

FIRST-YR FRENCH Conversation classes – INTERSESSION/SPRING 2021

- Conversation hours are carefully prepared by DLC monitors and may consist of a variety of activities in the target language, such as, for example:

Conversational topics or activities from a chapter in your text.

Final Interview practice

A subject you wish to talk about

The occasional game or two!

- Conversation classes **are not drop-in sessions**. Please make an effort to be on time and arrive in the Online Room at the beginning of the scheduled hour.
- Oral practice in a second language; i.e. speaking it regularly, is bound to help you master the grammatical rules that you have learned during class. The more you speak the target language, the better your proficiency should get! You want a better mark in the course? Come and practice.

Interession and Spring 2021 French conversational practice sessions begin **ONLINE on May 10th and go ahead until June 18; August 7th, respectively.**
