 26 credit hours in graduate Economics courses, including a master's essay course. The maximum time normally permitted for students to satisfy these requirements is three years.
- b. The 26 credit hours in graduate courses consist of the following:
 - i. 11 credit hours in core courses, which shall normally be completed in the first term of the program: Economics 6000, 6001, 6002, and 6009;

- ii. 12 credit hours in other courses selected from those offered by the Department;
 - iii. Masters Essay course: Economics 6999. Normally, all other required graduate courses must be completed before the essay.
 - c. The master's essay, Economics 6999, must be in the area relating to the courses taken by the student. Students will be assigned a Supervisor, who will approve the topic; the essay will be graded by the Supervisor and one other member of the Department. The essay must be completed during the semester in which the student is registered in Economics 6999. During that time, students may be required to give a Departmental seminar on their essays.
- 2. Thesis Option**
- a. The thesis option consists of 20 credit hours and a thesis. The thesis will consist of a comprehensive study in the area of the student's field courses. The thesis must embody systematic research and demonstrate a mastery of economic principles and their application. Thesis work will be completed under a Supervisor from the Department.
 - b. The thesis must normally be completed within the two years following completion of 20 required credit hours, which must include Economics 6000, 6001, 6002 and 6009.
 - c. The thesis will normally be evaluated internally and in accordance with the requirements of the School of Graduate Studies.

7.8.3 Courses

The following courses will be offered to meet the requirements of candidates, as far as resources of the Department will allow.

Core Courses

6000 Advanced Micro-economic Theory
 6001 Advanced Macro-economic Theory
 6002 Econometrics
 6009 Graduate Seminar (2 credit hours)

Elective Courses

6010 Taxation
 6011 Expenditure
 6012 Cost-benefit Analysis
 6013 Fiscal Federalism
 6014 Topics in Public Sector Economics
 6020 Economics of Nonrenewable Natural Resources
 6021 Economics of Renewable Natural Resources
 6022 Environmental Economics
 6023 Advanced Fisheries Economics
 6024 Topics in Resource Economics
 6040 Industrial Economics

Master's Essay Course

6999 Master's Essay

Note: Additional courses may be arranged, so far as the exigencies of the Department allow, to meet the particular needs of candidates.

7.9 English Language and Literature

Associate Professor and Head of the Department

D. Walsh

The degrees of Master of Arts and Doctor of Philosophy are offered in English Language and Literature.

Candidates for the M.A. in English may complete the program as either part-time or full-time students. Candidates for the Ph.D. in English must be in attendance as full-time students for at least three semesters of the program.

7.9.1 Admission

1. Admission to the M.A. in English is limited and competitive. Applicants should have an Honours B.A. in English (or the equivalent, 60 credit hours in English with an appropriate range of courses) and a strong academic record.
2. Strong candidates who have come close to achieving Honours equivalency may be admitted on the condition that they complete such undergraduate courses as the Department may deem necessary, in addition to the required graduate courses.
3. Candidates who have not completed English 4900 or an equivalent course will be required to complete English 5900 which will not count as one of the required courses for the M.A. The course will be graded 'pass' or 'fail'. As in other graduate courses a grade of 65 or above is considered a pass.

7.9.2 Program of Study

1. Thesis Option

- a. Candidates completing the M.A. with thesis will complete a minimum of 15 credit hours in graduate courses, which will normally include English 7003, and a thesis.
- b. Candidates must submit a thesis proposal which includes a statement of topic, a working title, a plan of research, and a preliminary bibliography. The proposal should be approved by the Supervisor or Supervisors and submitted to the Departmental Graduate Studies Committee for its approval by the end of the candidate's third semester. The Departmental Graduate Studies Committee shall return the thesis proposal to the candidate no later than one month after receiving it.
- c. Full-time students who choose the thesis option will usually complete their degree in two years.

2. Non-Thesis Option

- a. Candidates completing the M.A. without thesis will complete a minimum of 24 credit hours in graduate courses, which will normally include English 7003.
- b. Full-time students who choose the non-thesis option will usually complete their degree in one year.

7.9.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- Notes: 1. *Since it is impossible to list in detail the many topics that may from time to time be offered, the titles below refer only to the major periods and general subject areas in which specific courses may be available. The content and approach in specific courses will vary according to the research interests of students and faculty involved in the course. Students should consult the Department's annual Graduate Student Guide (or the Graduate Co-ordinator) for detailed descriptions of specific course offerings. Normally, no fewer than ten graduate courses are offered in any given academic year.*
2. *English 5900 cannot be counted as one of the required graduate courses in any program.*
3. *All students will normally take English 7003 - Trends in Contemporary Literary Theory, usually in their first semester.*
4. *Students who took graduate courses in English at Memorial University of Newfoundland before 1997 should consult with the Department before selecting further courses.*

5900 Bibliography and Research Methods
 6403 Etymology (same as Linguistics 6403)
 6420 English Dialectology I
 6421 English Dialectology II
 6999 Master's Essay (for non-thesis students)
 7003 Trends in Contemporary Critical Theory
 7004 English Phonology and Morphology
 7005 The Syntactic Structure of English
 7020-25 Special Topics in English
 7032 Studies in Old English I
 7033 Studies in Old English II
 7034 Studies in Middle English I
 7035 Studies in Middle English II
 7036 Studies in Middle English III
 7037 Studies in 16th-Century Literature I
 7038 Studies in 16th-Century Literature II
 7039 Studies in 16th-Century Literature III
 7040 Studies in 16th-Century Literature IV
 7041 Studies in 17th-Century British Literature I
 7042 Studies in 17th-Century British Literature II
 7043 Studies in 17th-Century British Literature III
 7044 Studies in 17th-Century British Literature IV
 7045 Studies in 18th-Century British Literature I
 7046 Studies in 18th-Century British Literature II
 7047 Studies in 18th-Century British Literature III
 7048 Studies in 18th-Century British Literature IV
 7049 Studies in 19th-Century British Literature I
 7050 Studies in 19th-Century British Literature II
 7051 Studies in 19th-Century British Literature III
 7052 Studies in 19th-Century British Literature IV
 7053 Studies in 20th-Century British Literature I
 7054 Studies in 20th-Century British Literature II
 7055 Studies in 20th-Century British Literature III
 7056 Studies in 20th-Century British Literature IV
 7057 Studies in Pre-19th Century American Literature
 7058 Studies in 19th Century American Literature I
 7059 Studies in 19th-Century American Literature II
 7060 Studies in 19th-Century American Literature III
 7061 Studies in 20th-Century American Literature I
 7062 Studies in 20th-Century American Literature II
 7063 Studies in 20th-Century American Literature III
 7064 Studies in 20th-Century American Literature IV
 7065 Studies in Pre-19th Century Canadian Literature
 7066 Studies in 19th-Century Canadian Literature I
 7067 Studies in 19th-Century Canadian Literature II
 7068 Studies in 19th-Century Canadian Literature III
 7069 Studies in 20th-Century Canadian Literature I
 7070 Studies in 20th-Century Canadian Literature II
 7071 Studies in 20th-Century Canadian Literature III
 7072 Studies in 20th-Century Canadian Literature IV
 7073 Studies in Newfoundland Literature I
 7074 Studies in Newfoundland Literature II
 7075 Studies in Newfoundland Literature III
 7076 Studies in Anglo-Irish Literature I
 7077 Studies in Anglo-Irish Literature II
 7078 Studies in Modern Drama
 7079 Studies in Post-Colonial Literature I
 7080 Studies in Post-Colonial Literature II
 7081 Studies in Post-Colonial Literature III
 7082 Studies in Critical Theory I
 7083 Studies in Critical Theory II
 7084 Studies in Critical Theory III
 7085 Special Readings in English I
 7086 Special Readings in English II
 7087 Special Readings in English III

7.10 Environmental Policy

The M.A. in Environmental Policy is a rigorous, interdisciplinary study of environmental policy in terms of its theory, application, methodology and approaches with reference to central contemporary debates. It is also an applied program that equips students with practical skills in the field making links to the labour market through a required internship program.

The M.A. in Environmental Policy is offered by full-time study or part-time study and by completion of either a thesis or research paper. The **Thesis Option** involves completion of 15 credit hours of course work, an internship and a thesis, and is normally completed in two

academic years of full-time study and in three academic years of part-time study. The **Research Paper Option** involves completion of 18 credit hours of course work, an internship and a research paper, and is normally completed in one academic year of full-time study and up to three academic years of part-time study.

The following regulations must be read in conjunction with the **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland.

7.10.1 Administration

1. The program shall be administered by a Graduate Officer, who reports to the Dean of Graduate Studies. The Graduate Officer shall be appointed by the Dean of Graduate Studies on the recommendation of the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus. In making this recommendation, the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus may consult with the environmental policy community both within and outside the University.
2. An Executive Committee consisting of the Graduate Officer and the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus will be established to review administrative, resource and strategic planning issues related to the program. This committee shall be chaired by the Dean of Graduate Studies.
3. The Graduate Officer shall consult with the Graduate Committee in Environmental Policy (GCEP) for the purposes of administering the academic elements of the program. The GCEP shall normally consist of seven members appointed by the Dean of Graduate Studies on the recommendation of the Graduate Officer. The GCEP will include the Graduate Officer, who shall chair the committee, approximately four faculty members from the Division of Social Science, Grenfell Campus who teach core courses, the Head of Social Science, Grenfell Campus and one student representative, Grenfell Campus.
4. An Advisory Board in Environmental Policy (ABEP) shall be established for the purposes of consulting with and obtaining feedback from the environmental policy community. The ABEP will consist of a broad cross-section of members from the environmental policy community both within and outside the University who shall be appointed by the Dean of Graduate Studies on the recommendation of the Graduate Officer.

7.10.2 Qualifications for Admission

1. Admission is limited and competitive.
2. To be considered for admission, applicants shall have an undergraduate degree, with a minimum B standing, from an institution recognized by Senate.
3. In exceptional cases, applicants who have not completed an undergraduate degree may be considered for admission. Preference will be given to those who have a minimum of 10 years of full-time professional experience, including demonstrated success in environmental policy, and who have successfully completed substantial university course work including several courses at an advanced undergraduate level from an institution recognized by Senate. Applicants without an undergraduate degree must have completed one or more undergraduate courses in public policy, public administration or political science and one or more undergraduate courses in geography, biology or chemistry from an institution recognized by Senate, with a minimum B standing in each course. Applicants may also be required to successfully complete the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) with an acceptable score and/or additional undergraduate courses before being considered for admission.
4. To be eligible for consideration for admission, applicants shall meet the English Proficiency Requirements described under **General Regulation - Qualifications for Admission, English Proficiency Requirements**.
5. Applicants will be assessed for admission to the M.A. in Environmental Policy based on their interests, their potential to produce meaningful research in the field of environmental policy and the availability of supervisors in the area of the applicant's interest.
6. Interdisciplinary study in the program is encouraged by the University. Applicants with an interdisciplinary background or whose background combines two or more fields of study (e.g., political science, public policy, environmental studies, geography, resource management, environmental science, public administration) would be an excellent fit for this program.

7.10.3 Deadlines for Applications

1. Applicants seeking full-time enrollment will normally only be admitted to the program in the Fall (September) semester.
2. Applications must be postmarked no later than February 15 for applicants wishing to enter full-time or part-time studies in the Fall (September) semester.
3. Applications must be postmarked no later than August 15 for applicants wishing to enter part-time studies in the Winter (January) semester.
4. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

7.10.4 Procedure for Admission

1. Applications for admission to the M.A. in Environmental Policy program must be made on the appropriate form and submitted to the School of Graduate Studies.
2. The following documents must be submitted in support of the official application form:
 - a. Letter of appraisal from three referees, at least one of whom is capable of appraising the applicant's academic potential as a graduate student, and at least one of whom is capable of appraising the applicant's professional experience and/or actual or likely success in a career in environmental policy.
 - b. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.
 - c. All applicants must submit a one page statement outlining their research interests and are strongly encouraged to identify a supervisor.
 - d. Application files are normally evaluated after the deadline dates for application noted above and only when all required documentation has been received.
 - e. Admission shall be by the Dean of Graduate Studies on the recommendation of the GCEP. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.A. in Environmental Policy program, applicants must give written notice to the School of Graduate Studies of their intention to register.

7.10.5 Program of Study

1. **Thesis Option:** Students in the thesis-based program must complete 15 credit hours in graduate program as specified in **Table I**, an internship (ENVP 6030) and a thesis. There are four required courses (representing 12 credit hours) as specified in **Table II**. One elective, representing 3 credit hours, related to the student's research specialty is to be completed and may be chosen from **Table III** in consultation with the student's thesis supervisor.
2. **Research Paper Option:** Students in the research paper-based program must successfully complete 18 credit hours in graduate program courses as specified in **Table I**, an internship (ENVP 6030) and a Research Paper (ENVP 6999). There are four required courses (representing 12 credit hours) as specified in **Table II**. Two electives, representing 6 credit hours, are to be completed, of which at least one is to be from **Table II**. The second elective, related to the student's research specialty, may be chosen from **Table II or Table III** in consultation with the student's research paper supervisor.
3. Further courses beyond the minimum number may be required, depending on the background and needs of the student.
4. Students are responsible for fulfilling all pre-requisites.
5. All students are required to attend two Workshops:
 - a. **Policy and Science Orientation Workshop**
This workshop is held the first week of September each year. Its intent is to provide students with a limited policy or biophysical background with conceptual tools to frame each discipline in order to orient students to the program. The workshop is team-taught and is three full days in length.
 - b. **Pre-Internship Workshop**
This two day workshop reviews the internship requirements, aids students in writing resumes and cover letters, discusses interviewing practices and examines student/employer relationships. It is held during the first week after classes end in December of each year.
6. **Internship Requirements**
 - a. All students are required to complete an environmental policy internship (ENVP 6030) with a relevant government office, non-governmental organization, community group or business. Internships are normally selected from a list of approved organizations that is maintained by the Internship Officer and Graduate Officer. Internship placements may be outside the Corner Brook area and possibly outside Newfoundland and Labrador. Final decisions for internship placements rest with the Graduate Officer in consultation with the Internship Officer.
 - b. Internships are usually completed in the Spring semester of each year.
 - c. Internships are for full-time employment hours for the duration of the semester (12 weeks). Part-time internships over longer periods may be considered and will require approval from the Internship Officer and the Graduate Officer.
 - d. A competition for internships is organized by the Internship Officer. By entering the competition, students give permission for the Internship Officer to supply their university transcripts to potential employers. Students who do not wish to accept an internship arranged by the Internship Officer shall be responsible for finding an alternative acceptable to the Internship Officer in consultation with the Graduate Officer.
 - e. Students must attend scheduled pre-internship orientation workshop, professional development and exit meeting.
 - f. Each Internship placement is supervised and evaluated by the Internship Officer, the on-site Supervisor assigned by the employer and the Graduate Program Coordinator. The internship shall consist of two components:
 - i. On-Site Student Performance as evaluated by the Internship Officer in consultation with the on-site Supervisor assigned by the employer.
 - ii. An Internship Report graded by the Internship Officer or the Graduate Officer in consultation with the on-site Supervisor assigned by the employer.
 - g. Evaluation of the Internship shall result in one of the following final grades: Pass, or Fail.
A student must obtain a Pass in both the On-Site Student Performance and the Internship Report to obtain a final grade of Pass.
If a student fails to achieve the internship standards specified above, the student may be required to withdraw from the program. Such a student may reapply to the program after a lapse of two semesters, at which time the student will be required to complete a further internship with satisfactory performance before being admitted to any further academic term in the Faculty. An internship may only be repeated once.
 - h. Students who voluntarily withdraw from the internship without prior approval from the Internship Officer and the Graduate Officer, or who conduct themselves in such a manner as to cause the host organization and the Internship Officer to terminate the placement, will normally be awarded a grade of FAIL in the internship.
 - i. Students are not permitted to drop internships without prior approval of the Internship Officer in consultation with the Graduate Officer. The Internship Officer will make a recommendation to the Graduate Officer who will make the final decision. Students who drop an internship without permission, who fail to honour an agreement to work with a host organization, or who conduct themselves in such a manner as to cause their discharge from the internship position will normally be awarded a failed grade for the internship. Permission to drop an internship does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved internship in lieu of the one dropped.
7. All students are required to complete the Graduate Research Integrity Program (GRIP) - GRAD 9991.
8. Students in the M.A. in Environmental Policy shall meet the minimum residency of at least two semesters required under **General Regulation, Registration - Period of Study** of the University Calendar. Students are encouraged to meet this residency requirement in the first two semesters of their program.
9. All students will be required to present a seminar on their thesis or research paper in the final semester of their program as part of their thesis or research paper requirements. For applicable students, the thesis will be examined in accordance with the **General Regulations - Theses and Reports** of the School of Graduate Studies.

7.10.6 Evaluation

1. Candidates for the Master of Arts in Environmental Policy degree must obtain a grade of B or better in all program courses.
2. Candidates who receive a grade of less than B in a program course will be permitted to remain in the program, provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the GCEP, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

7.10.7 Courses

The schedule of courses for the Master of Arts in Environmental Policy is as follows:

Table I - Master of Arts in Environmental Policy Schedule of Courses

Term	Thesis Option	Research Paper Option
Fall Semester 1	Policy and Science Internship Workshop Two required courses from Table II One elective from Table II or Table III Pre-Internship Workshop	Policy and Science Internship Workshop Two core courses from Table II One elective from Table II or Table III (one elective, either in the Fall or Winter Semester, shall be from Table II) Pre-Internship Workshop
Winter Semester 2	Two required courses from Table II GRAD 9991 - Graduate Research Integrity Program (GRIP)	Two core courses from Table II One elective from Table II or Table III (one elective, either in the Fall or Winter Semester, shall be from Table II) GRAD 9991 - Graduate Research Integrity Program (GRIP)
Spring Semester 3	Environmental Policy 6030 Internship	Environmental Policy 6030 Internship

7.11 Ethnomusicology

Professor and Dean

E. Waterman

Professor and Associate Dean

M. Volk

The Master of Arts program in Ethnomusicology is administered by the School of Music in consultation with the Department of Folklore, and generally in response to recommendations from an Interdisciplinary Advisory Committee with representation from both academic units, chaired by the Program Co-ordinator.

The Degree of Master of Arts in Ethnomusicology is offered by part-time and full-time study. While it is normally a course work degree, a thesis option is available upon application. Fieldwork is often a requirement both for independent research and course work. The resources of the Memorial University of Newfoundland Folklore and Language Archive are available to graduate students in Ethnomusicology.

7.11.1 Qualifications for Admission

Applicants may be admitted to the program if they have at least a B+ average with a B.Mus. Degree or other Degree in the Humanities or Social Sciences with evidence of specialization in music. Applicants whose professional music training took place outside the university system are also encouraged to apply, provided they have the academic equivalent of the qualifications described above. Applicants from a discipline other than Music will be expected to demonstrate the following skills:

- Competent performance in any musical tradition, as judged by a musician knowledgeable about that tradition.
- Knowledge of culturally appropriate language for discussion of performance techniques in that tradition.
- Ability to discuss musical details on the basis of aural and/or written sources, as appropriate to that tradition.

Candidates for admission may, at the discretion of the Interdisciplinary Advisory Committee, be required to write diagnostic examinations measuring skills and knowledge in music literacy, theory, or aural perception. Candidates with deficiencies in any of these areas may be required to take remedial course work prior or in addition to the required program.

7.11.2 Program of Study

The M.A. program will normally be completed within five consecutive semesters of full-time study. The degree is normally taken by completing course work and a major research paper. In special circumstances, a student may apply to complete the degree by completing course work and a thesis. Demonstration of competence in a language other than English may be required if warranted by the research proposed by the student.

1. Course Work M.A.

- a. Students must normally complete a minimum of 24 credit hours plus a major research paper (Music 7002). Further courses beyond the minimum number may be required, depending on the background of the student. The required courses are:
 - i. Music 7001; Folklore 6010, 6030.
 - ii. One of Folklore 6100 or Music 6002.
 - iii. One area or genre studies course (3 credit hours) relevant to the research of the student.
 - iv. Nine credit hours to be selected from the Music and Folklore courses listed below (with the approval of the Interdisciplinary Advisory Committee); one elective (3 credit hours) may be a relevant course offered in another discipline (with the approval of the Interdisciplinary Advisory Committee).
- b. Research paper (Music 7002) on a topic chosen by the student with his/her supervisor's approval. Proposals for topics and supervisors will be vetted by the Interdisciplinary Advisory Committee no later than the beginning of the third term of study. The paper will normally demonstrate the student's ability to apply methodologies and theoretical constructs, learned in the courses taken, to a specific repertory, or performance context.

2. Thesis M.A. (available by special application to the Interdisciplinary Advisory Committee)

- a. Students must normally complete a minimum of 21 credit hours plus a thesis. The required courses are:
 - i. Music 7001; Folklore 6010, 6030.
 - ii. One of Folklore 6100 or Music 6002.
 - iii. One area or genre studies course (3 credit hours) relevant to the research of the student.
 - iv. Six credit hours to be selected from the Music and Folklore courses listed below (with the approval of the Interdisciplinary Advisory Committee); one elective (3 credit hours) may be a relevant course offered in another discipline (with the approval of the Interdisciplinary Advisory Committee).
- b. Thesis submitted in accordance with General Regulation **Theses and Reports** of the School of Graduate Studies. A thesis proposal, consisting of a statement of topic, working title, plan of research, and preliminary bibliography, with the name of the preferred Supervisor, shall be submitted by the candidate to the Interdisciplinary Advisory Committee no later than the beginning of the third term of study.

7.11.3 Courses

Theories and Methods:

Music 6001 Research Methods
 Music 6002 Graduate Seminar
 Music 7001 Research Problems and Methods in Ethnomusicology
 Music 7002 Research Paper
 Folklore 6010 Survey of Folklore Genres and Processes
 Folklore 6020 Field and Research Methods
 Folklore 6030 Folklore Theories
 Folklore 6040 Feminist Theories: Perspectives and Issues
 Folklore 6080 Vernacular Theories
 Folklore 6090 Ethnology
 Folklore 7100 Advanced Folkloristics II: Research and Ethnography

Form and Performance:

Music 7005 Performance Option
 Folklore 6100 Song and Music
 Folklore 6120 Ballad
 Folklore 6130 Folk Music Canons and Documentary Sound Recordings
 Folklore 6200 Folktale
 Folklore 6210 Legend
 Folklore 6220 Personal Experience Narrative
 Folklore 6250 Language and Play
 Folklore 6260 Ethnography of Communications
 Folklore 6300 Ethnography of Belief
 Folklore 6310 Health Systems
 Folklore 6350 Custom
 Folklore 6360 Traditional Drama
 Folklore 6400 Material Culture
 Folklore 6410 Vernacular Architecture
 Folklore 6420 Art and the Artifact

Folklore 6430 Food and Culture
Folklore 6720 Folklore and Literature

Area and Genre Studies:

Music 7010 World Music: Music of Asia and Oceania
Music 7011 World Music: Music of Africa and the Americas
Music 7012 Canadian Musical Traditions
Music 7013 Music and Culture
Music 7017 Folksong
Music 7018 Jazz and Blues: The Roots of Popular Music
Folklore 6120 Ballad
Folklore 6600 Folklore of Newfoundland
Folklore 6610 Folklore of Canada
Folklore 6620 Folklore of the United States
Folklore 6630 Folklore of the British Isles
Folklore 6770 The Global and the Local

Social Identities:

Music 7006 Urban Ethnomusicology
Music 7007 Music in the Study of Gender, Race and Class
Music 7009 Music and Place
Folklore 6510 Occupational Folklore
Folklore 6551 Indigenous Expressive Cultures in Cross-cultural Encounter
Folklore 6730 Folklore and Gender
Folklore 6780 Ethnicities

Public and Applied Ethnomusicology and Folklore:

Music 6700 Music Industries Seminar
Music 6750 Music Industries Internship (2 credit hours)
Folklore 6740 Public Sector Folklore
Folklore 6760 Archiving
Folklore 6790 Museums: Perspectives and Practices
Folklore 6800 Applied Folklore

Interdisciplinary Perspectives:

Music 7008 Media Studies
Folklore 6700 Folklore and Culture
Folklore 6710 Oral Tradition and Oral History
Folklore 6750 Popular Culture: Theory and Debate

Independent Study:

Music 7026-29 Directed Reading in Ethnomusicology
Folklore 6570-79 Reading Courses in Folklore

Special Topics:

Music 6800-09 Special Topics in Music
Music 7800-09 Special Topics in Music
Folklore 6511-29 Special Topics in Folklore
Folklore 6570-79 Reading Course in Folklore

7.12 Folklore

Professor and Head of the Department

D. Tye

The Degree of Master of Arts in Folklore is offered by part-time and full-time study. The program normally requires extensive fieldwork research in Newfoundland and/or the Maritimes.

Integral to the teaching of the Department of Folklore is work of the Memorial University of Newfoundland Folklore and Language Archive.

7.12.1 Program of Study

1. Applicants may be admitted to the graduate program if they have an average of at least grade 'B' in no fewer than 36 credit hours in Folklore or in any other discipline in the Humanities or Social Sciences.
2. The M.A. program will normally be completed within six consecutive semesters (i.e., a two-year period). The Degree of Master of Arts in Folklore may be taken by course work and comprehensive examination, course work and thesis, or course work and co-operative education work terms. All options are available to full-time and part-time students. However, the work term component of option C cannot be completed on a part-time basis.

a. M.A. With Thesis:

- i. Students choosing to do the M.A. with thesis must normally complete a minimum of 24 credit hours plus a thesis. Normally, the required courses are:
 - 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
 - At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
 - At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
 - Nine additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
- ii. A brief thesis pre-proposal, including a statement of topic, working title, plan of research, ethics statement, preliminary bibliography, and the name of a preferred Supervisor, shall be submitted no later than the end of the candidate's second semester. A full proposal shall normally be submitted to the Department of Folklore and orally presented before members of the faculty by the end of the candidate's fourth semester. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student's oral presentation of the proposal. Following approval of the thesis proposal and consultation with the candidate, the Supervisor and thesis topic will be recommended to the Dean.

b. M.A. With Comprehensive Examination:

- i. Students choosing to do the M.A. with comprehensive examination must normally complete a minimum of 30 credit hours plus comprehensive examination. Normally, the required courses are:
 - 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
 - At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
 - At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
 - Fifteen additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
- ii. Each candidate selecting the M.A. with comprehensive examination option shall normally submit, by the end of the candidate's second semester, written notification of intention to take comprehensives.
- iii. Each candidate selecting this option shall normally write the comprehensive examination at the end of the candidate's fifth semester in the program. The comprehensive examination will be graded by a comprehensive examination committee appointed by the Dean of Graduate Studies on the recommendation of the Head of the Department, in accordance with **General Regulations** governing the School of Graduate Studies.

c. M.A. With Public and Applied Folklore Co-operative Education Work Terms:

- i. Students choosing to do the M.A. with Public and Applied Folklore Co-operative Education option must normally complete a minimum of 24 credit hours plus two co-operative education work terms. The required courses are:
 - 6010, 6020, and 6030, normally taken as in integrated foundation in the Fall semester.
 - 6740 or 6800 and at least one additional course selected from the following: 6551, 6740, 6760, 6790, 6800.
 - At least one of the following: 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
 - At least one of the following 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
 - Three additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
 - 601W and 602W.
- ii. The dates for starting and finishing each work term are shown in the **University Diary**.
- iii. A competition for work term employment is organized by the Division of Co-operative Education (DCE) in cooperation with the Department of Folklore. Students may also obtain their own work term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Head of Folklore and by the DCE on or before the first day of the work term. Work term jobs may be outside St. John's and possibly outside Newfoundland and Labrador. Students who do not wish to accept a work term job arranged by DCE shall be responsible for finding an alternative acceptable to the Head of Folklore and the DCE. By entering the competition, students give permission for the DCE to supply their Memorial University of Newfoundland transcripts to potential employers.
- iv. Each work term placement will be supervised by the candidate's program Supervisor, the on-site Supervisor assigned by the employer and the DCE Co-ordinator. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor and DCE Co-ordinator. The work term shall consist of two components:
 - On-the-job Student Performance as evaluated by the on-site Supervisor and DCE Co-ordinator, in consultation with the program Supervisor.
 - A Work Report graded by the program Supervisor in consultation with the on-site Supervisor.
- v. Evaluation of the work term will result in the assignment of one of the following final grades:
 - *Pass with Distinction*: Indicates EXCELLENT PERFORMANCE in both the work report and work performance.
 - *Pass*: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
 - *Fail*: Indicates FAILING PERFORMANCE in the work report and/or the work performance.

If a student fails to achieve a final grade of *Pass* or *Pass with Distinction*, and provided the student has not failed to achieve a grade of 'B' or better in any program course, the student may request to repeat the work term component. The request will be considered by the Department Head in consultation with the program Supervisor and must include a proposal for a new work term placement. Only one work term repeat will be permitted in the student's program. Alternatively, the student may apply for a change of route to the thesis or comprehensive examination program option.

7.12.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, normally after consultation with the Head of the Department or the Graduate Studies Administrator, and as far as the resources of the Department will allow. Courses are structured according to the categories of: Theories and Methods, Issues, Form and Performance, Special Topics, Regional, National and International Heritage, Social Identities, Public and Applied Folklore, Interdisciplinary Perspectives, and Required (Ph.D.):

Cooperative Education Work Terms

601W Work Term I

602W Work Term II

Theories and Methods

6010 Survey of Folklore Genres and Processes

6020 Field and Research Methods

6030 Folklore Theories

6040 Feminist Theories: Perspectives and Issues

6080 Vernacular Theories

6090 Ethnology

Issues

6050 Issues in Folkloristics

6060 Issues in Oral Tradition and Performance

6070 Issues in Folklife

Form and Performance

6100 Song and Music

6120 Ballad

6130 Folk Music Canons and Documentary Sound Recordings

6200 Folktale
 6210 Legend
 6220 Personal Experience Narrative
 6250 Language and Play
 6260 Ethnography of Communications
 6300 Ethnography of Belief
 6310 Health Systems
 6350 Custom
 6360 Traditional Drama
 6370 Ritual, Festival and Public Display
 6400 Material Culture
 6410 Vernacular Architecture
 6420 Art and the Artifact
 6430 Food and Culture
 6720 Folklore and Literature

Special Topics

6511-29 Special Topics in Folklore
 6550 Special Research in Folklore
 6551 Indigenous Expressive Cultures in Cross-cultural Encounter
 6552-69 Special Research in Folklore
 6570-79 Reading Course in Folklore

Regional, National and International Heritage

6600 Folklore of Newfoundland
 6610 Folklore of Canada
 6620 Folklore of the United States
 6630 Folklore of the British Isles
 6640 Traditional Culture of Scotland
 6650 Culture and Traditions of Ireland
 6660 Folklore of the Francophone Regions
 6690 International Folklore

Social Identities

6510 Occupational Folklife
 6730 Folklore and Gender
 6770 The Global and the Local
 6780 Ethnicities

Public and Applied Folklore

6740 Public Sector Folklore
 6760 Archiving
 6790 Museums: Perspectives and Practices
 6800 Applied Folklore

Interdisciplinary Perspectives

6700 Folklore and Culture
 6710 Oral Tradition and Oral History
 6750 Popular Culture: Theory and Debate

Required (Ph.D.)

7000 Advanced Folkloristics I
 7100 Advanced Folkloristics II Research and Ethnography

Note: Credit may not be obtained for both 6010 and the former 6110; 6020 and the former 6111; 6030 and the former 6112; 6100 and the former 6430; 6120 and the former 6445; 6300 and the former 6230; 6350 and the former 6230; 6400 and the former 6501; 6720 and the former 6460.

7.13 French

Associate Professor and Head of the Department

A. Thureau

7.13.1 Program of Study

1. The Degree of Master of Arts in French Studies may be completed by full-time or part-time study. "French Studies" may take the form of the study of the French language or of francophone literature, including the study of literary history, criticism or theory. It may also include the study of French-language cinema or of other aspects of francophone civilization.
2. Candidates who are practicing teachers of French and wish to pursue French studies in conjunction with studies of the teaching of French may opt to pursue the Master of Arts and Education (Education and Francophone Literatures and Cultures) degree jointly offered by the Faculty of Arts, Department of French and Spanish and the Faculty of Education.
3. Applicants for the M.A. program in French Studies are normally expected to have completed the Honours Degree with a second-class standing or better. An applicant who does not hold an Honours Degree or its equivalent may be required to complete such additional undergraduate courses as the Department considers necessary, prior to admission or as part of the program.
4. The M.A. program in French Studies will consist of 15 credit hours in graduate courses (normally requiring 2 or 3 semesters of full-time study), plus research activities and a thesis of approximately 80 pages. The 15 credit hours shall include 6008 and 6009, normally completed in consecutive semesters. The remaining 9 credit hours shall be obtained by completion of three courses chosen from those in three of the five groups listed in the **Courses** section below. The language of the thesis will be French. The thesis proposal, after being approved by the Supervisor, will be submitted by the candidate, normally before the end of the third semester of studies, to the Departmental Graduate Studies Committee, who will decide whether or not to grant its approval.
5. Each candidate's program of study must be approved by the Departmental Graduate Studies Committee.
6. A paper drawn from the thesis will be presented at a Departmental seminar or in another forum approved by the Departmental Graduate Studies Committee. Normally, this presentation will take place at some time between submission of the final draft thesis to the Supervisor and the submission of the thesis to the School of Graduate Studies.
7. The approval of the Departmental Graduate Studies Committee must be obtained before the thesis is forwarded to the School of

Graduate Studies for examination.

8. In the final version of the M.A. thesis and other written assignments for M.A. courses, the quality of written French must be of a standard acceptable to the Department as represented by the Graduate Studies Committee. Normally, this will mean that the final version of such assignments will be free of spelling, lexical, and grammatical errors, and of improper use of stylistic conventions. In the case of the M.A. thesis, this requirement applies to the version submitted for examination.

7.13.2 Courses

A selection of the following graduate courses will be offered to meet candidates' requirements, as far as the resources of the Department will allow:

6008* Literary Methodology and Theory I
6009* Literary Methodology and Theory II

Historiographical, Genetic, Thematic, Hermeneutical or other historical or critical approaches to French Studies

6032 Genetic Criticism and Exegesis
6102 History of the French Language

Psychoanalytical, Ethnological or Anthropological approaches to French Studies

6020 Literature and Psychoanalysis
6021 Mythocriticism
6130-39 Personal/Intimate Literature

Sociological or Socio-historical approaches to French Studies

6022 History, Society, Ideology and Texts
6101 The Female Voice: Women's Writing and its Contribution to the Development of French and Francophone Texts
6110-19 Paraliterature and Traditional Culture

Linguistic, Semiotic, Poetic, Rhetorical or Pragmatic approaches to French Studies

6011 General Theory of the French Language
6030 Grammar of the Text
6031 Narratology
6140-49 Genres and Discursive Forms

Other approaches to French Studies

6120-29 Texts/Images/Sounds
6150-59 Special Topics

French and Spanish Courses for Students in Other Disciplines

French 6900 Reading in French
Spanish 6900 Reading in Spanish

Note: *Credit may not be obtained for both French 6008 and the former French 6006; or for both French 6009 and the former French 6006.

Français

Professeuse Agrégée et Directrice du Département

A. Thureau

1. Le diplôme de Maîtrise ès Arts en Études françaises sanctionne des études à temps plein ou à temps partiel. Les études françaises comprennent l'étude de la langue et de la littérature et l'étude de l'histoire, de la critique ou de théorie littéraire, ainsi que l'étude du cinéma ou d'autres aspects des civilisations francophones.
2. Les enseignants et enseignantes de français qui veulent poursuivre leurs études en français et en didactique du français peuvent choisir le programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) offerte par la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Éducation.
3. Pour être admis au programme de Maîtrise ès Arts en Études françaises, l'étudiant doit normalement détenir un diplôme de baccalauréat avec une spécialisation en Études françaises et une note moyenne d'au moins B. Le département pourra obliger toute personne ne détenant pas ce diplôme ou son équivalent à suivre certains cours du premier cycle avant d'être admis au programme de deuxième cycle ou pendant ses études de maîtrise.
4. L'option en Études littéraires comprend quinze crédits de cours, ce qui exigera normalement 2 ou 3 trimestres d'études à temps plein et un mémoire d'environ 80 pages rédigé en français. Tous les candidats compléteront le Fr.6008 et le Fr.6009.
Normalement, ces deux cours devront être complétés en deux trimestres consécutifs. En plus, il faudra compléter 3 cours choisis parmi ceux qui font partie de 3 des 5 groupes identifiés dans la section **COURS**. Le projet de mémoire, qui est approuvé par son directeur, doit être officiellement présenté par le candidat au Comité des Études de deuxième cycle, avant la fin du troisième trimestre, pour son approbation.
5. Le programme d'études du candidat doit être approuvé par le Comité des Études de deuxième cycle.
6. Une communication tirée du mémoire sera présentée dans le cadre des séminaires départementaux ou dans une autre réunion approuvée par le Comité des Études de deuxième cycle. Normalement, cette présentation se fera entre la soumission à son directeur et sa soumission définitive à l'École des Études supérieures.
7. Avant d'être soumis à l'École des Études supérieures, le mémoire doit être proposé au Comité des Études de deuxième cycle, qui doit en autoriser le dépôt.
8. Dans la version finale du mémoire et des autres travaux préparés pour les cours de maîtrise, la qualité du français écrit doit être d'un niveau acceptable au département, qui est représenté par le Comité des Études de deuxième cycle. Ainsi, la version finale de ces travaux ne contiendra-t-elle pas, normalement, d'erreurs orthographiques, lexicales, grammaticales, stylistiques et protocolaires. Pour ce qui est du mémoire, cette exigence s'applique à la version remise aux examinateurs.

Cours

Un choix des cours de deuxième cycle suivants sera offert afin de répondre aux besoins des étudiants inscrits au programme de maîtrise selon les ressources disponibles au département:

6008* Méthodologie et théorie de la littérature I
6009* Méthodologie et théorie de la littérature II

Approche historiographique, génétique, thématique, herméneutique ou autrement historique ou critique:

6032 Génétique et critique
6102 Histoire de la langue française

Approche psychanalytique, ethnologique ou anthropologique:

6020 Psychanalyse et littérature

6021 Mythocritique

6130-39 Littérature personnelle/intime

Approche sociologique ou socio-historique:

6022 Histoire, société, idéologie et textes

6101 La voix féminine et le féminisme

6110-19 Paralittérature et cultures traditionnelles

Approche linguistique, sémiotique, poétique, rhétorique ou pragmatique:

6011 Théorie générale de la langue française

6030 Grammaire du texte

6031 Narratologie

6140-49 Discours et genres

Autres approches aux Études françaises:

6120-29 Textes/Images/Sons

6150-59 Sujets spéciaux

Cours de français et d'espagnol pour étudiants d'autres disciplines

Français 6900 Lecture en français

Espagnol 6900 Lecture en espagnol

* Nota / Note: Les étudiants ne peuvent obtenir de crédit pour le Français 6008 et le Français 6006 (désormais supprimé) ni pour le Français 6009 et le Français 6006.

7.14 Geography

Professor and Head of the Department

C. Mather

7.14.1 Program of Study

1. The degrees of Master of Arts and Master of Science are offered in Geography by full-time or part-time study.
2. Admission requirements are set forth in the **General Regulations** of the School of Graduate Studies and Degree Regulations for **Master of Arts and Master of Science**.
3. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
4. An applicant will be admitted to a graduate program only if a faculty member agrees to act as Supervisor. A supervisory committee will be established after admission, normally consisting of the Supervisor and two other individuals, one of whom will normally be a member of the Department.
5. Major research areas for graduate study at the master's level are cultural, political, historical, economic, urban, resource management, community and regional development, geomorphology, Quaternary environments, climatology and geographic information sciences.
6. Candidates will register for the M.A. program if their fields of interest lie in an area of Human Geography or for the M.Sc. if their fields of interest are in Physical Geography or Geographic Information Sciences.
7. It is expected that the program of study and research for the M.A. or M.Sc. will normally be completed in a maximum of two years of full-time work, or three years of part-time work.
8. Candidates must successfully complete a minimum of 12 credit hours of graduate program courses with a minimum grade of B in each. Geography 6000 and 6001 will be required courses for all candidates who have not already completed equivalent courses at the Honours or post-graduate level.
9. Candidates whose undergraduate degree is not in geography will normally be required to complete some additional undergraduate program courses during their first year of study, in addition to the required graduate program courses. Normally four such undergraduate courses will be required, and a minimum grade of 70% must be obtained in each.
10. Each candidate will be required to present a seminar on his or her research to the Department.
11. Each candidate must submit a thesis based on his or her own original research. This thesis will be examined in accordance with the **General Regulations** of the School of Graduate Studies.

7.14.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Development of Geographical Thought and Practice I

6001 Development of Geographical Thought and Practice II

6002 Directed Readings in Geography

6100 Research Techniques in A Selected Field of Geography I

6101 Research Techniques in A Selected Field of Geography II

6120 Geospatial Modelling and Analysis

6150 Environmental Remote Sensing and Image Analysis

6200 Economic Geography I

6201 Economic Geography II

6204 Sustainable Community and Regional Development

6250 Conservation and Sustainability of Natural Resources

6251 Survey Design, Questionnaire Development and Techniques of Data Collection

6300 Problems in Fisheries Geography

6400 Fluvial Geomorphology

6401 Glacial Geomorphology

6402 Coastal Geomorphology

6410 Climatology

6420 Quaternary Geography

6430 Biogeography
 6500 Cultural Geography
 6600 Historical Geography
 6700 Political Geography
 6800 Urban Geography
 6821 Advanced Computer Mapping
 6900 Graduate Seminar in Regional Geography
 6990-95 Special Topics in Geography

7.15 German

Associate Professor and Head of the Department

E. Warkentin

7.15.1 Program of Study

The degree of Master of Arts (M.A.) is offered in German Language and Literature and may be taken by full-time or part-time study.

1. Candidates for the M.A. degree in German are normally expected to have completed an Honours degree with a minimum of second-class standing. In addition to the general requirements, candidates will be expected to have acquired a superior knowledge of the spoken and written language as determined by the Department prior to admission.
2. Students will be required to demonstrate superior German language skills as determined by the Department prior to admission to the program.
3. As part of the admissions process, prospective students must submit a non-binding outline of the area in which they would like to write their thesis.
4. Students may choose from two modes of completing the M.A. program, in accordance with the **Graduate Studies Regulations Governing the Degree of Master of Arts:**
 - a. Candidates complete at least 18 credit hours of course work and submit a thesis. The entire program of study and research will normally take one year of full-time study. The M.A. thesis will be based on research conducted by the student.
 - i. The thesis will be examined in accordance with **General Regulation, Thesis and Reports.**
 - ii. Normally, one of the assigned examiners of the thesis will be external to the Department.
 - b. Candidates complete at least 18 credit hours of course work and write a comprehensive examination. The entire program of study and research will normally take one year of full-time study.
 - i. The comprehensive examination shall be examined in accordance with the **General Regulations, Comprehensive Examinations.**
 - ii. Material to be covered on the M.A. comprehensive exam is normally determined by consultation between the student and the Head of the Department (or designate). The exam is written in two sittings: one exam will cover the student's chosen area and the other will cover the student's reading list and literary terminology. A final component of the comprehensive exam is an oral examination on the eras or issues covered in the written portion of the exam.
5. All students, regardless of the mode of completing the requirements for the M.A., will be required to complete German 6103.

7.15.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Issues in Modern Technology, Literature and Culture
 6001 Issues in Literature on the Edges of Society
 6100 Issues in the History of the German Language
 6103 Bibliography and Research Methods
 6200 Issues in Early German Literature and Culture I
 6201 Issues in Early German Literature and Culture II
 6300 Issues in Early Modern German Literature and Culture I
 6301 Issues in Early Modern German Literature and Culture II
 6800 Issues in Modern German Literature and Culture I
 6801 Issues in Modern German Literature and Culture II
 6900 Issues in Contemporary German Literature and Culture I
 6901 Issues in Contemporary German Literature and Culture II
 6903 Issues in Propaganda and Censorship
 7000 Special Subject or Author I
 7001 Special Subject or Author II
 7002-7020 Special Topics in German Studies

7.16 History

Professor and Head of the Department

S. Cadigan

The degrees of Doctor of Philosophy and Master of Arts are offered in History by full-time or part-time study.

7.16.1 Program of Study

1. The Department of History offers M.A. programs in a broad range of geographical and thematic areas. Students in the M.A. program will choose a thesis or non-thesis option.
2. M.A. candidates who choose the non-thesis option shall complete a minimum of 24 credit hours, 18 of which shall normally be 6190, 6200 and 6999.
3. M.A. candidates who choose the thesis option shall complete 9 credit hours, 6 of which shall normally be 6190 and 6200, plus a thesis.
4. Where a student's major research project requires him or her to read a language other than English, he or she must demonstrate a

reading knowledge of this language through an exam or other method subject to the approval of the Graduate Committee.

7.16.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Advanced Studies in Newfoundland History
 6010 Advanced Studies in Canadian History
 6020 Advanced Studies in the History of the United States
 6030 Advanced Studies in French History
 6040 Advanced Studies in British History
 6050 Advanced Studies in German History
 6060 Advanced Studies in North Atlantic History
 6070 Advanced Studies in Social History
 6075 Advanced Studies in Labour and Working-Class History
 6080 Advanced Studies in Intellectual History
 6090 Advanced Studies in Women's History
 6095 Advanced Studies in Ethnohistory
 6100 Advanced Studies in Military History
 6105 Advanced Studies in Diplomatic History
 6110 Advanced Studies in Maritime History
 6120 Advanced Studies in Economic and Business History
 6125 Medical Science and Social Responsibility in Health Care: Aspects of Medical History (*cross-listed as Medicine 6420*)
 6130 Quantification and Measurement in History
 6140-59 Research in Special Topics
 6160-79 Reading Courses (Special Topics)
 6190 Theory and Method
 6200 Masters Seminar I
 6999 Masters Research Paper (12 credit hours)

7.17 Linguistics

Professor and Head of the Department

M. MacKenzie

The degrees of Master of Arts and Doctor of Philosophy are offered in Linguistics.

7.17.1 Program of Study

1. The Linguistics Department offers the M.A. program with both a thesis and a non-thesis option. The M.A. with thesis option is intended for those who have completed an undergraduate major in Linguistics with satisfactory standing (a B+ average in Linguistics courses). Students interested in the thesis option who have an excellent undergraduate record and a well-defined research plan, yet who do not possess the equivalent of an undergraduate major, will be required to take additional undergraduate and/or graduate courses in Linguistics. Other students are encouraged to apply for the M.A. without thesis option.
2. The M.A. with thesis option is normally a two-year program consisting of at least 15 credit hours of graduate courses (including Linguistics 7000 and 7001), plus a thesis.
3. The M.A. without thesis option is normally a two-year program consisting of at least 21 credit hours of graduate courses (including Linguistics 7000 and 7001), plus a research project (Linguistics 6999), which consists of a major research paper in an approved area followed by an oral examination.
4. The M.A. in Linguistics requires proficiency in a language other than the candidate's first language, as demonstrated by a minimum B grade in a second-year undergraduate language course, or performance satisfactory to the Department in an arranged reading proficiency test. A working or structural knowledge of other languages may also be required for particular programs (e.g., Latin, Greek or Sanskrit for historical Indo-European linguistics, or courses in the series Linguistics 6050-59 or the former 6010-6041).
5. All M.A. students are advised to consult the Linguistics department's Graduate Handbook for details on program requirements and for general information relating to the graduate program.

7.17.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of students, as far as the resources of the Department will allow. Full information is to be found in the Department's Graduate Handbook.

6050-54 Structure of a North American Aboriginal Language
 (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6050-54 series. Students may not obtain credit for any of the previously offered 6010, 6011, 6020, 6021, 6030, 6031, 6040, 6041 in addition to a course in the 6050-54 series.)
 6055-59 Structure of an Uncommonly-Taught Language (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6055-59 series.)
 6100 Issues in Morphosyntax (Credit may not be obtained for both Linguistics 6100 and the former 6001)
 6110 Selected Topics in Transformational Grammar
 6115 Topics in the Syntax of a Selected Language (Prerequisite: 6001 or 6110)
 6150 Principles of Language Acquisition
 6151 Selected Topics in Language Acquisition (Prerequisite: 6150)
 6200 Generative Phonology
 6201 Selected Topics in Phonology (Prerequisite: 6200)
 6210 Sociolinguistics (Credit restriction: A student may not obtain credit for both 6210 or the former 6211.)
 6212 Selected Topics in Language and Gender
 6220 Areal and Temporal Variations in Language
 6300-9 Special Subjects
 6350 General Romance Linguistics
 6390 Franco-Canadian
 6400 Comparative and Historical Linguistics
 6401 Morphosyntactic Change (Prerequisite: 6400)

6403 Etymology (cross-listed as English 6403)
 6410 Comparative Structure of a Selected Language Family (Prerequisite: 6403 or the former 6011, 6031)
 6420 English Dialectology I
 6421 English Dialectology II
 6430 Selected Topics in Linguistic Variation (Prerequisite: 6220 or the former 6211)
 6500 Field Methods
 6601 Modern Linguistic Theories
 6700 Experimental Phonetics
 6701 Selected Topics in Experimental Phonetics (Prerequisites: 6200, 6700)
 6800 Selected Topics in Morphology
 6880 Selected Topics in Semantics
 6999 M.A. Research Project
 7000 Seminar in Research Methods
 7001 Analytical Issues in Linguistics
 7100 Topics in North American Native Languages (Prerequisites: a course from series 6050-6054 or the former 6011, 6031, 6041)
 7200 Advanced Topics in Syntax (Prerequisites: 6110, plus either 6001 or 6115)
 7400 Seminar in Comparative and Historical Linguistics (Prerequisite: 6400 or 6410)
 7430 Seminar in Linguistic Variation (Prerequisite: 6430)
 7800 Seminar in Morpho-semantics (Prerequisite: 6800)
 7900-03 Special Topics in Linguistics

Note: Appropriate equivalent credits may be given for courses taken at the Summer Institute of the Linguistic Society of America, or a similar institute. Students are encouraged to attend these institutes. They should, however, consult the Head of the Department as to what courses may be appropriate for credit.

7.18 Philosophy

Associate Professor and Interim Head of the Department

A. Sullivan

7.18.1 Program of Study

The Degree of Master of Arts is offered in Philosophy by full-time or part-time study. The program is designed so that it may be completed in one academic year (three semesters) of full-time study.

The candidate must complete 18 credit hours - 3 credit hours from 6000, 12 credit hours from 6011-6016, any 3 credit hours from 6101-6102 - and a thesis.

Normally, a full-time candidate will complete all the 18 credit hours and submit a thesis proposal by the end of the second semester of study. A minimum of one additional semester will be spent in completing the balance of the program.

7.18.2 Courses

6000 Graduate Seminar

Author Seminars

6011 Ancient and Medieval Philosophy

6012 Modern Philosophy

6013 Contemporary Philosophy

Area Seminars

6014 Metaphysics

6015 Theory of Knowledge

6016 Ethical and Political Theory

Tutorials

6040-6099 Special Topics

6101 Selected Texts

6102 Current Issues

7.19 Political Science

Professor and Head of the Department

L. Ashworth

7.19.1 Program of Study

The Degree of Master of Arts is offered in Political Science by full-time and part-time study.

The degree of Master of Arts (M.A.) in Political Science may be taken by course work and thesis, course work and internship, or course work and research paper. The thesis, internship, and research paper options are available to full-time students. The M.A. with thesis is a two year program. The internship and research paper options are one year programs for full-time students. The thesis and research paper options are open to part-time students.

1. M.A. with Thesis:

- Students choosing the M.A. with thesis must normally complete a minimum of 12 credit hours in graduate program courses. These 12 credit hours are from required courses: 6000, 6010, and 2 subfield surveys (two of 6100, 6200, 6300, 6400, 6500, 6600, or 6700). Further courses beyond the minimum number may be required, depending on the background and needs of the student.
- Each student choosing the thesis option will submit a thesis on a subject that has been approved by the supervisory committee of the Department.
- Students applying for the thesis option must submit a brief (one page maximum) statement of their research interest with their application.

2. M.A. with Internship:

- Students choosing the M.A. with internship must normally complete a minimum of 24 credit hours in graduate program courses.

Twenty-one credit hours are from required courses: 6000, 6010, 6030, 6031, 6790, and a subfield survey (one of 6100, 6200, 6300, 6400, 6500, 6600, or 6700). Further courses beyond the minimum number may be required, depending on the background and needs of the student.

- b. Each student choosing this option will complete, normally in the Spring semester, a one-semester, full-time internship, 6030, with a political organization, government agency, or voluntary agency. Students registering for 6030 must also register for its co-requisite, 6031. The placement must normally be selected from a list of approved organizations that is maintained by the Department.

3. M.A. with Research Paper:

- a. Students who choose the M.A. with research paper option shall complete a minimum of 24 credit hours, fifteen of which shall normally be 6000, 6010, and 6999.
- b. The selection of a topic for the research paper must be approved by a faculty supervisor who will be chosen in consultation with the Department Head. The paper will be graded by the supervisor and one other member of the faculty, either from within the Department or the Department of a cognate discipline.

7.19.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6000 Political Science Concepts
 6010 Political Science Methods
 6020 Research Design
 6030 Internship
 6031 Applied Political Research (6 credit hours)
 6100 Political Philosophy
 6200 International Politics
 6300 Comparative Politics
 6301 European Politics and Public Policy
 6350 Political Economy
 6400 Political Development
 6430 Latin American Politics
 6500 Political Behaviour
 6600 Newfoundland Politics
 6700 Canadian Politics
 6710 Intergovernmental Relations
 6720 Local Politics
 6740 Public Administration
 6770 Canadian Provincial Politics
 6780 Politics of the Atlantic Provinces
 6790 Public Policy Process
 6900-10 Special Topics
 6999 Master's Essay (9 credit hours)

7.20 Religious Studies

Professor and Head of the Department

K.I. Parker

7.20.1 General Information

The degree of Master of Arts (M.A.) is offered in Religious Studies and may be taken by full-time or part-time study.

Candidates for the M.A. in Religious Studies may choose between the M.A. with Thesis option and the M.A. with a Project option. Candidates must specify which M.A. stream they wish to pursue upon entry into the program.

1. Admission requirements are set forth in the **Regulations Governing the Degree of Master of Arts**. An applicant should have completed a minimum of 45 credit hours in Religious Studies courses at the undergraduate level with at least the grade of B in each. An applicant should have completed a minimum of 45 credit hours in Religious Studies courses at the undergraduate level with at least the grade of B in each. An applicant's overall undergraduate program must represent, to the satisfaction of the Department, a solid groundwork for graduate studies.
2. A candidate who does not hold an Honours Degree or its equivalent shall be required to complete such additional undergraduate courses as the Department may deem necessary. These courses may be required as prerequisites to admission to the program, or as an additional constituent part of the program, at the discretion of the Department.
3. Upon acceptance into the program, each candidate will be assigned a Supervisor, whose duty it shall be to assist the candidate.
4. Students will be required to satisfy the Department as to proficiency in any language or technical facility deemed necessary by the Graduate Studies Committee of the Department for successful completion of the thesis or project.

7.20.2 Program of Study

1. Thesis Option

- a. Normally, the Master of Arts program with thesis option should take two years to complete, the first of which is to be spent primarily on course work and preparation of a thesis proposal. A student accepted on a part-time basis would normally be expected to take three to five years to complete the program.
- b. Students in the M.A. program with Thesis option shall normally complete a thesis and a minimum of 12 credit hours in course work.
- c. Students may write a thesis in one of the following areas: Hinduism, classical Confucianism, philosophical Daoism, Chinese and North American Buddhism, Buddhism and psychology, Judaism, Christianity, Hebrew Bible, New Testament, religious history of Canada, religious history of Newfoundland and Labrador, medieval religious thought, religion and culture (including pop culture), New Age religious movements, ethics and social justice, philosophy of religion.
- d. Before a student begins writing his or her thesis, he/she should submit a research proposal to the Graduate Studies Committee

of the Department for approval.

- e. Students in the M.A. with Thesis Option must complete three required courses and at least one other from the course list. The three required courses are: RS 6100 Methods and Theories in Religious Studies; RS 6120 Studies in Religious Texts; and RS 6130 Religious Contexts.

2. Course-based M.A. with a Project Option

- a. Normally, the Master of Arts program with a Project option should take one year (three semesters) to complete, the first two semesters spent on course work and the third semester on completing the project.
- b. Before a student begins writing his or her project, he/she should submit a research proposal to the Graduate Studies Committee of the Department for approval.
- c. Students in the M.A. with a Project option must complete four required courses and at least two others, one of which may be from a cognate discipline (upon approval). The four required courses are: RS 6100 Methods and Theories in Religious Studies; RS 6120 Studies in Religious Texts; RS 6130 Religious Contexts; and RS 699A/B Advanced Research in Religious Studies.

7.20.3 Courses

6100 Methods and Theories in Religious Studies (*Note: Credit may not be obtained for both Religious Studies 6100 and the former Religious Studies 6000*)

6120 Studies in Religious Texts

6130 Religious Contexts

6220 Selected Topics in New Testament

6230 Selected Topics in Hebrew Bible/Old Testament

6330 Selected Topics in Judaism

6340 Selected Topics in East Asian Religious Traditions

6350 Selected Topics in South Asian Religious Traditions

6720 Selected Topics in the History of Christianity

6730 Selected Topics in the Religious History of Canada

6740 Selected Topics in the Religious History of Newfoundland and Labrador

6750 Selected Topics in Medieval Religious Thought

6820 Selected Topics in Christian Ethics

6830 Selected Topics in Religion and Culture

6840 Selected Topics in the Philosophy of Religion

6850 Selected Topics in New Age Religious Movements

6900-6910 Special Topics in the Study of Religion

699A/B Advanced Research in Religious Studies (9 credit hours)

7.21 Sociology

Associate Professor and Head of the Department

K. Stanbridge

The Degrees of Master of Arts and Doctor of Philosophy can be earned through full-time or part-time study. Area of department specialization include: Social Theory; Sociology of Culture; Criminology; Environmental Sociology; Social Inequality; Sociology of Gender; Sexuality; Health, including Occupational Health; Development; Work; Political Sociology; and Maritime Sociology. Graduate courses are taught as tutorials or small seminars.

7.21.1 Program of Study

1. Minimum admission requirements are a B average in undergraduate studies with a good undergraduate background in Sociology.
2. The M.A. Degree with thesis requires the completion of 12 credit hours in graduate courses, normally including the Graduate Seminar (6880) and Methods of Sociological Research (6040), and a thesis. In the case of full-time students, the M.A. with thesis is normally completed in two years. The first year is devoted to the completion of the required courses and the definition of the thesis research topic. The second year is devoted to the completion of the thesis.
3. The M.A. Degree by course work requires the completion of 24 credit hours, normally including the Graduate Seminar (6880), Methods of Sociological Research (6040), Social Theory (6150), Master's Research Paper (6900) and three electives. These courses should be taken during the first two semesters of full-time study. The research paper (Sociology 6900) will be supervised by a faculty member and must be presented at a Departmental seminar. The Supervisor and one other member of Department will grade the paper. The research paper should be written in the third semester of full-time study.

7.21.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6040 Methods of Sociological Research

6090-94 Special Area in Sociology

6120 Social Organization

6130 Social Stratification

6140 The Community

6150 Social Theory

6160 Theory Construction and Explanation in Sociology

6240 Sociology in Medicine

6280 Social and Economic Development

6300 Maritime Sociology

6310 Political Sociology

6320 Gender and Society

6330 Science and Technology

6340 Comparative North Atlantic Societies

6350 Environmental Sociology

6360 Sociology of Work

6370 Feminist Theory and Methods

6380 Women, Nature, Science and Technology (cross-listed as Gender Studies 6380)

6390 Sociology of Culture
 6610 Socialization
 6620 Current Topics in Social Behaviour
 6880 Sociology Graduate Seminar
 6900 Master's Research Paper (6 credit hours)

8 Regulations Governing the Degree of Master of Arts and Education (Education and Francophone Literatures and Cultures)

Professor and Dean of Arts

L. Phillips

Associate Professor and Dean of Education

K. Anderson

Associate Professor and Associate Dean of Arts (Graduate and Research)

C. Dyck

Associate Professor and Associate Dean of Education

T. Seifert

The degree of Master of Arts and Education (Education and Francophone Literatures and Cultures) is jointly offered by the Faculty of Arts and the Faculty of Education, and is offered by full-time or part-time study.

These regulations should be read in conjunction with the **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland.

The Administrative Committee is responsible for the program. The Committee shall be comprised of the Associate Dean, Graduate Programs in the Faculty of Education (or delegate), the Head of the Department of French and Spanish (or delegate) and one appointed faculty member. The faculty member shall come from either the Faculty of Education or the Department of French and Spanish in alternating years. The Administrative Committee is responsible for admissions and advising students on course selection when appropriate.

8.1 Qualifications for Admission

To be considered for admission to the Master of Arts and Education (Education and Francophone Literatures and Cultures), an applicant shall normally hold a Bachelor of Education degree, with a concentration in French, from an institution recognized by Senate. Applicants should have a minimum 'B' standing or an average of 70% in the last 30 courses attempted and two years of experience teaching French. An appropriate level of proficiency in French is required, and the applicant's level of competence will be evaluated by the Administrative Committee.

8.2 Program of Study

1. Candidates for the Master of Arts and Education (Education and Francophone Literatures and Cultures) may choose one of two program options:
 - Option I. Project Route
 - Option II. Comprehensive Course Route
2. All candidates shall be required to complete:
 - French 6800 Littératures francophones: Théorie et pratique/Francophone literatures: Theory and practice
 - French 6810 Cultures francophones: Théorie et pratique/Francophone Cultures: Theory and practice
 - Education 6100 Research Designs and Methods in Education
 - Six credit hours from Memorial University of Newfoundland, Department of French and Spanish graduate course offerings as deemed appropriate by the Administrative Committee.
 - Nine credit hours selected from:
 - Education 6668 Current Issues in Second Language Education
 - Education 6669 Graduate Seminar in Second Language Teaching and Learning
 - Education 6673 Second Language Teaching, Learning and Curriculum
 - Three credit hours from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate by the Administrative Committee.
3. Students choosing Option I must also complete:
 - Education 6392 Project in Curriculum, Teaching and Learning Studies
4. Students choosing Option II must also complete:
 - Three credit hours from Memorial University of Newfoundland, Department of French and Spanish graduate course offerings as deemed appropriate for each candidate's program by the Administrative Committee.
 - Education 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies

8.3 Evaluation

1. In order to continue as a candidate for the degree of Master of Arts and Education (Education and Francophone Literatures and Cultures), a candidate shall obtain an A or B grade in each required course. A candidate who receives a grade of C in any required course must repeat that course and obtain a minimum grade of B. In the case of an elective course, a suitable replacement course acceptable to the Administrative Committee may be substituted for the failed course. Only one such repetition/replacement shall be permitted on the candidate's graduate program. Should a grade of less than B be obtained in the repeated/replacement course, or any other program course, the candidate shall be required to withdraw from the program.
2. When the Administrative Committee has determined, through consultation with the candidate, graduate course instructors, and the project supervisor, if applicable, that the candidate's work has fallen below satisfactory level, they may request the Dean of the Faculty of Education and the Head of the Department of French and Spanish recommend to the Dean of Graduate Studies that the

candidate's program be terminated.

8.4 Courses

French 6800 Littératures francophones: Théorie et pratique/Francophone literatures: Theory and practice

French 6810 Cultures francophones: Théorie et pratique/Francophone Cultures: Theory and practice

Education 6100 Research Designs and Methods in Education

Education 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies

Education 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours)

Education 6668 Current Issues in Second Language Education

Education 6669 Graduate Seminar in Second Language Teaching and Learning

Education 6673 Second Language Teaching, Learning and Curriculum (credit may not be obtained for both Education 6673 and the former 6665 or 6667)

Other courses offered for the Master of Education program and the Master of Arts in French Studies program as deemed appropriate by the Administrative Committee

Règlements de la Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones)

Professeure et Doyenne des Arts

L. Phillips

Professeure Agrégée et Doyen d'Éducation

K. Anderson

Professeure Agrégée et Doyenne Adjointe aux Etudes Supérieures et à la Recherche

C. Dyck

Professeur Agrégé et Doyen adjoint d'Éducation

T. Seifert

La Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) est offerte conjointement par la Faculté des Arts et la Faculté d'Éducation et cautionne des études à temps partiel ou à temps plein.

Il est recommandé de lire ces règlements en conjonction avec les Règlements généraux de l'École des Études supérieures.

Le Comité administratif est responsable du programme. Le Comité sera composé du Doyen adjoint aux programmes supérieurs de la Faculté d'Éducation (ou son représentant), le Directeur du Département d'études françaises et hispaniques (ou son représentant), et un autre membre. Ce dernier viendra alternativement (une année sur deux) d'une des deux unités. Le Comité administratif décidera de l'admission et conseillera à l'occasion les étudiants sur leur choix de cours.

Admission

Pour être admis au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones), il faut normalement détenir un Baccalauréat en Éducation, avec concentration en français, provenant d'une institution reconnue par le Sénat. Il faut une note moyenne minimale de 'B' ou une moyenne de 70% dans les trente derniers cours et deux ans d'expérience dans l'enseignement du français. Un niveau adéquat de français est nécessaire et la compétence des candidats (le masculin est utilisé à titre épique) sera évaluée par le comité d'admission.

Programme d'études

- Les candidats à la Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) choisira l'une ou l'autre des deux options suivantes:
 - 1^{re} option Programme menant au projet terminal
 - 2^e option Programme entièrement composé de cours
- Tous les candidats devront compléter:
 - French 6800 Littératures francophones: Théorie et pratique
 - French 6810 Cultures francophones: Théorie et pratique
 - Education 6100 Research Designs and Methods in Education
 - Six heures crédits de cours de deuxième cycle du Département d'études françaises et hispaniques jugés appropriés par le Comité administratif.
 - Neuf heures crédits parmi:
 - Education 6667 Second Language Teaching, Learning and Curriculum
 - Education 6668 Current Issues in Second Language Education
 - Education 6669 Graduate Seminar in Second Language Education
 - Trois heures crédits de cours de la Faculté d'Éducation jugés appropriés par le Comité administratif.
- L'étudiant ayant choisi la 1^{re} option devra compléter:
 - Education 6392: Project in Curriculum, Teaching and Learning Studies
- L'étudiant ayant choisi la 2^e option devra compléter:
 - Trois heures crédits de cours de deuxième cycle du Département d'études françaises et hispaniques jugés appropriés pour le programme de l'étudiant.
 - Education 6390 Research and Development in Teaching and Learning Studies

Évaluation

- Afin de continuer son inscription au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones), le candidat doit obtenir un note de A ou B dans chaque cours obligatoire. Le candidat qui reçoit une note de C dans un cours obligatoire doit répéter ce cours et obtenir au moins B. Dans le cas d'un cours facultatif, un cours jugé approprié par le Comité administratif peut être substitué à un cours qui n'a pas été réussi. Une telle répétition ou un tel remplacement ne sera permis qu'une seule fois dans le programme de l'étudiant. Si une note moindre que B est obtenue dans un cours répété ou dans un cours de remplacement, le candidat devra se retirer du programme.
- Lorsque le Comité administratif aura établi, après avoir consulté le candidat, ses enseignants et son directeur de projet, le cas échéant, que le travail du candidat n'atteint toujours pas un niveau satisfaisant, il pourra demander au Doyen de la Faculté des Arts et au Doyen de Faculté d'Éducation qu'ils recommandent la disqualification du candidat au Doyen des Études supérieures.

Cours

French 6800 Littératures francophones: Théorie et pratique

French 6810 Cultures francophones: Théorie et pratique

Education 6100 Research Designs and Methods in Education

Education 6390 Research and Development in Teaching and Learning Studies

Education 6392 Project in Teaching and Learning Studies

Education 6668 Current Issues in Second Language Education

Education 6669 Graduate Seminar in Second Language Education

Education 6673 Second Language Teaching, Learning and Curriculum (les étudiants ne peuvent recevoir de crédit et pour Education 6673 et pour Education 6665 ou 6667)

Autres cours de cycle supérieur offerts par la Faculté d'Éducation et le Département d'études françaises et hispaniques jugés appropriés par le Comité administrative.

9 Regulations Governing the Degree of Master of Business Administration

Professor and Dean

W. Zerbe

Assistant Professor and Director of Graduate Programs (Business)

P.A. Coady

The Degree of Master of Business Administration (M.B.A.) is offered by full-time or part-time study. These regulations must be read in conjunction with the **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland.

9.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission to the Master of Business Administration program, an applicant shall normally hold at least a Bachelor's Degree, with a minimum 'B' standing, from an institution recognized by Senate. Qualified applicants with relevant employment experience will normally receive preference during the evaluation of applications. Applicants must achieve a satisfactory total score on the Graduate Management Admission Test (GMAT), as well as an appropriate balance of verbal and quantitative GMAT score components. Specific information regarding test centres, dates, registration procedure and deadlines can be obtained by contacting the Graduate Management Admission Council at www.mba.com. Qualified applicants with relevant employment experience will normally receive preference during the evaluation of applications.
2. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who present a high GMAT score, have a minimum of 10 years of full-time managerial and executive experience, and have completed several years of university studies. The Faculty may also take into account relevant professional credentials. Applicants who do not meet normal admission requirements may be required to complete, with a high level of achievement, certain undergraduate courses before being considered for admission.
3. When circumstances warrant, and only on the strong recommendation of the Faculty of Business Administration, consideration may be given to candidates who do not meet some of the above requirements.
4. Applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete either the:
 - a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher); or
 - b. International English Language Testing System (IELTS) and achieve a score of 7 (or higher).

Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

9.2 Deadlines for Applications

Applications and all supporting documents must be received not later than May 1 from Canadian applicants wishing to enter full-time or part-time studies in the Fall semester. Full-time and international applicants are normally considered for entry in the Fall semester. International applicants must submit complete documentation by March 1. Part-time applicants planning to enter in the Winter (January) or Spring (May) semester must apply prior to October 15 and January 15 respectively. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

9.3 Procedure for Admission

1. Applications for admission to the M.B.A. program must be made on the appropriate form to the School of Graduate Studies.
2. The following documents must be submitted in support of the official application form:
 - a. Letters of appraisal from two referees, at least one of whom has had close professional contact with the applicant within the last two years, and at least one of whom is capable of appraising the applicant's academic potential as a graduate student.
 - b. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.
 - c. The official GMAT score report, to be sent directly by the Graduate Management Admission Council. The code number for Memorial University of Newfoundland is LTT-6W-51.
 - d. Where applicable, an official TOEFL or IELTS score report (or another equivalent test acceptable to the School of Graduate Studies), to be forwarded directly by the educational testing service.
 - e. Application files are evaluated only when all required items have been received.
3. Admission shall be by the Dean of the School of Graduate Studies on the recommendation of the Faculty of Business Administration. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.B.A. program, applicants must give written notice to the School of Graduate Studies of their intention to register. Such notice must be received by the Office of the Dean within 30 days of notification of acceptance, or three weeks prior to semester registration.

9.4 Direct Entry and Advanced Standing

1. Students who have an undergraduate degree in business with significantly high academic standing will be considered for direct entry into the second year of the M.B.A. Program. Their course load will be 8107, 8209, 8208; 3 credit hours chosen from 9005, 9020, 9306, 9325, or 9326 or another approved International course; plus 18-credit hours in electives from the schedule of M.B.A. electives listed in Table III. Direct entry will normally be considered if the undergraduate business degree with significantly high academic standing was awarded within seven years of the year for which admission to the M.B.A. program is being sought. The Faculty's Committee on Course Based Masters Programs reserves the right to require additional courses where there are noted deficiencies in a student's undergraduate record.
2. The Faculty's committee on Course Based Masters Programs may recommend advanced standing for students who do not qualify for direct entry at the time of admission to the M.B.A. program. Advanced standing for any 8000 level M.B.A. course would normally require that the student had achieved a grade of 75% or better at Memorial University of Newfoundland in undergraduate courses required for advanced standing. Courses will normally be considered for advanced standing if they are part of a degree that has been awarded within seven years of the year in which admission to the M.B.A. program is being sought. Advanced standing will not be granted for 8001, 8107, 8208, 8209 and 8203.
3. The following information must be submitted to the M.B.A. Program Office, Faculty of Business Administration, for evaluation by the Committee:
 - a. a detailed course outline for each course to be considered in the application for advanced standing;
 - b. a description of the method of evaluation used in each such course, the grades received, and the completion dates.
4. Students who enter the M.B.A. program with previous graduate degrees may be granted transfer credit for two non-business, non-specified elective courses by the Faculty's Committee on Course Based Masters Programs. The remaining electives will be chosen from courses offered by the Faculty of Business Administration. This does not apply to students with degrees such as the LLB and Medical Doctor degrees that are not master's degrees. Courses will normally be considered for advanced standing if they are part of a degree that has been awarded within seven years of the year for which admission is being sought.

9.5 Programs of Study

1. The programs of study include:
 - a. a 60 credit hour all-course program for candidates entering with an undergraduate degree in any area other than business. Thirty-six credit hours in program courses are required courses and are specified in Table I; the remaining 24 credit hours in program courses are electives chosen in accordance with the electives noted below. It is noted that of the 24 credit hours in electives candidates are required to complete 3 credit hours in the area of international business chosen from 9005, 9020, 9306, 9325, 9326 or another approved International course.
 - b. a 48 credit hour thesis option program for candidates entering with an undergraduate degree in any area other than business. Thirty-six credit hours in program courses are compulsory and are specified in Table I; the remaining 12 credit hours in program courses shall consist of 9103, 9 credit hours in courses agreed upon by the student and his or her Supervisor, plus a thesis. Additional courses, which may enhance the research area of the candidate, may be recommended by the Supervisor to the Graduate Research Programs Committee.
 - c. a 30 credit hour all-course program for direct entry candidates. Twelve credit hours of the program courses are required and are specified in Table II; the remaining 18 credit hours for candidates in the all-course program are electives chosen in accordance with the electives noted below.
 - d. a 18 credit hour thesis option program for direct entry candidates. Courses shall normally consist of the following 12 credit hours: 8107, 8208, 8209 and 9103, and 6 credit hours in courses agreed upon by the student and his or her Supervisor, plus a thesis. Additional courses, which may enhance the research area of the candidate, may be recommended by the Supervisor to the Graduate Research Programs Committee.
2. Electives in the all-course programs may be chosen from the following:
 - a. approved business electives as listed in Table III;
 - b. up to 6 credit hours in courses from other graduate programs within the School of Graduate Studies, as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration;
 - c. a Research Project or projects, which may be assigned up to 9 credit hours, as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration;
 - d. any other course or project deemed to be of satisfactory content and rigour as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration.
3. The Faculty's Committee on Course Based Masters Programs reserves the right to restrict candidates from taking particular M.B.A. courses if it is deemed that those courses do not add sufficient value beyond courses that the candidate has completed at the undergraduate level.
4. Students are required to observe certain approved co- or prerequisites in scheduling their courses. These are indicated in Table V.
5. Students shall successfully complete the requirements of Business 8103 as part of the first 36 credit hours of their programs.
6. Changes to a student's prescribed program, including the specified course load, may have the prior approval of the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration.

9.6 Evaluation

1. The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business courses. In addition, the standing of every student will be assessed by the Committee on Course Based Masters Programs in accordance with the requirements outlined in all the clauses below.
2. Credit towards the M.B.A. Degree will be granted only for those courses which have been approved as constituting part of the student's program of study and in which the candidate has obtained a mark of 65% or higher.
3. A candidate is required to withdraw from the M.B.A. program if a final grade of 'F' is obtained in any course.
4. To remain in the program, a candidate who obtains a final grade of 'C' or 'D' in any course must repeat that course when next offered, and obtain a minimum grade of 'B'. In the case of an elective course, a replacement course approved by the Committee on Course Based Masters Programs may be substituted for the course. Only two such repetitions/replacements shall be permitted in the candidate's graduate program. Should a grade of less than 'B' be obtained in a repeated or replacement course, the candidate shall be required to withdraw from the program.

9.7 Courses

The schedule of courses of the curriculum and elective courses are as follows:

Table I - Master of Business Administration Schedule of Required Courses

8103 Statistical Applications in Management	8204 Human Resource Management or B8210 Labour Relations
8104 Organizations: Behaviour and Structure	8205 Information Systems
8106 Marketing	8206 Managerial Finance
8107 Managing Ethics and Responsibility	8207 Operations Management
8108 Economics for Business	8208 Strategic Management
8109 Accounting for Management	8209 Leadership and Interpersonal Skills for Managers

Table II - Master of Business Administration Schedule of Required Courses - Direct Entry

8107 Managing Ethics and Responsibility	one course in the area of international business (9005, 9020, 9306, 9325, 9326 or another approved international course)
8208 Strategic Management	
8209 Leadership and Interpersonal Skills for Managers	

Table III - Master of Business Administration Schedule of M.B.A. Electives

8001-005 Special Topics	9311 Seminar in Human Resource Management
8202 Advanced Managerial Accounting	9312 Financial Management
8203 Management Science	9314 Business and Taxation Law
9001-9019 Special Topics (excluding 9013)	9315 Advanced Financial Accounting
9013 Collective Agreement Administration and Arbitration	9316 Information Systems Management
9020 International Human Resource Management	9317 Current Topics in Management
9021 Data Management	9318 Marketing Communications Management
9022 Information Systems Analysis and Design	9320 Investments and Portfolio Management
9023-9050 Special Topics (excluding 9030)	9322 Strategic Management of Technology and Innovation
9030 International and Comparative Industrial Relations	9323 Financial Forward, Futures, and Options Markets
9103 Research in Management	9324 Gender, Work and Organizations
9301-03 Research Project	9325 Accessing International Markets
9306 International Strategic Management	9326 International Finance
9308 New Venture Creation	9328 Change Management
9309 Marketing Management	9329 Labour Law
9310 Management Science Applications	

Two graduate electives from programs in other Faculties and Schools in the School of Graduate Studies.

Table IV - Master of Business Administration Course Restrictions

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Replaces Course	Present Course	Replaces Course
8107	9201	9321	8210
8108	8101 or 8201	9324	9004
8109	8102 or 8202	9325	9005
8207	9319	9326	9010
8208	9101	9327	9007

Table V - Master of Business Administration Prerequisite/Co-requisite

Course	Prerequisite/Co-requisite*	Electives	Prerequisite/Co-requisite*
Required Courses		8203	Nil
8103	Nil	8204	8104 or admission to the MER program
8104	Nil	8210	Nil
		9013	Nine courses completed including 8210 or 8210 plus admission to the MER program
8106	Nil	9020	Nine courses completed including 8205 or admission to the MER program
8107	Nil	9021	Nine courses completed including 8205
8108		9022	Nine courses completed including 8205
		9030	Nine courses completed including 8210
8109	Nil	9103	Nine courses completed including 8103
8205	Nil	9301	Nine courses completed
8206	8103*, 8108*, 8109	9302	Nine courses completed plus 9301*
8207	8103, 8108*	9303	Nine courses completed plus 9301* and 9302*
8208	8103, 8104, 8106, 8108, 8109, 8205*, 8206*, 8207*	9306	Nine courses completed including 8103, 8104, 8106, 8108, 8109, 8205, 8206, 8207, 8208
8209	8104 or admission to the MER program	9308	Nine courses completed including 8106, 8109
		9309	Nine courses completed including 8106
		9311	Nine courses completed including 8104, 8204 or admission to the MER program
		9312	Nine courses completed including 8103, 8108, 8109, 8206
		9314	Nine courses completed including 8103, 8108, 8109, 8206 or admission to the MER program
		9316	Nine courses completed including 8205
		9317	Nine courses completed
		9318	Nine courses completed including 8106
		9320	Nine courses completed including 8103, 8108, 8109, 8206
		9322	Nine courses completed including 8103, 8104, 8106, 8108, 8109, 8205, 8206, 8207, 8208*
		9323	Nine courses completed including 8103, 8108, 8109, 8206, 9320
		9324	Nine courses completed including 8104 or admission to the MER program
		9325	Nine courses completed including 8106
		9326	Nine courses completed including 8103, 8108, 8109, 8206
		9328	Nine courses completed including 8104 or admission to the MER program
		9329	Nine courses completed including 8210 or 8210 plus admission to the MER program

Note: All 9000-level courses require the prior completion of nine courses, including any specific prerequisites or co-requisites unless otherwise specified.

10 Regulations Governing the Degree of Master of Education

Associate Professor and Dean

K. Anderson

Associate Professor and Associate Dean

T. Seifert

The Master of Education (M.Ed.) is offered in the following areas: Educational Leadership Studies, Curriculum, Teaching and Learning Studies, Counselling Psychology, Post-Secondary Studies and Information Technology.

In addition, a Master of Arts and Education (Education and Francophone Literatures and Cultures), jointly offered by the Faculty of Education and the Faculty of Arts, Department of French and Spanish, is available for candidates who wish to specialize in the study and teaching of French.

In the case of the following general program regulations and the specific program regulations, which govern all Master of Education Degree programs, Dean refers to the Dean of Graduate Studies, Dean of Education refers to the Office of the Dean, Faculty of Education, and Faculty refers to the Faculty of Education, through its various operating committees.

Students taking any of the Master of Education Degree programs are advised that a Bachelor of Education Degree is required for employment in the K - 12 system.

10.1 Qualifications for Admission

1. Admission to the Master of Education is limited and competitive. To be considered for admission to a graduate program in

Education, an applicant shall:

- a. have from a recognized institution, either (i) an undergraduate degree with at least second class standing, or (ii) an undergraduate degree and an average of at least 70% in the last 90 attempted undergraduate credit hours.
 - b. meet the requirements set forth in the specific program regulations.
2. Only in exceptional circumstances, and only on the recommendation of the Dean of Education, shall the Dean consider applicants who do not meet the requirements in 1.
 3. Please refer to **Specific Programs** regulations for additional admission requirements.

10.2 Program of Study

1. Candidates for the Master of Education (Educational Leadership Studies, Curriculum, Teaching and Learning Studies) shall be required to complete a minimum of:
 - a. 18 credit hours plus a thesis; or
 - b. 24 credit hours plus an internship report, a project report or a paper folio; or
 - c. 30 credit hours on the comprehensive-course route.

Candidates for the Master of Education (Post-Secondary Studies) shall be required to complete a minimum of:

- a. 18 credit hours plus a thesis; or
- b. 24 credit hours plus an internship; or
- c. 30 credit hours on the comprehensive-course route.

Candidates for the Master of Education (Counselling Psychology) shall be required to complete a minimum of:

- a. 30 credit hours (which include an internship) plus a thesis; or
- b. 36 credit hours (which include an internship) on the comprehensive-course route.

Candidates for the Master of Education (Information Technology) shall be required to complete a minimum of:

- a. 18 credit hours plus a thesis; or
- b. 30 credit hours on the comprehensive-course route.

2. Candidates may apply for transfer of course credits. All course transfers require the approval of the Dean, on the recommendation of the Dean of Education, and are subject to General Regulation, **Program Requirements**, **Transfer of Course Credits** of the School of Graduate Studies.
3.
 - a. A candidate with full-time status may register for a maximum of 12 credit hours in any regular semester and a maximum of 6 credit hours in intersession or summer session.
 - b. A candidate with part-time status may register for a maximum of 3 credit hours in any semester or session, excluding summer session, when 6 credit hours are permitted.
 - c. Candidates may register for additional courses in a semester or session with the permission of the Office of the Associate Dean of Graduate Programs in Education.
4. Before submission of the proposal for thesis, project, internship, or paper folio, a Supervisory Committee shall be recommended by the Dean of Education, in consultation with the candidate, and approved by the Dean. The Supervisory Committee shall consist of the Supervisor and at least one other member.

The function of the Supervisory Committee shall be to approve the proposal for the thesis, project, internship, or paper folio, and to exercise supervision in the conduct of the study on behalf of the Faculty, subject to the final approval of the Dean.

10.3 Period of Study

The period of the study for a graduate program shall not normally exceed six years beyond first registration. Completion of some program components may require full-time study on the University campus.

10.4 Evaluation

1. In order to continue as a candidate for the Master of Education Degree, a candidate who receives a final grade of 'C' in any program course must repeat that course and obtain a minimum grade of 'B'. In the case of an elective course a suitable replacement course, acceptable to the Faculty, may be substituted for the failed course. Only one such repetition/replacement shall be permitted on the candidate's graduate program. Should a grade of less than 'B' be obtained in the repeated course, replacement course, or any other program course, the candidate shall be required to withdraw from the program.
2. When the Faculty has determined, through consultation with the candidate, the instructors of graduate courses, and the program advisor or thesis Supervisor that the candidate's work has fallen below satisfactory level, it may request that the Dean of Education recommend to the Dean that the candidate's program be terminated.

10.5 Thesis

See School of Graduate Studies General Regulation, **Theses and Reports**.

10.6 Program Regulations

Every candidate in graduate studies shall comply with the School of Graduate Studies **General Regulations**, the Degree Regulations **Program of Study**, and the specific program regulations as outlined in **Specific Programs**.

10.7 Appeals and Waivers Procedures

Candidates are advised that appeals and waivers of any regulations governing the Degree of Master of Education are governed by School of Graduate Studies General Regulations **Provision For Waiver of Regulations** and **Appeal Procedures**.

10.8 Specific Programs

10.8.1 Educational Leadership Studies

Educational Leadership Studies is designed to prepare candidates for leadership in Education.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**,

- a. students must have completed a range and number of courses in Education deemed appropriate by the Faculty and Dean of Education.
- b. a minimum of two years of teaching/leadership experience is recommended.

2. Program Requirements

- a. all students in the Master of Education Program (Educational Leadership Studies) must complete:
 - 6100 Research Designs and Methods in Education
 - 6204 Educational Administration: Theory and Practice
 - 6205 Educational Policy: Theory and Practice and one of the following:
 - 6 credit hours (thesis route) within closed electives as listed in e. below
 - 9 credit hours (internship, paper folio, project, comprehensive course route) within closed electives as listed in e. below
- b. students on the thesis route must complete at least one of the research courses listed below (6100 is prerequisite):
 - 6466 Qualitative Research Methods
 - 6467 Quantitative Research Methods
 - 6468 Critical Approaches to Educational Research
 - 6469 Theoretical and Methodological Foundations of Action Research
- c. students on the comprehensive-course route must complete 6290 Research and Development Seminar in Educational Leadership Studies. Normally students would be permitted to register for this course only after all other course requirements have been met, or during the student's last semester of studies.
- d. to meet total credit hour requirements students may choose electives from any university graduate offering provided that those chosen are appropriate to the student's program:
 - students on the thesis route must complete a total of at least 18 credit hours
 - students on the internship, paper folio, or project route must complete a total of at least 24 credit hours and the appropriate course option 6291 Internship in Educational Leadership Studies (6 credit hours), 6292 Project in Educational Leadership Studies (6 credit hours), or 6293 Paper Folio in Educational Leadership Studies (6 credit hours)
 - students on the comprehensive-course route must complete a total of at least 30 credit hours
- e. students choosing the Mathematics Education specialization within Curriculum, Teaching and Learning Studies must complete 6630 Critical Issues in Mathematics Education prior to completing other Mathematics Education specialty courses.
- f. Closed electives are those listed below:
 - 6202 Social Context of Educational Leadership
 - 6203 Leadership: Theory and Practice
 - 6321 Supervisory Processes in Education
 - 6330 Educational Finance
 - 6335 Legal Foundations of Educational Administration
 - 6410 Seminar on Philosophical Issues in Educational Policy and Leadership
 - 6420 Ethical Issues and Perspectives in Educational Practice and Policy
 - 6425 Comparative Perspectives in Public Education, Reform, and Leadership
 - 6426 Computer Applications in Educational Administration
 - 6427 School Community Partnerships
 - 6440 Family-School Relations: Leadership and Policy Implications
 - 6465 School Violence: Leadership and Policy Implications
 - 6664 Seminar in School Improvement
 - 6710 Issues in Development and Implementation of Special Education Policy and Practices

Courses must be appropriate to the program and chosen in consultation with the advisor.

10.8.2 Curriculum, Teaching and Learning Studies

The Master of Education in Curriculum, Teaching and Learning Studies provides opportunities for students to investigate pertinent issues in these interrelated areas from a variety of perspectives: philosophical, historical, social, cultural, cognitive, and technological. The conceptual bases of curriculum, teaching, and learning are explored and analysed along with related examples of historical and current policies and practices. The program encourages the development of broad-based insights into issues related to these areas through an emphasis on critical inquiry and reflective practice. It supports students in the development and enhancement of research capabilities and professional expertise and practice.

Students may choose between two program options in Curriculum, Teaching and Learning Studies:

Option One

Students may choose to specialize in one of a number of areas of study: Computers in Education, Language and Literacy Studies, Mathematics Education, Music Education, Science Education, Second Language Education, Social Justice Education, Social Studies Education, Special Education and Teacher-Librarianship.

Option Two

In consultation with a faculty advisor, students may choose to design a program speciality which addresses their research interests. Specialty foci within Curriculum, Teaching, and Learning Studies are numerous and may include technology and web-based education, arts education, rural and multi-age education. Students may alternatively select appropriate courses from other Master of Education program offerings to develop a program to meet their learning goals. Students interested in this option are strongly encouraged to explore and to focus their research and study interests and to discuss these interests with a faculty advisor.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**,

- a. students must have completed a range and number of courses in Education deemed appropriate by the Faculty and Dean of Education.
- b. a minimum of two years of teaching or related experience is recommended.
- c. for a specialization in special education, a completed Bachelor of Special Education Degree or equivalent is required and enrolment will be limited to applicants articulating a research focus for which appropriate thesis supervision is available.

2. Program Requirements

- a. all students in the Master of Education Program (Curriculum, Teaching and Learning Studies) shall be required to complete:
 - 6100 Research Designs and Methods in Education
 - 6300 Teaching and Learning
 - 6602 Curriculum Studies
- b. students on the thesis route must complete at least one of the research courses listed below (6100 is prerequisite):
 - 6466 Qualitative Research Methods
 - 6467 Quantitative Research Methods
 - 6468 Critical Approaches to Educational Research
 - 6469 Theoretical and Methodological Foundations of Action Research
 - 6909 Narrative Approaches to Teaching, Learning and Research
 - and at least 2 courses from any university graduate offering provided that those chosen are appropriate to the student's program
- c. students choosing Option One on the internship, paper folio, project route, and comprehensive-course route must complete at least 2 courses within one particular specialty area from the list in **Core speciality courses in the study of curriculum, teaching and learning areas** below.
- d. students choosing Option Two must choose courses that have been designated through consultation with faculty advisor during the first semester of studies in this program.
- e. students choosing the Mathematics Education specialization within Curriculum, Teaching and Learning Studies must complete 6630 Critical Issues in Mathematics Education prior to completing other Mathematics Education specialty courses.
- f. students choosing the Special Education specialization within Curriculum, Teaching and Learning Studies must complete a thesis and at least two of the required Special Education specialty courses.
- g. students on the comprehensive-course route must complete one of the following courses: E6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies or E6394 Biographical Explorations of Teaching and Learning or E6913 Practitioner Inquiry/Participatory Action Research. Normally students would be permitted to register for one of these courses only after all other course requirements have been met, or during the student's last semester of studies.
- h. to meet total credit hour requirements students may choose electives from any university graduate offering provided that those chosen are appropriate to the student's program:
 - students on the thesis route must complete a total of at least 18 credit hours
 - students on the internship, paper folio, or project route must complete a total of at least 24 credit hours and the appropriate course option 6391 Internship in Curriculum, Teaching and Learning Studies (6 credit hours), 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours), or 6393 Paper Folio in Curriculum, Teaching and Learning Studies (6 credit hours)
 - students on the comprehensive-course route must complete a total of at least 30 credit hours
- i. **Core speciality courses in the study of curriculum, teaching and learning areas:**

Computers in Education

6610 Research on Computers in the Curriculum
6620 Issues and Trends in Educational Computing

Language and Literacy Studies

6106 Popular Culture and Literacy Education
6108 Literacy and Language Education: Sociocultural Perspectives
6641 Writing in the Primary, Elementary and Secondary Schools
6642 Developmental Reading (K-8)
6643 Contemporary Issues in Intermediate and Secondary English
6645 Literature for Children and Adolescents
6647 Diagnosis and Remediation of Reading and Writing Difficulties
6649 Exploring Multiple Literacies
6693 Literacy for the Young Child in Home and School

Mathematics Education

6630 Critical Issues in Mathematics Education
6634 Teaching and Learning to Solve Mathematics Problems (prerequisite E6630)
6639 Technology and the Teaching and Learning of Mathematics (prerequisite E6630)

Music Education

6502 Contexts of Music Education
6503 Teaching Music from the Podium
6504 Musicianship, Pedagogy, and Learning

Science Education

6653 Contemporary Issues in Science Education I
6655 The Nature of Science and Science Education
6658 Teaching and Learning Scientific Concepts, Laws, and Theories

Second Language Education

6668 Current Issues in Second Language Education
6669 Graduate Seminar in Second Language Teaching and Learning

6673 Second Language Teaching, Learning and Curriculum
6674 Research in Second Language

Social Justice Education

6105 Social and Cultural Difference and Education
6106 Popular Culture and Literacy Education
6108 Literacy and Language Education: Sociocultural Perspectives
6440 Family School Relations: Leadership and Policy Implications
6465 School Violence: Leadership and Policy Implications
6468 Critical Approaches to Educational Research
6909 Narrative Approaches to Teaching, Learning and Research
6913 Practitioner Inquiry/Participatory Action Research (prereq. 6469)

Social Studies Education

6670 Teaching and Learning Social Studies
6671 Research in Social Studies Education
6672 Issues and Trends in Social Studies

Special Education

6710 Issues in Development and Implementation of Special Education Policy and Practices
6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents
6714 Principles and Practices in Exceptionality
6755 Nature and Assessment of Learning Disabilities

Teacher-Librarianship

6662 Seminar in Teacher-Librarianship
6664 Seminar on School Improvement

Additional courses in the speciality areas are available.

10.8.3 Counselling Psychology

The mission of the program in Counselling Psychology is to prepare highly knowledgeable, skilled, dedicated, and ethical professional practitioners, who will endeavour to enhance human potential throughout the life span and who can effectively practice within a variety of settings.

The Counselling Psychology faculty promotes counselling as an effective, viable means of assisting individuals throughout the life span. The counselling psychologist, regardless of his or her theoretical stance or work setting, functions as a change agent who is sensitive to and knowledgeable about the range of human development reflected in individual differences and cultural and linguistic diversity. Effective and positive change is brought about by assisting clients to: examine and modify their behaviour for more effective living; cope with, adjust to, or otherwise negotiate the environments affecting their psychosocial well-being; and effect change in the larger society.

The practice of Counselling Psychology is based on theory and research, an understanding of ethical practices, and a set of professional and interpersonal skills. It is essential that graduate students study a variety of conceptual frameworks and research findings as preparation for collaborative work with other helping professionals, paraprofessionals, and a variety of self-help groups.

The Counselling Psychology faculty, while representing a range of views, agree that the uniqueness of the individual and his or her personal strengths must be acknowledged and respected. To fully explore professional issues and personal values, a trusting and open atmosphere must be present.

Individuals from a wide variety of personal, social, and educational backgrounds are encouraged to apply to the Counselling Psychology program. The program provides a broad-based sequence of studies and supervised experiences that will prepare graduate students to be knowledgeable and skilled practitioners who can function in a variety of settings. By the time they have completed this program, students will have acquired knowledge and competencies in the following general areas: individual and group counselling theory and techniques, legal and ethical aspects of counselling, human development and learning, social, cultural, and linguistic diversity, career education and counselling, program development and implementation, measurement and appraisal, research and program evaluation, and application of current technology service delivery in rural areas.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**, students:

- must have completed Education 3210, Introduction to Counselling.
- should have completed at least one undergraduate course on each of the following topics: statistics (Education 2900), assessment (Education 3280, 3290, 3950, 3955 or 4950), introduction to career education (Education 3211), introduction to exceptionality (Education 3220 or 3230), (Or their equivalent)

Note: Many of these courses are prerequisites to specific graduate courses and must be completed before taking those courses.

- should normally have at least one year of teaching (or related work) experience.
- must submit a resume that contains a concise rationale for the application (500 words or less) and three letters of recommendation (preferably one from each of the following: previous university instructors, supervisors, or employers).
- should note admission is selective and controlled by an admission committee of faculty members involved in the program. An interview may be required if deemed necessary.
- should note the Graduate Record Examination may be required.

2. Program Requirements

- all students in the Master of Education (Counselling Psychology) program shall be required to complete:

6100 Research Designs and Methods in Education (Prerequisite: Education 2900)
6702 Counselling: Theory and Practice (Prerequisite: Education 3210)
6706 Career Education and Career Counselling (Prerequisite: Education 3211)
6708 Group Counselling: Theory and Practice (Prerequisite: Education 6702)
6700 Ethical and Legal Issues in Counselling
6720 Internship in Counselling Psychology (Prerequisite: Normally completion of all courses) (9 credit hours)

- Students on the thesis route must complete the core courses listed above (24 credit hours) as well as a minimum of 6 credit hours from the closed electives indicated below for a total of 30 credit hours.
- Students on the comprehensive-course route must complete the core courses listed above (24 credit hours) as well as a minimum of 6 credit hours from the closed electives and 6 credit hours from any university graduate offering provided that those chosen are appropriate to the student's program for a total of 36 credit hours.

- d. All students in the Counselling Psychology program must complete 6720. The Internship may be fulfilled full-time or part-time and must comprise 600 clock hours with 240 hours of direct service with clients. It cannot be completed as part of your regular employment. It is strongly recommended that students take no other course during the full-time internship.
- e. Closed electives are those listed below:
 - 6703 Personal and Professional Development Group
 - 6705 Nature and Development of School Counselling Services
 - 6707 Assessment for Counsellors
 - 6709 Assessment of Intelligence and Learning Skills (Prerequisite: 3600 or its graduate equivalent 6707. Normally, students in Counselling Psychology will not enroll in this course until the latter part of their program). Candidates intending to pursue a career in the K-12 school system in Newfoundland and Labrador are urged to take this course and the prerequisite.
 - 6710 Issues in Development and Implementation of Special Education Policy and Practices
 - 6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents
 - 6713 Educational Applications of Contemporary Cognitive Psychology
 - 6714 Principles and Practices in Exceptionality
 - 6716 Working with Families and Parents
 - 6717 Counselling Adolescents
 - 6718 Elementary School Counselling
 - 6719 Cultural Issues in Counselling
 - 6802 Adult Learning and Development

Notes: 1. Student membership in the Canadian Counselling Association (CCA) or other appropriate professional organizations is strongly recommended for all students in the program.

2. Students who plan to work in the school system should be aware of the Department of Education regulations to be eligible to work as a school counsellor.

3. Students who plan to become registered psychologists in Newfoundland and Labrador should review the requirements of the Newfoundland Board of Examiners in Psychology.

10.8.4 Post-Secondary Studies

The graduate programs in Post-Secondary Studies are designed to prepare candidates to function in a variety of roles in informal and formal post-secondary learning environments (including academic, technical, professional, adult education, health professional education, and student services/development). These programs facilitate a study of the post-secondary educational systems through an examination of their foundations, directions, organization and administration; and through curriculum and instructional development options for occupational preparation and adult education.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**,

- a. Candidates must have completed an undergraduate course in statistics (Education 2900), and post-secondary education (Education 2720), or have accumulated the equivalent experiences in each of the above two areas as approved by the Head of the Academic Unit;
- b. two years of successful experience in working with adult learners is recommended;
- c. and for the Graduate Diploma in Post-Secondary Studies (Health Professional Education) program, candidates must have appropriate academic qualifications and work experience in a health-related field.

2. Program Requirements (M.Ed.)

- a. Candidates for the Master of Education (Post-Secondary Studies) are required to complete courses that form the program core.
 - i. 6100 Research Designs and Methods in Education
 - ii. 6801 Foundations of Post-Secondary Programs
 - iii. 6802 Adult Learning and Development
 - iv. 6803 Research in Post-Secondary Education
 - v. and not fewer than 6 credit hours from closed electives in g. below.
- b. Students holding the Graduate Diploma in Post-Secondary Studies (Health Professional Education) and accepted in the Master of Education (Post-Secondary Studies) will complete up to 12 fewer credit hours dependent upon the chosen program route and the completion date of the Graduate Diploma.
- c. Students on the comprehensive-course route must complete 6890 Research and Development Seminar in Post-Secondary Studies.
- d. Students on the internship route must complete 6891 Internship in Post-Secondary Studies (6 credit hours).
- e. Normally, students will be permitted to register for 6890 and 6891 only after all other course requirements have been met.
- f. To meet total credit hour requirements students may choose courses from other graduate offerings within the Faculty, the University, or other universities provided the courses chosen are appropriate to the student's program. Students on the thesis route must complete a total of at least 18 credit hours; and those on the internship or comprehensive-course route a total of at least 30 credit hours.
- g. Closed electives are those listed below:
 - 6804 Leadership and Human Resource Development in Post-Secondary Education
 - 6805 Advanced Human Resource Communications
 - 6806 Interprofessional Education in the Health Professions
 - 6807 Economics and Finance of Post-Secondary Education
 - 6822 Foundations of Instructional Design in Post-Secondary Education
 - 6823 Principles of Program Design and Development
 - 6832 Issues and Trends in the Administration of Post-Secondary Education
 - 6841 Student Development Theory, Services and Programs in Post-Secondary Education
 - 6940 Administration of Student Services in Post-Secondary Education

3. Program Requirements for Graduate Diploma in Post-Secondary Studies (Health Professional Education)

The Graduate Diploma in post-secondary studies, specialization in health professional education, which was created in collaboration with the Centre for Collaborative Health Professional Education, is designed to enhance health professionals' abilities as educators and leaders in educational program design, development, evaluation and administration. The Graduate Diploma is intended for educators and educational leaders of formal and informal post-secondary health professional education programs.

Participants will engage in an in-depth study of the structure and organization of the post-secondary education system, theories and philosophies of adult learning and development; and through elective courses pursue studies of program development models, instructional design frameworks, evaluation and assessment techniques, teaching methods, and research design principles in post-secondary teaching and learning. Opportunities will exist for the guided study of these topics as they relate to health professional education.

- a. Candidates for the Graduate Diploma in Post-Secondary Studies (Health Professional Education) are required to complete courses that form the program core.
 - i. 6801 Foundations of Post-Secondary Programs
 - ii. 6802 Adult Learning and Development
 - iii. 6806 Interprofessional Education in the Health Professions
 - iv. and not fewer than 3 credit hours from closed electives in 2. g. above or from:
 - 6100 Research Designs and Methods in Education
 - 6803 Research in Post-Secondary Education
- b. Students are encouraged to relate their assignments in these courses to health professional education.
- c. Students enrolled in the Graduate Diploma program may request transfer to the Master of Education (Post-Secondary Studies). Courses for both the Graduate Diploma and the Degree must be appropriate to the program and chosen in consultation with the student's advisor.

10.8.5 Information Technology

The graduate program in Information Technology is offered in partnership with Cape Breton University (CBU). It is designed to facilitate the educational use of information technology in a wide variety of settings. The program will be of interest to educators at all levels including K-12 teachers, school administrators, those in the post-secondary system, business and industry, as well as those in most other adult learning situations.

Information technology in this Master of Education program encompasses computer, communications, networking and multi-media applications. The overall intent of the program is to:

- provide educators with skill sets and pedagogical expertise that will enable them to address computer and related information technology in a teaching/learning situation;
- develop potential information technology leaders for the educational system;
- develop instructional designers, for a variety of educational settings, who are able to combine information technology with learning theory to enhance curriculum development and delivery;
- provide a basis for the continued professional development of educators in the area of information technology;
- develop an awareness of the applications of information technology in a wide variety of educational contexts; and
- develop research expertise and potential in the use and application of information technology for teaching and learning purposes.

Candidates for the program will have attained, prior to acceptance, some fundamental knowledge and skills with respect to information technology through pre-requisite experiences, and have attained a recognized undergraduate degree in an appropriate discipline with at least a second class standing (see specific regulations for details). The program components are designed to enable candidates to build on their prior experience through the development of pedagogical links and information technology applications. It is intended that the program be offered primarily as a part-time program through distance delivered courses, with other delivery formats to be considered/ utilised where feasible. Access to specific computer hardware, software, and the Internet is required and will be the responsibility of each candidate.

A steering committee comprised of three members from each of the Faculty of Education at Memorial University of Newfoundland and the Institute for Education at CBU is responsible to the Associate Dean of Graduate Programs and Research, Faculty of Education, for selected aspects of the program. The latter include assessing student applications, recommending approval of instructors who are not regular faculty members at either CBU or Memorial University of Newfoundland, and recommending course or program changes. This committee is to be co-chaired by the Associate Dean of Graduate Programs and Research, Faculty of Education, Memorial University of Newfoundland and the Director of the Institute for Education at CBU, or their designate(s).

CBU courses offered as part of this program are indicated by the prefix "CBU EDU" followed by the specific course number.

1. Admission Requirements

Admission to the program is competitive and selective. In addition to meeting the requirements in the School of Graduate Studies **General Regulations**, Faculty of Education, Memorial University of Newfoundland, candidates must have successfully completed:

- a. one of a diploma or certificate in information technology from an accredited institution; CBU EDU 530; Memorial University of Newfoundland E2751 and E3751; or equivalent as determined by the program steering committee.

Selection into the program is determined by an applicant's profile which would normally include such criteria as previous academic performance, related work experience, and relevant information technology experience. More detailed information may be found at www.mun.ca/educ/grad/infotech.php.

2. Program Requirements

- a. all candidates for the Master of Education (Information Technology) must complete E6100 Research Designs and Methods in Education.
- b. candidates on the thesis route must complete:
 - three credit hours from:
 - 6610 Research on Computers in the Curriculum
 - 6615 Educational Software Prototyping and Evaluation
 - 6620 Issues and Trends in Educational Computing
 - nine credit hours selected from the core elective CBU courses approved for this program:
 - CBU EDU 5101 Assessment of Software and Information Technology Applications for Education
 - CBU EDU 5103 Integration of Instructional Design and Information Technology
 - CBU EDU 5104 Applications of Learning Theory in Educational Multi-media Design
 - CBU EDU 5105 Designing Web-based Learning
 - CBU EDU 5106 Technology Planning for Educational Environments
 - CBU EDU 5107 Information Management for Educational Environments
 - three credit hours from: 6822, 6823, 6802, E6426, or from other Memorial University of Newfoundland, Faculty of Education

graduate course offerings as deemed appropriate for each candidate's program and approved by the program steering committee.

- c. candidates on the comprehensive-course route must complete:
 - i. six credit hours selected from E6610, E6615, E6620
 - ii. twelve credit hours selected from CBU EDU 5101, EDU 5103, EDU 5104, EDU 5105, EDU 5106, EDU 5107
 - iii. E6590 Research and Development Seminar in Information Technology in Education
 - iv. three credit hours from E6822, E6823, E6802, E6426, or from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate for each candidate's program and approved by the program steering committee
 - v. additional credit hours appropriate to a candidate's program, and approved by the program steering committee, to be chosen from graduate course offerings at Memorial University of Newfoundland, CBU, or any other university to complete the required 30 credit hours for the comprehensive-course route
- d. normally, candidates will be permitted to register for E6590 only after all other course requirements have been met.
- e. candidates who have successfully completed the CBU graduate level Certificate in Education (Technology) will be given advanced standing credit for the 9 CBU EDU course credit requirements for the thesis route or 12 CBU EDU course credit requirements for the comprehensive course-route on this program.
- f. candidates who have successfully completed the former CBU EDU 534 and/or EDU 543 with at least a CBU grade of B (70%) toward the CBU graduate level Certificate in Education (Technology) prior to September 2000, will receive up to 12 advanced standing credit hours appropriate to their Degree option (EDU 534 will be considered equivalent to EDU 5101 and EDU 5103, and EDU 543 equivalent to EDU 5104 and EDU 5105).
- g. thesis-route candidates will be subject to **Theses and Reports** of the School of Graduate Studies, Memorial University of Newfoundland, supervised by a faculty member at Memorial University of Newfoundland, and where feasible co-supervised by a CBU faculty member.

10.9 Courses

A selection of the following graduate courses shall be offered to meet the requirements of candidates, as far as the resources of the Faculty allow:

6100 Research Designs and Methods in Education
 6105 Social and Cultural Difference and Education
 6106 Popular Culture and Literacy Education
 6107 Arts Education: Creativity in the Classroom
 6108 Literacy and Language Education: Sociocultural Perspectives
 6202 Social Context of Educational Leadership
 6203 Leadership: Theory and Practice
 6204 Educational Administration: Theory and Practice
 6205 Educational Policy: Theory and Practice
 6290 Research and Development Seminar in Educational Leadership Studies
 6291 Internship in Educational Leadership Studies (6 credit hours)
 6292 Project in Educational Leadership Studies (6 credit hours)
 6293 Paper Folio in Educational Leadership Studies (6 credit hours)
 6300 Teaching and Learning
 6321 Supervisory Processes in Education
 6330 Educational Finance
 6335 Legal Foundations of Educational Administration
 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies
 6391 Internship in Curriculum, Teaching and Learning Studies (6 credit hours)
 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours)
 6393 Paper Folio in Curriculum, Teaching and Learning Studies (6 credit hours)
 6394 Biographical Explorations of Teaching and Learning
 6410 Seminar on Philosophical Issues in Educational Policy and Leadership
 6420 Ethical Issues and Perspectives in Educational Practice and Policy
 6425 Comparative Perspectives in Public Education, Reform, and Leadership
 6426 Computer Applications in Educational Administration
 6427 School Community Partnerships
 6440 Family-School Relations: Leadership and Policy Implications
 6465 School Violence: Leadership and Policy Implications
 6466 Qualitative Research Methods
 6467 Quantitative Research Methods
 6468 Critical Approaches to Educational Research
 6469 Theoretical and Methodological Foundations of Action Research
 6502 Contexts of Music Education
 6503 Teaching Music from the Podium
 6504 Musicianship, Pedagogy, and Learning
 6590 Research and Development Seminar in Information Technology in Education
 6600 Learning and Motivation
 6602 Curriculum Studies
 6603 Place, Ecology and Education
 6610 Research on Computers in the Curriculum (Prerequisite: 6620)
 6615 Educational Software Prototyping and Evaluation
 6620 Issues and Trends in Educational Computing
 6630 Critical Issues in Mathematics Education
 6632 Current Research in Teaching and Learning of Elementary School Mathematics (Prerequisite: 6630)
 6634 Teaching and Learning to Solve Mathematics Problems (Prerequisite: 6630)
 6635 Teaching and Learning Geometry
 6636 Teaching and Learning the Concept of Number and Operations
 6639 Technology and the Teaching and Learning of Mathematics (Prerequisite: 6630)
 6641 Writing in the Primary, Elementary and Secondary Schools

- 6642 Developmental Reading (K-8)
 6643 Contemporary Issues in Intermediate and Secondary English
 6644 Drama in Education
 6645 Literature for Children and Adolescents
 6646 Literature in the Secondary School
 6647 Diagnosis and Remediation of Reading and Writing Difficulties
 6649 Exploring Multiple Literacies
 6653 Contemporary Issues in Science Education I
 6655 The Nature of Science and Science Education
 6658 Teaching and Learning Scientific Concepts, Laws, and Theories
 6660 Information Technology
 6661 Applications of Media in Education
 6662 Research Seminar in Teacher-Librarianship
 6663 The Organization of Learning Resources
 6664 Seminar in School Improvement
 6668 Current Issues in Second Language Education
 6669 Graduate Seminar in Second Language Teaching and Learning
 6670 Teaching and Learning Social Studies
 6671 Research in Social Studies Education
 6672 Issues and Trends in Social Studies
 6673 Second Language Teaching, Learning and Curriculum (*credit may be obtained for only one of Education 6673, the former 6665 or 6667*)
 6674 Research in Second Language Writing Education
 6675 Current Issues in Rural Education
 6693 Literacy for the Young Child in Home and School
 6700 Ethical and Legal Issues in Counselling
 6701 Issues and Methodologies in Learning and Developmental Research
 6702 Counselling: Theory and Practice
 6703 Personal and Professional Development Group (non-credit)
 6705 Nature and Development of School Counselling Services
 6706 Career Education and Career Counselling
 6707 Assessment for Counsellors
 6708 Group Counselling: Theory and Practice
 6709 Assessment of Intelligence and Learning Skills
 6710 Issues in Development and Implementation of Special Education Policy and Practices
 6711 Behaviour Modification in the Educational Setting
 6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents
 6713 Educational Applications of Contemporary Cognitive Psychology
 6714 Principles and Practices in Exceptionality
 6715 The Theory and Practice of Peer Helping Programs
 6716 Working with Families and Parents
 6717 Counselling Adolescents
 6718 Elementary School Counselling
 6719 Cultural Issues in Counselling
 6720 Internship in Counselling Psychology (9 credit hours)
 6755 Nature and Assessment of Learning Disabilities
 6801 Foundations of Post-Secondary Programs
 6802 Adult Learning and Development
 6803 Research in Post-Secondary Education
 6804 Leadership and Human Resource Development in Post-Secondary Education
 6805 Advanced Human Resource Communications
 6806 Interprofessional Education in the Health Professions
 6807 Economics and Finance of Post-Secondary Education
 6822 Foundations of Instructional Design in Post-Secondary Education
 6823 Principles of Program Design and Development
 6831 Organization and Administration of Student Services for the Adult Learner
 6832 Issues and Trends in the Administration of Post-Secondary Education
 6841 Student Development Theory, Services and Programs in Post-Secondary Education
 6890 Research and Development Seminar in Post-Secondary Studies
 6891 Internship in Post-Secondary Studies (6 credit hours)
 6900-6910 Special Topics (excluding 6909)
 6909 Narrative Approaches to Teaching, Learning and Research
 6911 Multiage Education: An Introduction
 6912-6950 Special Topics
 6913 Practitioner Inquiry/Participatory Action Research (Prerequisite: 6469 Theoretical and Methodological Foundations of Action Research)
 6940 Administration of Student Services in Post-Secondary Education

11 Regulations Governing the Degree of Master of Employment Relations

Professor and Director

T. Brown

The Master of Employment Relations (M.E.R.) is a multi-disciplinary program providing advanced level study of all aspects of the employment relationship.

The M.E.R. program is offered by full-time or part-time study and involves 36 credit hours of course work. Candidates registered on a full-time basis will normally complete the program in one academic year. The following regulations must be read in conjunction with the **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland.

11.1 Administration

1. The program shall be administered by a Director, who reports to the Dean of Graduate Studies. The Director shall be appointed by the Dean of Graduate Studies on the recommendation of the Deans of Arts and Business Administration. In making this recommendation, the Deans of Arts and Business Administration shall consult with the employment relations community both within and outside the University.
2. An Executive Committee consisting of the Director and Deans of Arts, Business Administration, and Graduate Studies will be established to review administrative, resource, and strategic planning issues related to the program. This committee shall be chaired by the Dean of Graduate Studies.
3. The Director shall consult with the Graduate Committee in Employment Relations (GCER) for the purposes of administering the academic elements of the program. The GCER shall normally consist of 11 members appointed by the Dean of Graduate Studies on the recommendation of the Director. The GCER will include the Director, who shall Chair the committee, approximately six faculty members from the Faculties of Arts and Business Administration who teach core courses, the Associate Deans or Directors of Graduate Studies from Arts and Business Administration, as well as one full-time and one part-time student representative.
4. An Advisory Board in Employment Relations (ABER) shall be established for the purposes of consulting with obtaining feedback from the employment relations community. The ABER will consist of a broad cross-section of members from the employment relations community both within and outside the University who shall be appointed by the Dean of Graduate Studies on the recommendation of the Director.

11.2 Qualifications for Admission

1. Admission is limited and competitive.
2. To be considered for admission to the M.E.R. program, an applicant shall have:
 - a. An undergraduate degree, with a minimum B standing, from an institution recognized by Senate; and
 - b. An undergraduate course in organizational behaviour, statistics, and microeconomics, from an institution recognized by Senate, with a minimum B standing in each course.
3. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who have a minimum of 10 years of full-time professional experience, including demonstrated success in employment relations, and who have successfully completed substantial university course work including several courses at an advanced undergraduate level from an institution recognized by Senate. Applicants without an undergraduate degree must have completed one or more undergraduate courses in organizational behaviour, statistics, and microeconomics, from an institution recognized by Senate, with a minimum B standing in each course. Any applicants who do not meet normal admission requirements, may also be required to successfully complete the GMAT or the GRE with an acceptable score and/or additional undergraduate courses before being considered for admission.
4. Applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete either the:
 - a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher); or
 - b. International English Language Testing System (IELTS) and achieve a score of 7 (or higher).
 - c. Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

11.3 Deadlines for Applications

1. Applicants seeking full-time enrolment will normally only be admitted to the program in the Fall (September) semester.
2. Applications must be postmarked no later than February 15 for applicants wishing to enter full-time or part-time studies in the Fall (September) semester.
3. Applications must be postmarked not later than August 15 for applicants wishing to enter part-time studies in the Winter (January) semester.
4. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

11.4 Procedure for Admission

1. Applications for admission to the M.E.R. program must be made on the appropriate form and submitted to the School of Graduate Studies.
2. The following documents must be submitted in support of the official application form:
 - a. Letter of appraisal from two referees, one of whom is capable of appraising the applicant's academic potential as a graduate student, and of whom is capable of appraising the applicant's professional experience and/or actual or likely success in a career in employment relations.
 - b. Two copies of the M.E.R. Employment Experience Information Form.
 - c. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.
3. Application files are normally evaluated after the deadline dates for application noted above and only when all required documentation has been received.
4. Admission shall be by the Dean of Graduate Studies on the recommendation of the GCER. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.E.R. program, applicants must give written notice to the School of Graduate Studies of their intention to register.

11.5 Program of Study

1. The M.E.R. program consists of 36 credit hours of course work as specified in **Table I**. These include 30 credit hours of compulsory courses and 6 credit hours of elective courses. The compulsory courses are comprised of 18 credit hours of core courses specified

in **Table II** and 9 credit hours for a research seminar.

- The compulsory core courses introduce students to the three main areas of study in the program: labour-management relations; human resources management; and labour market and social policy analysis.
- Electives allow students to specialize in one or more of the three main areas of study. Electives must be chosen from the list of approved electives specified in **Table III**. Other courses may be approved and added to **Table III** from time to time by the GCER.
- Candidates are responsible for fulfilling all pre-requisites and may require special permission from the Department offering an elective to enrol in the course.
- The Research Seminar in Employment Relations provides students with both quantitative and qualitative research skills and requires the identification of a research problem, the development and execution of a methodology appropriate to addressing the problem, analysis of results, and completion of final report. The Research Seminar involves 3 credit hours of course work in each of the Fall, Winter and Spring semesters.
- The prerequisites for EMRE 6030 and EMRE 6040 are EMRE 6010 and EMRE 6020. In addition, students will normally complete six M.E.R. courses before registering for EMRE 6030 or EMRE 6040. There are no prerequisites for EMRE 6010 and EMRE 6020 but students are advised to take these courses late in their programs, just before taking EMRE 6030 or EMRE 6040. For the core courses, the prerequisite for BUS1 9329 is BUS1 8210. For the remaining core courses, there are no prerequisites. For the elective courses, Departmental regulations that specify particular courses as prerequisites will apply but the Departmental requirement to have completed a number of courses will not apply.
- A waiver of a core course may be granted by the Dean of Graduate Studies on the recommendation of the Director if the candidate can demonstrate that the material in the course has been substantially covered by other courses taken at this or another recognized university. In such cases, the course must be replaced by another course offered by Memorial University of Newfoundland in consultation with the candidate, and approved by the Director. The maximum number of core courses that can be waived is 3 and all replacement courses must be taken during the candidate's period of enrollment in the program.
- Each student's program of study must be approved by the Director. The Director reserves the right to restrict candidates from taking particular courses if it is deemed that those courses do not add sufficient value beyond courses that the candidate has completed at the undergraduate level.

