INTRODUCTION

The Centre for Institutional Analysis and Planning (CIAP) is pleased to present our 20th annual *Fact Book*. This publication is available in both a printed and an electronic format. You will find the electronic version, plus other reports and information, on our web page at: <http://www.mun.ca/ciap>.

Over the course of the academic year, University offices responsible for maintaining permanent records are called upon to satisfy the data requirements of a variety of users. We realize that no project of this scope can be all things to all people; therefore, some readers may have questions that are not completely answered by this book's contents. Before you begin your analysis, please note the following items that apply to the entire publication; issues that are specific to particular sections have been presented at the beginning of that section.

Where data in a table is an aggregate of several components, this book presents the data in a series of related tables. The first table shows the combined totals, and subsequent tables in the series show the individual components. For example, Table 5 has three segments: 5A describes total student graduate and undergraduate enrolment by faculty and school; and Tables 5B and 5C, respectively, show the full-time and part-time components.

Because of the similarity of many of the tables, please read the title and any footnotes carefully. As well, similar data in seemingly comparable tables may have been taken over slightly different time frames.

This document is the end product of data and suggestions that were contributed by the following departments. We are grateful to the staff at:

- ✓ Alumni Affairs and Development
- ✓ Financial and Administrative Services
- ✓ Human Resources
- ✓ Marine Institute
- ✓ Office of Research
- ✓ Office of the Registrar
- ✓ University Library

If you would like further information regarding any tables found either in this publication or on our web page, the Centre for Institutional Analysis and Planning (737-4016) will be pleased to assist.

Student Profile

Student Profile

Notes

The data found in this section of the *Fact Book* have been compiled by the Office of the Registrar from their computerized files. The following definitions (as found in the *University Calendar*) and explanations should be noted:

Definitions:

- Undergraduate students are categorized as follows:
 - first-year students have earned fewer than 18 credit hours;
 - second-year students have earned from 18 to 47 credit hours inclusive;
 - third-year students have earned from 48 to 77 credit hours inclusive;
 - fourth-year students have earned from 78 to 107 credit hours inclusive; and
 - fifth-year students are those who have earned not fewer than 108 credit hours.
- Full-time undergraduate students: students who have been admitted to this University and who are registered for the duration of any semester in at least nine credit hours or at least five credit hours in a session are deemed full-time students (reference *University Calendar* 2008-2009, page 53).

Part-time undergraduate students: students who have been admitted to the University and who are registered for fewer than nine credit hours in any semester or fewer than five credit hours in any session. (reference *University Calendar* 2008-2009, page 53).

- A graduate student is one who has been admitted to a graduate degree or a graduate diploma program. A full-time graduate student is one who registers as such, devotes full time to his or her academic program and may not commit more than 24 hours a week working time, including teaching assistant or research assistant duties, to matters other than the degree program (reference *University Calendar* 2008-2009, page 458).

A part-time graduate student is one who is registered for the duration of a semester and is not classified as full-time (reference *University Calendar* 2008-2009, page 458).

Explanations:

- Only enrolment data from the **fall semester** are shown in this *Fact Book*.
- Important note: The timing of the generation of enrolment reports has changed from the end of drop period (seven weeks) to the end of the regular registration period (two weeks). Enrolment data, for all tables, are now taken from and compiled at the end of regular registration period. For tables 5 - 14 data from previous years have been adjusted to reflect this change. Please note that Tables 1 – 4 were not affected by this change in timing.
- Beginning in 2003-2004, Table 1 and Table 2 full-time and part-time undergraduate enrolment includes level '04', Diploma in Information Technology students. Level '04' enrolment are now included in the following Tables of the Student Profile: Tables 5 (except for undergraduate medicine students (2003 only); which are not included in Table 5, but are included in the total in Table 1), 7, 9, 11, 12 and 13.
- Data recorded are as indicated on students' application for admission/readmission and other appropriate forms.
- The 'unspecified' category in student enrolment includes 'not applicable', 'not specified', 'undeclared' and 'other'.
- In 1983-84 first-year enrolment was reduced significantly because of the implementation of Grade XII in Newfoundland and Labrador schools.
- Tables 15, 16 and 17 refer to Marine Institute students.
- Beginning in 2005, the methodology for Tables 12, 13 and 14 data are now based on enrolled students' citizenship and permanent residence at the time of application. The data for 2004 have been restated to reflect this definition change. Data in these tables from previous Fact Books are not comparable.

