The Faculty of Engineering and Applied Science at Memorial University invites applications to fill a three-year teaching term position, expected to commence in July 2017, or soon thereafter. The successful candidate will be expected to teach courses appropriate to their background in first-year engineering such as statics, programming, graphics and design, mechanisms and electric circuits; common courses among disciplines such as engineering professionalism; and other courses later in the program related to their discipline. Candidates with a passion for curriculum innovation and teaching pedagogy are particularly encouraged to apply. Past teaching experience would be an asset.

The successful applicant should hold an undergraduate degree and PhD degree in any of the engineering disciplines. Candidates with outstanding teaching potential or credentials without a PhD degree, however, will also be considered. The successful candidate will be expected to register with Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL). Rank and salary will be commensurate with qualifications of the successful applicant.

Memorial University is Newfoundland and Labrador’s only university, and plays an integral role in the educational and cultural life of the province. Offering diverse undergraduate and graduate programs to over 18,000 students, Memorial provides a distinctive and stimulating environment for learning. St. John’s is a safe, friendly city with great historic charm, a vibrant cultural life, and easy access to a wide range of outdoor activities. For further information about Memorial, please visit www.mun.ca.

The deadline to receive applications is April 30, 2017. Candidates should forward an electronic application indicating: (a) a curriculum vitae, (b) statement of teaching philosophy (maximum 2 pages), and (c) the names and complete contact information of three referees. All applications should be forwarded to:

Dr. Greg Naterer, Dean  
Faculty of Engineering and Applied Science  
Memorial University of Newfoundland  
St. John’s, Newfoundland, Canada A1B 3X5  
dean.engineering@mun.ca

REFERENCE: ENGI-2016-006

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority. Memorial University of Newfoundland is committed to employment equity and encourages applications from qualified women and men, visible minorities, aboriginal people, and persons with disabilities.
