9th of October - petition of John Peyton, Jr. Has long carried on a salmon fishery near the Exploits River at the head of the bay, and a codfishery at the mouth of the said bay on an island called Exploits Burnt Island, and from this has obtained much information which he has given to the authorities about the Indians. My salmon fishery was previously carried on by my father, and before him by John Cozens, his uncle for an interrupted period for nearly 20 years. During all that time, there has never been any other fishery carried on there within seven leagues, but I have no grant of the fishery and I asked to be given it.