^ Full-time equivalent (FTE) enrolment is computed as full-time enrolment + (part-time enrolment/3.5).

* Beginning in 1996, work-term students are included as full-time students.

~ Beginning in 2004, enrolment for Post-Graduate (Medicine) starting with 1995 is included. Total enrolments have changed accordingly.

Financial Profile

Financial Profile

Notes

The figures for University Operations are extracted from the Consolidated Financial Statements and the Unaudited Supporting Schedules of the annual audited statements.

Departmental expenditures include the cost of fringe benefits, staff recruitment and staff settlement expenses.

- Note 1: Faculty of Medicine includes operating costs for physical plant and technical services.
- Note 2: Figures for the Marine Institute include costs for transportation, marine and operational building services. Figures for general building services such as heat and light, and snow clearing, which is provided by the provincial Department of Works, Services and Transportation, are not included.
- Note 3: The figures for Sir Wilfred Grenfell College include operating costs for physical plant.
- Note 4: Expenditures for Technical Services are netted against internal recoveries.
- Note 5: Gross capital expenditures in Table 18D include capital assests, capital leases and the library collection. Minor renovations and repairs are included in Table 18C, Gross Operating Expenditures.
- Note 6: In accordance with CICA (Canadian Institute of Chartered Accountants) recommendations with regard to employee future benefits, Memorial University of Newfoundland recognizes and reports the future liabilities resulting from the accrual of vacation pay entitlements, severance and other post employment benefits, voluntary early retirement incentives, and the supplemental retirement incentive fund.

Figures may vary from audited financial statements due to restatement of prior years' figures if required.

Research Profile

Research Profile

Notes

1. The data used in these tables have been compiled from the records of the Office of Research, which publishes an annual *Inventory of Sponsored Projects* of funded research projects after circulating preliminary lists to faculties and departments for crosschecking. Copies of the *Inventory of Sponsored Projects* are available from the Office of Research and on-line at www.mun.ca/research. The Office of Research figures are derived from notices of awards sent to successful applicants. In some cases, researchers receive more or less money in a given year than is originally pledged and recorded.

2. The Office of Research also tracks non-financial external support for University research - such items include free supplies involved in experiments, access to off-campus equipment, computer or other facilities and ship-time for researchers at sea.

3. Included in the 'Other' category are grants and/or awards for:

Conferences/workshops/symposia	Equipment
Fellowship	General support awards
Infrastructure	In-kind
Scholarship	Ship-time
Studentship	Research chairs
Research personnel awards	Travel

4. In addition to the standard operating grant, the category of Operating Grants includes the following:

Collaborative project grants	Collaborative special projects
Lithoprobe	Development
Partnership	Publication
Strategic	Team

5. In-kind is not regarded as a funding category. Instead, it is recorded as a type of funding like cash. All in-kind counts have already been included in the various funding categories. For example, if a sponsor provides an in-kind contribution as an operating grant, one operating grant is counted. In 2007-08, there were 68 in-kind awards.

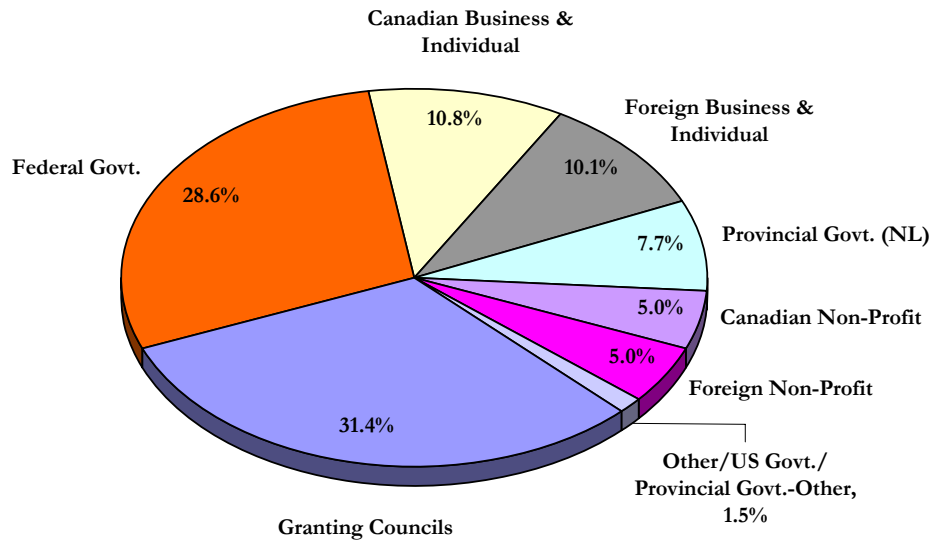

6. Revenue earned by the Marine Institute for industry response, and applied research and development activities is not included in this report.