11.6 Evaluation

- Candidates for the M.E.R. Degree must obtain a grade of B or better in all program courses.
- Candidates who receive a grade of less than B in a program course will be permitted to remain in the program, provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Director and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

11.7 Courses

The schedule of courses for the M.E.R. program is as follows:

Table I - Master of Employment Relations Schedule of Courses

Term I (Fall) Three core courses from Table II One elective from Table III Employment Relations 6010 Research Seminar in Employment Relations I: Quantitative Methods	Term II (Winter) Three core courses from Table II One elective from Table III Employment Relations 6020 Research Seminar in Employment Relations II: Qualitative Methods
Term III (Spring) Employment Relations 6040 Research Seminar in Employment Relations III: Applied Research Project	

Table II - Master of Employment Relations Core Courses

Business Business 8204 Human Resource Management Business 8210 Labour Relations Business 9329 Labour Law Employment Relations Employment Relations 6050 Interpersonal skills in Employment Relations	Arts Economics 6030 Labour Market Economics History 6075 Advanced Studies in Labour and Working-Class History One of: Sociology 6360 Sociology of Work, Sociology 6090 Special Area in Sociology, or Psychology 6402 Group Processes

Note: Students may require special permission from the instructor and/or relevant graduate program administrator prior to enrolling in an elective course.

12 Regulations Governing the Degree of Master of Engineering

Professor and Dean

G. Naterer

Professor and Associate Dean (Graduate Studies)

L. Lye

The degree of Master of Engineering (M.Eng.) is a research-focused degree and may be obtained either through full-time or part-time studies. The M.Eng. degree can be obtained through programs in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Oil and Gas Engineering.

12.1 Qualifications for Admission

To be considered for admission, an applicant shall meet the requirements set out in General Regulation, **Qualification for Admission**, or shall have qualifications and/or engineering experience that is acceptable to the Dean of Graduate Studies and to the Faculty of Engineering and Applied Science.

Admission to the M.Eng. program is limited and competitive. All applicants must meet the minimum qualifications set out in the above paragraph. Decisions on admission, however, will also take into account such things as the applicant's rank in class, referees' assessments, general performance throughout the applicant's undergraduate academic program and the availability of supervisors in the area of the applicant's interest.

Normally applicants will be considered in January for admission to the following September. In special cases applicants may also be considered in April and August. Applications should be made sufficiently far in advance to permit the University to obtain all relevant documents and review the application.

12.2 Program of Study and Research

- Students enrolled in the Master of Engineering program will work in one of the following areas: Civil Engineering; Computer Engineering; Electrical Engineering; Mechanical Engineering; Ocean and Naval Architectural Engineering; and Oil and Gas Engineering.
- A program shall normally consist of:
 - a thesis related to the area of study
 - 12 credit hours from graduate courses with at least 6 credit hours taken from the list of **Core Courses** below
 - Seminar course 9100
 - such other courses as may be required in an individual's program.
- The thesis is to contain the results of a systematic investigation which has been conducted by the candidate under the direction of the Supervisor.
- With the approval of the Dean of Graduate Studies and on the recommendation of the Faculty of Engineering and Applied Science, credit towards the course requirements may be considered for graduate courses previously taken by the student in accordance with the **General Regulations** for course credit transfers.

12.3 Supervision

- Each student shall be assigned to a Supervisor approved by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science.
- The Supervisor shall propose a tentative program of study and topic of investigation which must be approved by the Dean of Graduate Studies acting on the recommendation of the Faculty of Engineering and Applied Science, before the acceptance of a student in the program.
- At the end of each semester, the Supervisor shall report on the student's progress to the Dean of Engineering and Applied Science for onward transmission to the Dean of Graduate Studies.
- A temporary or permanent change of Supervisor for a student already in a program shall be permitted only with the approval of the Dean of Graduate Studies and the Dean of Engineering and Applied Science.
- The Supervisor shall advise the student in the preparation and presentation of a seminar on the student's topic of investigation as described in **Thesis**, 2. below.

12.4 Industrial Internship Option

The Faculty encourages graduate students to undertake internships of work in industry. Internships in industry will permit students either (a) to focus on the practicalities of research projects which have been well defined before the student enters an internship, or (b) to develop and define a research project from problems experienced during the internship. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the Master of Engineering Program may, with the permission of their Supervisor, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies select the Industrial Internship Option. Students approved to pursue this option must satisfy the degree regulations for a Master of Engineering Program. In addition, students in the Industrial Internship Option:

- must take at least 9 credit hours of the courses required for their program on campus; the remaining required courses may be taken on or away from campus; those taken at other universities require pre-approval by the Dean of the School of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science
- shall normally spend 8 to 12 months of their program at an internship in industry
- shall normally spend at least two semesters on campus on a full-time basis as a graduate student at this university
- shall submit a concise progress report to their supervisors, no later than the end of each semester while on an internship

Successful completion of an internship will be indicated by a descriptive notation on the student transcript.

12.5 Fast-Track Option

Students registered in academic term 7 of a Memorial University of Newfoundland undergraduate engineering program are eligible to apply for admission to an M.Eng. fast-track option. The purpose of the option is to encourage students interested in pursuing graduate studies to begin their research-related activities while still registered as an undergraduate student. Normally, to be considered for admission to the option, students must have achieved at least a 70% average over academic terms 1 to 6 of their undergraduate engineering program. While enrolled in the option, a student may complete some of the M.Eng. Degree requirements and, hence, potentially be able to graduate earlier from the M.Eng. program.

Students shall enroll in the M.Eng. fast-track option concurrently with their undergraduate program during the Fall semester prior to academic term 8. Prior to entering the fast-track option, students must apply for and receive an exemption from work term 6. While enrolled in the option a student must be registered in full-time graduate studies during the Fall semester prior to academic term 8; during academic term 8, the student must take a leave of absence from the graduate program. A student enrolled in the fast-track option shall undertake research related to their field of study and shall normally complete at least 3 credit hours from the courses listed for their M.Eng. program in the Fall semester prior to academic term 8.

In the Fall semester following academic term 7, fast-track option students will pay only the graduate fees appropriate to graduate students following plan A of **Fees and Charges** (i.e., the 6 semester plan). In the succeeding Winter semester, while completing academic term 8 of their undergraduate program, fast-track option students will pay only the appropriate undergraduate fees.

Upon completion of their undergraduate program, students may register in the M.Eng. program on a full-time basis. All courses taken as part of their graduate program while enrolled in the M.Eng. fast-track option are credited towards the M.Eng. Degree course credit hour requirements. Courses taken as credit towards a student's undergraduate degree may not be credited towards a student's graduate degree; courses credited towards a student's graduate degree may not be credited towards a student's undergraduate degree. Students who do not complete their undergraduate degree within one year of entering the fast-track option will normally be required to withdraw from their M.Eng. program.

12.6 Course Evaluation

1. In order to continue in the program, a student shall obtain an A or B grade in each course taken for credit.
2. The student's achievement in the program must be to the satisfaction of the Dean of Graduate Studies and the Faculty of Engineering and Applied Science. When it has been determined on the basis of consultations with the student, the course instructors and the Supervisor, that a student's work has fallen below satisfactory level, he/she may be required to withdraw from the program.

12.7 Thesis

1. A student who expects to graduate must inform the Dean of Graduate Studies of this intention at least three months before the University Convocation at which the award of the degree is expected.
2. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the Faculty of Engineering and Applied Science. Any serious deficiencies noticed at this stage should be carefully considered, in consultation with the Supervisor, for rectification.
3. Three copies of the thesis shall be submitted to the School of Graduate Studies through the Faculty of Engineering and Applied Science, in a form and format as specified in the Thesis Guide issued by the School of Graduate Studies and the Presentation of Theses Guide issued by the Faculty of Engineering and Applied Science. A submission which does not meet the specifications will be returned to the candidate.
4. Examiners shall be appointed by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science soon after the student has expressed an intention to submit the thesis.

12.8 Evaluation of Theses

Theses evaluation shall be carried out in accordance with **Theses and Reports** of the **General Regulations** governing all students in the School of Graduate Studies.

12.9 Recommendation for Awarding Degree

When a student has completed all the requirements for the M.Eng. Degree, the Faculty of Engineering and Applied Science shall forward a recommendation to the Dean of Graduate Studies for the award of the Degree.

12.10 Master of Applied Science Programs

The Faculty of Engineering and Applied Science offers the following course-based programs:

12.10.1 Computer Engineering

In addition to the research-focused M.Eng. Degree in Computer Engineering, the Faculty of Engineering and Applied Science offers a course-based program in Computer Engineering leading to a Master of Applied Science Degree in Computer Engineering. For details of program requirements for the M.A.Sc. Degree in Computer Engineering, refer to the regulations governing the Degree of **Master of Applied Science**.

12.10.2 Environmental Systems Engineering and Management

The Faculty of Engineering and Applied Science offers a course-based program in Environmental Systems Engineering and Management. For the details of the program requirements for the M.A.Sc. Degree in Environmental Systems Engineering and Management refer to the regulations governing the Degree of **Master of Applied Science in Environmental Systems Engineering and Management**.

12.10.3 Oil and Gas Engineering

The Faculty of Engineering and Applied Science offers a course-based program in Oil and Gas Engineering. For the details of the program requirements for the M.A.Sc. degree in Oil and Gas Engineering refer to the regulations governing the Degree of **Master of Applied Science in Oil and Gas Engineering**.

12.11 Master of Engineering Management

12.11.1 Engineering Management

See regulations governing the Degree of **Master of Engineering Management**.

12.12 Courses

A selection of the following graduate courses will be offered to meet the requirements of the candidates, as far as the resources of the Faculty will allow.

Required Courses:

9100 Engineering Graduate Seminar (1 credit hour)

Core Courses:

9002 Ocean Engineering Structures
 9015 Ocean Engineering Hydrodynamics
 9110 Advanced Petroleum Production Engineering
 9113 Phase Behaviour of Petroleum Reservoir Fluids
 9114 Advanced Reservoir Engineering
 9115 Safety and Risk Engineering
 9118 Advanced Drilling Engineering
 9121 Advanced Safety, Risk and Reliability Modeling
 9211 Experimental Methods
 9411 Probabilistic Methods in Engineering
 9420 Engineering Analysis
 9496 Modeling and Simulation of Dynamic Systems
 9501 Finite Element Analysis with Engineering Applications
 9505 Structural Dynamics and Vibrations
 9516 Similitude, Modelling and Experimental Data Analysis
 9520 Solid and Structural Mechanics
 9550 Fatigue, Fracture and Corrosion
 9609 Environmental Risk Assessment
 9627 Environmental Systems Engineering
 9816 Antenna Theory
 9821 Digital Signal Processing
 9826 Advanced Control Systems
 9827 Continuous and Discrete-Event Systems
 9834 Advanced Power Electronics
 9847 Computer and Control Methods in Power Systems
 9861 High-Performance Computer Architecture
 9865 Advanced Digital Systems
 9867 Advanced Computing Concepts for Engineering
 9871 Information Theory and Coding
 9874 Software Design and Specification
 9876 Advanced Data Networks
 9901 Fundamentals of Fluid Dynamics
 9902 Advanced Transport Phenomena
 9940 Advanced Robotics

Other Courses:

9022 Marine Geotechnical Engineering
 9052 Ice Properties and Mechanics
 9090/99 Special Topics in Ocean Engineering (excluding 9096)
 9096 Marine and Offshore Ice Engineering
 9111 Well Testing
 9112 Multiphase Flow
 9116 Reliability Engineering
 9117 Offshore Petroleum Geology and Technology
 9119 Compact Process Equipment Design
 9120 Advanced Natural Gas Engineering
 9150-59 Special Topics in Oil and Gas Engineering
 9210 Advanced Engineering Materials
 9390/94 Special Topics in Engineering Management

9440 Optimization Principles in Engineering
 9495/99 Special Topics in Engineering Analysis (excluding 9496)
 9540/49 Special Topics in Mechanics, Structures and Materials
 9560 Applied Remote Sensing
 9601 Environmental Pollution and Mitigation (cross-listed as ENVS 6004)
 9603 Environmental Sampling and Pollutant Analysis (cross-listed as ENVS 6005)
 9605 Water and Wastewater Treatment
 9610/15 Special Topics in Environmental Engineering and Applied Science
 9621 Soil Remediation Engineering
 9622 Environmental Statistics
 9625 Environmental Impacts of Offshore Oil and Gas Operations
 9626 Environmental Management System
 9628 Environmental Laboratory
 9629 Environmental Policy and Regulations
 9630 Pollution Prevention
 9713 Stochastic Hydrology
 9723 Soil Properties and Behaviour (formerly 9720)
 9750 Advanced Topics in Analysis and Design of Reinforced Concrete (formerly 9701)
 9755 Advanced Topics in Precast and Prestressed Concrete (formerly 9702)
 9760/64 Special Topics in Geotechnical Engineering
 9790 Subsea Pipeline Engineering
 9791/99 Special Topics in Civil Engineering
 9802/05 (excluding 9804) Special Topics in Computer Engineering
 9804 Industrial Machine Vision
 9806/09 Special Topics in Communications Engineering
 9815 Electromagnetic Propagation
 9822 Nonlinear Digital Image Processing and Analysis
 9825 Random Signals (formerly 9830)
 9835 Advanced Electric Machines
 9848 Power System Stability (formerly 9812)
 9849 Power System Protection
 9850/53 Special Topics in Power Systems and Controls
 9866 Fault-Tolerant Computing (formerly 9846)
 9868 ASIC Design
 9869 Advanced Concurrent Programming
 9872 Digital Communications
 9873 Image Communications
 9875 Embedded and Real-Time Systems Design
 9877 Computer and Communications Security
 9878 Wireless and Mobile Communications
 9879 Formal Specification and Development
 9880/83 Special Topics in Computer Engineering
 9884/87 Special Topics in Signal Processing
 9888/91 Special Topics in Communications Engineering
 9892/95 Special Topics in Power Systems and Controls
 9896 Renewable Energy Systems
 9897/99 Special Topics in Applied Electromagnetics
 9910 Advanced Manufacturing
 9920 Advanced Concepts in Mechanical Design
 9925 Theory and Design of Mechanical Components and Structures
 9975/99 Special Topics in Mechanical Engineering

* Courses likely to be offered annually on a regular basis. Other courses will be offered if required in a student's program and dependent upon Faculty resources.

13 Regulations Governing the Degree of Master of Engineering Management

13.1 Program of Study

1. The Faculty of Engineering and Applied Science in collaboration with the Faculty of Business Administration offers a program in Engineering Management leading to the degree of Master of Engineering Management (M.E.M.). The program is available on a full-time or part-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and the Faculty of Business Administration and will be administered by a Board of Studies appointed jointly by the Dean of Engineering and Applied Science and the Dean of Business Administration.

13.2 Qualifications for Admission

1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, an applicant shall meet the requirements set out in **General Regulations - Qualifications for Admission, Master's Program** or shall have qualifications and/or engineering experience that is acceptable to the Dean of Graduate Studies and to the Faculty of Engineering and Applied Science.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under **General Regulations - Qualifications for Admission, English Proficiency Requirements**.
4. Applicants will normally be interviewed by representatives of the Board of Studies as part of the admission process.

13.3 Degree Requirements

The degree program requires the completion of 36 credit hours, 6 of which comprise a project course.

1. Students are normally required to complete Engineering 9395, 9396, and 9397, along with 9 additional credit hours from the **Master of Engineering, Core Courses** or the **Master of Engineering, Other Courses** offered for the Master of Engineering program, from which up to 3 credit hours may be taken from undergraduate courses approved for the student's program by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science.
2. Students are normally required to complete Business 8104, 8106, 8109, 8206 and one of the following courses: Business 8103, 8107, 8108, 8204, 8205, 8207, or 8209.
3. Students who have not successfully completed a baccalaureate degree from a recognized university where English is the language of instruction will be required to complete an 8-week English as Second Language course prior to the start of the first regular academic semester and a one semester course covering the Engineering Profession and Communications during the second academic semester.

13.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course must repeat the course in the case of required courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

13.5 Courses

13.5.1 Required Courses

Business 8104 Organizations: Behaviour and Structure
 Business 8106 Marketing
 Business 8109 Accounting for Management
 Business 8206 Managerial Finance
 Engineering 9395 Engineering Management Project (6 credit hours)
 Engineering 9396 Engineering Management Topics
 Engineering 9397 Advanced Modelling and Quality Management

13.5.2 Elective Courses from the Faculty of Business Administration

Business 8103 Statistical Applications in Management
 Business 8107 Managing Ethics and Responsibility
 Business 8108 Economics for Business
 Business 8204 Human Resource Management
 Business 8205 Information Systems
 Business 8207 Operations Management
 Business 8209 Leadership and Interpersonal Skills for Managers

13.5.3 Elective Courses from the Faculty of Engineering and Applied Science

See **Core Courses and Other Courses** under **Master of Engineering**.

13.6 Industrial Internship Option

The Faculty permits graduates students to undertake internships of work in industry. These internships will allow students to either (a) enhance the application of their knowledge and skills within industry, or (b) complete a research project defined by the industry. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.E.M. program may, with the permission of their Board of Studies, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies, select the Industrial Internship Option. Students pursuing this option must satisfy the degree regulations for an M.E.M. program. In addition, students in the Industrial Internship Option:

1. shall normally complete at least 18 credit hours of the courses required for their program with an average of 75% or higher prior to the internship; the remaining required courses may be taken on campus or by distance
2. shall normally spend at least two continuous semesters on campus on a full-time basis as a graduate student at this university
3. shall normally spend 4 to 8 months of their program at an internship in industry
4. shall submit monthly reports to a university supervisor appointed by their Board of Studies, and shall submit a concise progress report to their Board of Studies no later than the end of each semester while on an internship
5. shall normally not opt out once the internship starts.

Successful completion of an internship will be indicated by a descriptive notation on the student transcript.

14 Regulations Governing the Degree of Master of Environmental Science

(see also **Master of Science in Environmental Science**)

Board of Studies

Dr. J. Wroblewski, Department of Ocean Sciences - Chair
 Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
 Dr. B. Chen, Faculty of Engineering and Applied Science
 Dr. R. Chuenpagdee, Department of Geography
 Dr. P. Marino, Head, Department of Biology
 Dr. W. Montevicchi, Department of Psychology
 Dr. L. Tarasov, Department of Physics and Physical Oceanography
 Dr. S. Ziegler, Department of Earth Sciences

14.1 Program of Study

1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science,

the Faculty of Arts, the Faculty of Medicine, and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.

2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

14.2 Qualifications for Admission

Admission is limited and competitive. To be considered for admission applicants shall normally hold a Bachelor's (Honours) degree in Science, Geography or Environmental Science with at least second class standing, or equivalent, or a Bachelor's degree in Engineering from an institution recognized by the Senate or shall have qualifications and/or environmental experience acceptable to the Dean of Graduate Studies and the Board of Studies. The Board of Studies will make recommendations on admission to the Dean of Graduate Studies.

14.3 Degree Requirements

To the extent that resources permit, individual programs will be developed to suit students' interests and needs. However all programs must be approved by the Board of Studies and by the Dean of Graduate Studies. All **General Regulations** of the School of Graduate Studies shall apply to these degrees

1. The Master of Environmental Science (M.Env.Sci.) is a multidisciplinary course-based degree, focussed on environmental issues. The Degree program provides for both multidisciplinary courses and for courses focussed on the student's specific area of interest.
2. The Degree program requires completion of 24 credit hours of either **Option A** or **Option B** and a project report. The project report will be evaluated according to procedures outlined in **General Regulations, Theses and Reports**.

Option A

Students will be required to take a minimum of 15 credit hours in program courses, 9 credit hours of which must be ENVE/ENVS 6000, ENVS 6009 and ENVS 6010 and 6 credit hours from ENVE/ENVS 6001, 6002 and 6003. Students will also be required to take a minimum of 9 credit hours in elective courses approved by the Board of Studies, 6 credit hours of which will normally be selected from graduate courses offered by the Faculty of Science and the Faculty of Engineering and Applied Science. Students are advised to consult with instructors and Faculties regarding necessary prerequisites and availability.

Option B

Students will be required to take a minimum of 15 credit hours in program courses, 9 credit hours of which must be ENVE/ENVS 6000, ENVS 6009, and ENVS 6010 and 6 credit hours from ENVE/ENVS 6001, 6002 and 6003. Students will also be required to take a minimum of 6 credit hours in elective courses approved by the Board of Studies, normally selected from graduate courses offered by the Faculty of Science and Faculty of Engineering and Applied Science. In addition, students will be required to complete the 3 credit hours course ENVS 601W (work term).

ENVS 601W is a work term of one semester duration. Work term placements are arranged by the Division of Co-operative Education in consultation with the Program Chair and the student's Supervisor. The on-site employment supervisor and the Memorial University of Newfoundland Co-op Coordinator evaluate the work term based on the student's performance on the job and on a written work term report submitted by the student. The topic of the work term report must be related to the work experience and will be chosen by the student in consultation with the on-site employment supervisor and the Memorial University of Newfoundland Co-op Coordinator. The student will be permitted to submit a work term report only after the on-site employment supervisor and the Memorial University of Newfoundland Co-op Coordinator determine that the work term has been successfully completed. The work term report may become the basis for the project report for ENVS 6009 (Project) which is required for the M.Env.Sci. Degree. The Program Chair, on the advice of the Memorial University of Newfoundland Co-op Coordinator with input from the on-site employment supervisor, will recommend to the Dean of Graduate Studies a grade of Pass with Distinction, Pass or Fail. In cases where the Memorial University of Newfoundland Co-op Coordinator and the on-site employment supervisor are unable to reach agreement concerning the grade, the final decision lies with the Program Chair. Should a student fail to complete a work term successfully, the graduate student's M.Env.Sci. Supervisor and the Program Chair may submit to the Memorial University of Newfoundland Division of Co-operative Education a proposal for a different work term placement (only once). Or the student may apply to the Board of Studies for a change to the course-based M.Env.Sci. Option A, or to the thesis-based M.Sc. (Environmental Science).

14.4 Courses

ENVE/ENVS 6000 Environmental Science and Technology
 ENVE/ENVS 6001 Earth and Ocean Systems
 ENVE/ENVS 6002 Environmental Chemistry and Toxicology
 ENVE/ENVS 6003 Applied Ecology
 ENVS 6004 Environmental Pollution and Mitigation (cross-listed as ENGI 9601)
 ENVS 6007 Environmental Risk Assessment (cross-listed as ENGI 9609)
 ENVS 6008 Air Pollution (same as ENGI 9624)
 ENVS 6009 Environmental Science Project
 ENVS 6010 Environmental Seminar
 ENVS 6201-6210 Special Topics in Environmental Science
 ENVS 601W Work Term

15 Regulations Governing the Degree of Master of Gender Studies

Associate Professor and Head of the Department

K. Side

15.1 General Information

The Master of Gender Studies degree allows students to examine critically - at an advanced level - how gender shapes our identities, our social interactions and our world. Students will incorporate, into their study, frameworks for thinking about power relations and the ways those relations are shaped and challenged by intersecting constructions of gender, race, class, sexuality, age, ability and nationality.

Faculty members in the Department of Gender Studies bring research expertise and interests in a range of fields, including: citizenship and human rights; corporeal feminism; reproductive rights, auto-biography and life writing; postcolonial and transnational feminisms; and First Nations studies. This master's program offers a thriving environment that draws on the expertise of scholars from a wide range of academic disciplines.

The program is administered by the Department of Gender Studies and the Graduate Studies Advisory Committee.

The Graduate Co-ordinator, on behalf of the Department of Gender Studies, Graduate Studies Advisory Committee, makes recommendations to the Dean of Graduate Studies concerning admission, and financial support for students, and administers all other matters pertaining to the graduate program.

The Master of Gender Studies Degree offers, by full or part-time study, three degree options: thesis, project or internship.

15.2 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission, an applicant will normally hold an Honours Degree or equivalent, and will have a breadth of knowledge in Gender Studies satisfactory to the Graduate Studies Advisory Committee.
2. Applicants who do not have an adequate background in Gender Studies may be required to complete Gender Studies 3005 or Gender Studies 3025 or equivalent normally with a grade of 75% or higher.

15.3 Program of Study

1. Upon admission, each graduate student in the thesis program will be assigned an academic advisor for one year. The supervisory committee, formed prior to the development of the thesis project proposal, will include two supervisors. For students selecting the non-thesis option, one Supervisor will be selected.
2. All candidates are required to complete Gender Studies 6000, 6100, and 6200.
3. Three to 9 additional elective credit hours approved by the Graduate Studies Advisory Committee and the student's supervisor(s) will be required. These elective credit hours will comprise courses selected from graduate courses in cognate academic units, and/or Gender Studies 6300 and/or from the block of special topics courses in Gender Studies 6400-6420.
4. Each student will be required to give a public seminar on her/his thesis research, project or internship after the thesis proposal has been approved and before submission of her/his final thesis/project/internship report.

15.4 Thesis

1. Candidates for the Degree of Master of Gender Studies (thesis option) will be required to complete a minimum of 15 credit hours. Candidates will also be required to complete a thesis.
2. A thesis proposal, approved by the student's supervisors, will be presented to the Graduate Studies Advisory Committee for its approval. The thesis proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate's third semester in the program.
3. The thesis will be evaluated in accordance with the procedures outlined in General Regulation **Theses and Reports** of the School of Graduate Studies.

15.5 Project

1. Candidates for the Degree of Master of Gender Studies (project option) will be required to complete a minimum of 18 credit hours. Candidates will also be required to complete a project.
2. The Master's project must be interdisciplinary in nature and aimed at linking theoretical and practical knowledge by recognizing and articulating a problem relevant to Gender Studies and by developing and justifying theoretical and practical approaches. The project report should consist of the project (e.g. a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) as well as a literature-based rationale, theoretical basis and justification for its use. The length of the written portion of the project should be 40-60 pages. Regardless of the form that the project takes (e.g. a film or video) a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) there must be a written project report.
3. A project proposal, approved by the student's supervisor, will be presented to the Graduate Studies Advisory Committee for its approval. The project proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate's third semester in the program.
4. The project will be evaluated in accordance with procedures outlined in General Regulation **Theses and Reports** of the School of Graduate Studies.

15.6 Internship

1. Candidates for the Degree of Master of Gender Studies (internship option) will complete a minimum of 18 credit hours. Candidates will also be required to complete an internship.
2. Internship placement shall be for one semester. Part-time internships of two semesters will require approval from the proposed agency or institution and the Graduate Studies Advisory Committee.
3. Students, in consultation with their supervisor and the Gender Studies Graduate Co-ordinator, will explore internship options and locate an eligible person to provide field instruction during their internship. Although consideration will be given to all factors affecting the location and type of all Gender Studies internships, the final decision regarding internship rests with the Head, Department of Gender Studies and the Dean of Graduate Studies.
4. Factors affecting the type and location of the internship include: the number of immersion hours per week; the extent to which the intern takes up a trainee, supervisory and/or research role and whether the intern would be working directly or indirectly with clients of the agency or institution.
5. Each internship shall be supervised by a Supervisory Committee of at least three members, including the candidate's supervisor, the field supervisor and Gender Studies Graduate Co-ordinator or her/his delegate.
6. The Supervisory Committee will meet with the intern and field supervisor at least once during the internship period to make an assessment of the nature and quality of the intern's progress, and to approve any modifications to the internship.
7. The internship proposal, approved by the student's supervisor, will be presented to the Graduate Studies Advisory Committee for its approval. The proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate's third semester in the program.

8. Regardless of the form that the internship takes, there must be a written internship report (40-60 pages). When the candidate completes the internship report, the Supervisory Committee will recommend to the Dean of Graduate Studies a grade of pass or fail. A candidate will be permitted to submit an internship report only after the Supervisory Committee has determined that the internship placement has been fully completed.
9. Should the Head, Department of Gender Studies, on the recommendation of the Supervisory Committee, terminate the internship prior to its completion, it may recommend to the Dean of Graduate Studies one of the following:
 - a. submission of a new internship proposal for a different field setting (once only);
 - b. selection of the thesis or project option;
 - c. termination of the student's program.

15.7 Courses

6000 Feminist Theory
 6100 Feminist Epistemologies and Methodologies
 6200 Graduate Seminar in Gender Studies
 6300 Feminism as Community
 6400-6420 Special Topics in Women's Studies

16 Regulations Governing the Degree of Master of Marine Studies (Fisheries Resource Management)

Vice-President (Marine Institute)

G. Blackwood

Associate Vice-President (Marine Institute) Academic and Student Affairs

P. Fisher

16.1 Administration

The programs will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.

An Academic Advisory committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute and two members from other academic units of the University. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee consisting of a cross-section of members with professional expertise related to the fishery, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

16.2 Programs

There are two graduate programs in Fisheries Resource Management: the **Graduate Diploma** and the **Master of Marine Studies**.

16.3 Graduate Diploma

The Graduate Diploma in Fisheries Resource Management provides an opportunity for fisheries professionals to enhance their perspective on fishery issues from a variety of disciplines.

16.3.1 Admission Requirements

To be admitted to the Graduate Diploma in Fisheries Resource Management, a student must be eligible to register in the Master of Marine Studies program (see **Master of Marine Studies, Admission Requirements** below).

16.3.2 Program of Study

The program is offered online and requires successful completion of 18 credit hours of course work selected from the **Courses** section below:

1. 5 core courses (15 credit hours)
2. 1 elective course (3 credit hours) from either **Category A** or **Category B** Electives

16.3.3 Evaluation

Candidates for the Graduate Diploma in Fisheries Resource Management must obtain a grade of B or better in all program courses.

16.4 Master of Marine Studies

The Master of Marine Studies (Fisheries Resource Management) (M.M.S.) is a multi-disciplinary program of study that will provide the candidate with exposure to all dimensions of modern fisheries resource management in an international context. The program is aimed at professionals working in or intending to enter careers in fisheries management. The program is offered online and requires successful completion of either (a) 24 credit hours of course work and a Major Report, or (b) 30 credit hours of course work. Students who have successfully completed the requirements for the Graduate Diploma may elect to continue their program of study in order to earn the Degree.

16.4.1 Admission Requirements

1. Admission to the program is on a competitive basis. To be considered for admission to the program an applicant must normally have an undergraduate degree with a minimum of a high second class standing from an institution recognized by the Senate.
2. In addition to the academic requirements in 1. above applicants will normally have a demonstrated commitment to fisheries through employment or experience in a sector of the fishery, in a regulatory agency or government Department connected to fisheries, in a

non-governmental agency, or through self-employment or consulting activities related to fisheries.

3. The deadlines for submission of applications for candidates wishing to enter studies are as follows:

Fall (September) semester: June 15
 Winter (January) semester: October 15
 Spring (May): semester: February 15

Applications received after listed deadlines will be considered as time and resources permit.

16.4.2 Program of Study

1. Candidates for the Master of Marine Studies (Fisheries Resource Management) shall be required to complete a minimum of either:
 - a. 24 credit hours of course work plus a Major Report on the **Course Work Plus a Major Report Route** completed in accordance with **General Regulation, Theses and Reports** of the School of Graduate Studies. Course work must include the following course selections from the **Courses** section below:
 - 5 core courses (15 credit hours)
 - 1 elective course (3 credit hours) from **Category A** Electives
 - 1 elective course (3 credit hours) from **Category B** Electives
 - 1 elective course (3 credit hours) from either **Category A** or **Category B**
 - b. 30 credit hours on a **Comprehensive Course Route** which must include the following course selections from the **Courses** section below:
 - 5 core courses (15 credit hours)
 - 2 elective courses (6 credit hours) from **Category A** Electives
 - 1 elective course (3 credit hours) from **Category B** Electives
 - 2 elective courses (6 credit hours) from either **Category A** or **Category B**
2. Dependent upon the applicant's academic background, other courses may be required by the Academic Advisory Committee.
3. Transfer of credit for graduate courses completed in other programs at the University or at other institutions recognized by Senate will be considered in accordance with School of Graduate Studies **General Regulations, Transfer of Course Credits**.
4. Those having partially completed the requirements for the degree under 2011-2012 Calendar Regulations may apply to transfer to one of the above program options and will be considered in accordance with the following:
 - a. Those having previously completed all coursework required for the degree, but who have not submitted the Major Report, may satisfy the **Comprehensive Course Route** requirements by successfully completing an additional 6 credit hours of courses as follows:
 - MSTM 6005 (for students who completed the former FRM 6009 to satisfy the 24 credit hours of courses required under previous program regulations, an additional elective course chosen from **Category A** or **B** must be selected in place of this course)
 - One further elective course (3 credit hours) from **Category A** or **B** electives
 - b. Those having previously completed all coursework required for the degree may satisfy the Major Report requirements by successfully completing:
 - MSTM 6001 (or the former FRM 6001)
 - MSTM 6002 (or the former FRM 6002)
 - MSTM 6003 (or the former FRM 6003)
 - MSTM 6004 (or either of the former FRM 6004 or FRM 6005)
 - MSTM 6005 (or the former FRM 6009)
 - a Major Report completed in accordance with **General Regulations, Theses and Reports** of the School of Graduate Studies together with the following course selections from the **Courses** section below:
 - 1 elective course (3 credit hours) from **Category A** Electives
 - 1 elective course (3 credit hours) from **Category B** Electives
 - 1 elective course (3 credit hours) from either **Category A** or **Category B**. The former FRM 6007 and/or FRM 6008 may be used to partially satisfy the elective requirement.
 - c. Those having previously partially completed the coursework required for the degree may satisfy the **Comprehensive Course Route** requirements by successfully completing:
 - MSTM 6001 (or the former FRM 6001)
 - MSTM 6002 (or the former FRM 6002)
 - MSTM 6003 (or the former FRM 6003)
 - MSTM 6004 (or either of the former FRM 6004 or FRM 6005)
 - MSTM 6005 (or the former FRM 6009) together with the following course selections from the **Courses** section below:
 - 1 elective course (3 credit hours) from **Category A** Electives
 - 1 elective course (3 credit hours) from **Category B** Electives
 - 3 elective courses (9 credit hours) from either **Category A** or **Category B**. The former FRM 6007 and/or FRM 6008 may be used to partially satisfy the elective requirement.

16.4.2.1 Course Work Plus a Major Report Route

24 credit hours of course work plus a Major Report completed in accordance with **General Regulations, Theses and Reports** of the School of Graduate Studies. Course work must include the following course selections from the **Courses** section below:

1. 5 core courses (15 credit hours)
2. 1 elective course (3 credit hours) from **Category A** Electives
3. 1 elective course (3 credit hours) from **Category B** Electives
4. 1 elective course (3 credit hours) from either **Category A** or **Category B**

16.4.2.2 Comprehensive Course Route

30 credit hours on the Comprehensive Course Route which must include the following course selections from the **Courses** section below:

1. 5 core courses (15 credit hours)
2. 2 elective courses (6 credit hours) from **Category A** Electives
3. 1 elective course (3 credit hours) from **Category B** Electives
4. 2 elective courses (6 credit hours) from either **Category A** or **Category B**

16.4.3 Evaluation

1. Candidates for the Master's Degree must obtain a grade of B or better in all program courses.
2. Candidates who have received a grade less than a B in a program course will be permitted to remain in the program, provided the course is retaken and passed with a grade of B or better. Alternatively the candidate may, on the recommendation of the Academic Advisory Committee, substitute another graduate course. Only one such repeat or substitution will be permitted in the program.
3. The Major Report will normally be undertaken towards the end of the program. The topic of the report and a faculty Supervisor will be chosen by the candidate in consultation with the Academic Advisory Committee. The report provides an opportunity to synthesise an original perspective on a selected fisheries issue through the examination of appropriate literature and other sources of information. Normally the report will be multi-disciplinary in nature and will result in a document equivalent to a publishable periodical journal article or a consultant's report on a particular issue. It will be assessed in accordance with **General Regulations, Theses and Reports** of the School of Graduate Studies.

16.5 Courses

16.5.1 Core Courses

MSTM 6001 Fisheries Ecology (*Credit restriction: credit may be obtained for only one of MSTM 6001 and the former FRM 6001*)
 MSTM 6002 Fisheries Resource Assessment Strategies (*Credit restriction: credit may be obtained for only one of MSTM 6002 and the former FRM 6002*)
 MSTM 6003 Fisheries Economics (*Credit restriction: credit may be obtained for only one of MSTM 6003 and the former FRM 6003*)
 MSTM 6004 Fisheries Policy and Planning (*Credit restriction: credit may be obtained for only one of MSTM 6004, the former FRM 6004, and the former FRM 6005*)
 MSTM 6005 Overview of World Fisheries (*Credit restriction: credit may be obtained for only one of MSTM 6005 and the former FRM 6009*)

16.5.2 Category A Electives

MSTM 6006 Business Management for Fisheries (*Credit restriction: credit may be obtained for only one of MSTM 6006 and the former FRM 6006*)
 MSTM 6007 Fisheries Technology
 MSTM 6008 Social and Philosophical Issues of Fisheries Management
 MSTM 6009 Current Issues for Sustainable Fisheries
 MSTM 6010 Legal Aspects of Fisheries Resource Management

16.5.3 Category B Electives

MSTM 6022 Communication and Conflict Resolution in a Technical Environment
 MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
 MSTM 6033 Quality Systems
 MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
 MSTM 6039 Sustainability and Environmental Responsibility
 MSTM 6044 Marine Environment Law and Pollution Control
 MSTM 6056 Management for International Development
 MSTM 6071 Management of Aquaculture Technology

17 Regulations Governing the Degree of Master of Maritime Management

Vice-President (Marine Institute)

G. Blackwood

Academic Director

J. Parsons

17.1 Administration

The Master of Maritime Management (M.M.M.) program will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.

An Academic Advisory Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute, one member from the Faculty of Business Administration and one member from another unit of the University. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee, consisting of a cross-section of members with professional expertise related to the maritime sector, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

17.2 Program

The Master of Maritime Management (M.M.M.) is a comprehensive academic program that provides a broad understanding of the structure and operation of organizations and the factors that influence business decisions in the context of maritime-based organizations. It provides a maritime management focus through the development of knowledge and understanding of the nature of technical operations and the factors that have an impact on their success, as well as the ability to apply these concepts within their organizations.

The program is offered online and requires successful completion of either (i) 24 credit hours of course work and a comprehensive project and report (6 credit hours), or (ii) 30 credit hours of course work. Candidates will typically register on a part-time basis, but any who register for full time study may complete the program in three semesters.

17.2.1 Admission Requirements

1. Admission to the program is on a competitive basis. To be considered for admission to the program an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
 - a. a Memorial University of Newfoundland Bachelor of Maritime Studies or Bachelor of Technology, or a comparable undergraduate degree with appropriate maritime sector and business management course work; and
 - b. an appropriate technical knowledge and relevant marine sector employment experience.
2. The deadlines for submission of applications for candidates wishing to enter studies are as follows:

Fall (September) semester: June 15
 Winter (January) semester: October 15
 Spring (May) semester: February 15

Applications received after listed deadlines will be considered as time and resources permit.

17.2.2 Program of Study

1. Candidates for the Master of Maritime Management shall be required to complete a minimum of either:
 - a. Twenty-four credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours); and six elective courses (18 credit hours). Students on the project route will complete MSTM 6101 Project in Maritime Management (6 credit hours).
 - i. **Core Courses (Two to be completed):**

MSTM 6041 Marine Policy
 MSTM 6042 Business of Shipping/Transportation of Goods
 - ii. **Elective Courses (Six to be completed: a minimum of one from Category A and three from Category B):**

Category A
 MSTM 6022 Communication and Conflict Resolution in a Technical Environment
 MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
 MSTM 6030 Principles of Management for Engineering Technology Enterprises
 MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
 MSTM 6039 Sustainability and Environmental Responsibility
 MSTM 6052 Management of Intellectual Property
 MSTM 6054 Technology Assessment

Category B
 MSTM 6027 Coastal and Ocean Environmental Policies
 MSTM 6043 Marine Law
 MSTM 6044 Marine Environment Law and Pollution Control
 MSTM 6045 Port Operations and Management
 MSTM 6046 Information Systems in the Marine Environment
 MSTM 6047 Maritime Security and Event Investigation
 MSTM 6048 Emerging Issues in International Marine Transportation
 MSTM 6049 Maritime Risk Analysis and Management
 MSTM 6050 Maritime Health, Safety, Environment and Quality
 - iii. **Project in Maritime Management**

MSTM 6101 Project in Maritime Management (6 credit hours)

Students will choose a topic in consultation with the Academic Director and will work independently to carry out an in-depth study of a problem or application within the area of maritime management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.
 - b. Thirty credit hours on a course-based route. Course work includes two compulsory core courses (6 credit hours); and eight elective courses (24 credit hours).
 - i. **Core Courses (Two to be completed):**

MSTM 6041 Marine Policy
 MSTM 6042 Business of Shipping/Transportation of Goods
 - ii. **Elective Courses (Eight to be completed: a minimum of two from Category A and four from Category B):**

Category A
 MSTM 6022 Communication and Conflict Resolution in a Technical Environment
 MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
 MSTM 6030 Principles of Management for Engineering Technology Enterprises
 MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
 MSTM 6039 Sustainability and Environmental Responsibility
 MSTM 6052 Management of Intellectual Property
 MSTM 6054 Technology Assessment

Category B
 MSTM 6027 Coastal and Ocean Environmental Policies
 MSTM 6043 Marine Law
 MSTM 6044 Marine Environment Law and Pollution Control
 MSTM 6045 Port Operations and Management

MSTM 6046 Information Systems in the Marine Environment
 MSTM 6047 Maritime Security and Event Investigation
 MSTM 6048 Emerging Issues in International Marine Transportation
 MSTM 6049 Maritime Risk Analysis and Management
 MSTM 6050 Maritime Health, Safety, Environment and Quality

Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.

17.2.3 Evaluation

1. Candidates for the Master of Maritime Management degree must obtain a grade of B or better in all program courses.
2. Candidates who receive a grade of less than B in any course will be permitted to remain in the program provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Academic Director, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

18 Regulations Governing the Degree of Master of Music

Professor and Dean

E. Waterman

Professor and Associate Dean

M. Volk

The Master of Music (M.Mus.) program provides the environment for accelerated advances in comprehension, skills and abilities as a performing musician, music pedagogue or conductor while offering experience in the metier of the contemporary musician. To that end, the School of Music has forged active partnerships with many of the professional music organizations and institutions within the arts community in the greater St. John's region which afford an exceptional range of professional experiences to its graduate students. Included among these partners are the Newfoundland Symphony Orchestra, the Canadian Broadcasting Company, Heritage Canada, the Newfoundland and Labrador Arts Council and many others. Within the areas of specialization offered for the M.Mus., there is considerable flexibility available to further focus the program to meet specific interests and needs.

18.1 Program of Study

The Degree of Master of Music (M.Mus.) is offered by full-time study, normally commencing in the Fall semester. Three areas of specialization are offered:

1. Conducting. Students may focus in choral conducting, instrumental conducting, or a combination of choral and instrumental conducting.
2. Performance. Instruction is offered in voice, piano, organ, flute, clarinet, saxophone, oboe, trumpet, euphonium, trombone, tuba, guitar, violin, viola and cello.
3. Performance/Pedagogy. Instruction is offered in voice, piano, organ, flute, clarinet, saxophone, oboe, trumpet, euphonium, trombone, tuba, guitar, violin, viola and cello.

The specialization of Ethnomusicology is available through the degrees Master of Arts and Doctor of Philosophy. For further information see the section **Regulations Governing the Degree of Master of Arts** and the section **Regulations Governing the Degree of Doctor of Philosophy**, respectively.

18.2 Qualifications for Admission

1. Admission to the program is limited and competitive. The application deadline is December 15 for admission to the following Fall semester. Under special circumstances, applicants may be considered for admission to the Winter semester. For further information, contact the School of Music.
2. To be eligible for consideration for admission, applicants shall meet the requirements set out in **General Regulations for Admission, Master's Program**. Applicants to the M.Mus. will normally hold a Bachelor of Music or equivalent from a recognized university or conservatory. Preference will be given to applicants who hold first class standing in their undergraduate program.
3. In addition to the requirements above, admission is further determined by audition and diagnostic examinations.
 - a. Auditions for September entry are normally held in late February or early March of each year. Check the School of Music website at www.mun.ca/music for dates and locations.
 - b. Applicants to the M.Mus. in Performance or Performance/Pedagogy may submit the audition as a professional quality video recording if they are unable to attend the live auditions. An unedited live performance is preferred. The audition program should display a range of performance styles and repertoire. Applicants should consult the School of Music website at www.mun.ca/music for details on length of audition and appropriate repertoire.
 - c. Applicants to the M.Mus. in Conducting should submit professional quality video recordings of their work with a minimum of two different types of ensembles. These video recordings should include both rehearsals and performances.
 - d. Applicants to all M.Mus. programs will be required to write diagnostic examinations measuring their skills and knowledge in the standard areas of musical literacy. These include music theory and analysis, aural skills, and music history and literature which includes repertoire knowledge in the performance area. Applicants who display deficiencies in any of these areas may still be considered for admission. Once admitted, however, they will be required to take remedial course work in addition to the required program.
 - e. Voice and choral conducting applicants will have language competency assessed during the audition. Students admitted in voice and in choral conducting who lack sufficient background in English, German, French and Italian diction and basic comprehension will be required to take remedial undergraduate course work.
 - f. Further information about the audition requirements, the diagnostic exams and language competency requirements is available at www.mun.ca/music/programs/graduate/admission.php or from the Associate Dean, School of Music.

18.3 Degree Requirements

- The Degree of Master of Music is normally completed in two years of full-time study. Comprehensive examinations are not administered. The normal residency period may, in some instances, be reduced through Summer and Intersession study.
- All candidates for the M.Mus. must complete at least 31 credit hours. Further courses may be required depending on the background of the individual student.
- All candidates must complete:
 - Music Research Methods: Music 6000 (1 credit hour)
 - Music Seminar: Music 6002
 - Career Skills for Musicians: Music 6700
 - Further courses may be required depending on the background of the individual student.
- Candidates in Conducting must complete an additional 24 credit hours according to their area of focus:
 - Choral Conducting
 - Choral Conducting: Music 6310, 6311, 7310
 - Instrumental Conducting: Music 6210
 - Score Study and Analysis: Music 6100
 - Choral Repertoire: Music 6007
 - Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.
 - Instrumental Conducting
 - Instrumental Conducting: Music 6210, 6211, 7210
 - Choral Conducting: Music 6310
 - Score Study and Analysis: Music 6100
 - Orchestral or Instrumental Ensemble Repertoire: Music 6006 or 6008
 - Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.
 - Combined Choral/Instrumental Conducting
 - Instrumental Conducting: Music 6210, 6211
 - Choral Conducting: Music 6310, 6311
 - Score Study and Analysis: Music 6100
 - Ensemble Repertoire: One of Music 6006, 6007, or 6008
 - Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.
- Candidates in Performance must complete an additional 24 credit hours as follows:
 - Principal Applied Study: Music 645A/B, 745A/B
 - Other Applied Study: 3 credit hours from Music 6500-6506, 646A/B
 - Music Pedagogy: Music 6400
 - Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.
- Candidates in Performance/Pedagogy must complete an additional 24 credit hours as follows:
 - Principal Applied Study: Music 647A/B, 747A/B
 - Music Pedagogy: Music 6400 and 6600
 - Pedagogy Internship: Music 6610
 - Electives: 3 credit hours

Master of Music Curriculum Summary Table

Master of Music	Conducting			Performance	Performance/ Pedagogy
Research	6000, 6002			6000, 6002	6000, 6002
Career Skills	6700			6700	6700
Applied	Choral 6210 6310 6311 7310	Instrumental 6210 6211 6310 7210	Combined 6210 6211 6310 6311	645A/B 745A/B 3 credit hours chosen from 646A/B, 6500- 6506	647A/B 747A/B
Complementary	6007 6100	6006 or 6008 6100	one of 6006, 6007, 6008 6100	6400	6400, 6600, 6610
Electives	6 credit hours, of which 3 may be from related disciplines			6 credit hours, of which 3 may be from related disciplines	3 credit hours

18.4 Evaluation

- Candidates must meet all requirements of the **General Regulations** of the School of Graduate Studies.
- Candidates must obtain a grade of at least 65% in all program courses to receive credit for the course toward their program requirements. Candidates who fail to receive 65% or more in a required course must repeat the course. Candidates who fail to receive 65% or more in an elective course must either repeat the course or replace it with another program course. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

3. In addition, failure to receive a grade of 75% or higher in any of Music 645A/B, Music 745A/B, Music 647A/B, Music 747A/B, Music 6210, Music 6211, Music 6310, Music 6311, Music 7210 or Music 7310 will lead to termination of the student's program."

18.5 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the School will allow. All courses are 3 credit hours unless otherwise indicated.

6000 Music Research Methods (1 credit hour)
 6002 Graduate Seminar
 6005 Performance Practice
 6006 Instrumental Ensemble Repertoire
 6007 Choral Repertoire
 6008 Orchestral Repertoire
 6009 Music Literature
 6100 Score Study and Analysis
 6210 Instrumental Conducting I
 6211 Instrumental Conducting II
 6212 Instrumental Conducting Internship I (1 to 3 credit hours)
 6213 Instrumental Conducting Internship II (1 to 3 credit hours)
 6310 Choral Conducting I
 6311 Choral Conducting II
 6312 Choral Conducting Internship I (1 to 3 credit hours)
 6313 Choral Conducting Internship II (1 to 3 credit hours)
 6400 Music Pedagogy
 645A/B Principal Applied Study I (6 credit hours)
 646A/B Secondary Principal Applied Study (4 credit hours)
 647A/B Principal Applied Study I (6 credit hours)
 6500 Chamber Music (2 credit hours per semester. Maximum: 8 credit hours)
 6501 Chamber Music (3 credit hours per semester. Maximum: 12 credit hours)
 6502 Opera Performance (2 credit hours)
 6503 Opera Performance (3 credit hours)
 6504 Chamber Music (1 credit hour per semester. Maximum: 4 credit hours)
 6505 Conducted Instrumental Ensemble (1 credit hour per semester. Maximum: 4 credit hours)
 6510 Seminar in Performance Issues
 6600 Pedagogy Seminar
 6610 Pedagogy Internship I
 6611 Pedagogy Internship II
 6700 Career Skills for Musicians
 6701 Music in the Community (1 credit hour)
 6702 Music in the Community (2 credit hours)
 6703 Music in the Community (3 credit hours)
 6750 Music Industries Internship (2 credit hours)
 7002 Research Paper
 7010 World Music: Music of Asia and Oceania
 7011 World Music: Music of Africa and the Americas
 7012 Canadian Musical Traditions
 7013 Music and Culture
 7017 Folksong
 7018 Jazz and Blues: The Roots of Popular Music
 7210 Instrumental Conducting III
 7310 Choral Conducting III
 745A/B Principal Applied Study II (6 credit hours)
 747A/B Principal Applied Study II (6 credit hours)

19 Regulations Governing the Degree of Master of Nursing

Professor and Dean

J. McFetridge-Durdle

Professor and Associate Dean (Graduate Program and Research)

S. Solberg

19.1 Program

1. The responsibility for the administration of all graduate programs shall reside with the Dean of Graduate Studies.
2. Applicants for the program shall be required to apply for admission to the Dean of the School of Graduate Studies and shall be expected to follow the regulations, policies and practices required of the School. Deadline for receipt of applications should be no later than February 15. If space is available, students who apply after the deadline date may be accepted.
3. The School of Nursing offers a Master of Nursing (M.N.) program with three options: (thesis, non-thesis and nurse practitioner) as well as a Post Masters Nurse Practitioner Graduate Diploma.

19.2 Qualifications for Admission

1. Applicants to the Master of Nursing program in any of the three options listed above must have a baccalaureate Degree in nursing, or an equivalent from an institution recognized by the University and a knowledge of nursing satisfactory to the School of Nursing.
2. Admission to the program is limited and competitive. To be considered for admission, the applicant must have maintained at least a

grade B standing in the baccalaureate program.

3. Applicants are also required to have a minimum of one year's experience in nursing practice, and to have completed an undergraduate nursing research course, and a statistics course normally within the last 5 years such as Statistics 2500 or Education 2900 or their equivalents.
4. Applicants must hold a practising licence from the Association of Registered Nurses of Newfoundland and Labrador or must be currently registered as a practising nurse in another Canadian jurisdiction. Applicants from other countries who do not meet the above criteria will be assessed on an individual basis. However, they must submit proof of registration as a practising nurse (or an equivalency) from their country or jurisdiction.
5. In addition to the above requirements, candidates seeking admission to the MN-Nurse Practitioner Degree option must have two years of clinical experience preferably in their chosen specialty area. As well, candidates must have a letter from a health care agency and a clinical preceptor guaranteeing the candidate a preceptored clinical placement for the final semester of their program.
6. In addition to requirements 1 and 4, candidates seeking admission to the Post Masters Nurse Practitioner Graduate Diploma program must have completed a Masters Degree in Nursing or an equivalent degree with a nursing focus and have two years of clinical nursing experience preferably in their chosen specialty area. As well, candidates must have a letter from a health care agency and clinical preceptor guaranteeing the candidate a preceptored clinical placement for the final semester of their program.
7. Only in exceptional circumstances and only on the recommendation of the School of Nursing shall the Dean of Graduate Studies consider applicants who do not meet admission requirements listed above.

19.3 Registration

See School of Graduate Studies **General Regulations, Registration.**

19.4 Programs of Study

There are three routes offered that lead to a Master of Nursing Degree: 1. Thesis option, 2. Non-thesis option, and 3. Nurse Practitioner option. Normally the program will require two years to complete when taken on a full-time basis.

In addition to the M.N. Degree program, the School of Nursing also offers a Post Masters Nurse Practitioner Graduate Diploma.

19.4.1 Thesis Option

1. Candidates must complete an approved program of study consisting of a minimum of 19 credit hours in graduate program courses and a thesis.

Required courses:

6010 Research in Nursing I: Quantitative Methods

6011 Philosophical and Theoretical Foundations of Nursing

6100 Research in Nursing II: Qualitative Methods

Either 6200 Nursing Individuals and Families through Life Transitions, and N6210 Nursing Therapeutics for Individuals and Families

OR 6220 Concepts for Population-based Nursing, and 6230 Interventions for Population-based Nursing

One nursing elective

2. Candidates shall submit a thesis on an approved subject in which systematic research has been conducted under the direction of a Supervisor recommended by the Dean of the School of Nursing and approved by the Dean of Graduate Studies.
3. The program of each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

19.4.2 Non-Thesis Option

1. Candidates must complete an approved program of study consisting of a minimum of 28 credit hours in graduate program courses and 6 credit hours in a consolidated practicum.

Required courses:

6010 Research in Nursing I: Quantitative Methods

6011 Philosophical and Theoretical Foundations of Nursing

6100 Research in Nursing II: Qualitative Methods

6040 Nursing Informatics

Either 6200 Nursing Individuals and Families through Life Transitions and 6210 Nursing Therapeutics for Individuals and Families

OR 6220 Concepts for Population-based Nursing, and 6230 Interventions for Population-based Nursing

Three of the following courses:

6020 Program Development in Nursing

6031 Education in Nursing

6050 Leadership in Nursing

6060 Policy and Politics in Nursing and Health Care

Other approved electives

One of the following consolidated practicums:

6610, 6611 Practicum in Advanced Clinical Practice

6620, 6621 Practicum in Nursing Administration

6630, 6631 Practicum in Nursing Research/Research Utilization

6640, 6641 Practicum in Health Policy

6650, 6651 Practicum in Nursing Education

The consolidated practicum will normally consist of 300 hours of field experience.

2. The program of each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

19.4.3 Nurse Practitioner Option

1. Candidates must complete an approved program of studies consisting of a minimum of 36 credit hours in graduate program courses and an integrated clinical practice experience, comprising 12 credit hours.

Required courses:

6010 Research in Nursing I: Quantitative Methods (4 credit hours)

6011 Philosophical and Theoretical Foundations of Nursing (3 credit hours)
 6100 Research in Nursing II: Qualitative Methods (3 credit hours)
 6020 Program Development in Nursing (3 credit hours)
 6200 Nursing Individuals and Families through Life Transitions (3 credit hours)
 6210 Nursing Therapeutics for Individuals and Families (3 credit hours)
 6701 Advanced Practice Issues and Role Development (2 credit hours)
 6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
 6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
 6705 Pharmacotherapy and Therapeutics (3 credit hours)

Either one of: 6800 Adult Advanced Clinical Decision Making (4 credit hours), 6802 Family/All Ages Clinical Decision Making (4 credit hours) or, one of: 6803 to 6809 Nursing Specialty Option Courses (4 credit hours)

690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 400 hours of preceptored specialty clinical practice and biweekly seminars) (12 credit hours)

- The program of each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

19.4.4 Post Masters Nurse Practitioner Graduate Diploma

- Candidates with a Master's Degree in Nursing or an equivalent Degree with a nursing focus must complete an approved program of study consisting of a minimum of 21 credit hours in graduate program courses and integrated clinical practice experience, comprising 12 credit hours.

Required courses:

6701 Advanced Practice Issues and Role Development (2 credit hours)
 6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
 6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
 6705 Pharmacotherapy and Therapeutics (3 credit hours)

Either one of: 6800 Adult Advanced Clinical Decision Making (4 credit hours), 6802 Family/All Ages Clinical Decision Making (4 credit hours) or, one of: 6803 to 6809 Nursing Specialty Option Courses (4 credit hours)

690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 400 hours of preceptored specialty clinical practice and biweekly seminars) (12 credit hours)

- Programs for some candidates may exceed the above minimum requirements.
- The program for each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

19.5 Evaluation

- In order to continue in graduate studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each program course.
- If the candidate is in the Non-thesis Option, the candidate must obtain a Pass grade for the practicum component of the program.
- When the Dean of the School of Nursing has determined on the basis of consultation with the candidate, the Associate Dean, Graduate Program and Research, and the thesis or practicum Supervisor, that a candidate has fallen below a satisfactory level, the Dean of the School of Nursing may recommend to the Dean of Graduate Studies that such a candidate be required to withdraw from the program.
- To remain in good standing candidates are required to maintain professional behaviour consistent with the current *Code of Ethics* of the Canadian Nurses Association and, when applicable, the Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans. Candidates who fail to meet this requirement will be required to withdraw from the School of Nursing upon recommendation of the Graduate Studies Committee.

19.6 Thesis

See School of Graduate Studies **General Regulations, Theses and Reports**.

19.7 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the School of Nursing will allow:

6010 Research in Nursing I: Quantitative Methods (4 credit hours)
 6011 Philosophical and Theoretical Foundations of Nursing (3 credit hours)
 6020 Program Development in Nursing (3 credits hours) (Pre or co-requisite: 6011)
 6031 Education in Nursing (3 credit hours) (Not required by students who have completed 6030. Credit may not be obtained for both 6030 and 6031)
 6040 Nursing Informatics (3 credit hours)
 6050 Leadership in Nursing (3 credit hours)
 6060 Policy and Politics in Nursing and Health Care (3 credit hours)
 6100 Research in Nursing II: Qualitative Methods (3 credit hours)
 6200 Nursing Individuals and Families through Life Transitions (3 credit hours) Pre or co-requisite: 6011 (Not required by students who have completed 6400)
 6210 Nursing Therapeutics for Individuals and Families (3 credit hours) Pre or co-requisite: 6200 (Not required by students who have completed 6400)
 6220 Concepts for Population-based Nursing (3 credit hours) Prerequisites: 6011 (Not required by students who have completed 6410)
 6230 Interventions for Population-based Nursing (3 credit hours) Pre or co-requisite: 6220 (Not required by students who have completed 6410)
 6310-6350 Special Topics in Nursing (electives)
 6501-10 Individual Readings and Research in Special Areas
 6610-6611 Practicum in Advanced Clinical Practice (6 credit hours) (Prerequisites: All required and elective courses including 6020 and 6050)
 6620-6621 Practicum in Nursing Administration (6 credit hours) (Prerequisites: All required and elective courses including 6050 and 6060)

6630-6631 Practicum in Nursing Research/Research Utilization (6 credit hours) (Prerequisites: All required and elective courses including 6060)

6640-6641 Practicum in Health Policy (6 credit hours) (Prerequisites: All required and elective courses including 6050 and 6060)

6650-6651 Practicum in Nursing Education (6 credit hours) (Prerequisites: All required and elective courses including 6020 and 6031)

6701 Advanced Practice Issues and Role Development (2 credit hours)

6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)

6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)

6705 Pharmacotherapy and Therapeutics (3 credit hours)

6800 Adult Advanced Clinical Decision Making (4 credit hours)

6802 Family/All Ages Clinical Decision Making (4 credit hours)

One of: 6803 to 6809 Nursing Specialty Option Courses (4 credit hours)

690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 400 hours of preceptored specialty clinical practice and biweekly seminars) (12 credit hours)

20 Regulations Governing the Degree of Master of Philosophy

Programs leading to the Degree of Master of Philosophy (M.Phil.) are offered at present in German Language and Literature, and in the Humanities.

20.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission an applicant shall hold a Bachelor's Degree or its equivalent from an institution recognized by the Senate and shall have a knowledge of his or her proposed field of specialization satisfactory to the Department(s) concerned when interdisciplinary study is intended or to the Board of Studies in the case of the program in Humanities, and to the Dean.
2. Preference will normally be given to applicants who hold an appropriate Honours Degree either from Memorial University of Newfoundland, or from another university whose Honours Degree is of comparable standing. Any other applicant who holds a Bachelor's Degree or its equivalent will be considered for admission provided that:
 - a. the applicant's undergraduate record after the first year shows an average of at least grade B in courses in the proposed field of specialization.
 - b. the applicant's overall undergraduate record after the first year shows an average of at least grade B in all courses taken, and
 - c. the Department or Board of Studies satisfies the Dean that the applicant's work exhibits evidence of academic excellence.

Only in exceptional circumstances, and only on the recommendation of the Department or the Board of Studies, will the Dean consider applicants who do not meet the requirements a. and b. Such applicants, however, must meet the requirement c.
3. An applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the Department(s), or Board of Studies.
4. Applicants whose mother tongue is not English are reminded that a high degree of literacy in English is required of students at the University. In most cases instruction is in English, and examinations are to be written in English. (Language departments, however, give instruction in the pertinent language and often require examinations to be written in that language. In addition, other departments may permit and even require examinations to be written in a language other than English).
5. An applicant may be required to pass a qualifying examination.

Note: Some Departments have particular regulations in addition to these, and applicants are advised to turn to the relevant parts of this Calendar and acquaint themselves with both the **General Regulations** and the regulations of the program in which they are interested.

20.2 Program of Study

1. Every candidate shall read at least 30 credit hours in program courses in one subject or in a combination of closely related subjects as recommended by the Department(s) or Board of Studies, and approved by the Dean.
2. A candidate may be required also to take additional credit hours in program courses, which must be recommended by the Department(s) or Board of Studies, and approved by the Dean.
3. Students registered in the program in Humanities will be required to maintain and submit for evaluation a program Journal (See **Program of Study, 3. of the Regulations for the Degree of Master of Philosophy in Humanities**).
4. No candidate while classified as a part-time student may take more than 6 credit hours in any one semester.
5. No candidate may take more than 9 credit hours in graduate courses in a single semester, nor any credit hours in undergraduate courses at the same time as 9 credit hours in graduate courses; in no case may graduate and undergraduate credit hours combined exceed 12 in any one semester.
6. The course program will culminate in a general comprehensive examination (see **Evaluation - General Comprehensive Examination** below).
7. Every candidate shall be assigned to a tutor recommended by the Department(s) or Board of Studies and approved by the Dean.
8. The Dean may approve an application to transfer from the M.Phil. to the M.A. only when a new integrated program, acceptable to the Dean, is submitted.

20.3 Period of Study

The period of study for the Master of Philosophy Degree shall not normally exceed three years, during which time the candidate shall spend at least two semesters in full-time attendance as a graduate student at this University.

20.4 Evaluation

See also **Evaluation under General Regulations**.

1. Students registered in undergraduate courses shall satisfy examination requirements in these courses.
2. The academic requirements for the Degree of Master of Philosophy shall be met when the candidate has successfully completed all course requirements of the program and has passed a general examination which consists of both written and oral parts. The Dean, on the recommendation of the Department(s) or Board of Studies, shall determine the times and places for general examinations; and, on the recommendation of the Department(s) or Board of Studies, shall appoint examiners, one of whom shall be from outside the Department(s) concerned. In the M.Phil. in Humanities, a program Journal is also required.

20.5 Evaluation - General Comprehensive Examination

1. Each candidate must pass a general comprehensive examination.
2. The examination committee shall be appointed by the Dean on the recommendation of the Department(s) or Board of Studies. The committee shall consist of either three or five members, at least one of whom must come from outside the Department(s) concerned. The candidate shall be informed of the names of the committee well before the examination.
3. The candidate and the tutor will normally agree when the candidate may sit the general comprehensive examination. However, the Department(s) or Board of Studies must accede to the candidate's request to sit a comprehensive examination, except that in no circumstances may a candidate attempt the general comprehensive examination before his or her course program is completed.
4. The schedule for the examination shall be agreed by the candidate, the tutor, and the examining committee, and shall be promulgated by the Dean.
5. The examination shall consist of a written part and an oral part. The time between the written and the oral parts shall normally be from one to four weeks.
6. The oral examination shall be from one to three hours in length, and shall be conducted by the examining committee, and shall be open to the examination committee and to members of the Department(s) or Board of Studies only.
7. A candidate must satisfy the examining committee in both parts of the examination to obtain a pass.
8. The successful completion of the comprehensive examination is the final academic requirement for the Master of Philosophy Degree.

20.6 Departmental Regulations

Every candidate in a graduate program shall comply with any additional program requirements and with the **General Regulations**.

20.7 German

Associate Professor and Head of the Department

E. Warkentin

20.7.1 Program of Study

The degrees of Master of Arts and Master of Philosophy are offered in German Language and Literature and may be taken by full-time or part-time study. No graduate work is offered in Russian at this time.

1. In addition to the general requirements, candidates will be expected to have acquired a superior knowledge of the spoken and written language and may, depending on their academic background and field of specialization, be asked to take advanced undergraduate courses.
2. All candidates will complete at least 15 credit hours and a thesis for the M.A. and at least 30 credit hours for the M.Phil., and the entire program of study and research will normally be of two-years' duration.

20.7.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 German Civilization I
 6001 German Civilization II
 6100 History of the German Language I
 6101 History of the German Language II
 6200 Medieval German Literature I
 6201 Medieval German Literature II
 6300 German Literature, 1500-1700 I
 6301 German Literature, 1500-1700 II
 6400 German Literature of the Enlightenment and Storm and Stress I
 6401 German Literature of the Enlightenment and Storm and Stress II
 6500 German Classicism I
 6501 German Classicism II
 6600 German Romanticism I
 6601 German Romanticism II
 6700 German Realism I
 6701 German Realism II
 6800 German Literature, 1880-1933 I
 6801 German Literature, 1880-1933 II
 6900 Contemporary German Literature I
 6901 Contemporary German Literature II
 7000 Special Subject or Author I
 7001 Special Subject or Author II
 7002-7020 Special Topics in German Studies

Deutsch

Professor und Vorstand der Abteilung

E. Warkentin

Auf dem Gebiet der Germanistik werden die Grade Master of Arts (Magister Artium) und Master of Philosophy (Magister Philosophiae) geboten. Sie können sowohl von voll- wie auch von halbbeitlich Studierenden erworben werden. Auf dem Gebiet der Slawistik wird z.Zt. kein weiterführendes Studium geboten.

1. Ausser den allgemeinen Zulassungsbestimmungen wird von den Kandidaten überdurchschnittliche Kenntnis des Deutschen in Sprache und Schrift erwartet. Ihrer akademischen Vorbildung und ihrem Fachgebiet entsprechend, kann ihnen eventuell geraten werden, gleichzeitig fortgeschrittene Kurse der Unterstufe zu belegen.
2. Für den Master of Arts sind mindestens 15 Kreditstunden zu absolvieren und eine wissenschaftliche Arbeit in Übereinstimmung mit den allgemeinen Zulassungsbestimmungen einzureichen, für den Master of Philosophy sind mindestens 30 Kreditstunden vorgeschrieben. Das ganze Studienprogramm dauert normalerweise zwei Jahre.

Kurse

Von den hier aufgeführten Kursen für Graduierte wird jeweils eine Auswahl angeboten, die sowohl den Anforderungen des Studierenden wie den Möglichkeiten der Abteilung gerecht wird.

6000 Deutsche Kulturkunde I
 6001 Deutsche Kulturkunde II
 6100 Geschichte der deutschen Sprache I
 6101 Geschichte der deutschen Sprache II
 6200 Mittelhochdeutsche Literatur I
 6201 Mittelhochdeutsche Literatur II
 6300 Deutsche Literatur 1500-1700 I
 6301 Deutsche Literatur 1500-1700 II
 6400 Deutsche Literatur der Aufklärung und des Sturm und Drang I
 6401 Deutsche Literatur der Aufklärung und des Sturm und Drang II
 6500 Deutsche Klassik I
 6501 Deutsche Klassik II
 6600 Deutsche Romantik I
 6601 Deutsche Romantik II
 6700 Deutscher Realismus I
 6701 Deutscher Realismus II
 6800 Deutsche Literatur 1880-1933 I
 6801 Deutsche Literatur 1880-1933 II
 6900 Deutsche Gegenwartsliteratur I
 6901 Deutsche Gegenwartsliteratur II
 7000 Wahlthema oder-Autor I
 7001 Wahlthema oder-Autor II
 7002-7020 Wahlthemen in German Studies

20.8 Humanities**Assistant Professor and Director, Board of Studies**

J. Dyer

The Master of Philosophy in Humanities has been designed for students from any discipline. It is directed to students who hold an Honours bachelor's Degree or its equivalent. The object of the M.Phil. in Humanities program is to provide students with an opportunity to see the historical and logical context of their own disciplinary points of view. The program is based on the interaction of a group of students of varying backgrounds and interests studying a common core of texts in a shared set of courses.

The program draws scholarly participation from faculty members in a range of academic disciplines within the School of Graduate Studies. The program is administered by a Board of Studies with membership appointed by the Dean of Arts, chosen from the participating faculty.

Master of Philosophy

In addition to meeting these regulations students must also meet the **General Regulations Governing the Degree of Master of Philosophy**.

This program is offered by the Faculty of Arts, and will draw scholarly participation chosen from those appropriately qualified faculty members wishing to participate, regardless of Department or Faculty affiliation.

20.8.1 Qualifications for Admission

1. Admission is limited and competitive. The number of students admitted to the program will be strictly limited to ensure small classes and maximum student-faculty contact. To be considered for admission an applicant will normally hold an Honours Bachelor's Degree (or equivalent) from an institution recognized by the Senate, and will have a breadth of knowledge in one or more of the Humanities disciplines satisfactory to the Board of Studies, and to the Dean.
2. Applicants who do not hold an Honours Degree (or equivalent) will be required to complete, prior to admission, a number of undergraduate courses, the nature and number of which will be determined on the basis of the applicants' undergraduate record by the Director of Studies in consultation with the Board of Studies. Candidates will be required to complete such designated pre-admission courses with a minimum overall average of 70%.

20.8.2 Administration

1. The program will be administered by a Board of Studies, the members of which will be appointed by the Dean of Arts chosen from the participating faculty.
2. There will be a Director of Studies who will be an *ex officio* of the Board of Studies and will make recommendations to the Dean concerning admission, financial support for students, and all other matters pertaining to the program.
3. Responsibility for the allocation of teaching and the support of related research will be managed by agreement between the Deans of the appropriate Faculties, the Heads of Departments of participating faculty members, and the Director of Studies, in consultation with the Dean of Graduate Studies.
4. The Board of Studies will be empowered to secure external grant funding where appropriate, and to manage all related administrative and financial matters as necessary.

20.8.3 Program of Study

1. Every candidate shall normally read 30 credit hours in the 10 regulation courses listed below.
2. With permission of the Director of Studies, a candidate may elect to substitute up to two of these courses with courses from other graduate programs in this University. Attendance in other programs requires the permission of the departments involved. (See also School of Graduate Studies General Regulation **Program Requirements, Transfer of Course Credits** which allows for further transfer of credits already taken but not yet applied to a graduate degree.)
3. Every candidate shall be required to maintain and submit a program Journal which will be monitored and evaluated by the Board of Studies. The Journal will comprise the candidate's critical reflections arising out of analyses of designated key themes common to the several disciplines which constitute the program.

20.8.4 Comprehensive Examination

1. Each candidate must pass a general comprehensive examination.
2. The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies. The Committee shall normally consist of three members. One member of the Committee is normally the tutor. The candidate shall be informed of the names of the committee well before the examination.
3. The candidate and the tutor will normally agree when the candidate may sit the general comprehensive examination. However, the Board of Studies must accede to the candidate's request to sit a comprehensive examination, except that in no circumstances may a candidate attempt the general comprehensive examination before his or her course program is completed.
4. The schedule for the examination shall be agreed by the candidate, the tutor, and the Examining Committee, and shall be promulgated by the Dean.
5. The examination shall consist of a written part and an oral part. The time between the written and the oral parts shall normally be from one to four weeks.
6. The program journal is an extended paper or series of linked papers which analyses and reflects critically on issues encountered by the candidate during the course of the program. Papers and/or projects completed during courses may be incorporated into the program journal, but shall not, of themselves, constitute the entire journal.
7. The oral examination shall be from one to three hours in length, shall be conducted by the Examining Committee, and shall be open only to the Examination Committee, members of the Board of Studies and members of the Departments concerned.
8. A candidate must satisfy the Examining Committee in both parts of the examination to obtain a pass.
9. The successful completion of the comprehensive examination is the final academic requirement for the Master of Philosophy Degree.

20.8.5 Courses

6000 Speaking and Writing I
 6001 Speaking and Writing II
 6010 Readings in History I
 6011 Readings in History II
 6020 Readings in Western Literature I
 6021 Readings in Western Literature II
 6030 Readings in Philosophy I
 6031 Readings in Philosophy II
 6040 Readings in Science and Technology
 6041 Seminar in Humanities

21 Regulations Governing the Degree of Master of Physical Education

Associate Professor and Dean

A. Card

Professor and Associate Dean

D. Behm

The Degree of Master of Physical Education (M.P.E.) is offered by full-time and part-time study. Part-time study is available through Internet-based distance education technology.

21.1 Qualifications for Admission

1. Admission is limited and competitive. The deadline for receipt of applications is March 1 for admission into the subsequent Fall semester. To be considered for admission an applicant shall normally hold a Bachelor's Degree in Physical Education, Recreation and Leisure Studies or a related discipline, with at least second class standing, from an institution recognized by Senate. In addition to the above, preference will be given to applicants with work experience, obtained either through Cooperative Education programs or through employment deemed appropriate.
2. Any other applicant who holds a Bachelor of Physical Education or Recreation and Leisure Studies Degree or its equivalent may be considered for admission provided that:
 - a. the applicant's undergraduate record after the first year shows an average of at least grade B in physical education and/or recreation and leisure studies courses, OR
 - b. the applicant has raised his/her overall academic standing to second class following the completion of the undergraduate degree, through the successful completion of an approved pattern of undergraduate courses.
3. Only in exceptional circumstances and only on the recommendation of the School of Human Kinetics and Recreation shall the Dean of Graduate Studies consider applicants who do not meet these admission requirements.

21.2 Program of Study and Research

1. The Degree of Master of Physical Education is offered under three options:

Option i. The program shall consist of a minimum of 15 credit hours in graduate courses plus a thesis. The thesis shall be on an approved subject in which systematic research has been conducted by the candidate under the direction of the Supervisor.

Option ii. The program shall consist of a minimum of 15 credit hours in graduate courses plus a project report. The project shall be on an approved subject in which action-research has been conducted by the candidate under the direction of the Supervisor.

Option iii. The program shall consist of a minimum of 24 credit hours in graduate courses plus a comprehensive examination in the candidate's major area of study.
2. The candidate's major area of study shall be Administration, Curriculum and Supervision in Physical Education.
 In conjunction and collaboration with other Faculties and Schools of Memorial University of Newfoundland, students may pursue their special interests through an interdisciplinary course of study. The student's interests may be accommodated through individual reading and research in these special areas.
3. The required courses for the degree shall normally include:

Option I: HKR 6500, one of 6000 or 6001, 6120, plus two of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus thesis)

Option ii: HKR 6500, one of 6000 or 6001, 6120, plus 3 of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus project)

Option iii: HKR 6500, one of 6000 or 6001, 6120, plus 5 of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus comprehensive examination)

Equivalent courses may be substituted from other Faculties or Schools subject to the approval of the School of Human Kinetics and Recreation Graduate Studies Committee. In addition, all on-campus candidates shall be required to complete four semester-length seminar courses (HKR 6510-6513). Off-campus or part-time candidates who cannot attend the on-campus seminar series can substitute 24 hours of participation (over their two year tenure) and present once at national, provincial or regional conferences, workshops, professional development seminars or equivalent activities.

21.3 Evaluation

1. Candidates must obtain an A or B grade in each program course. In accordance with General Regulation **Evaluation, Evaluation of Graduate Students** only one course may be repeated.
2. When the Dean has determined, on the basis of consultation with the candidate and the instructors, that a candidate's work has fallen below a satisfactory level, he or she may recommend to the Dean of Graduate Studies that the candidate be required to withdraw from the program.

21.4 Thesis and Project Report

1. A student completing a Master of Physical Education thesis option will be required to present a thesis proposal for his or her proposed thesis normally by the end of the third semester. The thesis proposal shall normally consist of a full written proposal (including literature review) submitted to the Supervisory Committee, a summary to be distributed to graduate students and faculty one week prior to the presentation and a formal presentation normally at the seminar series. The candidate may be questioned on his/her proposal by the Supervisory Committee and seminar audience. Any deficiencies noted during the presentation should be carefully considered by the student and the Supervisory Committee prior to proceeding with the thesis.
2. Evaluation of the thesis or project report shall be governed by School of Graduate Studies **General Regulations, Theses and Reports**. The thesis or project report shall normally be evaluated by two examiners approved by the Dean.
3. When the thesis or project report has been completed to the satisfaction of the Dean, the Dean shall recommend that the candidate be awarded the degree.

21.5 Comprehensive Examinations

1. Candidates electing to qualify for the Degree under Option iii must write a comprehensive examination. The comprehensive examination shall examine the candidate's ability to integrate and apply material from all course work completed during study for the Degree. The candidate may be required to appear for an oral examination.
2. The comprehensive examination shall normally be constructed and evaluated by an examining committee of three examiners, at least two of whom shall be faculty members of the School of Human Kinetics and Recreation appointed by the Dean on the recommendation of the Dean of the School.
3. A candidate may not write the examination before completing the course work for the Degree.

Note: Every candidate in graduate studies shall comply with the **General Regulations**, the Degree Regulations and any additional requirements of the Department.

21.6 Courses

6000 Quantitative Methods in Physical Education
 6001 Qualitative Research Methods in Physical Education
 6002 Scientific and Cultural Foundations of Physical Education
 6003 Physical Education, Culture and Society
 6110 Physical Education, Recreation and Sport Management
 6111 Canadian Delivery Systems in Physical Education, Recreation and Sport
 6120 Curriculum Development in Physical Education
 6121 Physical Education Leadership
 6122 Comprehensive School Health
 6123 Coaching and Long-term Athlete Development in the Education System
 6124 Adapted Physical Activity for Persons with Physical and Intellectual Disabilities
 6125 Evaluation and Testing in Physical Education
 6130 Computer Applications in Physical Education
 6410 Sport and Society
 6420 History of Physical Education and Sport
 6500 Introduction to Research in Physical Education
 6600 Contemporary Issues and Trends in Physical Education
 6510-6513 Graduate Seminar Series (non-credit)
 6610-15 Individual Reading and Research in Special Areas

22 Regulations Governing the Degree of Master of Public Health

Professor and Dean

J. Rourke

Professor and Interim Associate Dean

D. McKay

Associate Professor and Acting Assistant Dean

D. Gustafson

The degree of Master of Public Health (M.P.H.) is offered by the Faculty of Medicine, with specializations in **Population and Public Health** and **Nutrition and Dietetics**.

The Population and Public Health specialization delivers an advanced program of study for students from various academic fields who are interested in a professional degree that will prepare them for practical work in a variety of public health practice settings. The program is available for full-time and part-time study noting that full-time attendance is required during the Public Health Practicum (or Public Health Capstone Research Project) portion of the program. It is anticipated that full-time students will complete the program in 12 months in accordance with **Table I - Master of Public Health Recommended Course Sequence for Full-Time Students in the Population and Public Health Specialization**.

The Nutrition and Dietetics specialization provides a research enriched program of study for full-time students who wish to pursue a career in dietetics or community nutrition. This specialization offers an opportunity for advanced academic study in the field of public health. Upon completion of the program, which includes a dietetics internship, students will be eligible to write the qualifying exam of Dietitians of Canada. It is anticipated that full-time students will complete the program in 24 months in accordance with **Table II - Master of Public Health Recommended Course Sequence for Full-Time Students in the Nutrition and Dietetics Specialization**.

The **General Regulations** of the School of Graduate Studies and the Degree Regulations outlined below will apply.

22.1 Qualifications for Admission

Admission to the Master of Public Health is limited and competitive. The regulations and procedures for admission are as given under the **General Regulations** of the School of Graduate Studies governing Master's degrees. In addition, to be considered for admission to the Nutrition and Dietetics specialization applicants must have successfully completed an undergraduate dietetics program accredited by Dietitians of Canada as indicated at www.dietitians.ca.

22.2 Program of Study

22.2.1 Population and Public Health

1. Minimum requirements for the M.P.H. degree in Population and Public Health will include the successful completion of 42 credit hours as follows:
 - a. Eight core courses: Public Health Leadership and Management (MED 6725), Epidemiology I (MED 6270), Policy and Decision Making (MED 6288), Communicable Disease Prevention and Control (MED 6724), Biostatistics I (MED 6200), Health Promotion (MED 6723), Environmental Health (MED 6722) and Disease and Injury Prevention (MED 6721).
 - b. Six additional credit hours in elective courses chosen from the **Courses** listing below, or other courses as approved by the M.P.H. program coordinator.
 - c. The Public Health Seminar Series courses (MED 6700 - 6701).
 - d. Either, the Public Health Practicum (MED 6710) or the Public Health Capstone Research Project (MED 6711) as determined by the Graduate Program Committee depending on the professional background and experience of the candidate.

The Public Health Practicum is a full-time practice experience conducted in a work setting and following the guidelines set forth by the Public Health Agency of Canada (PHAC) at www.phac-aspc.gc.ca/index-eng.php.

All course work must be completed prior to the initiation of either the Public Health Practicum or the Public Health Capstone Research Project.

Table I - Master of Public Health Recommended Course Sequence for Full-Time Students in the Population and Public Health Specialization

Semester	Courses
Fall	MED 6270 Epidemiology I MED 6288 Policy and Decision Making MED 6700 Public Health Seminar Series I MED 6724 Communicable Disease Prevention and Control MED 6725 Public Health Leadership and Management MED Elective Course
Winter	MED 6200 Biostatistics I MED 6701 Public Health Seminar Series II MED 6721 Disease and Injury Prevention MED 6722 Environmental Health MED 6723 Health Promotion MED Elective Course
Spring	MED 6710 Public Health Practicum, or MED 6711 Public Health Capstone Project

22.2.2 Nutrition and Dietetics

1. Minimum requirements for the M.P.H. degree in Nutrition and Dietetics will include the successful completion of the following:
 - a. Six core courses: Public Health Leadership and Management (MED 6725), Epidemiology I (MED 6270), Community Health Research Methods (MED 6280), Biostatistics I (MED 6200), Community Nutrition (MED 6731), Professional Practice (MED

6730)

- b. The Public Health Seminar Series courses (MED 6700 - 6701)
- c. The Dietetics Research Project (MED 671A/B)
- d. The Dietetics Internship (MED 6733 - 6736). The Dietetics Internship is a practice experience conducted in a work setting and following the guidelines set forth by the Dietitians of Canada.

Dietetics Internship I & II (MED 6733 & 6734) are non-credit, mandatory, part-time internship components completed during the first and second academic semesters of the program in accordance with **Table II - Master of Public Health Recommended Course Sequence for Full-Time Students in the Nutrition and Dietetics Specialization**. A grade of NC (No credit) will be awarded for these two internship components.

Building on the components of Dietetics Internship I & II, Dietetics Internship III & IV (MED 6735 & 6736) are full-time internship blocks each of which will normally extend beyond the regular semester timeframe. Evaluation of the internship blocks will be on a PASS/FAIL basis.

All core courses and seminars must be completed prior to the initiation of the Dietetics Internship III (MED 6735) and/or the Dietetics Research Project (MED 671A/B).

Table II - Master of Public Health Recommended Course Sequence for Full-Time Students in the Nutrition and Dietetics Specialization

Semester	Courses
Fall	6725 Public Health Leadership and Management 6270 Epidemiology I 6280 Community Health Research Methods 6700 Public Health Seminar Series I 6733 Dietetics Internship I
Winter	6200 Biostatistics I 6731 Community Nutrition 6730 Professional Practice 6701 Public Health Seminar Series II 6734 Dietetics Internship II
Spring	671B Dietetics Research Project
Fall	671A Dietetics Research Project
Winter	6735 Dietetics Internship III
Spring	6736 Dietetics Internship IV

22.3 Courses

A selection of the following graduate courses shall be offered to meet the requirements of candidates, as far as the resources of the Faculty allow:

6102 Critical Theory in Health and Society
 6200 Biostatistics I
 6220 Introduction to Community Health
 6247 Chronic Disease Epidemiology
 6250 Basic Clinical Epidemiology
 6270 Epidemiology I
 6275 Epidemiology II
 6280 Community Health Research Methods
 6282 Canadian Health Care System
 6288 Policy and Decision Making
 6290 Determinants of Health: Healthy Public Policy
 6293 Knowledge Transfer and Research Uptake
 6294 Advanced Qualitative Methods
 6390 Human Population Genetics
 6700 Public Health Seminar Series I (1 credit hour)
 6701 Public Health Seminar Series II (1 credit hour)
 671A/B Dietetics Research Project (6 credit hours)
 6710 Public Health Practicum (10 credit hours)
 6711 Public Health Capstone Project (10 credit hours)
 6720 Public Health Surveillance
 6721 Disease and Injury Prevention
 6722 Environmental Health
 6723 Health Promotion
 6724 Communicable Disease Prevention and Control
 6725 Public Health Leadership and Management
 6730 Professional Practice
 6731 Community Nutrition
 6733 Dietetics Internship I (non-credit component)
 6734 Dietetics Internship II (non-credit component)
 6735 Dietetics Internship III (17 week Internship block - 10 credit hours)
 6736 Dietetics Internship IV (16 week Internship block - 10 credit hours)

23 Regulations Governing the Degree of Master of Science

Professor and Dean

M. Abrahams

Professor and Associate Dean (Graduate and Research)

M. Courage

The degree of Master of Science (M.Sc.) is offered at present in Aquaculture, Biochemistry, Biology, Chemistry, Cognitive and Behavioural Ecology, Computational Science, Computational Science (Co-operative), Computer Science, Earth Sciences (Geology), Earth Sciences (Geophysics), Environmental Science, Experimental Psychology, Food Science, Geography, Instrumental Analysis, Marine Biology, Mathematics, Physical Oceanography, Physics, Statistics. Interdisciplinary studies are encouraged; applicants should consult the academic unit concerned.

23.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission an applicant will normally hold at least a high second class Honours Degree, or an M.D. Degree, or the equivalent of either, both in achievement and depth of study, from an institution recognized by the Senate, and shall have knowledge of the proposed field of specialization satisfactory to the Dean.
2. Any other applicant may be considered for admission provided that:
 - a. the applicant's undergraduate record after the first year shows an average of at least Grade B in courses in the proposed field of specialization.
 - b. the applicant's overall undergraduate record after the first year shows an average of at least Grade B in all courses taken.
 In addition, an applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the academic unit concerned.
3. Only in exceptional circumstances, and only on the recommendation of the academic unit concerned, will the Dean consider applicants who do not meet these requirements of Clause 2.
4. Applicants who do not possess the prerequisite academic qualifications should consult the appropriate academic unit about a program of further undergraduate courses. Such a program will be intended to raise their qualifications to a level considered academically equivalent to Honours. Such courses may not be used to fulfill the regulation course requirements of the M.Sc. Degree.
5. A high degree of literacy in English is required of all graduate students in the University.

Note: Some Departments have specific regulations in addition to those outlined above, and prospective applicants are advised to turn to the relevant part of this Calendar and acquaint themselves with the regulations of the Department or appropriate academic unit in which they are interested.

23.2 Program of Study and Research

1. The program of study for the Master of Science Degree shall consist of the successful completion of a program of courses and, in accordance with the specific program regulations, either of a thesis embodying original research or of a project and report.
2. Every candidate shall read at least 6 credit hours in graduate program courses in one subject or in closely related subjects, and such other courses as may be required in an individual program. Undergraduate courses may, if necessary, be included as additional courses.
3. Where Departmental regulations require more than the minimum number of credit hours, the Dean, on the recommendation of the appropriate academic unit, may waive in part the credit hour requirements for a Master's Degree, provided that no student may take less than the 6 required credit hours in graduate program courses.
4. Students may, with the approval of the Dean, augment their studies with 6 credit hours in other courses of their choice. The grading system in non-program courses shall be that appropriate to the particular course, and the final grades in these courses will be recorded on the student's transcripts. However, passing grades are not required in these non-program courses in order to continue in graduate studies or obtain a Master's Degree. (See General Regulation **Evaluation, Evaluation of Graduate Students**).
5. Every candidate shall submit a thesis or report on an approved subject in which systematic research has been conducted under the direction of a Supervisor recommended by the academic unit concerned and approved by the Dean. The candidate may be required to take an oral examination.
6. The program of courses, the thesis or report topic and the Supervisor, and all changes in these, must be approved by the Dean.

23.3 Evaluation

1. In order to continue in the School of Graduate Studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each program course. (See General Regulation **Evaluation, Evaluation of Graduate Students**).
2. When it has been determined, on the basis of consultation with the candidate, the instructors in graduate courses, and the thesis or report Supervisor, that a candidate's work has fallen below a satisfactory level, the Supervisor or the Head of the appropriate academic unit may recommend to the Dean that such a candidate be required to withdraw from the program.

23.4 Thesis

See General Regulation **Theses and Reports**

Note: Every candidate in graduate studies shall comply with the **General Regulations**, the Degree Regulations and any additional requirements of the appropriate academic unit.

23.5 Aquaculture

Administrative Committee

Mr. C. Couturier, Fisheries and Marine Institute - Chair
 Dr. S. Dufour, Department of Biology
 Dr. K. Gamperl, Department of Ocean Sciences
 Dr. L. Halfyard, Fisheries and Marine Institute
 Dr. I. McGaw, Department of Ocean Sciences
 Dr. C. Parrish, Department of Ocean Sciences
 Dr. F. Shahidi, Department of Biochemistry

The program of study leading to the Master of Science in Aquaculture is designed to instruct students in research using scientific principles derived from a wide range of disciplines including Behaviour, Biochemistry, Biology, Ecology, Food Science, Genomics, Nutrition and Physiology. It is an interdisciplinary program and often involves several fields of study. Research problems may include field and/or laboratory studies of one or more species of marine or freshwater flora and/or fauna. The Aquaculture group consists of faculty members from the Fisheries and Marine Institute of Memorial University of Newfoundland and the Departments of Biology, Biochemistry, and Ocean Sciences of Memorial University of Newfoundland. Research scientists at other institutions, e.g., Fisheries and Oceans Canada, complement the group in offering advice, facilities and expertise to students in the program.

The Aquaculture Administrative Committee is responsible for the program. This Committee is composed of seven members appointed by the Dean of Science including two to three members from the Department of Ocean Sciences, two to three members from the Fisheries and Marine Institute of Memorial University of Newfoundland, and two members from appropriate academic units at Memorial University of Newfoundland. In addition, the Heads of the Departments of Biochemistry, Biology, and Ocean Sciences, and the Head of the School of Fisheries of the Fisheries and Marine Institute of Memorial University of Newfoundland are ex-officio members. The Committee makes recommendations to the Dean of the School of Graduate Studies concerning the academic requirements of the program: admission, course programs of individual students, financial support, composition of supervisory committees, and theses examiners. The Chair of the Committee will also ensure that a supervisory report form for each student in the program is submitted annually to the Dean.

23.5.1 Qualifications for Admission

To be considered for admission to the Master of Science in Aquaculture, an applicant shall normally hold one of the following: at least a second class Honours degree, or an equivalent both in achievement and depth of study, from an institution recognized by the Senate, or successful completion of the Advanced Diploma in Sustainable Aquaculture offered by the Fisheries and Marine Institute of Memorial University of Newfoundland, with academic standing deemed appropriate by the Committee.

23.5.2 Program of Study

1. The Master of Science Degree requires the successful completion of a program of courses and of a thesis embodying original research.
2. All candidates will be required to take 6 credit hours in graduate courses which will normally include at least one of the following: AQUA 6000 - Shellfish Culture and Enhancement, AQUA 6100 - Finfish Aquaculture, or AQUA 6200 - Aquaculture and the Environment.
3. Candidates who do not hold the Advanced Diploma in Sustainable Aquaculture may be required to successfully complete a selection of its component courses.
4. Further courses may be required depending on the background of the individual student.
5. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the appropriate academic units, as recommended by the Administrative Committee. Any serious deficiencies in the thesis noticed at this stage should be carefully considered, in consultation with the Supervisor, for rectification.
6. The student will be required to comply with all other regulations governing the graduate Degree of Master of Science.

23.5.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

Aquaculture

AQUA 6000 - Shellfish Culture and Enhancement
 AQUA 6100 - Finfish Aquaculture
 AQUA 6200 - Aquaculture and the Environment
 AQUA 6201-6209 - Special Topics in Aquaculture (Prerequisite: Permission of Chair of Program)

Biochemistry

BIOC 6670 - Biological Waste Treatment

Biology

BIOL 6000 - Research Topics in Microbiology
 BIOL 6710 - Marine Benthic Biology
 BIOL 7101 - Topics in Marine Biology
 BIOL 7220 - Quantitative Methods in Biology
 BIOL 7933 - Advanced Topics in Marine Invertebrates
 BIOL 7938 - Genomics
 BIOL 7531 - Biological Oceanography
 BIOL 7535 - Research Methods in Marine Science
 BIOL 7550 - Fishery Biology
 BIOL 7551 - Fisheries Resource Management
 BIOL 7560 - Physiology of Marine Invertebrates
 BIOL 7561 - Physiology of Marine Vertebrates
 BIOL 7570 - Marine Benthic Biology
 BIOL 7910 - Community and Ecosystem Ecology

Cognitive and Behavioural Ecology

CABE 6351 - Behavioural Ecology and Sociobiology

Engineering

ENGI 9603 - Environmental Sampling and Pollutant Analysis (*Cross listed as ENVS 6005*)
 ENGI 9605 - Advanced Waste Water Treatment
 ENGI 9622 - Environmental Statistics

Environmental Science

ENVS 6000 - Environmental Science and Technology
 ENVS 6001 - Earth and Ocean Systems
 ENVS 6002 - Environmental Chemistry and Toxicology
 ENVS 6003 - Applied Ecology
 ENVS 6007 - Environmental Risk Assessment (same as Engineering 9609)

Geography

GEOG 6250 - Conservation of Natural Resources

GEOG 6410 - Climatology

Marine Studies (Fisheries Resource Management) Program Courses

MSTM 6001 - Fisheries Ecology

MSTM 6005 - Overview of World Fisheries

MSTM 6009 - Current Issues for Sustainable Fisheries

Physics

PHYS 6316 - Ocean Data Analysis

PHYS 6320 - Ocean Turbulence and Mixing

Technology Management (Aquaculture Technology Option) Program Courses

MSTM 6056 - Management of International Development

MSTM 6071 - Management of Aquaculture Technology

MSTM 6072 - Animal Husbandry Management

MSTM 6073 - Aquaculture Environmental Management

MSTM 6074 - Aquaculture Site and Operational Assessment

MSTM 6075 - Aquaculture Engineering Technology Management

Note: Consult the Program for a list of titles and information regarding availability.

23.6 Biochemistry**Professor and Head of the Department**

P. Davis

23.6.1 Program of Study

The Degree of Master of Science is offered in Biochemistry or Food Science to full-time and part-time students.

The admission requirements for the graduate programs in Biochemistry and Food Science are as given under **Regulations Governing Master of Science Degrees**. Depending on the background and/or area of specialization, a candidate's program may include additional courses taken for credit in Biochemistry, Food Science or related subjects.

The program of a candidate for the M.Sc. Degree shall be the responsibility of the supervisory committee, composed of the Supervisor and at least two other faculty members recommended with the concurrence of the Supervisor by the Head of the Department or delegate.

It is the responsibility of the student to arrange regular meetings with his or her supervisory committee. A semi-annual report, prepared by the Supervisor and signed by all members of the supervisory committee, is required to be given to the Head of the Department or delegate.

All graduate students are expected to attend and participate in the Departmental seminars.

A student completing an M.Sc. Degree will be required to present a seminar on his/her research area. The seminar will normally take place during the last semester of the student's program.

Any deficiencies noted during the seminar should be carefully considered by the student and the supervisory committee prior to submission of the thesis for final examination.

23.6.2 Courses

A series of advanced courses in the areas outlined below will be offered. Normally only one course will be offered per semester.

6200 Current Biochemical Research Topics I

6210 Current Biochemical Research Topics II

6400 Control of Intermediary Metabolism

6410 Molecular Endocrinology

6420 DNA: The Structure and Function of Genes (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)

6421 RNA: Structure, Function and Synthesis (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)

6422 Regulation of Protein Synthesis (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)

6430 Bioenergetics

6440 Membranes

6450 Proteins

6500 Enzymology

6520 Nutritional Biochemistry

6530 Food Biochemistry

6590 Molecular Biology I (cross-listed as Biology 6590 and Medicine 6590) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)

6591 Molecular Biology II (cross-listed as Biology 6591 and Medicine 6591) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)

6592 Bacterial Genetics (cross-listed as Biology 6592) Prerequisite: Biology 4241 or Biochemistry 4100 (or equivalent)

6593 Selected Readings in Molecular Biology (cross-listed as Biology 6593) Prerequisites or Co-requisites: Biology 6590, 6591/ Biochemistry 6590, 6591/Medicine 6590, 6591 (or equivalent)

6600 Metabolic Toxicology

6610 Comparative Biochemistry

6620 Biochemical Adaptation

6630 Marine Biochemistry

6640 Biochemistry of Cancer

6650 Science and Technology of Seafoods

6660 Industrial Microbiology

6670 Biological Waste Treatment

6680 Processing and Quality of Foods

23.7 Biology

Associate Professor and Head of the Department

P. Marino

The Degree of Master of Science is offered in Biology and Marine Biology to full-time and part-time students. Students interested in animal behaviour should also consult the section in the Calendar describing the **Master of Science in Cognitive and Behavioural Ecology program**. In addition, a **Master of Science Degree is offered in Aquaculture**. See appropriate sections of this Calendar.

23.7.1 Biology

1. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.
2. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student's program and to explore any areas of weakness in the candidate's biological knowledge, especially where these relate to the intended areas of research.
3. A student will be required to take a minimum of 6 credit hours and Biology 7000 (Graduate Core Seminar).
4. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report, signed by all members of the Supervisory Committee and student, must be given to the Department. A copy will be sent to the graduate student and to the Dean of Graduate Studies.
5. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department by the end of the second semester, and preferably prior to commencement of the research.
6. The student will present a research seminar to the Department, normally by the end of the second semester following admission, to describe the research topic being investigated and the methodologies to be employed. This seminar provides an opportunity for the student to receive constructive input from the broad biological community.
7. The candidate must present a thesis seminar of 30-40 minutes duration to the Department prior to submission of the thesis to the School of Graduate Studies. The candidate will be questioned by a panel approved by the Departmental Graduate Studies Committee, in consultation with the student's Supervisory Committee. All others in attendance will be invited to question the candidate before adjournment. Deficiencies noted at this stage should be carefully considered by the student and the Supervisory Committee prior to submission of the thesis for final examination.
Under exceptional circumstances, this requirement may be waived by the Head of the Department (or delegate).
8. Each Master's candidate shall spend at least one semester in residence as a full-time student within the Department during the program. It is recommended that this semester be at the beginning of the program.
Under exceptional circumstances, this requirement may be waived by the Head of the Department (or delegate).
9. If candidates, in the opinion of the Supervisor, Committee and Department, are not making satisfactory progress, they will be required to withdraw from the program.
10. Theses shall conform to **Theses and Reports** of the **General Regulations** of the School of Graduate Studies and to the regulations in the Departmental Guidelines.

23.7.2 Marine Biology

1. A program of study leading to a Degree of Master of Science with a specialization in Marine Biology is governed by the above regulations.
2. Students will be required to take Biology 7000 (Graduate Core Seminar) and an additional 12 credit hours. These 12 credit hours must include Biological Oceanography 7531, and at least two of 6710, 7535, 7540, 7541, 7551, 7560, and 7561. The remaining credit hours may be selected from any other Biology graduate courses or relevant graduate courses in other Departments.

23.7.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Research Topics in Microbiology
 6100 Modern Problems in Botany
 6110 Advanced Phycology
 6120 Mycology
 6350 Behavioural Ontogeny (*Cross-listed as Psychology 6350*)
 6351 Behavioural Ecology and Sociobiology (*Cross-listed as Psychology 6351*)
 6355 Field Course in Animal Behaviour (*Cross-listed as Psychology 6355*)
 6400 Parasitic Protozoology
 6410 Helminthology
 6420 Parasitic Arthropods
 6590 Molecular Biology I (*Cross-listed as Biochemistry 6590 and Medicine 6590*) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)
 6591 Molecular Biology II (*Cross-listed as Biochemistry 6591 and Medicine 6591*) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)
 6592 Bacterial Genetics (*Cross-listed as Biochemistry 6592*) Prerequisite: Biology 4241 or Biochemistry 4100 (or equivalent)
 6593 Selected Readings in Molecular Biology (*Cross-listed as Biochemistry 6593*) Prerequisites or Co-requisites: Biology 6590, 6591/ Biochemistry 6590, 6591/Medicine 6590, 6591 (or equivalent)
 6700 Biology of the Molluscs
 6710 Marine Benthic Biology
 6900 Entomology
 6910 Applied Entomology
 7000 Graduate Core Seminar
 7101 Topics in Marine Biology
 7110 Cellular Physiology and Cytology
 7140 Physiology of Parasitism
 7201 Topics in Cellular and Molecular Biology and Physiology

7210 Arctic and Subarctic Biology
 7220 Quantitative Methods in Biology
 7250 Topics in Wildlife Biology
 7270 Ecology of Newfoundland
 7300 Ornithology
 7301 Topics in Ecology and Conservation Biology
 7510 Ichthyology
 7520 Advances in Fish Biology
 7530 The Molecular Basis of Development
 7531 Biological Oceanography
 7535 Research Methods in Marine Science
 7540 Plankton Dynamics
 7541 Physiological Ecology of Phytoplankton
 7550 Fishery Biology
 7551 Fisheries Resource Management
 7560 Physiology of Marine Invertebrates
 7561 Physiology of Marine Vertebrates
 7570 Marine Benthic Biology
 7600 Effect of Organic and Inorganic Pollutants on Biological Systems
 7910 Community and Ecosystem Ecology
 7931 Research Methods in Genetic Biotechnology
 7920-7960 Special Topics in Biology (*Note: Biology 7931 may be delivered in an accelerated format outside of the regular semester timeframe*)

23.8 Chemistry

Professor and Head of the Department

P. Pickup

23.8.1 Program of Study

- The Degree of Master of Science in Chemistry is offered as full-time or part-time study.
 - Preference for admission will be given to students with a B.Sc. (Honours) Degree in Chemistry from a recognized university.
 - Students holding a B.Sc. Degree in Chemistry from a university of recognized standing with a minimum overall average of 65% and minimum average of 65% in all Chemistry courses taken after the first year will be considered for admission to the Chemistry M.Sc. program. Students not admissible under 1.a. may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.
 - Students with a first class B.Sc. in an area other than Chemistry will also be considered for admission. Students not acceptable under 1.a. or 1.b. who have a strong background in an appropriate area of specialization may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.
 - Candidates are normally required to write American Chemical Society (ACS) placement test(s) in the first two weeks of the initial semester of registration in order to determine an appropriate course program.
- Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on the recommendation of the Chemistry Deputy Head (Graduate Studies).
- The program of a candidate must be arranged by the Supervisor before the second semester of registration in consultation with the Supervisory Committee and the student. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate's program, and, in consultation with the student, to prepare written annual progress reports for submission to the Dean of Graduate Studies.
- Candidates are normally required to successfully complete Chemistry 6001 (Master's Seminar) and a minimum of 6 credit hours of graduate Chemistry courses with a minimum B grade. Additional program courses may be assigned by the Supervisory Committee.
- Candidates are required to attend Departmental seminars.
- Candidates must submit a thesis deemed acceptable to two examiners as described under **Regulations Governing Master of Science Degrees**. An oral defence is not required.

23.8.2 Courses

6001 Master's Seminar
 6004 Project Seminar
 6110 Analytical Chemistry II
 6150 Advanced Spectroscopic Techniques
 6151 Analytical Separations and Organic Mass Spectrometry
 6152 Electroanalytical Techniques
 6153 Techniques in Sampling, Trace Analysis and Chemometrics
 6154 Business Management and Good Laboratory Practice
 6155 Computers in Instrumental Analysis and Basic Electronics (same as Med 6070)
 6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis
 6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques
 6190-9 Selected Topics in Analytical Chemistry
 6201 Bioinorganic Chemistry
 6202 Main Group Chemistry
 6204 Mechanisms in Catalysis
 6205 Photochemistry of Transition Metal Complexes
 6206 Green Chemistry
 6210 Organometallic Chemistry
 6290-9 Selected Topics in Inorganic Chemistry
 6300 Quantum Chemistry I
 6301 Quantum Chemistry II
 6302 Molecular Spectroscopy
 6304 Computational Chemistry I

6310 Electronic Structure Theory
 6323 Chemical Thermodynamics I
 6324 Chemical Thermodynamics II
 6340 Biophysical Chemistry
 6350 Electrochemical Kinetics
 6360 Solid State Chemistry
 6370 Nanoscale Phenomena
 6380 Adsorption on Surfaces
 6381 Surface and Interface Science
 6382-9 Selected Topics in Physical Chemistry
 6390-8 Selected Topics in Physical Chemistry
 6399 Chemical Kinetics and Dynamics
 6401 Organic Spectroscopic Analysis I
 6402 Organic Spectroscopic Analysis II
 6421 Natural Products Chemistry
 6460 Organic Synthesis
 6470 Physical Organic Chemistry
 6490-9 Selected Topics in Organic Chemistry
 6590-9 Selected Topics in Theoretical and Computational Chemistry
 6600 Applications of Inorganic and Organometallic Chemistry to Toxicology

23.8.3 Instrumental Analysis

1. Program of Study

- The Department of Chemistry in collaboration with other faculty in Science offers a course-based program in instrumental analysis leading to the Degree of Master of Science. The program is available on a full-time or part time basis and will normally require four semesters of study. The program is designed for students who wish to pursue career opportunities in all areas of applied science which require in-depth knowledge and laboratory expertise in analytical instrumentation.
- The program will be administered by a Program Committee consisting of the Deputy Head (Graduate Studies) who will be chair, the Program Co-ordinator (Chemistry) and a third faculty member from another science Department. The Program Committee will be responsible for overseeing that a level of standards be maintained.
- The Program Co-ordinator will be responsible for coordinating the course offerings and for soliciting student projects for the program to be approved by the Program Committee.

2. Qualifications For Admission

Admission is limited and competitive. To be considered for admission, applicants shall normally hold a Bachelor's Degree in Science (with at least a minor in Chemistry, and having completed Chemistry 4100 or equivalent) with at least a second class standing from an institution recognized by the Senate. The Program Committee will make recommendations on admission to the Dean of Graduate Studies.

3. Program Requirements

- All programs must be approved by the Program Committee and by the Dean of Graduate Studies. All **General Regulations** of the School of Graduate Studies shall apply to this Degree.
- The program requires the completion of the 24 credit hours representing the eight required program courses, one project seminar, and a project report. Normally, completion of the program will require four semesters of study.
- A project seminar will be given to the Department of Chemistry at the end of the student's program.
- Students will be required to complete a research project, the scope of which will normally require no more than two semesters of full-time effort. The Project Report shall be evaluated according to the procedures outlined in **Theses and Reports**.

4. Required Courses

6004 Project Seminar
 6150 Advanced Spectroscopic Techniques
 6151 Analytical Separations and Organic Mass Spectrometry
 6152 Electroanalytical Techniques
 6153 Techniques in Sampling, Trace Analysis and Chemometrics
 6154 Business Management and Good Laboratory Practice
 6155 Computers in Instrumental Analysis and Basic Electronics (Same as Medicine 6070)
 6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis
 6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques

23.9 Cognitive and Behavioural Ecology

Administrative Committee

Dr. I. Fleming, Department of Ocean Sciences - Co-Chair
 Dr. C. Walsh, Department of Psychology - Co-Chair
 Dr. T. Chapman, Department of Biology
 Dr. W. Montevicchi, Department of Psychology
 Dr. C. Purchase, Department of Biology
 Mr. P. Regular, Graduate Student Representative
 Dr. A. Storey, Department of Psychology
 Dr. I. Warkentin, Grenfell Campus

23.9.1 General Information

- The Cognitive and Behavioural Ecology Program is interdisciplinary and designed to train students in research that integrates cognitive and behavioural studies at the ecological level. Molecular, developmental and evolutionary aspects of cognition and behaviour are also studies. Supervisors include faculty from the Departments of Biology, Ocean Sciences, Psychology, the Faculty of Medicine and the Environmental Science Program at Grenfell Campus, as well as adjunct faculty from the Canadian Wildlife Service, Department of Fisheries and Oceans, the Newfoundland and Labrador Forestry and Wildlife Divisions and Parks Canada. The Departments of Biology and Psychology jointly offer the Master of Science and the Doctor of Philosophy degrees in Cognitive and Behavioural Ecology.

- The Administrative Committee is responsible for the Program. Committee members are appointed by the Dean of Science, on the recommendation of the Chair of the Committee and of the Heads of Biology and Psychology. The Committee Chair is elected by the committee members and appointed by the Dean of Science. The Committee makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics, examiners and students' annual progress. Upon program completion, the Committee certifies that all requirements for the appropriate degree have been met. The Department of the Supervisor ensures that adequate facilities are provided for each candidate. Students in the Cognitive and Behavioural Ecology Program are considered for teaching assistantships in the Psychology or Biology Departments.

23.9.2 Program of Study

- Students normally take four courses (12 credit hours) in the first year. Students will be required to take Quantitative Methods in Biology (BIOL 7220) or Advanced Statistics in Psychology (6000) unless they have already passed an equivalent graduate or Honours course, Behavioural Ecology and Sociobiology (CABE 6351), Field and Lab Methods in Animal Behaviour and Behavioural Ecology (CABE 7000) and one elective, in consultation with the Supervisor.
- Upon completion but before submission of the thesis, the student is required to give a formal thesis presentation.
- The student will be required to comply with all other regulations governing the graduate Degree of Master of Science.

Table of Credit Restrictions - Master of Science in Cognitive and Behavioural Ecology

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course
CABE 6240	Biopsychology 6240
CABE 6350	Biopsychology 6350
CABE 6351	Biopsychology 6351
CABE 7000	Biopsychology 7000

23.9.3 Courses

Biology 7220 Quantitative Methods in Biology
 Cognitive and Behavioural Ecology 6240 Special Topics
 Cognitive and Behavioural Ecology 6350 Behavioural Ontogeny
 Cognitive and Behavioural Ecology 6351 Behavioural Ecology and Sociobiology
 Cognitive and Behavioural Ecology 7000 Field and Lab Methods in Animal Behaviour and Behavioural Ecology
 Psychology 6000 Advanced Statistics in Psychology

23.10 Computational Science

Professor and Program Chair

M. Plumer

23.10.1 Administrative Committee

The Administrative Committee, appointed by the Dean of the School of Graduate Studies on the recommendation of the Dean of the Faculty of Science, consists of at least one representative of each participating academic unit, and one member external to the University.

23.10.2 Participating Departments and Organizations

This interdisciplinary program offers the Master of Science Degree in both Computational Science and Computational Science (Co-operative). The departments of Biochemistry, Chemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Physics and Physical Oceanography and the Faculty of Engineering and Applied Science are participants in this program. Other departments and faculties may be involved, depending on the nature of the thesis or project. External organizations may provide placements for co-op students, jointly supervise students, share computing resources and participate in teaching courses.

23.10.3 Admission Criteria and Procedures

- The criteria for acceptance of an applicant are: his or her anticipated successful and timely completion of the program, and the willingness of a participating faculty member to supervise the applicant.
- Students will be expected to hold a B.Sc. (Honours) or B.Eng. Degree with honours standing, or equivalent, with a strong computational orientation. At the time of application, the student is expected to provide evidence (for example, transcripts of completed courses) of his or her knowledge of a modern computer language such as Fortran, and/or C and/or C++, and/or Matlab, and/or Python. Evidence of knowledge of differential equations; and/or linear algebra and/or computer graphics would be an asset. Students with an inadequate background may be encouraged to take certain undergraduate courses.
- Admission decisions will be made by the School of Graduate Studies on the recommendation of the Chair of the Administrative Committee.

23.10.4 Program of Study

- The goal of Computational Science is to solve technical problems, in science and engineering, using computers and computational methods. Our program is designed to educate students to apply computational, numerical and programming concepts and tools to solve and model complex problems in science and engineering.
- The Program is offered in thesis and project (non-thesis) versions, with the option of a co-operative education program. It is intended that the overall level of student effort and performance required in each version will be comparable. The normal length of time to complete each option is 24 months.
- The work for the thesis or project will be carried out under the guidance of a supervisor (or joint supervisors). The home department of the student will be the same as that of the Supervisor. Upon completion of the work for the thesis or project, to be submitted to the

School of Graduate Studies for examination, each student is required to present a seminar suitable for the interdisciplinary audience of Computational Science program students.

4. All students are required to complete a minimum of 3 core courses (9 credit hours) selected from the list of **Core Courses** listing below. All students are also recommended to complete CMSC 6940 (1 credit hour). Additional courses are required in accordance with the program options as outlined below and will normally be selected from the student's discipline of specialization. The course requirements for each student are approved by the Program Chair on the recommendation of the student's supervisor(s), and should reflect the interdisciplinary nature of the program. Students are expected to attend research seminars in their home department as well as those relevant to Computational Science, when advertised.
 - a. The thesis option requires the completion of a minimum of four graduate courses (12 credit hours) numbered 6000 or higher, which must include three courses (9 credit hours) from the **Core Courses** listing below. Equivalent courses may be considered for substitution with approval of the Program Chair. CMSC 6940 (one credit hour) is also recommended. The additional course(s) will normally be chosen from the **Additional Courses** listing below in the same discipline as the thesis work. The submission of an acceptable thesis is required. The thesis is to contain an original scholarly contribution which must be submitted to the School of Graduate Studies for final examination. Each student is also required to present a seminar on their thesis research topic that demonstrates their use of computational techniques to solve a problem in science or engineering.
 - b. The project option requires the completion of a minimum of seven graduate courses (21 credit hours) numbered 6000 or higher, which must include at least three courses (9 credit hours) from the **Core Courses** listing below. Equivalent courses may be considered for substitution with approval of the Program Chair. CMSC 6940 (one credit hour) is also recommended. An acceptable project report is also required which must be submitted to the School of Graduate Studies for final examination. The additional courses will normally be chosen from the **Additional Courses** listing below in the same discipline as the project work. The project, which will include an in-depth written report, shall require the equivalent of at least one and no more than two semesters of full time work.

23.10.5 Co-operative Education Option

1. A co-operative education option will be available. Students in this option may follow the thesis or non-thesis version of the program. It is expected to take up to 24 months to complete. Students will be asked to indicate if they wish to follow this option at the time of application.
2. Students who are accepted into the M.Sc. program may be provisionally accepted into the co-op option. During their first two semesters, such students will interview with the Co-operative Education Services Centre and with prospective work term employers. Satisfactory performance in this phase of the program will lead to confirmation of acceptance into the co-op option, and allow the student to spend two of the next three terms working in industrial or government settings. Upon completion of each work term, the student must submit an acceptable work report.
3. Following the completion of the two work terms, each student must complete any remaining course requirements and project report or thesis. Assuming that prior written authorization of the employer and the supervisory committee was obtained and submitted to the School of Graduate Studies, students may include material from the work terms in their reports or theses. For students following the non-thesis version of the program, the two work-term reports may be combined into a single, integrated report for this purpose. All other students must write a thesis on a research project which may be based on research completed during the work terms.
4. Students who are accepted into the co-op option are not guaranteed placements. In the event that a student fails to obtain two semesters of placements, but successfully completes all other requirements of the Degree, he or she will still be eligible for graduation, but without the designation of a co-op degree.

23.10.6 Courses

Core Courses

Mathematics 6210 Numerical Solutions of Differential Equations
 Computational Science 6910 Matrix Computations and Applications
 Computational Science 6920 Scientific Computing
 Computational Science 6930 Algorithms for Distributed and Shared Memory Computers
 Computer Science 6731 Topics in Numerical Methods
 Computational Science 6900-6909 Special Topics

Additional Courses

The following courses are identified as suitable for students in this program. Other courses may be permitted with the approval of the Program Chair.

Biochemistry

6420 DNA: The Structure and Function of Genes
 6421 RNA: Structure, Function and Synthesis
 6422 Regulation of Protein Synthesis
 6430 Bioenergetics
 6440 Membranes
 6450 Proteins

Chemistry

6201 Bioinorganic Chemistry
 6204 Mechanisms in Catalysis
 6205 Photochemistry of Transition Metal Complexes
 6210 Organometallic Chemistry
 6300 Quantum Chemistry I
 6301 Quantum Chemistry II
 6302 Molecular Spectroscopy
 6304 Computational Chemistry I
 6310 Electronic Structure Theory
 6323 Chemical Thermodynamics I
 6324 Chemical Thermodynamics II
 6340 Biophysical Chemistry
 6350 Electrochemical Kinetics
 6360 Solid State Chemistry
 6380 Adsorption on Surfaces
 6381 Surface and Interface Science
 6382-6389 Selected Topics in Physical Chemistry

6390-6398 Selected Topics in Physical Chemistry
 6399 Chemical Kinetics and Dynamics
 6401 Organic Spectroscopic Analysis I
 6402 Organic Spectroscopic Analysis II
 6470 Physical Organic Chemistry
 6590-6599 Selected Topics in Theoretical and Computational Chemistry
 6600 Applications of Inorganic and Organometallic Chemistry to Toxicology

Computational Science (CMSC)

601W Work Term 1
 602W Work Term 2
 6900-6909 Special Topics
 6910 Matrix Computations and Applications
 6920 Scientific Programming
 6925 Tools of the Trade for Programming High Performance Computers (2 credit hours)
 6930 Algorithms for Distributed and Shared Memory Computers
 6940 Computer Based Research Tools and Applications (1 credit hour)

Computer Science

6713 Software Engineering
 6722 Advanced Computer Architectures
 6728-6729 Special Topics in Computer Systems - Computer Networks
 6731 Topics in Numerical Methods
 6738-6739 Special Topics in Numerical Methods
 6752 Applications of Computer Graphics
 6756 Digital Image Processing

Earth Sciences

6141 Rotation of the Earth
 6142 Theory of Global Geodynamics
 6171 Advanced Exploration Seismology
 6172 Borehole Seismic
 6175 Gravity and Magnetic Methods
 6177 Mathematical Formulations of Seismic Wave Phenomena
 6918 Airborne and Borehole Electromagnetic Methods
 6994 Special Topics in Earth Sciences - Geophysical Inversion and Applications
 7110 Physics of the Solid Earth
 7120 Crustal Geophysics

Mathematics and Statistics

6102-6119 Special Topics in Applied Mathematics
 6201 Numerical Methods for Partial Differential Equations
 6210 Numerical Solution of Differential Equations (required course for Computational Science)
 6212 Numerical Methods for Initial Value Problems
 6588 Selected Topics in Statistics and Probability - Generalized Additive Models with Applications in Scientific Visualization

Physics and Physical Oceanography

6000 Condensed Matter Physics I
 6200 Nonlinear Dynamics
 6308 Ocean Dynamics I
 6309 Ocean Dynamics II
 6310 Physical Oceanography
 6316 Ocean Measurements and Data Analysis
 6317 Ocean Acoustics
 6318 Numerical Modelling
 6320 Turbulence
 6321 Coastal Oceanography
 6323 Stability Theory
 6400 Statistical Mechanics
 6402 Theory of Phase Transitions
 6800 Group Theory
 6850 Quantum Mechanics I

Engineering and Applied Science

9015 Ocean Engineering Hydrodynamics
 9052 Ice Properties and Mechanics
 9501 Finite Element Analysis
 9713 Stochastic Hydrology
 9815 Electromagnetic Propagation
 9821 Digital Signal Processing
 9826 Advanced Control Systems
 9861 High-Performance Computer Architecture
 9865 Advanced Digital Systems
 9869 Advanced Concurrent Programming
 9871 Information Theory and Coding

23.11 Computer Science

Associate Professor and Head of the Department

E. Brown

The degrees of Master of Science and Doctor of Philosophy are offered in Computer Science.

