

# BODYWORKS

This exhibit contains displays of real human bodies and body parts dissected by Dr. Shakti Chandra. All the specimens came from donated bodies and have been plastinated.

## WHY THIS TYPE OF DISPLAY?

- To educate you about your own body.
- To help you understand the importance of making healthier lifestyle choices.
- To help increase interest in health related fields.

## WHAT WILL I SEE?

- That which lies beneath the skin.
- Plastinated real human specimens.

## WHAT WILL I LEARN?

- Marvel at the complexity of the human body
- The effect of unhealthy activities like smoking or excessive alcohol consumption on human organs.
- Understand why wearing a helmet is important.

*"Here the dead teach the living. I am grateful to the body donors, who have made the ultimate gift. Please handle with care and respect."*  
Shakti

THE MOST  
AMAZING  
THING IN THE  
WHOLE  
WORLD IS THE  
HUMAN BODY
