## Summary

Hard-working and reliable student in the Master of Arts in Economics program at Memorial University. Performed exceptionally well during my studies and have obtained skills and knowledge in both economics and statistics.

## Experience

### Research Assistant. (October 2025-Ongoing)

- Meticulously went through encyclopedias and old maps of Newfoundland to create a data set that identifies communities existing since the 1700s.

### Service Canada Call Center Worker and Student Associate. (April-August 2021)

- First, helped people login into their Service Canada Account through their call center
- Changed to a position where I assisted with Labour Market News for the Atlantic Provinces, creating short and concise summaries of recent news
- Also worked with data processing in MS Excel for compiling information on potential hires

## Education

### Memorial University of Newfoundland 2025-Ongoing

- Completing a Master of Arts in Economics
- 90.2 Average (4.0 GPA) in first term

### Memorial University of Newfoundland 2018-2023

- Completed a Bachelor of Science, majoring in both Statistics and Economics in 2023
- Named to the Dean of Science Dean's List for 2018-2019 and 2019-2020
- Recipient of the Memorial University Golf Tournament Scholarship in 2020

## Skills

- Bilingual, completed French Immersion throughout grade school
- Familiar with the Python and R programming languages, as well as some HTML
- Knowledge and experience with MS Office, particularly MS Excel
- Experience with working on larger group projects due to being a Shad Canada alumni