23.11.1 Admission Requirements

Admission into a Master's program in Computer Science is restricted to candidates holding at least a Bachelor degree (major in Computer Science or Computer Engineering) with a minimum average of 75% overall. When circumstances warrant, this requirement may be waived on the recommendation of the Head of the Department. Applicants should also refer to the **Qualifications for Admission** given under the **Regulations Governing the Degree of Master of Science** within the School of Graduate Studies section of the current Calendar. International applicants are strongly encouraged to submit results of the (general) Graduate Record Examination (GRE) test.

23.11.2 Programs

23.11.2.1 Option 1 - Thesis Route

1. Candidates are required to complete a minimum of 15 credit hours in graduate program courses, 9 of which must be in Computer Science (excluding COMP 601W and COMP 6999).
2. Full-time students are expected to complete their course work within their first year of studies. Part-time students are expected to complete their course work by the end of the seventh semester in program.
3. Each candidate is required to submit an acceptable thesis. The thesis project may involve a theoretical investigation and/or the development of an original, practical system. Each candidate is required to present a tentative outline of his/her proposed research to the Supervisor, with a copy to the Department Committee on Graduate Studies, by the end of his/her third semester in the program (sixth semester for part-time students). A fifteen minute oral presentation of the proposal is to be scheduled and given within four weeks of the submission date.
4. Prior to submission of a thesis, normally in the last semester of the program, candidates are required to present a seminar on the thesis topic, methods employed and research results.

23.11.2.2 Option 2 - Course/Project Route with Work Term

1. Candidates are required to complete a minimum of 24 credit hours in graduate program courses, of which at least 18 credit hours must be in Computer Science.
2. Within this credit requirement, a student must take the following courses:
COMP 6999 (Master's Project)
One course in Software Engineering (COMP 6713)
One course in Algorithms (COMP 6743 or COMP 6783)
One course in Information Systems (COMP 6742 or COMP 6751)
3. Additionally students must complete one co-operative education work term (COMP 601W). Under normal circumstances, students will undertake their work term in the Spring semester.
4. The dates for starting and finishing each work term are shown in the **University Diary**.
5. Students must successfully complete at least 12 credit hours (four courses) prior to beginning their work term.
6. Students will conduct job searches through the **Division of Co-operative Education** in cooperation with the Department of Computer Science. Students who do not wish to accept a work term job arranged by the Division shall be responsible for finding an alternative. Such jobs must be confirmed by letter from the employer and approved by the Head of Computer Science and by the Division on or before the first day of the work term. Work term jobs may be outside St. John's and possibly outside Newfoundland and Labrador.
7. Each work term placement will be supervised by the candidate's program Supervisor, the on-site Supervisor assigned by the employer and the Division of Co-operative Education Co-ordinator. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor and the Division of Co-operative Education Co-ordinator. The work term shall consist of two components:
 - a. On-the-job Student Performance as evaluated by the on-site Supervisor and the Division of Co-operative Education Co-ordinator, in consultation with the program Supervisor.
 - b. A Work Report graded by the program Supervisor in consultation with the on-site Supervisor.
8. Evaluation of the work term will result in the assignment of one of the following final grades:
 - a. Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
 - b. Fail: Indicates FAILING PERFORMANCE in the work report and/or the work performance. If a failing grade is assigned, the student's Masters program will be terminated.

23.11.3 Other Regulations

1. Students from either **Option 1 - Thesis Route** or **Option 2 - Course/Project Route with Work Term** may request to transfer between both options once during their studies. The transfer requires an approval from the Head of Department.
2. All candidates are expected to take an active part in seminars and other aspects of the academic life of the Department of Computer Science.
3. The Department of Computer Science Graduate Student Research Forum takes place in the Winter semester of the academic year. All M.Sc. students must present at the Research Forum at least once during their program.
4. Full-time students are expected to complete all program requirements in two years. Part-time students are expected to complete all program requirements in four years.

23.11.4 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow. Normally, students will be expected to complete their course work during the fall and winter semesters. Courses might not be offered in the spring semester.

- 601W Work Term
- 6711 Syntax and Semantics of Programming Languages
- 6712 Compiling Techniques
- 6713 Software Engineering
- 6714 Functional Programming
- 6715 Logic Programming

6716 Concurrent Programming
 6718-6719 Special Topics in Programming Languages
 6720 Distributed and Parallel Computing
 6721 Operating Systems Design
 6722 Advanced Computer Architectures
 6723 Microprocessor Systems
 6724 VLSI Design (same as Engineering 9863)
 6725 Computational Aspects of VLSI (same as Engineering 9864)
 6726 Modelling and Analysis of Computing Systems
 6727 Introduction to High Performance Computer Systems
 6728-6729 Special Topics in Computer Systems - Computer Networks
 6731 Topics in Numerical Methods
 6732 Matrix Computations
 6738-6739 Special Topics in Numerical Methods
 6741 Advanced Automata Theory
 6742 Theory of Databases
 6743 Complexity of Computational Problems
 6745 Special Topics - Advanced Computational Geometry
 6748-6749 Special Topics in Theoretical Computer Science
 6751 Database Technology and Information Retrieval
 6752 Applications of Computer Graphics
 6753 Artificial Intelligence
 6754 Post-Genomic Computational Biology
 6755 Knowledge-Based Systems
 6756 Digital Image Processing
 6758-6769 Special Topics in Computer Applications
 6770-6790 Special Topics in Computer Science (excluding 6783)
 6783 Applied Algorithms
 6999 Master's Project

23.12 Earth Sciences

Associate Professor and Head of the Department

R. Mason

The degrees of Master of Science and Doctor of Philosophy are offered in Earth Sciences (Geology) and Earth Sciences (Geophysics) by full-time and part-time study.

23.12.1 Program of Study

1. Admission into a Master's Degree program in Earth Sciences (Geology) and Earth Sciences (Geophysics) is restricted to candidates holding at least a B.Sc. Degree with second class Honours. When circumstances warrant, this requirement may be waived by the School of Graduate Studies on the recommendation of the Head of the Department.
2. Each candidate will be assigned a multi-member supervisory committee. This committee shall consist of the Supervisor and at least one other member. Within two weeks of the first registration in the M.Sc. Degree program, a candidate will meet with his/her supervisory committee. Within six months, the student and the supervisory committee will agree on a written thesis proposal outlining the objectives, methods, timetable and funding for the project, and provide the proposal (signed by the student and supervisory committee) to the Head for inclusion in the student's file.
3. A candidate for the M.Sc. Degree must complete a minimum of 6 credit hours in program courses. The courses must be selected from the overview and general courses below or with the approval of the supervisory committee and Head of the Department, other graduate level courses including those offered by other departments. Depending on background and/or area of specialization, a candidate also may be required to complete additional courses in earth sciences or related subjects.
4. All course requirements should be completed within one year from the date of first registration in the M.Sc. Degree program.
5. A candidate is required to give an oral presentation to the Department on the results of his/her research. This presentation must be given during the second year of the program.
6. The M.Sc. Degree program will conclude with a thesis examination as prescribed in the **Regulations Governing the Degree of Master of Science**.
7. The Supervisor and the Head of the Department may recommend to the Dean of Graduate Studies that a candidate who is not making satisfactory progress be required to withdraw from the program.

23.12.2 Courses

A selection of courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

Overview Courses

7110 Physics of the Solid Earth
 7120 Crustal Geophysics
 7300 Changes in Global Paleoenvironment
 7400 Tectonic Regimes
 7410 Engineering and Environmental Geology
 7500 Chemical Fluxes in the Earth
 7810 Paleocology (same as the former 6810. Credit may be obtained for only one of 7810 or 6810)

General Courses

6070 Quantitative Techniques in Mineralogy and Metamorphic Petrology
 6141 Rotation of the Earth
 6142 Theory of Global Geodynamics
 6152 Paleomagnetism
 6171 Advanced Exploration Seismology
 6172 Borehole Seismic
 6175 Gravity and Magnetic Methods

6177 Mathematical Formulations of Seismic Wave Phenomena
 6210 Genesis of Mineral Deposits
 6320 Marine Geology
 6400 Flow and Transport in Fractured Rock
 6410 Advanced Engineering and Environmental Geology
 6420 Deformation Mechanisms
 6500 Stable Isotope Geochemistry
 6510 Trace Element Geochemistry
 6520 Methods in Advanced Research in Geochemistry
 6540 Radiogenic Isotope Geochemistry
 6550 Biogeochemistry
 6600 Petroleum Geology
 6740 Modern and Ancient Sedimentary Environments
 6750 Sequence Stratigraphy
 6820 Palynology and Paleobotany
 6900-6999 Special Topics in Earth Sciences

23.13 Environmental Science

(see also **Master of Environmental Science**)

Board of Studies

Dr. J. Wroblewski, Department of Ocean Sciences - Chair
 Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
 Dr. B. Chen, Faculty of Engineering and Applied Science
 Dr. R. Chuenpagdee, Department of Geography
 Dr. P. Marino, Head, Department of Biology
 Dr. W. Montevicchi, Department of Psychology
 Dr. L. Tarasov, Department of Physics and Physical Oceanography
 Dr. S. Ziegler, Department of Earth Sciences

23.13.1 Program of Study

1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Faculty of Arts, the Faculty of Medicine, and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.
2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

23.13.2 Qualifications for Admission

Admission is limited and competitive. To be considered for admission applicants shall normally hold a Bachelor's (Honours) degree in Science, Geography, or Environmental Science with at least second class standing, or equivalent, or a Bachelor's degree in Engineering from an institution recognized by the Senate or shall have qualifications and/or experience in environmental science acceptable to the Dean of Graduate Studies and the Board of Studies. The Board of Studies make recommendations on admission to the Dean of Graduate Studies.

23.13.3 Degree Requirements

1. To the extent that resources permit, individual programs will be developed to suit students' interests and needs. However all programs must be approved by the Board of Studies and by the Dean of Graduate Studies. All **General Regulations** of the School of Graduate Studies shall apply to these degrees.
2. The Master of Science (Environmental Science) is a research Degree which includes a thesis and course work. The thesis research will focus on environmental topics relevant to the student's background. The course component has two aims: to broaden the student's understanding of environmental issues; and to provide further training in areas of research specialization for the thesis.
3. Each student will have a Supervisory Committee normally consisting of a Supervisor and two others. The Supervisory Committee will be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies for Environmental Science.
4. The program of each student will consist of a minimum of 12 credit hours in program courses which will include ENVE/ENVS 6000 and ENVS 6010. Of the 6 credit hours remaining in program courses, 3 credit hours will be from ENVE/ENVS 6001, 6002 and 6003 and the other 3 credit hours will be related to the student's specialty and will normally be chosen from graduate courses offered by the Faculties of Science, Arts, Medicine and Engineering and Applied Science.
5. All students will be required to submit a thesis embodying the results of systematic research on an approved topic. The thesis will be evaluated according to procedures outlined in **General Regulations, Theses and Reports**.

23.13.4 Courses

ENVE/ENVS 6000 Environmental Science and Technology
 ENVE/ENVS 6001 Earth and Ocean Systems
 ENVE/ENVS 6002 Environmental Chemistry and Toxicology
 ENVE/ENVS 6003 Applied Ecology
 ENVS 6004 Environmental Pollution and Mitigation (cross-listed as ENGI 9601)
 ENVS 6007 Environmental Risk Assessment (cross-listed as ENGI 9609)
 ENVS 6008 Air Pollution (same as ENGI 9624)
 ENVS 6009 Environmental Science Project
 ENVS 6010 Environmental Seminar
 ENVS 6201-6210 Special Topics in Environmental Science

23.14 Food Science

See **Biochemistry**.

23.15 Geography

Professor and Head of the Department

C. Mather

23.15.1 General Information

1. The degrees of Master of Arts and Master of Science are offered in Geography by full-time or part-time study.
2. Admission requirements are set forth in the **General Regulations** of the School of Graduate Studies and Degree Regulations for **Master of Arts** and **Master of Science**.
3. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
4. An applicant will be admitted to a graduate program only if a faculty member agrees to act as Supervisor. A supervisory committee will be established after admission, normally consisting of the Supervisor and two other individuals, one of whom will normally be a member of the Department.
5. Major research areas for graduate study at the master's level are cultural, political, historical, economic, urban, resource management, community and regional development, geomorphology, Quaternary environments, climatology and geographic information sciences.
6. Candidates will register for the M.A. program if their fields of interest lie in an area of Human Geography or for the M.Sc. if their fields of interest are in Physical Geography or Geographic Information Sciences.
7. It is expected that the program of study and research for the M.A. or M.Sc. will normally be completed in a maximum of two years of full-time work, or three years of part-time work.
8. Candidates must successfully complete a minimum of 12 credit hours of graduate program courses with a minimum grade of B in each. Geography 6000 and 6001 will be required courses for all candidates who have not already completed equivalent courses at the Honours or post-graduate level.
9. Candidates whose undergraduate Degree is not in geography will normally be required to complete some additional undergraduate program courses during their first year of study, in addition to the required graduate program courses. Normally four such undergraduate courses will be required, and a minimum grade of 70% must be obtained in each.
10. Each candidate will be required to present a seminar on their research to the Department.
11. Each candidate must submit a thesis based on their own original research. This thesis will be examined in accordance with the **General Regulations** of the School of Graduate Studies.

23.15.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Development of Geographical Thought and Practice I
 6001 Development of Geographical Thought and Practice II
 6002 Directed Readings in Geography
 6100 Research Techniques in A Selected Field of Geography I
 6101 Research Techniques in A Selected Field of Geography II
 6120 Geospatial Modelling and Analysis
 6150 Environmental Remote Sensing and Image Analysis
 6200 Economic Geography I
 6201 Economic Geography II
 6204 Sustainable Community and Regional Development
 6250 Conservation and Sustainability of Natural Resources
 6251 Survey Design, Questionnaire Development and Techniques of Data Collection
 6300 Problems in Fisheries Geography
 6400 Fluvial Geomorphology
 6401 Glacial Geomorphology
 6402 Coastal Geomorphology
 6410 Climatology
 6420 Quaternary Geography
 6430 Biogeography
 6500 Cultural Geography
 6600 Historical Geography
 6700 Political Geography
 6800 Urban Geography
 6821 Advanced Computer Mapping
 6900 Graduate Seminar in Regional Geography
 6990-95 Special Topics in Geography

23.16 Geology

See **Earth Sciences**

23.17 Geophysics

See **Earth Sciences**

23.18 Instrumental Analysis

See **Chemistry**

23.19 Mathematics and Statistics

Professor and Head of the Department

E. Goodaire

The degrees of **Master of Applied Statistics** (see appropriate calendar entry), Master of Science and Doctor of Philosophy are offered in the Department of Mathematics and Statistics. The Masters' degrees are offered by full-time and part-time studies.

23.19.1 Specific Requirements for the M.Sc. in Mathematics

Every candidate for the M.Sc. in Mathematics is required to complete one of two options.

- Option 1:** At least 15 credit hours in graduate courses, at most 3 of which may be from seminar courses (excluding MATH 696A/B) and at least 9 of which must be in courses selected from the list below with at least 3 credit hours in three of the indicated subject areas. Remaining course selections to satisfy the total credit hour requirement for this option may be chosen from the departmental course offerings, excluding MATH 6299. A thesis is required as per **General Regulations, Theses and Reports**.
- Option 2:** At least 23 credit hours in graduate courses, including MATH 696A/B, MATH 6299 and at least 9 credit hours in courses selected from the list below with at least 3 credit hours in three of the indicated subject areas. Remaining course selections to satisfy the total credit hour requirement for this option may be chosen from the departmental course offerings, excluding those in the range 6900-6950.
 - Algebra: 6320, 6321
 - Analysis: 6310, 6311, 6312
 - Applied Mathematics: 6100, 6201 or 6212, 6120
 - Combinatorics: 6340, 6341, 6342
 - Topology: 6300 or 6301, 6332

23.19.2 Specific Requirements for the M.Sc. in Statistics

Every candidate for the M.Sc. in Statistics is required to complete STAT 6510 and STAT 6560 plus at least 12 credit hours in graduate courses. Candidates must attend the Seminar Series in Statistics (non-credit) or register for an additional 3 credit hour graduate course. A thesis is required as per **General Regulations, Theses and Reports**.

Table of Credit Restrictions for Present Mathematics Courses with Former Mathematics Courses

(Credit may be obtained for only one course from each of the pairs listed in this table.)

Present Course	Former Course	Present Course	Former Course
6323	6030	6212	6080
6321	6032	6310	6130
6322	6035	6330	6200
6340	6040	6331	6210
6341	6041	6332	6350
6342	6042	6312	6500

23.19.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

Mathematics

6100 Dynamical Systems
 6101 Modern Perturbation Theory
 6102 Mathematical Biology
 6104 Infinite Dimensional Dynamical Systems
 6110-6119 Special Topics in Applied Mathematics
 6120 Theoretical Fluid Dynamics
 6121 Functional Differential Equations
 6130 Introduction to General Relativity
 6160 Partial Differential Equations
 6201 Numerical Methods for Partial Differential Equations
 6202-6209 Special Topics in Numerical Analysis
 6210 Numerical Solution of Differential Equations
 6212 Numerical Methods for Initial Value Problems
 6299 Master's Project
 6300 Algebraic Topology I (Homology Theory)
 6301 Algebraic Topology II (Homotopy Theory)
 6302 Algebraic Topology III (Theory of Fibre Bundles)
 6304-6309 Special Topics in Topology
 6310 Functional Analysis
 6311 Complex Analysis
 6312 Measure Theory
 6313 Functional Analysis II
 6315-6319 Special Topics in Analysis
 6320 Group Theory
 6321 Ring Theory
 6322 Nonassociative Algebra
 6323 Homological Algebra
 6324-6329 Special Topics in Algebra

6330 Analytic Number Theory
 6331 Algebraic Number Theory
 6332 Point Set Topology
 6340 Graph Theory
 6341 Combinatorial Design Theory
 6342 Advanced Enumeration
 6343-6349 Special Topics in Combinatorics
 6351 Advanced Linear Algebra
 6910 Topology Seminar
 6940 Analysis Seminar
 6950 Algebra Seminar
 696A/B Graduate Seminar (2 credit hours)

Statistics

6500 Probability (*credit restricted with former 6586*)
 6503 Stochastic Processes
 6505 Survival Analysis
 6510 Mathematical Statistics
 6520 Linear Models
 6530 Generalized Linear Longitudinal Mixed Models
 6540 Time Series Analysis
 6545 Statistical Computing
 6550 Nonparametric Statistics
 6560 Continuous Multivariate Analysis
 6561 Categorical Data Analysis
 6563 Sampling Theory
 6570-6589 Selected Topics in Statistics and Probability (excluding 6586)
 6930 Statistics Seminar

23.20 Physics and Physical Oceanography

Professor and Head of the Department

J. Whitehead

Programs leading to the Degree of Master of Science in Physics and in Physical Oceanography are offered to both full and part-time students. Because Oceanography is multidisciplinary in nature, undergraduate students who plan to undertake Physical Oceanography studies are urged to consult the faculty member in charge of Physical Oceanography programs at their earliest opportunity, in order to ensure the appropriateness of their undergraduate course selections. The Degree of Doctor of Philosophy in Physics is offered through both full-time and part-time study in Atomic and Molecular Physics, Condensed Matter Physics, and Physical Oceanography. The following Departmental Regulations are supplementary to the General Regulations governing the M.Sc. and Ph.D. degrees. A thorough familiarity with the latter Regulations should be regarded as the prerequisite to further reading in this section.

The Department of Physics and Physical Oceanography compiles, and regularly reviews, a brochure which contains reasonably detailed descriptions of currently active research projects, as well as a comprehensive listing of recent research publications, and other material which may be of interest to prospective graduate students.

23.20.1 Program of Study

1. Admission to a M.Sc. program in the Department of Physics and Physical Oceanography is normally restricted to candidates holding an Honours B.Sc. Degree in Physics. However, depending on background and area of specialization and with particular reference to Physical Oceanography, other Baccalaureate degrees in science, applied science or mathematics, may be accepted.
2. A program of study for the M.Sc. Degree in Physics or Physical Oceanography shall normally include a minimum of 12 graduate credit hours. However, depending on the student's background and area of specialization, more or fewer graduate and/or undergraduate courses may be required.
3. Except with the special permission of the Department and the approval of the Dean of Graduate Studies, a candidate may not take any courses in addition to those approved for his/her M.Sc. program.
4. Before submission of the thesis to the School of Graduate Studies for examination, the student must present a seminar on the topic of his/her thesis research.

23.20.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Condensed Matter Physics I
 6001 Condensed Matter Physics II
 6002 Superconductivity
 6003 Path Integral Techniques in Condensed Matter Physics
 6010-19 Special Topics in Condensed Matter Physics
 6040 Biophysics
 6060-69 Special Topics in Interdisciplinary Areas
 6200 Nonlinear Dynamics
 6308 Ocean Dynamics I
 6309 Ocean Dynamics II
 6310 Physical Oceanography
 6313 Physical Fluid Dynamics
 6314 Field Oceanography
 6315 Polar Oceanography
 6316 Ocean Measurements and Data Analysis
 6317 Ocean Acoustics
 6318 Numerical Modelling
 6319 Climate Dynamics
 6320 Turbulence

6321 Coastal Oceanography
 6322 Stratified Fluids
 6323 Stability Theory
 6324 Models in Ocean Ecology
 6360-69 (excluding 6363) Special Topics in Physical Oceanography
 6363 Laboratory Experiments in Geophysical Fluid Dynamics
 6400 Statistical Mechanics
 6402 Theory of Phase Transitions
 6403 Stochastic Processes, Time-Dependent and Non-equilibrium Statistical Mechanics
 6502 Electrodynamics
 6720 Theory of Molecules
 6721 Molecular Spectroscopy
 6722 Light Scattering Spectroscopy
 6730 Molecular Theory of Liquids and Compressed Gases
 6740 Physics of Atomic Collisions
 6760-69 Special Topics in Atomic and Molecular Physics
 6800 Group Theory
 6810-19 Special Topics in Theoretical and Mathematical Physics
 6850 Quantum Mechanics I
 6851 Quantum Mechanics II
 6900 Techniques in Experimental Condensed Matter Physics
 6910-19 Special Topics in Experimental and Applied Physics

Table of Credit Restrictions - Physics and Physical Oceanography

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course	Present Course	Former Course
6001	6051	6321	6303
6002	6822	6321	6304
6003	6820	6323	6303
6200	6821	6402	6401
6308	6312	6403	6401
6309	6311	6403	6824
6313	6301	6502	6500
6316	6302	6502	6501
6317	6823	6722	6790

Members of the Department carry out research in several areas of experimental and theoretical physics, including atomic and molecular physics, condensed matter physics, physical oceanography, theoretical geophysics and applied nuclear physics. In atomic and molecular physics, there are experimental programs in collision-induced infrared absorption spectroscopy, electron emission spectroscopy of simple molecules, molecular ions and free radicals, laser-induced fluorescence spectroscopy, and Raman spectroscopy, and theoretical work on atomic and molecular collisions. The work in condensed matter physics includes experimental programs in solid state nuclear magnetic resonance on systems of biophysical interest, Raman spectroscopy of lipid bilayers and membranes, studies of phase transitions using Brillouin and Raman spectroscopy, studies of instabilities and pattern formation in simple fluid dynamical systems, and spectroscopic studies of molecular crystals. Theoretical condensed matter physics research involves studies of magnetism, superconductivity, and the statistical mechanics of polymers and lipid bilayers. The physical oceanography group carries out field and laboratory research on several projects which take advantage of Newfoundland's unique oceanographic environment, using acoustic and other remote sensing techniques. These include studies of circulation on the Newfoundland and Labrador shelves, Labrador current dynamics, fjord dynamics, submarine canyons and sediment transport dynamics in the nearshore zone and on the shelf. Theoretical oceanographic studies involve the modelling of ocean circulation, gravity wave phenomena and other aspects of ocean dynamics. Research in theoretical geophysics is concentrated on whole-Earth dynamics, with special emphasis on the physics of the liquid core (the Earth's "third ocean") as inferred from its wave spectrum and the associated momentum transfer to the deformable solid parts of the Earth. In nuclear physics, research is done on the atmospheric concentrations of radioactive elements and on dosimetry for medical applications.

Note: For Geophysics, see **Earth Sciences**

23.21 Psychology

Professor and Head of the Department

I. Neath

The Degree of Master of Science is offered in Experimental Psychology. The Degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the sections in the Calendar describing the **Master of Applied Social Psychology (Cooperative)** and the Master of Science and Doctor of Philosophy in Cognitive and Behavioural Ecology programs.

Applications

All applicants are required to submit results from the General section of the Graduate Record Examinations.

At least one letter of reference should come from someone who is familiar with the applicant's research capability.

23.21.1 Program of Study

A candidate may be accepted into a program leading to the M.Sc. in Experimental Psychology.

Experimental Psychology

1. The areas of specialization offered are: Animal Behaviour (see **Cognitive and Behavioural Ecology Program**), Behavioural Neuroscience and Clinical, Cognitive, Developmental and Social Psychology.

- Candidates shall normally complete 15 credit hours, including: Advanced Statistics in Psychology (6000), Research Design (6001), Core Graduate Seminar in Psychology (699A/B), and 6 credit hours related to their area of specialization. Candidates will also register for the Colloquium Series in Psychology (6010) each Fall and Winter semester of their program for a maximum of four registrations.
- Every candidate shall submit an original thesis based upon an approved experimental research topic.

23.21.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Advanced Statistics in Psychology
 6001 Research Design
 6010 Colloquium Series in Psychology (repeatable, non-credit)
 6100-6130 Special Topics in Experimental Psychology
 6200 Learning I
 6201 Learning II
 6203 Behavioural Pharmacology
 6210 Behavioural Analysis of Toxins
 6351 Behavioural Ecology and Sociobiology (Cross-listed as CABE 6351)
 6400 Theory and Methods in Social Psychology
 6401 Social Cognition
 6402 Group Processes
 6403 Program Evaluation and Applied Research
 6404 Project in Applied Social Psychology (Note: This course is open only to students in the Master of Applied Social Psychology)
 6500 Developmental Psychology I
 6501 Developmental Psychology II
 6502 Developmental Changes During Old Age
 6700 Perception
 6710 Human Information Processing
 6720 Human Memory
 6800 Behavioural Neuroscience I
 6801 Behavioural Neuroscience II
 6810 Psychometrics
 6910 Personality
 699A/B Core Graduate Seminar in Psychology (3 credit hours).

24 Regulations Governing the Degree of Master of Science in Kinesiology

Associate Professor and Dean

A. Card

Professor and Associate Dean

D. Behm

The Degree of Master of Science in Kinesiology (M.Sc. (Kinesiology)) is offered to qualified full-time and part-time students by the School of Human Kinetics and Recreation. The **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Human Kinetics and Recreation outlined below will apply to the Master of Science in Kinesiology program.

24.1 Qualifications for Admission

- The admission requirements for the Master of Science in Kinesiology are as given under the **General Regulations** of the School of Graduate Studies. Admission is limited and competitive. Preference for admission may be given to students with undergraduate degrees in relevant disciplines, with a minimum overall B average. Applications submitted through the School of Graduate Studies will be evaluated by the Graduate Studies Committee of the School of Human Kinetics and Recreation. Admission of a candidate to the program shall be made by the Dean of Graduate Studies.
- Only in exceptional circumstances, and only on the recommendation of the Dean of the School of Human Kinetics and Recreation, shall the Dean of Graduate Studies consider applicants who do not meet the requirements above.

24.2 Program and Degree Requirements

- The Degree of Master of Science in Kinesiology is offered in the areas of Exercise and Work Physiology, Biomechanics/Ergonomics, Sport Psychology, and Socio-cultural Studies of Physical Activity and Health.
- The program of a candidate for the Master of Science in Kinesiology shall be the responsibility of the Supervisory Committee, composed of the Supervisor and at least one other faculty member recommended with the concurrence of the Supervisor by the Dean of the School, or delegate.
- Candidates for the Master of Science in Kinesiology shall be required to complete a minimum of 15 credit hours plus a thesis. Either HKR 6000 or HKR 6001 is normally required for all candidates. In addition, all on-campus candidates shall be required to complete four semester-length seminar courses (HKR 6510-6513). Off-campus or part-time candidates who cannot attend the on campus seminar series can substitute 24 hours of participation in (over their two year tenure) and one presentation at national, provincial or regional conferences, workshops, professional development seminars or equivalent activities. The remaining course requirements will be selected, in agreement with the Supervisory Committee, to reflect the kinesiology areas of specializations offered with the School.
- It is the responsibility of the student to arrange regular meetings with their supervisory committee. An annual report, prepared by the Supervisor and signed by all members of the Supervisory Committee and the student, is submitted to the Dean of the School of Human Kinetics and Recreation (or delegate) as required by the School of Graduate Studies.
- Depending on the background of the candidate or his/her area of intended specialization, a candidate's program may be modified. Such modifications may include a reduction in course requirements where a student demonstrates that he or she brings graduate

level competency to their program in specific areas, or may include additional graduate or undergraduate courses, as specified by the student's Supervisory Committee. A minimum of three courses or 9 credit hours completed in the School of Human Kinetics and Recreation is mandatory.

6. A student completing a Master of Science in Kinesiology will be required to present a thesis proposal for his or her proposed thesis normally by the end of the third semester of study. The thesis proposal shall normally consist of a full written proposal (including literature review) submitted to the Supervisory Committee, a summary to be distributed to graduate students and faculty one week prior to the presentation and a formal presentation normally at the seminar series. The candidate may be questioned on his/her proposal by the Supervisory Committee and seminar audience. Any deficiencies noted during the presentation should be carefully considered by the student and the Supervisory Committee prior to proceeding with the thesis.
7. All graduate students are expected to attend and participate in the School of Human Kinetics and Recreation seminars and thesis proposal presentations.
8. In conjunction and collaboration with other Faculties and Schools of Memorial University of Newfoundland, students may pursue their special interests through electives from departments/schools outside the School of Human Kinetics and Recreation. These courses must be approved by the Graduate Studies Committee and the Dean of Graduate Studies in the preceding semester.
9. Candidates may apply for transfer course credits. All course transfers require the approval of the Dean of Graduate Studies, on the recommendation of the Dean of the School of Human Kinetics and Recreation, and are subject to **General Regulation Program Requirements, Transfer of Course Credits** of the School of Graduate Studies.

24.3 Evaluation

1. In order to continue as a candidate for a Master of Science in Kinesiology Degree, a candidate who receives a final grade of 'C' or less in a program course must repeat that course and obtain a minimum grade of 'B'. In the case of an elective course a suitable replacement course, acceptable to the Graduate Studies Committee of the School of Human Kinetics and Recreation, may be substituted for the failed course. Only one such repetition/replacement shall be permitted in the candidate's graduate program. Should a grade of lower than 'B' be obtained in the repeated course/replacement course, or any other program course, the candidate shall be required to withdraw from the program.
2. When the Graduate Studies Committee of the School of Human Kinetics and Recreation has determined, through consultation with the candidate, the instructors of graduate courses and the program advisor or thesis Supervisor that the candidate's work has fallen below satisfactory level, it may request that the Dean of the School of Human Kinetics and Recreation recommend to the Dean of Graduate Studies that the candidate's program be terminated.

24.4 Period of Study

The period of study for a graduate program shall not normally exceed seven years beyond first registration.

1. A candidate in full-time attendance may register for a maximum of 12 credit hours in any regular semester and a maximum of 6 credit hours in intersession or summer session.
2. A candidate in part-time attendance may register for a maximum of 3 credit hours in any semester, including intersession or summer session.

24.5 Thesis

The School of Graduate Studies General Regulation describes the requirements in **Theses and Reports**.

24.6 Courses

HKR 6000 Quantitative Methods in Physical Education
 HKR 6001 Qualitative Research Methods in Physical Education
 HKR 6003 Physical Education, Culture and Society
 HKR 6111 Canadian Delivery Systems in Physical Education, Recreation and Sport
 HKR 6120 Curriculum Development in Physical Education
 HKR 6121 Physical Education Leadership
 HKR 6122 Comprehensive School Health
 HKR 6123 Coaching and Long-term Athlete Development
 HKR 6124 Adapted Physical Activity for Persons with Physical and Intellectual Disabilities
 HKR 6130 Computer Applications in Physical Education
 HKR 6201 Foundations of Sport Psychology and Mental Training Techniques
 HKR 6202 Intervention and Enhancement Techniques in Mental Training Consultation
 HKR 6203 Sport Psychology Consulting
 HKR 6310 Exercise Physiology I
 HKR 6320 Exercise Physiology II
 HKR 6330 The Application and Implementation of Kinesiology Technologies
 HKR 6340 Occupational Biomechanics
 HKR 6410 Sport and Society
 HKR 6500 Introduction to Research in Physical Education
 HKR 6510-6513 Graduate Seminar Series (non-credit)
 HKR 6610-15 Individual Reading and Research in Special Areas

25 Regulations Governing the Degree of Master of Science in Medicine

Professor and Dean

J. Rourke

Professor and Interim Associate Dean

D. McKay

Associate Professor and Acting Assistant Dean

D. Gustafson

The Faculty of Medicine offers the degree of Master of Science in Medicine in eight program areas: Applied Health Services Research, Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics,

Immunology and Infectious Diseases, and Neurosciences. Each program area has a Co-ordinator who is responsible for communicating the interests of the programs to the Faculty of Medicine Graduate Studies Committee and participates in the admission of graduate students into the program in Medicine. The Faculty of Medicine also offers the degree of Master of Public Health.

The Degree of Master of Science in Medicine (in all of the programs excluding the Applied Health Services Research Program) is offered in the Faculty of Medicine to full-time and part-time students. The Applied Health Services Research program is offered by full-time study only. The graduate diploma programs in Community Health and Clinical Epidemiology are offered by part-time study only.

The following regulations will apply in conjunction with the **General Regulations** of the School of Graduate Studies.

25.1 Master of Science in Medicine

25.1.1 Qualification for Admission

The admission requirements for each of the M.Sc. Program areas in Medicine are described under Programs of Study.

25.1.2 General Program Requirements

1. The program of study for the M.Sc. in Medicine Degree is the responsibility of the Supervisory Committee composed of a Supervisor and at least two other faculty members.
2. It is the responsibility of the supervisory committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate's program. An annual report prepared by the Supervisor and signed by the student and all members of the committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).
3. Course requirements are set by each of the program areas and are described under **Programs of Study**. In addition, all students will be required to complete GRAD 9991 (Graduate Research Integrity Program).
4. In addition to courses and research, graduate students are expected to participate in Faculty of Medicine seminars and journal clubs.
5. The M.Sc. in Medicine requires the successful completion of a research project and a written thesis.

25.1.3 Program Areas

25.1.3.1 Applied Health Services Research

The Applied Health Services Research program is jointly offered by the University of New Brunswick (UNB), Memorial University of Newfoundland (MUN), Dalhousie University (Dal), and the University of Prince Edward Island (UPEI). Students will be educated in an interdisciplinary environment and will develop a substantive understanding of: the Canadian health system, the conduct of ethical research, critical appraisal, appropriateness of research design for particular policy questions and determinants of health models. They will also gain first-hand exposure in a decision-making/policy environment and learn how to conduct research through completion of a thesis. Access to specific computer software and the Internet is required and will be the responsibility of each student.

1. Administration
 - a. An Advisory Board, consisting of the Deans of Graduate Studies, the Principals from each site, plus student representation as well as health care decision makers and stakeholders from the Atlantic Region will oversee the academic program across the Universities and ensure program integrity.
 - b. A Program Management Committee, consisting of the Principals and Site Co-ordinators from UNB, Memorial University of Newfoundland, Dal and UPEI will oversee the operation of the program.
 - c. At Memorial University of Newfoundland, the program shall be administered through the Office of Research and Graduate Studies (Faculty of Medicine) by a Principal who shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Medicine.
2. Qualifications for Admission
 - a. Admission is limited and competitive. To be considered for admission to the program, an applicant shall normally have a bachelor's degree with a minimum 75% average (or equivalent) from an institution recognized by the Senate. Normally, students should have completed an undergraduate course in statistics.
 - b. Students are normally admitted to the Fall semester (September). The deadline for receipt of applications is March 1. Late applications will only be considered if admissions decisions have not yet been made.
3. Program Requirements
 - a. All students will be required to successfully complete eight core courses, the Graduate Research Integrity Program, a four-month residency placement and a thesis. In addition, candidates must participate in five conference workshops each of one week duration.
 - b. Prior to submission of the thesis to the School of Graduate Studies for examination (see **General Regulation Thesis and Reports**), candidates shall present an open seminar.
 - c. Outline of program of study:

Term	Required Courses
Semester 1 Fall	Workshop 1 Theme: Orientation to first year MED 6282 MED 6284 MED 6286 Workshop 2 Theme: Research Issues and Critical Appraisal
Semester 2 Winter	MED 6288 MED 6290 MED 6292 Workshop 3 Theme: Policy and Decision Making
Semester 3 Spring	Residency Placement: All candidates are required to complete a 16-week residency placement. The residency placement is negotiated by the Principal in consultation with the student and governed by the agreements outlined in the Atlantic Regional Training Centre residency manual. Workshop 4 Theme: Orientation to second year
Semester 4 Fall	MED 6293 MED 6294 or MED 6295 Workshop 5 Theme: Communication and Dissemination
Semester 5 & 6 Winter & Spring	Thesis, including public presentation

25.1.3.2 Cancer and Development

The graduate program in Cancer and Development offers study in fundamental cell and molecular biological areas including viral oncogenesis, growth factors and oncogenes in developmental models, programmed cell death and drug resistance.

1. Qualifications for Admission

The admission requirements are as given under the **General Regulations** governing Master's degrees. All courses in the program have as a prerequisite, successful completion of an advanced, upper-level biochemistry, biology or medical course, with an emphasis on molecular biology or medicine.

2. Program Requirements

All students are required to attend, for credit, and participate in the Cancer and Development Journal Club (Cancer, Seminars, MED 6400-6403). One other graduate course (chosen from MED 6580, 6590, 6591, 6340, 6341 or 6342) is required for M.Sc. Medicine students although other courses may be required in individual cases.

25.1.3.3 Cardiovascular and Renal Science

The graduate program in Cardiovascular and Renal Sciences enables students to pursue research and academic studies in selected topics including hypertension and stroke, neural and endothelial control of vasculature and blood pressure as well as physiological mechanisms promoting heart failure. The faculty participating in the program consists of basic cardiovascular scientists and renal clinicians. Teaching within the program is integrated with the M.D. program.

1. Qualifications for Admission

The admission requirements are as given under the **General Regulations** governing Master's degrees.

2. Program Requirements

Students will be required to take a minimum of two graduate courses. Basic Cardiovascular and Renal Physiology (MED 6140) is required and must be taken within 1.5 years after entry into the program. Students will choose a second course from MED 6141, 6142, 6143, 6144 or 6194 or any other graduate course approved by the student's supervisory committee.

25.1.3.4 Clinical Epidemiology

The program in Clinical Epidemiology is aimed at university graduates intending a career in health services, faculty members seeking advanced training in clinical epidemiology, medical doctors and health care professionals interested in health care delivery research.

1. Qualifications for Admission

The admission requirements are as given under the **General Regulations** governing Master's degrees. In exceptional circumstances, a professional equivalent qualification will be considered for admission.

2. Program Requirements

- Students are required to take: MED 6262 or MED 6200, MED 6250, MED 6255 and MED 6260, plus one or more additional course(s) as recommended by the supervisory committee. In addition students are required to take the Seminar Series (MED 6400-6403).
- Students are expected to give an oral presentation of their thesis research.

25.1.3.5 Community Health

The graduate program in Community Health enables students to pursue research and academic studies in selected topics including community health, epidemiology, socio-behavioural health, biostatistics, health services utilization, health policy and health promotion.

1. Qualifications for Admission

The admission requirements are as given under the **General Regulations** governing Master's degrees. In exceptional

circumstances, a professional equivalent qualification will be considered. Students are expected to have successfully completed at least one basic university-level statistics course.

2. Program Requirements

Students are required to take three core courses: MED 6220, MED 6270 and MED 6280; 2 core stream courses: either the quantitative stream, consisting of MED 6200 and MED 6275 or the qualitative stream, consisting of MED 6294 and MED 6102; and 1 elective; and to attend, for credit, and participate in four semester-length seminar courses (MED 6400-6403).

25.1.3.6 Human Genetics

The graduate program in human genetics will enable students to pursue academic studies and research in a number of areas of genetics including cancer genetics, genetic epidemiology, gene mapping, medical genetics, birth defects and population genetics. Faculty members from all three divisions of the Faculty of Medicine (Basic Sciences, Community Health and Clinical Sciences) participate in the program.

1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master's degrees. Applicants with backgrounds in the fields of genetics, biochemistry and biology are preferred.

2. Program Requirements

- Students will be required to complete a minimum of two graduate courses. Within the Human Genetics program the following courses are offered: Human Molecular Genetics (MED 6393), Human Population Genetics (MED 6390), Applied Human Genetics (MED 6392) and Selected Topics in Human Genetics (MED 6391). In addition, there are a number of courses in other graduate programs which could be suitable for some students in this program, including Epidemiology I (MED 6270), Molecular Biology of Cancer (MED 6580), Molecular Biology I (MED 6590) and Molecular Biology II (MED 6591). Course selection for each student is determined by the supervisory committee in consultation with the student and is based on the area of study and past course credits.
- Students are expected to participate in the activities of the genetics group. These include the weekly Journal Club/Research Discussion Group and the Genetics Seminar Series (MED 6400-6403).

25.1.3.7 Immunology and Infectious Diseases

The Immunology and Infectious Diseases group has an interdisciplinary character and consists of faculty from biomedical science oncology research. The graduate programs are designed to provide individualized training oriented towards basic research and a solid and scientific background in the discipline of immunology and infectious diseases.

1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master's degrees. A Bachelor of Science Degree or equivalent is required.

2. Program Requirements

Students in the program are required to take three core courses: Immunology I (MED 6127), Immunology II (MED 6128), and Advanced Immunological Methods (MED 613A/B). Some students may be required to take additional courses depending upon their thesis topic. All students are required to attend, for credit, and participate in the Immunology and Infectious Diseases Seminar Series (MED 6400-6403) for a minimum of three semesters.

25.1.3.8 Neurosciences

The Neuroscience Program offers graduate studies in an interdisciplinary setting including faculty from biomedical science within the Faculty of Medicine and Department of Psychology in the Faculty of Science. Graduate students may pursue research in a number of specialty areas including the physiological basis of learning and memory, stroke and neuroplasticity, neuroregeneration, signal transduction mechanisms, neuronal circuitry and membrane physiology. The Neuroscience Program is a Chapter of the Society for Neuroscience.

1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master's degrees. It is expected that the students will have had courses in biochemistry, biology and/or psychology with some exposure to basic university-level statistics.

2. Program Requirements

- Students in the program are required to take Systems Neuroscience (MED 6196) and one other graduate level course. Additional courses may be required based on the recommendation of the supervisory committee.
- Students are expected to attend and participate in the activities of the neuroscience group including the weekly seminar and journal club.

25.2 Graduate Diploma

The Faculty of Medicine offers a Graduate Diploma providing an opportunity for professionals and individuals within the health sector to obtain or upgrade their training in Community Health and Humanities or Clinical Epidemiology.

25.2.1 Qualifications for Admission

To be admitted to the graduate diploma program a student must be eligible to register as a graduate student, as given under the **General Regulations governing M.Sc. degrees**. In special circumstances, and upon the recommendation of the Community Health and Humanities, or Clinical Epidemiology Co-ordinator, a suitable combination of training and professional experience relevant to the program may be acceptable for admission.

25.2.2 Program Requirements

A graduate diploma in Community Health requires successful completion of MED 6220, MED 6270, 3 electives, and 2 semester-length seminar courses (MED 6400-6401).

A graduate diploma in Clinical Epidemiology requires successful completion of MED 6262 or MED 6200, 6250 and 6255 and the completion of a minimum of two of the Clinical Epidemiology seminar courses: Medicine 6400-6403 Research Seminars for M.Sc. Student I-IV.

25.2.3 Graduate Courses

6070 Seminars in Physiological Instrumentation
 6075 Human Physiology, Performance and Safety in Extreme Environments (HSPE)
 6090-6101 Special Topics
 6102 Critical Theory in Health and Society
 6103-6119 Special Topics
 6127 Immunology I
 6128 Immunology II (Prerequisite Medicine 6127)
 613A/B Advanced Immunological Methods (*same as the former 6130*)
 6131-6139 Special Topics
 6140 Basic Cardiovascular and Renal Physiology
 6141 Cardiovascular/Renal Techniques
 6142 Selected Topics in Cardiovascular and Renal Physiology
 6143 Cardiovascular Anatomy
 6144 Current Concepts in Cardiovascular and Renal Pathophysiology
 6180 Structure, Function and Pharmacology of Muscle
 6190 General Pharmacology
 6192 Pharmacology of Receptors and Receptor Effector Coupling Processes
 6193 Advanced Topics in Neuroscience
 6194 Advanced Topics in Physiology
 6195 Neurobiology of Nervous System Diseases
 6196 Systems Neuroscience
 6197 Cellular Neuroscience
 6198 Neuroanatomy for Graduate Students (accelerated format)
 6199 Health Sciences: Writing and Grantsmanship
 6200 Biostatistics I (*credit may be obtained for only one of MED 6200 or MED 6262*)
 6220 Introduction to Community Health
 6250 Basic Clinical Epidemiology
 6255 Clinical Research Design
 6260 Applied Data Analysis for Clinical Epidemiology
 6262 Biostatistics in Clinical Medicine (*credit may be obtained for only one of MED 6200 or MED 6262*)
 6265 Genetics and Clinical Epidemiology
 6270 Epidemiology I
 6274 Chronic Disease Epidemiology
 6275 Epidemiology II
 6276 Current Topics in Canada's Health Care System
 6277 Issues in Northern, Rural and Remote Health in Canada
 6278 Advanced Biostatistics for Health Research
 6279 Quantitative Methods for Applied Health Research
 6280 Community Health Research Methods
 6281 Theory and Approaches to Medical Publication
 6282 Canadian Health Care System
 6284 Research and Evaluation Design and Methods
 6286 Ethical Foundations of Applied Health Research
 6288 Policy and Decision Making
 6290 Determinants of Health: Healthy Public Policy
 6292 Qualitative and Quantitative Methods for Health Services Research
 6293 Knowledge Transfer and Research Uptake
 6294 Advanced Qualitative Methods
 6295 Advanced Quantitative Methods
 6296 Residency
 6340 Research Topics in Cancer I
 6341 Research Topics in Cancer II
 6342 Basic Principles of the Pathology of Cancer
 6390 Human Population Genetics
 6391 Selected Topics in Human Genetics
 6392 Applied Human Genetics
 6393 Human Molecular Genetics
 6394 Cancer Genetics
 6400 Research Seminars for M.Sc. Students I (one-credit hour)
 6401 Research Seminars for M.Sc. Students II (one-credit hour)
 6402 Research Seminars for M.Sc. Students III (one-credit hour)
 6403 Research Seminars for M.Sc. Students IV (one-credit hour)
 6410 Research Seminars for Ph.D. Students I (one-credit hour)
 6411 Research Seminars for Ph.D. Students II (one-credit hour)
 6412 Research Seminars for Ph.D. Students III (one-credit hour)
 6413 Research Seminars for Ph.D. Students IV (one-credit hour)
 6420 Medical Science/Social Responsibility in Health Care: Aspects of Medical History (Same as History 6125)
 6580 Molecular Biology of Cancer (Prerequisites: Biology 4241, Biochemistry 4100 [or equivalent])
 6590 Molecular Biology I - *cross-listed as Biology 6590 and Biochemistry 6590* (Prerequisites: Biology 4241, Biochemistry 4100 [or equivalent])
 6591 Molecular Biology II - *cross-listed as Biology 6591 and Biochemistry 6591* (Prerequisites: Biology 4241, Biochemistry 4100 [or equivalent])
 6900 Medical Geography I - Introduction to Geographic Information Science and Spatial Analysis in Health
 6901 Medical Geography II - Geospatial Analysis and Modelling in Health (Prerequisite: 6900)

26 Regulations Governing the Degree of Master of Science in Pharmacy

Associate Professor and Dean

L.R. Hensman

The Degree of Master of Science in Pharmacy (M.Sc. (Pharm.)) is offered to qualified full-time and part-time students by the School of Pharmacy. The **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Pharmacy outlined below will apply to the M.Sc. (Pharm.) program. Every candidate in graduate studies shall comply with the **General Regulations**, the Degree Regulations and all additional requirements of the School of Pharmacy.

26.1 Qualifications for Admission

Admission to the M.Sc. (Pharm.) program will be offered on the basis of academic excellence. The basic requirements for admission are those established by the School of Graduate Studies of Memorial University of Newfoundland. The minimum qualification for admission is a recognized four-year undergraduate degree in Pharmacy, or a recognized four-year undergraduate degree in physical, chemical or biological science, or equivalent, with an overall B average.

Applications submitted through the School of Graduate Studies will be evaluated by the Graduate Studies Committee of the School of Pharmacy. No candidate will be admitted to the program without a recommendation of acceptance by the Graduate Studies Committee. Admission of a candidate to the M.Sc. (Pharm.) program shall be made by the Dean of Graduate Studies.

26.2 Formulation of Program of Study

Upon acceptance to the program, the Supervisor will assess the student's research interests, background, strengths and weaknesses. The Supervisor will formulate a program of study (see below) and select a supervisory committee for the student. The program of study will be selected on the basis of the thesis research, the background of the student, and the perceived need for specific graduate courses that will complement the student's working knowledge in his/her area of research. The supervisory committee will include the Supervisor, one other academic staff person from the School of Pharmacy, and one external academic staff person from Memorial University of Newfoundland. This committee will advise the student about his/her thesis research. Accordingly, they will meet with the student within two months of his/her initial registration, at the end of the second semester (8th month of study), at the end of the fourth semester (16th month), and immediately before the student begins to write the thesis. Both the program of study and the supervisory committee must be approved by the Graduate Studies Committee.

26.3 Program of Study

1. Minimum requirements for the M.Sc. (Pharm.) Degree will be the successful completion of:
 - a. Six credit hours in program graduate courses chosen from those available in Pharmacy, Medicine or Biochemistry.
 - b. Pharmacy Seminar
 - c. A thesis embodying original research
2. Graduate courses will be chosen based on the academic background of the student and the area of his/her thesis research.

Note: Qualified students accepted into the program who are considered to have an insufficient background for their thesis research may be required to successfully complete additional courses as selected by their Supervisor.

3. Pharmacy Seminar: All candidates for the Degree of M.Sc. (Pharm.) will be required to participate in the Pharmacy Seminar during the first two years of their program. Selected topics in pharmaceutical sciences will be presented and discussed by faculty, students and visiting speakers. Graduate students will be required to present one seminar each year. In the second year of study, the graduate student will present a progress report of his/her research in the seminar. Upon successful completion of the seminar the Chair of the Graduate Studies Committee will so notify the Dean of Graduate Studies.

26.4 M.Sc. (Pharm.) Thesis

Every candidate shall submit a thesis to the School of Graduate Studies. The thesis shall contain original research conducted by the candidate and approved by the supervisory committee.

In preparation for the thesis examination, the candidate will provide a copy of the thesis to each member of the supervisory committee. Each member of this committee will submit a written report to the Chairman of the Graduate Studies Committee.

Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the School of Pharmacy. Any serious deficiencies noticed at this stage should be carefully considered, in consultation with the supervisory committee, for revision.

Three copies of the thesis shall be submitted to the School of Graduate Studies through the School of Pharmacy, in a form and format as specified by the School of Graduate Studies.

As specified in General Regulation **Theses and Reports** of the School of Graduate Studies, the written thesis will be reviewed by examiners appointed by the Dean of Graduate Studies on the recommendation of the Dean of the School of Pharmacy or the Chairman of the Graduate Studies Committee.

26.5 Courses

Permission of the instructor and the Graduate Studies Committee of the School of Pharmacy is required for admission to any of the graduate Pharmacy courses.

- 6000 Medicinal Chemistry
- 6001 Advanced Physical Pharmacy
- 6002 Dosage Form Design and Novel Drug Delivery Systems
- 6003 Pharmacokinetic Modelling
- 6004 Principles of General Pharmacology
- 6005 Toxicology of Therapeutic Agents and Chemicals
- 6100-6104 Special Topics in Pharmacy

27 Regulations Governing the Degree of Master of Social Work

Professor and Dean

A. Al-Krenawi

The degrees of Master of Social Work and Doctor of Philosophy are offered in social work.

The Master of Social Work (M.S.W.) may be completed by part-time or full-time study. All program components, with the exception of on-campus institutes, are offered by distance format and not in a regular classroom format.

The focus of the M.S.W. program is creative approaches to critical thinking for leadership in diverse social work practice. The program allows professionally qualified social workers holding the Degree of B.S.W. or an equivalent professional undergraduate degree in Social Work to undertake intensive advanced work in a specialized area of social work knowledge and practice.

The program is designed to be accessible to students in remote and rural areas, and assumes that: (1) students will have a computer and Internet access; and (2) can travel to St. John's for the institute portion of the three practice courses. Students will be expected to incur charges for Internet services, long distance telephone charges, and travel and accommodation expenses.

Entrance into all courses and the offering of any course in an academic year is by approval of the School, consistent with the student's program. Students are admitted only into a designated program of studies.

The School of Social Work may deliver special offerings of the M.S.W. and/or other programs of the School to identified groups of out-of-province students where numbers warrant. These offerings will be self supporting, and therefore subject to an additional one-time non-refundable tuition fee as approved by the Board of Regents and payable on first registration following formal admission to the program. Students will also pay appropriate tuition fees for each semester during their tenure in the program.

Admission to the special offerings of these programs will be competitive, using the same procedures and standards that are in place for students applying to the St. John's campus program(s).

Subject to approval by the Graduate Studies Committee of the School of Social Work, students admitted to an out-of-province program offering may apply to transfer to the equivalent program on the St. John's campus. In such instances, the fee structure under which the student was admitted will not change. Subject to approval by the Graduate Studies Committee of the School of Social Work, students admitted to a St. John's based program may apply to transfer to the equivalent out-of-province program. In these instances, students transferring from the St. John's based program offerings to an equivalent out-of-province offering will be required to pay a pro-rated one-time fee upon formal transfer to the special offering.

27.1 Qualifications for Admission

1. Admission to the M.S.W. program is limited, selective, and competitive. Meeting the minimum criteria for admission does not guarantee acceptance to the program.
2. To be considered for admission, an applicant shall hold a Bachelor of Social Work (B.S.W.) degree (or an equivalent professional undergraduate degree in social work approved by the Graduate Studies Committee of the School of Social Work for recommendation to the Dean) from an institution recognized by the Senate, with at least second class standing, and an average of at least 70% in the last 60 undergraduate credit hours.
3. In addition to the stated academic requirements, the applicant must have completed, subsequent to obtaining the B.S.W. degree, at least two years employment in professional social work practice or in a comparable human service discipline or activity. Extensive relevant experience prior to undergraduate degree work may be recognized in full or partial fulfillment of this requirement.
4. For ten percent of seats per year, priority is given to applicants of First Nations/Aboriginal ancestry who meet the minimum criteria for admission. When the number of eligible applicants wishing to be considered under this clause exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see **Qualifications for Admission**). Applicants wishing to be considered under this clause shall complete the Educational Equity section of the Supplementary Information form at the time of application.
5. For an additional ten percent of seats per year, priority is given to applicants from other equity groups, based on a person's sexual orientation, gender identity, race, ethnicity, disability and/or being disadvantaged by their economic position/background and who meet the minimum criteria for admission. When the number of eligible applicants wishing to be considered under this clause exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see **Qualifications for Admission**). Applicants wishing to be considered under this clause shall complete the Educational Equity section of the Supplementary Information form at the time of application.
6. Notwithstanding the above, and in keeping with the School's commitment to achieving equitable representation in the student body, the Graduate Studies Committee of the School of Social Work, at its discretion, may give preference to additional applicants of First Nations/Aboriginal ancestry and/or members of other equity groups who meet the minimum criteria for admission.
7. Notwithstanding the above, and in keeping with the University's special obligation to educate the citizens of Newfoundland and Labrador, when the number of eligible applicants exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see **Qualifications for Admission**).
8. Applicants will be deemed bona fide residents of Newfoundland and Labrador if at the time of application they are currently residing or have a permanent address in the province.

27.2 Procedure for Admission

1. Applicants must submit an application for admission with supporting documentation to the School of Graduate Studies, which approves recommendations for admission made by the Graduate Studies Committee of the School of Social Work. The supporting documentation will consist of: an official transcript of the applicant's previous academic record submitted directly from the institution(s) attended; a statement of previous professional employment; a list of any published or unpublished works, a declaration of program emphasis and educational objectives; and two letters of appraisal, to be submitted by two referees, one assessing the applicant's previous academic performance and one assessing the applicant's previous practice performance. Letters of appraisal are to be submitted directly to the School of Graduate Studies by the referees.

Note: Independent of admission to the program, agencies providing the mandatory field internship may have a range of additional requirements such as Criminal Record Check, Child Protection Records Check, or Health Check.

2. The deadline date for receipt of applications for admission in September of each year is January 15 of the same year. All application forms and supporting documentation for admission to the program must be submitted to the School of Graduate Studies on or before the deadline of January 15. Under special circumstances, late applications and admissions in other semesters may be considered.
3. The Graduate Studies Committee of the School of Social Work may require the applicant to appear for a personal interview with one or more faculty members.

4. A person who meets the basic admission requirements under **Qualifications for Admission**, may, space permitting, take SCWK 6012 without applying for and being admitted to the M.S.W. program. Persons wishing to take a course under this provision must contact the M.S.W. Student Services Coordinator at least two months prior to the semester in which the course is scheduled. If there are available seats in the course, the applicant will need to submit to the School of Social Work the appropriate form requesting permission to register in a graduate course with evidence of B.S.W. graduation, academic transcripts, and a brief professional resume, and apply or reapply for admission to Memorial University of Newfoundland as an undergraduate.
5. A person who has completed an M.S.W. degree is eligible to register in any M.S.W. course offering, space permitting.

27.3 Plan of Study

1. A student's plan of study will be developed cooperatively by the student and the M.S.W. Student Services Coordinator.
2. Specified supplementary studies may be required to ensure requisite knowledge pertinent to the requirements for the degree.
3. A student electing a thesis program shall be assigned a Supervisor by the Dean of the School in consultation with the student. It is recommended that a thesis Supervisor be assigned as early in the program as possible. The thesis supervisor, when assigned, shall normally assume the duties of faculty advisor and Pathway mentor.
4.
 - a. Students who choose the thesis route, must complete a thesis, and a minimum of 21 credit hours consisting of SCWK 6012 (or the former 6011), 6013, 6014, 6413, 6917, and at least two of SCWK 6313, 6314, and 6315. Course route students must complete a minimum of 27 credit hours consisting of SCWK 6012 (or the former 6011), 6013, 6014, 6313, 6314, 6315, 6413, 6417 and 6917. Students in either route may be required to take additional courses.
 - b. In addition to the above, students will be required to register for SCWK 6000 during each of the relevant semesters as prescribed below, in accordance with their plan of study. This course comprises the academic mentorship component of the revised program and is designed to provide students with the opportunity to integrate curriculum with their individual academic and practice interests throughout their time in the program. For course route students, SCWK 6000 serves as a foundation for SCWK 6417. For thesis route students, SCWK 6000 serves as a foundation for their thesis.
 - i. Full-time students will register for SCWK 6000 beginning in the Fall of their first year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.
 - ii. Part-time students completing the program in 6 semesters will register for SCWK 6000 beginning in the Fall of their first year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.
 - iii. Part-time students completing the program in 9 semesters will register for SCWK 6000 beginning in the Fall of their second year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.
 - iv. By the end of the sixth week of the first semester in which students are registered in SCWK 6000, they are required to submit a paper to their mentor, which, once agreed upon, will serve as an individual learning contract. The paper will outline: particular areas of interest, research, or study concentration; proposed goals, objectives, outcomes, and time frame; proposed list of readings; plan of study demonstrating how work in the various courses might be integrated or connected to their area of interest; and expectations of the mentor.

Students are also required to submit a written progress report due the last day of classes of each semester, beginning with the first semester in which they are registered in SCWK 6000. Students are also required to submit a written final report summarizing their experiences and accomplishments as per the initial learning contract. This report is due the last day of classes of the final semester in which students are registered in 6000.
 - v. A grade of NC (No Grade Expected) will be awarded in all semesters of the course prior to the final Semester. The final grade in this non-credit course will be either Pas or Fal.

27.4 Field Internship SCWK 6917

Each M.S.W. student is required to complete a 500 hour field internship that is to be conducted in a setting and supervised by a qualified field instructor approved by the School of Social Work. Field Instructors must have as a minimum qualification a M.S.W. Degree and a minimum of two years post-M.S.W. social work employment.

Field internships may be offered in whole or in part outside the normal start and end dates of a semester. Part-time field internships of two semesters will require approval from the proposed agency, field instructor, and the M.S.W. Field Education Coordinator.

The M.S.W. Field Education Coordinator is responsible for facilitating appropriate matches among the student, field instructor, and field internship setting. Although consideration will be given to all factors affecting the location and type of social work field internships, final approval of field internship rests with the School of Social Work. The School cannot guarantee the availability of M.S.W. field instruction in all communities and at all times. Students are responsible for their own financial support during the field internship.

At least four months prior to the commencement of the semester in which they intend to begin SCWK 6917, all students shall submit a completed Intent to Register in M.S.W. Field Internship form and a current resume to the M.S.W. Field Education Coordinator. At least six weeks before the internship commences, students shall submit an M.S.W. Field Internship Proposal to the Coordinator. The School of Social Work depends on the cooperation of community agencies external to the University to provide field internships and instruction to its students. Many of these agencies have a range of requirements, such as Criminal Record Check, Child Protection Records Check, or Health Check, which must be completed before starting the internship. Students unable to meet the agency's requirements may be delayed in their program or prevented from completing their program of study. Students are required to complete and update these requirements in a timely fashion and at their own expense. The procedures of any given agency may change from time to time and are beyond the control of the University.

Evaluation of the field internship will be on a PAS/FAIL basis. Students who voluntarily withdraw from the field internship without prior approval of the M.S.W. Field Education Coordinator and the Graduate Officer, or who conduct themselves in such a manner as to cause the agency and the M.S.W. Field Education Coordinator to terminate the placement, will normally be awarded a grade of FAIL in the field internship.

Students who voluntarily withdraw from the field internship with the prior approval of the M.S.W. Field Education Coordinator and the Graduate Officer cannot be guaranteed a second internship during that semester. In this case, the student will be awarded a grade of INC for the field internship. The student shall normally complete a field internship the following semester.

27.5 Course Format

To increase accessibility for students in remote and rural areas, we offer courses in the following formats:

1. SCWK 6012, 6013, 6014, and 6413 will be offered by distance delivery; that is, not in a regular classroom format.
2. SCWK 6313, 6314, and 6315 are distance courses with a mandatory on-campus institute component consisting of 36 hours of classroom instruction. Course materials and activities for the pre-institute and post-institute components of the courses are provided

to students through distance format. Students must be available on a full-time basis to attend classes and complete assignments and group projects during the Institute portion of these courses. It is recommended that students take leave from their employment for the duration of an on-campus institute, which may be scheduled in a combination of weekday, evening, and weekend hours within a two week time period. The final decision regarding the on-campus institute schedule rests with the School of Social Work.

3. SCWK 6917 can be completed in St. John's, or in a student's home community, where appropriate supervision is available.
4. SCWK 6000 and 6417 can be completed in St. John's or in a student's home community.
5. In exceptional circumstances, and contingent upon student numbers and school resources, additional course sections may be offered in a regular classroom format.

27.6 Period of Study

For students admitted to the program under **Plan of Study** above:

1. For part-time students, the program is designed to permit completion of all degree requirements within three academic years (nine semesters) or two academic years (six semesters). The following is a sample program of study for nine semesters:

Fall Semester:

SCWK 6012 in Year 1;
SCWK 6000, 6313, 6315, or 6413 in Year 2;
SCWK 6000; SCWK 6313, 6315, or 6413 in Year 3

Winter Semester:

SCWK 6013 in Year 1;
SCWK 6000; SCWK 6313, 6314, or 6413 in Year 2

Spring Semester:

SCWK 6014 in Year 1; SCWK 6000; SCWK 6314 or 6315 in Year 2
SCWK 6917 (Field Internship) may be completed in Fall/Winter/Spring of Year 3
SCWK 6417 (Pathway Scholarship) is the final requirement to be completed and may be completed in the same semester as SCWK 6917 (Field Internship). Students are required to register for SCWK 6000 concurrently with SCWK 6917 and 6417.

2. For full-time students, course route, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:

Fall Semester:

SCWK 6000, 6012, 6013, and 6313 (institute)

Winter Semester:

SCWK 6000, 6014, 6314 (institute) and 6413

Spring Semester:

SCWK 6000, 6315 (institute), 6417 (pathway scholarship), and 6917 (field internship)

3. For full-time students, thesis route, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:

Fall Semester:

SCWK 6000, 6012, 6013, and 6313* (institute)

Winter Semester:

SCWK 6000, 6014, 6314* (institute), and 6413

Spring Semester:

SCWK 6000, 6315* (institute), 6917 (field internship), Thesis

* Thesis students are required to complete only two of the three institute courses.

27.7 Evaluation

1. Failure to attain a final passing grade of A or B in a program course, or PAS in a PASS/FAIL course, shall lead to termination of the student's program, unless a re-read has been requested. Failure to obtain the required grades in the re-read shall lead to termination of the student's program.
2. To remain in good standing students are required to maintain professional behaviour consistent with the current Code of Ethics of the Canadian Association of Social Workers (www.casw-acts.ca/en/what-social-work/casw-code-ethics). Students who are registered in their home province are required to comply with the current Code of Ethics of their provincial association of social workers. Students who are not registered in their home province are required to comply with the current Code of Ethics of the Canadian Association of Social Workers (www.casw-acts.ca/en/what-social-work/casw-code-ethics). Students who fail to meet this requirement will be required to withdraw from the School upon the recommendation of the Graduate Studies Committee.

27.8 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the School will allow.

Program Courses

6000 Pathway (mandatory repeatable non-credit course)

6012 Critical Thinking and Reflection (*credit may not be obtained for both 6012 and the former 6011*)

6013 Leadership for Social Justice (Prerequisite/Co-requisite 6012) (*credit may not be obtained for both 6013 and the former 6540*)

6014 Leadership in Social Policy and Programs (Prerequisite/Co-requisite 6012) (*credit may not be obtained for both 6014 and the former 6530*)

6313 Perspectives with Individuals and Families (Prerequisite/Co-requisite 6012) (*credit may not be obtained for both 6313 and the former 6312 or 6322*)

6314 Perspectives with Diverse Communities (Prerequisite 6012) (*credit may not be obtained for both 6314 and the former 6230*)

6315 Perspectives with Groups (Prerequisite 6012) (*credit may not be obtained for both 6315 and the former 6332*)

6413 Research Theory, Design, and Analysis (Prerequisite/Co-requisite 6012) (*credit may not be obtained for both 6413 and the former 6412 or 6422*)

6417 Pathway Scholarship (following completion of all other program components) (*credit may not be obtained for both 6417 and the former 6432 or 6442*)

6917 Field Internship (Prerequisites 6012; 6013; 6014; 6313; and 6413 and Prerequisite/Co-requisite 6314 and 6315) (*credit may not be obtained for both 6917 and the former 6912*)

Graduate Research Integrity Program (refer to **Graduate Research Integrity Requirement**)

Program Core Courses for Students Admitted Prior to Fall 2011

6011 Critical Thinking and Ethical Evaluation for Assessment and Intervention

6312 Crisis Intervention, Brief and Integrated Therapies for Diverse Individuals (Prerequisite/Co-requisite 6011) (*credit may not be obtained for both 6312 and 6313*)

6322 Family Therapy: Promotion of Strengths and Prevention of Violence in Diverse Families (Prerequisite 6011) (*credit may not be obtained for both 6322 and 6313*)

6332 Social Work Perspectives in Interdisciplinary Team Development and Group Therapy (Prerequisite 6011) (*credit may not be obtained for both 6332 and 6315*)

6412 Research Design for Social Work Assessment and Evaluation (Prerequisite/Co-requisite 6011) (*credit may not be obtained for both 6412 and 6413*)

6422 Data Analysis for Social Work Assessment and Evaluation (Prerequisite 6011 and 6412) (*credit may not be obtained for both 6422 and 6413*)

6432 Research Internship (2 credit hours) (Prerequisite 6011, 6412 and 6422)

6442 Colloquium Presentation Integrating Theory and Research in Advanced Clinical Practice (1 credit hour) (following completion of all other program components)

6912 Advanced Clinical Practice Internship (Prerequisites 6011, 6312, 6322 and Prerequisite/Co-requisite 6332) (*credit may not be obtained for both 6912 and 6917*)

Graduate Research Integrity Program (refer to **Graduate Research Integrity Requirement**)

Program Elective Courses for Students Admitted Prior to Fall 2011

6230 Seminar in Community Development (*credit may not be obtained for both 6230 and 6314*)

6530 Seminar in Social Administration: Evaluation of Policies and Programs (*credit may not be obtained for both 6530 and 6014*)

6540 Supervision in Professional and Clinical Practice (*credit may not be obtained for both 6540 and 6013*)

6550 Feminist Therapy in Social Work Practice

Although the School does not currently offer a program in Social Policy and Administration, it has faculty expertise in these areas and, in the future, may offer the following courses:

6210 Seminar in Social Planning and Social Development

6220 Seminar in Organization Development

6510 Seminar in Social Administration: Social Policy Analysis, Development and Administration

6520 Seminar in Social Administration: Program Design and Development

6820-29 Individual Reading and Research in Special Areas

Thesis

See **General Regulations, Theses and Reports**.

Note: Every candidate shall comply with the **General Regulations** governing the School of Graduate Studies and the M.S.W. Degree Regulations.

28 Regulations Governing the Degree of Master of Technology Management

Vice-President (Marine Institute)

G. Blackwood

Academic Director

C. Coronado

28.1 Administration

The Program will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.

An Academic Advisory Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute and one member from each of the Faculty of Business Administration and the Faculty of Engineering and Applied Science. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee consisting of a cross-section of members with professional expertise related to the technology sector, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

28.2 Program

The Master of Technology Management (MTM) is a comprehensive academic program that provides a broad understanding of the structure and operation of organizations and the factors that influence business decisions in the context of technology-based organizations. It provides a technology management focus through the development of knowledge and understanding of the nature of technical operations and the factors that have an impact on their success, as well as the ability to apply these concepts within their organizations.

The program consists of two Options:

- Engineering and Applied Science Technology Option
- Aquaculture Technology Option

The program is offered online and requires successful completion of either (i) 24 credit hours of course work and a comprehensive project and report (6 credit hours), or (ii) 30 credit hours of comprehensive course work. Candidates will typically register on a part-time basis, but any who register for full-time study will normally complete the program in one academic year.

28.2.1 Admission Requirements

Admission to the program is on a competitive basis.

1. The deadlines for submission of applications are as follows:

- Fall (September) semester: June 15

- Winter (January) semester: October 15
- Spring (May) semester: February 15

Applications received after listed deadlines will be considered as time and resources permit.

- To be considered for admission to the Engineering and Applied Science Technology Option an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
 - a Memorial University of Newfoundland Bachelor of Technology, Bachelor of Maritime Studies, or a comparable undergraduate degree with appropriate technology sector and business management course work; and
 - a minimum of two (2) years relevant employment experience.
- To be considered for admission to the Aquaculture Technology Option an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
 - a post-graduate aquaculture credential or an aquaculture focus in their undergraduate degree; or significant professional experience in the aquaculture industry; and
 - a minimum of two (2) years relevant employment experience.
- Upon acceptance into the program, students will be admitted to one of the two Options: the Engineering and Applied Science Technology Option or the Aquaculture Technology Option.

28.2.2 Program of Study

28.2.2.1 Master of Technology Management - Engineering and Applied Science Technology Option

- Candidates for the Master of Technology Management (Engineering and Applied Science Technology Option) shall be required to complete a minimum of either:
 - 24 credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours); and six elective courses (18 credit hours). Students on the project route will complete MSTM 6100: Project in Engineering and Applied Science Technology Management (6 credit hours).
 - Core Courses (Two to be completed):**
 - MSTM 6031 Overview of Technical Operations
 - MSTM 6032 Managing Technological Innovation
 - Elective courses (Six to be completed):**
 - MSTM 6022 Communication and Conflict Resolution in a Technical Environment
 - MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
 - MSTM 6030 Principles of Management for Engineering Technology Enterprises
 - MSTM 6033 Quality Systems
 - MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
 - MSTM 6035 Information Technology Applications in the Health and Engineering Technology Environments
 - MSTM 6036 Supply Chain Management and Advanced Engineering Technology Operations
 - MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
 - MSTM 6038 Manufacturing and Engineering Technology Management
 - MSTM 6039 Sustainability and Environmental Responsibility
 - MSTM 6052 Management of Intellectual Property
 - MSTM 6054 Technology Assessment
 - MSTM 6056 Management of International Development

Project in Engineering and Applied Science Technology Management

MSTM 6100 Project in Engineering and Applied Science Technology Management (6 credit hours). Students will choose a topic in consultation with the Academic Director and will work independently to carry out an in-depth study of a problem or application within the area of technology management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.
 - 30 credit hours on a comprehensive-course route. Course work includes two compulsory core courses (6 credit hours); and eight elective courses (24 credit hours).
 - Core Courses (Two to be completed):**
 - MSTM 6031 Overview of Technical Operations
 - MSTM 6032 Managing Technological Innovation
 - Elective Courses (Eight to be completed):**
 - MSTM 6022 Communication and Conflict Resolution in a Technical Environment
 - MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
 - MSTM 6030 Principles of Management for Engineering Technology Enterprises
 - MSTM 6033 Quality Systems
 - MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
 - MSTM 6035 Information Technology Applications in the Health and Engineering Technology Environments
 - MSTM 6036 Supply Chain Management and Advanced Engineering Technology Operations
 - MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
 - MSTM 6038 Manufacturing and Engineering Technology Management
 - MSTM 6039 Sustainability and Environmental Responsibility
 - MSTM 6052 Management of Intellectual Property
 - MSTM 6054 Technology Assessment
 - MSTM 6056 Management of International Development
- Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.

28.2.2.2 Master of Technology Management - Aquaculture Technology Option

- Candidates for the Master of Technology Management (Aquaculture Technology Option) shall be required to complete a minimum of either:
 - 24 credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours); and six elective courses (18 credit hours). Students on the project route will complete MSTM 6102:

Project in Aquaculture Technology Management (6 credit hours).

i. **Core Courses (Two to be completed):**

MSTM 6031 Overview of Technical Operations
MSTM 6032 Managing Technological Innovation

ii. **Elective Courses (six to be completed including at least three from Category B):**

Category A

MSTM 6022 Communication and Conflict Resolution in a Technical Environment
MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
MSTM 6033 Quality Systems
MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
MSTM 6039 Sustainability and Environmental Responsibility
MSTM 6052 Management of Intellectual Property
MSTM 6056 Management of International Development

Category B

MSTM 6071 Management of Aquaculture Technology
MSTM 6072 Animal Husbandry Management
MSTM 6073 Aquaculture Environmental Management
MSTM 6074 Aquaculture Site and Operational Assessment
MSTM 6075 Aquaculture Engineering Technology Management

Project in Aquaculture Technology Management

MSTM 6102 Project in Aquaculture Technology Management (6 credit hours). Students will choose a topic in consultation with the Academic Director or designate and will work independently to carry out an in-depth study of a problem or application within the area of aquaculture technology management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.

- b. 30 credit hours on a comprehensive-course route. Course work includes two compulsory core courses (6 credit hours); and eight elective courses (24 credit hours).

i. **Core Courses (Two to be completed):**

MSTM 6031 Overview of Technical Operations
MSTM 6032 Managing Technological Innovation

ii. **Elective courses (Eight to be completed including at least three from Category B):**

Category A

MSTM 6022 Communication and Conflict Resolution in a Technical Environment
MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
MSTM 6033 Quality Systems
MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
MSTM 6039 Sustainability and Environmental Responsibility
MSTM 6052 Management of Intellectual Property
MSTM 6056 Management of International Development

Category B

MSTM 6071 Management of Aquaculture Technology
MSTM 6072 Animal Husbandry Management
MSTM 6073 Aquaculture Environmental Management
MSTM 6074 Aquaculture Site and Operational Assessment
MSTM 6075 Aquaculture Engineering Technology Management

2. Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.

28.2.3 Evaluation

1. Candidates for the Master of Technology Management Degree must obtain a grade of B or better in all program courses.
2. Candidates who receive a grade of less than B in any course will be permitted to remain in the program provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Academic Director, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

29 Regulations Governing the Degree of Doctor of Philosophy

In this and following regulations and notes, "Head" and "Department" shall be understood to mean "Dean or Director" and "Faculty or School" respectively, applying the regulations to a Faculty or School in which there are no Departmental divisions.

Students should consult the General Information and Regulations Governing All Graduate Students for information concerning the Degree of Doctor of Philosophy. For information concerning the number of courses required for specific programs, students should consult the following listing for the appropriate Department.

The degree of Doctor of Philosophy (Ph.D.) is offered in selected areas in Anthropology, Archaeology, Atomic and Molecular Physics, Biochemistry, Biology, Chemistry, Cognitive and Behavioural Ecology, Computer Science, Condensed Matter Physics, Earth Sciences (Geology), Earth Sciences (Geophysics), Education, Engineering, English Language and Literature, Environmental Science, Ethnomusicology, Experimental Psychology, Folklore, Food Science, Geography, History, Interdisciplinary, Linguistics, Management, Marine Biology, Mathematics, Medicine, Pharmacy, Physical Oceanography, Social Work, Sociology, Statistics and Theoretical Physics.

29.1 Anthropology

Associate Professor and Head of the Department

M. Tate

29.1.1 Program of Study

1. The Ph.D. in Anthropology is offered in historic anthropology and ethnography of Newfoundland and Labrador, and Western Europe.
2. An applicant must normally hold a Master's Degree with a specialization in social and cultural anthropology. In exceptional circumstances, a student who has spent three semesters in the M.A. program may be recommended for transfer into the Ph.D. stream.
3. Residency: the Department requires a minimum residency of two years for Ph.D. students.
4. A supervisory committee will be established for each student as per **General Regulations, Supervision, Ph.D. and Psy.D. Candidates**.
5. Students will normally be required to successfully complete two courses during their first three semesters in the program: Anthropology 6300 and 6890. The supervisory committee may require the candidates to complete additional graduate courses.
6. All candidates must demonstrate a reading knowledge of a second language to be determined in consultation with the supervisory committee. This language will normally be a language in which there is a substantial body of literature in Social and Cultural Anthropology. It could also be a field language pertinent to the candidate's project. The exam will be set and marked by an authority determined by the Head of the Department and the Dean of Graduate Studies as per **General Regulations, Evaluation, Evaluation of Graduate Students**, 4., and will normally be completed before the Comprehensive Examination is undertaken.
7. The Ph.D. Comprehensive Examination shall be administered in accordance with **General Regulations, Comprehensive Examinations**. The examination may be oral, written or both, and shall consist normally of three sessions, each of up to three hours duration, within a one week period, or three (3) one week take home examinations. Candidates will prepare for these examinations by undertaking supervised readings in three fields prescribed by the three members of the comprehensive exam committee. The examination will deal with specified areas of social/cultural anthropology. The examination will normally be scheduled in the third week of November each year in the second year of the candidate's program.
8. The candidate must submit a written thesis proposal for presentation to the Department two months following completion of his/her comprehensive examination.
9. As stated in the **General Regulations** for Graduate Studies, the time limit for completion of the Degree is 7 years.
10. Submission of dissertation and the oral defence of dissertation will follow **General Regulations, Theses and Reports, Evaluation of Ph.D. and Psy.D. Theses**.

29.1.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6010 Cultural Ecology
 6071 Health and Illness: Cultural Contexts and Constructions
 6081 Anthropology of Gender
 6089 Anthropology of Underclass Life
 6100 Social Organization
 6110 Culture and Personality
 6140 The Community
 6210 Language and Culture
 6240 Atlantic Regional Studies
 6260 Social and Economic Development
 6280 Newfoundland Ethnography
 6281 Labrador Ethnography
 6282 Ethnography of a Single Region
 6300 Fieldwork and Interpretation of Culture
 6400 Current Themes in Cultural Anthropology
 6410 History of Anthropology
 6412 Anthropological Theory
 6413 Applied Anthropology
 6430 Audiovisual Anthropology
 6440 Master's Research Paper (9 credit hours)
 6580-6599 Special Areas in Anthropology
 6600 Contemporary Debates in Anthropology
 6890 Graduate Seminar

29.2 Archaeology

Professor and Interim Head of the Department

S. Brown

29.2.1 Program of Study

1. The Ph.D. in Archaeology is offered in prehistoric and historic archaeology of Northeastern North America and the Arctic.
2. An applicant must normally hold a Master's Degree with a specialization in archaeology.
3. The Department requires a minimum residency of six semesters for Ph.D. students.
4. A supervisory committee will be established for each student as per **General Regulations, Supervision, Ph.D. and Psy.D. Candidates**, 2.
5. Students will normally be required to successfully complete two courses during their first three semesters in the program: Archaeology 6700 and 6411. The supervisory committee may require the candidates to complete additional graduate courses.
6. All candidates must demonstrate a reading knowledge of a second language to be determined in consultation with the supervisory committee. This language will normally be a language in which there is a substantial body of literature in Archaeology. The exam will be set and marked by an authority determined by the Head of the Department and the Dean of Graduate Studies (see **General Regulations, Evaluation, Evaluation of Graduate Students**, 4.) and will normally be completed before the Comprehensive Examination is undertaken.
7. The Ph.D. Comprehensive Examination shall be administered in accordance with **General Regulations, Comprehensive Examinations**. The examination may be oral, written or both, and shall consist normally of three sessions, each of up to three hours

duration, within a one week period, or three (3) one week take home examinations. Candidates will prepare for these examinations by undertaking supervised readings in three fields prescribed by the three members of the comprehensive exam committee. The examination will deal with specified areas of archaeology. The examination will normally be scheduled in the third week of November each year in the second year of the candidate's program.

8. The candidate must submit a written thesis proposal for presentation to the Department two months following completion of his/her comprehensive examination.
9. As stated in the **General Regulations** for Graduate Studies, the time limit for completion of the Degree is 7 years.
10. Submission of dissertation and the oral defence of dissertation will follow **General Regulations, Theses and Reports, Evaluation of Ph.D. and Psy.D. Theses.**

29.2.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6020 Bioarchaeology
 6040 Human Osteology
 6095 Advanced Studies in Ethnohistory (same as History 6095)
 6151 Palaeoethnobotany
 6181 Palaeoeskimo Cultures of the Eastern Arctic
 6182 Advances in Material Culture Analysis
 6187 Readings in Maritime Provinces Prehistory
 6189 Palaeopathology
 6191 Approaches to Early Modern Material Culture
 6192 Conservation Method and Theory
 6290 Newfoundland and Labrador Prehistory
 6310 Economic Analyses in Archaeology
 6320 Ethnoarchaeology
 6330 Archaeological Field Conservation
 6409 History of Archaeology
 6411 Theory and Method in the Study of Archaeology and Prehistory
 6500 Special Topics in Historical Archaeology (Prerequisite 6191)
 6680-6699 Special Topics in Archaeology and Prehistory
 6700 Interpretative Methods in Archaeology
 6701 Interpretative Methods in Historical Archaeology
 6890 Graduate Seminar

29.3 Biochemistry

Professor and Head of the Department

P. Davis

29.3.1 Program of Study

1. The Degree of Doctor of Philosophy is offered in Biochemistry or Food Science to full-time and part-time students.
2. The admission requirements for the graduate programs in Biochemistry and Food Science are as given under **General Regulations**. Depending on the background and/or area of specialization, a candidate's program may include additional courses taken for credit in Biochemistry, Food Science or related subjects.
3. The program of a candidate for the Ph.D. Degree shall be the responsibility of the supervisory committee, composed of the Supervisor and at least two other faculty members recommended with the concurrence of the Supervisor by the Head.
4. It is the responsibility of the student to arrange regular meetings with his or her graduate supervisory committee. A semi-annual report, prepared by the Supervisor and signed by all members of the supervisory committee, is required to be given to the Head of the Department or delegate.
5. All candidates for the Ph.D. Degree shall be required to attend and participate in Departmental seminars.
6. A candidate for the Ph.D. will be required to present a seminar on his/her research area within 18 months of starting the program and again immediately prior to the submission of thesis.

Additional Regulations for Each Program

Biochemistry (Additional)

7. A candidate for the Ph.D. in Biochemistry shall normally take the Comprehensive Examination within the first seven semesters of his or her program. The examination will have two components: the preparation of a grant proposal on a topic related to the student's research specialization followed by an oral examination of the proposal. Failure of this examination will result in the termination of the candidate's program.

Food Science (Additional)

8. A candidate for the Ph.D. Degree in Food Science shall be required to take the comprehensive examination normally within three semesters of his/her enrolment in the doctoral program and under no circumstances later than six semesters. The examination shall consist of two parts:
 - a. A written examination covering the following areas of food science.
 - Food Chemistry
 - Food Processing
 - Food Microbiology and Biotechnology
 - Biochemical and Food Engineering
 - Food Analysis
 - Nutrition Fundamentals
 - b. The candidate shall be required to defend orally an assigned research topic that may be related to his/her area of concentration. The candidate shall be required to provide a written submission of the research topic to the examination committee at least three weeks before the date of the oral examination. The comprehensive examination committee shall examine the candidate orally on any or all aspect(s) of the research topic and the written examination.

- c. In order to pass the comprehensive examination, the candidate is required to pass both the written and oral segments.

29.3.2 Courses

A series of advanced courses in the areas outlined below will be offered. Normally only one course will be offered per semester.

- 6200 Current Biochemical Research Topics I
- 6210 Current Biochemical Research Topics II
- 6400 Control of Intermediary Metabolism
- 6410 Molecular Endocrinology
- 6420 DNA: The Structure and Function of Genes (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)
- 6421 RNA: Structure, Function and Synthesis (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)
- 6422 Regulation of Protein Synthesis (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)
- 6430 Bioenergetics
- 6440 Membranes
- 6450 Proteins
- 6500 Enzymology
- 6520 Nutritional Biochemistry
- 6530 Food Biochemistry
- 6590 Molecular Biology I (cross-listed as Biology 6590 and Medicine 6590) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)
- 6591 Molecular Biology II (cross-listed as Biology 6591 and Medicine 6591) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)
- 6592 Bacterial Genetics (cross-listed as Biology 6592) Prerequisite: Biology 4241 or Biochemistry 4100 (or equivalent)
- 6593 Selected Readings in Molecular Biology (cross-listed as Biology 6593) Prerequisites or Co-requisites: Biology 6590, 6591/ Biochemistry 6590, 6591/Medicine 6590, 6591 (or equivalent)
- 6600 Metabolic Toxicology
- 6610 Comparative Biochemistry
- 6620 Biochemical Adaptation
- 6630 Marine Biochemistry
- 6640 Biochemistry of Cancer
- 6650 Science and Technology of Seafoods
- 6660 Industrial Microbiology
- 6670 Biological Waste Treatment
- 6680 Processing and Quality of Foods

29.4 Biology

Associate Professor and Head of the Department

P. Marino

The Degree of Doctor of Philosophy is offered in Biology to full-time and part-time students in Biology and Marine Biology. Students interested in animal behaviour should also consult the section in the Calendar describing the Doctoral programs **Cognitive and Behavioural Ecology**.

29.4.1 Program of Study - Biology

1. A student will be required to take Biology 7000 (Graduate Core Seminar).
2. Admission to a Ph.D. program in Biology shall not normally take place until after the completion of the course requirements and the submission of the thesis for the M.Sc. Degree. However, on the recommendation of the Department, this requirement may be waived by the Dean of Graduate Studies.
3. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.
4. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student's program and to explore any areas of weakness in the candidate's biological knowledge, especially where these relate to the intended areas of research. The Supervisory Committee will recommend a student's subdiscipline within Biology to the Department in writing after this meeting.
5. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report, signed by all members of the Supervisory Committee and student, must be given to the Department. A copy will be sent to the graduate student and to the Dean of Graduate Studies.
6. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department by the end of the second semester, and preferably prior to commencement of the research.
7. The student will present a research seminar to the Department, normally by the end of the second semester following admission, to describe the research topic being investigated and the methodologies to be employed. This seminar provides an opportunity for the student to receive constructive input from the broad biological community.
8. When the Supervisory Committee deems it necessary, a working knowledge of a language other than English may be required.
9. Comprehensive Examination
 - a. Timing of Examination
 - i. Timing of the comprehensive examination shall follow General Regulation, 1. under **Comprehensive Examination, Ph.D** **Comprehensive Examination** governing the Degree of Doctor of Philosophy. A candidate registered in a full-time Ph.D. program in the Faculty of Science, Department of Biology shall normally take the comprehensive examination during the first year of the program, and no later than one year after completion of the prescribed courses.
 - ii. The procedure shall be initiated by the candidate's Supervisor who will notify the Department of Biology, in writing, of the candidate's readiness. Failure to meet the above requirement can result in the candidate being required to withdraw from the program.

b. Examination Committee

The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Department of Biology according to Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, 2. of the **General Regulations** of the School of Graduate Studies. No more than two members of the Examination Committee may be members of the candidate's Supervisory Committee. The committee shall meet and recommend to the Department in writing an examination seminar topic within the student's previously determined subdiscipline.

c. Examination Procedure

The Department shall provide the student the examination date and the seminar topic in writing not more than six nor less than four weeks prior to the examination. The student shall provide each member of the Examination Committee a written paper on the seminar topic one week prior to the examination. The Examination Committee shall evaluate the candidate's presentation and response to questions put to him/her during the Oral Examination both on the seminar and within the student's subdiscipline of Biology.

d. Subsequent Action

The Examination Committee will meet in camera to arrive at its conclusions. The Chair shall report the results of the Examination to the Head and the Dean of Graduate Studies for transmission to the candidate. The report will include one of the following decisions: a) the student passed with distinction, passed or failed. b) if failed and it is the first examination whether the student may be re-examined.

e. Re-examination

Comprehensive Re-examination if permitted will occur not sooner than one month and not more than six months after the first. The candidate and his or her Supervisory Committee shall be informed of the deficiencies found. The format for the second examination will be determined by the Examination Committee with the approval of the Biology Graduate Studies Committee. The candidate will be informed of the topic and format four to six weeks prior to the examination. The examination will follow the procedure outlined in 8.c and d above. A failure will require the student to withdraw from the program.

10. Theses shall conform to **Theses and Reports** of the **General Regulations** of the School of Graduate Studies and the Departmental Guidelines.

29.4.2 Program of Study - Marine Biology

1. A program of study leading to a Doctor of Philosophy with a specialization in Marine Biology is governed by the above regulations.
2. To be considered for admission, applicants must have a background equivalent to that provided by the M.Sc. specialization in Marine Biology.
3. A student will be required to take Biology 7000 (Graduate Core Seminar) and 6 credit hours in Biology courses from the following group 6710, 7531, 7535, 7540, 7541, 7551, 7560, and 7561.
4. Depending on the student's area of research and background additional courses may be required.

29.4.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

- 6000 Research Topics in Microbiology
- 6100 Modern Problems in Botany
- 6110 Advanced Phycology
- 6120 Mycology
- 6350 Behavioural Ontogeny (Cross-listed as Psychology 6350)
- 6351 Behavioural Ecology and Sociobiology (Cross-listed as Psychology 6351)
- 6355 Field Course in Animal Behaviour (Cross-listed as Psychology 6355)
- 6400 Parasitic Protozoology
- 6410 Helminthology
- 6420 Parasitic Arthropods
- 6590 Molecular Biology I (Cross-listed as Biochemistry 6590 and Medicine 6590) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)
- 6591 Molecular Biology II (Cross-listed as Biochemistry 6591 and Medicine 6591) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)
- 6592 Bacterial Genetics (Cross-listed as Biochemistry 6592) Prerequisite: Biology 4241 or Biochemistry 4100 (or equivalent)
- 6593 Selected Readings in Molecular Biology (Cross-listed as Biochemistry 6593) Prerequisites or Co-requisites: Biology 6590, 6591/ Biochemistry 6590, 6591/ Medicine 6590, 6591, (or equivalent)
- 6700 Biology of the Molluscs
- 6710 Marine Benthic Biology
- 6900 Entomology
- 6910 Applied Entomology
- 7000 Graduate Core Seminar
- 7101 Topics in Marine Biology
- 7110 Cellular Physiology and Cytology
- 7140 Physiology of Parasitism
- 7201 Topics in Cellular and Molecular Biology and Physiology
- 7210 Arctic and Subarctic Biology
- 7220 Quantitative Methods in Biology
- 7250 Topics in Wildlife Biology
- 7270 Ecology of Newfoundland
- 7300 Ornithology
- 7301 Topics in Ecology and Conservation Biology
- 7510 Ichthyology
- 7520 Advances in Fish Biology
- 7530 The Molecular Basis of Development
- 7531 Biological Oceanography
- 7535 Research Methods in Marine Science
- 7540 Plankton Dynamics
- 7541 Physiological Ecology of Phytoplankton

7550 Fishery Biology
 7551 Fisheries Resource Management
 7560 Physiology of Marine Invertebrates
 7561 Physiology of Marine Vertebrates
 7570 Marine Benthic Biology
 7600 Effect of Organic and Inorganic Pollutants on Biological Systems
 7910 Community and Ecosystem Ecology
 7931 Research Methods in Genetic Biotechnology
 7920-7960 Special Topics in Biology (*Note: Biology 7931 may be delivered in an accelerated format outside of the regular semester timeframe*)

29.5 Chemistry

Professor and Head of the Department

P. Pickup

29.5.1 Program of Study

The Degree of Doctor of Philosophy in Chemistry is offered as full-time or part-time study. A Master's Degree in Chemistry or related area from a recognized university is normally required for entry into the Ph.D. program. Students holding a Bachelor's Degree (Honours or equivalent) in Chemistry may be considered for direct admission into the Ph.D. program. Students currently registered in the Memorial University of Newfoundland's Chemistry M.Sc. program for a minimum of three semesters may request transfer into a Ph.D. program. The transfer should be supported by the Supervisor and the Supervisory Committee and subsequent to satisfactory presentation of a written progress report and Ph.D. research proposal.

1. Candidates are normally required to write American Chemical Society (ACS) placement test(s) in the first two weeks of the initial semester of registration in order to determine an appropriate course program.
2. Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on recommendation of the Chemistry Deputy Head (Graduate Studies).
3. The program of a candidate must be arranged by the Supervisor in consultation with the Supervisory Committee and the student before the second semester of registration. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate's program, and, in consultation with the student, to prepare annual written progress reports for submission to the Dean of Graduate Studies.
4. Candidates holding a Master's Degree from a recognized university are normally required to successfully complete a minimum of 6 credit hours of graduate Chemistry courses with a minimum grade of B and to present a Departmental seminar on a topic not directly related to the candidate's research (Chemistry 6002) as well as a seminar describing the candidate's research (Chemistry 6003). Courses taken towards a Master's Degree may not be repeated. Candidates not holding a Master's Degree must successfully complete at least 12 credit hours of graduate Chemistry courses with a minimum grade of B in addition to Chemistry 6002 and 6003.
5. Candidates are required to attend Departmental seminars.
6. Candidates must pass a comprehensive examination, as described in the **General Regulations**, according to one of the following descriptions:
 - a. A 3 hour written part covering topics in Organic Chemistry, and, subsequent to the written examination at the discretion of the comprehensive examination committee, an oral exam designed to explore areas of perceived deficiency.
 - b. A 1.5 hour written part covering topics in Inorganic Chemistry, and, subsequent to the written exam, an oral examination designed to further explore areas of Inorganic Chemistry.
 - c. A paper on a research topic selected by the student in consultation with his/her supervisor and the examination committee, and subsequently, an oral examination designed to explore general areas of Analytical and/or Physical Chemistry and areas of chemistry related to the research topic.
7. Candidates must submit and successfully defend a thesis deemed acceptable by two internal and one external examiner as outlined in the **General Regulations**.

29.5.2 Courses

6002 Doctoral Seminar
 6003 Doctoral Research Seminar
 6110 Analytical Chemistry II
 6150 Advanced Spectroscopic Techniques
 6151 Analytical Separations and Organic Mass Spectrometry
 6152 Electroanalytical Techniques
 6153 Techniques in Sampling, Trace Analysis and Chemometrics
 6154 Business Management and Good Laboratory Practice
 6155 Computers in Instrumental Analysis and Basic Electronics (same as Med 6070)
 6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis
 6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques
 6190-9 Selected Topics in Analytical Chemistry
 6201 Bioinorganic Chemistry
 6202 Main Group Chemistry
 6204 Mechanisms in Catalysis
 6205 Photochemistry of Transition Metal Complexes
 6206 Green Chemistry
 6210 Organometallic Chemistry
 6290-9 Selected Topics in Inorganic Chemistry
 6300 Quantum Chemistry I
 6301 Quantum Chemistry II
 6302 Molecular Spectroscopy
 6304 Computational Chemistry I
 6310 Electronic Structure Theory
 6323 Chemical Thermodynamics I
 6324 Chemical Thermodynamics II

6340 Biophysical Chemistry
 6350 Electrochemical Kinetics
 6360 Solid State Chemistry
 6370 Nanoscale Phenomena
 6380 Adsorption on Surfaces
 6381 Surface and Interface Science
 6382-9 Selected Topics in Physical Chemistry
 6390-8 Selected Topics in Physical Chemistry
 6399 Chemical Kinetics and Dynamics
 6401 Organic Spectroscopic Analysis I
 6402 Organic Spectroscopic Analysis II
 6421 Natural Products Chemistry
 6460 Organic Synthesis
 6470 Physical Organic Chemistry
 6490-9 Selected Topics in Organic Chemistry
 6590-9 Selected Topics in Theoretical and Computational Chemistry
 6600 Applications of Inorganic and Organometallic Chemistry to Toxicology

29.6 Cognitive and Behavioural Ecology

Administrative Committee

Dr. I. Fleming, Department of Ocean Sciences - Co-Chair
 Dr. C. Walsh, Department of Psychology - Co-Chair
 Dr. T. Chapman, Department of Biology
 Dr. W. Montevecchi, Department of Psychology
 Dr. C. Purchase, Department of Biology
 Mr. P. Regular, Graduate Student Representative
 Dr. A. Storey, Department of Psychology
 Dr. I. Warkentin, Grenfell Campus

29.6.1 Program of Study

1. The Cognitive and Behavioural Ecology Graduate Program focuses on interdisciplinary animal behaviour research. Research integrates mechanistic, developmental, evolutionary and ecological perspectives on behaviour through molecular, individual and population levels of analysis. Supervisors include faculty from the Departments of Biology, Ocean Sciences, Psychology, the Faculty of Medicine and the Environmental Science Program at Grenfell Campus, as well as adjunct faculty from the Canadian Wildlife Service, Department of Fisheries and Oceans, the Newfoundland and Labrador Forestry and Wildlife Divisions and Parks Canada. The Departments of Biology and Psychology jointly offer the Master of Science and the Doctor of Philosophy degrees in Cognitive and Behavioural Ecology.
2. The Administrative Committee is responsible for the Program. Committee members are appointed by the Dean of Science, on the recommendation of the Chair of the Committee and of the Heads of Biology and Psychology. The Committee Chair is elected by the committee members and appointed by the Dean of Science. The Committee makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics, examiners and students' annual progress. Upon program completion, the Committee certifies that all requirements for the appropriate degree have been met. The Department of the Supervisor ensures that adequate facilities are provided for each candidate. Students in Cognitive and Behavioural Ecology are considered for teaching assistantships in the Psychology or Biology Departments.

29.6.2 Regulations

1. There are no required courses for the doctoral program. However, the Doctoral Seminar (CABE 6992) and/or other courses tailored for individual students may be included in the student's program by the Dean of Graduate Studies on the recommendation of the Chair of the Committee.
2. The comprehensive examination should be taken during the first year of the program. An Examination Committee will be struck in accordance with **General Regulations**. At least one member of the Department of Biology and of the Department of Psychology (other than the Supervisor) must be on the Examination Committee. The candidate's Supervisor will be on the Examination Committee and will be the only examiner from the candidate's Thesis Supervisory Committee. The Head of the Department of the Supervisor or his/her delegate is invited to serve on the Comprehensive Examination Committee. The Examination Committee is chaired by the Chair of the Cognitive and Behavioural Ecology Committee. The examination will include a comprehensive, integrative review paper on a research topic in Animal Behaviour. The review topic is assigned by the Examination Committee, which also determines the submission date for the paper, and the date of the examination. Normally, the student will write the paper in four months, and the oral examination will occur within six weeks of the paper's submission. This paper will form the basis of a public seminar. The Examination Committee will question the candidate about the paper, the topic and its broader relationship with Cognitive and Behavioural Ecology.

29.6.3 Courses

Biology 7220 Quantitative Methods in Biology
 Cognitive and Behavioural Ecology 6240 Special Topics
 Cognitive and Behavioural Ecology 6350 Behavioural Ontogeny
 Cognitive and Behavioural Ecology 6351 Behavioural Ecology and Sociobiology
 Cognitive and Behavioural Ecology 6992 Doctoral Seminar
 Cognitive and Behavioural Ecology 7000 Field and Lab Methods in Animal Behaviour and Behavioural Ecology
 Psychology 6000 Advanced Statistics in Psychology

Table of Credit Restrictions - Doctor of Philosophy in Cognitive and Behavioural Ecology

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course
CABE 6240	Biopsychology 6240
CABE 6350	Biopsychology 6350
CABE 6351	Biopsychology 6351
CABE 7000	Biopsychology 7000

29.7 Computer Science**Associate Professor and Head of the Department**

E. Brown

The degrees of Master of Science and Doctor of Philosophy are offered in Computer Science.

29.7.1 Program of Study

1. Admission into the Ph.D. program in Computer Science is normally restricted to candidates holding a Master's Degree (or equivalent) in Computer Science or a closely related area. Others may be considered for admission. See **Qualifications for Admission** of the **General Regulations**. International applicants are strongly encouraged to submit results of the (general) Graduate Record Examination (GRE) Test.
2. Each candidate for the Ph.D. shall complete a program of graduate courses prescribed by the supervisory committee. The normal minimum will be 9 credit hours.
3. The candidate shall take the Comprehensive Examination within the time limits specified in **Comprehensive Examinations** of the **General Regulations**. Students should consult the Departmental guidelines for a detailed description of the content of the Comprehensive Examination.
4. The Ph.D. Degree program will conclude with an oral defence of the thesis as described in **Theses and Reports** of the **General Regulations**.

29.7.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

Programming Languages

6711 Syntax and Semantics of Programming Languages
 6712 Compiling Techniques
 6713 Software Engineering
 6714 Functional Programming
 6715 Logic Programming
 6716 Concurrent Programming
 6718-6719 Special Topics in Programming Languages

Computer Systems

6720 Distributed and Parallel Computing
 6721 Operating Systems Design
 6722 Advanced Computer Architectures
 6723 Microprocessor Systems
 6724 VLSI Design (same as Engineering 9863)
 6725 Computational Aspects of VLSI (same as Engineering 9864)
 6726 Modelling and Analysis of Computing Systems
 6727 Introduction to High Performance Computer Systems
 6728-6729 Special Topics in Computer Systems - Computer Networks

Numerical Computations

6731 Topics in Numerical Methods
 6732 Matrix Computations
 6738-6739 Special Topics in Numerical Methods

Theoretical Aspects

6741 Advanced Automata Theory
 6742 Theory of Databases
 6743 Complexity of Computational Problems
 6745 Special Topics - Advanced Computational Geometry
 6748-6749 Special Topics in Theoretical Computer Science

Applications

6751 Database Technology and Information Retrieval
 6752 Applications of Computer Graphics
 6753 Artificial Intelligence
 6754 Post-Genomic Computational Biology
 6755 Knowledge-Based Systems
 6756 Digital Image Processing
 6758-6769 Special Topics in Computer Applications
 6770-6790 Special Topics in Computer Science

29.8 Earth Sciences**Associate Professor and Head of the Department**

R. Mason

The degrees of Master of Science and Doctor of Philosophy are offered in Earth Sciences (Geology) and Earth Sciences (Geophysics) by full-time and part-time study.

29.8.1 Program of Study

1. Admission into a Ph.D. program in Earth Sciences (Geology) and Earth Sciences (Geophysics) is normally restricted to candidates holding a Master's Degree or its equivalent. Candidates holding B.Sc. (Honours) degrees who show evidence of exceptional ability may be considered for a direct entry into a Ph.D. program. In exceptional circumstances, a candidate with a B.Sc. (Honours) Degree who has spent not less than 12 months in an M.Sc. Degree program may be recommended for transfer into a Ph.D. program, provided that the candidate can demonstrate, to the satisfaction of the Department of Earth Sciences, his/her ability to pursue research at the doctoral level.
2. A candidate for the Ph.D. Degree is normally required to complete 6 credit hours in addition to the credit hours required for the M.Sc. Degree. The courses must be selected from the overview and general courses below or with the approval of the supervisory committee and Head of Department, other graduate level courses including those offered by other departments. Depending on background and/or area of specialization, a candidate also may be required to complete additional courses in earth sciences or related subjects. All course requirements should be completed within 12 months from the date of the first registration in the Ph.D. program.
3. The Ph.D. Comprehensive Examination shall normally be taken in the first semester of registration in the Ph.D. program.
Note: *Detailed descriptions of the Ph.D. Comprehensive Examination are available upon request from the General Office of the Department of Earth Sciences.*
4. The Ph.D. Thesis Proposal Examination shall normally be taken in the second semester of registration in the Ph.D. program.
Note: *Detailed descriptions of the Ph.D. Thesis Proposal Examination are available upon request from the General Office of the Department of Earth Sciences.*
5. The Ph.D. Degree program will conclude with a thesis examination and an oral defense of thesis as prescribed in the **General Regulations, Theses and Reports**.
6. The Supervisor and the Head of the Department may recommend to the Dean of Graduate Studies that the program of a candidate who is not making satisfactory progress be terminated, in accordance with **General Regulation, Termination of a Graduate Program**.
7. A candidate is required to give an oral presentation to the Department on the results of his/her research. The presentation must be given during the second or third year of the program.

29.8.2 Courses

A selection of courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

Overview Courses

- 7110 Physics of the Solid Earth
- 7120 Crustal Geophysics
- 7300 Changes in Global Paleoenvironment
- 7400 Tectonic Regimes
- 7410 Engineering and Environmental Geology
- 7500 Chemical Fluxes in the Earth
- 7810 Paleocology (same as former 6810. Credit may be obtained for only one of 7810 or 6810)

General Courses

- 6070 Quantitative Techniques in Mineralogy and Metamorphic Petrology
- 6141 Rotation of the Earth
- 6142 Theory of Global Geodynamics
- 6152 Paleomagnetism
- 6171 Advanced Exploration Seismology
- 6172 Borehole Seismic
- 6175 Gravity and Magnetic Methods
- 6177 Mathematical Formulations of Seismic Wave Phenomena
- 6210 Genesis of Mineral Deposits
- 6320 Marine Geology
- 6400 Flow and Transport in Fractured Rock
- 6410 Advanced Engineering and Environmental Geology
- 6420 Deformation Mechanisms
- 6500 Stable Isotope Geochemistry
- 6510 Trace Element Geochemistry
- 6520 Methods in Advanced Research in Geochemistry
- 6540 Radiogenic Isotope Geochemistry
- 6550 Biogeochemistry
- 6600 Petroleum Geology
- 6740 Modern and Ancient Sedimentary Environments
- 6750 Sequence Stratigraphy
- 6820 Palynology and Paleobotany
- 6900-6999 Special Topics in Earth Sciences

29.9 Education

Associate Professor and Dean

K. Anderson

Associate Professor and Associate Dean

T. Seifert

The degrees of Master of Education and Doctor of Philosophy are offered in Education.

The Degree of Doctor of Philosophy in Education is offered to qualified candidates, normally by full-time study. The **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the Faculty of Education outlined below will apply.

29.9.1 Admission to the Ph.D. Program

General qualifications for admission to the Ph.D. Programs at Memorial University of Newfoundland are set out in the University Calendar under School of Graduate Studies, General Regulation **Qualifications for Admission, Ph.D. Program**.

In addition, the following admission requirements apply:

1. an 'A' standing in a Master's Degree in Education or in an equivalent Master's Degree from an accredited university;
2. evidence of scholarly work, such as a master's thesis, directed research project, or qualifying research paper;
3. normally, completion of two years of professional experience in an educational setting.

29.9.2 Supervisory Committee

Each candidate will have a supervisory committee comprised of a minimum of three members, at least two of whom shall be members of the Faculty of Education. The thesis Supervisor shall be a faculty member in the Faculty of Education, Memorial University of Newfoundland.

29.9.3 Program of Study

1. Courses

- a. Students are required to successfully complete two courses on the doctoral program.

Education 7001 - Doctoral Seminar in Education: Area of Specialization

Education 7002 - Advanced Educational Research

- b. Based on a consideration of educational background and research interest, students may be required to complete (or have completed at the masters level) as many as two (2) additional courses in research related to their program focus and specialty.
- c. Normally, no more than four courses may be undertaken on a candidate's program.
- d. Education 7003-30 - Special Topics (offered as required)

2. Comprehensive Examination

The candidate shall undertake a written and an oral comprehensive examination, which will follow General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination** which sets out the procedures for the comprehensive examination.

- a. A candidate in a Ph.D. program in Education shall normally take the written Comprehensive Examination prior to the seventh semester of the program. The candidate will have completed required courses prior to taking the Comprehensive Examination. In preparation for the Comprehensive Examination, the doctoral candidate, with the guidance of the candidate's Supervisor, will undertake study of the sub-disciplines/areas of concentration identified by the candidate and supervisory committee and approved by the Doctoral Committee. Normally, these will include the candidate's area of concentration and two additional sub-disciplines/areas of concentration.
- b. Such study of sub-disciplines will normally include but not be limited to developing a reading list of important historical and current publications within the sub-disciplines, identifying emerging research emphases within the sub-disciplines, and writing scholarly review papers of these publications.
- c. In preparation for the written comprehensive examination, the doctoral candidate and the supervisory committee will agree on the topics to be examined. The examination will be written over a two day period.
- d. Normally, the oral comprehensive examination will occur within six weeks of the written examination, which if judged to be successful by the Comprehensive Examination Committee, will form the basis of an oral comprehensive examination.
- e. The procedure for scheduling the Comprehensive Examination shall be initiated by the candidate's Supervisor who will notify, in writing, the Dean of Education of the candidate's readiness. The date of both the written examination and the oral examination will be determined by the Dean of Education. The candidate will receive a written notice of the scheduled date for both examinations from the Dean of Education.
- f. The Comprehensive Examination Committee shall be appointed by the Dean of Graduate Studies in accordance with School of Graduate Studies General Regulation **Comprehensive Examination, Ph.D. Comprehensive Examination** on the recommendation of the Dean, Faculty of Education. There will be six members of the Comprehensive Examination Committee as follows:

Dean of Education or delegate (Chair)

Chair of the Doctoral Committee of the Faculty Council of Education

Candidate's Supervisor

Second member of candidate's supervisory committee

Dean of School of Graduate Studies or delegate (non-voting)

Member of the Faculty of Education or educational community selected by the Dean of Education.

In the event that the Chair of the Doctoral Committee is the candidate's Supervisor, the Dean of Education shall appoint an additional member.

3. Ph.D. Thesis Regulations

- a. The candidate must submit a thesis proposal based on his/her own research interest to all members of the Supervisory Committee for critical evaluation. Normally, the proposal must be approved prior to the eighth semester of the program. The Chairperson of the Supervisory Committee will inform the candidate within one month of its acceptance, rejection or acceptance

with recommended changes.

- b. If the proposal is not acceptable, the candidate will normally be permitted a second attempt. The revised proposal must be submitted and deemed acceptable by the Supervisory Committee within a semester. Failure to resubmit within this time period will lead to termination of the candidate's program.
- c. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and analyses, and present the findings in a scholarly manner.
- d. Each candidate will be required to present a seminar on her/his thesis research to the Faculty.
- e. Ph.D. program will conclude with the examination and oral defence of the completed thesis in accordance with the appropriate sections of the General Regulation **Theses and Reports, Evaluation of Ph.D. Theses** governing the School of Graduate Studies.

29.9.4 Courses

7001 Doctoral Seminar in Education: Area of Specialization

7002 Advanced Educational Research

7003-30 Special Topics

29.10 Engineering and Applied Science

Professor and Dean

G. Naterer

Professor and Associate Dean (Graduate Studies)

L. Lye

The degree of Doctor of Philosophy (Ph.D.) is offered in the Faculty of Engineering and Applied Science and may be obtained either through full-time or part-time studies. The Ph.D. degree can be obtained through programs in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Oil and Gas Engineering.

29.10.1 Qualifications for Admission

Admission to the Ph.D. program is limited and competitive. All applicants must meet the minimum qualifications described in the **General Regulations** for the School of Graduate Studies. Admission is normally restricted to candidates holding a Master's Degree in Engineering or a related area. Decisions on admission, however, will also take into account such things as the applicant's rank in class, referees' assessments, general performance throughout the applicant's previous academic programs, and the availability of supervisors in the area of the applicant's interest. In cases of demonstrated ability, a student enrolled in the M.Eng. program may be allowed to transfer to the Ph.D. program without the completion of all the M.Eng. Degree requirements. As well, in exceptional cases, direct entry to the Ph.D. program, after completion of a Bachelor's Degree in Engineering or a related area, is possible.

Normally, applicants will be considered in January for admission for the following September. In special cases, applicants may also be considered in April and August. Applications should be made sufficiently far in advance to permit the University to obtain all relevant documents and review the application.

29.10.2 Program of Study and Research

A Ph.D. program shall normally consist of three components:

1. a minimum of 6 credit hours consisting of graduate courses recommended by the student's supervisory committee
2. a comprehensive examination as detailed in **Regulations for Ph.D. Comprehensive Examination**.
3. a thesis satisfying the requirements of the **General Regulations** for the School of Graduate Studies.

In cases of direct entry after a Bachelor's Degree or promotion from a Master's program before fulfilment of the Master's course requirements, it is likely that the student will be required to take more credit hours than the normally required minimum. In such cases, the requirements for the course component of the student's program will be reviewed on an individual basis by the student's supervisory committee and the Dean of the Faculty of Engineering and Applied Science.

29.10.3 Regulations for Ph.D. Comprehensive Examination

Timing

The Comprehensive Examination for Ph.D. candidates in the Faculty of Engineering and Applied Science shall be conducted in two parts: I) General Examination and II) Examination of the Research Proposal. A candidate registered full-time in the Ph.D. Program shall normally take Part I of the exam within four semesters of the start of their program and Part II within six semesters. Part-time students will normally take Part I of the exam within four semesters of the start of their program and Part II within seven semesters. Students transferring from a Master of Engineering program will normally complete both parts within seven semesters of the start of their Master of Engineering program.

The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean of Engineering and Applied Science, normally within three semesters of the start of the student's program.

Examination Procedure

Part I General Examination is an oral examination of the candidate's mastery of selected sub-disciplines of Engineering and Applied Science related to their area of research. The candidate will be apprised of the sub-disciplines in writing no later than three months prior to the examination. The examination is open to the University community; however, only members of the Committee are permitted to ask questions. The Committee may make four recommendations following this examination: i) the candidate may proceed to Part II of the Comprehensive Examination, ii) the candidate may proceed to Part II but will be assigned additional course work to their program of study, iii) the candidate will be assigned additional study materials and redo Part I in 2 to 8 weeks, iv) the candidate fails. Part I may only be redone once and failing Part I means that the Comprehensive Examination is failed without proceeding to Part II.

Part II Examination of the Research Proposal shall consist of i) a research proposal, normally of no more than 10,000 words, that should clearly define the research problem, survey literature, present the research method or experimental design, and may include a summary of results already obtained, and ii) a 20 to 30 minute presentation. The candidate should submit the written proposal at least one month prior to the presentation which is open to the University community and will be followed by questions from the Committee and the audience.

Committee Recommendations

Following Part II, the Examination Committee will meet in camera to decide a final recommendation for the Committee Chair to forward to the Dean of Graduate Studies. The possible recommendations in accordance with **General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination** are "pass with distinction", "pass", "re-examination" or "fail".

29.10.4 Courses

For a list of graduate courses offered by the Faculty of Engineering and Applied Science refer to the list of "Core Courses" and the list of "Other Courses" offered for the Master of Engineering program.

29.11 English Language and Literature

Associate Professor and Head of the Department

D. Walsh

The degrees of Master of Arts and Doctor of Philosophy are offered in English Language and Literature.

Candidates for the M.A. in English may complete the program as either part-time or full-time students. Candidates for the Ph.D. in English must be in attendance as full-time students for at least three semesters of the program.

29.11.1 Program of Study

1. Admission to the Ph.D. in English is limited and competitive. Applicants should have a Master's Degree in English or its equivalent from a recognized university and should have an outstanding academic record.
2. All candidates will be required to complete 15 credit hours in graduate courses. These courses will be selected by the candidate in consultation with the candidate's Supervisory Committee.

While candidates will normally be free to choose graduate courses of interest to them, it will be a primary responsibility of their Supervisory Committees to ensure that any serious deficiencies in their record of previous courses, graduate and undergraduate, are remedied, particularly in the area of proposed thesis research.

3. Candidates who have not previously taken English 7003 or its equivalent will take English 7003, which will count as one of the required courses for the Ph.D. Students who have taken English 7003 or its equivalent before entering the Ph.D. program must still complete 15 credit hours.
4. Candidates who have not completed English 4900 or English 5900 or an equivalent course will be required to complete English 5900, which will not count as one of the required courses for the Ph.D. The course will be graded "pass" or "fail". As in other graduate courses a grade of 65B or above is considered a pass.
5. Candidates must submit a thesis proposal which includes a statement of topic, a working title, a plan of research and a preliminary bibliography. The thesis proposal should be approved by the Supervisory Committee and submitted to the Departmental Graduate Studies Committee for its approval before the Comprehensive Examination and before the end of the fifth semester. The Departmental Graduate Studies Committee shall return the thesis proposal to the candidate no later than one month after receiving it.
6. Reading knowledge of a second language will be required of all candidates. Reading knowledge is defined as a minimum B grade in a second-year language course taken within the previous five years, a passing grade in an approved second-language course for graduate students, or performance satisfactory to the Department in an arranged reading proficiency test (in which a dictionary may be used).

The language requirement should be completed before the Comprehensive Examination is taken.

The second language will normally be French. In exceptional circumstances, and on the recommendation of the Supervisory Committee and the Departmental Graduate Studies Committee, a language other than French may be substituted.

The Supervisory Committee may also require a demonstrated reading knowledge of an additional language (other than French or the substituted language) if such knowledge is deemed necessary for the student's research interests.

7. The Ph.D. Comprehensive Examination in English is a written examination prepared by the candidate's Comprehensive Examination Committee.

In accordance with General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, the candidate's Comprehensive Examination Committee will include the Head (or the Head's delegate, usually the Graduate Co-ordinator), the candidate's Supervisor, and three other members of the Department.

The written examination shall consist of three parts: a four-hour examination in the student's area of concentration and two three-hour examinations in two other specified areas. In accordance with General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, the examination shall take place before the end of the seventh semester.

Candidates will be graded "pass with distinction", "pass", "re-examination", or "fail", in accordance with General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, 4. Candidates who are marked for "re-examination" will be re-examined in the area or areas in which the Comprehensive Examination Committee has determined that the candidate's performance is deficient. The nature of this re-examination (and whether it will be written or oral) is left to the discretion of the Comprehensive Examination Committee.

