

Research Proposal Preparation

Work with Supervisor to **prepare research proposal, identify defence date, and select examination committee**

Submit proposal to examination committee at least three weeks prior to defence date

Full-time Master's students must submit their research proposals by the end of their 2nd semesters.

Part-time Master's students must submit their research proposals by the end of their 4th semesters.

Research Proposal Defence

Give a **15-20 minute public presentation** on research proposal to faculty, staff, and community partners

Answer **audience questions**

Examination committee makes a **decision**

Supervisor provides **additional feedback and assistance** in next steps

All Master's students must have faculty and community approval before starting their research and applying for research grants.