7. Operating Grants are awarded to individuals or teams to cover part or all of the direct costs of particular research projects. They often include provisions for salaries paid to graduate students and other assistants, the University's share of fringe benefits costs, and the expense of materials, technical services, field travel and computing.

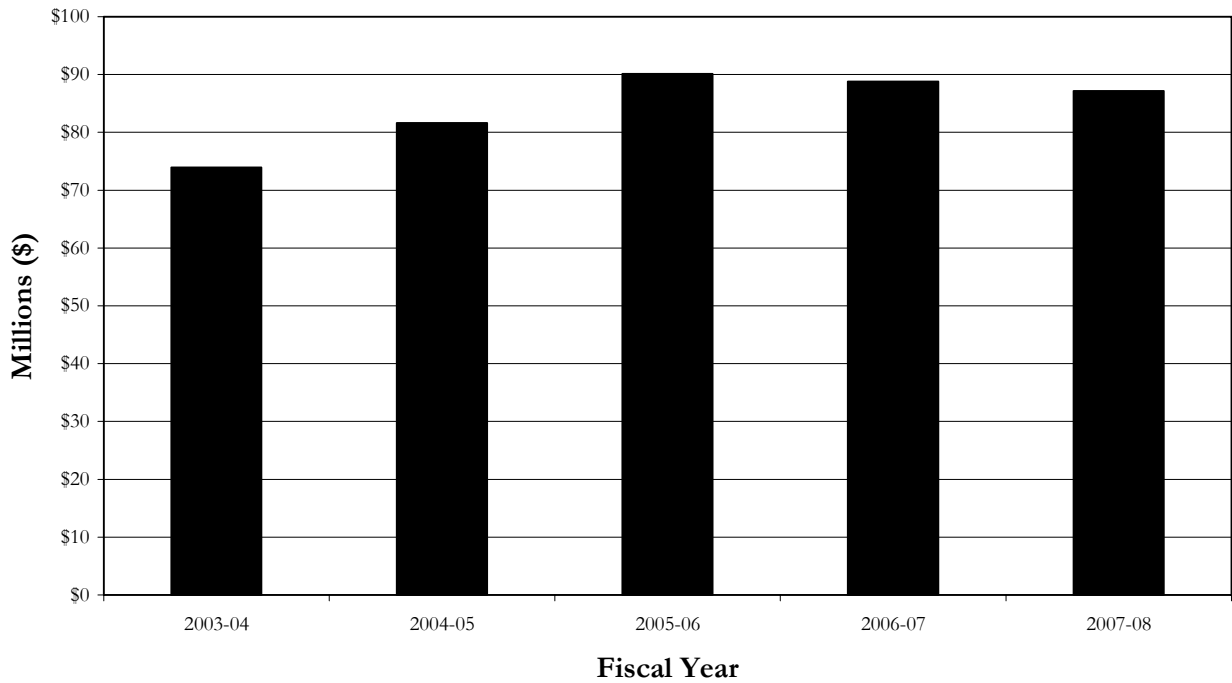

8. Operating Contracts are similar to operating grants but involve a contractual agreement that is more formal than the terms of a conventional grant. By means of a contract, the sponsor normally acquires an interest in the results of the research and can enforce strict time, scope and reporting requirements; University policy, however, is that investigators retain the right to publish, subject to a reasonable deferral period.

9. There is a difference in award counts in Tables 22 and 24; Table 22 counts *actual awards* whereas Table 24 counts the *contributions from the various sponsor categories*. For example, an award provided by two sponsors would be counted as one award in Table 22, but as two contributions in Table 24. As a result, the total number of award counts for Table 24 for 2007-08 is 46 higher than for Table 22.
