## FDN's 1

Assessing, diagnosing, and providing initial management for patients with common acute medical presentations in acute care settings

Indicate the resident's status for each of these criteria by putting a X on the corresponding scale.

Lots of Assistance                      Independent                      Expert

## FDN'S1

- I had to do  
 I had to talk them through  
 I needed to prompt  
 I needed to be there just in case  
 I didn't need to be there

## PROFESSIONAL AND PATIENT SAFETY:

- Do you have any concerns regarding this learner's professionalism?     No     Yes  
Do you have any concerns regarding patient safety?                       No     Yes

## FDN's 1

Assessing, diagnosing, and providing initial management for patients with common acute medical presentations in acute care settings

- ME 1.1 Demonstrate compassion for patients
- ME 1.3 Apply clinical and biomedical sciences to manage core patient presentations in Internal Medicine
- TD ME 1.4 Recognize urgent problems that may need the involvement of more experienced physicians and seek their assistance
- ME 1.4 Perform complete and appropriate assessments of patients with common acute medical presentations
- ME 2.1 Iteratively establish priorities as the patient's situation evolves
- ME 2.2 Generate differential diagnoses along with appropriate diagnostic strategies
- ME 2.2 Complete patient admission as appropriate
- ME 2.4 Develop and implement initial management plans for common internal medicine presentations
- ME 3.1 Describe to patients common procedures or therapies for common conditions in Internal Medicine
- ME 3.2 Obtain informed consent for commonly performed procedures and therapies
- ME 3.3 Consider urgency, and potential for deterioration, in advocating for the timely execution of a procedure or therapy
- ME 3.4 Seek assistance, as needed, when unanticipated findings or changing clinical circumstances are encountered