29.11.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- Notes:
1. *Since it is impossible to list in detail the many topics that may from time to time be offered, the titles below refer only to the major periods and general subject areas in which specific courses may be available. The content and approach in specific courses will vary according to the research interests of students and faculty involved in the course. Students should consult the Department's annual Graduate Student Guide (or the Graduate Co-ordinator) for detailed descriptions of specific course offerings. Normally, no fewer than 30 credit hours in graduate courses are offered in any given academic year.*
 2. *English 5900 cannot be counted as one of the required graduate courses in any program.*
 3. *All students will normally take English 7003 - Trends in Contemporary Literary Theory, usually in their first semester.*
 4. *Students who took graduate courses in English at Memorial University of Newfoundland before 1997 should consult with the Department before selecting further courses.*

5900 Bibliography and Research Methods
6403 Etymology (same as Linguistics 6403)
6420 English Dialectology I

6421 English Dialectology II
 6999 Master's Essay (for non-thesis students)
 7003 Trends in Contemporary Critical Theory
 7004 English Phonology and Morphology
 7005 The Syntactic Structure of English
 7020-25 Special Topics in English
 7032 Studies in Old English I
 7033 Studies in Old English II
 7034 Studies in Middle English I
 7035 Studies in Middle English II
 7036 Studies in Middle English III
 7037 Studies in 16th-Century Literature I
 7038 Studies in 16th-Century Literature II
 7039 Studies in 16th-Century Literature III
 7040 Studies in 16th-Century Literature IV
 7041 Studies in 17th-Century British Literature I
 7042 Studies in 17th-Century British Literature II
 7043 Studies in 17th-Century British Literature III
 7044 Studies in 17th-Century British Literature IV
 7045 Studies in 18th-Century British Literature I
 7046 Studies in 18th-Century British Literature II
 7047 Studies in 18th-Century British Literature III
 7048 Studies in 18th-Century British Literature IV
 7049 Studies in 19th-Century British Literature I
 7050 Studies in 19th-Century British Literature II
 7051 Studies in 19th-Century British Literature III
 7052 Studies in 19th-Century British Literature IV
 7053 Studies in 20th-Century British Literature I
 7054 Studies in 20th-Century British Literature II
 7055 Studies in 20th-Century British Literature III
 7056 Studies in 20th-Century British Literature IV
 7057 Studies in Pre-19th Century American Literature
 7058 Studies in 19th Century American Literature I
 7059 Studies in 19th-Century American Literature II
 7060 Studies in 19th-Century American Literature III
 7061 Studies in 20th-Century American Literature I
 7062 Studies in 20th-Century American Literature II
 7063 Studies in 20th-Century American Literature III
 7064 Studies in 20th-Century American Literature IV
 7065 Studies in Pre-19th Century Canadian Literature
 7066 Studies in 19th-Century Canadian Literature I
 7067 Studies in 19th-Century Canadian Literature II
 7068 Studies in 19th-Century Canadian Literature III
 7069 Studies in 20th-Century Canadian Literature I
 7070 Studies in 20th-Century Canadian Literature II
 7071 Studies in 20th-Century Canadian Literature III
 7072 Studies in 20th-Century Canadian Literature IV
 7073 Studies in Newfoundland Literature I
 7074 Studies in Newfoundland Literature II
 7075 Studies in Newfoundland Literature III
 7076 Studies in Anglo-Irish Literature I
 7077 Studies in Anglo-Irish Literature II
 7078 Studies in Modern Drama
 7079 Studies in Post-Colonial Literature I
 7080 Studies in Post-Colonial Literature II
 7081 Studies in Post-Colonial Literature III
 7082 Studies in Critical Theory I
 7083 Studies in Critical Theory II
 7084 Studies in Critical Theory III
 7085 Special Readings in English I
 7086 Special Readings in English II
 7087 Special Readings in English III

29.12 Environmental Science

Board of Study

Dr. J. Wroblewski, Department of Ocean Sciences - Chair
 Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
 Dr. B. Chen, Faculty of Engineering and Applied Science
 Dr. R. Chuenpagdee, Department of Geography
 Dr. P. Marino, Head, Department of Biology
 Dr. W. Montevecchi, Department of Psychology
 Dr. L. Tarasov, Department of Physics and Physical Oceanography
 Dr. S. Ziegler, Department of Earth Sciences

29.12.1 General Information

1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Faculty of Arts, the Faculty of Medicine and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.

2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

29.12.2 Program of Study

1. The Doctor of Philosophy (Ph.D., Environmental Science) is a research degree which includes a doctoral dissertation and course work. Normally, students entering the Ph.D. program in Environmental Science will have a M.Sc. degree from an institution recognized by the Senate. Students in the Master of Science (Environmental Science) program, after a minimum of 12 months in their program of studies, may request a transfer to the Ph.D. program. Final decision for transfer from the M.Sc. program to the Ph.D. program rests with the Dean of the School of Graduate Studies. There are two courses (6 credit hours) required for the doctoral program. All students take ENVS 6010 and those with a disciplinary M.Sc. degree in Science from a recognized university also take ENVS 6000. Other courses tailored for individual students are included in the student's program by the Dean of Graduate Studies on the recommendation of the Chair of the Board of Studies.

2. The comprehensive examination should be taken on completion of all course work. An Examination Committee will be struck in accordance with the **General Regulations**. At least two members of the Board of Studies must be on the Examination Committee. The candidate's Supervisor will be on the Examination Committee and will be the only examiner from the candidate's Thesis Supervisory Committee. The Head of the Department of the Supervisor or his/her delegate is invited to serve on the Comprehensive Examination Committee. The Examination Committee is chaired by the Chair of the Environmental Science Program. The examination will be both written and oral. The topic is assigned by the Examination Committee, which also determines the submission date for the paper, and the date of the examination. Normally, the student will write the paper within four months, and the oral examination will occur within six weeks of the paper's submission. This paper will form the basis of a public seminar. The Examination Committee will question the candidate about the paper, the topic and its broader relationship with Environmental Science.

3. The doctoral thesis is based on the results of systematic, independent research on an approved scientific topic. To ensure the research is interdisciplinary, the supervisory committee must be made up of members from at least two different departments. The candidate will be required to present a Ph.D. research proposal to the supervisory committee. The completed thesis will be evaluated according to the **General Regulations** of the School of Graduate Studies. It must contribute significantly to knowledge in the field of Environmental Science.

29.12.3 Courses

ENVE/ENVS 6000 Environmental Science and Technology
 ENVE/ENVS 6001 Earth and Ocean Systems
 ENVE/ENVS 6002 Environmental Chemistry and Toxicology
 ENVE/ENVS 6003 Applied Ecology
 ENVS 6004 Environmental Pollution and Mitigation (cross-listed as ENGI 9601)
 ENVS 6007 Environmental Risk Assessment (cross-listed as ENGI 9609)
 ENVS 6008 Air Pollution (cross-listed as ENGI 9624)
 ENVS 6010 Environmental Seminar
 ENVS 6201-6210 Selected Topics in Environmental Science

29.13 Ethnomusicology

Professor and Dean

E. Waterman

Professor and Associate Dean

M. Volk

The Doctor of Philosophy program in Ethnomusicology is administered by the School of Music in consultation with the Department of Folklore, and generally in response to recommendations from an Interdisciplinary Advisory Committee with representation from both academic units, chaired by the Program Co-ordinator.

The Degree of Ph.D. in Ethnomusicology is offered by part-time and full-time study. This program is a research Degree, generally involving extended fieldwork. The resources of the Memorial University of Newfoundland Folklore and Language Archive are available to graduate students in Ethnomusicology.

29.13.1 Qualifications for Admission

Applicants may be admitted to the program if they have at least a B+ average in a M.A. Degree in Ethnomusicology, another field of Music, or other relevant discipline in the Humanities or Social Sciences with evidence of specialization in music. Applicants from a discipline other than Music will be expected to demonstrate the following skills:

- Competent performance in any musical tradition, as judged by a musician knowledgeable about that tradition.
- Knowledge of culturally appropriate language for discussion of performance techniques in that tradition.
- Ability to discuss musical details on the basis of aural and/or written sources, as appropriate to that tradition.

Candidates for admission may, at the discretion of the Interdisciplinary Advisory Committee, be required to write diagnostic examinations measuring skills and knowledge in music literacy, theory, or aural perception. Candidates with deficiencies in any of these areas may be required to take remedial course work prior or in addition to the required program.

Upon completion of M.A. course work, students who have attained an A average may wish to be considered for transfer to the Ph.D. program. Students who seek this option must apply to the Interdisciplinary Advisory Committee to be considered for transfer one month prior to the completion of their M.A. courses or by the end of the 5th semester (see General Regulation **Qualifications for Admission, Master's Program**).

29.13.2 Program of Study

The Ph.D. program may be completed within twelve to fifteen consecutive semesters of full-time study, depending on fieldwork requirements. The Degree is normally taken by completing course work, comprehensive examinations, a language proficiency requirement, and a Ph.D. thesis, defended in accordance with General Regulation **Theses and Reports** of the School of Graduate Studies.

1. Students must complete a minimum of 21 credit hours of course work. If required courses have been completed at the M.A. level,

electives may be substituted (with approval of the Interdisciplinary Advisory Committee). The required courses are:

- a. Music 8001; Folklore 6010, 6030.
 - b. ONE of Music 6002 or Folklore 7100.
 - c. Nine credit hours of electives selected from courses listed below or from relevant courses offered in another discipline (with the approval of the Interdisciplinary Advisory Committee). Ph.D. students may take up to two courses (6 credit hours) in a cognate discipline.
 - d. Reading proficiency in one language other than English, relevant to the research area, demonstrated to the satisfaction of the Interdisciplinary Advisory Committee. The choice of language must be approved by the Interdisciplinary Advisory Committee. The language exam should normally be completed before the comprehensive exams.
2. Comprehensive examinations will be administered in a major area, minor area, and theoretical/interdisciplinary area; a component of the comprehensive examination will test audio-visual skills. Bibliographies and discographies for several focussed topics will be developed by the student in consultation with his/her supervisory committee and will be the basis of examination questions. The written portion of the examination will be scheduled over a one-week period. The Comprehensive Examination Committee will normally schedule a consultation with the student to discuss the written essays within one month following the completion of the written examination. For further information see General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**.
 3. Students must complete a thesis, examined and defended in accordance with General Regulation **Theses and Reports** of the School of Graduate Studies. A thesis proposal, including a working title, statement of purpose and research scope, outline of the theoretical and methodological approach, working plan, and preliminary bibliography, together with proposed membership of the supervisory committee, must be submitted to the Interdisciplinary Advisory Committee no later than the fifth semester of study. The thesis shall demonstrate the candidate's ability to carry out original and independent research, develop the necessary theoretical and methodological framework, and present the findings in a scholarly manner.

29.13.3 Courses

Theories and Methods:

Music 6001 Research Methods
 Music 6002 Graduate Seminar
 Music 7001 Research Problems and Methods in Ethnomusicology
 Music 8001 Theoretical Issues in the Study of Music
 Folklore 6010 Survey of Folklore Genres and Processes
 Folklore 6020 Field and Research Methods
 Folklore 6030 Folklore Theories
 Folklore 6040 Feminist Theories: Perspectives and Issues
 Folklore 6080 Vernacular Theories
 Folklore 6090 Ethnology
 Folklore 7100 Advanced Folkloristics II: Research and Ethnography

Form and Performance:

Music 7005 Performance Option
 Folklore 6100 Song and Music
 Folklore 6120 Ballad
 Folklore 6130 Folk Music Canons and Documentary Sound Recordings
 Folklore 6200 Folktale
 Folklore 6210 Legend
 Folklore 6220 Personal Experience Narrative
 Folklore 6250 Language and Play
 Folklore 6260 Ethnography of Communications
 Folklore 6300 Ethnography of Belief
 Folklore 6310 Health Systems
 Folklore 6350 Custom
 Folklore 6360 Traditional Drama
 Folklore 6400 Material Culture
 Folklore 6410 Vernacular Architecture
 Folklore 6420 Art and the Artifact
 Folklore 6430 Food and Culture
 Folklore 6720 Folklore and Literature

Area and Genre Studies:

Music 7010 World Music: Music of Asia and Oceania
 Music 7011 World Music: Music of Africa and the Americas
 Music 7012 Canadian Musical Traditions
 Music 7013 Music and Culture
 Music 7017 Folksong
 Music 7018 Jazz and Blues: The Roots of Popular Music
 Folklore 6120 Ballad
 Folklore 6600 Folklore of Newfoundland
 Folklore 6610 Folklore of Canada
 Folklore 6620 Folklore of the United States
 Folklore 6630 Folklore of the British Isles
 Folklore 6770 The Global and the Local

Social Identities:

Music 7006 Urban Ethnomusicology
 Music 7007 Music in the Study of Gender, Race and Class
 Music 7009 Music and Place
 Folklore 6510 Occupational Folklore
 Folklore 6551 Indigenous Expressive Cultures in Cross-cultural Encounter
 Folklore 6730 Folklore and Gender
 Folklore 6780 Ethnicities

Independent Study:

Music 7026-29 Directed Reading in Ethnomusicology
Folklore 6570-79 Reading Course in Folklore

Special Topics:

Music 6800-09 Special Topics in Music
Music 7800-09 Special Topics in Music
Folklore 6511-29 Special Topics in Folklore
Folklore 6570-79 Reading Course in Folklore

Public and Applied Ethnomusicology and Folklore:

Music 6700 Music Industries Seminar
Music 6750 Music Industries Internship (2 credit hours)
Folklore 6740 Public Sector Folklore
Folklore 6760 Archiving
Folklore 6790 Museums: Perspectives and Practices
Folklore 6800 Applied Folklore

Interdisciplinary Perspectives:

Music 7008 Media Studies
Folklore 6700 Folklore and Culture
Folklore 6710 Oral Tradition and Oral History
Folklore 6750 Popular Culture: Theory and Debate

29.14 Folklore**Associate Professor and Head of the Department**

D. Tye

The Degree of Doctor of Philosophy in Folklore is offered by part-time and full-time study and is primarily a research Degree. The program normally requires extensive fieldwork research in Newfoundland and/or the Maritimes.

Integral to the teaching of the Department of Folklore is the work of the Memorial University of Newfoundland Folklore and Language Archive; see section under **Master of Arts, Folklore**.

29.14.1 Program of Study

1. An applicant for admission to the Ph.D. program in Folklore must hold an M.A. Degree in Folklore, or its equivalent as determined by the Head of the Department and the Dean, with an average grade in M.A. courses of not less than 80%.
2. All Ph.D. students in the Folklore program must complete *at least 18 credit hours* in program graduate courses which shall include Folklore 7000 and 7100. Candidates will normally be free to choose graduate courses of interest to them in Folklore or related disciplines, though it will be a primary responsibility of their committees to ensure that any serious deficiencies are made good. At the end of the second semester the program and further status of the candidate will be reviewed.
3. Second Language Requirements:
 - a. All Ph.D. candidates are required to demonstrate an adequate reading knowledge of a second language - normally a common, modern language.
 - b. Reading knowledge is defined as a minimum B grade in a second-year language course taken within the previous five years, or performance satisfactory to the Department in an arranged reading proficiency test.
 - c. The selection of a second language can be based on the student's research requirements.
 - d. The selection of a second language must be made in consultation with the student's faculty advisor or Supervisor. Confirmation that the choice is acceptable must be obtained from the Department.
 - e. The language requirement must normally be fulfilled before a student takes the Ph.D. Comprehensive Examination.
4. Comprehensive Examination for the Ph.D.:
 - a. The Ph.D. Comprehensive Examination shall be administered in accordance with **General Regulations, Comprehensive Examinations**. Candidates will prepare for three examinations by undertaking supervised readings in three fields decided by the Comprehensive Examinations Committee. The basic principle is to integrate knowledge within specific areas of folklore and folklife scholarship. The examination normally will be written with the format to be determined by the Comprehensive Examination Committee in consultation with the student. Assessment will be based on the examination of three papers each of one week duration or three closed book examinations each of eight hours duration. The Committee will recommend to the Dean of Graduate Studies a grade of PAS (pass), FAL (fail), or PWD (pass with distinction).
 - b. Examination normally will take place only upon the completion of the second language requirements and no earlier than the end of the first year after admission to candidacy but no later than one year after the completion of the program courses. The examination normally will be scheduled in the second semester following the candidate's completion of courses.
5. Ph.D. Thesis:
 - a. The candidate will normally submit a thesis proposal based on his/her own interests no later than the end of the semester following the completion of comprehensive examinations. The thesis proposal will include a working title, names of preferred Supervisor and two other Committee members, statement of topic, plan of research, statement of methodological and theoretical approach, a brief review of the literature and a preliminary bibliography. The proposal will be circulated to the Department for critical evaluation on the basis of which the candidate will be informed, within one month, by the Supervisor, of its acceptance, rejection, or acceptance with recommended changes.
 - b. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and present the findings in a scholarly manner.

29.14.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, normally after consultation with the Head of the Department or the Graduate Studies Administrator, and as far as the resources of the Department will allow. Courses are structured according to the categories of: Theories and Methods, Issues, Form and Performance, Special Topics, Regional, National and International Heritage, Social Identities, Public and Applied Folklore, Interdisciplinary Perspectives and Required (Ph.D.):

Theories and Methods

6010 Survey of Folklore Genres and Processes
 6020 Field and Research Methods
 6030 Folklore Theories
 6040 Feminist Theories: Perspectives and Issues
 6080 Vernacular Theories
 6090 Ethnology

Issues

6050 Issues in Folkloristics
 6060 Issues in Folk Literature
 6070 Issues in Folklife

Form and Performance

6100 Song and Music
 6120 Ballad
 6130 Folk Music Canons and Documentary Sound Recordings
 6200 Folktale
 6210 Legend
 6220 Personal Experience Narrative
 6250 Language and Play
 6260 Ethnography of Communications
 6300 Ethnography of Belief
 6310 Health Systems
 6350 Custom
 6360 Traditional Drama
 6370 Ritual, Festival and Public Display
 6400 Material Culture
 6410 Vernacular Architecture
 6420 Art and the Artifact
 6430 Food and Culture
 6720 Folklore and Literature

Special Topics

6511-29 Special Topics in Folklore
 6550 Special Research in Folklore
 6551 Indigenous Expressive Cultures in Cross-Cultural Encounter
 6552-69 Special Research in Folklore
 6570-79 Reading Course in Folklore

Regional, National and International Heritage

6600 Folklore of Newfoundland
 6610 Folklore of Canada
 6620 Folklore of the United States
 6630 Folklore of the British Isles
 6640 Traditional Culture of Scotland
 6650 Culture and Traditions of Ireland
 6660 Folklore of the Francophone Regions
 6690 International Folklore

Social Identities

6510 Occupational Folklife
 6730 Folklore and Gender
 6770 The Global and the Local
 6780 Ethnicities

Public and Applied Folklore

6740 Public Sector Folklore
 6760 Archiving
 6790 Museums: Perspectives and Practices
 6800 Applied Folklore

Interdisciplinary Perspectives

6700 Folklore and Culture
 6710 Oral Tradition and Oral History
 6750 Popular Culture: Theory and Debate

Required (Ph.D.)

7000 Advanced Folkloristics I
 7100 Advanced Folkloristics II Research and Ethnography

Credit may not be obtained for both 6010 and the former 6110; 6020 and the former 6111; 6030 and the former 6112; 6100 and the former 6430; 6120 and the former 6445; 6300 and the former 6230; 6350 and the former 6230; 6400 and the former 6501; 6720 and the former 6460.

29.15 Food Science

See **Biochemistry**.

29.16 Geography

Professor and Head of the Department

C. Mather

29.16.1 Program of Study

1. To be admitted to the program, an applicant must have completed either a Master of Arts or a Master of Science Degree, or its

equivalent, in Geography or a related discipline. In exceptional circumstances, a candidate who has completed either a B.A. (Honours) or B.Sc. (Honours) Degree, and who has spent not less than 12 months in a M.A. or M.Sc. Degree program may apply for transfer into a Ph.D. program. A successful application for transfer will require that the candidate demonstrate to the satisfaction of the Department an ability to pursue research at the doctoral level.

2. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
3. Research areas for graduate study at the Doctoral level are cultural, political and historical geography, economic geography, resource management, community and regional development, physical geography and geographic information sciences.
4. An applicant will be admitted to a doctoral program only if a faculty member agrees to act as Supervisor, and at least two other individuals are willing to serve on the supervisory committee.
5. All candidates must successfully complete Geography 6000 and 6001 if these courses, or equivalent courses, have not been included in their Master's program. In addition, all candidates are required to successfully complete a minimum of 3 credit hours in graduate program courses.
6. The supervisory committee may decide that a candidate successfully completes an examination for reading or speaking a language other than English.
7. After the successful completion of all required courses, candidates must take a comprehensive examination which will have both a written and an oral component.
8. Following successful completion of the comprehensive examination the candidate will submit a written research proposal to the supervisory committee. The proposal must then be approved by the Committee prior to the commencement of research by the candidate.
9. Each candidate will be required to present a seminar on their research to the Department.
10. The Ph.D. program will conclude with the examination and oral defence of the completed thesis in accordance with the appropriate sections of the **General Regulations** governing the School of Graduate Studies.

29.16.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Development of Geographical Thought and Practice I
 6001 Development of Geographical Thought and Practice II
 6002 Directed Readings in Geography
 6100 Research Techniques in A Selected Field of Geography I
 6101 Research Techniques in A Selected Field of Geography II
 6120 Geospatial Modelling and Analysis
 6150 Environmental Remote Sensing and Image Analysis
 6200 Economic Geography I
 6201 Economic Geography II
 6204 Sustainable Community and Regional Development
 6250 Conservation and Sustainability of Natural Resources
 6251 Survey Design, Questionnaire Development and Techniques of Data Collection
 6300 Problems in Fisheries Geography
 6400 Fluvial Geomorphology
 6401 Glacial Geomorphology
 6402 Coastal Geomorphology
 6410 Climatology
 6420 Quaternary Geography
 6430 Biogeography
 6500 Cultural Geography
 6600 Historical Geography
 6700 Political Geography
 6800 Urban Geography
 6821 Advanced Computer Mapping
 6900 Graduate Seminar in Regional Geography
 6990-95 Special Topics in Geography

29.17 Geology

See **Earth Sciences**.

29.18 Geophysics

See **Earth Sciences**.

29.19 History

Professor and Head of the Department

S. Cadigan

The degrees of Doctor of Philosophy and Master of Arts are offered in History by full-time or part-time study.

29.19.1 Program of Study

1. The Ph.D. Degree in History is offered in the following areas:
 - a. Canadian History
 - b. Maritime History
 - c. Newfoundland History
2. An applicant must hold either a Master's Degree in History or a Bachelor's Degree in History with first-class Honours or their equivalents as determined by the Head of the Department and the Dean.

3. All candidates must successfully complete History 7000 and 7001 in the first year of the program. The Supervisory Committee may require the candidate to complete additional graduate courses.
4. All candidates must demonstrate in accordance with regulations established by the School of Graduate Studies a reading knowledge of French before taking the comprehensive examination. On the recommendation of the Supervisory Committee a modern language other than French may be substituted. In addition, the Supervisory Committee may require a demonstrated reading knowledge of a second language other than French or English (or the substitute language).
5. Candidates will undertake supervised reading in fields prescribed by the Department. The Supervisors of these programs of reading, along with the thesis Supervisor, will comprise the student's Supervisory Committee. This reading will prepare the student for the comprehensive oral examination.
6. Candidates must submit a thesis proposal, deemed acceptable by the Supervisory Committee, to the Department before sitting the comprehensive examination.
7. Candidates will normally sit the comprehensive oral examination in the second year of the program.
8. Interested applicants are urged to consult with the Head of the Department on these prerequisites and other requirements before filing an application for admission.

29.19.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Advanced Studies in Newfoundland History
 6010 Advanced Studies in Canadian History
 6020 Advanced Studies in the History of the United States
 6030 Advanced Studies in French History
 6040 Advanced Studies in British History
 6050 Advanced Studies in German History
 6060 Advanced Studies in North Atlantic History
 6070 Advanced Studies in Social History
 6075 Advanced Studies in Labour and Working Class History
 6080 Advanced Studies in Intellectual History
 6090 Advanced Studies in Women's History
 6095 Advanced Studies in Ethnohistory
 6100 Advanced Studies in Military History
 6105 Advanced Studies in Diplomatic History
 6110 Advanced Studies in Maritime History
 6120 Advanced Studies in Economic and Business History
 6125 Medical Science and Social Responsibility in Health Care: Aspects of Medical History (*Cross-listed as Medicine 6420*)
 6130 Quantification and Measurement in History
 6140-59 Research in Special Topics
 6160-79 Reading Courses (Special Topics)
 6190 Theory and Method
 6200 Masters Seminar I
 6999 Masters Research Paper (12 credit hours)
 7000 Ph.D. Seminar I
 7001 Ph.D. Seminar II

29.20 Interdisciplinary

Professor and Director

S. MacKinnon

The Degree of Doctor of Philosophy (Interdisciplinary) is offered by part-time and full-time study.

The **General Regulations** of the School of Graduate Studies and the regulations outlined below will apply.

29.20.1 Administration

1. The program shall be administered by a Director, together with the School of Graduate Studies Interdisciplinary Ph.D. Committee (ID Ph.D. Committee).
2. The program of study of each student will be guided for the duration of the program by a Supervisory Committee of either three (3) or five (5) faculty members, appointed by the Dean of Graduate Studies on the recommendation of the ID Ph.D. Committee at the time of admission.

In addition, the Director shall be an ex officio member of each Interdisciplinary Ph.D. Supervisory Committee.

Duties of this Committee shall involve supervising the overall program of study, including the recommendation of appropriate courses, the setting and scheduling of comprehensive examinations, the development of a research proposal, and the thesis-writing and final examination.

The Supervisory Committee is also responsible for recommending fellowship support to the ID Ph.D. Committee and to the Dean of Graduate Studies at the time of admission and throughout the student's program.

3. Normally, the "academic home" for the student is in the Department or faculty/school of the primary Supervisor.

29.20.2 Deadlines for Applications

1. The deadline for Fall admission is March 1 for commencement in September, October 1 for commencement in January, and February 1 for commencement in May. Students seeking admission to the program should start preparing their admission file well in advance of the application deadline.

Admissions shall be considered by the ID Ph.D. Committee and recommendations shall be made to the Dean of Graduate Studies.

29.20.3 Admission

1. Prospective students should normally hold a Master's Degree and have an excellent academic record. Applications for admission must include:

- a. Three letters of reference
- b. A detailed research proposal
- c. Letters expressing a commitment to the research project and to supervisory duties from three Memorial University faculty members, one of whom is prepared to assume the role of academic Supervisor or co-supervisor and at least one whose unit of primary responsibility is a Ph.D. granting Department.
- d. Letters of endorsement from the administrative heads of each of the units involved in the proposed program.
- e. A statement from the University Librarian indicating the adequacy of Library resources to satisfy the demands of the research program.

29.20.4 Program of Study

1. a. Students will normally be required to take 12-18 credit hours of courses to be determined by the Supervisory Committee. These must include at least one course from each participating discipline. Directed reading courses may be included to support the development of the thesis work.
- b. Where appropriate, extra language and/or methodology courses may be prescribed. See **Evaluation, Evaluation of Graduate Students**, 4. concerning language(s) requirement.
2. Comprehensives
The scope, format, and number of required comprehensive examinations shall be determined by the Supervisory Committee in consultation with the student and in accordance with the needs of his/her particular program of study. Students will be required to take a comprehensive examination after the completion of all required course work, which can be no later than the end of the seventh semester of study. Comprehensive examinations shall follow procedures in accordance with General Regulation, **Comprehensive Examinations, Ph.D. Comprehensive Examination**, with the exception of 2.
3. Thesis
a. A thesis proposal, including a working title, statement of purpose and research scope, outline of theoretical and methodological approach, working plan and preliminary bibliography must be submitted to the Supervisory Committee no later than the end of the fifth semester of study. If approved by the Committee, the proposal shall be recommended to the ID Ph.D. Committee for final approval.
- b. Students must complete a thesis, examined and defended in accordance with General Regulation, **Theses and Reports** of the School of Graduate Studies. The thesis shall give evidence of the candidate's ability to develop independent and original research.

29.21 Linguistics

Professor and Head of the Department

M. MacKenzie

The degrees of Master of Arts and Doctor of Philosophy are offered in Linguistics.

29.21.1 Program of Study

1. The Degree of Doctor of Philosophy is offered in the following areas:
 - a. Languages in which the Department has demonstrated expertise, especially languages of the Newfoundland and Labrador Area.
 - b. Historical and Comparative Linguistics.
 - c. Language Variation and Language Contact.
2. In order to be admitted to the Ph.D. in Linguistics, a student shall normally hold a Master's Degree in Linguistics. In the case of a student who does not meet the above requirement but who holds a language-oriented Master's Degree, a program of additional linguistics courses, supplementary to those normally considered to be required in the Ph.D. program, may be required.
3. The program of each candidate must be approved by the Dean of Graduate Studies upon the recommendation of the Supervisory Committee in consultation with the Head of the Department.
4. Candidates who fulfill the requirement in Clause 2 and who otherwise possess the qualifications of Ph.D. candidates will embark on a program approved on an individual basis. This will normally include not less than 18 credit hours in graduate courses, at least 6 credit hours of which must be at the 7000-level.
5. Where needed, each program will include appropriate courses to ensure that the student will have completed 9 credit hours from graduate courses in each of two required fields selected from the following:
 - a. Phonetics and Phonology
 - b. Morphology and Syntax
 - c. Comparative and Historical Linguistics
 - d. Dialectology and Sociolinguistics
6. The comprehensive examination (see Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination** of the **General Regulations**) includes two written and two oral examinations. Students must meet all language requirements prior to undertaking their comprehensive examination.
 - a. The written examinations consist of two separate research papers. These papers will be submitted to the Examination Committee. At least one of the papers must be in one of the core areas of phonetics/phonology, morphology, syntax or semantics. The topic selected for each paper must obtain the prior approval of the Graduate Studies Committee of the Department. In each of these papers, candidates must demonstrate knowledge of the literature on the topic selected, general mastery of the discipline of linguistics and ability to undertake independent research.
 - b. The Examination Committee will examine the candidate orally, on each paper, within one month of submission. Questioning can be as wide-ranging as the Committee deems necessary to ensure that the student displays a thorough and comprehensive knowledge of the area in question.
 - c. The Examination Committee shall consist of the Head of Department (or delegate) who shall Chair the Committee, the Supervisor, the Dean of Graduate Studies (or delegate), and other members necessary to satisfy General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, 2., who may normally include the members of the Supervisory Committee. If the Head of Department is also a member of the Supervisory Committee, an additional representative of the Department shall be appointed to chair the Examination Committee.

7. Initially, candidates must obtain approval for their Ph.D. thesis topics from the Graduate Studies Committee of the Department, in consultation with the Supervisory Committee. The thesis topic is normally selected before the end of the second full year in the program. Once the topic is approved, a more detailed thesis proposal must be presented to the Department in both written and oral format, and must receive formal Departmental approval prior to the writing of the thesis.
8. Proficiency in a language other than the candidate's first language will be required, as demonstrated by a minimum B grade in a second-year language course, or performance satisfactory to the Department in an arranged reading proficiency test. A structural knowledge of a non-Indo-European language is also required, as demonstrated by a minimum B grade in a field methods/language structure course or other performance satisfactory to the Department. Depending on the program, a reading knowledge of one or more additional languages may be required. Students must meet all language requirements before undertaking their comprehensive examinations.
9. All Ph.D. students are advised to consult the Linguistics department's Graduate Handbook for details on program requirements and for general information relating to the graduate program.

29.21.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of students, as far as the resources of the Department will allow. Full information is to be found in the Department's Graduate Brochure.

- 6050-54 Structure of a North American Aboriginal Language (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6050-54 series. Students may not obtain credit for any of the previously offered 6010, 6011, 6020, 6021, 6030, 6031, 6040, 6041 in addition to a course in the 6050-54 series.)
- 6055-59 Structure of an Uncommonly-Taught Language (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6055-59 series.)
- 6100 Issues in Morphosyntax (Credit may not be obtained for both Linguistics 6100 and the former 6001)
- 6110 Selected Topics in Transformational Grammar
- 6115 Topics in the Syntax of A Selected Language (Prerequisite: 6001 or 6110)
- 6150 Principles of Language Acquisition
- 6151 Selected Topics in Language Acquisition (Prerequisite: 6150)
- 6200 Generative Phonology
- 6201 Selected Topics in Phonology (Prerequisite: 6200)
- 6210 Sociolinguistics (Credit restriction: A student may not obtain credit for both 6210 or the former 6211)
- 6212 Selected Topics in Language and Gender
- 6220 Areal and Temporal Variations in Language
- 6300-09 Special Subjects
- 6350 General Romance Linguistics
- 6390 Franco-Canadian
- 6400 Comparative and Historical Linguistics
- 6401 Morphosyntactic Change (Prerequisite: 6400)
- 6403 Etymology (cross-listed as English 6403)
- 6410 Comparative Structure of a Selected Language Family (Prerequisite: 6011 or 6031 or 6403)
- 6420 English Dialectology I
- 6421 English Dialectology II
- 6430 Selected Topics in Linguistic Variation (Prerequisite: 6220 or the former 6211)
- 6500 Field Methods
- 6601 Modern Linguistic Theories
- 6700 Experimental Phonetics
- 6701 Selected Topics in Experimental Phonetics (Prerequisites: 6200, 6700)
- 6800 Selected Topics in Morphology
- 6880 Selected Topics in Semantics
- 7000 Seminar in Research Methods
- 7001 Analytical issues in Linguistics
- 7100 Topics in North American Native Languages (Prerequisites: a course from series 6050-6054 or the former 6011, 6031, 6041)
- 7200 Advanced Topics in Syntax (Prerequisites: 6110, plus either 6001 or 6115)
- 7400 Seminar in Comparative and Historical Linguistics (Prerequisite: 6400 or 6410)
- 7430 Seminar in Linguistic Variation (Prerequisite: 6430)
- 7800 Seminar in Morpho-semantics (Prerequisite: 6800)
- 7900-03 Special Topics in Linguistics

Note: Appropriate equivalent credits may be given for courses taken at the Summer Institute of the Linguistic Society of America, or a similar institute. Students are encouraged to attend these institutes. They should, however, consult the Head of the Department as to what courses may be appropriate for credit.

29.22 M.D.-Ph.D.

1. The M.D.-Ph.D. program is offered by full-time study to highly motivated students with an excellent academic record who wish to obtain an M.D. and a Ph.D., and whose academic excellence, research potential, and the suitability of the proposed research training environment is acceptable to the Program Admissions and Advisory Committee.
2. The purpose of the M.D.-Ph.D. program is to provide medical education, including clinical skills and training in health research.
3. The M.D.-Ph.D. program will be overseen by the Program Admissions and Advisory Committee (P.A.A.C.). The P.A.A.C. will be responsible for the recruitment and oversight of the program of highly qualified trainees.
4. The P.A.A.C. is composed of the M.D.-Ph.D. Program Director(s), a representative from the Faculty of Medicine, one or more faculty members representing the School of Graduate Studies and a senior M.D.-Ph.D student.
5. M.D.-Ph.D students are jointly enrolled in the M.D. program and the Ph.D. program. The student's Ph.D. program is overseen by the administrative head of the appropriate academic unit in which the student is enrolled. The M.D. program is overseen by the Assistant Dean, Undergraduate Medical Education, Faculty of Medicine.

29.22.1 Qualifications for Admission

1. To be admitted into the M.D.-Ph.D. program, applicants must first meet the admission requirements of both the M.D. and Ph.D. programs. Admission to the Ph.D. program shall be by the Dean of Graduate Studies on the recommendation of the head of the appropriate academic unit. Admission to the M.D. program is by the Dean of Medicine on the recommendation of the Assistant Dean, Admissions, Faculty of Medicine.

- Normally, students will enter the M.D.-Ph.D. program from the M.D. program after successful completion of the pre-clerkship phase or from the Ph.D. program after one or two years of the graduate program and acceptance into the M.D. program.

29.22.2 Program of Study and Research

- The program of study for the Ph.D. is described in the University Calendar entry for the student's chosen discipline. For the purposes of timing of the comprehensive examination, only the semesters in the Ph.D. component of the program will be counted.
- The program of study for the M.D. follows the General Regulations governing the M.D. Degree.
- During the Ph.D. component, students are expected to maintain clinical skills by arrangement with the Assistant Dean, Undergraduate Medical Education, Faculty of Medicine, and will be required to demonstrate competency in clinical skills before resuming full-time studies in the clerkship phase of the M.D. component.
- During the M.D. component (including the clerkship phase), students, where required, are expected to participate in seminars and journals clubs in their area of research specialization.
- The Ph.D. will be awarded to students in the M.D.-Ph.D. program on completion of all academic requirements appropriate to the Ph.D. Degree. The M.D. will be awarded to students in the M.D.-Ph.D. program on completion of all academic requirements appropriate to the M.D. Degree.

29.22.3 Evaluation

Failure to maintain academic standing in either the Ph.D. or M.D. components will lead to termination of the M.D.-Ph.D. program which will be annotated on the student's transcript. On failure of the M.D. component, the Dean of Graduate Studies may approve transfer to a Ph.D. program on the recommendation of the administrative head of the appropriate academic unit. On failure of the Ph.D. component, the Dean of Medicine may approve transfer to a M.D. program on the recommendation of the Assistant Dean of Undergraduate Medical Education.

29.22.4 Courses

See course listing under the regulations for the relevant Ph.D. program and also for the M.D. program in the General Regulations governing the M.D. degree.

29.23 Management

Professor and Dean

W. Zerbe

Associate Professor and Associate Dean (Academic Programs)

L. Bauer

Professor and Associate Dean (Research)

J. Parsons

The Degree of Doctor of Philosophy in Management is offered in the Faculty of Business Administration. The designation refers to management in the broad context. The Degree will offer specializations corresponding to functional areas in management. The Degree currently is offered with specializations in: (i) operations and information management, and (ii) organizational behaviour and human resources management.

The Degree of Doctor of Philosophy in Management is offered by full-time study to qualified candidates. The **General Regulations** of the School of Graduate Studies and the Degree Regulations of the Faculty of Business Administration outlined below, will apply.

29.23.1 Admission to the Ph.D. Program

Admission is limited and competitive. General qualifications for admission to the Ph.D. Programs at Memorial University of Newfoundland are set out under **General Regulations, Qualifications for Admission**. Applicants from all disciplines will be considered.

In addition, applicants must have completed the GMAT with a minimum score of 600 (or GRE with a combined score of 1100).

29.23.2 Supervisory Committee

Until a supervisory committee has been formed, the Ph.D. Program Director will be the designated advisor of each Ph.D. student. Each candidate will have a supervisory committee consisting of three or more members, at least two of whom shall be members of the Faculty of Business Administration. The thesis Supervisor shall be a doctorally qualified faculty member in the Faculty of Business Administration, Memorial University of Newfoundland, having a recent (past five years) research track record suitable to provide research supervision at the Ph.D. level. The supervisory committee will be appointed no later than the end of the first year of studies.

Students are encouraged to find a Supervisor within the first year of the program and, together with the Supervisor, find the remaining committee members by the time all required courses are completed.

29.23.3 Components of Study

29.23.3.1 Courses

Students are required to complete successfully a program of courses, normally over the first two years of the program. Students without an adequate background in the functional areas of business may be required to take additional breadth courses. Such determination will be made by the Ph.D. Admission Committee when a student is accepted into the program.

- Required for all Specializations**
Philosophy 6015 Theory of Knowledge
Business 9901 Approaches to Management Research
- One of**
Business 9902 Modelling Methods in Management Research
Business 9903 Quantitative Methods in Management Research*
Business 9904 Qualitative Methods in Management Research**
Business 9901 is to be completed before any of Business 9902, 9903, 9904 is attempted.

3. Graduate Research Integrity Program (non-credit)

*Alternatively, students may elect to take Education 6467 if Business 9903 is not offered in a particular year, on the approval of the Ph.D. Program Director.

**Alternatively, students may elect to take Education 6466 if Business 9904 is not offered in a particular year, on the approval of the Ph.D. Program Director.

Operations and Information Management (OIM) Specialization Courses

In addition to the above-noted courses required for all specializations, the following courses are required for the Operations and Information Management specialization:

Business 9910 Optimization
 Business 9911 Data and Process Models in Information Systems Development
 Business 9912 Probabilistic Models
 Business 9913 Human-Computer Interaction and Decision Support Systems
 Business 9914 Supply Chains: Models and Management
 Business 9915 Electronic Commerce
 Business 991A/B Seminar in Operations and Information Management Research A/B
 Business 9917 Special Topics in Operations Management
 Business 9918 Special Topics in Information Systems

Recommended Sequence for Operations and Information Management (OIM) Specialization Table

Semester	Courses
Year 1, Fall	Philosophy 6015 Theory of Knowledge BUSI 9901 Approaches to Management Research BUSI 9910 Optimization BUSI 9911 Data and Process Models in Information Systems Development
Year 1, Winter	BUSI 9902 (Modelling), 9903 (Quantitative), or 9904 (Qualitative) Methods in Management Research BUSI 9912 Probabilistic Models BUSI 9913 Human-Computer Interaction and Decision Support Systems Graduate Research Integrity Program (non-credit)
Year 1, Spring	Summer Research Project
Year 2, Fall	BUSI 9914 Supply Chain: Models and Management BUSI 9915 Electronic Commerce BUSI 991A Seminar in Operations and Information Management Research (Part A) Graduate Program in Teaching (Recommended (non-credit))
Year 2, Winter	BUSI 991B Seminar in Operations and Information Management Research (Part B) BUSI 9917 Special Topics in Operations Management BUSI 9918 Special Topics in Information Systems

Organizational Behaviour and Human Resources Management Specialization Courses

In addition to the above-noted courses required for all specializations, the following courses are required for the Organizational Behaviour and Human Resources Management specialization.

1. Required courses:

Business 9920 Foundations in Organizational Behaviour
 Business 9921 Foundations in Human Resources Management
 Business 9924 Current Issues in Organizational Behaviour
 Business 9925 Current Issues in Human Resources Management

Note: Waivers shall not be granted in the Ph.D. program for previously completed course work at either the undergraduate or master's level.

2. Four of:

Business 9922 Foundations in Industrial Relations
 Business 9923 Foundations in Organizational Theory
 Business 9926 Current Issues in Industrial Relations
 Business 9927 Current Issues in Organizational Theory
 Business 9928-9939 Special Topics in Organizational Behaviour/Human Resources Management
 Any other graduate course subject to the approval of the Supervisor

Recommended Sequence for Organizational Behaviour and Human Resources Management Specialization Table

Semester	Courses
Year 1, Fall	Philosophy 6015 Theory of Knowledge BUSI 9901 Approaches to Management Research BUSI 9920 Foundations of Organizational Behaviour BUSI 9921 Foundations of Human Resources Management
Year 1, Winter	BUSI 9902 (Modelling), 9903 (Quantitative), or 9904 (Qualitative) Methods in Management Research Business 9924 Current Issues in Organizational Behaviour Business 9925 Current Issues in Human Resources Management Graduate Research Integrity Program (non-credit)
Year 1, Spring	Summer Research Project
Year 2, Fall	Two of: BUSI 9922, 9923, 9926, 9927, 9928-9939** or any other graduate course subject to the approval of the Supervisor Graduate Program in Teaching (Recommended (non-credit))
Year 2, Winter	Two of: BUSI 9922, 9923, 9926, 9927, 9928-9939** or any other graduate course subject to the approval of the Supervisor

** Offerings subject to scheduling

29.23.3.2 Summer Research Project

During the first summer in the program, students will complete a research project under the supervision of a qualified faculty member in the area of specialization. Projects must be presented in the course BUSI 991B Seminar in Operations and Information Management Research during the second year of the program or an equivalent course in other specializations.

29.23.3.3 Comprehensive Examination

Students shall undertake a mandatory written comprehensive examination, following General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, which sets out the procedures for the comprehensive examination.

In addition:

1. A candidate in the Ph.D. Program in Management shall normally take the written Comprehensive Examination by the end of the seventh semester of the program. The candidate must have successfully completed all required courses prior to writing the Comprehensive Examination. The scope of the Comprehensive Examination will be determined by the Examining Committee (as defined in General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**) under the guidance of the Supervisory Committee.
2. A list of topics/areas for the Comprehensive Examination will be provided to the student no later than three months prior to the date of the examination.
3. The written examination will take place in three phases over a one-week period.
4. Based on the results of the written examination, the Examining Committee may schedule a supplementary oral examination on any topics covered on the written examination. The oral examination request must be made to the Dean within two weeks of completion of the written examination. The oral examination, if any, must take place within six weeks of completion of the written examination.
5. The scheduling of the Comprehensive Examination will be initiated by the student's Supervisor who will notify the Dean of the Faculty of Business Administration. The date of the written examination will be determined by the Dean of the School of Graduate Studies. The student will be provided with written notice of the scheduled dates of the written examinations. In the case of oral examinations, requests will be initiated by the Examining Committee or the student (as described above in 4.) through the School of Graduate Studies.

29.23.3.4 Ph.D. Thesis Regulations

1. The candidate must submit a thesis proposal to all members of the Supervisory Committee for evaluation and approval by the end of the eighth semester of the program. Within one month of submitting the proposal, the Candidate will give a public oral presentation of the proposal, attended by the Committee. The presentation will provide the Committee and others in attendance with an opportunity to raise questions about the proposal research. Immediately following the presentation, the Supervisory Committee will meet to assess the proposal. Assessment will result in one of the following three outcomes: (1) accept; (2) accept with changes; or (3) reject. The results of this assessment will be provided to the student following the meeting. Assessments of accept with changes or reject will be accompanied by written comments within one week of the proposal presentation.
2. If the proposal is rejected, the candidate will be permitted a second proposal. This proposal must be submitted and deemed acceptable by the Supervisory Committee within four months of the original proposal presentation. Failure to resubmit within this time period will lead to termination of the candidate's program.
3. The Ph.D. thesis will constitute an independent and original research contribution.
4. The Ph.D. thesis will be evaluated according to the process established in General Regulation **Theses and Reports, Evaluation of Ph.D. Theses** governing the School of Graduate Studies.

29.24 Mathematics and Statistics

Professor and Head of the Department

E. Goodaire

The degrees of **Master of Applied Statistics** (see appropriate calendar entry), **Master of Science** and Doctor of Philosophy are offered in the Department of Mathematics and Statistics. The Masters' degrees are offered by full-time and part-time studies. The Department also participates in the interdisciplinary Ph.D. Program in Theoretical Physics.

29.24.1 Program of Study

The following regulations should be read in conjunction with the **General Regulations** of the School of Graduate Studies.

1. Candidates shall be assigned a supervisory committee consisting of the Supervisor (or Co-Supervisors) and at least two other members of faculty appointed by the Dean on the recommendation of the Head.
2. A candidate shall complete at least 6 credit hours in graduate courses in the area of specialization. Candidates not holding a Masters Degree shall, in addition, complete, or have already completed successfully, the course requirements for a Memorial University of Newfoundland Master's Degree in mathematics or in statistics, as appropriate. Any candidate may be required to take additional courses.
3. The Comprehensive Examination consists of two parts, called the "qualifying review" and the "intermediate review". Successful completion of both the qualifying and intermediate reviews constitutes successful completion of the Comprehensive Examination in the sense of General Regulation **Comprehensive Examinations**.
 - a. The **qualifying review** consists of written examinations and takes place as soon as the Supervisory Committee deems appropriate, but not later than the end of the candidate's third semester in the doctoral program. Its main purpose is to ensure that the candidate has a reasonably broad general knowledge of mathematics or of statistics, as appropriate.
 - b. The **intermediate review** consists of an oral presentation on the candidate's thesis topic followed by an oral examination based on the presentation although questions of a general nature relating to the field of specialization are also permitted. It must take place no later than the end of the candidate's seventh semester in the doctoral program. Its purpose is to ensure that the candidate has specialized knowledge in his/her chosen area sufficient to do original research of a high level.

More details concerning the Department's comprehensive examinations can be obtained from the Department.

29.24.2 Specific Regulations for the Ph.D. in Mathematics

A Master's Degree in mathematics or related area from a recognized university is normally required for entry into the Ph.D. program. Students holding a Bachelor's Degree (Honours or equivalent) in mathematics may be considered for direct admission into the Ph.D. program. Students currently registered in Memorial University of Newfoundland's M.Sc. program in mathematics may request a transfer into a Ph.D. program. Such transfer must be supported by the intended Ph.D. supervisory committee and the Graduate Studies Committee.

29.24.3 Specific Regulations for the Ph.D. in Statistics

A Master's Degree in statistics from a recognized university is normally required for entry into the Ph.D. program. Students currently registered in Memorial University of Newfoundland's MAS or M.Sc. program in statistics may request a transfer into a Ph.D. program. Such transfer must be supported by the intended Ph.D. supervisory committee and the Graduate Studies Committee.

In addition to general Departmental requirements, each candidate for the Ph.D. in statistics will be required to present at least one paper at a graduate seminar on a topic to be approved by his or her Supervisor.

Table of Credit Restrictions for Present Mathematics Courses with Former Mathematics Courses

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course	Present Course	Former Course
6323	6030	6212	6080
6321	6032	6310	6130
6322	6035	6330	6200
6340	6040	6331	6210
6341	6041	6332	6350
6342	6042	6312	6500

29.24.4 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

Mathematics

6100 Dynamical Systems
 6101 Modern Perturbation Theory
 6102 Mathematical Biology
 6104 Infinite Dimensional Dynamical Systems
 6110-6119 Special Topics in Applied Mathematics
 6120 Theoretical Fluid Dynamics
 6121 Functional Differential Equations
 6130 Introduction to General Relativity
 6160 Partial Differential Equations
 6201 Numerical Methods for Partial Differential Equations
 6202-6209 Special Topics in Numerical Analysis
 6210 Numerical Solution of Differential Equations (for Computational Science students only - required core course)
 6212 Numerical Methods for Initial Value Problems
 6300 Algebraic Topology I (Homology Theory)
 6301 Algebraic Topology II (Homotopy Theory)
 6302 Algebraic Topology III (Theory of Fibre Bundles)
 6304-6309 Special Topics in Topology
 6310 Functional Analysis
 6311 Complex Analysis
 6312 Measure Theory
 6313 Functional Analysis II
 6315-6319 Special Topics in Analysis
 6320 Group Theory
 6321 Ring Theory
 6322 Nonassociative Algebra

6323 Homological Algebra
 6324-6329 Special Topics in Algebra
 6330 Analytic Number Theory
 6331 Algebraic Number Theory
 6332 Point Set Topology
 6340 Graph Theory
 6341 Combinatorial Design Theory
 6342 Advanced Enumeration
 6343-6349 Special Topics in Combinatorics
 6351 Advanced Linear Algebra
 6910 Topology Seminar
 6940 Analysis Seminar
 6950 Algebra Seminar

Statistics

6500 Probability (*credit restricted with former 6586*)
 6503 Stochastic Processes
 6505 Survival Analysis
 6510 Mathematical Statistics
 6520 Linear Models
 6530 Generalized Linear Longitudinal Mixed Models
 6540 Time Series Analysis
 6545 Statistical Computing
 6550 Nonparametric Statistics
 6560 Continuous Multivariate Analysis
 6561 Categorical Data Analysis
 6563 Sampling Theory
 6570-6589 Selected Topics in Statistics and Probability (excluding 6586)
 6930 Statistics Seminar

29.24.5 Specific Regulations for the Ph.D. in Theoretical Physics

The **Ph.D. in Theoretical Physics** is an interdisciplinary program offered jointly with the Department of Physics and Physical Oceanography. The regulations for this program are described under the **Regulations Governing the Degree of Doctor of Philosophy - Theoretical Physics**

29.25 Medicine

Professor and Dean

J. Rourke

Professor and Interim Associate Dean

D. McKay

Associate Professor and Acting Assistant Dean

D. Gustafson

The Faculty of Medicine offers the degree of Doctor of Philosophy in seven program areas: Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases and Neurosciences. Each program area has a Co-ordinator who is responsible for communicating the interests of the program to the Faculty of Medicine Graduate Studies Committee and participate in the admission of graduate students into the graduate program in Medicine. The Faculty of Medicine also offers the opportunity for students registered in the Doctor of Medicine (M.D.) program to obtain a Ph.D. in a combined and integrated M.D.-Ph.D. program.

29.25.1 Qualifications for Admission

The admission requirements for the Ph.D. are as given under the **General Regulations** governing Ph.D. degrees.

29.25.2 Program of Study and Research

1. The program of study for a Ph.D. Degree is the responsibility of the supervisory committee composed of a Supervisor and at least two other faculty members.
2. It is the responsibility of the supervisory committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate's program. An annual report prepared by the Supervisor and signed by the student and all members of the committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).
3. Graduate Students are expected to participate in Faculty of Medicine seminars and journal clubs, for some of the program areas these are available as required courses.
4. Course requirements are set by each of the program areas and are described under Program Requirements. Some supervisory committees may require some students to successfully complete specified course work.
5. Graduate Students in the Ph.D. degree are required to successfully complete the comprehensive examination before the end of the seventh semester. The comprehensive examination consists of both written and oral components and is in accordance with the **General Regulations** governing Ph.D. degrees.
6. Graduate students in the Ph.D. degree must complete an original piece of research, a written dissertation which must be successfully defended in an oral examination in accordance with the **General Regulations** governing Ph.D. degrees.

29.25.2.1 Program Areas

1. Cancer and Development
 - a. The graduate program in Cancer and Development offers study in fundamental cell and molecular biological areas including viral oncogenesis, growth factors and oncogenes in developmental models, programmed cell death and drug resistance.
 - b. Program Requirements: Students are required to participate in the Seminar Series (MED 6410-6413).

2. Cardiovascular and Renal Sciences

- a. The graduate program in Cardiovascular and Renal Sciences enables students to pursue research and academic studies in selected topics including hypertension and stroke, neural and endothelial control of vasculature and blood pressure as well as physiological mechanisms promoting heart failure. The faculty participating in the program consists of basic cardiovascular scientists and renal clinicians. Teaching within the program is integrated with the M.D. program.
- b. Program Requirements: Students are required to successfully complete MED 6140 if this course has not been previously taken. Students are required to present their thesis research to the Cardiovascular and Renal Sciences group.

3. Clinical Epidemiology

- a. The program in Clinical Epidemiology is aimed at university graduates intending a career in health services, faculty members seeking advanced training in clinical epidemiology, medical doctors and health care professionals interested in health care delivery research.
- b. Program Requirements: Students are required to successfully complete all of the following courses if they have not been previously completed: MED 6095, MED 6262 or MED 6200, MED 6250, MED 6255 and MED 6260. Students are required to take the Ph.D. Seminar Series (MED 6410-6413).

4. Community Health

- a. The graduate program in Community Health enables students to pursue research and academic studies in selected topics. Students may specialize in one of the following three streams: epidemiology and biostatistics; health services and policy research; or social justice and equity in health.
- b. Program Requirements: Coursework as defined by the Supervisory Committee and this would normally include the Ph.D. Seminar Series (MED 6410-6413).

5. Human Genetics

- a. The graduate program in Human Genetics will enable students to pursue academic studies and research in a number of areas of genetics including cancer genetics, genetic epidemiology, gene mapping, medical genetics, birth defects and population genetics. Faculty members from all three divisions of the Faculty of Medicine (Biomedical Sciences, Community Health and Clinical Sciences) participate in the program.
- b. Program Requirements: Students are required to take the Genetics Seminar Series (MED 6410-6413).

6. Immunology and Infectious Diseases

- a. The Immunology and Infectious Diseases group has an interdisciplinary character and consists of faculty from biomedical science and oncology research. The graduate programs are designed to provide individualized training oriented towards basic research and a solid scientific background in the discipline of immunology and infectious diseases.
- b. Program Requirements: Students are required to successfully complete three core courses if they have not been previously completed: Immunology I (MED 6127), Immunology II (MED 6128) and Advanced Immunological Methods (MED 6130). Students are required to attend, for credit, and participate in the Immunology and Infectious Diseases Seminar Program (MED 6410-6413).

7. Neurosciences

- a. The Neuroscience Program offers graduate studies in an interdisciplinary setting with the core faculty in the Division of BioMedical Sciences but also including faculty from the Department of Psychology in the Faculty of Science. Graduate students may pursue research in a number of specialty areas including the physiological basis of learning and memory, stroke and neuroplasticity, neuroregeneration, signal transduction mechanisms, neuronal circuitry and membrane physiology. The Neuroscience Program is a Chapter of the Society for Neuroscience.
- b. Program Requirements: Normally students in the Ph.D. program are required to complete two graduate level courses in Neuroscience, one of which is to be Systems Neuroscience (MED 6196). Course selection is made on the recommendation and advice of the supervisory committee. Students are expected to attend and participate in the activities of the neuroscience group including the weekly seminar and journal club.

29.25.2.2 Courses

For a list of courses offered by the Faculty of Medicine refer to **Courses** offered for the Master of Science in Medicine.

29.26 Pharmacy

Associate Professor and Dean

L.R. Hensman

The Degree of Doctor of Philosophy in Pharmacy is offered to qualified candidates normally by full-time study. The **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Pharmacy outlined below will apply. Every candidate in graduate studies shall comply with the **General Regulations**, Degree Regulations and all additional requirements of the School of Pharmacy.

29.26.1 Qualifications For Admission

1. Admission to the Ph.D. program is limited and competitive. Applicants must have completed an M.Sc. Degree in Pharmacy, or its equivalent in a related discipline, from a university of recognized standing.
2. Other students may be considered for admission to a Ph.D. provided that they have been registered in a M.Sc. Pharmacy program for a minimum of 12 months, and have demonstrated to the satisfaction of the Graduate Studies Committee of the School of Pharmacy an ability to pursue research at the doctoral level. Students wishing to transfer from the M.Sc. to the Ph.D. will have completed 6 credit hours. Prior to admittance to the Ph.D. program, a written thesis proposal will be submitted for assessment by the Supervisory Committee plus one additional faculty member. The recommendation of this Committee will be forwarded to the Graduate Studies Committee of the School of Pharmacy.
3. On admission to the program, a Supervisory Committee shall be appointed in accordance with General Regulation **Supervision** governing the School of Graduate Studies.

29.26.2 Program of Study and Research

1. As a minimum, each candidate shall successfully complete 6 credit hours as well as Pharmacy 6999 (Pharmacy Research Seminar). A minimum grade of 65% will be required in each course. Candidates shall complete additional undergraduate courses in Pharmacy

or other related areas where the Supervisory Committee considers there to be a deficiency in the academic record. Candidates may select these courses in consultation with the Supervisory Committee. However, it will be the primary responsibility of the Supervisory Committee to ensure that deficiencies in the academic record are rectified.

2. All candidates must submit a thesis proposal to the Supervisory Committee for approval no later than the second semester of study after admission to the program.
3. All candidates must complete a comprehensive examination on or before the end of the sixth semester of study after admission to the program. The comprehensive examination will consist of two components: a written examination and an oral examination. The oral examination will normally be held no later than two weeks after successful completion of the written examination.
4. A Comprehensive Examination Committee shall be appointed in accordance with General Regulation **Comprehensive Examination**. The Committee will be responsible for preparing the questions for the written and oral examinations and evaluating the candidate's performance in the subject area. The Committee will consist of the Dean of Graduate Studies (or delegate), the Supervisor, and three other members, one of whom may be a member of the Supervisory Committee. All shall be voting members of the Committee except the Dean of Graduate Studies (or delegate).
5. Successful completion of the Ph.D program will require formal examination of the written thesis and an oral defence of the research, as prescribed in the General Regulation **Theses and Reports**. Final approval of the thesis shall be the responsibility of the School of Graduate Studies.

29.26.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the School will allow. Permission of the instructor and the Graduate Studies Committee of the School of Pharmacy is required for admission to any graduate Pharmacy course.

6000 Medicinal Chemistry
 6001 Advanced Physical Pharmacy
 6002 Dosage Form Design and Novel Drug Delivery Systems
 6003 Pharmacokinetic Modelling
 6004 Principles of General Pharmacology
 6005 Toxicology of Therapeutic Agents and Chemicals
 6100-6104 Special Topics Courses
 6999 Pharmacy Research Seminar

29.27 Physics and Physical Oceanography

Professor and Head of the Department

J. Whitehead

The following Departmental Regulations are supplementary to the **General Regulations** governing the M.Sc. and Ph.D. degrees. A thorough familiarity with the latter Regulations should be regarded as the prerequisite to further reading in this section.

The Department of Physics and Physical Oceanography compiles, and regularly reviews, a brochure which contains reasonably detailed descriptions of currently active research projects, as well as a comprehensive listing of recent research publications, and other material which may be of interest to prospective graduate students.

29.27.1 Program of Study

The Degree of Doctor of Philosophy (Ph.D.) is offered in Atomic and Molecular Physics, in Physical Oceanography, in Condensed Matter Physics and in Theoretical Physics.

1. A program of study for the Ph.D. Degree in Atomic and Molecular Physics, Condensed Matter Physics or Physical Oceanography shall normally include a minimum of 9 graduate credit hours, beyond those required for the M.Sc. Degree. However, depending on the student's background and area of specialization, more or fewer graduate and/or undergraduate courses may be required.
2. A Comprehensive Examination (as prescribed under General Regulation **Comprehensive Examinations**) shall be an oral one, and may include the presentation of a written research proposal.
3. The **Ph.D. Program in Theoretical Physics** is an interdisciplinary program offered jointly with the Department of Mathematics and Statistics. The regulations for this program are described under the **Regulations Governing the Degree of Doctor of Philosophy - Theoretical Physics**

29.27.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Condensed Matter Physics I
 6001 Condensed Matter Physics II
 6002 Superconductivity
 6003 Path Integral Techniques in Condensed Matter Physics
 6010-19 Special Topics in Condensed Matter Physics
 6040 Biophysics
 6060-69 Special Topics in Interdisciplinary Areas
 6200 Nonlinear Dynamics
 6308 Ocean Dynamics I
 6309 Ocean Dynamics II
 6310 Physical Oceanography
 6313 Physical Fluid Dynamics
 6314 Field Oceanography
 6315 Polar Oceanography
 6316 Ocean Measurements and Data Analysis
 6317 Ocean Acoustics
 6318 Numerical Modelling
 6319 Climate Dynamics
 6320 Turbulence
 6321 Coastal Oceanography
 6322 Stratified Fluids

6323 Stability Theory
 6324 Models in Ocean Ecology
 6360-69 (excluding 6363) Special Topics in Physical Oceanography
 6363 Laboratory Experiments in Geophysical Fluid Dynamics
 6400 Statistical Mechanics
 6402 Theory of Phase Transitions
 6403 Stochastic Processes, Time-Dependent and NonEquilibrium Statistical Mechanics
 6502 Electrodynamics
 6720 Theory of Molecules
 6721 Molecular Spectroscopy
 6722 Light Scattering Spectroscopy
 6730 Molecular Theory of Liquids and Compressed Gases
 6740 Physics of Atomic Collisions
 6760-69 Special Topics in Atomic and Molecular Physics
 6800 Group Theory
 6810-19 Special Topics in Theoretical and Mathematical Physics
 6850 Quantum Mechanics I
 6851 Quantum Mechanics II
 6900 Techniques in Experimental Condensed Matter Physics
 6910-19 Special Topics in Experimental and Applied Physics

Table of Credit Restrictions - Physics and Physical Oceanography

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course	Present Course	Former Course
6000	6050	6318	6304
6001	6051	6321	6303
6002	6822	6321	6304
6003	6820	6323	6303
6200	6821	6402	6401
6308	6312	6403	6401
6309	6311	6403	6824
6313	6301	6502	6500
6316	6302	6502	6501
6317	6823	6722	6790

Members of the Department carry out research in several areas of experimental and theoretical physics, including atomic and molecular physics, condensed matter physics, physical oceanography, theoretical geophysics and applied nuclear physics. In atomic and molecular physics, there are experimental programs in collision-induced infrared absorption spectroscopy, electron emission spectroscopy of simple molecules, molecular ions and free radicals, laser-induced fluorescence spectroscopy, and Raman spectroscopy, and theoretical work on atomic and molecular collisions. The work in condensed matter physics includes experimental programs in solid state nuclear magnetic resonance on systems of biophysical interest, Raman spectroscopy of lipid bilayers and membranes, studies of phase transitions using Brillouin and Raman spectroscopy, studies of instabilities and pattern formation in simple fluid dynamical systems, and spectroscopic studies of molecular crystals. Theoretical condensed matter physics research involves studies of magnetism, superconductivity, and the statistical mechanics of polymers and lipid bilayers. The Physical Oceanography group carries out field and laboratory research on several projects which take advantage of Newfoundland's unique oceanographic environment, using acoustic and other remote sensing techniques. These include studies of circulation on the Newfoundland and Labrador shelves, Labrador current dynamics, fjord dynamics, submarine canyons and sediment transport dynamics in the nearshore zone and on the shelf. Theoretical oceanographic studies involve the modelling of ocean circulation, gravity wave phenomena and other aspects of ocean dynamics. Research in theoretical geophysics is concentrated on whole-Earth dynamics, with special emphasis on the physics of the liquid core (the Earth's "third ocean") as inferred from its wave spectrum and the associated momentum transfer to the deformable solid parts of the Earth. In nuclear physics, research is done on the atmospheric concentrations of radioactive elements and on dosimetry for medical applications.

Note: For Geophysics, see **Earth Sciences**.

29.28 Psychology

Professor and Head of the Department

I. Neath

The Degree of Master of Science (M.Sc.) is offered in Experimental Psychology. Interested students should also see the **Master of Science in Cognitive and Behavioural Ecology**. The Degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the section in the Calendar describing the **Doctor of Philosophy in Cognitive and Behavioural Ecology** program.

29.28.1 Admission

1. All applicants are required to submit results from the General section of the Graduate Record Examinations.
2. At least one letter of reference should come from someone who is familiar with the applicant's research capability.

29.28.2 Program of Study

1. An applicant must hold either a Master's Degree or an Honours Bachelor's Degree with first class standing to be considered for admission. The program of study will be specified at the time of admission. Decisions on (a) whether to include courses in the program, and if so, (b) which specific courses are to be included will be based on the student's background and the proposed thesis

topic.

2. Comprehensive Examination

The Ph.D. comprehensive in Experimental Psychology shall be taken during the first year of the student's program. The examination will consist of two parts: (1) an essay, the topic of which is different from the subject of the thesis, and (2) an oral examination which tests the candidate's ability to integrate the essay into the broad area of Psychology. The essay topic will be assigned by the Examining Committee in consultation with the student and Supervisor. The essay should not be a précis of the literature, but a critical appraisal of a subject. This should identify important unresolved issues, and where possible suggest solutions to them.

29.28.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Advanced Statistics in Psychology
 6001 Research Design
 6010 Colloquium Series in Psychology (repeatable, non-credit)
 6100-6130 Special Topics in Experimental Psychology
 6200 Learning I
 6201 Learning II
 6203 Behavioural Pharmacology
 6210 Behavioural Analysis of Toxins
 6351 Behavioural Ecology and Sociobiology (Cross-listed as CABA 6351)
 6400 Theory and Methods in Social Psychology
 6401 Social Cognition
 6402 Group Processes
 6403 Program Evaluation and Applied Research
 6404 Project in Applied Social Psychology NOTE: This course is open only to students in the Master of Applied Social Psychology
 6500 Developmental Psychology I
 6501 Developmental Psychology II
 6502 Developmental Changes During Old Age
 6700 Perception
 6710 Human Information Processing
 6720 Human Memory
 6800 Behavioural Neuroscience I
 6801 Behavioural Neuroscience II
 6810 Psychometrics
 6910 Personality
 6990 Doctoral Seminar I
 6991 Doctoral Seminar II
 6992 Doctoral Seminar in Cognitive and Behavioural Ecology (Cross-listed as CABA 6992)
 699A/B Core Graduate Seminar in Psychology (3 credit hours).

29.29 Social Work

Professor and Dean

A. Al-Krenawi

29.29.1 Program of Study

The degrees of Master of Social Work and Doctor of Philosophy are offered in Social Work.

Course work commences in the Spring Semester and is completed over five semesters. The program includes two Spring Semester residencies, at which time students must attend on a full-time basis, and Fall and Winter semester courses which can be taken on or away from campus.

1. An applicant for admission to the Ph.D. program in Social Work must hold a Master's Degree in social work, or equivalent professional social work Degree as determined by the Graduate Studies Committee of the School of Social Work. All applicants should also have a minimum of three years post-B.S.W. practice experience.
2. All Ph.D. students in the social work program must complete at least 24 credit hours in regulation graduate courses. These include:
 - a. 6 credit hours in foundation courses (7010 and 7020)
 - b. 6 credit hours in advanced practice courses (7310, 7320); or 3 credit hours in advanced practice courses (7310) and 3 credit hours on social work education (7510)
 - c. 9 credit hours on research (7411, 7421 and 7431)
 - d. 1 internship chosen from the Internships on Advanced Social Work Practice (7910), Social Work Education (7920) or Applied Social Work Research (7930).
3. Comprehensive Examination
 - a. A candidate registered in a Ph.D. program in Social Work shall normally take the Comprehensive Examination no later than the seventh semester in the program. Prior to proceeding to the Comprehensive Examination, candidates must have completed all required course work and the internship.
 - b. The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean (School of Social Work). It shall consist of:
 - i. the Ph.D. Program Co-ordinator who will serve as representative of the Dean of the School of Social Work and who shall occupy the Chair
 - ii. the candidate's Supervisor
 - iii. the Dean of Graduate Studies or delegate
 - iv. three other members recommended by the Dean of the School of Social Work. One of these normally will be on the candidate's Supervisory Committee.

Including the Supervisor, no more than two members of the Examination Committee may be nominated from the candidate's Supervisory Committee. All members of the Examination Committee, including the Chair, but excluding the Dean of Graduate

Studies or delegate, shall be voting members.

- c. The Ph.D. Comprehensive in Social Work will consist of a written paper which has two main parts. The first part will contextualize the student's substantive area through a comprehensive analysis and discussion of its place in and development from social work theory and the profession's history. This part should demonstrate a comprehensive understanding of competing theoretical frameworks and orientations in social work and should demonstrate appreciation for historical developments generally as well as specifically to the student's substantive area of interest. The second part of the paper will focus specifically on the student's substantive area. In consultation with the Examination Committee, the student will identify an area of empirical research that may be undertaken and will prepare a written statement that includes: an introduction and formulation of at least two related research questions; a literature review that is consistent with these questions, which presents a critical evaluation of the literature, and that synthesizes the literature into the student's own theoretical framework; two competing research designs for answering the research question and a critical compare and contrast that leads to an argument for one design over the other. The focus and content of the written work will be defined by the Examination Committee in consultation with the student, and will be approved by the Ph.D. Program Co-ordinator in the School of Social Work. The written product shall be no less than 50 pages and not more than 75 pages. It will be orally defended. The student shall have up to one semester (13 weeks) to submit the paper.
 - d. The Ph.D. examination procedure shall be initiated by the candidate's Supervisor who will notify, in writing, the Dean (School of Social Work) of the candidate's readiness. The candidate's Examination Committee will then be appointed according to section 3.b. (above).
 - e. Following the oral defence, the Examination Committee shall meet *in camera* to arrive at its conclusions. Evaluation of the candidate will be based on the following criteria:
 - i. demonstration of knowledge of social work theory, research, and issues relevant to the topic of inquiry in both the written and oral presentation.
 - ii. coherency of oral presentation and written paper (i.e. conceptualization, cogent argumentation, sufficient referencing of statements, clear writing style).
 - f. The Chair shall report the results of the examination to the Dean of Graduate Studies in accordance with General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination, 4.**
4. Ph.D. Thesis
- a. A Supervisory Committee will be appointed for each student as indicated under the General Regulation **Supervision.**
 - b. The candidate must submit a thesis proposal to the Supervisory Committee based on her/his own interest, and normally the proposal must be approved by the end of the eighth semester of the program. The proposal will be circulated to the Supervisory Committee for critical evaluation. The Chairperson of the Supervisory Committee will inform the candidate within one month of its acceptance, rejection, or acceptance with recommended changes.
 - c. If the proposal is not acceptable, the candidate will normally be permitted a second attempt. The revised proposal must be submitted within a semester. Failure to resubmit within this time period will lead to termination of the candidate's program.
 - d. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and analyses and present the findings in a scholarly manner.

29.29.2 Courses

The following courses that are offered during the spring semester residency will be offered every other year, as far as the resources of the School will allow:

- 7010 Philosophical and Historical Base of Social Work Practice (S*)
- 7020 Critical Thinking for Social Work Practice (S)
- 7310 Tutorial on Field of Practice (F** or W***)
- 7320 Tutorial in Advanced Social Work Practice (S)
- 7411 Philosophy of Science and Research Design (S)
- 7421 Qualitative Data Analysis (S)
- 7431 Quantitative Data Analysis (S)
- 7510 Social Work Education (S)
- 7910 Internship on Advanced Social Work Practice (F)
- 7920 Internship on Social Work Education (F)
- 7930 Internship on Applied Social Work Research (F)

*S = Spring Semester, **F = Fall Semester, ***W = Winter Semester

29.30 Sociology

Associate Professor and Head of the Department

K. Stanbridge

The Doctor of Philosophy (Ph.D.) is offered in Sociology by full-time and part-time study. Graduate courses are taught as tutorials or small seminars.

29.30.1 Program of Study

1. The Ph.D. degree in Sociology is offered in accordance with **General Regulations** and current department strengths.
2. To be admitted to the program an applicant must have completed either a Master of Arts or Master of Philosophy Degree or hold an equivalent qualification.
3. All Ph.D. candidates must complete a minimum of 6 credit hours in graduate courses in sociology, including Sociology 6150 Social Theory and Sociology 6040 Methods of Sociological Research, if these or equivalent courses have not been taken previously.
The supervisory committee in consultation with the Head or Graduate Officer will determine which additional courses, if any, may be required to ensure that candidates undertake appropriate course work in their area of research.
4. Proficiency in a second language will be required when the candidate's supervisory committee determines that knowledge of this second language is necessary for the purpose of the proposed doctoral research.
5. A written comprehensive examination, which may be followed by a supplementary oral examination, shall be completed by full-time students no later than the end of the second year of the program.

Normally, part-time students shall take the examination within one year of the completion of prescribed courses. In accordance with

General Regulations, candidates must demonstrate knowledge of their special areas of research within the context of the discipline of Sociology. The examination shall consist of three parts: social theory, research methods, and a special area.

- No more than two years after having been admitted to the program the candidate must submit a thesis proposal that is considered satisfactory by the Supervisory Committee.

29.30.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6040 Methods of Sociological Research
 6090-94 Special Area in Sociology
 6120 Social Organization
 6130 Social Stratification
 6140 The Community
 6150 Social Theory
 6160 Theory Construction and Explanation in Sociology
 6240 Sociology in Medicine
 6280 Social and Economic Development
 6300 Maritime Sociology
 6310 Political Sociology
 6320 Gender and Society
 6330 Science and Technology
 6340 Comparative North Atlantic Societies
 6350 Environmental Sociology
 6360 Sociology of Work
 6370 Feminist Theory and Methods
 6380 Women, Nature, Science and Technology (cross-listed as Women's Studies 6380)
 6390 Sociology of Culture
 6610 Socialization
 6620 Current Topics in Social Behaviour
 6880 Sociology Graduate Seminar

29.31 Theoretical Physics

Board of Studies

Dr. I. Booth, Department of Mathematics and Statistics - Chair
 Dr. C. Radford, Department of Mathematics and Statistics
 Dr. J. Whitehead, Department of Physics and Physical Oceanography
 Dr. I. Afanassiev, Department of Physics and Physical Oceanography

29.31.1 General Information

- The Theoretical Physics Program is an interdisciplinary Doctor of Philosophy program offered jointly by the Department of Mathematics and Statistics and the Department of Physics and Physical Oceanography. It is broadly based and includes several subdisciplines with the common denominator that each applies advanced mathematical techniques to the study of physical problems. The subdisciplines include, though are not necessarily limited to, theoretical astrophysics, general relativity, partial differential equations of mathematical physics, quantum mechanics, classical and quantum field theory, theoretical condensed matter physics, many-body theory, advanced classical mechanics and non-linear processes, and theoretical and geophysical fluid mechanics.
- The program is administered by the Board of Studies which is appointed by the Dean of Science in consultation with those faculty members active in the program. The Board of Studies will consist of two members from the Department of Physics and Physical Oceanography and two members from the Department of Mathematics and Statistics. The Program Chair is elected by the Board of Studies and appointed by the Dean of Science. Responsibilities of the Board include making recommendations to the School of Graduate Studies concerning admissions to the program, determining course requirements, and administering comprehensive exams. It also determines minimum levels of funding, administers the School of Graduate Studies and Graduate Teaching Assistant budgets, and monitors students' annual progress through the submission of annual supervisory committee reports.

29.31.2 Program of Study

The following regulations should be read in conjunction with the **General Regulations**:

- A program of study for the Ph.D. Degree in Theoretical Physics shall normally include a minimum of 9 graduate credit hours in courses offered by the Department of Mathematics and Statistics and/or the Department of Physics and Physical Oceanography. The courses will be determined by the student's supervisory committee in consultation with the Program Chair and approved by the Board of Studies. In special circumstances more or fewer graduate courses and/or undergraduate courses may be required.
- Students are required to pass a single Comprehensive Examination as prescribed under **Comprehensive Examinations, Ph.D. Comprehensive Examination**. This shall be an oral one, and may include the presentation of a written research proposal.
- The most important requirement is the writing of a doctoral thesis which demonstrates the student's ability to independently and originally attack and solve a significant problem in theoretical physics. The thesis must definitively advance the subject which it treats.

30 Regulations Governing the Degree of Doctor of Psychology

Administrative Committee

Dr. K. Hadden, Department of Psychology - Director
 Dr. C. Arlett, Department of Psychology
 Ms. P. Button, Graduate Student Representative
 Ms. B. Cater, Eastern Health
 Dr. O. Heath, University Counselling Centre
 Dr. G. Hurley, University Counselling Centre
 Dr. J. Spiegel, Association of Newfoundland Psychologists

The Doctor of Psychology (Psy.D.) degree in clinical psychology is offered by the Department of Psychology in partnership with the University Counselling Centre. This program is designed to prepare clinical psychologists to provide a variety of psychological services to individuals, families and communities.

30.1 Administration

1. The Director is appointed by the Head of the Psychology Department following a consultative process that includes the faculty most directly associated with the Psy.D. program.
2. The Psy.D. Administrative Committee consists of the Director, representatives from academic units involved in the program, and a representative from the Association of Newfoundland Psychologists. The Psychology Department Head, on the recommendation of the Director, appoints Committee members.
3. The Psy.D. Administrative Committee is chaired by the Director, and is the main body for developing and monitoring policy, procedures, and program content. The administrative committee makes recommendations concerning admission and termination, financial support, thesis and comprehensive committees, and thesis topics and examiners. The Committee oversees individual student programs of study and monitors their annual progress.

30.2 Admission Criteria

1. Students with Master's level degrees who wish to be considered for the program must have completed the undergraduate degree in Psychology and the undergraduate course requirements described below.
2. Applicants are required to have an undergraduate Honours degree in psychology that includes senior courses in each of the following areas: biological bases of behaviour, cognitive-affective bases of behaviour, social bases of behaviour, individual behaviour, and historical foundations of psychology, as well as an Honour's thesis. Students will only be admitted on a full-time basis and must start their program in the Fall semester.
3. Admission to the program is competitive. Applicants will be ranked according to academic aptitude, personal and interpersonal competence, clinical and professional potential, and availability of a supervisor. The application shall include academic transcripts, results of the Graduate Record Examination (verbal, quantitative and analytical subtests), three letters of recommendation and a statement of interests and objectives. One letter of recommendation must specifically address the suitability of the applicant for clinical work. Applicants who are short-listed will be interviewed, either in person or via telephone. Work experience, research experience, extra-curricular activities, and clinically relevant public service will be taken into consideration.

30.3 Program of Study

30.3.1 Comprehensive Examination

The Psy.D. comprehensive exam, consisting of a written and an oral component, shall be taken during the third year of the program. The exam is intended to demonstrate clinical application of the knowledge acquired through course work and practica. The comprehensive exam will be administered according to the guidelines prescribed in the University Calendar for Ph.D. comprehensive examinations.

30.3.2 Thesis

Students will complete a thesis that is applied in nature and relevant to the practice and science of clinical psychology and the communities it serves. The School of Graduate Studies **General Regulations, Evaluation of Ph.D. and Psy.D. Theses** concerning evaluation of Ph.D. theses will be followed.

30.3.3 Predoctoral Internship

All students will be required to complete a twelve-month, 1750 clock-hour predoctoral internship.

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 General Information

Various types of awards are available to students of Memorial University of Newfoundland. Included are scholarships, bursaries, fellowships, studentships, prizes, medals and loans.

A scholarship is based on academic performance and is awarded to the student with the highest average meeting the conditions of the scholarship. Scholarship standing is required for all scholarships.

A bursary is based primarily on financial need and may be awarded to full-time students who have a minimum GPA of 2 (out of a possible 4) and meet the other conditions of the bursary.

An award is offered to recognize special achievements or to assist with special projects or travel. Awards may be given to students with a minimum of clear standing (as defined by the University) and meeting the other conditions of the award.

A grant is an award for which need is a prime consideration, normally with the provision that the recipient be, or remain, in good academic standing. Grants are issued at the discretion of the Director of Student Success Programs, Student Affairs and Services.

Loans are granted to students on an "ad hoc" basis with need being the prime consideration. Loans are normally repaid before the commencement of subsequent semester. Interest is charged on outstanding loans. Administration of loans is at the discretion of the Director of Student Success Programs, Student Affairs and Services.

Some scholarships and awards may be held for more than one year, but are renewable only if the student maintains scholarship standing and first class standing.

Entrance scholarships are awarded for the Fall Semester.

Unless otherwise noted, entrance scholarships are open to Canadian citizens and permanent residents graduating from secondary school who are admitted to Memorial University of Newfoundland on the basis of high school grades and current entrance standards and who meet the current definition of scholarship standing. They are also open to students in the above category who may not be coming directly from high school. This is limited to those who have previously graduated from high school, are admitted to the University on the basis of high school grades and current entrance standards and who meet the current definition of scholarship standing.

Distinct undergraduate entrance scholarships are available for international students. These scholarships are awarded to international undergraduate students who are entering Memorial University of Newfoundland. They are academic based, and the monetary value is between \$3000 and \$4400. Students do not need to apply for these scholarships; they are automatically considered when they apply to the University.

These scholarships have been established by Memorial University of Newfoundland as part of an agreement by the Board of Regents, in May 2003, that a portion of the tuition fees for international undergraduate students would be set aside for International Scholarships. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least 9 credit hours in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

International Students are eligible for continuing undergraduate scholarships offered through Memorial University of Newfoundland assuming they meet the specific criteria. Most scholarships require students to be in scholarship standing. Scholarship standing for undergraduate students is defined as a 75% average at the end of two out of the last three semesters in the previous scholarship year and the successful completion of not less than thirty credit hours in those two semesters. Not all students who meet the above definition of scholarship standing will receive a scholarship.

Scholarship standing for undergraduate entrance students (who are Canadian citizens or permanent residents graduating from secondary schools within Canada) is defined as a 75% average compiled from the final grades received in secondary school courses required for University admission. Students in level three who, have a 90% or higher average on 3000 level credits from the list of courses covered under **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate), Applicants Who Have Followed the High School Curriculum of the Newfoundland and Labrador**, may be provisionally offered scholarships. Students graduating from High Schools in other provinces in Canada may be eligible based on corresponding criteria from their provincial secondary program. The provisional offer will remain in effect until University admission averages are determined.

Scholarship standing for undergraduate students is defined as a 75% average at the end of two out of the last three semesters in the previous scholarship year and the successful completion of not less than 30 credit hours in those two semesters. In considering students who complete more than 30 credit hours in those two semesters, the average on the actual number of credit hours taken will be reviewed. Students who fail one or more courses during the scholarship year, regardless of the number of courses completed, will not be eligible for scholarships.

For Co-op students who do not meet the above definition because of scheduled work terms, scholarship standing is defined as a 75% average over the most recent two academic semesters in the preceding four semesters in which they must have been enrolled as regular full-time Co-op students. Those who fail an academic course or work term during the four semester period will not be eligible for scholarships.

Not all students who meet the above definitions of scholarship standing will receive a scholarship.

Students transferring to Memorial University of Newfoundland from Universities/Colleges in Canada which are members of the Association of Universities and Colleges of Canada (AUCC) and who meet scholarship standing as defined by Memorial University of Newfoundland will be eligible for undergraduate scholarships in the year in which they transfer. Such students must notify the Scholarships, Bursaries and Awards Office in writing of their intention to transfer and provide a complete transcript for the year in

question.

Awards must be taken during the scholarship year for which they are awarded and the student must be registered full time or in a recognized work term in order to receive their scholarship, unless stated otherwise in the terms of reference. The scholarship year runs from May 1st - April 30th.

A student may receive in any one scholarship year one general award of any value administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or more than one award to a combined value of 1.5 times the per semester tuition for 15 credit hours. In addition, students may receive, upon recommendation of the appropriate academic unit, awards administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards such that the total of general and academic unit specific awards does not exceed three times the per semester tuition for 15 credit hours.

Students who have obtained scholarship standing as defined above need not apply for general scholarships. Inquiries from students with special circumstances and/or concerning scholarships with special terms should be referred to the Scholarships, Bursaries and Awards Office, University Centre, Room 4018, or by telephone to (709) 864-3956.

Students attending the Grenfell Campus in Corner Brook are eligible for all General Scholarships. You may make scholarship inquiries at the Student Affairs Office on that campus or the Scholarships, Bursaries and Awards Office.

Students wishing to apply for awards administered by other authorities should consult the appropriate section of the Scholarships, Bursaries and Awards portion of the Calendar and/or the Scholarships, Bursaries and Awards Office.

In addition to undergraduate awards listed herein, limited information is included concerning Studentships, Fellowships and Graduate Awards. Further inquiries may be made to the Scholarship Committee, though students are advised to consult the Heads of their Departments, the Dean of the Faculty or the Dean of Graduate Studies concerning these particular awards.

If you would like access to information on these and other post-secondary scholarships, awards, and bursaries available through the Internet, visit the Scholarships Office website at www.mun.ca/scholarships.

2.1 Government Assistance

The Government of Canada and the Government of Newfoundland and Labrador work together to provide student financial assistance to residents of the Province. Students who have a demonstrated financial need may, upon application, receive financial support from the Canada-Newfoundland and Labrador Student Financial Assistance Program. Students are encouraged to apply online at www.gov.nl.ca/studentaid/ and to apply early. For further information see **Loan Funds**.

3 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Entrance Students May Qualify

Anthony Insurance Entrance Scholarship

This scholarship is the result of a generous endowment to Memorial University of Newfoundland by Anthony Insurance in memory of Robert C. Anthony B founder of Anthony Insurance Inc. and the Insurance Corporation of Newfoundland. Mr. Anthony, an inductee of the Newfoundland and Labrador Business Hall of Fame, started his career as a teacher in rural Newfoundland and placed great emphasis on the value of education. The scholarship is intended to help a deserving, high-school graduate attend Memorial University of Newfoundland who would otherwise find it difficult due to financial considerations. The value of the scholarship is full-time tuition for one semester. Eligible candidates must have graduated from a Newfoundland and Labrador high school with a minimum of 75% in Level III courses and must intend to enroll at Memorial University of Newfoundland on a full-time basis. Additional scholarships may be awarded annually as endowment fund growth permits. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Arnold's Cove, Come By Chance, North Harbour Fishers and Newfoundland Transshipment Scholarship

This scholarship was established by Newfoundland Transshipment Limited (NTL) as part of an agreement between them and the Fishers Liaison Committee (FLC) of the Arnold's Cove, Come By Chance and the North Harbour area. This scholarship, valued at the annual interest on the initial endowment to a maximum of \$500 per student, will be awarded on the basis of scholarship standing to a Fisher or his/her descendant(s) who is registered as a full-time student at Memorial University of Newfoundland in any year or field of study. In the event that no applicants are received from Fishers or Fishers' descendants in a given year, the scholarship may be awarded to another student from above noted geographic areas. Eligibility of applicants under the above criteria will be verified by the Fisheries Liaison Committee (FLC). Memorial University of Newfoundland is encouraged to ensure that the scholarship is alternated between communities and their eligible students. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which may be obtained from the Scholarships, Bursaries and Awards Office, Rm. 4018, Smallwood Centre, Memorial University of Newfoundland, A1B 5S7. Completed applications must be returned to the FLC for appropriate verification.

The Atlantic Canada Marine Biodiversity Essay Contest Tuition Scholarship

Memorial University of Newfoundland is a participant in the Atlantic Canada Marine Biodiversity Essay Contest which is operated by the Centre for Marine Biodiversity. This contest is open to Grade 12 students from across Atlantic Canada. The first prize winner receives a waiver of tuition fees for two semesters if he or she attends Memorial University of Newfoundland. The two runners up receive partial waiver of tuition fees if they attend Memorial University of Newfoundland. Students are notified of their status in the Essay Contest by the Centre for Marine Biodiversity and the successful candidates are informed of their tuition scholarship by the university, after the Centre for Marine Biodiversity informs the university of the contest winners. Further information can be found on the web site of the Centre www.marinebiodiversity.ca. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Science.

The Mary L. (Mollie) and Peter T. Bailey Memorial Scholarship

This scholarship, donated by the family of the late Mary L. (Mollie) and Peter T. Bailey, has a value of at least \$500.00. It is open to students entering first-year studies who are required to move away from home to attend Memorial University of Newfoundland. In making the award, scholarship standing and need will be considered.

Leah Bailey Powers Memorial Scholarship

This entrance scholarship was created in loving memory of Leah Bailey Powers who passed away in 2009 at the age of nineteen. Leah excelled academically and was an energetic and spirited student leader. As Student Council President of Holy Heart of Mary Regional High, she inspired and motivated her peers to become active in their school community. Leah's leadership activities continued in her first year at Memorial University where she became a passionate and dedicated volunteer to promote social justice with Engineers Without Borders. This scholarship will be valued at a portion of the income on the endowment and will be awarded annually. This scholarship will be given to a student graduating from Holy Heart of Mary Regional High in St. John's who is entering his/her first year of studies in any

discipline at Memorial University of Newfoundland. This scholarship may be held in addition to other scholarships and will be awarded only to applicants who embody the same spirited and enthusiastic leadership qualities that Leah demonstrated in motivating and inspiring inclusiveness in student and community activities and organizations, as nominated by Holy Heart of Mary Regional High. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of Holy Heart of Mary Regional High.

The Baird-Stephenson Scholarship

This Scholarship, valued at \$1,000.00 is to be awarded annually to a Memorial University of Newfoundland student in any year or field of study. It is named for Mrs. Edna Baird-Stephenson and her late husband, both of whom were former members of Memorial University of Newfoundland's faculty. The Scholarship will be awarded on the basis of academic excellence.

The Warren and Catherine Ball Memorial Entrance Scholarship

This scholarship was established in 2005 by a generous donation from the estate of Dr. and Mrs. Ball. The endowment will provide scholarships at the value of \$7,500.00 per annum for up to four years of study to students entering Memorial University of Newfoundland for the first time. The number of the annual scholarships will be based on a portion of the annual income, as per the Awards Program Spending Policy. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.

The Donald M. Balsom Award

The Newfoundland Brain Injury Association (NBIA) has established this award to honour Donald M. Balsom, former Associate Director of Memorial University of Newfoundland's School of Continuing Education and brain injury survivor. Valued at \$500.00, it will be awarded annually to a brain injured undergraduate student who is registered either part-time or full-time, in any year or field of study at Memorial University of Newfoundland, who has some volunteer experience with the NBIA and who is in clear academic standing at the University. In the event that no applications are received from brain injured students the award may be given to a student who has made a significant contribution as a volunteer to the Brain Injured Association. In special circumstances, the award may be held for more than one year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with NBIA as needed.

Bank of Montreal Scholarship

These scholarships are the result of a generous endowment to Memorial University of Newfoundland by the Bank of Montreal. Interest on the fund will provide several scholarships to full-time students entering Memorial University of Newfoundland in any field of study who have scholarship standing and demonstrated financial need. These scholarships will be valued at two semesters tuition for five courses. They are renewable for up to four years provided the candidate(s) maintains first class and scholarship standing.

The Birks Family Foundation Bursaries

The Birks Family Foundation has established a plan of annual contributions to the student aid funds of recognized Canadian universities for the creation of the Birks Family Foundation Bursaries. The Bursaries are awarded by the Foundation on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and are not restricted to faculty or year and may be renewed. The number and amount of such awards may vary annually, depending upon the funds available for the purpose from the Foundation.

The Glenn Roy Blundon Memorial Scholarship

This scholarship, valued at \$500.00, has been established by the family, friends and fellow students of the late Glenn Roy Blundon, a former student of Memorial University of Newfoundland who, despite his severe physical disability, succeeded in his studies and made a significant contribution to student life. In the awarding of this scholarship, preference will be given to academically qualified students with disabilities but those enrolled in the Special Education Program may be considered when no candidates are available from the first group. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Gary Bourne Memorial Scholarship

This scholarship is the result of an endowment to the University funded largely by donations resulting from fundraising efforts of Gary's colleagues at the Office of Financial and Administrative Services. Valued at a portion of the annual accrued interest on the endowment it will be awarded on the basis of scholarship standing to an undergraduate student who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Edward Patrick Browne Memorial Scholarships

In his will, Edward Browne, a distinguished and beloved member of the University community, and a life-long supporter of the growth and development of the sport of basketball at provincial and national levels, left a bequest to Memorial University of Newfoundland for the awarding of scholarships to students. These scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of the School of Human Kinetics and Recreation.

The Jo Anne Butler Entrance Scholarship

This scholarship has been made available to the Memorial University Of Newfoundland, through the generosity of Fairfax Financial Holdings Limited in honour of Jo Anne Butler. This scholarship will be awarded annually to an undergraduate student entering the first year of an academic program at Memorial University of Newfoundland. It will be valued at \$5,000.00 per year. Eligible students must be Canadian citizens or permanent residents, graduating from a Canadian secondary school or CEGEP, who demonstrate financial need and have achieved a minimum final admission average of 80%. Outstanding achievements or commitments in community and/or other extra curricular activities may also be considered. The scholarship is renewable for up to four additional years if scholarship standing is maintained. Renewal will also be dependant on continuation of full-time enrolment in the undergraduate program in which the recipient began and he/she must not already have received a degree. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Calgary Affinity Dinner Entrance Scholarship

This scholarship was established by the Calgary Affinity Dinner Committee from proceeds of the annual Calgary Affinity Dinner. One or more scholarships, valued at a portion of the income on the endowment, will be awarded annually to students who meet the minimum academic requirements for an entrance scholarship as defined by the University. The scholarship will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Greg Campbell Memorial Entrance Scholarship

These scholarships are the result of a generous donation by Eleanor Swanson to commemorate the memory of her late husband, J. Gregory Campbell. Interest on the fund will provide two scholarships to full time undergraduate students entering first year of any faculty or school at Memorial University of Newfoundland. The scholarships will be awarded on the basis of scholarship standing and financial need.

The William Campbell Memorial Alumni Scholarship

This scholarship, valued at a portion of the income on the investment, will be awarded annually to a student entering any first year program offered at Memorial University of Newfoundland. The recipient must be a graduate of Menihek High School. If the selected

candidate pursues the College Transfer Program at the Labrador West Campus of the College of the North Atlantic, the scholarship may be deferred for one year on the condition that the student enters Memorial University of Newfoundland the following year. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing as defined by the University.

The Canadian Federation of University Women St. John's Bursaries

Two bursaries, valued at \$1500.00 each, are offered annually by the Canadian Federation of University Women (CFUW) St. John's to female students in full-time or part-time studies. The awards are made on the basis of scholarship standing and financial need and are not restricted to any particular faculty or year of study. The first of these bursaries is named in memory of Dr. Edith M. Manuel, well-known Newfoundland educator and charter member of CFUW St John's who died in 1984. The second is named for Olga Anderson, a long-time member of CFUW St. John's. Further information regarding the CFUW is available at www.cfuw.org.

The William J. and Florence Carew Labrador Student Scholarship/Bursary

A Scholarship/Bursary, established in 1975 by Miss Helen F. Carew, was renamed in 1990 in memory of her parents William J. and Florence Carew and is valued at \$600.00 annually. The award shall be made to a student from Labrador entering Memorial University of Newfoundland. In making the award, need as well as academic standing, will be considered.

The Daniel Cleary Entrance Scholarship

Daniel Cleary is a native of Harbour Grace, NL and a NHL hockey player who played with the Detroit Red Wings when they won the Stanley Cup in 2008. Mr. Cleary is the first resident of the province to have played on a Stanley Cup winning team. The Daniel Cleary Entrance Scholarship is established as the result of funds raised from an event, and sale of merchandise, celebrating Mr. Cleary and the Red Wings' victory. The scholarship will be awarded annually to an entering full-time undergraduate male or female student in any program of study at Memorial University of Newfoundland. To be eligible, candidates must demonstrate scholarship standing and have participated in the highest level of minor hockey in Newfoundland and Labrador in their graduating year. The scholarship is valued at a portion of the income on the endowment or \$1000, whichever is greater, and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Coinamatic Residence Award

The Coinamatic Residence Award is valued at \$1,000.00 annually. The award will be given to a student currently residing in University residence (Winter semester) who also lived in residence the previous Fall semester and who has shown exceptional leadership in raising environmental awareness and in participation in environmental projects and activities. The recipient must have a minimum of a 70% cumulative average, be in clear academic standing and must be nominated for the award. Students may nominate themselves or may be nominated by another student or a member of Housing, Food and Conference Services staff. The Award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director of Housing, Food and Conference Services in consultation with the Manager of Residence Life.

Construction Labour Relations Association of Newfoundland and Labrador Inc. (CLRA) Scholarship

These five scholarships, valued at \$1,000 each, were established through a donation from the Construction Labour Relations Association of Newfoundland and Labrador (CLRA). Three of the five scholarships are entrance scholarships and two scholarships will be available to full-time students in any year of any program. They will be available to dependents (sons, daughters or wards), of employees of CLRA member companies. Students must complete an application form provided by CLRA. Based on scholarship standing, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Clayton and Alice Cook Scholarship

This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required to identify students in the first category and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Country Ribbon Scholarship

This scholarship is available to dependants (sons, daughters or wards) of employees of Country Ribbon. Valued at \$1,000.00 annually it will be awarded, with first preference, to an entrance student registered for full-time studies at Memorial University of Newfoundland. If no suitable candidate can be identified from the first group the scholarship may be awarded to an undergraduate student registered for full-time studies at Memorial University of Newfoundland. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Courage Entrance Bursary

This bursary was established in honour of John and Mary Courage. Valued at a portion of the income on the investment, it will be awarded annually to the undergraduate entrance student who has demonstrated financial need. The recipient must be from the Fortune Bay - Hermitage area and can be enrolled in any field of study. However, if there is no student from that area of Newfoundland, then it will go to a student from rural Newfoundland and Labrador, which includes: Avalon East and West, Carbonear, Clarenville (North and South), Springdale, Deer Lake, Stephenville, Channell/Port-aux-Basques, Northern Peninsula and Labrador (with the exception of Goose Bay, Labrador City, and Churchill Falls - Wabush). The recipient must meet the minimum academic requirements for an entrance bursary as outlined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Dr. Clarence B. Crummey Memorial Entrance Scholarship

This scholarship is in memory of the late Dr. Clarence Crummey, Jubilee Scholar of the first graduating class of Memorial University College 1927. It is valued at a minimum of \$1,000.00 annually and will be awarded to an entering student to Memorial University of Newfoundland from the Bonavista Bay area. It will be awarded based on scholarship standing.

The Reverend Doctor Levi Curtis Bursary

This bursary has a value of at least \$200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Charlotte Penwell Dolimount Memorial Scholarship

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to graduates of high schools in Grand Bank and Fortune. Where possible preference will be given to students planning to do a Bachelor of Education at Memorial University of Newfoundland.

Eastlink Entrance Scholarship

Each year, Eastlink awards two entrance scholarships valued at \$4,000.00 each to students planning to attend Memorial University of Newfoundland in the Fall. In order to qualify for these awards, candidates must be dependants or spouses of subscribers of Eastlink, reside in one of the communities serviced by Eastlink, be enrolled as a full-time students, possess scholarship standing as defined by the University, and hold no other concurrent scholarship. In deciding on candidates of equal academic attainment, need will be the determining factor. A special application is required and is available in writing to Eastlink, 17 Duffy Place, P.O. Box 12155, Station A, St. John's, NL, A1B 4L1.

The Fraser Edison Scholarship

This scholarship is the result of a donation to the *Opportunity Fund* in 1999 by Mr. Fraser Edison. It will be valued at the annual interest on the endowment and will be awarded to an undergraduate student who has a recognized physical disability. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956. The scholarship will be awarded on the basis of scholarship standing to a student in any year or field of study.

The Facilities Management Undergraduate Scholarship

This scholarship fund is the result of an endowment which began in 1996 as a part of the *Opportunity Fund* Campaign. The fund will provide one or more scholarships valued at a minimum of \$500 each to students who are children, grandchildren, nieces, nephews, brothers, sisters or spouses of current or retired employees of the Department of Facilities Management, Memorial University of Newfoundland. Preference in awarding the scholarship(s) will be given to entrance students but undergraduates may also qualify. The scholarship(s) will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone(709) 864-3956.

The Fairfax Financial Holdings Limited Entrance Scholarship

This scholarship has been made available to Memorial University of Newfoundland through the generosity of Fairfax Financial Holdings Limited. Valued at \$5000 annually, this renewable scholarship will be awarded annually to an undergraduate student entering the first year of any academic program at Memorial University of Newfoundland. Eligible students must be Canadian citizens or permanent residents, graduating from a Canadian secondary school or CEGEP, who demonstrate financial need and who have met the minimum academic standing for a scholarship. They must not have previously received a scholarship from Fairfax Financial Holdings. Outstanding achievements or commitments in community and/or other extracurricular activities may also be considered. The scholarship is renewable for up to four additional years if scholarship standing is maintained and the student continues full-time enrolment in the undergraduate program in which they began. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Flight 491 Legacy Fund Bursary

The Flight 491 Legacy Fund Bursary is established to honour the memory of the victims of the crash of helicopter Flight 491 on March 12, 2009. The bursary, valued at a portion of the income on the endowment, is open to full-time undergraduate students with demonstrated financial need who are entering their first year of study at Memorial University of Newfoundland. It is subsequently renewable for up to three additional years of consecutive full-time study providing the recipient continues to maintain clear academic standing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Flight 491 Legacy Fund Scholarship

The Flight 491 Legacy Fund Scholarship is established to honour the memory of the victims of the crash of helicopter Flight 491 on March 12, 2009. The scholarship, valued at a portion of the income on the endowment, will be awarded on the basis of scholarship standing and is open to full-time undergraduate students entering their first year of study at Memorial University of Newfoundland. It is renewable for up to three additional years of consecutive full-time study providing the recipient continues to maintain scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Daniel Fraad Jr. Memorial Entrance Scholarship

This scholarship was established by Jack and Susan Rudin in memory of Mr. Fraad who ran Allied Aviation at Gander International Airport for many years before his death. Valued at a minimum of \$3,000, it will be awarded annually to an entrance student(s) on the basis of scholarship standing.

The Dr. G.A. Frecker Memorial Alumni Bursaries

The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at \$500.00 each. Four of the bursaries are tenable at the St. John's campus and one at the Grenfell Campus at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

The Clarice Diamond Fry Memorial Scholarship

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to graduates of high schools in Glovertown and Eastport. However, preference will be given to students who are residents of Glovertown. Where possible preference will be given to students planning to do a Bachelor of Education degree at Memorial University of Newfoundland.

The Fry Family Foundation Junior Leadership Award

This award is the result of the generosity of the Fry Family Foundation. Valued at \$1,200.00, it is awarded annually to Grade Nine students from Newfoundland and Labrador schools. Award recipients will receive \$200.00 immediately (i.e. at the end of grade nine) and the remaining \$1,000.00 upon entry to Memorial University of Newfoundland at the end of Level III. The award will also provide the student with opportunities for involvement in leadership development and community services activities. Schools with grade nine graduating classes of forty-five (45) or more student are eligible to nominate candidates. This award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the school Guidance Councilor or Principal.

Fry Family Foundation St. John Bosco Scholarship

One or more scholarships valued up to \$5,000.00 annually, will be awarded to Level III students from Shea Heights or Blackhead, NL. In awarding the scholarship academic standing will be considered. The scholarship will be awarded to students who plan to attend Memorial University of Newfoundland in the fall semester immediately following their completion of high school. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Fry Family Foundation St. John's Community Centres Exceptional Achievement Entrance Scholarship

This scholarship was established by the Fry Family Foundation, a U.S.-based organization, founded and funded by Darryl and Marlene (nee Sellars) Fry, who were born and educated in St. John's, Newfoundland and Labrador. Valued at \$5,000, one or more scholarships will be awarded annually to a student graduating from Grade 12, who is living in the area served by one of the five St. John's Community Centres (Buckmaster's Circle, MacMorran, Froude Avenue, Rabbittown and Virginia Park), and will be based on scholarship standing, specifically that applicants have maintained an overall average of 90% or more at mid-term. The applicant must plan to enroll in first year

studies at the Fisheries and Marine Institute of Memorial University of Newfoundland, Memorial University of Newfoundland generally, or the College of the North Atlantic. Applications will be accepted by the executive directors of the respective St. John's Community Centres and the recipients chosen by a Selection Committee comprised of representatives from Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five executive directors of the St. John's Community Centres. The number of scholarships awarded annually at Memorial University of Newfoundland will depend on the application pool. The scholarships to students who choose to attend Memorial University of Newfoundland (excluding the Marine Institute) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Selection Committee. Scholarships to students who choose to attend the Marine Institute will be awarded by the Marine Institute Scholarship Committee.

The Fry Family Foundation St. John's Community Centres Memorial University Entrance Scholarship

This scholarship was established by the Fry Family Foundation, a U.S.-based organization, founded and funded by Darryl and Marlene (nee Sellars) Fry, who were born and educated in St. John's, Newfoundland and Labrador. Valued at \$5,000, one or more scholarships will be awarded annually to a single parent, or a student graduating from Grade 12, who is living in the area served by one of the five St. John's Community Centres, and will be based on scholarship standing, volunteerism and participation in school and community activities. Applications will be accepted by the executive directors of the respective St. John's Community Centres and the recipients chosen by a Selection Committee comprised of representatives from Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five executive directors of the St. John's Community Centres. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Selection Committee.

The Fry Family Foundation St. John's Community Centres Post-Secondary Entrance Scholarship

This scholarship was established by the Fry Family Foundation, a U.S.-based organization, founded and funded by Darryl and Marlene (nee Sellars) Fry, who were born and educated in St. John's, Newfoundland and Labrador. Valued at \$2,500, the scholarships will be awarded annually, one to each of the five St. John's Community Centres (Froude Avenue, Buckmaster's Circle, MacMorran, Rabbittown and Virginia Park). Eligible candidates will be single parents, or students graduating from Grade 12, who live in the area served by the respective Community Centre. Selection will be based on scholarship standing, volunteerism, and participation in school and community activities. The applicant must plan to enroll in first year studies at the Fisheries and Marine Institute of Memorial University of Newfoundland, Memorial University of Newfoundland generally, or the College of the North Atlantic. Applications will be accepted by the executive directors of the five Community Centres and the recipient(s) chosen by a Selection Committee comprised of representatives from Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five executive directors of the St. John's Community Centres. The number of scholarships awarded annually at Memorial University of Newfoundland will depend on the application pool. The scholarships to students who choose to attend Memorial University of Newfoundland (excluding the Marine Institute) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Selection Committee. Scholarships to students who choose to attend the Marine Institute will be awarded by the Marine Institute Scholarship Committee.

The General Motors Undergraduate Scholarship

This scholarship was established by General Motors of Canada Limited with contributions to the University's *Opportunity Fund* Campaign. Interest from the fund will provide one or more scholarships to support individuals who qualify as Native People, members of a Visible Minority and/or Physically Disabled. It will be awarded to students in any year or faculty or school at Memorial University of Newfoundland. It will be awarded on the basis of scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Raymond Gushue Memorial Bursary

This bursary was established in memory of Raymond Gushue, born in Whitbourne and the first Newfoundlander appointed to the Order of Canada. Dr. Gushue left a lasting legacy of his achievements as a Past President of Memorial University of Newfoundland from 1952 to 1966. To be eligible for this bursary a student must be graduating from Crescent Collegiate in South Dildo and be entering the first year of any program at Memorial University of Newfoundland. Selection is based on demonstrated financial need as well as academic merit. Valued at a portion of the income on the investment, the bursary is renewable for one additional year, provided the recipient meets the minimum academic requirement for a bursary. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Joan Haire Memorial Scholarship

This scholarship is the result of an endowment which began in 1997 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at a minimum of \$500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 864-3956.

The Frank & Margaret Hamilton Gander Collegiate Entrance Scholarship

This scholarship is funded annually through the Frank and Margaret Hamilton Memorial Fund at the Canadian Medical Foundation in support of high school graduates from Gander Collegiate. It will be awarded at \$1,750 annually to a student entering their first year of undergraduate study at Memorial University of Newfoundland and is open to any discipline. The student must be in scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Frederick J. Hancock Scholarship

This scholarship is the interest on a sum of money donated to the University by Frederick J. Hancock, former Sergeant of the Newfoundland Constabulary who served as a member of the Force for twenty-five years until his retirement in 1963. Preference in the awarding of this scholarship will be given to sons and daughters of active, retired or deceased members of the Royal Newfoundland Constabulary. Candidates must be enrolled in full-time studies at the University and possess scholarship standing. When no candidates can be found from the above category, the scholarship may be awarded to any full-time student on the basis of academic merit. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Dr. Leslie Harris Memorial University Alumni Association Scholarships

Memorial University of Newfoundland and its Alumni Association have established these scholarships to honour former University President, Dr. Leslie Harris, and to recognize excellence. Several scholarships, valued at a minimum of \$16,000.00 (\$4,000.00 annually for up to 4 years) will be awarded annually and may be renewed if first class and scholarship standing are maintained. These scholarships are tenable in all undergraduate programs at the University and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The A. Harvey & Company Limited Scholarship Program

On the occasion of its 125th anniversary, A. Harvey & Company Limited established this scholarship tenable at Memorial University of

Newfoundland and valued at \$1,500.00. The deadline date for applying is the last Friday in July. In order to qualify candidates must:

- Be a dependent or spouse of employees of the company;
- Be enrolled as a full-time student;
- Possess scholarship standing as defined by the University; and
- Hold no other concurrent scholarship.

Preference will be given to entrance students; however, if there is no eligible candidate enrolled in first year studies, then the scholarship may be awarded to a senior undergraduate student attending Memorial University of Newfoundland who fulfills the above criteria. In deciding between candidates of equal academic attainment need will be the determining factor. Further information and application forms are available in writing from A. Harvey & Company Limited, 87 Water Street, P.O. Box 5128, St. John's, NL, A1C 5V6

The Judge Higgins Memorial Entrance Scholarship

This scholarship was established in memory of the late Judge William Higgins and is valued at a portion of the annual interest on the endowment. It will be open to all students entering first-year studies at Memorial University of Newfoundland. In making the award, scholarship standing and financial need will be considered. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Imperial Tobacco Canada Entrance Scholarship

This scholarship was made possible by a donation in 1998 to Memorial University of Newfoundland by Imperial Tobacco Canada in support of the *Opportunity Fund Campaign*. The scholarship is valued at a minimum of \$2,000.00 annually. It will be awarded to an entrance student on the basis of scholarship standing.

The Irving Oil Limited Scholarships

These scholarships are the result of a generous endowment to Memorial University of Newfoundland by Irving Oil Limited in 1999 as a part of the *Opportunity Fund Campaign*. Interest on the endowment will provide several scholarships to full-time students entering Memorial University of Newfoundland in any field of study who have scholarship standing. Where two or more students are tied academically, financial need will be the determining factor. Two scholarships, valued at \$6,000.00 each, will be awarded annually to the general entering student population and, as funds permit, one or more scholarships valued at approximately \$3,000.00 each will be awarded with preference to students who are dependents of full-time permanent employees of Irving Oil Limited. The latter will be split equally between the Eastern and Western regions of the province with Grand Falls-Windsor providing the boundary line. Communities west and north of Grand Falls-Windsor (including Labrador) will be considered part of the western region and those east and south of Grand Falls-Windsor (including Grand Falls-Windsor itself) will be considered part of the eastern region. If in a given year there are not enough eligible candidates from the employees' dependant pool, these scholarships will also be open to the general entrance student population. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a period of 12 months immediately prior to enrolment at Memorial University of Newfoundland).

The P.F. Kearney Memorial Scholarship

A minimum of two scholarships will be provided annually from the interest on a bequest to the University in memory of Mr. P.F. Kearney. The scholarships will be awarded to students attending Memorial University of Newfoundland from schools within geographic boundaries of the Exploits Valley Integrated and Exploits White Bay Roman Catholic School Boards. Preference will be given to entering students but in the event that no entering students are eligible in a given year they may be awarded to undergraduates in any year or field of study on the basis of scholarship standing.

Key Tag Scholarships

Up to three scholarships, valued at \$500.00 per annum, are donated by the Newfoundland Branch of the War Amputees of Canada, and are to be known as the Key Tag Scholarships. These scholarships are awarded annually to amputee students in any year or field of study at Memorial University of Newfoundland. In the event that no applications are received from amputee students, the Committee may consider other physically disabled students. In making the awards, financial need, initiative and scholastic achievement will be considered. In special circumstances, the scholarships may be held for more than one year. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Killam American Undergraduate Scholarship

This scholarship fund is the result of gifts to Memorial University of Newfoundland in memory of Isaac Walton Killam of Nova Scotia made by the charitable trusts of his sisters in Massachusetts. The fund will provide one or more non-renewable entrance scholarships, valued up to \$3,000.00 (Canadian), to undergraduate students from the United States wishing to study at Memorial University of Newfoundland. Eligible candidates will be citizens of the United States who meet current admission requirements to Memorial University of Newfoundland and demonstrate scholarship standing comparable to that prescribed for Newfoundland and Labrador and Canadian applicants. Recipients will normally be required to have fewer than 31 credit hours of transfer credits and to register at Memorial University of Newfoundland as full-time undergraduate students for at least four courses in each of two semesters in their first academic year at Memorial University of Newfoundland. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director of Student Recruitment.

The Iris Kirby Memorial Scholarship

This award, valued at \$650.00 annually, has been established by the friends and colleagues of the late Iris Kirby. Iris was an active feminist and advocate of encouraging women to develop their fullest potential. The scholarship is open to women enrolling in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning after at least five years out of full-time study. Applicants should have been resident in Newfoundland for at least one year before applying. The scholarship will be awarded in the Winter semester on the basis of the Fall semester's results. In deciding on candidates of equal academic attainment, a commitment to the goal of an equal status for women in our society will be considered. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Korea Veterans' Association Scholarship

Twenty-six thousand, seven hundred and ninety-one (26,791) Canadians served in the Korean Theatre between the beginning of hostilities in 1950 and the signing of the cease-fire in 1953. Another 7,000 served between the cease-fire and the end of 1955. This scholarship was established to honour the men and women of the various Canadian Military Units that served in the United Nations Forces during that period of time. One scholarship of \$500 is awarded annually to a student who meets the following criteria: A full-time first year student at Memorial University of Newfoundland who is the child or grandchild of a Canadian Korea War Veteran and who has scholarship standing. In a year when there is no eligible child or grandchild in first year, the scholarship may be awarded to a child or grandchild beyond first year studies. If there is still no eligible student, the scholarship may be awarded to any first year student at Memorial who has scholarship standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available from the Scholarships, Bursaries and Awards Office, Rm. 4018, University Centre.

The Labrador Fishermen's Union Shrimp Company Memorial Scholarship

These scholarships, two valued at \$2,500.00 each annually, were created in honour of the six crew members who died in the 1990

airplane crash in Greenland. They will be awarded to entrance students from Coastal Labrador on the basis of scholarship standing. The first scholarship will be to a student from the Red Bay to Lance au Clair area and the second one to a student from the Lodge Bay to Cartwright area.

The Locke's Electrical Limited 50th Anniversary Scholarship

This scholarship is the result of an endowment established by Locke's Electrical Limited, Corner Brook, on the occasion of their 50th anniversary. Valued at the interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student in any year of study who is a child or grandchild of a current or retired staff member of Locke's Electrical Limited or one of its affiliates. If the scholarship is not awarded in one year then two may be awarded the following year. An application is required and may be obtained from, and returned to, Locke's Electrical Limited, Corner Brook.

The William and Naomi Lundrigan Scholarship

The William and Naomi Lundrigan Scholarship shall be awarded to an entrance student attending Grenfell Campus, Corner Brook. Two scholarships valued at a portion of the income on the endowment will be awarded annually. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and consideration may be given to financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

The R.F. (Bob) MacLeod Memorial Entrance Scholarship in Music

This scholarship, with a value of at least \$300.00, has been established in memory of Mr. R.F. (Bob) MacLeod, pianist, organist, and entertainer. The scholarship is awarded annually to a student entering the first year open to full-time undergraduate students entering their first year of study at Memorial University of Newfoundland. It is renewable for up to three additional years of consecutive full-time study providing the recipient continues to maintain scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Thelma Marsh Scholarship

This scholarship is a result of an ongoing gift to Memorial University of Newfoundland by Mrs. Thelma Marsh of St. John's. The scholarship, valued at \$2,000.00 annually, is to be awarded to an entrance student from Newfoundland and Labrador. It will be awarded on the basis of scholarship standing and financial need.

The Memorial University of Newfoundland 50th Anniversary Scholarships

These scholarships are a result of donations made to the Memorial University of Newfoundland *Opportunity Fund Campaign*. Established in 1999, they are awarded annually to students entering the University in Fall semester who have received a provincial government scholarship. The University will offer a scholarship of matching value to students who receive The Junior Jubilee, The Constable W. C. Moss, The Centenary of Responsible Government and the Provincial Electoral District Scholarships.

The Memorial University of Newfoundland Alumni Entrance Scholarship

This scholarship is made possible by a donation from the Memorial University of Newfoundland Alumni Association. The scholarship is valued at \$5,000.00 per year and is renewable to a maximum of an additional four years provided first class and scholarship standing are maintained. The scholarship is tenable in all undergraduate programs at this University.

Memorial University of Newfoundland CAUBO Conference 2010 Bursary

This bursary has been established by the Memorial University of Newfoundland planning committee members for the Canadian Association of University Business Officers (CAUBO) annual conference hosted by Memorial University of Newfoundland in June 2010. The Committee members volunteered a considerable amount of their time and talent over the twelve months leading up to the conference to ensure the success of this event. Memorial University of Newfoundland's share of the surplus generated by the conference has enabled the Committee to endow this entrance bursary. The bursary will be valued at a portion of the income on the endowment and will be awarded annually. The recipient will be an entrance student enrolled in any program at Memorial University of Newfoundland and who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. The recipient must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarship and Awards Office Room 4018, University Centre or by calling (709) 864-3956.

Memorial University of Newfoundland CAUBO Conference 2010 Scholarship

This scholarship has been established by the Memorial University of Newfoundland planning committee members for the Canadian Association of University Business Officers (CAUBO) annual conference hosted by Memorial University of Newfoundland in June 2010. The Committee members volunteered a considerable amount of their time and talent over the twelve months leading up to the conference to ensure the success of this event. Memorial University of Newfoundland's share of the surplus generated by the conference has enabled the Committee to endow this entrance scholarship. The scholarship will be valued at a portion of the income on the endowment and will be awarded annually. The recipient will be an entrance student enrolled in any program at Memorial University of Newfoundland and who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarship and Awards Office Room 4018, University Centre or by calling (709) 864-3956.

Memorial University of Newfoundland Endowment Scholarships

These scholarships, established by Memorial University of Newfoundland, are awarded annually to students in any year or faculty with approximately 50% of those awarded in a given year allocated for Entrance Students. The number and value of the annual scholarships vary depending on the interest earned. They are awarded on the basis of scholarship standing.

The Memorial University of Newfoundland Faculty Association Scholarship Fund

The Memorial University of Newfoundland Faculty Association (MUNFA) has established a trust fund to provide scholarships and bursaries to needy students in good academic standing. Assistance from this fund is available to entering students as well as to those further along in their studies and may be re-applied for in subsequent years. The first of the MUNFA Scholarships awarded each year is the Ditte Koster Memorial Scholarship. This award honours the late Ditte Koster who, up to the time of her death, was a professional librarian at the University. As a contribution to the *Opportunity Fund* in 1999, the Faculty Association pledged to pay the University the interest from their trust for the period January 1, 2000 to March 31, 2004. The matching money from this pledge will be contributed to the University's general Scholarship Endowment Fund allowing the University to award additional general scholarships.

