ENERGY SECTOR EXPERIENCE

Ikeja Electric Plc - Lagos, Nigeria

One of Nigeria's largest electricity distribution companies

Billing & Data Specialist (Business Operations) | Dec 2018 – Aug 2024

- Managed and analyzed large-scale customer, billing, and consumption datasets supporting electricity distribution operations.
- Ensured billing accuracy through audits, reconciliation, and verification of tariff and metering data.
- Produced analytical reports on revenue performance, billing efficiency, and consumption trends to support management decisions.
- Collaborated with technical, commercial, and customer service teams to resolve billing discrepancies and improve service delivery.
- Maintained detailed documentation on billing processes, performance indicators, and operational trends.

Debt Management Specialist

- Monitored outstanding customer debt and supported revenue recovery and loss-reduction initiatives.
- Analyzed payment behavior and customer risk profiles to inform targeted debt management strategies.
- Coordinated with field teams and customer relations units to resolve delinquent accounts while maintaining regulatory compliance.

Energy Sales Supervisor

- Supervised and trained energy sales representatives responsible for customer acquisition and revenue growth.
- Set performance targets aligned with utility revenue and operational goals.
- Assessed market demand and customer behavior to improve sales effectiveness and tariff awareness.

Energy Sales Representative

- Engaged residential and commercial customers on electricity services, tariffs, and energy-use education.
- Supported customer onboarding, metering awareness, and billing literacy initiatives.

ENERGY SECTOR TRAINING & FUNCTIONAL KNOWLEDGE

- Formal and on-the-job training across the electricity value chain: generation, transmission, and distribution.
 - Practical understanding of regulated electricity markets, utility structures, and revenue flows.
 - Expertise in energy accounting, billing systems, tariff structures, and metering processes.
 - Experience in energy marketing, customer engagement, and demand growth strategies.
 - Strong background in revenue assurance, debt recovery, and utility performance optimization.
-

ADDITIONAL EXPERIENCE

Inventory Associate – Buske Line Canada, Windsor, ON | Oct 2024 – Apr 2025

Maintained accurate inventory records and conducted physical counts.

Assisted with inventory analysis, reporting, and discrepancy resolution.

Monitoring & Evaluation Analyst (Volunteer) – Child Lifeline, Lagos, Nigeria | 2015–2018

- Designed analytical templates for monthly and annual performance reporting.
 - Conducted monitoring and evaluation analysis to support program effectiveness and resource planning.
