## INTRODUCTION

The Centre for Institutional Analysis and Planning (CIAP) is pleased to present our 13th annual *Fact Book*. This publication is now available in this printed format and an electronic version. You will find it plus other reports and information, on our Web page at: <http://www.mun.ca/ciap>.

Over the course of the academic year, university offices responsible for maintaining permanent records are called upon to satisfy the data requirements of a variety of users. We realize that no project of this scope can be all things to all people; therefore, some readers may have questions that are not completely answered by this book's contents. Before you begin your analysis, please note the following items that apply to the entire publication; issues that are specific to particular sections have been presented at the beginning of that section.

Where data in a table is an aggregate of several components, this book presents the data in a series of related tables. The first table shows the combined totals, and subsequent tables in the series show the individual components. For example, Table 5 has three segments: 5A describes total student graduate and undergraduate enrolment by faculty and school; and Tables 5B and 5C, respectively, show the full-time and part-time components.

Because of the similarity of many of the tables, please read the title and any footnotes carefully. As well, similar data in seemingly comparable tables may have been taken over slightly different time frames.

This document is the end product of data and suggestions that were contributed by the following departments. We are grateful to the staff at:

- ✓ Alumni Affairs and Development
- ✓ Financial and Administrative Services
- ✓ Human Resources
- ✓ Marine Institute
- ✓ Office of Research
- ✓ Office of the Registrar
- ✓ University Library

If you would like further information regarding any tables found either in this publication or on our Web page, the Centre for Institutional Analysis and Planning (737-4016) will be pleased to assist.

Information**

# Organizational Chart – November 2001

**PRESIDENTS  
CHANCELLORS  
CHAIRMEN**

**Memorial University College  
Presidents**

1925-33 John Lewis Paton  
1933-49 Albert G. Hatcher

**Memorial University of Newfoundland  
Presidents**

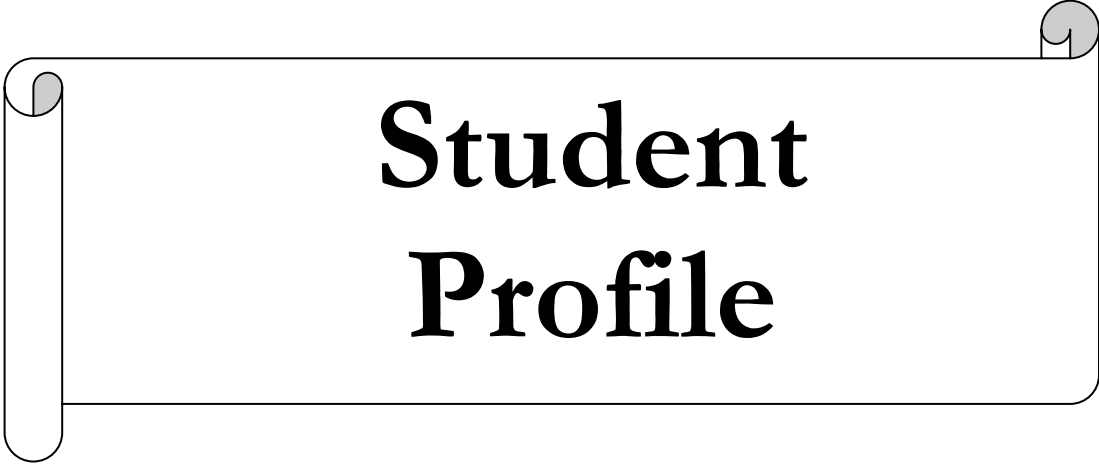

1949-52 Albert G. Hatcher  
1952-66 Raymond Gushue  
1966-67 M. O. Morgan (pro tempore)  
1967-73 The Rt. Hon. the Lord Taylor of Harlow  
1973-81 M. O. Morgan  
1981-90 Leslie Harris  
1990-99 Arthur May  
1999- Axel Meisen

**Memorial University of Newfoundland  
Chancellors**

1952-61 The Rt. Hon. the Viscount Rothermere of Hemsted  
1961-68 The Rt. Hon. the Lord Thomson of Fleet  
1971-79 G. Alain Frecker  
1979-88 Paul G. Desmarais  
1989-93 Vacant  
1994- The Hon. John C. Crosbie

