

<b>Charges for Instrument Time:</b>				
<b>Analysis</b>	<b>Internal (Unassisted Student Rate)</b>	<b>Internal</b>	<b>External (Non-Commercial)</b>	<b>External (Commercial)</b>
<b>SEM-EDX (Scanning Electron Microscope – Energy Dispersive X-ray)<sup>1</sup></b>	\$40.00/hr	\$40.00/hr	\$50.00/hr	\$100.00/hr
<b>MLA (Mineral Liberation Analyzer)<sup>2</sup></b>				
<b>Grain Mounts</b>	N/A	\$40.00/hr	Contact for Quote	Contact for Quote
<b>Thin Sections</b>	N/A	\$300.00ea	\$500.00ea	Contact for Quote
<b>EBSD (Electron Backscatter Diffraction)</b>	N/A	\$40.00/hr <sup>3</sup>	Contact for Quote	Contact for Quote

**Notes:**

- Minimum SEM session is 3 hours.
- MLA applications require instrumental time for data acquisition and for preliminary processing. Clients and users must keep this in mind when reserving time and estimating costs. When deemed it is the facility's responsibility for all data processing, an additional rate of \$75.00/hr will apply.
- Up to a maximum cost of \$450.00 per day.

<b>Specimen Preparation</b>			
<b>Unprepared Samples</b>	Specimen preparation is sample dependent and will be charged at an hourly rate. Examples include: sieving and/or rifling, drying and cleaning.	\$75.00/hr	
<b>Prepared Samples</b>	For clients who have prepared, or have specimens ready for mounting/polishing the following charges apply:	Epoxy embedded polished grain mounts	\$40.00ea
		Trans-vertical grain mounts	\$50.00ea
<b>Carbon/Gold Coating</b>	No charge
