

# MEMORIAL PRESENTS

## *Offshore Oil and Gas: Is Newfoundland and Labrador Getting Its "Fair Share"?*

Participate in a discussion on offshore oil and gas benefits.

### CHALLENGE THE PANEL WITH YOUR OWN IDEAS.

- Who benefits the most from exploiting the oil and gas resources – the petroleum multi-nationals, local suppliers or the people of the province?
- How does our royalty regime compare with that of other oil-producing regions, such as the North Sea, the Gulf of Mexico and Alaska?
- Is "fallow-field" legislation a viable or appropriate option for Newfoundland and Labrador, given the current state of development of the industry?
- Just how strong is the province's bargaining position in the global oil and gas industry?

### PARTICIPATING AND PROVIDING THEIR VIEWS:

- **Dr. Wade Locke**, professor, Department of Economics at Memorial University. Dr. Locke is an expert on oil and gas economics in Newfoundland and Labrador
- **Ted Howell**, president and CEO of the Newfoundland Ocean Industries Association
- **Jim Keating**, vice-president of business development for Newfoundland and Labrador Hydro
- **Brian Maynard**, vice-president (stewardship, public affairs & Atlantic Canada) with the Canadian Association of Petroleum Producers

7:30 p.m.  
Wednesday, Nov. 15, 2006

Lecture Theatre 2001  
Inco Innovation Centre  
Memorial University

Free admission and  
free parking in Lot 18 (between the  
QE II Library and the Prince Philip Parkway)

Reception to follow

### HAVE YOUR SAY

Following the discussion by the panel, the public is encouraged to participate in a question-and-answer session.
