Google Cloud for Startups Program

As a client of the Memorial Centre for Entrepreneurship (MCE) you receive various benefits. One such benefit includes credits with Google Cloud Platform. Please find a description of the benefit below.

Google Cloud Platform (GCP) is a suite of cloud computing services that provides a set of management tools as well as a series of modular cloud services including computing, data storage, data analytics and machine learning. One of GCP's programs is the Google Cloud for Startups Program.

We are pleased to announce that MCE is a Partner for Google Cloud for Startups Program, and we are happy to offer Google's startup package, which includes $3K in credits!

To redeem this offer, please apply here: cloud.google.com/startups.

*Acceptance into this program is at the discretion of Google Cloud.

Start Package

The Google Cloud for Startups Program is designed to help startups build and scale using Google Cloud.

Startup Support

The amount of credit and benefits Google provides will be sized to each startup, and different startups may get different amounts.

Once a startup is connected with Google Cloud, Google's team will work with them as they grow to ensure they have the resources they need to succeed.

In addition to credits, Google will also be offering startups go-to-market support, mentorship, events, and networking opportunities.

Eligibility

Startups applying must meet the following qualifications:
- Not currently enrolled in the Startup Program
- Located in a [Google Cloud territory](#)
- Has a publicly available company website and a unique company email domain. Generic email domains and stealth websites will not be accepted
- Has a valid Google Cloud Billing Account ID and your Billing Account Admin has an email domain that matches your company's unique domain
- Not an educational institution, government entity, nonprofit, personal blog, dev shop, consultancy, agency, bitcoin, or cryptomining company
- Not have been acquired or IPO'd
- You're considering a long-term partnership with Google Cloud to scale your business

Building Community

We know that startups are wired differently, and that success for you means getting scrappy and creative. Google Cloud has a strong presence at private and public events, exec dinners, workshops, hackathons, competitions, and more. If you are working on interesting ways to bring more value to the startup community, the Google Cloud for Startups team would be happy to help you.

Here to Help

Please contact cloudstartupsupport@google.com at any time with questions, suggestions, or details on joining the program.
