MEMORIAL UNIVERSITY OF NEWFOUNDLAND

Tenure-Track Assistant Professor in Transport Phenomena

The Department of Process Engineering in the Faculty of Engineering and Applied Science at Memorial University of Newfoundland invites applications for a tenure-track assistant professor position in the area of transport phenomena. Rank and salary will be determined based on the qualifications of the successful applicant.

The successful applicant will be expected to develop and teach courses in the area of transport phenomena that include, but are not limited to heat transfer, fluid dynamics and mass transfer at both undergraduate and graduate levels. In addition, the successful candidate should also establish and sustain a vigorous research program in process engineering areas aligned with Memorial’s strategic research priorities, http://www.mun.ca/research/explore/srip/.

Applicants should have bachelor and PhD degrees in chemical engineering, process engineering or closely related discipline and have teaching and research interests in the field of transport phenomena. Experience working in or collaborating with processing industries will be an asset. The successful candidate is expected to register as a professional engineer in Newfoundland and Labrador.

Memorial University is Newfoundland and Labrador’s only university, and plays an integral role in the educational and cultural life of the province. Offering diverse undergraduate and graduate programs to over 18,000 students, Memorial provides a distinctive and stimulating environment for learning. St. John’s is a safe, friendly city with great historic charm, a vibrant cultural life, and easy access to a wide range of outdoor activities. For further information about Memorial, please visit www.mun.ca.

The deadline to receive application is March 31, 2017. Applications should be sent as a single file with a curriculum vitae, names and contact information of three referees, a statement of teaching and research interests, and copies of three relevant technical publications to:

Dr. Faisal Khan, P.Eng.
Head, Department of Process Engineering
Faculty of Engineering & Applied Science
Memorial University, St John’s, NL, A1B 3X5