The Memorial University of Newfoundland International Entrance Scholarship

These scholarships have been established by Memorial University of Newfoundland as part of an agreement by the Board of Regents, in May 2003, that a portion of the tuition fees for international undergraduate students would be set aside for International Scholarships. The values will vary but will not exceed \$3,000.00 each annually. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least 9 credit hours in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship

standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

The G.H. Morgan and Son Scholarship

This scholarship is the interest on a sum donated by a member of the Morgan Printing Co., Ltd., in memory of the founders of the firm, the late G.H. Morgan, Esq., and his son, the late Albert MacGregor Morgan, Esq. At the request of the donor, it is awarded annually based on the University final admission average. It will be awarded with first preference to a student from Coley's Point. If no eligible student from Coley's Point can be identified, preference will be given to students from (a) Bay Roberts, (b) the entire district of Port-de-Grave.

The Jacob and Floral Morgan Scholarship Fund

This fund has been established by relatives and friends of the late Jacob Morgan, a teacher for thirty years in the outports of this province, and of his wife Floral. One or more scholarships, valued at not less than \$2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering Memorial University of Newfoundland for the first time.

The Julia E. Morgan Scholarship Fund

This fund has been established by relatives and friends of the late Julia E. Morgan, school teacher and University Extension Services field worker. One or more scholarships valued at not less than \$2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering Memorial University of Newfoundland for the first time.

The M.O. Morgan Entrance Scholarships

These scholarships, tenable at Memorial University of Newfoundland and valued at a minimum of \$2,000.00 each, are open to entrance students. They have been funded in part by a donation received from the Albatross Hotel of Gander and the Mount Peyton Hotel of Grand Falls. They will be awarded on the basis of academic excellence.

The Edward G. Mullins Memorial Scholarship

This scholarship valued at \$500.00 annually has been established by the Newfoundland and Labrador Branch of the Kidney Foundation of Canada. It honours the memory of the late Edward G. Mullins who had kidney disease and was a dedicated volunteer of the Foundation. Preference will be given to applicants who have kidney disease, who have completed a minimum of 18 credit hours over two semesters in the previous scholarship year with a minimum average of 75% in the courses which comprise those credit hours and are enrolled full time at the University. However, if in a given year such an applicant(s) is not available, dependents of someone who has/had kidney disease may qualify. Such applicants must be enrolled full time at Memorial University of Newfoundland and have scholarship standing. In deciding on candidates of equal academic attainment from the latter group, need may be the determining factor. In some cases the scholarship may be held for more than one year. A special application is required and must be submitted to the scholarship office. Applications may be obtained in writing to The Kidney Foundation of Canada, Scholarships, Bursaries and Awards Office Newfoundland & Labrador Branch, Room 4018, University Centre, P.O. Box 7342, Memorial University of Newfoundland, St. John's, NL, A1E 3Y5, or by telephone to (709) 753-8999 or (709) 864-3956.

The MUNSU Undergraduate Scholarship

This scholarship fund is the result of an endowment which began in 1996 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at the annual interest on the endowment, to students who are children, grandchildren, or spouses of current (worked a minimum of 15 of the last 24 months) or retired employees of MUNSU, Memorial University of Newfoundland or of previous employees who had a minimum of ten years of service to MUNSU. In the event that there are no eligible candidates from the above group in a given year the scholarship will be open to nieces or nephews of current, retired or previous employees of MUNSU (as per above). It will be open to entrance students as well as undergraduates. The scholarship is not renewable and individuals will not normally hold the scholarship more than once unless there is no other eligible candidate in a given year. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 864-3956.

Harvey and Doris Murcell Scholarship

This scholarship has been established from funds donated by Harvey and Doris Murcell. Scholarships of at least \$1,000.00 shall be awarded under the following conditions:

- A scholarship to two entrance students who are residents of Harbour Grace who attended High School in Conception Bay North.
- Four scholarships to students of any year from high schools in the Conception Bay North area.
- Other scholarships as the fund will bear.

The scholarships shall be awarded based on scholarship standing.

Newfoundland Ranger Force (1935-50) Scholarship

This scholarship is made possible by a generous donation to Memorial University of Newfoundland by the Newfoundland Ranger Force (1935-49) Association. Valued at a portion of the income on the investment the Scholarship will be awarded to students entering first year of studies at Memorial University of Newfoundland. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for approximately 12 months prior to enrolment at Memorial University of Newfoundland). The Scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Noia-Hibernia Commemorative Scholarship

1997 was a big year for the oil & gas industry. The Hibernia project was successfully completed, hauled out to sea, and started drawing oil. The Noia-Hibernia Commemorative Scholarship Fund was created to commemorate this landmark year. It offers an annual scholarship of \$1,000 to a graduating high school student in Newfoundland and Labrador who is entering post-secondary studies and intending to pursue a petroleum-related career. These are the bright minds that will shape the future of this industry, and we feel like it would only be right to foster some of their development. The scholarship will be awarded to the student who best meets academic and extra-curricular criteria. If you're about to graduate in June 2012 and are pursuing post-secondary studies with the goal of a career in petroleum in the 2012-2013 academic year, we encourage you to apply for this scholarship. Applications are available at www.noia.ca/Portals/0/ScholarshipApplication.pdf. Each student should outline their community and extra-curricular activities in the completed application and include a letter of reference. Applications should be sent to the following address: Noia Scholarship Selection Committee Box 44, Atlantic Place Suite 602, 215 Water Street St. John's, NL, A1C 6C9.

The Florence O'Neill Scholarships

An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to \$1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Grenfell Campus in Corner Brook.

The Dr. Hugh O'Neill Entrance Scholarship

These scholarships are the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. Four scholarships valued at \$1,000.00 each will be awarded annually to full-time undergraduate students entering first year of any faculty at Memorial University of Newfoundland. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need.

The R.A. Parsons Scholarship Fund

The purpose of this fund is to provide scholarships to students in good academic standing and in proven financial need. There are no restrictions as to year or field of study.

The Selby Parsons Memorial Scholarship

This scholarship, awarded annually in memory of the late Mr. Selby Parsons, an early graduate of Memorial University of Newfoundland, is under the sponsorship of the family and friends of the late Mr. Parsons. It is open to outport students in their first year. Academic standing as well as financial need will be taken into consideration in making the award. The value of the award will be based on the income accruing from the fund during the period of tenure of the scholarship.

The John Lewis Paton Entrance Scholarship

This scholarship is the result of an endowment left to the University from the estate of the late Dr. John Lewis Paton. Valued at a minimum of \$2,500.00 annually, the scholarship will be awarded on the basis of scholarship standing to students entering Memorial University of Newfoundland.

The Howard and Amelia Patten Memorial Bursary

The Howard and Amelia Patten Memorial Bursary has been established by a gift from Dr. Eugene Nurse in memory of Howard Patten, a pharmacist in Grand Bank, and his wife Amelia, whose encouragement and financial support enabled Dr. Nurse to attend Medical School. It will be given annually to an entrance student at Memorial University of Newfoundland who is a graduate of John Burke High School in Grand Bank, who is in financial need and who meets the minimum academic requirement for a bursary as defined by the University. In the event that a qualified student from John Burke High School in Grand Bank is not available in a given year, the bursary may be given, under the same terms, to a student graduating from a high school in the district that serves Grand Bank. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Rose Patten Single Mother Scholarship

This scholarship has been established by Ms. Patten to encourage and assist women to develop their full academic potential. Valued at the interest on the endowment, it is open to single mothers who are enrolled in full-time undergraduate studies at Memorial University of Newfoundland. It will be awarded taking into consideration financial need as well as scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Elaine Pitcher Memorial Scholarship

This scholarship is the result of an endowment to the University from a bequest left by Elaine Pitcher, a donation from Xerox Canada and donations from family, friends and colleagues of Elaine. Valued at a portion of the annual accrued interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student who is a child of a current or retired staff member of Memorial University of Newfoundland. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Poole Family Scholarship

The Poole Family Scholarships are funded by a generous annual gift from the Poole Family Charitable Trust, established by Mr. Terry Poole who attended high school in Corner Brook and now resides in Calgary, Alberta. The scholarships will be awarded annually to a full-time undergraduate student entering into their first year of study in any program at Memorial University of Newfoundland (at any campus). To be eligible, candidates must demonstrate financial need and scholarship standing. Preference will be given to candidates who graduated from a high school in western Newfoundland. Recipients may attend any of Memorial University of Newfoundland's campuses. The scholarships are renewable for up to three years (four in the case of students enrolled in a program with a required fifth year of study, such as Engineering) as long as candidates maintain scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Quebec-Labrador Foundation Scholarships

The Quebec-Labrador Foundation offers three scholarships at \$500.00 each to students enrolled in studies at Memorial University of Newfoundland. The first award, which is funded from the Larry Shields Fund of the Foundation, is awarded annually on the basis of academic performance and financial need to undergraduate students who are (a) native born to Newfoundland and Labrador; and (b) planning to study, or currently studying, Native American and/or Inuit cultures. In the event that a candidate who meets this specific criteria cannot be found in a particular year, the award may be given to a student in any year from one of the study fields and geographic locations indicated below for the second and third awards.

The second and third awards will be awarded annually on the basis of academic performance and financial need to students in any year providing that they come from one of the following areas: the Northern Peninsula, Fogo, Labrador South, or the Lower North Shore of Quebec (from Natashquan to Blanc Sablon). In awarding these two scholarships, special consideration will be given to those applicants studying in the fields useful to the development of the regions served by the Foundation, e.g. Education, Business, Nursing and Health, Forestry, Fisheries, Engineering and Natural Resources.

Robert Gillespie Reid Memorial Scholarships

These scholarships are the result of the annual interest from a bequest left to Memorial University of Newfoundland by Mr. Reid. Scholarships valued at two semesters tuition for a full course load, will be awarded annually to students of scholarship standing. These scholarships are open to both Entrance and Undergraduate students.

Rotary Club of St. John's Entrance Scholarships

These scholarships, valued at a minimum of \$1000.00 each, were established by the Rotary Club of St. John's, Newfoundland, to assist qualified students entering first year of studies at the University. Scholarship standing, as well as financial need, are to be considered in making the awards. The number of awards to be made is contingent on the annual interest on the capital investment.

The Royal Canadian Legion Branch No. 1 Memorial Bursaries

Two awards, the first known as the W.R. Dawe Memorial Bursary and the second known as the Walter E. Williams Memorial Bursary, are sponsored by the St. John's Branch No. 1 of the Royal Canadian Legion. These are valued at \$750.00 each and are tenable only at Memorial University of Newfoundland. The awards recognize the contributions of Mr. Dawe and Mr. Williams to the province of Newfoundland and to the Royal Canadian Legion, St. John's Branch No. 1. They are open to Branch No. 1 members' children and grandchildren upon entrance to first year studies at the University. A special application, available from the Branch office or the University's Awards Office, must be completed and returned by August 31 of each year. The awards will be made on the basis of academic standing and need.

Royal Canadian Legion (St. John's Branch No. 1) Memorial Wall Scholarships

These scholarships, three at \$1,000.00 each, have been donated by St. John's Branch No. 1 of the Royal Canadian Legion. They were made possible through funds raised in the construction of a Memorial Wall located at the Branch's club rooms. The scholarships are tenable only at Memorial University of Newfoundland to undergraduate students in any faculty, school or year and will be awarded on the basis of scholarship standing and financial need.

The Saval Scholarship Fund in Memory of the Honourable Walter Stanley Monroe

Funded by the interest accruing on a donation from the Estate of Maurice H. Saval, at least two scholarships, valued at \$1,000.00 each, will be awarded annually to students entering Memorial University of Newfoundland in full-time undergraduate studies. These scholarships are in memory of the Honourable Walter Stanley Monroe. The scholarships will be awarded on the basis of academic excellence.

The Dr. Maurice Saval Scholarship/Bursary Fund

This fund has been established through the generosity of Dr. Maurice Saval, one of the co-founders in St. John's of the Newfoundland American Insurance Company. From the interest accruing on the fund, a number of scholarships/bursaries will be awarded annually to financially needy and academically deserving undergraduate students. The awards will be open to full-time students in first and second year.

The September 11, 2001 International Scholarship

As a result of the tragic events in New York, USA on September 11, 2001, nearly 13,000 air travellers were diverted to airports in Newfoundland to ensure their safety. In St. John's, 475 of them were housed on Memorial University of Newfoundland's St. John's campus for several days. Some of the passengers have shown their gratitude to Memorial University of Newfoundland by making donations to establish a fund which will assist students from other countries to attend Memorial University of Newfoundland. This fund will be a perpetual memorial to those who died in the tragic events of that day, while also providing both international students and our community with the opportunity for enrichment through exposure to new cultures and ways of life. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least four courses in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

Shad Valley Scholarships

Three renewable scholarships, valued at \$12,000 each (\$3000 a year for up to 4 years), are available to high school students who have applied to Memorial University of Newfoundland. The scholarships are open to students who are either current participants or have previously participated in Shad Valley. The scholarships cannot be held in conjunction with any other scholarship awarded by the University. A minimum of scholarship standing is required and the process is very competitive. Applications for the scholarship may be obtained from the Scholarships and Awards Office, Room 4018, University Centre, or by telephoning (709) 864-3956 or through the website at www.mun.ca/scholarships. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Schulich Leader Scholarship

Schulich Leader Scholarships are undergraduate entrance scholarships for students enrolling in the **STEM** (Science, Technology, Engineering, Mathematics) areas of study at 20 selected universities. All Canadian high schools, secondary schools and CEGEPs (in Quebec) may submit one Schulich Leader Nominee each. Schulich Leader Nominees are selected by their schools based on two of three criteria: outstanding community/business leadership, academic excellence and financial need. Once a Schulich Leader Nominee is selected, he/she can apply his/her nomination to the participating universities in Canada where they intend to submit formal applications for undergraduate study. All participating universities are responsible for making the final selection of their Schulich Leaders for their respective institution. In 2012, a maximum of 40 Canadian Schulich Leaders will be selected; in 2013 and thereafter there will be 60 Canadian Schulich Leaders. Each entrance scholarship is valued at \$60,000 CAD and will be indexed to inflation. The scholarship is distributed during each Schulich Leader's term of undergraduate study. The granting of scholarships will start with the academic year commencing in Fall 2012.

The Dr. Evan Simpson Aboriginal Undergraduate Entrance Scholarship

The University will award up to four entrance scholarships valued at \$1,000 each to Aboriginal residents of Newfoundland and Labrador. Eligible students must be in scholarship standing, have not received another University-administered entrance scholarship of equal or greater value, be enrolled as a full-time undergraduate student at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. An application may be obtained in writing or in-person to Scholarships and Awards Office, Room 4018, Smallwood Centre, Memorial University of Newfoundland, St. John's, NL A1C 5S7 or by telephone to (709) 864-3956.

The Wesley and Daisy Snelgrove Memorial Scholarship

This scholarship fund is established through a generous gift from members of the family of Wesley and Daisy Snelgrove and will provide two scholarships annually, valued at a portion of the income from the endowment. To be eligible, students must be Level III graduates from Baccalieu Collegiate in Old Perlican and must be entering full-time studies at Memorial University of Newfoundland (including the Fisheries and Marine Institute), pursuing an undergraduate degree and have scholarship standing. One scholarship, valued at 60% of the spendable earnings, will be awarded to the eligible student with the highest academic average. The second scholarship, valued at 40% of the spendable earnings, will be awarded to the eligible student with the second highest average. Both of the scholarships should be awarded even if the students have received another entrance scholarship from the University. In the event that there are no entering students from Baccalieu Collegiate in a given year, successful recipients from previous years who are currently enrolled at Memorial University of Newfoundland will be considered based on scholarship standing. In the event that no such students are entering or attending this University, the scholarships will be awarded to students from the Federal Electoral District in which Grates Cove is located. In the latter case, if possible, the first scholarship will be awarded to the student who is entering the School of Nursing with the highest academic average and the second to a student entering into their first year in the Faculty of Education with the highest academic average. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Marie Sullivan (1917-2003) Scholarship

This scholarship, valued at a minimum of \$5,000.00, has been established by Mrs. Sullivan's eleven children. All attended Memorial University of Newfoundland after completing high school in Baie Verte. The scholarship is in recognition of and appreciation for their mother's unwavering commitment to her family and her encouragement to pursue a higher education. It will be awarded to an entrance student on the basis of scholarship standing and financial need.

The Swimming Newfoundland and Labrador Entrance Scholarship

This scholarship, valued at \$1,000.00 annually, is available to a first year student who will attend Memorial University of Newfoundland and be a member of the Memorial University of Newfoundland Seahawks Varsity Swim Team. The scholarship recipient will have been a competitive swimmer in the Province of Newfoundland and Labrador for a minimum of three years and be a swimmer in good standing

with Swimming Newfoundland and Labrador. This scholarship will be awarded on the basis of scholarship standing, however, in deciding on candidates of equal academic standing, financial need may be used as a determining factor. Applications may be obtained in writing to the Swimming Newfoundland and Labrador office, RPO MacDonald Drive, Box 21248, St. John's, NL, A1A 5B2, or telephone to (709) 576-7946, or by fax to (709) 576-7493.

The TD Bank Financial Group Bursary

The TD Bank Financial Group has established this bursary as part of their commitment to helping students succeed in their post-secondary studies. The bursary is available to part-time or full-time students at Memorial University of Newfoundland who demonstrate financial need. Recipients may be residents of any province or territory in Canada. Valued at the interest on the endowment, the bursary will be awarded to entrance students in any field of study.

Arthur W. Toms Scholarship

This Scholarship was established by the family of the late Arthur W. Toms who was a farmer, fisherman, Co-op Field Officer, Rural Development Officer, Mayor, and Justice of the Peace, and who played a significant and leading role in the development of La Scie and other communities along the northeast coast of Newfoundland. Valued at a portion of the income on the investment, this scholarship will be awarded based on scholarship standing to a student entering Memorial University of Newfoundland as a full-time student. The scholarship will be open to students from Cape John Collegiate, La Scie, NL. If no suitable candidate is available from Cape John Collegiate preference will be given to students from the Baie Verte Peninsula. If no suitable candidate is available from the Baie Verte Peninsula preference will be given to students from Newfoundland and Labrador. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The James Tucker Memorial Scholarship

This scholarship is the result of an endowment which began in 1997 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at a minimum of \$500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 864-3956.

The George Weston Entrance Bursary

This bursary, valued at a minimum of \$1,000.00, will be awarded annually to a Memorial University of Newfoundland entrance student on the basis of scholarship standing and need. It will be renewable for up to four years (initial + 3) providing first class and scholarship standing is maintained and the recipient continues his/her studies in a Bachelor of Arts or a Bachelor of Science. This bursary will be awarded to a student who was born in one of the Atlantic Provinces.

The Women's Association of Memorial University of Newfoundland Faculty/Staff Scholarship

The Women's Association of Memorial University of Newfoundland (WAMUN) has established a \$1,200.00 annual scholarship available to students in any faculty or year at Memorial University of Newfoundland, providing they are either:

- a. children of full-time faculty or staff; or
- b. children of deceased or retired faculty or staff, who at the time of death or retirement, were employed full-time.

This scholarship is based on scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Women's Association of Memorial University of Newfoundland Single Parent Undergraduate Scholarship

This scholarship, valued at \$1,200.00, is awarded annually from funds donated by the Women's Association of Memorial University of Newfoundland. It is restricted to single parents enrolled in any faculty, school or year of study at Memorial University of Newfoundland. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Marjorie Wyght-Barre Memorial Scholarship

This scholarship, named in memory of Mrs. Marjorie Wyght-Barre (1907-1965) of Montreal, is the result of an endowment created by her husband, Major P.H. Barre. This scholarship, valued at the annual accrued interest on the initial endowment, is to be awarded annually to a Memorial University of Newfoundland entrance student from Newfoundland and Labrador. It will be awarded on the basis of scholarship standing and financial need.

The James W. Youden Bursary

This bursary, valued at a portion of the income from the endowment, is a result of a generous donation by James W. Youden from Chamberlains, NL. Though not a graduate of Memorial University of Newfoundland, Mr. Youden's children are all alumni, and Mr. Youden holds a firm belief in the value and power of a university education to transform lives. The bursary recipient will be a full-time undergraduate student in his or her first year of study, with demonstrated financial need and in good academic standing. Preference will be given to students entering either the Faculty of Arts or Education. The recipient must reside in an area of Newfoundland and Labrador outside of metropolitan St. John's and Corner Brook. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

4 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Undergraduate Students Already in Attendance at the University May Qualify

4.1 General

The following are not specific to an academic discipline.

Affinity NL (Ottawa) Scholarship

This scholarship is made possible by the fund raising efforts of the Ottawa Affinity Newfoundland and Labrador group and is valued at a portion of the income on the investment according to Memorial University of Newfoundland's Awards Program Spending Policy. Based on scholarship standing (academic excellence), it will be awarded in an alternating fashion to a first year undergraduate student (entering their second year) and then a first-year graduate student (entering the first year of either a Master's or Ph.D. program). The student must be from a rural community in Newfoundland and Labrador, express an interest in returning to work in rural Newfoundland, and be registered for full-time studies at Memorial University of Newfoundland. Rural is defined as outside St. John's and Corner Brook.

as determined by the Centre for Institutional Analysis and Planning, or an equivalent University or Government body. When awarded to an undergraduate student, the Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. When awarded to a graduate student, it will be awarded by the Dean of Graduate Studies upon the recommendation of the Awards and Medals Committee.

The Arnold's Cove, Come By Chance, North Harbour Fishers and Newfoundland Transshipment Scholarship

This scholarship was established by Newfoundland Transshipment Limited (NTL) as part of an agreement between them and the Fishers Liaison Committee (FLC) of the Arnold's Cove, Come By Chance and the North Harbour area. This scholarship, valued at the annual interest on the initial endowment to a maximum of \$500 per student, will be awarded on the basis of scholarship standing to a Fisher or his/her descendant(s) who is registered as a full-time student at Memorial University of Newfoundland in any year or field of study. In the event that no applicants are received from Fishers or Fishers' descendants in a given year, the scholarship may be awarded to another student from above noted geographic areas. Eligibility of applicants under the above criteria will be verified by the Fisheries Liaison Committee (FLC). Memorial University of Newfoundland is encouraged to ensure that the scholarship is alternated between communities and their eligible students. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956. Completed applications must be returned to the FLC for appropriate verification.

The Ashbridge Scholarships/Bursaries

These awards, at least three at \$500.00 each, are tenable to students beyond the first-year level of undergraduate programs. They are awarded on the basis of need and scholarship standing.

Baccalieu Trail Scholarship

This scholarship, valued at a portion of the income on the endowment, is made possible by the fund raising efforts of the Baccalieu Trail Chapter of the Alumni Association of Memorial University of Newfoundland. Based on scholarship standing the scholarship will be awarded to a student who is a resident of the Baccalieu Trail Region or has been a permanent resident of the region for the completion of their secondary education. The student must have successfully completed their first year of study and be entering second year of full-time study at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Baird-Stephenson Scholarship

This Scholarship, valued at \$1,000.00 is to be awarded annually to a Memorial University of Newfoundland student in any year or field of study. It is named for Mrs. Edna Baird-Stephenson and her late husband, both of whom were former members of Memorial University of Newfoundland's faculty. The Scholarship will be awarded on the basis of academic excellence.

The Donald M. Balsom Award

The Newfoundland Brain Injury Association (NBIA) has established this award to honour Donald M. Balsom, former Associate Director of Memorial University of Newfoundland's School of Continuing Education and brain injury survivor. Valued at \$500.00, it will be awarded annually to a brain injured undergraduate student who is registered either part-time or full-time, in any year or field of study at Memorial University of Newfoundland, who has some volunteer experience with the NBIA and who is in clear academic standing at the University. In the event that no applications are received from brain injured students the award may be given to a student who has made a significant contribution as a volunteer to the Brain Injury Association. In special circumstances, the award may be held for more than one year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with NBIA as needed.

Barnes House Bursaries

Two bursaries of \$600.00 each have been donated by Dr. Charles Loader former Proctor of Barnes House and are tenable only by residents of Barnes House, Paton College, who have resided in the House for at least one semester prior to application. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of a committee established by the Proctor of Barnes House. In making the awards, financial need and academic performance in the previous year will be taken into consideration. The bursaries will not be given to students who hold other major awards and will be paid in two equal instalments over two semester, payment in the second semester being dependent upon the recipients maintaining at least a "B" average. If there are no suitable candidates, the bursaries will not be awarded.

Applications are available from the Residence Assistants, the Proctor or the Paton College Office. The deadline date for application is March 15.

The Birks Family Foundation Bursaries

The Birks Family Foundation has established a plan of annual contributions to the student aid funds of recognized Canadian universities for the creation of the Birks Family Foundation Bursaries. The Bursaries are awarded by the Foundation on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and are not restricted to faculty or year and may be renewed. The number and amount of such awards may vary annually, depending upon the funds available for the purpose from the Foundation.

The Glenn Roy Blundon Memorial Scholarship

This scholarship, valued at \$500.00, has been established by the family, friends and fellow students of the late Glenn Roy Blundon, a former student of Memorial University of Newfoundland who, despite his severe physical disability, succeeded in his studies and made a significant contribution to student life. In the awarding of this scholarship, preference will be given to academically qualified students with disabilities but those enrolled in the Special Education Program may be considered when no candidates are available from the first group. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Gary Bourne Memorial Scholarship

This scholarship is the result of an endowment to the University funded largely by donations resulting from fundraising efforts of Gary's colleagues at the Office of Financial and Administrative Services. Valued at a portion of the annual accrued interest on the endowment it will be awarded on the basis of scholarship standing to an undergraduate student who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. An application is required and may be obtained from the Scholarships, Bursaries and Awards Office. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Doctor William Boyle Scholarships

Under the will of the late Dr. Robert William Boyle, the University, in 1956, received bequests establishing two scholarships, one in memory of the testator's mother, Sophie (Maddock) Boyle, to be awarded to a female student attending the University; and the other in memory of his father, Albert Desbrisay Boyle, to be awarded to a male student attending the University. The scholarships are to be awarded to the students who, having attended the University for a period of at least two years, are, in the opinion of the governing body of the University, best qualified in virtue of all-round attainment. Each scholarship will be tenable for two years and the emolument will be the income accruing from the bequest during the period of tenure of the scholarship.

The Burke House Scholarship

One bursary of \$700.00 is tenable by a resident of Burke House, Paton College, who has resided in the House for at least two semesters prior to application. In making the award, financial need, academic performance, and leadership contribution will be taken into consideration. The bursary will be awarded to a student who does not hold a concurrent major award and will be paid in two equal installments over a two-semester period, payment in the second semester being dependent on the recipient maintaining at least a "B" average. If in any year there is no suitable candidate, the bursary will not be awarded for that year. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of a committee established by the Proctor of Burke House. Application forms are available from the Academic Don, the Proctor, or the Paton College Student Housing Office.

The Calgary Alumni Scholarship

This scholarship is being established through the fund raising efforts of the Calgary Alumni Branch of the Memorial University of Newfoundland Alumni Association. The scholarship, valued at a portion of the income on the investment, will be available to an undergraduate student, beyond first year, in any field of study who is a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University) and who demonstrates academic excellence. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Canadian Federation of University Women St. John's Bursaries

Two bursaries, valued at \$1500.00 each, are offered annually by the Canadian Federation of University Women (CFUW) St. John's to female students in full-time or part-time studies. The awards are made on the basis of scholarship standing and financial need and are not restricted to any particular faculty or year of study. The first of these bursaries is named in memory of Dr. Edith M. Manuel, well-known Newfoundland educator and charter member of CFUW St. John's who died in 1984. The second is named for Olga Anderson, a long-time member of CFUW St. John's. Further information regarding the CFUW is available at www.cfuw.org.

The Canadian Institute of Mining, Metallurgy and Petroleum (Newfoundland Branch) Golden Jubilee Scholarship

This scholarship valued at a portion of the income on the investment, will be awarded to a student entering the final year of undergraduate studies at Memorial University of Newfoundland. Based on scholarship standing, the scholarship will be available to a student majoring in a field of study that is covered by the fields of interest of the Canadian Institute of Mining, Metallurgy and Petroleum specifically; Earth Sciences, Geophysics, Geography, Economics, Environmental Science, Engineering, Business and Commerce. Financial need may be taken into consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Chow-Fagan Scholarship for Single Mothers

This scholarship, valued at \$1,000 annually was established by Deborah Chow-Fagan. To be eligible, candidates must be single mothers who are full-time undergraduate students; preference will be given to students who have scholarship standing. If no full-time students are eligible in a given year, second preference will be given to a part-time student who is a single mother. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a special application which may be obtained from the Scholarships and Awards Office, Room 4018, University Centre, or by calling (709) 864-3956.

The Marion (Ward Hue) Christian Memorial Scholarship

This scholarship, valued at a portion of the income from the endowment, is the result of a generous donation by Dr. David Ward, and is established in memory of his mother, Marion (Ward Hue) Christian. Originally from Trinity, Trinity Bay, Marion worked with the Department of Public Health helping elderly adults learn to read before going on to Columbia University and Emory College to study special education and geriatrics. She later served as the Deputy Director of the Hoyles Home, St. John's until her retirement. The scholarship recipient will be a full-time undergraduate student beyond first year who must demonstrate financial need as well as scholarship standing. The student must be from an area of Newfoundland and Labrador outside of metropolitan St. John's and Corner Brook. Although students in all areas of study are eligible, preference will be given to those studying in the sciences. The Scholarship will be awarded by the Committee on Undergraduate Scholarships, Bursaries and Awards.

The Coca-Cola Scholarship for International Studies

This scholarship, valued at the annual interest on its endowment, has been established from contributions to the University's *Opportunity Fund* Campaign by The Coca-Cola Foundation. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree.

The Compass Group Canada Scholarship

From a sum of money donated by Compass Group Canada, a scholarship fund has been established for students who reside in Paton College, who have completed their second year of studies while in residence and who will return to residence for their third year. The awards, valued at a minimum of \$1,000.00, will be made annually on the basis of academic excellence. The purpose of the scholarship is to encourage senior students of high academic calibre to live in residence.

The Computing and Communications Scholarship

This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland in support of the dependants of its staff members. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependant of a current, retired, deceased, or former (having worked in the unit for a minimum of 5 years) employee of C&C or be a current student employee of the Department. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, or by telephone to (709) 864-3956. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Raymond J. Condon Memorial Alumni Scholarship

This scholarship, valued at \$1,000.00, will be awarded to a student who has completed the first year College Transfer Program at the Labrador West Campus of the College of the North Atlantic and is transferring to Memorial University of Newfoundland the following year. The recipient must be of scholarship standing as defined by the University. The Senate Committee on Undergraduate Scholarships, Bursaries and Awards will award the scholarship upon recommendation of the Principal, Labrador West Campus.

Construction Labour Relations Association of Newfoundland and Labrador Inc. (CLRA) Scholarship

These five scholarships, valued at \$1,000 each, were established through a donation from the Construction Labour Relations Association of Newfoundland and Labrador (CLRA). Three of the five scholarships are entrance scholarships and two scholarships will be available to full-time students in any year of any program. They will be available to dependents (sons, daughters or wards), or employees of CLRA member companies. Students must complete an application form provided by CLRA. Based on scholarship standing, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Clayton and Alice Cook Scholarship

This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required to identify students in the first category and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Country Ribbon Scholarship

This scholarship is available to dependants (sons, daughters or wards) of employees of Country Ribbon. Valued at \$1,000.00 annually it will be awarded, with first preference, to an entrance student registered for full-time studies at Memorial University of Newfoundland. If no suitable candidate can be identified from the first group the scholarship may be awarded to an undergraduate student registered for full-time studies at Memorial University of Newfoundland. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Crowley Bursaries

These bursaries, one or more valued at a minimum of \$1,000.00 each annually, are the result of the interest on an endowment to the University by Mr. Ronald Crowley. In awarding these bursaries preference will be given to undergraduate sons or daughters of fisherpersons whenever possible. However, when such candidates cannot be identified the bursaries will be awarded to other eligible undergraduate students at Memorial University of Newfoundland. In both cases candidates may be in any year or field of study. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need as defined by the University.

The Reverend Doctor Levi Curtis Bursary

This bursary has a value of at least \$200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Donald W.K. Dawe Memorial Scholarship

This annual scholarship, valued at \$500.00, has been established by the family, friends and associates of the late Donald W.K. Dawe, Q.C., who attended the Memorial University College in 1933-34. In making the award, preference may be given in the first instance to a needy and academically qualified student beyond the first year from outport Newfoundland and Labrador.

Director's Award for Exemplary Work Terms

Four awards will be offered annually to students enrolled in full-time co-operative education programs at the undergraduate and graduate level at Memorial University of Newfoundland. One award will be made for each of the Engineering, Business, Human Kinetics and Recreation programs, and one award for one of the Co-operative Education programs in the Arts and Science portfolio which currently include: Applied Social Psychology, Computer Industry Internship Option, Economics, Masters of Computer Science, Masters of Environmental science, Masters of Political Science, Masters of Folklore, Political Science and Psychology. The recipients will receive a framed certificate and their names will be inscribed on a permanent plaque mounted in the Division of Co-operative Education. Nominations will be made by the co-operative education Co-ordinators of the students' respective Faculty or School to the Director of Co-operative Education. Nominations may also be made by employers. The deadline for nominations is January 30. The awards will be presented during National Co-operative Education Week. Only students who have completed a work term in the previous calendar year and have obtained a Pass with Distinction or its equivalent, in both the work performance evaluation and the communication component of the work term are eligible. In the case of undergraduates the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of the graduates the award will be made by the School of Graduate Studies. In both cases these will be made on the recommendation of the Director of Co-operative Education.

The Vivian Douglas Memorial Scholarship

This scholarship has been established from a donation to the University by Mrs. Edna Baird-Stephenson in honour of her housekeeper Mrs. Vivian Douglas from Grand Bank. It is valued at the annual accrued interest on the initial donation and will be awarded to a student beyond first year in any field of study. It will be awarded annually on the basis of scholarship standing and financial need.

The Doyle House Awards

These awards are the result of fundraising by the Doyle House Academic Committee. Three, valued at \$100.00 each, will be awarded annually to residents of Doyle House. They will be awarded in the Winter semester of each year as follows:

- Highest senior resident average; to a resident of Doyle House who has resided there two consecutive semesters prior to receiving the award and who has a minimum of 70% average.
- Highest freshman resident average; to a student who had resided in Doyle House for the current and previous semester and who had a minimum of 70% average in the Fall Semester.
- Most improved average; to a student who has shown the greatest academic improvement during the most recent two semesters, who has been a resident of Doyle house for two consecutive semesters prior to receiving the award and who has a minimum of 70% average in the most recent semester he/she must have achieved at least a 50% average.

These awards will be made by the Committee in Undergraduate Scholarships, Bursaries and Awards acting upon a recommendation from a committee representing Student Housing, Food and Conference Services and Doyle House. Additional information can be obtained from the Residence Assistants, Academic Don or Proctor of Doyle House.

The Dr. J. Douglas Eaton Scholarships

Upon the retirement of Dr. J. Douglas Eaton from the position of Vice-President (Student Affairs & Services) in 1983, the student body of Memorial University of Newfoundland donated a sum of money to fund two undergraduate scholarships in his honour, valued at \$500.00 each. These awards, tenable to students beyond first year will be made on the basis of academic standing and demonstrated active participation in student life. In cases of competition between students of equal standing, need shall be the determining factor in awarding the scholarships. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a special selection committee, consisting of members of MUNSU and the Office of Student Affairs & Services.

The Fraser Edison Scholarship

This scholarship is the result of a donation to the *Opportunity Fund* in 1999 by Mr. Fraser Edison. It will be valued at the annual interest on the endowment and will be awarded to an undergraduate student who has a recognized physical disability. An application is required and the scholarship will be awarded on the basis of scholarship standing to a student in any year or field of study. A special application

is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Facilities Management Undergraduate Scholarship

This scholarship fund is the result of an endowment which began in 1996 as a part of the *Opportunity Fund* Campaign. The fund will provide one or more scholarships valued at a minimum of \$500 each to students who are children, grandchildren, nieces, nephews, brothers, sisters or spouses of current or retired employees of the Department of Facilities Management, Memorial University of Newfoundland. Preference in awarding the scholarship(s) will be given to entrance students but undergraduates may also qualify. The scholarship(s) will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 864-3956.

The Ralph L. Finley Scholarships

Under the will of the late Mr. Ralph L. Finley, the University in 1987 received a bequest establishing two scholarships. The awards are to be tenable to needy undergraduate students, residing in the University residences during the academic year, who attain a minimum average of 70%. The value of the awards will depend on the income accruing from the bequest during the period of tenure of the scholarships. The amounts to be awarded are to be applied to the recipients' tuition and/or residence fees.

The Charlie (Moo Sic) Fong Memorial Scholarship

This scholarship, valued at the annual interest (approximately \$600.00 - \$700.00 annually), is the result of an endowment by the Fong family in memory of their great-grandfather, Mr. Charlie (Moo Sic) Fong. It was established to commemorate the 100th anniversary of the first Chinese settler in Newfoundland and to promote an awareness of the Chinese Cultural and Historical background in the province. It will be awarded on the basis of scholarship standing and financial need to an undergraduate student at Memorial University of Newfoundland with a Chinese heritage. The scholarship will be given early in Winter semester and presented to the student at a local function held to celebrate the Chinese New Year. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Dr. G.A. Frecker Memorial Alumni Bursaries

The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at \$500.00 each. Four of the bursaries are tenable at the St. John's campus and one at the Grenfell Campus at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

Friends of India Association Scholarship

This award, valued at \$500.00, is awarded annually from funds donated by the Friends of India Association. The scholarship is open to any student registered at Memorial University of Newfoundland who is beyond first year studies. This scholarship will be awarded on the basis of scholarship standing.

The General Motors Undergraduate Scholarship

This scholarship was established by General Motors of Canada Limited with contributions to the University's *Opportunity Fund* Campaign. Interest from the fund will provide one or more scholarships to support individuals who qualify as Native People, members of a Visible Minority and/or Physically Disabled. It will be awarded to students in any year or faculty or school at Memorial University of Newfoundland. It will be awarded on the basis of scholarship standing and an application may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Joan Haire Memorial Scholarship

This scholarship is the result of an endowment which began in 1997 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at a minimum of \$500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 864-3956.

The Frederick J. Hancock Scholarship

This scholarship is the interest on a sum of money donated to the University by Frederick J. Hancock, former Sergeant of the Newfoundland Constabulary who served as a member of the Force for twenty-five years until his retirement in 1963. Preference in the awarding of this scholarship will be given to sons and daughters of active, retired or deceased members of the Royal Newfoundland Constabulary. Candidates must be enrolled in full-time studies at the University and possess scholarship standing. When no candidates can be found from the above category, the scholarship may be awarded to any full-time student on the basis of academic merit. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The A. Harvey & Company Limited Scholarship Program

On the occasion of its 125th anniversary, A. Harvey & Company Limited established this scholarship tenable at Memorial University of Newfoundland and valued at \$1,500.00. In order to qualify candidates must:

- Be a dependent or spouse of employees of the company;
- Be enrolled as a full-time student;
- Possess scholarship standing as defined by the University; and
- Hold no other concurrent scholarship.

Preference will be given to entrance students; however, if there is no eligible candidate enrolled in first year studies, then the scholarship may be awarded to a senior undergraduate student attending Memorial University of Newfoundland who fulfills the above criteria. In deciding between candidates of equal academic attainment need will be the determining factor. The deadline date for applying is the last Friday in July. Further information and application forms are available in writing to A. Harvey & Company Limited, 87 Water Street, P.O. Box 5128, St. John's, NL, A1C 5V6

The C.D. Howe Memorial Foundation Scholarship

These scholarships result from a contribution by the C.D. Howe Memorial Foundation. The Annual income from this endowment will be utilized to fund up to six scholarships valued at the cost of one year's tuition for full-time students, the amount varying depending on the number of courses taken. The scholarships will be awarded to undergraduate students entering second, third, fourth or fifth years of study in any undergraduate program. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need, and a recommendation from the appropriate Dean or academic Director.

The Kathleen Huckabone Bursary

This bursary was established by the family of Kathleen Huckabone in August, 2004 as a special tribute, on the occasion of her 70th birthday. Valued at \$2,000.00 and awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, it is given to a first year student at Memorial University of Newfoundland who is a graduate of a high school in the Eastport/Salvage area, is in need of financial assistance and has completed one semester of full-time studies with satisfactory standing. If no candidates meet the foregoing criteria, the bursary may be awarded to an undergraduate student from the Eastport/Salvage area in any year of study at Memorial University of Newfoundland.

The Kevin Hutchings Memorial Scholarship for the Royal Newfoundland Regiment

This scholarship was established by the family of Kevin Hutchings who, from 2004 until his death in 2009, held the position of Honorary Lieutenant-Colonel of the First Battalion of the Royal Newfoundland Regiment. Valued at \$2000 per year, the scholarship will be awarded to a full-time undergraduate student who is an active parading member of the Royal Newfoundland Regiment (1st, 2nd Battalion or Band) who meets scholarship standing as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. An application form is required and may be obtained from the Scholarships, Bursaries and Awards Office.

The Bishop Jones Memorial Hostel Group Scholarship

This scholarship was established by the Bishop Jones Hostel Group. The scholarship, valued at a portion of the income from the endowment, will be awarded annually to a female student who meets the minimum academic requirements for a scholarship and is enrolled full-time in her second year of study at Memorial University of Newfoundland. It is open to residents of Newfoundland and Labrador whose permanent address is outside the metro region of the campus they are attending. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Ethel H. Judson Memorial Scholarship

This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Edna Baird-Stephenson in memory of her late sister Ethel. It will be awarded annually to a Memorial University of Newfoundland student in any year or field of study. The scholarship will be awarded on the basis of academic excellence.

Key Tag Scholarships

Up to three scholarships, valued at \$500.00 per annum, are donated by the Newfoundland Branch of the War Amputees of Canada, and are to be known as the Key Tag Scholarships. These scholarships are awarded annually to amputee students in any year or field of study at Memorial University of Newfoundland. In the event that no applications are received from amputee students, the Committee may consider other physically disabled students. In making the awards, financial need, initiative and scholastic achievement will be considered. In special circumstances, the scholarships may be held for more than one year. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Iris Kirby Memorial Scholarship

This award, valued at \$650.00 annually, has been established by the friends and colleagues of the late Iris Kirby. Iris was an active feminist and advocate of encouraging women to develop their fullest potential. The scholarship is open to women enrolling in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning after at least five years out of full-time study. Applicants should have been resident in Newfoundland for at least one year before applying. The scholarship will be awarded in the Winter semester on the basis of the Fall semester's results. In deciding on candidates of equal academic attainment, a commitment to the goal of an equal status for women in our society will be considered. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Korea Veterans' Association Scholarship

Twenty-six thousand, seven hundred and ninety-one (26,791) Canadians served in the Korean Theatre between the beginning of hostilities in 1950 and the signing of the cease-fire in 1953. Another 7,000 served between the cease-fire and the end of 1955. This scholarship was established to honour the men and women of the various Canadian Military Units that served in the United Nations Forces during that period of time. One scholarship of \$500 is awarded annually to a student who meets the following criteria: A full-time first year student at Memorial University of Newfoundland who is the child or grandchild of a Canadian Korea War Veteran and who has scholarship standing. In a year when there is no eligible child or grandchild in first year, the scholarship may be awarded to a child or grandchild beyond first year studies. If there is still no eligible student, the scholarship may be awarded to any first year student at Memorial who has scholarship standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available from the Scholarships, Bursaries and Awards Office, Rm. 4018, University Centre.

Law Foundation of Newfoundland and Labrador Legal Research Awards for Students of Memorial University

The Law Foundation of Newfoundland and Labrador annually offers up to five Legal Research Awards valued at \$500 each to students at Memorial University of Newfoundland. The Awards are for outstanding research papers on one or more legal issues, or topics treated in a legal context, in a senior level course in any discipline at the undergraduate level and in any graduate course for students at the graduate level. The papers submitted by and with endorsement of course professor or lecturer will be judged initially by the Dean, Director, or Department Head who will make a recommendation to a special selection committee comprised of appointees of Memorial University of Newfoundland and the Law Foundation. Undergraduate students will receive a minimum of two and graduate students will receive one or more of the five Awards available annually. In the case of undergraduate students the Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the Awards will be made by the Dean, School of Graduate Studies. In both cases they will act upon the recommendation of the Foundation's selection committee. Please note that papers, if available on computer, must also be submitted in electronic format. An additional \$500 will be provided annually by the Law Foundation to Queen Elizabeth II Library for the purchase of research materials and resources. Total Awards \$3,000.

The Locke's Electrical Limited 50th Anniversary Scholarship

This scholarship is the result of an endowment established by Locke's Electrical Limited, Corner Brook, on the occasion of their 50th anniversary. Valued at the interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student in any year of study who is a child or grandchild of a current or retired staff member of Locke's Electrical Limited or one of its affiliates. If the scholarship is not awarded in one year then two may be awarded the following year. An application is required and may be obtained from, and returned to, Locke's Electrical Limited, Corner Brook.

The Dr. Wayne E. Ludlow Scholarship

This scholarship is the result of an endowment made by the undergraduate students of Memorial University of Newfoundland in honour of Dr. Wayne E. Ludlow on his retirement, in 1999, from the position of Dean of Student Affairs and Services. Valued at a portion of the income on the endowment, this scholarship is tenable to students beyond second year, based on scholarship standing and demonstrated active participation in student life. Factors to be considered will include but not be limited to involvement in student government, clubs and societies and student media. Financial need may also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a selection committee of

members of MUNSU and the Office of the Deputy Provost (Students) and Associate Vice- President (Academic) (Undergraduate Studies) *pro tempore*.

The Arthur and Sonia May Scholarship

The scholarship, which is expected to be between \$4,000 and \$5,000 (based on the annual interest on its endowment), has been established by Arthur and Sonia May on the occasion of the University's 50th Anniversary as a degree-granting institution, and in gratitude for the outstanding experience they enjoyed as students. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree. Applications may be made to the Scholarships, Bursaries and Awards Office, Room 4018, University Centre on or before the third Friday in June.

The Hector and Fanny McNeil Memorial Trust Fund Scholarships

From the interest accruing from this fund, at least two scholarships, at \$500.00 each, will be awarded annually to academically deserving students at Memorial University of Newfoundland beyond first year.

The Memorial University Golf Tournament Scholarship

This scholarship fund was established in 1998 as a result of entry fees and donations from corporate and individual participants in the Annual Memorial University Scholarship Golf Tournament. Proceeds from this tournament have developed an endowment that supports scholarships valued at a portion of the annual income on the investment. These scholarships will be awarded to second and third year undergraduate students based on scholarship standing, with the exact number of awards to be decided by the Golf Tournament Operations Committee each year. In an effort to ensure that, over time, awards are dispersed throughout the University's various academic units, only one scholarship per year will be awarded within an academic unit and none will be awarded in a given year to students from an academic unit that has been represented by a recipient in the past three years. Recipients may not be simultaneously in receipt of a general scholarship of equal or higher value at the time of the awarding of this scholarship. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Memorial University of Newfoundland Endowment Scholarships

These scholarships, established by Memorial University of Newfoundland are awarded annually to students in any year or faculty with approximately 50% of those awarded in a given year allocated for Entrance Students. The number and value of the annual scholarships vary depending on the interest earned. They are awarded on the basis of scholarship standing.

The Memorial University of Newfoundland Faculty Association Scholarship Fund

The Memorial University of Newfoundland Faculty Association has established a trust fund to provide scholarships and bursaries to needy students in good academic standing. Assistance from this fund is available to entering students as well as to those further along in their studies and may be re-applied for in subsequent years. The first of the MUNFA Scholarships awarded each year is the Ditte Koster Memorial Scholarship. This award honours the late Ditte Koster who, up to the time of her death, was a professional librarian at the University. As a contribution to the *Opportunity Fund* in 1999, the Faculty Association pledged to pay the University the interest from their trust for the period January 1, 2000 to March 31, 2004. The matching money from this pledge will be contributed to the University's general Scholarship Endowment Fund allowing the University to award additional general scholarships.

The Gloria Moores Memorial Bursary

This bursary was created in memory of Gloria Moores in recognition of her dedication and commitment to the Queen Elizabeth II Library. This bursary will be valued at \$500 and will be awarded annually. Full time undergraduate students in any year of any program at Memorial University of Newfoundland will be eligible. The recipient will have demonstrated financial need and must meet the minimum academic standing for a bursary at Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Elsa S. Morgan Memorial Scholarship

This scholarship, valued at \$500.00, was donated by the late Dr. John M. Morgan, B.Sc., M.D., in memory of his wife, Elsa S. Morgan. Dr. Morgan was born at Port-de-Grave, Conception Bay, Newfoundland and spent all of his professional life in the United States. The scholarship is awarded to a deserving student of scholarship standing who has completed the first year of studies and is proceeding to the second year. Preference will be given to students from the district of Port-de-Grave.

The Jacob and Floral Morgan Scholarship Fund

This fund has been established by relatives and friends of the late Jacob Morgan, a teacher for thirty years in the outports of this province, and of his wife Floral. One or more scholarships, valued at not less than \$2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering the University for the first time.

The John Thomas and Amy Susannah Morgan Memorial Scholarship

This scholarship, valued at \$500.00, was donated by the late Dr. John M. Morgan, B.Sc., M.D., in memory of his parents, John Thomas and Amy Susannah Morgan. The scholarship is awarded to a deserving student of scholarship standing, who has completed his or her first year of studies and is proceeding to second year. Preference will be given to students from the district of Port-de-Grave/Harbour Grace.

The M.O. Morgan Alumni Scholarships

At least three scholarships valued at a minimum of \$1000.00 each, gifts of the Memorial University of Newfoundland Alumni Association, are awarded annually to students beyond first year on the basis of academic excellence.

Rick Morris Memorial Bursary

This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The Edward G. Mullins Memorial Scholarship

This scholarship valued at \$500.00 annually has been established by the Newfoundland and Labrador Branch of the Kidney Foundation of Canada. It honours the memory of the late Edward G. Mullins who had kidney disease and was a dedicated volunteer of the Foundation. Successful applicants must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University). Preference will be given to applicants who have kidney disease, who have completed a minimum of 18 credit hours over two semesters in the previous scholarship

year with a minimum average of 75% in the courses which comprise those credit hours and are enrolled full time at the University. However, if in a given year such an applicant(s) is not available, dependents of someone who has/had kidney disease may qualify. Such applicants must be enrolled full time at Memorial University of Newfoundland and have scholarship standing. In deciding on candidates of equal academic attainment from the latter group, need may be the determining factor. In some cases the scholarship may be held for more than one year. A special application is required and must be submitted to the scholarship office. Applications may be obtained from The Kidney Foundation of Canada, Newfoundland & Labrador Branch, 58 Kenmount Rd. St. John's, NL, A1B 1W2, or by telephone to (709) 753-8999, or from the Scholarships and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland or by telephone to (709) 864-3956.

The MUNSU Undergraduate Scholarship

This scholarship fund is the result of an endowment which began in 1996 as a part of the *Opportunity Fund* Campaign. The fund will provide a scholarship valued at the annual interest on the endowment, to students who are children, grandchildren, or spouses of current (worked a minimum of 15 of the last 24 months) or retired employees of MUNSU, Memorial University of Newfoundland or of previous employees who had a minimum of ten years of service to MUNSU. In the event that there are no eligible candidates from the above group in a given year the scholarship will be open to nieces or nephews of current, retired or previous employees of MUNSU (as per above). It will be open to entrance students as well as undergraduates. The scholarship is not renewable and individuals will not normally hold the scholarship more than once unless there is no other eligible candidate in a given year. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 864-3956.

The MUNSU 25th Anniversary Scholarship

This scholarship is the result of an endowment established by MUNSU (1994) and is valued at the annual accrued interest. It will be awarded to a student who has completed at least one year at Memorial University of Newfoundland. Based on scholarship standing and active participation in student life, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the President, MUNSU.

Harvey and Doris Murcell Scholarships

These scholarships have been established from funds donated by Harvey and Doris Murcell. Scholarships of at least \$1,000.00 shall be awarded under the following conditions:

- A scholarship to two entrance students who are residents of Harbour Grace who attended High School in Conception Bay North.
- Four scholarships to students of any year from high schools in the Conception Bay North area.
- Other scholarships as the fund will bear.

The scholarships shall be awarded based on scholarship standing.

The Augustine Nash Memorial Bursary

The Augustine Nash Memorial Bursary has been established by Edward Nash in memory of his father, Augustine Nash. Augustine was born in Branch, St. Mary's Bay and had thirteen children who attended Fatima Academy. Great emphasis was placed on the value of education in his household. To be eligible for this bursary a student must have graduated from Fatima Academy, in St. Bride's, NL and be enrolled in the first year of any program at Memorial University of Newfoundland. Selection is based on demonstrated financial need as well as academic merit. In the event that a qualified student from Fatima Academy is not available in a given year, the bursary may be given, under the same terms and conditions to a student who has graduated from a high school in the electoral district that serves Fatima Academy. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Newfoundland and Labrador Neurotrauma Initiative Award

This award, valued at a portion of the income on the investment, is made possible by a generous endowment from the Newfoundland and Labrador Neurotrauma Initiative Program, a partnership between the Rick Hansen Man in Motion Foundation, the Canadian Paraplegic Association, the Brain Injury Association and the Government of Newfoundland and Labrador. The award will be available on an annually rotating basis between undergraduate and graduate students, with first preference given to a student who has been identified with a brain or spinal cord injury. For undergraduate students applications are available from the Scholarships, Bursaries and Awards Office, Room UC4018, University Centre, (709) 864-3956. Graduate Students are required to apply specifically to the School of Graduate Studies, Room IIC 2021, Bruno Centre for Research and Innovation, (709) 864-2600. If no candidate is available with a brain or spinal cord injury, preference will be given to a student who is studying in any field related to neurotrauma. If it is not awarded at the level of study (i.e. graduate/undergraduate) on rotation in a given year, it may be awarded to a student studying at the other level for that year. In the case of undergraduates, the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

The Elsie and Stephen O'Neill Bursary

The children of Elsie and Steve O'Neill established this bursary in appreciation of their parents' support and encouragement toward their higher education. The bursary, which will be valued at \$1000 annually, will be awarded to a single mother with first preference to a current part-time undergraduate student. She must also have been enrolled part-time for two or more semesters prior to the semester in which the scholarship is awarded, and have maintained a "B" average in those semesters. If no student meeting the above criteria can be identified, the bursary will be awarded to an undergraduate single mother who is currently registered at the university (part-time or full-time), who has maintained a "B" average in the courses completed in the previous scholarship year and has financial need. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Florence O'Neill Scholarships

An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to \$1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Grenfell Campus in Corner Brook.

Dermot O'Reilly Legacy Award

The award, valued at a portion of the income on the investment, is established through funds raised by family, friends and music lovers, in Dermot O'Reilly's memory after his untimely passing in 2007. Dermot chose to make Newfoundland his home in 1971 where he found here a kinship to the Dublin of his youth in the people, music and songs. Here, his life was music. He delighted in sharing music with others and was a mentor to many aspiring musicians. Dermot's friends and family carry on his legacy by creating this award to encourage and support the promotion of traditional music, oral tradition and dance in Newfoundland and Labrador. It will be given annually to a part-time or full-time student at Memorial University of Newfoundland enrolled in any year of any program of study that meets the academic requirements for an award as outlined by the University. Eligibility should be based on established support of traditional music, oral tradition or dance amongst Newfoundlanders and Labradorians. The successful candidate will be determined at

the discretion of the Dermot O'Reilly Legacy Award Selection Committee and will have made evident, either through actions or creative undertakings, contributions to the province by demonstrating leadership and creativity in the tradition-bearer community. To be considered, candidates must apply no later than February 1. Applications are available at the Undergraduate Scholarships and Awards Office and the School of Graduate Studies and must be accompanied by a resume of all relevant information including but not limited to: publications, research, recordings, projects, performances, etc. It will be awarded by either the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or the Dean, School of Graduate Studies as appropriate based on the recommendation from the Committee.

Oil and Gas Week Scholarship

Valued at \$1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John's, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

The R.A. Parsons Scholarship Fund

The purpose of this fund is to provide scholarships to students in good academic standing and in proven financial need. There are no restrictions as to year or field of study.

The John Lewis Paton Scholarship

This scholarship is awarded out of the income from the Fund established in 1926 by John Lewis Paton to enable graduates of the Memorial University College to continue university training. Known until 1946 as the Memorial University College Scholarship, it has been re-named to honour the memory of the first President of the College. This scholarship has a value of at least \$300.00. It is awarded annually to a student who has successfully completed three years of a degree course. In making the award, scholastic achievement and promise, qualities of character, economic need and other relevant factors will be taken into account.

The Rose Patten Single Mother Scholarship

This scholarship has been established by Ms. Patten to encourage and assist women to develop their full academic potential. Valued at the interest on the endowment, it is open to single mothers who are enrolled in full-time undergraduate studies at Memorial University of Newfoundland. It will be awarded taking into consideration financial need as well as scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Elaine Pitcher Memorial Scholarship

This scholarship is the result of an endowment to the University from a bequest left by Elaine Pitcher, a donation from Xerox Canada and donations from family, friends and colleagues of Elaine. Valued at a portion of the annual accrued interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student who is a child of a current or retired staff member of Memorial University of Newfoundland. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Pro Vice-Chancellor's Prize

The Strategic Framework for Memorial University of Newfoundland states that Memorial will enrich undergraduate education by helping students to experience the excitement of intellectual discovery, introducing undergraduates more effectively to the wider academic enterprise. In encouragement of this objective and in recognition of superior writing and scholarship by undergraduate students that deserves a wider audience, the Vice-President (Academic) and Pro Vice-Chancellor has established a series of prizes for the best undergraduate scholarship done each year at the University.

Instructors are invited to nominate examples of their undergraduate students' course work for the Pro Vice-Chancellor's Prize. The professor will certify that the work is original and the student's own work, and submit it to his/her head/director who will transmit it to the committee. Students may also submit their own course work for consideration. Instructors' comments should not appear. In accepting nomination or making application, students agree to publication. Nominations and applications will be assessed by a selection committee consisting of five academic staff members and chaired by the Associate Vice-President (Academic). The committee will adjudicate entries for their intellectual originality, cogency, facility of expression, and adherence to principles of scientific inquiry and critical thinking. The value of the prize is \$500 cash or a \$1000 scholarship tenable in a graduate program at Memorial University of Newfoundland. Up to five prizes will be awarded each year. At the discretion of the selection committee, Honourable mention may be accorded to entries beyond the available number of prizes.

Project Hero Tuition Bursary

Project hero is an initiative started by Kevin Reed, honorary lieutenant-colonel of 31 Service Brigade, an army reserve unit in London, Ontario. Mr. Reed was inspired by the work of former Chief of Defense Staff, General Rick Hillier, now Chancellor of Memorial University of Newfoundland, and approached him about starting a program to support children of Canadian Forces staff who were killed while on active duty. The bursary provide tuition costs (maximum of 5 courses per semester) for up to four years of study and is available to full-time students in undergraduate degree programs. The bursary is renewable on the basis of continuing full-time enrollment and a minimum GPA of 2. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

To be eligible students must be:

1. Canadian Citizens or Permanent Residents;
2. 26 years old or younger; and
3. dependents of Canadian Forces personnel who died while serving on an active mission (students are required to provide sufficient proof from the Canadian Forces that they are dependents of the deceased soldier and that the individual died while on an active mission).

Candidates wishing to be considered for this bursary must contact the Scholarships and Awards Office, UC4018, Smallwood Centre, Memorial University of Newfoundland, St. John's, NL A1B 5S7 or by telephone to (709) 864-3956.

The Quebec-Labrador Foundation Scholarships

The Quebec-Labrador Foundation offers three scholarships at \$500.00 each to students enrolled in studies at Memorial University of Newfoundland. The first award, which is funded from the Larry Shields Fund of the Foundation, is awarded annually on the basis of academic performance and financial need to undergraduate students who are (a) native born to Newfoundland and Labrador; and (b) planning to study, or currently studying, Native American and/or Intuit cultures. In the event that a candidate who meets this specific criteria cannot be found in a particular year, the award may be given to a student in any year from one of the study fields and geographic locations indicated below for the second and third awards.

The second and third awards will be awarded annually on the basis of academic performance and financial need to students in any year providing that they come from one of the following areas: the Northern Peninsula, Fogo, Labrador South, or the Lower North Shore of Quebec (from Natashquan to Blanc Sablon). In awarding these two scholarships, special consideration will be given to those applicants studying in the fields useful to the development of the regions served by the Foundation, e.g. Education, Business, Nursing and Health, Forestry, Fisheries, Engineering and Natural Resources.

150 RCAF Wing Memorial Scholarship

This Scholarship, valued at a portion of the annual accrued interest on the endowment, will be tenable only at Memorial University of Newfoundland to a full time undergraduate student in any year or field of study, based on scholarship standing. Consideration may be given to students demonstrating financial need. The Scholarship will be available to: (i) a Wing member (as defined by the Constitution) or *relative of a Wing member; (ii) an Air Force Veteran or a *relative of an Air Force Veteran; (iii) an Air Cadet/ex Air Cadet of the 515 North Atlantic Squadron (defined as any person who has served for two years and is/was in good standing at present or at the time of departure from his/her Air Cadet Unit). **Note: Relative is defined as son/daughter; grandson/daughter; great-grandson/daughter; brother/sister; nephew/niece.* The Scholarship may be awarded to the same applicant more than once. If in any given year, there is no eligible candidate, two scholarships may be awarded in the following year at the discretion of the trustees. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. Applications are available at 150 RCAF Wing or from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland. Applicants will be required to submit a personal letter of application, stating goals, personal achievements and financial need. Applications are to be submitted in writing to 150 RCAF Wing - Memorial Scholarship Committee, 565 Roosevelt Avenue, Pleasantville, St. John's, NL, A1A 5B2. You may contact us by telephone to (709) 753-8970.

Robert Gillespie Reid Memorial Scholarships

These scholarships are the result of the annual interest from a bequest left to Memorial University of Newfoundland by Mr. Reid. Scholarships valued at two semesters tuition for a full course load, will be awarded annually to students of scholarship standing. These scholarships are open to both Entrance and Undergraduate students.

The Charlie Riggs and Cathy Macdonald Riggs Memorial Award

This award has been established in memory of Charlie Riggs (Bachelor of Engineering- Mechanical, 1988) and Cathy Macdonald Riggs (Bachelor of Science – Psychology, 1984) by AMEC Earth & Environmental (a division of AMEC Americas Limited). The award will be valued at a portion of the income on the endowment and will be awarded annually on a rotating basis between the Faculty of Engineering and Applied Science and the Department of Psychology. Recipients from Engineering can be enrolled in any year of the undergraduate program. Preference will be given to students involved in environmental organizations such as the Newfoundland Environmental Industry Association (NEIA) or environmental initiatives supported by the Professional Engineers and Geoscientists Newfoundland and Labrador (PEGNL). Recipients from Psychology must be undergraduate students majoring in Behavioural Neuroscience and beyond their second year of study. They may demonstrate an interest in the psychology or physiology of communication. The students must meet the minimum academic requirements for an award as defined by the university. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science and the Head of Psychology, Faculty of Science, respectively.

The Russell and Pearl Rose Bursary Fund

The Russell and Pearl Rose Bursary Fund has been established through a generous bequest to the University set forth in the Last Will and Testament of Anita Pearl Rose. Valued at a portion of the income on the investment, it will be awarded to a full-time undergraduate student at Memorial University of Newfoundland beyond the first year and in any field of study who is a graduate of a high school in Newfoundland and Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing.

Royal Canadian Legion Ladies' Auxiliary Scholarships

Two scholarships to the value of \$300.00 each, tenable only at Memorial University of Newfoundland, will be awarded to children or grandchildren of veterans. These awards will be made to applicants with the highest scores in any year, providing they have resided in Newfoundland for a period of five years and have completed at least one year at Memorial University of Newfoundland. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Royal Canadian Legion (St. John's Branch No. 1) Memorial Wall Scholarships

These scholarships, three at \$1,000.00 each, have been donated by St. John's Branch No. 1 of the Royal Canadian Legion. They were made possible through funds raised in the construction of a Memorial Wall located at the Branch's club rooms. The scholarships are tenable only at Memorial University of Newfoundland to undergraduate students in any faculty, school or year and will be awarded on the basis of scholarship standing and financial need.

R.S.V.P. Residence Scholarship

This scholarship is the result of fundraising by the Residence Scholarship and Volunteer Program (RSVP) Committee during the early 1990's. One or more scholarships will be awarded annually from the interest earned on the initial endowment. The scholarship(s) will be awarded to full-time undergraduate students who are beyond first year, resided in residence the previous year and are returning to residence for another year. To be considered candidates must have scholarship standing and must have been actively involved in various aspects of residence life. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Director, Student Housing and Food Services.

The St. John's Port Authority Scholarship

This scholarship, valued at \$2,500.00, was established by the St. John's Port Authority. It will be awarded annually to a student who has lived at least twelve months in Newfoundland before commencing his or her post-secondary studies and who is entering third year or beyond in a marine related field. The scholarship shall be awarded on the basis of academic excellence.

The Jeanne F. Sanger Memorial Scholarship

This scholarship, awarded annually in memory of Jeanne F. Sanger, former student and library staff member of Memorial University of Newfoundland, is under the sponsorship of the family and friends of the late Mrs. Sanger. It is awarded on the basis of scholarship standing and need to a second-year student upon completion of first-year studies. The value of the award will be based on income accruing from the fund during the period of tenure of the scholarship.

The Dr. Maurice Saval Scholarship/Bursary Fund

This fund has been established through the generosity of Dr. Maurice Saval, one of the co-founders in St. John's of the Newfoundland American Insurance Company. From the interest accruing on the fund, a number of scholarships/bursaries will be awarded annually to financially needy and academically deserving undergraduate students. The awards will be open to full-time students in first and second year.

Sceptre Investment Counsel Limited Bursary

Sceptre Investment Counsel, one of Canada's leading pension and mutual fund managers and an important partner to Memorial

University of Newfoundland for several years, has established this bursary as a demonstration of its commitment to community support. Valued at the accrued interest on their endowment, one or more bursaries will be awarded annually on a rotating basis between undergraduate and graduate students in any field of study. Successful candidate(s) must be Newfoundland residents demonstrating financial need and displaying qualities of leadership. In the case of undergraduates, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards using scholarship standing as the primary determinant. Graduate students can make application in writing to the Dean of Graduate Studies. The award will be made by the Dean on the recommendation of the Awards and Medals Committee.

Sodexho Scholarship

This scholarship, valued at the annual interest, is the result of a donation to the University from Sodexho. It will be awarded on the basis of scholarship standing to a full-time undergraduate student in any year or field of study.

TD Graduate Bursary for Environmental Study

The TD Graduate Bursary for Environmental Study was established by a gift from TD Bank Group to Dare To: The Campaign for Memorial University. The bursaries will be awarded to full-time graduate students enrolled in any program at Memorial University of Newfoundland, provided they are pursuing research and/or study in environmental-related subjects. Recipients must meet the academic criteria for a Bursary. The number and value of the bursaries available each year will depend on the funds available for distribution as per University policy, as well as the applicant pool, and will be determined at the discretion of the Dean, School of Graduate Studies. The bursaries will be awarded by the Dean, School of Graduate Studies based upon recommendations of Deans and/or Department Heads of any eligible discipline.

The Toronto Alumni Scholarship

This scholarship is being established through the fund raising efforts of the Toronto Alumni Branch of the Memorial University of Newfoundland Alumni Association. The scholarship, valued at a portion of the income on the investment, will be available to an undergraduate student, beyond first year, in any field of study who is a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University) and who demonstrates both academic excellence and leadership qualities. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies.

The James Tucker Memorial Scholarship

This scholarship is the result of an endowment which began in 1997 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at a minimum of \$500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 864-3956.

The James J. Walsh Memorial Scholarships

These two scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University of Newfoundland and are valued at \$500.00 each. One scholarship will be tenable in the Faculty of Business Administration. (Refer to **Faculty of Business Administration**). The second scholarship will be open to any student enrolled full-time at Memorial University of Newfoundland who has scholarship standing and demonstrates financial need.

The William and Elizabeth (Burdett) Walsh Memorial Bursary

The William and Elizabeth (Burdett) Walsh Memorial Bursary has been established by a gift of \$15,000 from Mr. and Mrs. Walsh's family. Billie and Lizzie (Burdett) Walsh, as they were known, were Labradorians from 'Mary's Harbour' and 'Sandy Hills' who settled in Cartwright. Both of them were keenly interested in the education of their children. It will be awarded to a Labrador student registered in any faculty or year at Memorial University of Newfoundland who is a graduate of a high school in Labrador and consideration will be accorded the following priority: 1) Cartwright, 2) Mary's Harbour, 3) the remainder of the Labrador coast and straits, and 4) all of Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with preference given to financial need.

The War Veterans Family Award

This award has been established to give financial assistance to Canadian and Newfoundland War Veterans who served overseas and their families. It is valued at \$2500 annually and is renewable for up to three additional years provided the recipient maintains the minimum academic requirements for an award and continues as a full-time undergraduate student at the University. To be eligible for this award, students must show that they are the child, grandchild, spouse or other dependant of a Canadian or Newfoundland War Veteran, or are themselves a Canadian or Newfoundland War Veteran. The applicant must provide the war veteran's name, service branch and service number. The recipients will be enrolled in any year of study at Memorial University of Newfoundland and would have graduated from a high school in Newfoundland and Labrador. Preference will be given to applicants who have demonstrated financial need. Recipients must meet the minimum academic requirements for an award as defined by the University. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018 University Centre or by telephone to (709) 864-3956. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Women's Association of Memorial University of Newfoundland Faculty/Staff Scholarship

The Women's Association of Memorial University of Newfoundland (WAMUN) has established a \$1,200.00 annual scholarship available to students in any faculty or year at Memorial University of Newfoundland, providing they are either:

- children of full-time faculty or staff; or
- children of deceased or retired faculty or staff, who at the time of death or retirement, were employed full-time.

This scholarship is based on scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Women's Association of Memorial University of Newfoundland Mature Student Undergraduate Scholarship

This scholarship, valued at \$1,200.00, is awarded annually from funds donated by the Women's Association of Memorial University of Newfoundland. It is restricted to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of three years or more. They must have been residents of Newfoundland and Labrador for at least a year prior to enrolling. This scholarship is awarded in Winter semester based on Fall semester results in which a minimum average of 75% will be required. Financial need will be considered. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Women's Association of Memorial University of Newfoundland Single Parent Undergraduate Scholarship

This scholarship, valued at \$1,200.00, is awarded annually from funds donated by the Women's Association of Memorial University of

Newfoundland. It is restricted to single parents enrolled in any faculty, school or year of study at Memorial University of Newfoundland. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Women's Association of Memorial University of Newfoundland Undergraduate Scholarship

This scholarship, valued at \$1,200.00, is awarded annually from funds donated by the Women's Association of Memorial University of Newfoundland. It is restricted to undergraduate students who are beyond second year of studies and who will continue at Memorial University of Newfoundland in an academic program. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.

Dr. James A. Wright Memorial Scholarship

One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at \$1,000, is available to full time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Grenfell Campus. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Zonta Club Scholarship

This scholarship has been established by members of the Zonta Club to encourage and assist women to develop their full academic potential. Valued at a minimum of \$1,000.00, it is open to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of five years or more. It will be awarded in Winter semester based on Fall semester's results whereby a minimum average of 75% will be required. In deciding on candidates of equal academic attainment, financial need may be considered.

4.2 Faculty of Arts

The following are available to Faculty of Arts students based on a recommendation from the Dean, Faculty of Arts or the appropriate Director or Department Head.

The Atreya-Haritha Scholarship in Mathematics

This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at \$1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

The Edna Baird-Stephenson Scholarship in Women's Studies

This scholarship, valued at \$500.00, has been established by the Memorial University of Newfoundland Alumni Association, through its Annual Fund. It honours distinguished alumna Edna Baird-Stephenson, B.A., B.H.S., one of the first female graduates of Memorial University College and long-time employee of Memorial University of Newfoundland, now retired. The scholarship is open to full or part-time students enrolled in the Women's Studies Program at Memorial University of Newfoundland who have successfully completed a minimum of 21 credit hours in two of the three semesters in the previous scholarship year and achieved a minimum 75% average at the end of those two semesters. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on a recommendation from the Head, Department of Women's Studies.

Marcella M. Besaw Memorial Volunteer Award

This award has been established by the family of Marcella M. Besaw (1953-2010). Mrs. Marcella Besaw was known for her generosity to others and her service to her community. This scholarship is valued at \$200.00 annually and will be awarded to a student entering the Bachelor of Social Work (B.S.W.) as a Second Degree program. The recipient must have demonstrated outstanding commitment to the service of humanity through involvement in volunteer/work experience relevant to the study of social work. The recipient must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Social Work.

The E.A. Bishop (1889-1953) Memorial Scholarship

This scholarship, established to honour the memory of E.A. Bishop, a teacher in Newfoundland and Labrador, is the result of a generous donation to Memorial University of Newfoundland by his son, John. Interest on the fund will provide a scholarship to full-time undergraduate students after completion of their first year at Memorial University of Newfoundland who are dependants of teachers in the public school system of Newfoundland and Labrador. Applicants must be students in the Faculties of Arts or Science and be of scholarship standing. The scholarship is valued at approximately two semesters tuition for five courses. If, in any year, there is no eligible candidate, the scholarship will not be awarded; however, a student may be awarded the scholarship more than once. It will be awarded on the basis of a special application which may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Bishop Spencer College Alumni Association Bursary

This bursary was established by the Bishop Spencer College Alumni Association. The bursary will be valued at a portion of the income from the endowment and will be awarded annually to a female student who is enrolled in the fourth year of any undergraduate degree program in the Faculty of Arts. The recipient must meet the minimum academic and financial requirements for a bursary as defined by the University. The Bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Arts.

The Dr. Jim Black Award in Linguistics

This prize, valued at \$250, is made possible through an annual donation from Jim Black, a retired faculty member in the Department of Linguistics. It will be awarded to a first or second year student who receives the highest combined marks in both Linguistics 1103 or 2103 and Linguistics 1104 or 2104 within the same academic year. The recipient must have declared a major in Linguistics by the end of the academic year in which the courses were completed. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Linguistics.

W.J. Blundon Scholarship

The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Mathematics and Statistics.

The Marion and Rod Browne Family Memorial Scholarship

This scholarship established by Mr. Rod Browne and his wife Marion in memory of deceased members of the Browne family is tenable at Memorial University of Newfoundland and is valued at a portion of the income on the investment. It is based on academics and awarded to a student majoring in French. Selection will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French & Spanish.

The Maurice J. Burke Memorial Scholarship

This scholarship, valued at a portion of income on the investment, was established by the family of the late Maurice Burke. Mr. Burke served in the Provincial Department of Education in the Teacher Certification Division for thirty-five years. He was also a columnist and author with a personal and professional interest in Newfoundland culture and folklore celebrating the uniqueness of Newfoundland outport life. It will be awarded alternately to a full-time graduate or undergraduate student in the Folklore Department on the basis of scholarship standing. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases the scholarship will be awarded on the basis of a recommendation from the Head, Department of Folklore.

CFUW St. John's Scholarship for Women's Studies

This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John's. One scholarship, valued at \$2000, may be awarded annually, to a woman enrolled full-time in the Master's program in the Department of Women's Studies. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Head, Department of Women's Studies.

The Canadian Tire Scholarships

These scholarships are the result of an endowment to the University by Canadian Tire Corporation Limited as part of their commitment to community service and to Memorial University of Newfoundland via the *Opportunity Fund* Campaign. The endowment will fund three scholarships in the Faculty of Arts, valued at the annual interest on the initial endowment. The scholarships will be awarded to undergraduate students entering third or fourth year in the Faculty of Arts - one each to students majoring in Economics, Linguistics, and Sociology. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head of each of the three academic departments.

Reverend Professor A.C. Cheyne Scholarship in Religious Studies

This fund has been established by the estate of the late Reverend Professor A.C. Cheyne. It is based on scholarship standing and is awarded to a full-time undergraduate student in any year of study who is majoring in Religious Studies. The scholarship will be valued at a portion of the income on the investment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Religious Studies.

The Captain James Cook Memorial Scholarship

A fund was established in 1979 by members of the Department of Geography to honour the memory of Captain James Cook (1728-79), explorer, navigator and cartographer, whose years of painstaking mapping of the coasts of Newfoundland and Labrador laid the basis for a comprehensive and scientific knowledge of the geography of the province. One or more scholarships, valued at not less than \$600.00, will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of Geography to a student or students demonstrating particular merit in Geography.

The Clayton and Alice Cook Scholarship

This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required to identify students in the first category and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Michael Cook Scholarship

The Michael Cook Scholarship will be awarded annually to a student who has completed English 3350 (Theatre) and English 3351 (The Physical Stage) and who shows definite promise and purpose in pursuing the study of theatre and drama at Memorial University of Newfoundland. The value of the scholarship is \$1,000.00. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of English Language and Literature.

The John and Jane Crosbie Scholarship

This scholarship is the result of an endowment to the University started by the Honourable John C. Crosbie, P.C., O.C., Q.C., in 1996 while he was Chancellor and Campaign Chair and further funded by volunteers of *The Opportunity Fund* in honour of Mr. Crosbie's commitment to Memorial University of Newfoundland. Valued at a portion of the annual income on the initial endowment, the scholarship(s) (each valued at a minimum of \$1,000.00) will be awarded to one or more undergraduate student(s) beyond first year in the Faculty of Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

The John and Anna Daley Scholarship

This scholarship, valued at a minimum of \$1,000.00 annually, has been established by the Daley family in honour of their parents John and Anna. It will be awarded on the basis of scholarship standing to an undergraduate student beyond first year in the Faculty of Arts. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Arts.

The Dr. Madeleine Darte Scholarships in English

These scholarships, up to four each year and having a value of not less than \$250.00 each, have been established by Mrs. J.M. Darte and Mrs. France Darte McCabe in memory of Dr. Madeleine Darte, Lecturer and Assistant Professor of English at this University from 1971-75. In awarding these scholarships, preference will be given to students in the Honours program in English, but students in good standing in the General Degree program in English will also be considered. In addition to the student's academic record, financial need may also be taken into account. Applications for these scholarships should be sent to the Head of the Department of English. Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of English.

The Sally Davis Scholarship

The Sally Davis Scholarship has been established to celebrate the memory and life work of Sally Davis. Contributions to the scholarship fund have come from family and friends who were so lovingly and generously influenced by Sally during her long life. The scholarship, valued at \$1000.00, will be awarded annually in the Spring Semester. Eligible candidates must be full-time students in the Master of

Gender Studies program. Preference will be given to a candidate studying in one of the following areas: peace and international understanding, literacy, children, labour movement, gun control, or environment. If there is no qualified graduate applicant in a particular year, the award may be offered to an undergraduate (who is registered in a minor in Gender Studies who is in financial need. An individual may receive the award twice but no more. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Gender Studies Program. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Gender Studies Program.

The Dominion of Canada General Insurance Company Scholarship

This scholarship is the result of a donation to Memorial University of Newfoundland by the Dominion Group Foundation. The scholarship, valued at the annual interest, will be awarded to a student in first year of the Faculty of Arts. It will be awarded on the basis of scholarship standing and financial need.

The English Department Faculty Award

This award has been established, and is supported by, faculty and staff of the Department of English Language and Literature. Valued at a portion of the income on the investment, it will be awarded annually to a full-time undergraduate student with a major in English. To qualify, candidates must be in their third year of study or beyond (with a minimum of 21 credit hours), have completed coursework in Canadian Literature, American Literature and Shakespeare, and meet the minimum academic requirements for an award as defined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of English.

The Ernest Joseph Ennis Scholarship

This scholarship was established by Ernest Joseph Ennis of Merasheen, Placentia Bay, retired School Supervisor, in memory of Dr. Hatcher, Ms. Monnie Mansfield, and Professors Fraser, Gillingham, and Andrews of the Memorial University College. This scholarship, valued at the accrued interest, shall be awarded to an entrance student of scholarship standing with preference to a student planning to study Economics or Political Science.

The David and Ethel Evans Scholarship in History

The David and Ethel Evans Scholarship in History was established by Thomas Evans in memory of his parents. Valued at \$1500 annually, it is available to a full-time student with scholarship standing who is enrolled in the final year of the Honours Degree Program in History. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on a recommendation of the Head, Department of History.

The Faculty of Arts Annual Fund Awards

These awards are made possible each year by the generous donations of alumni and friends to the Faculty of Arts Annual Fund. Valued at a minimum of \$500 they will be granted annually to undergraduate students enrolled in a Faculty of Arts program. First preference is for students enrolled in a study abroad program within the Faculty of Arts. The recipients must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland and the number of awards available annually will be at the discretion of the Dean, Faculty of Arts. The awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Arts.

The Faculty of Arts Dean's List Scholarship

This scholarship, established by donors to the *Opportunity Fund* who have directed that their donations be used for scholarships within the Faculty of Arts, is valued at approximately \$1,000.00 annually. It is awarded to a student who achieves high ranking on the Dean's List of the Faculty of Arts and who meets the requirements for scholarship standing, but who is not in receipt of other significant scholarship funding. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The Leida Finlayson Memorial Scholarship

This fund has been established by relatives and friends of Leida Finlayson, former General Manager of the Newfoundland Historic Trust. The scholarship, valued at a portion of the accrued interest, is to be awarded annually to a Memorial University of Newfoundland undergraduate student, beyond second year, studying political science and/or history. Based on scholarship standing and financial need the scholarship will be awarded to a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The E.B. Foran Memorial Scholarship

This scholarship, awarded in memory of the late Mr. E.B. Foran, longtime associate of municipal government in St. John's, is valued at \$500.00 and is sponsored by the Newfoundland and Labrador Federation of Municipalities. It is open to students beyond first year at Memorial University of Newfoundland who demonstrate scholarship standing and who are majoring in Political Science with an emphasis on municipal government. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Head, Political Science Department.

The Senator Eugene Forsey Scholarship

Established by the Government of Newfoundland and Labrador, this scholarship honours a native Newfoundlander, Senator Eugene Forsey, as one of Canada's foremost authorities on the Canadian Constitution, and recognizes his great commitment to Canada and this province. The scholarship, tenable at Memorial University of Newfoundland, and valued at \$2,000.00, shall be awarded to a student in third year, or beyond, who has shown excellence in Canadian Policy Analysis or Canadian Governmental Studies.

The G. Alain Frecker and Helena M. Frecker Memorial Scholarship

This scholarship has been established by the family of G. Alain Frecker and Helena M. Frecker to honour their parents' life-long commitment to Memorial University of Newfoundland and to the pursuit of excellence in education. Helena M. Frecker was the first graduate of Memorial College and a long-time faculty member in the Department of English at Memorial University of Newfoundland. Dr. G. Alain Frecker was the first faculty member in the department of Engineering at Memorial College. He maintained a close relationship with Memorial University of Newfoundland as a senior public servant, as a member of the Provincial Cabinet, and as University Chancellor from 1971 to 1979. This scholarship, tenable at Memorial University of Newfoundland and valued at a portion of the accrued interest on the endowment, will be awarded to an undergraduate student beyond second year in the Faculty of Arts and majoring in the Humanities or any Social Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

Daniel Freeman Memorial Scholarship

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the

scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

The Allan and Clara Gillingham Scholarship in Russian Studies

On the occasion of their fiftieth wedding anniversary, this scholarship has been established by Mr. and Mrs. Gillingham, who both hold fond memories of studying the Russian language themselves. Valued at \$500.00, this scholarship will be awarded annually to a student who is pursuing a program of Russian Studies at Memorial University of Newfoundland. Candidates will be selected on the basis of academic excellence. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Head, Department of German and Russian.

James A. Good Scholarship in Philosophy

This scholarship has been established by friends and colleagues in Memory of James A. Good. Mr. Good was a successful investment banker and Partner at Capital Canada Limited in Toronto. He earned his B.A. in Philosophy and Political Science from Memorial University of Newfoundland, an M.A. in Philosophy from Dalhousie University, and undertook doctoral studies in Philosophy at the University of Toronto where he was also a lecturer. He was Chief of Staff to the Honourable John C. Crosbie, a position he maintained across the portfolios of Justice, Transport, Finance, International Trade and Fisheries. Valued at a portion of the income on the investment, the scholarship will be awarded to an undergraduate student majoring in Philosophy on the basis of scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Philosophy.

The Graham Family Scholarship

This scholarship, established by Mrs. Kathleen Birchall and Dr. David Graham, is valued at a portion of the income on the investment. It will be tenable at Memorial University of Newfoundland and will be awarded to an outstanding student majoring in French with preference given to students enrolled in the Honours program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French and Spanish.

The R. Bertram Green Class Scholarship

This scholarship is the result of a bequest to the University by Rev. Dr. Robert Bertram Green. Valued at the annual interest on the initial endowment, it will be awarded to an undergraduate student in second or third year in the Faculty of Arts, majoring in either Classical or Modern Languages, Economics, English, History, Philosophy, or Political Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

Greystone Managed Investments Scholarship

This scholarship, valued at a portion of the income on the investment, is made possible by a generous contribution from Greystone Managed Investments. This scholarship will be awarded, to an undergraduate student beyond first year, on a rotating basis between the Faculty of Science and the Faculty of Arts. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty on rotation.

The Mary A. Griffiths Memorial Bursary Fund for Folklore Field Research (Undergraduate)

This fund has been established by the Memorial University of Newfoundland Folklore Society in memory of Mary A. Griffiths, B.A. (Folklore). One or more bursaries valued at a minimum of \$250.00 each will be awarded annually to undergraduate folklore students who wish to pursue field research. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Folklore. Selection will be made on the basis of a submitted research proposal as well as demonstrated financial need. Application forms and guidelines are available from and should be submitted to the Folklore Department. The deadline date for submission of applications is January 31. If there are no suitable candidates in a given year the bursaries will not be awarded.

The Alan D. Hall Award

This award has been established in memory of Alan D. Hall by his friends and family. A longtime faculty member in the Department of English at Memorial University of Newfoundland, he was deeply engaged in Music and Theatre throughout his life. The award, valued at a portion of the income on the investment, will alternate between the School of Music and the Faculty of Arts on a yearly basis. For the School of Music the award will go to a Music student beyond first year who demonstrates a high level of achievement on their instrument of applied study as well as involvement in and commitment to the music community. For the Faculty of Arts the award will go to a student beyond first year enrolled in the program leading to a Diploma in Performance and Communications Media or to a student enrolled in the program leading to a Bachelor of Arts degree with a major in Drama and Music. The eligible student must demonstrate a high level of achievement in theatre, as well as involvement in and commitment to the theatre community. To qualify for this award, students must meet the academic requirements for an award as outlined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music or the Dean, Faculty of Arts.

The Professor Peter Hart Memorial Scholarship

This scholarship has been established in memory of Canada Research Chair in Irish Studies and Department of History Professor, Dr. Peter Hart. His work was marked by a commitment to writing well and accessibly, and by his innovative approach to research and analysis – in particular for opening up new questions through his application of social science methods and concepts to problems of Irish history. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time doctoral student in the Faculty of Arts. Candidates must meet the minimum academic requirements for the scholarship as defined by the University and applications must include academic transcripts, a research statement of no more than 500 words, a writing sample, two letters of reference and an academic CV. In the event of more than one eligible candidate, preference will be given to a student whose research focus falls into one or more of the following areas: Irish history or politics; Newfoundland and Labrador history or politics; political violence; or revolution. The Scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Awards and Medals Committee.

The Gunther Hartmann Scholarship

This scholarship has been established by family, friends and colleagues in memory of Dr. Gunther Hartmann who was a member of the Department of Political Science from 1968-2000. Dr. Hartmann fostered student interest in international affairs not only through his teaching, but through the United Nations Association and the Model United Nations program. In awarding the scholarship preference will be given to a Political Science student, third year or beyond, who has excelled in courses in International Relations, International Organization, or International Law and has been active in Model United Nations or similar organizations. Based on scholarship standing the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Political Science.

The Michael Harrington Research Prize in Newfoundland History

This award was established by the family of Michael Francis Harrington Sr., journalist, author and Newfoundland historian. The prize is

valued at a minimum of \$500.00 and will be awarded annually to an undergraduate or graduate student doing research in Newfoundland history. To be considered, undergraduate students must be history majors planning to do research for a course in Newfoundland history or towards an honours thesis. Graduate students must be writing a thesis on some aspect of Newfoundland history. In some instances it may be awarded as a travel grant which will assist students with travel expenses incurred while undertaking their research. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History. In the case of graduates it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of History.

Heaslip Scholarship

This scholarship is made possible by a generous donation from The William and Nona Heaslip Foundation. Two scholarships, valued at \$15,000.00 each, will be available to students in their second year of undergraduate studies at Memorial University of Newfoundland. To be eligible students must be registered for full-time studies, must have scholarship standing, must be in financial need, and must have demonstrated outstanding involvement in university and/or community affairs. Preference will be given to students in the Faculty of Arts. This scholarship is renewable for an additional two years providing full-time registration, scholarship standing, financial need and continued outstanding involvement in university and/or community affairs are demonstrated. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The Aidan Hennebury Memorial Scholarship in Classics

This scholarship is the result of an endowment to Memorial University of Newfoundland via the *Opportunity Fund Campaign* by the law firm of Martin, Whalen, Hennebury & Stamp in memory of former partner Mr. Aidan Hennebury. The donation will fund a scholarship valued at the annual interest on the endowment. The scholarship will be awarded to an undergraduate student beyond second year who is majoring in Classics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Classics.

The Elizabeth C. Hesson Memorial Scholarship in German

This scholarship was established in memory of Dr. Elizabeth C. Hesson, Head of the Department of German and Russian from 1986 to 1989 and a member of that Department from 1969 to 1989, through the generosity of her family, colleagues and friends. The scholarship has a value of \$1,000.00, and is normally awarded to a German major who has completed at least the second year of study at Memorial University of Newfoundland and who has demonstrated a high level of academic performance in German. The scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of German and Russian, and is designed to assist the student to undertake a program of German studies in German-speaking Europe. In addition to academic excellence, financial need may be taken into account. This scholarship will not necessarily be awarded every academic year.

The Hollinger English Language and Literature Scholarship

This scholarship, donated by Hollinger Inc., will be awarded to a Memorial University of Newfoundland student who is beyond second year and is majoring in English Language and Literature. It will be valued at the annual interest and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of Scholarship Standing and upon recommendation of the Head, Department of English.

The A.C. Hunter Travel Award in French

This award has a value of not less than \$600.00 and is awarded annually. It has been established in memory of Dean A.C. Hunter through the generosity of Mrs. Hunter, the Provincial Government of Newfoundland, the Board of Regents of Memorial University of Newfoundland and Dean Hunter's former students and friends. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in French who wishes to pursue a program of study of one or more semesters' duration, in French language, literature or culture, at a recognized institution in metropolitan France. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Muriel H. Hunter Award in Spanish

This award, valued at \$600.00, is awarded out of income derived from a bequest to the University by the late Mrs. Muriel H. Hunter, wife of the late Dr. A.C. Hunter and former Lecturer in Spanish at the Memorial University College. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in Spanish who wishes to pursue a program of study of one or more semesters' duration, in Spanish or Spanish-American language, literature or culture, at a recognized institution in metropolitan Spain or Latin America. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Imperial Tobacco Canada Scholarship in Archaeology

This scholarship, established by Imperial Tobacco Canada in support of the *Opportunity Fund Campaign*, has a minimum value of \$2,000.00 annually. It will be awarded to a senior student in archaeology who is registered in (or is planning to enter) the honours program, specializing in historic archaeology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Archaeology.

The H.H. Jackson Travel Scholarship in German

This scholarship was established upon the retirement of Dr. Herbert H. Jackson, Professor Emeritus and first Head of the Department of German and Russian from 1967 to 1980, through the generosity of his colleagues and students. The scholarship has a minimum value of \$500.00 and is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Department Head, to a candidate who has completed at least the second year of study at Memorial University of Newfoundland, has demonstrated a high level of academic performance in German, and is planning to undertake a program of studies and/or work assignment in a German-speaking country.

The Jeroboam Poetry Prize in English

The proceeds from a sum of money donated to the University in 2001 by the editors of Jeroboam Books will be awarded in an annual poetry competition administered by the Department of English, Memorial University of Newfoundland. The competition will be open to full-time or part-time students in any year of study at the University upon submission of original, unpublished work. In keeping with the tradition of Jeroboam, the work should reflect some aspect of traditional or contemporary Newfoundland. Entry forms and further information may be obtained by contacting the Department of English. The selection of winners will be the responsibility of a special committee composed of the Department of English faculty members. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature.

The Barend Kieffe Memorial Award

This award was established by friends of Dr. Barend Kieffe, in his memory. It is a book prize to be given annually to a student in Philosophy. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Philosophy.

The Dr. B.K. Kim Scholarship in Statistics

This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least \$500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Cornelia Learning/Annie Butler Moores Scholarship

In memory of her maternal and paternal grandmothers, Mrs. Dorothy Young of Pasadena, California, has established the Cornelia Learning and Annie Butler Moores Scholarship in the Faculty of Arts. This perpetual scholarship, valued at approximately \$500.00, is open to Arts students of scholarship standing with demonstrated financial need.

The John and Lucy Lee and Family Memorial Bursary

This bursary has been established by family members to honour the memory of John and Lucy Lee of Petty Harbour and their deceased children. It is valued at a portion of the interest on the endowment and will be awarded to a full-time student in Religious Studies. The recipient of this bursary will have demonstrated scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Religious Studies.

The Mrs. E.D. Matthews Memorial Scholarship in Mathematics and Statistics

This scholarship honours the memory of the late Mrs. Evelyn Matthews who taught in the Department of Mathematics and Statistics, Memorial University of Newfoundland, from 1959-78. It has a value of at least \$500.00, and will be awarded on an annual basis to an undergraduate student whose major subject of study is Mathematics or Statistics. The scholarship will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Susan McCorquodale Memorial Scholarship

Established by her friends and colleagues, this scholarship honours the memory of Susan McCorquodale, former member of the Political Science department at Memorial University of Newfoundland. The scholarship will be valued at the annual interest on the endowment and shall be awarded to a senior student majoring in Political Science who is concentrating in one of the areas to which Susan was committed - Newfoundland Politics, Public Policy or Public Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Political Science.

The Reverend G. Lloyd Morgan Memorial Scholarship

This scholarship, awarded annually, has been donated by Mr. Baxter Morgan and his wife Lorraine to the Religious Studies Department of the University in memory of Mr. Morgan's brother, The Reverend G. Lloyd Morgan, B.A., B.D., who served with the United Church Ministry in Newfoundland for over twenty-five years.

It has a value of \$500.00 and is awarded for academic excellence to a student who has completed two years of study in the Religious Studies Department of the University. Preference will be given to a student who has a major interest in the comparative study of religion. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Religious Studies Department.

The John M. and Elsa S. Morgan Scholarships

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of \$1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to two to the Department of Anthropology
- up to two to the Department of Archaeology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Mary Florence Mugford (Lane) Memorial Award for Social Work

This travel award was established by the family of Mary Florence Mugford (Lane) to honour their mother as a woman who persevered in life. This award is valued at a portion of the income from the endowment and will be awarded annually. The recipient will be a student in the School of Social Work who is traveling to a rural placement in the field of mental health and/or addictions. Preference will be given to a student who graduated from a high school outside of the St. John's metropolitan area. The recipient must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Social Work.

The MUN Classics Society Prize in Latin

This prize has been established by the MUN Classics Society of 2001-2002 to reward students achieving academic excellence. This prize will be valued at approximately \$150.00 annually. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Classics, to the student who is working toward an undergraduate degree in Classics and receives the top mark in the Classics 1120 and 1121 (Introduction to Latin) courses on the St. John's campus.

The Stephan Muzychka Bursary in Spanish

This bursary, valued at a portion of the annual interest, has been established by an endowment from the family of Professor Muzychka who taught Spanish Language and Literature at Memorial University of Newfoundland from 1960 until his death in 1985. Mr. Muzychka was born in 1926 in Pukiv, Ukraine. He attended the Ukrainian Teacher's Training College and later the University of Madrid where he received his MA in Philosophy in 1959. He joined Memorial University of Newfoundland's Department of Modern Languages (at the old Parade Street Campus) and later became Head of the Department of Spanish. First preference, for this bursary, will be to a student majoring or minoring in Spanish who is beyond second year. If no candidate is available from the first preference the bursary will be awarded to a student beyond second year studying modern languages. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need and a recommendation from the Head, Department of French and Spanish.

The Newfoundland & Labrador Hydro Scholarships

These scholarships are the result of an endowment to the University provided by Newfoundland and Labrador Hydro. Valued at the annual interest on the endowment, up to ten of these scholarships will be awarded, initially in amounts of \$1,000.00 each and increasing as endowment income permits, to undergraduate students in the Faculty of Arts at the second year and beyond. Half of the available scholarships will be for students of scholarship standing majoring or minoring in one of the interdisciplinary programs in the Faculty, and half will be for students of scholarship standing who are named to the Dean's List and who achieve exceptionally high overall averages, normally 85% or better. Those directed at students enrolled in interdisciplinary programs will be awarded on the recommendation of interdisciplinary Program Co-ordinators; those for Dean's List students will be awarded on the recommendation of the Dean of Arts. In both cases financial need may be taken into consideration. Preference will be given to students meeting these criteria who are not already in receipt of significant scholarship funding from other sources.

The Newfoundland St. Andrew's Society Scholarship

This scholarship is the result of a gift from the Newfoundland St. Andrew's Society to Memorial University of Newfoundland. Valued at a portion of the interest on an endowment, the scholarship will be awarded to a student from the Faculty of Arts whose studies and accomplishments most closely support the aims of the Newfoundland St. Andrew's Society; To foster and encourage the love of Scotland, its history, literature, music and national games in a Newfoundland context. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Honourable Fabian A. O'Dea Q.C., LL.D Scholarship

This scholarship has been established by the O'Dea family in memory of their father, the Honourable Fabian O'Dea; Memorial University of Newfoundland Alumnus, Rhodes Scholar, Lieutenant Governor of Newfoundland, and recipient of honorary degrees from both Memorial University of Newfoundland and The Law Society of Newfoundland. It is valued at \$1,000 per year. To commemorate Dr. O'Dea's work in Newfoundland cartography, the scholarship is to be awarded to a student majoring in Geography who achieves scholarship standing. Preference is to be given to a student who is physically or learning disabled but if there is no such candidate in a given year it will be awarded to any eligible undergraduate Geography student. The scholarship is to be awarded by The Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Geography.

The Dr. Paul O'Neill Scholarship for Excellence in Newfoundland and Labrador Studies

The Historic Sites Association of Newfoundland and Labrador established this scholarship in honour of Dr. Paul O'Neill, LL.D., C.M., in recognition of his contributions to the study and promotion of Newfoundland and Labrador culture and history. The scholarship is valued at \$1000 and will be awarded annually to an undergraduate student at Memorial University of Newfoundland, who is enrolled in a Bachelor of Arts degree program. There is no restriction by major or minor, but applicants must have shown excellence and outstanding enthusiasm and interest in some area of Newfoundland Studies as part of their degree program. Preference will be given to a student who has not received other major scholarships in the same academic year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Arts.

The Senator Gerald R. Ottenheimer Language Scholarship

This scholarship, valued at the annual interest on the initial endowment, has been established via *The Opportunity Fund* in memory of Senator Ottenheimer through the generosity of White Ottenheimer & Baker, Barristers & Solicitors. It will be awarded on a rotating basis to students majoring in one of the language programs or the English Language and Literature programs at Memorial University of Newfoundland (graduate or undergraduate). At the undergraduate level it will be awarded on the basis of scholarship standing to a student in second year or beyond who plans to pursue one of the above noted areas of specialization. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Stuart O. Pierson Prize

The Stuart Pierson prize, valued at a portion of the annual interest, will be awarded annually on the joint recommendation of the Head of the History department and the Co-ordinator of the Masters of Philosophy program in Humanities. Eligible students will be enrolled full time, in either the Masters of Philosophy Humanities program, or in the M.A. or B.A.(Hons.). programs in History. Preference will be given to students who show particular promise in the history of ideas, historiography, or the history of science. In the case of undergraduate students, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies.

Mary Pittman-Robbins Scholarship in Archaeology

This scholarship, valued at a portion of the income on the investment, has been established by students and colleagues of Mary Pittman-Robbins. The scholarship is to be awarded to a senior student in Archaeology who has completed the honours program specializing in Prehistoric Archaeology or Physical Anthropology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Department Head in consultation with the Archaeology faculty.

The Dr. Clarence W. Powell Memorial Scholarship

This scholarship was established in memory of honorary graduate of Memorial University of Newfoundland, Dr. Clarence W. Powell. It is valued at a minimum of \$1,000.00 annually and will be awarded to a student entering the third year of the Political Science Program who has scholarship standing, has shown leadership in university and/or community activities and who has not received another scholarship administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Political Science.

The Psychology Society Award

The Psychology Society Award has been established by the students of the Psychology Society to encourage and support their fellow students. This award will be given to an undergraduate student majoring in Psychology or Behavioural Neuroscience who is beyond their second year of study and meets the minimum academic requirements for an award. It will be based on academic achievement in Psychology or Behavioral Neuroscience courses as well as involvement in the internal and external Psychology or Behavioral Neuroscience community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Psychology.

The Cpl. Michael J. Roberts Memorial Award in Police Studies

This award has been established in memory of Tampa Police Officer, and Memorial University of Newfoundland graduate, Cpl. Michael (Mike) Roberts. Born in Florida and raised in Newfoundland, Cpl. Roberts died tragically in the line of duty on August 19, 2009. He served his community with honour and distinction over his many years on the force and earned numerous commendations and awards. Valued at a portion of the income on the endowment, the award will go to a student with demonstrated financial need who is enrolled in the Diploma in Police Studies program at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for an award as outlined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on

Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Coordinator, Police Studies Diploma Program.

The Bobbie Robertson Scholarship in History

This scholarship was established by friends, family and colleagues of the late Bobbie Robertson. It will be valued at the annual accrued interest on the initial endowment and will be awarded on the basis of scholarship standing to a history major with preference given to students in Newfoundland and Labrador history. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History.

The Dr. Grenville R. Robinson Award in French

This award was established in memory of the late Dr. Grenville Robinson, a former professor of the Department of French at Memorial University of Newfoundland. Valued at a portion of the income on the investment, it will be awarded each Spring to a student in the Department of French on the basis of his/her performance in any three or more of the following French courses: 3100, 3101, 3500, 3501, 3502, 3503, 3504 and 3506 and his/her contribution to the general activities of the Department. The successful recipient must be a full-time student and have completed between 60-90 credit hours towards a Bachelor of Arts at Memorial University of Newfoundland with a major or minor in French. The recipient will also receive a book prize and a certificate. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French and Spanish.

The Rotary Club (St. John's Northwest) Scholarship

This scholarship has been established by the Rotary Club of St. John's Northwest. It is valued at \$1,000.00 annually and will be awarded to a full-time student beyond first year, pursuing a Bachelor of Arts or a Bachelor of Science with a major in one of the Social Sciences, who has demonstrated a commitment to community service. The recipient of this scholarship will be a long-term resident of Newfoundland and Labrador who completed high school in this province and will have demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the joint recommendation of the Dean of Arts and the Dean of Science. This scholarship will be presented at one of the regular meetings of the Rotary Club of St. John's Northwest and the recipient will be asked to speak about their goals and community service work.

Dr. Edward ("Ted") Russell Scholarships in English

In memory of Dr. Edward ("Ted") Russell, author and teacher, who was a Lecturer and Assistant Professor of English at this University from 1965-73, a fund has been established to provide one or more scholarships for students majoring in English. These scholarships will be awarded to promising students who have completed their first year of University studies and are entering the second year of a degree program with English as their major subject. In addition to the student's academic records, financial need may also be taken into account. Applications should be sent to the Head of the Department of English. Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of English.

The Russian Ambassador's Award for Excellence in Russian Language and Literature

This award was established in 1999 to commemorate the 200th Anniversary of the birth of the Russian poet Alexander Pushkin. It is a book prize to be given annually for outstanding achievements in studying the Russian Language and Literature. It will be awarded to an honours student in the Russian Language and Literature program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Co-ordinator, Russian Programs.

The Scotiabank Bursaries for International Study

These bursaries, funded by a generous donation from Scotiabank to *The Opportunity Fund*, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. Fifteen or more bursaries will be available with approximately ten at the undergraduate level valued at \$1,000.00 each and five at the graduate level valued at \$2,000.00 each. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow and in other countries such as Ireland, Malta, Russia, etc. In addition, students wishing to participate in formal exchange programs through the faculty of Arts, such as those with the University of Keele, will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master's and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

Ron and Gwen Seary Memorial Scholarship

Two scholarships from the interest on a fund established by the family, colleagues and students of Ron and Gwen Seary shall be awarded. One scholarship shall be given to a student beyond second year who is majoring in English Language and Literature and who is recommended by the Head of the Department. One scholarship shall be awarded to a student in Primary/Elementary Education who shows promise in Art Education and who is recommended by the Dean, Faculty of Education.

The Roberta H. Sellars Scholarship

This scholarship is the result of an endowment by the Rev. Walter C. Sellars in recognition of his wife Roberta for her loyal and loving support, particularly while he was struggling through university. The scholarship will be awarded annually to a full-time student in any year in either the Faculty of Arts or Science on a rotating basis. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing and financial need and upon the recommendation of the appropriate Dean.

Tracey Sloane Memorial Scholarship in Political Science

This scholarship, valued at \$500.00 annually is the result of contributions by Tracey Sloane's coworkers at Aliant. The scholarship is established in memory of Tracey, who was pursuing a Master's degree in Political Science, as a tribute to her love of learning. The scholarship recipient will be a full-time undergraduate student majoring in Political Science. The student must demonstrate scholarship standing and may be enrolled in any academic year. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation of the Head, Department of Political Science.

Spurrell-Bartlett Bursary

This bursary was endowed by Morris and Janet Bartlett to honour their parents, Willis and Marjorie Spurrell and Francis and Jane Bartlett, who were devoted to the promotion of education in Newfoundland. It is valued at the annual accrued interest and is available to students in the Faculty of Arts, preferably from rural Newfoundland and Labrador. The bursary shall be awarded based on scholarship standing and need.

The St. Aiden's Presbyterian Church Memorial Scholarship

This scholarship, valued at approximately \$1,000.00 will be awarded annually to a student who has completed at least two years of study in the Department of Religious Studies at Memorial University of Newfoundland. It will be awarded annually on the basis of

scholarship standing and need. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Religious Studies.

Statistical Society of Canada Scholarship

This scholarship has been established by a generous donation from the Statistical Society of Canada. It is based on scholarship standing and is awarded to an undergraduate student in any year of study who is majoring in Statistics and meets the minimum academic requirement for a scholarship. The scholarship will be valued at \$750. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Mathematics and Statistics.

Dr. Siegfried Thomeier Memorial Prize in Pure Mathematics

The prize, the interest from a donation by an anonymous donor, is awarded to a fourth or fifth year student majoring in Mathematics with a concentration in Pure Mathematics. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Mathematics and Statistics.

The Robert Westcott Memorial Scholarship

This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Department Head of the appropriate discipline.

The Dr. Louise Whiteway Prize in Newfoundland History

A bequest to the University by the late Dr. Louise Whiteway has funded a \$100.00 prize in Newfoundland history. The prize will be awarded annually to a Memorial University of Newfoundland student who is considered to be the most promising student in Newfoundland history. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head, Department of History.

The Jacques Whitford Newfoundland Geoscience Scholarship

This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

The Dr. John Whittaker Memorial Prize in Greek

This prize is in memory of Dr. John Whittaker, former professor of Classics at the University. The prize will be valued at approximately \$150.00 annually. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Classics, to the student who is working toward an undergraduate degree in classics and receives the top mark in the Classics 1130 and 1131 (Introduction to Greek) courses on the St. John's campus.

The Honourable Gordon A. Winter, O.C. Scholarship

This scholarship, donated by The Standard Manufacturing Company in recognition of the contribution of the Honourable Gordon A. Winter to the public life of Newfoundland and Labrador, is awarded annually for academic excellence to a student entering fourth-year political science. The award, valued up to \$500.00, will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Political Science. The value of the award will be determined by the interest accruing on the fund.

The Walker Wood Foundation Bursary in the Faculty of Arts

Valued at \$4,000 annually, this bursary is established as a result of a generous contribution from Sue and Neil Wood, friends of Memorial University of Newfoundland. The bursary is available to full-time undergraduate students who are Canadian citizens, graduated from a high school in rural Newfoundland and Labrador, and who are entering into their first year of study at Memorial University of Newfoundland with the intention to pursue a program of studies in the Faculty of Arts (with a preference for those doing a minor in Newfoundland Studies if possible). Eligible students must have demonstrated financial need and preference will be given to candidates who also demonstrate that they are active in the community. The bursary is renewable for three additional years as long as the recipient takes courses reflective of a major in the Faculty of Arts, maintains a 70% average, clear academic standing and full-time status. In the event that the recipient does not meet the criteria for renewal, the bursary will be transferred to a selected candidate in the corresponding year who most closely fits the criteria. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Arts.

xwave Jamie Morry Memorial Scholarship

This scholarship has been established by xwave in memory of Jamie Morry, a valued employee. One or more scholarships (for a total value of \$2,000.00) will be awarded annually to students of scholarship standing and financial need enrolled in the Faculty of Arts who are doing a program in either Newfoundland Studies or Folklore. If no student meeting the above criteria is eligible, the scholarship will be open to any undergraduate student in the Faculty of Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation by the Dean, Faculty of Arts.

4.3 Faculty of Business Administration

The following are available to students in the Faculty of Business Administration based on a recommendation from the Dean. For definition of scholarship standing for co-op students, see **Scholarships, Bursaries and Awards, General Information**,

The AMC Brokerage Limited Scholarship

This non-renewable scholarship, valued at \$1,000, was established by AMC Brokerage Ltd. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, with either a finance or marketing specialty, and have scholarship standing. This scholarship is non-renewable and will be awarded to a different student every year for each of the five available years. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Baine Johnston Corporation Scholarship for International Study

This scholarship was established from contributions to the University's *Opportunity Fund Campaign* by Baine Johnston Corporation. Valued at the annual interest on the endowment, the scholarship will be awarded to an undergraduate Business student who is on an academic international exchange or on a Harlow term. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the Dean, Faculty of Business Administration.

BDO Canada Leadership Award

The Award, valued at a portion of the income on the investment, will be given to a student enrolled in the Bachelor of Commerce (Co-op) program. This award will be given to a student who has expressed a strong interest in pursuing the Chartered Accountant designation. Selection will be based upon academic standing and demonstrated leadership abilities. The contribution from BDO's Local Office is in memory of Robert Fleming. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Lawrence S. Bloomberg Scholarship in Business Administration

This scholarship was established by a donation from First Marathon Securities to Memorial University of Newfoundland's *Opportunity Fund* Campaign. The scholarship, valued at the annual accrued interest, will be awarded to an undergraduate student in the Faculty of Business Administration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Ernest C. Boone Award

The Ernest C. Boone Award was established by a donation from Mrs. Audrey Boone through the Tanglers Group of the St. John's Rotary Club to commemorate the late Ernest Boone, prominent Newfoundland entrepreneur and founder of E.C. Boone Limited. The award valued at \$500.00 will be granted to a student with a minimum of clear standing, as defined by the University, who is completing the Advertising Management course and who best demonstrates motivation, enthusiasm and perseverance. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the Dean, Faculty of Business Administration in consultation with the course instructor.

The Eric Briffett Small Business Scholarship

This scholarship valued at \$1,000.00, was established in honour of Eric Briffett by his four children. Mr. Briffett was born in Rosedale, Newfoundland in 1916. He, along with his brothers, formed and operated Louis Briffett and Sons Ltd. a successful logging, sawmilling, lumber, and building supply business in Central and Eastern Newfoundland, with retail outlets in Glovertown and Pound Cove, Bonavista Bay. He retired in 1988 at the age of 71. The scholarship will be awarded to a second or third year undergraduate Business student who was born in Newfoundland and Labrador or whose parents were born in Newfoundland and Labrador. Preference will be given to students studying Small Business and/or Entrepreneurship. The scholarship shall be awarded on the basis of financial need, personal values and scholarship standing. The qualifying student must demonstrate strong personal values including a strong work ethic and high personal integrity. The student must have maintained a minimum of a B average in the prior semester. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Bristol Group Scholarship for International Study

This scholarship, valued at a portion of the annual interest, is available to undergraduate students, in the Faculty of Business Administration. It was established with contributions from The Bristol Group. It is awarded to recognize students of scholarship standing who are participating either on an exchange term or Harlow term and who have a demonstrated interest in international studies. Students who are considered for this scholarship are expected to be completing courses which fulfill a concentration in marketing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Browning Harvey Ltd. Scholarship

This scholarship, valued at \$1,000.00, has been donated by Pepsi-Cola Ltd. It is open to undergraduate students of scholarship standing, enrolled in Business Administration, who have demonstrated leadership ability. Activities within various student organizations, participation on faculty committees, and/or contribution to the larger community, will be considered in determining appropriate candidates. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Greg Campbell Memorial Business Award

This award is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one award to a full-time undergraduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this award must have a demonstrated record of active community involvement, volunteer work, and/or service in the Faculty/University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Greg Campbell Memorial Business Scholarship

This scholarship is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one scholarship to a full-time undergraduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this scholarship must have scholarship standing and a demonstrated record of active community involvement, volunteer work, and/or service in the faculty/University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

Canadian Association of Petroleum Producers (CAPP) Award for Exemplary Work Terms in the Upstream Petroleum Industry

This award was established by the Canadian Association of Petroleum Producers. Two awards, valued at \$500.00 each, will be given annually to students who have completed work terms with employers related to the oil and gas industry. This includes employers involved in the upstream petroleum industry, oilfield supply/service companies, petroleum industry associations and applicable government departments or agencies involved in regulating the petroleum industry. One award will be given to a student who has completed Work Term 2, and the second award to a student who has completed Work Term 3 within the Bachelor of Commerce (Co-operative) Degree Program. In order to be considered for an award, an applicant must submit a Nomination Form completed by the applicant's employer for the work term for which the award is being sought. Recommendations will be based upon the nomination, the applicant's work report which has applicability to the oil and gas industry, and the applicant's work performance. All submissions will be reviewed by members of Business Co-operative Education and recommendations will be made to the Dean, Faculty of Business Administration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

Judy Caul Memorial Bursary

The Judy Caul Memorial Bursary has been established by Production Services Network in memory of Judy Caul who worked with their company for over 10 years and was a valued employee and dedicated Human Resources Professional. Valued at \$1,000 annually, this Bursary will be awarded to a full-time undergraduate student in the Bachelor of Commerce Program, Faculty of Business Administration, who has chosen Human Resources as their discipline. The bursary will be awarded to a student who meets the minimum academic requirements of a bursary and displays leadership ability and who demonstrates financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Certified General Accountants Association of Newfoundland Scholarship

The C.G.A. Association of Newfoundland offers a \$1,000.00 scholarship to a student majoring in Accounting who is entering the final

year of studies. In addition to the cash award, \$1,500.00 will be applied to the student's tuition costs through enrolment in the C.G.A. program within three years of their undergraduate University graduation date.

The Certified Management Accountants of Newfoundland & Labrador Scholarship

The Society of Management Accountants of Newfoundland and Labrador offers annual scholarships with a value of \$1000 each to full-time students concentrating in accounting who have completed or are presently completing Business 7160 Advanced Topics in Managerial Accounting. Candidates must be pursuing a career in management accounting as evidenced by writing or being exempted from the first CMA national entrance exam and registering for the CMA program with the Society of Management Accountants of Newfoundland & Labrador. Selection will be based on the students' character, financial need and scholarship standing. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the Dean, Faculty of Business Administration.

The Chartered Accountants' Education Foundation of Newfoundland, Inc. Scholarship

The CA Education Foundation, formed by the Institute of Chartered Accountants of Newfoundland, offers five scholarships annually to students enrolled in the B.Comm.(Co-op) programs as follows:

- two scholarships of \$2000 each to students entering either term six or seven
- two scholarships of \$1250 each to students entering term five
- one scholarship of \$1250 to a student entering term four

These scholarships will be awarded to students who have expressed a strong interest in pursuing the Chartered Accounting designation. Selection will be based upon academic standing and demonstrated leadership abilities. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Computing and Communications Scholarship

This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland in support of the dependants of its staff members. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependant of a current, retired, deceased, or former (having worked in the unit for a minimum of 5 years) employee of C&C or be a current student employee of the Department. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, or by telephone to (709) 864-3956. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Rob Crosbie Scholarship for International Study

This fund was established from contributions to the University's *Opportunity Fund* Campaign by Mr. Rob Crosbie. The scholarship, valued at \$1,250.00 annually, will support a Business student (graduate or undergraduate) who is on an academic international exchange and who has shown interest in pursuing a career in the oil and gas industry. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

The DaimlerChrysler Scholarship

This scholarship, valued at \$5,000.00 annually, is the result of a generous endowment to Memorial University of Newfoundland by DaimlerChrysler Canada Inc. in support of The *Opportunity Fund*. The scholarship will be available to an undergraduate student in the Faculty of Business Administration who is in second year or beyond. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland

This scholarship has been established by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University of Newfoundland's Faculty of Business Administration's M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland's M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Grenfell Campus, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Vice-President of Grenfell Campus. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Paddy Dobbin Scholarship in the Faculty of Business Administration

The Paddy Dobbin Scholarship is endowed through a gift from the Dobbin family members (children and grandchildren) in memory of Paddy Dobbin, a St. John's native who married Rita Power on March 17, 1929. From his early life Paddy demonstrated a strong entrepreneurial spirit, a man not afraid of hard work or taking risks. He instilled these qualities in his eleven children. Paddy guided with much love and a spirit that anything was possible. Through example, he taught his children to never fear challenges, feeling there was always something to be learned. The scholarship is open to undergraduate students of scholarship standing, enrolled in the Faculty of Business Administration in the International Bachelor of Business Administration (iBBA) program, who have been accepted for, but not yet undertaken, the study abroad component of their program. Preference will be given to students who have been active in extracurricular activities at Memorial University of Newfoundland and/or in the community. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Ernst and Young Scholarship in International Business

This fund was established from contributions to the University's *Opportunity Fund* Campaign by the partners Ernst & Young, St. John's and its predecessor. This scholarship, valued at the accrued interest on the endowment, will be awarded to an undergraduate student in the Faculty of Business Administration entering academic Term 6 in the cooperative education program. In awarding this scholarship, preference will be given to students with scholarship standing and a demonstrated interest pursuing a career in accounting. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Faculty of Business Administration Aboriginal Scholarship

A scholarship valued at \$500 will be awarded to an Aboriginal resident of Newfoundland and Labrador in the Faculty of Business Administration. Eligible students must be in scholarship standing, be enrolled as a full-time undergraduate or graduate student in the Faculty of Business Administration at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Business Administration.

Faculty of Business Administration Associates' Scholarship Fund

This fund was established through the contributions of members of the Associates' Program of the Faculty of Business Administration. The fund will provide scholarships for undergraduate and graduate students in the Faculty. Awards will be made on the basis of academic standing but such factors as financial need and contribution to the Faculty may be taken into account.

In the case of the undergraduate program, scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration. In the case of the graduate program, the scholarships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

The Fagan Scholarship in the Faculty of Business Administration

This scholarship, valued at \$1,000.00 annually, was established by Steve Fagan, B. Comm. (Co-op) '81. To be eligible, candidates must be full-time undergraduate students in the Faculty of Business Administration who have scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Fry Family Foundation MBA Leadership Scholarship

The Fry Family Foundation M.B.A. Leadership Scholarship, valued at \$5000 will be awarded annually to a full-time student in the M.B.A. program at Memorial University of Newfoundland. The award will be given on the basis of academic excellence and leadership, and preference will be given to residents of Newfoundland and Labrador. The recipient of this scholarship should demonstrate a good interest in, and a strong commitment to, Newfoundland and Labrador. The scholarship will be awarded by the Dean, School of Graduate Studies, upon the recommendation of the Dean, Faculty of Business Administration.

The P.J. Gardiner Award for Small Business and Entrepreneurship

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial University of Newfoundland's School of Business and a local entrepreneur. This award is valued at \$5,000.00 annually and will recognize student creativity, innovation and entrepreneurship as evidenced by a student's genuine interest in small business and entrepreneurship through the establishment or the intention to establish a new venture. Students in any program of study (graduate or undergraduate) are eligible. To apply for the P. J. Gardiner Award, students are to provide a written report or plan describing their venture. Award finalists will then be asked to make an oral presentation to the Award Selection Committee. The Award Selection Committee will consist of faculty members from the Faculty of Business Administration and the business community at large. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of this panel. In the case of graduate students the awards will be made by the Dean, School of Graduate Studies upon the recommendation of the Committee on Graduate Studies of the Faculty of Business Administration.

