COVID-19
Campus Access
UPDATED APRIL 2020
www.mun.ca

Overview
During the COVID-19 pandemic, information continues to change and evolve as we move into a new normal of work at Memorial. We understand these are challenging and unprecedented times not only at Memorial, but around the world. Although many are remotely working, it is recognized some employees may have to access campus. Please follow building access controls in place.

Controls for Approved Access to Campus

- Please do not come to campus if you are exhibiting flu-like symptoms. These symptoms may include fever (or signs of a fever such as chills, sweats, muscle aches and lightheadedness), cough, headache, sore throat or runny nose.

- Please do not come to campus if you are self-isolating, or have traveled outside Newfoundland and Labrador within the past 14 days.

- Wash your hands often, for at least 20 seconds with soap and warm water or in the absence of water use an alcohol based hand sanitizer. Clean hands before, during and after leaving campus.

- Avoid close contact with people who are sick. Avoid touching your eyes, nose and mouth.

- Cover coughs or sneezes with a tissue, then throw the tissue in the trash.

- Clean and disinfect frequently touched objects and surfaces.

- While on campus, maintain a physical distance of 2 metres from other people in order to stop, slow down or contain the spread of COVID-19. Everyone has a part to play in reducing the spread of COVID-19.

- Read and comply with signage posted on exterior building doors for any additional information.

- Parking permits issued until April 30 will continue to be honored until renewals can proceed. Parking enforcement has also stopped during this time; however, health and safety violations will be enforced (i.e. blue zone, fire lanes, etc.).
