

This questionnaire is being distributed as part of a project conducted by several graduate students in the Folklore Department. We would like to know the kinds of music familiar to and popular with students at Memorial. The questionnaire isn't compulsory, but we would appreciate your co-operation. Please fill out as much of it as you can, including your name, class, age and home community. There aren't any right or wrong answers. It doesn't matter how few or how many performers you can identify. This is simply a rough survey. Feel free to add the names of other performers you like, dislike or think important. Space has been left at the end for this purpose. If you want to make any extended comments about this questionnaire, music, the peculiarities of graduate students, or life in general, turn the paper over and write on.