**Memorial University of Newfoundland  
Chairmen/Chairwoman of the Board of Regents  
(Established May 1950)**

1950-54 Albert Walsh  
1954-68 E. J. Phelan  
1968-74 Gordon A. Winter  
1974-82 F. W. Russell  
1982-91 Charles W. White  
1991-97 Janet Gardiner  
1997- Edward Roberts

# Student Profile

## Student Profile

### Notes

The data found in this section of the *Fact Book* has been compiled by the Office of the Registrar from their computerized files. The following definitions (as found in the university *Calendar*) and explanations should be noted:

Definitions:

- Undergraduate students are categorized as follows:
  - first-year students have earned fewer than 18 credit hours;
  - second-year students have earned not fewer than 18 credit hours; third-year students have earned not fewer than 48 credit hours;
  - fourth-year students have earned not fewer than 78 credit hours; and
  - fifth-year students are those who have earned not fewer than 108 credit hours.
- Full-time undergraduate students: students who have been duly admitted to this university and who are duly registered for the duration of any semester or session in at least nine credit hours or the equivalent are termed full-time students. For the spring semester (including intersession and summer session), students who register for a total of at least nine credit hours, whether they be session courses or semester courses, such that the student is taking at least one course at any time during the twelve-week semester, will be deemed to be full-time students (reference university *Calendar* 2001-2002, page 53).

Part-time undergraduate students: students who have been duly admitted to the university and who are registered for fewer than nine credit hours or the equivalent in any semester or session are termed part-time students (reference university *Calendar* 2001-2002, page 54).

- A graduate student is one who has been admitted to a graduate degree or a graduate diploma program. A full-time graduate student is one who registers as such, devotes full time to his or her academic program and may not commit more than 24 hours a week working time, including teaching assistant or research assistant duties, to matters other than the degree program (reference university *Calendar* 2001-2002, page 446).

A part-time graduate student is one who is registered for the duration of a semester and is not classified as full-time (reference university *Calendar* 2001-2002, page 446).

Explanations:

- Only enrolment data from the **fall semester** are shown in this *Fact Book*.
- Enrolment data shown in Tables 1 and 2 differ from enrolment data shown in other tables. The data in Tables 1 and 2 are compiled at the end of the regular registration period. *All other enrolment data are taken at the end of the drop period.*
- Data recorded are as indicated on students' application for admission/readmission and other appropriate forms.
- The 'unspecified' category in student enrolment includes 'not applicable', 'not specified', 'undeclared' and 'other'.
- In 1983-84 first-year enrolment was reduced significantly because of the implementation of Grade XII in Newfoundland and Labrador schools.
- Table 14, 15 and 16 refer to Marine Institute students.

<sup>^</sup> Full-time equivalent (FTE) enrolment is computed as full-time enrolment + (part-time enrolment/3.5).

\* Beginning in 1996, work-term students are included as full-time.

~ Does not include post-graduate enrolment of 143 (medical interns and residents), for a total enrolment of 16,124.

# Financial Profile

## Financial Profile

### Notes

The figures for University Operations are extracted from the Consolidated Financial Statements and the Unaudited Supporting Schedules of the annual audited statements.

\* Effective April 1, 1997, the Canadian Institute of Chartered Accountants introduced five new handbook sections effecting university financial statement preparation and presentation.

Departmental expenditures include the cost of fringe benefits, staff recruitment and staff settlement expenses.

Note 1: The figures for Sir Wilfred Grenfell College include operating costs for physical plant.

