The Department of Civil Engineering at Memorial University invites applications for a tenure-track faculty position at the rank of assistant professor in the area of environmental engineering. The position will commence September 1, 2023 or earliest thereafter. Desired areas of research should be in line with the Memorial University Strategic Research Theme of Environment, Energy and Natural Resources, and complementary to the current research areas in the Department of Civil Engineering. Demonstrated competencies or experience in the areas of hazardous and solid waste management, resources recovery, renewable energy, water and wastewater treatment, soil pollution and remediation, as well as transport/fate/impact evaluation of contaminants in natural and engineered environments would be an asset. Applicants should hold an undergraduate degree in civil engineering and a PhD degree in civil/environmental engineering, with a proven ability for excellence in both teaching and research.

The successful candidate will participate in the academic programs of the Department of Civil Engineering, including teaching undergraduate and graduate courses; developing undergraduate laboratories; supervising research by graduate students, as well as undergraduate students and postdoctoral fellows; and other educational, scholarly, and professional activities. An ability to teach a broad range of civil engineering courses and established teaching record will be an asset. The successful candidate will be expected to seek out research funding, build an active research program and team, and, as appropriate, collaborate with partners in industry, government, and academia. Established research record will be an asset. The successful candidate will be expected to register as a professional engineer in Newfoundland and Labrador. The Department of Civil Engineering values diversity among its faculty and strongly encourages applications from women as well as all other groups of underrepresented applicants. Salary and rank will be commensurate with qualifications and experience.

The Department of Civil Engineering has a well-established, nationally and internationally recognized co-operative undergraduate program. Its graduate studies and research programs are vibrant and innovative. For more information on the Department of Civil Engineering, please visit https://www.mun.ca/engineering/civil/

Perched on Canada’s North Atlantic coast, Memorial University of Newfoundland is a destination for discovery. A beacon for the 21st-century explorer, Newfoundland and Labrador’s university is a unique learning community founded as a living memorial to those who lost their lives in the First World War — “that in freedom of learning their cause and sacrifice might not be forgotten.” Today more than 19,000 students from 115 countries come together to discover. From the classics to advanced technology, the university offers certificate, diploma, undergraduate, graduate and postgraduate programs across six campuses, numerous locations and online. A global network of more than 100,000 accomplished alumni throughout the world strengthens Memorial University’s capacity and reputation for leadership in world-class research, teaching and public engagement. For further information about Memorial, please visit www.mun.ca.

The deadline to receive applications is April 30, 2023. Candidates should forward an electronic application indicating the position to which they are applying in the subject line with the correct reference. Applications should include (a) curriculum vitae, (b) a statement of teaching philosophy (maximum two pages) (c) research interests and five-year proposed research program (maximum five pages) (d) statement on equity diversity and inclusion (maximum two pages) (e) names and complete contact information of three referees, and (f) copies of at least three most significant contributions and relevant technical publications. All applications should be forwarded to:
All qualified candidates are encouraged to apply; however, citizens and permanent residents of Canada will be given priority. Memorial University is committed to employment equity and diversity and encourages applications from all qualified candidates, including women; people of any sexual orientation, gender identity, or gender expression; Indigenous peoples; visible minorities, and racialized people; and people with disabilities.

As part of Memorial University’s commitment to employment equity, all applicants are invited to identify themselves as a member of a target group(s) as appropriate. Applicants cannot be considered as a member of a target group(s) unless they complete an employment equity survey. If you do not receive a survey or have any questions, please contact equity@mun.ca.
