

Open Discussion on:

The State of the NL Economy

APRIL 24TH 12:15-1:45 PM.
ARTS AND ADMINISTRATION
BUILDING ROOM A1043

CARE (Collaboration on Applied Economic Research) is hosting the discussion in light of the recent (April 2019) budget and forthcoming election. CARE's three Principal Investigators will open the session with brief commentaries on past, current, and future provincial economic indicators. Scott Lynch will cover the main macro indicators on growth, inflation, capital investment and debt. Wade Locke will deal with resources, taxes and expenditures and Doug May will cover labour markets and demographics. Over half of the time will be allocated to comments and questions from the audience which hopefully will include concerned citizens, as well as members of the voluntary sector, the labour movement and business community. Free parking (Lot 27 gravel) as well as light refreshments will be available.

Since we want to be able to accommodate all those who wish to attend, CARE would appreciate it if you would email us your intention to participate in this event.
