INTRODUCTION

The Centre for Institutional Analysis and Planning (CIAP) is pleased to present our 32th annual *Fact Book*. This publication is available in both a printed and an electronic format. You will find the electronic version, plus other reports and information on our web page at *www.mun.ca/ciap*.

Over the course of the academic year, University offices responsible for maintaining permanent records are called upon to satisfy the data requirements of a variety of users. We realize that no project of this scope can be all things to all people; therefore, some readers may have questions that are not completely answered by this book's contents. Before you begin your analysis, please note the following items that apply to the entire publication; issues that are specific to particular sections have been presented at the beginning of that section.

Where data in a table is an aggregate of several components, this book presents the data in a series of related tables. The first table shows the combined totals, and subsequent tables in the series show the individual components. For example, Table 5 has three segments: 5A describes total students graduate and undergraduate enrolment by faculty and school; and Tables 5B and 5C show the full-time and part-time components respectively. In addition, due to the similarity of many of the tables, please read the title and any footnotes carefully.

This document is the end product of data and suggestions that were contributed by the following departments. We are grateful to the staff of:

- ✓ Alumni Affairs and Development
- ✓ Financial and Administrative Services
- ✓ Human Resources
- ✓ Marine Institute
- ✓ Office of Research Services
- ✓ Office of the Registrar
- ✓ University Library
- ✓ Distance Education, Learning and Teaching Support

If you would like further information regarding any tables found either in this publication or on our web page, the Centre for Institutional Analysis and Planning (864-4016) will be pleased to assist.

Student Profile

Notes

The data found in this section of the *Fact Book* have been compiled by the Office of the Registrar from their computerized files. The following definitions (as found in the University *Calendar,* www.mun.ca/regoff/calendar) and explanations should be noted:

Definitions:

1. Undergraduate students are categorized as follows:
    * first-year students have earned fewer than 18 credit hours;
    * second-year students have earned from 18 to 47 credit hours inclusive;
    * third-year students have earned from 48 to 77 credit hours inclusive;
    * fourth-year students have earned from 78 to 107 credit hours inclusive; and
    * fifth-year students are those who have earned not fewer than 108 credit hours.

2. Full-time undergraduate students: students who have been admitted to this University and who are registered in at least nine credit hours for the duration of any semester or at least five credit hours in a session are deemed full-time students (reference University *Calendar* 2020-2021). (For full-time undergraduate student classification as it pertains to the programs at the Marine Institute, work-term students and members of University committees, see University *Calendar* 2020-2021, section 6.1.) Part-time undergraduate students: students who have been admitted to this University and who are registered for fewer then nine credit hours in any semester or fewer than five credit hours in any session (reference University *Calendar* 2020-2021).

3. A graduate student is one who has been admitted to a graduate degree or a graduate diploma program. A full-time graduate student is one who registers as such, devotes full time to his or her academic program and may not commit more than 24 hours a week working time, including teaching assistant or research assistant duties, to matters other than the degree program (reference University *Calendar* 2020-2021. A part-time graduate student is one who is registered for the duration of a semester and is not classified as full-time (reference University *Calendar* 2020-2021).

4. Full-time equivalent (FTE) enrolment is computed as full-time enrolment + (part-time enrolment/3.5).

Explanations:

1. Only enrolment data from the **Fall Semester** are shown in this *Fact Book*.

2. Enrolment data, for all tables, are compiled as of the end of the regular registration period which is two weeks after the start of classes. Data for Tables S3, S4, S4A and S8 are generated after Fall convocation.

3. Beginning in 2003-2004, Table S1 and Table S2 full-time and part-time undergraduate enrolment includes level '04' Diploma in Information Technology students. Level '04' enrolment is now included in the following Tables of the Student Profile: Table S5, S7A, S9, S11, S12 and S13.

4. Data recorded are as indicated on students' application for admission/readmission and other appropriate forms.

5. The 'unspecified' category in student enrolment includes 'not applicable', 'not specified', 'undeclared', and 'other'.

6. Tables S16, S17 and S18 refer to students attending the Marine Institute.

7. After 2004, the methodology for Tables S12, S13, S14 and S15 data are based on enrolled students' citizenship and permanent residence at the time of application.

As the Fall/2020 was delivered remotely, all technical certificate programs had a delayed start to Winter/2021. January 2021 enrolment for technical certificates is included in the 2020-21 data.

*** MI has transitioned to a new system for registering students in industrial training courses. As of 2018-19, enrolment includes some MI diploma and certificate students who were not previously registered in this system. As of 2016/17, there has been a change in how industry response enrolment is assigned to units. This does not change total enrolment, but should be considered when comparing industry response enrolment by unit to prior years. Industrial response training was largely suspended in mid-March 2020 due to the COVID-19 pandemic.

Financial Profile

Notes

The figures for University Operations are extracted from the Consolidated Financial Statements and the Unaudited Supporting Schedule of the annual audited statements.

Departmental expenditures include the cost of fringe benefits, staff recruitment and staff settlement expenses.

