Advice to Promotion and Tenure Committees concerning the Accommodation of Academic Staff Members (ASMs) with Disabilities

Employment accommodation is an ongoing process of adjusting or modifying the work environment or the method of doing work to address the individual need of employees who are protected from discrimination under the Human Rights Code. This advisory is directed towards Promotion and Tenure Committees in conducting their assessment of ASMs who are seeking accommodation of their disability and to Administrators in making their recommendations.

The overriding principles of accommodation include, but are not limited to:

- A. Individualization: designing accommodation to meet the specific circumstances of the employee
- B. Partnership: involving the person requiring the accommodation, administrators, unions and medical practitioners or other third parties with special expertise
- C. Consultation: involving those in the partnership in the development of the accommodation plan
- D. Inclusion: ensuring that the person to be accommodated is involved in the process and plan design
- E. Respect for confidentiality and dignity.

Any ASM requesting accommodation may “self identify” to their Administrative Head and the accommodation may become part of the assessment file. The accommodation is based on the individual circumstances of the ASM and the process is consultative involving the University, ASM, the faculty association, medical practitioners and other third parties with special expertise. Information shared during the consultation process shall be held in the strictest confidence.

The essential duties of faculty members include undergraduate and graduate teaching; research, scholarship, and creative and professional activities; and academic service, which may include the application of the faculty member’s academic or professional competence or expertise in the community at large.

Unspecified Date/General Information

The essential duties of librarians include professional practice in the University Library by providing professional consultation and assistance to library users and by maintaining and developing the library holdings and information systems on the basis of the needs of Academic Units and the financial resources allocated to the Library; academic service within the University, which may include working with other members of the University community to enhance the academic excellence of the University and the quality of academic life, and working in the community at large through the application of the librarian's academic or professional competence or expertise; and research, scholarship, teaching, creative and professional activities.

The accommodation process must take account of these essential duties having regard to arrangements where workload assignments vary from the normal pattern. Where appropriate the accommodation shall address the timing and expectations of the academic assessments that are required for the granting of tenure, promotion and career progress.

The Promotion and Tenure Committee has a responsibility to act in accordance with the overriding accommodation principles and to facilitate accommodation measures.

The agreement of the University and MUNFA is required if reasonable accommodation involves modification to the collective agreement.
