

Dear Members:

MUNPA is suspending meetings of our focus and special interest groups and programming already scheduled until further notice.

We are doing so in order to comply with Memorial University and public health directives received and likely to follow.

We will resume normal programming when we receive word that it is safe to do so.

In keeping with MUN directives, our office will, for the time being, continue normal operations. We will advise you if this changes.

President's Messages usually go in bi-monthly editions of *Your Voice*. One will be there when the May 1st edition appears, but I felt that I should draft one to go with this announcement. Read it (attached) and you will see why.

Steve Wolinetz,
President
