The Department of Biology invites applications from individuals interested in teaching Biology 4050 Advanced Topics in Microbiology in the Winter 2023 semester.

Subject to budgetary restrictions and sufficient enrolments, appointments will be made on a course by course basis and will not entail any obligation to conduct research or to perform any administrative service for Memorial University. Appointments will be made in accordance with the provisions in the MUN-LUMUN Collective Agreement. Course design and evaluation methods for all courses will be in accordance with the Department of Biology regulations and the Memorial University Calendar.

Course Title: BIOL 4050 Advanced Topics in Microbiology
Course Schedule: January 5th- April 21st, 2023
Campus Location: St. John’s, NL
Course Description: Biology 4050 examines the beneficial and harmful properties of microbes including topics on industrial microbiology and the discovery of new antimicrobial agents. The scope within the course ranges from the genetic manipulation of microbes for useful purposes to the isolation of bacteria for applications in various fields. This course has one section and one lab slot to be delivered on campus. For further information regarding this course please visit www.mun.ca/biology/
Qualifications: Applicant should have a Ph.D. or equivalent. Experience teaching Biology at the post- secondary Level is required.

To apply for this position please submit a letter of application, curriculum vitae and the names of referees, electronically or in writing to:

Dr. Andrew Lang
