Honours Presentation Day

Department of Mathematics and Statistics
Monday, April 9
HH-3026

Please come join our honours students as they give talks based on their honours research. Each talk will be 20-30 minutes, followed by a short Q&A session. Faculty, staff, and graduate and undergraduate students are invited to attend.

9:30 Chris Dawe
Containing Fires on Infinite Grids

10:10 Mitch Sullivan
Null and Timelike Orbits Around Large Black Holes in Anti de Sitter spacetime

10:50 Kelly Clarke
The Watchman's Walk on Cartesian Products and Circulants

This will be followed at 11:30 by the presentation of awards from this semester's Undergraduate Mathematics Competition.
