

What is **NATURE WORTH?**

LOOKING AT OUR NATURAL RESOURCES THROUGH NEW EYES

Participate in a discussion on Our Natural Resources

What happens when people don't value nature in the same way as we do? We get confrontations on the ice, boycotts of restaurants, protests at the Canadian Embassy. It's like we're talking two different languages.

The field of *environmental economics* gives us a new way to resolve these disputes. Come hear an interesting presentation on how this new approach can help Newfoundlanders and Labradorians deal with people who don't see nature the same way we do.

Featuring:

• **Dr. Murray Rudd**, assistant professor and Canada Research Chair in ecological economics at Sir Wilfred Grenfell College

• **Dr. Ratana Chuenpagdee**, Canada Research Chair in natural resource development and community sustainability at Memorial University in St. John's

• **Dan Chaisson**, Manager of Outdoor Product, Department of Tourism, Culture and Recreation, based in Corner Brook

• **Jim Taylor**, General Manager, Western Newfoundland Model Forest, based in Corner Brook

Monday, April 2, 2007 at 7:30 pm

**Room LC-301 – Library and Computing Building
Sir Wilfred Grenfell College, Corner Brook**
