COMMUNITY RESILIENCY NAVIGATING BOOM & BUST CYCLES

Resilient communities are better able to cope with the growing pains of boom times and adapt to changes during bust times. How resilient are Labrador City and Wabush compared to other mining towns? And what can be done now and into the future to ensure that when the mining slows the communities continue to thrive?

Join our expert panel to discuss community resilience in Labrador West:

Dr. John Thistle, Research Associate, Labrador Institute, Adjunct Professor, Geography, Memorial University

Karen Oldford, Mayor, Labrador City

Ron Barron, Mayor, Wabush

Monday, March 25, 2013, 7:00 PM (AST)
Labrador West Arts & Culture Centre, Labrador City

FREE admission, with a reception to follow.
This event will be webcast live.

For more information, or to watch the webcast live on March 25, visit:
