Applications are invited for a three-year contractual faculty position in the area of oil and gas engineering at the lecturer level, commencing July 1, 2017, or earliest thereafter. Salary will be commensurate with qualifications and experience. The successful applicant will be expected to effectively teach at both undergraduate and graduate levels in oil and gas engineering and process engineering.

Applicants should have a PhD degree in petroleum/oil and gas engineering, chemical engineering, process engineering or closely related discipline and have expertise in upstream oil and gas, preferably in one or more of the following areas: production engineering, well integrity, natural gas engineering, flow assurance, or process equipment design and optimization. Work experience in the oil and gas, chemical, or process industries would be an asset. The successful applicant will be expected to register as a P.Eng. with Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL).

The Faculty offers accredited undergraduate programs in civil engineering, computer engineering, electrical engineering, mechanical engineering, ocean and naval architectural engineering and process engineering following a fully integrated co-operative education model. The oil and gas engineering stream is offered as a part of the process engineering undergraduate program. At the graduate level, there are thesis-based master’s and doctoral programs in oil and gas engineering and process engineering, and a course-based graduate program, leading to a master of applied science (M.A.Sc.) in oil and gas engineering. For more information on the Faculty of Engineering and Applied Science, visit http://www.mun.ca/engineering/.

Memorial University is one of the largest universities in Atlantic Canada. As the province’s only university, Memorial plays an integral role in the educational and cultural life of Newfoundland and Labrador. Offering diverse undergraduate and graduate programs to almost 18,000 students, Memorial provides a distinctive and stimulating environment for learning
in St. John’s, a safe, friendly city with great historic charm, a vibrant cultural life, and easy access to a wide range of outdoor activities. For further information about Memorial, please view the website at http://www.mun.ca.

Applicants should send a curriculum vita, the names and addresses of three referees, a one-page statement of teaching interests, and copies of three relevant technical publications to:

**Dr. Faisal Khan, Head**  
**Department of Process Engineering**  
Faculty of Engineering and Applied Science  
Memorial University of Newfoundland  
St. John's, Newfoundland, Canada, A1B 3X5  
Phone: (709) 864-7859  
REFERENCE: ENGI-2017-002  
Email: Engr.Process@mun.ca

The deadline to receive applications is Monday, May 1, 2017.

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority. Memorial University is committed to employment equity and encourages applications from qualified women and men, visible minorities, aboriginal people and persons with disabilities.