The Peter Gardiner Award for International Study

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial's School of Business. Interest from the fund will provide one or two annual awards of \$2,500.00 each to support Business students (graduate and/or undergraduate) to study at Memorial University of Newfoundland's Harlow Campus or at another university outside Canada. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, the awards will be made by the Dean of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

The Brian J. Grant Scholarship for International Study

This scholarship was endowed through a donation to the University's *Opportunity Fund* campaign by Mr. Brian J. Grant in 1999. The scholarship, valued at the annual interest on the endowment, will support an undergraduate business student who is on an academic international exchange. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Great-West Life Scholarship in Business Administration

This scholarship was established by a donation to Memorial University of Newfoundland from Great-West Life. One scholarship, valued at a minimum of \$1500 annually, will be awarded to an undergraduate student in the Faculty of Business Administration. The scholarship will be awarded to a student who has been involved in student life and has made a contribution to the university community through his/her leadership on campus. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

The William A. Gruchy Memorial Scholarship

This scholarship, valued at \$1000.00, has been donated by Pepsi-Cola Canada Ltd., in memory of Mr. William Gruchy, a long-time associate of Browning Harvey Ltd., Pepsi-Cola's franchised bottling business in St. John's. The award is open to undergraduate students of scholarship standing, enrolled in Business Administration, who have demonstrated leadership ability. Activities within various student organizations, participation on faculty committees, and/or contribution to the larger community, will be considered in determining appropriate candidates. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The James B. Hand Memorial Scholarship in Business Administration

This scholarship was established through a contribution to the *Opportunity Fund* by friends, family and former business associates in memory of Mr. Jim Hand. Interest on the fund will provide one or more scholarships for undergraduate students in the Faculty of Business Administration. The scholarship(s) will be awarded on the basis of scholarship standing, but such factors as financial need and contribution to Business Administration may be taken into account. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Rolf G. Hattenhauer Scholarship Fund

This fund was established by the Labour Management Co-operation Committee to commemorate the late Professor Rolf G. Hattenhauer, a well-known Newfoundland arbitrator who was actively involved in setting up the Committee. Professor Hattenhauer was a member of the Department of Commerce (later the Faculty of Business Administration) at Memorial University of Newfoundland from 1965 until his death in 1983, and during the year 1969-70 served as Head (pro tem) of the Department. The fund will provide scholarships and fellowships on a rotating basis in undergraduate and graduate studies in Business Administration.

In the case of the undergraduate scholarships, preference will be given to students in Terms 6 and 7 of the Bachelor of Commerce program who are majoring in Labour Relations. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

In the case of the graduate fellowships, preference will be given to those students in the Master of Business Administration program who are concentrating in or conducting research on the area of personnel and industrial relations. The graduate fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration. If a suitable graduate student is not available in a given year the scholarship for that year may be awarded to an undergraduate student.

The Kevin Hawco Memorial Scholarship

The Kevin Hawco Memorial Scholarship has been established through a generous commitment made by Mr. Rob Crosbie in memory of a friend and colleague, Kevin Hawco. The scholarship, valued at \$1,250.00 annually, will recognize student excellence in the Bachelor of Commerce program at Memorial University of Newfoundland. To be eligible, the student will be in scholarship standing and enrolled full-time within the Faculty of Business Administration. Preference will be given to students enrolled in courses required for the concentration in supply chain management. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Hibernia Project Scholarship

These scholarships, established by the Hibernia Management and Development Company Ltd. are tenable at Memorial University of Newfoundland and are valued at an amount determined by the annual income on the investment. They are awarded annually as follows:

- Four students entering Term 3 of the Faculty of Engineering and Applied Science with two awarded to male students and two awarded to female students.
- Two students entering Term 3 of the Faculty of Business Administration with one awarded to a male student and one awarded to a female student.

Candidates for these awards must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans, Faculty of Business Administration and Faculty of Engineering and Applied Science.

The Jim Hood Memorial Scholarship

This scholarship was established through the generous bequest of Jim Hood, an alumnus and friend of the Faculty of Business Administration. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate and graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletics at Memorial University of Newfoundland and/or in the community. In the case of the undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration. In the case of the graduate student, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

The J. Carson Hudson Memorial Scholarship

In memory of local businessman and entrepreneur J. Carson Hudson, this scholarship, valued at a portion of the income on the investment, has been established by LeGrow's Travel Limited to encourage students' participation in small business and to assist a student entering the Faculty of Business Administration. This scholarship is renewable for two successive academic years provided that scholarship standing has been maintained. Preference will be given to those students who have enrolled in a full course load at the undergraduate level and have been away from the educational system for a period of two years or longer, working in an area of small business. Financial need may be a consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Scott Hussey and Karen Joseph Memorial Scholarship in Business Administration

This scholarship was established from contributions to Memorial University of Newfoundland by fund raising efforts of the Commerce Class of 1985 and other friends and relatives of Scott and Karen. The scholarship, valued at a portion of the annual income, will be awarded to an undergraduate student beyond Term 4 in the Co-op program of the Faculty of Business Administration. It is not necessarily intended for the student with the highest academic average but rather a student who combines scholarship standing and leadership ability. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Business Administration. While financial need is not to be considered a major criterion, it can be used as a deciding factor in the case of students who may otherwise be equally qualified in a given year.

International Personnel Management Association Award

A \$250.00 award will be presented annually to an outstanding student in the undergraduate course, Advanced Personnel Management. The recipient will be recommended by the Scholarship Advisory Committee of the Faculty of Business Administration acting upon the advice of the course instructor. Scholastic abilities, financial need and class participation will be the basis upon which the award will be made. The recipient of the award will also be eligible for one year's free membership in the local Chapter of IPMA-Canada.

The Ron Joyce Foundation Scholarships

These scholarships are the result of a generous endowment to Memorial University of Newfoundland by the Ron Joyce Foundation. Interest on the fund will provide scholarships to full-time undergraduate students entering Memorial University of Newfoundland's Faculty of Business Administration who are Canadian citizens with scholarship standing and demonstrated financial need. These scholarships will be valued at two semester's tuition for five courses (30 credit hours) and are renewable for up to four years (3 years plus original) provided the candidates maintain first class and scholarship standing. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Dan Kroeker Award

The Dan Kroeker Award, valued at \$500, is made possible through an annual donation from Dan Kroeker. The Award is available to a deserving student enrolled full-time in the Bachelor of Commerce (Co-op) program who is in clear academic standing. Candidates will submit a two to three page essay outlining any financial initiatives/ideas that they have for the improvement/development of Newfoundland and Labrador. The submissions will be judged by a scholarship selection committee in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The A. Bruce LeMessurier Scholarship for Entrepreneurship

This scholarship, valued at a portion of the income on the investment, was established by Sally Lou LeMessurier in memory of her husband A. Bruce LeMessurier. It will be awarded to a student beyond first year in an undergraduate Business program who has demonstrated interest in small business and entrepreneurship through completion of course work, and involvement in volunteer activities in the university and the community related to entrepreneurship. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

Henry and Royce Meinhardt Memorial Bursary

The Henry and Royce Meinhardt Memorial Bursary is endowed through a gift from the Smallwood family (Cathy, Ray, Melissa, Amanda and Matthew) in memory of Henry and Royce Meinhardt, who had two grandchildren choose to study in the Faculty of Business Administration. Though from a modest background, Henry and Royce Meinhardt were entrepreneurially minded and hard workers who founded several businesses in Saint John, New Brunswick. Henry and Royce believed passionately that personal development through formal education as well as the general acquisition of knowledge was critical to the attainment of many personal goals. This bursary will be awarded to a full-time undergraduate student in the Bachelor of Commerce program, who will be participating in an international exchange (Harlow or other university with an exchange agreement in place). The bursary, valued at a portion of the income on the investment, will be awarded to a student who meets the minimum academic requirements of a bursary as defined by Memorial University of Newfoundland, demonstrates financial need and a good work ethic. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Business Administration.

Molson Breweries Scholarships

Two scholarships, valued at \$1000.00 each, will be awarded to Newfoundland students entering the Faculty of Business Administration from first year university. The scholarships will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

Molson Breweries Scholarships

Two scholarships of \$500.00 each are to be awarded to Newfoundland students commencing Term 5 and Term 6 respectively of the Business Administration program. Scholarship standing as well as financial need will be taken into consideration in selecting candidates. The scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The John J. Murphy Scholarship in Business Administration

This scholarship, valued at \$500.00, is awarded annually to a student who has achieved academic excellence upon completion of the first year (Terms 1 and 2) of the Business Administration program. The award, however, is not necessarily intended for the student who has received the highest average in this category. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Newfoundland and Labrador Hydro Corporation Scholarships in Business Administration

These scholarships, offered annually by the Newfoundland and Labrador Hydro Corporation, are valued at \$1000.00 each. They are tenable in the Faculty of Business Administration at Memorial University of Newfoundland and are distributed as follows:

- Two to students entering Term 7
- Two to students entering Term 6
- One to a student entering Term 5

The scholarships will be awarded on the basis of academic excellence, taking into consideration such factors as financial need and character. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Business Administration.

Oil and Gas Week Scholarship

Valued at \$1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John's, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

The James R. Pearcey Scholarship for Entrepreneurism

This scholarship is the result of a generous donation by the donor, Mr. Wade K. Dawe, Bachelor of Commerce '92. It is valued at \$10,000.00 per annum and is established in memory of James R. Pearcey, a Civil Engineering graduate and former president of his 1993 class, at Memorial University of Newfoundland. The scholarship recipient will be a student in the Faculty of Business Administration in any academic year, in good academic standing and who shows clear evidence of a significant propensity toward entrepreneurial activities and study as assessed by an essay competition. The recipient will be selected by a faculty committee, the composition of which will be determined by the Scholarships Office, but will include representation by both the Faculty of Business Administration and the Faculty of Engineering and Applied Science. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of this committee.

Jude Pearson Memorial Scholarship in the Faculty of Business Administration

This scholarship, valued at \$500 annually, was established by the Class of 1999 in memory of classmate, Jude Pearson. Eligible candidates must be full-time undergraduate students in the Commerce program of the Faculty of Business Administration, and have scholarship standing. Preference will be given to students from Bell Island and those demonstrating financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

Pinsent Scholarship in the Faculty of Business Administration

This scholarship, valued at \$1,000.00 annually, was established by Mark Pinsent, B. Comm (Co-op) '80. To be eligible, candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to candidates on work-term and participating in an international work or study abroad placement. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The PMI NL Chapter Jamie Morry Memorial Scholarship

This scholarship, valued at \$500, was established by the Newfoundland and Labrador Chapter of the Project Management Institute in memory of Jamie Morry to acknowledge his commitment to the discipline of project management. The scholarship is open to

undergraduate students of scholarship standing enrolled in Business Administration, doing a concentration in Management Information Systems (MIS) or Management Science who have demonstrated an interest in project management. In order to be considered for this scholarship, students must be nominated by a faculty member in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Public Accountants Licensing Board Scholarship

This scholarship will be awarded annually to an undergraduate business student entering the final year of an academic program in the Faculty of Business Administration. It will be valued at a portion of the income on the endowment. Selection of the successful candidate will be based on scholarship standing and demonstrated interest in pursuing public accounting as a profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The Gar Pynn Memorial Harlow Scholarship

This scholarship is endowed through a gift from Marg Pynn, family, and friends in memory of Gar Pynn, past director and faculty member of the Faculty of Business Administration. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to students applying to complete an academic term at Memorial University of Newfoundland's Harlow Campus. The scholarship, valued at a portion of the income on the investment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The S.P. Raheja Memorial Scholarship

This scholarship, valued at a portion of the income from the endowment, was established through generous gifts from the friends and family members of S. P. Raheja. It is to be presented during National Co-operative Education Week and will rotate annually between the Faculty of Engineering and Applied Sciences and the Faculty of Business Administration. To be eligible, students must be in scholarship standing, and be enrolled in the co-operative program, having successfully completed work term four in Engineering or work term two in Business in the previous scholarship year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Director of the Division of Co-operative Education.

The RBC Investments Scholarship

This scholarship, in memory of Maxwell J. Pratt, has a value of \$1,000.00 and is open to a student entering Term 7 of the Business Administration program who is majoring in the area of Finance. Selection of the successful candidate will be based on academic merit and the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

William S. Rowe Scholarship in Business

This scholarship, valued at a portion of the income on the investment, will be awarded to a student in the Bachelor of Commerce (Co-op) program in the Faculty of Business, who has expressed a strong interest in pursuing the Chartered Accountant designation. Selection will be based on scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Scotsburn Dairy Group Scholarship

This scholarship was established from contributions to the Memorial University of Newfoundland's *Opportunity Fund* Campaign by The Scotsburn Dairy Group. This scholarship, which will be valued at a portion of the accrued interest on the endowment, is intended to recognize academic excellence and will be awarded to a Newfoundland and Labrador student entering term 5 of the Business Cooperative Education program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

The Dr. Robert W. Sexty Scholarship for Social Responsibility

The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in any undergraduate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Lessey Sooklal Scholarship

This fund was established in memory of Dr. Lessey Sooklal, who joined the School of Business in 1978 (later renamed the Faculty of Business Administration), and was an active member of the faculty until his death in 2006. A full Professor in the area of Human Resource Management, Dr. Sooklal shared his passion for the subject with his students and colleagues. The fund will provide an annual scholarship, valued at a portion of the income on the investment, to an undergraduate student in Business Administration who is concentrating in Human Resource Management. The scholarship will be awarded to students in Terms 6 or 7 of the Bachelor of Commerce program, or the final year of the Bachelor of Business Administration program. The main criteria in awarding the scholarship are scholarship standing and excellence in and commitment to the area of Human Resource Management. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

The St. John's Maple Leafs Legacy Scholarship

This scholarship was established by the Leafs Foundation Inc. and the St. John's Maple Leafs Booster Club to recognize the contribution of the St. John's Maple Leafs hockey team to youth and community in the Province. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate or graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletic or extracurricular activities at Memorial University of Newfoundland and/or in the community. In the case of undergraduate students the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of the Faculty of Business Administration.

The James P. Steinhauer Memorial Scholarship in Small Business and Entrepreneurship

This scholarship is awarded out of income from a bequest by Mrs. S. Louise Steinhauer made in memory of her husband James and her son James, both prominent St. John's entrepreneurs. The scholarship will be awarded to a student in Term 5 of the commerce program who is completing a concentration in Small Business/Entrepreneurship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the Dean, Faculty of Business Administration.

The Sun Life Financial Scholarship in Applications of Technology

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

The Toromont Scholarship

This scholarship, valued at the annual interest on the endowment, has been established by Toromont Industries Ltd. as part of the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis between students in Business Administration and Engineering and Applied Science. It will be awarded on the basis of scholarship standing, extracurricular activities, and need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean of the appropriate discipline.

The Ralph Vincent Memorial Business Scholarship

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in first year Business Administration at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Business Administration.

The James J. Walsh Memorial Scholarships

Two undergraduate scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University of Newfoundland and are valued at \$500.00 each. One scholarship will be tenable in the Faculty of Business Administration to a physically handicapped student. If no physically handicapped student is available, the award will be open to any student enrolled in the Faculty provided that the student is in good academic standing and demonstrates financial need. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Business Administration.

The Robert Westcott Memorial Scholarship

This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Department Head of the appropriate discipline.

Geoffrey H. Wood Foundation Scholarship

This scholarship, established by the Geoffrey H. Wood Foundation, is currently valued at \$2,500.00 and will be awarded annually to an undergraduate student in Term 4 or later in the Faculty of Business Administration who has consistently demonstrated academic excellence. The scholarship is non-renewable and is to be awarded with a maximum of one other concurrent award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Business Administration.

The Wood Gundy Scholarship for Undergraduate Business Students

The Wood Gundy Scholarship for Undergraduate Business Students will be awarded annually to a student of scholarship standing in Business Administration, who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Wright-Green Undergraduate Award in Business Studies

The Wright-Green Undergraduate Award in Business Studies valued at \$500, honours a century of service by two small businesses in rural Newfoundland – Robert Wright and Sons (Harry and Ralph) and George Green and Bros., later George Green and Son (Robert) Ltd. Both enterprises were an integral part of the social fabric of their respective communities of Greenspond and Valleyfield. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration. The recipient of this award should have completed or be enrolled in course(s) in French. If there is no suitable student with a focus in French in any particular year, consideration may be given to a student with a similar focus in an alternate second language. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

4.4 Faculty of Education

The following are available to students in the Faculty of Education based on a recommendation from the Dean.

The Gordon Billard Award in Education

A donation has been made to Memorial University of Newfoundland by Mr. Gordon Billard for the purpose of establishing a fund to provide financial assistance to Education students who live at the University's Harlow campus while undertaking approved studies in Great Britain. The award is intended to enhance the student's educational experience in Britain. Its value will be based on the annual interest on the fund. It will be awarded during the Spring semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Deputy Provost (Students) and Associate Vice- President (Academic) (Undergraduate Studies) *pro tempore*. Academic achievement and financial need will be considered.

Jeremiah and Theresa Bonia Memorial Award

The award valued at a portion of the income from the endowment, will be given to a full-time student enrolled in any degree program in the Faculty of Education. Selection will be based upon clear academic standing and financial need. Recipients must also be residents of Newfoundland and Labrador (defined as a person who has maintained permanent residence in the Province for a minimum of twelve consecutive months immediately prior to entering the program). Preference will be given to a student who demonstrates leadership abilities, a passion for learning and a commitment community service. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education.

The Chesley and Katherine Brown Bursary

This bursary, valued at a portion of the income on the endowment, has been established by the children of the late Lieutenant-Colonel

and Mrs. William Chesley Brown. Lt.-Colonel Brown (1899-1962) guided the Salvation Army's educational program for thirty-five years. For the final twelve years he served as the Superintendent of Education for the Salvation Army within the Department of Education. Mrs. Lt.-Colonel Katherine England Brown (nee Cave; 1900-1977) taught at the Salvation Army Training College for Officers and was active in the Home and School Association of the Salvation Army College for a number of years. Candidates must be full time undergraduate students with demonstrated financial need and clear academic standing. The Bursary will be awarded to students in the Faculty of Education, with preference for those entering their first year. The bursary is renewable as long as the recipient remains in clear academic standing and continues as an undergraduate student in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Bruton Scholarship Fund

Dr. F.A. Bruton, friend and colleague of J.L. Paton, taught Nature Study to teachers in three successive Memorial University College summer schools, from 1926-28, at Paton's request. At his death in 1930, Dr. Bruton made a bequest to the College from which two Bruton Scholarships are awarded. These scholarships, valued at \$500.00 each, are awarded annually to students who have demonstrated interest in Plant Biology. One award will be available to a student majoring in Biology whose special interest is in the field of Plant Biology. The second award will be available to an Education student whose main area of interest is in the teaching of science, in particular, plant biology. In the absence of a suitable candidate from the one department, two awards may be made by the other department in accordance with the above conditions. Academic ability and financial need will be taken into consideration in making these awards. They will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the department concerned.

The CFUW Edith Creighton Scholarship

This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John's and is named after Edith Creighton (1892-1994), the first president of CFUW St. John's when it was formed in 1945. One scholarship, valued at \$2000, may be awarded annually, to a woman enrolled full-time in the Masters or Doctoral program in the Faculty of Education. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Education.

The Dr. Linda Coles Early Literacy Education Scholarship

This Scholarship was created by Dr. Linda Coles, a graduate of the B.ED and M.ED programs at Memorial University of Newfoundland. Dr. Coles is a strong supporter of early Literacy education in the Province. The recipient will be a full-time undergraduate student who graduated from a high school in Newfoundland and Labrador and who is in their professional year as a primary/elementary student teacher (Internship). They will have demonstrated dedication to their teaching role specifically in the area of Literacy and be in Scholarship Standing. The scholarship will be valued at \$1000. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Dr. Linda Coles Primary/Elementary Literacy Scholarship

This scholarship is created by Dr. Linda Coles, a graduate of the B.A.(Ed.), B.Ed., M.Ed. and Ph.D. programs at Memorial University of Newfoundland. During her years as a primary/elementary teacher, a provincial curriculum development specialist, and the provincial Executive Director of Literacy, Dr. Coles has been an advocate for literacy. Her commitment to early literacy, exemplary teaching and to honoring children's voices and perspectives continues in her current work with the Faculty of Education. The recipient of the Dr. Linda Coles Primary/Elementary Literacy Scholarship will be a full-time student in the Primary/Elementary Degree Program. The scholarship will be based on scholarship average with consideration for the following courses: Education 3312, 3322, 3543, 3951, and 3952 and the internship component. This annual scholarship will be valued at \$1000. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education.

Alice Cook Education Award

This award was established by Mr. Clayton C. Cook. The award, in honour of his wife Alice Cook, celebrates her love of learning and education. The award will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award as defined by the University. The recipient may be enrolled in any year of any undergraduate education degree programs in the Faculty of Education. The Award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Dr. David Dibbon Leadership Scholar Award

The David Dibbon Award, valued at \$10,000 (\$5000 per year for two years), has been established by his family, friends, colleagues and students to commemorate the life and work of Dr. David Dibbon, Dean of the Faculty of Education, 2008-2010. David was committed to research focused on improving schools and school systems in Newfoundland and Labrador and elsewhere. He had great dreams of what public education could be. He was passionate about enabling schools to become better places for students to learn and for teachers to work. He was a transformational leader and change agent committed to collaborative partnerships and teamwork. He had a gift of innovative thinking, a visionary spirit, and the tenacious patience required to successfully lead meaningful educational reform. It will be awarded in alternating years to a doctoral student in educational administration who holds Dr. Dibbons ideals and has been accepted into Ph. D. studies in the Faculty of Education. \$5000 will be awarded in year one, when the student begins full-time studies. The second \$5000 will be awarded after successful completion of the oral comprehensive examination. The recipient will be "The David Dibbon Leadership Scholar" and will be expected to share his or her research findings with practitioners. The award will be made by the Dean of Graduate Studies upon the recommendation of the Dean of Education.

The William J. FitzGerald Memorial Bursary

This Bursary was donated by Barbara C. FitzGerald in memory of her father, William J. FitzGerald (1897-1971) who was a St. John's businessman for many years. The award, valued at the annual interest on an endowment, is directed at a full time student in the Faculty of Education with first preference to students in the high school program who demonstrate scholarship standing and financial need. In the event that an eligible student in the high school program is not available in a given year, the Bursary will be awarded to a Bachelor of Education student in one of the other programs as deemed appropriate by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Education.

The Carrie E. Hodder Memorial Scholarship

This scholarship, valued at the annual accrued interest on an initial endowment, has been established by the husband of the late Carrie E. Hodder as a tribute to her 36 year contribution to education as a teacher in the province of Newfoundland and Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education on the basis of scholarship standing to students enrolled in Elementary Education.

The Dr. Ethel M. Janes Memorial Scholarship in Education (Undergraduate)

From a sum of money endowed to Memorial University of Newfoundland by the late Dr. Ethel M. Janes, one scholarship valued at \$2,000.00 will be awarded annually on the basis of scholastic achievement. Dr. Janes, a Professor of Education at Memorial University of Newfoundland for twenty-eight years, devoted most of her professional career to study, research and teaching in primary and elementary education. Her contribution to the development of primary and elementary teacher education program within the faculty was significant, as was her influence on primary and elementary education in the schools. Two generations of prospective teachers were her

students. This scholarship will be awarded upon completion of the second year of studies at Memorial University of Newfoundland to a student enrolled in the primary/elementary education program as a first degree. Instalments of \$1,000.00 each will be awarded in two successive academic terms; and the scholarship is renewable for two years provided first-class standing is maintained. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Eileen Kelly Memorial Bursary

This bursary has been established by the family of Eileen Kelly to honour her dedication to education in Newfoundland and Labrador. As a teacher for more than 40 years in Harbour Grace, she was a role model to many students and served the community in an exemplary way. The bursary will be valued at a portion of the income on the endowment and will be awarded annually. The recipient will be a female student enrolled in her first year of study in the Faculty of Education at Memorial University of Newfoundland. Preference will be given to students who have graduated from a high school in the Avalon West Regional area. The recipient must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Grace Layman Scholarship in Education

The Grace Layman Scholarship in Education has been established through a gift to the University by Professor Grace Layman who devoted her life to the development of educational drama in Newfoundland. Valued at a portion of the income on the investment, one or more scholarships will be given annually to a student from the Faculty of Education at Memorial University of Newfoundland, who meets scholarship standing, with preference given to students who demonstrate exceptional communication skills. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on a recommendation from the Dean, Faculty of Education.

The Loretta Lynch Education Scholarship

This scholarship, valued at \$1,000, was created by Dr. Jackie Lynch, a graduate of the B.ED and M.ED programs at Memorial University of Newfoundland, in memory of her grandmother, Mrs. Loretta Lynch. Mrs. Lynch was a strong supporter of education and an inspiration for learning. The recipient will be a full-time undergraduate student who is in their professional year as a primary/elementary student teacher (Internship) and will have demonstrated dedication to their teaching role. They will have graduated from a high school in Newfoundland and Labrador and be in scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Effie and Leander Mercer Scholarship

The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

The A. Baxter Morgan Memorial Scholarship

This scholarship has been established by Lorraine, spouse of the late Mr. Morgan. He began his career as a teacher after graduation from Memorial University College. Later, he operated his own business in Newfoundland until his retirement to Clarke's Beach. It will be valued at \$500.00 annually and will be awarded to a full-time student in the second year of the Faculty of Education program. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

The John M. and Elsa S. Morgan Scholarships

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of \$1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Dr. M.O. and Grace Morgan Harlow Bursary

This bursary, valued at a portion of the annual accrued interest on an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan, was established to encourage and assist undergraduate students to attend the University's Harlow Campus. It is open to full-time Memorial University of Newfoundland students attending the Harlow Campus. Up to three bursaries of equal value will be awarded annually to two students in the Faculty of Education (one each in the Spring and Fall semesters) and one to a student in any field of study (in the Winter semester). An application is required to identify those students planning to attend Harlow in the winter semester only and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre. Bursaries awarded in fall and spring will be based on a recommendation from the Dean, Faculty of Education. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Rick Morris Memorial Bursary

This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The Newfoundland & Labrador Teachers' Association Scholarship

From a sum of money donated to the Anniversary Fund by the Newfoundland & Labrador Teachers' Association, a \$500.00 scholarship has been established at Memorial University of Newfoundland. This scholarship will be awarded annually on the basis of academic excellence and character to a senior student enrolled in the Faculty of Education. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Education.

The Patti Lynn Noonan Memorial Harlow Travel Bursary

This Bursary, valued at a portion of the income from the endowment, is established in memory of Patti Lynn Noonan by her family. Patti Lynn's motto was "Live life to the fullest and appreciate it and always tell the people you love that you love them". Patti Lynn will always be remembered for her smile, her laughter, her love of life, her devotion to family, friends and the students in her care, her courage and her determination. Patti Lynn's experience at Harlow was a highlight of her time at Memorial University of Newfoundland. The purpose of the Bursary is to enable the recipient to travel outside of Harlow while studying at Memorial University of Newfoundland's Harlow campus. To be eligible, students must have demonstrated financial need, be in good academic standing, and be accepted to study at the Harlow campus. Preference will be given to students enrolled in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Education.

The Mary O'Keefe Memorial Scholarships

These scholarships were established with a bequest from Mary O'Keefe. Valued at a portion of the annual interest on the endowment, they will be awarded to two full-time students entering the first year of a program in the Faculty of Education. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

The Dr. Hugh O'Neill Education Scholarship

This scholarship is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One scholarship valued at \$2,500.00 will be awarded annually to a full-time undergraduate student in the Faculty of Education at Memorial University of Newfoundland. In awarding the scholarship, first preference will be given to a student from a third world country but in the event of no such eligible student in a given year the scholarship may be awarded to another education student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need and a recommendation from the Dean, Faculty of Education.

The Dr. Herbert Lench Pottle Scholarship

This scholarship has been established by the family of Dr. Pottle who served as a member of the Commission of Government (1947-49) and as the Minister of Public Welfare (1949-55) in the Government of Newfoundland. His career also included educational administration, magistrate, author and member of the first Board of Regents at Memorial University of Newfoundland. Valued at the annual interest on the endowment, this scholarship will be awarded to an undergraduate student in the Faculty of Education. Preference will be given to residents of Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need and a recommendation from the Dean, Faculty of Education.

The Dr. Herbert Lench Pottle Scholarship in Education

This scholarship has been established by Helen Louise Wesanko in memory of her father, Dr. Herbert Lench Pottle. Valued at a portion of the income on the investment, the scholarship will be awarded to an undergraduate student in the Faculty of Education with preference given to students who are entering the Faculty. The student must be a native-born Newfoundlander or a graduate of a Newfoundland High School. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

Scott Memorial Scholarship

This scholarship, established by Winslow and Eileen Scott in memory of their late son Bradford, a former student of Memorial University of Newfoundland, is valued at not less than \$500.00. In awarding this scholarship, preference will be given to students in the Bachelor of Education Intermediate/Secondary Program who have completed the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) degree at Memorial University of Newfoundland. If a suitable candidate cannot be found in this category it will be awarded to a senior student in the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) program who is doing the teaching option. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and upon a recommendation approved by the Dean, Faculty of Education and/or the Dean, School of Human Kinetics and Recreation.

Ron and Gwen Seary Memorial Scholarship

Two scholarships from the interest on a fund established by the family, colleagues and students of Ron and Gwen Seary shall be awarded. One scholarship shall be given to a student beyond second year who is majoring in English Language and Literature and who is recommended by the Head of the Department. One scholarship shall be awarded to a student in Primary/Elementary Education who shows promise in Art Education and who is recommended by the Dean, Faculty of Education.

The Tony Walsh Scholarship

This scholarship has been established by a donation from James A. Martin in memory of Tony Walsh, teacher 1898-1994. Valued at \$800.00 it will be awarded to a student entering their second year of undergraduate studies in the Faculty of Education. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing with preference given to students who have demonstrated leadership, determination and dedication.

4.5 Faculty of Engineering and Applied Science

The following are available to students in the Faculty of Engineering and Applied Science based on a recommendation from the Dean. For definition of scholarship standing for co-op students, see **Scholarships, Bursaries and Awards, General Information**.

The Afshin Assemi Memorial Award

This award has been established in memory of Afshin Assemi (Term 8 Electrical, 1991) and is valued at a portion of the income on the investment. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Faculty of Engineering and Applied Science Program. The criteria for selection will be on the basis of outstanding contribution to the betterment of student life within the Faculty of Engineering and Applied Science over the course of his/her academic career. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Class representatives before arriving at their decision. If it is decided that two candidates are equally deserving of the Award, then joint awards may be given at equal valued.

Amirix Systems Inc. Scholarship for Computer Engineering

This scholarship, valued at \$2500 annually, is established by AMIRIX Systems Inc. of Halifax, NS, and is awarded to a Computer

Engineering student in Term 5 of the Faculty of Engineering and Applied Science at Memorial University of Newfoundland. The recipient of this scholarship will have demonstrated scholarship standing as well as extracurricular involvement in any of the following areas: athletics, fine arts, student body activities and/or volunteer work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Engineering and Applied Science.

The American Bureau of Shipping (ABS) Scholarship

The American Bureau of Shipping Scholarship will be awarded to eight full-time undergraduate students who demonstrate scholarship standing and are enrolled in the Faculty of Engineering and Applied Science in any academic terms in the following disciplines: Ocean and Naval Architecture, Civil, Mechanical & Electrical. Preference will be given to students who have strong academics/work experience in the area related to a career in structural; offshore/marine industries. Winners of these scholarships will have preference (upon application) for work term placements with the American Bureau of Shipping in Houston (must be eligible for T-N Visa). Valued at \$5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The C.H. Ballam Scholarship

This scholarship was established by the Honourable Charles H. and Mrs. Ballam as a memorial to their son Ulric, a former Engineering student at the University. The scholarship has a value of \$250.00. It is awarded annually during the Winter semester of Engineering One on the recommendation of the Dean of Engineering and Applied Science. In making the award, academic achievement, character and financial need are taken into account. An application is required.

The E.F. Barnes Scholarship

This scholarship, valued at \$500.00, has been endowed by Stirling Kelloway in honour of the late Mr. E.F. Barnes, founder of E.F. Barnes Machine and Fabricating Shop Limited which built the first all steel vessel in Newfoundland and developed the only marine engine ever built in the Province.

The award will be made each year during the Fall semester to a student in Term 6, on the recommendation of the Dean of Engineering and Applied Science. The selection of the winner will be based on scholastic achievement in Academic Term 5. Financial need will be an additional consideration. This scholarship will not be awarded to a student who is already holding a scholarship during the same academic year.

Paul S. Batstone Memorial Scholarship

This scholarship, valued at a portion of the annual interest, was established in memory of Paul S. Batstone who spent 20 years promoting co-operative education at Memorial University of Newfoundland and was a co-ordinator in the Faculty of Engineering and Applied Science until his death in 2003. Based on scholarship standing, it will be awarded to a senior student completing a spring work term who has demonstrated a high level of commitment to Engineering Co-operative Education and has made a significant contribution to their employer in the past work term. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science with a nomination from the student's employer and input from the Office of Co-operative Education.

Dr. S.M. Blair Memorial Alumni Awards for Excellence in Engineering

Two scholarships, established by the Memorial University of Newfoundland Alumni Association in memory of Dr. Sidney M. Blair, have a value of \$500.00 each and are awarded annually to students entering Term 3 of the Engineering program and Term 5 of the Civil Engineering program who have achieved an appropriate scholarship average in academic courses of the preceding terms. The awards are made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of Engineering and Applied Science.

The Ann (Mooney) Bridger/CSCE Newfoundland and Labrador Section Scholarship

The Ann (Mooney) Bridger/CSCE Newfoundland and Labrador Section Scholarship has been established as a result of the 25th anniversary of the Canadian Society for Civil Engineering's Newfoundland and Labrador Section. The scholarship is named after the Faculty of Engineering and Applied Science's first female Civil Engineering graduate, Ann Bridger nee Mooney (B.Eng.1978). Valued at \$500, this scholarship is to be awarded annually on the basis of scholarship standing to a female undergraduate student in Term 3 of the Civil Engineering discipline. The recipient of this scholarship will also be offered a work term at Bridger Design Associates Limited. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Wally J. Campbell Memorial Scholarship

This scholarship has been established in memory of Professor W. J. Campbell who helped establish the engineering program at Memorial University of Newfoundland and taught in the program until 1995 when he retired. The scholarship, one or more, is valued at a minimum of \$500.00 and will be awarded to a student entering term three who has completed all elements of the program prior to Term 3. Scholarship standing, leadership and contribution to student life will be considered in making the award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Dr. S.J. Carew Memorial Scholarships

These two scholarships, established in memory of Dr. S.J. Carew, are valued at a portion of the income on the endowment and are awarded annually in the Winter Semester to students in Engineering One of the Bachelor of Engineering program. The scholarships will be awarded on the basis of financial need and scholarship standing with the recipients having achieved at least a strong "B" average in Fall Semester of Engineering One. The scholarships will not be awarded to candidates holding scholarships of equal or greater value. The scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

The CBCL Limited Engineering Scholarship

This non-renewable scholarship, valued at \$1,000, was established by CBCL Limited. Eligible candidates must be full-time undergraduate students in the Faculty of Engineering and Applied Science, in either the Civil, Mechanical or Electrical program. The scholarship will be awarded on the basis of scholarship standing in Academic Term 4. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Chevron Canada Resources Engineering Scholarship

This scholarship, valued at the interest on an endowment to the *Opportunity Fund* by Chevron Canada Resources, will be awarded annually on the basis of scholarship standing to a student during the Winter semester of Engineering One of the Engineering program at Memorial University of Newfoundland. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Dr. Jack Clark Graduate Award

This award was established in memory of Dr. Jack Clark who served as President and Chief Executive Officer of C-CORE from 1984 to 1997. The award will be valued at a portion of the income on the endowment and will be awarded annually. The award is available to any full-time graduate level student in the Faculty of Engineering and Applied Science who meets the minimum academic requirements

for an award as defined by the University. Eligibility will be based on academic standing with preference given to those who have demonstrated financial need by presenting a case with their application. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

Stephen Crooks Memorial Scholarship

This scholarship, valued at \$1000.00, has been established in memory of Stephen Crooks (Civil 1982-Memorial University of Newfoundland). It will be awarded to an Engineering student, on the basis of sound scholastic record, who has completed at least five academic terms in Engineering. The student's contribution to the Engineering Faculty and Applied Science and the University, performance during work terms, and overall perseverance within the program will also be taken into consideration. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Engineering and Applied Science.

The Wilfred and Rose Davis Scholarship in Engineering

This scholarship, a gift from Wilfred J. (Memorial University College 1946) and Rose Davis, is awarded annually to a student entering or engaged in Engineering One. The award is valued at the interest earned annually from the endowment and will not be awarded to candidates holding other scholarships of greater value. This scholarship is based on scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Engineering and Applied Science.

Det Norske Veritas Scholarship

The Det Norske Veritas Scholarship is donated by the Norwegian Ship Classification Society of that name. The \$500.00 scholarship is awarded to the student in the graduating class in Naval Architectural Engineering who has achieved the highest total marks in terms five to eight inclusive. The award is made solely on academic criteria, and may be held in addition to not more than one other award having monetary value. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Engineering and Applied Science.

Engineering One Entry Scholarships in Engineering

These scholarships are endowed by Mr. Wing Soon Oue of Seven Seas Restaurant, Corner Brook, and have a value of up to \$500.00 each. They are awarded annually to two students entering Engineering One, providing they hold no other awards of greater value. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Engineering and Applied Science.

The J.M.C. Facey Engineering Scholarship

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in Engineering One at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

Daniel Freeman Memorial Scholarship

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

The General Motors Scholarship for Women in Engineering

This scholarship is one of several established by General Motors of Canada Limited with contributions to the University's *Opportunity Fund* Campaign. Interest from the fund will provide a scholarship valued at a minimum of \$1,000.00 annually to support and encourage more women to study and work in Engineering, thereby increasing the contributions of women to engineering and scientific endeavours. This scholarship is tenable at Memorial University of Newfoundland to female students regardless of age, with preference to those who are entering the Faculty of Engineering and Applied Science. However, female students already enrolled in Engineering studies may be eligible if in a given year an eligible entering student is not available. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The General Motors Scholarship in Engineering

This scholarship was established by General Motors of Canada Limited with contributions to the University's *Opportunity Fund* Campaign. Interest from the fund will provide a scholarship valued at a minimum of \$1,000.00 annually to support individuals who are first generation students in a family (immediate family) to enroll in Engineering. It will be awarded to a student in any term of the Bachelor of Engineering program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The John P. Greene Scholarship

This scholarship is funded by Mrs. Amelia Greene to honour her late husband, John P. Greene, a retired engineering instructor at the Fisheries and Marine Institute. The scholarship is awarded to a full-time undergraduate student in the Ocean and Naval Architectural program in the Bachelor of Engineering Degree. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Sciences.

The Halliburton Energy Services Scholarship in Mechanical Engineering

This fund, a gift to Memorial University of Newfoundland by Halliburton Energy Services via *The Opportunity Fund* campaign, will provide a scholarship valued at approximately \$1,500.00 annually. It will be awarded on the basis of scholarship standing to a student in academic terms 5 or 6 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Hebron Women in Science and Engineering Scholarship Program

This scholarship was created by a generous contribution from the Hebron Project. Scholarships will be made available to female students who are enrolled full-time or part-time at any campus of Memorial University of Newfoundland, have scholarship standing, and who are majoring in engineering, the geosciences, environmental science or chemistry. Students with financial need will be given preference. Also, where possible at least one Scholarship will be awarded to a student in her first year of study. The Scholarships/ Awards will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards (for students at the St. John's

campus; for recipients at the Grenfell campus or Marine Institute, Scholarships/Awards will be awarded by the appropriate body at the respective campus) upon recommendation from the appropriate Dean or Department Head. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy Inc, Statoil Canada and Nalcor Energy.

The Hibernia Project Scholarship

These scholarships, established by the Hibernia Management and Development Company Ltd. are tenable at Memorial University of Newfoundland and are valued at an amount determined by the annual income on the investment. They are awarded annually as follows:

- Four students entering Term 3 of the Faculty of Engineering and Applied Science with two awarded to male students and two awarded to female students.
- Two students entering Term 3 of the Faculty of Business Administration with one awarded to a male student and one awarded to a female student.

Candidates for these awards must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans, Faculty of Business Administration and Faculty of Engineering and Applied Science.

The Honeywell Limited-Honeywell Limitée Scholarship

This scholarship, the gift of Honeywell Limited-Honeywell Limitée, is valued at the annual interest on the initial endowment. It will be awarded on the basis of scholarship standing to a student in Term 5 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The IEEE Newfoundland and Labrador Section Term 4 Scholarship

This scholarship was established by an endowment from the Newfoundland and Labrador Section of IEEE (The Institute of Electrical and Electronics Engineers). It is valued at a portion of the annual interest accrued on the initial endowment and awarded annually to a full-time undergraduate student in Term 4 of the Electrical and Computer Engineering or Computer Engineering Programs at Memorial University of Newfoundland. The recipient must be an active student member of IEEE and be of scholarship standing as defined by the University. In addition to the student's academic achievement, contributions to the IEEE student branch will be considered. In this regard, candidates must submit a one page letter describing their IEEE involvement, their professional goals and their student activities in the areas of electrical and computer and/or computer engineering. A student may not hold the scholarship more than once. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of a special selection committee of the IEEE, Newfoundland and Labrador Section.

The IEEE Scholarship

This scholarship was established by the members of the Newfoundland and Labrador section of IEEE (The Institute of Electrical and Electronics Engineers). This Scholarship has a value of \$1000. It is awarded annually to a full-time undergraduate student in Term 6 of the Electrical and Computer Engineering Program at Memorial University of Newfoundland. The recipient must be a student member of IEEE and possess scholarship standing as defined by the University. In addition to the student's academic achievement, contributions to the IEEE student branch will be considered. This Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of the IEEE Newfoundland and Labrador Section.

The Integrated Informatics Award of Excellence

This award is established through a generous gift from Jason and Christa Humber, and will provide one award annually, valued at a portion of the income from the endowment. To be eligible, students must be senior engineering students enrolled in their final undergraduate year (Term 8) in the Offshore Oil and Gas option of the Faculty of Engineering & Applied Science at Memorial University of Newfoundland. The award will be given to a student who has achieved the highest total marks in offshore oil and gas courses in terms 6 and 7. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean, Faculty of Engineering & Applied Science.

The Kiewit Offshore Services Award

These awards, valued at \$1000 each for two students are offered annually by Kiewit Offshore Services (KOS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Naval, Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

The Peter Kiewit Sons Co. Ltd. Award

These awards, valued at \$1000 each for two students are offered annually by Peter Kiewit Sons Co. (PKS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

The Gene H. Kruger Memorial Scholarship

These scholarships are the result of a generous donation by Joseph Kruger II in memory of his father, Gene H. Kruger. Valued at a portion of the income on the investment, they will be awarded to two students in the Faculty of Engineering and Applied Science who were born and have lived in Newfoundland all of their life. Particular emphasis should be given to those who are studying Mechanical and Electrical Engineering as well as those studying information technologies. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Wallace Allison MacCallum Memorial Scholarship

This scholarship valued at the annual interest, was established by the MacCallum family in honour of their father, Wallace. It will be awarded to a third or fourth year Engineering student at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the

Dean, Faculty of Engineering and Applied Science. Factors such as, interest in the humanities and international affairs, marine technology, contribution to his/her engineering class, and athletic involvement may also be taken into consideration.

The John Madvig Bursary

This bursary will be awarded annually to a student in the Faculty of Engineering and Applied Science who is studying in the Naval Architectural Engineering program at Memorial University of Newfoundland. The value of the bursary will be based on the annual interest earned on the initial endowment. It will be awarded to a Canadian citizen on the basis of academic standing and financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Engineering and Applied Science.

The Effie and Leander Mercer Scholarship

The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

The Professor Bill Milne Memorial Scholarship

The scholarship is established in memory of Professor William (Bill) Milne, the founder of the program now known as Ocean and Naval Architectural Engineering. This scholarship, valued at a portion of the income from the endowment, is the result of contributions by Ruth Milne and Prof. Milne's former students and colleagues. The scholarship recipients will be full-time undergraduate students enrolled in Term 4 of the Ocean and Naval Architectural Engineering program. Candidates must have maintained scholarship standing in Terms 1 to 3, and have demonstrated involvement in formal professional associations, such as the Society of Naval Architects and Marine Engineers. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Engineering & Applied Science.

NACE International (Atlantic Canada Section) Prize

This prize has been established by the National Association of Corrosion Engineers and is valued initially at \$500.00 annually. It will be awarded to an Electrical or Mechanical Engineering student in Academic Term 5 in the engineering program at Memorial University of Newfoundland. The successful candidate must have demonstrated excellence in Engineering 3911 - Chemistry and Physics of Engineering Materials I. In addition, preference will be given to students who have completed and excelled in at least one work term related to corrosion engineering or has carried out a laboratory experiment or has performed research in corrosion and/or corrosion mitigation. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science in consultation with the Atlantic Canada Section of NACE International. The successful candidate will be encouraged to join NACE International as a student member to encourage his or her interest in corrosion mitigation.

Nalcor Energy Women in Engineering Scholarship

The Nalcor Energy Women in Engineering Scholarship is endowed through a gift from Nalcor Energy. Valued at a portion of the income on the endowment and based on scholarship standing this scholarship will be awarded to a full-time undergraduate female student who graduated high school in Newfoundland and Labrador and is enrolled in the Engineering and Applied Science Program at the Academic Term 4 level. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Newfoundland and Labrador Hydro Corporation Scholarships in Engineering and Applied Science

Five scholarships are offered annually by the Newfoundland and Labrador Hydro Corporation and are valued at \$1,000.00 each. They are distributed as follows:

- two to students enrolled in the Fall semester of Engineering One based on previous scholastic achievement
- two to students enrolled in the Winter semester of Engineering One based on that term's results
- one to a student enrolled in Term 8 based on the cumulative average in Engineering.

The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Engineering and Applied Science. Need may be considered. The awards will not be made to students who hold other concurrent scholarships of significant value.

The Newfoundland and Labrador Federation of Municipalities Civil Engineering Scholarship

This scholarship, the gift of the Newfoundland and Labrador Federation of Municipalities, is valued at \$500.00. It will be awarded annually to a Civil Engineering student at Memorial University of Newfoundland. Financial need and other factors may also be taken into account. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Newfoundland Design Associates Limited Scholarship in Engineering

This fund donated to Memorial University of Newfoundland via *The Opportunity Fund* by Newfoundland Design Associates Limited, will provide a scholarship for a full time undergraduate student in academic Term 2 of the Engineering Program. The scholarship, valued at the annual interest on the initial endowment, is based on scholarship standing and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Newfoundland Road Builders/Heavy Civil Association Scholarship

This scholarship has been established by the Newfoundland and Labrador Road Builders/Heavy Civil Association and is valued at \$1,000.00 annually. It will be awarded to a Civil Engineering student who has achieved scholarship standing and is in Term 6 of their program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

Professor Calvin Noble Memorial Award

The award, valued at \$1,000.00, will be given annually to an undergraduate student in any year of the Faculty of Engineering and Applied Science. The recipient must be in clear academic standing and must have made a significant contribution to the Faculty of Engineering and/or to university life as a whole during his/her studies at Memorial University of Newfoundland. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Noranda Scholarship

This scholarship valued at the annual interest, has been established by the Noranda Foundation as part of the Opportunity Fund campaign. It will be awarded on an annually rotating basis between students in Earth Sciences and Engineering and Applied Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean/Department Head of the appropriate discipline.

The William O'Reilly Memorial Scholarship

This scholarship established in memory of William O'Reilly (Engineering Class '76), has a value of \$500.00, and is awarded annually to a student in Term 5 or Term 8 of the Engineering program. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Engineering and Applied Science in consultation with a representative of the Engineering Class of '76. Economic need will be the major consideration but the candidate will be required to have at least a "B" average in the previous semester. The scholarship will not be awarded to a candidate holding a scholarship of equal or greater value.

Oil and Gas Week Scholarship

Valued at \$1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John's, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

Fritz Potter Memorial Award

This award has been established in memory of Fritz Potter (Civil Engineering Graduate, 1991) and is valued at \$500.00. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Civil Engineering program. The criteria for selection will be on the basis of outstanding contribution to the spirit of the Civil Engineering graduating class over the course of their studies at Memorial University of Newfoundland. It will be administered by the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Civil Engineering class before arriving at their decision. If it is decided that two candidates are equally deserving of the award, then joint awards may be given valued at \$250.00 each. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon a recommendation from the Faculty of Engineering.

The Professional Engineers and Geoscientists Newfoundland and Labrador Engineering Scholarships

Two scholarships, the gifts of the Professional Engineers and Geoscientists Newfoundland and Labrador, are awarded annually to students entering the Engineering program. The awards are valued at \$1,000.00 each and will not be awarded to candidates holding other scholarships of greater value. One of the scholarships will be awarded on the basis of scholastic achievement and financial need; the other primarily on the basis of scholastic achievement. These scholarships will be awarded by a committee of the Professional Engineers and Geoscientists Newfoundland and Labrador. Further information regarding application forms, etc., is available from the Dean of Engineering and Applied Science.

The Professional Engineers and Geoscientists Newfoundland and Labrador Past President's Engineering Scholarship

This scholarship, valued at a minimum of \$1,000.00, was established by the Professional Engineers and Geoscientists Newfoundland and Labrador to mark the centennial year of Engineering as an organized profession in Canada. It is awarded annually on the basis of scholastic achievement to a student entering the Fall semester of Engineering One of the Engineering program at Memorial University of Newfoundland. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, in consultation with the Dean of Engineering and PEGNL.

The S.P. Raheja Memorial Scholarship

This scholarship, valued at a portion of the income from the endowment, was established through generous gifts from the friends and family members of S. P. Raheja. It is to be presented during National Co-operative Education Week and will rotate annually between the Faculty of Engineering and Applied Sciences and the Faculty of Business Administration. To be eligible, students must be in scholarship standing, and be enrolled in the co-operative program, having successfully completed work term four in Engineering or work term two in Business in the previous scholarship year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Director of the Division of Co-operative Education.

The Charlie Riggs and Cathy MacDonald Riggs Memorial Award

This award has been established in memory of Charlie Riggs (Bachelor of Engineering- Mechanical, 1988) and Cathy Macdonald Riggs (Bachelor of Science – Psychology, 1984) by AMEC Earth & Environmental (a division of AMEC Americas Limited). The award will be valued at a portion of the income on the endowment and will be awarded annually on a rotating basis between the Faculty of Engineering and Applied Science and the Department of Psychology. Recipients from Engineering can be enrolled in any year of the undergraduate program. Preference will be given to students involved in environmental organizations such as the Newfoundland Environmental Industry Association (NEIA) or environmental initiatives supported by the Professional Engineers and Geoscientists Newfoundland and Labrador (PEGNL). Recipients from Psychology must be undergraduate students majoring in Behavioural Neuroscience and beyond their second year of study. They may demonstrate an interest in the psychology or physiology of communication. The students must meet the minimum academic requirements for an award as defined by the university. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science and the Head of Psychology, Faculty of Science, respectively.

Rutter Engineering and Automation Inc. Scholarship in Engineering

This scholarship, valued at the annual interest on the endowment, will be awarded annually to a student in Term 4 of the Electrical Engineering program at Memorial University of Newfoundland. Candidates for this scholarship must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a period of 12 months immediately prior to enrollment for the term of study). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Sandwell Engineering Inc. Scholarship

This scholarship, valued at the annual interest on their initial endowment, was established by Sandwell Engineering Inc. and is awarded annually to a student in the Winter semester of Engineering One of the Bachelor of Engineering program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Schlumberger Canada Limited Scholarships

These ten scholarships, valued at \$2,000.00 each, are generously funded by Schlumberger Canada Limited. They will be available to students who are enrolled in academic years 2 to 4 of the Bachelor of Engineering program at Memorial University of Newfoundland and who are women, have Aboriginal status, a disability, or who represent a visible minority. Students with a disability should provide supporting documentation (from a medical doctor, psychologist, audiologist, rehabilitation counselor, or other professional who has specific training, expertise, and experience in the diagnosis of this condition). Student will claim visible minority status through self-identification. The scholarship will be awarded on the basis of scholarship standing with a passing grade in all required courses, to

residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months prior to entering academic term one in the program). They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Shell Canada Engineering Scholarship

This fund a gift to Memorial University of Newfoundland by Shell Canada via *The Opportunity Fund* campaign, will provide three scholarships valued at approximately \$1,500.00 each annually. They will be awarded on the basis of scholarship standing to students in academic terms 5, 6, 7 or 8 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Charlie Sheppard Memorial - Hatch Scholarship

The Charlie Sheppard Memorial - Hatch Scholarship, valued at a portion of the income on the endowment, has been established by Hatch, in memory of Charlie Sheppard. The scholarship will be awarded to two full-time undergraduate students in the Faculty of Engineering and Applied Science who are in the Winter semester of Engineering One and have scholarship standing. All other criteria being equal, preference will be given to a student from a rural community in Newfoundland and Labrador. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Structural Design Inc. Scholarship in Engineering

This scholarship is the result of a commitment to *The Opportunity Fund* by Structural Design Inc. It will provide one scholarship of \$500 to full-time students in Term 7 specializing in Structural Engineering. The scholarship, based on scholarship standing, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science. In the case of a tie between two students, need may be a determining factor.

The Sun Life Financial Scholarship in Applications of Technology

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

The Sun Microsystems of Canada Scholarship

This fund, donated to Memorial University of Newfoundland via *The Opportunity Fund* by Sun Microsystems of Canada, will provide a scholarship for a full-time undergraduate student in Academic Term 5 of the Computer Engineering program. The scholarship, valued at the annual interest on the endowment, is based on scholarship standing and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The David S. Templeton Scholarship

This scholarship is the gift of Newfoundland Power Inc. The exact value is reviewed on an annual basis and is currently set at \$2,000.00. It is awarded annually to a student entering Term 4 who has completed all components of the program up to Term 4. Academic excellence is a major criterion but should be coupled with exemplary work term results. In addition, the candidate should have strong interpersonal and communications skills as well as good understanding of the needs and aspirations of their fellow citizens and a desire to use engineering as a vehicle to make our world a better place. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Engineering and Applied Science in consultation with the President of the Company. No application is required.

The Charles O. Thomas Scholarship

This scholarship is a gift of The Thomas Fuller Construction Company (1958) Limited, in memory of Mr. Charles O. Thomas, who was supervisor of construction of the National Research Council Institute for Marine Dynamics on this campus, 1982-85. The value of the award will be based upon the interest accrued on the principal sum donated, up to the amount of \$750.00. The award is made to the student in the Faculty of Engineering and Applied Science who obtains the highest overall average in Terms 3, 4, and 5 and who does not already hold a scholarship administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in that same academic year. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Engineering and Applied Science.

Bob Thorburn Memorial Scholarship

The Bob Thorburn Memorial Scholarship was initially established at Memorial University of Newfoundland during the *Opportunity Fund* through a gift from Quadrate Inc., and recently fully endowed by Quadrate Inc. This fund will provide a scholarship for a full-time undergraduate student in Academic Term 4 of the Engineering Program in either the Electrical and Computer or the Mechanical Engineering disciplines. The scholarship, valued at the annual interest on the endowment, is based on scholarship standing. Students demonstrating financial need may also be considered. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Tiller Engineering Incorporated/CSCE Newfoundland and Labrador Section Scholarship

The Tiller Engineering Incorporated/CSCE Newfoundland and Labrador Section Scholarship has been established as a result of the 25th anniversary of the Canadian Society for Civil Engineering's Newfoundland and Labrador Section. Tiller Engineering Inc. was founded in 2001 by Faculty of Engineering and Applied Science alumni Richard W. Tiller, M. Eng, B.Eng, P.H. - Class of 1988. The firm is renowned for its commitment to quality and solid record of excellence in the telecommunications, buildings, and energy industries throughout North America. Mr. Tiller is a long-time member of the CSCE and his engineering firm is also an Affiliate Corporate Member of the Society. Valued at \$500, this scholarship is to be awarded annually on the basis of scholarship standing to an undergraduate student in Term 3 of the Civil Engineering discipline. The recipient of this scholarship may be offered a work term at Tiller Engineering Incorporated. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Toromont Scholarship

This scholarship, valued at the annual interest on the endowment, has been established by Toromont Industries Ltd. as part of the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis between students in Business Administration and Engineering and Applied Science. It will be awarded on the basis of scholarship standing, extracurricular activities, and need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean of the appropriate discipline.

Vale Scholarships in Process Engineering

These eight scholarships, valued at \$1,000.00 each, are generously funded by Vale. They will be available to students who are enrolled in academic years 2 to 4 of the Bachelor of Engineering program, majoring in process Engineering at Memorial University of Newfoundland. Students must have scholarship standing and be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the Province for a minimum of twelve months immediately prior to entering academic term one of the program). They will be awarded as follows: two in term three (one male and one female), two in term four (one male and one female), and one each for terms five through eight. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Jacques Whitford Newfoundland Geoscience Scholarship

This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

Women in Engineering Memorial Scholarship

This scholarship has been established to commemorate the sudden and tragic deaths of fourteen women at L'Ecole Polytechnique in Montreal on December 6, 1989. Thirteen of the women who died so violently were pursuing studies in engineering, historically a non-traditional field for women. It is hoped this annual \$2,500.00 scholarship will encourage more women to study and work in this profession, thereby increasing the contribution of women to engineering and scientific endeavours. Funding support is provided by the Faculty of Engineering & Applied Science, C-CORE, Memorial University of Newfoundland Alumni Association and individual contributions. This award is tenable at Memorial University of Newfoundland to female students regardless of age, who are entering the Faculty of Engineering and Applied Science. To be eligible, applicants must demonstrate a commitment to the advancement of women in Engineering fields and an active involvement in wider issues of social concern to women, as well as sound scholastic ability. The committee may also consider applications from female students already enrolled in Engineering studies, provided they meet the eligibility criteria above. A special committee, consisting of representatives from the Faculty of Engineering and Applied Science, C-CORE, Memorial University of Newfoundland's Alumni Association, Gender Studies and Women in Science and Engineering meets annually to consider applications for this scholarship. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of this committee.

Dr. James A. Wright Memorial Scholarship

One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at \$1,000, is available to full-time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at the Grenfell Campus. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Howell Zygocki Scholarship for Women in Engineering

This scholarship was established by Rhonda I. Zygocki in the name of her family. Rhonda graduated from Memorial University of Newfoundland in 1980 with a degree in Civil Engineering and was among the University's early female engineering graduates. This scholarship is valued at a portion of the income from the endowment and will be awarded annually. The recipient will be a second year female student in the Faculty of Engineering and Applied Science. Preference will be given to a student who has demonstrated financial need. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

4.6 Faculty of Medicine

The following are available to students in the Faculty of Medicine based on a recommendation from the Dean.

The Dr. Brian Gerard Adams Memorial Bursary Fund

This bursary has been established by the friends and family of Dr. Brian Gerard Adams, in his memory. The bursary, valued at \$500.00, is available by application on the completion of second year medical studies. The recipient must be in good academic standing and demonstrate financial need. The bursary is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Alcohol and Drug Dependency Commission Commemorative Awards

These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at \$750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

Amgen Canada Memorial University Family Medicine Scholarship

These scholarships, five annually, are established through a generous contribution by Amgen Canada Inc and valued at \$1,000 each. Amgen Canada Inc established these scholarships to provide support for medical students who are planning a career in Family Medicine. To be eligible, candidates must be full-time medical students in their graduating year who have been accepted into the Family Medicine Residency Program at Memorial University of Newfoundland. The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine.

The Dr. Andrew Bagby and Son Zachary Andrew Memorial Bursary

This endowed bursary was initiated in memory of Dr. Andrew Bagby and his son Zachary by David and Kathleen Bagby, parents of Andrew. The recipient must have an engaging demeanor and must relate with ease to people at all levels, as this was a unique characteristic of Dr. Bagby. The bursary will be awarded annually to the Memorial University of Newfoundland medical student who, in addition to demonstrated financial need, best demonstrates the qualities Andrew embodied: a positive, caring attitude, a sense of camaraderie, passion for life, supportive of others with a genuine concern for, and a desire to, impact positively on the lives of his/her classmates. To be eligible students must be in their third year of medical studies or beyond, and in good academic standing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of

the appropriate candidate.

The Erika Bartlett Memorial Bursary

This bursary is the result of an endowment to the University funded by donations from family and friends of the Bartlett family, as well as students, staff and faculty members of the Faculty of Medicine. This bursary is valued at a portion of the annual accrued interest on the endowment and is available to a staff member and a medical student in alternate years. The Erika Bartlett Bursary is administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and awarded on the basis of a recommendation from the Dean, Faculty of Medicine. Applications are available at the Office of Student Affairs, Faculty of Medicine.

Selection Criteria Staff Member

To be eligible a candidate must:

1. Complete the appropriate application form,
2. Be employed full-time with the Faculty of Medicine,
3. Use the bursary to fund study at the undergraduate level,
4. Submit a grade to the selection committee upon completion of the course.

Selection Criteria Medical Student

To be eligible a student must:

1. Be registered in the fourth year of medical studies.
2. Be matched to a postgraduate program in Oncology (Medicine/Surgery/Radiology). If a student is not matched to an Oncology program then the recipient will be chosen at the discretion of the selection committee.

The Donald Cant Studentship

The annual Donald Cant Studentship, valued at \$750.00, is for researching and writing an original essay, suitable for publication, on some aspect of the History of Medicine. The studentship is open to any student enrolled in the M.D. program, Faculty of Medicine, Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships on the basis of a proposal to be submitted by January 31 of each year.

Central Regional Integrated Health Authority and Dr. J.F. Brown Bursary

Each year an award is made available to students from the former Central West Board. The annual income shall be awarded as a bursary to a student of any year from the former Central West area who demonstrates the greatest need and who, in the opinion of the Dean, has achieved adequate academic performance. Should for any reason a bursary not be awarded, the entire amount is to be returned to the fund, and the award made the following year in the usual manner. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships. Applications may be submitted in September of each year.

The Dr. Sharon Coffey Memorial Bursary

This bursary has been established in memory of Dr. Sharon Coffey, graduate of Memorial University of Newfoundland's Faculty of medicine, Class of 1982. Valued at a portion of the income on the endowment, the bursary will be awarded annually to a student entering their first year of Undergraduate Medical Education at the Faculty of Medicine, who graduated from a high school in Newfoundland and Labrador, and who is in financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Peter and Mrs. Deborah Collingwood Scholarship in Medicine

The Dr. Peter and Mrs. Deborah Collingwood Scholarship in Medicine has been established through a generous gift from Dr. Peter and Mrs. Deborah (Templeton) Collingwood. Valued at a portion of the income on the investment, the scholarship will be awarded to students who are citizens of Canada and residents of Newfoundland and Labrador, who are entering their first year of the M.D. program in the Faculty of Medicine and meet the criteria of scholarship standing as defined by the Faculty of Medicine. They are renewable for one year provided the candidates maintain scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Medicine.

Cooze Keinath Scholarship

This scholarship, valued at \$1,000.00 is established by Dr. Derek Cooze, a graduate of the Faculty of Medicine, Class of '85 and his spouse, Dr. Kim Keinath. It will be awarded annually to a student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Medicine.

The Christopher & Donna Cox Scholarship

This scholarship, established through a generous contribution by Dr. Donna Hardy Cox and Dr. Christopher Cox, is valued at \$500 per annum. Drs. Donna Hardy Cox and Christopher Cox, both alumni of Memorial University of Newfoundland, have established this scholarship in gratitude for their well-rounded student life and academic experiences. To be eligible, candidates must be full-time undergraduate students. The scholarship will be awarded annually on a rotating basis between the School of Social Work and the Faculty of Medicine, beginning with the latter. In Medicine, the Scholarship will be awarded to a graduating M.D. student who has a strong academic record and who has expressed an interest in specializing in Oncology. In the School of Social Work it will be awarded to a graduating B.S.W. student who is in scholarship standing and who has made the greatest contribution to student and community leadership. The Scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean/Director of the appropriate discipline.

The Dr. John M. Darte Memorial Fund (Medicine)

This fund, in memory of the first Professor and Chairman of Pediatrics at Memorial University of Newfoundland's Faculty of Medicine (1968-75), has been established by Mrs. J.M. Darte and Mrs. France Darte McCabe. With the income from this fund, up to four awards will be made annually with a value of \$650.00 each. To be considered for an award from this fund, a student must be in good academic standing but other factors, such as financial need, will be considered. The selection will be made in accordance with prevailing policies of the Faculty of Medicine and the University.

The Walter Davis Award

This award was established by the Newfoundland Lung Association to honour the work of Mr. Walter Davis in the field of chest diseases particularly, tuberculosis. The recipient will be the student in the Faculty of Medicine who achieves the best performance in the first year respirology course. It will be valued at \$500.00 annually and awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Ralph John Day Award

This award is available to a student in the pre-clerkship program who completes the best undergraduate project in bowel or liver cancer, including other metastatic disease. This award is a result of a donation from Mrs. Jean Day in memory of her late husband, Dr. Ralph John Day. The value of the award will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

The Hunter W. Earle Memorial Scholarships in Medicine

These scholarships have been made possible from the proceeds of a memorial fund established by colleagues of the late Dr. Hunter W. Earle and a generous donation from Mrs. Marilyn Pasternak, widow of Dr. Earle. Two scholarships will be made available annually to students enrolled in the Faculty of Medicine at Memorial University of Newfoundland, who best exemplify the characteristics of leadership, sportsmanship and interest in student activities and who have maintained a good academic standard. The scholarships, valued at a portion of the annual income on the endowment, will be awarded to students who have completed the Clinical Clerkship and will be presented at the Annual Convocation Dinner in May. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Harry W. Edstrom Scholarship in Medicine

Family, friends and colleagues of the late Dr. Harry W. Edstrom have established this scholarship in his memory. Dr. Edstrom was a professor of Medicine (respirology) at Memorial University of Newfoundland who is recognized for his lifetime contributions to teaching and leadership in the medical profession. He was also Clinical Chief of Medicine at Eastern Health; Past-President of the Newfoundland and Labrador Medical Association; Past Governor of the American College of Physicians; Past Executive of the Canadian Medical Association and Recipient of the 2002 Queen's Jubilee Medal. The scholarship will be awarded annually to a medical student who has completed the Clerkship component of the M.D. program, has a strong academic record and who demonstrates leadership during medical studies. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean, Faculty of Medicine.

The Isidor Epstein Memorial Scholarship

This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than \$700.00 is to be awarded as often as possible to an outstanding second, third, or fourth year student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

The Faculty of Medicine Opportunity Fund Scholarship

This scholarship is the result of an endowment created from several general donations to the *Opportunity Fund* by various alumni and friends of the University and in particular of the medical school. Valued at the annual interest on the endowment, it will be awarded annually to a medical student in the first year of study at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

The Frank & Pat Fagan Family Scholarship for Academic Excellence and Community Leadership

This scholarship has been established through a generous donation by Frank and Pat Fagan. Frank, Pat and their two sons, Andrew and Richard are graduates of Memorial University of Newfoundland. Frank and Pat have spent their lives involved in community activities to enhance the lives of the people of the province of Newfoundland and Labrador. As a family, they believe strongly in the importance of education as well as community involvement and volunteerism. The Fagan family wants to express their gratitude for the quality of education they all attained at Memorial University of Newfoundland and the opportunities this has afforded them.

This prestigious scholarship will be awarded annually to an academically outstanding (top 10 in the class) student who has completed the Preclerkship component of the M.D. program and who demonstrates a significant record of community leadership, prior to entry or during the medical program. Only residents of the province of Newfoundland and Labrador are eligible to apply. The scholarship will be paid out to the recipient in two installments, one after completion of second year and one during the third year of medical studies. The recipient will be known as the 'Fagan Family Scholar'. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Medicine, and based on an application to be submitted by January 31 of the second year of medical studies. The Office of Student Affairs, Medicine will receive applications and assist the Dean with the selection.

The Dr. Bruce A. Fraser Award for Clerkship Electives

This award is made possible by a bequest from the estate of Dr. Bruce A. Fraser who was a professor of Anatomy in the Faculty of Medicine at Memorial University of Newfoundland from 1979-1992. The award, valued at a portion of the income from the endowment, is available to two or three medical students doing Clerkship electives in the United Kingdom and/or Ireland. If no students are completing electives in the United Kingdom or Ireland in a given year, consideration will be given to providing the award for completion of other International electives. Deadline for submission of applications is June 30th in the given year. Selection will be made on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

The Dr. Henry Gault Memorial Scholarship

Friends and colleagues of the late Dr. Henry Gault have established this scholarship in his memory. Dr. Gault had an international reputation in nephrology research, and was instrumental in building a strong program of clinical and research nephrology at the General Hospital and the Faculty of Medicine. Valued at a portion of the income on the investment, one or more, scholarships will be awarded at the end of the fourth year of undergraduate medical studies to a student who has demonstrated both interest in clinical research and academic excellence within Internal Medicine. Applications are available from the Student Affairs Office, Faculty of Medicine. Deadline for submission is January 31st. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Peter Grant Memorial Scholarship

This scholarship, valued at a portion of the income from the endowment, has been established through generous gifts from the classmates, friends and family of Dr. Peter Grant, Medicine class of 1994, to honor his enduring spirit. The scholarship will be awarded annually, based on scholarship standing and financial need, to a second year medical student who has contributed greatly to the class spirit. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of an appropriate candidate.

The Dr. David G. Greenland Memorial Bursary in Family Medicine

This bursary, established through a generous contribution from Heather Greenland in memory of her late husband, Dr. David G. Greenland, is valued at \$2,500 per annum. Dr. Greenland loved to mentor new doctors and was heavily involved in continuing medical education in Grand Falls, NL for many years prior to passing away in 2005. The bursary will be awarded to a full-time undergraduate student in the Faculty of Medicine with demonstrated financial need and in good academic standing. To be eligible, students must be in

their third year of study or beyond and have demonstrated dedication to the practice of family medicine by indicating the intention to go into Family Medicine residency. Preference will be given to students from central Newfoundland as defined by the University. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

The Keith Griffiths Memorial Heart and Stroke Foundation Graduate Scholarship

This scholarship, established through a generous contribution by the Griffiths family, in partnership with the Heart and Stroke Foundation of Newfoundland and Labrador, is valued at \$1000 per annum. The Griffiths family has established this scholarship in memory of their father, Keith Griffiths, a stroke survivor and dedicated volunteer. The scholarship will be awarded to a full-time graduate level student in the Faculty of Medicine, who is pursuing a research program in stroke or neurological issues related to stroke. Candidates must apply in writing, providing a statement of eligibility, as well as details of their area of research, and progress. The award will be made by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Dr. Wulf Grobin Memorial Scholarship in Medicine

This scholarship has been established by Ida Parsons in memory of Dr. Grobin, a compassionate physician and humanitarian. Dr. Grobin was born in Latvia and studied in Switzerland, England and Scotland before moving to Newfoundland. He practised medicine in Brooklyn, Bonavista Bay from 1938-1943 and St. John's from 1945-1958 when he moved with his family to Toronto. There he continued his medical career in the area of diabetes and the elderly. He had many varied interesting medical and personal experiences as an outdoor doctor, and developed a great warmth and affection for Newfoundland and Newfoundlanders, which lasted until his death in March of 2001. Valued at the accrued interest on the initial endowment and based on academics and financial need, the scholarship will be available to a student at the end of their first year in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Abdalla M. Hanna Memorial Bursary in Medicine

Named in memory of Dr. Abdalla M. Hanna, a well known surgeon in St. John's, this bursary is awarded to a student entering first year studies in the Faculty of Medicine who is a resident of Newfoundland and Labrador and who is in financial need. Valued at a portion of the income on the endowment, the bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine.

The Heart and Stroke Foundation Graduate Scholarship

This scholarship, established through a generous contribution by the Heart and Stroke Foundation of Newfoundland and Labrador, is valued at \$1000 per annum. The scholarship will be awarded to a full-time graduate level student in the Faculty of Medicine, who is pursuing a research program related to heart health or heart disease. Candidates must apply in writing, providing a statement of their research, supported by a reference letter from the applicant's supervisor verifying the area of research and progress to date. Consideration will also be given to the student's course work, research and other related accomplishments. Applications shall be submitted to the Faculty of Medicine, Office of Research and Graduate Studies. The scholarship will be awarded by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

Donald and Elizabeth Hillman Prize in Pediatrics

This Prize is to be awarded to the most outstanding student in Pediatrics in the Clinical Clerkship Year (Third-Year Medical Studies). The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Laura Hiscock Memorial Bursary

This bursary, valued at a portion of the income from the endowment, has been established through generous gifts from the classmates, friends and family of Dr. Laura Hiscock, Medicine class of 1992, in memory of Laura's life and to honour her enduring spirit. Laura was passionate about life and had an outstanding ability to maintain balance between work and leisure. She was devoted to family and enjoyed helping and encouraging others; she supported other people and enjoyed celebrating their accomplishments, it seemed, as much as her own. She excelled at sports but was also an outstanding "sportsman", with a belief that doing your best was what really mattered. The bursary will be awarded annually to the Memorial University of Newfoundland medical student who, in addition to demonstrated financial need, best demonstrates the qualities Laura embodied: passion for life, devotion to family, work-life balance, selflessness, support of others, and good sportsmanship. To be eligible students must be in their third year of medical studies or beyond. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of an appropriate candidate.

The Mary Honeygold Scholarship/Bursary

Established in memory of Mary Honeygold by her family, this scholarship/bursary is to be awarded to a student enrolled in the Faculty of Medicine, Memorial University of Newfoundland, on the basis of academic merit and need. Preference will be given to a student who has stated and/or demonstrated an interest in practising medicine in rural Newfoundland upon graduation. The award is to be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Marie T. Kennedy Bursary

In her will, Ms. Marie Theresa Kennedy left a bequest to Memorial University of Newfoundland to allow one or more bursaries of at least \$5,000.00 to be awarded annually. To be considered, a candidate must be a full-time undergraduate student, in any year of study, majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the appropriate Dean.

The Dr. Kevin Keough Medical Entrance Scholarship

This scholarship, valued at a portion of the income on the endowment, has been established through a generous donation by Dr. Ming Jarm Lau, MUNMed Class of 1982. The scholarship is named after Dr. Kevin Keough who was the supervisor of Dr. Ming Jarm Lau for his Master's Thesis in Biochemistry (1978). Dr. Kevin Keough should be remembered as a Professor who believes in bringing out the best in his students and mentees. He has done this by his own example of forever challenging himself and by taking his mentees' best interests to heart. This prestigious entrance scholarship will be awarded annually to an academically outstanding (minimum scholarship standing) student upon entry to first year studies in the Faculty of Medicine. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean, Faculty of Medicine.

The Dr. J.H. King Memorial Scholarship in Medicine

This scholarship, valued at \$500.00, has been donated to the University by Mrs. Gertrude King, widow of Dr. J.H. King, Specialist in Eyes, Ears, Nose and Throat, who practised in Corner Brook for more than thirty years (1947-1978). The scholarship is open to students

in second year or third year of Medicine at Memorial University of Newfoundland who demonstrate the most promise. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Nichole Michelle Lane Cancer Research Scholarship

This scholarship is provided through the generosity of the Candlelighters Association of Newfoundland and Labrador in memory of Nichole Michelle Lane. It is awarded annually to a second-year medical student enrolled at Memorial University of Newfoundland who has undertaken the most outstanding summer research project in the area of cancer and particularly in the area of pediatric cancer. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Janice E. Lessard Scholarship in Geriatric Medicine

This Scholarship is awarded annually from income derived from an endowment donated by Dr. Janice E. Lessard, an alumna of Memorial University of Newfoundland, Faculty of Medicine and a practising Gerontologist, Toronto. It is to be awarded annually to a student who has completed third year of medical studies. The student will have demonstrated a desire to improve the functional and social well-being of the frail and elderly.

This award, in the amount of \$1,000.00, will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

The Medical School Essay Undergraduate Award

The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. The award, valued at a portion of the income on the endowment, will be awarded annually to any undergraduate medical student registered full-time in the current academic year following a competition in the form of an essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is April 30, in any given year, to the Office of Student Affairs HSC Room 2713. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean's Advisory Committee on Awards, Bursaries and Scholarships. Awards are also available to postgraduate and graduate students in the Faculty of Medicine.

The Medical Practice Associates Scholarship for Academic Achievement

Medical Practice Associates, the business association of all full-time clinical faculty members in the Faculty of Medicine, offers three prestigious undergraduate scholarships annually. These scholarships are valued at \$1,500.00 in Medicine Year 1 and Year 2 and \$2,000.00 in Medicine Year 4. They are awarded to the student earning the highest overall grades in each of the 1st, 2nd, and 4th years of undergraduate medical studies. The Medicine Year 4 scholarship will be awarded to the recipient of the University Medal for Academic Excellence in Medicine. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Effie and Leander Mercer Scholarship

The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

The Gordon Mercer Rural Medicine Bursary

Named for the Founding Officer for Student Affairs in the Faculty of Medicine (1972), this bursary is awarded to a student entering first year studies in the Faculty of Medicine who is from a rural community (as defined by the university) in Newfoundland and Labrador and who is in financial need. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine.

The John M. and Elsa S. Morgan Scholarships

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of \$1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Dr. Charles Nardini Memorial Award

This award was initiated by the Class of 1986 in memory of a classmate who was tragically killed in a skidoo accident in the Spring of 1986. Valued at approximately \$500.00 annually, it will be given to a fourth year medical student who has scholarship standing. He/she should be selected by his/her classmates and judged as follows: The student who best exemplified the characteristics of leadership, friendliness, good humour, care and concern for fellow students and patients.

Selection will take place after completion of fourth year. The student will be nominated by classmates and recommended on the basis of a majority vote. Preference, when possible will be given to students from Labrador. The recommendation must be submitted to the Dean's Advisory Committee on Awards, Bursaries and Scholarships, Faculty of Medicine. It will then be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

The Dr. Francis L. O'Dea Scholarship

This scholarship is established to commemorate the memory and work of Dr. Francis L. O'Dea in the field of Obstetrics and Gynecology, and is valued at a portion of the income on the investment. It is awarded annually to a third-year student in the Faculty of Medicine at Memorial University of Newfoundland, whose special interest lies in the area of Obstetrics and Gynecology. The scholarship is awarded

by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Medicine and a Faculty Selection Committee.

The Pathology Prize

This prize is awarded by the Pathology Department to the second-year student in the Faculty of Medicine whose performance in the General and Systems Pathology courses is considered by the members of the Discipline of Pathology to be most distinguished. The prize was initiated in 1984 by the members of the Discipline in recognition of the distinguished contributions by Dr. S.N. Huang, a previous Chairman of the Discipline, to Pathology and to medical education at Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

Mary E. Pedersen, M.D. Scholarship in Medicine

This scholarship is made possible by a generous donation from Mary E. Pedersen, B.Sc., B.Med.Sc., M.D., CCFP, ABFP, FAAF. Five scholarships, valued at \$1,000.00 each, will be awarded annually, based on scholarship standing, to second year undergraduate medical students at Memorial University of Newfoundland. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

The William and Frances Pound Scholarship

This scholarship is the result of a donation to the *Opportunity Fund* by Alumnus, Dr. Bernard Kai Fai So of Hong Kong. It is in recognition of the kindness and generosity shown to Dr. So by Mr. And Mrs. Pound during his years as a student at Memorial University of Newfoundland. Valued at the annual interest on the endowment, it will be awarded annually to a medical student at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

The Dr. Calvin N. Powell Bursary in Medicine

This bursary, which was established by Dr. Powell, is valued at \$1,000.00. It will be awarded annually to a student entering the third or fourth year of medical studies at Memorial University of Newfoundland on the basis of scholarship standing and demonstrated financial need. The recipient will hold no other concurrent award. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

The Harry Roberts Prize in Pharmacology

In recognition of the contribution made to the community and to the medical profession by Dr. H.D. Roberts, Elizabeth Drugs Limited offers an annual prize of \$200.00 to the medical student who has shown academic excellence in the field of Pharmacology. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries, and Scholarships.

The Dr. J.B. Roberts Memorial Scholarship

Friends and colleagues of the late Dr. J.B. Roberts have established this scholarship in his memory. It will be awarded annually to a medical student for the most outstanding performance in second year clinical skills. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

The Ryan Scholarship

This scholarship, established by Helen Ryan in memory of family members, Mary B.H., Thomas Sr., Thomas Jr. and Mary, is valued at a portion of the accrued interest on an endowment. Based on scholarship standing and financial need it will be awarded annually to a student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Medicine.

Dr. Howard Strong Memorial Postgraduate Geriatric Psychiatry Scholarship

This scholarship has been established through generous gifts from colleagues, classmates, friends and family of Dr. Howard Strong, a well-known geriatric psychiatrist and member of the first medical graduating class at Memorial University of Newfoundland. The scholarship will be awarded annually to the resident who is rated by the Faculty as having the best performance in the Geriatric Psychiatry rotation during the psychiatry residency training program in the Faculty of Medicine at Memorial University of Newfoundland. It will be awarded by the Faculty of Medicine Postgraduate Medical Education Committee on the basis of a recommendation from the Discipline of Psychiatry and with the approval of the Dean of Medicine. The Office of Postgraduate Medical Education will oversee administration of the scholarship.

The Studentship in Physician and Medical Student Health and Well-Being

The Studentship in Physician and Medical Student Health and Well-Being will provide an opportunity for a minimum of one month academic experience to research and conduct a project on some aspect of Physician Wellness in Medicine. The project may include scholarly research; program evaluation related to health and well-being in the medical profession; or the creation of literature or other art inspired by this theme. It will result in the creation of a deliverable outcome that may be suitable for peer review and presentation at a medical education meeting, conference, and/or suitable for submission for publication. An opportunity will be provided to the donor for viewing the output. The Studentship is valued at \$2,500 prorated over the terms of the project (based on university rates for student pay). It is open to a student who has completed a minimum of first year medical studies in the Faculty of Medicine, Memorial University of Newfoundland. The Studentship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in the choice of an appropriate candidate. The award of the Studentship is based on a proposal to be submitted by March 15th of each year. An application is available from the Office of Student Affairs, Faculty of Medicine.

The Morris and Graham Wilansky Memorial Award

This award has been established through a generous donation by family and friends of Morris and Graham Wilansky, in their memory. The scholarship will be awarded annually to the second-year medical student who has achieved highest academic excellence in the Neurosciences course. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

4.7 Faculty of Science

The following are available to Faculty of Science students based on a recommendation from the Dean, Faculty of Science or the appropriate Director or Department Head.

The Dr. H.J. Anderson Departmental Awards in Chemistry

Four awards have been established through the Department of Chemistry to honour retired Faculty member and Professor Emeritus, Dr. H.J. Anderson. The recipients of these awards will have demonstrated academic excellence in Chemistry courses; Best Marks in

Chemistry 2400 and 2401, Best Third Year Performance by a Chemistry Major, Second Best Third Year Performance by a Chemistry Major, and Best Fourth Year Performance by a Chemistry Major (not receiving a convocation award). These awards will be presented in May and June of each year based on the most recent year's academic performance. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Chemistry.

The Hugh J. Anderson Chemistry Scholarship

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador who have completed first year chemistry at Memorial University of Newfoundland and are declared majors in Chemistry. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Head, Department of Chemistry.

The Dr. Cater W. Andrews Scholarship

This scholarship, valued at a minimum of \$1,000.00, the gift of former students and colleagues of the late Dr. C.W. Andrews, is awarded to a Memorial University of Newfoundland student graduating with a B.Sc. in Biology who plans to pursue graduate work at Memorial University of Newfoundland in marine and/or freshwater biology. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Biology Department. In making the selection, exceptional industry and interest in the field, together with scholarship standing, will be the main criteria taken into account.

The Atlantic Canada Marine Biodiversity Essay Contest Tuition Scholarship

Memorial University of Newfoundland is a participant in the Atlantic Canada Marine Biodiversity Essay Contest which is operated by the Centre for Marine Biodiversity. This contest is open to Grade 12 students from across Atlantic Canada. The first prize winner receives a waiver of tuition fees for two semesters if he or she attends Memorial University of Newfoundland. The two runners up receive partial waiver of tuition fees if they attend Memorial University of Newfoundland. Students are notified of their status in the Essay Contest by the Centre for Marine Biodiversity and the successful candidates are informed of their tuition scholarship by the university, after the Centre for Marine Biodiversity informs the university of the contest winners. Further information can be found on the web site of the Centre at www.marinebiodiversity.ca. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Science.

The Atreya-Haritha Scholarship in Mathematics

This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at \$1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

The Au Family Scholarship in Biochemistry

This scholarship is valued at the interest accruing annually on an endowment given to Memorial University of Newfoundland by the Au family. It is open to students entering their final year of study in the Biochemistry program who, during their studies, combined a record of high academic achievement and scholarship standing with active involvement in extracurricular activities within the University, including athletic prowess at the varsity level. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

Donald and Evelyn Barton Chemistry Scholarship

This scholarship is the result of an endowment to Memorial University of Newfoundland in memory of Dr. Donald Barton who was a faculty member with the Department of Chemistry from 1962 to 1992. This scholarship, valued at a portion of the annual income, will be awarded to a student majoring in Chemistry who is beyond their first year of study and who has demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head, Department of Chemistry in consultation with the Chemistry Department Scholarships Committee.

The Bennett/Khan Bursary in Biology

This bursary is made possible through a fund established by an anonymous donor in honour of Dr's Gordon Bennett and Rasul Khan. Valued at the interest on the initial endowment, it will be awarded annually to a full time student beyond second year who is majoring in Biology with particular reference to parasitology or another branch of invertebrate zoology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

The Biochemistry Bursary

Valued at \$1,000, this bursary will be awarded annually to a full time undergraduate student who is enrolled in the fourth year (that is, normally enrolled in majors' courses at the 4000 level) of any Biochemistry Undergraduate degree program in the Faculty of Science. The recipient must have demonstrated financial need and meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland, and not be in receipt of any other scholarships or bursaries. The bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head, Department of Biochemistry.

The E.A. Bishop (1889-1953) Memorial Scholarship

This scholarship, established to honour the memory of E.A. Bishop, a teacher in Newfoundland and Labrador, is the result of a generous donation to Memorial University of Newfoundland by his son, John. Interest on the fund will provide a scholarship to full-time undergraduate students after completion of their first year at Memorial University of Newfoundland who are dependants of teachers in the public school system of Newfoundland and Labrador. Applicants must be students in the Faculties of Arts or Science and be of scholarship standing. The scholarship is valued at approximately two semesters tuition for five courses. If, in any year, there is no eligible candidate, the scholarship will not be awarded; however, a student may be awarded the scholarship more than once. It will be awarded on the basis of a special application which may be obtained from the Scholarships, Bursaries and Awards office, room 4018, University Centre, telephone (709) 864-3956.

W.J. Blundon Scholarship

The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Mathematics and Statistics.

BP Canada Energy Company Scholarships in Earth Sciences

These Scholarships, the gift of BP Canada Energy Company, are valued at \$2,500.00 each annually and are awarded to two students in the Earth Sciences program at Memorial University of Newfoundland. One scholarship will be awarded to a student in Geology and one to a student in Geophysics. Normally students must be registered full-time in the semester for which these scholarships are granted, however, in the case of a student who has met all academic requirements for their Honours degree, except the Honours dissertation, part-time registration will be accepted. Candidates must have demonstrated high academic achievement, and expressed an interest in

oil and gas exploration and development through their choice of courses and/or dissertation subjects. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences.

The Dr. S. W. Breckon Scholarship in Physics

This scholarship, valued at \$1000.00, is the gift of former students and colleagues of Dr. Breckon and is awarded to the full-time honours Physics student who has the best overall academic performance upon completion of the third or fourth year honours Physics program and subsequent enrollment in the following year.

The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Physics. Applications should be directed to the Head of the Department of Physics.

The Murray H. Brooker Scholarship for Excellence in Chemistry

The scholarship is valued at the annual interest on an endowment established in memory of Dr. Murray H. Brooker who was a professor in the Department of Chemistry when he passed away in 2000. It will be awarded to a student who is beyond first year at Memorial University of Newfoundland, who is a declared major in Chemistry and who has been accepted to work in a Chemistry Laboratory for the current/upcoming summer. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Chemistry.

The Dr. Werner D. Bruckner Scholarship

This scholarship, valued at \$500.00, honours the memory of Werner D. Bruckner, Head of the Department of Geology at this University from 1959 to 1968, J. P. Howley Research Professor from 1968 to 1977 and Professor Emeritus, 1978. It is awarded annually to an undergraduate student majoring in Earth Sciences. The award will be based upon scholarship standing but, in recognition of other concerns held as particularly important by Dr. Bruckner, financial need and qualities of character will also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Bruton Scholarship Fund

Dr. F.A. Bruton, friend and colleague of J.L. Paton, taught Nature Study to teachers in three successive Memorial University College summer schools, from 1926-28, at Paton's request. At his death in 1930, Dr. Bruton made a bequest to the College from which two Bruton Scholarships are awarded. These scholarships, valued at \$500.00 each, are awarded annually to students who have demonstrated interest in Plant Biology. One award will be available to a student majoring in Biology whose special interest is in the field of Plant Biology. The second award will be available to an Education student whose main area of interest is in the teaching of science, in particular, plant biology. In the absence of a suitable candidate from the one department, two awards may be made by the other department in accordance with the above conditions. Academic ability and financial need will be taken into consideration in making these awards. They will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the department concerned.

Buchans Scholarship Fund of ASARCO Incorporated

ASARCO Incorporated has established a scholarship fund, the annual interest on which will provide for students enrolled in the Department of Earth Sciences, Memorial University of Newfoundland, either a scholarship for post-graduate study and research, valued at \$5000.00; or two scholarships for undergraduate study, valued at \$500.00 each. The latter scholarships will be available only when no suitable candidate can be found for the former. In order to qualify for these awards, students must be native-born Newfoundlanders or graduates of Newfoundland high schools. In the case of the graduate scholarship, the award will be made by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences; in the case of the undergraduate scholarships, by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences. Should no candidates be available in any year, the awards may be held over.

The Canadian Institute of Mining, Metallurgy and Petroleum (Newfoundland Branch) Silver Jubilee Scholarship

This \$1,500.00 annual award is available to students in the final or penultimate year in Earth Sciences at Memorial University of Newfoundland. Scholastic achievement is the principal requirement governing the award but economic need and character may be taken into account. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head of the Department of Earth Sciences.

The Canadian Society for Chemistry 1996 Conference and Exhibition Scholarship

This scholarship, valued at the annual interest on the initial endowment, was established in recognition of the efforts of the Organizing Committee and the over 100 volunteers for the 1996 Canadian Society of Chemistry Conference which was hosted by Memorial University of Newfoundland. This scholarship will be awarded annually to a student in Chemistry based on the results of the National CIC Chemistry examinations or its successors. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Chemistry.

The Chevron Canada Resources Scholarship in Geology and Geophysics

This scholarship, valued at a portion of the annual income on an endowment created at Memorial University of Newfoundland by Chevron Canada Resources, will be awarded annually to an undergraduate 3rd or 4th year student studying Geology or Geophysics in the Department of Earth Sciences. It will be awarded on the basis of scholastic standing and financial need to a student who graduated from a high school in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Churchill Falls (Labrador) Corporation Limited Science Scholarship

These scholarships valued at approximately \$2,500.00 each annually, are the result of an endowment to *The Opportunity Fund* by the Churchill Falls (Labrador) Corporation Limited. They will be awarded to second year students or beyond entering the Faculty of Science. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Science. All else being equal, preference will be given to students from Labrador.

The Computing and Communications Scholarship

This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland in support of the dependants of its staff members. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependant of a current, retired, deceased, or former (having worked in the unit for a minimum of 5 years) employee of C&C or be a current student employee of the Department. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, or by telephone to (709) 864-3956. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Captain James Cook Memorial Scholarship

A fund was established in 1979 by members of the Department of Geography to honour the memory of Captain James Cook (1728-79),

explorer, navigator and cartographer, whose years of painstaking mapping of the coasts of Newfoundland and Labrador laid the basis for a comprehensive and scientific knowledge of the geography of the province.

One or more scholarships, valued at not less than \$600.00, will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of Geography to a student or students demonstrating particular merit in Geography.

The Dr. Douglas L. Cooper Memorial Scholarship

This scholarship fund has been established in honour of Dr. Cooper who was the first department head of Chemistry at Memorial University of Newfoundland. The fund will provide several scholarships valued at a minimum of \$1,500.00 each annually. They will be awarded to Chemistry students entering their third year of a Bachelor of Chemistry program (General or Honours). If there are not enough eligible third year students in a given year, it will be open to those in their fourth year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Chemistry.

The Ernst R. Deutsch Memorial Scholarship in Geophysics

This scholarship is named in honour of Dr. Deutsch, a long-time faculty member at Memorial University of Newfoundland who passed away in 2000. Valued at a portion of the income on the investment the scholarship will be awarded annually to a senior undergraduate student in the Earth Sciences (or related field of Physics) whose concentration is Geophysics. If there is no qualified undergraduate student, the scholarship will be awarded to a full-time graduate student in Earth Sciences who has received an undergraduate degree from Memorial University of Newfoundland and whose area of concentration is Geophysics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences in the case of an undergraduate student; in the case of a Graduate Student it will be awarded by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences.

The Faculty of Science Opportunity Fund Scholarship

This scholarship is the result of an endowment created from several general donations to the *Opportunity Fund* by various alumni and friends of the University and in particular of the Faculty of Science. Valued at the annual interest on the endowment, it will be awarded annually to a student beyond first year in the Faculty of Science at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Science.

Dr. L.A.W. Feltham Scholarship

This scholarship began with fundraising within the Biochemistry Department during the 1996 *Opportunity Fund* Campaign. It is named for Dr. Feltham, the founding head of the department. The interest on the endowment will provide a scholarship for a student in the B.Sc. Program in Biochemistry. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student beyond second year on the basis of scholarship standing and a recommendation from the Head, Department of Biochemistry.

Daniel Freeman Memorial Scholarship

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

The Dr. Patricia Giovannetti Memorial Bursary

The Newfoundland and Labrador College of Dietitians sponsors this Bursary of \$600.00 awarded annually to a student completing the second year of the Dietetics program in the Department of Biochemistry at Memorial University of Newfoundland and who is attending Acadia University the following year. The scholarship will be awarded on the basis of scholastic standing and financial need, to a student who is planning to enter a dietetic internship program upon graduation. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Biochemistry Department.

The Samuel, Millicent and Thomas Grandy Memorial Scholarship

This scholarship, established in 1998 by the Grandy Family to honour the memory of their parents, will be valued at a portion of the annual accrued interest on the initial endowment. It will be awarded on the basis of scholarship standing and demonstrated aptitude and potential in the science of computing to an undergraduate student beyond first year in full time study of the Computer Science program (declared major for B.Sc.) at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Computer Science.

Greystone Managed Investments Scholarship

This scholarship, valued at a portion of the income on the investment, is made possible by a generous contribution from Greystone Managed Investments. This scholarship will be awarded, to an undergraduate student beyond first year, on a rotating basis between the Faculty of Science and the Faculty of Arts. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty on rotation.

The Douglas and Beatrice Hall Biochemistry Bursary

This bursary was established by the employees in the Department of Biochemistry in memory of two dedicated past members of the Department. Valued at a portion of the income on the endowment, it will be awarded annually to a student who is enrolled in the third year (that is, normally enrolled in majors' courses at the 3000 level) of any Biochemistry undergraduate degree program in the Faculty of Science. The recipient must meet the minimum academic and financial requirements for a bursary as defined by the university and not be in receipt of any other scholarships or bursaries. The Bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

The Hebron Women in Science and Engineering Scholarship Program

This scholarship was created by a generous contribution from the Hebron Project. Scholarships will be made available to female students who are enrolled full-time or part-time at any campus of Memorial University of Newfoundland, have scholarship standing, and who are majoring in engineering, the geosciences, environmental science or chemistry. Students with financial need will be given preference. Also, where possible at least one Scholarship will be awarded to a student in her first year of study. The Scholarships/Awards will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards (for students at the St. John's campus; for recipients at the Grenfell campus or Marine Institute, Scholarships/Awards will be awarded by the appropriate body at the respective campus) upon recommendation from the appropriate Dean or Department Head. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy Inc, Statoil Canada and Nalcor Energy.

General Rick Hillier Scholarship in Science and Leadership

This scholarship, valued at a portion of the income on the investment, was established through donations and the proceeds of the inaugural Halifax Affinity Dinner, at which General Rick Hillier gave the keynote address. The scholarship is intended to recognize one of Memorial University of Newfoundland's most celebrated alumni. General Hillier is one of Canada's most respected and successful military leaders in generations; a leader who has had a profound impact on Canada's men and women in the military, and an advocate for peace internationally. Upon his retirement in October of 2008, General Hillier took on the position of Chancellor of Memorial University of Newfoundland. To be eligible for this scholarship students must be enrolled full-time in any year of any undergraduate program in the Faculty of Science. Preference will be given to students who demonstrate leadership in their activities, either on or off-campus, and students who have graduated from a high school in rural Newfoundland and Labrador. When possible, preference will also be given to students who are members of military families, or who are past or present members of the military. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarship, Bursaries and Awards based on the recommendation of the Dean, Faculty of Science.

The Marie T. Kennedy Bursary

In her will, Ms. Marie Theresa Kennedy left a bequest to Memorial University of Newfoundland to allow one or more bursaries of at least \$5,000.00 to be awarded annually. To be considered, a candidate must be a full-time undergraduate student, in any year of study, majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the appropriate Dean.

The Dr. B.K. Kim Scholarship in Statistics

This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least \$500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The John Kingston Memorial Scholarship

This scholarship, valued at \$600.00, was established in memory of John F. Kingston, a former member of the faculty of the Department of Chemistry at Memorial University of Newfoundland. It will be awarded annually to a student majoring in Chemistry, who has completed at least 18 credit hours in Chemistry courses, on the basis of academic merit and financial need. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Chemistry.

The Dr. Chu-in Charles Lee Scholarship

This scholarship is established through generous contributions by family, friends, students, professors and the academic community in memory of Dr. Chu-in Charles Lee, who served as Deputy Head of the Department of Mathematics and Statistics for many years. Valued at a portion of the income on the endowment, the scholarship will be awarded on the basis of scholarship standing to senior full-time undergraduate students in their 3rd or 4th year majoring in Mathematics and/or Statistics. To be considered, candidates must take a minimum of four (4) senior Mathematics and/or Statistics courses in a given year with preference given to the student who achieves the highest average on these courses. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head of the Department of Mathematics and Statistics.

The Julius and Bella Levkovitz Memorial Scholarship

This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than \$700.00 is to be awarded as often as possible to an outstanding student in second, third or fourth year, or graduate studies in Pure or Applied Science at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Science.

The LGL Limited Scholarship in Marine Science

This scholarship, valued at \$3,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, but other students will be considered. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be based upon a recommendation from the Dean, Faculty of Science.

The Hugh Lilly Memorial Scholarship

This scholarship, presently valued at a minimum of \$3000.00 per annum, will be awarded to the most promising graduate in the Geosciences at Memorial University of Newfoundland who is continuing studies at the post-graduate level, here or elsewhere. The award honours the memory of the late Hugh Lilly, an instructor in the Earth Sciences Department. Selection of the winning candidate will rest with the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with the Earth Sciences Department.

The Hugh Lilly Undergraduate Scholarship

This scholarship, valued at \$300.00 per annum, will be awarded to an undergraduate student entering the third year of studies in a Geology major program. The award honours the memory of the late Hugh Lilly, an instructor in the Earth Sciences Department. In making the award, academic achievement, character and financial need may be taken into consideration. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Earth Sciences Department.

The Loughney-Brosnan Scholarship in Biochemistry

This scholarship is valued at the interest accruing on an endowment given to Memorial University of Newfoundland by the Loughney family. It is open to an undergraduate student studying the honours program in Biochemistry at Memorial University of Newfoundland and will be awarded on the basis of scholarship standing. Preference will be given to a student entering the final year of the Biochemistry (Honours) Program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

The William Kenneth MacLeod Scholarship

This scholarship is the result of a donation to Memorial University of Newfoundland in 2002, in memory of Mr. MacLeod. Mr. MacLeod was a recipient of the Provincial Government Senior Jubilee Scholarship in the early 1930's. The scholarship will be valued at the annual interest on the endowment and will be awarded to a Newfoundland and Labrador undergraduate student who has a recognized disability (physical or learning). The scholarship will be awarded on the basis of scholarship standing to a student in the Faculty of Science.

Where possible, preference will be given to financially needy students as determined by the University. In a year when a student meeting the above criteria cannot be identified, the scholarship may be awarded to any undergraduate student who demonstrates need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application.

The Harry Kieffe Scholarship

The scholarship, valued at a portion of the income on the investment, was established by the employees in the Department of Physics and Physical Oceanography in memory of a past member of the Department. It will be awarded annually to a student who is enrolled in the third year or beyond of any Physics and Physical Oceanography undergraduate degree program in the Faculty of Science. Selection will be based on scholarship standing and students must not be in receipt of any other scholarships, bursaries or awards. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Physics and Physical Oceanography.

The Mrs. E.D. Matthews Memorial Scholarship in Mathematics and Statistics

This scholarship honours the memory of the late Mrs. Evelyn Matthews who taught in the Department of Mathematics and Statistics, Memorial University of Newfoundland, from 1959-78. It has a value of at least \$500.00, and will be awarded on an annual basis to an undergraduate student whose major subject of study is Mathematics or Statistics. The scholarship will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Carmen and Olive Mews Chemistry Scholarship

This scholarship is the result of an endowment to Memorial University of Newfoundland from the estates of Carmen and Olive Mews. Carmen Mews enjoyed a long career with the Department of Chemistry. He and his wife Olive, both of whom were keenly interested in the welfare of undergraduate students, wished to endow a scholarship to support a student majoring in Chemistry. This scholarship, valued at a portion of the annual interest, will be awarded to a student beyond their first year of study who has demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head, Department of Chemistry.

The Grace Morgan Scholarship in Nutrition

This scholarship is valued at the interest accruing on an endowment given to Memorial University of Newfoundland by Mrs. Grace Morgan. It is open to an undergraduate student studying nutrition at Memorial University of Newfoundland and will be awarded on the basis of scholarship standing. Preference will be given to a student entering the final year of the nutrition program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

The Dr. George Moskovits Award

This award is made possible through a fund established by former students and colleagues of Dr. George Moskovits to honour his retirement from the Department of Biology in 1984. The award is valued at \$200.00 and will be made annually to a full-time senior student who has shown outstanding performance in the field of cell biology/microbiology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

The E.R.W. Neale Undergraduate Scholarship of the G.A.C. (Newfoundland Section)

The E. R. W. Neale Undergraduate Scholarship is offered annually by the Newfoundland Section of the Geological Association of Canada. The scholarship is open to declared majors in Earth Sciences at Memorial University of Newfoundland. One scholarship valued at \$1000 will be offered annually, on the basis of academic achievement, financial need and character. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Newfoundland Gardening Scholarship

This scholarship is the result of proceeds from the sale of a book by Dr. Peter J. Scott entitled Newfoundland Gardening. It will be awarded annually to a Biology student who is graduating and intends to pursue a career in plant biology. In the event that such a candidate is not available, it will be awarded to a second year Biology student from Memorial University of Newfoundland going on to study horticulture. The scholarship will be valued at the interest accruing on the initial endowment and will be awarded on the basis of scholarship standing by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biology.

The Newfoundland Home Economics Association Scholarship

This scholarship, valued at \$800.00, will be awarded annually to a student enrolled in the Dietetics Program at Memorial University of Newfoundland, preferably to a student in the second year of the program. Where possible it will be given to an Honours candidate. This scholarship is tenable for one year and will be awarded on the basis of scholarship standing and financial need. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

The Newfoundland Margarine - Unilever Canada Scholarship

This scholarship, valued at the annual interest on an initial endowment, will be awarded annually to a student enrolled in the Nutrition major in the Department of Biochemistry at Memorial University of Newfoundland. The award will normally be given to an honours student in his/her final year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Biochemistry.

The Newfoundland and Labrador Outfitter's Association Scholarship

This scholarship, valued at \$500.00, will be awarded annually to a student in a science program at Memorial University of Newfoundland who is registered in at least his or her third year of studies. The scholarship recipient must plan to pursue an undergraduate academic program leading to a career in Inland Fisheries, Wildlife Management, Wildlife Biology, or a related field of study. The scholarship will be awarded on the basis of academic excellence. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate department head.

Thomas Corbin Noel Scholarship Fund

This scholarship, in memory of Thomas Corbin Noel Senior and Junior, was established through a bequest by Ella Noel as a tribute to her late husband and son. Corbin Noel Senior was a retired professor of Physics and former assistant vice-president (administration/physical operations) at Memorial University of Newfoundland. Tommy Noel was a student at Memorial University of Newfoundland when a tragic accident took his life. Valued at a portion of the income on the investment, the scholarship will be given to a student majoring in Physics on the basis of scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Physics.

The Noranda Scholarship

This scholarship valued at the annual interest, has been established by the Noranda Foundation as part of the *Opportunity Fund* campaign. It will be awarded on an annually rotating basis between students in Earth Sciences and Engineering and Applied Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing

and a recommendation from the Dean/Department Head of the appropriate discipline

Oil and Gas Week Scholarship

Valued at \$1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John's, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

The Dr. V. Stephen Papezik Scholarship

This scholarship, valued at a minimum of \$1000.00, honours the memory of Dr. V. Stephen Papezik, Professor of Geology at Memorial University of Newfoundland from 1961 to 1984. It is awarded annually to an undergraduate student majoring in Earth Sciences whose specialization is closest to mineralogy.

The award will be based upon scholarship standing but in deciding on candidates of equal scholastic attainment, need may be the deciding factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Bruce Pardy Family Scholarship

This scholarship, valued at the annual interest on an endowment, has been established by the Pardy Family. It will be awarded annually to an undergraduate student in the Faculty of Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Science.

The Maureen Penney Memorial Scholarship

This \$400.00 scholarship, donated by the Geological Association of Canada, honours the memory of Maureen Penney, B.Comm.(MUN), who was Associate Secretary-Treasurer of the Geological Association of Canada from 1983 to 1989. It is awarded annually to a second- or third-year undergraduate student majoring in Earth Sciences. In making the award, academic achievement will be the primary consideration, but other factors, such as involvement in student activities, will be taken into account. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Dennis R. Prince Memorial Scholarship

The Dennis R. Prince Memorial Scholarship has been made available by the Prospectors and Developers Association of Canada, Falconbridge Ltd., the Porcupine Prospectors and Developers Association, the mining community, colleagues, friends and family of the late Dennis Prince. Dennis graduated from Memorial University of Newfoundland in 1970 with a B.Sc. Honours degree. He led a distinguished career as a geologist with twenty-nine years at Falconbridge Ltd.

The annual scholarship, valued at \$2,000.00 and an engraved Brunton compass, will be awarded to a final year student specializing in mineral exploration and development in the honours program of the undergraduate degree in Earth Sciences at Memorial University of Newfoundland. If there is no qualified undergraduate student a graduate student who has been accepted for post-graduate studies in mineral exploration and development at Memorial University of Newfoundland and who intends to pursue a career in the mineral industry, will be considered. The qualifying student must demonstrate scholarship standing, strong personal values including a strong work ethic and high personal integrity. Active participation and leadership in geological associations and activities such as The Alexander

Murray Geology Club and the Geological Association of Canada may be taken into consideration as well as financial need. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases it will be based on a recommendation from the Head, Department of Earth Sciences in consultation with the PDAC and the Prince family.

Professional Engineers and Geoscientists Newfoundland and Labrador Past Presidents' Geoscience Scholarship

This scholarship valued at a minimum of \$1,000.00 was established by the Professional Engineers and Geoscientists Newfoundland and Labrador. It is awarded annually on the basis of scholarship standing to a Geoscience student at Memorial University of Newfoundland. It is open to either graduate or undergraduate students in any given year and will be allocated as such at the discretion of the Department Head. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Earth Sciences in consultation with PEGNL. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Earth Sciences, in consultation with PEGNL.

The Psychology Society Award

The Psychology Society Award has been established by the students of the Psychology Society to encourage and support their fellow students. This award will be given to an undergraduate student majoring in Psychology or Behavioural Neuroscience who is beyond their second year of study and meets the minimum academic requirements for an award. It will be based on academic achievement in Psychology or Behavioral Neuroscience courses as well as involvement in the internal and external Psychology or Behavioral Neuroscience community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Department of Psychology.

Rees Scholarship

This scholarship, funded by Memorial University of Newfoundland alumnus Michael Rees (B.Sc. '99), is awarded annually to a student entering their second year of full-time undergraduate studies majoring in Earth Sciences at Memorial University of Newfoundland. The scholarship is valued at \$1,000 and will be awarded to a Newfoundland and Labrador high school graduate solely on the basis of scholastic achievement (minimum of scholarship standing). It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head of the Department of Earth Sciences.

The Rotary Club (St. John's Northwest) Scholarship

This scholarship has been established by the Rotary Club of St. John's Northwest. It is valued at \$1,000.00 annually and will be awarded to a full-time student beyond first year, pursuing a Bachelor of Arts or a Bachelor of Science with a major in one of the Social Sciences, who has demonstrated a commitment to community service. The recipient of this scholarship will be a long-term resident of Newfoundland and Labrador who completed high school in this province and will have demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the joint recommendation of the Dean of Arts and the Dean of Science. This scholarship will be presented at one of the regular meetings of the Rotary Club of St. John's Northwest and the recipient will be asked to speak about their goals and community service work.

The Roberta H. Sellars Scholarship

This scholarship is the result of an endowment by the Rev. Walter C. Sellars in recognition of his wife Roberta for her loyal and loving support, particularly while he was struggling through university. The scholarship will be awarded annually to a full-time student in any year in either the Faculty of Arts or Science on a rotating basis. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing and financial need and upon the recommendation of the appropriate Dean.

The Rick Sheppard Memorial Scholarship

This scholarship, valued at \$500.00 has been established by the friends and colleagues of Rick Sheppard, a graduate of Memorial University of Newfoundland (Geology-Class of '81), who died in the Ocean Ranger Disaster. The award is open to undergraduate students majoring in Geology. Academic standing, financial need and active participation in the Alexander Murray Geological Club will be taken into consideration in selecting candidates. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Head, Department of Earth Sciences.

The James (Jay) Stackhouse Memorial Scholarship

From a sum of money donated to the University by the friends of the late James (Jay) Stackhouse, a geologist who graduated from this University in 1976, a scholarship has been established for students majoring in the Earth Sciences at Memorial University of Newfoundland. Undergraduate students in their penultimate year of the program may apply. The value of the award will be determined by the annual interest earned on the fund. The scholarship will be awarded at the end of the fall semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head, Department of Earth Sciences.

Statistical Society of Canada Scholarship

This scholarship has been established by a generous donation from the Statistical Society of Canada. It is based on scholarship standing and is awarded to an undergraduate student in any year of study who is majoring in Statistics and meets the minimum academic requirement for a scholarship. The scholarship will be valued at \$750. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Mathematics and Statistics.

The Sun Life Financial Scholarship in Applications of Technology

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

The Eric A. Swanson Scholarship in Earth Sciences

This scholarship, valued at \$3,000.00, is established by Eleanor Swanson in honour of her father, Eric. It will be awarded annually to a student in the Faculty of Science, who is following a program of studies in Earth Sciences. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences.

Teck Scholarships in Earth Sciences

These scholarships are made possible by a generous contribution by Teck Resources Limited, a Canadian mining company. Two scholarships are available annually to full-time undergraduate students majoring in Earth Sciences: one for a student in the third year of the program and the other for a student in fourth year. To be eligible, candidates must have scholarship standing and must demonstrate strong leadership skills, superior communication skills and a commitment to community and citizenship. Interested applicants should provide to the Head, Department of Earth Sciences one academic and one non-academic letter of reference attesting to their strengths in these areas, along with a cover letter indicating their desire to be considered for the scholarship. Applications will be due by the end of September each year with recipients selected by November and scholarships awarded shortly thereafter. Applicants should contact the Department of Earth Sciences Main Office for specific deadlines. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head, Department of Earth Sciences.

Dr. Siegfried Thomeier Memorial Prize in Pure Mathematics

The prize, the interest from a donation by an anonymous donor, is awarded to a fourth or fifth year student majoring in Mathematics with a concentration in Pure Mathematics. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Mathematics and Statistics.

The Eugene Vincent Memorial Scholarship

This undergraduate scholarship has been established by the Baie Verte-Springdale Branch of the Canadian Institute of Mining and Metallurgy, in memory of the late Eugene Vincent, a former President and active member of the Branch. The award, which has a value of at least \$300.00, will be restricted to residents of Newfoundland and Labrador who are enrolled beyond the first-year level of the Earth Sciences program at Memorial University of Newfoundland and who are intending to pursue careers in the mining field. Selection of a candidate will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Robert Westcott Memorial Scholarship

This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Department Head of the appropriate discipline.

The Dr. Howard Louis White Memorial Award in Chemistry

This award is the result of a donation to Memorial University of Newfoundland from family members of the late Dr. White, class of 1941. It is awarded to a student majoring in Chemistry who is in 2nd year or beyond. Valued at the annual accrued interest on an initial endowment and based on academic standing, it is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting upon a recommendation from the Head, Department of Chemistry.

The Jacques Whitford Newfoundland Geoscience Scholarship

This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly

Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

The Williams Science Scholarships

These scholarships valued at \$1,500.00 each are the result of an endowment started by Dr. Hank Williams. One scholarship from the fund shall be awarded to the most promising second year student entering the Earth Science Program and others, as the fund will allow, will be awarded to second year students entering the Faculty of Science. These scholarships shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Head, Department of Earth Sciences and the Dean, Faculty of Science respectively. In the event that there is no acceptable candidate in Earth Sciences Department in a given year, all scholarships for that year will be awarded to students in the Faculty of Science upon recommendation of Dean.

The Dr. June G. Winter Memorial Scholarship

This scholarship valued at the interest on the endowment was established in memory of Dr. June G. Winter, a former member of faculty in the Department of Chemistry. The scholarship will be awarded annually to a female student in her first year of chemistry studies and will be based on the results of the Chemical Institute of Canada (CIC) National Chemistry Examination. The scholarship is tenable only by students who attended school and wrote the CIC examination in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Chemistry.

The Walker Wood Foundation Bursary in Science

Valued at \$4,000 annually, this bursary is established as a result of a generous contribution from Sue and Neil Wood, friends of Memorial University of Newfoundland. The bursary is available to full-time undergraduate students who graduated from a high school in rural Newfoundland and Labrador and who are entering into their first year of study at Memorial University of Newfoundland with the intention to complete a Bachelor of Science degree. Eligible students must have demonstrated financial need, and preference will be given to candidates who also demonstrate that they are active in the community. The bursary is renewable for three additional years as long as the recipient formally majors in an area within the Faculty of Science, maintains a 70% average, good academic standing and full-time status. In the event that the recipient does not meet the criteria for renewal, the bursary will be transferred to a selected candidate in the corresponding year of study in the Faculty of Science. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Science.

Dr. James A. Wright Memorial Scholarship

One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at \$1,000, is available to full time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Grenfell Campus. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Lee Wulff Scholarship

A fund was established in 1991 to honour the memory of Lee Wulff (1905-1991), a renowned American sportsman, author, conservationist and environmentalist, who spent a considerable amount of time exploring the waters, barrens and woodlands of Newfoundland, promoting its abundant wildlife resources and supporting conservation. A single scholarship, valued at no less than \$1,500.00 will be awarded annually from this fund, to a third year Biology major wishing to pursue further studies in biological sciences, with emphasis on conservation and environment. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of Biology and the Dean of Science and will be based on academic excellence in biological sciences and a demonstrated interest in conservation and the environment.

4.8 School of Human Kinetics and Recreation

The following are available to students in the School of Human Kinetics and Recreation based on the recommendation of the Dean.

Athletics Northeast (ANE) Running Club Award for Varsity Cross Country

This award was created by Avalon Northeast (ANE) Running Club, which is a community minded club made up of runners of all ages who embrace the concept of serious running as a way to enjoy an active and healthy lifestyle and to enhance their quality of life. The recipients will be one male and one female student, who are members of the cross-country team at Memorial University of Newfoundland and who are in clear academic standing. The recipient will have demonstrated leadership, commitment and dedication to the cross country program while endeavouring to maximize his/her running potential. For undergraduate students, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Athletics, School of Human Kinetics and Recreation. In the event a graduate student is the recommended recipient, it will be awarded by the School of Graduate Studies on the recommendation of the Director of Athletics.

The George and Mary Behm Award

The George and Mary Behm Award, established by Dr. David Behm, is valued at \$500. It will be awarded annually to a full-time graduate student enrolled in the Masters of Kinesiology program who has the highest average in the first four masters' courses of the M.Sc. Kinesiology program. The award will be made by the Dean of the School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

The Edward Patrick Browne Memorial Scholarships

In his will, Edward Browne, a distinguished and beloved member of the University community, and a life-long supporter of the growth and development of the sport of basketball at provincial and national levels, left a bequest to Memorial University of Newfoundland for the awarding of scholarships to students.

These scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of the School of Human Kinetics and Recreation.

The Bruce J. Butler Award

This award has been established in memory of Bruce J. Butler by his family and friends. Bruce was a graduate of Memorial University of Newfoundland's School of Physical Education and Athletics and a talented varsity athlete who represented Memorial University of Newfoundland in both soccer and hockey from 1964-68. He was known as a great teammate and a genuine team player who possessed a great sense of humor. Valued at a portion of the income on the investment, it will be awarded annually to an undergraduate varsity athlete studying in one of the programs of the School of Human Kinetics and Recreation. In determining this award, preference will be given to student-athletes who have demonstrated leadership, athletic ability and overall commitment to their teammates. The recipient must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee

on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of Athletics.

Frank T. Butler Memorial Scholarship

This scholarship was established in memory of Frank T. Butler, a committed and successful athlete, coach and sport administrator at Memorial University of Newfoundland. Frank Butler was the backbone of Memorial University of Newfoundland Athletics for close to 30 years and his contribution to sport at this University and in the province of Newfoundland and Labrador, has been felt at many levels. This scholarship will be awarded to support student-athletes in their pursuit of post-secondary study. Currently valued at \$1,000, the scholarship will be awarded to student-athletes who meet the requirements for scholarship standing and who best combine the values that Frank admired most: athletic commitment, academic success and contribution as an ambassador in the community. The scholarship will be open to all student-athletes who are current members of a varsity team at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Athletics.

The Olivia and Ethan Button Award

The Olivia and Ethan Button Award, established by Dr. Duane Button, is valued at \$500. It will be awarded annually to a full-time undergraduate student enrolled in the Bachelor of Kinesiology or Bachelor of Physical Education program at Memorial University of Newfoundland and will be given to the student with the highest average in Exercise Physiology 3310. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

The Nita Chambers (Sutton) Award

Nita Chambers (Sutton), a graduate of Stella Maris High School in Trepassey and Memorial University of Newfoundland in St. John's, was a spirited and talented participant in basketball at both the scholastic and intercollegiate levels. This award fund has been established in Nita's memory through the fund-raising efforts of her family, friends, colleagues, team-mates, and former instructors. Valued at a portion of the annual interest, it will provide financial assistance to deserving male and female student-athletes who have graduated from high schools in Newfoundland and Labrador and who compete for the Memorial University of Newfoundland Sea-Hawks in the sport of basketball. To be eligible for this fund students will be required to maintain a minimum cumulative average of 65% within the previous academic year of study at Memorial University of Newfoundland. Funds will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation in consultation with the coaches of the varsity basketball teams.

The Damien and Denis Collier Award

This award was established by former Memorial University of Newfoundland Varsity Wrestlers, Damien and Denis Collier. To be eligible, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks wrestling team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes will also be eligible to receive provided they have an 80% final admission average. First-year athletes who do not meet the minimum 80% entering average may be eligible following the release of Winter grades as long as they maintain a 65% average on all coursework. This is a one-time allowance. Preference for this award will be given to student athletes who have demonstrated outstanding commitment, leadership, athletic ability and dedication to their teammates. The award valued at \$500 annually will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the wrestling coach and the Director of Athletics.

The CSEP/SCPE (Canadian Society for Exercise Physiology) Undergraduate Student Award

The CSEP/SCPE Undergraduate Award recognizes excellence in academic achievement among undergraduate students. It is offered in Canadian universities which offer an undergraduate degree in physical education, human kinetics, or related disciplines. It will be awarded to graduating students who achieve the highest academic standing in their undergraduate class in the scientific portion of their curriculum. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation. One award, in the form of an engraved medallion and a certificate, is granted annually at each university.

Elizabeth Dale NLVA Scholarship

This scholarship has been established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the female volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the female varsity volleyball team for both years. If an athlete receives a scholarship in her first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

The Margaret (Mag) Davis Memorial Scholarship

This scholarship has been established in memory of Margaret (Mag) Davis, former graduate of Memorial University of Newfoundland, dedicated physical education teacher and well-known athlete who excelled in the sports of softball, field hockey, ice hockey, soccer, ball hockey, curling, squash and golf. Valued at a minimum of \$500 annually, it will be awarded to a female undergraduate student studying in the programs of the School of Human Kinetics and Recreation. In awarding this scholarship, preference will be given to students who have demonstrated athletic ability and scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Human Kinetics and Recreation.

The Marie and Paul Devlin Athletics Scholarship

This scholarship, valued at a portion of the annual income on the initial endowment, was established by Memorial University of Newfoundland alumnus, Dr. William Devlin. Dr. Devlin is a medical school graduate and a former varsity athlete at Memorial. In awarding this scholarship, preference will be given to undergraduate students who combine academic achievement, leadership and athletic prowess at the varsity level. This scholarship is tenable in all undergraduate programs at this University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation.

The J. Douglas Eaton Alumni Scholarship

This scholarship was established by the Alumni Association of Memorial University of Newfoundland to commemorate the 30th Anniversary of degree programs in the School of Human Kinetics and Recreation and to honour Dr. Eaton a former department head. The value of the scholarship will be determined by the interest accruing from the initial endowment. The scholarship shall be awarded to the student who attains the highest academic standing in the third year of the Bachelor of Physical Education, Bachelor of Recreation or Bachelor of Kinesiology. Recipients must also demonstrate commitment and service in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Dean of the School.

Everest 2010 Mountain of Learning Experimental Education Award

This Award was established by TA Loeffler, faculty member in the School of Human Kinetics and Recreation, on the occasion of her

second attempt on Mount Everest. The award, in honour of her grandmother, Frida Loeffler, celebrates Frida's lifelong love of learning. The award will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award as defined by the University. The recipient may be enrolled in any one of the three cooperative education degree programs in the School of Human Kinetics and Recreation. To be eligible for this award, the student will have demonstrated an exceptional commitment to experiential education through their participation in activities or work terms related to their intended profession. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Human Kinetics, in consultation with the School's Cooperative Education Coordinators. The award is presented annually at the Fall HKR Awards Celebration.

The Matthew J. Foster Alumni Scholarship

This scholarship, established by the School of Human Kinetics and Recreation, Memorial University of Newfoundland, commemorates the 30th Anniversary awarding of the first Bachelor of Physical Education Degrees at Memorial University of Newfoundland and honours Mr. Foster (department head/director - 1964 until his retirement in 1986). They will be valued at the interest accruing from the initial endowment and awarded to the student in the second year of a program offered by the School of Human Kinetics and Recreation who attains the highest academic standing. Recipients should also have demonstrated leadership in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation from the Dean of the School.

The Dr. M.O. and Grace Morgan Scholarship in Physical Education

This fund is the result of an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan. One or more scholarships, valued at a portion of the annual accrued interest, will be awarded to a Physical Education student in the first year of the Bachelor of Physical Education degree program. The recipients will have demonstrated scholarship standing as well as leadership in the professional preparation and/or services program of the School of Human Kinetics and Recreation. These Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

Rick Morris Memorial Bursary

This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The Newfoundland and Labrador Basketball Association Merit Awards

These awards, of varying amounts, have been established by the Newfoundland and Labrador Basketball Association. They shall be awarded to Memorial University of Newfoundland students who are members of one of the University's basketball teams and in good academic standing. These awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in conjunction with the Dean, School of Human Kinetics and Recreation.

The Newfoundland and Labrador Volleyball Association Awards

These awards, valued at the interest accruing from the principal amount, have been established by the Newfoundland and Labrador Volleyball Association from monies contributed by supporters of volleyball including coaches and players. They shall be awarded to Memorial University of Newfoundland students, male and/or female, who are in good academic standing, displaying commitment and leadership in the game of volleyball and who are members of one of the University's varsity volleyball teams. The awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

The Newfoundland & Labrador Soccer Association Awards

These awards, valued at \$500.00 each have been established by the Newfoundland Soccer Association and shall be awarded to two or more Memorial University of Newfoundland students, one male and one female, who are in good academic standing, displaying commitment and leadership in the game of soccer and who are members of one of the University's soccer teams. The awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

The Proactive Physiotherapy Award in Human Anatomy

This annually funded award, valued at \$250, is the result of a contribution from Proactive Physiotherapy, a company owned and operated by two alumni of Memorial University's School of Human Kinetics and Recreation, Chris Cluett and Justin Whittle. This award is available to the candidate who receives the highest mark in the on-campus offering of HKR 2310, Human Anatomy each year. To be eligible, students must be enrolled full-time as undergraduates in the School of Human Kinetics and Recreation and be in clear academic standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Human Kinetics and Recreation. The award is presented annually at the Fall HKR Awards Celebration.

The School of Human Kinetics and Recreation 30th/25th Anniversary Scholarship

In the calendar year 1994 the School commemorated 30 years of professional preparation in physical education/recreation and 25 years of Atlantic University Sport (AUS) competition at Memorial University of Newfoundland by hosting Anniversary Celebrations. The Steering Committee of these Anniversary Celebrations in co-operation with the two major organizing committees of these events established a \$500.00 Scholarship to be awarded annually to the undergraduate student who combines academic achievement and athletic prowess at the varsity level. In awarding this scholarship, preference will be given to candidates who have demonstrated ability and desire to coach, and to children of either graduates of the School or of former varsity athletes. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Human Kinetics and Recreation.

Scott Memorial Scholarship

This scholarship, established by Winslow and Eileen Scott in memory of their late son Bradford, a former student of Memorial University of Newfoundland, is valued at not less than \$500.00. In awarding this scholarship, preference will be given to students in the Bachelor of Education Intermediate/Secondary Program who have completed the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) degree at Memorial University of Newfoundland. If a suitable candidate cannot be found in this category it will be awarded to a senior student in the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) program who is doing the teaching option. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and

Awards on the basis of scholarship standing and upon a recommendation approved by the Dean, Faculty of Education and/or the Dean, School of Human Kinetics and Recreation.

Sea-Hawks Athletics Awards

A limited number of athletic awards are available annually to first year and returning student-athletes who exhibit leadership, achievement and athletic success. The annual number and value of awards will vary. To be eligible for these awards, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks Athletic team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes will also be eligible to receive provided they have an 80% final admission average. The School of Human Kinetics and Recreation Selection Committee may consider other criteria including financial need, service to the University and the community. These awards will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation in consultation with the coaches of varsity teams.

The Michael 'Beecher' Smith Heart Award

The Michael 'Beecher' Smith Heart Award will be awarded to a student-athlete who demonstrates outstanding leadership, dedication and commitment, while bringing a positive attitude to their team. This award is presented in honour of the characteristics that Michael 'Beecher' Smith, a former Memorial University of Newfoundland wrestler, exemplified. The recipient must be a current member of a varsity team and have met the minimum academic requirements for an award. It will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of Athletics.

The Harold Squires Scholarship

This scholarship, valued at a portion of the annual interest, was established by Memorial University of Newfoundland Alumnus and long-time employee Harold Squires. In awarding this scholarship preference will be given to a student who competes for the Memorial University of Newfoundland Sea-Hawks in the sport of basketball. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation in consultation with the coaches of the varsity basketball teams.

The St. John's Association of Basketball Officials Award

From a sum of money donated by the St. John's Association of Basketball Officials an award valued at a portion of the annual income on the investment is to be provided annually to a full-time or part-time Memorial University of Newfoundland student, either graduate or undergraduate, who is an active member of the University basketball community. The candidate must meet the University's definition of Clear Standing. In the case of graduate students the award will be made by the Dean, School of Graduate Studies. In the case of undergraduate students the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In both cases the award is based on the recommendation of the executive of the St. John's Association of Basketball Officials.

The Swimming Newfoundland and Labrador Bursary

This bursary, valued at \$1,000.00 annually, is available to a student continuing beyond their first year of studies at Memorial University of Newfoundland. The bursary recipient will be a swimmer in good standing with Swimming Newfoundland and Labrador and will be a returning member to the Memorial University of Newfoundland Seahawks Varsity Swim Team. Awarding of this bursary will be based on swimming performance at the varsity level. It will be awarded to a student in good academic standing at the University. Applications may be obtained in writing to the Swimming Newfoundland and Labrador Office, RPO MacDonald Drive, Box 21248, St. John's, NL, A1A 5B2 or by telephone to (709) 576-7946 or fax: to (709) 576-7493.

The Josephine Welch Research Initiative Award

The Josephine Welch Research Initiative Award, established by Dr. David Behm, is valued at \$500. It will be awarded annually to a full-time graduate student enrolled in the Master of Kinesiology program who has demonstrated the greatest initiative towards publishing research. This can include submitted or published papers, abstracts or data collection. This award will be made by the Dean, School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

Lorne Woolridge NLVA Scholarship

This scholarship has been established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the men's volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the men's varsity volleyball team for both years. If an athlete receives a scholarship in his first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

4.9 School of Music

The following are available to students in the School of Music based on a recommendation from the Dean.

The James E. Austin Memorial Scholarship

From a sum of money donated by the firm of Dicks & Co. Limited, a scholarship has been established in honour of the late James E. Austin, former Chairman of the Board of the Company. The scholarship, valued at \$500.00, is to be awarded annually on the basis of academic excellence to a full-time student enrolled in the School of Music at Memorial University of Newfoundland who is entering the fifth semester of the Conjoint Degree program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, School of Music.

Dr. Andreas Barban Memorial Scholarship

This Scholarship was established in memory of Dr. Andreas Barban, distinguished musician and scholar, and former instructor in the School of Music. The scholarship, valued at not less than \$1,000.00 will be awarded to a full-time Bachelor of Music student beyond the first year whose principal applied study is piano, and who has demonstrated musical potential and academic excellence. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Jonas (Joe) Barter Scholarship in Music

This scholarship, valued at \$500.00, is awarded annually from the income derived from a trust fund given to the University by the family and friends of the late Jonas (Joe) Barter. It is to be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academic excellence, based on the advice of the Dean, School of Music. Preference will be given to a student who has completed three years of study in the area of Music Composition.

The Yvonne Belanger Memorial Bursary

This fund was established by her family to cherish the memory of musician, teacher and mother, Yvonne Belanger. The bursary will be awarded annually to full-time Bachelor of Music students beyond first year from the interest accrued on this endowment. The award is

made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music with the criteria for eligibility being musically, musical achievement, financial need, and scholarship standing.

The Amanda Bishop Memorial Scholarship

This fund was established by the family of Amanda Bishop to cherish the memory of a loving and caring daughter and sister whose life-long ambition was to study voice in preparation for a career in the performing arts. With a value of at least \$500.00, this scholarship will be awarded annually to a student beyond the first year of the music degree program in good academic standing, whose performance medium is voice and who has demonstrated dedicated commitment to the betterment of the music community. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Charles J. Bown Memorial Entrance Scholarship in Music

This scholarship was established in 2001 in memory of Charles J. Bown (1963-2000) who graduated from Memorial University of Newfoundland in 1985 with a Bachelor of Music and Music Education. He went on to obtain his Master's degree in vocal performance from the University of Ottawa in 1994. He was actively involved in music as an educator, choir director, soloist and organist until his death on October 24, 2000. Valued at the annual interest on the endowment, the scholarship will be awarded to a student entering the Bachelor of Music program at Memorial University of Newfoundland who has demonstrated musical potential, academic ability and financial need. Preference will be given to a student whose major applied study is in voice. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dennis G. Browne Memorial Scholarship

This scholarship, valued at the accrued interest on an endowment, established by the firm of Patterson Palmer Hunt Murphy, in memory of the late Dennis G. Browne, who was a member of their law firm; will be awarded to a student enrolled beyond first year in the Bachelor of Music program. The scholarship will be awarded on the basis of scholarship standing and demonstrated musical potential. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Buell-Olson Scholarship

This scholarship, valued at a portion of the income on the investment, was established by Dr. Gerry B. Olson, who was a Henrietta Harvey Visiting Professor in the School of Music in 1983-84 and a long time contributor to the vitality of instrumental music in Newfoundland and Labrador. It was renamed in 2006 on the occasion of the retirement of Dr. Donald Buell in recognition of his seminal role in instrumental music and music education in Newfoundland and Labrador. It is to be given to a student entering the first year of the Bachelor of Music program. Preference will be given to a student from Newfoundland and Labrador whose principal applied study is in woodwind, brass or percussion. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Music.

The Canadian Broadcasting Corporation (Newfoundland & Labrador Region) Entrance Scholarship in Music

This scholarship, valued at not less than \$500.00, is to be awarded annually from a sum of money donated by the Canadian Broadcasting Corporation (Newfoundland and Labrador Region). The scholarship will be awarded on the basis of academic standing and demonstrated music potential, to a student from Newfoundland and Labrador entering the first semester of full-time study toward the Bachelor of Music degree. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dr. G. Albert Cooper Bursary

This bursary, valued at the accrued interest on an initial endowment, is awarded annually to a full-time Bachelor of Music student beyond second year who has demonstrated academic excellence, musical potential and need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean, School of Music.

Olga Davis Scholarship in Music

This scholarship was established in honor of Mrs. Olga Davis, for whom music constitutes an essential part of life. It is derived from a generous gift by Dr. John Guy and Ms. Jennifer Guy (Davis) to the School of Music. The scholarship, valued at \$1000 will be awarded annually to a Music student beyond first year who is a resident of Newfoundland and Labrador. The recipient must demonstrate both musical excellence in his or her applied study as well as financial need. The scholarship will be awarded by the Senate Committee of Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Karl Diemer Memorial Bursary

This fund has been established by Mme Roberte Diemer in memory of her husband, Corner Brook businessman, Karl Diemer. Trained as a professional singer, Mr Diemer had a great love for music and encouraged young musicians. The bursary, valued at a portion of the income on the investment, will be awarded annually to a voice student beyond first year who demonstrates musical potential and scholarship standing, as well as financial need. If there are no voice candidates in a given year, the award will be made to a student whose performance medium is strings. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

ECMA Legacy Scholarship

This scholarship, valued at \$1000.00, has been established by the East Coast Music Association. It will be awarded annually to a student in any year of the Music program who demonstrates scholarship standing. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Frederick and Isabel Emerson Memorial Scholarship

This scholarship has been established in memory of Frederick and Isabel Emerson by their children. Mr. Emerson, lawyer, musician, and a former lecturer and member of the Board of Regents, was involved in setting up and teaching music classes in the early days of the Memorial University College. The scholarship, valued at not less than \$500.00, is awarded annually to a full-time music degree student beyond the second semester. Selection of candidates will be made on the basis of academic standing, financial need and character. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Ed Goff Memorial Scholarship

This scholarship valued at a minimum of \$2,500.00 is to be awarded to a student in any year in the Bachelor of Music degree program who shows musical potential and has scholarship standing. Preference will be given to a student whose principle applied study is saxophone. It may be renewed for the duration of the student's program, up to a maximum of four years, if he or she continues to excel musically and maintain scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Gower Youth Band Entrance Scholarship in Music

This scholarship, in the value of at least \$1,000.00, is sponsored by The Gower Youth Band in honour of former members who have become professional musicians and music educators. The scholarship is open to all students in brass, woodwind or percussion entering the first year of full-time study in the School of Music, and is awarded on the basis of musical excellence and potential as demonstrated at the entrance audition. This award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the

recommendation of the Dean, School of Music.

The Alan D. Hall Award

This award has been established in memory of Alan D. Hall by his friends and family. A longtime faculty member in the Department of English at Memorial University of Newfoundland, he was deeply engaged in Music and Theatre throughout his life. The award, valued at a portion of the income on the investment, will alternate between the School of Music and the Faculty of Arts on a yearly basis. For the School of Music the award will go to a Music student beyond first year who demonstrates a high level of achievement on their instrument of applied study as well as involvement and commitment to the music community. For the Faculty of Arts the award will go to a student beyond first year enrolled in the program leading to a Diploma in Performance and Communications Media or a student enrolled in the program leading to a Bachelor of Arts degree with a major in Drama and Music. The eligible student must demonstrate a high level of achievement in theatre, as well as involvement in and commitment to the theatre community. To qualify for this award, students must meet the academic requirements for an award as outlined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music or the Dean, Faculty of Arts.

The Norah and Leo Healey Memorial Award in Music

This Award has been established in memory of Norah and Leo Healey by their granddaughter Noreen Greene-Fraize and her spouse Thomas W. Fraize Q.C. The award will go to a School of Music student in any year of study seeking support for a community engagement project. To qualify for this award, students must meet the academic requirements for an award as outlined by the University and submit a proposal – including a timeline and an approximate budget - to the Dean, School of Music by October 15. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Ben Heppner 25th Anniversary Scholarship in Music

This scholarship was established through the generosity of Canadian tenor, Ben Heppner, who donated his fee for a recital given on the occasion of the 25th anniversary of the founding of the School of Music. Proceeds from the concert were matched by the *Opportunity Fund* to endow the scholarship. Valued at a portion of the annual interest on the endowment, it will be awarded annually to a student in the Bachelor of Music degree program on the basis of musical and academic excellence. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Winnifred Holloway Memorial Scholarship

This scholarship is the result of a bequest left to the University by Mrs. Velda Richards of St. John's. The scholarship, valued at approximately \$1,000.00, will be awarded annually to a female student who is full-time in the Bachelor of Music program and who is beyond first year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music on the basis of musical talent, financial need, and scholarship standing.

The William J. House Memorial Scholarship

This scholarship, valued at a portion of the income on the investment, has been established in memory of William J. House by his widow, Mrs. Daphne L. House. The scholarship is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Music, to a full-time organ student from Newfoundland and Labrador who shows promise and purpose of continuing in that field.

The Howse of Flowers Music Scholarship

This scholarship, valued at not less than \$500.00, is awarded annually to a full-time music degree student beyond the second semester who has demonstrated academic excellence and musical potential. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean, School of Music.

The Imperial Tobacco Canada Entrance Scholarship in Music

This scholarship, established in 1998 by Imperial Tobacco Canada in support of the *Opportunity Fund* Campaign, has a minimum value of \$2,000.00 annually. It will be awarded on the basis of scholarship standing and demonstrated music potential, to a student entering the first semester of full-time study toward the Bachelor of Music degree at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The JUNO Legacy Graduate Scholarship in Music

This scholarship was established by the 2010 JUNO Awards Host Committee to support excellence in music. This scholarship, valued at \$2,000 will be awarded annually to a full-time graduate student at the School of Music enrolled in the Master of Music (M.Mus.) program. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University. It will be awarded by the Dean, School of Graduate Studies on the recommendation of the Director, School of Music.

The Kiwanis Club of St. John's Music Scholarship/Bursary

This scholarship/bursary, valued at \$750.00, is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music, to a promising student who is continuing studies in music at this University. Selection of candidates will be made on the basis of financial need, academic standing and character. The scholarship/bursary is not restricted to any particular year of study.

The Margaret Krause Scholarship in Music

This scholarship has been established in memory of Mrs. Margaret Krause, a pianist and cellist, who lived in St. John's during the years 1955-58 with her husband, Dr. Lucjan Krause, a professor of physics at Memorial University of Newfoundland's Parade Street location. During this time Margaret played much chamber music with local musicians and their children Janet and Catherine were born. Catherine (also a cellist) subsequently became Director of the Health Sciences Library at Memorial University of Newfoundland. One scholarship valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student in scholarship standing whose principal instrument of applied study is a bowed string instrument. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Music.

The Dame Vera Lynn Scholarship in Music

This scholarship, valued at a maximum of \$2500.00 over five years (\$500.00 per year), was established to honour Dr. Vera Lynn, the distinguished musician and honorary graduate of Memorial University of Newfoundland. It is open to all students entering the first year of full-time study in the School of Music and is awarded on the basis of academic standing and musical potential as demonstrated at the entrance audition. The recipient must maintain scholarship standing to retain the scholarship. A relinquished scholarship may be re-awarded at the discretion of the Dean, School of Music. This award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music. Application forms may be obtained from the School.

The R.F. (Bob) MacLeod Memorial Entrance Scholarship in Music

This scholarship, with a value of at least \$300.00, has been established in memory of Mr. R.F. (Bob) MacLeod, pianist, organist, and entertainer. The scholarship is awarded annually to a student entering the first year of full-time study toward the Bachelor of Music degree. In making the award preference will be given to a student from rural Newfoundland and Labrador. Academic standing, character and financial need will be considered. The award is to be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean, School of Music.

The Pat and Margaret Maloney Scholarship in Music

This scholarship was established by Dr. Aidan Maloney in honor of the lasting contributions of Margaret Maloney and her late husband Patrick to the musical life of our community. With Margaret's indelible passion for singing and Patrick's innate talent as a "kitchen" musician, music and life were synonymous to them. Individually gifted and together dynamic, they shaped a legacy shared by not only family, but our community at large. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a Music student beyond first year who demonstrates musical excellence in her or his applied study. The scholarship will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Marquis Limited (Colonel Sanders) Bursary in Music

This fund was established to provide financial assistance to students from Newfoundland and Labrador whose permanent residence is outside the St. John's metropolitan area, and who are entering the first year of full-time study in the School of Music. The number of awards given annually and the value of each shall be determined by the Dean, School of Music. The award(s) is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The David McCurdy Memorial Bursary

This bursary, established by the family and friends of the late David McCurdy, a former student of this University, is valued at \$300.00 and is awarded annually to a student enrolled in the School of Music. In making the award, interest and ability in Music, as well as financial need, will be considered. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Joan McNamara Furlong Award

This scholarship, awarded annually in memory of Mrs. Joan McNamara Furlong, is provided from the interest accumulated on a continuing endowment given for this purpose by her family. At the request of the sponsors it will be awarded to a second- or third-year student in voice who shows definite promise and purpose of continuing in that field, and of making a cultural contribution to the community. The scholarship will be utilized by the successful candidate to further studies in voice at Memorial University of Newfoundland. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Karen Keirstead Mills Memorial Scholarship in Music

This scholarship was established in 1991 in memory of Karen Keirstead Mills, a former organ student and voice instructor in the School of Music. The scholarship, valued at not less than \$1,000.00, will be awarded to a full-time Bachelor of Music student who is normally beyond the first year and who has demonstrated musical potential and academic ability. Preference will be given to a student whose major applied study is in voice or organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dorothy Duff Moores Memorial Entrance Scholarship in Music

This scholarship in memory of Dorothy Duff Moores, a lover and supporter of music, is provided from the interest accumulating on an endowment given for this purpose by her son Frank D. Moores and family friends. Valued at a portion of the income on the investment, it is awarded annually to a student of outstanding academic and musical ability who is entering the first semester of full-time study towards the Bachelor of Music degree. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Mrs. Grace Morgan Scholarship in Music

This fund was established in 1982 by faculty members of the School of Music in recognition of the interest and support given by Mrs. Grace Morgan to music at Memorial University of Newfoundland. Further funding resulted from a bequest to the University by Dr. M.O. Morgan after his death in 1995. Four scholarships, each valued at not less than \$2,500.00, will be awarded annually from the income derived from the fund. Two scholarships will be awarded to students entering the first semester of full-time study toward the Bachelor of Music degree, and two scholarships will be awarded to students beyond the first year of the music degree program. In making the awards, academic standing and musical potential will be considered. Whenever possible, at least one of the awards will be given to a student in piano and at least one of the awards will be given to a student in organ. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Carl Morrissey Bursary in Music

This bursary is established in memory of Mr. Carl Morrissey by his family and friends. Through this bursary they hope his love of and involvement in music will continue to encourage young musicians, as he did so often. The bursary, valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student in the School of Music in any year of study based on financial need and demonstrated music potential. The recipient must meet the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Arthur and Dorothy Noseworthy Entrance Scholarship in Music

This scholarship, valued at not less than \$1,000.00, is to be awarded annually from the interest accruing from an endowment fund established by the Noseworthy family in honour of their parents. The scholarship will be awarded on the basis of academic excellence and demonstrated musical potential to a student entering the first semester of full-time study toward the Bachelor of Music degree. Preference will be given to a student whose principal instrument is organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dr. Hugh O'Neill Prize in Piano

This prize is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One prize valued at \$500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in piano. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Dr. Hugh O'Neill Prize in Violin

This prize is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One prize valued at \$500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in violin. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Dorothy and David Peters Scholarship in Music

The Dorothy and David Peters Scholarship in Music was established by Dr. David Peters with the intention of providing full, course-based tuition for two semesters (Fall and Winter) to the best student at the School of Music who displays the aptitude, ability, and passion for concert performance. Valued at a portion of the income on the endowment, the Scholarship is available to a School of Music student in his or her second year of studies and is renewable for up to two additional years provide they meet the academic requirements for a scholarship as defined by Memorial University of Newfoundland. The recipient must display a high level of musical ability for concert performance in any of the following areas: a keyboard instrument, strings, voice, woodwinds, or brass. In order to be

considered for renewal, the recipient must be a performance major with scholarship standing during years three and four of their program and all of the aforementioned criteria will apply where eligibility is concerned. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The G. Calvin Powell Memorial Scholarship

This scholarship, valued at \$500 has been established by Rebecca Eleanor Powell in memory of her grandfather G. Calvin Powell whose love of the arts and encouragement towards Ms. Powell were influential in her desire to study music. It will be awarded annually to a student beyond first year in the School of Music on the basis of scholarship standing and excellence on his or her instrument of applied study. The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Rex E. Rood Memorial Scholarship

This scholarship has been established in memory of Rex E. Rood by his wife and daughter. Although not a musician or performer, Mr Rood had a deep love and knowledge of classical music which he shared with his family and which formed an integral part of his life. He enjoyed orchestral arrangements, choral works and solo voices, but was particular fond of operatic tenors.

This scholarship, valued at \$2000.00 per year, is to be awarded to a student in any year of the Bachelor of Music degree program who demonstrates musical potential and academic excellence. Preference will be given to a student whose principal applied study is voice, in particular a tenor, bass or baritone. The award may be renewed for the duration of the student's program, up to a maximum of five years, if the recipient continues to excel musically and maintains scholarship standing. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.

Rex and Ruth Rood Memorial Scholarship in Music

Rex Rood had a deep love and knowledge of classical music, which he shared with his family and which formed an integral part of his life. Ruth (Hue) Rood had a lovely soprano voice and performed in many operettas and concerts during her school years and as a soloist and in chorales as an adult. This Scholarship is given in memory of her parents by their daughter, Susan Maunder. Valued at \$2,000 per year, it is awarded to one student annually in any year of the Bachelor of Music degree program who demonstrates musical potential and academic excellence. Preference will be given to a student whose principal applied study is voice. One scholarship, in total, will be awarded each year with the previous recipient being eligible for renewal (up to a maximum of five years) if the recipient continues to excel musically and maintains scholarship standing. The Scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.

The Dr. Ignatius A. Rumbolt Scholarship in Music

This scholarship, valued at a portion of the income on the investment, was established in memory of Dr. Ignatius A. Rumbolt, distinguished musician, music educator, builder of the choral tradition in Newfoundland and Labrador, and honorary graduate of Memorial University of Newfoundland. The scholarship is awarded to a student beyond first year in the Bachelor of Music degree program who has demonstrated academic excellence and musical potential. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

School of Music Faculty Scholarship/Bursary Fund

These scholarships/bursaries of the value of at least \$300.00 each are awarded out of income derived from a fund established in 1976 by the faculty members of the School of Music. The awards are made annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music, to promising students who are continuing their studies in Music at this University. Selection of candidates will be on the basis of musicianship, academic standing, financial need and participation in School of Music activities.

The Sergeants Mess of Newfoundland Memorial Entrance Scholarship in Music

From the revenue accruing from War Savings Bonds purchased in 1940 by the Sergeants Mess of Newfoundland, a fund was established in 1990 to provide an annual scholarship of not less than \$500.00 to a student entering the first semester of full-time study in the School of Music. Academic excellence and musical potential as demonstrated at the entrance audition will be considered. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Roger Skinner/Music NL Memorial Award in Music

This award has been established in memory of Roger Skinner by his friends, family and Music NL. Roger contributed significantly to the music industry of this Province and was a founding member and drummer of the legendary country/rock group The Ducats. He served on the Board of Directors for Music Newfoundland & Labrador for a number of years and was serving as President at the time of his passing in 2002. Among his many contributions to the music of Newfoundland and Labrador, it was his vision that resulted in the creation of Music NL's Annual Awards Gala which celebrates the best of our Province's music industry. Valued at a portion of the income on the endowment, the Award will go to an undergraduate student in the School of Music with demonstrated financial need who meets the minimum academic requirements for an award as outlined by Memorial University of Newfoundland. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

The Grace M. Sparkes Alumni Entrance Scholarship/Bursary in Music

The Memorial University of Newfoundland Alumni Association has established, from its Alumni Annual Fund, an entrance scholarship/bursary in Music. The award, valued at not less than \$500.00, will be given annually to a student entering the first semester of full-time study towards the Bachelor of Music degree. Academic standing, musical potential and financial need will be considered. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Grace M. Sparkes Scholarship in Music

This scholarship was established by Mrs. Sparkes, former Alumni of the year and devoted friend of Memorial University of Newfoundland. Valued at approximately \$500.00, it will be given annually to an undergraduate student in full-time study towards the Bachelor of Music degree. Scholarship standing and musical potential will be the main considerations in awarding this scholarship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Harold and Maxine Stanley Award

The award is established in memory of Mr. Harold Stanley by his family and friends. The award valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student beyond first year in the School of Music. The recipient must meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Gordon M. Stirling Memorial Scholarship/Bursary

This fund was established by the Stirling Ryan law firm in memory of their late senior partner Gordon M. Stirling. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon the recommendation of the Dean, School of Music.

of Music. The award will be available to an exceptional student(s) enrolled in the School of Music to assist with travel and other expenses to enable such student(s) to perform at events of major musical importance outside the province. Scholarship standing, musical ability, financial need, and the benefits such exposure would confer on the student(s) will be taken into consideration by the Committee. The value of the award will be based on the interest income accruing on the capital sum in the fund.

Wesley Male Choir Bursary

This bursary was established in memory of William Collins and his two sons, John and Calvin 'Robert' Collins, who were all members of the Wesley Male Choir. It is derived from a generous gift by the late Mr. Calvin 'Robert' Collins to the Choir. The bursary valued at a portion of the income on the investment, will be awarded annually to a voice student beyond first year who demonstrates musical excellence in their applied study as well as financial need and meets the minimum academic requirements for a bursary. If there are no voice candidates in a given year, the award will be made to a student in another performance medium. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Mary C. Whiteley Entrance Scholarship in Music

This scholarship is awarded annually to a student entering first year in the School of Music at Memorial University of Newfoundland. It is awarded on the basis of scholarship standing and musical potential as demonstrated in the entrance audition. The value of this scholarship is determined by the amount of interest accrued on the principle sum. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Mrs. H.B. Young Memorial Scholarship

This scholarship has been established by Mrs. Helen Marquis in memory of her mother, Mrs. H.B. Young, and is awarded annually to a full-time student at the School of Music. The value of the award will be based on the income accruing from the fund during the period of tenure of the scholarship. In selecting candidates, academic achievement, financial need and character will be taken into consideration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

4.10 School of Nursing

The following are available to students in the School of Nursing based on a recommendation from the Dean.

The Alcohol and Drug Dependency Commission Commemorative Awards

These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at \$750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

The Kathleen M. Baird Memorial Scholarship

This scholarship is made possible through a fund established by Mrs. Edna Baird-Stephenson in memory of her sister Kathleen M. Baird (1903-1985). The scholarship will be valued at the annual accrued interest on the endowment and awarded annually to a student in the second year of the Bachelor of Nursing (Collaborative) Program on the basis of scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Eleanor and Norval Blair Travel Scholarship in Nursing

This scholarship is made possible through a donation to the *Opportunity Fund* Campaign in 1998 by Mr. and Mrs. Blair. The scholarship, valued at the annual accrued interest on the endowment, shall take the form of a travel grant to a student in the Bachelor of Nursing (Collaborative) program at the Memorial University of Newfoundland School of Nursing site who has demonstrated excellence in nursing practice. The recipient will be a student in the third or fourth year of the program who will pursue each of the clinical practicum courses in the given semester. First preference will be given to those students going outside the province of Newfoundland and Labrador to complete their clinical. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

Clayton and Alice Cook Nursing Award

This award was established by Mr. Clayton D. Cook. The award, in honor of his niece Menetha Dyke, RN., will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award, as defined by the University. The recipient must be enrolled in the second year of the undergraduate Bachelor of Nursing program at the School of Nursing. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Ruby Dewling Memorial Award in Nursing

This award has been created in memory of Ruby Dewling, a respected faculty member in the Memorial University of Newfoundland School of Nursing. Ms. Dewling taught in all areas of the program as a clinical instructor. She started her career by earning a diploma in Nursing from the General Hospital School of Nursing and then completing the post-RN diploma in clinical supervision from the University of Toronto. A lifelong learner, Ms. Dewling, went on to earn a B.Sc. from Mount St. Vincent and an M.Sc. (Medicine) from Memorial University of Newfoundland. She remained deeply involved with nursing education throughout her life and serves as an exemplary model for the nursing profession. The award, valued at a portion of the income from the endowment, will be presented annually to a graduate student in the School of Nursing who is completing research in, or who has a passion for, community health and who meets the minimum academic requirements for an award. Preference will be given to a full-time student. The award will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean of the School of Nursing.

The Barbara Fowlow Memorial Scholarship

This scholarship is made possible by a fund established by friends and colleagues in memory of Barbara Fowlow, a graduate of Memorial University of Newfoundland's School of Nursing. Valued at the annual interest on the initial endowment, it is awarded annually to a student who is entering the final year of the Bachelor of Nursing (Collaborative) Program. Preference in awarding the scholarship will go to students who have shown an interest in Cardiovascular Nursing and/or been involved in student life through volunteer work, involvement in Student Societies etc., during their university years, particularly within the School of Nursing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

Glendinning and Miller Family Scholarship in Nursing

This scholarship was established by Jane Carol Glendinning-Johnson, Andrea (Glendinning) Sumsion, and Barbara (Glendinning) Smith to honour and remember Andrew and Jane (Bethune) Glendinning and Hugh and Barbara (Green) Miller, their respective offspring and other family members, and to recognize their belief in the value of education which has carried down to the present generation. This

scholarship, valued at a portion of the accrued interest on an initial endowment, will be awarded annually to a student registered full-time in the Bachelor of Nursing (Collaborative) Program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

The Heart and Stroke Foundation of Newfoundland and Labrador Nursing Award in Cardiovascular Health

Established by the Heart and Stroke Foundation of Newfoundland and Labrador the Award, valued at \$1,000 annually, will be presented to an undergraduate student in any year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated an interest in cardiovascular health, have actively volunteered with the Heart and Stroke Foundation and also have met the minimum academic requirements for an award. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Nursing.

The Heart and Stroke Foundation of Newfoundland and Labrador Nursing Award in Stroke

Established by the Heart and Stroke Foundation of Newfoundland and Labrador the Award, valued at \$1,000 annually, will be presented to an undergraduate student in any year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated an interest in patient health related to stroke care, have actively volunteered with the Heart and Stroke Foundation and also have met the minimum academic requirements for an award. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Nursing.

The Mirdza Kajaks Scholarship

This scholarship, established by Mirdza Kajaks, is valued at a portion of the accrued interest on the endowment. It will be awarded annually to a full-time student entering the first year of the Bachelor of Nursing (Collaborative) Program at the Western Regional School of Nursing. It is the wish of Mrs. Kajaks that the recipient plans to practice in Newfoundland and Labrador upon completion of studies. Whenever possible such students will be given first preference. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

The Daphne King (Bajzak) Memorial Award in Patient Care

The Daphne King (Bajzak) Memorial Award in Patient Care was generously established by the family of Mrs. Daphne Bajzak, a graduate of the General Hospital School of Nursing. Throughout her nursing career she provided calm comfort for those in pain. She will always be remembered for her kindness, compassion, empathy, positivity, tolerance and honesty towards patients and their families. Daphne came to be known for her unwavering dependability, trustworthiness and patient care centered approach to healing. The award will be presented annually to a student entering the 4th year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated exemplary patient care by being an advocate for patients and their families' well-being during their clinical placements. The student must also meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate on Scholarships, Bursaries and Awards upon the recommendation of the Director of the School of Nursing.

The Marilyn Marsh Scholarship

This scholarship is made possible by a fund established by former students and colleagues of Marilyn Marsh on the occasion of the Twenty-Fifth Anniversary of the School of Nursing. The scholarship is awarded annually to a student who has completed the second year of the Bachelor of Nursing (Collaborative) Program at the Memorial University of Newfoundland site. Criteria (in order of priority) for this award are:

- Demonstrated clinical excellence
- Participation in student/school activities
- Academic standing

The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of the School of Nursing.

The John M. and Elsa S. Morgan Scholarships

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of \$1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Margaret Fitzpatrick Morgan Scholarship in Nursing

This fund was established by the late Dr. M.O. Morgan in memory of his wife, the late Margaret Fitzpatrick Morgan. One or more scholarships valued at not less than \$2,500.00 each will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student or students registered full-time in the Bachelor of Nursing (Collaborative) Program. Preference will be given to students entering the first year of the program preferably from rural Newfoundland and Labrador.

Rick Morris Memorial Bursary

This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The John Pelley Memorial Scholarship

The John Pelley Memorial Scholarship is established in loving memory of Mr. John Pelley, a graduate of the Western Regional School of

Nursing. John was an Offshore Health Advisor who was aboard the Cougar 491 flight that was tragically lost on March 12, 2009. The scholarship will be awarded to a student in their final year in the Bachelor of Nursing (Collaborative) program at the Western Regional School of Nursing who has expressed an interest in post-graduate training in emergency nursing, occupational health nursing or critical care nursing. Preference will be given to a student who demonstrates a combination of a strong work ethic, a passion for student life and extra-curricular activities. To be eligible, students must meet the minimum academic requirements for a scholarship. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director of the Western Regional School of Nursing.

The Elizabeth Lindsay Robbins Scholarship in Nursing

This scholarship was created by Elizabeth (Betty) L. Robbins who was born on May 15, 1911 in Strathaven, Lanarkshire County, Scotland. Betty graduated in Nursing from Stobhill General Hospital, Glasgow, Scotland on October 31, 1940 and received a Certificate from the Central Midwives Board for Glasgow on December 13, 1940. She came to Newfoundland on Jan 20, 1947 and married Frederick Robbins in St. John's on March 1, 1947. Mr. Robbins was a Newfoundland war veteran from Burlington, Notre Dame Bay, who had served with the Royal Navy during the Second World War.

This scholarship, valued at a portion of the annual accrued interest on an endowment (a minimum of \$2,500.00 annually), will be awarded to a student in the third year of the Bachelor of Nursing (Collaborative) Program. The scholarship will be awarded on the basis of scholarship standing, financial need, and nursing professional practice. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Katharine Roberts Memorial Scholarship

This Katharine Roberts Memorial Scholarship has been endowed by Edward Roberts in memory of his mother Katharine. The scholarship is valued at a percentage of the income on the endowment and will be awarded annually to a student in any year of the Bachelor of Nursing (Collaborative) Program.

The first preference in awarding the scholarship will be given to Bachelor of Nursing (Collaborative) Program students from the electoral Districts of The Straits and White Bay North, Lake Melville and Cartwright-L'Anse au Clair (or other Districts embracing the communities in those Districts, which were established by the House of Assembly in 1995). If no suitable candidate comes forward from one of these Districts in any given year, the scholarship may be awarded to a Nursing student from a rural community elsewhere in Newfoundland and Labrador.

The scholarship will be awarded on the basis of scholarship standing, but in the case of a tie between two equally deserving students, financial need may be used as a determining factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Royal Canadian Legion, Branch 13 Bursary in Nursing

Established by the Royal Canadian Legion, Branch 13 the bursary will be awarded to an undergraduate student in any year of the Bachelor of Nursing program at the Western Regional School of Nursing. The student must be in financial need and meet the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of the Western Regional School of Nursing.

The School of Nursing Class of 1976 Bursary

The Bursary, valued at a portion of the income on the endowment, will be awarded on the basis of financial need to a student who is registered full time at Memorial University of Newfoundland's School of Nursing and who has completed their first year clinical placement of the Bachelor of Nursing Collaborative program. Candidates must have displayed a passion for patient care through their respective clinical placements and have met the minimum academic requirements for a bursary. Students must have a supporting letter of recommendation detailing how they have demonstrated a passion for patient care from their clinical course instructor. In the event there is more than one suitable candidate for the bursary preference will be given to a student who comes from outside of the St. John's area. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Nursing.

The School of Nursing Faculty Memorial Award

The School of Nursing Faculty Memorial Award pays tribute to our respected faculty members who have passed on. The School of Nursing Faculty Memorial Award honours the following faculty members: Ruby Dewling, Grace Gould, Neil Joiner, Maureen Laryea, Margaret McLean, Joyce Nevitt, Beverly Rockwell, and Elizabeth 'Betty' Summers. The award is valued at a portion of the income from the endowment and will be awarded to a student beyond their first year of the Bachelor of Nursing program at the School of Nursing. The recipient must emulate the best qualities of a nursing faculty member; including a passion for nursing education, a spirit of caring and a commitment to nursing and a compassion for patients. The award will be presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Nursing.

The St. John's Home Care Scholarship for Excellence in Community Health Nursing

This scholarship valued at the annual accrued interest on the initial endowment will be awarded to a full-time or part-time student enrolled in the Bachelor of Nursing (Post RN) or Master of Nursing Program at Memorial University of Newfoundland with preference given to candidates enrolled in the Bachelor of Nursing (Post-RN) Program. Candidates must also have employment experience in community health nursing and demonstrated recent voluntary involvement in a community organization(s). Minimum academic requirements are a 75% overall average in either the completed diploma program in nursing or completed courses in either the B.N. (Post-RN) or Masters Program. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of Graduates the scholarship will be awarded by the Dean of Graduate Studies. In both instances the award will be based upon a recommendation from the Dean, School of Nursing.

The Sybil Gertrude Rusted Toy Memorial Bursary

This bursary, established by Dr. Nigel Rusted in memory of his sister Sybil, is valued at a portion of the accrued interest on an endowment. Sybil, the daughter of Rev. Canon Ernest and Faith (Hollands) Rusted, was born in Upper Island Cove April 2, 1911. She was educated at schools in Upper Island Cove, Carbonear, Girl's College in New York and the Royal Victoria Hospital in Montreal. The bursary will be awarded annually to a student entering the first year of the Bachelor of Nursing (Collaborative) Program with first preference to students from the Conception Bay North area, who have demonstrated ability and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Janet P. Winsor Bursary

This bursary, valued at a portion of the accrued interest on the initial endowment, is awarded annually to third year students enrolled in the B.N.(Collaborative) Program who demonstrate financial need over and above academic excellence. The candidates must have scholarship standing as well as demonstrate financial need. At least one bursary will be awarded in each of the three sites. The criteria for this award includes excellence in Year 3 clinical courses (Nursing 3501 and 3511) supported by a letter of recommendation from clinical instructors. The student's file may also be used to determine examples of clinical excellence. Each Committee on Undergraduate Studies will select the student at their site. This bursary will be awarded at the Graduation and Awards Ceremony in the Spring, but not necessarily to the highest academic student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, School of Nursing.

4.11 School of Pharmacy

The following are available to students in the School of Pharmacy based on a recommendation from the Dean.

The Abbott Prize

Abbott Laboratories Limited awards an annual prize consisting of \$250. This prize is awarded to a student of high academic merit. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the Recommendation of the Dean, School of Pharmacy.

The Alcohol and Drug Dependency Commission Commemorative Awards

These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at \$750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean/Director/Head of the respective Faculty or School.

The Alpha Group Memorial Award in Community Pharmacy

The Alpha Group is a dedicated group of independent pharmacy owners who provide the communities of Newfoundland and Labrador with essential health care services and represent a vital part of the health care delivery system. The Award is given in memory of the members of the Alpha Group who have made a significant difference in the lives of their patients and who have now passed on. The Award will be presented to a student in the 3rd or 4th year of the Bachelor of Science (Pharmacy) program who has demonstrated excellence in community pharmacy practice during the completion of their structured practice experience placement. Preference will be given to students who have demonstrated excellence within an independent pharmacy practice setting. The student must also meet the minimum academic requirements for an award. The Award will be presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

Amerisource-Bergen Canada Scholarship/Bursary

This award of \$500.00 is provided to a student who has successfully completed the first year of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The James and Betty Batt Family Award in Pharmacy

The James and Betty Batt Family Award in Pharmacy was generously established by Mr. Michael Batt, School of Pharmacy, Class of 1991, in loving memory of his grandparents James and Betty Batt. The award is valued at a portion of the income from the endowment and will be presented annually to an undergraduate student in any year of the Bachelor of Science (Pharmacy) program. The award is available to a student who is in financial need and who is actively engaged in community service, either within the School of Pharmacy or the external community and who meets the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Kristine Cadigan Memorial Award

This award is valued at a portion of the income from the endowment and will be presented annually to any student in the Bachelor of Science (Pharmacy) program. The award recognizes a well-rounded and deserving student who is never afraid to help out when needed, dedicated to what he/she does, interested in a variety of different activities, involved in activities both inside and outside the School of Pharmacy, committed to the profession and shows significant academic accomplishment. The student must also meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

Canadian Pharmacists Association (CPhA) Centennial Award

This award offered by the Canadian Pharmacists Association consists of a \$300.00 cash prize and a travel tour of approximately one week to visit manufacturing laboratories and health facilities in Toronto, Montreal or Ottawa and to attend the annual conference of the Association. It is made to a student who is completing the third year of the Pharmacy program. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The CAPSI/WYETH - Guy Genest Passion for Pharmacy Award

This award, valued at a portion of the income from the endowment, is the result of a generous lead donation by the student membership of the CAPSI organization (Canadian Association of Pharmacy Students and Interns). It is established in honour of Mr. Guy Genest, a passionate individual, who has demonstrated unwavering support of Canadian Pharmacy students and interdisciplinary healthcare practices. The award recipient will be a pharmacy student in any academic year, in clear academic standing (as defined by the University), who shows clear evidence of dedication to and passion for the profession of pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Pharmacy.

The J. Joseph Dicks Memorial Bursary in Pharmacy

This bursary, valued at a portion of the income from the endowment, is the result of a generous donation by the family in memory of Mr. J. Joseph Dicks, a prominent pharmacist who achieved great success in his profession and community. The bursary will be awarded to a full-time Pharmacy student in any year of the program who demonstrates financial need and has a minimum GPA of 2 out of a possible 4. The recipient will also exemplify similar character as Mr. Dicks, who overcame personal challenge to achieve success. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The Drug Store Pharmacy (Dominion) Bursaries

The Pharmacy division of Dominion Canada has established two bursaries of \$500.00 each. These bursaries are provided to two deserving students who have demonstrated significant financial need. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Pharmacy.

The G.R. Duncan Prize in Pharmacy

This award of \$100.00 is to be given annually to a student in any year of the pharmacy program who displays school spirit, is involved in school-related extra curricular activities, and promotes the profession of pharmacy. The recipient shall be chosen by student ballot. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The Excellence in Compounding Award

This award is given to a student completing the first year of the Pharmacy program who obtains the highest mark in the compounding laboratory portion of the first year pharmaceuticals courses. The award is valued at \$250.00. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Edward D. Freeman Bursary

This bursary honours the memory of Edward D. Freeman, a prominent Harbour Grace pharmacist who was a founding member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board). Valued at a portion of the income from the endowment it shall be awarded to a deserving student of good academic standing in the School of Pharmacy on successful completion of Pharmacy Year III to enable the student to complete his/her studies with financial assistance. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The David Goudie Memorial Award in Pharmacy

David Goudie was a prominent pharmacist from the Deer Lake region who exemplified the characteristics of hard work, determination and humility. David was dedicated to his patients' well-being and demonstrated this through his philanthropy of time, service and financial support. David was known for his love of mentoring new pharmacists and employees, and as a person who was highly regarded as a community leader in Port Aux Basques region. The award will be granted to a student who has graduated from a Newfoundland and Labrador Secondary School and who is enrolled in the Bachelor of Science (Pharmacy) program at the School of Pharmacy. The student will have demonstrated an interest in practicing in a rural location. The award, valued at \$500 annually, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, of the School of Pharmacy.

The Charles E. Frosst Scholarship in Pharmacy

This award of \$1,000.00 and a Merck Manual is presented by Merck Frosst Canada Inc. to the top first-year student of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The Hapgood and Vey Family Award

The Hapgood and Vey Family Award has been generously provided by Ms. Beverly Vey and is valued at \$2000. It will be presented annually to a student in any year of the Bachelor of Science (Pharmacy) program who is the descendent or spouse of a member of the Canadian Armed Forces or the Royal Newfoundland Regiment and who meets the minimum academic requirements for an award. A student may be the recipient of the award for a maximum of two years. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Robert Heale Memorial Bursary

This bursary, valued at \$250.00 annually, honours the memory of Robert Heale, an honorary life member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board) who practised for over 50 years as a community pharmacist; and trained many pharmacists before pharmacy training programs were in place in Newfoundland. It is awarded to a student in any year of the pharmacy program who demonstrates scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, School of Pharmacy.

The Dr. L.R. Hensman Prize

This prize is awarded to the Pharmacy student who places first in the CAPSI sponsored patient interview competition. A \$100.00 cash prize will be awarded. This prize is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The Linda R. Hensman Award

As a timeless advocate for the advancement of pharmacy education and practice, Dr. Hensman has been recognized as one of the top 100 most influential pharmacists in Newfoundland in the past century by the Newfoundland and Labrador Pharmacy Board. The Award is made possible by a generous gift by Dr. Linda R. Hensman, the third Director and first Dean of the School of Pharmacy. The Award, valued at a portion of the income from the endowment, will be granted to the pharmacy student who places first in the CAPSI sponsored patient interview competition. The student must also meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The J. Keith Lawton Memorial Bursary

This bursary has been established by the Board of Directors and employees of Lawton Drug Stores with the support of the Sobeys Foundation, to honour the memory of J. Keith Lawton. The value of the award will represent the interest generated from the endowment each year. It will be awarded to a deserving student selected from all students enrolled in the Pharmacy program. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the School of Pharmacy.

The L.J. Lawton Memorial Award

A plaque, donated by the Canadian Pharmacists Association in memory of Louis J. Lawton, a founder of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board), is presented each year as an Honour Award to a student entering the final year of the Pharmacy program. The recipient shall be chosen by the students and faculty by ballot in recognition of a commitment to the School of Pharmacy as well as a high degree of academic ability and showing of promise in making significant contributions to the profession of Pharmacy. In addition, this shall be accompanied by a miniature award and monetary award valued at the income from the endowment each year. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The McKesson Scholarship/Bursary

McKesson provides two awards valued at \$250 each. These awards will be open to all students enrolled in the School of Pharmacy and will be awarded on the basis of academic merit and financial need. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Memorial University Pharmacy Society Spirit Award

The Memorial University Pharmacy Spirit Awards have been generously provided by the Memorial University Pharmacy Society (MUPS) and are valued at \$200. Two awards will be presented annually to the two students in any year of the Bachelor of Science (Pharmacy) program who are ranked first and second in their accumulation of Memorial University Pharmacy Society points and who meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Merck Scholarship

This award of \$1,000.00 and a Merck Manual is presented by Merck Frosst Canada Inc. to the top second-year student of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The James J. O'Mara Awards

The James J. O'Mara Awards were created to honour the memory of James O'Mara, a prominent Newfoundland pharmacist who

tirelessly worked as an advocate for a university based School of Pharmacy. He served as the President of the NPhA from 1970-72 and was Secretary/Registrar of what is now the Newfoundland and Labrador Pharmacy Board from 1981-1990. An award will be given to one student in each year of the pharmacy program. The students will be selected based on top performance in the Pharmacy Skills courses for the year of study, as recommended by the course coordinators. Each award is valued at a portion of the income from the endowment. The awards are conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Pharmacy.

The Ottawa Pharmacy Alumni Award

The Ottawa Pharmacy Alumni Award has been generously provided by Ms. Hao Nguyen, Dr. Co Pham, and Dr. Roland Halil. The award will be presented annually to a student in their 3rd or final year of the Bachelor of Science (Pharmacy) program. The award recognizes a student who demonstrates a strong commitment to extra-curricular activities within Memorial University of Newfoundland and the external community and meets the minimum academic requirements for an award. The award, valued at a portion of the income on the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean of the School of Pharmacy.

The Ottawa Pharmacy Alumni Scholarship

The Ottawa Pharmacy Alumni Scholarship has been generously provided by Dr. Co Pham, Dr. Roland Halil and Ms. Hao Nyugen. The scholarship is valued at \$1000 and will be presented annually to a student in their third or final year of the Bachelor of Science (Pharmacy) program. The scholarship recognizes a student who demonstrates a strong commitment to extra-curricular activities within Memorial University of Newfoundland and the external community and meets the minimum academic requirements for a scholarship. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Panta Pharmaceutical Passion for Compounding Award

The Panta Pharmaceutical Passion for Compounding Award has been generously provided by Panta Pharmaceutical. The award is valued at \$250.00 and will be presented annually to a student in the Bachelor of Science (Pharmacy) program. The award recognizes excellence in pharmacy compounding. The successful candidate must have demonstrated a passion for the art of compounding, have been recommended by their clinical skills coordinator and meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Pfizer Award of Excellence

Pfizer Canada Inc. presents an annual award of a \$200 cash prize. The Award is presented for excellence in Clinical Pharmacy by a graduating pharmacy student. The Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Dr. Co Pham and Family Award

The award was created by Dr. Co Pham, a proud graduate of the School of Pharmacy's Class of 2000. Dr. Pham passionately believes that the ideals of innovating and maintaining the independence of professional practice and the drive to be entrepreneurial are of paramount importance to pharmacy practice and were therefore a pivotal part in his desire to create this award. The award will be presented annually to a student in any year of the Bachelor of Science (Pharmacy) program who exemplifies an entrepreneurial and innovative spirit in the pursuit of advancing the pharmacy profession, independent pharmacy practice of the School of Pharmacy. The student must also meet the minimum academic requirements for an award. The award, valued at a portion of the income from the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the School of Pharmacy.

The PharmaChoice Award

The PharmaChoice Award, valued at \$500 annually, is given to a student in the School of Pharmacy. Candidates must demonstrate satisfactory performance in the Pharmacy Administration course and be in clear academic standing as defined by the University. Candidates must also have displayed interest in retail pharmacy as evidenced by past work experience as well as having expressed an interest in working in the field after graduation. The Award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

Pharmasave Community Service Award

Pharmasave provides one award in the amount of \$1250. This award is provided to a student entering the 2nd year of the pharmacy program who has made outstanding contributions to his or her community through volunteer service. Students must be in clear academic standing and be actively involved in volunteer work which has an impact on community life. Students will be eligible to win this award only once during his/her tenure at the School. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

Pharmasave Pharmacy Innovation in Patient Care Award

Pharmasave provides two awards in the amount of \$1250 each. These awards are provided to students in clear academic standing who are entering the 3rd or 4th year of the pharmacy program who show leadership in the development and implementation of a "non-dispensing" patient care program/service offered by a community pharmacy. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The Jaclyn Rogerson Memorial Bursary in Pharmacy

The Jaclyn Rogerson Memorial Bursary in Pharmacy, valued at a portion of the income from the endowment, is established in loving memory of Jaclyn Rogerson, a well respected graduate from the School of Pharmacy's Class of 2004. The bursary is a result of gifts to Memorial University of Newfoundland by Jaclyn's family and friends to honour her commitment to the pharmacy profession and her community. As a gifted communicator and empathetic pharmacist, Jaclyn succeeded in providing caring support to her patients and community. The bursary will be awarded to a student entering their final year in the Bachelor of Science (Pharmacy) program at Memorial University of Newfoundland. Based on financial need and a minimum GPA of 2 (out of a possible 4), preference will be given to a student who also demonstrates a combination of a strong ability to communicate and empathize with patients, school spirit or who actively engages in community service. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the School of Pharmacy.

Sandoz Canada Inc. Scholarship/Bursary

Sandoz Canada Inc. offers annually three awards of \$500.00 each which are open to all students enrolled in the School of Pharmacy. They are to be awarded to students of good academic standing with an aptitude for Pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Sanofi-Aventis Canada Inc. Scholarships

Sanofi-Aventis Canada Inc. offers annually two scholarships in the amount of \$750.00 each to deserving students entering the first year of the Pharmacy program. The selection will be based on academic achievement and admission requirements. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the

Dean, School of Pharmacy.

The School of Pharmacy Entrance Scholarships

The School of Pharmacy provides two awards annually in the amount of \$1,000.00 each to students entering the first year of the program. Recipients will be selected on the basis of academic achievement and admission requirements. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The School of Pharmacy Class of 2011 Legacy Award

The School of Pharmacy Class of 2011 Legacy Award has been established by contributions from members of the Class of 2011. The Award is established to celebrate the bonds of friendship between members of the class. It also recognizes the class' belief in the value of providing service to the School of Pharmacy and the profession. The Award will be presented annually to an undergraduate student who has completed the third year of the Bachelor of Science (Pharmacy) program. The Award is available to a student who has demonstrated professionalism throughout their program, has served on at least one School of Pharmacy committee and has been engaged in service activities that advance the community or the profession. The student must also meet the minimum academic requirements for an award. The Award, valued at \$200 annually, will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The School of Pharmacy Silver Anniversary Scholarship

The School of Pharmacy Silver Anniversary Scholarship was created to celebrate the accomplishments of the School of Pharmacy's alumni, faculty, staff and students on the 25th anniversary of the School's founding in 1986. The Scholarship will be awarded annually to a maximum of two undergraduate students entering the Bachelor of Science (Pharmacy) program at the School of Pharmacy. It will be awarded to the highest ranked students based on academic achievement and admission requirements. The student must also meet the minimum academic requirements for a scholarship. It is valued at a portion of the income on the endowment and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Shoppers Drug Mart Associates Scholarships/Bursaries

Shoppers Drug Mart provides three scholarships/bursaries valued at \$1000.00 each. These awards will be open to all students enrolled in the School of Pharmacy and will be awarded on the basis of academic merit and financial need. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Augustus Stafford Memorial Scholarship

This award is presented to honour a founding member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board), the late Augustus Stafford of St. John's. The award, consisting of \$300, is given to the student achieving the highest academic standing in the first year of the Pharmacy program. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Teva Canada Scholarship/Bursary

Teva Canada provides two awards in the amount of \$500 to be granted annually to students achieving excellence in one of pharmaceutical manufacturing, biopharmaceutics, or medicinal chemistry. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Christina M. Tulk Scholarship in Pharmacy

The Christina M. Tulk Scholarship in Pharmacy was generously established by Ms. Christina Tulk, a proud graduate of the School of Pharmacy's Class of 2002. The Scholarship, valued at \$1,000 will be presented annually to an undergraduate student in any year of the Bachelor of Science (Pharmacy) program. The Scholarship is available to a student who has attempted to advance the profession and School of Pharmacy with grace and humility. In the instance where more than one suitable candidate exists, financial need may be used as a determining attribute. The student must also meet the minimum academic requirements of a scholarship. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

4.12 School of Social Work

The following are available to students in the School of Social Work based on the recommendation of the Dean.

The Alcohol and Drug Dependency Commission Commemorative Awards

These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at \$750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honors Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

The Lyndsey Anne Antle Award in Social Work

This award is being established by the family of Lyndsey Anne Antle who was a student in the School of Social Work at Memorial University of Newfoundland and would have graduated on May 26, 2006. Unfortunately this did not happen. She was struck by a vehicle on June 19, 2005 and passed away as a result of severe injuries on June 22, 2005. Lyndsey strived for excellence in everything she did and truly believed in giving her all to work, family, friends and anyone who needed a helping hand. Her natural wisdom, warmth and strong conviction to helping others made her a great human being and she would have made a wonderful social worker. This award is valued at \$300.00 and will be awarded annually to the student in the graduating class who has the highest average for years four and five of the Social Work program combined. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Social Work.

The Jackie Brown Memorial Social Work Scholarship

This scholarship has been established in the memory of Jackie Brown, a dedicated social worker who was an activist for social justice. Valued at \$500.00 annually, it will be awarded to a full time undergraduate social work student who best epitomizes Jackie's commitment and energy to creating positive change related to a social justice issue in his/her community. The award, however, is not necessarily intended for the student with the highest academic standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Social Work.

The Christopher & Donna Cox Scholarship

This scholarship, established through a generous contribution by Dr. Donna Hardy Cox and Dr. Christopher Cox, is valued at \$500 per annum. Drs. Donna Hardy Cox and Christopher Cox, both alumni of Memorial University of Newfoundland, have established this scholarship in gratitude for their well-rounded student life and academic experiences. To be eligible, candidates must be full-time

undergraduate students. The scholarship will be awarded annually on a rotating basis between the School of Social Work and the Faculty of Medicine, beginning with the latter. In Medicine, the Scholarship will be awarded to a graduating M.D. student who has a strong academic record and who has expressed an interest in specializing in Oncology. In the School of Social Work it will be awarded to a graduating B.S.W. student who is in scholarship standing and who has made the greatest contribution to student and community leadership. The Scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean/Director of the appropriate discipline.

The Memorial University of Newfoundland Social Work Scholarship

This scholarship, at a value of at least \$350.00, is awarded annually to a Social Work major enrolled in full-time study at Memorial University of Newfoundland. In the awarding of this scholarship, scholastic standing and financial need will be taken into account. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Social Work and may be renewed in a subsequent year.

The Professor John S. Morgan Scholarship

This scholarship has been named to honour the late Dr. John S. Morgan, an honorary graduate of the University who served as Visiting Professor of Social Work during the 1976-77 academic year. It is valued at \$500.00 per annum and will be awarded on the basis of academic merit to an undergraduate student enrolled in the School of Social Work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School.

Rick Morris Memorial Bursary

This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The John J. Murphy Scholarship in Social Work

This scholarship, valued at \$500.00, is awarded annually to a student who has achieved academic excellence upon completion of the first year of the Social Work program. The award, however, is not necessarily intended for the student who has received the highest average in this category. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Social Work.

The Elizabeth A. Newlands Memorial Scholarship in Social Work

This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program at Memorial University of Newfoundland. Valued at a minimum of \$1,000.00 annually, it will be awarded on the basis of academics to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Dean, School of Social Work.

The Dr. J. Victor Thompson Scholarship in Social Work

This scholarship, valued at not less than \$650.00 is awarded annually to a full-time Social Work student upon completion of at least 90 credit hours in Social Work and other courses at Memorial University of Newfoundland. The award will be made on the basis of academic excellence by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, School of Social Work.

5 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Undergraduate Students Attending the Grenfell Campus at Corner Brook May Qualify

Although students on the Corner Brook campus are eligible for other awards listed in this Calendar, the following awards are tenable specifically at Grenfell Campus:

The Fred Aldrich Science Scholarship

This scholarship, established by the Corner Brook and Area Branch of the Alumni Association of Memorial University of Newfoundland, is awarded annually to a student at Grenfell Campus who is in the fourth semester of full-time study, who has accumulated at least 45 credit hours, and who is registered in a science program at Memorial University of Newfoundland. The scholarship may be held at either Corner Brook or St. John's. Valued at \$1,000.00, the award is made on the basis of outstanding academic performance. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus and the Head of Science at the Campus.

Belize Travel Award

This award, valued at \$1000 for study in Belize, has been established by Dr. Michael Newton. This award is open to students enrolled at the Grenfell Campus of Memorial University who wish to gain international experience by doing university or field courses in Belize. Students should be beyond their 1st year of study, meet the minimum academic requirements of clear standing and be recommended by the faculty in their area of study. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the scholarship committee at Grenfell Campus in consultation with faculty.

Marcella M. Besaw Memorial Award for International Students

This award has been established by the family of Marcella M. Besaw. Mrs. Marcella Besaw (1953-2010) often opened her home to International students at Grenfell Campus where her son attended, and treated them as extended family. It is valued at \$200.00 annually and will be awarded to a full-time international student beyond their first year of studies at Grenfell Campus. The recipient would have demonstrated an involvement in student life, both within the international student community and with the overall student body. The students must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the scholarship committee at Grenfell Campus.

The Katy Bindon Scholarship

This scholarship, one or more valued at \$1,000.00 each annually, was created by friends of Dr. Katy Bindon with the assistance of the local branch of the Memorial University of Newfoundland Alumni Association and colleagues at Grenfell Campus. It was created to mark the contribution that Dr. Bindon made at the college during her tenure as its Principal from 1991-1997. The scholarship is to be awarded to a student entering his or her fourth year in any degree program offered at Grenfell Campus. The recipient should have combined academic excellence with an outstanding contribution to student life at Grenfell Campus. The scholarship is to be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Breakwater Folklore/Folklife Series Award

The Breakwater Books Folklore Prize is awarded annually for outstanding student performance in undergraduate folklore courses at Grenfell Campus. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of Social Science at the Campus in consultation with Folklore Faculty.

Edward P. Browne Scholarship

This scholarship was established by individual members of faculty, staff and student body of Grenfell Campus in memory of the late Edward P. Browne. Professor Browne was Co-coordinator of Physical Education and Recreation at Grenfell Campus from its opening until his death in 1982. The scholarship is open to all full-time students who have spent at least two semesters at Grenfell Campus. It is awarded on the basis of academic standing, participation in college life and may include financial need. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from the Grenfell Campus. The value of the award will be determined from the interest accrued on the principal sum donated.

The CA Western Newfoundland Scholarship

This scholarship, valued at \$500 annually, has been established by the CA Western Club of Western Newfoundland. The recipient will be the student with the highest grade point average who has completed the first year of studies in any program at Grenfell Campus, Memorial University of Newfoundland and is accepted into either the Bachelor of Commerce program in St. John's or a B.B.A. program in St. John's or Corner Brook. S/he must also meet the minimum academic requirements for a scholarship as defined by the University. The scholarship will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the scholarship selection committee at Grenfell Campus.

Canadian Coast Guard Newfoundland Region Alumni Association Bursary

This Bursary is made possible by the Canadian Coast Guard Alumni. Valued at \$500.00 annually, it will be awarded to a 2nd year Visual Arts student who excels in drawing and painting. Financial need will also be taken into consideration. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee of Grenfell Campus in consultation with the Head, Division of Fine Arts.

Canadian Society for Chemistry Silver Medal

This medal is presented annually to the student at Grenfell Campus with the highest average in third-year Environmental Chemistry courses. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of Science at the Grenfell Campus.

The Nicola Carlson Memorial Award

The Nicola Carlson Memorial Award is presented in honour of Mrs. Nicola Carlson, a Memorial University of Newfoundland alumnus and Grenfell Campus employee. The award will be presented annually to a Western Regional School of Nursing student who has demonstrated skills in or has expressed a desire for future education in the fields of oncology nursing or palliative care nursing. The student must meet the minimum academic requirements for an award. The award is presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of the Western Regional School of Nursing.

The Chancellor's Undergraduate Award Grenfell Campus

This award is given at the Grenfell Campus Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years at the Grenfell Campus. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Vice-President, Grenfell Campus in consultation with the University President.

The City of Corner Brook J.R. Smallwood Scholarship

This scholarship was established in 1991 by the City of Corner Brook to honour the Honourable Joseph R. Smallwood, first Premier of Newfoundland, who contributed significantly to the educational and cultural development of Newfoundlanders. This fund, donated by the City is a tangible mark of the support given by the City to Grenfell Campus since the Campus opened in Corner Brook. The scholarship valued at \$1,000.00 will be awarded to a student who is a resident of the City of Corner Brook in the final year of high school who is proceeding to Grenfell Campus. The award will be made, upon application, to a student of outstanding academic merit and promise who has demonstrated active participation in school and community life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a special selection committee appointed by the Principal, with a representative from City Council.

Corner Brook Pulp and Paper Limited Scholarships

From funds donated annually by Corner Brook Pulp and Paper Limited, a number of scholarships are available to students attending Grenfell Campus, valued from \$250.00-\$500.00 each, available to students in any faculty or year of study. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at the Grenfell Campus.

The Cottage Crafts Association Scholarship

This scholarship is supported by the interest on \$5000.00 donated by Cottage Crafts Association, Corner Brook. It is awarded to a student in Fine Arts at Grenfell Campus. Preference will be given to a student with an interest in fibre arts, including costume design, textile design or textile manufacturing. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Grenfell Campus.

Decker Family Environmental Scholarship

This scholarship was established by the Decker Family. The scholarship, valued at \$1,000 will be awarded annually to a student enrolled at Grenfell Campus either in the Bachelor of Science program in Environmental Science, the Bachelor of Arts program in Environmental Studies, or the Bachelor of Resource Management program in Sustainable Resource Management. Students must meet the minimum academic requirement for a scholarship. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Grenfell Campus Scholarship Committee.

Division of Fine Arts Mercy/Presentation Education Fund Award

These awards, valued at between \$1000 and \$2000, have been established by the Mercy/Presentation Education Fund to assist students with extra-curricular projects that will enhance their education. These awards are open to students enrolled at the Grenfell Campus of Memorial University of Newfoundland in the Visual Arts or Theatre Arts program. Students must have clear academic

standing and complete an application. Applications will be available at the Scholarship's Office, Grenfell Campus. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of Division, Chair of Visual Arts and Chair of Theatre Arts and the scholarship committee at Grenfell Campus.

The James Alexander Doull Memorial Scholarship in Humanities

This scholarship was established by Professor Floy Andrews Doull, to honour the memory of James Alexander Doull, teacher, colleague and friend. This scholarship, valued at a portion of the annual accrued interest, will be awarded annually to a student registered full-time in the Humanities Program at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Chair of Humanities, Grenfell Campus.

Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland

This scholarship has been established by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University of Newfoundland's Faculty of Business Administration's M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland's M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Grenfell Campus, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Vice-President of Grenfell Campus. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Wynanne Downer Bursary for Women

This bursary was established by the Canadian Federation of University Women, Corner Brook Club, in memory of Dr. Wynanne Downer who was a founding member. The bursary, valued at a portion of the income from the endowment, will be made to a female student who graduated from a high school in Newfoundland and Labrador and who is pursuing a degree at Grenfell Campus. Preference will be given to a female student who entered university as a mature student (twenty-one years or older), who is beyond her first year of studies, is in financial need and meets the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus. Applications will be available at Student Services, AS232, Grenfell Campus and/or may be downloaded from the CFUW Corner Brook website.

The Environmental Science Merit Scholarship

One Merit Scholarship, valued at \$2,500.00 annually will be awarded to an outstanding student entering the fourth year of the Environmental Science program at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Chair of Environmental Science, Grenfell Campus.

Duncan A. Ferguson Prize in Psychology

This prize was established by family, friends and colleagues in memory of Dr. Duncan A. Ferguson. It will be awarded annually to a student in his/her final year of a Psychology program at Grenfell Campus. The chosen student will have demonstrated strong academic performance and have contributed to the spirit of student life within the Psychology program. This prize, valued at \$500, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair, Psychology program, Grenfell Campus, in consultation with the Psychology faculty and the Ferguson family.

The Madeline Fowler Prize in English

This prize, valued at \$200.00, is in memory of Madeline Fowler. The prize is normally awarded to a senior student in the B.A. Specialization in English engaged in full-time studies at Grenfell Campus. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair of English at the Grenfell Campus.

The Dr. G.A. Frecker Memorial Alumni Bursaries

The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at \$500.00 each. Four of the bursaries are tenable at the St. John's campus and one at the Grenfell Campus at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

The Joanne Swan Greenlee Prize in Historical Studies

This prize, valued at \$500.00 will be awarded in memory of Joanne (Swan) Greenlee, who, for two decades, delighted in the hearty appetites and lively conversation of Grenfell Campus students who gathered to discuss history at her home. It will normally be awarded to a full-time senior student, at Grenfell Campus, majoring in Historical Studies who displays outstanding cumulative merit in four History courses during the academic year. This prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair of Historical Studies.

Grenfell Campus, Memorial University of Newfoundland and Labrador Residence Scholarship

This scholarship, valued at \$500.00, is available to a student who has spent at least two semesters in residence at the Grenfell Campus. Academic performance and contribution to college life will be the main criteria for choosing the recipient. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Scholarship Committee at Grenfell Campus.

Grenfell Campus, Memorial University of Newfoundland and Labrador Scholarship Fund

Funds are available for the purpose of providing scholarships to students at Grenfell Campus. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at the Grenfell Campus. Financial need may be taken into account when making the awards.

The Rufus Guinchard Entrance Scholarship

This scholarship has been established by the Newfoundland government in honour of the late Rufus Guinchard. The award, valued at \$2,000.00, is presented annually to a student entering Grenfell Campus, who has demonstrated a commitment to the preservation of Newfoundland heritage and culture. This commitment may be reflected in Newfoundland music, folklore, art or writing. Applicants for the Rufus Guinchard Scholarship should submit, with their application, either a statement of their interests relevant to this scholarship, or a completed piece of work. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Ida Harvey Scholarship

This scholarship, in memory of Ida Harvey, is supported by a fund established in 1988 on the occasion of the opening of the Fine Arts Building. It is awarded on merit to any student in a Bachelor of Fine Arts Program by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

Historical Studies Merit Award

This book prize is awarded to a student who has made an outstanding contribution to the life of the Historical Studies Program at Grenfell Campus. The faculty of that program will fund the prize. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Historical Studies Faculty.

The E.J.F. Hodgett Scholarship in Science

This scholarship was established by friends and colleagues of Professor Ferriss Hodgett on the occasion of his retirement, in celebration of his outstanding contributions and service to Memorial University of Newfoundland, and in particular Grenfell Campus. Professor Hodgett, a native of Belfast, in the north of Ireland, served as Vice-Principal of Grenfell College from 1975-1992. This scholarship, valued up to two semesters' tuition, will be awarded to the student entering second year at Grenfell Campus who has attained scholarship standing and has received the second highest overall average in his/her first year having completed at least four courses in the Natural Sciences. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Scholarship Committee of Grenfell Campus.

The Gervase C. Hollander Prize in Biology

This prize was established in 1982 by Mrs. Hollander in memory of her husband, a former teacher and school supervisor with the Humber-Bay St. George Roman Catholic School Board. Valued at approximately \$100.00, it is awarded annually to a second-year student who has completed three or more courses in Biology beyond the first year and who have demonstrated excellence and initiative in both the theoretical and practical aspects of Biology. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of Science at Grenfell Campus.

Husky Energy SeaRose Bursary

The bursary is made possible through a generous donation from Husky Energy, as operator of the White Rose Project, in recognition of the donation of art work by Grenfell Campus's Fine Arts students. The art work is displayed on the FPSO (Floating Production Storage and Offloading) vessel the *SeaRose*. The bursary is being established to provide travel funding to students who, for financial reasons, would not otherwise have the opportunity to travel. Valued at \$2,000.00 annually, it will be awarded on a rotating basis between Visual Arts and Theatre Arts students attending Harlow Campus. To be eligible to receive the bursary students must have clear standing and demonstrate artistic merit and financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts.

The Imperial Tobacco Canada Fine Arts Scholarship

This scholarship, established in 1998 by Imperial Tobacco Canada in support of the *Opportunity Fund* Campaign, has a minimum value of \$2,000.00 annually. It will be awarded on the basis of scholarship standing to a full-time student in the Bachelor of Fine Arts who shows promise and plans to continue in the field. It will rotate annually between the disciplines of Visual and Theatre Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus in conjunction with the Head, Division of Fine Arts.

The F.L. Jackson Award in Philosophy

F.L. Jackson taught Philosophy at Memorial University of Newfoundland for twenty-nine years, for nine years serving as Head of the Department. Professor Jackson conceived the Department of Philosophy as a window on the grand tradition of philosophy, especially for Newfoundlanders, and it is this spirit which animates philosophy at Grenfell Campus. The F.L. Jackson Award will be given to students whose written work is distinguished by its appreciation of the history of philosophy. Generally there will be one award granted per academic year. It will be valued at a minimum of \$100 and will be awarded to a student in any year of study. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus and in consultation with the Philosophy faculty.

The Olof Lindgren Scholarship

This scholarship, the value of which will be determined by the annual interest accrued, is supported by a fund established by Dr. Orvil Olsen, a former Professor of Biology at Grenfell Campus, in memory of his grandfather Olof Lindgren, a Saskatchewan pioneer farmer, who was a firm believer in the value of education as a means of enhancing the quality of life. It is awarded to a student who has completed at least two years at Grenfell Campus and plans to proceed with the full degree on that campus. In awarding the scholarship, preference will be given to a student who has shown an interest in both the natural and physical sciences, and the arts. This award is based upon academic excellence. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The William and Naomi Lundrigan Scholarship

The William and Naomi Lundrigan Scholarship shall be awarded to an entrance student attending Grenfell Campus, Corner Brook. Two scholarships valued at a portion of the income on the endowment will be awarded annually. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and consideration may be given to financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

The Kathleen Wagstaff MacCallum Memorial Scholarship

This scholarship, was established by the MacCallum family in honour of their mother, Kathleen. Valued at the annual interest, it will be awarded to a Fine Arts student beyond first year at Grenfell Campus who is specialising in Visual Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts. Factors such as financial need, family and community involvement, and contribution to the class may also be taken into account.

Colin Macnee Award for Drawing

This Award, in memory of Colin Macnee (1959-1989) was established by his family as a tribute to his life and work. He is remembered by friends and fellow artists for the unique and positive way he reached out to people as both an individual and an artist. Educated in

Britain and Newfoundland, he worked in St. John's up until the time of his death. Examples of his art can be found in private and public collections, including those of Memorial University of Newfoundland (through MUN Art Gallery) and the Government of Newfoundland and Labrador's Art Bank. It will be awarded to a student who has completed their first year of the BFA (Visual Arts) program at Grenfell Campus and, in the opinion of the awards committee for visual arts (where possible including a visiting artist), has demonstrated achievement in self-expression through the medium of drawing. The Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell campus.

The Maxim Mazumdar Memorial Scholarship in Theatre

This scholarship is supported by a fund established by Theatre Newfoundland and Labrador in memory of Maxim Mazumdar, founding Artistic Director of T.N.L. It is awarded to a Grenfell Campus student who has completed the first year in the Theatre Degree Program and who has shown the most promise in any area of the Program. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Dr. M.O. and Grace Morgan Scholarship in Fine Arts

This scholarship is the result of an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan. Valued at a portion of the annual accrued interest, it will be awarded to a Fine Arts student beyond first year at Grenfell Campus. It will rotate annually between Visual Arts and Theatre Arts. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts.

The Maxwell and Emily Mullett Scholarship

This scholarship is supported by the interest on monies donated by Maxwell and Emily (Wicks) Mullett. It is awarded to a student in the final year of studies in Visual Arts at Grenfell Campus on the basis of achievement and promise. Preference is given to Newfoundland and Labrador students. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Orvil Olsen Biology Prize

This prize was established to commemorate the tenth anniversary of the opening of Grenfell Campus. It is valued at approximately \$100.00 annually. Dr. Olsen taught Biology at the College from its opening until his retirement in 1980. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of Science at Grenfell Campus to an outstanding student of first year Biology.

The Florence O'Neill Scholarships

An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to \$1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Grenfell Campus in Corner Brook.

The Raymond J.G. Pafford (1937-1997) Memorial Scholarship

This scholarship, established in 2000 by Mrs. Roberta Pafford, in memory of her husband Raymond, is valued at the annual interest on an endowment. It will be awarded on the basis of scholarship standing to a full-time student in any year of study of the Bachelor of Fine Arts program who shows promise and plans to continue in the field. It will rotate annually between the disciplines of Theatre Arts and Visual Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus in conjunction with the Head, Division of Fine Arts.

The Palliser Prize in History

This prize is in honour of Captain Hugh Palliser, RN, Governor and Commander-in-Chief at Newfoundland from 1764 until 1768; in 1764 he became the first governor to visit western Newfoundland. It is awarded annually to a full-time student beyond first year who has earned no more than 90 credit hours and has earned the highest cumulative average in at least five History courses. This student would normally be studying towards a degree or minor in Historical Studies. The prize is valued at \$250.00 and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus and the members of the Historical Studies program. In the event that no student qualifies in any given year the award will not be given.

The Pausanias Award in Classics for Study Abroad

Named for the second century traveller and geographer, this award is available to students at Grenfell Campus who enroll in field study courses in the culture, history and/or civilization of ancient Greece or Rome. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Arts at the Campus.

Al Pittman Harlow Travel Award

The Al Pittman Harlow Travel Award has been established in his memory by Al Pittman's friends and family. Mr. Pittman was one of Newfoundland's most esteemed poets and playwrights and he believed that observing the different helps us to see the familiar in a new light. Therefore, travel, in enabling us to experience a different place, culture and context, has the power to heighten and enhance our perspective of home. The award will go to a student in the fourth year of study in the Theatre Program at Grenfell Campus who best exhibits a passion for and commitment to theatre, as well as an appreciation of place and how physical and cultural landscape can impact perspective, and who meets the minimum academic requirements for an award. The Award will be made at the beginning of the semester in which the student is scheduled to depart for England (for approved study at the Harlow campus) and will be valued at a portion of the income on the endowment. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Theatre and the Scholarship Committee at Grenfell Campus.

The C.F. Poole Scholarship

This scholarship was established from funds donated by friends of Dr. Cyril F. Poole on the occasion of his retirement as Principal of Sir Wilfred Grenfell College. Dr. Poole, a native of Pilley's Island, Notre Dame Bay, was committed to excellence throughout his distinguished career as a university teacher and administrator in several Canadian universities including Sir Wilfred Grenfell College, where he served as Principal from 1977 to 1990. The scholarship honouring his contribution to excellence in education will be awarded annually to a Sir Wilfred Grenfell College student of outstanding academic merit and promise. Valued at approximately \$1,000.00, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from Grenfell Campus.

The James C. Pratt Memorial Scholarship

This scholarship, valued at a minimum of \$1000.00, has been established in memory of James C. Pratt by his daughter, Mrs. Daphne L. House. The scholarship is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair of Visual Arts at Grenfell Campus, to a full-time student in the discipline of Bachelor of Fine Arts (Visual Arts) who shows promise and purpose of continuing in that field.

The Refreshments Canada Scholarship

This scholarship, donated by the soft drink industry of Newfoundland and Labrador, is valued at \$2,000.00 and will be awarded annually to an outstanding full-time student beyond first year of the Environmental Science Program at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the Basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Chair of Environmental Science.

The Royal Canadian Legion Branch 13 Grenfell Campus Bursary

Established by the Royal Canadian Legion, Branch 13, the bursary will be awarded to an undergraduate student in any program at the Grenfell Campus of Memorial University of Newfoundland. The student must be in financial need and meet the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Scholarships Committee of the Grenfell campus of Memorial University of Newfoundland.

The Francis J. Ryan Memorial Scholarship

This fund was established by the Stewart McKelvey Stirling Scales law firm in memory of their late senior partner Francis J. Ryan. Valued at the annual interest on the endowment, the award will be made to a Fine Arts student specializing in Visual Arts at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts. Financial need may be taken into account.

The Tommy Sexton Triple Threat Award

This Award has been established by the Tommy Sexton Project Inc., founded by the Sexton family. Tommy Sexton was one of the founding members of the award-winning comedy troupe, CODCO. This Award was established to celebrate and acknowledge his great ability as what is known in business as a Triple Threat. The Award will be valued at a minimum of \$500 and presented annually during the final theatre performance. Eligible students will be enrolled in the fourth year of the Bachelor of Fine Arts (Theatre) program at Memorial University of Newfoundland, Grenfell Campus. The recipient will have demonstrated exceptional skills in singing, dancing and acting as determined by the Chair and Faculty of the Theatre Program. Recipients must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

The Short Family Harlow Award

This award was created to assist students to travel to and study at Memorial University of Newfoundland's Harlow Campus in the United Kingdom. Four awards valued at \$1250 each for any program of study will be awarded annually. This award is open to students enrolled at either the St. John's Campus or the Grenfell Campus of Memorial University of Newfoundland. To be eligible, students must be planning to attend the Harlow Campus for at least one full term and must have graduated from a high school in Newfoundland and Labrador. Financial need will be considered. Recipients must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Application for this award can be made at the same time as application is made to the program at the Harlow Campus. Students will be notified if they are successful in their application for this award prior to accepting the placement at Harlow Campus; however, receipt of the award is contingent on acceptance into the program. A faculty nomination letter must accompany the award application form. Application forms are available in person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 864-3956, or on the Harlow Campus web site at www.mun.ca/harlow. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Committee.

The Sisters of Mercy Anniversary Scholarship

This scholarship was established by the Sisters of Mercy to commemorate the 100th anniversary of the arrival of the sisters on the west coast of Newfoundland in 1893. The Sisters of Mercy, educators in Newfoundland since 1842, have been associated with Memorial University of Newfoundland since the University was established. The scholarship valued at a minimum of \$1,000.00 will be awarded annually to a student from Western/Northern Newfoundland or Labrador entering Grenfell Campus with full-time status. Academic standing and promise will be the main criteria. Consideration may be given to candidates' financial circumstances. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

John A. Snow Prize in Mathematics

This prize, in memory of John A. Snow, will be awarded to a student attending Grenfell Campus beyond their third year of studies, who has excelled in a number of Mathematics courses. The prize of \$200.00 will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with the Mathematics professors of Grenfell Campus.

The Honourable P. Lloyd and Elizabeth Soper Scholarship

This scholarship is provided from a fund established by the Honourable P. Lloyd and Elizabeth Soper. It will be awarded to a student at Grenfell Campus who has completed his or her first year of studies and is continuing as a full-time student at the Campus for the second year. The scholarship, valued at a minimum of \$1000.00, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Sun Life Financial Scholarship in Applications of Technology

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

The Visual Arts Entrance Scholarship

This scholarship, established by the Corner Brook and Area Branch of the Alumni Association of Memorial University of Newfoundland, is awarded annually to a student commencing first-year studies in the Visual Arts Program of the Bachelor of Fine Arts at Grenfell Campus. Valued at \$500.00, the award is made on the basis of previous academic performance and the quality of the portfolio submission. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Wabush Mines Fine Arts Travel Bursary

These bursaries are the result of an endowment to Memorial University of Newfoundland from Wabush Mines as part of their contribution to *The Opportunity Fund*. Valued at the annual interest on the endowment, they will support Fine Arts students at Grenfell Campus wishing to travel and gain exposure to Visual and Performing Arts. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academics, financial need and a recommendation from the

Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts.

The Dr. Harriet Ware Memorial Scholarship in Fine Arts

This scholarship, valued at the annual interest on the initial endowment, is supported by a fund established by Martin Ware in memory of his mother, Dr. Harriet Ware. It will be awarded to a Grenfell Campus student who has completed the third year of a Bachelor of Fine Arts program in Theatre and is continuing in that program. The scholarship will be awarded to a student with scholarship standing who has also maintained at least a 70% average in non-theatre courses in their overall academic performance. Preference may be given to a single parent. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Alan and Patricia Wright Psychology Conference Travel Bursary

This award was established by Dr. Sandra Wright in memory of her parents, Alan and Patricia Wright, both former educators who believed strongly in the importance of education. Applications will be available through Psychology Faculty members in January of each year. It will be given annually to a fourth year Psychology major engaged in full-time studies at Grenfell Campus. The purpose of the award is to offset the cost of travel to a Psychology conference (for example APICS, CPA or CSBBS). Funds must be used for travel to and from a conference in the year it is awarded. Valued at \$700, one award is available each academic year. Applications will be read and the recipient chosen by Psychology faculty at Grenfell Campus based on academic performance in Psychology courses and the merit of the proposal. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Psychology and the Scholarships Committee at Grenfell Campus.

Dr. James A. Wright Memorial Scholarship

One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at \$1,000, is available to full time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Grenfell Campus. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

6 Convocation Awards

Convocation Medals and Awards are given at the Spring Convocation each year however, students who graduated at the previous Fall Convocation will also be considered for these awards. The "scholarship year" shall be defined as "May 1-April 30".

Governor-General's Medals

Two Governor-General's Medals are awarded at Convocation: the Gold Medal to the graduate student who achieves the highest academic standing in his/her Graduate degree program; and the Silver to the undergraduate student obtaining a first degree who stands highest in the graduating class and has an average of first-class standing.

University Medals for Academic Excellence (St John's)

The medal is awarded by the Dean of Graduate Studies to a student graduating at the Master's level who has demonstrated academic excellence in course work throughout his/her graduate program. One medal may be awarded in each academic year.

The University Medal for Excellence in a Thesis Based Master's Program

The medal is awarded by the Dean of Graduate Studies to a Master's candidate who has demonstrated excellence in the production of a thesis. One medal may be awarded in each academic year.

The Advisory Board Chair's Leadership Award

This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to the graduating business student (undergraduate) who has demonstrated the most chairperson-like characteristics through leadership in student affairs and service to the community during his or her university years. The award will be made by the Dean of the Faculty, on the advice of his colleagues, and in consultation with the Chair of the Advisory Board.

Association of Registered Nurses of Newfoundland and Labrador Award for Excellence in M.N. Program

The Association of Registered Nurses of Newfoundland and Labrador offers an annual award to three graduating students of the Master's of Nursing Program. One award will be given for the practicum route, one for the thesis route and one for the Nurse Practitioner route. For the practicum award, it will be based on a high quality practicum project as evaluated by the supervisor/co-supervisors. For the thesis award, it will be based on a high quality thesis as determined by review of both internal and external examiners. For the NP award, it will be based on recommendation of the program coordinator. In all cases the successful student must have achieved a minimum average of 75% in courses required for the program as well as hold an ARNNL license to practice. These awards are made at the annual Convocation. They will be awarded by the Dean, School of Graduate Studies based on a recommendation from the Dean, School of Nursing.

The Association of Registered Nurses of Newfoundland and Labrador Award of Excellence in the Bachelor of Nursing (Collaborative) and Bachelor of Nursing (Post-RN) Programs

The Association of Registered Nurses of Newfoundland and Labrador offers a \$200.00 Award of Excellence to two graduating students who have demonstrated excellence in nursing practice. One award will be given to a graduating student in the Bachelor of Nursing (Collaborative) program, and one to a graduating student in the Bachelor of Nursing (Post-RN) program.

The Austrian Ambassador's Prize

This prize, a book award, is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards

on the recommendation of the Head, Department of German and Russian, to a graduating student who has majored in German Language and Literature and has a consistently good academic record at the University.

The Captain Robert A. Bartlett Science Award

As a spontaneous expression of their admiration and affection for a man who has a lasting place in the history of polar exploration, the Explorers' Club of New York and two kindred organizations - the Wilderness Club of Philadelphia and the Harvard Travellers' Club of Massachusetts - donated a sum of money to this University, as a memorial to Captain Bartlett. The University has placed this money in a trust fund, the interest on which is the value of the award. It will be based primarily on academic excellence. Consideration may also be given to the demonstration of the spirit of scientific exploration. The award is made annually to a student graduating in Science, on the recommendation of the President.

The Brepols Book Prize in Medieval Studies

Brepols Publishing, Turnhout, Belgium, an international academic publisher with a very strong interest in medieval studies, has agreed to donate a prize consisting of a book to be selected from their current catalogue, to be awarded each year to an outstanding student graduating with Medieval Studies as a second major. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Co-ordinator of Medieval Studies. If in any year there is no outstanding candidate in the opinion of the Co-ordinator, it will not be awarded.

The Reginald H. Brown Q.C. Memorial Scholarship

The Reginald H. Brown Q.C. Memorial Scholarship is established at Memorial University of Newfoundland in memory of Reginald H. Brown, K. St. J., Q.C., through generous lead donations by Pamela Brown and Reg's colleagues at Cox & Palmer. Described as "a lawyer's lawyer", Reg Brown was a loyal friend and colleague who combined a very challenging and successful litigation practice with the leadership of his law firm as managing partner of Cox & Palmer, an Atlantic Canadian law firm established only two weeks before his death in early 2007. Reg balanced his demanding professional life and leadership in service of his profession and the community with the philosophy that family came first. The Reginald H. Brown Q.C. Memorial Scholarship is to be awarded at convocation to a student graduating from any area of study and accepted at law school. Selection will be made on the basis of academic excellence (with a minimum of scholarship standing) and demonstrated leadership qualities as epitomized by Reg in charitable, athletic, artistic or political endeavours, whether in student life or in the community at large. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Dick Buehler Award in Theatre

This award is given to a student, at Spring Convocation, who has successfully completed all the Theatre courses or the requirements for the Diploma in Performance and Communications Media who will continue their training at an institution of higher learning or as an apprentice to an approved professional theatre or film company. Preference will be given to a student whose primary interest is in technical theatre. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Co-ordinator, Diploma In Performance and Communications Media.

The Faculty of Business Administration Advisory Board Bachelor of Business Administration Award for Excellence

This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Business Administration program. The recipient will be selected based on a combination of academic performance, demonstrated leadership and general contribution within the program, the University, or the community. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the Faculty of Business Administration.

The Faculty of Business Administration Advisory Board B.Comm. (Co-op) Award for Excellence

This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Commerce (Co-op) program. The recipient will be selected based on a combination of academic performance, demonstrated leadership and general contribution within the program. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the Faculty of Business Administration.

The Faculty of Business Administration Advisory Board M.B.A. Award for Excellence

This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to the outstanding student in the graduating class of the M.B.A. program. The recipient will be selected based on academic performance, demonstrated leadership and general contribution within the program. Selection will be made by the Scholarship Advisory Committee of the Faculty of Business Administration, acting on the advice of the Dean of the Faculty.

Faculty of Business Administration Dean's Award

These awards are made by the Dean of the Faculty, on the advice of his colleagues, to graduating students who have demonstrated academic excellence together with leadership qualities within the Faculty of Business Administration and/or the University.

Faculty of Business Administration Dean's MBA Award

This award is made by the Dean of the Faculty, on the advice of colleagues, to a graduating MBA student in recognition of academic excellence together with demonstrated leadership qualities in graduate student activities and service to the Faculty and/or the University.

The Canadian Association of Geographers (CAG) Award

The Canadian Association of Geographers (CAG) Award is given to the top student graduating with an Honours or General degree majoring in Geography in each university in Canada. The award at Memorial University of Newfoundland is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the head of the Geography Department. Recipients receive a one-year membership in the association which includes a Subscription of *The Canadian Geographer*, a professional journal.

Canadian Society for Civil Engineering, CSCE, Newfoundland Section Convocation Award

Each year the local section of the Canadian Society for Civil Engineering awards a prize which consists of a certificate and \$200.00 cash to the top student graduating with a Bachelor of Engineering - Civil, from Memorial University of Newfoundland. The successful candidate will have demonstrated commitment, dedication and consistent performance in academic as well as work terms. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Canadian Society of Mechanical Engineering Medal for Academic Excellence

Each year the Canadian Society of Mechanical Engineering awards a medal and certificate for outstanding achievement to a graduating student in the baccalaureate program in Mechanical Engineering who also demonstrates commitment, dedication and consistent performance in academic as well as work terms. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Chancellor's Graduate Award

The Chancellor's Graduate Award is given at Convocation to the student of the graduating class who has demonstrated the greatest

leadership contribution to graduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the President in consultation with the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies and the Dean, School of Graduate Studies.

The Chancellor's Undergraduate Award

The Chancellor's Undergraduate Award is given at Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the President in consultation with the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies.

The Chancellor's Undergraduate Award Grenfell Campus

This award is given at the Grenfell Campus Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years at the Grenfell Campus. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Vice-President, Grenfell Campus in consultation with the University President.

The Senator Joan Cook Convocation Award in Canadian Politics

The Senator Joan Cook Convocation Award in Canadian Politics was established through generous donations from Senator Cook's friends and colleagues upon the occasion of her retirement from the Senate and in celebration of her long career in Canadian politics. This award will be given to an undergraduate student at convocation who has the highest average in their Canadian Politics Course during the last two years of their program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Department Head, Political Science.

The Cox and Palmer Prize in Law and Society

This prize is for the student graduating from the Law and Society major or minor program with the highest academic average. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Co-ordinator of the Law and Society program.

The Dean's Honour Award in Engineering

This award is in recognition of outstanding contribution made to the Faculty of Engineering and Applied Science through leadership in student affairs and service to the community while maintaining high academic standing.

The David Dunsiger Award for Excellence

This award is for excellence in graduate studies in the Faculty of Engineering and Applied Science, and commemorates the contribution of Dr. A. David Dunsiger, a member of the Faculty of Engineering and Applied Science from 1974-79. It is awarded at the Spring Convocation to a graduate in the preceding year who produces work of outstanding quality. The recipient will be selected by the Faculty of Engineering Scholarship Advisory Committee, on the advice of the Dean of Engineering and Applied Science and the Dean of Graduate Studies.

The French Ambassador's Prize

This prize, the gift of the Ambassador of France to Canada, is a book award made at Convocation to an outstanding graduate whose major was French. The award is made on the recommendation of the Head of the Department of French and Spanish.

Fry Family Foundation Graduate Leadership Award

The Fry Family Foundation Leadership Award is presented to a graduate student who has been selected as Memorial University of Newfoundland's most outstanding graduate student leader. It provides an award of \$5,000.00 to the student who has contributed significantly to student life at Memorial University of Newfoundland, has assumed a variety of leadership responsibilities in various positions and has made a significant contribution to the betterment of their community. This award is given at Convocation to the student who has been selected to receive the Chancellor Award which is the most prestigious leadership recognition awarded by Memorial University of Newfoundland. This award will be made by the Dean, School of Graduate Studies.

Fry Family Foundation Undergraduate Leadership Award

The Fry Family Foundation Leadership Award is presented to an undergraduate student who has been selected as Memorial University of Newfoundland's most outstanding student leader. It provides an award of \$2,500.00 to the student who has contributed significantly to student life at Memorial University of Newfoundland, has assumed a variety of leadership responsibilities in various positions and has made a significant contribution to the betterment of their community. This award is given at Convocation to the student who has been selected to receive the Chancellor Award which is the most prestigious leadership recognition awarded by Memorial University of Newfoundland. This Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Holy Heart of Mary Legacy Convocation Award

The Holy Heart of Mary Legacy Convocation Award was established in celebration of the 50th anniversary of the opening of Holy Heart of Mary High School in 1958. The fund was created with the generous support of the Alumni of that school to celebrate the legacy of excellence in teaching established by the school's founders the Sisters of Mercy and the Presentation Sisters. Valued at a portion of the income from the endowment it will be awarded at the Fall Convocation to a student graduating with a bachelor of Education (Intermediate/Secondary) who excelled academically as well as in the internship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The A.C. Hunter Prize in English

The A.C. Hunter Prize in English, established by the late Mrs. A.C. Hunter in memory of her husband, formerly Head of the Departments of English and French, and Dean of Arts and Science at this University, has a value of \$100.00 and is awarded annually at the Spring Convocation to the graduating student majoring in English who stands highest in the General Degree program. The prize is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature.

The IEEE Newfoundland and Labrador Section Award

This award, which consists of a certificate and cash prize, is presented at the Spring Convocation to a graduating student in the Faculty of Engineering and Applied Science (Electrical and Computer Engineering Program) who has had a consistently good academic record in the professional courses required for the degree and who has made a significant contribution to the Faculty and to the IEEE student branch. It is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Helen Jones Convocation Award for Excellence in English

This convocation award was established by her loving husband and colleague in memory of Professor Helen Jones, an inspiring and supportive teacher in the Department of English Language and Literature. Valued at a portion of the income from the endowment, it will be awarded annually to a student who is graduating with a B.A., honours or general degree, with a major in English, who has achieved

the highest average mark in their English courses. In the event of more than one student sharing the highest mark, the award will be made to the student who has completed the largest number of English courses. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of English Language and Literature.

Margaret Waterman Kelly Teaching Prize

This prize, valued at \$500, is named in memory of Margaret Waterman Kelly, a teacher in pre-Confederation Newfoundland whose life exemplified the highest ideals of education and volunteerism. This prize was established by her daughter, Ursula Kelly, to commemorate this lifework. The prize will be awarded to a female student from Newfoundland and Labrador, enrolled in the Faculty of Education who, upon graduation with a Bachelor's degree in Education (Primary, Elementary or Secondary), has demonstrated excellence in teaching combined with commitment to community service. The Prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Education.

The William J. May Prize in Post-Secondary Studies (Undergraduate)

This prize, valued at a portion of the annual income on the endowment, was established by friends and family of the late Mr. William J. May. Mr. May was Director of Technical and Vocational Education for the province for a number of years and received an Honorary Doctorate from Memorial University of Newfoundland for his contributions to that field. The prize will also consist of a small certificate suitable for framing and will be awarded to the undergraduate student of the graduating class who receives the Medal of Excellence for Post-Secondary Studies (formerly Vocational Education) in his/her graduating year. In a year when there is no suitable candidate it will not be awarded. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The MBA Award for Academic Excellence

This award is to be presented annually to the student in the graduating class of the MBA program who achieves the highest academic standing.

The Memorial University of Newfoundland English Student Society (MESS) Award

This award was established in 2000 as a result of funds raised by the Memorial University English Students' Society (MESS) and the Faculty of the Department of English Language and Literature. The MESS Award recognizes the outstanding contribution to student life at Memorial University of Newfoundland made by the Memorial English Students' Society. It will be awarded annually at the Spring Convocation to one or more graduating English Honours or Major students who have consistently good academic records and who have made outstanding contributions to student life. The award will be valued at the annual interest on the endowment and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature.

The Grace Morgan Prize in Biochemistry (Nutrition)

This prize is for the student graduating in honors Biochemistry (Nutrition) with the highest standing. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Head, Department of Biochemistry.

The Margaret Fitzpatrick Morgan Medal in Nursing

This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Nursing, Memorial University of Newfoundland

The Harvey and Doris Murcell Scholarship in Religious Studies

This scholarship, donated to the University by Doris and the late Harvey Murcell of Harbour Grace, and valued at \$500.00, is awarded to a graduating student majoring in Religious Studies. To be eligible for the award, a student must have scholarship standing. Financial need, and the student's contribution to the Department of Religious Studies, may be considered. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Religious Studies.

Newfoundland & Labrador Association of Social Workers' Student Award

The Newfoundland and Labrador Branch of the Canadian Association of Social Workers makes this award annually to a graduating B.S.W. student selected by the Association in consultation with the School of Social Work.

Rick Morris Memorial Bursary

This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The Newfoundland & Labrador Teachers' Association Medal

This medal is awarded to a graduating student in Education who has had a consistently good academic record in the professional courses required for the degree and who has made an outstanding contribution to the Faculty of Education and to the University.

Professional Engineers and Geoscientists Newfoundland and Labrador Anniversary Award

The Professional Engineers and Geoscientists Newfoundland and Labrador offers an Award in the Faculty of Engineering and Applied Science to mark the occasion of fifty years of Engineering education at Memorial University of Newfoundland. The award, to be tenable by a student in each year's graduating class, is to be awarded on the following conditions:

- high academic standing;
- outstanding leadership qualities;
- involvement in extracurricular activities;
- all-round contribution.

The selection of the winner is to be based on the recommendation of a Selection Committee within the Faculty.

Professional Engineers and Geoscientists Newfoundland and Labrador Award for Excellence

The Professional Engineers and Geoscientists Newfoundland and Labrador has established an "Award for Excellence", which may be made to a student at Memorial University of Newfoundland who obtains an Engineering degree in not more than eight consecutive academic terms and who has completed the prescribed courses with the highest average mark in all the courses. This award takes the

form of a framed "Award for Excellence", suitably engraved, and presented by PEGNL at or about the time of Convocation

Professional Engineers and Geoscientists Newfoundland and Labrador Award for Excellence in Geoscience

The Professional Engineers and Geoscientists Newfoundland and Labrador have established an award for excellence in Geoscience which shall be awarded to the graduating student at Memorial University of Newfoundland who has shown the highest degree of academic excellence during his/her geoscience education. It takes the form of a framed "Award for Excellence" which is engraved and presented by PEGNL on or about the time of convocation. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Earth Sciences.

The Prize of the Ambassador of the Federal Republic of Germany

This prize, a book award, the gift of the Ambassador of the Federal Republic of Germany in Canada, is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of German and Russian, to a graduating student who has majored in German Language and Literature and has a consistently good academic record at the University.

Drs. James and Leslie Rourke Dean's Convocation Award in Medicine

This award has been established by a generous donation from Dr. James Rourke, who started as Dean of Medicine in 2004, and Dr. Leslie Rourke. The award recipient will be the graduating medical student who has made an outstanding personal contribution to bettering the lives of others through volunteer work and humanitarian acts while maintaining high academic standing. Consideration will be given to students who have exhibited the following characteristics: altruism, kindness and compassion. The award, valued at a portion of the income on the investment, is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs of the Faculty of Medicine will assist the Dean in his or her choice of an appropriate candidate.

The Society of Chemical Industry Merit Award

The student graduating in Honours Chemistry and Biochemistry with the highest standing will receive a suitably engraved gold key and a year's Subscription to Chemistry and Industry. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years, and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Heads, Department of Chemistry and Biochemistry.

The Spanish Ambassador's Prize

This Prize, the gift of the Ambassador of Spain to Canada, is a book award made at Convocation to an outstanding graduate whose major or minor was Spanish. The award is made on the recommendation of the Head of the Department of French and Spanish.

The George M. Story Convocation Medal in Arts

This award was established in memory of Dr. George M. Story, Professor Emeritus of Memorial University of Newfoundland. The medal and a \$100.00 prize are awarded to the student graduating with a Bachelor of Arts who has demonstrated, as did Dr. Story, both academic excellence and a strong commitment to serving the University and the community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Arts.

The Swiss Ambassador's Prize

One prize in French and one in German are awarded annually to graduating students who have majored in these languages. The prize in French is awarded on the recommendation of the Head, Department of French and Spanish, and the prize in German on the recommendation of the Head, Department of German and Russian.

The Leslie Thoms Convocation Award

This award, valued at the interest on an endowment, was provided by friends and family of the late Mr. Thoms. It will be awarded at convocation to the undergraduate student of the graduating class who has shown positive, outstanding leadership in student affairs and activities during his or her university career while carrying a full-time course load for the majority of their undergraduate studies and maintaining good academic standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies.

The Moire A. Wadleigh Graduate Award for Excellence in Environmental Science

This award for graduate students in the Environmental Science Program was established in memory of Dr. Moire A. Wadleigh, friend and colleague, caring teacher, dedicated scientist and beacon of excellence in Environmental Science and Geoscience. Two awards will be presented annually: one to the student completing the best Master of Science thesis in Environmental Science within the previous 12 months, the second to the student in the Master of Environmental Science program with the best project and report completed in that year. Successful students must have achieved an average of at least 80% in courses required for the program. Awards will be made by the Dean of Graduate Studies upon recommendation of the Board of Studies of the Graduate Program in Environmental Science.

The Dr. James L. Walker Convocation Award

This award was established in memory of Dr. James L. Walker, a Brandon University department head, psychology professor and research consultant whose innovative teaching, socially relevant research and integration of research into treatment programs for Alzheimer's patients transformed the lives of students, colleagues and patients. Valued at \$1,000, it will be awarded at convocation to a graduating undergraduate student in the Psychology honors program who has demonstrated both academic excellence (a minimum of clear standing) and leadership within their community. The award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Psychology.

The Captain George C. Whiteley English Prize

This prize is the gift of Mr. George C. Whiteley, Jr., a student of Memorial University College, 1926-27, in memory of his father, the late Captain George C. Whiteley. The prize, of the value of \$100.00, is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature, to the student who graduates with B.A.(Hons.) in English with the highest standing. In the event that at any convocation there is no Honours graduate in English, the prize may be awarded to a graduating student of outstanding academic merit and promise in the General Degree program who is selected and recommended for the award by the Department of English. Other things being equal, the prize will be awarded to a student who has produced original work of literary merit.

7 Scholarships, Bursaries, and Awards Available for Undergraduate Students for Study Outside Newfoundland and Labrador

The Gordon Billard Award in Education

A donation has been made to Memorial University of Newfoundland by Mr. Gordon Billard for the purpose of establishing a fund to provide financial assistance to Education students who live at the University's Harlow campus while undertaking approved studies in Great Britain. The award is intended to enhance the student's educational experience in Britain. Its value will be based on the annual interest on the fund. It will be awarded during the Spring Semester by the Senate Committee on Undergraduate Scholarships, Bursaries

and Awards upon the recommendation of the Dean, Faculty of Education. Academic achievement and financial need will be considered.

The Coca-Cola Scholarship for International Studies

This scholarship, valued at the annual interest on its endowment, has been established from contributions to the University's *Opportunity Fund* Campaign by The Coca-Cola Foundation. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree.

The Sylvia Dawson Education Award

This annually funded award has been established by a former student of Sylvia Dawson for a period of five years. Sylvia Dawson was a dedicated educator who loved teaching. Valued at \$250 per year, the award is available to an intern in the Faculty of Education who has been selected to travel to Harlow England. Preference will be given to a student who has graduated from high school in Bay Roberts. In the event no student meets this criteria preference will be given to a student who has graduated from high school in Newfoundland and Labrador. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean of the Faculty of Education.

Paddy Dobbin Scholarship in the Faculty of Business Administration

The Paddy Dobbin Scholarship is endowed through a gift from the Dobbin family members (children and grandchildren) in memory of Paddy Dobbin, a St. John's native who married Rita Power on March 17, 1929. From his early life Paddy demonstrated a strong entrepreneurial spirit, a man not afraid of hard work or taking risks. He instilled these qualities in his eleven children. Paddy guided with much love and a spirit that anything was possible. Through example, he taught his children to never fear challenges, feeling there was always something to be learned. The scholarship is open to undergraduate students of scholarship standing, enrolled in the Faculty of Business Administration in the International Bachelor of Business Administration (iBBA) program, who have been accepted for, but not yet undertaken, the study abroad component of their program. Preference will be given to students who have been active in extracurricular activities at Memorial University of Newfoundland and/or in the community. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Faculty of Arts Annual Award Fund

These awards are made possible each year by the generous donations of alumni and friends to the Faculty of Arts Annual Fund. Valued at a minimum of \$500 they will be granted annually to undergraduate students enrolled in a Faculty of Arts program. First preference is for students enrolled in a study abroad program within the Faculty of Arts. The recipients must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland and the number of awards available annually will be at the discretion of the Dean, Faculty of Arts. The awards be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Arts.

The Harlow Development Corporation Scholarship Trust

The Harlow Development Corporation, Harlow, England, has made a grant to establish a scholarship fund to financially assist students from Memorial University of Newfoundland who wish to live at the University's Harlow campus while undertaking approved studies in Great Britain. The fund will also provide scholarships to students who are residents of Harlow and who wish to study at Memorial University of Newfoundland, or some other institute of learning, in Newfoundland. It is hoped that interest on the fund will finance five or six annual scholarships at £250 each. The online application can be found at www.mun.ca/scholarships/scholarships/Harlow.php

Harlow Travel Awards

A number of travel awards, each valued to a maximum of £250 will be awarded to full-time undergraduate students registered at the Harlow Campus in a Memorial University of Newfoundland approved program. Preference will be given to students who are permanent residents of the Province of Newfoundland and Labrador and are attending the Harlow Campus for a minimum of six consecutive weeks residing on the campus for the duration of the award. Eligibility for these awards requires a minimum of clear academic standing in the previous scholarship year. The awards will be made by the Senate Committee on Undergraduate Scholarships and Financial Aid upon the recommendation of the Harlow Scholarship Trustees. The online application can be found at www.mun.ca/scholarships/scholarships/Harlow.php.

The Ann Elizabeth Crosbie (Perlin) Harvey Memorial Scholarship

This scholarship, valued at the interest on an endowment, was established by The Perlin Family Trust to assist undergraduate students from Memorial University of Newfoundland who wish to pursue their studies at the Harlow Campus in Harlow, England. It will be awarded on the basis of scholarship standing with preference being given to students studying Theatre, and/or Drama Studies. The online application can be found at www.mun.ca/scholarships/scholarships/Harlow.php.

The Elizabeth C. Hesson Memorial Scholarship in German

This scholarship was established in memory of Dr. Elizabeth C. Hesson, Head of the Department of German and Russian from 1986 to 1989 and a member of that Department from 1969 to 1989, through the generosity of her family, colleagues and friends. The scholarship has a value of \$1,000.00, and is normally awarded to a German major who has completed at least the second year of study at Memorial University of Newfoundland and who has demonstrated a high level of academic performance in German. The scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of German and Russian, and is designed to assist the student to undertake a program of German studies in German-speaking Europe. In addition to academic excellence, financial need may be taken into account. This scholarship will not necessarily be awarded every academic year.

The A.C. Hunter Travel Award in French

This award has a value of not less than \$600.00 and is awarded annually. It has been established in memory of Dean A.C. Hunter through the generosity of Mrs. Hunter, the Provincial Government of Newfoundland, the Board of Regents of Memorial University of Newfoundland and Dean Hunter's former students and friends. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in French who wishes to pursue a program of study of one or more semesters' duration, in French language, literature or culture, at a recognized institution in metropolitan France. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Muriel H. Hunter Award in Spanish

This award, valued at \$600.00, is awarded out of income derived from a bequest to the University by the late Mrs. Muriel H. Hunter, wife of the late Dr. A.C. Hunter and former Lecturer in Spanish at the Memorial University College. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in Spanish who wishes to pursue a program of study of one or more semesters' duration, in Spanish or Spanish-American language, literature or culture, at a recognized institution in metropolitan Spain or Latin America. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The H.H. Jackson Travel Scholarship in German

This scholarship was established upon the retirement of Dr. Herbert H. Jackson, Professor Emeritus and first Head of the Department of German and Russian from 1967 to 1980, through the generosity of his colleagues and students. The scholarship has a minimum value of \$500.00 and is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Department Head, to a candidate who has completed at least the second year of study at Memorial University of Newfoundland, has demonstrated a high level of academic performance in German, and is planning to undertake a program of studies and/or work assignment in a German-speaking country.

The Arthur and Sonia May Scholarship

The scholarship, which is expected to be between \$4,000 and \$5,000 (based on the annual interest on its endowment), has been established by Arthur and Sonia May on the occasion of the University's 50th Anniversary as a degree granting institution, and in gratitude for the outstanding experience they enjoyed as students. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree. Applications may be made to the Scholarships, Bursaries and Awards Office, Room 4018, University Centre on or before the third Friday in June.

The Dr. M.O. and Grace Morgan Harlow Bursary

This bursary, valued at a portion of the annual accrued interest on an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan, was established to encourage and assist undergraduate students to attend the University's Harlow Campus. It is open to full-time Memorial University of Newfoundland students attending the Harlow Campus. Up to three bursaries of equal value will be awarded annually to two students in the Faculty of Education (one each in the Spring and Fall semesters) and one to a student in any field of study (in the Winter semester). Bursaries awarded in Fall and Spring will be based on a recommendation from the Dean, Faculty of Education. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships and Financial Aid. An application is required to identify those students planning to attend Harlow in the winter semester only and may be obtained online at www.mun.ca/scholarships/scholarships/Harlow.php.

The Patti Lynn Noonan Memorial Harlow Travel Bursary

This Bursary, valued at a portion of the income from the endowment, is established in memory of Patti Lynn Noonan by her family. Patti-Lynn's motto was "Live life to the fullest and appreciate it and always tell the people you love that you love them". Patti Lynn will always be remembered for her smile, her laughter, her love of life, her devotion to family, friends and the students in her care, her courage and her determination. Patti Lynn's experience at Harlow was a highlight of her time at Memorial University of Newfoundland. The purpose of the Bursary is to enable the recipient to travel outside of Harlow while studying at Memorial University of Newfoundland's Harlow campus. To be eligible, students must have demonstrated financial need, be in good academic standing, and be accepted to study at the Harlow campus. Preference will be given to students enrolled in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Education.

The Pinsent Family Harlow Travel Award

This annually funded award has been established by the Pinsent Family for a period of five years. Valued at \$1000 per year this award is available to a Faculty of Education Intern who has been selected to travel to Harlow, England and has achieved scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of the Faculty of Education.

Al Pittman Harlow Travel Award

The Al Pittman Harlow Travel Award has been established in his memory by Al Pittman's friends and family. Mr. Pittman was one of Newfoundland's most esteemed poets and playwrights and he believed that observing the different helps us to see the familiar in a new light. Therefore, travel, in enabling us to experience a different place, culture and context, has the power to heighten and enhance our perspective of home. The award will go to a student in the fourth year of study in the Theatre Program at Grenfell Campus who best exhibits a passion for and commitment to theatre, as well as an appreciation of place and how physical and cultural landscape can impact perspective, and who meets the minimum academic requirements for an award. The Award will be made at the beginning of the semester in which the student is scheduled to depart for England (for approved study at the Harlow campus) and will be valued at a portion of the income on the endowment. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Theatre and the Scholarship Committee at Grenfell Campus.

The Gar Pynn Memorial Harlow Scholarship

This scholarship is endowed through a gift from Marg Pynn, family, and friends in memory of Gar Pynn, past director and faculty member of the Faculty of Business Administration. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to students applying to complete an academic term at Memorial University of Newfoundland's Harlow Campus. The scholarship, valued at a portion of the income on the investment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Rhodes Scholarship

A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholars obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance. Scholars may, however, hold the Scholarship for only 1 year. Those Scholars who elect to read for a D.Phil. at the time of admission may apply for a third year on stipend. The Rhodes Scholar must present a definite plan of study for that period satisfactory to his/her College and to the Rhodes Trustees. A Rhodes Scholar may apply to any one of the courses of study available at the University of Oxford, subject to the consent of the college or, in the case of graduate study, the relevant faculty or department.

The stipend of a Rhodes Scholarship consists of a direct payment to the University and to the Scholar's College of approved fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance, which is paid directly to the Scholar at the rate of at least £3,480 per annum to cover board, lodging and other expenses. The sum provided should be sufficient to enable a Scholar to meet the necessary expenses for term-time and vacations, but those who can afford to supplement it to a modest extent from their own resources are advised to do so. Reasonable travel expenses to and from Oxford will be paid by the Trust. Application forms containing full particulars can be obtained from the Secretary of the Selection Committee for the Province of Newfoundland or from the Scholarships, Bursaries and Awards Office at Memorial University of Newfoundland. Inquiries may be directed in writing to the Secretary of the Selection Committee to Dr. S. Ann Colbourne, 88 Hugh's Pond Road, Portugal Cove-St. Philips, NL, A1M 2C6, by telephone to (709) 777-5219, by fax to (709) 777-5849, or email to acolbourne@nl.rogers.com.

Dr. Edmund de Rothschild Harlow Travel Bursary

This bursary was established to enhance the student's educational experience while studying at Memorial University of Newfoundland's Harlow Campus, by providing funds to defray cost of travel and field work. Travel bursaries valued at a portion of the accrued interest on the endowment to a maximum of £250.00 will be awarded to full-time, undergraduate students registered at the Harlow Campus in a program approved by Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate

Scholarships and Financial Aid and will be based on need. Eligibility for a bursary requires a minimum overall cumulative GPA of 2. Applicants may be asked to provide a letter of recommendation from a faculty member, including confirmation that the travel is in support of the approved program. If required, the Scholarships and Awards Office will follow-up with applicants as needed.

The Scotiabank Bursaries for International Study

These bursaries, funded by a generous donation from Scotiabank to The Opportunity Fund, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. Fifteen or more bursaries will be available with approximately ten at the undergraduate level valued at \$1,000.00 each and five at the graduate level valued at \$2,000.00 each. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow and in other countries such as Ireland, Malta, Russia, etc. In addition, students wishing to participate in formal exchange programs through the faculty of Arts, such as those with the University of Keele, will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master's and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Short Family Harlow Award

This award was created to assist students to travel to and study at Memorial University of Newfoundland's Harlow Campus in the United Kingdom. Four awards valued at \$1250 each for any program of study will be awarded annually. This award is open to students enrolled at either the St. John's Campus or the Grenfell Campus of Memorial University of Newfoundland. To be eligible, students must be planning to attend the Harlow Campus for at least one full term and must have graduated from a high school in Newfoundland and Labrador. Financial need will be considered. Recipients must meet the minimum academic requirements for an award as defined by the University. Application for this award can be made at the same time as application is made to the program at the Harlow Campus. Students will be notified if they are successful in their application for this award prior to accepting the placement at Harlow Campus; however, receipt of the award is contingent on acceptance into the program. A faculty nomination letter must accompany the award application form. Application forms are available in person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 864-3956, or on the Harlow Campus web site at www.mun.ca/harlow. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Committee.

