Applications are invited for a three-year contractual faculty position as a lecturer in the area of process engineering, with a focus on transport phenomena, commencing on December 2018 or soon thereafter. The salary will be commensurate with qualifications and experience. The successful applicant will be expected to effectively teach at both undergraduate and graduate levels in process engineering and oil and gas engineering.

Applicants should have a PhD degree in chemical engineering, process engineering, petroleum engineering, or a closely related discipline with a bachelor’s degree in chemical or process engineering and have expertise in one or more of the following areas: heat transfer, mass transfer, fluid dynamics, flow assurance, process design and process modeling and optimization. Work experience in the process, chemical and/or oil and gas industries would be an asset. The successful applicant will be expected to register as a P.Eng. with Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL).

The Faculty offers accredited undergraduate programs in civil engineering, computer engineering, electrical engineering, mechanical engineering, ocean and naval architectural engineering and process engineering, following a fully integrated co-operative education model. The oil and gas engineering stream is offered as a part of the process engineering undergraduate program. At the graduate level, there are thesis-based master’s and doctoral programs in oil and gas engineering and process engineering, and two course-based graduate programs; namely, master of applied science (M.A.Sc.) in oil and gas engineering and master of applied science (M.A.Sc.) in safety and risk engineering. For more information, visit [http://www.mun.ca/engineering/](http://www.mun.ca/engineering/).

Memorial University is one of the largest universities in Atlantic Canada. As the province's only university, Memorial plays an integral role in the education and cultural life of Newfoundland and Labrador. Offering diverse undergraduate and graduate programs to almost 18,000 students, Memorial provides a distinctive and stimulating environment for learning in St. John's, a safe friendly city with great historic charm, a vibrant cultural life and easy access to a wide range of outdoor activities. For further information about Memorial, please view the website at [http://www.mun.ca](http://www.mun.ca).

Applicants should send curriculum vitae, names and addresses of three referees, a one-page statement of teaching interests and copies of three relevant technical publications to:
The deadline to receive applications is Monday, October 15, 2018.

Memorial University is committed to employment equity and encourages applications from qualified women and men, visible minorities, aboriginal people and persons with disabilities. As part of Memorial University’s commitment to employment equity, all applicants are invited to identify themselves as a member of a target group(s) as appropriate. Applicants cannot be considered as a member of a target group(s) unless they complete an employment equity survey. If you do not receive a survey or have any questions, please contact equity@mun.ca. This position is subject to final budgetary approval.
