	City:			End date:
	Country:			Duration:

* **A teaching hospital** is a hospital that provides clinical education and training to future and current doctors, nurses, and other health professionals, in addition to delivering medical care to patients. They are affiliated with medical schools or universities (hence the alternative term university hospital), and may be owned by a university or may form part of a wider regional or national health system.

** If the rotation has not yet been completed, indicate scheduled start and end dates.
