

Speaker

**DR. RAY
GOSINE**

Vice-president
(research) *pro tempore*
Memorial University

In October 2014, an independent panel was appointed by the Minister of Natural Resources, Government of Newfoundland and Labrador, to conduct a public review of the socio-economic and environmental implications of hydraulic fracturing in Western Newfoundland. The mandate of the panel was also to make recommendations on whether or not hydraulic fracturing should be undertaken in Western Newfoundland.

In this presentation, Dr. Ray Gosine, chair of the Independent Public Panel, provides an overview of hydraulic fracturing operations in the context of Western Newfoundland, discusses the review process developed by the panel and presents the 2016 findings of the panel and its

recommendations to the Government of Newfoundland and Labrador.

Dr. Gosine is vice-president (research) *pro tempore*, Memorial University. He holds degrees from Memorial and Cambridge University. Dr. Gosine was formerly dean of the Faculty of Engineering and Applied Science at Memorial. He currently serves on board of directors for the Health Research Ethics Authority and for the Canadian Engineering Accreditation Board and he served as chair of the Professional Engineers and Geoscientists of Newfoundland and Labrador. He is a Fellow of the Canadian Academy of Engineers and a Fellow of Engineers Canada.