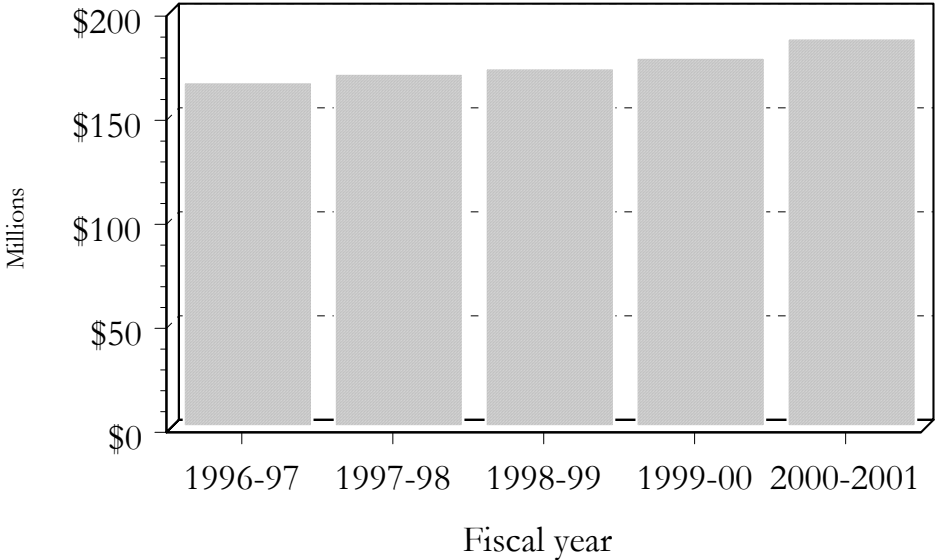

Note 2: Expenditures for Technical Services are netted against internal recoveries.

Note 3: Faculty of Medicine includes the operating costs for physical plant and technical services.

Note 4: Figures for the Marine Institute include costs for transportation, marine and operational building services. Figures for general building services such as heat and light, and snow clearing, which are provided by the provincial Department of Works, Services and Transportation, are not included.

Figures may vary from audited financial statements due to restatement of prior years' figures if required.

PhD (9 semesters)	1,183	1,183	1,183	1,183	1,024
Graduate diploma (9 semesters)*	420	420	420	420	400
Master's continuance	434	434	434	434	375
PhD continuance	741	741	741	741	642
Postgrad (Residents & Interns)	500	500	500	500	500

\* Graduate diploma (nine semesters) offered by the Faculty of Medicine starting in 1996-97. Graduate diploma (six semesters) is no longer offered by the Faculty of Education.

# Research Profile

## Research Profile

### Notes

1. The data used in these tables have been compiled from the records of the Office of Research, which publishes an annual *Inventory of Sponsored Projects* of funded research projects after circulating preliminary lists to faculties and departments for crosschecking. Copies of the *Inventory of Sponsored Projects* are available from the Office of Research. The Office of Research figures are derived from notices of awards sent to successful applicants. In some cases, researchers receive more or less money in a given year than is originally pledged and recorded.
2. In 1986-87, the Office of Research began to keep track of the non-financial external support for university research — such items include free supplies involved in experiments, access to off-campus equipment, computer or other facilities and ship-time for researchers at sea.
3. Included in the "Other" category are grants and/or awards for:

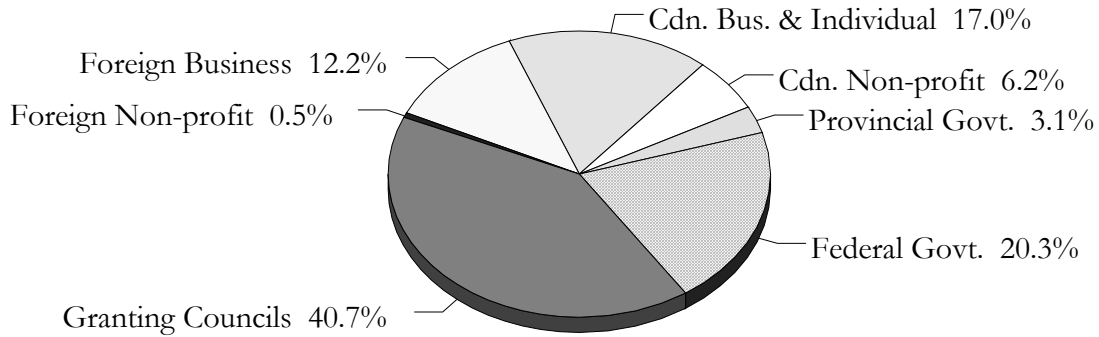

Conferences/workshops/symposia	Equipment
Fellowship	General support awards
Infrastructure	In-kind
Scholarship	Ship time
Studentship	Research chairs
Research personnel awards	Travel

