Memorial University of Newfoundland

Department of Ocean and Naval Architectural Engineering

Tenure-Track Assistant Professor Position

Applications are invited for a tenure-track faculty position at the Assistant Professor level commencing August 1, 2017 or earliest thereafter, in the area of ship/offshore structure design by simulation. Demonstrated human factors engineering competencies would be an asset. Candidates must have a bachelor’s degree in Ocean and Naval Architectural engineering and an earned Ph.D. degree in the area of expertise. Rank and salary will be commensurate with qualifications and experience.

The successful candidate will be expected to participate in the academic programs of the Department, including teaching undergraduate courses, developing undergraduate laboratories, supervising graduate students, teaching courses in thesis-based and course-based graduate programs, and other educational, scholarly, and professional activities. An ability to teach a broad range of ocean and naval architectural engineering courses would be an asset. In addition, the successful candidate will be expected to carry out multi-disciplinary, collaborative research with industry, government institutions, and other university researchers. The successful candidate is expected to register as a professional engineer in Newfoundland and Labrador.

The Ocean and Naval Architectural Engineering Department has a well-established, nationally and internationally recognized co-operative undergraduate program. It has very active graduate studies and research programs. For further information on the Faculty of Engineering and Applied Science and the Ocean and Naval Architectural Engineering Department, please visit www.engr.mun.ca.

Memorial is the largest university in Atlantic Canada. Being the province’s only university, Memorial plays an integral role in the educational and cultural life of Newfoundland and Labrador. Offering diverse undergraduate and graduate programs to almost 18,000 students, Memorial provides a distinctive and stimulating environment for learning. St. John’s is a safe, friendly city with great historic charm, a vibrant cultural life, and easy access to a wide range of outdoor activities. For further information about Memorial, please visit www.mun.ca.

Applications should include a curriculum vita, names of three referees, and a one-page statement of teaching and research interests. Copies of three relevant technical publications may also be included. Please send applications to:
