## **PART 4 – ENVIRONMENTAL HEALTH AND SAFETY REQUIREMENTS**

### **4. Environmental Health and Safety Requirements**

Maintaining a healthy and safe environment for all members of the campus community, as well as visitors, is a priority with the University. This involves commitment from all sectors of the campus community and extends to outside agencies having occasion to come on campus to conduct business.

The following requirements will apply to all work undertaken by contractors and service personnel on any University property or for any work undertaken on behalf of the Owner.

#### **4.1.0 Regulations, Codes and Standards**

Contractors shall be familiar with and abide by provisions of various safety codes and standards applicable to the work performed and should refer to *1.21.5 of General Conditions*:

1.21.5 The Contractor shall be completely responsible for the safety of the Work as it applies to protection of the public and property and construction of the Work.

The codes that must be followed and enforced for safety are:

- b) Canadian Code for Construction Safety (Latest Edition) as issued by the Associate Committee of the National Building Code.
- c) The Occupational Health and Safety Act of Newfoundland and Labrador (most current version) and Regulations.

In particular, strict adherence to the Provincial Occupational Health and Safety Act and Regulations and with the National Building Code of Canada, Part 8 is required

#### **4.2.0 General Health and Safety Regulations**

- e. Due consideration shall be given to fire safety in buildings. Flammable goods must be kept away from sources of ignition. No work involving the use of open flame devices must be undertaken around flammable solvents or gases.
- f. Some University buildings contain asbestos and other hazardous materials. Do not alter or disturb any goods believed to contain asbestos goods (unless this is a duly authorized part of the project). Consult with University officials before proceeding with any work.
- g. Safety Data Sheets shall be procured for any hazardous product used on campus. Such sheets shall be made readily available for consultation as required under the Workplace Hazardous Materials Information System (WHMIS).

**NOTE:** The above requirements are not to be considered all-inclusive and are considered complementary to the safety requirements outlined in the agreement between the University and Supplier. Certain conditions and circumstances may require adherence to additional safety requirements.

As a general requirement, contract/service personnel are expected to conduct all work on campus in a professional and safe manner and to give priority to the safety and welfare of members of the campus community.