4. In addition to the standard operating grant, the category of Operating Grants includes the following:

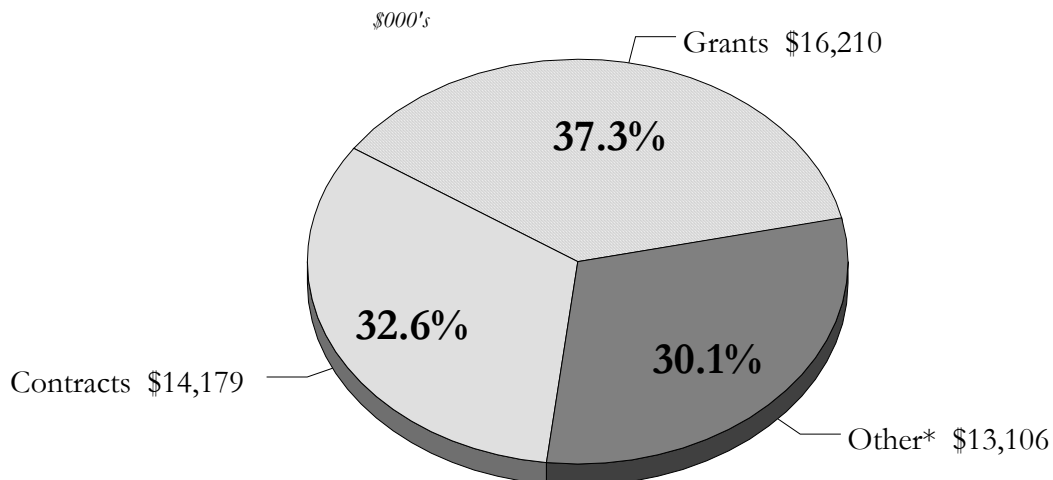

Career	Collaborative special projects
Collaborative project grants	Development
Lithoprobe	Major facilities access
Partnership	Publication
Strategic	Team

5. Table 23 counts should be read as 'pieces' of funding from the various sponsor categories. In order to categorize the counts in this way, some duplication results. For example, Federal/Provincial Cooperation agreements are received as one operating contract; however, in order to record a count of funding from both levels of Government, 1 is entered in Federal Government and 1 is entered in Provincial Government. The overstatements that occur in the 2000-2001 data as a result of this practice are as follows: Chairs and equipment (included in *Other*) are overstated by 8; Operating Contracts are overstated by 67; Operating Grants (including partnerships) are overstated by 12; Infrastructure are overstated by 1.
6. In-kind is not regarded as a funding category. Instead, it is recorded as a type of funding like cash. All in-kind counts (2000-2001 total is 62) have already been included in the various funding categories e.g., if a sponsor provides an in-kind contribution as an operating grant, one operating grant is counted.
7. The amounts reported under operating grants for the Federal Government and the Ocean Sciences Centre includes the full value of the 1999-2000 amount (\$3,600,000) awarded for AquaNet, a Network funded under the Networks of Centres of Excellence Program.
8. On February 29, 1992, the Newfoundland and Labrador Institute of Fisheries and Marine Technology (Marine Institute) became a part of Memorial University. Not included here is revenue earned by the Marine Institute for industry response, and applied research and development activities.
9. Operating Grants are awarded to individuals or teams to cover part or all of the direct costs of particular research projects. They often include provisions for salaries paid to graduate students and other assistants, the university's share of fringe benefits costs, and the expense of materials, technical services, field travel and computing.
10. Operating Contracts are similar to operating grants but involve a contractual agreement that is more formal than the terms of a conventional grant. By means of a contract, the sponsor normally acquires an interest in the results of the research and can enforce strict time, scope and reporting requirements; university policy, however, is that investigators retain the right to publish, subject to a reasonable deferral period.

## Sources of External Research Funding 2000-2001

## Research Support by Type 2000-2001

\*Other includes chairs, conferences/workshops/symposia, general support grants, infrastructure, research personnel awards, travel, equipment and in-kind support.

The above tables should be read as counts of pieces of funding from the various sponsor categories. In order to categorize the counts in this way, some duplication results. For example, Federal/Provincial Cooperation agreements are received as one operating contract, however, in order to record a count of funding from both levels of Government, one is entered in Federal Government and one is entered in Provincial Government. The overstatements that occur in the 2000-2001 data as a result of this practice are as follows: Chairs are overstated by 8; Operating Contracts are overstated by 67; Operating Grants (including partnerships) are overstated by 12; Infrastructure are overstated by 1.

\*Changed from previous years, Canadian Business and Canadian Individuals are separate categories. For years 1997-98 and 1996-97, only data for Canadian Business was available, hence n/a for these years in Canadian Individual category.

^ The amounts reported under operating grants for the Federal Government and the Ocean Sciences Centre includes the full value of the 1999-2000 amount (\$3,600,000) awarded for AquaNet, a Network funded under the Networks of Centres of Excellence Program.