8 Government of Newfoundland and Labrador Scholarships

8.1 For Students Graduating From High School

The following scholarships are made available by the Government of Newfoundland and Labrador and are awarded by the Minister of Education to high school students in the province. They are based on the Department of Education scholarship score which is derived from the results of public exams. In excess of 200 scholarships are awarded each year.

a. The Junior Jubilee Scholarship

This scholarship has a value of \$2,500.00. It is awarded annually to the high school graduate who achieves the highest Department of Education scholarship score.

b. The Electoral District Scholarships

These scholarships, valued at \$1,000.00 each, are awarded annually to the three high school graduates in each electoral district who achieves the highest Department of Education scholarship score.

c. The Centenary of Responsible Government Scholarships

Fifty-five scholarships, valued at \$1,000.00 each, are awarded to high school graduates based on the Department of Education scholarship score provided they have not already been awarded another government scholarship.

d. Constable W.C. Moss Scholarship

This scholarship has a value of \$1,000.00. It is awarded annually to a son or daughter of a member of the Royal Newfoundland Constabulary, or of the Royal Canadian Mounted Police (active, retired or deceased), who achieves the highest Department of Education scholarship score. The Constable W.C. Moss Scholarship requires an application which is available from high school principals.

8.2 For Undergraduate Students in Attendance at Memorial University of Newfoundland

a. The Centenary of Responsible Government Scholarships

The Government of Newfoundland and Labrador provides these scholarships, valued at \$1,000.00 each, to students pursuing an undergraduate program of study. These scholarships are awarded by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland. They are awarded on the basis of scholarship standing and no application is necessary.

b. The Senior Jubilee Scholarship

The Senior Jubilee Scholarship, valued at \$3,000.00, is provided by the Government of Newfoundland and Labrador. It is awarded annually by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland, to the student at the University who attains the highest average in the courses completed during the first two semesters of their second academic year. No application is necessary.

c. The Doctor Arthur Barnes Scholarship

The Doctor William W. Blackall Scholarship

The Doctor Vincent P. Burke Scholarship

The Reverend Doctor Levi Curtis Scholarship

The Ronald K. Kennedy Scholarship

These scholarships, valued at \$1,200.00 each, are provided by the Government of Newfoundland and Labrador. They are awarded annually by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland, to students who have completed two years of a degree program at the

University. They are awarded on the basis of scholarship standing and no application is necessary. Normally these scholarships are tenable at Memorial University of Newfoundland but in special circumstances may be held elsewhere.

The values of the above awards are subject to change.

9 Scholarships, Bursaries, and Awards Administered By Other Authorities

Association of Registered Nurses of Newfoundland and Labrador Education and Research Trust

The AARNL Education and Research Trust has established a scholarship and bursary program for students enrolled in a Bachelor of Nursing Program at Newfoundland and Labrador School of Nursing, and for Registered Nurses pursuing continuing education at the baccalaureate, master and doctorate levels. The awards range in value from \$500 to \$2000. Information and application forms may be obtained from the Education and Research Trust website www.arnnl.ca or by contacting the Trust at trust@arnnl.ca. The deadline for application is October 15.

The Baxter Corporation - Jean Goodwill Scholarship

Two \$5,000 scholarships sponsored by Baxter Corporation, are awarded annually, and are administered by the Association of Indian and Inuit Nurses of Canada. The aim of the scholarships is to encourage nurses of Indian and Inuit ancestry who intend to serve in the Northwest Territories or Yukon, by helping them obtain the specialized knowledge they will require.

Consideration will be given to applicants of Indian and Inuit ancestry who intend to serve in the North, including:

- a. Students who are graduating from a registered nurses' course and are accepted into one of the following specialized training programs:
 - i. community health nursing,
 - ii. outpost nursing,
 - iii. midwifery;
- b. Graduate nurses already serving in isolated communities, who are accepted into one of the specialized training programs listed above;
- c. Those who are or will be enrolled in a Bachelor level nursing program.

The successful applicant must provide documentation of his/her efforts to secure employment in isolated norther native communities.

Completed applications must be received by the President of the Indian and Inuit Nursing of Canada by July 1 each year. Successful candidates will be notified by August 1. Further information may be obtained by writing to President Aboriginal Nurses Association of Canada, 55 Murray Street, 3rd Floor, Ottawa, Ontario K1N 5M3 or by telephone to (613)230-1864 or by fax: to (613)230-1542.

The Patricia Blackburn Memorial Bursary Fund

This fund has been established at Grenfell Campus, Memorial University of Newfoundland, in memory of Patricia Blackburn and her grandson Erik Blackburn. The annual income is to be used at the discretion of the Vice-President (Grenfell Campus) to facilitate or improve the educational opportunities of deserving young people from rural Newfoundland & Labrador. The fund will assist one or more promising students who would otherwise be unable to attend or to continue university.

The Bristol Laboratories of Canada Prize

This prize of \$200.00 is to be used for the purchase of Medical books. It is to be awarded to a first-year medical student on the basis of academic performance as well as the interests and the needs of the student. Works on Pharmacology and Therapeutics will ordinarily be included in the books selected. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

Calder Scholarship

The Calder Scholarship, valued at \$500.00 has been created by the Town of Burgeo to honour Drs. Mike and Ann Calder for their combined sixty years of service to the town. It will be awarded annually to a student who has graduated from a school in Burgeo, who is enrolled in a post-secondary program of studies which leads to a career in the health care field. Students must apply, prior to November 30, on an application form provided by the Town of Burgeo. Students in any year of their programs may apply.

Cal Callahan Memorial Bursary

Each year this Association offers a bursary, or bursaries, totalling six thousand dollars (\$6,000.00) to sons, daughters, or legal wards of persons who derive their principal income from the Pipeline Industry and whose employers are Members of this Association. The purpose of these bursaries is to give financial assistance to students who are beginning undergraduate studies in a full program leading to a Degree or Certificate in any field, at a recognized University or College in Canada. Selection will be made by the Executive Committee, based upon scholastic record and financial need, provided the applicant otherwise qualifies. Applications may be obtained from the Pipe Line Contractors Association of Canada, Suite 720, 5915 Airport Road, Mississauga, Ontario, L4V 1T1, and must be returned by not later than September 30th accompanied by a receipt or other proof of enrollment.

Canadian Armed Forces University Training Plans

Selected students may qualify for financial assistance through these Canadian Armed Forces University Training Plans: the Regular Officer Training Plan (ROTP); the Regular Officer Training Plan (ROTP-Coop, M.U.N. only); the Dental Officer Training Plan (DOTP); the Medical Officer Training Plan (MOTP); and the Reserve Entry Scheme-Officers (RESOP). Full details may be obtained in writing from The Canadian Forces Recruiting Centre, Government of Canada Building, 354 Water Street, St. John's, NL, A1C 1C4 or The Canadian Forces Recruiting Detachment, Herald Towers Building, Suite 407, 4 Herald Avenue, Corner Brook, NL, A2H 4B4.

Canadian Federation of University Women (Saint John, NB) Jean Flemming Memorial Scholarship for Mature Students - \$1,500

The Canadian Federation of University Women – Saint John offers this scholarship to a mature female student pursuing degree studies at a Canadian university. Eligible candidates must be over 24 years of age, a resident of the greater Saint John area, and have completed a minimum of 30 credit hours – equivalent of one full year of study. The priority considerations in awarding the scholarship are academic merit and financial need. Preference will be given to those pursuing a degree on a full-time basis or who agree to register on a full time basis on receipt of the scholarship.

The Canadian Gerontological Nursing Association

Sancella/CGNA Nursing Scholarship - 2 awards of \$1000.00. The purpose is to provide support to outstanding Registered Nurses undergoing further education in either an undergraduate nursing degree program, or a post graduate degree program that is relevant to career development in the field of Gerontological Nursing.

The candidate must:

- Be a member of the Canadian Gerontological Nursing Association.
- Be registered to practise nursing in a Canadian Province.

- Have gained acceptance to a suitable full-time program in a recognized educational institution at the time of taking up the award.
- Exhibit interest in and potential for, a career in Gerontological nursing in Canada.
- Be a Canadian citizen or permanent resident at the time of taking up the award.

The scholarship is administered by the CGNA and further information regarding criteria can be obtained by writing to CGNA, c/o Nancy Bol, Parkwood Hospital, 801 Commissioners Rd. E., London, Ontario N6C 5J1.

Canadian Hydrographic Association Awards

A sum of two thousand dollars (\$2,000.00) will be awarded to a full time student in second year of a science or survey program at a bona fide university or a technological college in Canada. The award is intended to assist a deserving student in financing his/her education in a field related to survey sciences. The award will be made annually to the student judged the most deserving based on the information contained in the applications received. The applications are available from the Canadian Hydrographic Association, Institute of Ocean Sciences, 9860 West Saanich Road, Sidney, B.C. B8L 4B2, Attention: Barry M. Lusk. C.L.S.

Canadian Lung Association Fellowship/Research Grant Program

From funds provided by the Christmas Seal Campaign, fellowships and research grants are awarded by the Canadian Lung Association on recommendations from the Canadian Thoracic Society, Canadian Nurses' Respiratory Society, and Physiotherapy Section.

Through the Canadian Thoracic Society, fellowships are awarded to physicians or to those holding doctorate degrees in the health sciences for periods of research training in the area of respiratory disease.

Through the Canadian Nurses' Respiratory Society, fellowships and research grants are awarded in the area of respiratory nursing at the Master's or post-Master's level.

The Physiotherapy Section of the Canadian Lung Association offers fellowships to physiotherapists pursuing post-graduate training, with respiratory research as the major component.

Information and application forms may be obtained in writing to Canadian Lung Association, 75 Albert Street, Suite 908, Ottawa, Ontario, K1P 5E7.

Canadian Nurses Foundation Scholarships & Fellowships Competition

Scholarships and fellowships are awarded to nurses pursuing education at the baccalaureate, master and doctoral levels. In addition to non-specific studies, awards are available for specific area of practice such as northern nursing, occupational health, dialysis nursing, neurological nursing, oncology nursing, community health, gerontology nursing, pediatric nursing and nursing administration. Applications must be members of CNA and CNF, be Canadian citizens and agree to work in Canada for a period of one year for each year of financial assistance. Application forms are available from their website www.canadiannursesfoundation.com or in writing to Canadian Nurses Foundation, 50 Driveway, Ottawa, Ontario K2P 1E2 or by telephone to (613)237-2133 or by fax to (613)237-3520.

Canadian Soroptimist Grants for Women - \$5,000.00

This grant is available to female students pursuing a course of studies leading to a career of service to people who are in their final year of a four year undergraduate program. Further information may be obtained in writing to Soroptimist Foundation of Canada, c/o Doreen Dodd, St. Paul's College, Westmount Rd., N., Waterloo, Ontario N2L 3G5.

The Canadian Union of Public Employees, Local 1516, Scholarships

CUPE Local 1615 offers five scholarships annually valued at \$500 each. The scholarships are available to students entering or already in a program of study at Memorial University of Newfoundland or a two-year program at any other recognized institution in St. John's or Corner Brook, who are children of CUPE Local 1615 members. The scholarships are awarded by the CUPE Scholarship Committee on the basis of academic ability only. Application forms are available from the CUPE Local 1615 Scholarship Committee.

The CANQUA '95 Undergraduate Research Awards

The national meeting of the Canadian Quaternary Association (CANQUA) was hosted by Memorial University of Newfoundland in 1995. As part of the legacy of that meeting, CANQUA is pleased to announce the creation of an undergraduate research award in Quaternary studies at Memorial University of Newfoundland. The award, valued at \$200, is intended to support honours thesis research in any discipline related to the Quaternary Period. Two additional awards of one-year membership in CANQUA (including journal Subscription) will be granted in the same competition. Candidates will be selected on the basis of a submitted research proposal and academic excellence. Application forms and guidelines are available from, and should be submitted to, the Geography Department. Deadline date for submission of applications is March 31.

Children of War Dead (Education Assistance) Act

This Act provides fees and monthly allowances for children of veterans whose death was attributable to military service. Inquiries should be directed to the nearest District Office of the Department of Veterans Affairs.

CIBA Student Award

The CIBA collection of medical illustrations provided by CIBA Pharmaceuticals is presented annually to the first-year student showing the most promise in the field of Anatomy. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Co-op Atlantic McEwen Scholarship

To honour the memory of Wesley H. McEwen, Co-op Atlantic annually offers two university entrance scholarships of \$1000.00 each per year, available to a student for up to four years. The awards help deserving students reach their educational goals and are designed to improve understanding and knowledge of co-operation and co-operatives. Applicants must be (a) a full-time employee, or the dependent of a full-time employee, of Co-op Atlantic or one of its member co-operatives; or (b) dependents of members or members of member co-operatives of Co-op Atlantic. Further information may be obtained in writing to The Manager, Corporate Administrative Services, Co-op Atlantic, P.O. Box 750, Moncton, New Brunswick E1C 8N5.

The Donald E. Curren Scholarships

These scholarships (four of \$1000.00 each and four of \$500.00 each) are open to mobility impaired students who have been accepted by a university in the Atlantic Provinces, with preference to paraplegics and quadriplegics. The scholarships will be awarded on merit, and on such other criteria as the Selection Committee may determine. Recipients must be Canadian citizens or permanent residents, and residents of the Atlantic Provinces. Application deadline is July 15. Application forms may be obtained in writing to Donald E. Curren Scholarship Fund, c/o Canadian Paraplegic Association, Nova Scotia Division, 5599 Fenwick Street, Halifax, Nova Scotia B3H 1R2.

Dr. Wynanne Downer Award for Women

This award was established by the Canadian Federation of University Women, Corner Brook Club, in memory of Dr. Wynanne Downer who was a founding member. The award, valued at a minimum of \$500.00 will be made to a female student from Newfoundland and Labrador who is pursuing a degree at Grenfell Campus. The award will be made annually by the members of the CFUW, Corner Brook. Preferences for this award will be given to a mature female student (twenty-one years or older), who is in good academic standing and beyond her first year of studies. Financial need will be considered. Applications for this award are available from the Scholarships and Awards Office, Memorial University of Newfoundland, Room 4018, University Centre, St. John's, NL, A1C 5S7, or the Student Affairs Office, Grenfell Campus, Room AS233, Corner Brook, NL A2H 6P9.

Epilepsy Newfoundland and Labrador**a. The Jim Hierlihy Memorial Scholarship**

This scholarship, valued at \$1000, will be awarded annually to an undergraduate student at any post-secondary institution in Canada or the United States, who have diagnosed epilepsy and are a member in good standing of Epilepsy Newfoundland and Labrador, at the time of scholarship application. Evaluations will be based on a combination of the applicant's grades, extracurricular activities, and financial aid.

b. The Mature Student Scholarship

This scholarship, valued at \$1000, will be awarded annually to an undergraduate student at any post-secondary institution in Canada or the United States, who is at least 21 years of age, who has diagnosed epilepsy and is a member in good standing of Epilepsy Newfoundland and Labrador, at the time of scholarship application. Current board or staff members are not eligible to apply for these scholarships. Former board or staff members and/or their family members can apply, if they have been out of the service of Epilepsy Newfoundland and Labrador for two years. This two year period will be calculated as two years prior to the scholarship award date.

Award holders must be prepared to enter or be currently entered in a post-secondary training institution in the academic year of application. Scholarship applications must be received by Epilepsy Newfoundland and Labrador no later than November 1st of the academic year. Notification of award will be made no later than November 15th. The award holder must submit to Epilepsy Newfoundland and Labrador confirmation of admission or enrollment as soon as possible after selection, but not later than January 15th of the academic year. The successful applicant should be available, in person, to receive their award at a formal presentation.

Further information, memberships or applications may be obtained in writing to Epilepsy Newfoundland and Labrador, 261 Kenmount Road, St. John's, NL, A1B 3P9 or by telephone to (709) 722-0502, or by fax to (709) 722-0999, or by e-mail: epilepsy@nf.aibn.com, or through the website at www.epilepsynl.com.

Terry Fox Humanitarian Award Program

This program is intended to encourage Canadian youth to seek the high ideals represented by Terry Fox, by the granting of commemorative scholarships for the pursuit of higher education. The value of each award is \$3000.00 annually for a maximum of four years or until a first degree is obtained. Selection criteria for recipients will be based on demonstration of the highest ideals and qualities of citizenship and humanitarian service while in pursuit of excellence in their academic, amateur sport, fitness, health, community service and related endeavours. Deadline for the submission of applications is February 1st. Applications are available in writing to Terry Fox Humanitarian Award Program, Simon Fraser University, 8888 University Drive, Burnaby, BC V5A 1S6 or by fax to (604) 291-3311.

Charles E. Frosst Medical Scholarship

This scholarship, valued at \$1,000.00, will be awarded at the end of the fourth year to the student who, in the opinion of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships, has shown the most promise in the field of Therapeutics. A suitably inscribed bronze medal is also presented to each year's winner.

Glaxo/Harlow Award in Clinical Pharmacy

Galxo Canada Inc. offers \$2,500.00 annually which provides travel expenses allowing two students in the final year of the pharmacy program to undergo the last rotation of their clinical structured practice experience in London, England. Students reside at Harlow Campus. Students must apply for this award. Recipients are selected on the basis of academic achievement as well as their performance on a required assignment. The award is not given to an applicant if all criteria for the award are not met. The selection will be made by clinical faculty, School of Pharmacy.

Glory of Mozart Chamber Music Travel Bursary

This award was established by the 1991 St. John's International Mozart Chamber Music Competition Committee.

The award will be available to students enrolled in the Bachelor of Music degree program who are participating as members of a chamber ensemble at an event of major musical importance outside the province. The bursary will be used to assist with travel and other expenses involved in attending the event. Musical ability, academic standing, financial need and the benefits to the students from attending the event may be taken into account in making the award. The value of the award will be based on the interest income accruing on the capital sum in the fund. Applications for this award should be submitted in writing to the Dean of the School of Music.

The Ford Hewlett Memorial Oncology Scholarship

A scholarship, valued at \$1000, has been established by the Canadian Cancer Society, in memory of Mr. Ford Hewlett of Springdale, Newfoundland, who was a very dedicated volunteer of the Society. The scholarship is awarded annually to a third year medical student who has demonstrated interest in the field of research or clinical oncology.

S.R. Hussey Memorial Scholarship Fund

This fund was established some years ago by the Canadian Council of the Blind Clubs of the Atlantic region for the purpose of assisting registered blind students in continuing their education. The fund is available to registered blind students in the Atlantic region who are attending a recognized university. The fund is also available to assist the children of registered blind persons. Blind students interested in making application for assistance from this fund should contact the nearest office of the Canadian National Institute for the Blind for further information.

Imperial Tobacco Canada Scholarship Fund for Disabled Students

Purpose: To encourage young Canadian disabled students to pursue university studies with the ultimate objective of obtaining a university degree.

Field of study: Undergraduate program in any field of study.

Value: Each scholarship is valued at \$1500.00 annually.

Number: Minimum 5.

Duration: One academic year - may be renewable upon application.

Conditions: Candidates must be disabled according to the following 1975 United Nations Declaration: A disabled person is "any person unable to ensure himself or herself wholly or partly the necessities of a normal individual and/or social life, as a result of a deficiency, either congenital or not, in his or her physical or mental capabilities."

Candidates must be Canadian citizens. Candidates must have successfully completed the schooling requirements or equivalent for admission to an undergraduate program of study, or be presently registered as a full-time undergraduate student as defined by the University, and have successfully completed the last academic year. Candidates must not be employees or franchisees, or dependents of employees or franchisees of Imasco or any of its subsidiaries. Where tenable: At any Canadian university which is a member of, or affiliated to a member of the AUCC. Further information: Additional information and application forms may be obtained in writing to The Awards Officer, Canadian Awards Section, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1. Completed applications in duplicate are to be returned to AUCC not later than June 1st.

Imperial Oil Ltd. Higher Education Awards (for Sons and Daughters of Employees and Annuitants)

The Higher Education Awards program provides full tuition and compulsory fees for sons and daughters of Imperial Oil Ltd. employees,

annuitants, or deceased employees. Students must be accepted at any approved Canadian University or Community College. The student must begin their education within six years of starting secondary school (grade 9), and must have an average of at least 70% in the subjects required for admission by the institution. Students who do not qualify upon graduation from secondary school may be eligible should they achieve the equivalent of a 70% average while in post secondary education. Once an award is granted, the student must pass all subjects and complete a "full workload" each year. A student may qualify for up to four awards in a five year period, which begins when the student first starts post secondary education. Application forms and brochures explaining the program in more detail are available in writing to Administrative Management Services, Awards Division, P.O. Box 414, Pickering, Ontario L1V 2R6 or by telephone to (416)420-0642 or by fax: to (416)420-2516 or through the website at www.uregina.ca/awards/scholarships/.

The International Grenfell Association Scholarship Program

A number of scholarships and awards are available to students resident in the region served by the Grenfell Regional Health Services:

a. **The IGA Scholarships (three at \$3000.00 per semester for up to four years)**

Two of these awards are available to high school graduates upon entrance to a degree-granting institution; application deadline date January 31. One award is reserved for undergraduate students already in attendance at a university; application deadline date May 15. These awards may be renewed if scholarship standing is maintained (at 70% or better).

b. **The IGA Bursary Fund Awards**

Discretionary awards of not more than \$2000.00 each are available for study at community colleges, technical institutes and universities to students qualifying on the basis of academic achievement, industry, potential and financial need. Applications may be submitted prior to May 15. A special bursary of \$3000.00 to a mature student, out of high school five years or more, is also available.

Application forms and further information are available in writing to Mr. Paul Canning, General Business and Grant Programs, International Grenfell Association, 66 Birmingham Street, St. John's, NL, A1E 5M8, or by telephone to (709) 745-6162 or by fax to (709) 745-6163, or by email to iga@nfld.net.

Dr. Jerzy Jarmasz Memorial Scholarship (\$500)

This award was endowed in 2003 by the co-donors, Mrs. Mercedes Jarmasz and the Polish Heritage Foundation of Canada. It is available to any student of Polish origin. One scholarship is awarded each year. In order to be eligible, applicants must have completed two years of studies. The application deadline is June 30. Application forms are available at www.polishheritagefoundation.org/.

Kin Canada Bursaries

Applicants to the Kin Canada Bursaries must be Canadian citizens or permanent residents and must be full-time students in the process of graduating from high school, or currently studying or registered at a post-secondary institution. Anyone interested in applying for these bursaries may use the standard application form available at www.bursary.ca and submit it to the Kinsmen, Kinette or Kin Club nearest your permanent residence by February 1st. Disbursements take place in May.

The Leonard Foundation Scholarships

Additional Application Forms are available in writing to Grace Singh, Secretary, The Leonard Foundation, c/o The Canada Trust Company, 20 Eglinton Avenue West, Toronto, Ontario M4R 2E2, or by telephone to (416) 361-8745, or by fax to (416) 361-8753, or Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, or by telephone to (709) 864-3956, or by fax to (709) 864-2347.

Gerry Lynch Memorial Scholarship

This scholarship, valued at \$3,000.00, is awarded annually at the NLMA annual meeting to a graduating Memorial University of Newfoundland Medical student in good standing. Applicants are required to write a research paper of 1500-2000 words on a topic selected each Fall by the NLMA Board of Directors. The scholarship is administered by the Canadian Medical Foundation and will be available in perpetuity.

The Merck Frosst Award

Merck Sharp & Dohme Canada Limited provides an annual award of \$1,000.00 (or, when necessary, two awards of \$500.00 each) to a third-year student of each Canadian medical school. This award is intended to recognize the efforts of the medical student who has shown the most promise in the field of Therapeutics. A copy of the current edition of the Merck Manual will be offered together with the monetary prize. The awards are made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Leonard A. Miller Award

This award, in memory of Dr. Leonard A. Miller, is given annually to the most outstanding student in the study of Community Medicine. The award, in the amount of \$500.00, is funded jointly by the Faculty of Medicine and the General Hospital. The selection of the recipient for the award will be made at the completion of first year medical studies. The award is made by the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

The National Sea Products Limited Scholarships

Five university entrance scholarships valued at \$1500.00 each are made available annually by National Sea Products Limited. The awards are open to children of permanent employees of the company or its wholly-owned subsidiaries, and to children of crew members of the company's offshore trawlers who have been employed with the company for at least twelve months. Further information and application forms are available in writing to The Awards Officer, National Programs Division, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1.

The Natural Medicines Comprehensive Database Recognition Award

This award is presented to an outstanding graduating pharmacy student who has shown an interest in evidence-based approach to patient care, in particular when considering natural medicines. The winner receives the current edition of the Natural Medicines Comprehensive Database Book, access to the Database online, complimentary enrollment in the Natural Medicines Comprehensive Database continuing education series, and an award certificate.

Newfoundland Light & Power Co. Limited Employees' Association Scholarships

Sons and daughters of Newfoundland Light & Power Co. Limited employees and certain other relatives of single employees, may apply for the above scholarships if they intend to pursue post-secondary study. In applying, applicants should note that employees must be members of the Newfoundland Light & Power Co. Limited Employees' Association and regular contributors to its Scholarship Fund. Applications and information are available in writing to Employees' Association, Newfoundland Light & Power Co. Limited, P.O. Box 8910, Kenmount Road, St. John's, NL, A1B 3P6.

Newfoundland Medical Association Awards

The Newfoundland Medical Association will make two awards of \$1,000.00 available to students at the end of second year of medical studies. These awards are intended to recognize potential interest in the organizational aspects of the profession of medicine as judged by the contribution made by the student to the governance of the medical school. While academic excellence is not the main criterion, recipients should be in good academic standing. The recipient should be identified to the Executive of the Association for approval upon recommendation by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

Noia-Hibernia Commemorative Scholarship

1997 was a big year for the oil & gas industry. The Hibernia project was successfully completed, hauled out to sea, and started drawing oil. The Noia-Hibernia Commemorative Scholarship Fund was created to commemorate this landmark year. It offers an annual scholarship of \$1,000 to a graduating high school student in Newfoundland and Labrador who is entering post-secondary studies and intending to pursue a petroleum-related career. These are the bright minds that will shape the future of this industry, and we feel like it would only be right to foster some of their development. The scholarship will be awarded to the student who best meets academic and extra-curricular criteria. If you're about to graduate in June 2012 and are pursuing post-secondary studies with the goal of a career in petroleum in the 2012-2013 academic year, we encourage you to apply for this scholarship. Applications are available at www.noia.ca/Portals/0/ScholarshipApplication.pdf. Each student should outline their community and extra-curricular activities in the completed application and include a letter of reference. Applications should be sent to the following address: Noia Scholarship Selection Committee Box 44, Atlantic Place Suite 602, 215 Water Street St. John's, NL A1C 6C9.

The Ocean Ranger Scholarships and Bursaries

To commemorate the tragic loss of the 84 crew members of the Ocean Ranger on February 15, 1982, a scholarship and bursary program has been established by the Ocean Ranger Disaster Fund. These awards, valued at \$500.00 per year, are tenable at Memorial University of Newfoundland, the Fisheries and Marine Institute, and the College of the North Atlantic to students who are entering or pursuing a post-secondary program of studies at one of these three institutions. In selecting candidates, preference will be given to the daughters, sons and/or widows of those who were lost. In the absence of eligible candidates from this group, the scholarships and bursaries may be awarded to other students at the discretion of the Ocean Ranger Scholarship Committee. Information and application forms may be obtained from the Office of Student Affairs at any of the institutions noted above.

The Gregory J. Power Poetry Awards

The proceeds from a sum of money donated to the University by Mr. Gregory J. Power will (depending on the merit of submissions) be awarded as first, second, and third-place prizes in an annual poetry competition administered by the Department of English, Memorial University of Newfoundland. The competition will be open to full or part-time students at the University upon submission of original, unpublished work. The selection of winners will be the responsibility of the Head, Department of English, acting on the advice of a special committee. Entry forms and further information may be obtained by contacting the Department of English.

Prize in Psychiatry

To be awarded by the Psychiatry Department to the most outstanding student in Psychiatry in the Clinical Clerkship Year (Third-Year Medical Studies).

The Pro Vice-Chancellor's Prize

The Strategic Framework for Memorial University of Newfoundland states that Memorial will enrich undergraduate education by helping students to experience the excitement of intellectual discovery, introducing undergraduates more effectively to the wider academic enterprise. In encouragement of this objective and in recognition of superior writing and scholarship by undergraduate students that deserves a wider audience, the Vice-President (Academic) and Pro Vice-Chancellor has established a series of prizes for the best undergraduate scholarship done each year at the University.

Instructors are invited to nominate examples of their undergraduate students' course work for the Pro Vice-Chancellor's Prize. The professor will certify that the work is original and the student's own work, and submit it to his/her head/director who will transmit it to the committee. Students may also submit their own course work for consideration. Instructors' comments should not appear. In accepting nomination or making application, students agree to publication.

Nominations and applications will be assessed by a selection committee consisting of five academic staff members and chaired by the Associate Vice-President (Academic). The committee will adjudicate entries for their intellectual originality, cogency, facility of expression, and adherence to principles of scientific inquiry and critical thinking.

The value of the prize is \$500 cash or a \$1000 scholarship tenable in a graduate program at Memorial University of Newfoundland. Up to five prizes will be awarded each year. At the discretion of the selection committee, honourable mention may be accorded to entries beyond the available number of prizes.

Rixon Rafter Scholarship Fund

This fund was established in memory of Rixon Rafter, a former student of the Ontario School for the Blind, who became a successful newspaper owner in Ontario. Awards from this fund are intended to supplement, but not replace assistance available to students from existing sources. The amount granted to students from this fund is determined by the Rixon Rafter Scholarship Committee and financial need is taken into consideration. Registered blind students may request assistance from the fund by contacting the nearest Canadian National Institute for the Blind office in their area.

The Rhodes Scholarship

A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholars obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance. Scholars may, however, hold the Scholarship for only 1 year. Those Scholars who elect to read for a D.Phil. at the time of admission may apply for a third year on stipend. The Rhodes Scholar must present a definite plan of study for that period satisfactory to his/her College and to the Rhodes Trustees. A Rhodes Scholar may apply to any one of the courses of study available at the University of Oxford, subject to the consent of the college or, in the case of graduate study, the relevant faculty or department.

The stipend of a Rhodes Scholarship consists of a direct payment to the University and to the Scholar's College of approved fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance, which is paid directly to the Scholar at the rate of at least £3,480 per annum to cover board, lodging and other expenses. The sum provided should be sufficient to enable a Scholar to meet the necessary expenses for term-time and vacations, but those who can afford to supplement it to a modest extent from their own resources are advised to do so. Reasonable travel expenses to and from Oxford will be paid by the Trust. Application forms containing full particulars can be obtained from the Secretary of the Selection Committee for the Province of Newfoundland or from the Scholarships, Bursaries and Awards Office at Memorial University of Newfoundland. Inquiries may be directed to the Secretary of the Selection Committee in writing to Dr. S. Ann Colbourne, 88 Hugh's Pond Road, Portugal Cove-St. Philips, NL, A1M 2C6, or by telephone to (709) 777-5219, or by fax to (709) 777-5849, or by email to acolbourne@nl.rogers.com

Robin Hood Multifoods Scholarship

One scholarship, valued at \$1000.00 for a two-year period, is made available by Robin Hood Multifoods to a student entering first-year university. For students entering Memorial University of Newfoundland, priority will be given to those enrolled in a Nutrition or Biology program. The award will be made on the basis of a candidate's participation in youth activities and priority is given to 4-H members, providing that the candidate meets the necessary academic and financial need requirements. Information and applications are available in writing to The Co-ordinator, Youth Services Division, Confederation Building, St. John's, NL, H3C 1E3.

The G. Allan Roeher Institute Awards

The G. Allan Roeher Institute offers bursaries to graduate students and research grants (up to \$8000 each) to post-graduate students and faculty members or associates, who are interested in the field of mental handicap or related fields. These awards are made possible through the support of the Scottish Rite Charitable Foundation of Canada. Further information and application forms may be obtained in

writing to The Secretary, Bursaries and Grants Adjudicating Committee, G. Allan Roeher Institute, Kinsmen Building, York University, 4700 Keele Street, Downsview, Ontario M3J 1P3.

Wojciech Rogozinski Memorial Scholarship (\$1000)

This award was endowed in 2007 by the donors, Mr. George Tymowski and Mrs. Danuta Tymowski. It is available to any student of Polish origin who demonstrates financial need. One scholarship is awarded each year. In order to be eligible, applicants must have completed two years of studies. The application deadline is December 31. Application forms are available at www.polishheritagefoundation.org/.

Royal Canadian Legion Scholarships

a. Provincial Command Scholarships

Two scholarships, valued at \$750.00 each, are awarded annually to students entering University for the first time who are children of ex-service personnel, or of Life, Ordinary or Associate Voting Members of the Legion. Actual financial need is taken into account in addition to scholastic standing when awards are made.

b. Dominion Command Scholarships

Two scholarships, valued at \$750.00 each, are awarded annually to students in their second, third, or fourth-year of university, who are the children of ex-service personnel, or of Life, Ordinary or Associate Voting members of the Legion. Actual financial need is taken into account in addition to scholastic standing when awards are made. Application forms available in writing to The Newfoundland & Labrador Command, The Royal Canadian Legion, P.O. Box 5745, St. John's, NL, A1C 5X3.

The Robert B. Salter Scholarship in Medicine

This scholarship is awarded annually from income derived from an endowment by Dr. Robert B. Salter, Professor and Head of Orthopedic Surgery at the University of Toronto, who has had a long association with the Grenfell Mission. This scholarship is to be awarded to the third-year undergraduate medical student who best exemplifies the qualities of compassionate and competent patient care. Preference will be given to students born in Newfoundland and Labrador. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

Diana Lemire Savidant Memorial Bursary

Diana Lemire Savidant (1943-1994) was born and raised in Rouyn, Quebec and moved to Prince Edward Island in 1973. Always an avid student, she also gained respect as an art teacher. Applications for the scholarship will be accepted from female residents of Prince County 18 years of age and older. The award will be given to the applicant who displays the most potential for development and that sense of exploration in the visual arts epitomized by Diana Lemire Savidant's own career. Financial need will be an important factor in determining the recipient but not necessarily the only one. Applicants are expected to be pursuing the arts as a career option or serious avocation. Eligible programs include: study in the visual arts at recognized post-secondary institutions; summer schools or professional level courses and advanced workshops and seminars, minimum duration of five days.

The bursary will be awarded in June of each year commencing in 1996 and the amount of the bursary will be determined each year based on the return on the capital fund invested. The award will be presented in the form of a cheque or bank draft payable jointly to the successful applicant and the educational institution. The Awards Committee may vary this rule if it is not applicable. No award will be made with respect to expenses already incurred. Should the program applied for be cancelled or the recipient withdraw or fail to enroll, the funds must be returned to the East Prince Women's Information Centre.

Applicants will be invited in March of each year through public announcements and other means with an application deadline of May 15. All applications must be accompanied by a resume and a full description of the program being pursued. The applicant should include a one page summary of personal background in art achievement and what goals are being pursued by following the study program for which support is being requested. Applicants selected for a finalist interview must be prepared to display a small portfolio of work, preferably in more than one medium. Where the program is more than one year in duration applicants are eligible to re-apply. Applications will be received until May 15 and may be obtained in writing to East Prince Women's Information Centre, 75 Central Street, Summerside, PE C1N 3L2 or by telephone to (902) 436-9856.

Schulich Leader Scholarship

Schulich Leader Scholarships are undergraduate entrance scholarships for students enrolling in the **STEM (Science, Technology, Engineering, Mathematics)** areas of study at 20 selected universities. All Canadian high schools, secondary schools and CEGEPs (in Quebec) may submit one Schulich Leader Nominee each. Schulich Leader Nominees are selected by their schools based on two of three criteria: outstanding community/business leadership, academic excellence and financial need. Once a Schulich Leader Nominee is selected, he/she can apply his/her nomination to the participating universities in Canada where they intend to submit formal applications for undergraduate study. All participating universities are responsible for making the final selection of their Schulich Leaders for their respective institution. In 2012, a maximum of 40 Canadian Schulich Leaders will be selected; in 2013 and thereafter there will be 60 Canadian Schulich Leaders. Each entrance scholarship is valued at \$60,000 CAD and will be indexed to inflation. The scholarship is distributed during each Schulich Leader's term of undergraduate study. The granting of scholarships will start with the academic year commencing in Fall 2012.

The Society of United Fishermen Memorial Scholarships

There shall be awarded annually by this Society two scholarships of a combined value of \$600.00. These scholarships are awarded to children of members or deceased members of the Society. The scholarships are tenable at Memorial University of Newfoundland or any other institution of learning at which the student might wish to continue his or her studies in the year following graduation from high school. Further information and application forms may be obtained in writing to The Grand Secretary, Society of United Fishermen, P.O. Box 1434, St. John's, NL. The deadline date for application is July 1st.

The St. John Ambulance Bursary

This bursary of \$1,000.00 is awarded to a student who is eligible for admission to a Bachelor's Program at a recognized University or Community College. Post-basic nurse applicants are required to be members of their Provincial/Territorial Nurses' Association and hold current registration or a Certificate of Competence. All applicants must have a St. John Ambulance Affiliation and must demonstrate financial need. The application deadline is March 15. Further information and applications forms is available in writing from St. John Ambulance Provincial Council or in writing to St. John Ambulance National Headquarters, 312 Laurier Ave. E., Ottawa, Ontario K1N 6P6 or by contacting Jean Wills, Deputy Director of Training Health Care by telephone to (613) 236-7461 or by fax to (613) 236-2425.

The Surgery Prize in Anatomy

This prize, valued at \$500.00, is awarded annually to a first-year student who has demonstrated a high proficiency in Anatomy, particularly in the practical field. Nomination of a candidate is made by the Professors of Anatomy and the Professor & Chairman of Surgery. The award is made by the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

The Patrick Tasker Masonic Educational Fund

This fund was established to provide financial assistance for the education of children of deceased, incapacitated and/or needy Masons who were or are members of participating Masonic Lodges in Newfoundland. The fund provides a limited number of scholarships (up to a value of \$800.00), payment of tuition fees for first-year students, and interest-free loans. In addition to the above, four entrance

scholarships of \$500.00 each are available to the dependants of any eligible member of the Masonic Fraternity within the province of Newfoundland and Labrador. These scholarships are awarded on the basis of academic achievement in Grade XII and are tenable at Memorial University of Newfoundland or at any other approved post-secondary institution in the province. Further information and applications forms is available in writing from The Patrick Tasker Masonic, Education Fund, P.O. Box 5481, St. John's, NL, A1C 5W4, ATTN: The Secretary.

Waterford Hospital Board of Management Scholarships

The Waterford Hospital Board of Management annually awards two scholarships, valued at \$500.00 each and tenable at Memorial University of Newfoundland, to children of employees of the Hospital. The awards are made on the recommendation of a Selection Committee especially appointed by the Board for that purpose. One of the scholarships is to be awarded to a female and the other to a male. Generally they are to be awarded to students who are entering the University for the first time. In the absence of suitable entrance applicants, the scholarships may be re-awarded or awarded to other children of employees who are beyond first year. In selecting suitable applicants academic standing as well as financial need will be taken into account. Applications for the scholarships may be obtained from the Administrator of the Hospital and must be completed and returned to that office by May 1st of any year.

The Western Memorial Regional Hospital Scholarship

This scholarship of \$500 is derived from interest on funds invested by the Medical Staff of the Western Memorial Regional Hospital and is awarded annually to a student who is entering the third year of medical studies at Memorial University of Newfoundland. The recipient shall be a bona fide resident of that area served by the Western Memorial Regional Hospital and shall have high academic standing. The scholarship is awarded by the Medical Staff of Western Memorial Regional Hospital in consultation with the Dean of Medicine. Applications should be made in July of each year to The Chief of Staff, Western Memorial Regional Hospital, P.O. Box 2005, Corner Brook, NL, A2H 6J7.

The Jacques Whitford Student Incentive Program

The student incentive program will provide a four month paid position with a \$2,000 award at the end of the work period. Both co-op work terms and summer positions will be considered. To be eligible candidates must be: full-time students with at least 50% of their credits achieved, have an 80% average, be fluent in English for all offices and fluent in French for the Montreal office, be legally entitled to work in the country to which they are making application and have excellent communication skills. Application forms for Memorial University of Newfoundland students are available from and should be returned to the office of the Associate Dean, Faculty of Engineering and Applied Science or the Faculty of Science. Applications must include: resume, official university transcript and a one page letter outlining candidate's aspirations. Deadline for application is January 31.

The Margaret Williams Trust Fund

This fund was established to promote the development of librarianship in Newfoundland and Labrador by providing funds for scholarships, research, special projects and work exchange opportunities. The value of awards will depend upon the annual interest earned on the fund. Further information and applications forms is available in writing from Chairman, Board of Trustees, Margaret Williams Trust Fund, Queen Elizabeth II Library, Memorial University of Newfoundland, St. John's, NL, A1B 3Y1.

Work Term Scholarships & Awards in Engineering

1. **W.W. Cossitt** - This award is intended for the Senior Engineering Student (Work Term 4, 5, & 6) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) once per semester and has a monetary value of \$500. PEGNL issues the final award on the recommendation by the Dean, Faculty of Engineering and Applied Science and the Division of Co-operative Education. The Division's recommendation is based upon: a) Supervisor nomination; b) Student work performance; c) Student work report; d) Student academic standing (must be scholarship standing).
2. **PEGNL Eastern Chapter** - This award is intended for the Junior Engineering Student (Work Term 1, 2, & 3) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) Eastern Chapter once per semester and has a monetary value of \$200. PEGNL, Eastern Chapter issues the final award on the recommendation by the Dean, Faculty of Engineering and Applied Science and the Division of Co-operative Education. The Division's recommendation is based upon: a) Supervisor nomination; b) Student work performance; c) Student work report; d) Student academic standing (must be scholarship standing).

10 Loan Funds

Maude Abbott Memorial Scholarship Loan Fund

This fund was established by the Federation of Medical Women of Canada. Small loans are available to any woman medical student or first-year intern. In special cases a loan of up to \$1000.00 may be granted to a medical woman for recognized post-graduate training. Loans are repayable within five years of date of issue, after which time interest will be charged at the rate of 5% compounded annually. Information regarding these loans may be obtained in writing to Secretariat, Federation of Medical Women of Canada, P.O. Box 8244, Ottawa, Ontario K1G 3H7.

The Association of Professional Engineers of Newfoundland Loan Fund

Established by the Association of Professional Engineers of Newfoundland for Engineering students during their time at this University. Apply to the Dean of Engineering and Applied Science, Memorial University of Newfoundland.

The Breezeway Emergency Trust Fund

In May, 1984, the Board of Directors of the Breezeway Bar gave to the University a sum of money, to be used as an emergency loan/bursary fund for needy undergraduate students. The Fund is administered by the Director, Student Support Programs through the Manager, Scholarships, Bursaries and Awards, and within guidelines already developed by the office for awards to financially needy students. These awards will not normally exceed \$300.00.

Canada Student Loans Program Newfoundland and Labrador Student Loans Program

The Government of Canada and the Government of Newfoundland and Labrador work together to provide student financial assistance to residents of the province. Students who have a demonstrated financial need may, upon application, may receive financial support from the Canada-Newfoundland and Labrador Student Financial Assistance Program. Students are encouraged to apply online at www.ed.gov.nl.ca/studentaid/ and to apply early.

Your eligibility to receive assistance will be determined by assessing your financial need. This is done by adding the costs of your education and living expenses, and then subtracting any money that may be available to you. This determines your assessed financial need - the amount of funding for which you may be eligible. The formula is: Costs - Available Resources = Assessed Need.

The provincial government provides funding for 40% of the amount assessed to a maximum total of \$140 per week of study; the federal government provides funding for 60% of the amount assessed to a maximum of \$210 per week of study (in some cases, eligible recipients of Canada Student Loans and Canada Student Grants may receive greater than \$210 per week of study in total federal assistance).

Receiving A Student Loan

- a. Step 1: Once you are approved to receive assistance, you will be sent a Master Student Financial Assistance Agreement (MSFAA). This agreement must be signed and sent to the National Student Loans Service Centre (NSLSC) and include all supporting documents.

Completing and Submitting the Master Student Financial Assistance Agreement (MSFAA):

Step 1 - Read the MSFAA!

Step 2 - Complete the required sections.

Step 3 - Take your MSFAA to a designated Canada Post outlet along with the following (for a list of designated Canada Post outlets, visit: www.CanLearn.ca):

1. Your Social Insurance Number card or a copy of your Canada Revenue Agency Notice of Tax Assessment;
 2. Official government issued photo identification; and
 3. A void cheque (if you do not have a cheque, your bank or credit union can help you complete the Electronic Funds Transfer section of the MSFAA).
- b. Step 2: Once NSLSC receives your MSFAA your educational institution must confirm your enrolment.
- c. Step 3: Once full-time enrolment has been confirmed, but no earlier than the first day of classes, eligible financial assistance will be deposited to your bank account. If you do not have a bank account, a cheque made payable to you will be mailed to the address you provide. All or a part of your financial assistance may be sent to your educational institution to pay fees owing. You will receive a letter from the NSLSC advising you of the amount of your disbursement that has been issued to you and/or your Educational Institution. You can also visit the NSLSC website at :www.CanLearn.ca for further information.

The disbursement to you and/or your institution may not occur simultaneously due to a difference between the federal and provincial deposit dates.

For more information on the Canada-Newfoundland and Labrador Student Financial Assistance program please visit online at www.ed.gov.nl.ca/studentaid/; in-person at Coughlan College on the St. John's Campus; by e-mail to studentaid@gov.nl.ca; by telephone to 1-888-657-0800 (toll-free) or (709)729-5849.

Canadian Forces Personnel Assistance Fund
Education Assistance Loan Program

1. The Canadian Forces Personnel Assistance Fund offers an Education Assistance Loan Program to assist serving and former members and their dependants with costs of full-time postsecondary education. This program consists of low interest loans of \$1,200 and \$1,500, then in \$500 increments up to a maximum of \$4,000 per student, per year, up to a maximum of \$16,000 lifetime per student. It should be noted that a period of 12 months must elapse before a new application can be considered.
2. Serving or former members are eligible to apply; they must have served in the Canadian Army, after 1st October 1946, or in the Canadian Forces, after 31 January 1968, and have a minimum of one year Regular Force military service. Selection may be based on family income, years of service and individual family circumstances.
3. Loans are repaid by the member over a twelve, twenty-four, thirty-six or forty-eight month period.
4. Application forms are available on our website at sisip.com/en/Downloads_e/ealp_e.asp, or from the Canadian Forces Base Financial Counsellors, district offices of Veterans Affairs Canada, and the Provincial Command offices of the Royal Canadian Legion. They may also be obtained by contacting the CFPAF office at 234 Laurier Avenue West, Ottawa, Ontario, K1P 6K6, telephone 6137603447 or toll free 8887539828.
5. For those who wish to obtain their loan in time for the semester beginning in September, your submission should arrive at CFPAF by 30 June. Otherwise, applications will be accepted throughout the year until the funds allotted for the EALP are exhausted.

The Gerald S. Doyle Engineering Scholarship Loan Fund

By the generosity of the late G.S. Doyle, Esq., O.B.E., there are a number of scholarship loans available each year to Engineering students. The loans are normally in the amount of \$500.00 per year, but may, when circumstances warrant, extend up to \$1,000.00 per year. The loans are made by the Dean of Students Affairs and Services on the recommendation of the Dean of Engineering and Applied Science. These loans may be granted for three successive years and are repayable at convenient times before graduation. Applications are available from the Office of the Associate Dean of Engineering and Applied Science.

Helen M. Lodge Loan Fund

The bequest of the late Professor Helen M. Lodge, formerly Professor of Education at this University.

F.W. Rowe Student Loan Fund

Based on royalties from Dr. Rowe's book, *The Development of Education in Newfoundland*. At the author's suggestion, priority is to be given to the children of active, retired or deceased teachers.

11 Scholarships, Bursaries and Awards Available to Graduate Students

11.1 Awards Administered By the School of Graduate Studies

Information on all graduate awards listed below can be obtained from the Dean of Graduate Studies.

Affinity NL (Ottawa) Scholarship

This scholarship is made possible by the fund raising efforts of the Ottawa Affinity Newfoundland and Labrador group and is valued at a portion of the income on the investment according to Memorial University of Newfoundland's Awards Program Spending Policy. Based on scholarship standing (academic excellence), it will be awarded in an alternating fashion to a first year undergraduate student (entering their second year) and then a first-year graduate student (entering the first year of either a Master's or Ph.D. program). The student must be from a rural community in Newfoundland and Labrador, express an interest in returning to work in rural Newfoundland, and be registered for full-time studies at Memorial University of Newfoundland. Rural is defined as outside St. John's and Corner Brook as determined by the Centre for Institutional Analysis and Planning, or an equivalent University or Government body. When awarded to an undergraduate student, the Scholarship will be awarded by the Senate Committee on Undergraduate Scholarship, Bursaries and Awards. When awarded to a graduate student, it will be awarded by the Dean of Graduate Studies upon the recommendation of the Awards and Medals Committee.

The Hira & Kamal Ahuja International Graduate Fellowship

The Hira & Kamal Ahuja International Graduate Fellowship, valued at a portion of the income on the endowment, has been established

by Hira Ahuja, a former faculty member in the Faculty of Engineering and Applied Science. The Fellowship will be awarded to three full-time international graduate students enrolled in the thesis-based program in the Faculty of Engineering and Applied Science. The fellowship will be awarded on the basis of academic excellence. Preference will be given to students who have served the East Indian community in Canada, through volunteer work. The Fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Engineering and Applied Science.

F.A. Aldrich Graduate Award

The F.A. Aldrich Graduate Award has been established in memory of the first Dean of Graduate Studies at Memorial University of Newfoundland. Up to three annual awards of \$2,000.00 may be made. Awards will be made by the Dean of Graduate Studies to alumni of Memorial University of Newfoundland who are in the first year of a full-time graduate program and will be based on academic merit, and need only if all other things are equal. If the application is based on need, please make a case.

Athletics Northeast (ANE) Running Club Award for Varsity Cross Country

This award was created by Avalon Northeast (ANE) Running Club, which is a community minded club made up of runners of all ages who embrace the concept of serious running as a way to enjoy an active and healthy lifestyle and to enhance their quality of life. The recipients will be one male and one female student, who are members of the cross-country team at Memorial University of Newfoundland and who are in clear academic standing. The recipient will have demonstrated leadership, commitment and dedication to the cross country program while endeavouring to maximize his/her running potential. For undergraduate students, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Athletics, School of Human Kinetics and Recreation. In the event a graduate student is the recommended recipient, it will be awarded by the School of Graduate Studies on the recommendation of the Director of Athletics.

The Atreya-Haritha Scholarship in Mathematics

This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at \$1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

The William H. and Bertha Baird Memorial Scholarship

This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Edna Baird-Stephenson in memory of her parents. It will be awarded to a full time graduate student at either the Master's or doctoral level. Eligible candidates should be residents of the province, or should have been resident in the province for at least three years prior to entering the program, excluding time spent at post secondary institutions. The award, based on academic excellence, will be made by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee.

The Barrowman Biochemistry Graduate Travel Awards

These awards are established by the generous donations of family and friends of the late Dr. Jim Barrowman to honor his contributions to research and graduate students at Memorial University of Newfoundland. Dr. James Barrowman was recruited to Memorial University of Newfoundland in 1975 as associate professor of gastroenterology and gastrointestinal physiology, was promoted to professor in 1979 and, in 1981, took on the role of the first assistant dean for Research and Graduate Studies (Medicine). The income from this endowment will be used to provide a number of awards to graduate students registered in the Department of Biochemistry, so that they may present their research at relevant scientific conferences. Preference will be given to full-time students, but part-time students will also be considered. The awards will be made by the Dean of Graduate Studies upon the recommendation of the Head, Department of Biochemistry.

The Barrowman Community Health Graduate Travel Awards

These awards are established by the generous donations of family and friends of the late Dr. Jim Barrowman to honor his contributions to research and graduate students at Memorial University of Newfoundland. Dr. James Barrowman was recruited to Memorial University of Newfoundland in 1975 as associate professor of gastroenterology and gastrointestinal physiology, was promoted to professor in 1979 and, in 1981, took on the role of the first assistant dean for Research and Graduate Studies (Medicine). The income from this endowment will be used to provide a number of awards to graduate students pursuing a research program in the Division of Community Health and Humanities, so that they may present their research at relevant scientific conferences. Recipients will have demonstrated high academic standing and research potential. The awards will be made by the Dean of Graduate Studies upon the recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Medicine.

The George and Mary Behm Award

The George and Mary Behm Award, established by Dr. David Behm, is valued at \$500. It will be awarded annually to a full-time graduate student enrolled in the Masters of Kinesiology program who has the highest average in the first four master's courses of the M.Sc. Kinesiology program. The award will be made by the Dean of the School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

The Big Ben's Graduate Scholarship in Archaeology

This scholarship is funded through a generous annual contribution by Big Ben's to honor the amity and patronage of graduate students in Archaeology over the years. This scholarship is awarded annually to a full-time student enrolled in graduate studies in Archaeology. Candidates must be in the first two years of the Master's program or the first four years of the Doctoral program and must have at least scholarship standing. The award will be based on academic merit, with preference given to recipients with demonstrated leadership and public-spirited service to Memorial University of Newfoundland's graduate program in Archaeology. It will be awarded by the Dean, School of Graduate Studies based upon recommendation of the Head, Department of Archaeology.

The Dean M. Ian Bowmer Graduate Travel Award in Medicine

This award is made possible through the generous contribution of funds by Dr. M. Ian Bowmer, former Dean of the Faculty of Medicine at Memorial University of Newfoundland, as well as contributions by faculty and staff, to endow a graduate travel award in his name. This endowment will provide an annual award, valued at a portion of the income from the endowment, to a full-time graduate student pursuing a research program at the Masters or Doctoral level in the Faculty of Medicine, assisting the presentation of the student's research at a conference. The award will be competitive and based on an abstract or paper to be presented at the meeting. The award will be made by the Dean of Graduate Studies on the recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Medicine. Application forms are available from, and should be submitted to, the Faculty of Medicine, Office of Research and Graduate Studies.

The Dr. Joe Brown Graduate Research Award in Aquatic Ecology and Aquaculture

This award was established to commemorate the life and work of Dr. Joe Brown through initial contributions by his family, friends, colleagues and students. As a Professor (Research) at the Ocean Sciences Centre from 1984 to 2005, Joe established a unique reputation both for his scholarly work in the areas of behavioural ecology of fishes and cold-water aquaculture and for his radiant,

passionate sense of humour, humanity and empathy, particularly concerning students. The award in support of research activities will be normally available annually to a full-time graduate student in the second or subsequent year of study in the areas of aquatic ecology or aquaculture, and is valued at a portion of the income from the endowment. Given on the basis of scholarly merit and quality of research, the award will be made by the Dean of the School of Graduate Studies upon recommendation from the Director of the Ocean Sciences Centre.

The David Buchan Graduate Research Award in Folklore

The Research Award is established in memory of Dr. David Buchan, a leading international ballad scholar, faculty member in the Department of Folklore from 1979 to 1994, and the first Memorial University of Newfoundland Research Professor. Administered by the School of Graduate Studies, two awards of \$500 will normally be given each year to fund costs related to national/international travel for the accomplishment of, or the presentation of, folklore research by students in the graduate program in folklore at Memorial University of Newfoundland. The awards, given on the basis of scholarly merit combined with the quality of a research proposal or conference paper abstract, will be made by the Dean of the School of Graduate Studies upon recommendation from the Head of the Department of Folklore, who will be advised by the Department of Folklore's Scholarships, Bursaries and Awards Committee.

Buchans Scholarship Fund of ASARCO Incorporated

ASARCO Incorporated has established a scholarship fund, the annual interest on which will provide for students enrolled in the Department of Earth Sciences, Memorial University of Newfoundland, either a scholarship for post-graduate study and research, valued at \$5000.00; or two scholarships for undergraduate study, valued at \$500.00 each. The latter scholarships will be available only when no suitable candidate can be found for the former. In order to qualify for these awards, students must be native-born Newfoundlanders or graduates of Newfoundland high schools. In the case of the graduate scholarship, the award will be made by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences; in the case of the undergraduate scholarships, by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences. Should no candidates be available in any year, the awards may be held over.

The Maurice J. Burke Memorial Scholarship

This scholarship, valued at a portion of income on the investment, was established by the family of the late Maurice Burke. Mr. Burke served in the Provincial Department of Education in the Teacher Certification Division for thirty-five years. He was also a columnist and author with a personal and professional interest in Newfoundland culture and folklore celebrating the uniqueness of Newfoundland outport life. It will be awarded alternately to a full-time graduate or undergraduate student in the Department of Folklore on the basis of scholarship standing. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases the scholarship will be awarded on the basis of a recommendation from the Head, Department of Folklore.

The Dr. Alfred T.H. Burness Graduate Award in Medicine

The award is established by the generous donations of family and friends of the late Dr. Alf Burness to commemorate the thoughtful and patient graduate supervision and kindness provided by Dr. Burness (Division of Basic Sciences, Medicine 1976 – 1991) to graduate students in the Faculty of Medicine. The award is intended to encourage graduate students to produce work of outstanding quality.

The award will be given annually to a full-time graduate student pursuing a research program at the Masters level in the Faculty of Medicine who has successfully completed three semesters of the program. Selection will be based on course work, research, and other related accomplishments. Candidates must apply in writing, including a statement of eligibility as well as details of their area of research and progress, i.e. publications, presentations, other awards, etc. Each application must be supported by a reference from the candidate's supervisor verifying the candidate's area of research and progress to date. Applications should be submitted to, the Faculty of Medicine, Office of Research and Graduate Studies.

The award will be made by the Dean of Graduate Studies on the recommendation of a Committee including the Assistant Dean, Research and Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

Faculty of Business Administration Associates Scholarship Fund

This fund was established through the contributions of members of the Associates' Program of the Faculty of Business Administration. The fund will provide scholarships for undergraduate and graduate students in the Faculty. Awards will be made on the basis of academic standing but such factors as financial need and contribution to the Faculty may be taken into account. In the case of the undergraduate program, scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration. In the case of the graduate program, the scholarships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

The Greg Campbell Memorial Business Scholarship

This scholarship is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one award to a full-time graduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this scholarship must have scholarship standing and a demonstrated record of active community involvement, volunteer work and/or service in the faculty/University. If there are no suitable candidates in this category, the scholarship may be awarded to a candidate on the basis of academic standing. The scholarship will be awarded by the Committee on Graduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Graduate Studies.

Canadian College of Teachers Scholarship

This scholarship, valued at \$1,000.00, is sponsored by the Cabot Chapter of the Canadian College of Teachers and is awarded annually to a full-time graduate student in the Faculty of Education for outstanding research. The award is made on the basis of application by a student or nomination by the student's supervisor. The application or nomination may take the form of a thesis or project proposal, but preferably be supported by an explanation of why the work involved is particularly meritorious. Applications should be forwarded to the office of the Associate Dean of Graduate Programs and Research, Faculty of Education. The scholarship will be awarded by the Dean, School of Graduate Studies, upon recommendation of the Dean, Faculty of Education.

The CFUW Edith Creighton Scholarship

This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John's and is named after Edith Creighton (1892-1994); the first president of CFUW St. John's when it was formed in 1945. One scholarship, valued at \$2000, may be awarded annually, to a woman enrolled full-time in the Masters or Doctoral program in the Faculty of Education. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Education.

CFUW St. John's Scholarship for Women's Studies

This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John's. One scholarship, valued at \$2000, may be awarded annually, to a woman enrolled full-time in the Master's program in the Department of Women's Studies. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Head, Department of Women's Studies.

The Dr. Jack Clark Graduate Award

This award was established in memory of Dr. Jack Clark who served as President and Chief Executive Officer of C-CORE from 1984 to 1997. The award will be valued at a portion of the income on the endowment and will be awarded annually. The award is available to any full-time graduate level student in the Faculty of Engineering and Applied Science who meets the minimum academic requirements for an award as defined by the University. Eligibility will be based on academic standing with preference given to those who have demonstrated financial need by presenting a case with their application. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

Community Health Master's and Doctoral Student Awards

These graduate student awards are established by the Division of Community Health and Humanities in recognition that many students who wish to be full-time students in Community Health Programs are unable to do so because they do not have sufficient graduate student funding to meet the full-time criteria as required by the Office of Research and Graduate Studies, Faculty of Medicine. One masters and one doctoral research scholarship may be given annually to incoming thesis graduate students with a declared interest in pursuing full-time studies who do not have adequate funding (by way of scholarship, fellowship or faculty research money) to qualify for full-time status. These funds may be used alone or in conjunction with other student awards or partial supervisory funding to meet the full-time funding requirement of the Office of Research and Graduate Studies (Medicine). During the year of the award, it is expected that the student and supervisor will seek external funding to support the research program. Normally a student will be eligible to receive the scholarship only once her or his program. If a suitable candidate is not identified in one degree category, two research scholarships may be awarded in the same degree program or to a student in good standing in the second or subsequent year of his or her program. There will be one competition per year, coinciding with the Winter semester selections process. All incoming candidates accepted for M.Sc. and Ph.D. programs in the Division of Community Health and Humanities will be considered for the awards in accordance with the terms and conditions described above. The graduate program committee of CHH will make recommendations to Research and Graduate Studies (Medicine). The awards are made by the Dean of Graduate Studies on the recommendation of the Assistant Dean of Graduate Studies (Medicine).

The Rob Crosbie Scholarship for International Study

This fund was established from contributions to the University's *Opportunity Fund* Campaign by Mr. Rob Crosbie. The scholarship, valued at \$1,250.00 annually, will support a Business student (graduate or undergraduate) who is on an academic international exchange and who has shown interest in pursuing a career in the oil and gas industry. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

The Sally Davis Scholarship

The Sally Davis Scholarship has been established to celebrate the memory and life work of Sally Davis. Contributions to the scholarship fund have come from family and friends who were so lovingly and generously influenced by Sally during her long life. The scholarship, valued at \$1000.00, will be awarded annually in the Spring Semester. Eligible candidates must be full-time students in the Master of Gender Studies program. Preference will be given to a candidate studying in one of the following areas: peace and international understanding, literacy, children, labour movement, gun control, or environment. If there is no qualified graduate applicant in a particular year, the award may be offered to an undergraduate (who is registered in a minor in Gender Studies who is in financial need. An individual may receive the award twice but no more. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Co-ordinator, Gender Studies Program. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Co-ordinator, Gender Studies Program.

The Department of Archaeology Scholarship

This scholarship, which is made possible by the Newfoundland Marine Archaeology Society, will be awarded annually to a full-time master's student, who is in his/her second year of study in the area of Archaeology. Valued at \$1,000.00 this scholarship will be awarded by the Dean of Graduate Studies based on a recommendation from the Head, Department of Archaeology on the basis of academic standing.

The Ernst R. Deutsch Memorial Scholarship in Geophysics

This scholarship is named in honour of Dr. Deutsch, a long-time faculty member at Memorial University of Newfoundland who passed away in 2000. Valued at a portion of the income on the investment the scholarship will be awarded annually to a senior undergraduate student in the Earth Sciences (or related field of Physics) whose concentration is Geophysics. If there is no qualified undergraduate student, the scholarship will be awarded to a full-time graduate student in Earth Sciences who has received an undergraduate degree from Memorial University of Newfoundland and whose area of concentration is Geophysics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences in the case of an undergraduate student; in the case of a Graduate Student it will be awarded by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences.

The Ruby Dewling Memorial Award in Nursing

This award has been created in memory of Ruby Dewling, a respected faculty member in the Memorial University of Newfoundland School of Nursing. Ms. Dewling taught in all areas of the program as a clinical instructor. She started her career by earning a diploma in Nursing from the General Hospital School of Nursing and then completing the post-RN diploma in clinical supervision from the University of Toronto. A lifelong learner, Ms. Dewling, went on to earn a B.Sc. from Mount St. Vincent and an M.Sc. (Medicine) from Memorial University of Newfoundland. She remained deeply involved with nursing education throughout her life and serves as an exemplary model for the nursing profession. The award, valued at a portion of the income from the endowment, will be presented annually to a graduate student in the School of Nursing who is completing research in, or who has a passion for, community health and who meets the minimum academic requirements for an award. Preference will be given to a full-time student. The award will be awarded by the Dean of Graduate Studies upon the recommendation of the Director of the School of Nursing.

The Dr. David Dibbon Leadership Scholar Award

The David Dibbon Award, valued at \$10,000 (\$5000 per year for two years), has been established by his family, friends, colleagues and students to commemorate the life and work of Dr. David Dibbon, Dean of the Faculty of Education, 2008-2010. David was committed to research focused on improving schools and school systems in Newfoundland and Labrador and elsewhere. He had great dreams of what public education could be. He was passionate about enabling schools to become better places for students to learn and for teachers to work. He was a transformational leader and change agent committed to collaborative partnerships and teamwork. He had a gift of innovative thinking, a visionary spirit, and the tenacious patience required to successfully lead meaningful educational reform. It will be awarded in alternating years to a doctoral student in educational administration who holds Dr. Dibbons ideals and has been accepted into Ph. D. studies in the Faculty of Education. \$5000 will be awarded in year one, when the student begins full-time studies. The second \$5000 will be awarded after successful completion of the oral comprehensive examination. The recipient will be as "The David Dibbon Leadership Scholar" and will be expected to share his or her research findings with practitioners. The award will be made by the Dean of Graduate Studies upon the recommendation of the Dean of Education.

Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland

This scholarship has been established by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University of Newfoundland's Faculty of Business Administration's M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland's M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Grenfell Campus, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Principal of Grenfell Campus. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Eaton Foundation Scholarship

This scholarship, valued at \$1,500.00, is to be awarded to a student who has left full-time employment of five years or more to enter full-time studies in the MBA program, for completion or near completion of the degree. Selection of the candidate for the scholarship will be made on the basis of academic merit and financial need. Awards will be made on the recommendation of the Dean, Faculty of Business Administration, and the Dean of Graduate Studies. Preference will be given to Canadian citizens and permanent residents.

The Echos du Monde Classique/Classical Views Internship Fund

This fund jointly sponsored by the journal *Echos du Monde Classique/Classical Views* and the School of Graduate Studies, was established to support a full-time graduate student in Classics to train as an editorial intern with EMC/CV. It is awarded on the basis of academic standing to a full-time graduate student entering the Department of Classics and is valued at \$10,000.00 per annum, paid over a period of three successive academic semesters. It may be renewed for one additional year. The internship will be awarded by the Dean of Graduate Studies on the recommendation of the editors of *Echos du Monde Classique/Classical Views*.

Ethnomusicology Award for Field Research

This fund has been established by Beverley Diamond and Clifford Crawley to advance research in ethnomusicology in Canada on the occasion of the beginning of graduate studies in the field at Memorial University of Newfoundland. One or more awards, valued at a portion of the income on the investment, will be awarded annually to full-time graduate ethnomusicology students in clear academic standing who wish to pursue field research. Selection will be made on the basis of a submitted research proposal. Application forms and guidelines are available from and should be submitted to the School of Music. The deadline date for submissions of applications to the Chair of the Interdisciplinary Advisory Committee for Ethnomusicology is March 31. If there are no suitable candidates in a given year the awards will not be awarded. The awards will be awarded by the Dean, School of Graduate Studies on the recommendation of the School of Music's Scholarships and Awards Committee in consultation with the Interdisciplinary Advisory Committee for Ethnomusicology.

The Faculty of Business Administration Aboriginal Scholarship

A scholarship valued at \$500 will be awarded to an Aboriginal resident of Newfoundland and Labrador in the Faculty of Business Administration. Eligible students must be in scholarship standing, be enrolled as a full-time undergraduate or graduate student in the Faculty of Business Administration at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Business Administration.

The Faculty of Business Administration Jacinta Sheppard Fellowship

This fellowship, made possible through a donation by the Faculty of Business Administration, is in honour of Jacinta Sheppard, an MBA student who passed away in 1997 after a lengthy illness. While in the MBA program, Ms. Sheppard demonstrated academic excellence and a dedication to learning. This fellowship has a value of \$1,000.00 annually, and will recognize a full-time student who, in the opinion of a Selection Committee, Faculty of Business Administration, has demonstrated these same qualities. The award will be made by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

The Dr. Alex Faseruk MBA Scholarship for Excellence in Service

The Dr. Alex Faseruk MBA Scholarship for Excellence in Service will be awarded annually to a full-time MBA student of scholarship standing who has demonstrated outstanding service through participation in student, faculty or university activities and/or contribution to the larger community. This award is in recognition of Dr. Faseruk's contribution to the Faculty of Business Administration as Professor of Finance and Coach of MBA case competition teams. The value of this scholarship will be determined by the annual income derived from the endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Associate Dean, Academic Programs, Faculty of Business Administration.

The J. Bruce and Helen H. French Graduate Scholarship in Physics

This scholarship valued at the annual accrued interest on an initial endowment, will be awarded to a female student at any level of a graduate program in physics on the basis of excellence in both course work and research. If, in a particular year, a qualified female student is not available, the scholarship may be awarded to a male student who meets the other conditions. The scholarship will be awarded by the Dean of Graduate Studies upon the recommendation of the Head, Department of Physics.

The Fry Family Foundation MBA Leadership Scholarships

The Fry Family Foundation M.B.A. Leadership Scholarships, valued at \$2500 each will be awarded annually to full-time students in the M.B.A. program at Memorial University of Newfoundland. The awards will be given on the basis of academic excellence and leadership, and preference will be given to residents of Newfoundland and Labrador. The recipients of these scholarship should demonstrate a good interest in, and a strong commitment to, Newfoundland and Labrador. The scholarships will be awarded by the Dean, School of Graduate Studies, upon the recommendation of the Dean, Faculty of Business Administration.

The P.J. Gardiner Award for Small Business and Entrepreneurship

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial University of Newfoundland's School of Business and a local entrepreneur. This award is valued at \$5,000.00 annually and will recognize student creativity, innovation and entrepreneurship as evidenced by a student's genuine interest in small business and entrepreneurship through the establishment or the intention to establish a new venture. Students in any program of study (graduate or undergraduate) are eligible. To apply for the P. J. Gardiner Award, students are to provide a written report or plan describing their venture. Award finalists will then be asked to make an oral presentation to the Award Selection Committee. The Award Selection Committee will consist of faculty members from the Faculty of Business Administration and the business community at large. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of this panel. In the case of graduate students the awards will be made by the Dean, School of Graduate Studies upon the recommendation of the Committee on Graduate Studies of the Faculty of Business Administration.

The Peter Gardiner Award for International Study

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial's School of Business. Interest from the fund will provide or two annual awards of \$2,500.00 each to support Business students (graduate and/or undergraduate) to study at Memorial University of Newfoundland's Harlow Campus or at another university outside Canada. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, the awards will be made by the Dean of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

Graduate Students' Union Award for Academic Excellence

The award, valued at a portion of the income from the endowment, has been established by the Graduate Students' Union (GSU) of Memorial University of Newfoundland to provide financial assistance and recognize outstanding contributions by graduate students. The GSU Award for Academic Excellence will be awarded annually to a full-time graduate student in any discipline at either the masters or doctoral level. Applicants must have a strong academic record, and have made significant contributions to their field of study. The Award, based on financial need and academic excellence, will be made by the Dean of the School of Graduate Studies on the recommendation of the Awards and Medals Committee.

Graduate Students' Union Award for Leadership

The award valued at a portion of the income from the endowment, has been established by the Graduate Students' Union (GSU) of Memorial University of Newfoundland to provide financial assistance and recognize outstanding contributions by graduate students. The GSU Award for Leadership will be awarded annually to a full-time graduate student in any discipline at either the masters or doctoral level. Applicants must have demonstrated leadership ability, either through participation in student and university activities, and/or contribution to the larger community. The Award, based on financial need and outstanding leadership, will be made by the Dean of the School of Graduate Studies on the recommendation of the Awards and Medals Committee.

The Keith Griffiths Memorial Heart and Stroke Foundation Graduate Scholarship

This scholarship, established through a generous contribution by the Griffiths family, in partnership with the Heart and Stroke Foundation of Newfoundland and Labrador, is valued at \$1000 per annum. The Griffiths family has established this scholarship in memory of their father, Keith Griffiths, a stroke survivor and dedicated volunteer. The scholarship will be awarded to a full-time graduate level student in the Faculty of Medicine, who is pursuing a research program in stroke and neurological issues related to stroke. Candidates must apply in writing, providing a statement of eligibility, as well as details of their area of research, and progress. The award will be made by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Mary A. Griffiths Memorial Bursary Fund for Folklore Field Research (Graduate)

This fund has been established by the Memorial University of Newfoundland Folklore Society in memory of Mary A. Griffiths, B.A. (Folklore). One of more bursaries valued at a minimum of \$250.00 each will be awarded annually to graduate Folklore students who wish to pursue field research. The awards will be made by the Dean of Graduate Studies on the recommendation of the Head of the Department of Folklore. Selection will be made on the basis of a submitted research proposal as well as demonstrated financial need. Application forms and guidelines are available from and should be submitted to the Folklore Department. Deadline date for submission of applications is January 31. If there are no suitable candidates in a given year the bursaries will not be awarded.

The Professor Elmer Harp Jr. Legacy Collection's Award

Dr. Elmer Harp Jr. was one of Newfoundland and Labrador's pioneer archaeologists. He conducted influential research on the Northern Peninsula and the Strait of Belle Isle, with a primary focus on Port au Choix. This award is given annually to a full-time student enrolled in graduate studies in Archaeology at Memorial University of Newfoundland. Preference will be given to candidates conducting thesis research using Dr. Harp's legacy artifact collections from Port au Choix. It will be awarded by the Dean of Graduate Studies based upon the recommendations of the Head, Department of Archaeology.

The Michael Harrington Research Prize in Newfoundland History

This award was established by the family of Michael Francis Harrington Sr., journalist, author and Newfoundland historian. The prize is valued at a minimum of \$500.00 and will be awarded annually to an undergraduate or graduate student doing research in Newfoundland history. To be considered, undergraduate students must be history majors planning to do research for a course in Newfoundland history or towards an honours thesis. Graduate students must be writing a thesis on some aspect of Newfoundland history. In some instances it may be awarded as a travel grant which will assist students with travel expenses incurred while undertaking their research. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History. In the case of graduates it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of History.

The Professor Peter Hart Memorial Scholarship

This scholarship has been established in memory of Canada Research Chair in Irish Studies and Department of History Professor, Dr. Peter Hart. His work was marked by a commitment to writing well and accessibly, and by his innovative approach to research and analysis – in particular for opening up new questions through his application of social science methods and concepts to problems of Irish history. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time doctoral student in the Faculty of Arts. Candidates must meet the minimum academic requirements for the scholarship as defined by the University and applications must include academic transcripts, a research statement of no more than 500 words, a writing sample, two letters of reference and an academic CV. In the event of more than one eligible candidate, preference will be given to a student whose research focus falls into one or more of the following areas: Irish history or politics; Newfoundland and Labrador history or politics; political violence; or revolution. The Scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Awards and Medals Committee.

The Dr. Austin J. Harte Memorial Scholarship

The Dr. Austin J. Harte Memorial Scholarship commemorates the memory of Austin Harte who was a member of the Faculty of Education, Memorial University of Newfoundland from 1991-1995. The scholarship, which is valued at one thousand dollars (\$1,000.00), may be awarded annually to a student in a graduate program, in the Faculty of Education. In order to be eligible for consideration, candidates must be registered full time and satisfy all other conditions as stipulated by the University. The Scholarship will be awarded by the Dean, School of Graduate Studies upon the recommendation from the Dean, Faculty of Education. A special application is required and may be obtained from the Faculty of Education and/or the School of Graduate Studies. Deadline for Application: March 15.

A.G. Hatcher Memorial Scholarship

Normally, up to three A. G. Hatcher Memorial Scholarships are awarded annually commencing in the Fall Semester. The awards are to be made solely on the basis of high academic merit. Typically a minimum of a first class degree is required. One scholarship shall be awarded to an applicant who graduated with an undergraduate degree from Memorial University of Newfoundland, one to an applicant who graduated with an undergraduate degree from a Canadian university, and, one to an applicant who graduated with an undergraduate degree from a foreign university. The value of the scholarship is \$15,000, and it may be held for one year only. Recipients holding a major external award of \$15,000 or greater will retain \$3,000 of the A. G. Hatcher Memorial Scholarship. One nomination from each category listed above, for these awards, should be forwarded to the Dean or Director by June 1st. Deadline for the Dean or Director to submit nominations to the School of Graduate Studies is June 15th.

The Rolf G. Hattenhauer Scholarship Fund

This fund was established by the Labour Management Co-operation Committee to commemorate the late Professor Rolf G. Hattenhauer, a well-known Newfoundland arbitrator who was actively involved in setting up the Committee. Professor Hattenhauer was a member of the Department of Commerce (later the Faculty of Business Administration) at Memorial University of Newfoundland from 1965 until his death in 1983, and during the year 1969-70 served as Head (pro tem) of the Department. The fund will provide scholarships and fellowships on a rotating basis in undergraduate and graduate studies in Business Administration.

In the case of the undergraduate scholarships, preference will be given to students in Terms 6 and 7 of the Bachelor of Commerce program who are majoring in Labour Relations. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

In the case of the graduate fellowships, preference will be given to those students in the Master of Business Administration program who are concentrating in or conducting research on the area of personnel and industrial relations. The graduate fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration. If a suitable graduate student is not available in a given year the scholarship for that year may be awarded to an undergraduate student.

The Heart and Stroke Foundation Graduate Scholarship

This scholarship, established through a generous contribution by the Heart and Stroke Foundation of Newfoundland and Labrador, is valued at \$1000 per annum. The scholarship will be awarded to a full-time graduate level student in the Faculty of Medicine, who is pursuing a research program related to heart health or heart disease. Candidates must apply in writing, providing a statement of research, supported by a reference letter from the applicant's supervisor verifying the area of research and progress to date. Consideration will also be given to the student's course work, research and other related accomplishments. Applications shall be submitted to the Faculty of Medicine, Office of Research and Graduate Studies. The scholarship will be awarded by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Jim Hood Memorial Scholarship

This scholarship was established through the generous bequest of Jim Hood, an alumnus and friend of the Faculty of Business Administration. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate and graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletics at Memorial University of Newfoundland and/or in the community. In the case of the undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration. In the case of the graduate student, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

The Imperial Tobacco Canada Limited Graduate Scholarship in Business Studies

This Scholarship, valued at a portion of the income on the pre-existing endowment, was established from a generous donation made by Imperial Tobacco Canada Limited in 2000-2001. Two awards will be made annually to entering full-time M.B.A. students. This Scholarship may include, at the discretion of the donor, an invitation to their head office to meet their management team. Selection of the candidates will be made on the basis of academic merit. The award will be made by the Dean, School of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

The Dr. Ethel M. Janes Memorial Scholarship in Education (Graduate)

From a sum of money endowed to Memorial University of Newfoundland by the late Dr. Ethel M. Janes, one scholarship valued at \$2,000.00 will be awarded annually on the basis of scholastic achievement. Dr. Janes, a Professor of Education at Memorial University of Newfoundland for twenty-eight years, devoted most of her professional career to study, research and teaching in primary and elementary education. Her contribution to the development of primary and elementary teacher education programs within the faculty was significant, as was her influence on primary and elementary education in the schools. Two generations of prospective teachers were her students. This scholarship will be awarded on the basis of academic standing in a first Memorial University of Newfoundland Education degree to a graduate student with a specialization in reading or language arts. In the event that in any given year no graduate student qualifies for the award, this scholarship will be awarded to an undergraduate student. Instalments of \$1,000.00 each will be awarded in two successive academic terms; and the scholarship is renewable for two years, provided first-class standing is maintained. This award will be made by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Education.

The JUNO Legacy Graduate Scholarship in Music

This scholarship was established by the 2010 JUNO Awards Host Committee to support excellence in music. This scholarship, valued at \$2,000 will be awarded annually to a full-time graduate student at the School of Music enrolled in the Master of Music (M.Mus.) program. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. It will be awarded by the Dean, School of Graduate Studies on the recommendation of the Director, School of Music.

Law Foundation of Newfoundland and Labrador Legal Research Awards for Students of Memorial University

The Law Foundation of Newfoundland and Labrador annually offers up to five Legal Research Awards valued at \$500 each to students at Memorial University of Newfoundland. The Awards are for outstanding research papers on one or more legal issues, or topics treated in a legal context, in a senior level course in any discipline at the undergraduate level and in any graduate course for students at the graduate level. The papers submitted by and with endorsement of course professor or lecturer will be judged initially by the Dean, Director, or Department Head who will make a recommendation to a special selection committee comprised of appointees of Memorial University of Newfoundland and the Law Foundation. Undergraduate students will receive a minimum of two and graduate students will receive one or more of the five Awards available annually. In the case of undergraduate students the Awards will be made by the Senate

Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the Awards will be made by the Dean, School of Graduate Studies. In both cases they will act upon the recommendation of the Foundation's selection committee. Please note that papers, if available on computer, must also be submitted in electronic format. An additional \$500 will be provided annually by the Law Foundation to Queen Elizabeth II Library for the purchase of research materials and resources. Total Awards \$3,000.

The LGL Limited Scholarship in Marine Science

This scholarship, valued at \$1,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, but other students will be considered. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be based upon a recommendation from the Dean, Faculty of Science.

The Dr. Jon Lien Memorial Scholarship

This entrance scholarship was established to commemorate the life and work of Dr. Jon Lien, C.M., O.N.L., through initial contributions by his friends, colleagues, students and family. Through his work at Memorial University of Newfoundland (1968-1996) Dr. Lien became an international leader in marine conservation and animal behavior. His pioneering methods to release entrapped whales from fishing gear – including the development of acoustic alarms to warn whales away from such entrapments – earned him unequalled respect with both fishermen and scientists around the globe. His work brought talented students to Memorial University of Newfoundland, empowering them by demanding excellence and maximum commitment while strongly believing in their potential. A substantial contribution to the scholarship was provided by family and friends of Dr. Dean Renouf, a student of Jon's, who passed away in 1993. In the spirit of collaboration that Jon held dear, this scholarship will honour the memories of both mentor and student. Dr. Renouf was instrumental in establishing the Cognitive and Behavioral Ecology program at Memorial University of Newfoundland and was a noted marine mammal ecologist in her own right. The scholarship will be awarded to a full-time entering graduate student undertaking studies in marine animal behavior, marine conservation, coastal community revitalization or a current fishery challenge. The scholarship will be valued at a portion of the income from the endowment and will be awarded by the Dean of Graduate Studies upon recommendation from the Dean of Science.

The Maritime Awards Society of Canada (MASC) Maritime Studies Scholarship

The Maritime Awards Society of Canada has established an annual scholarship tenable at Memorial University of Newfoundland. The successful candidate will be a Canadian citizen studying in a "maritime based" program at either the Masters or Doctoral level. This scholarship will have a value of at least \$5,000.00 a year and in some cases may be renewed for a second year. It will be awarded by the Dean of Graduate Studies upon the recommendation of the appropriate Academic Unit.

Maritime History Internship

This fund, jointly sponsored by the Canadian Nautical Research Society and the School of Graduate Studies, is designated to support a graduate student in history to train as an editorial intern with the journal *The Northerner Mariner/Le Marin du nord*. It will be awarded on the basis of academic standing to a graduate student pursuing studies in the area of maritime history. The award will normally be made to an entering student, but may be made to a student already enrolled in the graduate program. Valued at \$12,000.00 per year, it will be paid over a period of three successive academic semesters and may be renewed. Masters students may be renewed for one additional year and doctoral students may be renewed for up to two additional years. The internship will be awarded by the Dean of Graduate Studies on the recommendation of the editors of *The Northerner Mariner/Le Marin du nord* and the Department of History.

The Edgar Raymond Martin Memorial Scholarship in Music

This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Helen MacLeod in memory of her brother Edgar Martin. Edgar completed a Bachelor of Science at McGill University, Montreal in 1942 and died later that year while returning to St. John's aboard the S.S. Caribou which was torpedoed, causing the loss of 137 lives. Edgar was 19 years old and had a profound love for classical music. In his memory, this scholarship will be awarded to a full time graduate student in the School of Music. It will be awarded by the Dean, School of Graduate Studies based on a recommendation from the Dean, School of Music.

James and Muriel Martin Award in Music

The James and Muriel Martin Award was established through a generous gift to the School of Music by Mrs. Helen MacLeod, on behalf of her parents. James and Muriel Martin, lifelong residents of St. John's, Newfoundland, were enthusiastic participants in the local music scene in the early half of the twentieth century. The award, valued at a portion of the income on the investment, will be given annually to a full-time graduate student (MA or PhD) enrolled in the ethnomusicology program, with preference to a student whose focus is on the research, collection or preservation of music in Newfoundland and Labrador. It will be granted by the Dean, School of Graduate Studies on the recommendation of the Dean, School of Music.

The Margaret D. McLean Scholarship

The Margaret D. McLean Scholarship, valued at the annual accrued interest on the initial endowment, is awarded to a graduate of the basic Bachelor of Nursing Program of Memorial University of Newfoundland. The successful candidate must be enrolled in a doctoral program of Nursing (or related field). In the event that an appropriate application from a doctoral candidate is not available, students enrolled in a Master's Program in Nursing (or related field) who intend to obtain a doctorate, may be considered. The scholarship will be based on academic excellence in the Bachelor of Nursing Program and in any graduate courses completed. It will be awarded by the Dean of Graduate Studies upon recommendation of the Dean, School of Nursing.

Master of Women's Studies Graduate Travel Award

Funded through generous contributions to the Department of Women's Studies, this award is available bi-annually (one time in each of the Fall and Spring semesters) to full-time or part-time students enrolled in the two-year Master of Women's Studies (MWS) program. This award is established to assist with travel to scholarly conferences for the purpose of presenting academic papers and/or posters. Successful applicants must be enrolled in the first two years of the MWS program and must submit the following criteria, with a copy of the Graduate Student Request for Travel Assistance form, to the Department of Women's Studies: acceptance of a paper/poster presentation, written support of co-supervisors, relevance to the students' program of study and the estimated cost of travel. Students must meet the minimum academic requirements for an award and are eligible to receive this award one time only during the enrolment in the two-year MWS program. The deadlines for submission are December 1st and May 1st for the Fall and Spring semesters respectively. Successful applicants are eligible to receive up to \$100 for travel within North America and up to \$200 for travel outside of North America. It will be awarded by the Dean of Graduate Studies based on the recommendation of the Graduate Coordinator who will be advised by the Graduate Studies Advisory Committee.

The Medical Graduate Students' Society Scholar and Community Involvement Award

The Medical Graduate Students' Society of the Faculty of Medicine wishes to support graduate students in medicine through two annually funded awards. The awards will be given in the Fall of each year to full-time current graduate level students in the Faculty of Medicine, one to a Master's student and one to a Ph.D. student. Candidates must apply in writing providing a statement of eligibility as

well as details of their area of research and progress, a CV and a written paragraph about the candidate's community involvement and participation in extracurricular activities must also be included. The Award will be made by the Dean of Graduate Studies on the recommendation of a Committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Medical School Essay Graduate Student Award

The Medical School Essay Graduate Student Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. The award, valued at a portion of the income on the endowment, will be awarded annually to any graduate medical student registered full-time in the current academic year following a competition in the form of an original essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays that are of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is July 31, in any given year, to the Office of Student Affairs HSC Room 2713. The award is made by the Dean of Graduate Studies on the recommendation of the Dean's Advisory Committee on Awards, Bursaries and Scholarships in the Faculty of Medicine.

The Gordon Mertz Memorial Fellowship in Physical Oceanography

This fund was established as a memorial for Dr. Gordon Mertz by his family. Dr. Mertz was a Physical Oceanographer at the Northwest Atlantic Fisheries Centre of the Department of Fisheries and Oceans. Interest from the fund will be used to provide a fellowship which will be awarded annually on the basis of academic excellence to a full-time graduate student working in an area of Physical Oceanography with applications in Fisheries Oceanography or Marine Ecology. The fellowship will be awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Physics and Physical Oceanography.

The W.F. Morneau Scholarship

This scholarship, valued at the interest on the initial endowment will be awarded by the Dean, School of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration to a Newfoundland student who has been granted direct entry on a full-time basis to Term 3 of the Master of Business Administration Program and who has exhibited a high level of ambition. Financial need may also be taken into consideration when awarding this scholarship.

The Shree Mulay Community Health Graduate Student Award

This graduate student award is established through the generous support of Dr. Shree Mulay, Associate Dean and Professor, Division of Community Health and Humanities, Faculty of Medicine. It is created to help students who wish to be full-time in the Community Health Programs meeting the funding requirements of the Office of Research and Graduate Studies, Faculty of Medicine. One graduate research scholarship will be given annually to incoming thesis graduate students with a declared interest in pursuing full-time studies who do not have adequate funding (by way of scholarship, fellowship, or faculty research monies) to qualify for full-time status. These funds may be used alone or in conjunction with other student awards or partial supervisory funding to meet the full-time funding requirement of the Office of Research and Graduate Studies (Medicine). During the year of the award, it is expected that the student and supervisor will seek external funding to support the research program. Normally a student will be eligible to receive the scholarship only once during her or his program. There will be one competition per year, coinciding with the Winter semester selection process. All incoming candidates accepted for the M.Sc. and Ph.D. programs in the Division of Community Health and Humanities (CHH) will be considered for the award in accordance with the terms and conditions described above. The graduate program committee of CHH will make recommendations to Research and Graduate Studies (Medicine). The award will be made by the Dean of Graduate Studies on the recommendation of the Assistant Dean of Graduate Studies (Medicine).

The Neil Murray Graduate Research Award in Folklore

The Research Award, sponsored by the Newfoundland and Labrador Arts Council, is established to commemorate the energy of Neil Murray in his encouragement and promotion of our provincial folk music traditions. Open to students currently registered in the graduate program in folklore at Memorial University of Newfoundland, two awards of \$250, or one of \$500, will normally be given each year. These awards are designed to fund costs related to the accomplishment of, or the presentation of, research on the traditional performing arts in Newfoundland, including song, dance, drama, or narrative and/or the cultural traditions of the Newfoundland fishery. The awards, given on the basis of demonstrated academic merit and a research proposal or conference paper abstract demonstrating original, creative and innovative thought, will be made by the Dean, School of Graduate Studies upon the recommendation of the Head, Department of Folklore, who will be advised by the Selection Committee. Applications should be directed to the head, Department of Folklore. The deadline for application is March 1st each year.

The National Scholarship in Ocean Studies at Memorial University of Newfoundland

The federal Department of Fisheries and Oceans (DFO) has helped to establish The National Scholarship in Ocean Studies to be awarded to an outstanding Ph.D. candidate in an aspect of ocean studies which may include: chemistry, biochemistry, biology, physics, earth sciences, geography, geophysics, economics or engineering. The award valued at \$18,000 per annum for a maximum of three successive years may be held in conjunction with other major awards. The award is made only on the basis of academic excellence and the successful candidate must exhibit and maintain first-class standing. Guidelines and applications for the scholarship are available from the School of Graduate Studies. Final selection of the candidate will be made by a committee which reports to the Dean of the School of Graduate Studies. A one-time grant of up to \$2,000 may be made in support of travel to appropriate conferences where the student is presenting research findings. Deadlines for applications will be July 1 in any one year when the scholarship is available, and application should be made on appropriate forms available from the School of Graduate Studies.

The Newfoundland and Labrador Neurotrauma Initiative Award

This award, valued at a portion of the income on the investment, is made possible by a generous endowment from the Newfoundland and Labrador Neurotrauma Initiative Program, a partnership between the Rick Hansen Man in Motion Foundation, the Canadian Paraplegic Association, the Brain Injury Association and the Government of Newfoundland and Labrador. The award will be available on an annually rotating basis between undergraduate and graduate students, with first preference given to a student who has been identified with a brain or spinal cord injury. For undergraduate students applications are available from the Scholarships, Bursaries and Awards Office, Room UC4018, University Centre, (709) 864-3956. Graduate Students are required to apply specifically to the School of Graduate Studies, Room IIC 2021, Bruno Centre for Research and Innovation, (709) 864-2600. If no candidate is available with a brain or spinal cord injury, preference will be given to a student who is studying in any field related to neurotrauma. If it is not awarded at the level of study (i.e. graduate/undergraduate) on rotation in a given year, it may be awarded to a student studying at the other level for that year. In the case of undergraduates, the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

The Elizabeth A. Newlands Memorial Scholarship in Social Work

This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program at Memorial University of Newfoundland. Valued at a minimum of \$1,000.00 annually, it will be awarded on the basis of academics to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be

awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Dean, School of Social Work.

The Nopah Consulting Limited Bursaries in Earth Sciences

Three bursaries, valued at \$2,500 each, will be awarded annually to full-time graduate students who are enrolled in a masters program in the area of geology and whose topic of research is directly related to Newfoundland and Labrador. These bursaries will be awarded on the basis of demonstrated financial need and academic standing. They are tenable at Memorial University of Newfoundland and may be renewable for a second year. They will be awarded by the Dean of Graduate Studies, on the recommendation of the Head, Department of Earth Sciences.

Dermot O'Reilly Legacy Award

The award, valued at a portion of the income on the investment, is established through funds raised by family, friends and music lovers, in Dermot O'Reilly's memory after his untimely passing in 2007. Dermot chose to make Newfoundland his home in 1971 where he found here a kinship to the Dublin of his youth in the people, music and songs. Here, his life was music. He delighted in sharing music with others and was a mentor to many aspiring musicians. Dermot's friends and family carry on his legacy by creating this award to encourage and support the promotion of traditional music, oral tradition and dance in Newfoundland and Labrador. It will be given annually to a part-time or full-time student at Memorial University of Newfoundland enrolled in any year of any program of study that meets the academic requirements for an award as outlined by the University. Eligibility should be based on established support of traditional music, oral tradition or dance amongst Newfoundlanders and Labradorians. The successful candidate will be determined at the discretion of the Dermot O'Reilly Legacy Award Selection Committee and will have made evident, either through actions or creative undertakings, contributions to the province by demonstrating leadership and creativity in the tradition-bearer community. To be considered, candidates must apply no later than February 1. Applications are available at the Undergraduate Scholarships and Awards Office and the School of Graduate Studies and must be accompanied by a resume of all relevant information including but not limited to: publications, research, recordings, projects, performances, etc. It will be awarded by either the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or the Dean, School of Graduate Studies as appropriate based on the recommendation from the Committee.

The Senator Gerald R. Ottenheimer Language Scholarship

This scholarship, valued at the annual interest on the initial endowment, has been established via *The Opportunity Fund* in memory of Senator Ottenheimer through the generosity of White Ottenheimer & Baker, Barristers & Solicitors. It will be awarded on a rotating basis to students majoring in one of the language programs or the English Language and Literature programs at Memorial University of Newfoundland (graduate or undergraduate). At the undergraduate level it will be awarded on the basis of scholarship standing to a student in second year or beyond who plans to pursue one of the above noted areas of specialization. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Stuart O. Pierson Prize

The Stuart Pierson prize, valued at a portion of the annual interest, will be awarded annually on the joint recommendation of the Head of the History department and the Co-ordinator of the Masters of Philosophy program in Humanities. Eligible students will be enrolled full time, in either the Masters of Philosophy Humanities program, or in the MA or BA Hons. programs in History. Preference will be given to students who show particular promise in the history of ideas, historiography, or the history of science. In the case of undergraduate students, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies.

The Dennis R. Prince Memorial Scholarship

The Dennis R. Prince Memorial Scholarship has been made available by the Prospectors and Developers Association of Canada, Falconbridge Ltd., the Porcupine Prospectors and Developers Association, the mining community, colleagues, friends and family of the late Dennis Prince. Dennis graduated from Memorial University of Newfoundland in 1970 with a B.Sc. Honours degree. He led a distinguished career as a geologist with twenty-nine years at Falconbridge Ltd.

The annual scholarship, valued at \$2,000.00 and an engraved Brunton compass, will be awarded to a final year student specializing in mineral exploration and development in the honours program of the undergraduate degree in Earth Sciences at Memorial University of Newfoundland. If there is no qualified undergraduate student a graduate student who has been accepted for post-graduate studies in mineral exploration and development at Memorial University of Newfoundland and who intends to pursue a career in the mineral industry, will be considered. The qualifying student must demonstrate scholarship standing, strong personal values including a strong work ethic and high personal integrity. Active participation and leadership in geological associations and activities such as The Alexander

Murray Geology Club and the Geological Association of Canada may be taken into consideration as well as financial need. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases it will be based on a recommendation from the Head, Department of Earth Sciences in consultation with the PDAC and the Prince family.

Professional Engineers and Geoscientists Newfoundland and Labrador Past Presidents' Geoscience Scholarship

This scholarship valued at a minimum of \$1,000.00 was established by the Professional Engineers and Geoscientists Newfoundland and Labrador. It is awarded annually on the basis of scholarship standing to a Geoscience student at Memorial University of Newfoundland. It is open to either graduate or undergraduate students in any given year and will be allocated as such at the discretion of the Department Head. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Earth Sciences in consultation with PEGNL. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Earth Sciences, in consultation with PEGNL.

The Gar Pynn Scholarship in Business

This endowed scholarship is made possible through a very kind donation to Memorial University of Newfoundland by an anonymous donor in recognition of Professor Pynn's contribution to the Faculty of Business Administration over his 27 years of service. A scholarship valued at approximately \$2,000.00 will be awarded annually to a full-time student at the end of his or her first year of full time study in the M.B.A. Program. It will be awarded to the student who has best demonstrated a combination of academic excellence, significant contributions to the faculty and leadership in student life within the M.B.A. Program. The scholarship will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

The Rothermere Foundation Fellowships

These Fellowships, the gift of the first Chancellor of the University, have been established to aid and encourage students who have taken their first degree at this University to pursue their studies for a British higher degree at a university of their choice in the United Kingdom. It is not intended that students who have obtained most of their education in Britain be eligible for a Fellowship. Awards are

made by the Rothermere Fellowships Trust, on the recommendation of the President of Memorial University of Newfoundland.

The conditions of the award are as follows:

1. Candidates shall have completed a bachelor's degree at Memorial University of Newfoundland and have completed or be about to complete a master's degree either at Memorial University of Newfoundland or at another university in North America.
2. Fellowships will be awarded only to candidates who are proceeding to the United Kingdom to work for a British higher degree. Fellowships will not be awarded to candidates who wish to extend their stay in Britain to obtain a further British higher degree. Persons who are full-time members of a faculty of Memorial University of Newfoundland are not eligible for a Rothermere Fellowship.
3. The awards will be restricted to a maximum tenure of three years or the period requested in the candidate's application, whichever is the lesser. Continuation beyond the first year will depend on certification of competence and satisfactory progress.
4. Candidates must accept and complete the term of years for which the Fellowship has been awarded unless the requirements for the qualifications for which the Fellowship was awarded have been completed before the term expires. No interruption of tenure or postponement of the date of commencement of the Fellowship will be allowed.
5. One Fellowship is usually awarded each year.
6. The value of the stipend is currently £14,514 per annum, plus tuition fees. The fees will be paid direct to the university concerned upon receipt of an invoice. The stipend will be credited to the Fellow's banking account in quarterly instalments.
7. The Trust will pay for a return airfare, economy class, for Fellows from Newfoundland to England, and back to Newfoundland in each year of their Fellowship (a year being twelve months from the start of the Fellowship and every twelve months of the Fellowship thereafter). Flights must be economy return. The Trust will reimburse the air fare in the final year of award, on the proviso that the student must use the return portion to travel back to Newfoundland within one month of completing the Fellowship.
8. Completed applications must be submitted in duplicate to this office before the 30th of November and must be accompanied by the following documentation, also in duplicate:
 - a. an official transcript of marks from Memorial University of Newfoundland and from any other university attended;
 - b. a letter of recommendation from the dean of the faculty or school in which the applicant was registered as an undergraduate at Memorial University of Newfoundland;
 - c. a letter of recommendation from the head of the department in which applicant majored as an undergraduate at Memorial University of Newfoundland; and
 - d. a letter of recommendation from the applicant's present master's level supervisor;
 - e. as indicated in Section 15 of the application, applicants must submit a personal statement on how their research will contribute or be of value to Newfoundland and Labrador. The statement must also contain a section on the candidate's commitment to Newfoundland and Labrador.

Note that additional letters of recommendation and other information in support of the application may be submitted at the applicant's discretion.

Applicants are encouraged to begin the process of applying to universities in the United Kingdom before submitting the Rothermere Fellowship application.

Further information may be obtained by writing Margot Brown, Executive Director/Assistant to the President, Room AA2028, Arts and Administration Building, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 864-8216, or by fax to (709) 864-2059, or by e-mail to mbrown@mun.ca.

Royal Bank Fellowship in Marine Studies

This fellowship is provided through the generosity of the Royal Bank of Canada. It is valued at \$5,000 and is open to full-time graduate students in fields related to marine studies including, but not limited to, marine biology, aquaculture, biopsychology, fisheries resource management, maritime history, cold ocean engineering, folklore and naval architecture. The award, given on the basis of academic merit, will be made by the Dean of the School of Graduate Studies upon recommendation from the Head of the appropriate academic units in the above noted areas. The award is not renewable but re-applications will be considered.

The Very Reverend Edward and Marjorie Rusted Harlow Travel Award

This is an award for graduate students who wish to travel to Harlow either to undertake graduate thesis-related research or who have enrolled in a graduate course that is offered at the Harlow Campus. One award of \$2,000.00 will be made annually to help defray the expenses for airfare and accommodation. Applications are to be made to the Dean of Graduate Studies and must be received by April 30th. Details of application are available from the School of Graduate Studies. The award will be made upon the recommendation of the Dean's Advisory Committee on Medals and Awards.

Sceptre Investment Counsel Limited Bursary

Sceptre Investment Counsel, one of Canada's leading pension and mutual fund managers and an important partner to Memorial University of Newfoundland for several years, has established this bursary as a demonstration of its commitment to community support. Valued at the accrued interest on their endowment, one or more bursaries will be awarded annually on a rotating basis between undergraduate and graduate students in any field of study. Successful candidate(s) must be Newfoundland residents demonstrating financial need and displaying qualities of leadership. In the case of undergraduates, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards using scholarship standing as the primary determinant. Graduate students can make application in writing to the Dean of Graduate Studies. The award will be made by the Dean on the recommendation of the Awards and Medals Committee.

School of Graduate Studies F.A. Aldrich Fellowships

Six to eight fellowships valued at \$20,000 per annum on the doctoral level and \$15,000 on the masters level will be awarded to incoming full-time Canadian students. Renewal for one year at the doctoral level will be possible. These fellowships were established to celebrate the 25th Anniversary of the School of Graduate Studies in 1999 from a portion of the proceeds of the *Opportunity Fund* and in honour of Memorial University of Newfoundland's first Dean of the School of Graduate Studies, Dr. F.A. Aldrich (1970-1987). Recipients will be selected by the Dean of the School of Graduate Studies, on the recommendation of the Awards and Medals Committee, on the basis of exceptional academic achievement.

School of Pharmacy Millennium Graduate Fellowship

This fellowship, valued at the annual accrued interest on an initial endowment from the School of Pharmacy, is to be awarded to a full-time graduate student in Pharmacy and will be in addition to any other graduate student support held. The award is made on the basis of academic excellence in both course work and research (equally). This fellowship is not renewable for students in the master's program, but is renewable once for students in the Doctoral program. All full-time graduate students at the School of Pharmacy are eligible to apply for this award. In case of candidates with equal qualifications, preference will be given to Canadian citizens and permanent residents. The award will be made by the Dean of Graduate Studies on the recommendation of the Dean of the School of Pharmacy.

The Scotiabank Bursaries for International Study

These bursaries, funded by a generous donation from Scotiabank to *The Opportunity Fund*, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. Fifteen or more bursaries will be available with approximately ten at the undergraduate level valued at \$1,000.00 each and five at the graduate level valued at \$2,000.00 each. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow and in other countries such as Ireland, Malta, Russia, etc. In addition, students wishing to participate in formal exchange programs through the faculty of Arts, such as those with the University of Keele, will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master's and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Dr. Jorge Segovia Scholarship in Health Services Research

This scholarship has been established in honour of Dr. Jorge Segovia (former Associate Dean of Community Health and Professor Emeritus of Social Medicine). It is valued at \$500.00 annually and will be awarded to any full-time graduate student doing Health Service Research at Memorial University of Newfoundland. The recipient of this scholarship will be selected on scholarship standing through such accomplishments as best paper, best thesis, or best research project. The scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Dean, Faculty of Medicine, in consultation with the Associate Dean Community Health.

The Dr. Robert W. Sexty Scholarship for Social Responsibility

The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in any undergraduate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Alfred K. Snelgrove Graduate Scholarship in Earth Sciences

A bequest from Dr. Alfred K. Snelgrove makes possible up to two scholarships, valued at \$5,000.00 per annum, for students applying for or enrolled in a graduate program in the Department of Earth Sciences. These scholarships are intended primarily for Canadian citizens or permanent residents, and are awarded by the Dean of Graduate Studies on the recommendation of the Head of the Department of Earth Sciences. The scholarships are tenable for one year, and may be renewed. They may be held in addition to other scholarships and fellowships, and will be awarded only to applicants whose academic excellence and research potential can be clearly demonstrated.

Special Scholarships for Students to Pursue Graduate Studies Related to Resource Development

The "Special Scholarships for Studies in the Sciences Related to Resource Development" will be in the amount of \$7500.00 annually for students registered in full-time post-graduate studies at Memorial University of Newfoundland, in programs leading to the Master's and/or Doctorate degrees in the Sciences related to Resource Development. A scholarship may be renewed and awarded for one additional year only.

The scholarships are to be tenable at Memorial University of Newfoundland, but under special circumstances may include approved studies abroad. Eligible candidates normally should be residents of the province, or should have been resident in the province for at least three years prior to entering the program, excluding time spent at post-secondary institutions.

Candidates will normally have a First-Class Undergraduate Degree, or a Second-Class Degree with First-Class standing in courses in their major field of study. Candidates should apply for the scholarships to the Office of the Dean of Graduate Studies, Memorial University of Newfoundland.

The St. John's Maple Leafs Legacy Scholarship

This scholarship was established by the Leafs Foundation Inc. and the St. John's Maple Leafs Booster Club to recognize the contribution of the St. John's Maple Leafs hockey team to youth and community in the Province. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate or graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletic or extracurricular activities at Memorial University of Newfoundland and/or in the community. In the case of undergraduate students the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of the Faculty of Business Administration.

Dr. Howard Strong Memorial Postgraduate Geriatric Psychiatry Scholarship

This scholarship has been established through generous gifts from colleagues, classmates, friends and family of Dr. Howard Strong, a well-known geriatric psychiatrist and member of the first medical graduating class at Memorial University of Newfoundland. The scholarship will be awarded annually to the resident who is rated by the faculty as having the best performance in the Geriatric Psychiatry rotation during the psychiatry residency training program in the Faculty of Medicine at Memorial University of Newfoundland. It will be awarded by the Faculty of Medicine Postgraduate Medical Education Committee on the basis of a recommendation from the Discipline of Psychiatry and with the approval of the Dean of Medicine. The Office of Postgraduate Medical Education will oversee administration of the scholarship.

TD Graduate Bursary for Environmental Study

The TD Graduate Bursary for Environmental Study was established by a gift from TD Bank Group to Dare To: The Campaign for Memorial University. The bursaries will be awarded to full-time graduate students enrolled in any program at Memorial University of Newfoundland, provided they are pursuing research and/or study in environmental-related subjects. Recipients must meet the academic criteria for a Bursary. The number and value of the bursaries available each year will depend on the funds available for distribution as per University policy, as well as the applicant pool, and will be determined at the discretion of the Dean, School of Graduate Studies. The bursaries will be awarded by the Dean, School of Graduate Studies based upon recommendations of Deans and/or Department Heads of any eligible discipline.

The Dr. Anna C. Templeton Memorial Graduate Scholarship

This fund was established from a bequest to the University by Dr. Anna C. Templeton. Awarded annually and valued at approximately 75% of the earned interest, the scholarship is open to full-time graduate students in any year of their program who are residents of Newfoundland and Labrador. Preference will be given to students who have demonstrated leadership in teaching, promotion or development of craft or home economics in the province of Newfoundland and Labrador. Normally the award will be made to a student

in the Faculty of Arts, the Faculty of Science, the School of Nursing, the School of Social Work or at Grenfell Campus, or the Fisheries and Marine Institute. The scholarship will be awarded by the Dean, School of Graduate Studies upon recommendation from the head of appropriate academic units in the above-noted areas. The award is not renewable, but reapplications will be considered.

The Dr. Wilfred Templeman Memorial Scholarship

In commemoration of the 15th Anniversary of the cod moratorium, the Provincial Government has created this award in honour of Dr. Wilfred Templeman, a pioneer of fisheries research in Newfoundland and Labrador. This scholarship will be available to full-time students pursuing a graduate program in which groundfish research is the primary focus. Successful applicants will receive \$2,500 per year for a maximum of two years for work towards a graduate degree in a program appropriately related to the stated goals of the scholarship. The application should contain a brief description of the research being undertaken towards the graduate degree and a statement of how the research is consistent with the goals of the scholarship donor. Candidates should apply for the scholarship to the Office of the Dean of Science no later than the last day of December of the first academic year of their graduate program. Awards will be made by the Dean of Graduate Studies on the recommendation of the Dean of Science.

The J. Beryl Truscott Graduate Scholarship

This fund is established in memorial to J. Beryl Truscott, a long-time employee of the Marine Sciences Research Laboratory, and is administered by the School of Graduate Studies. It is valued at \$2000.00 and is normally awarded annually to a full-time student pursuing a graduate program in either Chemistry or Biochemistry. Awards will be made by the Dean of Graduate Studies based upon recommendations from the Head, Department of Biochemistry and the Head, Department of Chemistry.

The Leslie Tuck-Avian Ecology Award

This endowed scholarship is named in honour of the late Dr. Leslie Mills Tuck, the first Dominion Wildlife Officer and Canadian Wildlife Service Officer in Newfoundland and Labrador. Author of two definitive and award-winning books on Newfoundland birds, *The Murres* (1961) and *The Snipes* (1972), Leslie Tuck was a J.L. Paton Research Chair in the Department of Psychology following his retirement from the Canadian Wildlife Service, and a member of the Natural History Society of Newfoundland and Labrador which he was instrumental in sustaining. The award, valued at \$1,000 annually, will be made by the Dean of Graduate Studies on the recommendation of the Dean of Science. A committee appointed by the Dean of Science shall select a nominee on the basis of a 500 word essay on the student's research and its relevance to the avian ecology and ecosystem preservation in Newfoundland and Labrador. Eligible candidates must be full-time graduate students in biopsychology, biology or psychology. The winning essay will be published in *The Osprey*, the quarterly publication of the Natural History Society of Newfoundland and Labrador.

University Support

A limited amount of University Support may be awarded to full-time students working toward graduate degrees at this University. Awards will be made by the Dean of Graduate Studies on the recommendations of Departments. These awards may be supplemented by remuneration for extra duties performed in the Departments at the discretion of Department Heads.

The Josephine Welch Research Initiative Award

The Josephine Welch Research Initiative Award, established by Dr. David Behm, is valued at \$500. It will be awarded annually to a full-time graduate student enrolled in the Master of Kinesiology program who has demonstrated the greatest initiative towards publishing research. This can include submitted or published papers, abstracts or data collection. This award will be made by the Dean, School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

The George Weston Graduate Scholarships

Two scholarships valued at a minimum of \$2,000.00 each, will be awarded annually to full-time graduate students, one in the field of Marine Biology and one in the field of Marine Engineering. These students must have been born in one of the Atlantic Provinces. Tenable at Memorial University of Newfoundland, these scholarships will be awarded by the Dean of Graduate Studies upon recommendation from the Deans of Science and Engineering.

Women's Association of Memorial University of Newfoundland Graduate Student Scholarship

Two Master's level and two Ph.D. level scholarships valued at \$1,200.00 each are awarded annually to full-time students entering a program in the School of Graduate Studies. Of the Master's level awards, one shall be for a thesis program, and one for a non-thesis program. Financial need as well as scholarship standing will be taken into consideration. The awards will be made upon the recommendation of the Dean of Graduate Studies.

The Wood Gundy Scholarship for Graduate Business Students

The Wood Gundy Scholarship for Graduate Business Students will be awarded annually to an MBA student of scholarship standing who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

Dr. Lynda Younghusband Counseling Award

The Dr. Lynda Younghusband Counseling Award has been established by Dr. Younghusband to promote the counseling profession and to improve access to the national conference for students. This award will be given to either a full-time or part-time graduate student enrolled in the Master of Education (Counseling Psychology) program and who is attending the national conference of the Canadian Counselling Association to present a scholarly paper or poster. The recipient must meet the academic requirements for an award. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Education.

11.2 Graduate Awards Administered By Other Authorities

The Association of Registered Nurses of Newfoundland Education and Research Trust Scholarship

A \$1000.00 scholarship is available from the A.R.N.N. for students pursuing graduate studies in Nursing. The application form is available in writing from The Association of Registered Nurses of Newfoundland, P.O. Box 6116, St. John's, NL, A1C 5X8 or by telephone to (709) 753-6040.

The Bowring/Harlow Scholarship

The Board of C.T. Bowring & Co. Ltd., London, England, together with Mr. Edgar Bowring and Mr. Peter Bowring, former Chairmen of that Company, have made available to Memorial University of Newfoundland, through the Harlow Campus Trust, a grant to establish a scholarship fund for students at the post-baccalaureate level who wish to live at the University's Harlow Campus while undertaking approved studies in Great Britain. It is hoped that interest on the fund will finance up to two annual scholarships of £600 each. In special circumstances the interest may be applied to a single award. In making the award, scholastic achievement and financial need will be considered. The scholarships are awarded by the Trustees of the Harlow Campus Trust on submissions of the Dean of Graduate Studies and the Co-ordinator of Harlow following recommendations from the Faculties/Schools responsible for the applicants' academic programs.

Canadian Federation of University Women (Saint John, NB) Lillian D. & Charles R. Bone Memorial Scholarship for Post-Graduate Study - \$1,500

The Canadian Federation of University Women - Saint John offers this scholarship to a female student who is entering a Post-Graduate Degree Program. Eligible candidates must have graduated from a New Brunswick School District 8 High School or be a resident in the greater Saint John area.

The Canadian Gerontological Nursing Association

Sancell/CGNA Nursing Scholarship - 2 awards of \$1000.00. The purpose is to provide support to outstanding Registered Nurses undergoing further education in either an undergraduate nursing degree program, or a post graduate degree program that is relevant to career development in the field of Gerontological Nursing.

The candidate must:

- Be a member of the Canadian Gerontological Nursing Association.
- Be registered to practise nursing in a Canadian Province.
- Have gained acceptance to a suitable full-time program in a recognized educational institution at the time of taking up the award.
- Exhibit interest in and potential for, a career in Gerontological nursing in Canada.
- Be a Canadian citizen or permanent resident at the time of taking up the award.

The scholarship is administered by the CGNA and further information regarding criteria can be obtained in writing to CGNA, c/o Nancy Bol, Parkwood Hospital, 801 Commissioners Rd. E., London, Ontario N6C 5J1

Canadian Institutes of Health Research (CIHR)

The Council awards each year a number of awards, grants, fellowships, and scholarships in the area of health related fields to those undertaking graduate study and research leading to advanced degrees. Further information and applications are available from their website at www.cihr-irsc.gc.ca.

Canadian Nurses Foundation Scholarships & Fellowships Competition

Scholarships and fellowships are awarded to nurses pursuing education at the baccalaureate, master and doctoral levels. In addition to non-specific studies, awards are available for specific area of practice such as northern nursing, occupational health, dialysis nursing, neurological nursing, oncology nursing, community health, gerontology nursing, pediatric nursing and nursing administration. Applications must be members of CNA and CNF, be Canadian citizens and agree to work in Canada for a period of one year for each year of financial assistance. Application forms are available from their website www.canadiannursesfoundation.com or in writing to Canadian Nurses Foundation, 50 Driveway, Ottawa, Ontario K2P 1E2 or by telephone to (613)237-2133 or by fax to (613)237-3520.

Graduate Students' Union (GSU) Award for Excellence in Community Service

Two awards of \$250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on community service endeavours. Nomination forms and further information are available at the GSU website www.mun.ca/gsu.

Graduate Students' Union (GSU) Award for Excellence in Research

Two awards of \$250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on research the student has accomplished at Memorial relative to the field in which they study. Nomination forms and further information are available at the GSU website www.mun.ca/gsu.

Graduate Students' Union (GSU) Award for Excellence in Teaching

Two awards of \$250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on excellence in teaching-related activities, as demonstrated by student comments, innovative teaching methods, and evidence of exceeding normal teaching requirements. Nomination forms and further information are available at the GSU website www.mun.ca/gsu. Two awards of \$250 each are awarded annually to graduate students of any program at Memorial. A selection committee will determine award recipients based on research the student has accomplished at Memorial relative to the field in which they study. Nomination forms and further information are available at the GSU website www.mun.ca/gsu

I.O.D.E. Scholarships for Graduate Study in Canada or Overseas Within the Commonwealth

To honour the memory of the men and women who gave their lives for Canada in World Wars I and II, these memorials were established to provide scholarships for graduate study. Candidates must be Canadian citizens and must hold a first degree from a recognized university in Canada. At the time of applying, a candidate must hold a Master's degree or be in the final year of studies leading to a Master's degree. Further Information is available in writing to The Head Office, I.O.D.E., 40 Orchard View Boulevard, Suite 254, Toronto, Ontario M4R 1B9.

The Medical School Essay Postgraduate Student Award

The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. This award, valued at a portion of the income on the endowment, will be awarded annually to any postgraduate medical student registered full-time in the current academic year following a competition in the form of an essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is April 30, in any given year, to the Office of Student Affairs HSC Room 2713. The recipient of this award will have their essay printed in the Memorial University Journal of Human Health. The award is made on the recommendation of the Dean's Advisory Committee on Awards, Bursaries and Scholarships in the Faculty of Medicine.

Natural Sciences and Engineering Research Council of Canada (NSERC)

The Council awards each year, in open competition, a number of post-graduate scholarships in Science and Engineering to assist students in undertaking graduate study and research leading to advanced degrees. These scholarships and fellowships are tenable at both Canadian universities and institutions outside Canada. Further information and applications are available from their website www.nserc-crsng.gc.ca.

The Newfoundland St. Andrew's Society Scholarship

This scholarship is the result of a gift from the Newfoundland St. Andrew's Society to Memorial University of Newfoundland. Valued at a portion of the interest on an endowment, the scholarship will be awarded to a student from the Faculty of Arts whose studies and accomplishments most closely support the aims of the Newfoundland St. Andrew's Society; To foster and encourage the love of Scotland, its history, literature, music and national games in a Newfoundland context. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The J.W. Pickersgill Fellowship

The J.W. Pickersgill Fellowship Act provides for the award of a fellowship valued at \$7,500.00 per annum to a graduate of Memorial University of Newfoundland for the pursuit of doctoral studies in History or Political Science at any university. Application forms and regulations are available from the Office of the Dean of Arts, to whom applications must be submitted by February 15.

Rotary Awards

The Rotary Foundation of Rotary International offers Graduate Fellowships for those who will have received a bachelor's degree or equivalent. Further information and applications are available from their website www.rotary.org or in writing to The Rotary Foundation of Rotary International, One Rotary Centre, 1560 Sherman Avenue, Evanston, IL 60201 USA.

The St. John's Association of Basketball Officials Award

From a sum of money donated by the St. John's Association of Basketball Officials an award valued at a portion of the annual income on the investment is to be provided annually to a full-time or part-time Memorial University of Newfoundland student, either graduate or undergraduate, who is an active member of the University basketball community. The candidate must meet the University's definition of Clear Standing. In the case of graduate students the award will be made by the Dean, School of Graduate Studies. In the case of undergraduate students the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In both cases the award is based on the recommendation of the executive of the St. John's Association of Basketball Officials.

The Schulich Scholarship for Entrepreneurship

This scholarship, sponsored by Nevada Capital Corporation Ltd. is open to students completing the first year of the M.B.A. program of the Faculty of Business Administration at Memorial University of Newfoundland. The scholarship will be awarded to the student who, in the opinion of a Selection Committee, Faculty of Business Administration, has best demonstrated an entrepreneurial orientation in first-year M.B.A. studies and in other related activities. Students must make special application for the award to the Dean, Faculty of Business Administration.

Social Sciences and Humanities Research Council of Canada (SSHRC)

The Council offers fellowships and grants in the Social Sciences and Humanities. Among Council programs of aid are research grants and short-term grants, and the following awards that are based upon annual competitions: doctoral fellowships and postdoctoral fellowships. Further information and applications are available from their website www.sshrc-crsh.gc.ca.

11.3 Other Awards

Fellowships and research grants for advanced study are available, in open competition, from many other organizations and foundations. Information about these awards is available from the Office of the Dean of Graduate Studies.
