

**KATHLEEN VAILLANCOURT, PH. D.
MBA**

**PRESIDENTE, ESMIA
CONSULTANTS INC. MONTREAL,
QC, CANADA**

Kathleen Vaillancourt has been an energy modeling consultant and researcher for the past 15 year. She has specialized in the development of energy-economy-environment models and their applications for energy and climate policy analysis. She is involved in the Energy Technology Systems Analysis Program (ETSAP) of the International Energy Agency (IEA) where she provides in-person training and online technical support on how to develop energy models for strategic decision making.

“Impact of the Trans Canada Pipeline on the Oil and Gas Industry in Newfoundland and Labrador”