Note 1:   Faculty of Medicine includes operating costs for physical plant and technical services.

Note 2:   Figures for the Marine Institute include costs for transportation, marine and operational building services. Figures for general building services such as heat and light, and snow clearing, which is provided by the provincial Department of Works, Services and Transportation, are not included.

Note 3:   The figures for Grenfell Campus include operating costs for physical plant.

Note 4:   Expenditures for Technical Services are netted against internal recoveries.

Note 5:   In accordance with CPA (Certified Professional Accountants) recommendations with regard to employee future benefits, Memorial University of Newfoundland recognizes and reports the future liabilities resulting from the accrual of vacation pay entitlements, severance and other post employment benefits, voluntary early retirement incentives, and the supplemental retirement incentive fund.

Figures may vary from audited financial statements due to restatement of prior years' figures if required.

Research Profile

Research Profile Notes

1. The data used in these tables have been compiled from the records of the Office of Research, which provides an annual *Inventory of Sponsored Projects* of funded research projects after circulating preliminary lists to faculties and departments for crosschecking. The Office of Research figures are derived from notices of awards sent to successful applications. In some cases, researchers receive more or less money in a given year than is originally pledged and recorded.

2. The Office of Research also tracks non-financial external support for University research - such items include free supplies involved in experiments, access to off-campus equipment, computer or other facilities and ship-time for researchers at sea.

3. As of 2015/16 the category of "Other Grants" which included: chairs, conferences/workshops/symposia, general support grants, infrastructure, research personnel awards, travel, equipment and in-kind support., is no longer a separate category. These amounts are now included in the appropriate line item under Operating Grants.

4. In addition to the standard operating grant, the category of Operating Grants includes the following:

* Collaborative project grants   * Collaborative special projects
* Lithoprobe   * Development
* Partnerships   * Publication
* Strategic   * Team

5. In-kind is not regarded as a funding category. Instead, it is recorded as a type of funding like cash. All in-kind counts have already been included in the various funding categories. For example, if a sponsor provides an in-kind contribution as an operating grant, one operating grant is counted.

6. Revenue earned by the Marine Institute for applied research and development activities is included in this report; however, revenue from industrial response training or other education and training programs is not included.

7. Operating grants are awarded to individuals or teams to cover part or all of the direct costs of particular research projects. They often include provisions for salaries paid to graduate students and other assistants, the University's share of fringe benefits costs, and the expense of materials, technical services, field travel and computing.

8. Operating Contracts are similar to operating grants but involve a contractual agreement that is more formal than the terms of a conventional grant. By means of contract, the sponsor normally acquires an interest in the results of the research and can enforce strict time, scope and reporting requirements. University policy, however, stipulates that investigators retain the right to publish, subject to a reasonable deferral period.

9. There is a difference in award counts in Tables R1 and R3. Table R1 counts *actual awards* whereas Table R3 counts the *contributions from the various sponsor categories*. For example, an award provided by two sponsors would be counted as one award in Table R1, but as two contributions in Table R3. Similarly, the funding of an award from one sponsor could be proportionately credited between academic units engaged in interdisciplinary research. This will result in a count of two awards in Table R1 but only one award in Table R3. As a result of these practices, the net difference between Table R1 and Table R3, for 2013-14 is 12, -2014-15 is 13, 2015-16 is 7, 2016-17 is 12, 2017-18 is 12

Alumni and Development Profile

MEMORIAL UNIVERSITY ALUMNI

Memorial University of Newfoundland is an exciting place for our students to study, encompassed within a culture and landscape unique from all other learning institutions. Students from across the province, the country, and around the world come to Memorial because they know that the education they receive here will empower them to succeed in whatever path they wish to travel in life. Currently Memorial has approximately 110,000 alumni that are involved in all sorts of areas of study, from conducting environmental research in the high Arctic, to pursuing a high profile career in global economics and international politics, to researching and discovering new breakthroughs in medicine and technology. At Memorial, we provide our students with the foundation they need to succeed and in return our alumni represent Memorial proudly in whatever they choose to pursue.

Online Education Profile

ONLINE LEARNING
## CENTRE FOR INNOVATION IN TEACHING AND LEARNING (CITL)

Committed to serving the university community online and on campus, CITL is Memorial's lead in delivery of online courses and programs, the provision of opportunities for educator development, and the integration and support for the effective use of technologies in teaching to engage learners and enhance the learning experience. Specifically, CITL's core functions include:

- Developing, delivering and supporting Memorial's online offerings, which include nearly 500 undergraduate and graduate courses, and 37 fully online and mixed mode programs.
- Providing support services for educators and learners (on campus and online) who use Brightspace or any educational technologies administered by the department, including administering exams for online offerings.
- Integrating educational technologies into on-campus courses and classrooms, and supporting instructors with appropriate technology training.
- Providing development opportunities to educators and graduate students to improve teaching practice.

Technologies designed and adopted for online delivery have been widely integrated into on-campus offerings. In the 2019-20 academic year 4,562 on-campus course sections used technology to enhance course delivery.
