

ENGINEERING AND
APPLIED SCIENCE

**WHERE
ENGINEERING
GOES BEYOND**

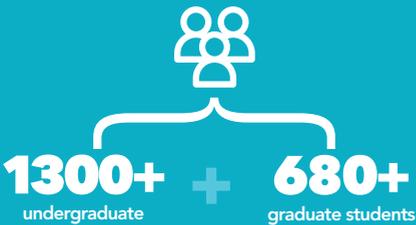

When you study at Memorial's Faculty of Engineering and Applied Science, you have choices.

Located in St. John's, the provincial capital city of Newfoundland and Labrador, Canada, you will feel right at home in this unique place with its modern amenities and world-class natural beauty. Learn, research and grow with us!

Statistics

6 accredited undergraduate programs

20+ course and research based graduate programs

1,200 co-op undergraduate work term placements per year in Canada and worldwide

more than **10 million** per year in annual research funding

25+ research centres and research laboratories

Nationally and internationally recognized faculty members including **19 fellows** of the Canadian Academy of Engineering, the Royal Society of Canada, and more

6 majors at the undergraduate, master's and PhD levels:

- Civil engineering
- Computer engineering
- Electrical engineering
- Mechanical and mechatronics engineering
- Ocean and naval architectural engineering
- Process engineering

Memorial Engineering at World University Rankings:

Times Higher Education (THE), 2022

- Top 251-300 in Engineering and Technology

Shanghai Ranking, 2022

- Top 38 in Marine/Ocean Engineering
- Top 76-100 in Oceanography; Telecommunications Engineering; and Remote Sensing
- Top 301-400 in Chemical Engineering; and Electrical and Electronic Engineering
- Top 401-500 in Environmental Science and Engineering

QS World University Ranking, 2022

- Top 51-100 in Petroleum Engineering
- Top 351-400 in Electrical and Electronic Engineering
- Top 501-520 in Mechanical Engineering

QS World University Ranking, 2022

- No. 28 in Life Below Water
- No. 64 in Industry, Innovation and Infrastructure
- Top 101-200 in Quality Education; Gender Equality; and Partnerships
