May 14-17 - Royal College OSCE Exam

June 21 - Scholarship Day

June 26 - Academic Half-day Exam

June 26 - Junior OSCE

Some notes from the Feb 22 Residency Program Committee Meeting.

- CARMS:** Many thanks are in order for all those who helped out with round 1 of CARMS this year. Thanks to everyone who helped out with file reviews and interviews. Thanks to the residents and staff who took part in the multiple information sessions leading up to the interviews. Thanks to the residents for organizing online and in-person socials for the candidates. And thanks to the members of the Selection Committee for their help in assembling our ranking of the candidates. There are many excellent candidates, so we hope to do well. Match Day is March 19 (with results released at 1:30 pm NL time).
- Implicit Bias Training:** As mentioned in the last RPC notes, it is important for all faculty and residents to complete implicit bias training and notify Jackie you have completed it. Thanks to all the faculty members who have already done this. If you have not yet had a chance to do so, please try to find time soon. This will be very helpful for accreditation. If you need the information about this resent, please let Dr. Latus know.
- Certification and Prescription Writing for Residents:** At this point, all residents should have completed the prescription writing courses required to write out-of-hospital prescriptions. Likewise, all PGY 2-5 residents should have gone through the process to be able to certify patients on 1 signature. If you have not yet been able to complete these requirements, please contact Dr. Latus ASAP. If you have submitted documentation to me and/or Jackie but not received a response, please let Dr. Latus know in case this was missed on our end. We will be reviewing the records for these requirements this week.
- Part 1 of the Royal College Exam on Feb 28:** Good luck to our PGY 4 & 5 residents on the first part of the Royal College Exam this Wednesday February 28.
