

Have you ever wondered ... how diversity strengthens engineering?

PANELISTS

GLORIA MONTANO

President
Women in Science and Engineering
Newfoundland and Labrador (WISE NL)

JANNA ROSALES

Assistant Professor
Faculty of Engineering and Applied Science
Memorial University of Newfoundland

CECILIA MOLONEY

Professor
Faculty of Engineering and Applied Science
Memorial University of Newfoundland

The message isn't new. We need more engineers, especially women. But after more than 30 years of study and work to create more diversity in engineering, why aren't we reaping the benefits?

Panelists will summarize the current state of women in engineering in Newfoundland and Labrador, including examples of the impact that Newfoundland and Labrador women have made outside of the province; present workforce perspectives on the 20th Century versus the 21st Century engineer; and discuss engineering education for a changing world not only from women's perspectives but from perspectives on "diversity" understood more broadly.

Also included will be thoughts on how public engagement can inform and influence how and where our engineers can apply their skills and knowledge for the broader benefit of our society.

Thursday, Feb. 13, 2014, 7:30 p.m.

MEMORIAL UNIVERSITY | ST. JOHN'S CAMPUS
S.J. CAREW BUILDING | ROOM EN2006

Reception to follow. Admission is free. All are welcome.
Free parking in Lot 16.
